1. Information for Prospective Investors

This prospectus ("Prospectus") is valid only if accompanied by the latest key investor information document ("Key Investor Information Document"), the latest annual report, and also the latest semi-annual report if this was published after the latest annual report. These documents shall be deemed to form part of this Prospectus. Prospective investors shall be provided with the latest version of the Key Investor Information Document in good time before their proposed subscription of shares in the Credit Suisse Index Fund (Lux) (the "Company"). This Prospectus does not constitute an offer or solicitation to subscribe shares ("Shares") in the Company by anyone in any jurisdiction in which such offer or solicitation is not lawful or in which the person making such offer or solicitation is not qualified to do so or to anyone to whom it is unlawful to make such offer or solicitation. Information which is not contained in this Prospectus, or in the documents mentioned herein which are available for inspection by the public, shall be deemed unauthorized and cannot be relied upon.

Prospective investors should inform themselves as to the possible tax consequences, the legal requirements and any foreign exchange restrictions or exchange control requirements which they might encounter under the laws of the countries of their citizenship, residence or domicile and which might be relevant to the subscription, holding, conversion, redemption or disposal of Shares. Further tax considerations are set out in Chapter 9, "Expenses and Taxes".

Prospective investors who are in any doubt about the contents of this Prospectus should consult their bank, broker, solicitor, accountant or other independent financial adviser.

This Prospectus may be translated into other languages. To the extent that there is any inconsistency between the English-language Prospectus and a version in another language, the English-language Prospectus shall prevail, unless stipulated otherwise by the laws of any jurisdiction in which the Shares are sold.

Investors should read and consider the risk discussion in Chapter 7, "Risk Factors", before investing in the Company.

Some of the Share Classes may be listed on the Luxembourg Stock Exchange.

The Company's Shares have not been, and will not be, registered under the United States Securities Act of 1933 (the "1933 Act"), as amended, or the securities laws of any of the states of the United States of America. Therefore, the Shares of the Subfunds described in this Prospectus may not be offered or sold directly or indirectly in the United States of America, except pursuant to an exemption from the registration requirements of the 1933 Act. The Shares may not be directly or indirectly offered or sold to or for the benefit of a "U.S. person" as described in Chapter 5, "Investment in Credit Suisse Index Fund (Lux)", section viii. "Prohibited Persons, Compulsory Redemption and Transfer of Shares" of the Prospectus. No application has been submitted or will be submitted, nor any registration has been or will be sought, by the Company or the Management Company to or from any of the Indian governmental or regulatory authorities in connection with the advertising, offer, distribution or sale of the Shares in or from India and neither the Company nor the Management Company intends to or will, directly or indirectly, advertise, offer, distribute or sell the Shares to persons resident in India. Subject to certain limited exceptions, the Shares may not be purchased by persons resident in India and purchase of the Shares by such persons are subject to legal and regulatory restrictions. Persons into whose possession this Prospectus or any Shares may come must inform themselves about, and observe, any such restrictions. The Management Company (as described below) will not disclose any confidential information concerning investors unless it is required to do so by applicable laws or regulations.

Specific provisions may apply with respect to each Subfund, as set out in Chapter 23, "Subfunds".

- (1) This Summary of Share Classes should not be relied upon as a substitute for reading the Prospectus.
- (2) CG = capital growth/D = distribution.
- (3) Class "QA", "QAH", "QB" and "QBH" Shares may only be acquired by institutional investors according to Article 174 (2) c) of the Law of 17 December 2010.
- (4) Class "DA", "DAH", "DB" and "DBH" Shares may only be acquired by those investors who have concluded a discretionary asset management agreement as defined by the Management Company, with a subsidiary of Credit Suisse Group AG. Moreover, subject to the prior consent of the Management Company, Class "DA", "DAH", "DB" and "DBH" Shares may also be acquired by institutional investors who have concluded an advisory agreement or any similar agreement, as defined by the Management Company, with a subsidiary of Credit Suisse Group AG.
- (5) Class "A" and "B", Shares are subject to a management fee payable by the Company to the Management Company covering the distribution fee and the charges in relation to the provision of investment management.
Class "QA", "QAH", "QB", "QBH", "FA", "FB", "FAH" and "FBH" Shares are subject to a management fee payable by the Company to the Management Company covering the charges in relation to the provision of investment management.
The management fee actually payable will be disclosed in the respective annual or semi-annual report.
- (6) Class "DA", "DAH", "DB" and "DBH" Shares are subject to a management service fee, payable by the Company to the Management Company covering all fees and expenses. An investment management and distribution fee will be charged directly to the investor, according to the agreement entered into between the investor and an entity of Credit Suisse Group.
Class "A", "B", "QA", "QAH", "QB", "QBH", "FA", "FB", "FAH" and "FBH" Shares are subject to a management service fee, in addition to a management fee, payable by the Company to the Management Company covering all fees and expenses not covered by the management fee.
The management service fee actually payable will be disclosed in the respective annual or semi-annual report.
- (7) The Company may decide on the issue of Class "DAH", "DBH", "QAH", "QBH", "FAH" and "FBH" Shares in any additional freely convertible currencies as well as on their initial offering price at any time. Shareholders have to check with the agents mentioned in Chapter 14, "Information to Shareholders", if Shares of Class "DAH", "DBH", "QAH", "QBH", "FAH" or "FBH" have been issued in additional currencies in the meantime before submitting a purchase application.
With Share Class "DAH", "DBH", "QAH", "QBH", "FAH" and "FBH" the risk exposure in terms of investment currencies is hedged against the respective currency, as specified in Chapter 2, "Summary of Share Classes" to the greatest possible extent and in accordance with the benchmark index rules. This can result in over- or under-hedging of currencies in terms of the benchmark index rules between the hedge adjustment dates. Where Shares are subscribed, the subscription amount is hedged according to the current hedging level of the Share Class so that any over- or under-hedging remains the same for the whole Share Class. The hedging level for the Share Class is regularly adjusted according to the

benchmark index rules. Where Shares are redeemed, the hedge is removed proportionately so that the over- or under-hedging of the remaining assets is retained until the next hedge adjustment.

The net asset value of the Shares of this Alternate Currency Class does not develop in the same way as that of the Share Classes issued in the Reference Currency of the Subfund.

- (8) The Company does not intend to enter into forward currency contracts to hedge the risk exposure in terms of investment currencies relating to these Alternate Currency Classes. These Classes may be issued in any additional freely convertible currencies as well as on their initial offering price at any time.
- (9) The issuing charges are allocated to the relevant Subfund on the issue of Shares in this Subfund. This contribution to costs covers the standard brokerage, exchange fees and taxes incurred by the Subfund in connection with the purchase of investments. Further details may be obtained in Chapter 5.ii) "Investment in Credit Suisse Index Fund (Lux), Subscription of Shares".
- (10) The redemption charges are allocated to the relevant Subfund on the redemption of Shares in this Subfund. This contribution to costs covers the standard brokerage, exchange fees and taxes incurred by the Subfund in connection with the corresponding sale of investments. Further details may be obtained in Chapter 5.iii) "Investment in Credit Suisse Index Fund (Lux), Redemption of Shares".
- (11) Class "FA", "FAH", "FB" and "FBH" Shares are inducement free.

3. The Company

The Company is an undertaking for collective investment in transferable securities in the legal form of an investment company with variable capital (société d'investissement à capital variable, SICAV) subject to Part I of the Law of 17 December 2010 on undertakings for collective investment ("Law of 17 December 2010") transposing Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009 on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities. The Company was established on 14 March 2012.

The Company has appointed Credit Suisse Fund Management S.A. as the Management Company ("Management Company"). In this capacity, the Management Company acts as investment manager, administrator and distributor of the Company's Shares. The Management Company has delegated the above-mentioned tasks as follows:

Tasks relating to investment advice are performed by the investment Managers ("Investment Managers") named in Chapter 23, "Subfunds" and administrative tasks are performed by Credit Suisse Fund Services (Luxembourg) S.A..

The Company is registered with the Luxembourg Trade and Companies Register (registre de commerce et des sociétés) under number B 167524. Its articles of incorporation ("Articles of Incorporation") were first published in the Mémorial, Recueil des Sociétés et Associations on 23 March 2012. The legally binding version is deposited with the Luxembourg Trade and Companies Register. All amendments of the Articles of Incorporation will be announced in accordance with Chapter 14, "Information for Shareholders", and become legally binding for all shareholders ("Shareholders") subsequent to their approval by the General Meeting of Shareholders. Whereas the initial capital of the Company amounts to EUR 50,000, it will subsequently correspond to the total net asset value of the Company. The minimum capital of the Company amounts to EUR 1,250,000; this sum must be reached within six months of the date on which the Company is authorized.

The Company has an umbrella structure and therefore consists of at least one Subfund (each referred to as a "Subfund"). Each Subfund represents a portfolio containing different assets and liabilities and is considered to be a separate entity in relation to the Shareholders and third parties. The rights of Shareholders and creditors concerning a Subfund or which have arisen in relation to the establishment, operation or liquidation of a Subfund are limited to the assets of that Subfund. No Subfund will be liable with its assets for the liabilities of another Subfund.

The board of directors of the Company ("Board of Directors") may at any time establish new Subfunds with Shares having similar characteristics to the Shares in the existing Subfunds. The Board of Directors may at any time create and issue new classes ("Classes") or types of Shares within any Subfund. If the Board of Directors establishes a new Subfund and/or creates a new Class or type of Share, the corresponding details shall be set out in this Prospectus. A new Class or type of Share may have different characteristics than the currently existing Classes. The terms of any offering of new Shares shall be set out in Chapter 2, "Summary of Share Classes" and Chapter 23, "Subfunds".

The characteristics of each possible Share Class are further described in this Prospectus, in particular in Chapter 5, "Investment in Credit Suisse Index Fund (Lux)", and in Chapter 2, "Summary of Share Classes".

The individual Subfunds shall be denominated as indicated in Chapter 2, "Summary of Share Classes" and Chapter 23, "Subfunds".

Information about the performance of the individual Share Classes of the Subfunds is contained in the Key Investor Information Document.

4. Investment Policy

The primary objective of the Company is to provide investors with an opportunity to invest in professionally managed portfolios. The assets of the Subfunds shall be invested, in accordance with the principle of risk diversification, in transferable securities and other assets as specified in Article 41 of the Law of 17 December 2010.

The investment objective and policy of the individual Subfunds are described in Chapter 23, "Subfunds". The assets of the individual Subfunds will be invested in accordance with the investment restrictions as stipulated by the Law of 17 December 2010 and set out in this Prospectus in Chapter 6, "Investment Restrictions".

The investment objective for each Subfund is principally to achieve an appropriate return in the particular Subfund's accounting currency by investing in the instruments listed below. Where the investment policy of

the Subfunds consists in tracking the performance of a benchmark index, the Subfunds may also invest in a representative selection of securities of the respective benchmark using the 'optimized sampling-method' rather than investing in all securities represented in the respective benchmark index.

The Subfunds may also invest in securities that are not part of the benchmark index but that contribute to delivering the investment objective.

The 'optimized sampling-method' consists of a mathematical optimization procedure: a different model is used for each asset class and region.

Each mathematical optimization procedure, starting from the benchmark universe, considers a series of parameters (e.g. country distribution, currency distribution, duration buckets, rating distribution) and constraints (e.g. liquidity of the securities contained in the benchmark, minimum trade size, target ex-ante tracking error), to produce a selection of securities that composes a portfolio with the lowest risk of divergence from the benchmark index itself.

The Subfunds will be passively managed. Passively managed investment funds follow a pre-determined investment strategy with the intention to track the underlying reference index and to mirror its performance.

Physical replication

Generally the Subfunds are physically replicated. To a minor degree the Subfunds may at the same time use derivatives to achieve their aims. Exposure to the index through physical replication may be affected by rebalancing costs, in particular where the index undergoes significant rebalancing or where constituents are not very liquid or have restrictions in terms of accessibility. Rebalancing costs are a factor of the rebalancing frequency of the underlying index, the constituents' weighting adjustments and/or the number of constituents being replaced on each rebalancing day, and the transaction costs incurred to implement such changes. High rebalancing costs will generally deteriorate the relative performance between the Sub-fund and the index. Exposure to the index may also be affected by other factors.

Due account shall be taken of the principle of risk diversification, security of the capital invested and liquidity of the assets. In order to achieve this, the Company shall assume a fair and reasonable degree of risk. However, in consideration of market fluctuations and other risks (see Chapter 7, "Risk Factors") there can be no guarantee that the investment objective of the relevant Subfunds will be achieved. The value of investments may go down as well as up and investors may not recover the value of their initial investment.

Anticipated Tracking Error

The anticipated tracking error is an estimation of the potential ex-post tracking error, based on the expected volatility of differences between the returns of the relevant Subfund and the returns of its benchmark index. For a physically replicating Subfund, the primary driver of anticipated tracking error is the difference between a Subfund's holdings and index constituents.

The tracking difference measures the actual difference between the returns of a Subfund and the returns of the benchmark index (i.e. how closely a Subfund tracks its index), while ex post tracking error measures the increase and decrease in tracking difference (i.e. volatility of tracking difference). Investors should consider both the tracking difference and the ex-post tracking error when evaluating the track record of an index-tracking Subfund.

The anticipated level of tracking error of each Subfund is further specified in Chapter 23, "Subfunds".

Cash management, trading costs from rebalancing and securities lending activities have an impact on tracking difference and ex-post tracking error. Depending on the underlying circumstances, the impact can be either positive or negative.

Furthermore, withholding tax may affect the tracking error as well. To which extent the tracking error is influenced by withholding tax depends on several factors such as any reclaims filed with tax authorities, any benefits obtained under a tax treaty.

Reference Currency

The reference currency is the currency in which the performance and the net asset value of the Subfunds are calculated ("Reference Currency"). The Reference Currencies of the individual Subfunds are specified in Chapter 2, "Summary of Share Classes".

Liquid Assets

The Subfunds may hold ancillary liquid assets in the form of sight and time deposits with first-class financial institutions and money market instruments which do not qualify as transferable securities and have a term to maturity not exceeding 12 months, in any convertible currency.

Moreover, each Subfund may, on an ancillary basis, hold units/shares in undertakings for collective investment in transferable securities which are subject to Directive 2009/65/EC and which in turn invest in short-term time deposits and money market instruments and whose returns are comparable with those for direct investments in time deposits and money market instruments. These investments, together with any investments in other undertakings for collective investment in transferable securities and/or other undertakings for collective investment, must not exceed 10% of the total net assets of a Subfund.

Securities Lending

Subject to the investment restrictions set out below, a Subfund may from time to time enter into securities lending transactions.

In the context of securities lending revenues, the income generated by the transactions is credited to the participating Subfunds except for the direct and indirect costs as well as any liability linked to the transactions which are credited to the principal. The legal entity acting as securities lending principal on behalf of the Subfunds is Credit Suisse AG, Zurich.

The Management Company does not receive any of the securities lending revenue.

The Subfunds will ensure that the volume of the securities lending transactions is kept at an appropriate level or that it is entitled to request the return of the securities lent in a manner that enables it, at all times, to meet its redemption obligations. The counterparties to efficient portfolio management techniques should be subject to prudential supervision rules considered by the CSSF as equivalent to those prescribed by EU Community law.

The risk exposure to the counterparty arising from securities lending transactions and OTC financial derivative instruments should be combined when calculating the counterparty risk limits foreseen under Chapter 6.4) a) "Investment Restrictions".

The counterparty risk may be disregarded provided that the value of the collateral valued at market price, taking into account appropriate haircuts, exceeds the value of the amount exposed to risk.

The Subfunds will not receive cash collateral.

The Subfunds will ensure that its counterparty delivers collateral in the form of securities compliant with the applicable Luxembourg regulations and in line with the requirements foreseen under "Collateral Policy" foreseen in Chapter 19, "Regulatory Disclosure".

Appropriate haircuts on the collateral value are applied in accordance with the Risk Management Process of the Management Company.

5. Investment in Credit Suisse Index Fund (Lux)

i. General Information on the Shares

Each Subfund may issue Shares of Classes "A", "B", "DA", "DB", "DAH", "DBH", "QA", "QB", "QAH", "QBH", "FA", "FB", "FAH" and "FBH". The Share Classes which are issued within each Subfund, together with the related fees and sales charges as well as the reference currency are set out in Chapter 2, "Summary of Share Classes". The fees set out in Chapter 2, "Summary of Share Classes" are further described in Chapter 9, "Expenses and Taxes".

All Share Classes are only available in uncertificated form and will exist exclusively as book entries.

The Shares which make up each such Share Class will either be capital-growth Shares or distribution Shares.

Capital-growth Shares

Classes "B", "DB", "DBH", "QB", "QBH", "FB" and "FBH" Shares are capital-growth Shares. Details of the characteristics of capital growth Shares are included in Chapter 11, "Appropriation of Net Income and Capital Gains".

Distribution Shares

Classes "A", "DA", "DAH", "QA", "QAH", "FA" and "FAH" Shares are distributing Shares. Details of the characteristics of distribution Shares are included in Chapter 11, "Appropriation of Net Income and Capital Gains".

Share Classes dedicated to a specific type of Investors

Class "DA", "DB", "DAH" and "DBH" Shares may only be acquired by investors who have concluded a discretionary asset management agreement, as defined by the Management Company, with a subsidiary of Credit Suisse Group AG. Furthermore, subject to the prior consent of the Company, Class "DA", "DB", "DAH" and "DBH" Shares may also be acquired by institutional investors (according to Article 174 (2) c) of the Law of 17 December 2010) who have concluded an advisory agreement or any similar agreement, as defined by the Management Company, with a subsidiary of Credit Suisse Group AG.

Where such a discretionary asset management agreement, advisory agreement or any similar agreement, as defined by the Management Company, has been terminated, Class "DA", "DB", "DAH" and "DBH" Shares held by the investor at that time shall be either compulsorily redeemed or, according to the request of the investor, converted into another Share Class. Although the Shares are required to be negotiable and transferable on the Luxembourg Stock Exchange upon their admission to trading thereon (and trades registered thereon are not able to be cancelled by the Company) the eligibility requirements set forth above will nevertheless apply to any party to which Shares are transferred on the Luxembourg Stock Exchange.

The holding at any time of any Shares by a party which does not satisfy the eligibility requirements may result in the compulsory redemption of such Shares by the Company.

Class "QA", "QB", "QAH" and "QBH" Shares may only be acquired by institutional investors according to Article 174 (2) c) of the Law of 17 December 2010.

Class "FA", "FAH", "FB" and "FBH" Shares are inducement free.

Hedged Share Classes

Depending on the Subfund, Class "DAH", "DBH", "QAH", "QBH", "FAH" and "FBH" Shares are issued in one or more alternate currencies, as set out in Chapter 2, "Summary of Share Classes". With Share Class "DAH", "DBH", "QAH", "QBH", "FAH" and "FBH" the risk exposure in terms of investment currencies is hedged against the respective currency, as specified in Chapter 2, "Summary of Share Classes" to the greatest possible extent and in accordance with the benchmark index rules. This can result in over- or under-hedging of currencies in terms of the benchmark index rules between the hedge adjustment dates. Where Shares are subscribed, the subscription amount is hedged according to the current hedging level of the Share Class so that any over- or under-hedging remains the same for the whole Share Class. The hedging level for the Share Class is regularly adjusted according to the benchmark index rules. Where Shares are redeemed, the hedge is removed proportionately so that the over- or under-hedging of the remaining assets is retained until the next hedge adjustment. However, no assurance can be given that the hedging objective will be achieved.

Class "DAH", "DBH", "QAH", "QBH", "FAH" and "FBH" Shares are subject to the fees as set out in Chapter 2 "Summary of Share Classes". The Net Asset Value of the Shares of this Alternate Currency Class does not develop in the same way as that of the Share Classes issued in the Reference Currency.

Issue Price

Unless otherwise determined by the Company, the initial issue price of Share Classes "A", "B", "FA", "FB", "FAH" and "FBH" amounts to EUR 100, CHF 100, USD 100, SEK 1,000, and/or JPY 10,000, and of Share Classes "DA", "DB", "DAH", "DBH", "QA", "QB", "QAH" and "QBH" to EUR 1,000, CHF 1,000, USD 1,000, GBP 1,000, CAD 1,000, SEK 10,000, and/or JPY 100,000, depending on the currency denomination of the Share Class in the respective Subfund and its characteristics.

After the initial offering, Shares may be subscribed at the applicable net asset value ("Net Asset Value").

The Company may, at any time, decide on the issue of Share Classes in any additional freely convertible currencies at an initial issue price to be determined by the Company.

Share Classes shall be denominated in the currency as specified in Chapter 2, "Summary of Share Classes".

Investors may, at the discretion of the Central Administration, pay the subscription monies for Shares in a convertible currency other than the currency in which the relevant Share Class is denominated. As soon as the receipt is determined by the Depositary, such subscription monies shall be automatically converted by the Depositary into the currency in which the

relevant Shares are denominated. Further details are set out in Chapter 5 ii., "Subscription of Shares".

The Company may at any time issue, within a Subfund, one or more Share Classes denominated in a currency other than the Subfund's Reference Currency ("Alternate Currency Class"). The issue of each further or Alternate Currency Class is specified in Chapter 2, "Summary of Share Classes". The Company may enter into forward currency contracts for, and at the expense of, this Alternate Currency Class in order to minimize the effect of price fluctuations in this alternate currency. However, no assurance can be given that the hedging objective would be achieved.

The Net Asset Value of the Shares of these Alternate Currency Classes does not develop in the same way as that of the Share Classes issued in the Reference Currency.

In the case of Subfunds with Alternate Currency Classes, the currency hedging transactions will be executed and adjusted at the best possible terms and in accordance with the rules of the benchmark index such that there is neither over- nor underinvestment compared with the benchmark index. The currency hedging transactions for one Share Class may, in exceptional cases, adversely affect the Net Asset Value of the other Share Classes.

Shares may be held through collective depositories. In such cases, Shareholders shall receive a confirmation in relation to their Shares from the depository of their choice (for example, their bank or broker), or Shares may be held by Shareholders directly in a registered account kept for the Company and its Shareholders by the Company's Central Administration. These Shareholders will be registered by the Central Administration. Shares held by a depository may be transferred to an account of the Shareholder with the Central Administration or to an account with other depositories approved by the Company or, except for Share Classes "QA", "QB", "QAH" and "QBH", with an institution participating in the securities and fund clearing systems. Conversely, Shares held in a Shareholder's account kept by the Central Administration may at any time be transferred to an account with a depository.

The Company may divide or merge the Shares in the interest of the Shareholders.

ii. Subscription of Shares

Shares may be subscribed on any day on which banks are normally open for business in Luxembourg ("Dealing Day"), as further described in Chapter 23, "Subfunds" (except on 24 December and 31 December where the Subfunds are closed for new subscription applications), at the Net Asset Value per Share of the relevant Share Class of the Subfund, which is calculated on the date that is defined as valuation day ("Valuation Day") (as defined in Chapter 8, "Net Asset Value") according to the method described in Chapter 8, "Net Asset Value", plus the applicable initial sales charge and the issuing charges (as defined in Chapter 2, "Credit Suisse Index Fund (Lux) – Summary of Share Classes") whereby the latter is credited to the Subfund. This contribution to costs covers the standard brokerage, exchange fees and taxes incurred by the Subfund in connection with the purchase of investments. If – as in the case of contributions in kind – the Subfund does not incur any costs for the purchase of investments, the Management Company may waive the issuing charges. The board of directors of the Management Company shall be authorized to raise the amount of the issuing charges only when exceptional circumstances or events arise and investors must be aware that the maximum amount may be exceeded in such exceptional circumstances or events, subject to a decision of the board of directors of the Management Company. The applicable maximum sales charge levied in connection with the Shares of the Company are indicated in Chapter 2, "Summary of Share Classes".

Applications must be submitted in written form to the Central Administration or a distributor authorized by the Company to accept applications for the subscription or redemption of Shares ("Distributor") before the cut-off time as specified for the relevant Subfund in Chapter 23, "Subfunds".

The subscription applications shall be settled as defined in Chapter 23, "Subfunds", for the relevant Subfund. Subscription applications received after the cut-off time shall be deemed to have been received prior to the cut-off time on the following Dealing Day.

Payment must be received within the time period specified for the relevant Subfund in Chapter 23, "The Subfunds".

Charges to be paid due to the subscription of Shares shall accrue to the banks and other financial institutions engaged in the distribution of the

Shares. Any taxes incurred on the issue of Shares shall also be charged to the investor. Subscription amounts shall be paid in the currency in which the relevant Shares are denominated or, if requested by the investor and at the sole discretion of the Central Administration, in another convertible currency. Payment shall be effected by bank transfer to the Company's bank accounts. Further details are set out in the subscription application form.

The Company may in the interest of the Shareholders accept transferable securities and other assets permitted by Part I of the Law of 17 December 2010 as payment for subscription ("contribution in kind"), provided the offered transferable securities and assets correspond to the investment policy and restrictions of the relevant Subfund. Each payment of Shares in return for a contribution in kind is part of a valuation report issued by the auditor of the Company. The Board of Directors may at its sole discretion, reject all or several offered transferable securities and assets without giving reasons. All costs caused by such contribution in kind (including the costs for the valuation report, broker fees, expenses, commissions, etc.) shall be borne by the investor.

The Shares shall be issued by the Company upon receipt of the issue price with the correct value date by the depository ("Depository"). Notwithstanding the above, the Company may, at its own discretion, decide that the subscription application will only be accepted once these monies are received by the Depository.

If the payment is made in a currency other than the one in which the relevant Shares are denominated, the proceeds of conversion from the currency of payment to the currency of denomination less fees and exchange commission shall be allocated to the purchase of Shares.

If applicable, the minimum value or number of Shares which must be held by a Shareholder in a particular Share Class is set out in Chapter 2, "Summary of Share Classes". Such minimum initial investment and holding requirement may be waived in any particular case at the sole discretion of the Company.

Subscriptions and redemptions of fractions of Shares shall be permitted up to three decimal places. Fractional Shares shall not be entitled to voting rights. A holding of fractional Shares shall entitle the Shareholder to proportional rights in relation to such Shares. It might occur that clearing institutions will be unable to process holdings of fractional Shares. Investors should verify whether this is the case.

The Company, the Management Company and the Central Administration are entitled to refuse any subscription application in whole or in part for any reason, and may in particular prohibit or limit the sale of Shares to individuals or corporate bodies in certain countries or regions if such sales might be detrimental to the Company or if a subscription in the country concerned is in contravention of applicable laws. Moreover, where new investments would adversely affect the achievement of the investment objective, the Management Company may decide to suspend the issue of Shares on a permanent or temporary basis.

iii. Redemption of Shares

The Company shall in principle redeem Shares on any day on which banks are normally open for business in Luxembourg ("Dealing Day"), as further described in Chapter 23, "Subfunds" (except on 24 December and 31 December where the Subfunds are closed for new redemption applications), at the Net Asset Value per Share of the relevant Share Class of the Subfund, which is calculated on the date which is defined as valuation day ("Valuation Day") (as defined in Chapter 8, "Net Asset Value") according to the method described in Chapter 8, "Net Asset Value", less applicable redemption charges (as defined in Chapter 2, "Credit Suisse Index Fund (Lux) – Summary of Share Classes") whereby the latter is credited to the Subfund. The contribution to costs covers the standard brokerage, exchange fees and taxes incurred by the Subfund in connection with the corresponding sale of investments. If – as in the case of redemptions in kind – the Subfund does not incur any costs on the sale of investments, the Management Company may waive the redemption charges. The board of directors of the Management Company shall be authorized to raise the amount of the redemption charges only when exceptional circumstances or events arise and investors must be aware that the maximum amount may be exceeded in such exceptional circumstances or events, subject to a decision of the board of directors of the Management Company.

Redemption applications must be submitted to the Central Administration or Distributor. Redemption applications for Shares held through a depository must be submitted to the depository concerned. The

redemption applications must be received by the Central Administration or the Distributor before the cut-off time as specified for the relevant Subfund in Chapter 23 "Subfunds". Redemption applications received after the cut-off time shall be dealt with on the following Dealing Day.

If the execution of a redemption application would result in the investor's holding in a particular Share Class falling below the minimum holding requirement for that Class as set out in Chapter 2, "Summary of Share Classes", the Company may, without further notice to the Shareholder, treat such redemption application as though it were an application for the redemption of all Shares of the Class held by the Shareholder.

Class "DA", "DB", "DAH" and "DBH" Shares, which may only be purchased by investors who have signed a discretionary asset management agreement, advisory agreement or any similar agreement, as defined by the Management Company, with a subsidiary of Credit Suisse Group AG may either be compulsorily redeemed or, according to the request of investor, converted into another Share Class if the corresponding discretionary asset management agreement, advisory agreement or any similar agreement, as defined by the Management Company, has been terminated.

Whether and to what extent the redemption price is lower or higher than the issue price paid depends on the development of the Net Asset Value of the relevant Share Class.

Payment of the redemption price of the Shares shall be made within the time period specified for the relevant Subfund in Chapter 23, "Subfunds". This does not apply where specific statutory provisions such as foreign exchange or other transfer restrictions or other circumstances beyond the Depository's control make it impossible to transfer the redemption price.

In the case of large redemption applications, the Company may decide to settle redemption applications once it has sold corresponding assets without undue delay. Where such a measure is necessary and if not otherwise specified in Chapter 23, "Subfunds", all redemption applications received on the same day shall be settled at the same price.

Payment shall be made by means of remittance to a bank account or, if possible, by cash in the currency that is legal tender in the country where payment is to be made, after conversion of the amount in question. If, at the sole discretion of the Depository, payment is to be made in a currency other than that the one in which the relevant Shares are denominated, the amount to be paid shall be the proceeds of conversion from the currency of denomination to the currency of payment less all fees and exchange commission.

Upon payment of the redemption price, the corresponding Share shall cease to be valid.

The Company is entitled to compulsorily redeem all Shares held by a Prohibited Person, as set out below.

iv. Conversion of Shares

Unless otherwise specified in Chapter 23, "Subfunds", Shareholders in a particular Share Class of a Subfund may at any time convert all or part of their Shares into Shares of the same Class of another Subfund or into Shares of another Class of the same or another Subfund, provided that the requirements for the Share Class into which such Shares are converted (see Chapter 2, "Summary of Share Classes") are complied with. The fee charged for such conversions shall not exceed half the initial sales charge of the Class into which the Shares are converted. Conversion applications must be completed and submitted to the Central Administration or the Distributor before the cut-off time as specified for the relevant Subfund in Chapter 23 "Subfunds" on a Banking Day (except on 24 December and 31 December where the Subfunds are closed for new conversion applications). Conversion applications received after the cut-off time shall be dealt with on the following Banking Day. Conversion shall take place on the basis of the applicable Net Asset Value per Share calculated on the date which is defined as valuation day ("Valuation Day") (as defined in Chapter 8, "Net Asset Value") according to the method described in Chapter 8, "Net Asset Value". Conversions of Shares will only be made on a Valuation Day, if the Net Asset Value in both relevant Share Classes is calculated.

Where processing an application for the conversion of Shares would result in the relevant Shareholder's holding in a particular Share Class falling below the minimum holding requirement for that Class set out in Chapter 2, "Summary of Share Classes", the Company may, without further notice to the Shareholder, treat such conversion application as though it were an application for the conversion of all Shares held by the Shareholder in that Share Class.

Where Shares of one Subfund are converted into Shares of another Subfund, a contribution to costs is payable both for the redemption of the Shares of the former Subfund (redemption charges) and for the issue of the Shares in the latter Subfund (issuing charges). These amounts are used to cover the costs incurred by the conversion transaction and by the related purchase and sale of investments.

In the event of a conversion of Shares of one Class of a Subfund into Shares of another Class of the same Subfund, the Management Company shall waive the charges normally imposed by the Subfund on the redemption or subscription of Shares.

Where Shares denominated in one currency are converted into Shares denominated in another currency, the foreign exchange and conversion fees incurred will be taken into consideration and deducted.

v. Suspension of the Subscription, Redemption and Conversion of Shares and the Calculation of the Net Asset Value

The Company may suspend the calculation of the Net Asset Value and/or the issue, redemption and conversion of Shares of a Subfund where a substantial proportion of the assets of the Subfund:

- a) cannot be valued, because a stock exchange or market is closed on a day other than a usual public holiday, or when trading on such stock exchange or market is restricted or suspended; or
- b) is not freely disposable because a political, economic, military, monetary or any other event beyond the control of the Company does not permit the disposal of the Subfund's assets, or such disposal would be detrimental to the interests of Shareholders; or
- c) cannot be valued because disruption to the communications network or any other factor makes a valuation impossible; or
- d) is not available for transactions because restrictions on foreign exchange or other types of restrictions make asset transfers impracticable or it can be objectively demonstrated that transactions cannot be effected at normal foreign exchange rates; or
- e) when the prices of a substantial portion of the constituents of the underlying asset or the price of the underlying asset itself of an OTC transaction and/or when the applicable techniques used to create an exposure to such underlying asset cannot promptly or accurately be ascertained; or
- f) where the existence of any state of affairs which, in the opinion of the Board of Directors, constitutes an emergency or renders impracticable a disposal of a substantial portion of the assets attributable to a Subfund and/or a disposal of a substantial portion of the constituents of the underlying asset of an OTC transaction.

Investors applying for, or who have already applied for, the subscription, redemption or conversion of Shares in the respective Subfund shall be notified of the suspension without delay. Notice of the suspension shall be published as described in Chapter 14, "Information for Shareholders" if, in the opinion of the Board of Directors of the Company, the suspension is likely to last for longer than one week.

Suspension of the calculation of the net asset value of one Subfund shall not affect the calculation of the net asset value of the other Subfunds if none of the above conditions apply to such other Subfunds.

vi. Measures to Combat Money Laundering

The Distributors are obliged by the Company to ensure compliance with all current and future statutory or professional regulations applicable in Luxembourg aimed at combating money laundering and terrorist financing. These regulations stipulate that the Distributors are under the obligation, prior to submitting any application form to the Central Administration, to verify the identity of the purchaser and beneficial owner as follows:

- a) Where the subscriber is an individual, a copy of the passport or identity card of the subscriber (and the beneficial owner/s of the Shares where the subscriber is acting on behalf of another individual), which has been properly verified by a suitably qualified official of the country in which such individual is domiciled;
- b) Where the subscriber is a company, a certified copy of the company's registration documentation (e.g. articles of association or incorporation) and an excerpt from the relevant commercial register. The company's representatives and (where the shares issued by a company are not sufficiently broadly distributed among the general public) shareholders must then observe the disclosure requirements given in point a) above.

The Central Administration of the Company is however entitled at its own discretion to request, at any time, further identification documentation

related to a subscription application or to refuse to accept subscription applications upon the submission of all documentary evidence.

The Distributors shall ensure that their sales offices adhere to the aforementioned verification procedure at all times. The Central Administration and the Company shall at all times be entitled to request evidence of compliance from the Distributor. Furthermore, the Distributors accept that they are subject to, and must properly enforce, the national regulations aimed at combating money laundering and terrorist financing.

The Central Administration is responsible for observing the aforementioned verification procedure in the event of purchase applications submitted by Distributors which are not operators in the financial sector or which are operators in the financial sector but are not subject to an identity verification requirement equivalent to that existing under Luxembourg law. Permitted financial sector operators from Member States of the EU, EEA and/or FATF (Financial Action Task Force on Money Laundering) are generally deemed to be subject to an identity verification requirement equivalent to that existing under Luxembourg law. The same applies to their branches and subsidiary companies in countries other than those mentioned above, provided the financial sector operator is obliged to monitor compliance with the identity verification requirement on the part of its branches and subsidiary companies.

vii. Market Timing

The Company does not permit practices related to "Market Timing" (i.e. a method through which an investor systematically subscribes and redeems or converts Shares of Classes within a short time period, by taking advantage of time differences and/or imperfections or deficiencies in the method of determination of the Net Asset Value. It therefore reserves the right to reject subscription and conversion applications from an investor who the Company suspects of using such practices and to take, if appropriate, the necessary measures to protect the other investors of the Company.

viii. Prohibited Persons, Compulsory Redemption and Transfer of Shares

For the purpose of this section:

- "US Person" means a person that is a "U.S. person" as defined in Regulation S of the Securities Act of 1933, as amended ("Regulation S"), a person that is a "United States person" as defined in Section 7701(a)(30) of the U.S. Internal Revenue Code of 1986, as amended (the "Code"), a person that is "in the United States" as defined in Rule 202(a)(30)-1 under the U.S. Investment Advisers Act of 1940, as amended, or a person that is not a "Non-United States Person" as such term is defined in U.S. Commodities Futures Trading Commission Rule 4.7, including without limitation, a national or resident of the United States of America or any of its territories, possessions or other areas subject to its jurisdiction, including the States and the Federal District of Columbia ("United States") (including any corporation, partnership or other entity created or organised in, or under the laws, of the United States or any political sub-division thereof), a non-discretionary account or similar account (other than an estate or trust) held by a dealer or other fiduciary for the benefit or account of a U.S. person (as such term is used in Regulation S), a discretionary account or similar account (other than an estate or trust) held by a dealer or other fiduciary organized, incorporated or resident in the United States, unless such account is held by a dealer or other professional fiduciary for the benefit or account of a non-U.S. person (as such term is used in Regulation S), or any estate or trust, other than an estate or trust the income of which from sources outside the United States (which is not effectively connected with the conduct of a trade or business within the United States) is not included in gross income for the purpose of computing United States federal income tax, provided, however, that the term "U.S. person" shall not include a branch or agency of a United States bank or insurance company that is operating outside the United States as a locally regulated branch or agency engaged in the banking or insurance business and not solely for the purpose of investing in securities not registered under the United States Securities Act 1933, as amended.
- "Prohibited Person" means any person, corporation, limited liability company, trust, partnership, estate or other corporate body, if in the sole opinion of the Management Company, the holding of Shares of the relevant Subfund may be detrimental to the interests of the

existing Shareholders or of the relevant Subfund, if it may result in a breach of any law or regulation, whether Luxembourg or otherwise, or if as a result thereof the relevant Subfund may become exposed to tax or other legal, regulatory or administrative disadvantages, fines or penalties that it would not have otherwise incurred or, if as a result thereof the relevant Subfund or the Management Company, respectively the Company, may become required to comply with any registration or filing requirements in any jurisdiction with which it would not otherwise be required to comply. The term "Prohibited Person" includes but is not limited to (i) any Shareholder where any of the representations and warranties made in connection with the acquisition of the Shares was not true or has ceased to be true, (ii) where the holding by such Shareholder in a particular Share Class has fallen below the minimum investment and holding requirement for that Class as set out in Chapter 2, "Summary of Share Classes", (iii) any investor which does not meet or ceases to meet investor eligibility criteria and conditions set out in this Prospectus, (iv) Shareholders who are not otherwise entitled to acquire or possess these Shares, (v) Shareholders who fail to comply with any obligations associated with the holding of these Shares under the applicable regulations and this Prospectus, (vi) any US Person or (vii) any person who has failed to provide any information or declaration required by the Management Company or the Company within one calendar month of being requested to do so.

If the Board of Directors discovers at any time that Shares are owned by a Prohibited Person, either alone or in conjunction with any other person, whether directly or indirectly, the Board of Directors may at its discretion and without liability, compulsorily redeem the Shares in accordance with the rules laid down in this Prospectus and upon redemption, the Prohibited Person will cease to be the owner of those Shares.

The Board of Directors may require any Shareholder to provide it with any information that it may consider necessary for the purpose of determining whether or not such owner of Shares is or will be a Prohibited Person.

The Board of Directors has the right to refuse any transfer, assignment or sale of Shares in its sole discretion if the Board of Directors reasonably determines that it would result in a Prohibited Person holding Shares, either as an immediate consequence or in the future.

Any transfer of Shares may be rejected by the Central Administration and the transfer shall not become effective until the transferee has provided the required information under the applicable know your customer and anti-money laundering rules.

6. Investment Restrictions

For the purpose of this Chapter, each Subfund shall be regarded as a separate UCITS within the meaning of Article 40 of the Law of 17 December 2010.

The following provisions shall apply to the investments made by each Subfund:

- 1) Each Subfunds' investments may comprise only one or more of the following:
 - a) transferable securities and money market instruments admitted to or dealt in on a regulated market; for these purposes, a regulated market is any market for financial instruments within the meaning of Directive 2004/39/EC of the European Parliament and of the Council of 21 April 2004 on markets in financial instruments as amended;
 - b) transferable securities and money market instruments dealt in on another market in a Member State which is regulated, operates regularly and is recognized and open to the public; for the purpose of this Chapter "Member State" means a Member State of the European Union ("EU") or the States of the European Economic Area ("EEA") other than the Member States of the EU;
 - c) transferable securities and money market instruments admitted to official listing on a stock exchange in a non-Member State of the European Union or dealt in on another market in a non-Member State of the European Union which is regulated, operates regularly and is recognized and open to the public, and is established in a country in Europe, America, Asia, Africa or Oceania;
 - d) recently issued transferable securities and money market instruments, provided that the terms of issue include an undertaking that application will be made for admission to

- official listing on stock exchanges or markets as per paragraphs a), b) or c) above and provided such admission takes place within one year of issue;
- e) units or shares of undertakings for collective investment in transferable securities authorized according to Directive 2009/65/EC ("UCITS") and/or other undertakings for collective investment within the meaning of Article 1, paragraph 2, points a) and b) of Directive 2009/65/EC ("UCI"), whether or not established in a Member State, provided that:
- these other UCI are authorised under laws which provide that they are subject to supervision considered by the supervisory authority responsible for the Company, to be equivalent to that required by EU law and that cooperation between the supervisory authorities is sufficiently ensured,
 - the level of protection for share-/unitholders of the other UCIs is equivalent to that provided for share-/unitholders in a UCITS, and in particular that the rules on asset segregation, borrowing, lending and uncovered sales of transferable securities and money market instruments are equivalent to the requirements of Directive 2009/65/EC,
 - the business activities of the other UCIs are reported in semi-annual and annual reports to enable an assessment of the assets and liabilities, income and operations over the reporting period,
 - the UCITS or other UCIs whose units/shares are to be acquired, may not, pursuant to their management regulations or instruments of incorporation, invest more than 10% of their total net assets in units/shares of other UCITS or other UCIs;
- f) deposits with a credit institution which are repayable on demand or have the right to be withdrawn, and maturing in no more than 12 months, provided that the credit institution has its registered office in a Member State or, if the registered office of the credit institution is situated in a third country, provided that it is subject to prudential rules considered by the supervisory authority responsible for the Company, as equivalent to those laid down in EU law;
- g) financial derivative instruments, including equivalent cash-settled instruments which are dealt in on a regulated market referred to under paragraphs a), b) and c) above and/or financial derivative instruments which are dealt in over-the-counter ("OTC derivatives"), provided that:
- the underlying consists of instruments within the meaning of Article 41, paragraph (1) of the Law of 17 December 2010, financial indices, interest rates, foreign exchange rates or currencies, in which the Company may invest according to its investment objectives,
 - the counterparties to OTC derivative transactions are institutions subject to prudential supervision, and belonging to the categories approved by the supervisory authority responsible for the Company, and
 - the OTC derivatives are subject to reliable and verifiable valuation on a daily basis and can be sold, liquidated or closed by an offsetting transaction at any time at their fair value at the Company's initiative;
- h) money market instruments other than those dealt in on a regulated market and which are normally traded on the money market and are liquid, and whose value can be precisely determined at any time, provided the issuer or issuer of such instruments is itself regulated for the purpose of protecting investors and savings, and provided that these investments are:
- issued or guaranteed by a central, regional or local authority or by a central bank of a Member State, the European Central Bank, the European Union or the European Investment Bank, a non-Member State or, in case of a federal State, by one of the members making up the federation, or by a public international body to which one or more Member States belong, or
 - issued by an undertaking any securities of which are dealt in on regulated markets referred to in paragraphs a), b) or c) above, or
 - issued or guaranteed by an establishment subject to prudential supervision, in accordance with criteria defined by EU law, or issued or guaranteed by an establishment
- that is subject to and complies with supervisory rules considered by the supervisory authority responsible for the Company, to be at least as stringent as those required by EU law, or
- issued by other bodies belonging to the categories approved by the supervisory authority responsible for the Company, provided that investments in such instruments are subject to investor protection equivalent to that laid down in the first, the second or the third indent of this paragraph h) and provided that the issuer is a company whose capital and reserves amount to at least ten million euro (EUR 10,000,000) and which presents and publishes its annual financial statements in accordance with the fourth Directive 78/660/EEC or is an entity, which within a group of companies comprising one or several listed companies, is dedicated to the financing of the group, or is an entity which is dedicated to the financing of securitisation vehicles which benefit from a banking liquidity line.
- 2) Each Subfund shall not, however, invest more than 10% of its total net assets in transferable securities or money market instruments other than those referred to in section 1).
The Subfunds may hold ancillary liquid assets in different currencies.
- 3) The Management Company applies a risk management process which enables it to monitor and measure at any time the risk of the investment positions and their contribution to the overall risk profile of the portfolio and a process for accurate and independent assessment of the value of OTC derivatives.
Each Subfund may, for the purpose of (i) hedging, (ii) efficient portfolio management and/or (iii) implementing its investment strategy, use all financial derivative instruments within the limits laid down by Part I of the Law of 17 December 2010.
The global exposure is calculated taking into account the current value of the underlying assets, the counterparty risk, future market movements and the time available to liquidate the positions. This shall also apply to the following subparagraphs.
As part of its investment policy and within the limits laid down in section 4) paragraph e), each Subfund may invest in financial derivative instruments, provided that the exposure to the underlying assets does not exceed in aggregate the investment limits laid down in section 4). If a Subfund invests in index-based financial derivative instruments, these investments do not have to be combined to the limits laid down in section 4). When a transferable security or a money market instrument embeds a derivative instrument, the derivative instrument shall be taken into account when complying with the requirements of this section.
The global exposure may be calculated through the commitment approach or the Value-at-Risk (VaR) methodology as specified for each Subfund in Chapter 23, "Subfunds".
The standard commitment approach calculation converts the financial derivative position into the market value of an equivalent position in the underlying asset of that derivative. When calculating global exposure using the commitment approach, the Company may benefit from the effects of netting and hedging arrangements.
Value-at-Risk provides a measure of the potential loss that could arise over a given time interval under normal market conditions, and at a given confidence level. The Law of 17 December 2010 provides for a confidence level of 99% with a time horizon of one month.
Unless otherwise specified in Chapter 23, "Subfunds", each Subfund shall ensure that its global exposure to financial derivative instruments computed on a commitment basis does not exceed 100% of its total net assets or that the global exposure computed based on a Value-at-Risk method does not exceed either (i) 200% of the reference portfolio (benchmark) or (ii) 20% of the total net assets.
The risk management of the Management Company supervises the compliance of these provision in accordance with the requirements of applicable circulars or regulation issued by the Luxembourg supervisory authority (Commission de Surveillance du Secteur Financier, CSSF) or any other European authority authorized to issue related regulation or technical standards.

- 4) a) No more than 10% of the total net assets of each Subfund may be invested in transferable securities or money market instruments issued by the same issuer. In addition, the total value of transferable securities and money market instruments issued by those issuers, in which a Subfund invests more than 5% of its total net assets, shall not exceed 40% of the value of its total net assets. No Subfund may invest more than 20% of its total net assets in deposits made with the same body. The risk exposure to a counterparty of a Subfund in an OTC derivative transaction and/or efficient portfolio management transaction may in aggregate not exceed the following percentages:
- 10% of total net assets if the counterparty is a credit institution referred to in Chapter 6, "Investment Restrictions", section 1) paragraph f), or
 - 5% of total net assets in other cases.
- b) The 40% limit specified in section 4) paragraph a) is not applicable to deposits and OTC derivative transactions made with financial institutions subject to prudential supervision. Irrespective of the limits specified in section 4) paragraph a), each Subfund shall not combine, where this would lead to investing more than 20% of its total net assets in a single body, any of the following:
- investments in transferable securities or money market instruments issued by that body, or
 - deposits made with that body, or
 - exposures arising from OTC derivatives and/or efficient portfolio management transactions made with that body.
- c) The limit of 10% stipulated in section 4) paragraph a) is raised to a maximum of 35% if the transferable securities or money market instruments are issued or guaranteed by a Member State, by its public local authorities, by a non-Member State or by public international bodies to which one or more Member States belong.
- d) The 10% limit stipulated in section 4) paragraph a) is raised to 25% for bonds issued by a credit institution which has its registered office in a Member State and is subject by law to special public supervision designed to protect bondholders. In particular, sums deriving from the issue of those bonds must be invested in accordance with the legal requirements in assets which, during the whole period of validity of the bonds, are capable of covering claims attaching to the bonds and which, in case of bankruptcy of the issuer, would be used on a priority basis for the reimbursement of the principal and payment of the accrued interest. If a Subfund invests more than 5% of its total net assets in bonds referred to in this paragraph which are issued by a single issuer, the total value of these investments may not exceed 80% of that Subfund's total net assets.
- e) The transferable securities and money market instruments referred to in paragraphs c) and d) of this section 4) shall not be taken into account for the purpose of applying the limit of 40% referred to under paragraph a) of this section. The limits specified under paragraphs a), b), c) and d) shall not be combined; thus investments in transferable securities or money market instruments issued by the same issuer or in deposits or derivative instruments made with this body carried out in accordance with paragraphs a), b), c) and d) shall not exceed in total 35% of each Subfund's total net assets. Companies which belong to the same group for the purposes of the preparation of consolidated financial statements in accordance with Directive 83/349/EEC as amended or restated or in accordance with internationally recognized accounting rules, shall be regarded as a single issuer for the purpose of calculating the investment limits specified in the present section 4). Each Subfund may cumulatively invest up to a limit of 20% of its total net assets in transferable securities and money market instruments within the same group.
- f) **The limit of 10% stipulated in section 4) paragraph a) is raised to 100% if the transferable securities and money market instruments involved are issued or guaranteed by a Member State, one or more of its local authorities, by any other state which is a member of the Organisation for Economic Cooperation and Development ("OECD") or by Brazil or Singapore, or by a public international body to which one or more Member States of the European Union belong. In such case, the Subfund concerned must hold securities or money market instruments from at least six different issues, and the securities or money market instruments of any single issue shall not exceed 30% of that Subfund's total assets.**
- g) Without prejudice to the limits laid down in section 7), the limits laid down in the present section 4) are raised to a maximum of 20% for investments in shares and/or debt securities issued by the same body, when the aim of the Subfund's investment policy is to replicate the composition of a certain stock or debt securities index which is recognized by the supervisory authority responsible for the Company, on the following basis:
- the composition of the index is sufficiently diversified,
 - the index represents an adequate benchmark for the market to which it relates,
 - it is published in an appropriate manner.
- The aforementioned limit of 20% may be raised to a maximum of 35% where that proves to be justified by exceptional market conditions in particular in regulated markets where certain transferable securities or money market instruments are highly dominant. The investment up to this limit is only permitted for a single issuer.
- 5) The Company will not invest more than 10% of the total net assets of any Subfund in units/shares of other UCITS and/or in other UCIs ("Target Funds") pursuant to section 1) paragraph e), unless otherwise specified in the investment policy applicable to a Subfund as described in Chapter 23, "Subfunds". Where a higher limit as 10% is specified in Chapter 23, "Subfunds", the following restrictions shall apply:
- No more than 20% of a Subfund's total net assets may be invested in units/shares of a single UCITS or other UCI. For the purpose of application of this investment limit, each compartment of a UCITS or other UCI with multiple compartments is to be considered as a separate issuer provided that the principle of segregation of the obligations of the various compartments vis-à-vis third parties is ensured.
 - Investments made in units/shares of UCI other than UCITS may not in aggregate exceed 30% of the total net assets of a Subfund.
- Where a Subfund invests in units/shares of other UCITS and/or other UCI that are managed, directly or by delegation, by the same management company or by any other company with which the Company is linked by common management or control, or by a direct or indirect holding of more than 10% of the capital or votes ("Affiliated Funds"), the Company or the other company may not charge subscription or redemption fees on account of the Subfund's investment in the units/shares of such Affiliated Funds. Unless specified otherwise in Chapter 23, "Subfunds", no management fee corresponding to the volume of these investments in Affiliated Funds may be charged at the level of the respective Subfund, unless the Affiliated Fund itself does not charge any management fee. Investors should note that for investments in units/shares of other UCITS and/or other UCI the same costs may generally arise both at the Subfund level and at the level of the other UCITS and/or UCI itself.
- 6) To ensure efficient portfolio management, each Subfund may, in compliance with applicable Luxembourg regulations, lend securities in the context of securities lending transactions.
- 7) a) The Company's assets may not be invested in securities carrying voting rights which enable the Company to exercise significant influence over the management of an issuer.
- b) Moreover, the Company may not acquire more than:
- 10% of the non-voting shares of the same issuer;
 - 10% of the debt securities of the same issuer;
 - 25% of the units/shares of the same UCITS or other UCI;
 - 10% of the money market instruments of any single issuer.
- In the last three cases, the restriction shall not apply if the gross amount of bonds or money market instruments, or the net amount of the instruments in issue cannot be calculated at the time of acquisition.

- c) The restrictions set out under paragraphs a) and b) shall not apply to:
- transferable securities and money market instruments issued or guaranteed by a Member State or its local authorities;
 - transferable securities and money market instruments issued or guaranteed by a non-Member State of the European Union;
 - transferable securities and money market instruments issued by public international bodies to which one or more Member States of the European Union belong;
 - shares held by the Company in the capital of a company which is incorporated in a non-Member State of the European Union and which invests its assets mainly in securities of issuing bodies having their registered office in that State, where under the legislation of that State, such a holding represents the only way in which the Company can invest in the securities of issuing bodies of that State. This derogation, however, shall apply only if in its investment policy the company from the non-Member State of the European Union complies with the limits stipulated in section 4, paragraphs a) to e), section 5, and section 7 paragraphs a) and b).
- 8) The Company may not borrow any money for any Subfund except for:
- a) the purchase of foreign currency using a back-to-back loan;
 - b) an amount equivalent to not more than 10% of the Subfund's total net assets and borrowed on a temporary basis.
- 9) The Company may not grant loans or act as guarantor for third parties.
- 10) To ensure efficient portfolio management, each Subfund may, in compliance with the provisions of CSSF Circular 08/356, enter into securities lending transactions.
- 11) The Company may not invest its assets directly in real estate, precious metals or certificates representing precious metals and goods.
- 12) The Company may not carry out uncovered sales of transferable securities, money market instruments or other financial instruments referred to in section 1) paragraph e), g) and h).
- 13) Except in relation to borrowing conducted within the limitations set out in the Prospectus, the Company may not pledge the assets of the Company or assign them as collateral. In such permitted cases, not more than 10% of the assets of each Subfund shall be pledged or assigned. The collateral that must normally be made available to recognized securities settlement systems or payment systems in accordance with their respective regulations for the purpose of guaranteeing settlement within these systems, and the customary margin deposits for derivatives transactions, shall not be regarded as being a pledge under the terms of this regulation.

The restrictions set out above shall not apply to the exercise of subscription rights.

During the first six months following official authorization of a Subfund in Luxembourg, the restrictions set out in section 4) and 5) above need not be complied with, provided that the principle of risk-spreading is observed. If the limits referred to above are exceeded for reasons beyond the control of the Company or as a result of the exercise of subscription rights, the Company shall as a matter of priority remedy that situation, taking due account of the interests of the Shareholders.

The Company is entitled to issue, at any time, further investment restrictions in the interests of the Shareholders, if for example such restrictions are necessary to comply with the legislation and regulations in those countries in which the Company's Shares are or will be offered for sale.

7. Risk Factors

Prospective investors should consider the following risk factors before investing in the Company. However, the risk factors set out below do not purport to be an exhaustive list of risks related to investments in the Company. Prospective investors should read the entire Prospectus, and where appropriate consult with their legal, tax and investment advisers, in particular regarding the tax consequences of subscribing, holding, converting, redeeming or otherwise disposing of Shares under the law of their country of

citizenship, residence or domicile (further details are set out in Chapter 9, "Expenses and Taxes"). Investors should be aware that the investments of the Company are subject to market fluctuations and other risks associated with investments in transferable securities and other financial instruments. The value of the investments and the resulting income may go up or down and it is possible that investors will not recoup the amount originally invested in the Company, including the risk of loss of the entire amount invested. There is no assurance that the investment objective of a particular Subfund will be achieved or that any increase in the value of the assets will occur. Past performance is not a reliable indicator of future results.

The net asset value of a Subfund may vary as a result of fluctuations in the value of the underlying assets and the resulting income. Investors are reminded that in certain circumstances their right to redeem Shares may be suspended.

Depending on the currency of the investor's domicile, exchange-rate fluctuations may adversely affect the value of an investment in one or more of the Subfunds. Moreover, in the case of an Alternate Currency Class in which the risk exposure in terms of investment currencies is not hedged, the result of the associated foreign exchange transactions may have a negative influence on the performance of the corresponding Share Class.

Market Risk

Market risk is a general risk which may affect all investments to the effect that the value of a particular investment could change in a way that is detrimental to the Company's interests. In particular, the value of investments may be affected by uncertainties such as international, political and economic developments or changes in government policies.

Interest Rate Risk

Subfunds investing in fixed income securities may fall in value due to fluctuations in interest rates. Generally, the value of fixed income securities rises when interest rates fall. Conversely, when interest rates rise, the value of fixed income securities can generally be expected to decrease. Long term fixed income securities will normally have more price volatility than short term fixed income securities.

Foreign Exchange Risk

The Subfunds' investments may be made in other currencies than the relevant Reference Currency and therefore be subject to currency fluctuations, which may affect the net asset value of the relevant Subfunds favourably or unfavourably.

Currencies of certain countries may be volatile and therefore may affect the value of securities denominated in such currencies. If the currency in which an investment is denominated appreciates against the Reference Currency of the relevant Subfund, the value of the investment will increase. Conversely, a decline in the exchange rate of the currency would adversely affect the value of the investment.

The Subfunds may enter into hedging transactions on currencies to protect against a decline in the value of investments denominated in currencies other than the Reference Currency, and against any increase in the cost of investments denominated in currencies other than the Reference Currency. However, there is no guarantee that the hedging will be successfully achieved.

Although it is the policy of the Company to hedge the currency exposure of Subfunds against their respective Reference Currencies, hedging transactions may not always be possible and currency risks cannot therefore be excluded.

Credit Risk

Subfunds investing in fixed income securities are subject to the risk that issuers may not make payments on such securities. An issuer suffering an adverse change in its financial condition could lower the credit quality of a security, leading to greater price volatility of the security. A lowering of the credit rating of a security may also offset the security's liquidity. Subfunds investing in lower quality debt securities are more susceptible to these problems and their value may be more volatile.

Counterparty Risk

The Company may enter into over-the-counter transactions which will expose the Subfunds to the risk that the counterparty may default on its obligation to perform under such contracts. In the event of bankruptcy of

counterparty, the Subfunds could experience delays in liquidating the position and significant losses.

EU Bank Recovery and Resolution Directive

Directive 2014/59/EU establishing a framework for the recovery and resolution of credit institutions and investment firms (the "BRRD") was published in the Official Journal of the European Union on June 12, 2014 and entered into force on July 2, 2014. The stated aim of the BRRD is to provide resolution authorities, including the relevant Luxembourg resolution authority, with common tools and powers to address banking crises preemptively in order to safeguard financial stability and minimize taxpayers' exposure to losses.

In accordance with the BRRD and relevant implementing laws, national prudential supervisory authorities can assert certain powers over credit institutions and certain investment firms which are failing or are likely to fail and where normal insolvency would cause financial instability. These powers comprise write-down, conversion, transfer, modification, or suspension powers existing from time to time under, and exercised in compliance with any laws, regulations, rules or requirements in effect in the relevant EU Member State relating to the implementation of BRRD (the "Bank Resolution Tools").

The use of any such Bank Resolution Tools may affect or restrain the ability of counterparties subject to BRRD to honour their obligations towards the Subfunds, thereby exposing the Subfunds to potential losses.

The exercise of Bank Resolution Tools against investors of a Subfund may also lead to the mandatory sale of part of the assets of these investors, including their shares/units in that Subfund. Accordingly, there is a risk that a Subfund may experience reduced or even insufficient liquidity because of such an unusually high volume of redemption requests. In such case the Fund may not be able to pay redemption proceeds within the time period stated in this Prospectus.

Furthermore, exercising certain Bank Resolution Tools in respect of a particular type of securities may, under certain circumstances, trigger a drying-up of liquidity in specific securities markets, thereby causing potential liquidity problems for the Subfunds.

Liquidity Risk

There is a risk that the Company will suffer liquidity issues because of unusual market conditions, an unusually high volume of redemption requests or other reasons. In such case the Company may not be able to pay redemption proceeds within the time period stated in this Prospectus.

Investment Risk

Investments in Equities

The risks associated with investments in equity (and equity-type) securities include in particular significant fluctuations in market prices, adverse issuer or market information and the subordinate status of equity compared to debt securities issued by the same company.

Investors should also consider the risk attached to fluctuations in exchange rates, possible imposition of exchange controls and other restrictions.

Investments in Fixed Income Securities

Investments in securities of issuers from different countries and denominated in different currencies offer potential benefits not available from investments solely in securities of issuers from a single country, but also involve certain significant risks that are not typically associated with investing in the securities of issuers located in a single country. Among the risks involved are fluctuations in interest rates as well as fluctuations in currency exchange rates (as further described above under section "Interest Rate Risk" and "Foreign Exchange Risk") and the possible imposition of exchange control regulations or other laws or restrictions applicable to such investments. A decline in the value of a particular currency in comparison with the Reference Currency of the Subfund would reduce the value of certain portfolio securities that are denominated in such a currency.

An issuer of securities may be domiciled in a country other than the country in whose currency the instrument is denominated. The values and relative yields of investments in the securities markets of different countries, and their associated risks, may fluctuate independently of each other.

As the net asset value of a Subfund is calculated in its Reference Currency, the performance of investments denominated in a currency other than the Reference Currency will depend on the strength of such

currency against the Reference Currency and on the interest rate environment in the country issuing the currency. In the absence of other events that could otherwise affect the value of non-Reference Currency investments (such as a change in the political climate or an issuer's credit quality), an increase in the value of the non-Reference Currency can generally be expected to increase the value of a Subfund's non-Reference Currency investments in terms of the Reference Currency.

The Subfunds may invest in investment grade debt securities. Investment grade debt securities are assigned ratings within the top rating categories by rating agencies on the basis of the creditworthiness or risk of default. Rating agencies review, from time to time, such assigned ratings and debt securities may therefore be downgraded in rating if economic circumstances impact the relevant debt securities issue. Moreover, the Subfunds may invest in debt instruments in the non investment grade sector (high yield debt securities). Compared to investment grade debt securities, high yield debt securities are generally lower-rated securities and will usually offer higher yields to compensate for the reduced creditworthiness or increased risk of default attached to these debt instruments.

Investments in Warrants

The leveraged effect of investments in warrants and the volatility of warrant prices make the risks attached to investments in warrants higher than in the case of investment in equities. Because of the volatility of warrants, the volatility of the share price of any Subfund investing in warrants may potentially increase.

Investments in Target Funds

Investors should note that investments in Target Funds may incur the same costs both at the Subfund level and at the level of the Target Funds. Furthermore, the value of the units or shares in the Target Funds may be affected by currency fluctuations, currency exchange transactions, tax regulations (including the levying of withholding tax) and any other economic or political factors or changes in the countries in which the Target Fund is invested, along with the risks associated with exposure to the emerging markets.

The investment of the Subfunds' assets in units or shares of Target Funds entails a risk that the redemption of the units or shares may be subject to restrictions, with the consequence that such investments may be less liquid than other types of investment.

Use of Derivatives

While the use of financial derivative instruments can be beneficial, financial derivative instruments also involve risks different from, and, in certain cases, greater than, the risks presented by more traditional investments.

Derivatives are highly specialized financial instruments. The use of a derivative requires an understanding not only of the underlying instrument but also of the derivative itself, without there being any opportunity to observe the performance of the derivative under all possible market conditions.

If a derivative transaction is particularly large or if the relevant market is illiquid, it may not be possible to initiate a transaction or liquidate a position at an advantageous price.

Since many derivatives have a leverage component, adverse changes in the value or level of the underlying asset, rate or index may result in a loss substantially greater than the amount invested in the derivative itself.

The other risks associated with the use of derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices. Many derivatives are complex and are often valued subjectively. Improper valuations can result in increased cash payment requirements to counterparties or a loss of value to the Company. Consequently, the Company's use of derivatives may not always be an effective means of, and sometimes could be counterproductive to, furthering the Company's investment objectives.

Derivative instruments also carry the risk that a loss may be sustained by the Company as a result of the failure of the counterparty to a derivative to comply with the terms of the contract (as further described under "Counterparty Risk" above). The default risk for exchange-traded derivatives is generally less than for privately negotiated derivatives, since the clearing house, which is the issuer or counterparty to each exchange-traded derivative, provides a guarantee of performance. In addition, the use of credit derivatives (credit default swaps, credit linked notes) carries

the risk of a loss arising for the Company if one of the entities underlying the credit derivative defaults.

Moreover, OTC derivatives may bear liquidity risks. The counterparties with which the Company effects transactions might cease making markets or quoting prices in certain of the instruments. In such cases, the Company might not be in a position to enter into a desired transaction in currencies, credit default swaps or total return swaps or to enter into an offsetting transaction with respect to an open position which might adversely affect its performance. Unlike exchange-traded derivatives, forward, spot and option contracts on currencies do not provide the Management Company with the possibility to offset the Company's obligations through an equal and opposite transaction. Therefore, through entering into forward, spot or options contracts, the Company may be required, and must be able, to perform its obligations under these contracts.

The use of derivative instruments may or may not achieve its intended objective.

Investments in Hedge Fund Indices

In addition to the risks entailed in traditional investments (such as market, credit and liquidity risks), investments in hedge fund indices entail a number of specific risks that are set out below.

The hedge funds underlying the respective index, as well as their strategies, are distinguished from traditional investments primarily by the fact that their investment strategy may involve the short sale of securities and, on the other hand, by using borrowings and derivatives, a leverage effect may be achieved.

The leverage effect entails that the value of a fund's assets increases faster if capital gains arising from investments financed by borrowing exceed the related costs, notably the interest on borrowed monies and premiums payable on derivative instruments. A fall in prices, however, causes a faster decrease in the value of the Company's assets. The use of derivative instruments, and in particular of short selling, can in extreme cases lead to a total loss in value.

Most of the hedge funds underlying the respective index were established in countries in which the legal framework, and in particular the supervision by the authorities, either does not exist or does not correspond to the standards applied in western Europe or other comparable countries. The success of hedge funds depends in particular on the competence of the fund managers and the suitability of the infrastructure available to them.

Use of Futures

The utilization of futures by the Subfunds involves the risk of imperfect or even negative correlation to the relevant benchmark index if the index underlying the futures contract differs from the relevant benchmark index.

Investments in Commodity and Real Estate Indices

Investments in products and/or techniques providing an exposure to commodity, hedge fund and real estate indices differ from traditional investments and entail additional risk potential (e.g. they are subject to greater price fluctuations). When included in a broadly diversified portfolio, however, investments in products and/or techniques providing an exposure to commodity and real estate indices generally show only a low correlation to traditional investments.

Investments in Illiquid Assets

The Company may invest up to 10% of the total net assets of each Subfund in transferable securities or money market instruments which are not traded on stock exchanges or regulated markets. It may therefore be the case that the Company cannot readily sell such securities. Moreover, there may be contractual restrictions on the resale of such securities. In addition, the Company may under certain circumstances trade futures contracts or options thereon. Such instruments may also be subject to illiquidity in certain situations when, for example, market activity decreases, or when a daily fluctuation limit has been reached. Most futures exchanges restrict the fluctuations in future contract prices during a single day by regulations referred to as "daily limits". During a single trading day no trades may be executed at prices above or below these daily limits. When the price of a futures contract has increased or decreased to the limit, positions can neither be purchased nor compensated. Futures prices have occasionally moved outside the daily limit for several consecutive days with little or no trading. Similar occurrences may prevent the Company from promptly liquidating unfavourable positions and therefore result in losses.

For the purpose of calculating the net asset value, certain instruments, which are not listed on an exchange, for which there is limited liquidity, will be valued based upon the average price taken from at least two major primary dealers. These prices may affect the price at which Shares are redeemed or purchased. There is no guarantee that in the event of a sale of such instruments the price thus calculated can be achieved.

Investments in Asset Backed Securities and Mortgage Backed Securities

The Subfunds may have exposure to asset backed securities ("ABS") and mortgage backed securities ("MBS"). ABS and MBS are debt securities issued by a special purpose vehicle (SPV) with the aim to pass through of liabilities of third parties other than the parent company of the issuer. Such securities are secured by an asset pool (mortgages in the case of MBS and various types of assets in the case of ABS). Compared to other traditional fixed income securities such as corporate or government issued bonds, the obligations associated with these securities may be subject to greater counterparty, liquidity and interest rate risks as well as other types of risks, such as reinvestment risk (arising from included termination rights, prepayment options), credit risks on the underlying assets and advance repayments of principal resulting in a lower total return (especially, if repayment of the debt is not concurrent with redemption of the assets underlying the claims).

ABS and MBS assets may be highly illiquid and therefore prone to substantial price volatility.

Small to medium-sized Companies

A number of Subfunds may invest primarily in small and mid-cap companies. Investing in the securities of smaller, lesser-known companies involves greater risk and the possibility of greater price volatility due to the less certain growth prospects of smaller firms, the lower degree of liquidity of the markets for such stocks and the greater sensitivity of smaller companies to changing market conditions.

Investments in REITs

REITs (real estate investment trusts) are listed companies – not open-ended undertakings for collective investment in transferable securities under Luxembourg law – which buy and/or develop real estate as long-term investments. They invest the bulk of their assets directly in real estate and derive most of their income from rent. Special risk considerations apply to investments in publicly traded securities of companies active primarily in the real estate sector. These risks include: the cyclical nature of real estate securities, risks connected with the general and local economic situation, supply overhangs and fierce competition, increases in land tax and operating costs, demographic trends and changes in rental income, changes to the provisions of building law, losses from damage and expropriation, environmental risks, rent ceilings imposed by administrative provisions, changes in real estate prices in residential areas, risks of associated parties, changes in the attractiveness of real estate to tenants, interest rate rises and other factors influencing the real estate capital market. As a rule, interest rate rises result in higher financing costs, which could reduce – either directly or indirectly – the value of the respective Subfund's investment.

Investments in Russia

Custodial and registration risk in Russia

- Although exposure to the Russian equity markets is substantially hedged through the use of GDRs and ADRs, individual Subfunds may, in accordance with their investment policy, invest in securities which require the use of local depository and/or custodial services. Currently, evidence of legal title to shares is maintained in "book-entry" form in Russia.
- The significance of the register is crucial to the custodial and registration process. Although independent registrars are subject to licensing and supervision by the Central Bank of Russia and may bear civil, as well as administrative liability for non-performance or undue performance of their obligations, it is, nevertheless, possible for the Subfund to lose its registration through fraud, negligence or mere oversight. Furthermore, although companies are required under Russian law to maintain independent registrars that meet certain statutory criteria, in practice this regulation has not been strictly enforced. Because of this lack of independence, the management of a company can potentially exert significant influence over the make-up of that company's shareholder base.

- Distortion or destruction of the register could substantially impair, or in certain cases erase, the Subfund's holdings of the relevant company's shares. Neither the Subfund, the Investment Manager, the Depositary, the Management Company, the Board of Directors of the Management Company nor any of their agents can make any representation or warranty about, or any guarantee of, the registrars' actions or performance. Such risk will be borne by the Subfund. This risk is expected to be mitigated by the amendments to the Russian Civil Code which entered into force in October 2013. These amendments impose an obligation on the person maintaining the register to (a) immediately publish information on any loss of records in the register, and (b) to file a petition with the court for the restoration of the lost information in the register. However, it is not yet clear how this mechanism for restoration of register information will apply due to the absence of accompanying procedural rules.

The abovementioned amendments to the Russian Civil Code provide for unlimited protection of the "good faith purchaser" of equities acquired in the course of exchange trades. The only exception (which seems to be non-applicable) to this rule is the acquisition of such securities without consideration.

Direct investments in the Russian market are made in principle via equities or equity-type securities traded on closed joint-stock company "MICEX Stock Exchange" (the "Moscow Exchange"), in accordance with Chapter 6, "Investment Restrictions" and unless stipulated otherwise in Chapter 23, "Subfunds".

Any other direct investments, which are not made via the Moscow Exchange will fall within the 10%-rule of Article 41 (2) a) of the Law of December 17, 2010.

Investments in India

In addition to the restrictions set out in this Prospectus, direct investments made in India are subject to the relevant Subfund obtaining a certificate of registration as "Foreign Portfolio Investor" ("FPI") (registration as Category II FPI) from a Designated Depository Participant ("DDP") on behalf of the Securities and Exchange Board of India ("SEBI"). In addition the Subfund shall obtain a Permanent Account Number (PAN) card from the Income Tax Department of India. The FPI Regulations set various limits for investments by FPIs and impose various obligations on the FPIs. All investments made directly in India will be subject to FPI Regulations prevailing at the time of the investment. Investors should note that the registration of the relevant Subfund as a FPI is a condition precedent to any direct investments by this Subfund in the Indian market.

The FPI registration of the Subfund can in particular be suspended or withdrawn by the SEBI in case of non-compliance with the SEBI's requirements, or in case of any acts or omissions in relation to compliance with any Indian regulations, including applicable laws and regulations relating to Anti-Money Laundering and Counter Terrorism Financing. No assurance can be given that the FPI registration will be maintained for the whole duration of the relevant Subfund. Consequently, investors should note that a suspension or a withdrawal of the FPI registration of the Subfund may lead to a deterioration of the performance of the relevant Subfund, which as a consequence, could have a negative impact on the value of the investors' participation depending on the prevailing market conditions at that time.

Investors should also note that the Prevention of Money Laundering Act, 2002 ("PMLA") and the rules framed thereunder in relation to the prevention and control of activities concerning money laundering and confiscation of property derived or involved in money laundering in India require inter-alia certain entities such as banks, financial institutions and intermediaries dealing in securities (including FPIs) to conduct client identification procedures and to establish the beneficial owner of the assets ("Client ID") and to maintain a record of Client ID and certain kinds of transactions ("Transactions"), such as cash transactions exceeding certain thresholds, suspicious transactions (whether or not made in cash and including credits or debits into or from non-monetary accounts such as security accounts). Accordingly, the FPI regulations have the ability to seek information from the FPI holder on the identity of beneficial owners of the Subfund, hence information regarding investors of the Subfund may be required for disclosure to local supervisory authorities.

As far as permitted under Luxembourg law, information and personal data regarding the investors of the Subfund investing in the Indian market (including but not limited to any documentation submitted as part of the identification procedure prescribed in relation to their investment in the Subfund) may be disclosed to the DDP, resp. to governmental or

regulatory authorities in India upon their request. In particular investors shall note that, in order to enable the Subfund to comply with the Indian laws and regulations, any natural person who, whether acting alone or together, or through one or more juridical person, exercises control through ownership or who ultimately has a controlling ownership interest above 25% of the Subfund's assets is required to disclose its end-investors and beneficial owners which information will be disclosed to the DDP.

Hedged Share Class Risk

The hedging strategy applied to hedged Share Classes may vary from one Subfund to another. Each Subfund will apply a hedging strategy which aims to reduce currency risk between the Reference Currency of the respective Subfund and the nominal currency of the hedged Share Class while taking various practical considerations into account. The hedging strategy aims to reduce, but may not totally eliminate, currency exposure. The direct costs of hedging are allocated exclusively to the hedged Share Classes and not shared among all Share Classes of the same Subfund. Investors should, however, note that there is no segregation of liabilities between the individual Share Classes within a Subfund. Hence, there is a risk that under certain exceptional circumstances, hedging transactions in relation to a hedged Share Class could result in liabilities affecting the Net Asset Value of the other Share Classes of the same Subfund. In such case assets of other Share Classes of such Subfund may be used to cover the liabilities incurred by the hedged Share Class.

Clearing and Settlement Procedures

Different markets also have different clearing and settlement procedures. Delays in settlement may result in a portion of the assets of a Subfund remaining temporarily uninvested and no return is earned thereon. The inability of the Company to make intended security purchases due to settlement problems could cause a Subfund to miss attractive investment opportunities. The inability to dispose of portfolio securities due to settlement problems could result either in losses to a Subfund due to subsequent declines in value of the portfolio security or, if a Subfund has entered into a contract to sell the security, could result in possible liability to the purchaser.

Investment Countries

The issuers of fixed income securities and the companies, the shares of which are purchased, are generally subject to different accounting, auditing and financial reporting standards in the different countries of the world. The volume of trading, volatility of prices and liquidity of issuers may vary from one market or country to another. In addition, the level of government supervision and regulation of securities exchanges, securities dealers and listed and unlisted companies is different throughout the world. The laws and regulations of some countries may restrict the Company's ability to invest in securities of certain issuers located in those countries.

Concentration on certain Countries/Regions

Where a Subfund restricts itself to investing in securities of issuers located in a particular country or countries, such concentration will expose the Subfund to the risk of adverse social, political or economic events which may occur in that country or countries.

The risk increases if the country in question is an emerging market. Investments in these Subfunds are exposed to the risks which have been described; these may be exacerbated by the special factors pertaining to this emerging market.

Investments in Emerging Countries

Investors should note that certain Subfunds may invest in less developed or emerging markets. Emerging markets are all countries which, at the time of the investment, are not considered to be developed industrialized countries by the International Monetary Fund, the World Bank or the International Finance Corporation (IFC).

Investing in emerging markets may carry a higher risk than investing in developed markets.

The securities markets of less developed or emerging markets are generally smaller, less developed, less liquid and more volatile than the securities markets of developed markets. In addition, there may be a higher than usual risk of political, economic, social and religious instability and adverse changes in government regulations and laws in less developed or emerging markets, which could affect the investments in

those countries. The assets of Subfunds investing in such markets, as well as the income derived from the Subfund, may also be effected unfavourably by fluctuations in currency rates and exchange control and tax regulations and consequently the Net Asset Value of Shares of these Subfunds may be subject to significant volatility. Also, there might be restrictions on the repatriation of the capital invested.

Some of these markets may not be subject to accounting, auditing and financial reporting standards and practices comparable to those of more developed countries and the securities markets of such markets may be subject to unexpected closure. In addition, there may be less government supervision, legal regulation and less well defined tax laws and procedures than in countries with more developed securities markets.

Moreover, settlement systems in emerging markets may be less well organised than in developed markets. Thus, there may be a risk that settlement may be delayed and that cash or securities of the concerned Subfunds may be in jeopardy because of failures or of defects in the systems. In particular, market practice may require that payment shall be made prior to receipt of the security which is being purchased or that delivery of a security must be made before payment is received. In such cases, default by a broker or bank through whom the relevant transaction is effected might result in a loss being suffered by the Subfunds investing in emerging market securities.

It must also be borne in mind that companies are selected regardless of their market capitalization (micro, small, mid, large caps), sector or geographical location. This may lead to a concentration in geographical or sector terms.

Subscriptions in the relevant Subfunds are thus only suitable for investors who are fully aware of, and able to bear, the risks related to this type of investment.

Industry/Sector Risk

The Subfunds may invest in specific industries or sectors or a group of related industries. These industries or sectors may, however, be affected by market or economic factors, which could have a major effect on the value of the Subfunds' investments.

Securities Lending

Securities lending transactions involve counterparty risk, including the risk that the lent securities may not be returned or returned in a timely manner. Should the borrower of securities fail to return the securities lent by a Subfund, there is a risk that the collateral received may be realized at a lower value than the securities lent, whether due to inaccurate pricing of the collateral, adverse market movements, decrease in the credit rating of the issuer of the collateral or the illiquidity of the market in which the collateral is traded, which could adversely impact the performance of the Subfund.

Credit Suisse AG, which is the Depository's as well as the Management Company's parent company, acts as the exclusive principal borrower and counterparty for securities lending transactions. It may engage in activities that might result in conflicts of interests with adverse effect on the performance of the Subfund. In such circumstances, Credit Suisse AG has undertaken to use its reasonable endeavours to resolve any such conflicts of interest fairly (having regard to its or his respective obligations and duties) and to ensure that the interests of the Fund and the Shareholders are not unfairly prejudiced.

Taxation

The proceeds from the sale of securities in some markets or the receipt of any dividends and other income may be or may become subject to tax, levies, duties or other fees or charges imposed by the authorities in that market, including taxation levied by withholding at source.

It is possible that the tax law (and/or the current interpretation of the law) as well as the practice in countries, into which the Subfunds invest or may invest in the future, might change. As a result, the Company could become subject to additional taxation in such countries that is not anticipated either at the date of this Prospectus or when investments are made, valued or disposed of.

FATCA

The Company may be subject to regulations imposed by foreign regulators, in particular the Foreign Account Tax Compliance provisions of the Hiring Incentives to Restore Employment Act (commonly known as "FATCA"). FATCA provisions generally impose a reporting to the U.S. Internal Revenue Service of non-U.S. financial institutions that do not

comply with FATCA and U.S. persons' (within the meaning of FATCA) direct and indirect ownership of non-U.S. accounts and non-U.S. entities. Failure to provide the requested information will lead to a 30% withholding tax applying to certain U.S. source income (including dividends and interest) and gross proceeds from the sale or other disposal of property that can produce U.S. source interest or dividends.

Under the terms of FATCA, the Company will be treated as a Foreign Financial Institution (within the meaning of FATCA). As such, the Company may require all investors to provide documentary evidence of their tax residence and all other information deemed necessary to comply with the above mentioned regulations.

Should the Company become subject to a withholding tax as a result of FATCA, the value of the Shares held by all Shareholders may be materially affected.

The Company and/or its Shareholders may also be indirectly affected by the fact that a non U.S. financial entity does not comply with FATCA regulations even if the Company satisfies with its own FATCA obligations.

Despite anything else herein contained, the Company shall have the right to:

- withhold any taxes or similar charges that it is legally required to withhold by applicable laws and regulations in respect of any shareholding in the Company;
- require any Shareholder or beneficial owner of the Shares to promptly furnish such personal data as may be required by the Company in its discretion in order to comply with applicable laws and regulations and/or to promptly determine the amount of withholding to be retained;
- divulge any such personal information to any tax authority, as may be required by applicable laws or regulations or requested by such authority; and
- delay payments of any dividend or redemption proceeds to a Shareholder until the Company holds sufficient information to comply with applicable laws and regulations or determine the correct amount to be withheld.

Common Reporting Standard

The Company may be subject to the Standard for Automatic Exchange of Financial Account Information in Tax matters (the "Standard") and its Common Reporting Standard (the "CRS") as set out in the Luxembourg law dated 18 December 2015 implementing Council Directive 2014/107/EU of 9 December 2014 as regards mandatory automatic exchange of information in the field of taxation (the "CRS-Law").

Under the terms of the CRS-Law, the Company is to be treated as a Luxembourg Reporting Financial Institution. As such, as of 30 June 2017 and without prejudice to other applicable data protection provisions, the Company will be required to annually report to the Luxembourg tax authority personal and financial information related, inter alia, to the identification of, holdings by and payments made to (i) certain shareholders as per the CRS-Law (the "Reportable Persons") and (ii) Controlling Persons of certain non-financial entities ("NFEs") which are themselves Reportable Persons. This information, as exhaustively set out in Annex I of the CRS-Law (the "Information"), will include personal data related to the Reportable Persons.

The Company's ability to satisfy its reporting obligations under the CRS-Law will depend on each Shareholder providing the Company with the Information, along with the required supporting documentary evidence. In this context, the Shareholders are hereby informed that, as data controller, the Company will process the Information for the purposes as set out in the CRS-Law. The Shareholders undertake to inform their Controlling Persons, if applicable, of the processing of their Information by the Company.

The term "Controlling Person" means in the present context any natural persons who exercise control over an entity. In the case of a trust it means the settlor(s), the trustee(s), the protector(s) (if any), the beneficiary(ies) or class(es) of beneficiaries, and any other natural person(s) exercising ultimate effective control over the trust, and in the case of a legal arrangement other than a trust, persons in equivalent or similar positions. The term "Controlling Persons" must be interpreted in a manner consistent with the Financial Action Task Force Recommendations.

The Shareholders are further informed that the Information related to Reportable Persons within the meaning of the CRS-Law will be disclosed to the Luxembourg tax authority annually for the purposes set out in the CRS-Law. In particular, Reportable Persons are informed that certain operations performed by them will be reported to them through the

issuance of statements, and that part of this information will serve as a basis for the annual disclosure to the Luxembourg tax authority.

Similarly, the Shareholders undertake to inform the Company within thirty (30) days of receipt of these statements should any included personal data be not accurate. The Shareholders further undertake to immediately inform the Company of, and provide the Company with all supporting documentary evidence of any changes related to the Information after occurrence of such changes.

Any Shareholder that fails to comply with the Company's Information or documentation requests may be held liable for penalties imposed on the Company and attributable to such shareholder's failure to provide the Information.

8. Net Asset Value

The Net Asset Value of the Shares of each Subfund shall be calculated in the Reference Currency of the respective Subfund and shall be determined under the responsibility of the Company's Board of Directors in Luxembourg on each Banking Day on which banks are normally open all day for business in Luxembourg (each such day being referred to as a "Valuation Day"). In case the Valuation Day is not a full Banking Day in Luxembourg, the Net Asset Value of that Valuation Day will be calculated on the next following Banking Day.

Notwithstanding the foregoing, a Net Asset Value of the Shares of each Subfund shall always be calculated for each end of month.

For determining the Net Asset Value, the assets and liabilities of the Company shall be allocated to the Subfunds (and to the individual Share Classes within each Subfund), the calculation is carried out by dividing the Net Asset Value of the Subfund by the total number of Shares outstanding for the relevant Subfund or the relevant Share Class. If the Subfund in question has more than one Share Class, that portion of the Net Asset Value of the Subfund attributable to the particular Class will be divided by the number of issued Shares of that Class.

The Net Asset Value of an Alternate Currency Class shall be calculated first in the Reference Currency of the relevant Subfund. The Net Asset Value of the Alternate Currency Class shall be calculated through conversion at the mid-market rate between the Reference Currency and the Alternate Currency of the relevant Share Class.

The Net Asset Value of the Alternate Currency Class will in particular reflect the costs and expenses incurred for the currency conversion in connection with the subscription, redemption and conversion of Shares in this Class and for hedging the risk exposure in terms of investment currencies.

Unless otherwise specified in Chapter 23, "Subfunds", the assets of each Subfund shall be valued as follows:

- a) Securities which are listed or regularly traded on a stock exchange shall be valued at the prices paid on the main market - last traded price (bid or ask price) - or at the price supplied by the index provider - or at the closing mid-price (the mean of the closing bid and ask prices) which may be taken as a basis for the valuation.
- b) If a security is traded on several stock exchanges, the valuation shall be made by reference to the exchange which is the main market for this security.
- c) In the case of securities for which trading on a stock exchange is not significant but which are traded on a secondary market with regulated trading among securities dealers (with the effect that the price reflects market conditions), the valuation may be based on this secondary market.
- d) Securities traded on a regulated market shall be valued in the same way as those listed on a stock exchange.
- e) Securities that are not listed on a stock exchange and are not traded on a regulated market shall be valued at their last available market price. If no such price is available, the Company shall value these securities in accordance with other criteria to be established by the Board of Directors and on the basis of the probable sales price, the value of which shall be estimated with due care and in good faith.
- f) Derivatives shall be treated in accordance with the above. OTC swap transactions will be valued on a consistent basis based on bid, offer or mid prices as determined in good faith pursuant to procedures established by the Board of Directors. When deciding whether to use the bid, offer or mid prices the Board of Directors will take into consideration the anticipated subscription or redemption flows, among other parameters. If, in the opinion of the

Board of Directors, such values do not reflect the fair market value of the relevant OTC swap transactions, the value of such OTC swap transactions will be determined in good faith by the Board of Directors or by such other method as it deems in its discretion appropriate.

- g) The valuation price of a money market instrument which has a maturity or remaining term to maturity of less than 12 months and does not have any specific sensitivity to market parameters, including credit risk, shall, based on the net acquisition price or on the price at the time when the investment's remaining term to maturity falls below 12 months, be progressively adjusted to the repayment price while keeping the resulting investment return constant. In the event of a significant change in market conditions, the basis for the valuation of different investments shall be brought into line with the new market yields.
- h) Units or shares of UCITS or other UCIs shall be valued on the basis of their most recently calculated net asset value, where necessary by taking due account of the redemption fee. Where no net asset value and only buy and sell prices are available for units or shares of UCITS or other UCIs, the units or shares of such UCITS or other UCIs may be valued at the mean of such buy and sell prices.
- i) Fiduciary and fixed-term deposits shall be valued at their respective nominal value plus accrued interest.

The amounts resulting from such valuations shall be converted into the Reference Currency of each Subfund at the prevailing mid-market rate. Foreign exchange transactions conducted for the purpose of hedging currency risks shall be taken into consideration when carrying out this conversion.

If a valuation in accordance with the above rules is rendered impossible or incorrect due to particular or changed circumstances, the Company's Board of Directors shall be entitled to use other generally recognized and auditable valuation principles in order to reach a proper valuation of the Subfund's assets and as a measure to prevent the practices relating to market timing.

Investments which are difficult to value (in particular those which are not listed on a secondary market with a regulated price-setting mechanism) are valued on a regular basis using comprehensible, transparent criteria. For the valuation of private equity investments, the Company may use the services of third parties which have appropriate experience and systems in this area. The Company's Board of Directors and the auditor shall monitor the comprehensibility and transparency of the valuation methods and their application.

The Net Asset Value of a Share shall be rounded up or down, as the case may be, to the next smallest unit of the Reference Currency which is currently used, unless otherwise specified in Chapter 23, "Subfunds".

The Net Asset Value of one or more Share Classes may also be converted into other currencies at the mid-market rate should the Company's Board of Directors decide to effect the issue and redemption of Shares in one or more other currencies. Should the Board of Directors determine such currencies, the Net Asset Value of the respective Shares in these currencies shall be rounded up or down to the next smallest unit of currency.

In exceptional circumstances, further valuations may be carried out on the same day; such valuations will be valid for any applications for subscription and/or redemption subsequently received.

The total net asset value of the Company shall be calculated in Euro.

9. Expenses and Taxes

i. Taxes

The following summary is based on the laws and practices that are currently applicable in the Grand Duchy of Luxembourg, as may be amended from time to time.

Unless otherwise specified in Chapter 23, "Subfunds", the Company's assets are subject to subscription tax ("taxe d'abonnement") in the Grand Duchy of Luxembourg of 0.05% p.a. and are payable quarterly. Among other options, a reduced tax rate of 0.01% p.a. of the net assets will apply for example to Share Classes of the respective Subfund which are reserved to one or more institutional investors as set forth in article 174 (2) c) of the Law of December 17, 2010.

Further, an exemption of the reduced tax rate of 0.01% p.a. of the net assets will apply to Share Classes of the respective Subfund where (i) securities are listed or traded on at least one stock exchange or another regulated market operating regularly, recognised and open to the public;

and (ii) whose exclusive object is to replicate the performance of one or more indices as required by Article 175 e) of the Law of 17 December 2010. If several classes of securities exist within the Company or the respective Subfund, the exemption only applies if the conditions mentioned in point (i) are fulfilled by Share Classes of the respective Subfund.

The Company's income is not taxable in Luxembourg.

Dividends, interest, income and gains received by the Company on its investments may be subject to non-recoverable withholding tax or other taxes in the countries of origin.

According to the legislation currently in force in Luxembourg, Shareholders are not required to pay any income, gift, inheritance or other taxes in Luxembourg unless they are resident or domiciled in Luxembourg or maintain a permanent establishment there.

The tax consequences will vary for each investor in accordance with the laws and practices currently in force in a Shareholder's country of citizenship, residence or temporary domicile, and in accordance with his or her personal circumstances. Investors should therefore ensure they are fully informed in this respect and should, if necessary, consult their own financial advisers.

ii. Expenses

The Company pays a monthly management fee and / or a monthly management service fee, payable at the end of each month, based on the average daily Net Asset Values of the relevant Share Classes during that month.

The management fee and management service fee may be charged at different rates for individual Subfunds and Share Classes within a Subfund or may be waived in full.

Further details of the management fees and management service fee are included in Chapter 2, "Summary of Share Classes".

The management fee applicable to Class "A" and "B" Shares and payable to the Management Company comprises the distribution fee and the charges in relation to the provision of investment management.

The management fee applicable to Class "QA", "QAH", "QB", "QBH", "FA", "FB", "FAH" and "FBH" Shares and payable to the Management Company comprises the charges in relation to the provision of investment management.

The management service fee which is in addition applicable to Class "A", "B", "QA", "QAH", "QB", "QBH", "FA", "FB", "FAH" and "FBH" Shares and payable to the Management Company comprises all fees and expenses not covered by the management fee.

Class "DA", "DB", "DAH" and "DBH" Shares are only subject to a management service fee, payable by the Company to the Management Company covering all fees and expenses. An investment management and distribution fee will be charged directly to the investor, according to the agreement entered into between the investor and an entity of Credit Suisse Group.

The aforementioned management service fee covers the costs specified below:

- a) Fees payable to the Depositary, which are charged at rates agreed from time to time with the Company on the basis of usual market rates prevailing in Luxembourg, and which are based on the net assets of the respective Subfund and/or the value of transferable securities and other assets held or determined as a fixed sum; in certain cases the transaction fees and the fees of the Depositary's correspondents may be charged additionally;
- b) Fees payable to the Central Administration, which are charged at rates agreed from time to time with the Company on the basis of usual market rates prevailing in Luxembourg, and which are based on the net assets of the respective Subfund or determined as a fixed sum;
- c) Fees payable to the Paying Agents (in particular, a coupon payment commission), Transfer Agents and the authorized representatives in the countries of registration;
- d) All other charges incurred for sales activities and other services rendered to the Company but not mentioned in the present section; for certain Share Classes these fees may be borne in full or in part by the Management Company;
- e) Fees incurred for collateral management in relation to derivative transactions;

- f) Expenses, including those for legal advice, which may be incurred by the Company or the Depositary as a result of measures taken on behalf of the Shareholders;
- g) The costs of preparing, depositing and publishing the Articles of Incorporation and other documents in respect of the Company, including notifications for registration, Key Investor Information Documents, prospectuses or memoranda for all government authorities and stock exchanges (including local securities dealers' associations) which are required in connection with the Company or with offering the Shares; the cost of printing and distributing annual and semi-annual reports for the Shareholders in all required languages, together with the cost of printing and distributing all other reports and documents which are required by the relevant legislation or regulations of the above-mentioned authorities; any license fees payable to index providers; the cost of book-keeping and calculating the daily Net Asset Value, the cost of notifications to Shareholders including the publication of prices for the Shareholders, the fees and costs of the Company's auditors and legal advisers, and all other similar administrative expenses, and other expenses directly incurred in connection with the offer and sale of Shares, including the cost of printing copies of the aforementioned documents or reports as are used in marketing the Company's Shares. The cost of advertising may also be charged.
- h) Furthermore, the 'taxe d'abonnement', if applicable, will be part of the management service fee.

The Company will bear all taxes which may be payable on the assets, income and expenses chargeable to the Company as well as Standard brokerage, clearing account maintenance fees, fees charged by clearing platforms and bank charges incurred by the Company through securities transactions in relation to the portfolio (these charges shall be included in the acquisition cost of such securities and deducted from the sale proceeds).

All recurring fees shall first be deducted from investment income, then from the gains from securities transactions and then from the Company's assets. Other non-recurring fees, such as the costs for establishing the Company and (new) Subfunds or Share Classes, may be written off over a period of up to five years.

The costs attributable to the individual Subfunds shall be allocated directly to them; otherwise the costs shall be divided among the individual Subfunds in proportion to the net asset value of each Subfund.

10. Accounting Year

The accounting year of the Company closes on 31 December of each year and for the first time on 31 December 2012.

11. Appropriation of Net Income and Capital Gains

Capital-Growth Shares

At present, no distribution is envisaged for capital-growth Share Classes of the Subfunds (see Chapter 5, "Investment in Credit Suisse Index Fund (Lux)") and the income generated shall be used to increase the Net Asset Value of the Shares after deduction of general costs. However, within the scope of statutory provisions the Company may distribute from time to time, in whole or in part, ordinary net income and/or realized capital gains as well as all non-recurring income, after deduction of realized capital losses.

Distribution Shares

The Board of Directors is entitled to determine the payment of dividends and decides to what extent distributions are to be made from the net investment income attributable to each distributing Share Class of the Subfund in question (see Chapter 5, "Investment in Credit Suisse Index Fund (Lux)"). In addition, gains made on the sale of assets belonging to the Subfund may be distributed to investors. Further distributions may be made from the Subfund's assets in order to achieve an appropriate distribution ratio.

Distributions may be declared on an annual basis or at any intervals to be specified by the Board of Directors, unless otherwise specified in Chapter 23, "Subfunds".

Appropriation of the annual result as well as other distributions are proposed by the Board of Directors to the Annual General Meeting and are determined by the latter.

Distributions may on no account cause the Company's capital to fall below the minimum amount prescribed by law.

General Information

Payment of income distributions shall be made in the manner described in Chapter 5.iii, "Redemption of Shares".

Claims for distributions which are not made within five years shall lapse and the assets involved shall revert to the respective Subfund.

12. Lifetime, Liquidation and Merger

The Company and the Subfunds have been established for an unlimited period, unless otherwise specified in Chapter 23, "Subfunds. However, an extraordinary General Meeting of Shareholders may dissolve the Company. To be valid, such a resolution shall require the minimum quorum prescribed by law. If the capital of the Company falls below two thirds of the minimum amount, the Board of Directors must submit the question of the Company's dissolution to a General Meeting of Shareholders for which no quorum is prescribed and which may pass a resolution by a simple majority of the Shares represented. If the capital of the Company falls below one quarter of the minimum amount, the Board of Directors must submit the question of the Company's dissolution to a General Meeting of Shareholders. In such cases, no quorum is required; Shareholders holding one quarter of the Shares at the General Meeting may pass a resolution to dissolve the Company. The minimum capital required under Luxembourg law is currently EUR 1,250,000. If the Company is liquidated, the liquidation shall be effected in accordance with Luxembourg law, the liquidator(s) named by the General Meeting of Shareholders shall dispose of the Company's assets in the best interests of the Shareholders and the net liquidation proceeds of the Subfunds shall be distributed pro rata to the Shareholders of these Subfunds.

A Subfund may be liquidated and Shares in the Subfund concerned may be subject to compulsory redemption based on:

- a resolution passed by the Company's Board of Directors, as the Subfund may no longer be appropriately managed within the interests of the shareholders; or
- a resolution passed by the General Meeting of Shareholders of the Subfund in question; the Articles of Incorporation specify that the quorum and majority requirements laid down by Luxembourg law in respect of resolutions to amend the Articles of Incorporation shall apply to such General Meetings.

Any resolution passed by the Company's Board of Directors to dissolve a Subfund shall be published in accordance with Chapter 14, "Information for Shareholders". The Net Asset Value of the Shares of the relevant Subfund will be paid out on the date of the mandatory redemption of the Shares. Any liquidation and redemption proceeds that cannot be distributed to the Shareholders at the closure of the liquidation shall be deposited with the "Caisse de Consignation" in Luxembourg until the statutory period of limitation has elapsed.

In accordance with the definitions and conditions set out in the Law of 17 December 2010, any Subfund may, either as a merging Subfund or as a receiving Subfund, be subject to mergers with another Subfund of the Company or another UCITS, on a domestic or cross-border basis. The Company itself may also, either as a merging UCITS or as a receiving UCITS be subject to cross-border and domestic mergers.

Furthermore, a Subfund may as a receiving Subfund be subject to mergers with another UCI or a Subfund thereof, on a domestic or cross-border basis.

In all cases, the Board of Directors of the Company will be competent to decide on the merger. Insofar as a merger requires the approval of the Shareholders pursuant to the provisions of the Law of 17 December 2010, the meeting of Shareholders deciding by simple majority of the votes cast by Shareholders present or represented at the meeting is competent to approve the effective date of such a merger. No quorum requirement will be applicable. Only the approval of the Shareholders of the Subfunds concerned by the merger will be required.

Mergers shall be announced at least thirty days in advance in order to enable Shareholders to request the redemption or conversion of their shares.

13. General Meetings

The Annual General Meeting ("AGM") of the Shareholders in the Company shall be held in Luxembourg at the place specified in the convening notice on the third Wednesday of May of each year at 10.00 a.m. (Central

European Time). If this date is not a Banking Day in Luxembourg, the AGM will take place on the next Banking Day. Generally, notices of all General Meetings will be sent to the holders of registered Shares by registered mail at least eight (8) calendar days prior to the meeting at their addresses shown in the register of Shareholders. Meetings of the Shareholders of a particular Subfund may only pass resolutions relating to that Subfund.

14. Information for Shareholders

Information about the launch of new Subfunds may be obtained from the Company and the Distributors. The audited annual reports shall be made available to Shareholders free of charge at the registered office of the Company, at the Paying Agents, Information Agents and Distributors, within four months after the close of each accounting year.

Unaudited semi-annual reports shall be made available in the same way within two months after the end of the accounting period to which they refer.

Other information regarding the Company, as well as the issue and redemption prices of the Shares may be obtained on any Banking Day at the Company's registered office.

The Net Asset Value shall be published on the Internet at www.credit-suisse.com and may be published in various newspapers.

All notices to Shareholders, including any information relating to a suspension of the calculation of the Net Asset Value, shall be announced online at www.credit-suisse.com and, if required, be published in the "Mémorial" and/or in various newspapers.

Investors may obtain the Prospectus, the Key Investor Information Document, the latest annual and semi-annual reports and copies of the Articles of Incorporation free of charge from the registered office of the Company or on the internet at "www.credit-suisse.com". The relevant contractual agreements as well as the Management Company's Articles of Incorporation are available for inspection at the Company's registered office during normal business hours.

15. Management Company

The Company has designated Credit Suisse Fund Management S.A. to act as its Management Company. Credit Suisse Fund Management S.A. was incorporated in Luxembourg as CSAM Invest Management Company on 9 December 1999 as a joint-stock company for an indefinite period and is registered at the Luxembourg Trade and Companies Register under no. B 72 925. The Management Company has its registered office in Luxembourg, at 5, rue Jean Monnet. Its capital, on the date of this prospectus, is CHF 250,000. The share capital of the Management Company is held by Credit Suisse Holding Europe (Luxembourg) S.A., Luxembourg.

The Management Company is subject to the provisions of Chapter 15 of the Law of December 17, 2010 and also manages other undertakings for collective investment.

16. Investment Manager and Sub-Investment Manager

The Company's Board of Directors is responsible for investing the Subfunds' assets. The Board of Directors has appointed the Management Company to implement the Subfunds' investment policy on a day-to-day basis.

In order to implement the policy of each Subfund, the Management Company may delegate, under its permanent supervision and responsibility, the management of the assets of the Subfunds to one or more Investment Managers.

Pursuant to the Investment Management Agreement, the Investment Manager has discretion, on a day-to-day basis and subject to the overall control and ultimate responsibility of the Management Company, to purchase and sell securities and otherwise to manage the relevant Subfund's portfolios.

The Investment Manager may appoint in accordance with the investment management agreement entered into between the Investment Manager and the Management Company one or more Sub-Investment Managers for each Subfund to assist it in the management of the individual portfolios. The Investment Manager and Sub-Investment Manager/s for the respective Subfunds are indicated in Chapter 23, "Subfunds". The Management Company may at any time appoint an Investment Manager other than the one/s named in Chapter 23, "Subfunds", or may terminate the relation with any of the Investment Manager/s. The investors of such Subfund will be informed and the Prospectus will be modified accordingly.

17. Depositary

Pursuant to a depositary and paying agent services agreement (the "Depositary Agreement"), Credit Suisse (Luxembourg) S.A. has been appointed as depositary of the Company (the "Depositary"). The Depositary will also provide paying agent services to the Company.

Credit Suisse (Luxembourg) S.A. is a public limited company (société anonyme) under the laws of Luxembourg incorporated for an unlimited duration. Its registered and administrative offices are at 5, rue Jean Monnet, L-2180 Luxembourg, Grand Duchy of Luxembourg. It is licensed to engage in all banking operations under Luxembourg law.

The Depositary has been appointed for the safe-keeping of the assets of the Company in the form of custody of financial instruments, the record keeping and verification of ownership of other assets of the Company as well as for the effective and proper monitoring of the Company's cash flows in accordance with the provisions of the Law of 17 December 2010 and the Depositary Agreement.

In addition, the Depositary shall also ensure that (i) the sale, issue, repurchase, redemption and cancellation of Shares are carried out in accordance with Luxembourg law and the Articles of Incorporation; (ii) the value of the Shares is calculated in accordance with Luxembourg law and the Articles of Incorporation; (iii) the instructions of the Management Company or the Company are carried out, unless they conflict with applicable Luxembourg law and/or the Articles of Incorporation; (iv) in transactions involving the Company's assets any consideration is remitted to the Company within the usual time limits; and (v) the Company's incomes are applied in accordance with Luxembourg law and the Articles of Incorporation.

In compliance with the provisions of the Depositary Agreement and the Law of 17 December 2010, the Depositary may, subject to certain conditions and in order to effectively conduct its duties, delegate part or all of its safe-keeping duties in relation to financial instruments that can be held in custody and that are duly entrusted to the Depositary for custody purposes to one or more sub-custodian(s), and/or in relation to other assets of the Company all or part of its duties regarding the record keeping and verification of ownership to other delegates, as they are appointed by the Depositary from time to time. The Depositary shall exercise all due skill, care and diligence as required by the Law of 17 December 2010 in the selection and the appointment of any sub-custodian and/or other delegate to whom it intends to delegate parts of its tasks and has to continue to exercise all due skill, care and diligence in the periodic review and ongoing monitoring of any sub-custodian and/or other delegate to which it has delegated parts of its tasks as well as of the arrangements of the sub-custodian and/or other delegate in respect of the matters delegated to it. In particular, any delegation of custody tasks may only occur when the sub-custodian, at all times during the performance of the tasks delegated to it, segregates the assets of the Company from the Depositary's own assets and from assets belonging to the sub-custodian in accordance with the Law of 17 December 2010.

As a matter of principle the Depositary does not allow its sub-custodians to make use of delegates for the custody of financial instruments unless further delegation by the sub-custodian has been agreed by the Depositary. To the extent, sub-custodians are accordingly entitled to use further delegates for the purpose of holding financial instruments of the Company or Subfunds that can be held in custody, the Depositary will require the sub-custodians to comply for the purpose of such sub-delegation with the requirements set forth by applicable laws and regulations, e.g. namely in respect of asset segregation.

Prior to the appointment and/or the use of any sub-custodian for the purposes of holding financial instruments of the Company or Subfunds, the Depositary analyses - based on applicable laws and regulations as well as its conflict of interests policy - potential conflicts of interests that may arise from such delegation of safekeeping functions. As part of the due diligence process applied prior to the appointment of a sub-custodian, this analysis includes the identification of corporate links between the Depositary, the sub-custodian, the Management Company and/or the Investment Manager. If a conflict of interest was identified between the sub-custodians and any of the parties mentioned before, the Depositary would - depending on the potential risk resulting on such conflict of interest - either decide not to appoint or not to use such sub-custodian for the purpose of holding financial instruments of the Company or require changes which mitigated potential risks in an appropriate manner and disclose the managed conflict of interest to the Company's investors.

Such analysis is subsequently performed on all relevant sub-custodians on a regular basis as part of its ongoing due diligence procedure. Furthermore, the Depositary reviews, via a specific committee, each new business case for which potential conflicts of interest may arise between the Depositary, the Company, the Management Company and the Investment Manager(s) from the delegation of the safekeeping functions. As of the date of this Prospectus, the Depositary has not identified any potential conflict of interest that could arise from the exercise of its duties and from the delegation of its safekeeping functions to sub-custodians.

As per the date of this Prospectus, the Depositary does not use any sub-custodian which is part of the Credit Suisse Group and thereby avoids conflicts of interests which might potentially result thereof.

An up-to-date list of these sub-custodians along with their delegate(s) for the purpose of holding in custody financial instruments of the Company or Subfunds can be found on the webpage <https://www.credit-suisse.com/media/pb/docs/lu/privatebanking/services/list-of-credit-suisse-lux-sub-custodians.pdf> and will be made available to Shareholders and investors upon request.

The Depositary's liability shall not be affected by any such delegation to a sub-custodian unless otherwise stipulated in the Law of 17 December 2010 and/or the Depositary Agreement.

The Depositary is liable to the Company or its Shareholders for the loss of a financial instrument held in custody by the Depositary and/or a sub-custodian. In case of loss of such financial instrument, the Depositary has to return a financial instrument of an identical type or the corresponding amount to the Company without undue delay. In accordance with the provisions of the Law of 17 December 2010, the Depositary will not be liable for the loss of a financial instrument, if such loss has arisen as a result of an external event beyond its reasonable control, the consequences of which would have been unavoidable despite all reasonable efforts to the contrary.

The Depositary shall be liable to the Company and to the Shareholders for all other losses suffered by them as a result of the Depositary's negligence or intentional failure to properly fulfil its duties in accordance with applicable law, in particular the Law of 17 December 2010 and/or the Depositary Agreement.

The Company and the Depositary may terminate the Depositary Agreement at any time by giving ninety (90) days' notice in writing. In case of a voluntary withdrawal of the Depositary or of its removal by the Company, the Depositary must be replaced at the latest within two (2) months after the expiry of the aforementioned termination notice by a successor depositary to whom the Company's assets are to be delivered and who will take over the functions and responsibilities of the Depositary. If the Company does not name such successor depositary in time the Depositary may notify the CSSF of the situation. The Company will take the necessary steps, if any, to initiate the liquidation of the Company, if no successor depositary bank has been appointed within two (2) months after the expiry of the aforementioned termination notice of ninety (90) days.

18. Central Administration

The Management Company has transferred the administration of the Company to Credit Suisse Fund Services (Luxembourg) S.A., a service company registered in Luxembourg, which belongs to Credit Suisse Group AG, and has authorized the latter in turn to delegate tasks wholly or partly to one or more third parties under the supervision and responsibility of the Management Company.

As the Central Administration, Credit Suisse Fund Services (Luxembourg) S.A., will assume all administrative duties that arise in connection with the administration of the Company, including the issue and redemption of Shares, valuation of the assets, calculation of the Net Asset Value, accounting and maintenance of the register of Shareholders.

19. Regulatory Disclosure

Conflicts of Interest

The Management Company, the Investment Managers, the Central Administration, the Depositary and certain Distributors are part of Credit Suisse Group AG (the "Affiliated Person").

The Affiliated Person is a worldwide, full-service private banking, investment banking, asset management and financial services organization and a major participant in the global financial markets. As such, the Affiliated Person is active in various business activities and may have other direct or indirect interests in the financial markets in which the Company

invests. The Company will not be entitled to compensation related to such business activities.

The Management Company is not prohibited to enter into any transactions with the Affiliated Person, provided that such transactions are carried out as if effected on normal commercial terms negotiated at arm's length. In such case, in addition to the management fees the Management Company or the Investment Manager earn for managing the Company, they may also have an arrangement with the issuer, dealer and/or distributor of any products entitling them to a share in the revenue from such products that they purchase on behalf of the Company.

Moreover, the Management Company or the Investment Managers are not prohibited to purchase or to provide advice to purchase any products on behalf of the Company where the issuer, dealer and/or distributor of such products is part of the Affiliated Person provided that such transactions are carried out in the best interest of the Company as if effected on normal commercial terms negotiated at arm's length. Entities of the Affiliated Person act as counterparty in respect of financial derivative contracts entered into by the Company.

Potential conflicts of interest or duties may arise because the Affiliated Person may have invested directly or indirectly in the Company. The Affiliated Person could hold a relatively large proportion of Shares in the Company.

Employees and Directors of the Affiliated Person may hold Shares in the Company. Employees of the Affiliated Person are bound by the terms of the respective policy on personal transactions and conflicts of interest applicable to them.

In the conduct of its business the Management Company and the Affiliated Person's policy is to identify, manage and where necessary prohibit any action or transaction that may pose a conflict between the interests of the Affiliated Persons' various business activities and the Company or its investors. The Affiliated Person, as well as the Management Company strive to manage any conflicts in a manner consistent with the highest standards of integrity and fair dealing. For this purpose, both have implemented procedures that shall ensure that any business activities involving a conflict which may harm the interests of the Company or its investors, are carried out with an appropriate level of independence and that any conflicts are resolved fairly.

Such procedures include, but are not limited to the following:

- Procedure to prevent or control the exchange of information between entities of the Affiliated Person,
- Procedure to ensure that any voting rights attached to the Company's assets are exercised in the sole interests of the Company and its investors,
- Procedures to ensure that any investment activities on behalf of the Company are executed in accordance with the highest ethical standards and in the interests of the Company and its investors,
- Procedure on management of conflicts of interest.

Notwithstanding its due care and best effort, there is a risk that the organisational or administrative arrangements made by the Management Company for the management of conflicts of interest are not sufficient to ensure with reasonable confidence, that risks of damage to the interests of the Company or its Shareholders will be prevented. In such case these non-neutralised conflicts of interest as well as the decisions taken will be reported to investors in an appropriate manner (e.g. in the notes to the financial statements of the Company or on the internet at "www.credit-suisse.com").

Complaints Handling

Investors are entitled to file complaints free of charge with the Distributor or the Management Company in an official language of their home country.

The complaints handling procedure is available free of charge on the internet at "www.credit-suisse.com".

Exercise of Voting Rights

The Management Company will in principle not exercise voting rights attached to the instruments held in the Subfunds, except it is specifically mandated by the Company to do so, and in that case, it will only exercise voting rights in certain circumstances where it believes that the exercise of voting rights is particularly important to protect the interests of Shareholders. If mandated by the Company, the decision to exercise voting rights, in particular the determination of the circumstances referred to above, is in the sole discretion of the Management Company.

Details of the actions taken will be made available to Shareholders free of charge on their request.

Best Execution

The Management Company acts in the best interests of the Company when executing investment decisions. For that purpose it takes all reasonable steps to obtain the best possible result for the Company, taking into account price, costs, speed, likelihood of execution and settlement, order size and nature, or any other consideration relevant to the execution of the order (best execution). Where the Investment Managers are permitted to execute transactions, they will be committed contractually to apply equivalent best execution principles, if they are not already subject to equivalent best execution laws and regulations.

The best execution policy is available for investors on the internet at "www.credit-suisse.com".

Investor Rights

The Company draws the investors' attention to the fact that any investor will only be able to fully exercise its investor rights directly against the Company, notably the right to participate in General Meetings of Shareholders if the investor is registered itself and in its own name in the registered account kept for the Company and its Shareholders by the Company's Central Administration. In cases where an investor invests in the Company through an intermediary investing into the Company in its own name but on behalf of the investor, it may not always be possible for the investor to exercise certain shareholder rights directly against the Company. Investors are advised to take advice on their rights.

Remuneration Policy

The Management Company has in place a remuneration policy which is consistent with, and promotes, sound and effective risk management and that neither encourages risk taking which is inconsistent with the risk profiles of the Subfunds and the Articles of Incorporation nor impairs compliance with the Management Company's duty to act in the best interest of the Company and its Shareholders.

The remuneration policy of the Management Company has been adopted by its board of directors and is reviewed at least annually. The remuneration policy is based on the approach that remuneration should be in line with the business strategy, objectives, values and interests of the Management Company, the Subfunds it manages and their Shareholders, and include measures to avoid conflicts of interest, such as taking into account the holding period recommended to the Shareholders when assessing the performance.

All employees of the Credit Suisse group are subject to the Group Compensation Policy, the objectives of which include:

- (a) supporting a performance culture that is based on merit and differentiates and rewards excellent performance, both in the short and long term, and recognizes Credit Suisse's company values;
- (b) balancing the mix of fixed and variable compensation to appropriately reflect the value and responsibility of the role performed day to day, and to influence appropriate behaviours and actions; and
- (c) consistency with, and promotion of, effective risk management practices and Credit Suisse's compliance and control culture.

Details of the up-to-date remuneration policy of the Management Company, including, but not limited to, a description of how remuneration and benefits are calculated, the identity of persons responsible for awarding the remuneration and benefits, including a description of the global Credit Suisse group compensation committee are available on https://www.credit-suisse.com/media/assets/corporate/docs/about-us/governance/compensation/compensation_policy.pdf, and a paper copy will be made available free of charge upon request.

Collateral Policy

Where the Company enters into OTC financial derivative and/or efficient portfolio management techniques, collateral may be used to reduce counterparty risk exposure in accordance with CSSF Circulars 08/356 and 14/592 and subject to the following principles:

- the Company currently accepts the following assets as eligible collateral:
 - Cash in US Dollars, Euros and Swiss Francs, and a Subfund's reference currency;
 - Government bonds, issued by OECD member countries, subject to a minimum long term rating requirement of A+/A1;

- Bonds issued by federal states, government agencies, supranational institutions, government special banks or governmental export-import banks, municipalities or cantons of OECD member countries, subject to a minimum long term rating requirement of A+/A1;
- Covered bonds issued by an issuer from an OECD member country, subject to a minimum long term rating of AA-/Aa3;
- Corporate bonds issued by an issuer from an OECD member country, subject to a minimum long term rating of AA-/Aa3;
- Shares representing common stock admitted to or dealt in on a regulated market of a Member State of the EU or on a stock exchange of a Member State of the OECD and included in a main index.

The issuer of negotiable debt obligations must have a relevant credit rating by S&P and/or Moody's.

Where the relevant ratings of S&P and Moody's differ with respect to the same issuer, the lower of the ratings shall apply.

The Management Company has the right to restrict or exclude certain OECD countries from the list of eligible countries, or more generally, to further restrict the eligible collateral.

- Any collateral received other than cash must be highly liquid and traded on a regulated market or multilateral trading facility with transparent pricing in order that it can be sold quickly at a price that is close to pre-sale valuation. Collateral received must also comply with the provisions of Article 48 of the Law of 17 December 2010.
- Collateral received will be valued on at least a daily basis. Assets that exhibit high price volatility will not be accepted as collateral unless suitably conservative haircuts are in place.
- Collateral received must be of high quality.
- The collateral received by the Company must be issued by an entity that is independent from the counterparty and is expected not to display a high correlation with the performance of the counterparty.
- Collateral must be sufficiently diversified in terms of country, markets and issuers. The criterion of sufficient diversification with respect to issuer concentration is considered to be respected if a Subfund receives from a counterparty of OTC derivative and/or efficient portfolio management transactions a basket of collateral with a maximum exposure to a given issuer of 20% of its Net Asset Value. When a Subfund is exposed to different counterparties, the different baskets of collateral must be aggregated to calculate the 20% limit of exposure to a single issuer. By way of derogation from this sub-paragraph, a Subfund may be fully collateralised in different transferable securities and money market instruments issued or guaranteed by a Member State, one or more of its local authorities, a third country, or a public international body to which one or more Member States belong. Such a Subfund must receive securities from at least six different issues, but securities from any single issue should not account for more than 30% of the Subfund's Net Asset Value.
- Risks linked to the management of collateral, such as operational and legal risks, will be identified, managed and mitigated in accordance with the Management Company's risk management process concerning the Company.
- Where there is a title transfer, the collateral received must be held by the Depositary. For other types of collateral arrangement, the collateral can be held by a third party custodian which is subject to prudential supervision, and which is unrelated to the provider of the collateral.
- Collateral received must be capable of being fully enforced by the Company at any time without reference to or approval from the counterparty.
- Non-cash collateral received must not be sold, re-invested or pledged.

Haircut Policy

The Company has implemented a haircut policy in respect of each class of assets received as collateral. A haircut is a discount applied to the value of a collateral asset to account for the fact that its valuation, or liquidity profile, may deteriorate over time. The haircut policy takes account of the characteristics of the relevant asset class, the type and credit quality of the issuer of the collateral, the price volatility of the collateral and the results of any stress tests which may be performed in accordance with the collateral management policy. Subject to the framework of agreements in place with the relevant counterparty, which may or may not include minimum transfer

amounts, it is the intention of the Company that any collateral received shall have a value, adjusted in light of the haircut policy.

According to the Company's haircut policy the following discounts will be made:

Type of Collateral	Discount
Cash, restricted to USD, EUR, CHF and a Subfund's reference currency	0%
Government bonds, issued by OECD member countries, subject to a minimum long term rating requirement of A+/A1	0.5% - 5%
Bonds issued by federal states, government agencies, supranational institutions, government special banks or governmental export-import banks, municipalities or cantons of OECD member countries, subject to a minimum long term rating requirement of A+/A1	0.5% - 5%
Covered bonds issued by an issuer from an OECD member country, subject to a minimum long term rating of AA-/Aa3	1% - 8%
Corporate bonds issued by an issuer from an OECD member country, subject to a minimum long term rating of AA-/Aa3	1% - 8%
Shares representing common stock admitted to or dealt in on a regulated market of a Member State of the EU or on a stock exchange of a Member State of the OECD and included in a main index	5% - 15%

In addition to the above haircuts, there will be an additional haircut of 1% - 8% on any collateral (cash, bonds or equity) in a different currency to that of its underlying transaction.

Moreover, in case of unusual market volatility, the Management Company reserves the right to increase the haircut it applies to collateral. As a consequence, the Company will receive more collateral to secure its counterparty exposure.

20. Data Protection Policy

Certain personal data of investors (including, but not limited to, the name, address and invested amount of each investor) may be collected, recorded, stored, adapted, transferred or otherwise processed and used by the Management Company, the Depositary, the Central Administration and the financial intermediaries of the investors. In particular, such data may be processed for the purposes of performing operational, risk management or supervision functions, complying with any threshold reporting obligations or with any applicable laws and regulations, including but not limited to any anti-money laundering and counter terrorism financing regulations, but also for the purpose of account identification and distribution fee administration, maintaining the register of shareholders, processing subscription, redemption and conversion orders and payments of dividends to investors and to provide any other client-related services or services to the Company.

The Management Company may sub-contract to a service provider (the Processor), such as the Central Administration, the processing of personal data. The Management Company, the Central Administration and the financial intermediaries may also transfer such personal data to affiliates and third parties which intervene in the process of the business relationship or where the transfer is necessary for the abovementioned purposes, being understood that those affiliates and third parties may be located within or outside of the European Union. Investors must also be aware that telephone conversations with the Management Company, the Depositary and the Central Administration may be recorded. Recordings will be conducted in compliance with applicable laws and regulations. Recordings may be produced in court or other legal proceedings with the same value in evidence as a written document.

Each investor whose personal data has been processed has a right of access to his/her/its personal data and may ask for a rectification thereof in case where such data is inaccurate or incomplete.

By subscribing to the Shares, each investor consents to such processing of his/her/its personal data. This consent is formalised in writing in the application form used by the Central Administration.

21. Certain Regulatory and Tax Matters

Foreign Account Tax Compliance

The Foreign Account Tax Compliance provisions of the Hiring Incentives to Restore Employment Act (commonly known as "FATCA") generally impose a new reporting regime and potentially a 30% withholding tax with respect to (i) certain US source income (including dividends and interest) and gross proceeds from the sale or other disposal of property that can produce US source interest or dividends ("Withholdable Payments") and (ii) a portion of certain non-US source payments from non-US entities that have entered into FFI Agreements (as defined below) to the extent attributable to Withholdable Payments ("Passthru Payments"). As a general matter, the new rules are designed to require US persons' direct and indirect ownership of non-US accounts and non-US entities to be reported to the US Internal Revenue Service (the "IRS"). The 30% withholding tax regime applies if there is a failure to provide required information regarding US ownership. The new withholding rules will be phased in beginning 1 July 2014.

Generally, the new rules will subject all Withholdable Payments and Passthru Payments received by the Company to 30% withholding tax (including the share that is allocable to Non-US Investors) unless the Company enters into an agreement (a "FFI Agreement") with the IRS to provide information, representations and waivers of non-US law (including any waivers relating to data protection) as may be required to comply with the provisions of the new rules, including information regarding its direct and indirect US account holders, or otherwise qualifies for an exemption, including an exemption under an intergovernmental agreement (or "IGA") between the United States and a country in which the non-US entity is resident or otherwise has a relevant presence.

The governments of Luxembourg and the United States have entered into an IGA regarding FATCA. Provided the Company adheres to any applicable terms of the IGA, the Company will not be subject to withholding or generally required to withhold amounts on payments it makes under FATCA. Additionally the Company will not have to enter into an FFI agreement with the IRS and instead will be required to obtain information regarding its Shareholders and to report such information to the Luxembourg government, which, in turn, would report such information to the IRS.

Any tax caused by an Investor's failure to comply with FATCA will be borne by such Investor.

Each prospective Investor and each Shareholder should consult its own tax advisors regarding the requirements under FATCA with respect to its own situation.

Each Shareholder and each transferee of a Shareholder's interest in any Subfund shall furnish (including by way of updates) to the Management Company, or any third party designated by the Management Company (a "Designated Third Party"), in such form and at such time as is reasonably requested by the Management Company (including by way of electronic certification) any information, representations, waivers and forms relating to the Shareholder (or the Shareholder's direct or indirect owners or account holders) as shall reasonably be requested by the Management Company or the Designated Third Party to assist it in obtaining any exemption, reduction or refund of any withholding or other taxes imposed by any taxing authority or other governmental agency (including withholding taxes imposed pursuant to the Hiring Incentives to Restore Employment Act of 2010, or any similar or successor legislation or intergovernmental agreement, or any agreement entered into pursuant to any such legislation or intergovernmental agreement) upon the Company, amounts paid to the Company, or amounts allocable or distributable by the Company to such Shareholder or transferee. In the event that any Shareholder or transferee of a Shareholder's interest fails to furnish such information, representations, waivers or forms to the Management Company or the Designated Third Party, the Management Company or the Designated Third Party shall have full authority to take any and all of the following actions: (i) withhold any taxes required to be withheld pursuant to any applicable legislation, regulations, rules or agreements; (ii) redeem the Shareholder's or transferee's interest in any Subfund, and (iii) form and operate an investment vehicle organized in the United States that is treated as a "domestic partnership" for purposes of section 7701 of the Internal Revenue Code of 1986, as amended and transfer such Shareholder's or transferee's interest in any Subfund or interest in such Subfund assets and liabilities to such investment vehicle. If requested by the Management Company or the Designated Third Party, the Shareholder or transferee shall execute any and all documents, opinions, instruments

and certificates as the Management Company or the Designated Third Party shall have reasonably requested or that are otherwise required to effectuate the foregoing. Each Shareholder hereby grants to the Management Company or the Designated Third Party a power of attorney, coupled with an interest, to execute any such documents, opinions, instruments or certificates on behalf of the Shareholder, if the Shareholder fails to do so.

The Management Company or the Designated Third Party may disclose information regarding any Shareholder (including any information provided by the Shareholder pursuant to this Chapter) to any person to whom information is required or requested to be disclosed by any taxing authority or other governmental agency including transfers to jurisdictions which do not have strict data protection or similar laws, to enable the Company to comply with any applicable law or regulation or agreement with a governmental authority.

Each Shareholder hereby waives all rights it may have under applicable bank secrecy, data protection and similar legislation that would otherwise prohibit any such disclosure and warrants that each person whose information it provides (or has provided) to the Management Company or the Designated Third Party has been given such information, and has given such consent, as may be necessary to permit the collection, processing, disclosure, transfer and reporting of their information as set out in this Chapter and this paragraph.

The Management Company or the Designated Third Party may enter into agreements on behalf of the Company with any applicable taxing authority (including any agreement entered into pursuant to the Hiring Incentives to Restore Employment Act of 2010, or any similar or successor legislation or intergovernmental agreement) to the extent it determines such an agreement is in the best interest of the Company or any Shareholder.

Automatic Exchange of Information

On 9 December 2014, the Council of the European Union adopted the Directive 2014/107/EU amending the Directive 2011/16/EU of 15 February 2011 on administrative cooperation in the field of taxation which now provides for an automatic exchange of financial account information between EU Member States ("**DAC Directive**"). The adoption of the aforementioned directive implements the OECD's CRS and generalizes the automatic exchange of information within the European Union as of 1 January 2016.

In addition, Luxembourg signed the OECD's multilateral competent authority agreement ("**Multilateral Agreement**") to automatically exchange information between financial authorities. Under this Multilateral Agreement, Luxembourg will automatically exchange financial account information with other participating jurisdictions as of 1 January 2016. The CRS-Law implements this Multilateral Agreement, jointly with the DAC Directive introducing the CRS in Luxembourg law.

Under the terms of the CRS-Law, the Company may be required to annually report to the Luxembourg tax authority the name, address, state(s) of residence, TIN(s), as well as the date and place of birth of i) each Reportable Person that is an account holder, ii) and, in the case of a Passive NFE within the meaning of the CRS-Law, of each Controlling Person(s) that is a Reportable Person. Such information may be disclosed by the Luxembourg tax authority to foreign tax authorities.

The Company's ability to satisfy its reporting obligations under the CRS Law will depend on each Shareholder providing the Company with the Information, including information regarding direct or indirect owners of each Shareholder, along with the required supporting documentary evidence. Upon request of the Company, each Shareholder shall agree to provide the Company such information.

Although the Company will attempt to satisfy any obligation imposed on it to avoid any taxes or penalties imposed by the CRS-Law, no assurance can be given that the Company will be able to satisfy these obligations. If the Company becomes subject to a tax or penalty as result of the CRS-Law, the value of the Shares may suffer material losses.

Any Shareholder that fails to comply with the Company's documentation requests may be charged with any taxes and penalties imposed on the Company attributable to such Shareholder's failure to provide the information and the Company may, in its sole discretion, redeem the Shares of such Shareholder.

Shareholders should consult their own tax advisor or otherwise seek professional advice regarding the impact of the CRS-Law on their investment.

23. Subfunds

Credit Suisse Index Fund (Lux) Aggregate Bonds EUR

The Reference Currency in which the performance and net asset value of the Subfund are calculated is Euro.

Investment Objective

The Subfund tracks the **Bloomberg Barclays Euro Aggregate Bond Index** as its benchmark index.

The Investment Objective of the Subfund is to provide the Shareholders with a return in line with the performance of the **Bloomberg Barclays Euro Aggregate Bond Index** (the "Underlying Index") (see description under the section "Description of the Underlying Index").

Investment Principles

The Subfund may invest in a representative selection of securities from the benchmark index (optimized sampling) rather than in all the securities in the index. Selection is facilitated by a system that takes account of both quantitative factors as well as factors that determine returns. The portfolio may be limited to a representative selection of securities from the benchmark index owing to the investment restrictions set out below, to other legal or statutory restrictions, to costs and expenses incurred by the Subfund, or to the illiquidity of certain securities.

The Subfund

- invests in euro-denominated bonds, as well as other fixed or variable-interest debt instruments and rights of private, semi-private and public issuers which are contained in the benchmark index;
- may temporarily invest in euro-denominated bonds and other fixed or variable-rate debt instruments and rights which are not contained in the benchmark index but where there is a high probability that such securities will be included in the Bloomberg Barclays Euro Aggregate Bond Index on the basis of its acceptance criteria;
- exhibits a modified duration which may not differ from that of the benchmark index by more than six months;
- invests in derivatives (including warrants) on the above investments. For the avoidance of doubt, such derivatives may include futures on the benchmark index, on financial indices that the Investment Manager believes to be highly correlated to the benchmark index, on indices of individual countries and regions that are reflected in the benchmark index or on indices which are primarily based on the same markets as the Subfund's benchmark index;
- invests in securities as per a) which were formerly included in the benchmark index but were dropped from it solely because of the benchmark index criterion stipulating a residual maturity of more than one year.

Investments (including derivatives on these investments) which are dropped from the benchmark index must be sold within an appropriate period while safeguarding the interests of the investors. However, those securities which are dropped from the benchmark index solely on the basis of the benchmark index criterion stipulating a residual maturity of more than one year need not be sold.

Investments in ABS and MBS are limited to a maximum of 10% of the Subfund's total net assets.

Description of the Underlying Index

The Bloomberg Barclays Euro Aggregate Bond Index tracks the fixed-rate, investment grade euro-denominated corporate bond market including treasuries, government-related, corporate and securitized issues. Inclusion is based on the currency of the issue, not the domicile of the issuer. Pursuant to the index rules the index is rebalanced on a monthly basis and may also be rebalanced at other times, e.g. in order to reflect corporate activity such as mergers and acquisitions, as provided for in the index rules. Additional information in relation to the index characteristics, constituents, sector and country weights, methodology of construction and maintenance, rebalancing dates and other general information is available on the index provider's website <https://ecommerce.barcap.com/indices/>

Tracking Error

Under normal market conditions, it is expected that the anticipated level of tracking error will be less than 0.20%.

Global Exposure

The global exposure of the Subfund will be calculated on the basis of the commitment approach.

Subscription, Redemption and Conversion of Shares

Subscription, redemption and conversion applications must be submitted in written form to the Central Administration or a distributor authorized by the Company to accept such applications, by 2 p.m. (Central European Time) on any day on which banks are normally open for business in Luxembourg ("Dealing Day"), provided that the market or markets, on which 75% of the relevant Subfund's assets are traded are open.

The Net Asset Value per Share of the relevant Share Class of the Subfund, is calculated on the first full business day in Luxembourg ("Valuation Day") following the respective Dealing Day.

Subscription, redemption and conversion applications received after this cut-off point shall be deemed to have been received prior to 2 p.m. on the following Dealing Day.

Payment of the issue price must be effected within one Banking Day after the Valuation Day on which the issue price of the Shares was determined.

Payment of the redemption price of the Shares shall be made within one Banking Day following calculation of the redemption price.

Risk Information

Investors should carefully consider all of the risk factors set out in Chapter 7 "Risk Factors" before investing in the Subfund.

Investor Profile

The Subfund is suitable for an investor who wishes to have the investment exposure as set out in the Subfund's investment objective. Although an investor can redeem Shares at any time (subject to the conditions described in Chapter 5), this Subfund is suitable where the intended investment horizon is long-term.

Investment Manager

The Management Company has appointed Credit Suisse AG, Zurich, as Investment Manager.

Credit Suisse Index Fund (Lux) Corporate Bonds EUR¹

The Reference Currency in which the performance and net asset value of the Subfund are calculated is Euro.

Investment Objective

The Subfund tracks the **Bloomberg Barclays Euro-Aggregate Corporate Index** as its benchmark index.

The Investment Objective of the Subfund is to provide the Shareholders with a return in line with the performance of the **Bloomberg Barclays Euro-Aggregate Corporate Index** (the "Underlying Index") (see description under the section "Description of the Underlying Index").

Investment Principles

The Subfund may invest in a representative selection of securities from the benchmark index (optimized sampling) rather than in all the securities in the index. Selection is facilitated by a system that takes account of both quantitative factors as well as factors that determine returns. The portfolio may be limited to a representative selection of securities from the benchmark index owing to the investment restrictions set out below, to other legal or statutory restrictions, to costs and expenses incurred by the Subfund, or to the illiquidity of certain securities.

The Subfund

- a) invests in euro-denominated bonds, as well as other fixed or variable-interest debt instruments and rights of private, semi-private and public issuers which are contained in the benchmark index;
- b) may temporarily invest in euro-denominated bonds and other fixed or variable-rate debt instruments and rights which are not contained in the benchmark index but where there is a high probability that such securities will be included in the Bloomberg Barclays Euro-Aggregate Corporate Index on the basis of its acceptance criteria;
- c) exhibits a modified duration which may not differ from that of the benchmark index by more than six months;
- d) invests in derivatives (including warrants) on the above investments. For the avoidance of doubt, such derivatives may include futures on the benchmark index, on financial indices that the Investment Manager believes to be highly correlated to the benchmark index, on indices of individual countries and regions that are reflected in the benchmark index or on indices which are primarily based on the same markets as the Subfund's benchmark index;
- e) invests in securities as per a) which were formerly included in the benchmark index but were dropped from it solely because of the benchmark index criterion stipulating a residual maturity of more than one year.

Investments (including derivatives on these investments) which are dropped from the benchmark index must be sold within an appropriate period while safeguarding the interests of the investors. However, those securities which are dropped from the benchmark index solely on the basis of the benchmark index criterion stipulating a residual maturity of more than one year need not be sold.

The Subfund will currently not invest in ABS and MBS.

Description of the Underlying Index

The Bloomberg Barclays Euro-Aggregate Corporate Index tracks the fixed-rate, investment grade euro-denominated corporate bond market. Inclusion is based on the currency of the issue, not the domicile of the issuer. Pursuant to the index rules the index is rebalanced on a monthly basis and may also be rebalanced at other times, e.g. in order to reflect corporate activity such as mergers and acquisitions, as provided for in the index rules.

Additional information in relation to the index characteristics, constituents, sector and country weights, methodology of construction and maintenance, rebalancing dates and other general information is available on the index provider's website <https://ecommerce.barcap.com/indices/>

Tracking Error

Under normal market conditions, it is expected that the anticipated level of tracking error will be less than 0.20%.

Global Exposure

The global exposure of the Subfund will be calculated on the basis of the commitment approach.

Subscription, Redemption and Conversion of Shares

Subscription, redemption and conversion applications must be submitted in written form to the Central Administration or a distributor authorized by the Company to accept such applications, by 2 p.m. (Central European Time) on any day on which banks are normally open for business in Luxembourg ("Dealing Day"), provided that the market or markets, on which 75% of the relevant Subfund's assets are traded are open.

The Net Asset Value per Share of the relevant Share Class of the Subfund, is calculated on the first full business day in Luxembourg ("Valuation Day") following the respective Dealing Day.

Subscription, redemption and conversion applications received after this cut-off point shall be deemed to have been received prior to 2 p.m. on the following Dealing Day.

Payment of the issue price must be effected within one Banking Day after the Valuation Day on which the issue price of the Shares was determined. Payment of the redemption price of the Shares shall be made within one Banking Day following calculation of the redemption price.

Risk Information

Investors should carefully consider all of the risk factors set out in Chapter 7 "Risk Factors" before investing in the Subfund.

Investor Profile

The Subfund is suitable for an investor who wishes to have the investment exposure as set out in the Subfund's investment objective. Although an investor can redeem Shares at any time (subject to the conditions described in Chapter 5), this Subfund is suitable where the intended investment horizon is long-term.

Investment Manager

The Management Company has appointed Credit Suisse AG, Zurich, as Investment Manager.

Launch Date

The launch date of the Subfund is to be determined by the Board of Directors.

Credit Suisse Index Fund (Lux) Equities Europe Small Caps

The Reference Currency in which the performance and Net Asset Value of the Subfund are calculated is Euro.

Investment Objective

The Subfund tracks the **MSCI Europe Small Cap Index** as its benchmark index.

The Investment Objective of the Subfund is to provide the Shareholders with a return in line with the performance of the **MSCI Europe Small Cap Index** (the "Underlying Index") (see description under the section "Description of the Underlying Index").

Investment Principles

The Subfund may invest in a representative selection of securities from the benchmark index (optimized sampling) rather than in all the securities in the index. Selection is facilitated by a system that takes account of both quantitative factors as well as factors that determine returns. The portfolio may be limited to a representative selection of securities from the benchmark index owing to the investment restrictions set out below, to other legal or statutory restrictions, to costs and expenses incurred by the Subfund, or to the illiquidity of certain securities.

The Subfund invests

- in equities and other equity-type securities and rights (shares, dividend-right certificates, shares in cooperatives, participation certificates, etc.) which are contained in the above-mentioned benchmark index;
- temporarily in equities and other equity-type securities and rights (shares, dividend-right certificates, shares in cooperatives, participation certificates, etc.) which are not contained in the benchmark index but where there is a high probability that such securities will be able to join the MSCI Europe Small Cap Index on the basis of its acceptance criteria;
- in units of passively managed collective investment schemes, both domestic and foreign and listed and unlisted, that are consistent with the investment policy;
- in derivatives (including warrants) on the above investments. For the avoidance of doubt, such derivatives may include futures on the benchmark index, on financial indices that the Investment Manager believes to be highly correlated to the benchmark index, on indices of individual countries and regions that are reflected in the benchmark index or on indices which are primarily based on the same markets as the Subfund's benchmark index.

Investments (including derivatives on these investments) which are dropped from the benchmark index must be sold within an appropriate period while safeguarding the interests of the investors.

Description of the Underlying Index

The MSCI Europe Small Cap Index is a free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of the developed small cap markets in Europe. The MSCI Europe Small Cap Index consists of the following 15 developed market country indices: Austria, Belgium, Denmark, Finland, France, Germany, Ireland, Italy, the Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom. Pursuant to the index rules the index is rebalanced on a quarterly basis and may also be rebalanced at other times, e.g. in order to reflect corporate activity such as mergers and acquisitions, as provided for in the index rules.

Additional information in relation to the index performance, characteristics, constituents, sector and country weights, methodology of construction and maintenance, rebalancing dates and other general information is available on the index provider's website www.msci.com.

Tracking Error

Under normal market conditions, it is expected that the anticipated level of tracking error will be less than 0.20%.

Global Exposure

The global exposure of the Subfund will be calculated on the basis of the commitment approach.

Subscription, Redemption and Conversion of Shares

Subscription, redemption and conversion applications must be submitted in written form to the Central Administration or a distributor authorized by the Company to accept such applications, by 2 p.m. (Central European Time) on any day on which banks are normally open for business in Luxembourg ("Dealing Day"), provided that the market or markets, on which 75% of the relevant Subfund's assets are traded are open.

The Net Asset Value per Share of the relevant Share Class of the Subfund, is calculated on the first full business day in Luxembourg ("Valuation Day") following the respective Dealing Day.

Subscription, redemption and conversion applications received after this cut-off point shall be deemed to have been received prior to 2 p.m. on the following Dealing Day.

Payment of the issue price must be effected within one Banking Day after the Valuation Day on which the issue price of the Shares was determined. Payment of the redemption price of the Shares shall be made within one Banking Day following calculation of the redemption price.

Risk Information

Investors should carefully consider all of the risk factors set out in Chapter 7, "Risk Factors" before investing in the Subfund.

Investor Profile

The Subfund is suitable for an investor who wishes to have the investment exposure as set out in the Subfund's investment objective. Although an investor can redeem Shares at any time (subject to the conditions described in Chapter 5), this Subfund is suitable where the intended investment horizon is long-term.

Investment Manager

The Management Company has appointed Credit Suisse AG, Zurich, as Investment Manager.

Credit Suisse Index Fund (Lux) Equities EMU

The Reference Currency in which the performance and net asset value of the Subfund are calculated is Euro.

Investment Objective

The Subfund tracks the **MSCI EMU Index** as its benchmark index.

The Investment Objective of the Subfund is to provide the Shareholders with a return in line with the performance of the **MSCI EMU Index** (the "Underlying Index") (see description under the section "Description of the Underlying Index").

Investment Principles

The Subfund may invest in a representative selection of securities from the benchmark index (optimized sampling) rather than in all the securities in the index. Selection is facilitated by a system that takes account of both quantitative factors as well as factors that determine returns. The portfolio may be limited to a representative selection of securities from the benchmark index owing to the investment restrictions set out below, to other legal or statutory restrictions, to costs and expenses incurred by the Subfund, or to the illiquidity of certain securities.

The Subfund invests

- a) in equities and other equity-type securities and rights (shares, dividend-right certificates, shares in cooperatives, participation certificates, etc.) which are contained in the above-mentioned benchmark index;
- b) temporarily in equities and other equity-type securities and rights (shares, dividend-right certificates, shares in cooperatives, participation certificates, etc.) which are not contained in the benchmark index but where there is a high probability that such securities will be able to join the MSCI EMU Index on the basis of its acceptance criteria;
- c) in units of passively managed collective investment schemes, both domestic and foreign and listed and unlisted, that are consistent with the investment policy;
- d) in derivatives (including warrants) on the above investments. For the avoidance of doubt, such derivatives may include futures on the benchmark index, on financial indices that the Investment Manager believes to be highly correlated to the benchmark index, on indices of individual countries and regions that are reflected in the benchmark index or on indices which are primarily based on the same markets as the Subfund's benchmark index.

Investments (including derivatives on these investments) which are dropped from the benchmark index must be sold within an appropriate period while safeguarding the interests of the investors.

Description of the Underlying Index

The MSCI EMU (European Economic and Monetary Union) Index is a free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of countries within EMU. The MSCI EMU Index consists of the following 11 developed market country indices: Austria, Belgium, Finland, France, Germany, Greece, Ireland, Italy, the Netherlands, Portugal, and Spain. Pursuant to the index rules the index is rebalanced on a quarterly basis and may also be rebalanced at other times, e.g. in order to reflect corporate activity such as mergers and acquisitions, as provided for in the index rules.

Additional information in relation to the index performance, characteristics, constituents, sector and country weights, methodology of construction and maintenance, rebalancing dates and other general information is available on the index provider's website www.msci.com.

Tracking Error

Under normal market conditions, it is expected that the anticipated level of tracking error will be less than 0.10%.

Global Exposure

The global exposure of the Subfund will be calculated on the basis of the commitment approach.

Subscription, Redemption and Conversion of Shares

Subscription, redemption and conversion applications must be submitted in written form to the Central Administration or a distributor authorized by the Company to accept such applications, by 2 p.m. (Central European Time) on any day on which banks are normally open for business in Luxembourg

("Dealing Day"), provided that the market or markets, on which 75% of the relevant Subfund's assets are traded are open.

The Net Asset Value per Share of the relevant Share Class of the Subfund, is calculated on the first full business day in Luxembourg ("Valuation Day") following the respective Dealing Day.

Subscription, redemption and conversion applications received after this cut-off point shall be deemed to have been received prior to 2 p.m. on the following Dealing Day.

Payment of the issue price must be effected within one Banking Day after the Valuation Day on which the issue price of the Shares was determined.

Payment of the redemption price of the Shares shall be made within one Banking Day following calculation of the redemption price.

Risk Information

Investors should carefully consider all of the risk factors set out in Chapter 7, "Risk Factors" before investing in the Subfund.

Investor Profile

The Subfund is suitable for an investor who wishes to have the investment exposure as set out in the Subfund's investment objective. Although an investor can redeem Shares at any time (subject to the conditions described in Chapter 5), this Subfund is suitable where the intended investment horizon is long-term.

Investment Manager

The Management Company has appointed Credit Suisse AG, Zurich, as Investment Manager.

Credit Suisse Index Fund (Lux) Equities US

The Reference Currency in which the performance and net asset value of the Subfund are calculated is US-Dollar.

Investment Objective

The Subfund tracks the **MSCI USA Index** as its benchmark index.

The Investment Objective of the Subfund is to provide the Shareholders with a return in line with the performance of the **MSCI USA Index** (the "Underlying Index") (see description under the section "Description of the Underlying Index").

Investment Principles

The Subfund may invest in a representative selection of securities from the benchmark index (optimized sampling) rather than in all the securities in the index. Selection is facilitated by a system that takes account of both quantitative factors as well as factors that determine returns. The portfolio may be limited to a representative selection of securities from the benchmark index owing to the investment restrictions set out below, to other legal or statutory restrictions, to costs and expenses incurred by the subfund, or to the illiquidity of certain securities.

The Subfund invests

- a) in equities and other equity-type securities and rights (shares, dividend-right certificates, shares in cooperatives, participation certificates, etc.) which are contained in the above-mentioned benchmark index;
- b) temporarily in equities and other equity-type securities and rights (shares, dividend-right certificates, shares in cooperatives, participation certificates, etc.) which are not contained in the benchmark index but where there is a high probability that such securities will be able to join the MSCI USA Index index on the basis of its acceptance criteria;
- c) in units of passively managed collective investment schemes, both domestic and foreign and listed and unlisted, that are consistent with the investment policy;
- d) in derivatives (including warrants) on the above investments. For the avoidance of doubt, such derivatives may include futures on the benchmark index, on financial indices that the Investment Manager believes to be highly correlated to the benchmark index, on indices of individual countries and regions that are reflected in the benchmark index or on indices which are primarily based on the same markets as the Subfund's benchmark index.

Investments (including derivatives on these investments) which are dropped from the benchmark index must be sold within an appropriate period while safeguarding the interests of the investors.

Description of the Underlying Index

The MSCI USA Index is a free float-adjusted market capitalization weighted index that is designed to capture large and mid cap US equity market performance. Pursuant to the index rules the index is rebalanced on a quarterly basis and may also be rebalanced at other times, e.g. in order to reflect corporate activity such as mergers and acquisitions, as provided for in the index rules.

Additional information in relation to the index performance, characteristics, constituents, sector and country weights, methodology of construction and maintenance, rebalancing dates and other general information is available on the index provider's website www.msci.com.

Tracking Error

Under normal market conditions, it is expected that the anticipated level of tracking error will be less than 0.10%.

Global Exposure

The global exposure of the Subfund will be calculated on the basis of the commitment approach.

Subscription, Redemption and Conversion of Shares

Subscription, redemption and conversion applications must be submitted in written form to the Central Administration or a distributor authorized by the Company to accept such applications, by 2 p.m. (Central European Time) on any day on which banks are normally open for business in Luxembourg ("Dealing Day"), provided that the market or markets, on which 75% of the relevant Subfund's assets are traded are open.

The Net Asset Value per Share of the relevant Share Class of the Subfund, is calculated on the first full business day in Luxembourg ("Valuation Day") following the respective Dealing Day.

Subscription, redemption and conversion applications received after this cut-off point shall be deemed to have been received prior to 2 p.m. on the following Dealing Day.

Payment of the issue price must be effected within two Banking Days after the Valuation Day on which the issue price of the Shares was determined. Payment of the redemption price of the Shares shall be made within two Banking Days following calculation of the redemption price.

The Reference Currency in which the performance and net asset value of the Subfund are calculated is US-Dollar.

Investment Objective

The Subfund tracks the **MSCI Pacific ex Japan Index** as its benchmark index.

The Investment Objective of the Subfund is to provide the Shareholders with a return in line with the performance of the **MSCI Pacific ex Japan Index** (the "Underlying Index") (see description under the section "Description of the Underlying Index").

Investment Principles

The Subfund may invest in a representative selection of securities from the benchmark index (optimized sampling) rather than in all the securities in the index. Selection is facilitated by a system that takes account of both quantitative factors as well as factors that determine returns. The portfolio may be limited to a representative selection of securities from the benchmark index owing to the investment restrictions set out below, to other legal or statutory restrictions, to costs and expenses incurred by the subfund, or to the illiquidity of certain securities.

The Subfund invests

- in equities and other equity-type securities and rights (shares, dividend-right certificates, shares in cooperatives, participation certificates, etc.) which are contained in the above-mentioned benchmark index;
- temporarily in equities and other equity-type securities and rights (shares, dividend-right certificates, shares in cooperatives, participation certificates, etc.) which are not contained in the benchmark index but where there is a high probability that such securities will be able to join the MSCI Pacific ex Japan Index on the basis of its acceptance criteria;
- in units of passively managed collective investment schemes, both domestic and foreign and listed and unlisted, that are consistent with the investment policy;
- in derivatives (including warrants) on the above investments. For the avoidance of doubt, such derivatives may include futures on the benchmark index, on financial indices that the Investment Manager believes to be highly correlated to the benchmark index, on indices of individual countries and regions that are reflected in the benchmark index or on indices which are primarily based on the same markets as the Subfund's benchmark index.

Investments (including derivatives on these investments) which are dropped from the benchmark index must be sold within an appropriate period while safeguarding the interests of the investors.

Description of the Underlying Index

The MSCI Pacific ex Japan Index is a free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of the developed markets in the Pacific ex Japan region. The MSCI Pacific ex Japan Index consists of the following 4 developed market countries: Australia, Hong Kong, New Zealand, and Singapore. Pursuant to the index rules the index is rebalanced on a quarterly basis and may also be rebalanced at other times, e.g. in order to reflect corporate activity such as mergers and acquisitions, as provided for in the index rules.

Additional information in relation to the index performance, characteristics, constituents, sector and country weights, methodology of construction and maintenance, rebalancing dates and other general information is available on the index provider's website www.msci.com.

Tracking Error

Under normal market conditions, it is expected that the anticipated level of tracking error will be less than 0.20%.

Global Exposure

The global exposure of the Subfund will be calculated on the basis of the commitment approach.

Subscription, Redemption and Conversion of Shares

Subscription, redemption and conversion applications must be received by the Central Administration or a distributor authorized by the Company to

accept such applications by 4 p.m. (Central European Time) on any day on which banks are normally open for business in Luxembourg ("Dealing Day"), provided that the market or markets, on which 75% of the relevant Subfund's assets are traded are open the day after the Dealing Day and provided that this day is also a day on which banks are normally open for business in Luxembourg.

The Net Asset Value per Share of the relevant Share Class of the Subfund, is calculated on the second full business day in Luxembourg ("Valuation Day") following the respective Dealing Day.

Subscription, redemption and conversion applications received after this cut-off point shall be deemed to have been received prior to 4 p.m. on the following Dealing Day.

Payment of the issue price must be effected within one Banking Day after the Valuation Day on which the issue price of the Shares was determined. Payment of the redemption price of the Shares shall be made within one Banking Day following calculation of the redemption price.

Risk Information

Investors should carefully consider all of the risk factors set out in Chapter 7, "Risk Factors" before investing in the Subfund.

Investor Profile

The Subfund is suitable for an investor who wishes to have the investment exposure as set out in the Subfund's investment objective. Although an investor can redeem Shares at any time (subject to the conditions described in Chapter 5), this Subfund is suitable where the intended investment horizon is long-term.

Investment Manager

The Management Company has appointed Credit Suisse AG, Zurich, as Investment Manager.

 - b) temporarily in equities and other equity-type securities and rights (shares, dividend-right certificates, shares in cooperatives, participation certificates, etc.) which are not contained in the benchmark index but where there is a high probability that such securities will be able to join the MSCI Japan Index on the basis of its acceptance criteria;
 - c) in units of passively managed collective investment schemes, both domestic and foreign and listed and unlisted, that are consistent with the investment policy;
 - d) in derivatives (including warrants) on the above investments.
- For the avoidance of doubt, such derivatives may include futures on the benchmark index, on financial indices that the Investment Manager believes to be highly correlated to the benchmark index, on indices of individual countries and regions that are reflected in the benchmark index or on indices which are primarily based on the same markets as the Subfund's benchmark index. Investments (including derivatives on these investments) which are dropped from the benchmark index must be sold within an appropriate period while safeguarding the interests of the investors.

Description of the Underlying Index

The MSCI Japan Index is a free-float adjusted market capitalization weighted index that is designed to track the equity market performance of Japanese securities listed on Tokyo Stock Exchange, Osaka Stock Exchange, JASDAQ and Nagoya Stock Exchange. Pursuant to the index rules the index is rebalanced on a quarterly basis and may also be rebalanced at other times, e.g. in order to reflect corporate activity such as mergers and acquisitions, as provided for in the index rules.

Additional information in relation to the index performance, characteristics, constituents, sector and country weights, methodology of construction and maintenance, rebalancing dates and other general information is available on the index provider's website www.msci.com.

Tracking Error

Under normal market conditions, it is expected that the anticipated level of tracking error will be less than 0.20%.

Global Exposure

The global exposure of the Subfund will be calculated on the basis of the commitment approach.

Subscription, Redemption and Conversion of Shares

Subscription, redemption and conversion applications must be received by the Central Administration or a distributor authorized by the Company to accept such applications by 4 p.m. (Central European Time) on any day on which banks are normally open for business in Luxembourg ("Dealing Day"), provided that the market or markets, on which 75% of the relevant

Subfund's assets are traded are open the day after the Dealing Day and provided that this day is also a day on which banks are normally open for business in Luxembourg.

The Net Asset Value per Share of the relevant Share Class of the Subfund, is calculated on the second full business day in Luxembourg ("Valuation Day") following the respective Dealing Day.

Subscription, redemption and conversion applications received after this cut-off point shall be deemed to have been received prior to 4 p.m. on the following Dealing Day.

Payment of the issue price must be effected within two Banking Days after the Valuation Day on which the issue price of the Shares was determined. Payment of the redemption price of the Shares shall be made within two Banking Days following calculation of the redemption price.

Risk Information

Investors should carefully consider all of the risk factors set out in Chapter 7, "Risk Factors" before investing in the Subfund.

Investor Profile

The Subfund is suitable for an investor who wishes to have the investment exposure as set out in the Subfund's investment objective. Although an investor can redeem Shares at any time (subject to the conditions described in Chapter 5), this Subfund is suitable where the intended investment horizon is long-term.

Investment Manager

The Management Company has appointed Credit Suisse AG, Zurich, as Investment Manager.

Credit Suisse Index Fund (Lux) Equities World Fundamental

The Reference Currency in which the performance and net asset value of the Subfund are calculated is US-Dollar.

Investment Objective

The Subfund tracks the **FTSE RAFI Developed 1000 Index** as its benchmark index.

The Investment Objective of the Subfund is to provide the Shareholders with a return in line with the performance of the **FTSE RAFI Developed 1000 Index** (the "Underlying Index") (see description under the section "Description of the Underlying Index").

Investment Principles

The Subfund may invest in a representative selection of securities from the benchmark index (optimized sampling) rather than in all the securities in the index. Selection is facilitated by a system that takes account of both quantitative factors as well as factors that determine returns. The portfolio may be limited to a representative selection of securities from the benchmark index owing to the investment restrictions set out below, to other legal or statutory restrictions, to costs and expenses incurred by the subfund, or to the illiquidity of certain securities.

The Subfund invests

- a) in equities and other equity-type securities and rights (shares, dividend-right certificates, shares in cooperatives, participation certificates, etc.) which are contained in the above-mentioned benchmark index;
- b) temporarily in equities and other equity-type securities and rights (shares, dividend-right certificates, shares in cooperatives, participation certificates, etc.) which are not contained in the benchmark index but where there is a high probability that such securities will be able to join the FTSE RAFI Developed 1000 Index on the basis of its acceptance criteria;
- c) in units of passively managed collective investment schemes, both domestic and foreign and listed and unlisted, that are consistent with the investment policy;
- d) in derivatives (including warrants) on the above investments. For the avoidance of doubt, such derivatives may include futures on the benchmark index, on financial indices that the Investment Manager believes to be highly correlated to the benchmark index, on indices of individual countries and regions that are reflected in the benchmark index or on indices which are primarily based on the same markets as the Subfund's benchmark index.

Investments (including derivatives on these investments) which are dropped from the benchmark index must be sold within an appropriate period while safeguarding the interests of the investors.

Description of the Underlying Index

The FTSE RAFI Developed 1000 Index is part of the FTSE RAFI® Index Series, launched in association with Research Affiliates, LLC. As part of FTSE Group's range of non-market cap weighted indexes, the FTSE RAFI Index Series selects and weights index constituents using four fundamental factors, rather than market capitalisation. These factors are dividends, cash flow, sales and book value.

The FTSE RAFI Developed 1000 Index comprises the 1000 companies with the largest RAFI fundamental values, selected from the constituents of the FTSE Developed All Cap Index. Pursuant to the index rules the index is rebalanced on an annual basis and may also be rebalanced at other times, e.g. in order to reflect corporate activity such as mergers and acquisitions, as provided for in the index rules.

Additional information in relation to the index performance, characteristics, constituents, sector and country weights, methodology of construction and maintenance, rebalancing dates and other general information is available on the index provider's website www.ftse.com.

Tracking Error

Under normal market conditions, it is expected that the anticipated level of tracking error will be less than 0.20%.

Global Exposure

The global exposure of the Subfund will be calculated on the basis of the commitment approach.

Subscription, Redemption and Conversion of Shares

Subscription, redemption and conversion applications must be received by the Central Administration or a distributor authorized by the Company to accept such applications, by 3 p.m. (Central European Time) on any day on which banks are normally open for business in Luxembourg ("Dealing Day"), provided that the market or markets, on which 75% of the relevant Subfund's assets are traded are open the day after the Dealing Day and provided that this day is also a day on which banks are normally open for business in Luxembourg.

The Net Asset Value per Share of the relevant Share Class of the Subfund, is calculated on the second full business day in Luxembourg ("Valuation Day") following the respective Dealing Day.

Subscription, redemption and conversion applications received after this cut-off point shall be deemed to have been received prior to 3 p.m. on the following Dealing Day.

Payment of the issue price must be effected within two Banking Days after the Valuation Day on which the issue price of the Shares was determined. Payment of the redemption price of the Shares shall be made within two Banking Days following calculation of the redemption price.

Risk Information

Investors should carefully consider all of the risk factors set out in Chapter 7, "Risk Factors" before investing in the Subfund.

Investor Profile

The Subfund is suitable for an investor who wishes to have the investment exposure as set out in the Subfund's investment objective. Although an investor can redeem Shares at any time (subject to the conditions described in Chapter 5), this Subfund is suitable where the intended investment horizon is long-term.

Investment Manager

The Management Company has appointed Credit Suisse AG, Zurich, as Investment Manager.

Disclaimer

Credit Suisse Index Fund (Lux) Equities World Minimum Volatility

The Reference Currency in which the performance and net asset value of the Subfund are calculated is US-Dollar.

Investment Objective

The Subfund tracks the **MSCI World Minimum Volatility Index** as its benchmark index.

The Investment Objective of the Subfund is to provide the Shareholders with a return in line with the performance of the **MSCI World Minimum Volatility Index** (the "Underlying Index") (see description under the section "Description of the Underlying Index").

Investment Principles

The Subfund may invest in a representative selection of securities from the benchmark index (optimized sampling) rather than in all the securities in the index. Selection is facilitated by a system that takes account of both quantitative factors as well as factors that determine returns. The portfolio may be limited to a representative selection of securities from the benchmark index owing to the investment restrictions set out below, to other legal or statutory restrictions, to costs and expenses incurred by the subfund, or to the illiquidity of certain securities.

The Subfund invests

- in equities and other equity-type securities and rights (shares, dividend-right certificates, shares in cooperatives, participation certificates, etc.) which are contained in the above-mentioned benchmark index;
- temporarily in equities and other equity-type securities and rights (shares, dividend-right certificates, shares in cooperatives, participation certificates, etc.) which are not contained in the benchmark index but where there is a high probability that such securities will be able to join the MSCI World Minimum Volatility Index on the basis of its acceptance criteria;
- in units of passively managed collective investment schemes, both domestic and foreign and listed and unlisted, that are consistent with the investment policy;
- in derivatives (including warrants) on the above investments. For the avoidance of doubt, such derivatives may include futures on the benchmark index, on financial indices that the Investment Manager believes to be highly correlated to the benchmark index, on indices of individual countries and regions that are reflected in the benchmark index or on indices which are primarily based on the same markets as the Subfund's benchmark index.

Investments (including derivatives on these investments) which are dropped from the benchmark index must be sold within an appropriate period while safeguarding the interests of the investors.

Description of the Underlying Index

The MSCI World Minimum Volatility Index aims to reflect the performance characteristics of a subset of securities within the MSCI World Index with the lowest absolute volatility of returns, subject to certain risk diversification constraints. The constituents of the MSCI World Minimum Volatility Index are selected using a minimum volatility strategy which optimises the MSCI World Index using the relevant MSCI Barra multi-factor global equity model (the "Model"). The Model estimates the risk profile and expected volatility of each constituent and the correlation between all constituents in the MSCI World Index. Using the Model, the minimum volatility strategy aims to select a subset of constituents from the MSCI World Index with the lowest absolute volatility of returns, subject to certain risk diversification constraints, for example, minimum and maximum constituent, sector and/or country weights relative to the MSCI World Index. Volatility of returns measures the movements in the daily price of the constituents over a period of time. Additional detail on the Model which is current at the date of this Prospectus can be obtained through the following link:

http://www.msci.com/products/portfolio_management_analytics/equity_models/.

The MSCI World Index includes large and mid capitalisation stocks from Developed Markets countries which comply with MSCI's size, liquidity and free-float criteria. As at 30 June 2014, the Benchmark Index consisted of the following countries: Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Hong Kong, Ireland, Israel, Italy, Japan,

Netherlands, New Zealand, Norway, Portugal, Singapore, Spain, Sweden, Switzerland, UK and the USA. The list of eligible countries may be subject to change over time. The Benchmark Index is market capitalisation weighted and rebalances on a semi-annual basis. Further details regarding the Benchmark Index (including its constituents) are available on the index provider's website at <http://www.msci.com/products/indices/licensing/constituents.html>

Tracking Error

Under normal market conditions, it is expected that the anticipated level of tracking error will be less than 0.20%.

Global Exposure

The global exposure of the Subfund will be calculated on the basis of the commitment approach.

Subscription, Redemption and Conversion of Shares

Subscription, redemption and conversion applications must be received by the Central Administration or a distributor authorized by the Company to accept such applications, by 3 p.m. (Central European Time) on any day on which banks are normally open for business in Luxembourg ("Dealing Day"), provided that the market or markets, on which 75% of the relevant Subfund's assets are traded are open the day after the Dealing Day and provided that this day is also a day on which banks are normally open for business in Luxembourg. The Net Asset Value per Share of the relevant Share Class of the Subfund, is calculated on the second full business day in Luxembourg ("Valuation Day") following the respective Dealing Day. Credit Suisse Index Fund (Lux) Equities World Factor Mix²

The Reference Currency in which the performance and net asset value of the Subfund are calculated is US-Dollar.

Investment Objective

The Subfund tracks the **MSCI World Factor Mix A-Series Index** as its benchmark index.

The Investment Objective of the Subfund is to provide the Shareholders with a return in line with the performance of the **MSCI World Factor Mix A-Series Index** (the "Underlying Index") (see description under the section "Description of the Underlying Index").

Investment Principles

The Subfund may invest in a representative selection of securities from the benchmark index (optimized sampling) rather than in all the securities in the index. Selection is facilitated by a system that takes account of both quantitative factors as well as factors that determine returns. The portfolio may be limited to a representative selection of securities from the benchmark index owing to the investment restrictions set out below, to other legal or statutory restrictions, to costs and expenses incurred by the Subfund, or to the illiquidity of certain securities.

The Subfund invests

- a) in equities and other equity-type securities and rights (shares, dividend-right certificates, shares in cooperatives, participation certificates, etc.) which are contained in the above-mentioned benchmark index;
- b) temporarily in equities and other equity-type securities and rights (shares, dividend-right certificates, shares in cooperatives, participation certificates, etc.) which are not contained in the benchmark index but where there is a high probability that such securities will be able to join the MSCI World Factor Mix A-Series Index on the basis of its acceptance criteria;
- c) in units of passively managed collective investment schemes, both domestic and foreign and listed and unlisted, that are consistent with the investment policy;
- d) in derivatives (including warrants) on the above investments. For the avoidance of doubt, such derivatives may include futures on the benchmark index, on financial indices that the Investment Manager believes to be highly correlated to the benchmark index, on indices of individual countries and regions that are reflected in the benchmark index or on indices which are primarily based on the same markets as the Subfund's benchmark index.

Investments (including derivatives on these investments) which are dropped from the benchmark index must be sold within an appropriate period while safeguarding the interests of the investors.

Description of the Underlying Index

The MSCI World Factor Mix A-Series Index captures large and mid-cap representation across the following 23 developed market country indices: Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Hong Kong, Ireland, Israel, Italy, Japan, the Netherlands, New Zealand, Norway, Portugal, Singapore, Spain, Sweden, Switzerland, the United Kingdom and the United States. It aims to represent the performance of quality, value and low volatility factor strategies. The index is an equal weighted combination of the MSCI Value Weighted, MSCI Minimum Volatility and MSCI Quality Indexes in a single composite index. Pursuant to the index rules the index is rebalanced on a semi-annual basis and may also be rebalanced at other times, e.g. in order to reflect corporate activity such as mergers and acquisitions, as provided for in the index rules.

Additional information in relation to the index performance, characteristics, constituents, sector and country weights, methodology of construction and maintenance, rebalancing dates and other general information is available on the index provider's website www.msci.com.

Tracking Error

Under normal market conditions, it is expected that the anticipated level of tracking error will be less than 0.20%.

Global Exposure

The global exposure of the Subfund will be calculated on the basis of the commitment approach.

Subscription, Redemption and Conversion of Shares

Subscription, redemption and conversion applications must be received by the Central Administration or a distributor authorized by the Company to accept such applications, by 3 p.m. (Central European Time) on any day on which banks are normally open for business in Luxembourg ("Dealing Day"), provided that the market or markets, on which 75% of the relevant Subfund's assets are traded are open the day after the Dealing Day and provided that this day is also a day on which banks are normally open for business in Luxembourg.

The Net Asset Value per Share of the relevant Share Class of the Subfund, is calculated on the second full business day in Luxembourg ("Valuation Day") following the respective Dealing Day.

Subscription, redemption and conversion applications received after this cut-off point shall be deemed to have been received prior to 3 p.m. on the following Dealing Day.

Payment of the issue price must be effected within two Banking Days after the Valuation Day on which the issue price of the Shares was determined. Payment of the redemption price of the Shares shall be made within two Banking Days following calculation of the redemption price.

The portfolio may be limited to a representative selection of securities from the benchmark index owing to the investment restrictions set out below, to other legal or statutory restrictions, to costs and expenses incurred by the subfund, or to the illiquidity of certain securities.

The Subfund invests

- in equities and other equity-type securities and rights (shares, dividend-right certificates, shares in cooperatives, participation certificates) or equity-type securities such as American Depositary Receipts (ADRs), American Depositary Shares (ADS), Global Depositary Receipts (GDRs) and Global Depositary Shares (GDS) etc. (excluding securities with embedded derivatives) each of which qualifies as transferable security within the meaning of the Law of 17 December 2010, issued by companies which are contained in the above reference index;
- temporarily in equities and other equity-type securities and rights (shares, dividend-right certificates, shares in cooperatives, participation certificates, etc.) which are not contained in the benchmark index but where there is a high probability that such securities will be able to join the MSCI Emerging Markets Index on the basis of its acceptance criteria;
- in units of passively managed collective investment schemes, both domestic and foreign and listed and unlisted, that are consistent with the investment policy;
- in derivatives (including warrants) on the above investments. For the avoidance of doubt, such derivatives may include futures on the benchmark index, on financial indices that the Investment Manager believes to be highly correlated to the benchmark index, on indices of individual countries and regions that are reflected in the benchmark index or on indices which are primarily based on the same markets as the Subfund's benchmark index.

Investments (including derivatives on these investments) which are dropped from the benchmark index must be sold within an appropriate period while safeguarding the interests of the investors.

Description of the Underlying Index

The MSCI Emerging Markets Index is a free float-adjusted market capitalization index that is designed to measure equity market performance in the global emerging markets.

The MSCI Emerging Markets Index consists of the following 21 emerging market country indices: Brazil, Chile, China, Colombia, Czech Republic, Egypt, Hungary, India, Indonesia, Korea, Malaysia, Mexico, Morocco, Peru, Philippines, Poland, Russia, South Africa, Taiwan, Thailand, and Turkey. Pursuant to the index rules the index is rebalanced on a quarterly basis and may also be rebalanced at other times, e.g. in order to reflect corporate activity such as mergers and acquisitions, as provided for in the index rules.

Additional information in relation to the index performance, characteristics, constituents, sector and country weights, methodology of construction and maintenance, rebalancing dates and other general information is available on the index provider's website www.msci.com.

Tracking Error

Under normal market conditions, it is expected that the anticipated level of tracking error will be less than 0.50%.

Global Exposure

The global exposure of the Subfund will be calculated on the basis of the commitment approach.

Subscription, Redemption and Conversion of Shares

Subscription, redemption and conversion applications must be received by the Central Administration or a distributor authorized by the Company to accept such applications by 3 p.m. (Central European Time) on any day on which banks are normally open for business in Luxembourg ("Dealing Day"), provided that the market or markets, on which 75% of the relevant Subfund's assets are traded are open the day after the Dealing Day and provided that this day is also a day on which banks are normally open for business in Luxembourg.

The Net Asset Value per Share of the relevant Share Class of the Subfund, is calculated on the second full business day in Luxembourg ("Valuation Day") following the respective Dealing Day.

Subscription, redemption and conversion applications received after this cut-off point shall be deemed to have been received prior to 3 p.m. on the following Dealing Day.

Payment of the issue price must be effected within one Banking Day after the Valuation Day on which the issue price of the Shares was determined. Payment of the redemption price of the Shares shall be made within one Banking Day following calculation of the redemption price.

No Shares of the Subfund will be, directly or indirectly, advertised, offered, distributed or sold to persons resident in India and no subscription application for Shares in the Subfund will be accepted if the acquisition of these Shares is financed by funds derived from sources within India.

As described under Chapter 5, "Investment in Credit Suisse Index Fund (Lux)" of the Prospectus, the Company is entitled to compulsorily redeem all Shares held by a Shareholder in any circumstances in which the Company determines that such compulsory redemption would avoid material legal, regulatory, pecuniary, tax, economic, proprietary, administrative or other disadvantages to the Company, including but not limited to the cases where such Shares are held by Shareholders who are not entitled to acquire or possess these Shares or who fail to comply with any obligations associated with the holding of these Shares under the applicable regulations. As a consequence the Shareholders shall note that the legal, regulatory or tax requirements applicable to their shareholding in the Subfund may include specific local requirements applicable as per the Indian laws and regulations and that non-compliance with the Indian regulations might lead to the termination of their investment in the Subfund, the compulsory redemption (in whole or in part) of the Shares held by the investors in the Subfund, the retention of any redemption proceeds to the investors or to any other measures taken by the local authorities and impacting the investment of the investor in the Subfund.

Risk Information

Investors should carefully consider all of the risk factors set out in Chapter 7, "Risk Factors" before investing in the Subfund. In particular the following risk set out in Chapter 7. "Risk Factors" may be more relevant for this Subfund: Investments in Emerging Countries.

Direct investments in India also involve specific risks. Accordingly, potential investors are referred in particular to the risks set out in Chapter 7, "Risk Factors" in relation to the FPI registration of the Subfund and the potential disclosure of information and personal data regarding the investors in the Subfund to the Indian local supervisory authorities and to the DDP.

Investor Profile

The Subfund is suitable for an investor who wishes to have the investment exposure as set out in the Subfund's investment objective. Although an investor can redeem Shares at any time (subject to the conditions described in Chapter 5), this Subfund is suitable where the intended investment horizon is long-term.

Investment Manager

The Management Company has appointed Credit Suisse AG, Zurich, as Investment Manager.

Credit Suisse Index Fund (Lux) Equities Emerging Markets Minimum Volatility

The Reference Currency in which the performance and net asset value of the Subfund are calculated is US-Dollar.

Investment Objective

The Subfund tracks the **MSCI Emerging Markets Minimum Volatility Index** as its benchmark index.

The Investment Objective of the Subfund is to provide the Shareholders with a return in line with the performance of the **MSCI Emerging Markets Minimum Volatility Index** (the "Underlying Index") (see description under the section "Description of the Underlying Index").

Investment Principles

The Subfund may invest in a representative selection of securities from the benchmark index (optimized sampling) rather than in all the securities in the index. Selection is facilitated by a system that takes account of both quantitative factors as well as factors that determine returns. The portfolio may be limited to a representative selection of securities from the benchmark index owing to the investment restrictions set out below, to other legal or statutory restrictions, to costs and expenses incurred by the Subfund, or to the illiquidity of certain securities.

The Subfund invests

- a) in equities and other equity-type securities and rights (shares, dividend-right certificates, shares in cooperatives, participation certificates, etc.) which are contained in the above-mentioned benchmark index;
- b) temporarily in equities and other equity-type securities and rights (shares, dividend-right certificates, shares in cooperatives, participation certificates, etc.) which are not contained in the benchmark index but where there is a high probability that such securities will be able to join the MSCI Emerging Markets Minimum Volatility Index on the basis of its acceptance criteria;
- c) in units of passively managed collective investment schemes, both domestic and foreign and listed and unlisted, that are consistent with the investment policy;
- d) in derivatives (including warrants) on the above investments. For the avoidance of doubt, such derivatives may include futures on the benchmark index, on financial indices that the Investment Manager believes to be highly correlated to the benchmark index, on indices of individual countries and regions that are reflected in the benchmark index or on indices which are primarily based on the same markets as the Subfund's benchmark index.

Investments (including derivatives on these investments) which are dropped from the benchmark index must be sold within an appropriate period while safeguarding the interests of the investors.

Description of the Underlying Index

The MSCI Emerging Markets Minimum Volatility Index aims to reflect the performance characteristics of a subset of securities within the MSCI Emerging Markets Index with the lowest absolute volatility of returns, subject to certain risk diversification constraints. The constituents of the MSCI Emerging Markets Minimum Volatility Index are selected using a minimum volatility strategy which optimises the MSCI Emerging Markets Index using the relevant MSCI Barra multi-factor global equity model (the "Model"). The Model estimates the risk profile and expected volatility of each constituent and the correlation between all constituents in the MSCI Emerging Markets Index. Using the Model, the minimum volatility strategy aims to select a subset of constituents from the MSCI Emerging Markets Index with the lowest absolute volatility of returns, subject to certain risk diversification constraints, for example, minimum and maximum constituent, sector and/or country weights relative to the MSCI Emerging Markets Index. Volatility of returns measures the movements in the daily price of the constituents over a period of time. Additional detail on the Model which is current at the date of this Prospectus can be obtained through the following link: http://www.msci.com/products/portfolio_management_analytics/equity_models/.

The MSCI Emerging Markets Index includes large and mid capitalisation stocks from Emerging Markets countries which comply with MSCI's size, liquidity and free-float criteria. As at 30 June 2015, the Benchmark Index

consisted of the following countries: Brazil, Chile, China, Colombia, Czech Republic, Egypt, Greece, Hungary, India, Indonesia, Korea, Malaysia, Mexico, Peru, Philippines, Poland, Russia, Qatar, South Africa, Taiwan, Thailand, Turkey and United Arab Emirates. The list of eligible countries may be subject to change over time. The Benchmark Index is market capitalisation weighted and rebalances on a semi-annual basis. Further details regarding the Benchmark Index (including its constituents) are available on the index provider's website at

<http://www.msci.com/products/indices/licensing/constituents.html>

Tracking Error

Under normal market conditions, it is expected that the anticipated level of tracking error will be less than 0.50%.

Global Exposure

The global exposure of the Subfund will be calculated on the basis of the commitment approach.

Subscription, Redemption and Conversion of Shares

Subscription, redemption and conversion applications must be received by the Central Administration or a distributor authorized by the Company to accept such applications by 3 p.m. (Central European Time) on any day on which banks are normally open for business in Luxembourg ("Dealing Day"), provided that the market or markets, on which 75% of the relevant Subfund's assets are traded are open the day after the Dealing Day and provided that this day is also a day on which banks are normally open for business in Luxembourg.

The Net Asset Value per Share of the relevant Share Class of the Subfund, is calculated on the second full business day in Luxembourg ("Valuation Day") following the respective Dealing Day.

Subscription, redemption and conversion applications received after this cut-off point shall be deemed to have been received prior to 3 p.m. on the following Dealing Day.

Payment of the issue price must be effected within one Banking Day after the Valuation Day on which the issue price of the Shares was determined. Payment of the redemption price of the Shares shall be made within one Banking Day following calculation of the redemption price.

No Shares of the Subfund will be, directly or indirectly, advertised, offered, distributed or sold to persons resident in India and no subscription application for Shares in the Subfund will be accepted if the acquisition of these Shares is financed by funds derived from sources within India.

As described under Chapter 5, "Investment in Credit Suisse Index Fund (Lux)" of the Prospectus, the Company is entitled to compulsorily redeem all Shares held by a Shareholder in any circumstances in which the Company determines that such compulsory redemption would avoid material legal, regulatory, pecuniary, tax, economic, proprietary, administrative or other disadvantages to the Company, including but not limited to the cases where such Shares are held by Shareholders who are not entitled to acquire or possess these Shares or who fail to comply with any obligations associated with the holding of these Shares under the applicable regulations. As a consequence the Shareholders shall note that the legal, regulatory or tax requirements applicable to their shareholding in the Subfund may include specific local requirements applicable as per the Indian laws and regulations and that non-compliance with the Indian regulations might lead to the termination of their investment in the Subfund, the compulsory redemption (in whole or in part) of the Shares held by the investors in the Subfund, the retention of any redemption proceeds to the investors or to any other measures taken by the local authorities and impacting the investment of the investor in the Subfund.

Risk Information

Investors should carefully consider all of the risk factors set out in Chapter 7, "Risk Factors" before investing in the Subfund. In particular the following risk set out in Chapter 7. "Risk Factors" may be more relevant for this Subfund: Investments in Emerging Countries.

Direct investments in India also involve specific risks. Accordingly, potential investors are referred in particular to the risks set out in Chapter 7, "Risk Factors" in relation to the FPI registration of the Subfund and the potential disclosure of information and personal data regarding the investors in the Subfund to the Indian local supervisory authorities and to the DDP.

Investor Profile

The Subfund is suitable for an investor who wishes to have the investment exposure as set out in the Subfund's investment objective. Although an investor can redeem Shares at any time (subject to the conditions described in Chapter 5), this Subfund is suitable where the intended investment horizon is long-term.

Investment Manager

The Management Company has appointed Credit Suisse AG, Zurich, as Investment Manager.

Credit Suisse Index Fund (Lux) Equities Emerging Markets Fundamental

The Reference Currency in which the performance and net asset value of the Subfund are calculated is US-Dollar.

Investment Objective

The Subfund tracks the **FTSE RAFI Emerging Markets Index** as its benchmark index.

The Investment Objective of the Subfund is to provide the Shareholders with a return in line with the performance of the **FTSE RAFI Emerging Markets Index** (the "Underlying Index") (see description under the section "Description of the Underlying Index").

Investment Principles

The Subfund may invest in a representative selection of securities from the benchmark index (optimized sampling) rather than in all the securities in the index. Selection is facilitated by a system that takes account of both quantitative factors as well as factors that determine returns. The portfolio may be limited to a representative selection of securities from the benchmark index owing to the investment restrictions set out below, to other legal or statutory restrictions, to costs and expenses incurred by the subfund, or to the illiquidity of certain securities.

The Subfund invests

- a) in equities and other equity-type securities and rights (shares, dividend-right certificates, shares in cooperatives, participation certificates) or equity-type securities such as American Depositary Receipts (ADRs), American Depositary Shares (ADS), Global Depositary Receipts (GDRs) and Global Depositary Shares (GDS) etc. (excluding securities with embedded derivatives) each of which qualifies as transferable security within the meaning of the Law of 17 December 2010, issued by companies which are contained in the above reference index;
- b) temporarily in equities and other equity-type securities and rights (shares, dividend-right certificates, shares in cooperatives, participation certificates, etc.) which are not contained in the benchmark index but where there is a high probability that such securities will be able to join the FTSE RAFI Emerging Markets Index on the basis of its acceptance criteria;
- c) in units of passively managed collective investment schemes, both domestic and foreign and listed and unlisted, that are consistent with the investment policy;
- d) in derivatives (including warrants) on the above investments. For the avoidance of doubt, such derivatives may include futures on the benchmark index, on financial indices that the Investment Manager believes to be highly correlated to the benchmark index, on indices of individual countries and regions that are reflected in the benchmark index or on indices which are primarily based on the same markets as the Subfund's benchmark index.

Investments (including derivatives on these investments) which are dropped from the benchmark index must be sold within an appropriate period while safeguarding the interests of the investors.

Description of the Underlying Index

The FTSE RAFI Emerging Markets Index is part of the FTSE RAFI® Index Series, launched in association with Research Affiliates, LLC. As part of FTSE Group's range of non market-cap weighted indexes, the FTSE RAFI Index Series selects and weights index constituents using four fundamental factors, rather than market capitalisation. These factors include dividends, cash flow, sales and book value.

The FTSE RAFI Emerging Markets Index is designed to provide investors with a tool to enable investment in emerging markets whilst using fundamental weightings methodology. The FTSE RAFI Emerging Markets Index consists of the 350 companies with the largest RAFI fundamental values, selected from the constituents of the FTSE Emerging Markets Index. Pursuant to the index rules the index is rebalanced on an annual basis and may also be rebalanced at other times, e.g. in order to reflect corporate activity such as mergers and acquisitions, as provided for in the index rules.

Additional information in relation to the index performance, characteristics, constituents, sector and country weights, methodology of construction and maintenance, rebalancing dates and other general information is available on the index provider's website www.ftse.com.

Tracking Error

Under normal market conditions, it is expected that the anticipated level of tracking error will be less than 0.50%.

Global Exposure

The global exposure of the Subfund will be calculated on the basis of the commitment approach.

Subscription, Redemption and Conversion of Shares

Subscription, redemption and conversion applications must be received by the Central Administration or a distributor authorized by the Company to accept such applications by 3 p.m. (Central European Time) on any day on which banks are normally open for business in Luxembourg ("Dealing Day"), provided that the market or markets, on which 75% of the relevant Subfund's assets are traded are open the day after the Dealing Day and provided that this day is also a day on which banks are normally open for business in Luxembourg.

The Net Asset Value per Share of the relevant Share Class of the Subfund, is calculated on the second full business day in Luxembourg ("Valuation Day") following the respective Dealing Day.

Subscription, redemption and conversion applications received after this cut-off point shall be deemed to have been received prior to 3 p.m. on the following Dealing Day.

Payment of the issue price must be effected within one Banking Day after the Valuation Day on which the issue price of the Shares was determined. Payment of the redemption price of the Shares shall be made within one Banking Day following calculation of the redemption price.

No Shares of the Subfund will be, directly or indirectly, advertised, offered, distributed or sold to persons resident in India and no subscription application for Shares in the Subfund will not be accepted if the acquisition of these Shares is financed by funds derived from sources within India.

As described under Chapter 5, "Investment in Credit Suisse Index Fund (Lux)" of the Prospectus, the Company is entitled to compulsorily redeem all Shares held by a Shareholder in any circumstances in which the Company determines that such compulsory redemption would avoid material legal, regulatory, pecuniary, tax, economic, proprietary, administrative or other disadvantages to the Company, including but not limited to the cases where such Shares are held by Shareholders who are not entitled to acquire or possess these Shares or who fail to comply with any obligations associated with the holding of these Shares under the applicable regulations. As a consequence the Shareholders shall note that the legal, regulatory or tax requirements applicable to their shareholding in the Subfund may include specific local requirements applicable as per the Indian laws and regulations and that non-compliance with the Indian regulations might lead to the termination of their investment in the Subfund, the compulsory redemption (in whole or in part) of the Shares held by the investors in the Subfund, the retention of any redemption proceeds to the investors or to any other measures taken by the local authorities and impacting the investment of the investor in the Subfund.

Risk Information

Investors should carefully consider all of the risk factors set out in Chapter 7, "Risk Factors" before investing in the Subfund. In particular the following risk set out in Chapter 7, "Risk Factors" may be more relevant for this Subfund: Investments in Emerging Countries.

Credit Suisse Index Fund (Lux) Equities Emerging Markets Sustainability³

The Reference Currency in which the performance and net asset value of the Subfund are calculated is US Dollar.

Investment Objective

The Subfund tracks the **MSCI Emerging Markets ESG Index** as its benchmark index.

The Investment Objective of the Subfund is to provide the Shareholders with a return in line with the performance of the **MSCI Emerging Markets ESG Index** (the "Underlying Index") (see description under the section "Description of the Underlying Index").

Investment Principles

The Subfund may invest in a representative selection of securities from the benchmark index (optimized sampling) rather than in all the securities in the index. Selection is facilitated by a system that takes account of both quantitative factors as well as factors that determine returns. The portfolio may be limited to a representative selection of securities from the benchmark index owing to the investment restrictions set out below, to other legal or statutory restrictions, to costs and expenses incurred by the subfund, or to the illiquidity of certain securities.

The Subfund invests

- a) in equities and other equity-type securities and rights (shares, dividend-right certificates, shares in cooperatives, participation certificates) or equity-type securities such as American Depositary Receipts (ADRs), American Depositary Shares (ADS), Global Depositary Receipts (GDRs) and Global Depositary Shares (GDS) etc. (excluding securities with embedded derivatives) each of which qualifies as transferable security within the meaning of the Law of 17 December 2010, issued by companies which are contained in the above reference index;
- b) temporarily in equities and other equity-type securities and rights (shares, dividend-right certificates, shares in cooperatives, participation certificates, etc.) which are not contained in the benchmark index but where there is a high probability that such securities will be able to join the MSCI Emerging Markets ESG Index on the basis of its acceptance criteria;
- c) in units of passively managed collective investment schemes, both domestic and foreign and listed and unlisted, that are consistent with the investment policy;
- d) in derivatives (including warrants) on the above investments. For the avoidance of doubt, such derivatives may include futures on the benchmark index, on financial indices that the Investment Manager believes to be highly correlated to the benchmark index, on indices of individual countries and regions that are reflected in the benchmark index or on indices which are primarily based on the same markets as the Subfund's benchmark index.

Investments (including derivatives on these investments) which are dropped from the benchmark index must be sold within an appropriate period while safeguarding the interests of the investors.

Description of the Underlying Index

The MSCI Emerging Markets ESG Index is a capitalization weighted index that provides exposure to companies with high Environmental, Social and Governance (ESG) performance relative to their sector peers. It consists of large and mid-cap companies across 23 Emerging Markets (EM) countries: Brazil, Chile, China, Colombia, Czech Republic, Egypt, Greece, Hungary, Indonesia, India, Korea, Malaysia, Mexico, Peru, Philippines, Poland, Qatar, Russia, South Africa, Taiwan, Thailand, Turkey, and United Arab Emirates. The Index is designed for investors seeking a broad, diversified sustainability benchmark with relatively low tracking error to the underlying equity market.

Pursuant to the index rules the index is rebalanced on a quarterly basis and may also be rebalanced at other times, e.g. in order to reflect corporate activity such as mergers and acquisitions, as provided for in the index rules.

Further details regarding the Benchmark Index (including its constituents) are available on the index provider's website at

<http://www.msci.com/products/indices/licensing/constituents.html>

Tracking Error

Under normal market conditions, it is expected that the anticipated level of tracking error will be less than 0.50%.

Global Exposure

The global exposure of the Subfund will be calculated on the basis of the commitment approach.

Subscription, Redemption and Conversion of Shares

Subscription, redemption and conversion applications must be received by the Central Administration or a distributor authorized by the Company to accept such applications by 3 p.m. (Central European Time) on any day on which banks are normally open for business in Luxembourg ("Dealing Day"), provided that the market or markets, on which 75% of the relevant Subfund's assets are traded are open the day after the Dealing Day and provided that this day is also a day on which banks are normally open for business in Luxembourg.

The Net Asset Value per Share of the relevant Share Class of the Subfund, is calculated on the second full business day in Luxembourg ("Valuation Day") following the respective Dealing Day.

Subscription, redemption and conversion applications received after this cut-off point shall be deemed to have been received prior to 3 p.m. on the following Dealing Day.

Payment of the issue price must be effected within one Banking Day after the Valuation Day on which the issue price of the Shares was determined. Payment of the redemption price of the Shares shall be made within one Banking Day following calculation of the redemption price.

No Shares of the Subfund will be, directly or indirectly, advertised, offered, distributed or sold to persons resident in India and no subscription application for Shares in the Subfund will be accepted if the acquisition of these Shares is financed by funds derived from sources within India.

As described under Chapter 5, "Investment in Credit Suisse Index Fund (Lux)" of the Prospectus, the Company is entitled to compulsorily redeem all Shares held by a Shareholder in any circumstances in which the Company determines that such compulsory redemption would avoid material legal, regulatory, pecuniary, tax, economic, proprietary, administrative or other disadvantages to the Company, including but not limited to the cases where such Shares are held by Shareholders who are not entitled to acquire or possess these Shares or who fail to comply with any obligations associated with the holding of these Shares under the applicable regulations. As a consequence the Shareholders shall note that the legal, regulatory or tax requirements applicable to their shareholding in the Subfund may include specific local requirements applicable as per the Indian laws and regulations and that non-compliance with the Indian regulations might lead to the termination of their investment in the Subfund, the compulsory redemption (in whole or in part) of the Shares held by the investors in the Subfund, the retention of any redemption proceeds to the investors or to any other measures taken by the local authorities and impacting the investment of the investor in the Subfund.

Risk Information

Investors should carefully consider all of the risk factors set out in Chapter 7, "Risk Factors" before investing in the Subfund. In particular the following risk set out in Chapter 7. "Risk Factors" may be more relevant for this Subfund: Investments in Emerging Countries.

Direct investments in India also involve specific risks. Accordingly, potential investors are referred in particular to the risks set out in Chapter 7, "Risk Factors" in relation to the FPI registration of the Subfund and the potential disclosure of information and personal data regarding the investors in the Subfund to the Indian local supervisory authorities and to the DDP.

Investor Profile

The Subfund is suitable for an investor who wishes to have the investment exposure as set out in the Subfund's investment objective. Although an investor can redeem Shares at any time (subject to the conditions described in Chapter 5), this Subfund is suitable where the intended investment horizon is long-term.

Investment Manager

The Management Company has appointed Credit Suisse AG, Zurich, as Investment Manager.

³ This Subfund is currently not launched. The launch date of this Subfund will be determined by the Board of Directors at a later stage.

Launch Date

The launch date of the Subfund is to be determined by the Board of Directors.

Under no circumstances may any person or entity claim any affiliation with MSCI without the prior written permission of MSCI.

Credit Suisse Index Fund (Lux) Government Bonds EUR

The Reference Currency in which the performance and net asset value of the Subfund are calculated is Euro.

Investment Objective

The Subfund tracks the **Citigroup EMU Government Bond Index** as its benchmark index.

The Investment Objective of the Subfund is to provide the Shareholders with a return in line with the performance of the **Citigroup EMU Government Bond Index** (the "Underlying Index") (see description under the section "Description of the Underlying Index").

Investment Principles

The Subfund may invest in a representative selection of securities from the benchmark index (optimized sampling) rather than in all the securities in the index. Selection is facilitated by a system that takes account of both quantitative factors as well as factors that determine returns. The portfolio may be limited to a representative selection of securities from the benchmark index owing to the investment restrictions set out below, to other legal or statutory restrictions, to costs and expenses incurred by the Subfund, or to the illiquidity of certain securities.

The Subfund

- a) invests in euro-denominated bonds, as well as other fixed or variable-interest debt instruments and rights of public issuers which are contained in the benchmark index;
- b) may temporarily invest in euro-denominated bonds and other fixed or variable-rate debt instruments and rights which are not contained in the benchmark index but where there is a high probability that such securities will be included in the Citigroup EMU Government Bond Index on the basis of its acceptance criteria;
- c) exhibits a modified duration which may not differ from that of the benchmark index by more than six months;
- d) invests in derivatives (including warrants) on the above investments. For the avoidance of doubt, such derivatives may include futures on the benchmark index, on financial indices that the Investment Manager believes to be highly correlated to the benchmark index, on indices of individual countries and regions that are reflected in the benchmark index or on indices which are primarily based on the same markets as the Subfund's benchmark index;
- e) invests in securities as per a) which were formerly included in the benchmark index but were dropped from it solely because of the benchmark index criterion stipulating a residual maturity of more than one year.

Investments (including derivatives on these investments) which are dropped from the benchmark index must be sold within an appropriate period while safeguarding the interests of the investors. However, those securities which are dropped from the benchmark index solely on the basis of the benchmark index criterion stipulating a residual maturity of more than one year need not be sold.

The Subfund will currently not invest in ABS and MBS.

Description of the Underlying Index

The Citigroup EMU Government Bond Index consists of those EMU-participating countries that meet the WGBI (World Government Bond Index) index criteria. Current EMU-participating countries include: Austria, Belgium, Cyprus, Estonia, Finland, France, Germany, Greece, Ireland, Italy, Luxembourg, Malta, the Netherlands, Portugal, Slovakia, Slovenia and Spain. However, an individual EMU-participating country must satisfy the WGBI entry criteria for its market to be included in the EGBI. Therefore, the debt of Cyprus, Estonia, Greece, Luxembourg, Malta, Portugal, Slovakia and Slovenia is not currently included in this Index. Pursuant to the index rules the index is rebalanced on a monthly basis and may also be rebalanced at other times, e.g. in order to reflect corporate activity such as mergers and acquisitions, as provided for in the index rules.

Additional information in relation to the index characteristics, constituents, sector and country weights, methodology of construction and maintenance, rebalancing dates and other general information is available on the index provider's website www.yieldbook.com.

Tracking Error

Under normal market conditions, it is expected that the anticipated level of tracking error will be less than 0.15%.

Global Exposure

The global exposure of the Subfund will be calculated on the basis of the commitment approach.

Subscription, Redemption and Conversion of Shares

Subscription, redemption and conversion applications must be submitted in written form to the Central Administration or a distributor authorized by the Company to accept such applications, by 2 p.m. (Central European Time) on any day on which banks are normally open for business in Luxembourg ("Dealing Day"), provided that the market or markets, on which 75% of the relevant Subfund's assets are traded are open.

The Net Asset Value per Share of the relevant Share Class of the Subfund, is calculated on the first full business day in Luxembourg ("Valuation Day") following the respective Dealing Day.

Subscription, redemption and conversion applications received after this cut-off point shall be deemed to have been received prior to 2 p.m. on the following Dealing Day.

Payment of the issue price must be effected within one Banking Day after the Valuation Day on which the issue price of the Shares was determined. Payment of the redemption price of the Shares shall be made within one Banking Day following calculation of the redemption price.

Risk Information

Investors should carefully consider all of the risk factors set out in Chapter 7, "Risk Factors" before investing in the Subfund.

Investor Profile

The Subfund is suitable for an investor who wishes to have the investment exposure as set out in the Subfund's investment objective. Although an investor can redeem Shares at any time (subject to the conditions described in Chapter 5), this Subfund is suitable where the intended investment horizon is long-term.

Investment Manager

The Management Company has appointed Credit Suisse AG, Zurich, as Investment Manager.

Disclaimer

The Credit Suisse Index Fund (Lux) Government Bonds EUR (the "Fund") is not sponsored, endorsed, sold or promoted by Citigroup Index LLC ("Citigroup Index") or any of its affiliates (collectively, "Citigroup"). Citigroup Index makes no representation or warranty, express or implied, to the owners or prospective owners of shares of the Fund or any member of the public regarding the advisability of investing in securities generally or in the Fund particularly, or the ability of the Fund to track the price and yield performance of the Citigroup EMU Government Bond Index or the ability of the Citigroup EMU Government Bond Index to track general bond market performance. Citigroup Index's only relationship to Credit Suisse AG ("Licensee") is the licensing of certain information, data, trademarks and trade names of Citigroup. The Citigroup EMU Government Bond Index is determined, composed and calculated by Citigroup Index without regard to Licensee or the Fund. Citigroup Index has no obligation to take the needs of Licensee or the owners or prospective owners of the Fund into consideration in determining, composing or calculating the Citigroup EMU Government Bond Index. Citigroup Index is not responsible for and has not participated in the determination of the prices and amount of the shares to be issued by the Fund or the timing of the issuance or sale of the shares to be issued by the Fund or in the determination or calculation of the equation by which the shares to be issued by the Fund are to be converted into cash. Citigroup Index has no obligation or liability in connection with the administration, marketing or trading of the Fund. Credit Suisse Index Fund (Lux) Government Bonds World ex EUR⁴

The Reference Currency in which the performance and net asset value of the Subfund are calculated is US Dollar.

Investment Objective

The Subfund tracks the **Citigroup Non-EUR World Government Bond Index** as its benchmark index.

The Investment Objective of the Subfund is to provide the Shareholders with a return in line with the performance of the **Citigroup Non-EUR World Government Bond Index** (the "Underlying Index") (see description under the section "Description of the Underlying Index").

Investment Principles

The Subfund may invest in a representative selection of securities from the benchmark index (optimized sampling) rather than in all the securities in the index. Selection is facilitated by a system that takes account of both quantitative factors as well as factors that determine returns. The portfolio may be limited to a representative selection of securities from the benchmark index owing to the investment restrictions set out below, to other legal or statutory restrictions, to costs and expenses incurred by the Subfund, or to the illiquidity of certain securities.

The Subfund

- a) invests in US Dollar-denominated bonds, as well as other fixed or variable-interest debt instruments and rights of public issuers which are contained in the benchmark index;
- b) may temporarily invest in US Dollar-denominated bonds and other fixed or variable-rate debt instruments and rights which are not contained in the benchmark index but where there is a high probability that such securities will be included in the Citigroup Non-EUR World Government Bond Index on the basis of its acceptance criteria;
- c) exhibits a modified duration which may not differ from that of the benchmark index by more than six months;
- d) invests in derivatives (including warrants) on the above investments. For the avoidance of doubt, such derivatives may include futures on the benchmark index, on financial indices that the Investment Manager believes to be highly correlated to the benchmark index, on indices of individual countries and regions that are reflected in the benchmark index or on indices which are primarily based on the same markets as the Subfund's benchmark index;
- e) invests in securities as per a) which were formerly included in the benchmark index but were dropped from it solely because of the benchmark index criterion stipulating a residual maturity of more than one year.

Investments (including derivatives on these investments) which are dropped from the benchmark index must be sold within an appropriate period while safeguarding the interests of the investors. However, those securities which are dropped from the benchmark index solely on the basis of the benchmark index criterion stipulating a residual maturity of more than one year need not be sold.

The Subfund will currently not invest in ABS and MBS.

Description of the Underlying Index

The Citigroup Non-EUR World Government Bond Index consists of those countries that meet the WGBI index criteria except the current EMU participating countries (Austria, Belgium, Cyprus, Estonia, Finland, France, Germany, Greece, Ireland, Italy, Luxembourg, Malta, the Netherlands, Portugal, Slovakia, Slovenia and Spain). Pursuant to the index rules, the index components must be rated at least A- by S&P and A3 by Moody's, and will be excluded from the index if its rating falls below BBB- by S&P and below Baa3 by Moody's. The index is rebalanced on a monthly basis and may also be rebalanced at other times, e.g. in order to reflect corporate activity such as mergers and acquisitions, as provided for in the index rules. Additional information in relation to the index characteristics, constituents, sector and country weights, methodology of construction and maintenance, rebalancing dates and other general information is available on the index provider's website www.yieldbook.com.

⁴ This Subfund is currently not launched. The launch date of this Subfund will be determined by the Board of Directors at a later stage.

Tracking Error

Under normal market conditions, it is expected that the anticipated level of tracking error will be less than 0.15%.

Global Exposure

The global exposure of the Subfund will be calculated on the basis of the commitment approach.

Subscription, Redemption and Conversion of Shares

Subscription, redemption and conversion applications must be submitted in written form to the Central Administration or a distributor authorized by the Company to accept such applications, by 3 p.m. (Central European Time) on any day on which banks are normally open for business in Luxembourg ("Dealing Day"), provided that the market or markets, on which 75% of the relevant Subfund's assets are traded are open the day after the Dealing Day and provided that this day is also a day on which banks are normally open for business in Luxembourg.

The Net Asset Value per Share of the relevant Share Class of the Subfund, is calculated on the second full business day in Luxembourg ("Valuation Day") following the respective Dealing Day.

Subscription, redemption and conversion applications received after this cut-off point shall be deemed to have been received prior to 3 p.m. on the following Dealing Day.

Payment of the issue price must be effected within one Banking Day after the Valuation Day on which the issue price of the Shares was determined. Payment of the redemption price of the Shares shall be made within one Banking Day following calculation of the redemption price.

Risk Information

Investors should carefully consider all of the risk factors set out in Chapter 7 "Risk Factors" before investing in the Subfund.

Investor Profile

The Subfund is suitable for an investor who wishes to have the investment exposure as set out in the Subfund's investment objective. Although an investor can redeem Shares at any time (subject to the conditions described in Chapter 5), this Subfund is suitable where the intended investment horizon is long-term.

24. Additional information for investors in Germany

No notification pursuant to Sec. 310 of the German Capital Investment Code (Kapitalanlagegesetzbuch) has been filed for the following Subfunds and the Shares in these Subfunds may not be marketed to investors in the Federal Republic of Germany:

- Credit Suisse Index Fund (Lux) Corporate Bonds EUR
- Credit Suisse Index Fund (Lux) Equities Emerging Markets Sustainability
- Credit Suisse Index Fund (Lux) Equities World Factor Mix

All Share Classes are only available in uncertificated registered form and will exist exclusively as book entries. No printed individual certificates were issued in respect of the Shares.

Applications for the redemption and conversion of Shares which may be distributed in Germany may be submitted to the Central Administration (Credit Suisse Fund Services (Luxembourg) S.A., 5, rue Jean Monnet 2180 Luxembourg). All payments which are intended for Shareholders (including proceeds of the redemption of Shares and any disbursements or other payments) may be channeled, at their request, via the Central Administration. The Central Administration will disburse its payments to the registered Shareholders domiciled in Germany. The registered Shareholders will be responsible for the further distribution of the payments to the end investors (if any).

Credit Suisse (Deutschland) AG, Taunustor 1, D-60310 Frankfurt am Main acts as information agent for the Company in Germany (the "**German Information Agent**").

Investors may obtain the Prospectus, the Key Investor Information Documents, the Articles of Incorporation, the audited annual and the unaudited semi-annual reports free of charge in paper form from the German Information Agent.

The issue and redemption prices and other information in relation to the Company (including the Net Asset Value), together with the additional information specified in Chapter 14, "Information for Shareholders", may be obtained free of charge from the German Information Agent or may be inspected there on each banking day.

Any required notices to Shareholders and the issue and redemption prices, shall be published on the Internet website at www.credit-suisse.com. The Company's Board of Directors may also place announcements in other newspapers and periodicals of its choice. Furthermore, registered investors will be notified by way of permanent data media in the following instances:

- Suspension of the redemption of Shares;
- Liquidation of the Company or a Subfund;
- Amendments to the Articles of Incorporation which are not compatible with the existing investment principles, affect significant investor rights, or relate to remuneration or compensation of expenses (stating the background and the investors' rights);
- Merger of a Subfund;
- Conversion of a Subfund into a Feeder Fund.
