WHERE TO OBTAIN THE MOST RECENT ANNUAL AND INTERIM REPORTS

Shareholders will be sent the most recent annual documents and the asset inventory within eight business days after submitting a written request to:
LYXOR INTERNATIONAL ASSET MANAGEMENT.
17 Cours Valmy - 92987 Paris La Défense France
E-mail: contact@lyxor.com.
More information can be requested on Lyxor's website at www.lyxoretf.com

SERVICE PROVIDERS

ASSET MANAGEMENT BY DELEGATION

LYXOR INTERNATIONAL ASSET MANAGEMENT.
A French simplified joint-stock company (Société par Actions Simplifiée - SAS).
Registered office: 17 Cours Valmy - 92987 Paris La Défense France.
Postal address: Tour Société Générale - S06.133 - 17, Cours Valmy - 92987 Paris-La Défense Cedex – FRANCE.

THE DEPOSITORY

The Depositary is Société Générale S.A., acting through its Securities Services department (the “**Depositary**”). Société Générale, which has its registered office at 29, boulevard Haussmann in Paris (75009), is registered in the Paris trade register under No. 552 120 222, has been approved by the French Prudential Supervision and Resolution Authority (the ACPR) and is also subject to the supervision of the French Financial Markets Authority (the AMF).

The Depositary’s duties and potential conflicts of interest

The Depositary is responsible for three things — monitoring the compliance of the management company’s decisions, holding the assets of investment funds in custody and monitoring the cash flows of these investment funds.

The Depositary’s main objective is to protect the interests of each fund’s shareholders and investors.

Potential conflicts of interest may be identified, particularly if the Management Company maintains a business relationship with Société Générale that extends beyond the latter’s Depositary duties, for example, if the Management Company delegates to Société Générale the task of calculating the net asset value of the funds of which Société Générale is the Depositary, or when there is a group relationship between the Management Company and the Depositary.

In order to manage such situations, the Depositary has setup and maintains a policy for managing conflicts of interest which serves to:

- Identify and examine potential conflict-of-interest situations
- Record, manage and follow up conflict-of-interest situations, by:
 - (i) using ongoing measures to deal with conflicts of interest, such as segregating duties, separating line and staff functions, monitoring “insiders”, and using dedicated IT environments;
 - (ii) and also, on a case-by-case basis:
 - (a) implementing appropriate preventive measures such as drawing up ad hoc “watch lists”, setting up Chinese walls, checking that transactions are dealt with appropriately, and/or informing any clients who may be affected;
 - (b) or otherwise, refusing to engage in activities that may result in a conflict of interest.

Custodial functions which the Depositary may delegate, delegates and sub-delegates, and the identification of conflicts of interest that may require such delegation

The Depositary is responsible for the custody of assets (as defined under Article 22.5 of Directive 2009/65/EC as amended by Directive 2014/91/EU). In order to provide custodial services in a large number of countries and enable investment funds to achieve their investment objectives, the Depositary has appointed sub-custodians in the countries where the Depositary normally does not have a direct local presence. These entities are listed at http://www.securitieservices.societegenerale.com/uploads/tb_bisnews/Global_list_of_sub_custodians_for_SGSS_2016_05.pdf.

In accordance with Article 22 bis 2. of the UCITS V directive, the process for appointing and supervising sub-custodians complies with the highest standards of quality and includes the management of potential conflicts of interest that may arise when sub-custodians are appointed. The Depositary has prepared an effective policy for identifying, preventing and managing conflicts of interest in compliance with national and international regulations and international standards.

The delegation of the Depositary’s custodial functions may result in conflicts of interest. The latter have been identified and are monitored. The Depositary’s conflict-of-interest policy includes measures to prevent the occurrence of conflict-of-interest situations and to ensure that, in the course of its business activities, the Depositary always acts in the best interests of the investment funds. These preventive measures consist most notably in ensuring the confidentiality of the information exchanged, physically separating activities that may result in a conflict of interest, determining and classifying remuneration and pecuniary and non-pecuniary benefits, and implementing a policy and measures that govern the acceptance of gifts and hospitality.

Investors may obtain the most recent information on the above policy measures upon request.

TRANSFER AGENT AND REGISTRAR

By delegation from Lyxor International Asset Management:
SOCIÉTÉ GÉNÉRALE.

A credit institution founded on 4 May 1864 by special decree of Napoleon III.
Registered office: 29, bd Haussmann - 75009 Paris – FRANCE.
Postal address: 32 rue du champ de tir - 44000 Nantes - France

AUDITOR

PRICEWATERHOUSECOOPERS AUDIT.

A French joint-stock company.

Registered office: 3, rue de Villiers - 92208 Neuilly-sur-Seine - France.

Signatory: Marie-Christine Jetil.

ADMINISTRATION AND ACCOUNTING

LYXOR INTERNATIONAL ASSET MANAGEMENT will delegate the Fund's administration and accounting to:

Société Générale

A credit institution founded on 4 May 1864 by special decree of Napoleon III.

Registered office: 29, bd Haussmann - 75009 Paris – FRANCE.

The services that Société Générale provides to Lyxor International Asset Management consist of assisting it with the Sub-fund's administration and accounting, and more specifically in calculating its net asset value and in providing the information and materials required to prepare its annual reports, regulatory filings and statistics for the Banque de France.

MARKET MAKER

The following financial institution (the "Market Maker") is responsible for making a market in the shares of the Sub-fund's sub-funds.:

Société Générale Corporate and Investment Banking - Tour Société Générale, 17 Cours Valmy, 92987 Paris-La Défense, FRANCE.

MEMBERS OF THE EXECUTIVE AND SUPERVISORY BODIES

BOARD OF DIRECTORS

Chairman and Director: Guilhem Tosi.

Director: Lyxor Asset management, represented by Lionel PAQUIN

Director: Société Générale, represented by Tanguy Aumon

Director: Clarisse Djabbari Guilani

MANAGING DIRECTOR

Guilhem TOSI

SHARE CHARACTERISTICS

Shares are registered in a register in the name of the entities that keep the accounts of share-holders on their behalf. The register is kept by the Depositary.

The shares of the MULTI UNITS FRANCE fund are representative of each sub-fund's assets and each sub-fund share is entitled to a portion of the sub-fund's assets and profits that is proportional to the fraction of the sub-fund's assets that the share represents.
Shareholder rights and obligations remain attached to the share, regardless of the holder.

Unless otherwise agreed and notified to the Company, these voting rights are to be exercised by the beneficial holder at annual general meetings and by the bare owner at extraordinary general meetings.

Shares may be held in either bearer or registered form at the investor's option.

Shares can be divided, if so decided by the board of directors, into fractions of 10ths, 100ths, 1000ths, 10,000ths, or 100,000ths, known as share fractions.

BALANCE SHEET DATE

The last business day in France in October.

First balance sheet date: 31 October 2005.

TAXATION

Investors should note that the following information is just a general summary of the applicable tax regime, under current French law, for investment in a French SICAV fund. Investors are therefore advised to consider their specific situation with their usual tax advisor.

1. Taxation of the Sub-fund

In France, although established in the form of a limited liability company, SICAVs are expressly exempt from corporate tax on the profits generated within the framework of their legal purpose. Income received and generated by the Sub-fund through its management activities is not therefore taxable at the level of the Sub-fund.

Outside France (in the countries in which the Sub-fund invests), capital gains on the disposal of foreign negotiable securities and income from foreign sources received by the Sub-fund through its management activities may, if applicable, be subject to tax (generally in the form of withholding tax. In certain limited cases, foreign taxation may be reduced or cancelled in the presence of any applicable tax treaties.

2. Taxation of Sub-fund share-holders

2.1 Shareholders resident in France

The Sub-fund's distributions to French residents, as well as capital gains or losses, are subject to prevailing tax legislation.

Investors are advised to consider their specific situation with their usual tax advisor.

2.2 Non-French resident share-holders

The terms of a tax treaty or lack thereof may make the Sub-fund's distributions subject to a standard deduction at source or withholding tax in France.

Moreover, capital gains realized on the purchase/disposal of sub-fund shares are generally tax-exempt..

Share-holders resident outside France will be subject to the applicable tax legislation in their country of residence.

INFORMATION ON THE AUTOMATIC AND COMPULSORY EXCHANGE OF TAX INFORMATION

The management company may collect and report to tax authorities information that concerns investors in the Fund for the sole purpose of complying with Article 1649 AC of the French General Tax code and with Council Directive 2014/107/EU of 9 December 2014 which amended Directive 2011/16/EU on the automatic and compulsory exchange of tax information.

Investors are entitled to access information that concerns them and have this information corrected or deleted if necessary and may exercise these rights vis-à-vis the financial institution pursuant to the French data privacy act of 6 January 1978 (the “*loi information et libertés*”) but also agree to provide the information the financial institution requires for its reporting purposes.

INFORMATION CONCERNING THE FOREIGN ACCOUNT TAX COMPLIANCE ACT (“FATCA”)

France and the United States have concluded a Model I intergovernmental agreement (“IGA”), to enable the enforcement in France of the U.S. Foreign Account Tax Compliance Act (“FATCA”), the purpose of which is to prevent tax evasion by U.S. taxpayers who hold financial assets abroad. The term “U.S. taxpayer” means a U.S. citizen or resident individual, a partnership or corporation organized in the United States or under the laws of the United States or any State thereof, a trust if (i) a court located in the United States would have authority under applicable law to render orders or judgments concerning substantially all issues regarding administration of the trust, and (ii) one or more U.S. taxpayers have the authority to control all substantial decisions of the trust, or an estate of a decedent that is a citizen or resident of the United States

The Fund has been registered with the U.S. tax authorities as a “reporting financial institution”. As such, the Fund is required, as of 2014, to report information to the U.S. tax authorities concerning certain asset holdings of, or payments to, certain U.S. taxpayers or non-U.S. financial institutions that are considered as non participating to FATCA, via automatic information exchange between French and U.S. tax authorities. Investors will be responsible for certifying their FATCA status with their financial intermediary or with the management company, as applicable.

Since the Fund will observe its obligations under IGA as implemented in France, it will be considered FATCA compliant and should therefore be exempt from withholding tax under FATCA on certain U.S. source income or products.

It is recommended that investors whose shares are held by a custodian in a jurisdiction that is not a party to an IGA ask their custodian what the custodian’s intentions are with respect to FATCA. Some custodians may require additional information from investors to comply with their obligations under FATCA or with the obligations of the custodian’s jurisdiction. Moreover, the scope of obligations under FATCA or under an IGA may vary depending on the custodian’s jurisdiction. Investors should therefore seek advice from their financial advisor.

SUB-FUND No. 1: LYXOR BEL 20 TR (DR) UCITS ETF

A SICAV SUB-FUND COMPLIANT WITH DIRECTIVE 2009/65/CE

ISIN CODE

Share class: FR0000021842

CLASSIFICATION

Eurozone country equities.

The Lyxor UCITS ETF BEL 20 TR (DR) UCITS ETF sub-fund (hereinafter the “**Sub-fund**”) will constantly maintain at least 60% exposure to one or more of the equity markets of one or more eurozone countries, including the French equity market.

The Sub-fund is an index tracker of the UCITS ETF type.

INCEPTION DATE

The Sub-fund was approved by the Commission des Opérations de Bourse on 14 June 2002 and was established on 31 July 2002.

INVESTMENT OBJECTIVE

The Sub-fund’s investment objective is to replicate the performance of the Bel 20 NR™ index (the “**Benchmark Index**”), denominated in euros, while minimizing the tracking error between the Sub-fund’s performance and that of its Benchmark Index.

The expected ex-post tracking error under normal market conditions is 0.20%.

BENCHMARK INDEX

The Benchmark Index is the BEL 20™ NR (Net Return) index (net dividends reinvested).

The Benchmark Index is a basket index, disseminated in real-time, which monitors the continuous evolution of the prices of the 20 most liquid Belgian equities. The stocks of the Benchmark Index are weighted according to their free-float adjusted market capitalization. The Benchmark Index is continuously disseminated in real-time, but the official closing index is only disseminated after 5.40 p.m.

The performance tracked is that of the Benchmark Index’s closing price.

A full description of the Benchmark Index and its construction methodology and information on the composition and respective weightings of the Benchmark Index components are available on the Internet at <https://www.euronext.com>.

Benchmark Index composition and revision

The composition of the Benchmark Index is revised annually.

The exact composition of the Benchmark Index and Euronext Paris’s rules for its revision are available on its website at <https://www.euronext.com>. The frequency with which the Benchmark Index is rebalanced does not affect the cost of implementing the Investment Strategy.

Benchmark Index publication

Real-time Benchmark Index values are available via Bloomberg and Reuters.

Reuters code: **.BFXP**

Bloomberg code: **BELPRX**

The Benchmark Index’s closing price is available on the Internet at [www: https://indices.nyx.com/](https://indices.nyx.com/)

Pursuant to Article 52 of European Parliament and Council Regulation 2016/1011 of 8 June 2016, Euronext, the administrator of the Bel 20 NR™ benchmark index, has until 1 January 2020 to apply for approval or registration as applicable.

As of the date of the most recent version of this prospectus, the benchmark index administrator was not yet listed in ESMA’s register of benchmark administrators.

Pursuant to European Parliament and Council Regulation 2016/1011 of 8 June 2016, the asset management company has a procedure for monitoring the benchmark indices used that specifies the measures to be implemented if an index is substantially modified or is no longer provided.

INVESTMENT STRATEGY

1. Strategy employed

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund will use a direct replication method, which means that it will invest mainly in the Benchmark Index's constituents.

In order to optimize the direct replication method that is used to track the Benchmark Index, the Sub-fund, represented by its delegated asset manager, may decide to employ a "sampling" technique that consists in investing in a selection of representative Benchmark Index constituents in order to reduce the costs of investing directly in all of the various Benchmark Index constituents. This sampling technique could cause the Sub-fund to invest in a selection of representative Benchmark Index securities (and not in all of them) in proportions that do not reflect their weight within the Benchmark Index, and even to invest in securities that are not constituents of the Benchmark Index.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund may also, on an ancillary basis, engage in transactions involving derivative instrument financials (DFI). These transactions could for example be futures contracts on indices and/or swaps for hedging purposes and in particular to minimise the Sub-fund's **tracking error**.

To ensure transparency on the use of the direct index replication method (i.e. either full replication of the Benchmark Index or sampling to limit replication costs) and on its consequences in terms of the assets in the Sub-fund's portfolio, information on the updated composition of the basket of 'balance sheet' assets in the Sub-fund's portfolio is available on the page dedicated to the Sub-fund accessible on Lyxor's website at www.lyxoretf.com. The frequency of any updates and/or the date on which the aforementioned information is updated is also indicated on the same page of the aforementioned website.

In managing its exposure, up to 20% of the Sub-fund's assets may be exposed to equities issued by the same entity. This 20% limit may be increased to 35% for a given issuing entity when this is shown to be justified by exceptional market conditions and in particular when certain securities are largely dominant and/or in the event of strong volatility that affects a financial instrument or securities linked to an economic sector represented in the Benchmark Index, particularly in the event of a public offering that substantially affects a Benchmark Index security or in the event of a significant drop in the liquidity of one or more of the Benchmark Index's financial instruments:

2. Balance sheet assets (excluding embedded derivatives)

The Sub-fund will comply with the investment rules set out in European Directive 2009/65/EC of 13 July 2009.

The Sub-fund will mainly be invested in the securities that make up the Benchmark Index.

Investment in undertakings for collective investment in transferrable securities ("UCITS") that comply with Directive 2009/65/EC is limited to 10% of the net assets. The Sub-fund may invest in the units or shares of UCITS managed by the management company or by a company that is related to the management company. The fund manager will not invest in the shares or units of alternative investment funds (AIF) or other investment funds that were formed under a foreign law.

When the Sub-fund receives collateral in the form of securities, subject to the terms of section 8 below, it acquires full title to these securities and they are therefore included among the balance sheet assets to which it has full title.

To optimize the Sub-fund's management and achieve its investment objective, the manager reserves the right to use other instruments in accordance with regulations.

3. Off-balance sheet assets (derivatives)

On an ancillary basis, the Sub-fund may engage in transactions involving derivatives traded on a regulated market or over the counter.

With respect to derivatives traded over-the-counter, in accordance with its best-execution policy the management company considers that Société Générale would be the counterparty that would generally provide the best possible execution for any hedging transactions the Sub-fund may enter into pursuant to its investment strategy. Accordingly, all of some of these derivatives (including index-linked swaps) may be traded with Société Générale without having to seek a competitive bid from another counterparty.

4. Securities with embedded derivatives

N/A.

5. Cash deposits

In order to optimize its cash management, the Sub-fund may deposit funds representing up to 20% of its net assets with lending institutions that belong to the same group as the depositary/custodian.

6. Cash borrowing

The sub-fund may temporarily borrow up to 10% of its net assets.

7. Securities financing transactions

Pursuant to its investment strategy, the Sub-fund may use various efficient portfolio management techniques in compliance with Article R214-18 of the French Monetary and Financial Code, including securities financing transactions.

Maximum proportion of assets under management for which securities financing transactions may be entered into: up to 25% of the Sub-fund's assets.
Expected proportion of assets under management for which securities financing transactions may be entered into: 10% of the Sub-fund's assets .

For this purpose the management company may appoint an intermediary (hereinafter the "Agent) to provide the following services in connection with the Sub-fund's temporary disposals of securities. If such an Agent is used it may be authorised to (i) lend securities, on the Sub-fund's behalf, under framework agreements, such as global master securities lending agreements (GMSLA) and/or any other internationally recognised framework agreement, and (ii) invest, on the Sub-fund's behalf, any liquid assets received as collateral for these securities lending transactions, subject to the restrictions specified in the securities lending agreement, the rules of this prospectus and the applicable regulations.

The Sub-fund shall be entitled to all income from securities financing transactions, net of any direct and indirect operating costs.
These operating costs, which are incurred to manage the portfolio more efficiently, may be borne by the Sub-fund's management company, the Agent and/or other intermediaries that are involved in these transactions.

These direct and indirect operating costs will be calculated as a percentage of the Sub-fund's gross income. Information on direct and indirect operating expenses and on the entities to which these expenses are paid will be provided in the Sub-fund's annual report.

Income from the lending of securities will be paid to the Sub-fund after deduction of the direct and indirect operating expenses borne by the Agent and possibly by the management company. Since these direct and indirect operating expenses do not increase the Sub-fund's operating expenses they have been excluded from ongoing charges.

If necessary, the Sub-fund's annual report will provide the following information:

- the exposure resulting from the use of efficient portfolio management techniques/transactions
- the identity of the counterparty(ies) involved in these transactions
- the nature and amount of any collateral received to reduce the Sub-fund's counterparty risk, and;
- the income generated by efficient portfolio management techniques over the relevant period, and any associated direct and indirect operating costs or expenses.

8. Collateral

Whenever the investment strategy exposes to the Sub-fund to counterparty risk, and in particular when the Sub-fund uses over-the-counter swaps, the Sub-fund may accept eligible securities as collateral to reduce the counterparty risk associated with these swaps. The portfolio of collateral received may be adjusted daily to ensure that its value is at least sufficient to cover the Sub-fund's counterparty risk in most cases. The purpose of this adjustment is to neutralize the Sub-fund's counterparty risk.

The Sub-fund will have full title to all collateral received, which will be deposited in the Sub-fund's account with the depositary. This collateral will therefore be included in the Sub-fund's assets. If a counterparty defaults on an obligation, the Sub-fund may dispose of the assets received from the counterparty in respect of the secured transaction to pay off the the counterparty's debt to the Sub-fund

All collateral the Sub-fund receives for this purpose must comply with the applicable laws and regulations, with respect in particular to the liquidity and valuation of the collateral, the credit-worthiness of securities issuers, risk exposure correlation and the risks of collateral management and enforceability. All collateral received must in particular meet the following criteria:

- (a) All collateral must be of high quality, be highly liquid and tradable on a regulated market or on a multilateral trading facility, with transparent pricing to enable the collateral to be rapidly sold near its estimated price
- (b) this collateral must be valued at the mark-to-market price at least daily and assets with highly volatile prices are not acceptable as collateral, unless a sufficiently prudent discount is applied
- (c) The issuer of this collateral must be independent of the counterparty and must not be closely correlated with the counterparty's financial performance;
- (d) The collateral must be sufficiently diversified in terms of country, market and issuer, with exposure to any single issuer not exceeding 20% of the Sub-fund's net asset value.
- (e) The Sub-fund's Management Company must be able to enforce this collateral in full and at any time, without having to consult with the counterparty or obtain its approval.

Notwithstanding the condition specified in (d) above, the Fund may accept a basket of securities collateral that increases its exposure to a single issuer to more than 20% of its net asset value provided that:

- such securities collateral is issued by (i) a Member State, (ii) one or more of a Member State's local authorities, (iii) a country that is not a Member State (iv) a public international organization to which one or more Member States belong; and;
- such securities collateral consists of at least six different issues of securities of which no single issue exceeds 30% of the Sub-fund's assets.

Subject to the above conditions, the Sub-Fund may take collateral in the following forms:

- (i) Cash and cash-equivalent assets, which for example include short-term bank deposits and balances and money-market instruments;
- (ii) Bonds issued or guaranteed by an OECD member state, or by its local government entities, or by an EU, regional or global supranational institution or organisation, or by any country provided that conditions (a) to (e) above are fully complied with;
- (iii) Shares or units issued by money-market funds that calculate a daily net asset value and have an AAA or equivalent credit rating;
- (iv) The shares or units of UCITS that invest mainly in the bonds and/or equities indicated in (v) and (vi) below;
- (v) Bonds issued or guaranteed by first-class issuers offering sufficient liquidity;
- (vi) Equities admitted for trading or traded on a regulated exchange of an EU member country, on a stock exchange of an OECD member country or on a stock exchange of another country provided that conditions (a) to (e) above are fully complied with and that these equities are components of a major index.

Collateral discount policy:

The Sub-fund's management company shall apply a discount to the collateral accepted by the Sub-fund. The amount of these discounts will depend mainly on the following:

- The nature of the collateral asset;
- The collateral's maturity (if applicable);
- The credit rating of the collateral issuer (if applicable).

Reinvestment of collateral:

Non-cash collateral will not be sold, reinvested or pledged .

At the manager's discretion, cash collateral may either be:

- (i) deposited with an authorized institution;
- (ii) invested in high-quality government bonds;

- (iii) used for reverse repurchase transactions, provided that these are entered into with credit institutions that are subject to prudential supervision and that the fund is able to withdraw the total amount of its cash collateral and the accrued interest at any time;
- (iv) invested in short-term money market funds that meet the guidelines for a common EU definition of money market funds.

All cash collateral that is reinvested must be invested in a diversified manner in compliance with the rules that apply to the acceptance of non-cash collateral.

RISK PROFILE

The shareholder's money will be invested mainly in the financial instruments selected by the management company. These instruments are subject to market trends and contingencies.

Shares in the sub-fund are mainly exposed to the following risks:

Equity risk

The price of an equity security can increase or decrease in accordance with changes in the issuer's risk exposure or in the economic conditions of the market in which the security is traded. Equity markets are more volatile than fixed income markets, where under stable macroeconomic conditions income over a given period of time can be estimated with reasonable accuracy.

Capital risk

The capital invested is not guaranteed. Investors therefore may not recover all or part of their initial investment, particularly in the event that the Benchmark Index posts a negative return over the investment period.

Liquidity risk (primary market)

The Sub-fund's liquidity and/or value may be adversely affected if, when the Sub-fund or a counterparty to a financial derivative instrument (DFI) is rebalancing its exposure, the underlying financial markets are restricted, closed, or subject to large bid/offer spreads. An inability, due to low trading volume, to execute the trades required to replicate the Benchmark Index may also adversely affect the subscription, conversion or redemption of shares or units.

Liquidity risk (secondary market)

The price of the Sub-fund's listed shares or units may deviate from the Sub-fund's indicative net asset value. The liquidity of shares or units traded on a given exchange may be adversely affected by a suspension in trading for various reasons, for example:

- i) the calculation of the Benchmark Index is suspended or stopped
- ii) trading in the market(s) in the Benchmark Index's underlying assets is suspended
- iii) an exchange cannot obtain or calculate the Sub-fund's indicative net asset value
- iv) a market maker fails to comply with an exchange's rules
- v) an exchange's IT, electronic or other system fails.

Counterparty risk

The Sub-fund may use derivative instrument financials (DFI) on an ancillary basis.

In this case, the Sub-fund will be exposed to the risk that a counterparty with which the Sub-fund has entered into a contract or transaction may go bankrupt or default on a settlement or other obligation. The Sub-fund will in particular be exposed to counterparty risk resulting from the use of DFI traded over the counter. In compliance with UCITS regulations, exposure to counterparty risk may not exceed 10% of the Sub-fund's total assets per counterparty. Where Société Générale acts as the DFI counterparty, conflicts of interest may arise between the Sub-fund's Management Company and the DFI counterparty. The Management Company has procedures to identify and reduce such conflicts of interest and to resolve them equitably if necessary.

Concentration risk

The Fund replicates the performance of a Benchmark Index that has a relatively small number of components. Exposure to such a benchmark index that offers little diversity may result in greater volatility than exposure to a more diversified index and in a higher risk of illiquidity if market liquidity begins to deteriorate or if one or more of the components of the Benchmark Index is suspended from trading.

Risk of using derivative financial instruments

In order to achieve its investment objective, the Sub-fund can enter into transactions involving over-the-counter derivative financial instruments (DFI), such as swaps, in order to secure the performance of the Benchmark Index. These DFI involve various risks, such as counterparty risk, hedging disruption, Benchmark Index disruption, taxation risk, regulatory risk, operational risk and liquidity risk. These risks can directly affect a DFI and may require an adjustment of the DFI transaction or even its premature termination, which could adversely affect the Sub-fund's net asset value.

Benchmark Index tracking risk

Replicating the performance of the Benchmark Index by investing in all of its constituents may prove to be very difficult to implement and costly. The Sub-fund manager may therefore use various optimization techniques, such as 'sampling', which consists in investing in a selection of representative securities (and not all securities) that constitute the Benchmark Index, in proportions that differ from those of the Benchmark Index or even investing in securities that are not index constituents or in derivatives. The use of such optimization techniques may increase the ex post tracking error and cause the Sub-fund to perform differently from the Benchmark Index.

Risk that the investment objective may not be fully achieved

There is no guarantee that the investment objective will be achieved, as no asset or financial instrument can ensure that the Benchmark Index will be automatically and continuously replicated, particularly in the event of one or more of the following risks:

Risk due to a change in the tax regime

A change in the tax regime of a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed could adversely affect the taxation of investors. In such an event, the Sub-fund manager shall not be liable to any investor with respect to any payment that may have to be made to a competent tax authority.

Risk of a change in the taxation of the Sub-fund's underlying assets

A change in the taxation of the Sub-fund's underlying assets could adversely affect the taxation of the Sub-fund. In such an event a discrepancy between the estimated taxation and the actual taxation of the Sub-fund and/or of the Sub-fund's DFI counterparty may adversely affect the Sub-fund's net asset value.

Risk arising from securities financing transactions

If a borrower of securities defaults on its obligation there could be a risk that the value of the collateral received by the Sub-fund is less than the value of the securities lent. This risk could arise, for example, in the event of (i) an inaccurate valuation of the securities lent and/or (ii) unfavourable market movements and/or (iii) the lowering of the credit rating(s) of the issuer(s) of securities taken as collateral and/or (iv) the illiquidity of the market in which the collateral received is listed. If cash collateral is reinvested this could (i) result in leverage that entails a risk of loss and volatility and/or (ii) expose the Sub-fund to a market that is inappropriate for its investment objective, and/or (iii) generate less income than the amount of collateral the Sub-fund must repay. The Sub-fund could also fail to receive the securities lent by the date specified, which would diminish its capacity to accommodate investor redemptions.

Regulatory risk affecting the Sub-fund

In the event of a change in the regulatory regime in a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed, the subscription, conversion or redemption of shares or units may be adversely affected.

Regulatory risk affecting the Sub-fund's underlying assets

In the event of a change in the regulations that govern the Sub-fund's underlying assets, the Sub-fund's net asset value and the subscription, conversion or redemption of shares or units may be adversely affected.

Benchmark Index disruption risk

If an event adversely affects the Benchmark Index, the Sub-fund manager may be required, as provided for by law, to suspend the subscription and redemption of the Sub-fund's shares or units. The calculation of the Sub-fund's net asset value could also be adversely affected.

If the disruption of the Benchmark Index persists, the Sub-fund manager will determine an appropriate course of action, which could decrease the Sub-fund's net asset value.

A 'Benchmark Index event' includes but is not limited to the following situations:

- i) the Benchmark Index is deemed to be inaccurate or does not reflect actual market developments
- ii) the Benchmark Index is permanently cancelled by the index provider
- iii) the index provider is unable to indicate the level or value of the Benchmark Index
- iv) the index provider makes a material change in the Benchmark Index calculation formula or method (other than a minor modification such as an adjustment to the Benchmark Index's underlying components or their respective weightings) which the Sub-fund cannot effectively replicate at a reasonable cost.
- v) a Benchmark Index component becomes illiquid because it is no longer traded on a regulated market or because its trading over-the-counter (e.g. bonds) is disrupted
- vi) the Benchmark Index components are exposed to higher transaction costs for execution or settlement/delivery, or to specific tax constraints and these costs are not reflected in the Benchmark Index's performance.

Corporate action risk

An unforeseen change, by the issuer of a security that is a component of the Benchmark Index, in a planned corporate action that is in contradiction with a previous official announcement on which the Sub-fund based its valuation of the corporate action (and/or on which the Sub-fund's counterparty to a financial derivative instrument or transaction based its valuation of the corporate action) can adversely affect the Sub-fund's net asset value, particularly if the Sub-fund's treatment of the corporate event differs from that of the Benchmark Index methodology.

Legal risk

The Sub-fund may be exposed to a legal risk arising from securities financing transactions as indicated in EU Regulation No. 2015/2365.

Currency risk associated with listing exchanges

The Sub-fund may be listed on an exchange or multilateral trading facility in a currency that is not the currency of the Benchmark Index. Investors who purchase shares in the Sub-fund in a currency that is not that of the Benchmark index are exposed to currency risk. As a result, due to changes in exchange rates the value of an investment that is made in a currency other than that of the Benchmark Index may decrease even though the value of the Benchmark Index increases.

ELIGIBLE INVESTORS AND TYPICAL INVESTOR PROFILE

The Sub-fund is available to all investors.

Investors in this Sub-fund are seeking exposure to the Belgian equity market.

The amount that can be reasonably invested in the Sub-fund depends on each investor's personal situation. To determine this amount, investors must take into account their personal wealth and/or estate, their cash requirements currently and for the next five years, and their willingness to take on risk or their preference for more prudent investment. Investors are also advised to diversify their investments sufficiently so as not to be exposed solely to this Sub-fund's risks.

All investors are therefore asked to consider their specific situation with the help of their usual investment advisor.

The recommended minimum investment period is at least five years.

The share currency is the euro.

CALCULATION AND APPROPRIATION OF DISTRIBUTABLE AMOUNTS

The Board of Directors reserves the right to accumulate and/or distribute all or part of all distributable amounts. Realized net capital gains will be accumulated.

DISTRIBUTION FREQUENCY

If a distribution is decided, the Board of Directors reserves the right to distribute distributable amounts in one or more distributions per annum.

SHARE CHARACTERISTICS

Subscription orders may be placed for a specific monetary amount or for a whole number of shares.
A whole number of shares must be redeemed.

SUBSCRIPTION AND REDEMPTION

1 / SUBSCRIPTION AND REDEMPTION ON THE PRIMARY MARKET

Subscription/redemption requests for shares in the Sub-fund will be processed by the Depositary from 10:00 am and 5.00 pm (Paris time), every day that the Sub-fund's net asset value is to be published, provided that prices can be quoted for a significant proportion of the Benchmark Index components (hereinafter a "**Primary Market Day**"), and will be executed at the net asset value on that Primary Market Day, hereinafter the "**reference NAV**". Subscription/redemption requests submitted after 5.00 pm (Paris time) on a Primary Market Day will be processed as if received from 10:00 am to 5.00 pm (Paris time) on the following Primary Market Day. Orders to subscribe for or redeem shares in the Sub-fund must be made for an exact number of whole shares that corresponds to a minimum amount of at least 100,000 euros.

Subscriptions and redemptions in cash

Subscriptions and redemptions shall be made exclusively in cash and executed at the ref NAV.

Delivery and settlement

Settlement/delivery of subscriptions and redemptions shall be completed within five French business days upon receipt of the subscription or redemption order.

The Sub-fund's net asset value is calculated using the Benchmark Index's fixing price at 5.30pm in EUR.

Date and frequency of net asset value calculation

The net asset value will be calculated and published daily, provided that at least one exchange on which the Sub-fund's shares are listed is open and that orders placed in the primary and secondary markets can be funded.

The Sub-fund's net asset value is calculated using the Benchmark Index's closing price.

The net asset value of a share class that is denominated in another currency than the Sub-fund's accounting currency (if applicable) is calculated using the exchange rate between the accounting currency and the currency of the share class, at the applicable WM Reuters rate on the date the reference NAV is calculated.

2 / PURCHASES AND SALES ON THE SECONDARY MARKET

A. COMMON PROVISIONS

For any purchase or sale of shares in the Sub-fund executed directly on an exchange on which the Sub-fund is admitted or will be admitted for continuous trading, no minimum purchase or sale amount is required other than that which may be required by the relevant exchange(s).

Shares in a listed Sub-fund that are purchased on the secondary market cannot generally be directly sold back to that Sub-fund. Investors must therefore buy and sell their shares on a secondary market through an intermediary (e.g. a broker) and may consequently incur costs. Furthermore, there is a possibility that investors may pay more than the indicative net asset value when buying shares or units and receive less than the indicative net asset value when selling shares or units.

If the stock market value of a listed fund's shares or units differs significantly from their indicative net asset value, or if trading in the fund's shares or units is suspended, investors may be authorized, subject to the conditions set forth below, to redeem their shares on the primary market directly from the fund, without being subject to the minimum redemption amount requirement set forth herein in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)".

The management company shall decide whether to allow such primary market redemptions and for how long, on the basis of the following criteria for assessing the significance of a market disruption:

- The suspension or strong disturbance of secondary trading on a given exchange is relatively frequent
- The link between the market disruption and secondary market operators (such as the default of one or more of the Market Makers of a given exchange, or a breakdown or malfunction of an exchange's IT or operating systems), excluding a disruption caused by a source external to the secondary exchange on which the Sub-fund's shares are traded, such as an event that affects the liquidity and valuation of all or some of the Benchmark Index's components
- Any other objective circumstance that could adversely affect the fair treatment and/or the interests of the Sub-fund's share-holders.

Notwithstanding the provisions concerning fees presented in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)", redemptions made in the primary market in this case shall only be subject to a net redemption fee of 0.08% paid to the Sub-fund and which serves to cover its trading costs.

In such exceptional cases when redemption in the primary market is allowed, the Management Company shall post on Lyxor's website at www.lyxor.etf.com the procedure that investors must observe to redeem their shares in the primary market. The Management Company shall also make this procedure available to the market undertaking that handles trading in the Sub-fund's shares.

B SPECIFIC PROVISIONS

a) If the Sub-fund's shares are listed on Euronext Paris, as indicated in the «Key Information» section, investors should note the following rules

Negotiability of shares and information about the financial institutions acting as Market Makers:

The shares are freely negotiable on the Euronext Paris regulated market under the following conditions and according to the applicable legal and regulatory provisions.

The Sub-fund's shares will be listed on a specific trading list, the rules for which are defined in the following instructions published by Euronext Paris SA:
- Instruction No. 4-01 "Universal Trading Platform Manual"

- Appendix to Instruction N4-01 (Appendix to the Euronext Market Trading Manual)
- Instruction No. 6-04 "Documentation to be provided when filing a listing application for an ETF, ETN, ETV and open-ended undertakings for collective investment other than"

Pursuant to article D 214-22-1 of the French Monetary and Financial Code the units or shares of undertakings for collective investments in transferable securities may be admitted to trading, provided that these undertakings have a system to ensure that the market price of their units or shares does not differ significantly from their net asset value. Under Euronext Paris SA's rules trading in the Sub-fund's shares is also subject to a 'reservation threshold' of 1.5% above or below the Sub-fund's indicative net asset value or "iNAV" (see the "Indicative Net Asset Value" section), as published by Euronext Paris SA and updated on an estimated basis during trading in accordance with the change in the Benchmark Index.

To comply with Euronext Paris SA's reservation threshold requirement (see the section entitled "Indicative Net Asset Value") the Market Makers will ensure that the market price of the Sub-fund's shares does not differ from the Sub-fund's indicative Net Asset Value by more than 1.5%.

Euronext Paris SA may suspend trading in the Sub-fund's shares pursuant to the terms of its operating rules, if the aforementioned reservation threshold limit is exceeded.

Euronext Paris SA will also suspend trading in the Sub-fund's shares in the following cases:

- the Benchmark Index is no longer traded or calculated
- Euronext Paris SA cannot obtain the Benchmark Index's level
- Euronext Paris SA cannot obtain the Sub-fund's net asset value

In accordance with the terms and conditions governing admission to trading on Euronext Paris, the Market Makers undertake to provide market-making services for the Sub-fund's shares as soon as they are admitted to trading on the Euronext Paris exchange.

In particular, the Market Makers undertake to carry out market-making operations by maintaining a significant presence in the market, which initially entails the setting of a bid/ask spread.

More specifically, the Market Makers are required by contract with Euronext Paris SA to ensure that the Sub-fund maintains:

- a maximum global spread of 1.5% between the bid and offer price in the centralized order book.
- a minimum nominal trading value of EUR 100,000.

The obligations of the Sub-fund's Market Makers will be suspended in the following cases:

- the Benchmark Index is no longer traded or calculated
- if trading is substantially disrupted, for example due to a widespread shift in prices or an event that makes normal market making impossible.

Indicative Net Asset Value

Euronext Paris SA will calculate and publish, each Trading Day (as defined below) during trading hours, the Sub-fund's indicative net asset value (hereinafter "iNAV"). The iNAV is a measure of the intra-day value of the Sub-fund's net asset value based on the most recent data. The iNAV is not the value at which investors buy and sell shares in the Sub-fund on the secondary market.

A "Trading Day" is a day on which NYSE Euronext is normally open and on which the Benchmark Index is normally published.

The Sub-fund's iNAV is a theoretical net asset value calculated every 15 seconds by Euronext SA throughout the Paris trading day and is based on the level of the Benchmark Index. The iNAV enables investors to compare the prices that the Market Makers offer on the market with the theoretical value calculated by Euronext.

The iNAV will be calculated every day that the net asset value is calculated and published.

For the calculation of the Sub-fund's iNAV during the Paris trading session (from 9.05 am to 5.35 pm), Euronext Paris SA will use the Benchmark Index value published by Reuters.

If one or more stock exchanges on which the Benchmark Index's constituent equities are listed are closed (on a public holiday as indicated on the TARGET calendar), and if the iNAV cannot be calculated, trading in the Sub-fund's shares may be suspended.

Lyxor International Asset Management, the Sub-fund's management company, will provide Euronext Paris SA with all the financial and accounting data it needs to calculate the Sub-fund's iNAV and in particular:

- The day's estimated net asset value
- The official net asset value of the previous business day
- The level of the Benchmark Index on the previous business day.

These data will serve as a basis for Euronext Paris SA's calculations to determine the Sub-fund's iNAV in real time every Trading Day.

Additional information about the indicative net asset value of a share listed on an exchange may, in accordance with the terms and limits set by the relevant market undertaking, be provided on this exchange's website. This information is also available on the Reuters or Bloomberg pages dedicated to the particular share. Additional information about the Bloomberg and Reuters codes for the indicative net asset values of all UCITS ETF type share classes is also available in the "Term Sheets" section of Lyxor's website at www.lyxoretf.com.

b) If the shares are listed on an exchange other than Euronext Paris, as indicated in the "Key Information" section, investors should note the following rules

Investors wishing to acquire shares in the Sub-fund or obtain more information regarding the market-making terms that govern the listing and trading of shares on the types of exchanges indicated in the "Key Information" section are advised to familiarize themselves with the guidelines laid down by the relevant market undertaking in compliance with local regulations, and to seek if necessary the assistance of their usual broker(s) for executing trades on the relevant exchange(s).

FEES AND CHARGES

SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)

The subscription and redemption fees shown below respectively increase the subscription price paid by the investor and decrease the redemption price received. Fees kept by the Sub-fund compensate it for the expenses it incurs in investing in the Sub-fund's assets or in divesting these assets. Any fees that are not kept by the Sub-fund are paid to the management company, marketing agent or other service provider.

Fees paid by investors upon subscription or redemption	Base	Maximum charge
Subscription fee not kept by the Sub-fund	NAV per share × number of shares	The higher value of either EUR 50,000 per subscription order or 5% of the NAV per share multiplied by the number of shares subscribed, payable to third parties.
Subscription fee kept by the Sub-fund	NAV per share × number of shares	0.15% ⁽¹⁾
Redemption fee not kept by the Sub-fund	NAV per share × number of shares	The higher value of either EUR 50,000 per redemption order or 5% of the NAV per share multiplied by the number of shares redeemed, payable to third parties.
Redemption fee kept by the Sub-fund	NAV per share × number of shares	0.06% ⁽¹⁾

(1) The management company adjusts these fees whenever necessary to ensure that primary market investors bear no more than the actual costs of adjusting the portfolio, for example when subscription and redemption orders are placed at the same net asset value or when an order is large enough to enable the manager to reduce execution costs

OPERATIONAL AND MANAGEMENT FEES

These fees cover all the costs invoiced directly to the Sub-fund, except for transaction expenses, which include intermediary fees (brokerage, stock market taxes, etc.) and any account activity charge that may be charged, for example, by the depositary or the management company.

For this Sub-fund the following fees may be charged in addition to the operating and management fees (see table below):

- incentive fees, which the Sub-fund pays to the management company when the Sub-fund exceeds its objectives
- account activity charges charged to the Sub-fund.

For more information on the fees or expenses that the Sub-fund must pay, see the Statistics section of the Key Investor Information Document (KIID).

Fees charged to the Sub-fund	Base	Maximum charge
Investment management fees and administrative fees that are external to the management company (auditor, depositary, fund distribution and legal fees) including tax ⁽¹⁾	Net asset value	0.50% per annum
Incentive fee	Net asset value	N/A
Account activity charge	Charge on each transaction	N/A
Securities financing transaction costs*	The amount of the transaction	35% of the income obtained from these transactions

(1) Includes all fees and expenses except for transaction expenses, incentive fees and fees associated with investment in UCITS.

COMMERCIAL INFORMATION

Distribution of this prospectus and the offering or purchase of the Fund's share classes may be subject to restrictions with regard to certain persons or in certain countries by virtue of national regulations that apply to these persons or countries. Investors are therefore responsible for ensuring that they can legally subscribe to or invest in this Fund. The information in this prospectus therefore cannot be construed to be an offer or solicitation to buy or sell shares in this Fund in a country where such offer or solicitation is unlawful.

The Fund's share classes will not be registered pursuant to the U.S. Securities Act of 1933, as amended (the "U.S. Securities Act") and cannot be offered, assigned, transferred or allocated to the United States of America, or to:

- (A) any "U.S. Person", as this term is defined (i) under Regulation S of the US Securities Act of 1933 and (ii) under U.S. regulations as defined in Section 7701 (a) (30) of the Internal Revenue Code of 1986 as amended. The Fund's shares will not be offered to U.S. Persons.
- (B) anyone other than those persons considered to be "non-US Persons" as this term is defined under U.S. regulations pursuant to the Commodity Futures Trading Commission, Rule 4.7 (a) (1) (iv).

The Fund's shares will only be offered for sale outside of the United States of America to non-U.S. Persons.

For the purpose of this document, the term "U.S. Person" shall mean, among other things, any individual who resides in the United States of America, any entity organized or formed under the laws of the United States of America, certain entities organized or formed outside of the United States of America by one or more U.S. persons, or any account held on behalf of such a U.S. person.

Under the German tax act on investment funds (InvStG-E), the Sub-fund is a "mutual fund" and must comply with the criteria that apply to "equity funds". As such, the Sub-fund will hold a basket of securities that are eligible for the equity ratio as this term is defined under said German tax act, and which will represent at least 65% of its net assets under normal market conditions. To ensure compliance with this ratio, the Sub-fund may adjust this basket of securities on a daily basis.

Before making an investment in this Fund or Sub-fund, investors should seek the advice of their financial, tax and/or legal advisers.

PLACE AND METHOD OF NET ASSET VALUE PUBLICATION OR COMMUNICATION

At the head office of LYXOR INTERNATIONAL ASSET MANAGEMENT, at 17, cours Valmy - 92987 Paris La Défense CEDEX - France.

The Sub-fund's net asset value will be calculated and published every Trading Day.

IMPORTANT INFORMATION ABOUT THE BENCHMARK INDEX PROVIDER

"BEL20" is a registered trademark of Euronext that refers to an index that it calculates and publishes. Euronext provides no warranty or guarantee in respect of the value of this index at any given time, nor in respect of the return or performance of the product that tracks this index.

ADDITIONAL INFORMATION

The Sub-fund's shares are accepted for clearing by Euroclear France S.A.

Subscription and redemption orders are sent by the investors' financial intermediaries (members of Euroclear France SA) to the Depositary.

The Multi Units France prospectus, the Key Investor Information Document, the most recent annual reports and the asset inventory statement will be sent to investors within eight business days upon written request to:

LYXOR INTERNATIONAL ASSET MANAGEMENT
17 Cours Valmy - 92987 Paris La Défense France.

E-mail: contact@lyxor.com

More information can also be requested from Lyxor International Asset Management on its website at www.lyxoretf.com.

Prospectus publication date: See the "Publication Date" section.

Pursuant to Article L.533-22-1 of the French Monetary and Financial Code, information concerning the management company's possible inclusion of social, environmental and corporate governance objectives and performance criteria in the investment policy is available on the management company's website and in the Multi Unit France annual report.

The AMF's website (www.amf-france.org) provides more information on the regulatory documents and various provisions that concern investor protection.

This Prospectus shall be made available to investors prior to subscription.

INVESTMENT RULES

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

The Sub-fund may invest in the assets specified in Article L214-20 of the French Monetary and Financial Code, subject to the risk-diversification and investment ratio requirements of Articles R214-21 to R214-27 of said Code.

Notwithstanding the 10% limit under Paragraph II of Article R214-21 of the French Monetary and Financial Code, the Sub-fund may invest up to 20% of its assets in the equities and debt securities of a single issuer, in compliance with Article R214-22-I, which deals with index-tracking funds. Pursuant to Article R214-22 II, the Sub-fund may also increase this 20% limit for a single issuer to 35%, when this is justified by exceptional market conditions, and in particular when certain securities are largely dominant.

OVERALL RISK EXPOSURE

The commitment approach is used to calculate the overall risk exposure.

ASSET VALUATION AND ACCOUNTING RULES

A. VALUATION RULES

The Sub-fund's assets are valued in accordance with applicable laws and regulations and most notably Regulation No. 2014-01 of 14 January 2014 of the Comité de la Réglementation Comptable (the Accounting Regulations Committee), which applies to the chart of accounts for undertakings for collective investment in transferable securities.

Financial instruments traded on a regulated market are valued at the closing price recorded on the day prior to the calculation of the net asset value. If these financial instruments are traded on several regulated markets at the same time, the closing price used is that recorded on the regulated market on which they are principally traded.

However, in the absence of significant trading on a regulated market, the following financial instruments are valued using the following methods:

- Negotiable debt securities ("NDS") with a remaining life upon acquisition that is less than or equal to three months are valued by applying the difference between the acquisition value and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life of more than three months upon acquisition but less than or equal to three months at the net asset value calculation date are valued by applying the difference between the most recent valuation and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life at the net asset value calculation date that exceeds three months are valued at their current value. The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- Financial futures traded on organized markets are valued at the clearing price on the day prior to the calculation of the net asset value. Options traded on organized markets are valued at their market price on the day prior to the calculation of the net asset value. Forward contracts and over-the-counter options are valued at the price quoted by the counterparty. The management company monitors these prices independently.
- Bank deposits are valued at their nominal value plus accrued interest.
- Warrants, short and medium-term notes (bons de caisse), promissory notes and mortgage notes are valued under the management company's responsibility at their most likely trading value.
- Securities financing transactions are valued at the market price.
- Shares and units in UCITS under French law are valued at the last known net asset value on the day the Sub-fund's net asset value is calculated.
- Shares and units in foreign investment funds are valued at the last known unitary net asset value at the date the Sub-fund's net asset value is calculated.
- Financial instruments traded on a regulated market and for which no price has been quoted or whose price has been corrected, are valued under the management company's responsibility at their most likely trading value.
- The exchange rates used to value financial instruments denominated in a currency other than the Sub-fund's base currency are the WM Reuters fixing rates published on the day the Sub-fund's net asset value is calculated.

B. ACCOUNTING METHOD FOR TRADING EXPENSES

Trading expenses are included in the initial cost of the transaction.

C. ACCOUNTING METHOD FOR INCOME FROM FIXED-INCOME SECURITIES

Income from fixed-income securities is accounted for using the cash-basis method.

D. DISTRIBUTION POLICY

For more information see the section entitled "Calculation and appropriation of Distributable amounts".

E. ACCOUNTING CURRENCY

The Sub-fund's accounts are kept in euros

SUB-FUND No. 2: LYXOR FTSE ALL SHARE UCITS ETF

A SICAV SUB-FUND COMPLIANT WITH DIRECTIVE 2009/65/CE

ISIN CODE:

Share class: FR0010438150

CLASSIFICATION

European Union country equities.

The LYXOR FTSE ALL SHARE UCITS ETF sub-fund (the “**Sub-fund**”) continuously maintains at least 60% exposure to one or more of the equity markets of one or more European Union countries, which may include the eurozone countries.

The Sub-fund is a UCITS ETF type index tracker.

INCEPTION DATE

The Sub-fund was approved by l’Autorité des Marchés Financiers (the French financial markets authority) on 23 February 2007 and was established on 3 April 2007. The MULTI UNITS FRANCE fund was established on 4 March 2002, for a term of 99 years.

INVESTMENT OBJECTIVE

The Sub-fund’s investment objective is to replicate the performance of the FTSE ALL SHARE™ index (the “**Benchmark Index**”), denominated in pounds sterling (GBP), whether positive or negative, while minimizing the tracking error between the Sub-fund’s performance and that of its Benchmark Index.

The expected ex-post tracking error of the Benchmark Index under normal market conditions is 0.06%.

BENCHMARK INDEX

The benchmark index is the FTSE ALL SHARE™ Gross Total Return index, with gross dividends reinvested.

The Benchmark Index is an equity index calculated, maintained and published by international index provider FTSE.

The Benchmark Index tracks the performance the largest companies in the United Kingdom listed on the London Stock Exchange (LSE).

The Benchmark Index stocks are weighted according to their free-float adjusted market capitalization, using FTSE’s free-float system. As a result, the number of the stocks that composed the Benchmark Index can change over time. No single constituent can account for more than 15% of the Benchmark Index.

The composition of the Benchmark Index is reviewed annual in accordance with the FTSE methodology.

A full description of the Benchmark Index and its construction methodology and information on the composition and respective weightings of the Benchmark Index components are available on the Internet at www.ftse.com

The Benchmark Index is calculated and published in real time by FTSE.

The performance tracked is that of the Benchmark Index’s closing price.

Benchmark Index composition and revision

The Benchmark Index is designed to represent over 98% of the total market capitalization of the UK market.

The FTSE methodology and calculation method are based on a variable number of companies in the Benchmark Index.

The Benchmark Index is revised quarterly.

The exact composition of the Benchmark Index and Euronext’s rules for index composition revision are available on the Internet at www.ftse.com. The frequency with which the Benchmark Index is rebalanced does not affect the cost of implementing the Investment Strategy.

Benchmark Index publication

Real-time Benchmark Index values are available via Bloomberg and Reuters.

Bloomberg code: FTPTTALL

Reuters code: .TFTAS

The Benchmark Index’s closing price is available on FTSE’s website at www.ftse.com.

Pursuant to Article 52 of European Parliament and Council Regulation 2016/1011 of 8 June 2016, FTSE, the administrator of the FTSE ALL SHARE™ benchmark index, has until 1 January 2020 to apply for approval or registration as applicable.

As of the date of the most recent version of this prospectus, the benchmark index administrator was not yet listed in ESMA’s register of benchmark administrators.

Pursuant to European Parliament and Council Regulation 2016/1011 of 8 June 2016, the asset management company has a procedure for monitoring the benchmark indices used that specifies the measures to be implemented if an index is substantially modified or is no longer provided.

INVESTMENT STRATEGY

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund will employ an indirect replication method, which means that it will enter into one or more OTC swap contracts enabling it to achieve its investment objective. These swap contracts will serve to exchange the value of the Sub-fund's assets, which will consist of cash and/or balance sheet assets (excluding any securities received as collateral), for the value of the securities that underlie the Benchmark Index.

The Sub-fund's equities will be mainly those that make up the Benchmark Index, and also other international equities, in all economic sectors and listed in all markets, including small-cap markets.

The basket of securities held may be adjusted daily such that its value will generally be at least 100% of the net assets. When necessary, this adjustment will be made to ensure that the counterparty risk arising from the aforementioned swap contract will be neutralized.

Information on the updated composition of the basket of 'balance sheet' assets in the Sub-fund's portfolio and the value of the swap contract concluded by the Sub-fund is available on the page dedicated to the Sub-fund accessible on Lyxor's website at www.lyxoretf.com. The frequency of any updates and/or the date on which the aforementioned information is updated is also indicated on the same page of the aforementioned website.

Up to 20% of the Sub-fund's assets may be exposed to equities issued by the same entity. This 20% limit may be increased to 35% for a given issuing entity when this is justified by exceptional market conditions and in particular when certain securities are largely dominant and/or in the event of strong volatility that affects a financial instrument or securities linked to an economic sector represented in the Benchmark Index, particularly in the event of a public offering that substantially affects a Benchmark Index security or in the event of a significant drop in the liquidity of one or more of the Benchmark Index's financial instruments.

2. Balance sheet assets (excluding embedded derivatives)

The Sub-fund may invest in global equities, in any economic sector and listed on any exchange, in compliance with regulatory ratios.

The aforementioned equity equities will be selected on the basis of the following:

- eligibility criteria, in particular:
 - their inclusion in major stock exchange indices or in the Benchmark Index
 - liquidity (must exceed a minimum daily trading volume and market capitalization)
 - credit rating of the country where the issuer has its registered office (must have a least a minimum S&P or equivalent rating)
- diversification criteria, and in particular:
 - the issuer (application of investment ratios to assets that qualify for UCITS, pursuant to Art. R214-21 of the French Monetary and Financial Code)
 - geography
 - sector.

Investors may find more information on the above eligibility and diversification criteria, and in particular the list of eligible indices, on Lyxor's website at www.lyxoretf.com.

Investment in undertakings for collective investment in transferrable securities ("UCITS") that comply with Directive 2009/65/EC is limited to 10% of the Sub-fund's net assets.

The fund manager will not invest in the shares or units of alternative investment funds (AIF) or other investment funds that were formed under a foreign law. The Sub-fund may invest in the shares of UCITS managed by the management company or by a company that is related to the management company.

When the Fund receives collateral in the form of securities, subject to the terms of section 8 below, it acquires full title to these securities and they are therefore included among the balance sheet assets to which it has full title.

To optimize the Sub-fund's management and achieve its investment objective, the asset manager reserves the right to use other financial instruments, in compliance with regulations.

3. Off-balance sheet assets (derivatives)

The Sub-fund will use OTC index-linked swaps that swap the value of the Sub-fund's assets (or of any other financial instrument or asset the Fund may hold) for the value of the Benchmark Index (as described in part I of this section).

- Maximum proportion of assets under management for which total return swaps (TRS) may be entered into: 100%.
- Expected proportion of assets under management for which total return swaps (TRS) may be entered into: up to 100%.

To optimize the Sub-fund's management and achieve its investment objective, the asset manager by delegation reserves the right to use other financial instruments in compliance with regulations, including derivative instruments other than index-linked swaps.

In accordance with its best execution policy, the management company considers that Société Générale is the counterparty that is generally able to obtain the best possible execution for these derivative financial instruments. Accordingly, these derivative financial instruments (including index-linked swaps) may be traded via Société Générale without having to seek a competitive bid from another counterparty.

The counterparty of the derivative financial instruments referred to above (the "Counterparty") will have no discretionary power over the composition of the Sub-fund's portfolio nor over the underlying assets of the derivative financial instruments.

4. Securities with embedded derivatives

N/A.

5. Cash deposits

To optimize its cash management, the Sub-fund may deposit funds representing up to 20% of its net assets with credit institutions that belong to the same group as the depositary.

6. Cash borrowing

The Sub-fund may temporarily borrow up to 10% of its net assets.

7. Securities financing transactions

N/A The manager shall not engage in any temporary purchases or sales of securities.

8. Collateral

Whenever the investment strategy exposes the Sub-fund to counterparty risk, and in particular when the Sub-fund uses over-the-counter swaps, the Sub-fund may accept eligible securities as collateral to reduce the counterparty risk associated with these swaps. The portfolio of collateral received may be adjusted daily to ensure that its value is at least sufficient to cover the Sub-fund's counterparty risk in most cases. The purpose of this adjustment is to neutralize the Sub-fund's counterparty risk.

The Sub-fund will have full title to all collateral received, which will be deposited in the Sub-fund's account with the depositary. This collateral will therefore be included in the Sub-fund's assets.

All collateral the Sub-fund receives for this purpose must comply with the applicable laws and regulations, with respect in particular to the liquidity and valuation of the collateral, the credit-worthiness of securities issuers, risk exposure correlation and the risks of collateral management and enforceability. All collateral received must in particular meet the following criteria:

- (a) All collateral must be of high quality, be highly liquid and tradable on a regulated market or on a multilateral trading facility, with transparent pricing to enable the collateral to be rapidly sold near its estimated price;
- (b) This collateral must be valued at the mark-to-market price at least daily and assets with highly volatile prices are not acceptable as collateral, unless a sufficiently prudent discount or "haircut" is applied;
- (c) The issuer of this collateral must be independent of the counterparty and must not be closely correlated with the counterparty's financial performance;
- (d) This collateral must be sufficiently diversified by country, market and issuer, and no exposure to a single issuer may exceed 20 % of the Sub-fund's net asset value;
- (e) The Sub-fund's Management Company must be able to enforce this collateral in full and at any time, without having to consult with the counterparty or obtain its approval.

Notwithstanding the condition specified in (d) above, the Fund may accept a basket of securities collateral that increases its exposure to a single issuer to more than 20% of its net asset value provided that:

- such securities collateral is issued by (i) a Member State, (ii) one or more of a Member State's local authorities, (iii) a country that is not a Member State (iv) a public international organization to which one or more Member States belong; and;
- such securities collateral consists of at least six different issues of securities of which no single issue exceeds 30% of the Sub-fund's assets.

Subject to the above conditions, the Sub-Fund may take collateral in the following forms:

- (vii) Cash and cash-equivalent assets, which for example include short-term bank deposits and balances and money-market instruments;
- (viii) Bonds issued or guaranteed by an OECD member state, or by its local government entities, or by an EU, regional or global supranational institution or organisation, or by any country provided that conditions (a) to (e) above are fully complied with;
- (ix) Shares or units issued by money-market funds that calculate a daily net asset value and have an AAA or equivalent credit rating;
- (x) The shares or units of UCITS that invest mainly in the bonds and/or equities indicated in (v) and (vi) below;
- (xi) Bonds issued or guaranteed by first-class issuers offering sufficient liquidity;
- (xii) Equities admitted for trading or traded on a regulated exchange of an EU member country, on a stock exchange of an OECD member country or on a stock exchange of another country provided that conditions (a) to (e) above are fully complied with and that these equities are components of a major index.

Collateral discount policy:

The Sub-fund's management company shall apply a discount to the collateral accepted by the Sub-fund. The amount of these discounts will depend mainly on the following:

- The nature of the collateral asset;
- The collateral's maturity (if applicable);
- The credit rating of the collateral issuer (if applicable).

Reinvestment of collateral:

Non-cash collateral will not be sold, reinvested or pledged.

At the manager's discretion, cash collateral may either be:

- (i) deposited with an authorized institution
- (ii) invested in high-quality government bonds

- (iii) used for reverse repurchase transactions, provided that these are entered into with credit institutions that are subject to prudential supervision and that the fund is able to withdraw the total amount of its cash collateral and the accrued interest at any time
- (iv) invested in short-term money market funds that meet the guidelines for a common EU definition of money market funds.

All cash collateral that is reinvested must be invested in a diversified manner in compliance with the rules that apply to the acceptance of non-cash collateral.

RISK PROFILE

Shares in the sub-fund are mainly exposed to the following risks:

Equity risk

The price of an equity security can increase or decrease in accordance with changes in the issuer's risk exposure or in the economic conditions of the market in which the security is traded. Equity markets are more volatile than fixed income markets, where under stable macroeconomic conditions income over a given period of time can be estimated with reasonable accuracy.

Capital risk

The capital invested is not guaranteed. Investors therefore may not recover all or part of their initial investment, particularly in the event that the Benchmark Index posts a negative return over the investment period.

Liquidity risk (primary market)

The Sub-fund's liquidity and/or value may be adversely affected if, when the Sub-fund or a counterparty to a financial derivative instrument (DFI) is rebalancing its exposure, the underlying financial markets are restricted, closed, or subject to large bid/offer spreads. An inability, due to low trading volume, to execute the trades required to replicate the Benchmark Index may also adversely affect the subscription, conversion or redemption of shares or units.

Liquidity risk (secondary market)

The price of the Sub-fund's listed shares or units may deviate from the Sub-fund's indicative net asset value. The liquidity of shares or units traded on a given exchange may be adversely affected by a suspension in trading for various reasons, for example:

- i) the calculation of the Benchmark Index is suspended or stopped
- ii) trading in the market(s) in the Benchmark Index's underlying assets is suspended
- iii) an exchange cannot obtain or calculate the Sub-fund's indicative net asset value
- iv) a market maker fails to comply with an exchange's rules
- v) an exchange's IT, electronic or other system fails.

Counterparty risk

The Sub-fund is exposed to the risk that a counterparty with which the Sub-fund has entered into a contract or transaction may go bankrupt or default on a settlement or other obligation. The Sub-fund is mainly exposed to counterparty risk resulting from the use of derivative financial instruments (DFI) traded over the counter with Société Générale or some other counterparty. In compliance with UCITS regulations, exposure to counterparty risk (whether the counterparty is Société Générale or another entity), cannot exceed 10% of the Sub-fund's total assets per counterparty.

If a counterparty defaults on an obligation the DFI contract may be terminated before maturity. The Sub-fund will do everything in its power to achieve its investment objective by, if appropriate, entering into another DFI contract with another counterparty at the market conditions at the time of such an event. If this counterparty risk materializes it could have an impact on the Sub-fund's ability to achieve its investment objective of replicating the Benchmark Index.

When Société Générale is the DFI counterparty, conflicts of interest may arise between it and the Sub-fund's management company, which has procedures to identify and reduce such conflicts of interest and to resolve them equitably if necessary.

Risk that the investment objective may not be fully achieved

There is no guarantee that the investment objective will be achieved, as no asset or financial instrument can ensure that the Benchmark Index will be automatically and continuously replicated, particularly in the event of one or more of the following risks:

- Risk of using derivative financial instruments

In order to achieve its investment objective, the Sub-fund can enter into transactions involving over-the-counter derivative financial instruments (DFI), such as swaps, in order to secure the performance of the Benchmark Index. These DFI involve various risks, such as counterparty risk, hedging disruption, Benchmark Index disruption, taxation risk, regulatory risk, operational risk and liquidity risk. These risks can materially affect an DFI and may require an adjustment of the DFI transaction or even its premature termination, which could adversely affect the Sub-fund's net asset value.

- Risk due to a change in the tax regime

A change in the tax regime of a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed could adversely affect the taxation of investors. In such an event, the Sub-fund manager shall not be liable to any investor with respect to any payment that may have to be made to a competent tax authority.

- Risk of a change in the taxation of the Sub-fund's underlying assets

A change in the taxation of the Sub-fund's underlying assets could adversely affect the taxation of the Sub-fund. In such an event a discrepancy between the estimated taxation and the actual taxation of the Sub-fund and/or of the Sub-fund's DFI counterparty may adversely affect the Sub-fund's net asset value.

- Regulatory risk affecting the Sub-fund

In the event of a change in the regulatory regime in a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed, the subscription, conversion or redemption of shares or units may be adversely affected.

- Regulatory risk affecting the Sub-fund's underlying assets

In the event of a change in the regulations that govern the Sub-fund's underlying assets, the Sub-fund's net asset value and the subscription, conversion or redemption of shares or units may be adversely affected.

- Benchmark Index disruption risk

If an event adversely affects the Benchmark Index, the Sub-fund manager may be required, as provided for by law, to suspend the subscription and redemption of the Sub-fund's shares or units. The calculation of the Sub-fund's net asset value could also be adversely affected.

If the disruption of the Benchmark Index persists, the Sub-fund manager will determine an appropriate course of action, which could decrease the Sub-fund's net asset value.

A 'Benchmark Index event' includes but is not limited to the following situations:

- i) the Benchmark Index is deemed to be inaccurate or does not reflect actual market developments
- ii) the Benchmark Index is permanently cancelled by the index provider
- iii) the index provider is unable to indicate the level or value of the Benchmark Index
- iv) The index provider makes a material change in the Benchmark Index calculation formula or method (other than a minor modification such as an adjustment to the Benchmark Index's underlying components or their respective weightings) which the Sub-fund cannot effectively replicate at a reasonable cost.
- (v): a Benchmark Index component becomes illiquid because it is no longer traded on a regulated market or because its trading over-the-counter (e.g. bonds) is disrupted
- (vi) the Benchmark Index components are exposed to higher transaction costs for execution or settlement/delivery, or to specific tax constraints and these costs are not reflected in the Benchmark Index's performance.

- Corporate action risk

An unforeseen change, by the issuer of a security that is a component of the Benchmark Index, in a planned corporate action that is in contradiction with a previous official announcement on which the Sub-fund based its valuation of the corporate action (and/or on which the Sub-fund's counterparty to a financial derivative instrument or transaction based its valuation of the corporate action) can adversely affect the Sub-fund's net asset value, particularly if the Sub-fund's treatment of the corporate event differs from that of the Benchmark Index methodology.

- Legal risk

The Fund may be exposed to a legal risk arising from a total return swap (TRS) agreement as indicated in EU Regulation No. 2015/2365.

ELIGIBLE INVESTORS AND TYPICAL INVESTOR PROFILE

This Sub-fund is available to all investors.

Investors in this Sub-fund are seeking exposure to UK equity markets.

The amount that can be reasonably invested in the Sub-fund depends on each investor's personal situation. To determine this amount, investors must take into account their personal wealth and/or estate, their cash requirements currently and for the next five years, and their willingness to take on risk or their preference for more prudent investment. Investors are also advised to diversify their investments sufficiently so as not to be exposed solely to this Sub-fund's risks.

All investors are therefore asked to consider their specific situation with the help of their usual investment advisor.

The recommended minimum investment period is at least five years.

CALCULATION AND APPROPRIATION OF DISTRIBUTABLE AMOUNTS

The Board of Directors reserves the right to accumulate and/or distribute all or part of all distributable amounts.

The Board of Directors will make every effort to qualify for Distributing Status in the United Kingdom under section 760 ICTA. The Sub-fund will distribute at least 85% of its income (including the "UK equivalent profits") and shall apply to HMRC for "Distributing Status".

DISTRIBUTION FREQUENCY

If a distribution is decided, the Board of Directors reserves the right to distribute all or part of the distributable amounts in one or more distributions per annum.

SHARE CHARACTERISTICS

Subscription orders may be placed for a specific monetary amount or for a whole number of shares.
Only a whole number of shares may be redeemed.

SHARE CURRENCY

Currency	Pound sterling
----------	----------------

SUBSCRIPTION AND REDEMPTION

1. SUBSCRIPTION AND REDEMPTION ON THE PRIMARY MARKET

Subscription/redemption orders for shares in the Sub-fund will be processed by the Depositary from 10:00 am to 5.00pm (Paris time), every day that the Sub-fund's net asset value is to be published, provided that prices can be quoted for a significant proportion of the Benchmark Index components (hereinafter a "Primary Market Day", and will be executed at the net asset value on that Primary Market Day, hereinafter the "reference NAV". Subscription/redemption requests submitted after 5.00 pm (Paris time) on a Primary Market Day will be processed as if received from 10:00 am to 5.00 pm (Paris time) on the following Primary Market Day. Orders to subscribe for or redeem shares in the Sub-fund must be for a whole number of shares and represent at least the GBP equivalent of 100,000 euros.

Subscriptions and redemptions in cash:

Subscriptions and redemptions shall be made exclusively in cash and executed at the ref NAV.

Delivery and settlement:

Settlement/delivery of subscriptions and redemptions shall be completed within five French business days upon receipt of the subscription or redemption order.

Date and frequency of net asset value calculation

The net asset value will be calculated and published daily, provided that at least one exchange on which the Sub-fund's shares are listed is open and that orders placed in the primary and secondary markets can be funded.

The Sub-fund's net asset value is calculated using the Benchmark Index's closing price. The Sub-fund's net asset value is denominated in GBP.

2. PURCHASES AND SALES ON THE SECONDARY MARKET**A. COMMON PROVISIONS**

For any purchase or sale of shares in the Sub-fund executed directly on an exchange on which the Sub-fund is admitted or will be admitted for continuous trading, no minimum purchase or sale amount is required other than that which may be required by the relevant exchange(s).

Shares in a listed Sub-fund that are purchased on the secondary market cannot generally be directly sold back to that Sub-fund. Investors must therefore buy and sell their shares on a secondary market through an intermediary (e.g. a broker) and may consequently incur costs. Furthermore, there is a possibility that investors may pay more than the indicative net asset value when buying shares and receive less than the indicative net asset value when selling shares.

If the stock market value of a listed fund's shares differs significantly from its indicative net asset value, or if trading in the fund's shares is suspended, investors may be authorized, subject to the conditions set forth below, to redeem their shares on the primary market directly from the fund, without being subject to the minimum redemption amount requirement set forth herein in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)".

The management company shall decide whether to allow such primary market redemptions and for how long, on the basis of the following criteria for assessing the significance of a market disruption:

- The suspension or strong disturbance of secondary trading on a given exchange is relatively frequent
- The link between the market disruption and secondary market operators (such as the default of one or more of the Market Makers of a given exchange, or a breakdown or malfunction of an exchange's IT or operating systems), excluding a disruption caused by a source external to the secondary exchange on which the Sub-fund's shares are traded, such as an event that affects the liquidity and valuation of all or some of the Benchmark Index's components
- Any other objective circumstance that could adversely affect the fair treatment and/or the interests of the Sub-fund's share-holders.

Notwithstanding the provisions concerning fees presented in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)", redemptions made in the primary market in this case shall only be subject to a net redemption fee of 1% paid to the Sub-fund and which serves to cover its trading costs.

In such exceptional cases when redemption in the primary market is allowed, the Management Company shall post on Lyxor's website at www.lyxor.etf.com the procedure that investors must observe to redeem their shares in the primary market. The Management Company shall also make this procedure available to the market undertaking that handles trading in the Sub-fund's shares.

B SPECIFIC PROVISIONS**a) If the Sub-fund's shares are listed on Euronext Paris, as indicated in the "Key Information" section, investors should note the following rules****Negotiability of shares and information about the financial institutions acting as Market Makers:**

The shares are freely negotiable on the Euronext Paris regulated market under the following conditions and according to the applicable legal and regulatory provisions.

The Sub-fund's shares will be listed on a specific trading list, the rules for which are defined in the following instructions published by Euronext Paris SA:

- Instruction No. 4-01 "Universal Trading Platform Manual"
- Appendix to Instruction N4-01 (Appendix to the Euronext Market Trading Manual)
- Instruction No. 6-04 "Documentation to be provided when filing a listing application for an ETF, ETN, ETV and open-ended undertakings for collective investment other than"

Pursuant to article D 214-22-1 of the French Monetary and Financial Code the units or shares of undertakings for collective investments in transferable securities may be admitted to trading, provided that these undertakings have a system to ensure that the market price of their units or shares does not differ significantly from their net asset value. Under Euronext Paris SA's rules trading in the Sub-fund's shares is also subject to a 'reservation threshold' of 1.5% above or below the Sub-fund's indicative net asset value or "iNAV" (see the "Indicative Net Asset Value" section), as published by Euronext Paris SA and updated on an estimated basis during trading in accordance with the change in the Benchmark Index.

To comply with Euronext Paris SA's reservation threshold requirement (see the section entitled "Indicative Net Asset Value") the Market Makers will ensure that the market price of the Sub-fund's shares does not differ from the Sub-fund's indicative Net Asset Value by more than 1.5%.

Euronext Paris SA may suspend trading in the Sub-fund's shares pursuant to the terms of its operating rules, if the aforementioned reservation threshold limit is exceeded.

Euronext Paris SA will also suspend trading in the Sub-fund's shares in the following cases:

- the Benchmark Index is no longer traded or calculated
- Euronext Paris SA cannot obtain the Benchmark Index's level

- Euronext Paris SA cannot obtain the Sub-fund's net asset value

In accordance with the terms and conditions governing admission to trading on Euronext Paris, the Market Makers undertake to provide market-making services for the Sub-fund's shares as soon as they are admitted to trading on the Euronext Paris exchange. In particular, the Market Makers undertake to carry out market-making operations by maintaining a significant presence in the market, which initially entails the setting of a bid/ask spread.

More specifically, the Market Makers are required by contract with Euronext Paris SA to ensure that the Sub-fund maintains:

- a maximum global spread of 1.5% between the bid and offer price in the centralized order book.
- a minimum nominal trading value of EUR 100,000.

The obligations of the Sub-fund's Market Makers will be suspended in the following cases:

- the Benchmark Index is no longer traded or calculated
- if trading is substantially disrupted, for example due to a widespread shift in prices or an event that makes normal market making impossible.

Indicative Net Asset Value:

Euronext Paris SA will calculate and publish, each Trading Day (as defined below) during trading hours, the Sub-fund's indicative net asset value (hereinafter "iNAV"). The iNAV is a measure of the intra-day value of the Sub-fund's net asset value based on the most recent data. The iNAV is not the value at which investors buy and sell shares in the Sub-fund on the secondary market.

A "Trading Day" is a day on which Euronext is normally open and on which the Benchmark Index is normally published.

The Sub-fund's iNAV is a theoretical net asset value calculated every 15 seconds by Euronext SA throughout the Paris trading day and is based on the level of the Benchmark Index. The iNAV enables investors to compare the prices that the Market Makers offer on the market with the theoretical value calculated by Euronext.

The iNAV will be calculated every day that the net asset value is calculated and published.

For the calculation of the Sub-fund's iNAV during the Paris trading session (from 9.05 am to 5.35 pm), Euronext Paris SA will use the Benchmark Index value published by Reuters.

If one or more stock exchanges on which the Benchmark Index's constituent equities are listed are closed (on a public holiday as indicated on the TARGET calendar) and if the iNAV cannot be calculated, trading in the Sub-fund's shares may be suspended.

Lyxor International Asset Management, the Sub-fund's management company, will provide Euronext Paris SA with all the financial and accounting data it needs to calculate the Sub-fund's iNAV and in particular:

- The day's estimated net asset value
- The official net asset value of the previous business day
- The level of the Benchmark Index on the previous business day.

These data will serve as a basis for Euronext Paris SA's calculations to determine the Sub-fund's iNAV in real time every Trading Day.

Additional information about the indicative net asset value of a share listed on an exchange may, in accordance with the terms and limitset by the relevant market undertaking, be provided on this exchange's website. This information is also available on the Reuters or Bloomberg pages dedicated to the particular share. Additional information about the Bloomberg and Reuters codes for the indicative net asset values of all UCITS ETF type share classes is also available in the "Term Sheets" section of Lyxor's website at www.lyxoretf.com.

b) If the Sub-fund's shares are listed on an exchange other than Euronext Paris, as indicated in the "Key Information" section, investors should note the following

Investors wishing to acquire shares in the Sub-fund or obtain more information regarding the market-making terms that govern the listing and trading of shares on the types of exchanges indicated in the "Key Information" section are advised to familiarize themselves with the guidelines laid down by the relevant market undertaking, in compliance with local regulations, and to seek if necessary the assistance of their usual broker(s) for executing trades on the relevant exchange(s).

FEES AND CHARGES

SUBSCRIPTION AND REDEMPTION FEES (CHARGED ONLY ON PRIMARY MARKET TRANSACTIONS)

The subscription and redemption fees shown below respectively increase the subscription price paid by the investor and decrease the redemption price received. Fees kept by the Sub-fund compensate it for the expenses it incurs in investing in the Sub-fund's assets or in divesting these assets. Any fees that are not kept by the Sub-fund are paid to the management company, marketing agent or other service provider.

Fees paid by investors upon subscription or redemption	Base	Maximum charge
Subscription fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either the GBP equivalent of EUR 50,000 per subscription order or 5%, payable to third parties
Subscription fee kept by the Sub-fund	NAV per share x number of shares	N/A
Redemption fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either the GBP equivalent of EUR 50,000 per redemption order or 5%, payable to third parties
Redemption fee kept by the Sub-fund	NAV per share x number of shares	N/A

No subscription/redemption fee will be charged when shares are purchased/sold on an exchange where the Sub-fund shares are listed.

OPERATIONAL AND MANAGEMENT FEES

These fees cover all the costs invoiced directly to the Sub-fund, except for transaction expenses, which include intermediary fees (brokerage, stock market taxes etc.) and any account activity charge that may be charged, for example, by the depositary or the management company.

For this Sub-fund the following fees may be charged in addition to the operating and management fees (see table below):

- incentive fees, which the Sub-fund pays to the asset manager when the Sub-fund exceeds its objectives;
- Account activity charges charged to the Sub-fund.

For more information on the fees or expenses that the Sub-fund must pay, see the Statistics section of the Key Investor Information Document (KIID).

Fees charged to the Sub-fund	Base	Maximum charge
Investment management fees and administration fees that are external to the management company (auditor, depositary, fund distribution and legal fees) including tax ⁽¹⁾	Net asset value	0.40% per annum
Incentive fee	Net asset value	N/A
Account activity charge	Charge on each transaction	N/A

⁽¹⁾ Includes all fees and expenses except for transaction expenses, incentive fees and fees associated with investment in UCITS.

COMMERCIAL INFORMATION

Distribution of this prospectus and the offer or purchase of shares in the Fund's share classes may be subject to restrictions with regard to certain persons or in certain countries under national regulations that may apply to these persons or countries. Investors are therefore responsible for ensuring that they can legally subscribe to or invest in this Fund. The information in this prospectus therefore cannot be construed to be an offer or solicitation to buy or sell shares in this Fund in a country where such offer or solicitation is unlawful.

The Fund's share classes will not be registered pursuant to the U.S. Securities Act of 1933, as amended (the "U.S. Securities Act") and cannot be offered, assigned, transferred or allocated to the United States of America, or to:

- (A) any "U.S. Person", as this term is defined (i) under Regulation S of the US Securities Act of 1933 and (ii) under U.S. regulations as defined in Section 7701 (a) (30) of the Internal Revenue Code of 1986 as amended. The Fund's shares will not be offered to U.S. Persons.
- (B) anyone other than those persons considered to be "non-US Persons" as this term is defined under U.S. regulations pursuant to the Commodity Futures Trading Commission, Rule 4.7 (a) (1) (iv).

The Fund's shares will only be offered for sale outside of the United States of America to non-U.S. Persons.

For the purpose of this document, the term "U.S. Person" shall mean, among other things, any individual who resides in the United States of America, any entity organized or formed under the laws of the United States of America, certain entities organized or formed outside of the United States of America by one or more U.S. persons, or any account held on behalf of such a U.S. person.

Under the German tax act on investment funds (InvStG-E), the Sub-fund is a "mutual fund" and must comply with the criteria that apply to "equity funds". As such, the Sub-fund will hold a basket of securities that are eligible for the equity ratio as this term is defined under said German tax act, and which will represent at least 94% of its net assets under normal market conditions. To ensure compliance with this ratio, the Sub-fund may adjust this basket of securities on a daily basis.

Before making an investment in this Fund or Sub-fund, investors should seek the advice of their financial, tax and legal advisers.

PLACE AND METHOD OF NET ASSET VALUE PUBLICATION OR COMMUNICATION

At the head office of LYXOR INTERNATIONAL ASSET MANAGEMENT, at 17, cours Valmy - 92987 Paris La Défense CEDEX - France.

The Sub-fund's net asset value will be calculated and published every Trading Day.

IMPORTANT INFORMATION ABOUT THE INDEX PROVIDER

LYXOR FTSE ALL SHARE UCITS ETF is in no way sponsored, endorsed, sold or promoted by FTSE International Limited (hereinafter "FTSE"), London Stock Exchange Plc, The Financial Times Limited ou Euronext N.V. or its subsidiaries (hereinafter "Euronext") (collectively referred to as the "Licensors").

The Licensors provide no warranty or guarantee and make no commitment, whether explicit or implied, as to the income to be obtained from using the FTSE ALL SHARE™ index (hereinafter the "Index") and/or the level this Index may reach at any given time or date, or of any other type. The Index is calculated by or on behalf of FTSE or Euronext. The Licensors disclaim all liability (whether due to negligence or any other reason) for any error that may adversely affect the Index with respect to anyone whomsoever and shall not be obliged to inform anyone of such an error.

"FTSETM", "FT-SE®" and "Footsie®" are registered trademarks of the London Stock Exchange Plc and of The Financial Times Limited and are used under license by FTSE International Limited (hereinafter "FTSE"). "Eurofirst" is a joint trademark of FTSE and Euronext N.V.

ADDITIONAL INFORMATION

The Sub-fund's shares are approved for clearing by Euroclear France S.A.

Subscription and redemption orders are sent by the investors' financial intermediaries (members of Euroclear France SA) to the Depositary.

The Sub-fund's prospectus, the Key Investor Information Document, the most recent annual documents and the asset inventory will be sent to investors within eight business days upon receipt of a written request addressed to:

LYXOR INTERNATIONAL ASSET MANAGEMENT
17 Cours Valmy - 92987 Paris La Défense France.

E-mail: contact@lyxor.com

More information can also be requested from Lyxor International Asset Management on its website at www.lyxoretf.com.

Prospectus publication date: See the "Publication Date" section

Pursuant to Article L.533-22-1 of the French Monetary and Financial Code, information concerning the management company's possible inclusion of social, environmental and corporate governance objectives and performance criteria in the investment policy is available on the management company's website and in the Sub-fund's annual report.

The AMF's website (www.amf-france.org) provides more information on the regulatory documents and various provisions that concern investor protection. This Prospectus shall be made available to investors prior to subscription.

INVESTMENT RULES

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

The Sub-fund may invest in the assets specified in Article L214-20 of the French Monetary and Financial Code, subject to the risk-diversification and investment ratio requirements of Articles R214-21 to R214-27 of said Code.

Notwithstanding the 10% limit under Paragraph II of Article R214-21 of the French Monetary and Financial Code, the Sub-fund may invest up to 20% of its assets in the equities and debt securities of a single issuer, in compliance with Article R214-22-I, which deals with index-tracking funds. Pursuant to Article R214-22 II, the Sub-fund may also increase this 20% limit for a single issuer to 35%, when this is justified by exceptional market conditions, and in particular when certain securities are largely dominant.

OVERALL RISK EXPOSURE

The commitment approach is used to calculate the overall risk exposure.

ASSET VALUATION AND ACCOUNTING RULES

A. VALUATION RULES

The Sub-fund's assets are valued in accordance with applicable laws and regulations and most notably Regulation No. 2014-01 of 14 January 2014 of the Comité de la Réglementation Comptable (the Accounting Regulations Committee), which applies to the chart of accounts for undertakings for collective investment in transferable securities.

Financial instruments traded on a regulated market are valued at the closing price recorded on the day prior to the calculation of the net asset value. If these financial instruments are traded on several regulated markets at the same time, the closing price used is that recorded on the regulated market on which they are principally traded.

However, in the absence of significant trading on a regulated market, the following financial instruments are valued using the following methods:

- Negotiable debt securities ("NDS") with a remaining life upon acquisition that is less than or equal to three months are valued by applying the difference between the acquisition value and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life of more than three months upon acquisition but less than or equal to three months at the net asset value calculation date are valued by applying the difference between the most recent valuation and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life at the net asset value calculation date that exceeds three months are valued at their current value. The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- Financial futures traded on organized markets are valued at the clearing price on the day prior to the calculation of the net asset value. Options traded on organized markets are valued at their market price on the day prior to the calculation of the net asset value. Forward contracts and over-the-counter options are valued at the price quoted by the counterparty. The management company monitors these prices independently.
- Bank deposits are valued at their nominal value plus accrued interest.
- Warrants, short and medium-term notes (bons de caisse), promissory notes and mortgage notes are valued under the management company's responsibility at their most likely trading value.
- Securities financing transactions are valued at the market price.
- Units and shares in UCITS under French law are valued at the last known net asset value on the day the Sub-fund's net asset value is calculated.
- Units and shares in foreign investment funds are valued at the last known net asset value at the date the Sub-fund's net asset value is calculated.
- Financial instruments traded on a regulated market and for which no price has been quoted or whose price has been corrected, are valued under the management company's responsibility at their most likely trading value.
- The exchange rates used to value financial instruments denominated in a currency other than the Sub-fund's base currency are the WM Reuters fixing rates on the day the Sub-fund's net asset value is calculated.

B. ACCOUNTING METHOD FOR TRADING EXPENSES

Trading expenses are included in the initial cost of the transaction.

C. ACCOUNTING METHOD FOR INCOME FROM FIXED-INCOME SECURITIES

Income from fixed-income securities is accounted for using the cash-basis method.

D. DISTRIBUTION POLICY

For more information see the section entitled "Calculation and appropriation of Distributable amounts"

E. ACCOUNTING CURRENCY

The Sub-fund's accounts are kept in pounds sterling (GBP).

SUB-FUND No. 3: LYXOR FTSE 250 UCITS ETF

A SICAV SUB-FUND COMPLIANT WITH DIRECTIVE 2009/65/CE

ISIN CODE

Share class: FR0010438135

CLASSIFICATION

European Union country equities

The LYXOR FTSE 250 UCITS ETF sub-fund (the “**Sub-fund**”) continuously maintains at least 60% to at least one of the equity markets of one or more European Union countries, which may include the eurozone countries.

The Sub-fund is a UCITS ETF type index tracker.

DATE ESTABLISHED AND INTENDED TERM

The Sub-fund was approved by l’Autorité des Marchés Financiers (the French financial markets authority) on 23 February 2007 and was established on 3 April 2007. The MULTI UNITS FRANCE fund was established on 4 March 2002, for a term of 99 years.

INVESTMENT OBJECTIVE

The Sub-fund’s objective is to provide exposure to the UK equity market by replicating the performance of the FTSE 250™ index (the “**Benchmark Index**”), denominated in pounds sterling (GBP), while minimizing the tracking error between the Sub-fund’s performance and that of its Benchmark Index. The expected ex-post tracking error under normal market conditions is 0.05%.

BENCHMARK INDEX

The Benchmark Index is the FTSE 250™ Gross Total Return index, (with gross dividends reinvested).

The Benchmark Index is an equity index calculated, maintained and published by international index provider FTSE.

The Benchmark Index tracks the performance the largest companies in the United Kingdom listed on the London Stock Exchange (LSE) which are not already included in the FTSE 100™ index.

The Benchmark Index stocks are weighted according to their free-float adjusted market capitalization, using FTSE’s free-float system. No constituent can account for more than 15% of the index.

The FTSE methodology and calculation method assume a fixed number of companies in the index.

A full description of the Benchmark Index and its construction methodology and information on the composition and respective weightings of the Benchmark Index components are available on the Internet at <http://www.ftse.com>

The performance tracked is that of the Benchmark Index’s closing price in GBP.

Benchmark Index composition and revision

The Benchmark Index is rebalanced quarterly.

The exact composition of the Benchmark Index and FTSE’ rules for index composition revision are available on the Internet at www.ftse.com

The frequency with which the Benchmark Index is rebalanced does not affect the cost of implementing the Investment Strategy.

Benchmark Index publication

Real-time Benchmark Index values are available via Bloomberg and Reuters.

Reuters code: .TFTMC

Bloomberg code: FTPTT250

The Benchmark Index’s closing price is available on the Internet at www.ftse.com

Pursuant to Article 52 of European Parliament and Council Regulation 2016/1011 of 8 June 2016, FTSE, the administrator of the FTSE 250™ benchmark index, has until 1 January 2020 to apply for approval or registration as applicable.

As of the date of the most recent version of this prospectus, the benchmark index administrator was not yet listed in ESMA’s register of benchmark administrators.

Pursuant to European Parliament and Council Regulation 2016/1011 of 8 June 2016, the asset management company has a procedure for monitoring the benchmark indices used that specifies the measures to be implemented if an index is substantially modified or is no longer provided.

INVESTMENT STRATEGY

1. Strategy employed

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund will employ an indirect replication method, which means that it will enter into one or more OTC swap contracts enabling it to achieve its investment objective. These swap contracts will serve to exchange the value of the Sub-fund's assets, which will consist of cash and/or balance sheet assets (excluding any securities received as collateral), for the value of the securities that underlie the Benchmark Index.

The Sub-fund's equities will be mainly those that make up the Benchmark Index, and also other international equities, in all economic sectors and listed in all markets, including small-cap markets.

The basket of securities held may be adjusted daily such that its value will generally be at least 100% of the net assets. When necessary, this adjustment will be made to ensure that the counterparty risk arising from the aforementioned swap contract will be neutralized.

Information on the updated composition of the basket of 'balance sheet' assets in the Sub-fund's portfolio and the value of the swap contract concluded by the Sub-fund is available on the page dedicated to the Sub-fund accessible on Lyxor's website at www.lyxoretf.com. The frequency of any updates and/or the date on which the aforementioned information is updated is also indicated on the same page of the aforementioned website.

Up to 20% of the Sub-fund's assets may be exposed to equities issued by the same entity. This 20% limit may be increased to 35% for a given issuing entity when this is justified by exceptional market conditions and in particular when certain securities are largely dominant and/or in the event of strong volatility that affects a financial instrument or securities linked to an economic sector represented in the Benchmark Index, particularly in the event of a public offering that substantially affects a Benchmark Index security or in the event of a significant drop in the liquidity of one or more of the Benchmark Index's financial instruments.

2. Balance sheet assets (excluding embedded derivatives)

In accordance with regulatory ratios, the Sub-fund can hold in its portfolio European equities in all economic sectors and listed on any exchange, including "small-cap" exchanges.

The aforementioned equity equities will be selected largely on the basis of the following eligibility criteria:

- their inclusion in major stock exchange indices or in the Benchmark Index
- liquidity (must exceed a minimum daily trading volume and market capitalization)
- credit rating of the country where the issuer has its registered office (must have a least a minimum S&P or equivalent rating)
- diversification criteria, and in particular:
 - the issuer (application of investment ratios to assets that qualify for UCITS, pursuant to Art. R214-21 of the French Monetary and Financial Code)
 - geography
 - sector.

Investors may find more information on the above eligibility and diversification criteria, and in particular the list of eligible indices, on Lyxor's website at www.lyxoretf.com.

Investment in undertakings for collective investment in transferrable securities ("UCITS") that comply with Directive 2009/65/EC is limited to 10% of the Sub-fund's net assets.

The fund manager will not invest in the shares or units of alternative investment funds (AIF) or other investment funds that were formed under a foreign law. The Sub-fund may invest in the shares of UCITS managed by the management company or by a company that is related to the management company.

When the Fund receives collateral in the form of securities, subject to the terms of section 8 below, it acquires full title to these securities and they are therefore included among the balance sheet assets to which it has full title.

To optimize the Sub-fund's management and achieve its investment objective, the asset manager reserves the right to use other financial instruments, in compliance with regulations.

3. Off-balance sheet assets (derivatives)

The Sub-fund will use OTC index-linked swaps that swap the value of the Sub-fund's assets (or of any other financial instrument or asset the Fund may hold) for the value of the Benchmark Index (as described in part 1 of this section).

- Maximum proportion of assets under management for which total return swaps (TRS) may be entered into: 100%.
- Expected proportion of assets under management for which total return swaps (TRS) may be entered into: up to 100%.

To optimize the Sub-fund's management and achieve its investment objective, the manager reserves the right to use other financial instruments in compliance with regulations, such as derivative instruments other than index-linked swaps.

In accordance with its best execution policy, the management company considers that Société Générale is the counterparty that is generally able to obtain the best possible execution for these derivative financial instruments. Accordingly, these derivative financial instruments (including index-linked swaps) may be traded via Société Générale without having to seek a competitive bid from another counterparty.

The counterparty of the derivative financial instruments referred to above (the "Counterparty") will have no discretionary power over the composition of the Sub-fund's portfolio nor over the underlying assets of the derivative financial instruments.

4. Securities with embedded derivatives

N/A.

5. Cash deposits

To optimize its cash management, the Sub-fund may deposit funds representing up to 20% of its net assets with credit institutions that belong to the same group as the depositary.

6. Cash borrowing

The Sub-fund may temporarily borrow up to 10% of its net assets.

7. Securities financing transactions

The manager shall not engage in any temporary purchases or sales of securities.

8. Collateral

Whenever the investment strategy exposes to the Sub-fund to counterparty risk, and in particular when the Sub-fund uses over-the-counter swaps, the Sub-fund may accept eligible securities as collateral to reduce the counterparty risk associated with these swaps. The portfolio of collateral received may be adjusted daily to ensure that its value is at least sufficient to cover the Sub-fund's counterparty risk in most cases. The purpose of this adjustment is to neutralize the Sub-fund's counterparty risk.

The Sub-fund will have full title to all collateral received, which will be deposited in the Sub-fund's account with the depositary. This collateral will therefore be included in the Sub-fund's assets. If a counterparty defaults on an obligation, the Sub-fund may dispose of the assets received from the counterparty in respect of the secured transaction to pay off the counterparty's debt to the Sub-fund.

All collateral the Sub-fund receives for this purpose must comply with the applicable laws and regulations, with respect in particular to the liquidity and valuation of the collateral, the credit-worthiness of securities issuers, risk exposure correlation and the risks of collateral management and enforceability. All collateral received must in particular meet the following criteria:

- (a) All collateral must be of high quality, be highly liquid and tradable on a regulated market or on a multilateral trading facility, with transparent pricing to enable the collateral to be rapidly sold near its estimated price;
- (b) This collateral must be valued at the mark-to-market price at least daily and assets with highly volatile prices are not acceptable as collateral, unless a sufficiently prudent discount or "haircut" is applied;
- (c) The issuer of this collateral must be independent of the counterparty and must not be closely correlated with the counterparty's financial performance;
- (d) This collateral must be sufficiently diversified by country, market and issuer, and no exposure to a single issuer may exceed 20 % of the Sub-fund's net asset value;
- (e) The Sub-fund's Management Company must be able to enforce this collateral in full and at any time, without having to consult with the counterparty or obtain its approval.

Notwithstanding the condition specified in (d) above, the Fund may accept a basket of securities collateral that increases its exposure to a single issuer to more than 20% of its net asset value provided that:

- such securities collateral is issued by (i) a Member State, (ii) one or more of a Member State's local authorities, (iii) a country that is not a Member State (iv) a public international organization to which one or more Member States belong; and;
- such securities collateral consists of at least six different issues of securities of which no single issue exceeds 30% of the Sub-fund's assets.

Subject to the above conditions, the Sub-Fund may take collateral in the following forms:

- (i) Cash and cash-equivalent assets, which for example include short-term bank deposits and balances and money-market instruments;
- (ii) Bonds issued or guaranteed by an OECD member state, or by its local government entities, or by an EU, regional or global supranational institution or organisation, or by any country provided that conditions (a) to (e) above are fully complied with;
- (iii) Shares or units issued by money-market funds that calculate a daily net asset value and have an AAA or equivalent credit rating;
- (iv) The shares or units of UCITS that invest mainly in the bonds and/or equities indicated in (v) and (vi) below;
- (v) Bonds issued or guaranteed by first-class issuers offering sufficient liquidity;
- (vi) Equities admitted for trading or traded on a regulated exchange of an EU member country, on a stock exchange of an OECD member country or on a stock exchange of another country provided that conditions (a) to (e) above are fully complied with and that these equities are components of a major index.

Collateral discount policy:

The Sub-fund's management company shall apply a discount to the collateral accepted by the Sub-fund. The amount of these discounts will depend mainly on the following:

- The nature of the collateral asset;
- The collateral's maturity (if applicable);
- The credit rating of the collateral issuer (if applicable).

Reinvestment of collateral:

Non-cash collateral will not be sold, reinvested or pledged.

At the manager's discretion, cash collateral may either be:

- (i) deposited with an authorized institution
- (ii) invested in high-quality government bonds;
- (iii) used for reverse repurchase transactions, provided that these are entered into with credit institutions that are subject to prudential supervision and that the fund is able to withdraw the total amount of its cash collateral and the accrued interest at any time;
- (iv) invested in short-term money market funds that meet the guidelines for a common EU definition of money market funds.

All cash collateral that is reinvested must be invested in a diversified manner in compliance with the rules that apply to the acceptance of non-cash collateral.

RISK PROFILE

Investors' money will be invested mainly in the financial instruments selected by the management company. These instruments are subject to market trends and contingencies.

Investors in the Sub-fund will mainly be exposed to the following risks:

Equity risk

The price of an equity security can increase or decrease in accordance with changes in the issuer's risk exposure or in the economic conditions of the market in which the security is traded. Equity markets are more volatile than fixed income markets, where under stable macroeconomic conditions income over a given period of time can be estimated with reasonable accuracy.

Capital risk

The capital invested is not guaranteed. Investors therefore may not recover all or part of their initial investment, particularly in the event that the Benchmark Index posts a negative return over the investment period.

Liquidity risk (primary market)

The Sub-fund's liquidity and/or value may be adversely affected if, when the Sub-fund or a counterparty to a financial derivative instrument (DFI) is rebalancing its exposure, the underlying financial markets are restricted, closed, or subject to large bid/offer spreads. An inability, due to low trading volume, to execute the trades required to replicate the Benchmark Index may also adversely affect the subscription, conversion or redemption of shares or units.

Liquidity risk (secondary market)

The price of the Sub-fund's listed shares or units may deviate from the Sub-fund's indicative net asset value. The liquidity of shares or units traded on a given exchange may be adversely affected by a suspension in trading for various reasons, for example:

- i) the calculation of the Benchmark Index is suspended or stopped;
- ii) trading in the market(s) in the Benchmark Index's underlying assets is suspended
- iii) an exchange cannot obtain or calculate the Sub-fund's indicative net asset value
- iv) a market maker fails to comply with an exchange's rules
- v) an exchange's IT, electronic or other system fails.

Counterparty risk

The Sub-fund is exposed to the risk that a counterparty with which the Sub-fund has entered into a contract or transaction may go bankrupt or default on a settlement or other obligation. The Sub-fund is mainly exposed to counterparty risk resulting from the use of derivative financial instruments (DFI) traded over the counter with Société Générale or some other counterparty. In compliance with UCITS regulations, exposure to counterparty risk (whether the counterparty is Société Générale or another entity), cannot exceed 10% of the Sub-fund's total assets per counterparty.

If a counterparty defaults on an obligation the DFI contract may be terminated before maturity. The Sub-fund will do everything in its power to achieve its investment objective by, if appropriate, entering into another DFI contract with another counterparty at the market conditions at the time of such an event.

If this counterparty risk materializes it could have an impact on the Sub-fund's ability to achieve its investment objective of replicating the Benchmark Index.

When Société Générale is the DFI counterparty, conflicts of interest may arise between it and the Sub-fund's management company, which has procedures to identify and reduce such conflicts of interest and to resolve them equitably if necessary.

Risk that the investment objective may not be fully achieved

There is no guarantee that the investment objective will be achieved, as no asset or financial instrument can ensure that the Benchmark Index will be automatically and continuously replicated, particularly in the event of one or more of the following risks:

- Risk of using derivative financial instruments

In order to achieve its investment objective, the Sub-fund can enter into transactions involving over-the-counter derivative financial instruments (DFI), such as swaps, in order to secure the performance of the Benchmark Index. These DFI involve various risks, such as counterparty risk, hedging disruption, Benchmark Index disruption, taxation risk, regulatory risk, operational risk and liquidity risk. These risks can materially affect an DFI and may require an adjustment of the DFI transaction or even its premature termination, which could adversely affect the Sub-fund's net asset value.

- Risk due to a change in the tax regime

A change in the tax regime of a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed could adversely affect the taxation of investors. In such an event, the Sub-fund manager shall not be liable to any investor with respect to any payment that may have to be made to a competent tax authority.

- Risk of a change in the taxation of the Sub-fund's underlying assets

A change in the taxation of the Sub-fund's underlying assets could adversely affect the taxation of the Sub-fund. In such an event a discrepancy between the estimated taxation and the actual taxation of the Sub-fund and/or of the Sub-fund's DFI counterparty may adversely affect the Sub-fund's net asset value.

- Regulatory risk affecting the Sub-fund

In the event of a change in the regulatory regime in a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed, the subscription, conversion or redemption of shares or units may be adversely affected.

- Regulatory risk affecting the Sub-fund's underlying assets

In the event of a change in the regulations that govern the Sub-fund's underlying assets, the Sub-fund's net asset value and the subscription, conversion or redemption of shares or units may be adversely affected.

- Benchmark Index disruption risk

If an event adversely affects the Benchmark Index, the Sub-fund manager may be required, as provided for by law, to suspend the subscription and redemption of the Sub-fund's shares or units. The calculation of the Sub-fund's net asset value could also be adversely affected.

If the disruption of the Benchmark Index persists, the Sub-fund manager will determine an appropriate course of action, which could decrease the Sub-fund's net asset value.

A 'Benchmark Index event' includes but is not limited to the following situations:

- i) the Benchmark Index is deemed to be inaccurate or does not reflect actual market developments
- ii) the Benchmark Index is permanently cancelled by the index provider
- iii) the index provider is unable to indicate the level or value of the Benchmark Index
- iv) The index provider makes a material change in the Benchmark Index calculation formula or method (other than a minor modification such as an adjustment to the Benchmark Index's underlying components or their respective weightings) which the Sub-fund cannot effectively replicate at a reasonable cost
- (v): a Benchmark Index component becomes illiquid because it is no longer traded on a regulated market or because its trading over-the-counter (e.g. bonds) is disrupted
- (vi) the Benchmark Index components are exposed to higher transaction costs for execution or settlement/delivery, or to specific tax constraints and these costs are not reflected in the Benchmark Index's performance.

- Corporate action risk

An unforeseen change, by the issuer of a security that is a component of the Benchmark Index, in a planned corporate action that is in contradiction with a previous official announcement on which the Sub-fund based its valuation of the corporate action (and/or on which the Sub-fund's counterparty to a financial derivative instrument or transaction based its valuation of the corporate action) can adversely affect the Sub-fund's net asset value, particularly if the Sub-fund's treatment of the corporate event differs from that of the Benchmark Index methodology.

- Legal risk

The Fund may be exposed to a legal risk arising from a total return swap (TRS) agreement as indicated in EU Regulation No. 2015/2365.

ELIGIBLE INVESTORS AND TYPICAL INVESTOR PROFILE

The Sub-fund is available to all investors.

Investors in this Sub-fund are seeking exposure to UK equity markets.

The amount that can be reasonably invested in the Sub-fund depends on each investor's personal situation. To determine this amount, investors must take into account their personal wealth and/or estate, their cash requirements currently and for the next five years, and their willingness to take on risk or their preference for more prudent investment. Investors are also advised to diversify their investments sufficiently so as not to be exposed solely to this Sub-fund's risks. All investors are therefore asked to consider their specific situation with the help of their usual investment advisor.

The recommended minimum investment period is at least five years.

CALCULATION AND APPROPRIATION OF DISTRIBUTABLE AMOUNTS

If a distribution is decided, the management company reserves the right to distribute distributable amounts one or more times a year and/or accumulate all or part of these amounts. Realized net capital gains will be accumulated.

DISTRIBUTION FREQUENCY

If a distribution is decided, the management company reserves the right to distribute distributable amounts in one or more distributions per annum.

SHARE CHARACTERISTICS

Subscription orders may be placed for a specific monetary amount or for a whole number of shares.
Only a whole number of shares may be redeemed.

SHARE CURRENCY

GBP

SUBSCRIPTION AND REDEMPTION

1/ Subscription and redemption on the primary market

Subscription/redemption requests for shares in the Sub-fund will be processed by the Depositary from 10:00 am and 5.00 pm (Paris time), every day that the Sub-fund's net asset value is to be published, provided that prices can be quoted for a significant proportion of the Benchmark Index components (hereinafter a "Primary Market Day"), and will be executed at the net asset value on that Primary Market Day, hereinafter the "reference NAV". Subscription/redemption requests

submitted after 5.00 pm (Paris time) on a Primary Market Day will be processed as if received from 10:00 am to 5.00 pm (Paris time) on the following Primary Market Day. Orders to subscribe for or redeem shares in the Sub-fund must be made for a whole number of shares that represents at least the GBP equivalent of 100,000 euros.

Subscriptions and redemptions in cash

Subscriptions and redemptions shall be made exclusively in cash and executed at the ref NAV.

Delivery and settlement

Settlement/delivery of subscriptions and redemptions shall be completed within five French business days upon receipt of the subscription or redemption order.

Date and frequency of net asset value calculation

The net asset value will be calculated and published daily, provided that at least one exchange on which the Sub-fund's shares are listed is open and that orders placed in the primary and secondary markets can be funded.

The Sub-fund's net asset value is calculated using the Benchmark Index's closing price. The Sub-fund's net asset value is denominated in EUR.

2 / PURCHASES AND SALES ON THE SECONDARY MARKET

A.common PROVISIONS

For any purchase or sale of shares in the Sub-fund executed directly on an exchange on which the Sub-fund is admitted or will be admitted for continuous trading, no minimum purchase or sale amount is required other than that which may be required by the relevant exchange(s).

Shares in a listed Sub-fund that are purchased on the secondary market cannot generally be directly sold back to that Sub-fund. Investors must therefore buy and sell their shares on a secondary market through an intermediary (e.g. a broker) and may consequently incur costs. Furthermore, there is a possibility that investors may pay more than the indicative net asset value when buying shares and receive less than the indicative net asset value when selling shares.

If the stock market value of a listed Sub-fund's shares differs significantly from its indicative net asset value, or if trading in the Sub-fund's shares is suspended, investors may be authorized, subject to the conditions set forth below, to redeem their shares on the primary market directly from the Sub-fund, without being subject to the minimum redemption amount requirement set forth herein in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)".

The management company shall decide whether to allow such primary market redemptions and for how long, on the basis of the following criteria for assessing the significance of a market disruption:

- The suspension or strong disturbance of secondary trading on a given exchange is relatively frequent
- The link between the market disruption and secondary market operators (such as the default of one or more of the Market Makers of a given exchange, or a breakdown or malfunction of an exchange's IT or operating systems), excluding a disruption caused by a source external to the secondary exchange on which the Sub-fund's shares are traded, such as an event that affects the liquidity and valuation of all or some of the Benchmark Index's components
- Any other objective circumstance that could adversely affect the fair treatment and/or the interests of the Sub-fund's share-holders.

Notwithstanding the provisions concerning fees presented in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)", redemptions made in the primary market in this case shall only be subject to a net redemption fee of 1% paid to the Sub-fund and which serves to cover its trading costs.

In such exceptional cases when redemption in the primary market is allowed, the Management Company shall post on Lyxor's website at www.lyxor.etf.com the procedure that investors must observe to redeem their shares in the primary market. The Management Company shall also make this procedure available to the market undertaking that handles trading in the Sub-fund's shares.

B. SPECIFIC PROVISIONS

- a) If the Sub-fund's shares are listed on Euronext Paris, as indicated in the "Key Information" part of the "General Characteristics" section of the Fund's prospectus, investors should note the following rule:

Negotiability of shares and information about the financial institutions acting as Market Makers

The shares are freely negotiable on the Euronext Paris regulated market under the following conditions and according to the applicable legal and regulatory provisions.

The Sub-fund shares will be listed on a specific trading list, the rules for which are defined in the following instructions published by Euronext Paris SA:

- Instruction No. 4-01 " Universal Trading Platform Manual"
- Appendix to Instruction N4-01 (Appendix to the Euronext Market Trading Manual)
- Instruction No. 6-04 "Documentation to be provided when filing a listing application for an ETF, ETN, ETV and open-ended undertakings for collective investment other than"

Pursuant to article D 214-22-1 of the French Monetary and Financial Code the units or shares of undertakings for collective investments in transferable securities may be admitted to trading, provided that these undertakings have a system to ensure that the market price of their units or shares does not differ significantly from their net asset value. Under Euronext Paris SA's rules trading in the Sub-fund's shares is also subject to a 'reservation threshold' of 1.5% above or below the Sub-fund's indicative net asset value or "iNAV" (see the "Indicative Net Asset Value" section), as published by Euronext Paris SA and updated on an estimated basis during trading in accordance with the change in the Benchmark Index.

To comply with Euronext Paris SA's reservation threshold (see the section entitled "Indicative net asset value") the Market Makers will ensure that the market price of the Sub-fund's shares does not differ from the Sub-fund's indicative Net Asset Value by more than 1.5%.

Euronext Paris SA may suspend trading in the Sub-fund's shares pursuant to the terms of its operating rules, if the aforementioned reservation threshold limit is exceeded.

Euronext Paris SA will also suspend trading in the Sub-fund's shares in the following cases:

- the Benchmark Index is no longer traded or calculated
- Euronext Paris SA cannot obtain the Benchmark Index's level
- Euronext Paris SA cannot obtain the Sub-fund's net asset value

In accordance with the terms and conditions governing admission to trading on Euronext Paris, the Market Makers undertake to provide market-making services for the Sub-fund's shares as soon as they are admitted to trading on the Euronext Paris exchange.

In particular, the Market Makers undertake to carry out market-making operations by maintaining a significant presence in the market, which initially entails the setting of a bid/ask spread.

More specifically, the Market Makers are required by contract with Euronext Paris SA to ensure that the Sub-fund maintains:

- a maximum global spread of 1.5% between the bid and offer price in the centralized order book.
- a minimum nominal trading value of EUR 100,000.

The obligations of the Sub-fund's Market Makers will be suspended in the following cases:

- the Benchmark Index is no longer traded or calculated
- if trading is substantially disrupted, for example due to a widespread shift in prices or an event that makes normal market making impossible.

Indicative Net Asset Value

Euronext Paris SA will calculate and publish, each Trading Day (as defined below) during trading hours, the Sub-fund's indicative net asset value (hereinafter "iNAV"). The iNAV is a measure of the intra-day value of the Sub-fund's net asset value based on the most recent data. The iNAV is not the value at which investors buy and sell shares in the Sub-fund on the secondary market.

A "**Trading Day**" is a day on which NYSE Euronext is normally open and on which the Benchmark Index is normally published.

The Sub-fund's iNAV is a theoretical net asset value calculated every 15 seconds by Euronext SA throughout the Paris trading day and is based on the level of the Benchmark Index. The iNAV enables investors to compare the prices that the Market Makers offer on the market with the theoretical value calculated by Euronext.

The iNAV will be calculated every day that the net asset value is calculated and published.

For the calculation of the Sub-fund's iNAV during the Paris trading session (from 9.05 am to 5.35 pm), Euronext Paris SA will use the Benchmark Index value published by Reuters.

If one or more stock exchanges on which the Benchmark Index's constituent equities are listed are closed (on a public holiday as indicated on the TARGET calendar) or if the EUR/USD exchange rate is unavailable and if the iNAV cannot be calculated, trading in the Sub-fund's shares may be suspended.

Lyxor International Asset Management, the Sub-fund's management company, will provide Euronext Paris SA with all the financial and accounting data it needs to calculate the Sub-fund's iNAV and in particular:

- The day's estimated net asset value
- The official net asset value of the previous business day
- The level of the Benchmark Index on the previous business day.

These data will serve as a basis for Euronext Paris SA's calculations to determine the Sub-fund's iNAV in real time every Trading Day.

Additional information about the indicative net asset value of a share listed on an exchange may, in accordance with the terms and limits set by the relevant market undertaking, be provided on this exchange's website. This information is also available on the Reuters or Bloomberg pages that specifically concern this share. Additional information about the Bloomberg and Reuters codes for the indicative net asset values of all UCIT ETF type shares is also available in the "Term Sheets" section of Lyxor's website at www.lyxoretf.com.

b) If the Sub-fund's shares are listed on an exchange other than Euronext Paris, as indicated in the "Key Information" section, investors should note the following

Investors wishing to acquire shares in the Sub-fund or obtain more information regarding the market-making terms that govern the listing and trading of shares on the types of exchanges indicated in the "Key Information" section are advised to familiarize themselves with the guidelines laid down by the relevant market undertaking, in compliance with local regulations, and to seek if necessary the assistance of their usual broker(s) for executing trades on the relevant exchange(s).

FEES AND CHARGES

SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)

The subscription and redemption fees shown below respectively increase the subscription price paid by the investor and decrease the redemption price received. Fees kept by the Sub-fund compensate it for the expenses it incurs in investing in the Sub-fund's assets or in divesting these assets. Any fees that are not kept by the Sub-fund are paid to the management company, marketing agent or other service provider.

Fees paid by investors upon subscription or redemption	Base	Maximum charge
Subscription fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per subscription order or 5% payable to third parties
Subscription fee kept by the Sub-fund	NAV per share x number of shares	N/A
Redemption fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per redemption order or 5% payable to third parties
Redemption fee kept by the Sub-fund	NAV per share x number of shares	N/A

OPERATIONAL AND MANAGEMENT FEES

These fees cover all the costs invoiced directly to the Sub-fund, except for transaction expenses, which include intermediary fees (brokerage, stock market taxes etc.) and any account activity charge that may be charged, for example, by the depositary or the management company. For this Sub-fund the following fees may be charged in addition to the operating and management fees (see table below):

- incentive fees, which the Sub-fund pays to the management company when the Sub-fund exceeds its objectives
- account activity charges charged to the Sub-fund.

For more information on the fees or expenses that the Sub-fund must pay, see the Statistics section of the Key Investor Information Document (KIID).

Fees charged to the Sub-fund	Base	Maximum charge
Investment management fees and administration fees that are external to the management company (auditor, depositary, fund distribution and legal fees) including tax ⁽¹⁾	Net asset value	0.35% per annum
Incentive fee	Net asset value	N/A
Account activity charge	Charge on each transaction	N/A

⁽¹⁾ Includes all fees and expenses except for transaction expenses, incentive fees and fees associated with investment in UCITS.

COMMERCIAL INFORMATION

Distribution of this prospectus and the offering or purchase of the Fund's share classes may be subject to restrictions with regard to certain persons or in certain countries under national regulations that may apply to these persons or countries. Investors are therefore responsible for ensuring that they can legally subscribe to or invest in this Fund. The information in this prospectus therefore cannot be construed to be an offer or solicitation to buy or sell shares in this Fund in a country where such offer or solicitation is unlawful.

The Fund's share classes will not be registered pursuant to the U.S. Securities Act of 1933, as amended (the "U.S. Securities Act") and cannot be offered, assigned, transferred or allocated to the United States of America, or to:

- (A) any "U.S. Person", as this term is defined (i) under Regulation S of the US Securities Act of 1933 and (ii) under U.S. regulations as defined in Section 7701 (a) (30) of the Internal Revenue Code of 1986 as amended. The Fund's shares will not be offered to U.S. Persons.
- (B) anyone other than those persons considered to be "non-US Persons" as this term is defined under U.S. regulations pursuant to the Commodity Futures Trading Commission, Rule 4.7 (a) (1) (iv).

The Fund's shares will only be offered for sale outside of the United States of America to non-U.S. Persons.

For the purpose of this document, the term "U.S. Person" shall mean, among other things, any individual who resides in the United States of America, any entity organized or formed under the laws of the United States of America, certain entities organized or formed outside of the United States of America by one or more U.S. persons, or any account held on behalf of such a U.S. person.

Under the German tax act on investment funds (InvStG-E), the Sub-fund is a "mutual fund" and must comply with the criteria that apply to "equity funds". As such, the Sub-fund will hold a basket of securities that are eligible for the equity ratio as this term is defined under said German tax act, and which will represent at least 94% of its net assets under normal market conditions. To ensure compliance with this ratio, the Sub-fund may adjust this basket of securities on a daily basis.

Before making an investment in this Fund or Sub-fund, investors should seek the advice of their financial, tax and legal advisers.

PLACE AND METHOD OF NET ASSET VALUE PUBLICATION OR COMMUNICATION

At the head office of LYXOR INTERNATIONAL ASSET MANAGEMENT, at 17, cours Valmy - 92987 Paris La Défense CEDEX - France.

The Sub-fund's net asset value will be calculated and published every Trading Day.

IMPORTANT INFORMATION ABOUT THE BENCHMARK INDEX PROVIDER

LYXOR FTSE 250 UCITS ETF is in no way sponsored, endorsed, sold or promoted by FTSE International Limited (hereinafter "FTSE"), London Stock Exchange Plc, The Financial Times Limited or Euronext N.V. or its subsidiaries (hereinafter "Euronext") (collectively referred to as the "Licensors"). The Licensors provide no warranty or guarantee and make no commitment, whether explicit or implied, as to the income to be obtained from using the FTSE 250™ index (hereinafter the "Index") and/or the level this Index may reach at any given time or date, or of any other type. The Index is calculated by or on behalf of FTSE or Euronext. The Licensors disclaim all liability (whether due to negligence or any other reason) for any error that may adversely affect the Index with respect to anyone whomsoever and shall not be obliged to inform anyone of such an error.
"FTSETM", "FT-SE®" and "Footsie®" are registered trademarks of the London Stock Exchange Plc and of The Financial Times Limited and are used under license by FTSE International Limited (hereinafter "FTSE"). "Eurofirst" is a joint trademark of FTSE and Euronext N.V.

ADDITIONAL INFORMATION

The Sub-fund's shares are approved for clearing by Euroclear France S.A.

Subscription and redemption orders are sent by the investors' financial intermediaries (members of Euroclear France SA) to the Depositary.

The Sub-fund's prospectus, the Key Investor Information Document, the most recent annual documents and the asset inventory will be sent to investors within eight business days upon receipt of a written request addressed to:

LYXOR INTERNATIONAL ASSET MANAGEMENT
17 Cours Valmy - 92987 Paris La Défense France.
E-mail: contact@lyxor.com

More information can also be requested from Lyxor International Asset Management on its website at www.lyxoretf.com.

Prospectus publication date: *See the "Publication Date" section*

Pursuant to Article L.533-22-1 of the French Monetary and Financial Code, information concerning the management company's possible inclusion of social, environmental and corporate governance objectives and performance criteria in the investment policy is available on the management company's website and in the Sub-fund's annual report.

The AMF's website (www.amf-france.org) provides more information on the regulatory documents and various provisions that concern investor protection. This Prospectus shall be made available to investors prior to subscription.

INVESTMENT RULES

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

The Sub-fund may invest in the assets specified in Article L214-20 of the French Monetary and Financial Code, subject to the risk-diversification and investment ratio requirements of Articles R214-21 to R214-27 of said Code.

Notwithstanding the 10% limit under Paragraph II of Article R214-21 of the French Monetary and Financial Code, the Sub-fund may invest up to 20% of its assets in the equities and debt securities of a single issuer, in compliance with Article R214-22-I, which deals with index-tracking funds. Pursuant to Article R214-22 II, the Sub-fund may also increase this 20% limit for a single issuer to 35%, when this is justified by exceptional market conditions, and in particular when certain securities are largely dominant.

OVERALL RISK EXPOSURE

The commitment approach is used to calculate the overall risk exposure.

ASSET VALUATION AND ACCOUNTING RULES

A. VALUATION RULES

The Sub-fund's assets are valued in accordance with applicable laws and regulations and most notably Regulation No. 2014-01 of 14 January 2014 of the Comité de la Réglementation Comptable (the Accounting Regulations Committee), which applies to the chart of accounts for undertakings for collective investment in transferable securities.

Financial instruments traded on a regulated market are valued at the closing price recorded on the day prior to the calculation of the net asset value. If these financial instruments are traded on several regulated markets at the same time, the closing price used is that recorded on the regulated market on which they are principally traded.

However, in the absence of significant trading on a regulated market, the following financial instruments are valued using the following methods:

- Negotiable debt securities ("NDS") with a remaining life upon acquisition that is less than or equal to three months are valued by applying the difference between the acquisition value and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life of more than three months upon acquisition but less than or equal to three months at the net asset value calculation date are valued by applying the difference between the most recent valuation and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life at the net asset value calculation date that exceeds three months are valued at their current value. The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- Financial futures traded on organized markets are valued at the clearing price on the day prior to the calculation of the net asset value. Options traded on organized markets are valued at their market price on the day prior to the calculation of the net asset value. Forward contracts and over-the-counter options are valued at the price quoted by the counterparty. The management company monitors these prices independently.
- Bank deposits are valued at their nominal value plus accrued interest.
- Warrants, short and medium-term notes (bons de caisse), promissory notes and mortgage notes are valued under the management company's responsibility at their most likely trading value.
- Securities financing transactions are valued at the market price.
- Units and shares in UCITS under French law are valued at the last known net asset value on the day the Sub-fund's net asset value is calculated.
- Units and shares in foreign investment funds are valued at the last known net asset value at the date the Sub-fund's net asset value is calculated.
- Financial instruments traded on a regulated market and for which no price has been quoted or whose price has been corrected, are valued under the management company's responsibility at their most likely trading value.
- The exchange rates used to value financial instruments denominated in a currency other than the Sub-fund's base currency are the WM Reuters fixing rates on the day the Sub-fund's net asset value is calculated.

B. ACCOUNTING METHOD FOR TRADING EXPENSES

Trading expenses are included in the initial cost of the transaction.

C. ACCOUNTING METHOD FOR INCOME FROM FIXED-INCOME SECURITIES

Income from fixed-income securities is accounted for using the cash-basis method.

D. DISTRIBUTION POLICY

For more information see the section entitled "Calculation and appropriation of Distributable amounts".

E. ACCOUNTING CURRENCY

The Sub-fund's accounts are kept in pounds sterling (GBP).

SUB-FUND NO. 4: LYXOR IBOXX \$ TREASURIES 10Y + (DR) UCITS ETF

A SICAV SUB-FUND COMPLIANT WITH DIRECTIVE 2009/65/CE

ISIN CODE

Dist share class: FR0010961003

Monthly Hedged to EUR – Dist share class: FR0013217718

CLASSIFICATION

International bonds and other debt securities.

The Lyxor iBoxx \$ Treasuries 10Y + (DR) UCITS ETF sub-fund (the “**Sub-fund**”) is continuously exposed to fixed-income securities denominated in other currencies than the euro (and possibly to fixed-income securities denominated in euros).

Exposure to equity risk does not exceed 10% of net assets.

The Sub-fund is a UCITS ETF type index tracker.

INCEPTION DATE

The Sub-fund was approved by l'autorité des Marchés Financiers (the French financial markets authority) on 5 November 2010 and was established on 10 November 2010

INVESTMENT OBJECTIVE

The Sub-fund's investment objective is to replicate the performance, whether positive or negative, of the Markit IboxxUSD Treasuries 10+ Mid Price TCAindex (the “**Benchmark Index**”), denominated in US dollars (USD) and representative of United States “Treasury bonds” with maturities exceeding 10 years, while minimizing the tracking error between the Sub-fund's performance and that of its Benchmark Index.

For Monthly Hedged to EUR – Dist shares exclusively, the Sub-fund will also use a monthly currency hedging strategy to reduce the impact of a change in the euro exchange rate vis-à-vis the currency of each Benchmark Index component

The expected tracking error, monitored ex-post under normal market conditions is 0.10%.

BENCHMARK INDEX

The sub-fund's benchmark index is the Markit Iboxx USD Treasuries 10+ Mid Price TCA index.

The Benchmark Index is a “Total Return” type index (i.e. all coupons detached by the index constituents are reinvested in the Benchmark Index..

The Benchmark Index represents US Treasury bonds with a maturity above 10 years, from the Markit Iboxx USD Index family of indices, the index for the main segments of the USD denominated bond market.

The Benchmark Index is compiled, administered and managed by Markit.

As at 31 August 2010, the price of each bond included in the index is supplied by the following 10 leading financial institutions: Barclays Capital, BNP Paribas, Deutsche Bank, Dresdner Kleinwort, Goldman Sachs, HSBC, JP Morgan, Morgan Stanley, the Royal Bank of Scotland and UBS.

The Markit methodology and calculation method are based on a variable number of companies making up the Benchmark Index. At 24/08/2010 the Benchmark Index comprised 35 constituents.

The complete Benchmark Index methodology is available on the Internet at <https://ihsmarkit.com/products/iboxx.html>.

The performance tracked is that of the Benchmark Index's closing price.

A full description of the Benchmark Index and its construction methodology and information on the composition and respective weightings of the Benchmark Index components are available on the Internet at <https://ihsmarkit.com/products/iboxx.html>.

Methodology

The Benchmark Index is calculated at the end of each index trading day, at 3 pm New York time.

The Benchmark Index is calculated from the iBoxx prices consolidated on each Benchmark Index trading day, pursuant to the calendar for iBoxx USD indices calculation, which is compliant with the recommendations of the Bond Market Association (BMA).

The Benchmark Index is calculated every trading day in accordance with BMA recommendations and on the last calendar day of each month.

On each price consolidation day, the end-of-day buy and sell prices are received by the banks which participate in the Markit iBoxx USD indices and the Benchmark Index is calculated. The Benchmark Index data is published and disseminated approximately 2 hours after these prices are contributed.

Benchmark Index publication

The Benchmark Index available in real time through Reuters and Bloomberg.

Reuters code: .IBXXABXJ

Bloomberg code: IBXXABXJ

The Benchmark Index's closing price is available on the Internet at <https://ihsmarkit.com/products/iboxx.html>.

Pursuant to Article 52 of European Parliament and Council Regulation 2016/1011 of 8 June 2016, FTSE, the administrator of the FTSE ALL SHARE™ benchmark index, has until 1 January 2020 to apply for approval or registration as applicable.

As of the date of the most recent version of this prospectus, the benchmark index administrator was not yet listed in ESMA's register of benchmark administrators.

Pursuant to European Parliament and Council Regulation 2016/1011 of 8 June 2016, the asset management company has a procedure for monitoring the benchmark indices used that specifies the measures to be implemented if an index is substantially modified or is no longer provided.

Benchmark Index composition and revision

The Benchmark Index's composition is revised monthly.

The frequency with which the Benchmark Index is rebalanced does not affect the cost of implementing the Investment Strategy.

A full description and the complete methodology used to construct the Benchmark Index and information on the composition and respective weightings of the Benchmark Index components are available on Markit iBoxx Limited website at www.markit.com/indices.

INVESTMENT STRATEGY

1.Strategy employed

The Sub-fund will comply with the investment rules of European Directive 2009/65/EC of 13 July 2009.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund will use a direct replication method, which means that it will invest mainly in the Benchmark Index's constituents.

In order to optimise the direct replication method that is used to track the Benchmark Index, the Sub-fund, represented by its delegated asset manager, may decide to employ a "sampling" technique that consists in investing in a selection of representative Benchmark Index constituents in order to reduce the costs of investing directly in all of the various Benchmark Index constituents. This sampling technique could cause the Sub-fund to invest in a selection of representative Benchmark Index securities (and not in all of them) in proportions that do not reflect their weight within the Benchmark Index, and even to invest in securities that are not constituents of the Benchmark Index.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund may also, on an ancillary basis, engage in transactions involving derivative financial instruments (DFI). These transactions could for example be futures contracts on indices and/or swaps for hedging purposes and in particular to minimise the Sub-fund's tracking error.

To ensure transparency on the use of the direct index replication method (i.e. either full replication of the Benchmark Index or sampling to limit replication costs) and on its consequences in terms of the assets in the Sub-fund's portfolio, information on the updated composition of the basket of 'balance sheet' assets in the Sub-fund's portfolio is available on the page dedicated to the Sub-fund accessible on Lyxor's website at www.lyxoretf.com. The frequency of any updates and/or the date on which the aforementioned information is updated is also indicated on the same page of the aforementioned website.

Up to 20% of the Sub-fund's assets may be exposed to debt issued by a given OECD country. This 20% limit can be increased to 35% for a single bond, when this is justified by exceptional market conditions and in particular when certain securities are largely dominant, or a debt issue is highly volatile, or a political and/or economic event has affected or may affect the estimated debt of an issuing country or its credit rating, or in any other event that is likely to affect the liquidity of a Benchmark Index security.

Notwithstanding the above, securities guaranteed or issued by a given issuer can account for up to 35% of assets and up to 100% if the Sub-fund holds at least six issues of which none exceeds 30% of assets, provided that these securities are financial instruments issued or guaranteed by an OECD member state, the local authorities of a European Union member state or a country that is a member of the European Economic Area.

Sub-fund's targeted interest-rate sensitivity	from 9 to 25
Currencies in which the Sub-fund's securities are denominated	Euros: from 0 to 10% of net assets Other: from 0 to 100% of net assets
Foreign exchange risk to which the Sub-fund is exposed	0% maximum of net assets.
Geographic regions of the issuers of the securities to which the Sub-fund is exposed	United States of America: from 0 to 100% of net assets Emerging countries: 0% of net assets

The manager currently intends to invest mainly in the assets indicated below.

2.Balance sheet assets (excluding embedded derivatives)

The Sub-fund may hold financial instruments of any kind, in compliance with regulatory ratios.

The Sub-fund will mainly be invested in the bonds that make up the Benchmark Index.

Investment in undertakings for collective investment in transferrable securities ("UCITS") that comply with Directive 2009/65/EC is limited to 10% of the Sub-fund's net assets.

The fund manager will not invest in the shares or units of alternative investment funds (AIF) or other investment funds that were formed under a foreign law. The Sub-fund may invest in the shares of UCITS managed by the management company or by a company that is related to the management company.

To optimize the Sub-fund's management and achieve its investment objective, the asset manager by delegation reserves the right to use other financial instruments, in compliance with regulations.

3.Off-balance sheet assets (derivatives)

On an ancillary basis, the Sub-fund may engage in transactions involving derivatives traded on a regulated market or over the counter.

If over-the-counter derivatives are used, in accordance with its best-execution policy the management company considers that Société Générale would be the counterparty that would generally provide the best possible execution for any hedging transactions the Sub-fund may enter into pursuant to its investment strategy. Accordingly, all or some of these derivative financial instruments may be traded via Société Générale without having to seek a competitive bid from another counterparty.

4.Securities with embedded derivatives

N/A.

5.Cash deposits

In order to optimize its cash management, the Sub-fund may deposit up to 20% of its assets in the form of cash with credit institutions that belong to the same group as the depositary.

6.Cash borrowing

The Sub-fund may temporarily borrow up to 10% of its net assets.

7.Securities financing transactions

Pursuant to its investment strategy, the Sub-fund may use various efficient portfolio management techniques in compliance with Article R214-18 of the French Monetary and Financial Code, including the temporary sale of securities.

- Maximum proportion of assets under management for which securities financing transactions may be entered into: 20% of the Sub-fund's assets.
- Expected proportion of assets under management for which securities financing transactions may be entered into: 0% of the Sub-fund's assets.

For this purpose the management company may appoint an intermediary (hereinafter the “**Agent**”) to provide the following services in connection with the Sub-fund’s temporary disposals of securities. If such an Agent is used it may be authorised to (i) lend securities, on the Sub-fund’s behalf, under framework agreements, such as global master securities lending agreements (GMSLA) and/or any other internationally recognised framework agreement, and (ii) invest, on the Sub-fund’s behalf, any liquid assets received as collateral for these securities lending transactions, subject to the restrictions specified in the securities lending agreement, the rules of this prospectus and the applicable regulations.

The Sub-fund shall be entitled to all income from securities financing transactions, net of any direct and indirect operating costs.

These operating costs, which are incurred to manage the portfolio more efficiently, may be borne by the Sub-fund’s management company, the Agent and/or other intermediaries that are involved in these transactions.

These direct and indirect operating costs will be calculated as a percentage of the Sub-fund’s gross income. Information on direct and indirect operating expenses and on the entities to which these expenses are paid will be provided in the Sub-fund’s annual report.

All income obtained from the lending of securities (from which must be deducted all direct and indirect operating costs borne by the Agent and if applicable by the management company) shall be paid to the relevant Sub-fund. Since these direct and indirect costs do not increase the Sub-fund’s overall operating expenses they have been excluded from ongoing expenses.

If necessary, the Sub-fund’s annual report will provide the following information:

- the risk exposure resulting from efficient portfolio management transactions;
- the identity of the counterparty(ies) to these efficient portfolio management transactions;
- the nature and amount of any collateral received to reduce the Sub-fund’s counterparty risk, and;
- the income obtained from efficient portfolio management transactions during the relevant period and the direct and indirect operating costs associated with these transactions.

8.Collateral

Whenever the investment strategy exposes to the Sub-fund to counterparty risk, and in particular when the Sub-fund uses over-the-counter swaps, the Sub-fund may accept eligible securities as collateral to reduce the counterparty risk associated with these swaps. The portfolio of collateral received may be adjusted daily to ensure that its value is at least sufficient to cover the Sub-fund’s counterparty risk in most cases. The purpose of this adjustment is to neutralize the Sub-fund’s counterparty risk.

The Sub-fund will have full title to all collateral received, which will be deposited in the Sub-fund’s account with the depositary. This collateral will therefore be included in the Sub-fund’s assets. If a counterparty defaults on an obligation, the Sub-fund may dispose of the assets received from the counterparty in respect of the secured transaction to pay off the counterparty’s debt to the Sub-fund.

All collateral the Sub-fund receives for this purpose must comply with the applicable laws and regulations, with respect in particular to the liquidity and valuation of the collateral, the credit-worthiness of securities issuers, risk exposure correlation and the risks of collateral management and enforceability. More specifically, all collateral received must meet the following conditions:

- (a) all collateral must be of high quality, be highly liquid and tradable on a regulated market or on a multilateral trading facility, with transparent pricing to enable the collateral to be rapidly sold near its estimated price
- (b) this collateral must be valued at its mark-to-market price at least daily and must not include assets with highly volatile prices unless a sufficiently prudent discount is applied to such assets
- (c) this collateral must be issued by an entity that is independent from the counterparty and must not be highly correlated with the counterparty’s financial performance
- (d) this collateral must be sufficiently diversified by country, market and issuer, and no exposure to a single issuer may exceed 20 % of the Sub-fund’s net asset value
- (e) The Sub-fund’s Management Company must be able to enforce this collateral in full and at any time, without having to consult with the counterparty or obtain its approval.

Notwithstanding the condition specified in (d) above, the Fund may accept a basket of securities collateral that increases its exposure to a single issuer to more than 20% of its net asset value provided that:

- such securities collateral is issued by (i) a Member State, (ii) one or more of a Member State’s local authorities, (iii) a country that is not a Member State (iv) a public international organization to which one or more Member States belong; and
- such securities collateral consists of at least six different issues of securities of which no single issue exceeds 30% of the Sub-fund’s assets.

Subject to the above conditions, the Sub-Fund may take collateral in the following forms:

- (i) cash and cash-equivalent assets, which for example include short-term bank deposits and balances and money-market instruments
- (ii) bonds issued or guaranteed by an OECD member state, by the local authorities of an OECD member state, by a supranational institution or organization of a community, regional or global nature, or by any other country provided that the conditions specified in points (a) to (e) inclusive above are fully complied with
- (iii) shares or units issued by money-market funds that calculate a daily net asset value and have an AAA or equivalent credit rating
- (iv) shares or units issued by UCITS that invest mainly in the bonds or shares indicated at points (v) and (vi) below
- (v) bonds issued or guaranteed by top-rated issuers that offer sufficient liquidity
- (vi) shares admitted for trading or traded on a regulated market of an EU member state, on a securities exchange of an OECD member state, or on a securities exchange of a non-OECD country provided that the conditions of points (a) to (e) above are fully met and that these shares are a component of a leading stock index.

Non-cash collateral will not be sold, reinvested or pledged.

At the manager's discretion, cash collateral may either be:

- (i) deposited with an authorized institution
- (ii) invested in high-quality government bonds
- (iii) used for reverse repurchase transactions, provided that these are entered into with credit institutions that are subject to prudential supervision and that the fund is able to withdraw the total amount of its cash collateral and the accrued interest at any time
- (iv) invested in short-term money market funds that meet the guidelines for a common EU definition of money market funds.

All cash collateral that is reinvested must be invested in a diversified manner in compliance with the rules that apply to the acceptance of non-cash collateral.

Discounting policy:

The Sub-fund's management company shall apply a discount to the collateral accepted by the Sub-fund for securities lending and repo transactions. The amount of this discount will depend on the following criteria:

- The type of asset provided as collateral
- The maturity of the asset provided as collateral (if relevant)
- The credit rating of the issuer of the asset provided as collateral (if relevant)

A higher discount may be applied to collateral received in a currency other than the euro.

Reinvestment of collateral:

Non-cash collateral will not be sold, reinvested or pledged.

Cash collateral may, at the manager's discretion, be:

- (i) deposited with an authorized institution
- (ii) invested in high-quality government bonds
- (iii) used for reverse repurchase transactions, provided that these are entered into with credit institutions that are subject to prudential supervision and that the fund may recover the full cash amount at any time with accrued interest
- (iv) invested in short-term money-market funds as defined in the guidelines for a common definition of European money-market funds.

All cash collateral that is reinvested must be invested in a diversified manner in compliance with the rules that apply to the acceptance of non-cash collateral.

RISK PROFILE

Investors' money will be invested mainly in the financial instruments selected by the asset manager. These instruments are subject to market trends and contingencies.

Investors in the Sub-fund will mainly be exposed to the following risks:

Interest rate risk

The price of a bond can be affected by unexpected changes in the level of interest rates, which in particular may modify the shape of the yield curve in particular. The bonds that make up the Benchmark Index are exposed to changes in interest rates. In general, the price of a bond rises when interest rates fall, and falls when interest rates rise.

Capital risk

The capital invested is not guaranteed. Investors therefore may not recover all or part of their initial investment, particularly in the event that the Benchmark Index posts a negative return over the investment period.

Credit risk

The Sub-fund could be adversely affected by a lowering of the credit rating of one or more issuers of a bond in the Benchmark Index. This could mean a higher risk that such an issuer might default and could decrease the bond's value.

Benchmark Index tracking risk

Replicating the performance of the Benchmark Index by investing in all of its constituents may prove to be very difficult to implement and costly. The Sub-fund manager may therefore use various optimisation techniques, such as 'sampling', which consists in investing in a selection of representative securities (and not all securities) that constitute the Benchmark Index, in proportions that differ from those of the Benchmark Index or even investing in securities that are not index constituents and derivatives. The use of such optimization techniques may increase the ex post tracking error and cause the Sub-fund to perform differently from that Benchmark Index.

Liquidity risk (primary market)

The Sub-fund's liquidity and/or value may be negatively affected if, when the Sub-fund (or one of its counterparties in a financial derivatives transaction) is rebalancing its exposure, the markets linked to this exposure are limited, closed, or subject to wide bid/offer spreads. An inability, due to low trading volumes, to execute trades associated with the replication of the Benchmark Index may also adversely affect share subscription, conversion and redemptions.

Liquidity risk (secondary market)

The price of the Sub-fund's listed shares may deviate from the Sub-fund's indicative net asset value. The liquidity of shares or units traded on a given exchange may be adversely affected by a suspension in trading for various reasons, for example:

- i) the calculation of the Benchmark Index is suspended or stopped
- ii) the market(s) in the Benchmark Index's underlying assets is (are) suspended
- iii) an exchange cannot obtain or calculate the Sub-fund's indicative net asset value
- iv) a market maker fails to comply with an exchange's rules
- v) an exchange's IT, electronic or other system fails.

Counterparty risk

The Sub-fund may use derivative financial instruments (DFI) on an ancillary basis. In this case, the Sub-fund will be exposed to the risk that a counterparty with which the Sub-fund has entered into a contract or transaction may go bankrupt or default on a settlement or other obligation. The Sub-fund will in particular be exposed to counterparty risk resulting from the use of derivative financial instruments (DFI) traded over the counter. In compliance with UCITS regulations, exposure to counterparty risk cannot exceed 10% of the Sub-fund's total assets per counterparty.

When Société Générale is the counterparty for an DFI transaction and/or a temporary securities transaction, conflicts of interest may arise between it and the Sub-fund's management company, which has procedures to identify and reduce such conflicts of interest and to resolve them equitably if necessary.

Risk arising from securities financing transactions

If a borrower of securities defaults on its obligation there could be a risk that the value of the collateral received by the Sub-fund is less than the value of the securities lent. This risk could arise, for example, in the event of (i) an inaccurate valuation of the securities lent and/or (ii) unfavourable market movements and/or (iii) the lowering of the credit rating(s) of the issuer(s) of securities taken as collateral and/or (iv) the illiquidity of the market in which the collateral received is listed. If cash collateral is reinvested this could (i) result in leverage that entails a risk of loss and volatility and/or (ii) expose the Sub-fund to a market that is inappropriate for its investment objective, and/or (iii) generate less income than the amount of collateral the Sub-fund must repay. The Sub-fund could also fail to receive the securities lent by the date specified, which would diminish its capacity to accommodate investor redemptions.

Risk that the investment objective may not be fully achieved

There is no guarantee that the investment objective will be achieved, as no asset or financial instrument can ensure that the Benchmark Index will be automatically and continuously replicated, particularly in the event of one or more of the following risks:

- Risk due to a change in the tax regime

A change in the tax regime of a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed could adversely affect the taxation of investors. In such an event, the Sub-fund manager shall not be liable to any investor with respect to any payment that may have to be made to a competent tax authority.

- Risk of a change in the taxation of the Sub-fund's underlying assets

A change in the taxation of the Sub-fund's underlying assets could adversely affect the taxation of the Sub-fund. In such an event a discrepancy between the estimated taxation and the actual taxation of the Sub-fund and/or of the Sub-fund's DFI counterparty may adversely affect the Sub-fund's net asset value.

- Regulatory risk affecting the Sub-fund

In the event of a change in the regulatory regime in a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed, the subscription, conversion or redemption of shares or units may be adversely affected.

- Regulatory risk affecting the Sub-fund's underlying assets

In the event of a change in the regulations that govern the Sub-fund's underlying assets, the Sub-fund's net asset value and the subscription, conversion or redemption of shares or units may be adversely affected.

- Benchmark Index disruption risk

If an event adversely affects the Benchmark Index, the Sub-fund manager may be required, as provided for by law, to suspend the subscription and redemption of the Sub-fund's shares or units. The calculation of the Sub-fund's net asset value could also be adversely affected.

If the disruption of the Benchmark Index persists, the Sub-fund manager will determine an appropriate course of action, which could decrease the Sub-fund's net asset value.

A 'Benchmark Index event' includes but is not limited to the following situations:

- i) the Benchmark Index is deemed to be inaccurate or does not reflect actual market developments
- ii) the Benchmark Index is permanently cancelled by the index provider
- iii) the index provider is unable to indicate the level or value of the Benchmark Index
- iv) The index provider makes a material change in the Benchmark Index calculation formula or method (other than a minor modification such as an adjustment to the Benchmark Index's underlying components or their respective weightings) which the Sub-fund cannot effectively replicate at a reasonable cost.
- v) a Benchmark Index component becomes illiquid because it is no longer traded on a regulated market or because its trading over-the-counter (e.g. bonds) is disrupted
- vi) the Benchmark Index components are exposed to higher transaction costs for execution or settlement/delivery, or to specific tax constraints and these costs are not reflected in the Benchmark Index's performance.

- Corporate action risk

An unforeseen change, by the issuer of a security that is a component of the Benchmark Index, in a planned corporate action that is in contradiction with a previous official announcement on which the Sub-fund based its valuation of the corporate action (and/or on which the Sub-fund's counterparty to a financial derivative instrument or transaction based its valuation of the corporate action) can adversely affect the Sub-fund's net asset value, particularly if the Sub-fund's treatment of the corporate event differs from that of the Benchmark Index methodology.

- Risk of using derivative financial instruments

The Sub-fund can enter into transactions involving derivative financial instruments (DFI) traded over the counter or on a regulated exchange, such as swaps. These DFI involve various risks, such as counterparty risk, hedging disruption, Benchmark Index disruption, taxation risk, regulatory risk, operational risk and liquidity risk. These risks can materially affect an DFI and may require an adjustment of the DFI transaction or even its premature termination, which could adversely affect the Sub-fund's net asset value.

- Currency hedging risk on the Monthly Hedged to EUR – Dist share class:

In order to hedge the EUR/USD currency risk of the Monthly Hedged to EUR – Dist share class, the Sub-fund employs a hedging strategy that enables it to reduce the impact of a change in the exchange rate between the currency of the Benchmark Index and the currency of the share class. Given the monthly implementation of this hedging and its imperfect nature, the Monthly Hedged to EUR - Dist share class may be exposed to adverse market movements and costs that reduce the net asset value of these shares.

- Legal risk

The Fund may be exposed to a legal risk arising from a total return swap (TRS) agreement as indicated in EU Regulation No. 2015/2365.

ELIGIBLE INVESTORS AND TYPICAL INVESTOR PROFILE

The Sub-fund is available to all investors.

Investors in this Sub-fund are seeking exposure to the performance, whether positive or negative, of the main segments of the long-term bond market denominated in USD.

The amount that can be reasonably invested in the Sub-fund depends on each investor's personal situation. To determine this amount, investors must take into account their personal wealth and/or estate, their cash requirements currently and for the next five years, and their willingness to take on risk or their preference for more prudent investment. Investors are also advised to diversify their investments sufficiently so as not to be exposed solely to this Sub-fund's risks.

All investors are therefore asked to consider their specific situation with the help of their usual investment advisor.

The recommended minimum investment period is at least three years.

CALCULATION AND APPROPRIATION OF DISTRIBUTABLE AMOUNTS

Dist and Monthly Hedged to EUR – Dist share classes: The Board of Directors reserves the right to distribute distributable amounts one or more times a year and/or accumulate all or part of these amounts.

DISTRIBUTION FREQUENCY

Dist and Monthly Hedged to EUR – Dist share classes: If a distribution is decided, the Board of Directors reserves the right to distribute all or part of the distributable amounts in one or more distributions per annum.

SHARE CHARACTERISTICS

Subscription orders may be placed for a monetary amount or for a number of shares.

A whole number of shares must be redeemed

CURRENCY

Currency	Dist	Monthly Hedged to EUR - Dist
	US Dollar	Euro

SUBSCRIPTION AND REDEMPTION

1. SUBSCRIPTION AND REDEMPTION ON THE PRIMARY MARKET

Subscription/redemption requests for shares in the Sub-fund will be processed by the Depositary from 10:00 am and 5.00 pm (Paris time), every day that the Sub-fund's net asset value is to be published, provided that prices can be quoted for a significant proportion of the Benchmark Index components (hereinafter a "Primary Market Day"), and will be executed at the net asset value on that Primary Market Day, hereinafter the "reference NAV". Subscription/redemption orders submitted after 5.00 pm (Paris time) on a Primary Market Day will be processed as if received from 10:00 am to 5.00 pm (Paris time) on the following Primary Market Day. Orders to subscribe for or redeem shares in the Sub-fund must be made for a whole number of shares that represents at least the USD equivalent of 100,000 euros.

Subscriptions and redemptions in cash

Subscriptions and redemptions shall be made exclusively in cash and executed at theReferenceNAV.

Delivery and settlement

Settlement/delivery of subscriptions and redemptions shall be completed within five French business days upon receipt of the subscription or redemption order.

Date and frequency of net asset value calculation

The net asset value will be calculated and published daily, provided that at least one exchange on which the Sub-fund's shares are listed is open and that orders placed in the primary and secondary markets can be funded.

The Sub-fund's net asset value is calculated using the Benchmark Index's closing price.

The net asset value of a share class that is denominated in another currency than the Sub-fund's accounting currency (if applicable) is calculated using the exchange rate between the accounting currency and the currency of the share class, at the applicable WM Reuters rate on the date the reference NAV is calculated.

2. PURCHASES AND SALES ON THE SECONDARY MARKET

A. COMMON PROVISIONS

For any purchase or sale of shares in the Sub-fund executed directly on an exchange on which the Sub-fund is admitted or will be admitted for continuous trading, no minimum purchase or sale amount is required other than that which may be required by the relevant exchange(s).

Shares in a listed Sub-fund that are purchased on the secondary market cannot generally be directly sold back to that Sub-fund. Investors must therefore buy and sell their shares on a secondary market through an intermediary (e.g. a broker) and may consequently incur costs. Furthermore, there is a possibility that investors may pay more than the indicative net asset value when buying shares and receive less than the indicative net asset value when selling shares.

If the stock market value of a listed fund's shares or units differs significantly from their indicative net asset value, or if trading in the fund's shares or units is suspended, investors may be authorized, subject to the conditions set forth below, to redeem their shares or units in the primary market directly from the fund, without being subject to the minimum redemption amount requirement set forth herein in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)".

The management company shall decide whether to allow such primary market redemptions and for how long, on the basis of the following criteria for assessing the significance of a market disruption:

- The suspension or strong disturbance of secondary trading on a given exchange is relatively frequent
- The link between the market disruption and secondary market operators (such as the default of one or more of the Market Makers of a given exchange, or a breakdown or malfunction of an exchange's IT or operating systems), excluding a disruption caused by a source external to the secondary exchange on which the Sub-fund's shares are traded, such as an event that affects the liquidity and valuation of all or some of the Benchmark Index's components
- Any other objective circumstance that could adversely affect the fair treatment and/or the interests of the Sub-fund's share-holders.

Redemptions made in the primary market in this case shall only be subject to a redemption fee paid to the Sub-fund and which serves to cover its trading costs. The redemption fee that is not kept by the Sub-fund will normally not be charged.

In such exceptional cases when redemption in the primary market is allowed, the Management Company shall post on Lyxor's website at www.lyxor.etf.com the procedure that investors must observe to redeem their shares or units in the primary market. The Management Company shall also make this procedure available to the market undertaking that handles trading in the Sub-fund's shares.

B SPECIFIC PROVISIONS

a) If the Sub-fund's shares are listed on Euronext Paris, as indicated in the "Key Information" section, investors should note the following rules

Negotiability of shares and information about the financial institutions acting as Market Makers:

The shares are freely negotiable on the Euronext Paris regulated market under the following conditions and according to the applicable legal and regulatory provisions.

The Sub-fund shares will be listed on a specific trading list, the rules for which are defined in the following instructions published by Euronext Paris SA:

- Instruction No. 4-01 "Universal Trading Platform Manual"
- Appendix to Instruction N4-01 (Appendix to the Euronext Market Trading Manual)
- Instruction No. 6-04 "Documentation to be provided when filing a listing application for an ETF, ETN, ETV and open-ended undertakings for collective investment other than ETFs"

Pursuant to article D 214-22-1 of the French Monetary and Financial Code the units or shares of undertakings for collective investments in transferable securities may be admitted to trading, provided that these undertakings have a system to ensure that the market price of their units or shares does not differ significantly from their net asset value. Under Euronext Paris SA's rules trading in the Sub-fund's shares is also subject to a 'reservation threshold' of 1.5% above or below the Sub-fund's indicative net asset value or "iNAV" (see the "Indicative Net Asset Value" section), as published by Euronext Paris SA and updated on an estimated basis during trading in accordance with the change in the Benchmark Index.

To comply with Euronext Paris SA's reservation threshold requirement (see the section entitled "Indicative Net Asset Value") the Market Makers will ensure that the market price of the Sub-fund's shares does not differ from the Sub-fund's indicative Net Asset Value by more than 1.5%.

Euronext Paris SA may suspend trading in the Sub-fund's shares pursuant to the terms of its operating rules, if the aforementioned reservation threshold limit is exceeded.

Euronext Paris SA will also suspend trading in the Sub-fund's shares in the following cases:

- the Benchmark Index is no longer traded or calculated
- Euronext Paris SA cannot obtain the Benchmark Index's level
- Euronext Paris SA cannot obtain the Sub-fund's net asset value

In accordance with the terms and conditions governing admission to trading on Euronext Paris, the Market Makers undertake to provide market-making services for the Sub-fund's shares as soon as they are admitted to trading on the Euronext Paris exchange.

In particular, the Market Makers undertake to carry out market-making operations by maintaining a significant presence in the market, which initially entails the setting of a bid/ask spread.

More specifically, the Market Makers are required by contract with Euronext Paris SA to ensure that the Sub-fund maintains:

- a maximum global spread of 1.5% between the bid and offer price in the centralized order book.
- a minimum nominal trading value of EUR 100,000.

The obligations of the Sub-fund's Market Makers will be suspended in the following cases:

- the Benchmark Index is no longer traded or calculated
- if trading is substantially disrupted, for example due to a widespread shift in prices or an event that makes normal market making impossible.

Indicative Net Asset Value

Euronext Paris SA will calculate and publish, each Trading Day (as defined below) during trading hours, the Sub-fund's indicative net asset value (hereinafter "iNAV"). The iNAV is a measure of the intra-day value of the Sub-fund's net asset value based on the most recent data. The iNAV is not the value at which investors buy and sell shares in the Sub-fund on the secondary market.

A "Trading Day" is a day on which NYSE Euronext is normally open and on which the Benchmark Index is normally published.

The iNAV will be calculated every day that the net asset value is calculated and published.

For the calculation of the Sub-fund's iNAV during the Paris trading session (from 9.05 am to 5.35 pm), Euronext Paris SA will use the Benchmark Index value provided by Reuters.

The market prices of the bonds comprising the Benchmark Index and used to calculate the value of the Benchmark Index, and therefore to determine the iNAV, are provided to Reuters via the iBoxx platform.

If the iBoxx platform is closed (on a public holiday pursuant to the TARGET calendar) the iNAV cannot be calculated and trading in the Sub-fund's shares may be suspended.

Lyxor International Asset Management, the Sub-fund's management company, will provide Euronext Paris SA with all the financial and accounting data it needs to calculate the Sub-fund's iNAV and in particular:

- The day's estimated net asset value
- The official net asset value of the previous business day
- The level of the Benchmark Index on the previous business day.

These data will serve as a basis for Euronext Paris SA's calculations to determine the Sub-fund's iNAV in real time the following Trading Day.

Additional information about the indicative net asset value of a share listed on a regulated market may, in accordance with the terms and limits set by the relevant market undertaking, be provided on the website of the regulated market where the share is listed. This information is also available on the Reuters or Bloomberg pages dedicated to the share. Additional information about the Bloomberg and Reuters codes for the indicative net asset values of all UCITS ETF type share classes is also available in the "Term Sheets" section of Lyxor's website at www.lyxoretf.com.

- b) If the Sub-fund's shares are listed on an exchange other than Euronext Paris, as indicated in the "Key Information" section, investors should note the following

Investors wishing to acquire shares in the Sub-fund or obtain more information regarding the market-making terms that govern the listing and trading of shares on the types of exchanges indicated in the "Key Information" section are advised to familiarize themselves with the guidelines laid down by the relevant market undertaking, in compliance with local regulations, and to seek if necessary the assistance of their usual broker(s) for executing trades on the relevant exchange(s).

FEES AND CHARGES

SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)

The subscription and redemption fees shown below respectively increase the subscription price paid by the investor and decrease the redemption price received. Fees kept by the Sub-fund compensate it for the expenses it incurs in investing in the Sub-fund's assets or in divesting these assets. Any fees that are not kept by the Sub-fund are paid to the asset manager, the marketing agent or other service provider.

Fees paid by investors upon subscription or redemption	Base	Maximum charge
Subscription fee not kept by the Sub-fund	NAV per share × number of shares	The higher of the USD equivalent of 50,000 euros per subscription request or 5%, payable to third parties
Subscription fee kept by the Sub-fund	NAV per share × number of shares	0.10%
Redemption fee not kept by the Sub-fund	NAV per share × number of shares	The higher of the USD equivalent of 50,000 euros per redemption request or 5%, payable to third parties
Redemption fee kept by the Sub-fund	NAV per share × number of shares	0.10%

OPERATIONAL AND MANAGEMENT FEES

These fees cover all the costs invoiced directly to the Sub-fund, except for transaction expenses, which include intermediary fees (brokerage, stock market taxes, etc.) and any account activity charge that may be charged, for example, by the depositary or the management company.

For this Sub-fund the following fees may be charged in addition to the operating and management fees (see table below):

- incentive fees, which the Sub-fund pays to the management company when the Sub-fund exceeds its objectives
- account activity charges charged to the Sub-fund.

For more information on the fees or expenses that the Sub-fund must pay, see the Statistics section of the Key Investor Information Document (KIID).

Fees charged to the Sub-fund	Base	Maximum charge for Dist shares	Maximum charge for Monthly Hedged to EUR – Dist shares

Investment management fees and administration fees that are external to the management company (auditor, depositary, fund distribution and legal fees) including tax ⁽¹⁾	Net asset value	0.07% per annum	0.15% per annum
Incentive fee	Net asset value	N/A	
Account activity charge	Charge on each transaction	N/A	
Cost of temporary purchases and disposals of securities	The amount of the transaction	35% of the income obtained from these transactions	

⁽¹⁾ Includes all fees and expenses except for transaction expenses, incentive fees and fees associated with investment in UCITS.

COMMERCIAL INFORMATION

Distribution of this prospectus, or of an offer for or purchase of the Fund's share classes may be subject to restrictions with regard to certain persons or in certain countries, pursuant to the national regulations that may apply to these persons or countries.

Investors are therefore responsible for ensuring that they are authorized to subscribe to or invest in this Fund. The information in this prospectus therefore cannot be construed to be an offer or solicitation to buy or sell shares in thisFund in a country where such offer or solicitation is unlawful.

The Fund's share classes will not be registered pursuant to the U.S. Securities Act of 1933, as amended (the "U.S. Securities Act") and cannot be offered, assigned, transferred or allocated to the United States of America, or to:

- (A) any "U.S. Person", as this term is defined (i) under Regulation S of the US Securities Act of 1933 and (ii) under U.S. regulations as defined in Section 7701 (a) (30) of the Internal Revenue Code of 1986 as amended. The Fund's shares will not be offered to U.S. Persons.
- (B) anyone other than those persons considered to be "non-US Persons" as this term is defined under U.S. regulations pursuant to the Commodity Futures Trading Commission, Rule 4.7 (a) (1) (iv).

The Fund's shares will only be offered for sale outside of the United States of America to non-U.S. Persons.

For the purpose of this document, the term "U.S. Person" shall mean, among other things, any individual who resides in the United States of America, any entity organized or formed under the laws of the United States of America, certain entities organized or formed outside of the United States of America by one or more U.S. persons, or any account held on behalf of such a U.S. person.

Before making an investment in this Fund or Sub-fund, investors should seek the advice of their financial, tax and legal advisers.

PLACE AND METHOD OF NET ASSET VALUE PUBLICATION OR COMMUNICATION

At the head office of LYXOR INTERNATIONAL ASSET MANAGEMENT, at 17, cours Valmy - 92987 Paris La Défense CEDEX - France.

Euronext Paris SA will calculate and publish the Sub-fund's indicative net asset value , each Trading Day (as defined below) during trading hours.

IMPORTANT INFORMATION ABOUT THE BENCHMARK INDEX PROVIDER

The Markit Iboxx USD Treasuries 10+ Mid Price TCA index (hereinafter the "Index") is a trademark of Markit Indices Co ("Markit", also referred to as "the Index Sponsor") and is licensed to Lyxor International Asset Management.

The Benchmark Index referred to here is the property of Markit Indices Limited and is used under license for the Sub-fund. The Index Sponsor does not approve of, endorse or recommend the Sub-fund.

The Index Sponsor does not under any circumstance provide any warranty or guarantee, whether explicitly or implicitly, in relation to the Index data or to the quality, accuracy or completeness of these data, or in relation to the credit rating of any issuing entity and disclaims any and all liability in relation to the use of the Index and/or its composition. The Index Sponsor will not be held liable, for any reason whatsoever, for an error in the Index, and is not required to inform anyone in the event of such an error.

Under no circumstance does the Index Sponsor provide a recommendation to buy or sell the Sub-fund, nor does it express an opinion on whether the Index is capable of replicating the performance of the relevant markets, or on the Index itself or on any transaction or product in relation thereto, or on any risks associated therewith. The Index Sponsor has no obligation to take the needs of any third party into consideration when determining or calculating the Index or when modifying its composition. Purchasers and sellers of shares in the Sub-fund or the Index Sponsor will not be held liable if the Index Sponsor fails to take the necessary steps to determine, adjust or calculate the Index. The Index Sponsor and its affiliated companies reserve the right to trade in any of the Index bonds, and may, when permitted, take deposits, make loans or engage in other lending activity, and in general engage in any investment banking, financial services or other business activity with the issuers of these bonds or their affiliated companies, and may engage in such activities as if the Index did not exist, without regard for any consequence that such activities may have on the Index or on the Sub-fund.

ADDITIONAL INFORMATION

The Sub-fund's shares are accepted for clearing by Euroclear France S.A.

Subscription and redemption orders are sent by the investors' financial intermediaries (members of Euroclear France SA) to the Depositary.

The Multi Units France prospectus, the Key Investor Information Document and the most recent annual documents will be sent to investors within eight business days upon written request to:

LYXOR INTERNATIONAL ASSET MANAGEMENT

17 Cours Valmy - 92987 Paris La Défense France.

E-mail: contact@lyxor.com

More information can also be requested from Lyxor International Asset Management on its website at www.lyxoretf.com.

Prospectus publication date: See the "Publication Date" section.

Pursuant to Article L. 533-22-1 of the French Monetary and Financial Code, information concerning the possible inclusion of social, environmental and corporate governance objectives and performance criteria in the investment policy is available on the management company's website and in the Multi Unit France fund annual report.

The AMF's website (www.amf-france.org) provides more information on the regulatory documents and various provisions that concern investor protection. This Prospectus shall be made available to investors prior to subscription.

INVESTMENT RULES

The Sub-fund will comply with the investment rules of European Directive 2009/65/EC of 13 July 2009.

The Sub-fund may invest in the assets specified in Article L214-20 of the French Monetary and Financial Code, subject to the risk-diversification and investment ratio requirements of Articles R214-21 to R214-27 of said Code.

Notwithstanding the 10% limit under Paragraph II of Article R214-21 of the French Monetary and Financial Code, the Sub-fund may invest up to 20% of its assets in the equities and debt securities of a single issuer, in compliance with Article R214-22-I, which deals with index-tracking funds. Pursuant to Article R214-22 II, the Sub-fund may also increase this 20% limit for a single issuer to 35%, when this is justified by exceptional market conditions, and in particular when certain securities are largely dominant.

Notwithstanding the above, securities guaranteed or issued by a given issuer can account for up to 35% of assets and up to 100% if the Sub-fund holds at least six issues of which none exceeds 30% of assets, provided that these securities are financial instruments issued or guaranteed by an OECD member state, the local authorities of a European Union member state or a country that is a member of the European Economic Area.

OVERALL RISK EXPOSURE

The commitment approach is used to calculate the overall risk exposure.

ASSET VALUATION AND ACCOUNTING RULES

A. VALUATION RULES

The Sub-fund's assets are valued in accordance with applicable laws and regulations and most notably Regulation No. 2014-01 of 14 January 2014 of the Comité de la Réglementation Comptable (the Accounting Regulations Committee), which applies to the chart of accounts for undertakings for collective investment in transferable securities.

Financial instruments traded on a regulated market are valued at the closing price recorded on the day prior to the calculation of the net asset value. If these financial instruments are traded on several regulated markets at the same time, the closing price used is that recorded on the regulated market on which they are principally traded.

However, in the absence of significant trading on a regulated market, the following financial instruments are valued using the following methods:

- Negotiable debt securities ("NDS") with a remaining life upon acquisition that is less than or equal to three months are valued by applying the difference between the acquisition value and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life of more than three months upon acquisition but less than or equal to three months at the net asset value calculation date are valued by applying the difference between the most recent valuation and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life at the net asset value calculation date that exceeds three months are valued at their current value. The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- Financial futures traded on organized markets are valued at the clearing price on the day prior to the calculation of the net asset value. Options traded on organized markets are valued at their market price on the day prior to the calculation of the net asset value. Forward contracts and over-the-counter options are valued at the price quoted by the counterparty. The management company monitors these prices independently.
- Bank deposits are valued at their nominal value plus accrued interest.
- Warrants, short and medium-term notes (bons de caisse), promissory notes and mortgage notes are valued under the management company's responsibility at their most likely trading value.
- Securities financing transactions are valued at the market price.
- Shares and units in UCITS under French law are valued at the last known net asset value on the day the Sub-fund's net asset value is calculated.
- Shares and units in foreign investment funds are valued at the last known unitary net asset value at the date the Sub-fund's net asset value is calculated.
- Financial instruments traded on a regulated market and for which no price has been quoted or whose price has been corrected, are valued under the management company's responsibility at their most likely trading value.
- The exchange rates used to value financial instruments denominated in a currency other than the Sub-fund's base currency are the WM Reuters fixing rates published on the day the Sub-fund's net asset value is calculated.

B. ACCOUNTING METHOD FOR TRADING EXPENSES

Trading expenses are included in the initial cost of the transaction.

C. ACCOUNTING METHOD FOR INCOME FROM FIXED-INCOME SECURITIES

Income from fixed-income securities is accounted for using the cash-basis method.

D. DISTRIBUTION POLICY

For more information see the section entitled "Calculation and appropriation of Distributable amounts"

E. ACCOUNTING CURRENCY

The Sub-fund's accounts are kept in US dollars.

SUB-FUND NO. 5: LYXOR IBOXX \$ LIQUID EMERGING MARKETS SOVEREIGNS UCITS ETF

A SICAV SUB-FUND COMPLIANT WITH DIRECTIVE 2009/65/CE

ISIN CODE

D-USD share class: FR0010967323

Monthly Hedged D-EUR share class: FR0013217700

CLASSIFICATION

International bonds and other debt securities.

The LYXOR IBOXX \$ LIQUID EMERGING MARKETS SOVEREIGNS UCITS ETF fund (the "Sub-fund") is continuously exposed to des fixed-income securities denominated in other currencies than the euro (and possibly to fixed-income securities denominated in euros). Exposure to equity risk does not exceed 10% of the net assets.

The Sub-fund is a UCITS ETF type index tracker.

INCEPTION DATE

The Sub-fund was approved by l'autorité des Marchés Financiers (the French financial markets authority) on 22 November 2010.

INVESTMENT OBJECTIVE

The Sub-fund's investment objective is to provide exposure to increases and decreases in USD denominated bonds issued by low or middle income sovereign states, by replicating the movement of the Markit iBoxx USD Liquid Emerging Markets Sovereigns Mid Price TCA index (the "**Benchmark Index**"), denominated in US dollars (USD), while minimizing the tracking error between the Sub-fund's performance and that of its Benchmark Index.

For Monthly Hedged D-EUR shares exclusively, the Sub-fund will also use a monthly currency hedging strategy to reduce the impact of a change in the euro exchange rate vis-à-vis the currency of each Benchmark Index component.

The expected ex-post tracking error under normal market conditions is 0.02%.

BENCHMARK INDEX

The Benchmark Index is composed of some of the most liquid bonds from the Markit iBoxx USD Liquid Emerging Markets Sovereigns Mid Price TCA index. It comprises bonds denominated in USD issued by sovereign countries with low or medium levels of per capita income, as defined by the World Bank (this classification is available on the Internet at www.worldbank.org). The index represents 20 countries.

The Benchmark Index is a "total return" index (i.e. all coupons detached from the index constituents are reinvested in the indexes)

The Benchmark Index employs transparent and objective construction rules, in accordance with those normally observed by the iBoxx indices family.

It uses a platform of multiple contributors to determine bond prices.

A full description of the Benchmark Index and its construction methodology and information on the composition and respective weightings of the Benchmark Index components are available on the Internet at www.markit.com.

Benchmark index composition and revision

The Benchmark Index is calculated at the end of each business day, at 3 pm New York time.

The Benchmark Index is revised monthly.

The frequency with which the Benchmark Index is rebalanced does not affect the cost of implementing the Investment Strategy.

Benchmark Index publication

The Benchmark Index available in real time through Reuters and Bloomberg.

Reuters code: .IBXXLES1

Bloomberg code: IBOXLES1

Pursuant to Article 52 of European Parliament and Council Regulation 2016/1011 of 8 June 2016, IHS Market, the administrator of the Markit iBoxx USD Liquid Emerging Markets Sovereigns Mid Price TCA benchmark index, has until 1 January 2020 to apply for approval or registration as applicable.

As of the date of the most recent version of this prospectus, the benchmark index administrator was not yet listed in ESMA's register of benchmark administrators.

Pursuant to European Parliament and Council Regulation 2016/1011 of 8 June 2016, the asset management company has a procedure for monitoring the benchmark indices used that specifies the measures to be implemented if an index is substantially modified or is no longer provided.

INVESTMENT STRATEGY

1. Strategy employed

The Sub-fund will comply with the investment rules of European Directive 2009/65/EC of 13 July 2009 .

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund will employ an indirect replication method, which means that it will enter into one or more OTC swap contracts enabling it to achieve its investment objective. These swap contracts will serve to exchange the value of the Sub-fund's assets, which will consist of balance sheet assets (excluding any securities received as collateral), for the value of the securities that underlie the Benchmark Index.

The Sub-fund's securities will be mainly the bonds of the Benchmark Index and may also include other government or non-government bonds denominated in the currency of an OECD country.

The basket of securities held may be adjusted daily such that its value will generally be at least 100% of the net assets. When necessary, this adjustment will be made to ensure that the counterparty risk arising from the aforementioned swap contract will be neutralized.

Information on the updated composition of the basket of ‘balance sheet’ assets in the Sub-fund’s portfolio and the value of the swap contract concluded by the Sub-fund, is available on the page dedicated to the Sub-fund on Lyxor’s website at www.lyxoretf.com. The frequency of any updates and/or the date on which the aforementioned information is updated is also indicated on the same page of the aforementioned website.

Up to 20% of the Sub-fund’s assets may be exposed to debt issued by a sovereign state that is not a member of the OECD. This 20% limit may be increased to 35% for a single bond when this is justified by exceptional market conditions and in particular when certain securities are largely dominant. This may for example be the case if a debt issue becomes highly volatile, or if a political and/or economic event occurs that has affected or may affect the estimated debt of an issuing country or its credit rating , or some other event occurs that could adversely affect the liquidity of a Benchmark Index security.

Sub-fund’s targeted interest-rate sensitivity	From 2 to 12
Currencies in which the Sub-fund’s securities are denominated	Euros: from 0 to 100% of net assets Other: up to 100% of net assets
Foreign exchange risk to which the Sub-fund is exposed	0% maximum of net assets.
Geographic regions of the issuers of the securities to which the Sub-fund is exposed	Eurozone: up to 100% of net assets Emerging countries: 0% of net assets

The manager currently intends to invest mainly in the assets indicated below.

2. Balance sheet assets (excluding embedded derivatives)

In accordance with regulatory ratios, the Sub-fund may invest in global bonds, including on “small-cap” exchanges.

These securities will be bonds selected largely on the basis of the following eligibility criteria:

- senior debt
- fixed maturity
- maximum residual maturity
- minimum issuance size
- minimum S&P or equivalent credit rating
- diversification criteria, and in particular:
 - the issuer (application of investment ratios to assets that qualify for UCITS, pursuant to Art. R214-21 of the French Monetary and Financial Code)
 - geographic
 - sector

Investors may find more information on the above eligibility and diversification criteria, and in particular the list of eligible indices, on Lyxor’s website at www.lyxoretf.comwww.lyxoretf.com

Investment in undertakings for collective investment in transferrable securities (“UCITS”) that comply with Directive 2009/65/EC is limited to 10% of the Sub-fund’s net assets.

The fund manager will not invest in the shares or units of alternative investment funds (AIF) or other investment funds that were formed under a foreign law. The Sub-fund may invest in the shares of UCITS managed by the management company or by a company that is related to the management company.

When the Fund receives collateral in the form of securities, subject to the terms of section 8 below, it acquires full title to these securities and they are therefore included among the balance sheet assets to which it has full title.

To optimize the Sub-fund’s management and achieve its investment objective, the asset manager reserves the right to use other financial instruments, in compliance with regulations.

3. Off-balance sheet assets (derivatives)

The Sub-fund will use OTC index-linked swaps that swap the value of the Sub-fund’s assets (or the value of any other financial instrument or asset the Sub-fund may hold) for the value of the Benchmark Index (as described in part 1 of this section).

- Maximum proportion of assets under management for which total return swaps (TRS) may be entered into: 100%.
- Expected proportion of assets under management for which total return swaps (TRS) may be entered into: up to 100%.

To optimize the Sub-fund’s management and achieve its investment objective, the manager reserves the right to use other financial instruments in compliance with regulations, such as derivative instruments other than index-linked swaps.

In accordance with its best execution policy, the management company considers that Société Générale is the counterparty that is generally able to obtain the best possible execution for these derivative financial instruments. Accordingly, these derivative financial instruments (including index-linked swaps) may be traded via Société Générale without having to seek a competitive bid from another counterparty.

The counterparty of the derivative financial instruments referred to above (the “Counterparty”) will have no discretionary power over the composition of the Sub-fund’s portfolio nor over the underlying assets of the derivative financial instruments.

4. Securities with embedded derivatives

N/A.

5. Cash deposits

In order to optimize its cash management, the Sub-fund may deposit funds representing up to 20% of its net assets with credit institutions that belong to the same group as the depositary.

6. Cash borrowing

The Sub-fund may temporarily borrow up to 10% of its net assets.

7. Securities financing transactions

The manager shall not engage in any temporary purchases or sales of securities.

8. Collateral

Whenever the investment strategy exposes to the Sub-fund to counterparty risk, and in particular when the Sub-fund uses over-the-counter swaps, the Sub-fund may accept eligible securities as collateral to reduce the counterparty risk associated with these swaps. The portfolio of collateral received may be adjusted daily to ensure that its value is at least sufficient to cover the Sub-fund's counterparty risk in most cases. The purpose of this adjustment is to neutralize the Sub-fund's counterparty risk.

The Sub-fund will have full title to all collateral received, which will be deposited in the Sub-fund's account with the depositary. This collateral will therefore be included in the Sub-fund's assets. If a counterparty defaults on an obligation, the Sub-fund may dispose of the assets received from the counterparty in respect of the secured transaction to pay off the counterparty's debt to the Sub-fund.

All collateral the Sub-fund receives for this purpose must comply with the applicable laws and regulations, with respect in particular to the liquidity and valuation of the collateral, the credit-worthiness of securities issuers, risk exposure correlation and the risks of collateral management and enforceability. All collateral received must in particular meet the following criteria:

- (a) All collateral must be of high quality, be highly liquid and tradable on a regulated market or on a multilateral trading facility, with transparent pricing to enable the collateral to be rapidly sold near its estimated price
- (b) This collateral must be valued at its mark-to-market price at least daily and assets with highly volatile prices are not acceptable as collateral, unless a sufficiently prudent discount or "haircut" is applied
- (c) The issuer of this collateral must be independent of the counterparty and must not be closely correlated with the counterparty's financial performance
- (d) This collateral must be sufficiently diversified by country, market and issuer, and no exposure to a single issuer may exceed 20 % of the Sub-fund's net asset value
- (e) The Sub-fund's Management Company must be able to enforce this collateral in full and at any time, without having to consult with the counterparty or obtain its approval.

Notwithstanding the condition specified in (d) above, the Fund may accept a basket of securities collateral that increases its exposure to a single issuer to more than 20% of its net asset value provided that:

- such securities collateral is issued by (i) a Member State, (ii) one or more of a Member State's local authorities, (iii) a country that is not a Member State (iv) a public international organization to which one or more Member States belong; and;
- such securities collateral consists of at least six different issues of securities of which no single issue exceeds 30% of the Sub-fund's assets.

Subject to the above conditions, the Sub-Fund may take collateral in the following forms:

- (i) Cash and cash-equivalent assets, which for example include short-term bank deposits and balances and money-market instruments;
- (ii) Bonds issued or guaranteed by an OECD member state, or by its local government entities, or by an EU, regional or global supranational institution or organisation, or by any country provided that conditions (a) to (e) above are fully complied with;
- (iii) Shares or units issued by money-market funds that calculate a daily net asset value and have an AAA or equivalent credit rating;
- (iv) The shares or units of UCITS that invest mainly in the bonds and/or equities indicated in (v) and (vi) below;
- (v) Bonds issued or guaranteed by first-class issuers offering sufficient liquidity;
- (vi) Equities admitted for trading or traded on a regulated exchange of an EU member country, on a stock exchange of an OECD member country or on a stock exchange of another country provided that conditions (a) to (e) above are fully complied with and that these equities are components of a major index.

Collateral discount policy:

The Sub-fund's management company shall apply a discount to the collateral accepted by the Sub-fund. The amount of these discounts will depend mainly on the following:

- The nature of the collateral asset;
- The collateral's maturity (if applicable);
- The credit rating of the collateral issuer (if applicable).

Reinvestment of collateral:

The collateral received will not be sold, reinvested or pledged.

At the manager's discretion, cash collateral may either be:

- (i) deposited with an authorised institution
- (ii) invested in high-quality government bonds

- (iii) used for reverse repurchase transactions, provided that these are entered into with credit institutions that are subject to prudential supervision and that the fund is able to withdraw the total amount of its cash collateral and the accrued interest at any time;
- (iv) invested in short-term money-market funds as defined in the guidelines for a common definition of European money-market funds.

All cash collateral that is reinvested must be invested in a diversified manner in compliance with the rules that apply to the acceptance of non-cash collateral

RISK PROFILE

Investors' money will be invested mainly in the financial instruments selected by the asset manager. These instruments are subject to market trends and contingencies.

Investors in the Sub-fund will mainly be exposed to the following risks:

Interest rate risk

The price of a bond can be affected by unexpected changes in the level of interest rates, which in particular may modify the shape of the yield curve in particular. The bonds that make up the Benchmark Index are exposed to changes in interest rates. In general, the price of a bond rises when interest rates fall, and falls when interest rates rise.

Capital risk

The capital invested is not guaranteed. Investors therefore may not recover all or part of their initial investment, particularly in the event that the Benchmark Index posts a negative return over the investment period.

Credit risk

The Sub-fund could be adversely affected by a lowering of the credit rating of one or more issuers of a bond in the Benchmark Index. This could mean a higher risk that such an issuer might default and could decrease the bond's value.

Liquidity risk (primary market)

The Sub-fund's liquidity and/or value may be adversely affected if, when the Sub-fund or a counterparty to a financial derivative instrument (DFI) is rebalancing its exposure, the underlying financial markets are restricted, closed, or subject to large bid/offer spreads. An inability, due to low trading volume, to execute the trades required to replicate the Benchmark Index may also adversely affect the subscription, conversion or redemption of shares or units.

Liquidity risk (secondary market)

The price of the Sub-fund's listed shares or units may deviate from the Sub-fund's indicative net asset value. The liquidity of the Sub-fund's shares traded on a given exchange may be adversely affected by a suspension in trading for various reasons, such as:

- i) the calculation of the Benchmark Index is suspended or stopped
- ii) trading in the market(s) in the Benchmark Index's underlying assets is suspended
- iii) an exchange cannot obtain or calculate the Sub-fund's indicative net asset value
- iv) a market maker fails to comply with an exchange's rules
- v) an exchange's IT, electronic or other system fails.

Counterparty risk

The Sub-fund is exposed to the risk that a counterparty with which the Sub-fund has entered into a contract or transaction may go bankrupt or default on a settlement or other obligation. The Sub-fund is mainly exposed to counterparty risk resulting from the use of derivative financial instruments (DFI) traded over the counter with Société Générale or some other counterparty. In compliance with UCITS regulations, exposure to counterparty risk (whether the counterparty is Société Générale or another entity), cannot exceed 10% of the Sub-fund's total assets per counterparty.

If a counterparty defaults on an obligation the DFI contract may be terminated before maturity. The Sub-fund will do everything in its power to achieve its investment objective by, if appropriate, entering into another DFI contract with another counterparty at the market conditions at the time of such an event.

If this counterparty risk materializes it could have an impact on the Sub-fund's ability to achieve its investment objective of replicating the Benchmark Index.

When Société Générale is the DFI counterparty, conflicts of interest may arise between it and the Sub-fund's management company, which has procedures to identify and reduce such conflicts of interest and to resolve them equitably if necessary.

Emerging Market Risk

The Sub-fund's exposure to emerging markets carries a greater risk of potential loss than an investment in traditional developed markets. Specifically, market operating and supervision rules for an emerging market may differ from standards applicable in developed markets. In particular, exposure to emerging markets can entail: increased market volatility, lower trading volumes, a risk of economic and/or political instability, an uncertain or unstable tax regime and/or regulatory environment, market closure risks, government restrictions on foreign investments, an interruption or limitation of convertibility or transferability of one of the currencies included in the Benchmark Index.

Risk that the investment objective may not be fully achieved

There is no guarantee that the investment objective will be achieved, as no asset or financial instrument can ensure that the Benchmark Index will be automatically and continuously replicated, particularly in the event of one or more of the following risks:

- Risk of using derivative financial instruments

In order to achieve its investment objective, the Sub-fund can enter into transactions involving over-the-counter derivative financial instruments (DFI), such as swaps, in order to secure the performance of the Benchmark Index. These DFI involve various risks, such as counterparty risk, hedging disruption, Benchmark Index disruption, taxation risk, regulatory risk, operational risk and liquidity risk. These risks can materially affect an DFI and may require an adjustment of the DFI transaction or even its premature termination, which could adversely affect the Sub-fund's net asset value.

- Risk due to a change in the tax regime

A change in the tax regime of a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed could adversely affect the taxation of investors. In such an event, the Sub-fund manager shall not be liable to any investor with respect to any payment that may have to be made to a competent tax authority.

- Risk of a change in the taxation of the Sub-fund's underlying assets

A change in the taxation of the Sub-fund's underlying assets could adversely affect the taxation of the Sub-fund. In such an event a discrepancy between the estimated taxation and the actual taxation of the Sub-fund and/or of the Sub-fund's DFI counterparty may adversely affect the Sub-fund's net asset value.

- Regulatory risk affecting the Sub-fund

In the event of a change in the regulatory regime in a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed, the subscription, conversion or redemption of shares or units may be adversely affected.

- Regulatory risk affecting the Sub-fund's underlying assets

In the event of a change in the regulations that govern the Sub-fund's underlying assets, the Sub-fund's net asset value and the subscription, conversion or redemption of shares or units may be adversely affected.

- Benchmark Index disruption risk

If an event adversely affects the Benchmark Index, the Sub-fund manager may be required, as provided for by law, to suspend the subscription and redemption of the Sub-fund's shares or units. The calculation of the Sub-fund's net asset value could also be adversely affected.

If the disruption of the Benchmark Index persists, the Sub-fund manager will determine an appropriate course of action, which could decrease the Sub-fund's net asset value.

A 'Benchmark Index event' includes but is not limited to the following situations:

- i) the Benchmark Index is deemed to be inaccurate or does not reflect actual market developments
- ii) the Benchmark Index is permanently cancelled by the index provider
- iii) the index provider is unable to indicate the level or value of the Benchmark Index
- iv) The index provider makes a material change in the Benchmark Index calculation formula or method (other than a minor modification such as an adjustment to the Benchmark Index's underlying components or their respective weightings) which the Sub-fund cannot effectively replicate at a reasonable cost.
- (v) a Benchmark Index component becomes illiquid because it is no longer traded on a regulated market or because its trading over-the-counter (e.g. bonds) is disrupted
- (vi) the Benchmark Index components are exposed to higher transaction costs for execution or settlement/delivery, or to specific tax constraints and these costs are not reflected in the Benchmark Index's performance.

- Corporate action risk

An unforeseen change, by the issuer of a security that is a component of the Benchmark Index, in a planned corporate action that is in contradiction with a previous official announcement on which the Sub-fund based its valuation of the corporate action (and/or on which the Sub-fund's counterparty to a financial derivative instrument or transaction based its valuation of the corporate action) can adversely affect the Sub-fund's net asset value, particularly if the Sub-fund's treatment of the corporate event differs from that of the Benchmark Index methodology.

- Currency hedging risk on the Monthly Hedged D-EUR shares:

In order to hedge the EUR/USD currency risk of the Monthly Hedged D-EUR shares, the Sub-fund employs a hedging strategy that enables it to reduce the impact of a change in the exchange rate between the currency of the Benchmark Index and the currency of the share class. Given the monthly implementation of this hedging and its imperfect nature, the Monthly Hedged to EUR - Dist share class may be exposed to adverse market movements and costs that reduce the net asset value of these shares.

- Legal risk

The Sub-fund may be exposed to a legal risk arising from a total return swap (TRS) agreement as indicated in EU Regulation 2015/2365.

ELIGIBLE INVESTORS AND TYPICAL INVESTOR PROFILE

The Sub-fund is available to all investors.

Investors in this Sub-fund are seeking exposure to the main segments of the market for USD-denominated bonds issued by low and middle-income sovereign states, pursuant to the World Bank's classification.

The amount that can be reasonably invested in the Sub-fund depends on each investor's personal situation. To determine this amount, investors must take into account their personal wealth and/or estate, their cash requirements currently and for the next five years, and their willingness to take on risk or their preference for more prudent investment. Investors are also advised to diversify their investments sufficiently so as not to be exposed solely to this Sub-fund's risks.

All investors are therefore asked to consider their specific situation with the help of their usual investment advisor.

The recommended minimum investment period is at least three years.

CALCULATION AND APPROPRIATION OF DISTRIBUTABLE AMOUNTS

D-USD and Monthly Hedged D-EUR share classes: The Board of Directors reserves the right to distribute distributable amounts one or more times a year and/or accumulate all or part of these amounts.

DISTRIBUTION FREQUENCY

D-USD and Monthly Hedged D-EUR share classes: If a distribution is decided, the Board of Directors reserves the right to distribute all or part of the distributable amounts in one or more distributions per annum.

SHARE CHARACTERISTICS

Subscription orders must be placed for a whole number of shares.
Only a whole number of shares may be redeemed.

SHARE CURRENCY

Currency	D-USD	Monthly Hedged D-EUR
	US Dollar	Euro

SUBSCRIPTION AND REDEMPTION

1. SUBSCRIPTION AND REDEMPTION ON THE PRIMARY MARKET

Subscription/redemption requests for shares in the Sub-fund will be processed by the Depositary from 10:00 am and 5.00 pm (Paris time), every day that the Sub-fund's net asset value is to be published, provided that prices can be quoted for a significant proportion of the Benchmark Index components (hereinafter a "**Primary Market Day**"), and will be executed at the net asset value on that Primary Market Day, hereinafter the "**reference NAV**". Subscription/redemption requests submitted after 5.00 pm (Paris time) on a Primary Market Day will be processed as if received from 10:00 am to 5.00 pm (Paris time) on the following Primary Market Day. Orders to subscribe for or redeem shares in the Sub-fund must be made for a number of shares that represents at least the USD equivalent of 100,000 euros.

Subscriptions and redemptions in cash

Subscriptions and redemptions shall be made exclusively in cash and executed at the ref NAV.

Delivery and settlement

Settlement/delivery of subscriptions and redemptions shall be completed within five French business days upon receipt of the subscription or redemption order.

Date and frequency of net asset value calculation

The net asset value will be calculated and published daily, provided that at least one exchange on which the Sub-fund's shares are listed is open and that orders placed in the primary and secondary markets can be funded.

The Sub-fund's net asset value is calculated using the Benchmark Index's closing price.

The net asset value of a share class that is denominated in another currency than the Sub-fund's accounting currency (if applicable) is calculated using the exchange rate between the accounting currency and the currency of the share class, at the applicable WM Reuters rate on the date the reference NAV is calculated.

2. PURCHASES AND SALES ON THE SECONDARY MARKET

A. COMMON PROVISIONS

For any purchase or sale of shares in the Sub-fund executed directly on an exchange on which the Sub-fund is admitted or will be admitted for continuous trading, no minimum purchase or sale amount is required other than that which may be required by the relevant exchange(s).

Shares in a listed Sub-fund that are purchased on the secondary market cannot generally be directly sold back to that Sub-fund. Investors must therefore buy and sell their shares on a secondary market through an intermediary (e.g. a broker) and may consequently incur costs. Furthermore, there is a possibility that investors may pay more than the indicative net asset value when buying shares and receive less than the indicative net asset value when selling shares.

If the stock market value of a listed fund's shares or units differs significantly from their indicative net asset value, or if trading in the fund's shares or units is suspended, investors may be authorized, subject to the conditions set forth below, to redeem their shares or units in the primary market directly from the fund, without being subject to the minimum redemption amount requirement set forth herein in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)".

The management company shall decide whether to allow such primary market redemptions and for how long, on the basis of the following criteria for assessing the significance of a market disruption:

- The suspension or strong disturbance of secondary trading on a given exchange is relatively frequent
- The link between the market disruption and secondary market operators (such as the default of one or more of the Market Makers of a given exchange, or a breakdown or malfunction of an exchange's IT or operating systems), excluding a disruption caused by a source external to the secondary exchange on which the Sub-fund's shares are traded, such as an event that affects the liquidity and valuation of all or some of the Benchmark Index's components
- Any other objective circumstance that could adversely affect the fair treatment and/or the interests of the Sub-fund's share-holders.

Notwithstanding the provisions concerning fees presented in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)", redemptions made in the primary market in this case shall only be subject to a net redemption fee of 3% paid to the Sub-fund and which serves to cover its trading costs.

In such exceptional cases when redemption in the primary market is allowed, the Management Company shall post on Lyxor's website at www.lyxor.etf.com the procedure that investors must observe to redeem their shares or units in the primary market. The Management Company shall also make this procedure available to the market undertaking that handles trading in the Sub-fund's shares.

B. SPECIFIC PROVISIONS

- a) **If the Sub-fund's shares are listed on Euronext Paris, as indicated in the "Key Information" section, investors should note the following rules**

Negotiability of shares and information about the financial institutions acting as Market Makers

The share are freely negotiable on the Euronext Paris regulated market under the following conditions and in compliance with the applicable laws and regulations.

The Sub-fund shares will be listed on a specific trading list, the rules of which are set forth in the following instructions published by Euronext Paris SA:

- Instruction No. 4-01 " Universal Trading Platform Manual"
- Appendix to Instruction N4-01 (Appendix to the Euronext Market Trading Manual)
- Instruction No. 6-04 "Documentation to be provided when filing a listing application for an ETF, ETN, ETV and open-ended undertakings for collective investment other than"

Pursuant to article D 214-22-1 of the French Monetary and Financial Code the shares of undertakings for collective investments in transferable securities may be admitted to trading, provided that these undertakings have a system to ensure that the market price of their shares does not differ significantly from their net asset value. Under Euronext Paris SA's rules trading in the Sub-fund's shares is also subject to a 'reservation threshold' of 1.5% above or below the Sub-fund's indicative net asset value or "iNAV" (see the "Indicative Net Asset Value" section), as published by EuronextParis SA and updated on an estimated basis during trading in accordance with the change in the Benchmark Index .

To comply with EuronextParis SA's reservation threshold requirement (see the section entitled "Indicative net asset value") the Market Makers will ensure that the market price of the Sub-fund's shares does not differ from the Sub-fund's indicative Net Asset Value by more than 1.5%.

Euronext Paris SA may suspend trading in the Sub-fund's shares pursuant to the terms of its operating rules, if the aforementioned reservation threshold limit is exceeded.

Euronext Paris SA will also suspend trading in the Sub-fund's shares in the following cases:

- the Benchmark Index is no longer traded or calculated
- Euronext Paris SA cannot obtain the Benchmark Index's level
- Euronext Paris SA cannot obtain the Sub-fund's net asset value

In accordance with the terms and conditions governing admission to trading on Euronext Paris, the Market Makers undertake to provide market-making services for the Sub-fund's shares as soon as they are admitted to trading on the Euronext Paris exchange.

In particular, the Market Makers undertake to carry out market-making operations by maintaining a significant presence in the market, which initially entails the setting of a bid/ask spread.

More specifically, the Market Makers are required by contract with EuronextParis SA to ensure that the Sub-fund maintains:

- a maximum global spread of 1.5% between the bid and offer price in the centralized order book.
- a minimum nominal trading value of EUR 100,000.

The obligations of the Sub-fund's Market Makers will be suspended in the following cases:

- the Benchmark Index is no longer traded or calculated
- if trading is substantially disrupted, for example due to a widespread shift in prices or an event that makes normal market making impossible.

Indicative Net Asset Value

Euronext Paris SA will calculate and publish, each Trading Day (as defined below) during trading hours, the Sub-fund's indicative net asset value (hereinafter "iNAV"). The iNAV is a measure of the intra-day value of the Sub-fund's net asset value based on the most recent data. The iNAV is not the value at which investors buy and sell shares in the Sub-fund on the secondary market.

A "Trading Day" is a day on which NYSE Euronext is normally open and on which the Benchmark Index is normally published.

The iNAV will be calculated every day that the net asset value is calculated and published.

For the calculation of the Sub-fund's iNAV during the Paris trading session (from 9.05 am to 5.35 pm), Euronext Paris will use the Benchmark Index value published by Reuters.

The market prices of the bonds comprising the Benchmark Index and used to calculate the value of the Benchmark Index, and therefore to determine the iNAV, are provided to Reuters via the iBoxx platform.

If the iBoxx platform is closed (on a public holiday on the TARGET calendar), the Benchmark Index is no longer published, the net asset value can no longer be calculated and trading in the Sub-fund's shares may be suspended.

Lyxor International Asset Management, the Sub-fund's management company, will provide Euronext Paris SA with all the financial and accounting data it needs to calculate the Sub-fund's iNAV and in particular:

- The day's estimated net asset value
- The official net asset value of the previous business day
- The level of the Benchmark Index on the previous business day.

These data will serve as a basis for Euronext Paris SA's calculations to determine the Sub-fund's iNAV in real time the following Trading Day.

Additional information about the indicative net asset value of a share listed on an exchange may, in accordance with the terms and limits set by the relevant market undertaking, be provided on this exchange's website. This information is also available on the Reuters or Bloomberg pages dedicated to the particular share. Additional information about the Bloomberg and Reuters codes for the indicative net asset values of all UCITS ETF type share classes is also available in the "Term Sheets" section of Lyxor's website at www.lyxoretf.com.

- b) **If the Sub-fund's shares are listed on an exchange other than Euronext Paris, as indicated in the "Key Information" section, investors should note the following:**

Investors wishing to acquire shares in the Sub-fund or obtain more information regarding the market-making terms that govern the listing and trading of shares on exchanges such as those indicated in the “Key Information” section are advised to familiarize themselves with the guidelines laid down by the relevant market undertaking, in compliance with local regulations, and to seek if necessary the assistance of their usual broker(s) for executing trades on the relevant exchange(s).

FEES AND CHARGES

SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)

The subscription and redemption fees shown below respectively increase the subscription price paid by the investor and decrease the redemption price received. Fees kept by the Sub-fund compensate it for the expenses it incurs in investing in the Sub-fund's assets or in divesting these assets. Any fees that are not kept by the Sub-fund are paid to the asset manager, the marketing agent or other service provider.

Fees paid by investors upon subscription or redemption	Base	Maximum charge
Subscription fee not kept by the Sub-fund	NAV per share x number of shares	The higher of the USD equivalent of 50,000 euros per subscription request or 5%, payable to third parties
Subscription fee kept by the Sub-fund	NAV per share x number of shares	N/A
Redemption fee not kept by the Sub-fund	NAV per share x number of shares	The higher of the USD equivalent of 50,000 euros per redemption request or 5%, payable to third parties
Redemption fee kept by the Sub-fund	NAV per share x number of shares	N/A

OPERATIONAL AND MANAGEMENT FEES

These fees cover all the costs invoiced directly to the Sub-fund, except for transaction expenses, which include intermediary fees (brokerage, stock market taxes etc.) and any account activity charge that may be charged by the depositary or the asset manager, in particular.

For this Sub-fund the following fees may be charged in addition to the operating and management fees (see table below):

- incentive fees, which the Sub-fund pays to the management company when the Sub-fund exceeds its objectives
- account activity charges charged to the Sub-fund.

For more information on the fees or expenses that the Sub-fund must pay, see the Statistics section of the Key Investor Information Document (KIID).

Fees charged to the Sub-fund	Base	Maximum charge for D-USD shares	Maximum charge for Monthly Hedged D-EUR shares
Investment management fees and administration fees that are external to the management company (auditor, depositary, fund distribution and legal fees) including tax ⁽¹⁾	Net asset value	0.30% per annum	0.40% per annum
Incentive fee	Net asset value		N/A
Account activity charge	Charge on each transaction		N/A

⁽¹⁾ Includes all fees and expenses except for transaction expenses, incentive fees and fees associated with investment in UCITS.

COMMERCIAL INFORMATION

Distribution of this prospectus and the offering or purchase of the Fund's share classes may be subject to restrictions with regard to certain persons or in certain countries by virtue of national regulations that may apply to these persons or countries.

Investors are therefore responsible for ensuring that they are authorized to subscribe to or invest in this Fund. The information in this prospectus therefore cannot be construed to be an offer or solicitation to buy or sell shares in this Fund in a country where such offer or solicitation is unlawful.

The Fund's share classes will not be registered pursuant to the U.S. Securities Act of 1933, as amended (the "U.S. Securities Act") and cannot be offered, assigned, transferred or allocated to the United States of America, or to:

- (A) any "U.S. Person", as this term is defined (i) under Regulation S of the US Securities Act of 1933 and (ii) under U.S. regulations as defined in Section 7701 (a) (30) of the Internal Revenue Code of 1986 as amended. The Fund's shares will not be offered to U.S. Persons.
- (B) anyone other than those persons considered to be "non-US Persons" as this term is defined under U.S. regulations pursuant to the Commodity Futures Trading Commission, Rule 4.7 (a) (1) (iv).

The Fund's shares will only be offered for sale outside of the United States of America to non-U.S. Persons.

For the purpose of this document, the term "U.S. Person" shall mean, among other things, any individual who resides in the United States of America, any entity organized or formed under the laws of the United States of America, certain entities organized or formed outside of the United States of America by one or more U.S. persons, or any account held on behalf of such a U.S. person.

Before making an investment in this Fund or Sub-fund, investors should seek the advice of their financial, tax and legal advisers.

PLACE AND METHOD OF NET ASSET VALUE PUBLICATION OR COMMUNICATION

At the head office of LYXOR INTERNATIONAL ASSET MANAGEMENT, at 17, cours Valmy - 92987 Paris La Défense CEDEX - France.

The Sub-fund's net asset value will be calculated and published by Euronext Paris SA on each Paris Trading Day, during trading hours.

IMPORTANT INFORMATION ABOUT THE BENCHMARK INDEX PROVIDER

The Markit iBoxx USD Liquid Emerging Markets Sovereigns Mid Price TCA index (the "**Index**") is a trademark of Markit Indices Co ("Markit", also referred to as "the Index Sponsor") and is licensed to Lyxor International Asset Management.

The Index referred to here is the property of Markit Indices Limited. ("the Index Sponsor") and is used under license for the LYXOR IBOXX \$ LIQUID EMERGING MARKETS SOVEREIGNS UCITS ETF sub-fund.

The parties hereto agree that the Index Sponsor does not approve of, endorse or recommend the LYXOR IBOXX \$ LIQUID EMERGING MARKETS SOVEREIGNS UCITS ETF Sub-fund.

The Index Sponsor provides, neither explicitly or implicitly, no warranty or guarantee (including but not limited to the commercial value or suitability for any specific purpose), with respect to the Index or to any data related thereto, and more specifically provides no warranty or guarantee with respect to the quality, accuracy and/or completeness of the Index or of its related data, to the results that may be obtained from using the Index, to the Index's composition at any given date or time, to the credit rating of any issuing entity, or to any credit or similar event (however so defined) pertaining to an Index bond at any given date or time.

The Index Sponsor will not be held liable, for any reason whatsoever, for an error in the Index, and is not required to inform anyone in the event of such an error.

Under no circumstance does the Index Sponsor provide a recommendation to buy or sell the LYXOR IBOXX \$ LIQUID EMERGING MARKETS SOVEREIGNS UCITS ETF sub-fund, nor does it express an opinion on whether the Index is capable of replicating the performance of the relevant markets, or on the Index itself or on any transaction or product in relation thereto, or on any risks associated therewith.

The Index Sponsor has no obligation to take the needs of any third party into consideration when determining or calculating the Index or when modifying its composition. Purchasers and sellers of shares in the LYXOR IBOXX \$ LIQUID EMERGING MARKETS SOVEREIGNS UCITS ETF sub-fund or the Index Sponsor will not be held liable if the Index Sponsor fails to take the necessary steps to determine, adjust or calculate the Index.

The Index Sponsor and its affiliated companies reserve the right to trade in any of the Index bonds, and may, when permitted, take deposits, make loans or engage in other lending activity, and in general engage in any investment banking, financial services or other business activity with the issuers of these bonds or their affiliated companies, and may engage in such activities as if the Index did not exist, without regard for any consequence that such activities may have on the Index or on the LYXOR IBOXX \$ LIQUID EMERGING MARKETS SOVEREIGNS UCITS ETF sub-fund.

ADDITIONAL INFORMATION

The Sub-fund's shares are accepted for clearing by Euroclear France S.A.

Subscription and redemption orders are sent by the investors' financial intermediaries (members of Euroclear France SA) to the Depositary.

The Multi Units France prospectus fund, the Key Investor Information Document and the most recent annual reports will be sent to investors within eight business days upon written request to:

LYXOR INTERNATIONAL ASSET MANAGEMENT
17 Cours Valmy - 92987 Paris La Défense France.

e-mail: contact@lyxor.com

More information can also be requested from Lyxor International Asset Management on its website at www.lyxoretf.com.

Prospectus publication date: See the "Publication Date" section.

The AMF's website (www.amf-france.org) provides more information on the regulatory documents and various provisions that concern investor protection. This Prospectus shall be made available to investors prior to subscription.

INVESTMENT RULES

The Sub-fund will comply with the investment rules of European Directive 2009/65/EC of 13 July 2009 .
The Sub-fund may invest in the assets specified in Article L214-20 of the French Monetary and Financial Code, subject to the risk-diversification and investment ratio requirements of Articles R214-21 to R214-27 of said Code.
Notwithstanding the 10% limit under Paragraph II of Article R214-21 of the French Monetary and Financial Code, the Sub-fund may invest up to 20% of its assets in the equities and debt securities of a single issuer, in compliance with Article R214-22-I, which deals with index-tracking funds. Pursuant to Article R214-22 II, the Sub-fund may also increase this 20% limit for a single issuer to 35%, when this is justified by exceptional market conditions, and in particular when certain securities are largely dominant.

OVERALL RISK EXPOSURE

The commitment approach is used to calculate the overall risk exposure.

ASSET VALUATION AND ACCOUNTING RULES

A. VALUATION RULES

The Sub-fund's assets are valued in accordance with applicable laws and regulations and most notably Regulation No. 2014-01 of 14 January 2014 of the Comité de la Réglementation Comptable (the Accounting Regulations Committee), which applies to the chart of accounts for undertakings for collective investment in transferable securities.

Financial instruments traded on a regulated market are valued at the closing price recorded on the day prior to the calculation of the net asset value. If these financial instruments are traded on several regulated markets at the same time, the closing price used is that recorded on the regulated market on which they are principally traded.

However, in the absence of significant trading on a regulated market, the following financial instruments are valued using the following methods:

- Negotiable debt securities ("NDS") with a remaining life upon acquisition that is less than or equal to three months are valued by applying the difference between the acquisition value and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life of more than three months upon acquisition but less than or equal to three months at the net asset value calculation date are valued by applying the difference between the most recent valuation and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life at the net asset value calculation date that exceeds three months are valued at their current value. The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- Financial futures traded on organized markets are valued at the clearing price on the day prior to the calculation of the net asset value. Options traded on organized markets are valued at their market price on the day prior to the calculation of the net asset value. Forward contracts and over-the-counter options are valued at the price quoted by the counterparty. The management company monitors these prices independently.
- Bank deposits are valued at their nominal value plus accrued interest.
- Warrants, short and medium-term notes (bons de caisse), promissory notes and mortgage notes are valued under the management company's responsibility at their most likely trading value.
- Securities financing transactions are valued at the market price.
- Shares and units in UCITS under French law are valued at the last known net asset value on the day the Sub-fund's net asset value is calculated.
- Shares and units in foreign investment funds are valued at the last known unitary net asset value at the date the Sub-fund's net asset value is calculated.
- Financial instruments traded on a regulated market and for which no price has been quoted or whose price has been corrected, are valued under the management company's responsibility at their most likely trading value.
- The exchange rates used to value financial instruments denominated in a currency other than the Sub-fund's base currency are the WM Reuters fixing rates published on the day the Sub-fund's net asset value is calculated.

B. ACCOUNTING METHOD FOR TRADING EXPENSES

Trading expenses are included in the initial cost of the transaction.

C. ACCOUNTING METHOD FOR INCOME FROM FIXED-INCOME SECURITIES

Income from fixed-income securities is accounted for using the cash-basis method.

D. DISTRIBUTION POLICY

For more information see the section entitled "Calculation and appropriation of Distributable amounts"

E. ACCOUNTING CURRENCY

The Sub-fund's accounts are kept in US dollars.

SUB-FUND No. 6: Lyxor BofAML €High Yield Ex-Financial Bond UCITS ETF

A SICAV SUB-FUND COMPLIANT WITH DIRECTIVE 2009/65/CE

ISIN CODE

Dist share class: FR0010975771

CLASSIFICATION

Bonds and other debt securities denominated in euros.

The Lyxor BofAML €High Yield Ex-Financial Bond UCITS ETF sub-fund (hereafter the “**Sub-fund**”) is continuously exposed to debt securities denominated in euros. Exposure to equities does not exceed 10% of net assets.

The Sub-fund is a UCITS ETF type index tracker.

INCEPTION DATE

The Sub-fund was approved by l'autorité des Marchés Financiers (the French financial markets authority) on 9 December 2010 and was established on 6 January 2011

INVESTMENT OBJECTIVE

The Sub-fund's investment objective is to replicate the performance, whether positive or negative, of the BofA Merrill Lynch BB-CCC Euro Developed Markets Non-Financial High Yield Constrained index (hereafter the “**Benchmark Index**”) denominated in euros and representative of the market for high-yield non-financial corporate bonds issued in euros, while minimising the tracking error between the Sub-fund's performance and that of its Benchmark index.

The expected ex-post tracking error under normal market conditions is 0.02%.

BENCHMARK INDEX

The Benchmark Index is a “Total Return” index, i.e. all coupons detached by the components of the Benchmark Index are reinvested in the Benchmark Index.

The Benchmark Index is composed of bonds denominated in euros, the main characteristics of which are described below and which represent the universe of high-yield non-financial corporate bonds denominated in euros.

To be eligible for inclusion in the Benchmark Index, a bond must meet specific criteria pertaining to its credit rating, residual maturity, sector and size. Bonds with a residual maturity of less than one year at the rebalancing date are not eligible.

The Benchmark Index will be composed exclusively of bonds issued by non-financial issuers and which are non-investment grade, i.e. have a credit rating that ranges from BB1 to CCC3, as determined by the Benchmark Index calculator on the basis of the average ratings of Moody's, S&P and Fitch.

Bonds are weighted on the basis of their market value with no issuer accounting for more than 3%.

The coupons from the Benchmark Index bonds are accumulated and then reinvested in the Benchmark Index at the next monthly rebalancing date.

The Benchmark Index is rebalanced on the last calendar day of each month.

The Benchmark Index is administered and managed by BofA Merrill Lynch.

A full description of the Benchmark Index, its construction methodology and information on the composition and respective weightings of the Benchmark Index components are available on the Internet at <http://www.mlindex.ml.com>

Benchmark Index publication

The Benchmark Index value is published daily by Reuters and Bloomberg.

Reuters code: .MERHEDX

Bloomberg code: HEDX

Pursuant to Article 52 of European Parliament and Council Regulation 2016/1011 of 8 June 2016, BofA Merrill Lynch, the administrator of the BofA Merrill Lynch BB-CCC Euro Developed Markets Non-Financial High Yield Constrained benchmark index, has until 1 January 2020 to apply for approval or registration as applicable.

As of the date of the most recent version of this prospectus, the benchmark index administrator was not yet listed in ESMA's register of benchmark administrators.

Pursuant to European Parliament and Council Regulation 2016/1011 of 8 June 2016, the asset management company has a procedure for monitoring the benchmark indices used that specifies the measures to be implemented if an index is substantially modified or is no longer provided.

Benchmark Index composition and revision

The Benchmark Index is reviewed monthly to account for changes that may affect the securities in the Benchmark Index universe. The rebalancing frequency indicated above will have an impact on the cost(s) borne by the Sub-fund and may consequently affect its performance..

The rules that govern the revision of the Benchmark Index are available on BofA Merrill Lynch's website at <http://www.mlindex.ml.com/>

INVESTMENT STRATEGY

1. Strategy employed

The Sub-fund will comply with the investment rules of European Directive 2009/65/EC of 13 July 2009.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund will employ an indirect replication method, which means that it will enter into one or more OTC swap contracts enabling it to achieve its investment objective. These swap contracts will serve to exchange the value of the Sub-fund's assets, which will consist of balance sheet assets (excluding any securities received as collateral), for the value of the securities enabling it to achieve its investment objective, which in most cases will be the securities that underlie the Benchmark Index.

The securities in which the Sub-fund will invest will be mainly those that make up the Benchmark Index, and also other bonds issued by a given OECD-member country or by a private-sector issuer, and denominated in one of the OECD country currencies.

The basket of securities held may be adjusted daily such that its value will generally be at least 100% of the net assets. When necessary, this adjustment will be made to ensure that the counterparty risk arising from the aforementioned swap contract will be neutralized.

Information on the updated composition of the basket of 'balance sheet' assets in the Sub-fund's portfolio and the value of the swap contract concluded by the Sub-fund, is available on the page dedicated to the Sub-fund on Lyxor's website at www.lyxoretf.com. The frequency of any updates and/or the date on which the aforementioned information is updated is also indicated on the same page of the aforementioned website.

Up to 20% of the Sub-fund's assets may be exposed to debt issued by a non-sovereign entity. This 20% limit will be checked on each rebalancing date for the Benchmark Index, by applying the method for calculating the Benchmark Index, which limits exposure to each component to 20%, this calculation being made by the Benchmark Index sponsor or calculation agent. This 20% limit can be increased to 35% for a single non-sovereign issuer, when this is justified by exceptional market conditions and in particular when certain securities are largely dominant, or a debt issue is highly volatile, or a political and/or economic event has affected or may affect the estimated debt of an issuing country or its credit rating, or in any other event that is likely to affect the liquidity of a Benchmark Index security.

Sub-fund's targeted interest-rate sensitivity	Between 1 and 11
Geographic regions of the issuers of the securities to which the Sub-fund is exposed	Geographic area: Developed countries: 0 to 100% of net assets Emerging countries: 0% of net assets

2. Balance sheet assets (excluding embedded derivatives)

The Sub-fund may invest in global bonds, in compliance with regulatory ratios.

These securities will be bonds selected largely on the basis of the following eligibility criteria:

- senior debt
- fixed maturity
- maximum residual maturity
- minimum issuance size
- minimum S&P or equivalent credit rating
- diversification criteria, and in particular:
- the issuer (application of investment ratios to assets that qualify for UCITS, pursuant to Art. R214-21 of the French Monetary and Financial Code)
- geographic
- sector

Investors may find more information on the above eligibility and diversification criteria, and in particular the list of eligible indices, on Lyxor's website at www.lyxoretf.com.

Investment in undertakings for collective investment in transferrable securities ("UCITS") that comply with Directive 2009/65/EC is limited to 10% of the Sub-fund's net assets.

The fund manager will not invest in the shares or units of alternative investment funds (AIF) or other investment funds that were formed under a foreign law. The Sub-fund may invest in the shares of UCITS managed by the management company or by a company that is related to the management company.

When the Fund receives collateral in the form of securities, subject to the terms of section 8 below, it acquires full title to these securities and they are therefore included among the balance sheet assets to which it has full title.

To optimize the Sub-fund's management and achieve its investment objective, the asset manager reserves the right to use other financial instruments, in compliance with regulations.

3. Off-balance sheet assets (derivatives)

The Sub-fund will use OTC index-linked swaps that swap the value of the Sub-fund's assets (or the value of any other financial instrument or asset the Sub-fund may hold) for the value of the Benchmark Index (as described in part 1 of this section).

- Maximum proportion of assets under management for which total return swaps (TRS) may be entered into: 100%.
- Expected proportion of assets under management for which total return swaps (TRS) may be entered into: up to 100%.

To optimize the Sub-fund's management and achieve its investment objective, the manager reserves the right to use other financial instruments in compliance with regulations, such as derivative instruments other than index-linked swaps.

In accordance with its best execution policy, the management company considers that Société Générale is the counterparty that is generally able to obtain the best possible execution for these derivative financial instruments. Accordingly, these derivative financial instruments (including index-linked swaps) may be traded via Société Générale without having to seek a competitive bid from another counterparty.

The counterparty of the derivative financial instruments referred to above (the "Counterparty") will have no discretionary power over the composition of the Sub-fund's portfolio nor over the underlying assets of the derivative financial instruments.

4. Securities with embedded derivatives

N/A.

5. Cash deposits

In order to optimize its cash management, the Sub-fund may deposit up to 20% of its assets in the form of cash with credit institutions that belong to the same group as the depositary.

6. Cash borrowing

The Sub-fund may temporarily borrow up to 10% of its net assets.

7. Securities financing transactions

The manager shall not engage in any temporary purchases or sales of securities.

8. Collateral

Whenever the investment strategy exposes to the Sub-fund to counterparty risk, and in particular when the Sub-fund uses over-the-counter swaps, the Sub-fund may accept eligible securities as collateral to reduce the counterparty risk associated with these swaps. The portfolio of collateral received may be adjusted daily to ensure that its value is at least sufficient to cover the Sub-fund's counterparty risk in most cases. The purpose of this adjustment is to neutralize the Sub-fund's counterparty risk.

The Sub-fund will have full title to all collateral received, which will be deposited in the Sub-fund's account with the depositary. This collateral will therefore be included in the Sub-fund's assets. If a counterparty defaults on an obligation, the Sub-fund may dispose of the assets received from the counterparty in respect of the secured transaction to pay off the counterparty's debt to the Sub-fund.

All collateral the Sub-fund receives for this purpose must comply with the applicable laws and regulations, with respect in particular to the liquidity and valuation of the collateral, the credit-worthiness of securities issuers, risk exposure correlation and the risks of collateral management and enforceability. All collateral received must in particular meet the following criteria:

- (a) All collateral must be of high quality, be highly liquid and tradable on a regulated market or on a multilateral trading facility, with transparent pricing to enable the collateral to be rapidly sold near its estimated price
- (b) This collateral must be valued at its mark-to-market price at least daily and assets with highly volatile prices are not acceptable as collateral, unless a sufficiently prudent discount or "haircut" is applied
- (c) The issuer of this collateral must be independent of the counterparty and must not be closely correlated with the counterparty's financial performance
- (d) This collateral must be sufficiently diversified by country, market and issuer, and no exposure to a single issuer may exceed 20 % of the Sub-fund's net asset value
- (e) The Sub-fund's Management Company must be able to enforce this collateral in full and at any time, without having to consult with the counterparty or obtain its approval.

Notwithstanding the condition specified in (d) above, the Fund may accept a basket of securities collateral that increases its exposure to a single issuer to more than 20% of its net asset value provided that:

- such securities collateral is issued by (i) a Member State, (ii) one or more of a Member State's local authorities, (iii) a country that is not a Member State (iv) a public international organization to which one or more Member States belong; and;
- such securities collateral consists of at least six different issues of securities of which no single issue exceeds 30% of the Sub-fund's assets.

Subject to the above conditions, the Sub-Fund may take collateral in the following forms:

- (i) Cash and cash-equivalent assets, which for example include short-term bank deposits and balances and money-market instruments;
- (ii) Bonds issued or guaranteed by an OECD member state, or by its local government entities, or by an EU, regional or global supranational institution or organisation, or by any country provided that conditions (a) to (e) above are fully complied with;
- (iii) Shares or units issued by money-market funds that calculate a daily net asset value and have an AAA or equivalent credit rating;
- (iv) The shares or units of UCITS that invest mainly in the bonds and/or equities indicated in (v) and (vi) below;
- (v) Bonds issued or guaranteed by first-class issuers offering sufficient liquidity;
- (vi) Equities admitted for trading or traded on a regulated exchange of an EU member country, on a stock exchange of an OECD member country or on a stock exchange of another country provided that conditions (a) to (e) above are fully complied with and that these equities are components of a major index.

Collateral discount policy:

The Sub-fund's management company shall apply a discount to the collateral accepted by the Sub-fund. The amount of these discounts will depend mainly on the following:

- The nature of the collateral asset;
- The collateral's maturity (if applicable);
- The credit rating of the collateral issuer (if applicable).

Reinvestment of collateral:

Non-cash collateral will not be sold, reinvested or pledged.

At the manager's discretion, cash collateral may either be:

- (i) deposited with an authorized institution

- (ii) invested in high-quality government bonds
- (iii) used for reverse repurchase transactions, provided that these are entered into with credit institutions that are subject to prudential supervision and that the fund is able to withdraw the total amount of its cash collateral and the accrued interest at any time
- (iv) invested in short-term money market funds that meet the guidelines for a common EU definition of money market funds.

All cash collateral that is reinvested must be invested in a diversified manner in compliance with the rules that apply to the acceptance of non-cash collateral.

RISK PROFILE

Investors' money will be invested mainly in the financial instruments selected by the asset manager. These instruments are subject to market trends and contingencies.

Investors in the Sub-fund will mainly be exposed to the following risks:

Interest rate risk

The price of a bond can be affected by unexpected changes in the level of interest rates, which in particular may modify the shape of the yield curve in particular. The bonds that make up the Benchmark Index are exposed to changes in interest rates. In general, the price of a bond rises when interest rates fall, and falls when interest rates rise.

Capital risk

The capital invested is not guaranteed. Investors therefore may not recover all or part of their initial investment, particularly in the event that the Benchmark Index posts a negative return over the investment period.

Credit risk

The Sub-fund could be adversely affected by a lowering of the credit rating of one or more issuers of a bond in the Benchmark Index. This could mean a higher risk that such an issuer might default and could decrease the bond's value.

Investment in Non-Investment Grade (or high-yield) debt securities

The Sub-Fund will be invested in bonds that are rated "non-investment grade". This exposes investors to a greater risk of a loss of income or capital due to the default or insolvency of an issuer than would be the case if they were invested in bonds with comparable characteristics but with a higher credit rating. The market value of the Sub-fund's bonds may therefore be more volatile.

Liquidity risk (primary market)

The Sub-fund's liquidity and/or value may be adversely affected if, when the Sub-fund or a counterparty to a financial derivative instrument (DFI) is rebalancing its exposure, the underlying financial markets are restricted, closed, or subject to large bid/offer spreads. An inability, due to low trading volume, to execute the trades required to replicate the Benchmark Index may also adversely affect the subscription, conversion or redemption of shares or units.

Liquidity risk (secondary market)

The price of the Sub-fund's listed shares or units may deviate from the Sub-fund's indicative net asset value. The liquidity of shares or units traded on a given exchange may be adversely affected by a suspension in trading for various reasons, for example:

- i) the calculation of the Benchmark Index is suspended or stopped
- ii) trading in the market(s) in the Benchmark Index's underlying assets is suspended
- iii) an exchange cannot obtain or calculate the Sub-fund's indicative net asset value
- iv) a market maker fails to comply with an exchange's rules
- v) an exchange's IT, electronic or other system fails.

Counterparty risk

The Sub-fund is exposed to the risk that a counterparty with which the Sub-fund has entered into a contract or transaction may go bankrupt or default on a settlement or other obligation. The Sub-fund is mainly exposed to counterparty risk resulting from the use of derivative financial instruments (DFI) traded over the counter with Société Générale or some other counterparty. In compliance with UCITS regulations, exposure to counterparty risk (whether the counterparty is Société Générale or another entity), cannot exceed 10% of the Sub-fund's total assets per counterparty.

If a counterparty defaults on an obligation the DFI contract may be terminated before maturity. The Sub-fund will do everything in its power to achieve its investment objective by, if appropriate, entering into another DFI contract with another counterparty at the market conditions at the time of such an event.

If this counterparty risk materializes it could have an impact on the Sub-fund's ability to achieve its investment objective of replicating the Benchmark Index.

When Société Générale is the DFI counterparty, conflicts of interest may arise between it and the Sub-fund's management company, which has procedures to identify and reduce such conflicts of interest and to resolve them equitably if necessary.

Risk that the investment objective may not be fully achieved

There is no guarantee that the investment objective will be achieved, as no asset or financial instrument can ensure that the Benchmark Index will be automatically and continuously replicated, particularly in the event of one or more of the following risks:

- Risk of using derivative financial instruments

In order to achieve its investment objective, the Sub-fund can enter into transactions involving over-the-counter derivative financial instruments (DFI), such as swaps, in order to secure the performance of the Benchmark Index. These DFI involve various risks, such as counterparty risk, hedging disruption, Benchmark Index disruption, taxation risk, regulatory risk, operational risk and liquidity risk. These risks can materially affect an DFI and may require an adjustment of the DFI transaction or even its premature termination, which could adversely affect the Sub-fund's net asset value.

- Risk due to a change in the tax regime

A change in the tax regime of a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed could adversely affect the taxation of investors. In such an event, the Sub-fund manager shall not be liable to any investor with respect to any payment that may have to be made to a competent tax authority.

- Risk of a change in the taxation of the Sub-fund's underlying assets

A change in the taxation of the Sub-fund's underlying assets could adversely affect the taxation of the Sub-fund. In such an event a discrepancy between the estimated taxation and the actual taxation of the Sub-fund and/or of the Sub-fund's DFI counterparty may adversely affect the Sub-fund's net asset value.

- Regulatory risk affecting the Sub-fund

In the event of a change in the regulatory regime in a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed, the subscription, conversion or redemption of units or shares may be adversely affected.

- Regulatory risk affecting the Sub-fund's underlying assets

In the event of a change in the regulations that govern the Sub-fund's underlying assets, the Sub-fund's net asset value and the subscription, conversion or redemption of shares may be adversely affected.

- Benchmark Index disruption risk

If an event adversely affects the Benchmark Index, the Sub-fund manager may be required, as provided for by law, to suspend the subscription and redemption of the Sub-fund's shares or units. The calculation of the Sub-fund's net asset value could also be adversely affected.

If the disruption of the Benchmark Index persists, the Sub-fund manager will determine an appropriate course of action, which could decrease the Sub-fund's net asset value.

A 'Benchmark Index event' includes but is not limited to the following situations:

i) the Benchmark Index is deemed to be inaccurate or does not reflect actual market developments

ii) the Benchmark Index is permanently cancelled by the index provider

iii) the index provider is unable to indicate the level or value of the Benchmark Index

iv) The index provider makes a material change in the Benchmark Index calculation formula or method (other than a minor modification such as an adjustment to the Benchmark Index's underlying components or their respective weightings) which the Sub-fund cannot effectively replicate at a reasonable cost.

(v): a Benchmark Index component becomes illiquid because it is no longer traded on a regulated market or because its trading over-the-counter (e.g. bonds) is disrupted

(vi) the Benchmark Index components are exposed to higher transaction costs for execution or settlement/delivery, or to specific tax constraints and these costs are not reflected in the Benchmark Index's performance.

- Corporate action risk

An unforeseen change, by the issuer of a security that is a component of the Benchmark Index, in a planned corporate action that is in contradiction with a previous official announcement on which the Sub-fund based its valuation of the corporate action (and/or on which the Sub-fund's counterparty to a financial derivative instrument or transaction based its valuation of the corporate action) can adversely affect the Sub-fund's net asset value, particularly if the Sub-fund's treatment of the corporate event differs from that of the Benchmark Index methodology.

- Legal risk

The Sub-fund may be exposed to a legal risk arising from a total return swap (TRS) agreement as indicated in EU Regulation 2015/2365.

ELIGIBLE INVESTORS AND TYPICAL INVESTOR PROFILE

The Sub-fund is available to all investors.

Investors in this Sub-fund are seeking exposure to high-yield non-financial corporate bonds denominated in euros.

The amount that can be reasonably invested in the Sub-fund depends on each investor's personal situation. To determine this amount, investors must take into account their personal wealth and/or estate, their cash requirements currently and for the next five years, and their willingness to take on risk or their preference for more prudent investment. Investors are also advised to diversify their investments sufficiently so as not to be exposed solely to this Sub-fund's risks.

All investors are therefore asked to consider their specific situation with the help of their usual investment advisor.

The recommended minimum investment period is at least three years.

CALCULATION AND APPROPRIATION OF DISTRIBUTABLE AMOUNTS

If a distribution is decided, the board of directors reserves the right to distribute distributable amounts one or more times a year and/or accumulate all or part of these amounts.

DISTRIBUTION FREQUENCY

If a distribution is decided, the board of directors reserves the right to distribute all or part of the distributable amounts in one or more distributions per annum.

SHARE CHARACTERISTICS

Subscription orders may be placed for a monetary amount or a number of shares.

Only a whole number of shares may be redeemed.

SHARE CURRENCY

Euros (EUR)

SUBSCRIPTION AND REDEMPTION

1 / SUBSCRIPTION AND REDEMPTION ON THE PRIMARY MARKET

Subscription/redemption orders for shares in the Sub-fund will be processed by the Depositary from 10:00 am to 4: 45 pm (Paris time), every day that the Sub-fund's net asset value is to be published, provided that prices can be quoted for a significant proportion of the Benchmark Index components (hereinafter a "Primary Market Day"), and will be executed at the net asset value on that Primary Market Day, hereinafter the "reference NAV". Subscription/redemption requests submitted after 4: 45 pm (Paris time) on a Primary Market Day will be processed as if received from 10:00 am to 4: 45 pm (Paris time) on the following Primary Market Day. Orders to subscribe for or redeem shares in the Sub-fund must be made for a whole number of shares that represents at least 100,000 euros.

Pursuant to Article L. 214-19 of the Monetary and Financial Code, the issue of new shares and share fractions, can be temporarily suspended by the board of directors or executive board, when compelled by exceptional circumstances and if required in the interests of the shareholders, notably but not exclusively in the event of a substantial reduction in the buy liquidity of the Benchmark Index's underlying instruments, resulting in a significant impact on the manager's hedging possibilities.

Subscriptions and redemptions in cash

Subscriptions and redemptions shall be made exclusively in cash and executed at the ref NAV.

Delivery and settlement

Settlement/delivery of subscriptions and redemptions shall be completed within five French business days upon receipt of the subscription or redemption order.

Date and frequency of NAV calculation

The net asset value will be calculated and published daily, provided that at least one exchange on which the Sub-fund's shares are listed is open and that orders placed in the primary and secondary markets can be funded.

2 / PURCHASES AND SALES ON THE SECONDARY MARKET

A. COMMON PROVISIONS

For any purchase or sale of shares in the Sub-fund executed directly on an exchange on which the Sub-fund is admitted or will be admitted for continuous trading, no minimum purchase or sale amount is required other than that which may be required by the relevant exchange(s).

Shares in a listed Sub-fund that are purchased on the secondary market cannot generally be directly sold back to that Sub-fund. Investors must therefore buy and sell their shares or units on a secondary market through an intermediary (e.g. a broker) and may consequently incur costs. Furthermore, there is a possibility that investors may pay more than the indicative net asset value when buying shares or units and receive less than the indicative net asset value when selling shares or units.

If the stock market value of a listed fund's shares or units differs significantly from their indicative net asset value, or if trading in the fund's shares or units is suspended, investors may be authorized, subject to the conditions set forth below, to redeem their shares or units in the primary market directly from the fund, without being subject to the minimum redemption amount requirement set forth herein in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)".

The management company shall decide whether to allow such primary market redemptions and for how long, on the basis of the following criteria for assessing the significance of a market disruption:

- The suspension or strong disturbance of secondary trading on a given exchange is relatively frequent
- The link between the market disruption and secondary market operators (such as the default of one or more of the Market Makers of a given exchange, or a breakdown or malfunction of an exchange's IT or operating systems), excluding a disruption caused by a source external to the secondary exchange on which the Sub-fund's shares are traded, such as an event that affects the liquidity and valuation of all or some of the Benchmark Index's components
- Any other objective circumstance that could adversely affect the fair treatment and/or the interests of the Sub-fund's share-holders.

Notwithstanding the provisions concerning fees presented in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)", redemptions made in the primary market in this case shall only be subject to a net redemption fee of 3% paid to the Sub-fund and which serves to cover its trading costs.

In such exceptional cases when redemption in the primary market is allowed, the Management Company shall post on Lyxor's website at www.lyxor.etf.com the procedure that investors must observe to redeem their shares or units in the primary market. The Management Company shall also make this procedure available to the market undertaking that handles trading in the Sub-fund's shares.

B. SPECIFIC PROVISIONS

- (a) If the Sub-fund's shares are listed on Euronext Paris, as indicated in the "Key Information" part of the "General Characteristics" section of the Fund's prospectus, investors should note the following rules

Negotiability of shares and information about the financial institutions acting as Market Makers:

The shares are freely negotiable on the Euronext Paris regulated market under the following conditions and according to the applicable legal and regulatory provisions.

The Sub-fund shares will be listed on a specific trading list, the rules for which are defined in the following instructions published by Euronext Paris SA:

- Instruction No. 4-01 "Universal Trading Platform Manual"
- Appendix to Instruction N4-01 (Appendix to the Euronext Market Trading Manual)

- Instruction No. 6-04 "Documentation to be provided when filing a listing application for an ETF, ETN, ETV and open-ended undertakings for collective investment other than"

Pursuant to article D 214-22-1 of the French Monetary and Financial Code the units or shares of undertakings for collective investments in transferable securities may be admitted to trading, provided that these undertakings have a system to ensure that the market price of their units or shares does not differ significantly from their net asset value. Under Euronext Paris SA's rules trading in the Sub-fund's shares is also subject to a 'reservation threshold' of 1.5% above or below the Sub-fund's indicative net asset value or "iNAV" (see the "Indicative Net Asset Value" section), as published by Euronext Paris SA and updated on an estimated basis during trading in accordance with the change in the Benchmark Index.

To comply with Euronext Paris SA's reservation threshold (see the section entitled "Indicative net asset value") the Market Makers will ensure that the market price of the Sub-fund's shares does not differ from the Sub-fund's indicative NAV by more than 1.5%.

Euronext Paris SA may suspend trading in the Sub-fund's shares pursuant to the terms of its operating rules, if the aforementioned reservation threshold limit is exceeded.

Euronext Paris SA will also suspend trading in the Sub-fund's shares in the following cases:

- the Benchmark Index is no longer traded or calculated
- Euronext Paris SA cannot obtain the Benchmark Index's level
- Euronext Paris SA cannot obtain the Sub-fund's net asset value

In accordance with the terms and conditions governing admission to trading on Euronext Paris, the Market Makers undertake to provide market-making services for the Sub-fund's shares as soon as they are admitted to trading on the Euronext Paris exchange.

In particular, the Market Makers undertake to carry out market-making operations by maintaining a significant presence in the market, which initially entails the setting of a bid/ask spread.

More specifically, the Market Makers are required by contract with Euronext Paris SA to ensure that the Sub-fund maintains:

- a maximum global spread of 1.5% between the bid and offer price in the centralized order book.
- a minimum nominal trading value of EUR 100,000.

The obligations of the Sub-fund's Market Makers will be suspended in the following cases:

- the Benchmark Index is no longer traded or calculated
- if trading is substantially disrupted, for example due to a widespread shift in prices or an event that makes normal market making impossible.

Indicative Net Asset Value:

Euronext Paris SA will calculate and publish, each Trading Day (as defined below) during trading hours, the Sub-fund's indicative net asset value (hereinafter "iNAV"). The iNAV is a measure of the intra-day value of the Sub-fund's net asset value based on the most recent data. The iNAV is not the value at which investors buy and sell shares in the Sub-fund on the secondary market.

A "Trading Day" is a day on which NSYE Euronext is normally open and on which the Benchmark Index is normally published.

The Sub-fund's iNAV is a theoretical net asset value calculated every 15 seconds by Euronext SA throughout the Paris trading day and is based on the level of the Benchmark Index. The iNAV enables investors to compare the prices that the Market Makers offer on the market with the theoretical value calculated by Euronext.

The iNAV will be calculated every day that the net asset value is calculated and published.

For the calculation of the Sub-fund's iNAV during the Paris trading session (from 9.05 am to 5.35 pm), Euronext Paris SA will use the Benchmark Index value published by Reuters.

If one or more exchanges on which the Benchmark Index's constituent securities are listed are closed (on a public holiday as indicated on the TARGET calendar) and if the iNAV cannot be calculated, trading in the Sub-fund's shares may be suspended.

Lyxor International Asset Management, the Sub-fund's management company, will provide Euronext Paris SA with all the financial and accounting data it needs to calculate the Sub-fund's iNAV and in particular:

- The day's estimated net asset value
- The official net asset value of the previous business day
- The level of the Benchmark Index on the previous business day.

These data will serve as a basis for Euronext Paris SA's calculations to determine the Sub-fund's iNAV in real time the following Trading Day.

Additional information about the indicative net asset value of a share listed on an exchange may, in accordance with the terms and limits set by the relevant market undertaking, be provided on this exchange's website. This information is also available on the Reuters or Bloomberg pages dedicated to the particular share. Additional information about the Bloomberg and Reuters codes for the indicative net asset values of all UCITS ETF type share classes is also available in the "Term Sheets" section of Lyxor's website at www.lyxoretf.com.

(b) If the Sub-fund's shares are listed on an exchange other than Euronext Paris, as indicated in the "Key Information" section, investors should note the following

Investors wishing to acquire shares in the Sub-fund or obtain more information regarding the market-making terms that govern the listing and trading of shares on the types of exchanges indicated in the "Key Information" section are advised to familiarize themselves with the guidelines laid down by the relevant market undertaking in compliance with local regulations, and to seek if necessary the assistance of their usual broker(s) for executing trades on the relevant exchange(s).

FEES AND CHARGES

SUBSCRIPTION AND REDEMPTION FEES (CHARGED ONLY ON PRIMARY MARKET TRANSACTIONS)

The subscription and redemption fees shown below respectively increase the subscription price paid by the investor and decrease the redemption price received. Fees kept by the Sub-fund compensate it for the expenses it incurs in investing in the Sub-fund's assets or in divesting these assets. Any fees that are not kept by the Sub-fund are paid to the management company, marketing agent or other service provider.

Fees paid by investors upon subscription or redemption	Base	Maximum charge
Subscription fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per subscription order or 5% payable to third parties
Subscription fee kept by the Sub-fund	NAV per share x number of shares	N/A
Redemption fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per redemption order or 5% payable to third parties
Redemption fee kept by the Sub-fund	NAV per share x number of shares	N/A

OPERATIONAL AND MANAGEMENT FEES

These fees cover all the costs invoiced directly to the Sub-fund, except for transaction expenses, which include intermediary fees (brokerage, stock market taxes etc.) and any account activity charge that may be charged by the depositary or the asset manager, in particular.

For this Sub-fund the following fees may be charged in addition to the operating and management fees (see table below):

- incentive fees, which the Sub-fund pays to the management company when the Sub-fund exceeds its objectives
- account activity charges charged to the Sub-fund.

For more information on the fees or expenses that the Sub-fund must pay, see the Statistics section of the Key Investor Information Document (KIID).

Fees charged to the Sub-fund	Base	Maximum charge
Investment management fees and administration fees that are external to the management company (auditor, depositary, fund distribution and legal fees) including tax ⁽¹⁾	Net asset value	0.45% per annum
Incentive fee	Net asset value	N/A
Account activity charge	Charge on each transaction	N/A

⁽¹⁾ Includes all fees and expenses except for transaction expenses, incentive fees and fees associated with investment in UCITS.

COMMERCIAL INFORMATION

Distribution of this prospectus and the offering or purchase of the Fund's share classes may be subject to restrictions with regard to certain persons or in certain countries under national regulations that may apply to these persons or countries. Investors are therefore responsible for ensuring that they can legally subscribe to or invest in this Fund. The information in this prospectus therefore cannot be construed to be an offer or solicitation to buy or sell shares in this Fund in a country where such offer or solicitation is unlawful.

The Fund's share classes will not be registered pursuant to the U.S. Securities Act of 1933, as amended (the "U.S. Securities Act") and cannot be offered, assigned, transferred or allocated to the United States of America, or to:

- (A) any "U.S. Person", as this term is defined (i) under Regulation S of the US Securities Act of 1933 and (ii) under U.S. regulations as defined in Section 7701 (a) (30) of the Internal Revenue Code of 1986 as amended. The Fund's shares will not be offered to U.S. Persons.
- (B) anyone other than those persons considered to be "non-US Persons" as this term is defined under U.S. regulations pursuant to the Commodity Futures Trading Commission, Rule 4.7 (a) (1) (iv).

The Fund's shares will only be offered for sale outside of the United States of America to non-U.S. Persons.

For the purpose of this document, the term "U.S. Person" shall mean, among other things, any individual who resides in the United States of America, any entity organized or formed under the laws of the United States of America, certain entities organized or formed outside of the United States of America by one or more U.S. persons, or any account held on behalf of such a U.S. person.

Before making an investment in this Fund or Sub-fund, investors should seek the advice of their financial, tax and legal advisers.

PLACE AND METHOD OF NET ASSET VALUE PUBLICATION OR COMMUNICATION

At the head office of LYXOR INTERNATIONAL ASSET MANAGEMENT, at 17, cours Valmy - 92987 Paris La Défense CEDEX - France.

The Sub-fund's net asset value will be calculated and published by Euronext Paris SA on each Paris Trading Day, during trading hours.

IMPORTANT INFORMATION ABOUT THE INDEX PROVIDER

Lyxor BofAML €High Yield Ex-Financial Bond UCITS ETF (the "Sub-fund") is not guaranteed, recommended, sold or promoted by Merrill Lynch, Pierce, Fenner & Smith Incorporated ("BofA Merrill Lynch"). BofA Merrill Lynch has expressed no opinion on the legality, relevance, accuracy or appropriateness of any descriptions or representations made in relation to the Sub-fund, and provides no warranty, either express or implied, to the owners of the Sub-fund, or to any member of the public regarding the Sub-fund or the advisability of investing in the Product, and in particular regarding the ability of the BofA Merrill Lynch BB-CCC Euro Developed Markets Non-Financial High Yield Constrained index (the "Index") to replicate the performance of a given financial market or investment strategy. The only relationship between BofA Merrill Lynch and a holder of a BofA Merrill Lynch licence (a "Licensee") is the licensing of certain trademarks and trade names and of the Index or its components. The Index is compiled, composed and calculated by BofA Merrill Lynch with no regard to the Licensee, the Sub-fund or its shareholders. When compiling, composing or calculating the Index, BofA Merrill Lynch has absolutely no obligation to take into consideration the needs of the Licensee or of the Sub-fund's shareholders. BofA Merrill Lynch shall not be held liable for, and has not been involved in, the determination of the issue date, the prices or the quantity of any shares issued or to be issued by the Sub-fund, or the determination or calculation of the equation that is used to value, sell, purchase or redeem the Sub-fund's shares. BofA Merrill Lynch has no obligation or liability in connection with the administration, marketing, or trading of the Sub-fund. BOFA MERILL LYNCH DOES NOT GUARANTEE THE ACCURACY AND/OR THE COMPLETENESS OF THE INDEX OR ANY DATA INCLUDED THEREIN AND BOFA MERILL LYNCH SHALL NOT BE LIABLE FOR ANY ERRORS, OMISSIONS, OR INTERRUPTIONS THAT MAY AFFECT THIS INDEX. BOFA MERILL LYNCH MAKES NO WARRANTY, EXPRESS OR IMPLIED, AS TO ANY RESULTS TO BE OBTAINED BY THE LICENSEE, SHAREHOLDERS IN THE SUB-FUND OR ANY OTHER PERSON OR ENTITY FROM THE USE OF THE INDEX OR OF ANY DATA INCLUDED THEREIN. BOFA MERILL LYNCH MAKES NO EXPRESS OR IMPLIED WARRANTY, AND EXPRESSLY DISCLAIMS ALL WARRANTIES OF MERCHANTABILITY OR SUITABILITY FOR A PARTICULAR PURPOSE OR USE WITH RESPECT TO THE INDEX AND TO ANY DATA INCLUDED THEREIN. WITHOUT LIMITING ANY OF THE FOREGOING, IN NO EVENT SHALL BOFA MERILL LYNCH HAVE ANY LIABILITY FOR ANY SPECIAL, PUNITIVE, INDIRECT, OR CONSEQUENTIAL DAMAGES (INCLUDING LOST PROFITS), EVEN IF NOTIFIED OF THE POSSIBILITY OF SUCH DAMAGES.

"BofA Merrill Lynch" and the "BofA Merrill Lynch (BofA Merrill Lynch BB-CCC Euro Developed Markets Non-Financial High Yield Constrained) Index" are trademarks of Merrill Lynch, Pierce, Fenner & Smith Incorporated or its affiliated companies, which BofA Merrill Lynch has been granted the right to use.

ADDITIONAL INFORMATION

The Sub-fund's shares are accepted for clearing by Euroclear France S.A.

Subscription and redemption orders are sent by the investors' financial intermediaries (members of Euroclear France SA) to the Depositary.

The Multi Units France fund prospectus, the Key Investor Information Document, the most recent annual reports and the asset inventory statement will be sent to investors within eight business days upon written request addressed to:

LYXOR INTERNATIONAL ASSET MANAGEMENT
17 Cours Valmy - 92987 Paris La Défense France.

E-mail: contact@lyxor.com

More information can also be requested from Lyxor International Asset Management on its website at www.lyxoretf.com.

The AMF's website (www.amf-france.org) provides more information on the regulatory documents and various provisions that concern investor protection. This Prospectus shall be made available to investors prior to subscription.

Prospectus publication date: See the "Publication Date" section.

Pursuant to Article L.533-22-1 of the French Monetary and Financial Code, information concerning the management company's possible inclusion of social, environmental and corporate governance objectives and performance criteria in the investment policy is available on the management company's website and in the Sub-fund's annual report.

INVESTMENT RULES

The Sub-fund will comply with the investment rules of European Directive 2009/65/EC of 13 July 2009 .
The Sub-fund may invest in the assets specified in Article L214-20 of the French Monetary and Financial Code, subject to the risk-diversification and investment ratio requirements of Articles R214-21 to R214-27 of said Code.
Notwithstanding the 10% limit under Paragraph II of Article R214-21 of the French Monetary and Financial Code, the Sub-fund may invest up to 20% of its assets in the equities and debt securities of a single issuer, in compliance with Article R214-22-I, which deals with index-tracking funds. Pursuant to Article R214-22 II, the Sub-fund may also increase this 20% limit for a single issuer to 35%, when this is justified by exceptional market conditions, and in particular when certain securities are largely dominant.

OVERALL RISK EXPOSURE

The commitment approach is used to calculate the Sub-fund's overall risk exposure.

ASSET RECOGNITION AND VALUATION RULES

A. VALUATION RULES

The Sub-fund's assets are valued in accordance with applicable laws and regulations and most notably Regulation No. 2014-01 of 14 January 2014 of the Comité de la Réglementation Comptable (the Accounting Regulations Committee), which applies to the chart of accounts for undertakings for collective investment in transferable securities.

Financial instruments traded on a regulated market are valued at the closing price recorded on the day prior to the calculation of the net asset value. If these financial instruments are traded on several regulated markets at the same time, the closing price used is that recorded on the regulated market on which they are principally traded.

However, in the absence of significant trading on a regulated market, the following financial instruments are valued using the following methods:

- Negotiable debt securities ("NDS") with a remaining life upon acquisition that is less than or equal to three months are valued by applying the difference between the acquisition value and the redemption value on a straight-line basis over the remaining life. However, the asset manager reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc.). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life of more than three months upon acquisition but less than or equal to three months at the net asset value calculation date are valued by applying the difference between the most recent valuation and the redemption value on a straight-line basis over the remaining life. However, the asset manager reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc.). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life at the net asset value calculation date that exceeds three months are valued at their current value. The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- Financial futures traded on organized markets are valued at the clearing price on the day prior to the calculation of the net asset value. Options traded on organized markets are valued at their market price on the day prior to the calculation of the net asset value. Forward contracts and over-the-counter options are valued at the price quoted by the counterparty. The asset manager monitors these prices independently.
- Bank deposits are valued at their nominal value plus accrued interest.
- Warrants, short and medium-term notes (bons de caisse), promissory notes and mortgage notes are valued under the asset manager's responsibility at their most likely trading value..
- Securities financing transactions are valued at the market price.
- Units and shares in UCITS under French law are valued at the last known net asset value on the day the Sub-fund's net asset value is calculated.
- Units and shares in foreign investment funds are valued at the last known net asset value at the date the Sub-fund's net asset value is calculated.
- Financial instruments traded on a regulated market and for which no price has been quoted or whose price has been corrected, are valued under the asset manager's responsibility at their most likely trading value.
- The exchange rates used to value financial instruments denominated in a currency other than the Sub-fund's base currency are the WM Reuters fixing rates on the day the Sub-fund's net asset value is calculated.

B. ACCOUNTING METHOD FOR TRADING EXPENSES

Trading expenses are included in the initial cost of the transaction.

C. ACCOUNTING METHOD FOR INCOME FROM FIXED-INCOME SECURITIES

Income from fixed-income securities is accounted for using the cash-basis method.

D. DISTRIBUTION POLICY

For more information see the section entitled "Calculation and appropriation of Distributable amounts"

E. ACCOUNTING CURRENCY

The Sub-fund's accounts are kept in euros.

SUB-FUND NO. 7: Lyxor BTP Daily (2x) Leveraged UCITS ETF

A SICAV SUB-FUND COMPLIANT WITH DIRECTIVE 2009/65/CE

ISIN CODE

Share class: FR0011023639

CLASSIFICATION

Bonds and other debt securities denominated in euros.

The Lyxor BTP Daily (2x) Leveraged UCITS ETF sub-fund (hereinafter the “**Sub-fund**”) is continuously exposed to fixed-income securities denominated in euros. Exposure to equity risk does not exceed 10% of the net assets.

The Sub-fund is a UCITS ETF type index tracker.

INCEPTION DATE

The Sub-fund was approved by l'autorité des Marchés Financiers (the French financial markets authority) on 6 April 2011 and was established on 27 April 2011.

INVESTMENT OBJECTIVE

The Sub-fund's investment objective is to give exposure (positive or negative), with daily 2x leverage, to the Italian sovereign bond market, by replicating the movement of the SGI Daily Leveraged BTP index (the "**Benchmark Index**"), while minimizing the tracking error between the Sub-fund's performance and that of its Benchmark Index.

The expected ex-post tracking error under normal market conditions is 0.02%.

BENCHMARK INDEX

The Benchmark Index is a strategy index developed by Société Générale's research staff using a proprietary methodology. It is calculated and maintained by Standard & Poor's.

The Benchmark Index provides exposure, positive or negative, to the performance of the Italian sovereign bond market, using Long-Term Euros-BTP futures as a representative index, with 2x daily leverage. Accordingly, if Long-Term Euros-BTP futures rise on a given trading day, the Sub-fund's net asset value will increase by twice the amount that day, and if the Long-Term Euros-BTP futures falls on a given trading day, the Sub-fund's net asset value will fall by twice that amount that day.

Long-Term Euros-BTP futures are a representative indicator of Italian sovereign bonds having a residual maturity of 8.5 to 11 years and an initial maturity of less than 16 years. They are listed on Eurex and their methodology is available on www.eurexchange.com

The Benchmark Index's daily performance is twice that of the Long-Term Euros-BTP futures, plus the daily interest (at the EONIA rate) paid on the previous day's Long-Term Euros-BTP futures price at 5: 40 pm.

The Benchmark Index therefore represents a long position on Long-Term Euros-BTP futures with 2x leverage and daily rebalancing. The index may be rebalanced during a trading session if it falls by more than 40%, i.e. if the absolute intra-day decline in Long-Term Euros-BTP futures exceeds 20%.

The performance tracked is the Benchmark Index 5.40 pm fixing in euros.

Since the methodology used to calculate the Benchmark Index is not based on direct investment in BTP bonds but on indirect investment in futures, the Sub-fund's performance will be affected by the cost of 'rolling over' positions on these futures contracts every quarter.

Over time this could significantly diminish the Sub-fund's performance in comparison with the gross performance of the underlying of the aforementioned futures contracts, particularly in the case of a long-term investment in the Sub-fund.

A full description of the Benchmark Index and its construction methodology and information on its composition are available on the Internet at www.sgindex.fr

Benchmark Index composition and revision

The Benchmark Index is calculated daily using the Long-Term Euros-BTP futures fixing price at 5.40 pm.

The Benchmark Index is also calculated in real time every stock exchange trading day.

The Benchmark Index is available through Reuters and Bloomberg.

Reuters code: .SGIXDLBT

Bloomberg code: SGIXDLBT

The Benchmark Index is rebalanced daily.

The frequency with which the Benchmark Index is rebalanced does not affect the cost of implementing the Investment Strategy.

Pursuant to Article 52 of European Parliament and Council Regulation 2016/1011 of 8 June 2016, S&P Dow Jones, the administrator of the SGI daily leveraged BTP benchmark index, has until 1 January 2020 to apply for approval or registration as applicable.

As of the date of the most recent version of this prospectus, the benchmark index administrator was not yet listed in ESMA's register of benchmark administrators.

Pursuant to European Parliament and Council Regulation 2016/1011 of 8 June 2016, the asset management company has a procedure for monitoring the benchmark indices used that specifies the measures to be implemented if an index is substantially modified or is no longer provided.

INVESTMENT STRATEGY

1. STRATEGY EMPLOYED

The Sub-fund will comply with the investment rules of European Directive 2009/65/EC of 13 July 2009.

Investors in this Sub-fund gain exposure, with a daily 2x leverage (positive or negative), to the performance of the Italian sovereign bond market, of which the Benchmark Index is a representative indicator.

The Sub-fund will mainly be invested in bonds issued by an OECD member country or by a non-governmental issuer in an OECD country.

The basket of securities held may be adjusted daily such that its value will generally be at least 100% of the net assets. When necessary, this adjustment will be made to ensure that the counterparty risk arising from the aforementioned swap contract will be neutralized.

Information on the updated composition of the basket of 'balance sheet' assets in the Sub-fund's portfolio and the value of the swap contract concluded by the Sub-fund, is available on the page dedicated to the Sub-fund on Lyxor's website at www.lyxoretf.com. The frequency of any updates and/or the date on which the aforementioned information is updated is also indicated on the same page of the aforementioned website.

Up to 20% of the Sub-fund's assets may be exposed to debt issued by a given OECD country. This 20% limit can be increased to 35% for a single bond, when this is justified by exceptional market conditions and in particular when certain securities are largely dominant, or a debt issue is highly volatile, or a political and/or economic event has affected or may affect the estimated debt of an issuing country or its credit rating, or in any other event that is likely to affect the liquidity of a Benchmark Index security.

Notwithstanding the above, securities guaranteed or issued by a given issuer can account for up to 35% of assets and up to 100% if the Sub-fund holds at least six issues of which none exceeds 30% of assets, provided that these securities are financial instruments issued or guaranteed by an OECD member state, the local authorities of a European Union member state or a country that is a member of the European Economic Area.

Sub-fund's targeted interest-rate sensitivity	From 14 to 22
Currencies in which the Sub-fund's securities are denominated	Euros: from 0 to 100% of net assets Other: from 0 to 100% of net assets
Foreign exchange risk to which the Sub-fund is exposed	0% maximum of net assets.
Geographic regions of the issuers of the securities to which the Sub-fund is exposed	Eurozone: from 0 to 100% of net assets Emerging countries: 0% of net assets

2. Balance sheet assets (excluding embedded derivatives)

The Sub-fund may invest, in compliance with regulatory ratios, international securities (equities and bonds) denominated in one of the currencies of the OECD countries.

Investment in undertakings for collective investment in transferrable securities ("UCITS") that comply with Directive 2009/65/EC is limited to 10% of the Sub-fund's net assets.

These securities will be bonds selected on the basis of the following criteria:

- eligibility criteria and in particular:
 - o senior debt
 - o fixed maturity
 - o maximum residual maturity
 - o minimum issuance size
 - o minimum S&P or equivalent credit rating
- diversification criteria, and in particular:
 - o the issuer (application of investment ratios to assets that qualify for UCITS, pursuant to Art. R214-21 of the French Monetary and Financial Code)
 - o geographic
 - o sector

Investors may find more information on the above eligibility and diversification criteria, and in particular the list of eligible indices, on Lyxor's website at www.lyxoretf.com.

The fund manager will not invest in the shares or units of alternative investment funds (AIF) or other investment funds that were formed under a foreign law. The Sub-fund may invest in the shares of UCITS managed by the management company or by a company that is related to the management company.

To optimize the Sub-fund's management and achieve its investment objective, the asset manager reserves the right to use other financial instruments, in compliance with regulations.

3. Off-balance sheet assets (derivatives)

The Sub-fund will use OTC index-linked swaps that swap the value of the Sub-fund's assets (or of any other financial instrument the Sub-fund may hold) for the value of the Benchmark Index (as described in part 1 of this section).

- Maximum proportion of assets under management for which total return swaps (TRS) may be entered into: 100%.
- Expected proportion of assets under management for which total return swaps (TRS) may be entered into: up to 100%.

To optimize the Sub-fund's management and achieve its investment objective, the manager reserves the right to use other financial instruments in compliance with regulations, such as derivative instruments other than index-linked swaps.

In accordance with its best execution policy, the management company considers that Société Générale is the counterparty that is generally able to obtain the best possible execution for these derivative financial instruments. Accordingly, these derivative financial instruments (including index-linked swaps) may be traded via Société Générale without having to seek a competitive bid from another counterparty.

The counterparty of the derivative financial instruments referred to above (the "Counterparty") will have no discretionary power over the composition of the Sub-fund's portfolio nor over the underlying assets of the derivative financial instruments.

4. Securities with embedded derivatives

N/A.

5. Cash deposits

In order to optimize its cash management, the Sub-fund may deposit funds representing up to 20% of its net assets with credit institutions that belong to the same group as the depositary.

6. Cash borrowing

The Sub-fund may temporarily borrow up to 10% of its net assets.

7. Securities financing transactions

The manager shall not engage in any temporary purchases or sales of securities.

8. Collateral

Whenever the investment strategy exposes the Sub-fund to counterparty risk, and in particular when the Sub-fund uses over-the-counter swaps, the Sub-fund may accept eligible securities as collateral to reduce the counterparty risk associated with these swaps. The portfolio of collateral received may be adjusted daily to ensure that its value is at least sufficient to cover the Sub-fund's counterparty risk in most cases. The purpose of this adjustment is to neutralize the Sub-fund's counterparty risk.

The Sub-fund will have full title to all collateral received, which will be deposited in the Sub-fund's account with the depositary. This collateral will therefore be included in the Sub-fund's assets. If a counterparty defaults on an obligation, the Sub-fund may dispose of the assets received from the counterparty in respect of the secured transaction to pay off the counterparty's debt to the Sub-fund.

All collateral the Sub-fund receives for this purpose must comply with the applicable laws and regulations, with respect in particular to the liquidity and valuation of the collateral, the credit-worthiness of securities issuers, risk exposure correlation and the risks of collateral management and enforceability. All collateral received must in particular meet the following criteria:

- (a) All collateral must be of high quality, be highly liquid and tradable on a regulated market or on a multilateral trading facility, with transparent pricing to enable the collateral to be rapidly sold near its estimated price;
- (b) This collateral must be valued at its mark-to-market price at least daily and assets with highly volatile prices are not acceptable as collateral, unless a sufficiently prudent discount or "haircut" is applied
- (c) The issuer of this collateral must be independent of the counterparty and must not be closely correlated with the counterparty's financial performance
- (d) This collateral must be sufficiently diversified by country, market and issuer, and no exposure to a single issuer may exceed 20 % of the Sub-fund's net asset value
- (e) The Sub-fund's Management Company must be able to enforce this collateral in full and at any time, without having to consult with the counterparty or obtain its approval.

Notwithstanding the condition specified in (d) above, the Fund may accept a basket of securities collateral that increases its exposure to a single issuer to more than 20% of its net asset value provided that:

- such securities collateral is issued by (i) a Member State, (ii) one or more of a Member State's local authorities, (iii) a country that is not a Member State (iv) a public international organization to which one or more Member States belong; and;
- such securities collateral consists of at least six different issues of securities of which no single issue exceeds 30% of the Sub-fund's assets.

Subject to the above conditions, the Sub-Fund may take collateral in the following forms:

- (ii) Cash and cash-equivalent assets, which for example include short-term bank deposits and balances and money-market instruments
- (iii) Bonds issued or guaranteed by an OECD member state, or by its local government entities, or by an EU, regional or global supranational institution or organisation, or by any country provided that conditions (a) to (e) above are fully complied with
- (iv) Shares or units issued by money-market funds that calculate a daily net asset value and have an AAA or equivalent credit rating
- (v) The shares or units of UCITS that invest mainly in the bonds and/or equities indicated in (v) and (vi) below
- (vi) Bonds issued or guaranteed by first-class issuers offering sufficient liquidity
- (vii) Equities admitted for trading or traded on a regulated exchange of an EU member country, on a stock exchange of an OECD member country or on a stock exchange of another country provided that conditions (a) to (e) above are fully complied with and that these equities are components of a major index.

Collateral discount policy:

The Sub-fund's management company shall apply a discount to the collateral accepted by the Sub-fund. The amount of these discounts will depend mainly on the following:

- The nature of the collateral asset;
- The collateral's maturity (if applicable);
- The credit rating of the collateral issuer (if applicable).

Reinvestment of collateral:

Non-cash collateral will not be sold, reinvested or pledged.

At the manager's discretion, cash collateral may either be:

- (i) deposited with an authorized institution
- (ii) invested in high-quality government bonds
- (iii) used for reverse repurchase transactions, provided that these are entered into with credit institutions that are subject to prudential supervision and that the fund is able to withdraw the total amount of its cash collateral and the accrued interest at any time
- (iv) invested in short-term money market funds that meet the guidelines for a common EU definition of money market funds.

All cash collateral that is reinvested must be invested in a diversified manner in compliance with the rules that apply to the acceptance of non-cash collateral.

RISK PROFILE

Investors' money will be invested mainly in the financial instruments selected by the asset manager. These instruments are subject to market trends and contingencies.

Investors in the Sub-fund will mainly be exposed to the following risks:

- Interest rate risk

The price of a bond can be affected by unexpected changes in the level of interest rates, which in particular may modify the shape of the yield curve in particular. The bonds that make up the Benchmark Index are exposed to changes in interest rates. In general, the price of a bond rises when interest rates fall, and falls when interest rates rise.

- Daily leverage adjustment risk

Investors are exposed to two times the daily changes which affect the price or level of the BTP futures that underlie the Benchmark Index. In particular, any decrease in the underlying market will be amplified and will imply a larger decrease in the Sub-fund's net asset value. Since the 'leverage' index formula is reset daily, over a period of more than one trading day the Sub-fund's return will not be twice that of the BTP futures that underlie the Benchmark Index.

For example, if the BTP futures underlying the Benchmark Index are subject to an increase of 10% on trading day one, followed by a decrease of 5% on trading day two, the Sub-fund will be subject to a total increase of 8% (before fees) over the two trading days, while the BTP futures underlying the Benchmark Index will be subject to an increase of 4.5% over the same period.

If the BTP futures underlying the Benchmark Index are subject to a decrease of 5% per day over two consecutive trading days, the Sub-fund will see a total decrease of 19% (before fees), while the BTP futures underlying the Benchmark Index will see a decrease of 9.75% over the same period.

Scenario 1 - negative leverage: The negative leverage effect is greater than 1 and the Benchmark Index underlying rises

	Benchmark Index underlying		Strategy Index		Leverage effect
	Performance day i	Value day i	Performance day i	Value day i	
Day 1		100		100	
	10%	110	20%	120	x2
Day 2	-11%	97.9	-22%	93.6	x2
Total return	-2.10%		-6.40%		x3.05

Scenario 2 - negative leverage: The negative leverage effect is less than 2 and the Benchmark Index underlying rises

	Benchmark Index underlying		Strategy Index		Leverage effect
	Performance day i	Value day i	Performance day i	Value day i	
Day 1		100		100	
	-5%	95	-10%	90	x2
Day 2	6%	100.7	12%	100.8	x2
Total return	0.70%		0.80%		x1.14

Furthermore, it is possible that if the Benchmark Index underlying is highly volatile over a period of more than one day the Sub-fund's net asset value may decline, even though the Benchmark Index underlying rose over this period.

Scenario 3 – inverse leverage: Case where the resulting leverage is negative over the period:

	Benchmark Index underlying		Strategy Index		Leverage effect
	Performance day i	Value day i	Performance day i	Value day i	
Day 1		100		100	
	20%	120	40%	140	x2
Day 2	-16%	100.8	-32%	95.2	x2

Total return	0.80%	-4.80%	x-6
---------------------	-------	--------	------------

- Risk that the investment objective is not fully achieved

There is no guarantee that the investment objective will be achieved, as no asset or financial instrument can ensure that the Benchmark Index will be automatically and continuously replicated, particularly in the event of one or more of the following risks:

- Risk of using derivative financial instruments

In order to achieve its investment objective, the Sub-fund can enter into transactions involving over-the-counter derivative financial instruments (DFI), such as swaps, in order to secure the performance of the Benchmark Index. These DFI involve various risks, such as counterparty risk, hedging disruption, Benchmark Index disruption, taxation risk, regulatory risk, operational risk and liquidity risk. These risks can materially affect an DFI and may require an adjustment of the DFI transaction or even its premature termination, which could adversely affect the Sub-fund's net asset value.

- Risk due to a change in the tax regime

A change in the tax regime of a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed could adversely affect the taxation of investors. In such an event, the Sub-fund manager shall not be liable to any investor with respect to any payment that may have to be made to a competent tax authority.

- Risk of a change in the taxation of the Sub-fund's underlying assets

A change in the taxation of the Sub-fund's underlying assets could adversely affect the taxation of the Sub-fund. In such an event a discrepancy between the estimated taxation and the actual taxation of the Sub-fund and/or of the Sub-fund's DFI counterparty may adversely affect the Sub-fund's net asset value.

- Regulatory risk affecting the Sub-fund

In the event of a change in the regulatory regime in a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed, the subscription, conversion or redemption of units or shares may be adversely affected.

- Regulatory risk affecting the Sub-fund's underlying assets

In the event of a change in the regulations that govern the Sub-fund's underlying assets, the Sub-fund's net asset value and the subscription, conversion or redemption of shares may be adversely affected.

- Benchmark Index disruption risk

If an event adversely affects the Benchmark Index, the Sub-fund manager may be required, as provided for by law, to suspend the subscription and redemption of the Sub-fund's shares or units. The calculation of the Sub-fund's net asset value could also be adversely affected.

If the disruption of the Benchmark Index persists, the Sub-fund manager will determine an appropriate course of action, which could decrease the Sub-fund's net asset value.

A 'Benchmark Index event' includes but is not limited to the following situations:

- i) the Benchmark Index is deemed to be inaccurate or does not reflect actual market developments
- ii) the Benchmark Index is permanently cancelled by the index provider
- iii) the index provider is unable to indicate the level or value of the Benchmark Index
- iv) the index provider makes a material change in the Benchmark Index calculation formula or method (other than a minor modification such as an adjustment to the Benchmark Index's underlying components or their respective weightings) which the Sub-fund cannot effectively replicate at a reasonable cost
- v) a Benchmark Index component becomes illiquid because it is no longer traded on a regulated market or because its trading over-the-counter (e.g. bonds) is disrupted
- vi) the Benchmark Index components are exposed to higher transaction costs for execution or settlement/delivery, or to specific tax constraints and these costs are not reflected in the Benchmark Index's performance.

- Corporate action risk

An unforeseen change, by the issuer of a security that is a component of the Benchmark Index, in a planned corporate action that is in contradiction with a previous official announcement on which the Sub-fund based its valuation of the corporate action (and/or on which the Sub-fund's counterparty to a financial derivative instrument or transaction based its valuation of the corporate action) can adversely affect the Sub-fund's net asset value, particularly if the Sub-fund's treatment of the corporate event differs from that of the Benchmark Index methodology.

- Capital risk:

The capital invested is not guaranteed. Investors therefore may not recover all or part of their initial investment, particularly in the event that the Benchmark Index posts a negative return over the investment period.

- Counterparty risk

The Sub-fund is exposed to the risk that a counterparty with which the Sub-fund has entered into a contract or transaction may go bankrupt or default on a settlement or other obligation. The Sub-fund is mainly exposed to counterparty risk resulting from the use of derivative financial instruments (DFI) traded over the counter with Société Générale or some other counterparty. In compliance with UCITS regulations, exposure to counterparty risk (whether the counterparty is Société Générale or another entity), cannot exceed 10% of the Sub-fund's total assets per counterparty.

If a counterparty defaults on an obligation the DFI contract may be terminated before maturity. The Sub-fund will do everything in its power to achieve its investment objective by, if appropriate, entering into another DFI contract with another counterparty at the market conditions at the time of such an event.

If this counterparty risk materializes it could have an impact on the Sub-fund's ability to achieve its investment objective of replicating the Benchmark Index. When Société Générale is the DFI counterparty, conflicts of interest may arise between it and the Sub-fund's management company, which has procedures to identify and reduce such conflicts of interest and to resolve them equitably if necessary.

- Liquidity risk (primary market)

The Sub-fund's liquidity and/or value may be adversely affected if, when the Sub-fund or a counterparty to a financial derivative instrument (DFI) is rebalancing its exposure, the underlying financial markets are restricted, closed, or subject to wide bid/offer spreads. An inability, due to low trading volume, to execute the trades required to replicate the Benchmark Index may also adversely affect the subscription, conversion or redemption of shares or units.

- Liquidity risk (secondary market)

The price of the Sub-fund's listed shares may deviate from the Sub-fund's indicative net asset value. The liquidity of the Sub-fund's shares traded on a given exchange may be adversely affected by a suspension in trading for various reasons, such as:

- i) the calculation of the Benchmark Index is suspended or stopped
- ii) trading in the market(s) in the Benchmark Index's underlying assets is suspended
- iii) an exchange cannot obtain or calculate the Sub-fund's indicative net asset value
- iv) a market maker fails to comply with an exchange's rules
- v) an exchange's IT, electronic or other system fails.

- Low diversification risk:

The Benchmark Index to which investors are exposed represents only the Italian sovereign bond market, which may provide a smaller diversification of assets when compared to a broader index exposed to several regions, sectors or strategies. Exposure to such a less-diversified index may result in higher volatility than more diversified markets. Nevertheless, diversification rules of the UCITS Directive still apply to the Sub-fund's underlying assets at all times.

- Credit risk

This is the risk that a credit-rating agency could lower an issuer's credit rating, which would adversely affect the price of the issuer's bond and increase the issuer's default risk. The Sub-fund is exposed to Italy's sovereign credit risk.

- Legal risk

The Fund may be exposed to a legal risk arising from a total return swap (TRS) agreement as indicated in EU Regulation No. 2015/2365.

ELIGIBLE INVESTORS AND TYPICAL INVESTOR PROFILE

The Sub-fund is available to all investors.

Investors in this Sub-fund are seeking exposure to increases and decreases, with 2x daily leverage, in Italian government bond prices, by replicating the performance of the Benchmark Index. The amount that can be reasonably invested in the Sub-fund depends on each investor's personal situation. To determine this amount, investors must take into account their personal wealth and/or estate, their cash requirements currently and for the next five years, and their willingness to take on risk or their preference for more prudent investment. Investors are also advised to diversify their investments sufficiently so as not to be exposed solely to this Sub-fund's risks.

All investors are therefore asked to consider their specific situation with the help of their usual investment advisor.

The recommended minimum investment period is at least five years.

CALCULATION AND APPROPRIATION OF DISTRIBUTABLE AMOUNTS

The Board of Directors reserves the right to accumulate and/or distribute all or part of all distributable amounts. Realized net capital gains will be accumulated.

DISTRIBUTION FREQUENCY

In the event of distribution, If a distribution is decided, the Board of Directors reserves the right to distribute all or part of the distributable amounts in one or more distributions per annum.

SHARE CHARACTERISTICS

Subscription orders may be placed for a specific monetary amount or for a whole number of shares.

Only a whole number of shares may be redeemed.

SHARE CURRENCY

EUR

SUBSCRIPTION AND REDEMPTION

1 / SUBSCRIPTION AND REDEMPTION ON THE PRIMARY MARKET

Subscription/redemption orders for shares in the Sub-fund will be processed by the Depositary from 10:00 am to 5.00 pm (Paris time), every day that the Sub-fund's net asset value is to be published, provided that prices can be quoted for a significant proportion of the Benchmark Index components (hereinafter a "**Primary Market Day**"), and will be executed at the net asset value on that Primary Market Day, hereinafter the "**reference NAV**". Subscription/redemption requests submitted after 5.00 pm (Paris time) on a Primary Market Day will be processed as if received from 10:00 am to 5.00 pm (Paris time) on the following Primary Market Day. Orders to subscribe for or redeem shares in the Sub-fund must be made for a number of shares that represents at least 100,000 euros.

Subscriptions and redemptions in cash

Subscriptions and redemptions shall be made exclusively in cash and executed at the ref NAV.

Delivery and settlement

Settlement/delivery of subscriptions and redemptions shall be completed within five French trading days (as defined below) upon receipt of the subscription or redemption order.

Date and frequency of NAV calculation

The net asset value will be calculated and published daily, provided that at least one exchange on which the Sub-fund's shares are listed is open and that orders placed in the primary and secondary markets can be funded.

2 / PURCHASES AND SALES ON THE SECONDARY MARKET

A. COMMON PROVISIONS

For any purchase or sale of shares in the Sub-fund executed directly on an exchange on which the Sub-fund is admitted or will be admitted for continuous trading, no minimum purchase or sale amount is required other than that which may be required by the relevant exchange(s).

Shares in a listed fund that are purchased on the secondary market cannot generally be directly sold back to that fund. Investors must therefore buy and sell their shares or units on a secondary market through an intermediary (e.g. a broker) and may consequently incur costs. Furthermore, there is a possibility that investors may pay more than the indicative net asset value when buying shares or units and receive less than the indicative net asset value when selling shares or units.

If the stock market value of a listed fund's shares or units differs significantly from their indicative net asset value, or if trading in the fund's shares or units is suspended, investors may be authorized, subject to the conditions set forth below, to redeem their shares or units in the primary market directly from the fund, without being subject to the minimum redemption amount requirement set forth herein in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)".

The management company shall decide whether to allow such primary market redemptions and for how long, on the basis of the following criteria for assessing the significance of a market disruption:

- The suspension or strong disturbance of secondary trading on a given exchange is relatively frequent
- The link between the market disruption and secondary market operators (such as the default of one or more of the Market Makers of a given exchange, or a breakdown or malfunction of an exchange's IT or operating systems), excluding a disruption caused by a source external to the secondary exchange on which the Sub-fund's shares are traded, such as an event that affects the liquidity and valuation of all or some of the Benchmark Index's components
- Any other objective circumstance that could adversely affect the fair treatment and/or the interests of the Sub-fund's share-holders.

Notwithstanding the provisions concerning fees presented in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)", redemptions made in the primary market in this case shall only be subject to a net redemption fee of 3% paid to the Sub-fund and which serves to cover its trading costs.

In such exceptional cases when redemption in the primary market is allowed, the Management Company shall post on Lyxor's website at www.lyxor.etf.com the procedure that investors must observe to redeem their shares or units in the primary market. The Management Company shall also make this procedure available to the market undertaking that handles trading in the Sub-fund's shares.

B SPECIFIC PROVISIONS

a) If the Sub-fund's shares are listed on Euronext Paris, as indicated in the "Key Information" section, investors should note the following rules

Negotiability of shares and information about the financial institutions acting as Market Makers:

The shares are freely negotiable on the Euronext Paris regulated market under the following conditions and according to the applicable legal and regulatory provisions.

The Sub-fund shares will be listed on a specific trading list, the rules for which are defined in the following instructions published by Euronext Paris SA:

- Instruction No. 4-01 " Universal Trading Platform Manual"
- Appendix to Instruction N4-01 (Appendix to the Euronext Market Trading Manual)
- Instruction No. 6-04 "Documentation to be provided when filing a listing application for an ETF, ETN, ETV and open-ended undertakings for collective investment other than"

Pursuant to article D 214-22-1 of the French Monetary and Financial Code the units or shares of undertakings for collective investments in transferable securities may be admitted to trading, provided that these undertakings have a system to ensure that the market price of their units or shares does not differ significantly from their net asset value. Under Euronext Paris SA's rules trading in the Sub-fund's shares is also subject to a 'reservation threshold' of 1.5% above or below the Sub-fund's indicative net asset value or "iNAV" (see the "Indicative Net Asset Value" section), as published by Euronext Paris SA and updated on an estimated basis during trading in accordance with the change in the Benchmark Index.

To comply with Euronext Paris SA's reservation threshold requirement (see the section entitled "Indicative net asset value") the Market Makers will ensure that the market price of the Sub-fund's shares does not differ from the Sub-fund's indicative NAV by more than 1.5%.

Euronext Paris SA may suspend trading in the Sub-fund's shares pursuant to the terms of its operating rules, if the aforementioned reservation threshold limit is exceeded.

Euronext Paris SA will also suspend trading in the Sub-fund's shares in the following cases:

- the Benchmark Index is no longer traded or calculated
- Euronext Paris SA cannot obtain the Benchmark Index's level
- Euronext Paris SA cannot obtain the Sub-fund's net asset value

In accordance with the terms and conditions governing admission to trading on Euronext Paris, the Market Makers undertake to provide market-making services for the Sub-fund's shares as soon as they are admitted to trading on the Euronext Paris exchange.

In particular, the Market Makers undertake to carry out market-making operations by maintaining a significant presence in the market, which initially entails the setting of a bid/ask spread.

More specifically, the Market Makers are required by contract with Euronext Paris SA to ensure that the Sub-fund maintains:

- a maximum global spread of 1.5% between the bid and offer price in the centralized order book.
- a minimum nominal trading value of EUR 100,000.

The obligations of the Sub-fund's Market Makers will be suspended in the following cases:

- the Benchmark Index is no longer traded or calculated
- if trading is substantially disrupted, for example due to a widespread shift in prices or an event that makes normal market making impossible.

Indicative Net Asset Value:

Euronext Paris SA will calculate and publish, each Trading Day (as defined below) during trading hours, the Sub-fund's indicative net asset value (hereinafter "iNAV").

A "**Trading Day**" is a day on which NSYE Euronext is normally open and on which the Benchmark Index is normally published.

The Sub-fund's iNAV is a theoretical net asset value calculated every 15 seconds by Euronext SA throughout the Paris trading day and is based on the level of the Benchmark Index. The iNAV enables investors to compare the prices that the Market Makers offer on the market with the theoretical value calculated by Euronext.

The iNAV will be calculated every day that the net asset value is calculated and published.

To calculate the Sub-fund's iNAV throughout the Paris trading session (from 9.05 am to 5.35 pm), Euronext Paris SA will use the Benchmark Index value published by Reuters.

The Long-Term Euros-BTP futures prices used to calculate the Benchmark Index and therefore to determine the iNAV, is provided to Reuters by Eurex.
If Eurex is closed (on a public holiday on the TARGET calendar), the Benchmark Index price cannot be determined, the net asset value can no longer be calculated and trading in the Sub-fund's shares may be suspended.

Lyxor International Asset Management, the Sub-fund's asset manager, will provide Euronext with all the financial and accounting data that Euronext Paris SA needs to calculate the Sub-fund's iNAV and in particular:

- The day's estimated net asset value
- The official net asset value of the previous business day
- The level of the Benchmark Index on the previous business day.

These data will serve as a basis for Euronext Paris SA's calculations to determine the Sub-fund's iNAV for the following Trading Day, which is updated in real time.

b) If the shares are listed on an exchange other than Euronext Paris, as indicated in the "Key Information" section, investors should note the following rules

Investors wishing to acquire shares in the Sub-fund or obtain more information regarding the market-making terms that govern the listing and trading of shares on the types of exchanges indicated in the "Key Information" section are advised to familiarize themselves with the guidelines laid down by the relevant market undertaking in compliance with local regulations, and to seek if necessary the assistance of their usual broker(s) for executing trades on the relevant exchange(s).

FEES AND CHARGES

SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)

The subscription and redemption fees shown below respectively increase the subscription price paid by the investor and decrease the redemption price received. Fees kept by the Sub-fund compensate it for the expenses it incurs in investing in the Sub-fund's assets or in divesting these assets. Any fees that are not kept by the Sub-fund are paid to the asset manager, the marketing agent or other service provider.

Fees paid by investors upon subscription or redemption	Base	Maximum charge
Subscription fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per subscription order or 5% payable to third parties
Subscription fee kept by the Sub-fund	NAV per share x number of shares	N/A
Redemption fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per redemption order or 5%, payable to third parties
Redemption fee kept by the Sub-fund	NAV per share x number of shares	N/A

OPERATIONAL AND MANAGEMENT FEES:

These fees cover all the costs invoiced directly to the Sub-fund, except for transaction expenses, which include intermediary fees (brokerage, stock market taxes etc.) and any account activity charge that may be charged by the depositary or the asset manager, in particular.

For this Sub-fund the following fees may be charged in addition to the operating and management fees (see table below):

- incentive fees, which the Sub-fund pays to the management company when the Sub-fund exceeds its objectives
- account activity charges charged to the Sub-fund.

For more information on the fees or expenses that the Sub-fund must pay, see the Statistics section of the Key Investor Information Document (KIID).

Fees charged to the Sub-fund	Base	Maximum charge
Investment management fees and administration fees that are external to the management company (auditor, depositary, fund distribution and legal fees) including tax ⁽¹⁾	Net asset value	0.40% per annum
Incentive fee	Net asset value	N/A
Account activity charge	Charge on each transaction	N/A

⁽¹⁾ Includes all fees and expenses except for transaction expenses, incentive fees and fees associated with investment in UCITS.

COMMERCIAL INFORMATION

Distribution of this prospectus and the offering or purchase of the Fund's share units may be subject to restrictions with regard to certain persons or in certain countries under national regulations that may apply to these persons or countries. Investors are therefore responsible for ensuring that they can legally subscribe to or invest in this Fund. The information in this prospectus therefore cannot be construed to be an offer or solicitation to buy or sell shares in this Fund in a country where such offer or solicitation is unlawful.

The Fund's share classes will not be registered pursuant to the U.S. Securities Act of 1933, as amended (the "U.S. Securities Act") and cannot be offered, assigned, transferred or allocated to the United States of America, or to:

- (A) any "U.S. Person", as this term is defined (i) under Regulation S of the US Securities Act of 1933 and (ii) under U.S. regulations as defined in Section 7701 (a) (30) of the Internal Revenue Code of 1986 as amended. The Fund's shares will not be offered to U.S. Persons.
- (B) anyone other than those persons considered to be "non-US Persons" as this term is defined under U.S. regulations pursuant to the Commodity Futures Trading Commission, Rule 4.7 (a) (1) (iv).

The Fund's shares will only be offered for sale outside of the United States of America to non-U.S. Persons.

For the purpose of this document, the term "U.S. Person" shall mean, among other things, any individual who resides in the United States of America, any entity organized or formed under the laws of the United States of America, certain entities organized or formed outside of the United States of America by one or more U.S. persons, or any account held on behalf of such a U.S. person.

Before making an investment in this Fund or Sub-fund, investors should seek the advice of their financial, tax and legal advisers.

PLACE AND METHOD OF NET ASSET VALUE PUBLICATION OR COMMUNICATION

At the head office of LYXOR INTERNATIONAL ASSET MANAGEMENT, at 17, cours Valmy - 92987 Paris La Défense CEDEX - France.

The Sub-fund's net asset value will be calculated and published by Euronext Paris SA on each Paris Trading Day, during trading hours.

IMPORTANT INFORMATION ABOUT THE BENCHMARK INDEX PROVIDER

The LYXOR ETF DAILY LEVERAGED BTP sub-fund is in no way sponsored, endorsed, sold or promoted by Société Générale Index (SGI), which is a registered trademark of the Société Générale group (hereinafter the "Licensor"). The Licensor makes no warranty, guarantee or commitment, whether express or implied, as to the income to be obtained from using the SGI DAILY LEVERAGED BTP index and/or the level that this index may reach at any given time or of any other type. The Licensor shall not be liable, to anyone whomsoever, for any error that affects the Benchmark Index and shall have no obligation to inform anyone whomsoever of any such error. The SGI DAILY LEVERAGED BTP index is the exclusive property of Société Générale. Société Générale has signed a contract with Standard & Poor's, under the terms of which S&P undertakes to calculate and maintain the Benchmark Index. However, S&P may not be held liable in the event of an error or omission in the calculation of the Benchmark Index.

ADDITIONAL INFORMATION

The Sub-fund's shares are approved for clearing by Euroclear France S.A.

Subscription and redemption orders are sent by the investors' financial intermediaries (members of Euroclear France SA) to the Depositary.

Pursuant to Article L. 533-22-1 of the French Monetary and Financial Code, information concerning the possible inclusion of social, environmental and corporate governance objectives and performance criteria in the investment policy is available on the management company's website and in the Multi Unit France fund annual report.

The Multi Units France fund prospectus, the Key Investor Information Document and the most recent annual documents will be sent to investors within eight business days upon written request addressed to:

LYXOR INTERNATIONAL ASSET MANAGEMENT
17 Cours Valmy - 92987 Paris La Défense France.

e-mail: contact@lyxor.com

More information can also be requested from Lyxor International Asset Management on its website at www.lyxoretf.com.

The AMF's website (www.amf-france.org) provides more information on the regulatory documents and various provisions that concern investor protection. This Prospectus shall be made available to investors prior to subscription.

INVESTMENT RULES

The Sub-fund will comply with the investment rules of European Directive 2009/65/EC of 13 July 2009.

The Sub-fund may invest in the assets specified in Article L214-20 of the French Monetary and Financial Code, subject to the risk-diversification and investment ratio requirements of Articles R214-21 to R214-27 of said Code.

Notwithstanding the 10% limit under Paragraph II of Article R214-21 of the French Monetary and Financial Code, the Sub-fund may invest up to 20% of its assets in the equities and debt securities of a single issuer, in compliance with Article R214-22-I, which deals with index-tracking funds. Pursuant to Article R214-22 II, the Sub-fund may also increase this 20% limit for a single issuer to 35%, when this is justified by exceptional market conditions, and in particular when certain securities are largely dominant.

Notwithstanding the above, securities guaranteed or issued by a given issuer can account for up to 35% of assets and up to 100% if the Sub-fund holds at least six issues of which none exceeds 30% of assets, provided that these securities are financial instruments issued or guaranteed by an OECD member state, the local authorities of a European Union member state or a country that is a member of the European Economic Area.

OVERALL RISK EXPOSURE

The commitment approach is used to calculate the overall risk exposure.

ASSET VALUATION AND ACCOUNTING RULES

A. VALUATION RULES

The Sub-fund's assets are valued in accordance with applicable laws and regulations and most notably Regulation No. 2014-01 of 14 January 2014 of the Comité de la Rééglementation Comptable (the Accounting Regulations Committee), which applies to the chart of accounts for undertakings for collective investment in transferable securities.

Financial instruments traded on a regulated market are valued at the closing price recorded on the day prior to the calculation of the net asset value. If these financial instruments are traded on several regulated markets at the same time, the closing price used is that recorded on the regulated market on which they are principally traded.

However, in the absence of significant trading on a regulated market, the following financial instruments are valued using the following methods:

- Negotiable debt securities ("NDS") with a remaining life upon acquisition that is less than or equal to three months are valued by applying the difference between the acquisition value and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life of more than three months upon acquisition but less than or equal to three months at the net asset value calculation date are valued by applying the difference between the most recent valuation and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life at the net asset value calculation date that exceeds three months are valued at their current value. The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- Financial futures traded on organized markets are valued at the clearing price on the day prior to the calculation of the net asset value. Options traded on organized markets are valued at their market price on the day prior to the calculation of the net asset value. Forward contracts and over-the-counter options are valued at the price quoted by the counterparty. The management company monitors these prices independently.
- Bank deposits are valued at their nominal value plus accrued interest.
- Warrants, short and medium-term notes (bons de caisse), promissory notes and mortgage notes are valued under the management company's responsibility at their most likely trading value.
- Securities financing transactions are valued at the market price.
- Shares and units in UCITS under French law are valued at the last known net asset value on the day the Sub-fund's net asset value is calculated.
- Shares and units in foreign investment funds are valued at the last known unitary net asset value at the date the Sub-fund's net asset value is calculated.
- Financial instruments traded on a regulated market and for which no price has been quoted or whose price has been corrected, are valued under the management company's responsibility at their most likely trading value.
- The exchange rates used to value financial instruments denominated in a currency other than the Sub-fund's base currency are the WM Reuters fixing rates published on the day the Sub-fund's net asset value is calculated.

B. ACCOUNTING METHOD FOR TRADING EXPENSES

Trading expenses are included in the initial cost of the transaction.

C. ACCOUNTING METHOD FOR INCOME FROM FIXED-INCOME SECURITIES

Income from fixed-income securities is accounted for using the cash-basis method.

D. DISTRIBUTION POLICY

For more information see the section entitled "Calculation and appropriation of Distributable amounts"

E. ACCOUNTING CURRENCY

The Sub-fund's accounts are kept in euros.

SUB-FUND NO. 8: Lyxor Bund Daily (2x) Leveraged UCITS ETF

A SICAV SUB-FUND COMPLIANT WITH DIRECTIVE 2009/65/CE

ISIN CODE

Share class: FR0011023654

CLASSIFICATION

Bonds and other debt securities denominated in euros.

The Lyxor Bund Daily (2x) Leveraged UCITS ETF sub-fund (the "Sub-fund") is continuously exposed to fixed-income securities denominated in euros. Exposure to equity risk does not exceed 10% of the net assets.

The Sub-fund is a UCITS ETF type index tracker.

INCEPTION DATE

The Sub-fund was approved by l'autorité des Marchés Financiers (the French financial markets authority) on 6 April 2011, and was established on 27 April 2011.

INVESTMENT OBJECTIVE

The Sub-fund's investment objective is to provide exposure, with daily 2x leverage, to increases and decreases in the prices of German sovereign bonds having an average maturity of 10 years, by replicating the movement of the SGI Daily Leveraged Bund index (the "**Benchmark Index**"), denominated in euros (EUR), while minimizing the tracking error between the Sub-fund's performance and that of its Benchmark Index.

The expected tracking error, monitored ex-post under normal market conditions is 0.02%.

BENCHMARK INDEX

The Sub-fund's Benchmark Index is the SGI Daily Leveraged Bund.

The Benchmark Index is a strategy index developed by Société Générale's research staff using a proprietary methodology. It is calculated and maintained by Standard & Poor's.

The Benchmark Index provides exposure, with daily 2x leverage, to increases and decreases in the prices of German sovereign bonds having an average maturity of 10 years using Bund futures as a representative index, with 2x daily leverage. Accordingly, if Bund futures rise on a given trading day, the Sub-fund's net asset value will increase by twice the amount that day, and if the Bund futures falls on a given trading day, the Sub-fund's net asset value will fall by twice that amount that day.

Bund futures are a representative indicator of German sovereign bonds having an average maturity of 10 years. Bund futures are listed on Eurex and their methodology is available on www.eurexchange.com

The Benchmark Index's daily performance is twice that of the Bund futures, plus the daily interest (at the EONIA rate) paid on the previous day's Bund futures price at 5: 40 pm.

The Benchmark Index therefore represents a long position on Bund futures with 2x leverage and daily rebalancing. The index may be rebalanced during a trading session if it falls by more than 40%, i.e. if the absolute intra-day decline in Bund futures exceeds 20%.

The performance tracked is the Benchmark Index 5.40 pm fixing in euros

Since the methodology used to calculate the Benchmark Index is not based on direct investment in Bunds but on indirect investment in futures, the Sub-fund's performance will be affected by the cost of 'rolling over' positions on these futures contracts every quarter. Over time this could significantly diminish the Sub-fund's performance in comparison with the gross performance of the underlying of the aforementioned futures contracts, particularly in the case of a long-term investment in the Sub-fund.

A full description of the Benchmark Index and its construction methodology and information on its composition are available on the Internet at: www.sgindex.fr

Benchmark Index composition and revision

The Benchmark Index's revision depends on that of the Bund.

More information on the index's construction methodology is available on the Internet at www.sgindex.fr

Benchmark Index publication

The Benchmark Index is calculated daily at the official Bund futures fixing price at 5: 40 pm.

The Benchmark Index is also calculated in real time every stock exchange trading day.

The Benchmark Index is available through Reuters and Bloomberg.

Reuters code: .SGIXDLBU

Bloomberg code: SGIXDLBU

The Benchmark Index is rebalanced daily.

The frequency with which the Benchmark Index is rebalanced does not affect the cost of implementing the Investment Strategy.

Pursuant to Article 52 of European Parliament and Council Regulation 2016/1011 of 8 June 2016, S&P Dow Jones, the administrator of the SGI Daily Leveraged Bund benchmark index, has until 1 January 2020 to apply for approval or registration as applicable.

As of the date of the most recent version of this prospectus, the benchmark index administrator was not yet listed in ESMA's register of benchmark administrators.

Pursuant to European Parliament and Council Regulation 2016/1011 of 8 June 2016, the asset management company has a procedure for monitoring the benchmark indices used that specifies the measures to be implemented if an index is substantially modified or is no longer provided.

INVESTMENT STRATEGY

1. Strategy employed

The Sub-fund will comply with the investment rules of European Directive 2009/65/EC of 13 July 2009.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund will employ an indirect replication method, which means that it will enter into one or more OTC swap contracts enabling it to achieve its investment objective. These swap contracts will serve to exchange the value of the Sub-fund's assets, which will consist of cash and/or balance sheet assets (excluding any securities received as collateral), for the value of the securities that underlie the Benchmark Index.

Investors subscribing to this sub-fund gain inverse exposure, with a daily 2x leverage, to increases and decreases in the performance of the 10-year (average) German Government bond market, of which the Bund is a representative indicator.

The Sub-fund's securities will be mainly those that make up the Benchmark Index, and also other international equities, in all economic sectors and listed in all markets, including small-cap markets.

The basket of securities held may be adjusted daily such that its value will generally be at least 100% of the net assets. When necessary, this adjustment will be made to ensure that the counterparty risk arising from the aforementioned swap contract will be neutralized.

Information on the updated composition of the basket of 'balance sheet' assets in the Sub-fund's portfolio and the value of the swap contract concluded by the Sub-fund, is available on the page dedicated to the Sub-fund on Lyxor's website at www.lyxoretf.com. The frequency of any updates and/or the date on which the aforementioned information is updated is also indicated on the same page of the aforementioned website.

Up to 20% of the Sub-fund's assets may be exposed to debt issued by a non-OECD country. This 20% limit can be increased to 35% for a single bond, when this is justified by exceptional market conditions and in particular when certain securities are largely dominant, or a debt issue is highly volatile, or a political and/or economic event has affected or may affect the estimated debt of an issuing country or its credit rating, or in any other event that is likely to affect the liquidity of a Benchmark Index security.

Notwithstanding the above, securities issued by a given sovereign issuer may account for up to 35% of assets, and 100% of assets if the Sub-fund holds at least six issues none of which exceeds 30% of assets, provided that these securities are financial instruments issued or guaranteed by an OECD member state, the local authorities of a European Union member state or a country that is a member of the European Economic Area.

Sub-fund's targeted interest-rate sensitivity	From 14 to 22
Currencies in which the Sub-fund's securities are denominated	Euros: up to 100% of net assets Other: up to 100% of net assets
Foreign exchange risk to which the Sub-fund is exposed	0% maximum of net assets.
Geographic regions of the issuers of the securities to which the Sub-fund is exposed	Eurozone: up to 100% of net assets Emerging countries: 0% of net assets

The manager currently intends to invest mainly in the assets indicated below.

2. Balance sheet assets (excluding embedded derivatives)

The Sub-fund may invest, in compliance with regulatory ratios, international securities (equities and bonds) denominated in an OECD currency.

These securities will be bonds largely selected on the basis of the following eligibility criteria:

- senior debt
- fixed maturity
- maximum residual maturity
- minimum issuance size
- minimum S&P or equivalent credit rating
- diversification criteria, and in particular:
 - the issuer (application of investment ratios to assets that qualify for UCITS, pursuant to Art. R214-21 of the French Monetary and Financial Code)
 - geographic
 - sector

Investors may find more information on the above eligibility and diversification criteria, and in particular the list of eligible indices, on Lyxor's website at www.lyxoretf.com.

Investment in undertakings for collective investment in transferrable securities ("UCITS") that comply with Directive 2009/65/EC is limited to 10% of the Sub-fund's net assets.

The fund manager will not invest in the shares or units of alternative investment funds (AIF) or other investment funds that were formed under a foreign law. The Sub-fund may invest in the shares of UCITS managed by the management company or by a company that is related to the management company.

To optimize the Sub-fund's management and achieve its investment objective, the asset manager reserves the right to use other financial instruments, in compliance with regulations.

3. Off-balance sheet assets (derivatives)

The Sub-fund will use OTC index-linked swaps that swap the value of the Sub-fund's assets (or the value of any other financial instrument or asset in the Sub-fund) for the value of the Benchmark Index (as described in part 1 of this section).

- Maximum proportion of assets under management for which total return swaps (TRS) may be entered into: 100%.
- Expected proportion of assets under management for which total return swaps (TRS) may be entered into: up to 100%.

To optimize the Sub-fund's management and achieve its investment objective, the manager reserves the right to use other financial instruments in compliance with regulations, such as derivative instruments other than index-linked swaps.

In accordance with its best execution policy, the management company considers that Société Générale is the counterparty that is generally able to obtain the best possible execution for these derivative financial instruments. Accordingly, these derivative financial instruments (including index-linked swaps) may be traded via Société Générale without having to seek a competitive bid from another counterparty.

The counterparty of the derivative financial instruments referred to above (the "Counterparty") will have no discretionary power over the composition of the Sub-fund's portfolio nor over the underlying assets of the derivative financial instruments.

4. Securities with embedded derivatives

N/A.

5. Cash deposits

In order to optimize its cash management, the Sub-fund may deposit funds representing up to 20% of its net assets with credit institutions that belong to the same group as the depositary.

6. Cash borrowing

The Sub-fund may temporarily borrow up to 10 % of its net assets.

7. Securities financing transactions

The Sub-fund shall not engage in any temporary purchases or sales of securities.

8. Collateral

Whenever the investment strategy exposes to the Sub-fund to counterparty risk, and in particular when the Sub-fund uses over-the-counter swaps, the Sub-fund may accept eligible securities as collateral to reduce the counterparty risk associated with these swaps. The portfolio of collateral received may be adjusted daily to ensure that its value is at least sufficient to cover the Sub-fund's counterparty risk in most cases. The purpose of this adjustment is to neutralize the Sub-fund's counterparty risk.

The Sub-fund will have full title to all collateral received, which will be deposited in the Sub-fund's account with the depositary. This collateral will therefore be included in the Sub-fund's assets. If a counterparty defaults on an obligation, the Sub-fund may dispose of the assets received from the counterparty in respect of the secured transaction to pay off the counterparty's debt to the Sub-fund.

All collateral the Sub-fund receives for this purpose must comply with the applicable laws and regulations, with respect in particular to the liquidity and valuation of the collateral, the credit-worthiness of securities issuers, risk exposure correlation and the risks of collateral management and enforceability. All collateral received must in particular meet the following criteria:

- (a) All collateral must be of high quality, be highly liquid and tradable on a regulated market or on a multilateral trading facility, with transparent pricing to enable the collateral to be rapidly sold near its estimated price
- (b) This collateral must be valued at its mark-to-market price at least daily and assets with highly volatile prices are not acceptable as collateral, unless a sufficiently prudent discount or "haircut" is applied
- (c) The issuer of this collateral must be independent of the counterparty and must not be closely correlated with the counterparty's financial performance
- (d) This collateral must be sufficiently diversified by country, market and issuer, and no exposure to a single issuer may exceed 20 % of the Sub-fund's net asset value
- (e) The Sub-fund's Management Company must be able to enforce this collateral in full and at any time, without having to consult with the counterparty or obtain its approval.

Notwithstanding the condition specified in (d) above, the Fund may accept a basket of securities collateral that increases its exposure to a single issuer to more than 20% of its net asset value provided that:

- such securities collateral is issued by (i) a Member State, (ii) one or more of a Member State's local authorities, (iii) a country that is not a Member State (iv) a public international organization to which one or more Member States belong; and;
- such securities collateral consists of at least six different issues of securities of which no single issue exceeds 30% of the Sub-fund's assets.

Subject to the above conditions, the Sub-Fund may take collateral in the following forms:

- (i) Cash and cash-equivalent assets, which for example include short-term bank deposits and balances and money-market instruments
- (ii) Bonds issued or guaranteed by an OECD member state, or by its local government entities, or by an EU, regional or global supranational institution or organisation, or by any country provided that conditions (a) to (e) above are fully complied with
- (iii) Shares or units issued by money-market funds that calculate a daily net asset value and have an AAA or equivalent credit rating
- (iv) The shares or units of UCITS that invest mainly in the bonds and/or equities indicated in (v) and (vi) below
- (v) Bonds issued or guaranteed by first-class issuers offering sufficient liquidity
- (vi) Equities admitted for trading or traded on a regulated exchange of an EU member country, on a stock exchange of an OECD member country or on a stock exchange of another country provided that conditions (a) to (e) above are fully complied with and that these equities are components of a major index.

Collateral discount policy:

The Sub-fund's management company shall apply a discount to the collateral accepted by the Sub-fund. The amount of these discounts will depend mainly on the following:

- The nature of the collateral asset;
- The collateral's maturity (if applicable);
- The credit rating of the collateral issuer (if applicable).

Reinvestment of collateral:

Non-cash collateral will not be sold, reinvested or pledged.

At the manager's discretion, cash collateral may either be:

- (i) deposited with an authorized institution
- (ii) invested in high-quality government bonds
- (iii) used for reverse repurchase transactions, provided that these are entered into with credit institutions that are subject to prudential supervision and that the fund is able to withdraw the total amount of its cash collateral and the accrued interest at any time
- (iv) invested in short-term money market funds that meet the guidelines for a common EU definition of money market funds.

All cash collateral that is reinvested must be invested in a diversified manner in compliance with the rules that apply to the acceptance of non-cash collateral.

RISK PROFILE

Investors' money will be invested mainly in the financial instruments selected by the asset manager. These instruments are subject to market trends and contingencies.

Investors in the Sub-fund will mainly be exposed to the following risks:

- Interest rate risk

The price of a bond can be affected by unexpected changes in the level of interest rates, which in particular may modify the shape of the yield curve in particular. The bonds that make up the Benchmark Index are exposed to changes in interest rates. In general, the price of a bond rises when interest rates fall, and falls when interest rates rise.

- Daily leverage adjustment risk

Investors are exposed to two times the daily changes which affect the price or level of the Bund futures that underlie the Benchmark Index. In particular, any decrease in the underlying market will be amplified and will imply a larger decrease in the Sub-fund's net asset value. Since the 'leverage' index formula is reset daily, over a period of more than one trading day the Sub-fund's return will not be twice that of the Bund futures that underlie the Benchmark Index.

For example, if the Bund futures underlying the Benchmark Index are subject to an increase of 10% on trading day one, followed by a decrease of 5% on trading day two, the Sub-fund will be subject to a total increase of 8% (before fees) over the two trading days, while the Bund futures underlying the Benchmark Index will be subject to an increase of 4.5% over the same period.

If the Bund futures underlying the Benchmark Index are subject to a decrease of 5% per day over two consecutive trading days, the Sub-fund will see a total decrease of 19% (before fees), while the Bund futures underlying the Benchmark Index will see a decrease of 9.75% over the same period.

Scenario 1 - negative leverage: The negative leverage effect is greater than 1 and the Benchmark Index underlying rises

	Benchmark Index underlying		Strategy Index		Leverage effect
	Performance day i	Value day i	Performance day i	Value day i	
Day 1	10%	100	20%	120	100
Day 2	-11%	97.9	-22%	93.6	x2
Total return	-2.10%		-6.40%		x3.05

Scenario 2 - negative leverage: The negative leverage effect is less than 2 and the Benchmark Index underlying rises

	Benchmark Index underlying		Strategy Index		Leverage effect
	Performance day i	Value day i	Performance day i	Value day i	
Day 1	100	100	100	100	x2
Day 2	-5%	95	-10%	90	x2
Total return	0.70%		0.80%		x1.14

Furthermore, it is possible that if the Benchmark Index underlying is highly volatile over a period of more than one day the Sub-fund's net asset value may decline, even though the Benchmark Index underlying rose over this period.

Scenario 3 – inverse leverage: Case where the resulting leverage is negative over the period:

	Benchmark Index underlying		Strategy Index		Leverage effect
	Performance day i	Value day i	Performance day i	Value day i	
Day 1	100	100	100	100	x2
	20%	120	40%	140	

Day 2	-16%	100.8	-32%	95.2	x2
Total return	0.80%		-4.80%		x-6

- Risk that the investment objective is not fully achieved

There is no guarantee that the investment objective will be achieved, as no asset or financial instrument can ensure that the Benchmark Index will be automatically and continuously replicated, particularly in the event of one or more of the following risks:

- Risk of using derivative financial instruments

In order to achieve its investment objective, the Sub-fund can enter into transactions involving over-the-counter derivative financial instruments (DFI), such as swaps, in order to secure the performance of the Benchmark Index. These DFI involve various risks, such as counterparty risk, hedging disruption, Benchmark Index disruption, taxation risk, regulatory risk, operational risk and liquidity risk. These risks can materially affect an DFI and may require an adjustment of the DFI transaction or even its premature termination, which could adversely affect the Sub-fund's net asset value.

- Risk due to a change in the tax regime

A change in the tax regime of a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed could adversely affect the taxation of investors. In such an event, the Sub-fund manager shall not be liable to any investor with respect to any payment that may have to be made to a competent tax authority.

- Risk of a change in the taxation of the Sub-fund's underlying assets

A change in the taxation of the Sub-fund's underlying assets could adversely affect the taxation of the Sub-fund. In such an event a discrepancy between the estimated taxation and the actual taxation of the Sub-fund and/or of the Sub-fund's DFI counterparty may adversely affect the Sub-fund's net asset value.

- Regulatory risk affecting the Sub-fund

In the event of a change in the regulatory regime in a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed, the subscription, conversion or redemption of units or shares may be adversely affected.

- Regulatory risk affecting the Sub-fund's underlying assets

In the event of a change in the regulations that govern the Sub-fund's underlying assets, the Sub-fund's net asset value and the subscription, conversion or redemption of shares may be adversely affected.

- Benchmark Index disruption risk

If an event adversely affects the Benchmark Index, the Sub-fund manager may be required, as provided for by law, to suspend the subscription and redemption of the Sub-fund's shares or units. The calculation of the Sub-fund's net asset value could also be adversely affected.

If the disruption of the Benchmark Index persists, the Sub-fund manager will determine an appropriate course of action, which could decrease the Sub-fund's net asset value.

A 'Benchmark Index event' includes but is not limited to the following situations:

- i) the Benchmark Index is deemed to be inaccurate or does not reflect actual market developments
- ii) the Benchmark Index is permanently cancelled by the index provider
- iii) the index provider is unable to indicate the level or value of the Benchmark Index
- iv) the index provider makes a material change in the Benchmark Index calculation formula or method (other than a minor modification such as an adjustment to the Benchmark Index's underlying components or their respective weightings) which the Sub-fund cannot effectively replicate at a reasonable cost
- v) a Benchmark Index component becomes illiquid because it is no longer traded on a regulated market or because its trading over-the-counter (e.g. bonds) is disrupted
- vi) the Benchmark Index components are exposed to higher transaction costs for execution or settlement/delivery, or to specific tax constraints and these costs are not reflected in the Benchmark Index's performance.

- Corporate action risk

An unforeseen change, by the issuer of a security that is a component of the Benchmark Index, in a planned corporate action that is in contradiction with a previous official announcement on which the Sub-fund based its valuation of the corporate action (and/or on which the Sub-fund's counterparty to a financial derivative instrument or transaction based its valuation of the corporate action) can adversely affect the Sub-fund's net asset value, particularly if the Sub-fund's treatment of the corporate event differs from that of the Benchmark Index methodology.

- Capital risk

The capital invested is not guaranteed. Investors therefore may not recover all or part of their initial investment, particularly in the event that the Benchmark Index posts a negative return over the investment period.

- Counterparty risk

The Sub-fund is exposed to the risk that a counterparty with which the Sub-fund has entered into a contract or transaction may go bankrupt or default on a settlement or other obligation. The Sub-fund is mainly exposed to counterparty risk resulting from the use of derivative financial instruments (DFI) traded over the counter with Société Générale or some other counterparty. In compliance with UCITS regulations, exposure to counterparty risk (whether the counterparty is Société Générale or another entity), cannot exceed 10% of the Sub-fund's total assets per counterparty.

If a counterparty defaults on an obligation the DFI contract may be terminated before maturity. The Sub-fund will do everything in its power to achieve its investment objective by, if appropriate, entering into another DFI contract with another counterparty at the market conditions at the time of such an event.

If this counterparty risk materializes it could have an impact on the Sub-fund's ability to achieve its investment objective of replicating the Benchmark Index. When Société Générale is the DFI counterparty, conflicts of interest may arise between it and the Sub-fund's management company, which has procedures to identify and reduce such conflicts of interest and to resolve them equitably if necessary.

- Liquidity risk (primary market)

The Sub-fund's liquidity and/or value may be adversely affected if, when the Sub-fund or a counterparty to a financial derivative instrument (DFI) is rebalancing its exposure, the underlying financial markets are restricted, closed, or subject to wide bid/offer spreads. An inability, due to low trading volume, to execute the trades required to replicate the Benchmark Index may also adversely affect the subscription, conversion or redemption of shares or units.

- Liquidity risk (secondary market)

The price of the Sub-fund's listed shares may deviate from the Sub-fund's indicative net asset value. The liquidity of the Sub-fund's shares traded on a given exchange may be adversely affected by a suspension in trading for various reasons, such as:

- i) the calculation of the Benchmark Index is suspended or stopped
- ii) trading in the market(s) in the Benchmark Index's underlying assets is suspended
- iii) an exchange cannot obtain or calculate the Sub-fund's indicative net asset value
- iv) a market maker fails to comply with an exchange's rules
- v) an exchange's IT, electronic or other system fails.

- Low diversification risk:

The Benchmark Index to which investors are exposed represents only the Italian sovereign bond market, which may provide a smaller diversification of assets when compared to a broader index exposed to several regions, sectors or strategies. Exposure to such a less-diversified index may result in higher volatility than more diversified markets. Nevertheless, diversification rules of the UCITS Directive still apply to the Sub-fund's underlying assets at all times.

- Credit risk

This is the risk that a credit-rating agency could lower an issuer's credit rating, which would adversely affect the price of the issuer's bond and increase the issuer's default risk. The Sub-fund is exposed to Italy's sovereign credit risk.

- Legal risk

The Fund may be exposed to a legal risk arising from a total return swap (TRS) agreement as indicated in EU Regulation No. 2015/2365.

ELIGIBLE INVESTORS AND TYPICAL INVESTOR PROFILE

The Sub-fund is available to all investors.

Investors in this Sub-fund are seeking exposure, with 2x leverage, to increases and decreases in the prices of German government bonds having an average maturity of 10 years.

The amount that can be reasonably invested in the Sub-fund depends on each investor's personal situation. To determine this amount, investors must take into account their personal wealth and/or estate, their cash requirements currently and for the next five years, and their willingness to take on risk or their preference for more prudent investment. Investors are also advised to diversify their investments sufficiently so as not to be exposed solely to this Sub-fund's risks.

All investors are therefore asked to consider their specific situation with the help of their usual investment advisor.

The recommended minimum investment period is at least five years.

CALCULATION AND APPROPRIATION OF DISTRIBUTABLE AMOUNTS

The Board of Directors reserves the right to accumulate and/or distribute all or part of all distributable amounts. Realized net capital gains will be accumulated.

DISTRIBUTION FREQUENCY

If a distribution is decided, the Board of Directors reserves the right to distribute all or part of the distributable amounts in one or more distributions per annum.

SHARE CHARACTERISTICS

Subscription orders may be placed for a specific monetary amount or for a whole number of shares
Only a whole number of shares may be redeemed.

SHARE CURRENCY

Euros

SUBSCRIPTION AND REDEMPTION

1. SUBSCRIPTION AND REDEMPTION ON THE PRIMARY MARKET

Subscription/redemption orders for shares in the Sub-fund will be processed by the Depositary from 10:00 am to 5.00 pm (Paris time), every day that the Sub-fund's net asset value is to be published, provided that prices can be quoted for a significant proportion of the Benchmark Index components (hereinafter a "**Primary Market Day**"), and will be executed at the net asset value on that Primary Market Day, hereinafter the "**reference NAV**". Subscription/redemption orders submitted after 5.00 pm (Paris time) on a Primary Market Day will be processed as if received from 9:00 am to 6.30pm (Paris time) on the following Primary Market Day. Orders to subscribe for shares must be for a number of shares that represents at least 100,000 euros.

Subscriptions and redemptions in cash

Subscriptions and redemptions shall be made exclusively in cash and executed at the ref NAV.

Delivery and settlement

Settlement/delivery of subscriptions and redemptions shall be completed within five French business days upon receipt of the subscription or redemption order.

Date and frequency of net asset value calculation

The net asset value will be calculated and published daily, provided that at least one exchange on which the Sub-fund's shares are listed is open and that orders placed in the primary and secondary markets can be funded.

The Sub-fund's net asset value is calculated using the Benchmark Index's closing price.

The net asset value of a share class that is denominated in another currency than the Sub-fund's accounting currency (if applicable) is calculated using the exchange rate between the accounting currency and the currency of the share class, at the applicable WM Reuters rate on the date the reference NAV is calculated.

2. PURCHASES AND SALES ON THE SECONDARY MARKET

A. COMMON PROVISIONS

For any purchase or sale of shares in the Sub-fund executed directly on an exchange on which the Sub-fund is admitted or will be admitted for continuous trading, no minimum purchase or sale amount is required other than that which may be required by the relevant exchange(s).

Shares in a listed Sub-fund that are purchased on the secondary market cannot generally be directly sold back to that Sub-fund. Investors must therefore buy and sell their shares on a secondary market through an intermediary (e.g. a broker) and may consequently incur costs. Furthermore, there is a possibility that investors may pay more than the indicative net asset value when buying shares and receive less than the indicative net asset value when selling shares.

If the stock market value of a listed fund's shares or units differs significantly from their indicative net asset value, or if trading in the fund's shares or units is suspended, investors may be authorized, subject to the conditions set forth below, to redeem their shares or units in the primary market directly from the fund, without being subject to the minimum redemption amount requirement set forth herein in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)".

The management company shall decide whether to allow such primary market redemptions and for how long, on the basis of the following criteria for assessing the significance of a market disruption:

- The suspension or strong disturbance of secondary trading on a given exchange is relatively frequent
- The link between the market disruption and secondary market operators (such as the default of one or more of the Market Makers of a given exchange, or a breakdown or malfunction of an exchange's IT or operating systems), excluding a disruption caused by a source external to the secondary exchange on which the Sub-fund's shares are traded, such as an event that affects the liquidity and valuation of all or some of the Benchmark Index's components
- Any other objective circumstance that could adversely affect the fair treatment and/or the interests of the Sub-fund's share-holders.

Notwithstanding the provisions concerning fees presented in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)", redemptions made in the primary market in this case shall only be subject to a net redemption fee of 3% paid to the Sub-fund and which serves to cover its trading costs.

In such exceptional cases when redemption in the primary market is allowed, the Management Company shall post on Lyxor's website at www.lyxor.etf.com the procedure that investors must observe to redeem their shares or units in the primary market. The Management Company shall also make this procedure available to the market undertaking that handles trading in the Sub-fund's shares.

B. SPECIFIC PROVISIONS

a) If the Sub-fund's shares are listed on Euronext Paris, as indicated in the "Key Information" section, investors should note the following rules

Negotiability of shares and information about the financial institutions acting as Market Makers

The shares are freely negotiable on the Euronext Paris regulated market under the following conditions and in compliance with the applicable laws and regulations.

The Sub-fund shares will be listed on a specific trading list, the rules of which are set forth in the following instructions published by Euronext Paris SA:

- Instruction No. 4-01 "Universal Trading Platform Manual"
- Appendix to Instruction N4-01 (Appendix to the Euronext Market Trading Manual)
- Instruction No. 6-04 "Documentation to be provided when filing a listing application for an ETF, ETN, ETV and open-ended undertakings for collective investment other than"

Pursuant to article D 214-22-1 of the French Monetary and Financial Code the shares of undertakings for collective investments in transferable securities may be admitted to trading provided that these undertakings have a system to ensure that the market price of their shares does not differ significantly from their net asset value. Under Euronext Paris SA's rules trading in the Sub-fund's shares is also subject to a 'reservation threshold' of 1.5% above or below the Sub-fund's indicative net asset value or "iNAV" (see the "Indicative Net Asset Value" section), as published by EuronextParis SA and updated on an estimated basis during trading in accordance with the change in the Benchmark Index.

To comply with Euronext Paris SA's reservation threshold requirement (see the section entitled "Indicative net asset value") the Market Makers will ensure that the market price of the Sub-fund's shares does not differ from the Sub-fund's indicative Net Asset Value by more than 1.5%.

Euronext Paris SA may suspend trading in the Sub-fund's shares pursuant to the terms of its operating rules, if the aforementioned reservation threshold limit is exceeded.

Euronext Paris SA will also suspend trading in the Sub-fund's shares in the following cases:

- the Benchmark Index is no longer traded or calculated
- Euronext Paris SA cannot obtain the Benchmark Index's level
- Euronext Paris SA cannot obtain the Sub-fund's net asset value

In accordance with the terms and conditions governing admission to trading on Euronext Paris, the Market Makers undertake to provide market-making services for the Sub-fund's shares as soon as they are admitted to trading on the Euronext Paris exchange.

In particular, the Market Makers undertake to carry out market-making operations by maintaining a significant presence in the market, which initially entails the setting of a bid/ask spread.

More specifically, the Market Makers are required by contract with Euronext Paris SA to ensure that the Sub-fund maintains:

- a maximum global spread of 1.5% between the bid and offer price in the centralized order book.
- a minimum nominal trading value of EUR 100,000.

The obligations of the Sub-fund's Market Makers will be suspended in the following cases:

- the Benchmark Index is no longer traded or calculated
- if trading is substantially disrupted, for example due to a widespread shift in prices or an event that makes normal market making impossible.

Indicative Net Asset Value

Euronext Paris will calculate and publish, each Trading Day during trading hours, the Sub-fund's indicative net asset value (hereinafter "iNAV"). The iNAV is a measure of the intra-day value of the Sub-fund's net asset value based on the most recent data. The iNAV is not the value at which investors buy and sell shares in the Sub-fund on the secondary market.

The iNAV will be calculated every day that the net asset value is calculated and published.

To calculate the Sub-fund's iNAV throughout the Paris trading session (from 9.00 am to 5.30 pm), Euronext Paris will use the Benchmark Index value published by Reuters.

The market prices of the Bund futures used to calculate the level of the Benchmark Index, and therefore determined the iNAV are supplied to Reuters by Eurex.

If Eurex is closed (on a public holiday on the TARGET calendar), the Benchmark Index is no longer published, the iNAV cannot be calculated and trading in the Sub-fund's shares may be suspended.

Lyxor International Asset Management, the Sub-fund's management company, will provide Euronext Paris SA with all the financial and accounting data it needs to calculate the Sub-fund's iNAV and in particular:

- The day's estimated net asset value
- The official net asset value of the previous business day
- The level of the Benchmark Index on the previous business day.

These data will serve as a basis for Euronext Paris SA's calculations to determine the Sub-fund's iNAV in real time the following Trading Day.

Additional information about the indicative net asset value of a share listed on an exchange may, in accordance with the terms and limits set by the relevant market undertaking, be provided on this exchange's website. This information is also available on the Reuters or Bloomberg pages that specifically concern the share class. Additional information about the Bloomberg and Reuters codes for the indicative net asset values of all the Sub-fund's share classes is also available in the "Term Sheets" section of Lyxor's website at www.lyxoretf.com.

b) If the Sub-fund's shares are listed on an exchange other than Euronext Paris, as indicated in the "Key Information" section, investors should note the following

Investors wishing to acquire shares in the Sub-fund or obtain more information regarding the market-making terms that govern the listing and trading of shares on exchanges such as those indicated in the "Key Information" section are advised to familiarize themselves with the following guidelines set forth by the relevant market undertaking in compliance with local regulations, and to seek if necessary the assistance of their usual broker(s) for executing trades on the relevant exchange(s).

FEES AND CHARGES

SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)

The subscription and redemption fees shown below respectively increase the subscription price paid by the investor and decrease the redemption price received. Fees kept by the Sub-fund compensate it for the expenses it incurs in investing in the Sub-fund's assets or in divesting these assets. Any fees that are not kept by the Sub-fund are paid to the asset manager, the marketing agent or other service provider.

Fees paid by investors upon subscription or redemption	Base	Maximum charge
Subscription fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per subscription order or 5% payable to third parties
Subscription fee kept by the Sub-fund	NAV per share x number of shares	N/A
Redemption fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per redemption order or 5% payable to third parties
Redemption fee kept by the Sub-fund	NAV per share x number of shares	N/A

OPERATIONAL AND MANAGEMENT FEES

These fees cover all the costs invoiced directly to the Sub-fund, except for transaction expenses, which include intermediary fees (brokerage, stock market taxes etc.) and any account activity charge that may be charged by the depositary or the asset manager, in particular.

For this Sub-fund the following fees may be charged in addition to the operating and management fees (see table below):

- incentive fees, which the Sub-fund pays to the management company when the Sub-fund exceeds its objectives
- account activity charges charged to the Sub-fund.

For more information on the fees or expenses that the Sub-fund must pay, see the Statistics section of the Key Investor Information Document (KIID).

Fees charged to the Sub-fund	Base	Maximum charge
Investment management fees and administration fees that are external to the management company (auditor, depositary, fund distribution and legal fees) including tax ⁽¹⁾	Net asset value	0.20% per annum
Incentive fee	Net asset value	N/A
Account activity charge	Charge on each transaction	N/A

⁽¹⁾ Includes all fees and expenses except for transaction expenses, incentive fees and fees associated with investment in UCITS.

COMMERCIAL INFORMATION

Distribution of this prospectus and the offering or purchase of the Fund's share classes may be subject to restrictions with regard to certain persons or in certain countries by virtue of national regulations that may apply to these persons or countries. Investors are therefore responsible for ensuring that they are authorized to subscribe to or invest in this Fund. The information in this prospectus therefore cannot be construed to be an offer or solicitation to buy or sell shares in this Fund in a country where such offer or solicitation is unlawful.

The Fund's share classes will not be registered pursuant to the U.S. Securities Act of 1933, as amended (the "U.S. Securities Act") and cannot be offered, assigned, transferred or allocated to the United States of America, or to:

- (A) any "U.S. Person", as this term is defined (i) under Regulation S of the US Securities Act of 1933 and (ii) under U.S. regulations as defined in Section 7701 (a) (30) of the Internal Revenue Code of 1986 as amended. The Fund's shares will not be offered to U.S. Persons.
- (B) anyone other than those persons considered to be "non-US Persons" as this term is defined under U.S. regulations pursuant to the Commodity Futures Trading Commission, Rule 4.7 (a) (1) (iv).

The Fund's shares will only be offered for sale outside of the United States of America to non-U.S. Persons.

For the purpose of this document, the term "U.S. Person" shall mean, among other things, any individual who resides in the United States of America, any entity organized or formed under the laws of the United States of America, certain entities organized or formed outside of the United States of America by one or more U.S. persons, or any account held on behalf of such a U.S. person.

Before making an investment in this Fund or Sub-fund, investors should seek the advice of their financial, tax and legal advisers.

PLACE AND METHOD OF NET ASSET VALUE PUBLICATION OR COMMUNICATION

At the head office of LYXOR INTERNATIONAL ASSET MANAGEMENT, at 17, cours Valmy - 92987 Paris La Défense CEDEX - France.

The Sub-fund's net asset value will be calculated and published by Euronext Paris SA on each Paris Trading Day, during trading hours.

IMPORTANT INFORMATION ABOUT THE BENCHMARK INDEX PROVIDER

Lyxor Bund Daily (2x) Leveraged UCITS ETF is in no way sponsored, endorsed, sold or promoted by Société Générale Index (SGI), which is a registered trademark of the Société Générale group (hereinafter the "Licensor"). The Licensor makes no warranty, guarantee or commitment, whether express or implied, as to the income to be obtained from using the SGI DAILY LEVERAGED BUND index and/or the level that this index may reach at any given time or of any other type. The Licensor shall not be liable, to anyone whomsoever, for any error that affects the Benchmark Index and shall have no obligation to inform anyone whomsoever of any such error. The SGI DAILY LEVERAGED BUND index is the exclusive property of Société Générale. Société Générale has signed a contract with Standard & Poor's, under the terms of which S&P undertakes to calculate and maintain the Benchmark Index. However, S&P may not be held liable in the event of an error or omission in the calculation of the Benchmark Index.

ADDITIONAL INFORMATION

The Sub-fund's shares are accepted for clearing by Euroclear France S.A.

Subscription and redemption orders must be sent in by the investors' financial intermediary (a member of Euroclear France S.A.) to the Depositary.

The Multi Units France fund prospectus, the Key Investor Information Document and the most recent annual documents will be sent to investors within eight business days upon receipt of a written request addressed to:

LYXOR INTERNATIONAL ASSET MANAGEMENT
17 Cours Valmy - 92987 Paris La Défense France.

e-mail: contact@lyxor.com

More information can also be requested from Lyxor International Asset Management on its website at www.lyxoretf.com.

Prospectus publication date: See the "Publication Date" section.

Pursuant to Article L. 533-22-1 of the French Monetary and Financial Code, information concerning the possible inclusion of social, environmental and corporate governance objectives and performance criteria in the investment policy is available on the asset manager's website and in the Multi-Units France annual report.

The AMF's website (www.amf-france.org) provides more information on the regulatory documents and various provisions that concern investor protection. This Prospectus shall be made available to investors prior to subscription.

INVESTMENT RULES

The Sub-fund will comply with the investment rules of European Directive 2009/65/EC of 13 July 2009 .

The Sub-fund may invest in the assets specified in Article L214-20 of the French Monetary and Financial Code, subject to the risk-diversification and investment ratio requirements of Articles R214-21 to R214-27 of said Code.

Notwithstanding the 10% limit under Paragraph II of Article R214-21 of the French Monetary and Financial Code and in compliance with the risk diversification and investment rules set forth in Articles R214-21 to R214-27 of said Code, the Sub-fund may invest up to 20% of its assets in the equities and debt securities of a single issuer, in compliance with Article R214-22-I, which deals with index-tracking funds. Pursuant to Article R214-22 II, the Sub-fund may also increase this 20% limit for a single issuer to 35%, when this is justified by exceptional market conditions, and in particular when certain securities are largely dominant.

Notwithstanding the above, securities guaranteed or issued by a given issuer can account for up to 35% of assets and up to 100% if the Sub-fund holds at least six issues of which none exceeds 30% of assets, provided that these securities are financial instruments issued or guaranteed by an OECD member state, the local authorities of a European Union member state or a country that is a member of the European Economic Area.

OVERALL RISK EXPOSURE

The commitment approach is used to calculate the overall risk exposure.

ASSET VALUATION AND ACCOUNTING RULES

A. VALUATION RULES

The Sub-fund's assets are valued in accordance with applicable laws and regulations and most notably Regulation No. 2014-01 of 14 January 2014 of the Comité de la Réglementation Comptable (the Accounting Regulations Committee), which applies to the chart of accounts for undertakings for collective investment in transferable securities.

Financial instruments traded on a regulated market are valued at the closing price recorded on the day prior to the calculation of the net asset value. If these financial instruments are traded on several regulated markets at the same time, the closing price used is that recorded on the regulated market on which they are principally traded.

However, in the absence of significant trading on a regulated market, the following financial instruments are valued using the following methods:

- Negotiable debt securities ("NDS") with a remaining life upon acquisition that is less than or equal to three months are valued by applying the difference between the acquisition value and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life of more than three months upon acquisition but less than or equal to three months at the net asset value calculation date are valued by applying the difference between the most recent valuation and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life at the net asset value calculation date that exceeds three months are valued at their current value. The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- Financial futures traded on organized markets are valued at the clearing price on the day prior to the calculation of the net asset value. Options traded on organized markets are valued at their market price on the day prior to the calculation of the net asset value. Forward contracts and over-the-counter options are valued at the price quoted by the counterparty. The management company monitors these prices independently.
- Bank deposits are valued at their nominal value plus accrued interest.
- Warrants, short and medium-term notes (bons de caisse), promissory notes and mortgage notes are valued under the management company's responsibility at their most likely trading value.
- Securities financing transactions are valued at the market price.
- Shares and units in UCITS under French law are valued at the last known net asset value on the day the Sub-fund's net asset value is calculated.
- Shares and units in foreign investment funds are valued at the last known unitary net asset value at the date the Sub-fund's net asset value is calculated.
- Financial instruments traded on a regulated market and for which no price has been quoted or whose price has been corrected, are valued under the management company's responsibility at their most likely trading value.
- The exchange rates used to value financial instruments denominated in a currency other than the Sub-fund's base currency are the WM Reuters fixing rates published on the day the Sub-fund's net asset value is calculated.

B. ACCOUNTING METHOD FOR TRADING EXPENSES

Trading expenses are included in the initial cost of the transaction.

C. ACCOUNTING METHOD FOR INCOME FROM FIXED-INCOME SECURITIES

Income from fixed-income securities is accounted for using the cash-basis method.

D. DISTRIBUTION POLICY

For more information see the section entitled "Calculation and appropriation of Distributable amounts"

E. ACCOUNTING CURRENCY

The Sub-fund's accounts are kept in euros.

SUB-FUND NO. 9: Lyxor BTP Daily (-2x) Inverse UCITS ETF

A SICAV SUB-FUND COMPLIANT WITH DIRECTIVE 2009/65/CE

ISIN CODE:

Share class: FR0011023621

CLASSIFICATION

The Lyxor BTP Daily (-2x) Inverse UCITS ETF sub-fund (hereinafter the “**Sub-fund**”) is a UCITS ETF type index tracker.

INCEPTION DATE

The Sub-fund was approved by l'autorité des Marchés Financiers (the French financial markets authority) on 12 April 2011 and was established on 27 April 2011.

INVESTMENT OBJECTIVE

The Sub-fund's investment objective is to give inverse exposure, with 2x leverage, to increases or decreases the prices of Italian sovereign bonds, by replicating the performance of the SGI Daily Double Short BTP index (the "**Benchmark Index**"), denominated in euros (EUR), while minimizing the tracking error between the Sub-fund's performance and that of its Benchmark Index.

The expected ex-post tracking error under normal market conditions is 0.02%.

BENCHMARK INDEX

The Benchmark Index is the SGI Daily Double Short BTP index.

The Benchmark Index is a strategy index developed by Société Générale's research staff using a proprietary methodology. It is calculated and maintained by Standard & Poor's.

The Benchmark Index provides inverse exposure, with 2x daily leverage, to increases or decreases the prices of Italian sovereign bonds, using Long-Term Euros-BTP futures as a representative index. Accordingly, if Long-Term Euros-BTP futures fall on a given trading day, the Sub-fund's net asset value will increase by twice the amount that day, and if the Long-Term Euros-BTP futures rises on a given trading day, the Sub-fund's net asset value will fall by twice that amount that day, and share-holders will not profit from the Benchmark Index's gain.

Long-Term Euros-BTP futures are a representative indicator of Italian sovereign bonds having a residual maturity of 8.5 to 11 years and an initial maturity of less than 16 years. Long-Term Euros-BTP futures are listed on Eurex and their methodology is available on www.eurexchange.com.

The Benchmark Index's daily performance is twice that of the inverse performance of Long-Term Euros-BTP futures, plus the daily interest (at the EONIA rate) paid on the previous day's Long-Term Euros-BTP futures price at 5: 40 pm.

The Benchmark Index therefore represents a short position on Long-Term Euros-BTP futures with 2x leverage and daily rebalancing. The index may be rebalanced during a trading session if it falls by more than 40%, i.e. if the absolute intra-day gain in Long-Term Euros-BTP futures exceeds 20%.

The performance tracked is the Benchmark Index 5.40 pm fixing in euros.

Since the methodology used to calculate the Benchmark Index is not based on direct investment in BTP bonds but on indirect investment in futures, the Sub-fund's performance will be affected by the cost of 'rolling over' positions on these futures contracts every quarter.

Over time, this could significantly diminish the Sub-fund's performance in comparison with the gross performance of the short positions on the underlying of the aforementioned futures contracts, particularly in the case of a long-term investment in the Sub-fund's shares.

A full description of the Benchmark Index and its construction methodology and information on its composition are available on the Internet at: www.sgindex.fr

Benchmark Index publication

The Benchmark Index is calculated daily at the official Long-Term Euros- BTP futures fixing price at 5: 40 pm.

The Benchmark Index is also calculated in real time every stock exchange trading day.

The Benchmark Index is available through Reuters and Bloomberg.

Reuters code: .SGIXDSBT

Bloomberg code: SGIXDSBT

The Benchmark Index is rebalanced daily.

The frequency with which the Benchmark Index is rebalanced does not affect the cost of implementing the Investment Strategy.

The Benchmark Index's revision depends on that of the Long-Term Euros-BTP futures.

Pursuant to Article 52 of European Parliament and Council Regulation 2016/1011 of 8 June 2016, S&P Dow Jones, the administrator of the SGI daily double short BTP benchmark index, has until 1 January 2020 to apply for approval or registration as applicable.

As of the date of the most recent version of this prospectus, the benchmark index administrator was not yet listed in ESMA's register of benchmark administrators.

Pursuant to European Parliament and Council Regulation 2016/1011 of 8 June 2016, the asset management company has a procedure for monitoring the benchmark indices used that specifies the measures to be implemented if an index is substantially modified or is no longer provided.

INVESTMENT STRATEGY

1. Strategy employed

The Sub-fund will comply with the investment rules of European Directive 2009/65/EC of 13 July 2009.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund will employ an indirect replication method, which means that it will enter into one or more OTC swap contracts enabling it to achieve its investment objective. These swap contracts will serve to exchange the value of the Sub-fund's assets, which will consist of cash and/or balance sheet assets (excluding any securities received as collateral), for the value of the securities that underlie the Benchmark Index.

Investors in this Sub-fund gain inverse exposure, with a daily 2x leverage, to increases and decreases in the daily performance of the Italian sovereign bond market, of which the Benchmark Index is representative.

The Sub-fund will mainly be invested in bonds issued by an OECD member country or by a non-governmental issuer in an OECD country.

The basket of securities held may be adjusted daily such that its value will generally be at least 100% of the net assets. When necessary, this adjustment will be made to ensure that the counterparty risk arising from the aforementioned swap contract will be neutralized.

Information on the updated composition of the basket of 'balance sheet' assets in the Sub-fund's portfolio and the value of the swap contract concluded by the Sub-fund, is available on the page dedicated to the Sub-fund on Lyxor's website at www.lyxoretf.com. The frequency of any updates and/or the date on which the aforementioned information is updated is also indicated on the same page of the aforementioned website.

Up to 20% of the Sub-fund's assets may be exposed to debt issued by a given OECD country. This 20% limit can be increased to 35% for a single bond, when this is justified by exceptional market conditions and in particular when certain securities are largely dominant, or a debt issue is highly volatile, or a political and/or economic event has affected or may affect the estimated debt of an issuing country or its credit rating, or in any other event that is likely to affect the liquidity of a Benchmark Index security.

Notwithstanding the above, securities guaranteed or issued by a given issuer can account for up to 35% of assets and up to 100% if the Sub-fund holds at least six issues of which none exceeds 30% of assets, provided that these securities are financial instruments issued or guaranteed by an OECD member state, the local authorities of a European Union member state or a country that is a member of the European Economic Area.

The Sub-fund's interest-rate sensitivity will be between 14 and.

2. Balance sheet assets (excluding embedded derivatives)

The Sub-fund may invest, in compliance with regulatory ratios, international securities (equities and bonds) denominated in one of the currencies of the OECD countries.

Investment in undertakings for collective investment in transferrable securities ("UCITS") that comply with Directive 2009/65/EC is limited to 10% of the Sub-fund's net assets.

These securities will be bonds largely selected on the basis of the following eligibility criteria:

- senior debt
- fixed maturity
- maximum residual maturity
- minimum issuance size
- minimum S&P or equivalent credit rating
- diversification criteria, and in particular:
- the issuer (application of investment ratios to assets that qualify for UCITS, pursuant to Art. R214-21 of the French Monetary and Financial Code)
- geographic
- sector

Investors may find more information on the above eligibility and diversification criteria, and in particular the list of eligible indices, on Lyxor's website at www.lyxoretf.com

The fund manager will not invest in the shares or units of alternative investment funds (AIF) or other investment funds that were formed under a foreign law. The Sub-fund may invest in the shares of UCITS managed by the management company or by a company that is related to the management company.

When the Fund receives collateral in the form of securities, subject to the terms of section 8 below, it acquires full title to these securities and they are therefore included among the balance sheet assets to which it has full title.

To optimize the Sub-fund's management and achieve its investment objective, the asset manager reserves the right to use other financial instruments, in compliance with regulations.

3. Off-balance sheet assets (derivatives)

The Sub-fund will use OTC index-linked swaps that swap the value of the Sub-fund's securities (or the value of any other financial instruments in the Sub-fund) for the value of the Benchmark Index (as described in part 1 of this section).

- Maximum proportion of assets under management for which total return swaps (TRS) may be entered into: 100%.
- Expected proportion of assets under management for which total return swaps (TRS) may be entered into: up to 100%.

To optimize the Sub-fund's management and achieve its investment objective, the manager reserves the right to use other financial instruments in compliance with regulations, such as derivative instruments other than index-linked swaps.

In accordance with its best execution policy, the management company considers that Société Générale is the counterparty that is generally able to obtain the best possible execution for these derivative financial instruments. Accordingly, these derivative financial instruments (including index-linked swaps) may be traded via Société Générale without having to seek a competitive bid from another counterparty.

The counterparty of the derivative financial instruments referred to above (the “Counterparty”) will have no discretionary power over the composition of the Sub-fund’s portfolio nor over the underlying assets of the derivative financial instruments.

4. securities with embedded derivatives

N/a.

5. cash deposits

In order to optimize its cash management, the Sub-fund may deposit funds representing up to 20% of its net assets with credit institutions that belong to the same group as the depositary.

6. Cash borrowing

The Sub-fund may temporarily borrow up to 10% of its net assets.

7. Securities financing transactions

The manager shall not engage in any temporary purchases or sales of securities.

8. Collateral

Whenever the investment strategy exposes to the Sub-fund to counterparty risk, and in particular when the Sub-fund uses over-the-counter swaps, the Sub-fund may accept eligible securities as collateral to reduce the counterparty risk associated with these swaps. The portfolio of collateral received may be adjusted daily to ensure that its value is at least sufficient to cover the Sub-fund’s counterparty risk in most cases. The purpose of this adjustment is to neutralize the Sub-fund’s counterparty risk.

The Sub-fund will have full title to all collateral received, which will be deposited in the Sub-fund’s account with the depositary. This collateral will therefore be included in the Sub-fund’s assets. If a counterparty defaults on an obligation, the Sub-fund may dispose of the assets received from the counterparty in respect of the secured transaction to pay off the counterparty’s debt to the Sub-fund.

All collateral the Sub-fund receives for this purpose must comply with the applicable laws and regulations, with respect in particular to the liquidity and valuation of the collateral, the credit-worthiness of securities issuers, risk exposure correlation and the risks of collateral management and enforceability. All collateral received must in particular meet the following criteria:

- (a) All collateral must be of high quality, be highly liquid and tradable on a regulated market or on a multilateral trading facility, with transparent pricing to enable the collateral to be rapidly sold near its estimated price
- (b) This collateral must be valued at the mark-to-market price at least daily and assets with highly volatile prices are not acceptable as collateral, unless a sufficiently prudent discount or “haircut” is applied
- (c) The issuer of this collateral must be independent of the counterparty and must not be closely correlated with the counterparty’s financial performance
- (d) This collateral must be sufficiently diversified by country, market and issuer, and no exposure to a single issuer may exceed 20 % of the Sub-fund’s net asset value
- (e) The Sub-fund’s Management Company must be able to enforce this collateral in full and at any time, without having to consult with the counterparty or obtain its approval.

Notwithstanding the condition specified in (d) above, the Fund may accept a basket of securities collateral that increases its exposure to a single issuer to more than 20% of its net asset value provided that:

- such securities collateral is issued by (i) a Member State, (ii) one or more of a Member State’s local authorities, (iii) a country that is not a Member State (iv) a public international organization to which one or more Member States belong; and;
- such securities collateral consists of at least six different issues of securities of which no single issue exceeds 30% of the Sub-fund’s assets.

Subject to the above conditions, the Sub-Fund may take collateral in the following forms:

- (i) Cash and cash-equivalent assets, which for example include short-term bank deposits and balances and money-market instruments;
- (ii) Bonds issued or guaranteed by an OECD member state, or by its local government entities, or by an EU, regional or global supranational institution or organisation, or by any country provided that conditions (a) to (e) above are fully complied with;
- (iii) Shares or units issued by money-market funds that calculate a daily net asset value and have an AAA or equivalent credit rating;
- (iv) The shares or units of UCITS that invest mainly in the bonds and/or equities indicated in (v) and (vi) below;
- (v) Bonds issued or guaranteed by first-class issuers offering sufficient liquidity;
- (vi) Equities admitted for trading or traded on a regulated exchange of an EU member country, on a stock exchange of an OECD member country or on a stock exchange of another country provided that conditions (a) to (e) above are fully complied with and that these equities are components of a major index.

Collateral discount policy:

The Sub-fund's management company shall apply a discount to the collateral accepted by the Sub-fund. The amount of these discounts will depend mainly on the following:

- The nature of the collateral asset;
- The collateral's maturity (if applicable);
- The credit rating of the collateral issuer (if applicable).

Reinvestment of collateral:

Non-cash collateral will not be sold, reinvested or pledged.

At the manager's discretion, cash collateral may either be:

- (i) deposited with an authorized institution
- (ii) invested in high-quality government bonds
- (iii) used for reverse repurchase transactions, provided that these are entered into with credit institutions that are subject to prudential supervision and that the fund is able to withdraw the total amount of its cash collateral and the accrued interest at any time
- (iv) invested in short-term money market funds that meet the guidelines for a common EU definition of money market funds.

All cash collateral that is reinvested must be invested in a diversified manner in compliance with the rules that apply to the acceptance of non-cash collateral.

RISK PROFILE

Investors' money will be invested mainly in the financial instruments selected by the asset manager. These instruments are subject to market trends and contingencies.

Investors in the Sub-fund will mainly be exposed to the following risks:

- Interest rate risk

The price of a bond can be affected by unexpected changes in the level of interest rates, which in particular may modify the shape of the yield curve in particular. The bonds that make up the Benchmark Index are exposed to changes in interest rates. In general, the price of a bond rises when interest rates fall, and falls when interest rates rise.

- Daily leverage adjustment risk

Investors are inversely exposed to two times the daily changes which affect the price or level of the BTP futures that underlie the Benchmark Index. In particular, any gain in the underlying market will be inversely amplified and will imply a larger decrease in the Sub-fund's net asset value. Since the exposure in the underlying "double short" Benchmark Index formula is reset daily, over a period of more than one trading day the Sub-fund's return will not be twice that of the BTP futures that underlie the Benchmark Index. For example, if the BTP futures underlying the Benchmark Index gain 10% a trading day and then lose 5% the following trading day, the Sub-fund will lose a total 12% over these two days (before fees) over the two trading days, while the BTP futures underlying the Benchmark Index will gained 4.5% over the same period.

If the BTP futures underlying the Benchmark Index lose 10% one trading day and then gain 6% the following trading day, the Sub-fund will have gained 5.6% over these two days (before fees), while the BTP futures underlying the Benchmark Index will have lost 4.6% over this period.

Scenario 1 - negative leverage: The negative leverage effect is greater than 2 and the Benchmark Index underlying rises

	Benchmark Index underlying		Benchmark Index		Leverage effect	
	Performance day i	Value day i	Performance day i	Value day i		
			Day 1	Day 2		
		100		100		
Day 1	10%	110	-20%	80	x-2	
Day 2	-5%	104.5	10%	88	x-2	
Total return		4.50%		-12.00%	x-2.67	

Scenario 2 - negative leverage: The negative leverage effect is less than 2 and the Benchmark Index underlying falls

	Benchmark Index underlying		Benchmark Index		Leverage effect	
	Performance day i	Value day i	Performance day i	Value day i		
			Day 1	Day 2		
		100		100		
Day 1	-10%	90	20%	120	x-2	

Day 2	6%	95.4	-12%	105.6	x-2
Total return	-4.60%		5.60%		x-1.22

Furthermore, it is possible that if the Benchmark Index underlying is highly volatile over a period of more than one day the Sub-fund's net asset value may decline even though the Benchmark Index's underlying also declines over this period.

Scenario 3 - inverse leverage: The effective leverage is positive over the period

	Benchmark Index underlying		Benchmark Index		Leverage effect
	Performance day i	Value day i	Performance day i	Value day i	
Day 1		100		100	
	5%	105	-10%	90	x-2
Day 2	-5%	99.75	10%	99	x-2
Total return	-0.25%		-1.00%		x4

- Risk that the investment objective is not fully achieved

There is no guarantee that the investment objective will be achieved, as no asset or financial instrument can ensure that the Benchmark Index will be automatically and continuously replicated, particularly in the event of one or more of the following risks:

- Risk of using derivative financial instruments

In order to achieve its investment objective, the Sub-fund can enter into transactions involving over-the-counter derivative financial instruments (DFI), such as swaps, in order to secure the performance of the Benchmark Index. These DFI involve various risks, such as counterparty risk, hedging disruption, Benchmark Index disruption, taxation risk, regulatory risk, operational risk and liquidity risk. These risks can materially affect an DFI and may require an adjustment of the DFI transaction or even its premature termination, which could adversely affect the Sub-fund's net asset value.

- Risk due to a change in the tax regime

A change in the tax regime of a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed could adversely affect the taxation of investors. In such an event, the Sub-fund manager shall not be liable to any investor with respect to any payment that may have to be made to a competent tax authority.

- Risk of a change in the taxation of the Sub-fund's underlying assets

A change in the taxation of the Sub-fund's underlying assets could adversely affect the taxation of the Sub-fund. In such an event a discrepancy between the estimated taxation and the actual taxation of the Sub-fund and/or of the Sub-fund's DFI counterparty may adversely affect the Sub-fund's net asset value.

- Regulatory risk affecting the Sub-fund

In the event of a change in the regulatory regime in a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed, the subscription, conversion or redemption of units or shares may be adversely affected.

- Regulatory risk affecting the Sub-fund's underlying assets

In the event of a change in the regulations that govern the Sub-fund's underlying assets, the Sub-fund's net asset value and the subscription, conversion or redemption of shares may be adversely affected.

- Benchmark Index disruption risk

If an event adversely affects the Benchmark Index, the Sub-fund manager may be required, as provided for by law, to suspend the subscription and redemption of the Sub-fund's shares or units. The calculation of the Sub-fund's net asset value could also be adversely affected.

If the disruption of the Benchmark Index persists, the Sub-fund manager will determine an appropriate course of action, which could decrease the Sub-fund's net asset value.

A 'Benchmark Index event' includes but is not limited to the following situations:

- i) the Benchmark Index is deemed to be inaccurate or does not reflect actual market developments
- ii) the Benchmark Index is permanently cancelled by the index provider
- iii) the index provider is unable to indicate the level or value of the Benchmark Index
- iv) the index provider makes a material change in the Benchmark Index calculation formula or method (other than a minor modification such as an adjustment to the Benchmark Index's underlying components or their respective weightings) which the Sub-fund cannot effectively replicate at a reasonable cost
- v) a Benchmark Index component becomes illiquid because it is no longer traded on a regulated market or because its trading over-the-counter (e.g. bonds) is disrupted
- vi) the Benchmark Index components are exposed to higher transaction costs for execution or settlement/delivery, or to specific tax constraints and these costs are not reflected in the Benchmark Index's performance.

- Corporate action risk

An unforeseen change, by the issuer of a security that is a component of the Benchmark Index, in a planned corporate action that is in contradiction with a previous official announcement on which the Sub-fund based its valuation of the corporate action (and/or on which the Sub-fund's counterparty to a financial derivative instrument or transaction based its valuation of the corporate action) can adversely affect the Sub-fund's net asset value, particularly if the Sub-fund's treatment of the corporate event differs from that of the Benchmark Index methodology.

- Capital risk

The capital invested is not guaranteed. Investors therefore may not recover all or part of their initial investment, particularly in the event that the Benchmark Index posts a negative return over the investment period.

- Counterparty risk

The Sub-fund is exposed to the risk that a counterparty with which the Sub-fund has entered into a contract or transaction may go bankrupt or default on a settlement or other obligation. The Sub-fund is mainly exposed to counterparty risk resulting from the use of derivative financial instruments (DFI) traded over the counter with Société Générale or some other counterparty. In compliance with UCITS regulations, exposure to counterparty risk (whether the counterparty is Société Générale or another entity), cannot exceed 10% of the Sub-fund's total assets per counterparty.

If a counterparty defaults on an obligation the DFI contract may be terminated before maturity. The Sub-fund will do everything in its power to achieve its investment objective by, if appropriate, entering into another DFI contract with another counterparty at the market conditions at the time of such an event.

If this counterparty risk materializes it could have an impact on the Sub-fund's ability to achieve its investment objective of replicating the Benchmark Index. When Société Générale is the DFI counterparty, conflicts of interest may arise between it and the Sub-fund's management company, which has procedures to identify and reduce such conflicts of interest and to resolve them equitably if necessary.

- Liquidity risk (primary market)

The Sub-fund's liquidity and/or value may be adversely affected if, when the Sub-fund or a counterparty to a financial derivative instrument (DFI) is rebalancing its exposure, the underlying financial markets are restricted, closed, or subject to wide bid/offer spreads. An inability, due to low trading volume, to execute the trades required to replicate the Benchmark Index may also adversely affect the subscription, conversion or redemption of shares or units.

- Liquidity risk (secondary market)

The price of the Sub-fund's listed shares may deviate from the Sub-fund's indicative net asset value. The liquidity of the Sub-fund's shares traded on a given exchange may be adversely affected by a suspension in trading for various reasons, such as:

- i) the calculation of the Benchmark Index is suspended or stopped
- ii) trading in the market(s) in the Benchmark Index's underlying assets is suspended
- iii) an exchange cannot obtain or calculate the Sub-fund's indicative net asset value
- iv) a market maker fails to comply with an exchange's rules
- v) an exchange's IT, electronic or other system fails.

- Low diversification risk:

The Benchmark Index to which investors are exposed represents only the Italian sovereign bond market, which may provide a smaller diversification of assets when compared to a broader index exposed to several regions, sectors or strategies. Exposure to such a less-diversified index may result in higher volatility than more diversified markets. Nevertheless, diversification rules of the UCITS Directive still apply to the Sub-fund's underlying assets at all times.

- Legal risk

The Fund may be exposed to a legal risk arising from a total return swap (TRS) agreement as indicated in EU Regulation No. 2015/2365.

- Credit risk

This is the risk that a credit-rating agency could lower an issuer's credit rating, which would adversely affect the price of the issuer's bond and increase the issuer's default risk. The Sub-fund is exposed to Italy's sovereign credit risk.

ELIGIBLE INVESTORS AND TYPICAL INVESTOR PROFILE

The Sub-fund is available to all investors.

Investors in this Sub-fund are seeking inverse exposure, with 2x leverage, to increases and decreases in the price of Italian sovereign bonds by replicating the performance of the Benchmark Index.

The amount that can be reasonably invested in the Sub-fund depends on each investor's personal situation. To determine this amount, investors must take into account their personal wealth and/or estate, their current cash requirements and their willingness to take on risk or their preference for more prudent investment. Investors are also advised to diversify their investments sufficiently so as not to be exposed solely to this Sub-fund's risks.

All investors are therefore asked to consider their specific situation with the help of their usual investment advisor.

Given this Sub-fund's speculative nature it may not be suitable for investors with a medium to long-term investment horizon.

CALCULATION AND APPROPRIATION OF DISTRIBUTABLE AMOUNTS

The Board of Directors reserves the right to accumulate and/or distribute all or part of all distributable amounts. Realized net capital gains will be accumulated.

DISTRIBUTION FREQUENCY

If a distribution is made, If a distribution is decided, the Board of Directors reserves the right to distribute all or part of the distributable amounts in one or more distributions per annum.

SHARE CHARACTERISTICS

Subscription orders may be placed for a specific monetary amount or for a whole number of shares.

Only a whole number of shares may be redeemed.

CURRENCY

Euros

SUBSCRIPTION AND REDEMPTION

1/ SUBSCRIPTION AND REDEMPTION ON THE PRIMARY MARKET

Subscription/redemption orders for shares in the Sub-fund will be processed by the Depositary from 10:00 am to 5.00 pm (Paris time), every day that the Sub-fund's net asset value is to be published, provided that prices can be quoted for a significant proportion of the Benchmark Index components (hereinafter a "Primary Market Day"), and will be executed at the net asset value on that Primary Market Day, hereinafter the "**reference NAV**". Subscription/redemption requests submitted after 5.00 pm (Paris time) on a Primary Market Day will be processed as if received from 10:00 am to 5.00 pm (Paris time) on the following Primary Market Day. Orders to subscribe for shares must be for a whole number of shares that represents at least 100,000 euros.

Subscriptions and redemptions in cash

Subscriptions and redemptions shall be made exclusively in cash and executed at the ref NAV.

Delivery and settlement

Settlement/delivery of subscriptions and redemptions shall be completed within five French Trading Days (as defined below) upon receipt of the subscription or redemption order.

Date and frequency of NAV calculation

The net asset value will be calculated and published daily, provided that at least one exchange on which the Sub-fund's shares are listed is open and that orders placed in the primary and secondary markets can be funded.

The Sub-fund's net asset value is calculated using the Benchmark Index's closing price. The Sub-fund's net asset value is denominated in EUR.

2/ PURCHASES AND SALES ON THE SECONDARY MARKET

A. COMMON PROVISIONS

For any purchase or sale of shares in the Sub-fund executed directly on an exchange on which the Sub-fund is admitted or will be admitted for continuous trading, no minimum purchase or sale amount is required other than that which may be required by the relevant exchange(s).

Shares in a listed fund that are purchased on the secondary market cannot generally be directly sold back to that fund. Investors must therefore buy and sell their shares or units on a secondary market through an intermediary (e.g. a broker) and may consequently incur costs. Furthermore, there is a possibility that investors may pay more than the indicative net asset value when buying shares or units and receive less than the indicative net asset value when selling shares or units.

If the stock market value of a listed fund's shares or units differs significantly from their indicative net asset value, or if trading in the fund's shares or units is suspended, investors may be authorized, subject to the conditions set forth below, to redeem their shares or units in the primary market directly from the fund, without being subject to the minimum redemption amount requirement set forth herein in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)".

The management company shall decide whether to allow such primary market redemptions and for how long, on the basis of the following criteria for assessing the significance of a market disruption:

- The suspension or strong disturbance of secondary trading on a given exchange is relatively frequent
- The link between the market disruption and secondary market operators (such as the default of one or more of the Market Makers of a given exchange, or a breakdown or malfunction of an exchange's IT or operating systems), excluding a disruption caused by a source external to the secondary exchange on which the Sub-fund's shares are traded, such as an event that affects the liquidity and valuation of all or some of the Benchmark Index's components
- Any other objective circumstance that could adversely affect the fair treatment and/or the interests of the Sub-fund's share-holders.

Notwithstanding the provisions concerning fees presented in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)", redemptions made in the primary market in this case shall only be subject to a net redemption fee of 3% paid to the Sub-fund and which serves to cover its trading costs.

In such exceptional cases when redemption in the primary market is allowed, the Management Company shall post on Lyxor's website at www.lyxor.etf.com the procedure that investors must observe to redeem their shares or units in the primary market. The Management Company shall also make this procedure available to the market undertaking that handles trading in the Sub-fund's shares.

B. SPECIFIC PROVISIONS

a. If the Sub-fund's shares are listed on Euronext Paris, as indicated in the "Key Information" section, investors should note the following rules:

Negotiability of shares and information about the financial institutions acting as Market Makers:

The shares are freely negotiable on the Euronext Paris regulated market under the following conditions and according to the applicable legal and regulatory provisions.

The Sub-fund shares will be listed on a specific trading list, the rules for which are defined in the following instructions published by Euronext Paris SA:

- Instruction No. 4-01 " Universal Trading Platform Manual"
- Appendix to Instruction N4-01 (Appendix to the Euronext Market Trading Manual)
- Instruction No. 6-04 "Documentation to be provided when filing a listing application for an ETF, ETN, ETV and open-ended undertakings for collective investment other than"

Pursuant to article D 214-22-1 of the French Monetary and Financial Code the units or shares of undertakings for collective investments in transferable securities may be admitted to trading, provided that these undertakings have a system to ensure that the market price of their units or shares does not differ significantly from their net asset value. Under Euronext Paris SA's rules trading in the Sub-fund's shares is also subject to a 'reservation threshold' of 1.5% above or below the Sub-fund's

indicative net asset value or "iNAV" (see the "Indicative Net Asset Value" section), as published by Euronext Paris SA and updated on an estimated basis during trading in accordance with the change in the Benchmark Index.

To comply with Euronext Paris SA's reservation threshold requirement (see the section entitled "Indicative net asset value") the Market Makers will ensure that the market price of the Sub-fund's shares does not differ from the Sub-fund's indicative NAV by more than 1.5%.

Euronext Paris SA may suspend trading in the Sub-fund's shares pursuant to the terms of its operating rules, if the aforementioned reservation threshold limit is exceeded.

Euronext Paris SA will also suspend trading in the Sub-fund's shares in the following cases:

- the Benchmark Index is no longer traded or calculated
- Euronext Paris SA cannot obtain the Benchmark Index's level
- Euronext Paris SA cannot obtain the Sub-fund's net asset value

In accordance with the terms and conditions governing admission to trading on Euronext Paris, the Market Makers undertake to provide market-making services for the Sub-fund's shares as soon as they are admitted to trading on the Euronext Paris exchange.

In particular, the Market Makers undertake to carry out market-making operations by maintaining a significant presence in the market, which initially entails the setting of a bid/ask spread.

More specifically, the Market Makers are required by contract with Euronext Paris SA to ensure that the Sub-fund maintains:

- a maximum global spread of 1.5% between the bid and offer price in the centralized order book.
- a minimum nominal trading value of EUR 100,000.

The obligations of the Sub-fund's Market Makers will be suspended in the following cases:

- the Benchmark Index is no longer traded or calculated

if trading is substantially disrupted, for example due to a widespread shift in prices or an event that makes normal market making impossible.

Indicative Net Asset Value

Euronext Paris SA will calculate and publish, each Trading Day (as defined below) during trading hours, the Sub-fund's indicative net asset value (hereinafter "iNAV").

The Sub-fund's iNAV is a theoretical net asset value calculated every 15 seconds by Euronext SA throughout the Paris trading day and is based on the level of the Benchmark Index. The iNAV enables investors to compare the prices that the Market Makers offer on the market with the theoretical value calculated by Euronext.

A "Trading Day" is a day on which NSYE Euronext is normally open and on which the Benchmark Index is normally published.

The iNAV will be calculated every day that the net asset value is calculated and published.

To calculate the Sub-fund's iNAV throughout the Paris trading session (9: 05 am to 5: 35 pm), Euronext Paris SA will use the Benchmark Index value published by Reuters.

The market prices of the Long-Term Euros-BTP futures used to calculate the level of the Benchmark Index and therefore to determine the iNAV is provided to Reuters by Eurex.

If Eurex is closed (on a public holiday on the TARGET calendar), the Benchmark Index is no longer published, the net asset value can no longer be calculated and trading in the Sub-fund's shares may be suspended.

Lyxor International Asset Management, the Sub-fund's asset manager, will provide Euronext Paris SA with all the financial and accounting data that Euronext Paris SA needs to calculate the Sub-fund's iNAV and in particular:

- The day's estimated net asset value
- The official net asset value of the previous business day
- The level of the Benchmark Index on the previous business day.

These data will serve as a basis for Euronext Paris SA's calculations to determine the Sub-fund's iNAV for the following Trading Day, which is updated in real time.

b. If the Sub-fund's shares are listed on an exchange other than Euronext Paris, as indicated in the "Key Information" section, investors should note the following

Investors wishing to acquire shares in the Sub-fund or obtain more information regarding the market-making terms that govern the listing and trading of shares on the types of exchanges indicated in the "Key Information" section are advised to familiarize themselves with the guidelines laid down by the relevant market undertaking in compliance with local regulations, and to seek if necessary the assistance of their usual broker(s) for executing trades on the relevant exchange(s).

FEES AND CHARGES

SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)

The subscription and redemption fees shown below respectively increase the subscription price paid by the investor and decrease the redemption price received. Fees kept by the Sub-fund compensate it for the expenses it incurs in investing in the Sub-fund's assets or in divesting these assets. Any fees that are not kept by the Sub-fund are paid to the asset manager, the marketing agent or other service provider.

Fees paid by investors upon subscription or redemption	Base	Maximum charge
Subscription fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per subscription order or 5% payable to third parties
Subscription fee kept by the Sub-fund	NAV per share x number of shares	N/A
Redemption fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per redemption order or 5% payable to third parties
Redemption fee kept by the Sub-fund	NAV per share x number of shares	N/A

OPERATIONAL AND MANAGEMENT FEES:

These fees cover all the costs invoiced directly to the Sub-fund, except for transaction expenses, which include intermediary fees (brokerage, stock market taxes etc.) and any account activity charge that may be charged by the depositary or the asset manager, in particular.

For this Sub-fund the following fees may be charged in addition to the operating and management fees (see table below):

- incentive fees, which the Sub-fund pays to the management company when the Sub-fund exceeds its objectives
- account activity charges charged to the Sub-fund.

For more information on the fees or expenses that the Sub-fund must pay, see the Statistics section of the Key Investor Information Document (KIID).

Fees charged to the Sub-fund	Base	Maximum charge
Investment management fees and administration fees that are external to the management company (auditor, depositary, fund distribution and legal fees) including tax ⁽¹⁾	Net asset value	0.40% per annum
Incentive fee	Net asset value	N/A
Account activity charge	Charge on each transaction	N/A

⁽¹⁾ Includes all fees and expenses except for transaction expenses, incentive fees and fees associated with investment in UCITS.

COMMERCIAL INFORMATION

Distribution of this prospectus and the offering or purchase of the Fund's share classes may be subject to restrictions with regard to certain persons or in certain countries under national regulations that may apply to these persons or countries. Investors are therefore responsible for ensuring that they can legally subscribe to or invest in this Fund. The information in this prospectus therefore cannot be construed to be an offer or solicitation to buy or sell shares in this Fund in a country where such offer or solicitation is unlawful.

The Fund's share classes will not be registered pursuant to the U.S. Securities Act of 1933, as amended (the "U.S. Securities Act") and cannot be offered, assigned, transferred or allocated to the United States of America, or to:

- (A) any "U.S. Person", as this term is defined (i) under Regulation S of the US Securities Act of 1933 and (ii) under U.S. regulations as defined in Section 7701 (a) (30) of the Internal Revenue Code of 1986 as amended. The Fund's shares will not be offered to U.S. Persons.
- (B) anyone other than those persons considered to be "non-US Persons" as this term is defined under U.S. regulations pursuant to the Commodity Futures Trading Commission, Rule 4.7 (a) (1) (iv).

The Fund's shares will only be offered for sale outside of the United States of America to non-U.S. Persons.

For the purpose of this document, the term "U.S. Person" shall mean, among other things, any individual who resides in the United States of America, any entity organized or formed under the laws of the United States of America, certain entities organized or formed outside of the United States of America by one or more U.S. persons, or any account held on behalf of such a U.S. person.

Before making an investment in this Fund or Sub-fund, investors should seek the advice of their financial, tax and legal advisers.

PLACE AND METHOD OF NET ASSET VALUE PUBLICATION OR COMMUNICATION

At the head office of LYXOR INTERNATIONAL ASSET MANAGEMENT, at 17, cours Valmy - 92987 Paris La Défense CEDEX - France.

The Sub-fund's net asset value will be calculated and published by Euronext Paris SA on each Paris Trading Day, during trading hours.

IMPORTANT INFORMATION ABOUT THE BENCHMARK INDEX PROVIDER

The LYXOR ETF DAILY DOUBLE SHORT BTP sub-fund is in no way sponsored, endorsed, sold or promoted by Société Générale Index (SGI), which is a registered trademark of the Société Générale group (hereinafter the "Licensor"). The Licensor makes no warranty, guarantee or commitment, whether express or implied, as to the income to be obtained from using the SGI DAILY DOUBLE SHORT BTP index and/or the level that this index may reach at any given time or of any other type. The Licensor shall not be liable, to anyone whatsoever, for any error that affects the Benchmark Index and shall have no obligation to inform anyone whatsoever of any such error. The SGI DAILY DOUBLE SHORT BTP index is the exclusive property of Société Générale. Société Générale has signed a contract with Standard & Poor's, under the terms of which S&P undertakes to calculate and maintain the Benchmark Index. However, S&P may not be held liable in the event of an error or omission in the calculation of the Benchmark Index.

ADDITIONAL INFORMATION

The Sub-fund's shares are accepted for clearing by Euroclear France S.A.

Subscription and redemption orders are sent by the investors' financial intermediaries (members of Euroclear France SA) to the Depositary.

Pursuant to Article L. 533-22-1 of the French Monetary and Financial Code, information concerning the possible inclusion of social, environmental and corporate governance objectives and performance criteria in the investment policy is available on the management company's website and in the Multi Unit France fund annual report.

The Multi Units France fund prospectus, the Key Investor Information Document and the most recent annual documents will be sent to investors within eight business days upon written request addressed to:

LYXOR INTERNATIONAL ASSET MANAGEMENT
17 Cours Valmy - 92987 Paris La Défense France.

e-mail: contact@lyxor.com

More information can also be requested from Lyxor International Asset Management on its website at www.lyxoretf.com.

Prospectus publication date: See the "Publication Date" section.

The AMF's website (www.amf-france.org) provides more information on the regulatory documents and various provisions that concern investor protection. This Prospectus shall be made available to investors prior to subscription.

INVESTMENT RULES

The Sub-fund will comply with the investment rules set out in the European Directive 2009/65/EC of 13 July 2009.

The Sub-fund may invest in the assets specified in Article L214-20 of the French Monetary and Financial Code, subject to the risk-diversification and investment ratio requirements of Articles R214-21 to R214-27 of said Code.

Notwithstanding the 10% limit under Paragraph II of Article R214-21 of the French Monetary and Financial Code, the Sub-fund may invest up to 20% of its assets in the equities and debt securities of a single issuer, in compliance with Article R214-22-I, which deals with index-tracking funds. Pursuant to Article R214-22 II, the Sub-fund may also increase this 20% limit for a single issuer to 35%, when this is justified by exceptional market conditions, and in particular when certain securities are largely dominant.

Notwithstanding the above, securities guaranteed or issued by a given issuer can account for up to 35% of assets and up to 100% if the Sub-fund holds at least six issues of which none exceeds 30% of assets, provided that these securities are financial instruments issued or guaranteed by an OECD member state, the local authorities of a European Union member state or a country that is a member of the European Economic Area.

OVERALL RISK EXPOSURE

The commitment approach is used to calculate the overall risk exposure.

ASSET VALUATION AND ACCOUNTING RULES

A. VALUATION RULES

The Sub-fund's assets are valued in accordance with applicable laws and regulations and most notably Regulation No. 2014-01 of 14 January 2014 of the Comité de la Réglementation Comptable (the Accounting Regulations Committee), which applies to the chart of accounts for undertakings for collective investment in transferable securities.

Financial instruments traded on a regulated market are valued at the closing price recorded on the day prior to the calculation of the net asset value. If these financial instruments are traded on several regulated markets at the same time, the closing price used is that recorded on the regulated market on which they are principally traded.

However, in the absence of significant trading on a regulated market, the following financial instruments are valued using the following methods:

- Negotiable debt securities ("NDS") with a remaining life upon acquisition that is less than or equal to three months are valued by applying the difference between the acquisition value and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life of more than three months upon acquisition but less than or equal to three months at the net asset value calculation date are valued by applying the difference between the most recent valuation and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life at the net asset value calculation date that exceeds three months are valued at their current value. The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- Financial futures traded on organized markets are valued at the clearing price on the day prior to the calculation of the net asset value. Options traded on organized markets are valued at their market price on the day prior to the calculation of the net asset value. Forward contracts and over-the-counter options are valued at the price quoted by the counterparty. The management company monitors these prices independently.
- Bank deposits are valued at their nominal value plus accrued interest.
- Warrants, short and medium-term notes (bons de caisse), promissory notes and mortgage notes are valued under the management company's responsibility at their most likely trading value.
- Securities financing transactions are valued at the market price.
- Shares and units in UCITS under French law are valued at the last known net asset value on the day the Sub-fund's net asset value is calculated.
- Shares and units in foreign investment funds are valued at the last known unitary net asset value at the date the Sub-fund's net asset value is calculated.
- Financial instruments traded on a regulated market and for which no price has been quoted or whose price has been corrected, are valued under the management company's responsibility at their most likely trading value.
- The exchange rates used to value financial instruments denominated in a currency other than the Sub-fund's base currency are the WM Reuters fixing rates published on the day the Sub-fund's net asset value is calculated.

B. ACCOUNTING METHOD FOR TRADING EXPENSES

Trading expenses are included in the initial cost of the transaction.

C. ACCOUNTING METHOD FOR INCOME FROM FIXED-INCOME SECURITIES

Income from fixed-income securities is accounted for using the cash-basis method.

D. DISTRIBUTION POLICY

For more information see the section entitled "Calculation and appropriation of Distributable amounts"

E. ACCOUNTING CURRENCY

The Sub-fund's accounts are kept in euros.

SUB-FUND NO. 10: Lyxor MSCI Indonesia UCITS ETF

A SICAV SUB-FUND COMPLIANT WITH DIRECTIVE 2009/65/CE

ISIN CODES:

Acc share class: FR0011067511
C-USD share class: FR0011070374
Dist share class: FR0011070382

CLASSIFICATION

Global equities

The Lyxor MSCI Indonesia UCITS ETF sub-fund (the "Sub-fund" is continuously at least 60% exposed to a foreign equity market or to the equity markets of two or more countries, which may include the French market.

The Sub-fund is a UCITS ETF type index tracker.

INCEPTION DATE

The Sub-fund was approved by l'autorité des Marchés Financiers (the French financial markets authority) on 23/06/2011.

INVESTMENT OBJECTIVE

The Sub-fund's investment objective is to replicate the movement of the MSCI Indonesia Net Total Return index (the "Benchmark Index"), denominated in US dollars (USD), whether positive or negative, while minimizing the tracking error between the Sub-fund's performance and that of its Benchmark Index.

The expected ex-post tracking error under normal market conditions is 0.10%.

BENCHMARK INDEX

The Benchmark Index is the MSCI Indonesia Net Total Return index (i.e. with net dividends reinvested).

The Benchmark Index is an equity index that is calculated and published by the global index provider MSCI.

The Benchmark Index is composed exclusively of Indonesian securities (Indonesia) and offers the basic characteristics of MSCI indexes, which include free-float adjustment of the market capitalization of the Benchmark Index constituents and sector classification in accordance with the Global Industry Classification Standard (GICS).

A full description of the Benchmark Index and its construction methodology and information on the composition and respective weightings of the Benchmark Index components are available on the Internet at www.msci.com

The performance tracked is that of the Benchmark Index's closing price in USD.

Benchmark Index composition and revision

The Benchmark Index seeks to represent 85% of the free-float adjusted market capitalization of each major industry group in the Indonesian market.

By targeting 85% representation for each industry group, the Benchmark Index accounts for 85% of the total market capitalization of the Indonesian market, while also representing its economic diversity.

MSCI indices are also rebalanced quarterly to account for changes in the market capitalization of an index component (i.e. the number of shares issued and the free float) or its sector classification. The principal changes in a company's capital structure may be implemented in real time (merger or acquisition, large rights issues or IPOs).

The exact composition of the Benchmark Index and Euronext's rules for index composition revision are available on the Internet at www.msci.com

The frequency with which the Benchmark Index is rebalanced does not affect the cost of implementing the Investment Strategy.

Benchmark Index publication

The Benchmark Index is available through Reuters and Bloomberg.

Reuters code: MIID00000NUS

Bloomberg code: MOID

The Benchmark Index's closing price is available on MSCI's website at www.msci.com.

Pursuant to Article 52 of European Parliament and Council Regulation 2016/1011 of 8 June 2016, MSCI, the administrator of the MSCI Indonesia Net Total Return benchmark index, has until 1 January 2020 to apply for approval or registration as applicable.

As of the date of the most recent version of this prospectus, the benchmark index administrator was not yet listed in ESMA's register of benchmark administrators.

Pursuant to European Parliament and Council Regulation 2016/1011 of 8 June 2016, the asset management company has a procedure for monitoring the benchmark indices used that specifies the measures to be implemented if an index is substantially modified or is no longer provided.

INVESTMENT STRATEGY

1. Strategy employed

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund will employ an indirect replication method, which means that it will enter into one or more OTC swap contracts enabling it to achieve its investment objective. These swap contracts will serve to exchange the value of the Sub-fund's assets, which will consist of cash and/or balance sheet assets (excluding any securities received as collateral), for the value of the securities that underlie the Benchmark Index.

The Sub-fund's equities will be mainly those that make up the Benchmark Index, and also other international equities, in all economic sectors and listed in all markets, including small-cap markets.

The basket of securities held may be adjusted daily such that its value will generally be at least 100% of the net assets. When necessary, this adjustment will be made to ensure that the counterparty risk arising from the aforementioned swap contract will be neutralized.

Information on the updated composition of the basket of 'balance sheet' assets in the Sub-fund's portfolio and the value of the swap contract concluded by the Sub-fund, is available on the page dedicated to the Sub-fund on Lyxor's website at www.lyxoretf.com. The frequency of any updates and/or the date on which the aforementioned information is updated is also indicated on the same page of the aforementioned website.

Up to 20% of the Sub-fund's assets may be exposed to equities issued by the same entity. This 20% limit may be increased to 35% for a given issuing entity when this is justified by exceptional market conditions and in particular when certain securities are largely dominant and/or in the event of strong volatility that affects a financial instrument or securities linked to an economic sector represented in the Benchmark Index, particularly in the event of a public offering that substantially affects a Benchmark Index security or in the event of a significant drop in the liquidity of one or more of the Benchmark Index's financial instruments.

2. Balance sheet assets (excluding embedded derivatives)

In accordance with regulatory ratios, the Sub-fund may invest in global equities in all economic sectors and listed on any exchange, including "small-cap" exchanges.

The aforementioned equities will be selected on the basis of the following:

- eligibility criteria and in particular:
 - their inclusion in a major stock exchange index or in the Benchmark Index
 - liquidity (must exceed a minimum daily trading volume and market capitalization)
 - credit rating of the country where the issuer has its registered office (must have a least a minimum S&P or equivalent rating)
- diversification criteria, and in particular:
 - the issuer (application of investment ratios to assets that qualify for UCITS, pursuant to Art. R214-21 of the French Monetary and Financial Code)
 - geographic
 - sector

Investors may find more information on the above eligibility and diversification criteria, and in particular the list of eligible indices, on Lyxor's website at www.lyxoretf.com

Investment in undertakings for collective investment in transferrable securities ("UCITS") that comply with Directive 2009/65/EC is limited to 10% of the Sub-fund's net assets.

The fund manager will not invest in the shares or units of alternative investment funds (AIF) or other investment funds that were formed under a foreign law. The Sub-fund may invest in the shares of UCITS managed by the management company or by a company that is related to the management company.

When the Fund receives collateral in the form of securities, subject to the terms of section 8 below, it acquires full title to these securities and they are therefore included among the balance sheet assets to which it has full title.

To optimize the Sub-fund's management and achieve its investment objective, the asset manager reserves the right to use other financial instruments, in compliance with regulations.

3. Off-balance sheet assets (derivatives)

The Sub-fund will use OTC index-linked swaps that swap the value of the Sub-fund's assets (or the value of any other financial instrument or asset in the Sub-fund)

- Maximum proportion of assets under management for which total return swaps (TRS) may be entered into: 100%.
- Expected proportion of assets under management for which total return swaps (TRS) may be entered into: up to 100%.

for the value of the Benchmark Index (as described in part 1 of this section).

To optimize the Sub-fund's management and achieve its investment objective, the manager reserves the right to use other financial instruments in compliance with regulations, such as derivative instruments other than index-linked swaps.

In accordance with its best execution policy, the management company considers that Société Générale is the counterparty that is generally able to obtain the best possible execution for these derivative financial instruments. Accordingly, these derivative financial instruments (including index-linked swaps) may be traded via Société Générale without having to seek a competitive bid from another counterparty.

The counterparty of the derivative financial instruments referred to above (the "Counterparty") will have no discretionary power over the composition of the Sub-fund's portfolio nor over the underlying assets of the derivative financial instruments.

4. Securities with embedded derivatives

N/A.

5. Cash deposits

In order to optimize its cash management, the Sub-fund may deposit up to 20% of its assets in the form of cash with credit institutions that belong to the same group as the depositary.

6. Cash borrowing

The Sub-fund may temporarily borrow up to 10% of its net assets.

7. Securities financing transactions

The manager shall not engage in any temporary purchases or sales of securities.

8. Collateral

Whenever the investment strategy exposes the Sub-fund to counterparty risk, and in particular when the Sub-fund uses over-the-counter swaps, the Sub-fund may accept eligible securities as collateral to reduce the counterparty risk associated with these swaps. The portfolio of collateral received may be adjusted daily to ensure that its value is at least sufficient to cover the Sub-fund's counterparty risk in most cases. The purpose of this adjustment is to neutralize the Sub-fund's counterparty risk.

The Sub-fund will have full title to all collateral received, which will be deposited in the Sub-fund's account with the depositary. This collateral will therefore be included in the Sub-fund's assets. If a counterparty defaults on an obligation, the Sub-fund may dispose of the assets received from the counterparty in respect of the secured transaction to pay off the counterparty's debt to the Sub-fund.

All collateral the Sub-fund receives for this purpose must comply with the applicable laws and regulations, with respect in particular to the liquidity and valuation of the collateral, the credit-worthiness of securities issuers, risk exposure correlation and the risks of collateral management and enforceability. All collateral received must in particular meet the following criteria:

- (a) All collateral must be of high quality, be highly liquid and tradable on a regulated market or on a multilateral trading facility, with transparent pricing to enable the collateral to be rapidly sold near its estimated price
- (b) This collateral must be valued at its mark-to-market price at least daily and assets with highly volatile prices are not acceptable as collateral, unless a sufficiently prudent discount or "haircut" is applied
- (c) The issuer of this collateral must be independent of the counterparty and must not be closely correlated with the counterparty's financial performance
- (d) This collateral must be sufficiently diversified by country, market and issuer, and no exposure to a single issuer may exceed 20 % of the Sub-fund's net asset value
- (e) The Sub-fund's Management Company must be able to enforce this collateral in full and at any time, without having to consult with the counterparty or obtain its approval.

Notwithstanding the condition specified in (d) above, the Fund may accept a basket of securities collateral that increases its exposure to a single issuer to more than 20% of its net asset value provided that:

- such securities collateral is issued by (i) a Member State, (ii) one or more of a Member State's local authorities, (iii) a country that is not a Member State (iv) a public international organization to which one or more Member States belong; and;
- such securities collateral consists of at least six different issues of securities of which no single issue exceeds 30% of the Sub-fund's assets.

Subject to the above conditions, the Sub-Fund may take collateral in the following forms:

- (i) Cash and cash-equivalent assets, which for example include short-term bank deposits and balances and money-market instruments;
- (ii) Bonds issued or guaranteed by an OECD member state, or by its local government entities, or by an EU, regional or global supranational institution or organisation, or by any country provided that conditions (a) to (e) above are fully complied with;
- (iii) Shares or units issued by money-market funds that calculate a daily net asset value and have an AAA or equivalent credit rating;
- (iv) The shares or units of UCITS that invest mainly in the bonds and/or equities indicated in (v) and (vi) below;
- (v) Bonds issued or guaranteed by first-class issuers offering sufficient liquidity;
- (vi) Equities admitted for trading or traded on a regulated exchange of an EU member country, on a stock exchange of an OECD member country or on a stock exchange of another country provided that conditions (a) to (e) above are fully complied with and that these equities are components of a major index.

Collateral discount policy:

The Sub-fund's management company shall apply a discount to the collateral accepted by the Sub-fund. The amount of these discounts will depend mainly on the following:

- The nature of the collateral asset;
- The collateral's maturity (if applicable);
- The credit rating of the collateral issuer (if applicable).

Reinvestment of collateral:

Non-cash collateral will not be sold, reinvested or pledged.

At the manager's discretion, cash collateral may either be:

- (i) deposited with an authorized institution
- (ii) invested in high-quality government bonds
- (iii) used for reverse repurchase transactions, provided that these are entered into with credit institutions that are subject to prudential supervision and that the fund is able to withdraw the total amount of its cash collateral and the accrued interest at any time
- (iv) invested in short-term money market funds that meet the guidelines for a common EU definition of money market funds.

All cash collateral that is reinvested must be invested in a diversified manner in compliance with the rules that apply to the acceptance of non-cash collateral.

RISK PROFILE

The shareholder's money will be invested mainly in the financial instruments selected by the management company. These instruments are subject to market trends and contingencies.

Investors in the Sub-fund will mainly be exposed to the following risks:

Equity risk

The price of an equity security can increase or decrease in accordance with changes in the issuer's risk exposure or in the economic conditions of the market in which the security is traded. Equity markets are more volatile than fixed income markets, where under stable macroeconomic conditions income over a given period of time can be estimated with reasonable accuracy.

Emerging market risk

The Sub-fund's exposure to emerging markets carries a greater risk of potential loss than an investment in traditional developed markets. Specifically, market operating and supervision rules for an emerging market may differ from standards applicable in developed markets. In particular, exposure to emerging markets can entail: increased market volatility, lower trading volumes, a risk of economic and/or political instability, an uncertain or unstable tax regime and/or regulatory environment, market closure risks, government restrictions on foreign investments, an interruption or limitation of convertibility or transferability of one of the currencies included in the Benchmark Index.

Counterparty risk

The Sub-fund is exposed to the risk that a counterparty with which the Sub-fund has entered into a contract or transaction may go bankrupt or default on a settlement or other obligation. The Sub-fund is in particular exposed to counterparty risk resulting from the use of derivative financial instruments (DFI) traded over the counter with Société Générale or some other counterparty. In compliance with UCITS regulations, exposure to counterparty risk (whether the counterparty is Société Générale or another entity), cannot exceed 10% of the Sub-fund's total assets per counterparty.

If a counterparty defaults on an obligation the DFI contract may be terminated before maturity. The Sub-fund will do everything in its power to achieve its investment objective by, if appropriate, entering into another DFI contract with another counterparty at the market conditions at the time of such an event.

If this counterparty risk materializes it could have an impact on the Sub-fund's ability to achieve its investment objective of replicating the Benchmark Index ».

When Société Générale is the DFI counterparty, conflicts of interest may arise between it and the Sub-fund's management company, which has procedures to identify and reduce such conflicts of interest and to resolve them equitably if necessary.

Capital risk

The capital invested is not guaranteed. Investors therefore may not recover all or part of their initial investment, particularly in the event that the Benchmark Index posts a negative return over the investment period.

Liquidity risk (primary market)

The Sub-fund's liquidity and/or value may be adversely affected if, when the Sub-fund or a counterparty to a financial derivative instrument (DFI) is rebalancing its exposure, the underlying financial markets are restricted, closed, or subject to wide bid/offer spreads. An inability, due to low trading volume, to execute the trades required to replicate the Benchmark Index may also adversely affect the subscription, conversion or redemption of shares or units.

Low Benchmark Index diversification risk

The Benchmark Index to which investors are exposed applies to a specific region, sector or strategy, which may provide a smaller diversification of assets when compared to a broader index exposed to several regions, sectors or strategies. Exposure to such a less-diversified index may result in higher volatility than more diversified markets. Nevertheless, diversification rules of the UCITS Directive still apply to the Sub-fund's underlying assets at all times.

Liquidity risk (secondary market)

The price of the Sub-fund's listed shares may deviate from the Sub-fund's indicative net asset value. The liquidity of shares or units traded on a given exchange may be adversely affected by a suspension in trading for various reasons, for example:

- i) the calculation of the Benchmark Index is suspended or stopped
- ii) trading in the market(s) in the Benchmark Index's underlying assets is suspended
- iii) an exchange cannot obtain or calculate the Sub-fund's indicative net asset value
- iv) a market maker fails to comply with an exchange's rules
- v) an exchange's IT, electronic or other system fails.

Risk that the investment objective is not fully achieved:

There is no guarantee that the investment objective will be achieved, as no asset or financial instrument can ensure that the Benchmark Index will be automatically and continuously replicated, particularly in the event of one or more of the following risks:

- Risk of using derivative financial instruments

In order to achieve its investment objective, the Sub-fund can enter into transactions involving over-the-counter derivative financial instruments (DFI), such as swaps, in order to secure the performance of the Benchmark Index. These DFI involve various risks, such as counterparty risk, hedging disruption, Benchmark Index disruption, taxation risk, regulatory risk, operational risk and liquidity risk. These risks can materially affect an DFI and may require an adjustment of the DFI transaction or even its premature termination, which could adversely affect the Sub-fund's net asset value.

- Risk due to a change in the tax regime

A change in the tax regime of a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed could adversely affect the taxation of investors. In such an event, the Sub-fund manager shall not be liable to any investor with respect to any payment that may have to be made to a competent tax authority.

- Risk of a change in the taxation of the Sub-fund's underlying assets
A change in the taxation of the Sub-fund's underlying assets could adversely affect the taxation of the Sub-fund. In such an event a discrepancy between the estimated taxation and the actual taxation of the Sub-fund and/or of the Sub-fund's DFI counterparty may adversely affect the Sub-fund's net asset value.
- Regulatory risk affecting the Sub-fund
In the event of a change in the regulatory regime in a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed, the subscription, conversion or redemption of shares or units may be adversely affected.
- Regulatory risk affecting the Sub-fund's underlying assets
In the event of a change in the regulations that govern the Sub-fund's underlying assets, the Sub-fund's net asset value and the subscription, conversion or redemption of shares or units may be adversely affected.
- Benchmark Index disruption risk
If an event adversely affects the Benchmark Index, the Sub-fund manager may be required, as provided for by law, to suspend the subscription and redemption of the Sub-fund's shares. The calculation of the Sub-fund's net asset value could also be adversely affected.
If the disruption of the Benchmark Index persists, the Sub-fund manager will determine an appropriate course of action, which could decrease the Sub-fund's net asset value.
A 'Benchmark Index event' includes but is not limited to the following situations:
 - i) the Benchmark Index is deemed to be inaccurate or does not reflect actual market developments
 - ii) the Benchmark Index is permanently cancelled by the index provider
 - iii) the index provider is unable to indicate the level or value of the Benchmark Index
 - iv) The index provider makes a material change in the Benchmark Index calculation formula or method (other than a minor modification such as an adjustment to the Benchmark Index's underlying components or their respective weightings) which the Sub-fund cannot effectively replicate at a reasonable cost.
 - (v): a Benchmark Index component becomes illiquid because it is no longer traded on a regulated market or because its trading over-the-counter (e.g. bonds) is disrupted
 - (vi) the Benchmark Index components are exposed to higher transaction costs for execution or settlement/delivery, or to specific tax constraints and these costs are not reflected in the Benchmark Index's performance.
- Corporate action risk involving a Benchmark Index constituent
An unforeseen change, by the issuer of a security that is a component of the Benchmark Index, in a planned corporate action that is in contradiction with a previous official announcement on which the Sub-fund based its valuation of the corporate action (and/or on which the Sub-fund's counterparty to a financial derivative instrument or transaction based its valuation of the corporate action) can adversely affect the Sub-fund's net asset value, particularly if the Sub-fund's treatment of the corporate event differs from that of the Benchmark Index methodology.
- Currency risk associated with the Benchmark index
The Sub-fund is exposed to currency risk since the securities that underlie the Benchmark Index may be denominated in a different currency than the Benchmark Index, or be derivatives of securities that are denominated in a different currency than the Benchmark Index. Changes in exchange rates may therefore adversely impact the Sub-fund's Benchmark Index.
- Currency risk of the Acc share class
This share class is exposed to currency risk since it is denominated in a different currency than the Benchmark Index. Changes in exchange rates may therefore cause the net asset value of this share class to decrease, even if the value of the Benchmark Index increases.
- Legal risk

The Fund may be exposed to a legal risk arising from a total return swap (TRS) agreement as indicated in EU Regulation No. 2015/2365.

ELIGIBLE INVESTORS AND TYPICAL INVESTOR PROFILE

The Sub-fund is available to all investors.

Investors in this Sub-fund are seeking exposure to Indonesian equity market.

The amount that can be reasonably invested in the Sub-fund depends on each investor's personal situation. To determine this amount, investors must take into account their personal wealth and/or estate, their cash requirements currently and for the next five years, and their willingness to take on risk or their preference for more prudent investment. Investors are also advised to diversify their investments sufficiently so as not to be exposed solely to this Sub-fund's risks.

All investors are therefore asked to consider their specific situation with the help of their usual investment advisor.

The recommended minimum investment period is at least five years.

CALCULATION AND APPROPRIATION OF DISTRIBUTABLE AMOUNTS

For the Acc and C-USD share classes: all distributable amounts are accumulated.

For the Dist share class: If a distribution is decided, the management company reserves the right to distribute distributable amounts one or more times a year and/or accumulate all or part of these amounts. Realized net capital gains will be accumulated.

DISTRIBUTION FREQUENCY

If a distribution is decided, the Board of Directors reserves the right to distribute all or part of the distributable amounts in one or more distributions per annum.

SHARE CHARACTERISTICS

Subscription orders may be placed for a specific monetary amount or for a whole number of shares.
Only a whole number of shares may be redeemed.

SHARE CURRENCY

Share currency	Acc share class	Dist share class	C-USD share class
	Euro	USD	USD

SUBSCRIPTION AND REDEMPTION

1 / SUBSCRIPTION AND REDEMPTION ON THE PRIMARY MARKET

Subscription/redemption orders for shares in the Sub-fund will be processed by the Depositary, from 10:00 am to 6.30 pm (Paris time), every day that the Sub-fund's net asset value is to be published, provided that prices can be quoted for a significant proportion of the Benchmark Index components (hereinafter a "**Primary Market Day**", and will be executed at the net asset value on the next Primary Market Day, hereinafter the "**reference NAV**". Subscription/redemption requests submitted after 6.30 pm (Paris time) on a Primary Market Day will be processed as if received from 10:00 am to 6.30 pm (Paris time) on the following Primary Market Day.

The Acc share class

Orders for subscriptions / redemptions must be for a whole number of shares and represent at least EUR 100,000.

The C-USD and Dist share classes

Orders for subscriptions / redemptions must be for a whole number of shares and represent the USD equivalent at least EUR 100,000.

Subscriptions and redemptions in cash

Subscriptions and redemptions shall be made exclusively in cash and executed at the ref NAV.

Delivery and settlement

Settlement/delivery of subscriptions and redemptions shall be completed within five French business days upon receipt of the subscription or redemption order.

Date and frequency of net asset value calculation

The net asset value will be calculated and published daily, provided that at least one exchange on which the Sub-fund's shares are listed is open and that orders placed in the primary and secondary markets can be funded.

The Sub-fund's net asset value is calculated using the Benchmark Index's closing price. The Sub-fund's net asset value is denominated in the currency of the corresponding share class.

2 / PURCHASES AND SALES ON THE SECONDARY MARKET

A. COMMON PROVISIONS

For any purchase or sale of shares in the Sub-fund executed directly on an exchange on which the Sub-fund is admitted or will be admitted for continuous trading, no minimum purchase or sale amount is required other than that which may be required by the relevant exchange(s).

Shares in a listed Sub-fund that are purchased on the secondary market cannot generally be directly sold back to that Sub-fund. Investors must therefore buy and sell their shares on a secondary market through an intermediary (e.g. a broker) and may consequently incur costs. Furthermore, there is a possibility that investors may pay more than the indicative net asset value when buying shares and receive less than the indicative net asset value when selling shares.

If the stock market value of a listed fund's shares differs significantly from its indicative net asset value, or if trading in the fund's shares is suspended, investors may be authorized, subject to the conditions set forth below, to redeem their shares on the primary market directly from the fund, without being subject to the minimum redemption amount requirement set forth herein in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)".

The management company shall decide whether to allow such primary market redemptions and for how long, on the basis of the following criteria for assessing the significance of a market disruption:

- The suspension or strong disturbance of secondary trading on a given exchange is relatively frequent
- The link between the market disruption and secondary market operators (such as the default of one or more of the Market Makers of a given exchange, or a breakdown or malfunction of an exchange's IT or operating systems), excluding a disruption caused by a source external to the secondary exchange on which the Sub-fund's shares are traded, such as an event that affects the liquidity and valuation of all or some of the Benchmark Index's components
- Any other objective circumstance that could adversely affect the fair treatment and/or the interests of the Sub-fund's share-holders.

Notwithstanding the provisions concerning fees presented in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)", redemptions made in the primary market in this case shall only be subject to a net redemption fee of 0.5% paid to the Sub-fund and which serves to cover its trading costs.

In such exceptional cases when redemption in the primary market is allowed, the Management Company shall post on Lyxor's website at www.lyxor.etf.com the procedure that investors must observe to redeem their shares or units in the primary market. The Management Company shall also make this procedure available to the market undertaking that handles trading in the Sub-fund's shares.

B SPECIFIC PROVISIONS

- a. **If the Sub-fund's shares are listed on Euronext Paris, as indicated in the "Key Information" section, investors should note the following rules:**

Negotiability of shares and information about the financial institutions acting as Market Makers:

The shares are freely negotiable on the Euronext Paris regulated market under the following conditions and according to the applicable legal and regulatory provisions.

The Sub-fund shares will be listed on a specific trading list, the rules for which are defined in the following instructions published by Euronext Paris SA:

- Instruction No. 4-01 " Universal Trading Platform Manual"
- Appendix to Instruction N4-01 (Appendix to the Euronext Market Trading Manual)
- Instruction No. 6-04 "Documentation to be provided when filing a listing application for an ETF, ETN, ETV and open-ended undertakings for collective investment other than"

Pursuant to article D 214-22-1 of the French Monetary and Financial Code the units or shares of undertakings for collective investments in transferable securities may be admitted to trading, provided that these undertakings have a system to ensure that the market price of their units or shares does not differ significantly from their net asset value. Under Euronext Paris SA's rules trading in the Sub-fund's shares is also subject to a 'reservation threshold' of 3% above or below the Sub-fund's indicative net asset value or "iNAV" (see the "Indicative Net Asset Value" section), as published by Euronext Paris SA and updated on an estimated basis during trading in accordance with the change in the Benchmark Index.

To comply with Euronext Paris SA's reservation threshold requirement the Market Makers will ensure that the market price of the Sub-fund's shares does not differ from the Sub-fund's indicative Net Asset Value by more than 3% (see the section entitled "Indicative net asset value").

Euronext Paris SA may suspend trading in the Sub-fund's shares pursuant to the terms of its operating rules, if the aforementioned reservation threshold limit is exceeded.

Euronext Paris SA will also suspend trading in the Sub-fund's shares in the following cases:

- the Benchmark Index is no longer traded or calculated
- Euronext Paris SA cannot obtain the Benchmark Index's level
- Euronext Paris SA cannot obtain the Sub-fund's net asset value

In accordance with the terms and conditions governing admission to trading on Euronext Paris, the Market Makers undertake to provide market-making services for the Sub-fund's shares as soon as they are admitted to trading on the Euronext Paris exchange.

In particular, the Market Makers undertake to carry out market-making operations by maintaining a significant presence in the market, which initially entails the setting of a bid/ask spread.

More specifically, the Market Makers are required by contract with Euronext Paris SA to ensure that the Sub-fund maintains:

- a maximum global spread of 3% between the bid and offer price in the centralized order book.
- a minimum nominal trading value of EUR 100,000.

The obligations of the Sub-fund's Market Makers will be suspended in the following cases:

- the Benchmark Index is no longer traded or calculated
- if trading is substantially disrupted, for example due to a widespread shift in prices or an event that makes normal market making impossible.

Indicative Net Asset Value

Euronext Paris SA will calculate and publish, each Trading Day (as defined below) during trading hours, the Sub-fund's indicative net asset value (hereinafter "iNAV"). The iNAV is a measure of the intra-day value of the Sub-fund's net asset value based on the most recent data. The iNAV is not the value at which investors buy and sell shares in the Sub-fund on the secondary market.

A "Trading Day" is a day on which NSYE Euronext is normally open and on which the Benchmark Index is normally published.

The Sub-fund's iNAV is a theoretical net asset value calculated every 15 seconds by Euronext SA throughout the Paris trading day and is based on the level of the Benchmark Index. The iNAV enables investors to compare the prices that the Market Makers offer on the market with the theoretical value calculated by Euronext.

The iNAV will be calculated every day that the net asset value is calculated and published.

For the calculation of the Sub-fund's iNAV during the Paris trading session (from 9.05 am to 5.35 pm), Euronext Paris SA will use the Benchmark Index value published by Reuters.

If one or more stock exchanges on which the Benchmark Index's constituent equities are listed are closed (on a public holiday as indicated on the TARGET calendar), and if the iNAV cannot be calculated, trading in the Sub-fund's shares may be suspended.

Lyxor International Asset Management, the Sub-fund's management company, will provide Euronext Paris SA with all the financial and accounting data it needs to calculate the Sub-fund's iNAV and in particular:

- The day's estimated net asset value
- The official net asset value of the previous business day
- The level of the Benchmark Index on the previous business day.

These data will serve as a basis for Euronext Paris SA's calculations to determine the Sub-fund's iNAV in real time every Trading Day.

Additional information about the indicative net asset value of a share listed on an exchange may, in accordance with the terms and limits set by the relevant market undertaking, be provided on this exchange's website. This information is also available on the Reuters or Bloomberg pages that specifically concern the share class. Additional information about the Bloomberg and Reuters codes for the indicative net asset values of all UCITS ETF type share classes is also available in the "Term Sheets" section of Lyxor's website at www.lyxoret.com.

- b. **If the Sub-fund's shares are listed on an exchange other than Euronext Paris, as indicated in the "Key Information" section, investors should note the following**

Investors wishing to acquire shares in the Sub-fund or obtain more information regarding the market-making terms that govern the listing and trading of shares on the types of exchanges indicated in the "Key Information" section are advised to familiarize themselves with the guidelines laid down by the relevant market undertaking, in compliance with local regulations, and to seek if necessary the assistance of their usual broker(s) for executing trades on the relevant exchange(s).

FEES AND CHARGES

SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)

The subscription and redemption fees shown below respectively increase the subscription price paid by the investor and decrease the redemption price received. Fees kept by the Sub-fund compensate it for the expenses it incurs in investing in the Sub-fund's assets or in divesting these assets. Any fees that are not kept by the Sub-fund are paid to the management company, marketing agent or other service provider.

Fees paid by investors upon subscription or redemption	Base	Maximum charge
Subscription fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per subscription order or 5% payable to third parties
Subscription fee kept by the Sub-fund	NAV per share x number of shares	N/A
Redemption fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per redemption order or 5% payable to third parties
Redemption fee kept by the Sub-fund	NAV per share x number of shares	N/A

OPERATIONAL AND MANAGEMENT FEES

The Acc, Dist and C-USD share classes:

These fees cover all the costs invoiced directly to the Sub-fund, except for transaction expenses, which include intermediary fees (brokerage, stock market taxes etc.) and any account activity charge that may be charged, for example, by the depositary or the management company.

For this Sub-fund the following fees may be charged in addition to the operating and management fees (see table below):

- Incentive fees, which the Sub-fund pays to the management company when the Sub-fund exceeds its objectives;
- Account activity charges charged to the Sub-fund.

For more information on the fees or expenses that the Sub-fund must pay, see the Statistics section of the Key Investor Information Document (KIID).

Fees charged to the Sub-fund	Base	Maximum charge
Investment management fees and administration fees that are external to the management company (auditor, depositary, fund distribution and legal fees) including tax ⁽¹⁾	Net asset value	0.55% per annum
Incentive fee	Net asset value	N/A
Account activity charge	Charge on each transaction	N/A

(1) Includes all fees and expenses except for transaction expenses, incentive fees and fees associated with investment in UCITS.

COMMERCIAL INFORMATION

Distribution of this prospectus and the offering or purchase of the Fund's share classes may be subject to restrictions with regard to certain persons or in certain countries under national regulations that may apply to these persons or countries. Investors are therefore responsible for ensuring that they can legally subscribe to or invest in this Fund. The information in this prospectus therefore cannot be construed to be an offer or solicitation to buy or sell shares in this Fund in a country where such offer or solicitation is unlawful.

The Fund's share classes will not be registered pursuant to the U.S. Securities Act of 1933, as amended (the "U.S. Securities Act") and cannot be offered, assigned, transferred or allocated to the United States of America, or to:

- (A) any "U.S. Person", as this term is defined (i) under Regulation S of the US Securities Act of 1933 and (ii) under U.S. regulations as defined in Section 7701 (a) (30) of the Internal Revenue Code of 1986 as amended. The Fund's shares will not be offered to U.S. Persons.
- (B) anyone other than those persons considered to be "non-US Persons" as this term is defined under U.S. regulations pursuant to the Commodity Futures Trading Commission, Rule 4.7 (a) (1) (iv).

The Fund's shares will only be offered for sale outside of the United States of America to non-U.S. Persons.

For the purpose of this document, the term "U.S. Person" shall mean, among other things, any individual who resides in the United States of America, any entity organized or formed under the laws of the United States of America, certain entities organized or formed outside of the United States of America by one or more U.S. persons, or any account held on behalf of such a U.S. person.

Under the German tax act on investment funds (InvStG-E), the Sub-fund is a "mutual fund" and must comply with the criteria that apply to "equity funds". As such, the Sub-fund will hold a basket of securities that are eligible for the equity ratio as this term is defined under said German tax act, and which will represent at least 94% of its net assets under normal market conditions. To ensure compliance with this ratio, the Sub-fund may adjust this basket of securities on a daily basis. Before making an investment in this Fund or Sub-fund, investors should seek the advice of their financial, tax and legal advisers.

PLACE AND METHOD OF NET ASSET VALUE PUBLICATION OR COMMUNICATION

At the head office of LYXOR INTERNATIONAL ASSET MANAGEMENT, at 17, cours Valmy - 92987 Paris La Défense CEDEX - France.

The net asset value of each of the Sub-fund's share classes will be calculated and published each Trading Day..

IMPORTANT INFORMATION ABOUT THE BENCHMARK INDEX PROVIDER

LYXOR ETF MSCI Indonesia (the "Sub-fund") is in no way sponsored, endorsed, sold or promoted by MSCI Inc. ("MSCI"), nor by any MSCI subsidiary, nor by any of the entities involved in establishing the MSCI indices. The MSCI indices are the exclusive property of MSCI and the MSCI indices are trademarks of MSCI or its subsidiaries and have been licensed, for certain needs, to Lyxor International Asset Management. Neither MSCI, nor any subsidiary of MSCI, nor any of the entities involved in producing or calculating the MSCI indices have made any statement or any warranty, either expressed or implied, to holders of shares in the Sub-fund or, more generally, to the general public, concerning the merits of trading in shares of mutual funds in general or in shares of this Sub-fund in particular or the ability of any MSCI index to replicate the performance of the global equities market. MSCI and its subsidiaries are the owners of certain names, registered trademarks and the MSCI indices, which are determined, constructed and calculated by MSCI without any consultation with Lyxor International Asset Management or the Sub-fund. Neither MSCI, nor any MSCI subsidiary, nor any of the entities involved in the production of the MSCI indices are obliged to take into consideration the needs of Lyxor International Asset Management or holders of the Sub-fund's shares when determining, constructing or calculating the MSCI indices. Neither MSCI, nor any MSCI subsidiary, nor any of the entities involved in the production of the MSCI indices make any decision concerning the launch date, pricing, quantity of the Sub-fund's shares or the determination and calculation of the formula used to establish the Sub-fund's net asset value. Neither MSCI, nor any MSCI subsidiary, nor any of the entities involved in the production of the MSCI indices accept any responsibility for or obligations concerning the administration, management or marketing of the Sub-fund.

ALTHOUGH MSCI OBTAINS DATA INCORPORATED OR USED IN THE CALCULATION OF INDICES ORIGINATING FROM SOURCES THAT MSCI BELIEVES TO BE RELIABLE, NEITHER MSCI, NOR ANY OTHER PARTY INVOLVED IN THE CREATION OR CALCULATION OF THE MSCI INDICES GUARANTEES THE ACCURACY AND/OR THE COMPLETENESS OF THE INDICES OR ANY INCORPORATED DATA. NEITHER MSCI NOR ANY PARTY INVOLVED IN THE CREATION OR CALCULATION OF THE MSCI INDICES MAKES ANY WARRANTIES, EXPRESSED OR IMPLIED, CONCERNING THE RESULTS THAT THE HOLDER OF A MSCI LICENSE, CUSTOMERS OF SAID LICENSEE, COUNTERPARTIES, FUND SHAREHOLDERS OR ANY OTHER PERSON OR ENTITY WILL ACHIEVE FROM THE USE OF THE INDICES OR ANY INCORPORATED DATA IN RELATION TO THE RIGHTS LICENSED OR FOR ANY OTHER PURPOSE. NEITHER MSCI NOR ANY OTHER PARTY MAKES ANY WARRANTIES, EXPRESSED OR IMPLIED, AND MSCI DISCLAIMS ANY WARRANTIES CONCERNING THE COMMERCIAL VALUE OR SUITABILITY FOR A SPECIFIC PURPOSE OF THE INDICES OR INCORPORATED DATA. SUBJECT TO THE FOREGOING, UNDER NO CIRCUMSTANCES SHALL MSCI OR ANY OTHER PARTY BE HELD LIABLE FOR ANY LOSS, BE IT DIRECT, INDIRECT OR OTHER (INCLUDING LOSS OF EARNINGS) EVEN IF IT IS AWARE OF THE POSSIBILITY OF SUCH A LOSS.

ADDITIONAL INFORMATION

The Sub-fund's shares are approved for clearing by Euroclear France S.A.

Subscription and redemption orders are sent by the investors' financial intermediaries (members of Euroclear France SA) to the Depositary.

The Sub-fund's prospectus, the Key Investor Information Document, the most recent annual documents and the asset inventory will be sent to investors within eight business days upon receipt of a written request addressed to:

LYXOR INTERNATIONAL ASSET MANAGEMENT
17 Cours Valmy - 92987 Paris La Défense France.

E-mail: contact@lyxor.com

More information can also be requested from Lyxor International Asset Management on its website at www.lyxoretf.com.

Prospectus publication date: See the "Publication Date" section.

Pursuant to Article L.533-22-1 of the French Monetary and Financial Code, information concerning the management company's possible inclusion of social, environmental and corporate governance objectives and performance criteria in the investment policy is available on the management company's website and in the Sub-fund's annual report.

The AMF's website (www.amf-france.org) provides more information on the regulatory documents and various provisions that concern investor protection. This Prospectus shall be made available to investors prior to subscription.

INVESTMENT RULES

The Sub-fund will comply with the investment rules of European Directive 2009/65/EC of 13 July 2009.

The Sub-fund may invest in the assets specified in Article L214-20 of the French Monetary and Financial Code, subject to the risk-diversification and investment ratio requirements of Articles R214-21 to R214-27 of said Code.

Notwithstanding the 10% limit under Paragraph II of Article R214-21 of the French Monetary and Financial Code, the Sub-fund may invest up to 20% of its assets in the equities and debt securities of a single issuer, in compliance with Article R214-22-I, which deals with index-tracking funds. Pursuant to Article R214-22 II, the Sub-fund may also increase this 20% limit for a single issuer to 35%, when this is justified by exceptional market conditions, and in particular when certain securities are largely dominant.

OVERALL RISK EXPOSURE

The commitment approach is used to calculate the overall risk exposure.

ASSET VALUATION AND ACCOUNTING RULES

VALUATION RULES

The Sub-fund's assets are valued in accordance with applicable laws and regulations and most notably Regulation No. 2014-01 of 14 January 2014 of the Comité de la Réglementation Comptable (the Accounting Regulations Committee), which applies to the chart of accounts for undertakings for collective investment in transferable securities.

Financial instruments traded on a regulated market are valued at the closing price recorded on the day prior to the calculation of the net asset value. If these financial instruments are traded on several regulated markets at the same time, the closing price used is that recorded on the regulated market on which they are principally traded.

However, in the absence of significant trading on a regulated market, the following financial instruments are valued using the following methods:

- Negotiable debt securities ("NDS") with a remaining life upon acquisition that is less than or equal to three months are valued by applying the difference between the acquisition value and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life of more than three months upon acquisition but less than or equal to three months at the net asset value calculation date are valued by applying the difference between the most recent valuation and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life at the net asset value calculation date that exceeds three months are valued at their current value. The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- Financial futures traded on organized markets are valued at the clearing price on the day prior to the calculation of the net asset value. Options traded on organized markets are valued at their market price on the day prior to the calculation of the net asset value. Forward contracts and over-the-counter options are valued at the price quoted by the counterparty. The management company monitors these prices independently.
- Bank deposits are valued at their nominal value plus accrued interest.
- Warrants, short and medium-term notes (bons de caisse), promissory notes and mortgage notes are valued under the management company's responsibility at their most likely trading value.
- Securities financing transactions are valued at the market price.
- Shares and units in UCITS under French law are valued at the last known net asset value on the day the Sub-fund's net asset value is calculated.
- Shares and units in foreign investment funds are valued at the last known unitary net asset value at the date the Sub-fund's net asset value is calculated.
- Financial instruments traded on a regulated market and for which no price has been quoted or whose price has been corrected, are valued under the management company's responsibility at their most likely trading value.
- The exchange rates used to value financial instruments denominated in a currency other than the Sub-fund's base currency are the WM Reuters fixing rates published on the day the Sub-fund's net asset value is calculated.

ACCOUNTING METHOD FOR TRADING EXPENSES

Trading expenses are included in the initial cost of the transaction.

ACCOUNTING METHOD FOR INCOME FROM FIXED-INCOME SECURITIES

Income from fixed-income securities is accounted for using the cash-basis method.

DISTRIBUTION POLICY

For more information see the section entitled "Calculation and appropriation of Distributable amounts".

ACCOUNTING CURRENCY

The Sub-fund's accounts are kept in euros.

SUB-FUND NO. 11: Lyxor Thailand (SET50 NET TR) UCITS ETF

A SICAV SUB-FUND COMPLIANT WITH DIRECTIVE 2009/65/CE

ISIN CODES:

Acc share class: FR0011067529
C-USD share class: FR0011070440
Dist share class: FR0011070424

CLASSIFICATION

Global equities.

The Lyxor Thailand (SET50 NET TR) UCITS ETF sub-fund (the “**Sub-fund**”) is continuously at least 60% exposed to a foreign equity market or to the equity markets or two or more countries, which may include the French market.

The Sub-fund is a UCITS ETF type index tracker.

INCEPTION DATE

The Sub-fund was approved by l'autorité des Marchés Financiers (the French financial markets authority) on 23/06/2011.

INVESTMENT OBJECTIVE

The Sub-fund's investment objective is to provide exposure to the Thai equity market by replicating the performance of the SET50 NET Total Return index (the “**Benchmark Index**”) denominated in Thai baht (THB), while minimizing the tracking error between the Sub-fund's performance and that of its Benchmark Index.

The expected ex-post tracking error under normal market conditions is 0.10%.

BENCHMARK INDEX

The Benchmark Index is the SET50 NET Total Return index, with net dividends reinvested.

The Benchmark Index is the main stock index of The Stock Exchange of Thailand. It is composed of this exchange's 50 largest stocks by market capitalization adjusted for free-float and liquidity.

The SET50 NET Total Return index was initially created in 1950 as an underlying instrument for derivatives. It is maintained by the Stock Exchange of Thailand. The SET's Index Committee is responsible for defining the index's selection criteria, the list of its constituents and its methodology.

A full description and the complete methodology used to construct the Benchmark Index and information on the composition and respective weightings of the Benchmark Index components are available on the Internet at www.set.or.th

The performance tracked is that of the Benchmark Index's closing price.

Benchmark Index composition and revision

The Benchmark Index is revised twice a year, in June and in December, effective the first trading day of the following month.

The Benchmark Index's composition and the rules for its revision are available on the Internet at www.set.or.th

The frequency with which the Benchmark Index is rebalanced does not affect the cost of implementing the Investment Strategy.

Benchmark Index publication

Publication of the SET50 NET Total Return index:

The SET50 Net Total Return is calculated daily using the index closing price.

The SET50 NET Total Return index is available:

On Reuters: .SET50NETRI

On Bloomberg: SET50NTR

The Benchmark Index's closing price is available on the Internet at www.set.or.th

Pursuant to Article 52 of European Parliament and Council Regulation 2016/1011 of 8 June 2016, the Stock Exchange of Thailand, the administrator of the SET50 NET Total Return benchmark index, has until 1 January 2020 to apply for approval or registration as applicable.

As of the date of the most recent version of this prospectus, the benchmark index administrator was not yet listed in ESMA's register of benchmark administrators.

Pursuant to European Parliament and Council Regulation 2016/1011 of 8 June 2016, the asset management company has a procedure for monitoring the benchmark indices used that specifies the measures to be implemented if an index is substantially modified or is no longer provided.

INVESTMENT STRATEGY

1. Strategy employed

The Sub-fund will comply with the investment rules of European Directive 2009/65/EC of 13 July 2009.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund will employ an indirect replication method, which means that it will enter into one or more OTC swap contracts enabling it to achieve its investment objective. These swap contracts will serve to exchange the value of the Sub-fund's assets, which will consist of cash and/or balance sheet assets (excluding any securities received as collateral), for the value of the securities that underlie the Benchmark Index.

The Sub-fund's equities will be mainly those that make up the Benchmark Index, and also other international equities, in all economic sectors and listed in all markets, including small-cap markets.

The basket of securities held may be adjusted daily such that its value will generally be at least 100% of the net assets. When necessary, this adjustment will be made to ensure that the counterparty risk arising from the aforementioned swap contract will be neutralized.

Information on the updated composition of the basket of 'balance sheet' assets in the Sub-fund's portfolio and the value of the swap contract concluded by the Sub-fund, is available on the page dedicated to the Sub-fund on Lyxor's website at www.lyxoretf.com. The frequency of any updates and/or the date on which the aforementioned information is updated is also indicated on the same page of the aforementioned website.

Up to 20% of the Sub-fund's assets may be exposed to equities issued by the same entity. This 20% limit may be increased to 35% for a given issuing entity when this is justified by exceptional market conditions and in particular when certain securities are largely dominant and/or in the event of strong volatility that affects a financial instrument or securities linked to an economic sector represented in the Benchmark Index, particularly in the event of a public offering that substantially affects a Benchmark Index security or in the event of a significant drop in the liquidity of one or more of the Benchmark Index's financial instruments.

2. Balance sheet assets (excluding embedded derivatives)

In accordance with regulatory ratios, the Sub-fund may invest in global equities in all economic sectors and listed on any exchange, including "small-cap" exchanges.

The aforementioned equities will be selected on the basis of the following:

- eligibility criteria and in particular:
 - their inclusion in a major stock exchange index or in the Benchmark Index
 - liquidity (must exceed a minimum daily trading volume and market capitalization)
 - credit rating of the country where the issuer has its registered office (must have a least a minimum S&P or equivalent rating)
- diversification criteria, and in particular:
 - the issuer (application of investment ratios to assets that qualify for UCITS, pursuant to Art. R214-21 of the French Monetary and Financial Code)
 - geographic
 - sector

Investors may find more information on the above eligibility and diversification criteria, and in particular the list of eligible indices, on Lyxor's website at www.lyxoretf.com.

Investment in undertakings for collective investment in transferrable securities ("UCITS") that comply with Directive 2009/65/EC is limited to 10% of the Sub-fund's net assets.

The fund manager will not invest in the shares or units of alternative investment funds (AIF) or other investment funds that were formed under a foreign law. The Sub-fund may invest in the shares of UCITS managed by the management company or by a company that is related to the management company.

When the Fund receives collateral in the form of securities, subject to the terms of section 8 below, it acquires full title to these securities and they are therefore included among the balance sheet assets to which it has full title

To optimize the Sub-fund's management and achieve its investment objective, the asset manager reserves the right to use other financial instruments, in compliance with regulations.

3. Off-balance sheet assets (derivatives)

The Sub-fund will use OTC index-linked swaps that swap the value of the Sub-fund's assets (or the value of any other financial instrument the Sub-fund may hold) for the value of the Benchmark Index (as described in part 1 of this section).

- Maximum proportion of assets under management for which total return swaps (TRS) may be entered into: 100%.
- Expected proportion of assets under management for which total return swaps (TRS) may be entered into: up to 100%.

To optimize the Sub-fund's management and achieve its investment objective, the manager reserves the right to use other financial instruments in compliance with regulations, such as derivative instruments other than index-linked swaps.

In accordance with its best execution policy, the management company considers that Société Générale is the counterparty that is generally able to obtain the best possible execution for these derivative financial instruments. Accordingly, these derivative financial instruments (including index-linked swaps) may be traded via Société Générale without having to seek a competitive bid from another counterparty.

The counterparty of the derivative financial instruments referred to above (the "Counterparty") will have no discretionary power over the composition of the Sub-fund's portfolio nor over the underlying assets of the derivative financial instruments.

4. Securities with embedded derivatives

N/A.

5. Cash deposits

In order to optimize its cash management, the Sub-fund may deposit up to 20% of its assets in the form of cash with credit institutions that belong to the same group as the depositary.

6. Cash borrowing

The Sub-fund may temporarily borrow up to 10% of its net assets.

7. Securities financing transactions

N/A. The manager shall not engage in any temporary purchases or sales of securities.

8. Collateral

Whenever the investment strategy exposes to the Sub-fund to counterparty risk, and in particular when the Sub-fund uses over-the-counter swaps, the Sub-fund may accept eligible securities as collateral to reduce the counterparty risk associated with these swaps. The portfolio of collateral received may be adjusted daily to ensure that its value is at least sufficient to cover the Sub-fund's counterparty risk in most cases. The purpose of this adjustment is to neutralize the Sub-fund's counterparty risk.

The Sub-fund manager will not accept cash collateral.

The Sub-fund will have full title to all collateral received, which will be deposited in the Sub-fund's account with the depositary. This collateral will therefore be included in the Sub-fund's assets. If a counterparty defaults on an obligation, the Sub-fund may dispose of the assets received from the counterparty in respect of the secured transaction to pay off the counterparty's debt to the Sub-fund.

All collateral the Sub-fund receives for this purpose must comply with the applicable laws and regulations, with respect in particular to the liquidity and valuation of the collateral, the credit-worthiness of securities issuers, risk exposure correlation and the risks of collateral management and enforceability. All collateral received must in particular meet the following criteria:

- (a) All collateral must be of high quality, be highly liquid and tradable on a regulated market or on a multilateral trading facility, with transparent pricing to enable the collateral to be rapidly sold near its estimated price;
- (b) This collateral must be valued at least daily and assets with highly volatile prices are not acceptable as collateral, unless a sufficiently prudent discount or "haircut" is applied;
- (c) The issuer of this collateral must be independent of the counterparty and must not be closely correlated with the counterparty's financial performance;
- (d) This collateral must be sufficiently diversified by country, market and issuer, and no exposure to a single issuer may exceed 20 % of the Sub-fund's net asset value;
- (e) The Sub-fund's Management Company must be able to enforce this collateral in full and at any time, without having to consult with the counterparty or obtain its approval.

Notwithstanding the condition specified in (d) above, the Sub-fund may accept a basket of securities collateral that increases its exposure to a single issuer to more than 20% of its net asset value provided that:

- such securities collateral is issued by (i) a Member State, (ii) one or more of a Member State's local authorities, (iii) a country that is not a Member State (iv) a public international organization to which one or more Member States belong; and;
- such securities collateral consists of at least six different issues of securities of which no single issue exceeds 30% of the Sub-fund's assets.

Subject to the above conditions, the Sub-Fund may take collateral in the following forms:

- (i) Cash and cash-equivalent assets, which for example include short-term bank deposits and balances and money-market instruments;
- (ii) Bonds issued or guaranteed by an OECD member state, or by its local government entities, or by an EU, regional or global supranational institution or organisation, or by any country provided that conditions (a) to (e) above are fully complied with;
- (iii) Shares or units issued by money-market funds that calculate a daily net asset value and have an AAA or equivalent credit rating;
- (iv) The shares or units of UCITS that invest mainly in the bonds and/or equities indicated in (v) and (vi) below;
- (v) Bonds issued or guaranteed by first-class issuers offering sufficient liquidity;
- (vi) Equities admitted for trading or traded on a regulated exchange of an EU member country, on a stock exchange of an OECD member country or on a stock exchange of another country provided that conditions (a) to (e) above are fully complied with and that these equities are components of a major index.

Collateral discount policy:

The Sub-fund's management company shall apply a discount to the collateral accepted by the Sub-fund. The amount of these discounts will depend mainly on the following:

- The nature of the collateral asset;
- The collateral's maturity (if applicable);
- The credit rating of the collateral issuer (if applicable).

Reinvestment of collateral:

The collateral received will not be sold, reinvested or pledged.

At the manager's discretion, cash collateral may either be:

- (i) deposited with an authorised institution
- (ii) invested in high-quality government bonds
- (iii) used for reverse repurchase transactions, provided that these are entered into with credit institutions that are subject to prudential supervision and that the fund is able to withdraw the total amount of its cash collateral and the accrued interest at any time;
- (iv) invested in short-term money-market funds as defined in the guidelines for a common definition of European money-market funds.

All cash collateral that is reinvested must be invested in a diversified manner in compliance with the rules that apply to the acceptance of non-cash collateral.

RISK PROFILE

Investors' money will be invested mainly in the financial instruments selected by the asset manager. These instruments are subject to market trends and contingencies.

Investors in the Sub-fund will mainly be exposed to the following risks:

Equity risk

The price of an equity security can increase or decrease in accordance with changes in the issuer's risk exposure or in the economic conditions of the market in which the security is traded. Equity markets are more volatile than fixed income markets, where under stable macroeconomic conditions income over a given period of time can be estimated with reasonable accuracy.

Emerging market risk

The Sub-fund's exposure to emerging markets carries a greater risk of potential loss than an investment in traditional developed markets. Specifically, market operating and supervision rules for an emerging market may differ from standards applicable in developed markets. In particular, exposure to emerging markets can entail: increased market volatility, lower trading volumes, a risk of economic and/or political instability, an uncertain or unstable tax regime and/or regulatory environment, market closure risks, government restrictions on foreign investments, an interruption or limitation of convertibility or transferability of one of the currencies included in the Benchmark Index.

Counterparty risk

The Sub-fund is exposed to the risk that a counterparty with which the Sub-fund has entered into a contract or transaction may go bankrupt or default on a settlement or other obligation. The Sub-fund is in particular exposed to counterparty risk resulting from the use of derivative financial instruments (DFI) traded over the counter with Société Générale or some other counterparty. In compliance with UCITS regulations, exposure to counterparty risk (whether the counterparty is Société Générale or another entity), cannot exceed 10% of the Sub-fund's total assets per counterparty.

If a counterparty defaults on an obligation the DFI contract may be terminated before maturity. The Sub-fund will do everything in its power to achieve its investment objective by, if appropriate, entering into another DFI contract with another counterparty at the market conditions at the time of such an event.

If this counterparty risk materializes it could have an impact on the Sub-fund's ability to achieve its investment objective of replicating the Benchmark Index

When Société Générale is the DFI counterparty, conflicts of interest may arise between it and the Sub-fund's management company, which has procedures to identify and reduce such conflicts of interest and to resolve them equitably if necessary.

Capital risk

The capital invested is not guaranteed. Investors therefore may not recover all or part of their initial investment, particularly in the event that the Benchmark Index posts a negative return over the investment period.

Liquidity risk (primary market)

The Sub-fund's liquidity and/or value may be adversely affected if, when the Sub-fund or a counterparty to a financial derivative instrument (DFI) is rebalancing its exposure, the underlying financial markets are restricted, closed, or subject to wide bid/offer spreads. An inability, due to low trading volume, to execute the trades required to replicate the Benchmark Index may also adversely affect the subscription, conversion or redemption of shares.

Low Benchmark Index diversification risk

The Benchmark Index to which investors are exposed applies to a specific region, sector or strategy, which may provide a smaller diversification of assets when compared to a broader index exposed to several regions, sectors or strategies. Exposure to such a less-diversified index may result in higher volatility than more diversified markets. Nevertheless, diversification rules of the UCITS Directive still apply to the Sub-fund's underlying assets at all times.

Liquidity risk (secondary market)

The price of the Sub-fund's listed shares may deviate from the Sub-fund's indicative net asset value. The liquidity of shares or units traded on a given exchange may be adversely affected by a suspension in trading for various reasons, for example:

- i) the calculation of the Benchmark Index is suspended or stopped
- ii) trading in the market(s) in the Benchmark Index's underlying assets is suspended
- iii) an exchange cannot obtain or calculate the Sub-fund's indicative net asset value
- iv) a market maker fails to comply with an exchange's rules
- v) an exchange's IT, electronic or other system fails.

Risk that the investment objective is not fully achieved

There is no guarantee that the investment objective will be achieved, as no asset or financial instrument can ensure that the Benchmark Index will be automatically and continuously replicated, particularly in the event of one or more of the following risks:

- Risk of using derivative financial instruments

In order to achieve its investment objective, the Sub-fund can enter into transactions involving over-the-counter derivative financial instruments (DFI), such as swaps, in order to secure the performance of the Benchmark Index. These DFI involve various risks, such as counterparty risk, hedging disruption, Benchmark Index disruption, taxation risk, regulatory risk, operational risk and liquidity risk. These risks can materially affect an DFI and may require an adjustment of the DFI transaction or even its premature termination, which could adversely affect the Sub-fund's net asset value.

- Risk due to a change in the tax regime

A change in the tax regime of a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed could adversely affect the taxation of investors. In such an event, the Sub-fund manager shall not be liable to any investor with respect to any payment that may have to be made to a competent tax authority.

- Risk of a change in the taxation of the Sub-fund's underlying assets

A change in the taxation of the Sub-fund's underlying assets could adversely affect the taxation of the Sub-fund. In such an event a discrepancy between the estimated taxation and the actual taxation of the Sub-fund and/or of the Sub-fund's DFI counterparty may adversely affect the Sub-fund's net asset value.

- Regulatory risk affecting the Sub-fund

In the event of a change in the regulatory regime in a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed, the subscription, conversion or redemption of units or shares may be adversely affected.

- Regulatory risk affecting the Sub-fund's underlying assets

In the event of a change in the regulations that govern the Sub-fund's underlying assets, the Sub-fund's net asset value and the subscription, conversion or redemption of shares may be adversely affected.

- Benchmark Index disruption risk

If an event adversely affects the Benchmark Index, the Sub-fund manager may be required, as provided for by law, to suspend the subscription and redemption of the Sub-fund's shares. The calculation of the Sub-fund's net asset value could also be adversely affected.

If the disruption of the Benchmark Index persists, the Sub-fund manager will determine an appropriate course of action, which could decrease the Sub-fund's net asset value.

A 'Benchmark Index event' includes but is not limited to the following situations:

i) the Benchmark Index is deemed to be inaccurate or does not reflect actual market developments

ii) the Benchmark Index is permanently cancelled by the index provider

iii) the index provider is unable to indicate the level or value of the Benchmark Index

iv) The index provider makes a material change in the Benchmark Index calculation formula or method (other than a minor modification such as an adjustment to the Benchmark Index's underlying components or their respective weightings) which the Sub-fund cannot effectively replicate at a reasonable cost.

(v): a Benchmark Index component becomes illiquid because it is no longer traded on a regulated market or because its trading over-the-counter (e.g. bonds) is disrupted

(vi) the Benchmark Index components are exposed to higher transaction costs for execution or settlement/delivery, or to specific tax constraints and these costs are not reflected in the Benchmark Index's performance.

- Corporate action risk involving a Benchmark Index constituent

An unforeseen change, by the issuer of a security that is a component of the Benchmark Index, in a planned corporate action that is in contradiction with a previous official announcement on which the Sub-fund based its valuation of the corporate action (and/or on which the Sub-fund's counterparty to a financial derivative instrument or transaction based its valuation of the corporate action) can adversely affect the Sub-fund's net asset value, particularly if the Sub-fund's treatment of the corporate event differs from that of the Benchmark Index methodology.

- Currency risk associated with a share class

On the C-USD and Dist share classes:

These shares are exposed to currency risk since they are denominated in a different currency than the Benchmark Index. Changes in the exchange rate may therefore cause the net asset value of these shares to decrease, even if the value of the Benchmark Index increases

The exchange rate used to value these share classes is the USD/THO (Baht onshore) exchange rate applicable to local investors, which may differ from the USD/THB (Baht offshore) exchange rate applicable to foreign investors.

On the Acc share class

This share class is exposed to currency risk since it is denominated in a different currency than the Benchmark Index. Changes in the exchange rate may therefore cause the net asset value of this share class to decrease, even if the value of the Benchmark Index increases.

The exchange rate used to value this share class is the EUR/THO (Baht onshore) exchange rate applicable to local investors, which may differ from the EUR/THB (Baht offshore) exchange rate applicable to foreign investors.

- Legal risk

The Fund may be exposed to a legal risk arising from a total return swap (TRS) agreement as indicated in EU Regulation No. 2015/2365.

ELIGIBLE INVESTORS AND TYPICAL INVESTOR PROFILE

The Sub-fund is available to investors seeking exposure to the Thai equity market.

The amount that can be reasonably invested in the Sub-fund depends on each investor's personal situation. To determine this amount, investors must take into account their personal wealth and/or estate, their cash requirements currently and for the next five years, and their willingness to take on risk or their preference for more prudent investment. Investors are also advised to diversify their investments sufficiently so as not to be exposed solely to this Sub-fund's risks.

All investors are therefore asked to consider their specific situation with the help of their usual investment advisor.

The recommended minimum investment period is at least five years.

CALCULATION AND APPROPRIATION OF DISTRIBUTABLE AMOUNTS

For the Acc and C-USD share classes: all distributable amounts are accumulated.

For the Dist share class: If a distribution is decided, the management company reserves the right to distribute distributable amounts one or more times a year and/or accumulate all or part of these amounts. Realized net capital gains will be accumulated.

DISTRIBUTION FREQUENCY

For D-EUR and D-USD shares: If a distribution is decided, the Board of Directors reserves the right to distribute all or part of the distributable amounts in one or more distributions per annum.

SHARE CHARACTERISTICS

Subscription orders may be placed for a specific monetary amount or for a whole number of shares.
Only a whole number of shares may be redeemed.

SHARE CURRENCY

Acc share class	Dist and C-USD share classes
Euros	USD

SUBSCRIPTION AND REDEMPTION

1 / SUBSCRIPTION AND REDEMPTION ON THE PRIMARY MARKET

Subscription/redemption orders for shares in the Sub-fund will be processed by the Depositary, from 10:00 am to 5.00 pm (Paris time), every day that the Sub-fund's net asset value is to be published, provided that prices can be quoted for a significant proportion of the Benchmark Index components (hereinafter a "**Primary Market Day**" and will be executed at the net asset value on the following Primary Market Day, hereinafter the "**reference NAV**". Subscription/redemption orders submitted after 3:30pm (Paris time) on a Primary Market Day will be processed as if received from 10:00 am to 5.00 pm (Paris time) on the following Trading Day.

Acc share class

Orders for subscriptions / redemptions must be for a whole number of shares and represent at least EUR 100,000.

C-USD and Dist share classes

Subscription and redemption orders must be for a whole number of shares representing the USD equivalent of EUR 100,000.

Subscriptions and redemptions in cash

Subscriptions and redemptions shall be made exclusively in cash and executed at the ref NAV.

Delivery and settlement

Settlement/delivery of subscriptions and redemptions shall be completed within five French business days upon receipt of the subscription or redemption order.

The Sub-fund's net asset value is calculated using the Benchmark Index's closing price.

Date and frequency of NAV calculation

The net asset value will be calculated and published daily, provided that at least one exchange on which the Sub-fund's shares are listed is open and that orders placed in the primary and secondary markets can be funded.

2 / PURCHASES AND SALES ON THE SECONDARY MARKET

A. COMMON PROVISIONS

For any purchase or sale of shares in the Sub-fund executed directly on an exchange on which the Sub-fund is admitted or will be admitted for continuous trading, no minimum purchase or sale amount is required other than that which may be required by the relevant exchange(s).

Shares in a listed Sub-fund that are purchased on the secondary market cannot generally be directly sold back to that Sub-fund. Investors must therefore buy and sell their shares or units on a secondary market through an intermediary (e.g. a broker) and may consequently incur costs. Furthermore, there is a possibility that investors may pay more than the indicative net asset value when buying shares or units and receive less than the indicative net asset value when selling shares or units.

If the stock market value of a listed fund's shares or units differs significantly from their indicative net asset value, or if trading in the fund's shares or units is suspended, investors may be authorized, subject to the conditions set forth below, to redeem their shares on the primary market directly from the fund, without being subject to the minimum redemption amount requirement set forth herein in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)".

The management company shall decide whether to allow such primary market redemptions and for how long, on the basis of the following criteria for assessing the significance of a market disruption:

- The suspension or strong disturbance of secondary trading on a given exchange is relatively frequent
- The link between the market disruption and secondary market operators (such as the default of one or more of the Market Makers of a given exchange, or a breakdown or malfunction of an exchange's IT or operating systems), excluding a disruption caused by a source external to the secondary exchange on which the Sub-fund's shares are traded, such as an event that affects the liquidity and valuation of all or some of the Benchmark Index's components
- Any other objective circumstance that could adversely affect the fair treatment and/or the interests of the Sub-fund's share-holders.

Notwithstanding the provisions concerning fees presented in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)", redemptions made in the primary market in this case shall only be subject to a net redemption fee of 1% paid to the Sub-fund and which serves to cover its trading costs.

In such exceptional cases when redemption in the primary market is allowed, the Management Company shall post on Lyxor's website at www.lyxor.etf.com the procedure that investors must observe to redeem their shares or units in the primary market. The Management Company shall also make this procedure available to the market undertaking that handles trading in the Sub-fund's shares.

B SPECIFIC PROVISIONS

a. **If the Sub-fund's shares are listed on Euronext Paris, as indicated in the "Key Information" section, investors should note the following rules:**

Negotiability of shares and information about the financial institutions acting as Market Makers

The shares are freely negotiable on the Euronext Paris regulated market under the following conditions and according to the applicable legal and regulatory provisions.

The Sub-fund shares will be listed on a specific trading list, the rules for which are defined in the following instructions published by Euronext Paris SA:

- Instruction No. 4-01 "Universal Trading Platform Manual"
- Appendix to Instruction N4-01 (Appendix to the Euronext Market Trading Manual)
- Instruction No. 6-04 "Documentation to be provided when filing a listing application for an ETF, ETN, ETV and open-ended undertakings for collective investment other than"

Pursuant to article D 214-22-1 of the French Monetary and Financial Code the units or shares of undertakings for collective investments in transferable securities may be admitted to trading, provided that these undertakings have a system to ensure that the market price of their units or shares does not differ significantly from their net asset value. Under Euronext Paris SA's rules trading in the Sub-fund's shares is also subject to a 'reservation threshold' of 3% above or below the Sub-fund's indicative net asset value or "iNAV" (see the "Indicative Net Asset Value" section), as published by Euronext Paris SA and updated on an estimated basis during trading in accordance with the change in the Benchmark Index.

To comply with Euronext Paris SA's reservation threshold requirement the Market Makers will ensure that the market price of the Sub-fund's shares does not differ from the Sub-fund's indicative Net Asset Value by more than 3% (see the section entitled "Indicative net asset value").

Euronext Paris SA may suspend trading in the Sub-fund's shares pursuant to the terms of its operating rules, if the aforementioned reservation threshold limit is exceeded.

Euronext Paris SA will also suspend trading in the Sub-fund's shares in the following cases:

- the Benchmark Index is no longer traded or calculated
- Euronext Paris SA cannot obtain the Benchmark Index's level
- Euronext Paris SA cannot obtain the Sub-fund's net asset value

In accordance with the terms and conditions governing admission to trading on Euronext Paris, the Market Makers undertake to provide market-making services for the Sub-fund's shares as soon as they are admitted to trading on the Euronext Paris exchange.

In particular, the Market Makers undertake to carry out market-making operations by maintaining a significant presence in the market, which initially entails the setting of a bid/ask spread.

More specifically, the Market Makers are required by contract with Euronext Paris SA to ensure that the Sub-fund maintains:

- a maximum global spread of 3% between the bid and offer price in the centralized order book.
- a minimum nominal trading value of EUR 100,000.

The obligations of the Sub-fund's Market Makers will be suspended in the following cases:

- the Benchmark Index is no longer traded or calculated
- if trading is substantially disrupted, for example due to a widespread shift in prices or an event that makes normal market making impossible.

Indicative Net Asset Value

Euronext Paris SA will calculate and publish, each Trading Day (as defined below) during trading hours, the Sub-fund's indicative net asset value (hereinafter "iNAV"). The iNAV is a measure of the intra-day value of the Sub-fund's net asset value based on the most recent data. The iNAV is not the value at which investors buy and sell shares in the Sub-fund on the secondary market.

A "Trading Day" is a day on which NSYE Euronext is normally open and on which the Benchmark Index is normally published.

The Sub-fund's iNAV is a theoretical net asset value calculated every 15 seconds by Euronext SA throughout the Paris trading day and is based on the level of the Benchmark Index. The iNAV enables investors to compare the prices that the Market Makers offer on the market with the theoretical value calculated by Euronext.

The iNAV will be calculated every day that the net asset value is calculated and published.

For the calculation of the Sub-fund's iNAV during the Paris trading session (from 9.05 am to 5.35 pm), Euronext Paris SA will use the Benchmark Index value published by Reuters.

If one or more exchanges on which the Benchmark Index's constituent equities are listed are closed (on a public holiday on the TARGET calendar), and if the iNAV cannot be calculated, trading in the Sub-fund's shares may be suspended.

Lyxor International Asset Management, the Sub-fund's management company, will provide Euronext Paris SA with all the financial and accounting data it needs to calculate the Sub-fund's iNAV and in particular:

- The day's estimated net asset value
- The official net asset value of the previous business day
- The level of the Benchmark Index on the previous business day.

These data will serve as a basis for Euronext Paris SA's calculations to determine the Sub-fund's iNAV in real time every Trading Day.

Additional information about the indicative net asset value of a share listed on an exchange may, in accordance with the terms and limits set by the relevant market undertaking, be provided on this exchange's website. This information is also available on the Reuters or Bloomberg pages dedicated to the particular share. Additional information about the Bloomberg and Reuters codes for the indicative net asset values of all UCITS ETF type share classes is also available in the "Term Sheets" section of Lyxor's website at www.lyxoretf.com.

b. **If the Sub-fund's shares are listed on an exchange other than Euronext Paris, as indicated in the "Key Information" section, investors should note the following**

Investors wishing to acquire shares in the Sub-fund or obtain more information regarding the market-making terms that govern the listing and trading of shares on the types of exchanges indicated in the "Key Information" section are advised to familiarize themselves with the guidelines laid down by the relevant market undertaking in compliance with local regulations, and to seek if necessary the assistance of their usual broker(s) for executing trades on the relevant exchange(s).

FEES AND CHARGES

SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)

The subscription and redemption fees shown below respectively increase the subscription price paid by the investor and decrease the redemption price received. Fees kept by the Sub-fund compensate it for the expenses it incurs in investing in the Sub-fund's assets or in divesting these assets. Any fees that are not kept by the Sub-fund are paid to the management company, marketing agent or other.

Fees paid by investors upon subscription or redemption	Base	Maximum charge
Subscription fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per subscription order or 5% payable to third parties
Subscription fee kept by the Sub-fund	NAV per share x number of shares	N/A
Redemption fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per redemption order or 5% payable to third parties
Redemption fee kept by the Sub-fund	NAV per share x number of shares	N/A

OPERATIONAL AND MANAGEMENT FEES

Act, Dist and C-USD share classes:

These fees cover all the costs invoiced directly to the Sub-fund, except for transaction expenses, which include intermediary fees (brokerage, stock market taxes etc.) and any account activity charge that may be charged by the depositary or the asset manager.

For this Sub-fund the following fees may be charged in addition to the operating and management fees (see table below):

- incentive fees, which the Sub-fund pays to the management company when the Sub-fund exceeds its objectives
- account activity charges charged to the Sub-fund.

For more information on the fees or expenses that the Sub-fund must pay, see the Statistics section of the Key Investor Information Document (KIID).

Fees charged to the Sub-fund	Base	Maximum charge
Investment management fees and administration fees that are external to the management company (auditor, depositary, fund distribution and legal fees) including tax ⁽¹⁾	Net asset value	0.45% per annum
Incentive fee	Net asset value	N/A
Account activity charge	Charge on each transaction	N/A

(1) Includes all fees and expenses except for transaction expenses, incentive fees and fees associated with investment in UCITS.

COMMERCIAL INFORMATION

Distribution of this prospectus and the offering or purchase of the Fund's share classes may be subject to restrictions with regard to certain persons or in certain countries by virtue of national regulations that apply to these persons or countries. Investors are therefore responsible for ensuring that they can legally subscribe to or invest in this Fund. The information in this prospectus therefore cannot be construed to be an offer or solicitation to buy or sell shares in this Fund in a country where such offer or solicitation is unlawful.

The Fund's share classes will not be registered pursuant to the U.S. Securities Act of 1933, as amended (the "U.S. Securities Act") and cannot be offered, assigned, transferred or allocated to the United States of America, or to:

- (A) any "U.S. Person", as this term is defined (i) under Regulation S of the US Securities Act of 1933 and (ii) under U.S. regulations as defined in Section 7701 (a) (30) of the Internal Revenue Code of 1986 as amended. The Fund's shares will not be offered to U.S. Persons.
- (B) anyone other than those persons considered to be "non-US Persons" as this term is defined under U.S. regulations pursuant to the Commodity Futures Trading Commission, Rule 4.7 (a) (1) (iv).

The Fund's shares will only be offered for sale outside of the United States of America to non-U.S. Persons.

For the purpose of this document, the term "U.S. Person" shall mean, among other things, any individual who resides in the United States of America, any entity organized or formed under the laws of the United States of America, certain entities organized or formed outside of the United States of America by one or more U.S. persons, or any account held on behalf of such a U.S. person.

Under the German tax act on investment funds (InvStG-E), the Sub-fund is a "mutual fund" and must comply with the criteria that apply to "equity funds". As such, the Sub-fund will hold a basket of securities that are eligible for the equity ratio as this term is defined under said German tax act, and which will represent at least 94% of its net assets under normal market conditions. To ensure compliance with this ratio, the Sub-fund may adjust this basket of securities on a daily basis.

Before making an investment in this Fund or Sub-fund, investors should seek the advice of their financial, tax and legal advisers.

PLACE AND METHOD OF NET ASSET VALUE PUBLICATION OR COMMUNICATION

At the head office of LYXOR INTERNATIONAL ASSET MANAGEMENT, at 17, cours Valmy - 92987 Paris La Défense CEDEX - France.

The Sub-fund's net asset value will be calculated and published every Trading Day.

IMPORTANT INFORMATION ABOUT THE INDEX PROVIDER

The Lyxor Thailand (SET50 NET TR) UCITS ETF Sub-fund is not sponsored, endorsed, sold or promoted in any way whatsoever by The Stock Exchange of Thailand ("SET"), and SET makes no warranty express or implied as to the outcome to be achieved from using the SET50 Net Total Return index (hereinafter the "Index") nor regarding the level the Index may reach at any given time or on any given day. The index is compiled and calculated by SET. SET accepts no responsibility for errors that may nevertheless, through negligence or otherwise, appear in the index. In addition, SET has no obligation to draw attention to such errors.

SET is a registered trademark of the Stock Exchange of Thailand.

ADDITIONAL INFORMATION

The Sub-fund's shares are admitted for clearing by Euroclear France S.A.

Subscription and redemption orders are sent by the investors' financial intermediaries (members of Euroclear France SA) to the Depositary.

The Sub-fund's prospectus, the Key Investor Information Document, the most recent annual documents and the asset inventory will be sent to investors within eight business days upon receipt of a written request addressed to:

LYXOR INTERNATIONAL ASSET MANAGEMENT
17 Cours Valmy - 92987 Paris La Défense France.

E-mail: contact@lyxor.com

More information can also be requested from Lyxor International Asset Management on its website at www.lyxoretf.com.

Prospectus publication date: See the "Publication Date" section.

Pursuant to Article L.533-22-1 of the French Monetary and Financial Code, information concerning the management company's possible inclusion of social, environmental and corporate governance objectives and performance criteria in the investment policy is available on the management company's website and in the Sub-fund's annual report.

The AMF's website (www.amf-france.org) provides more information on the regulatory documents and various provisions that concern investor protection. This Prospectus shall be made available to investors prior to subscription.

INVESTMENT RULES

The Sub-fund will comply with the investment rules of European Directive 2009/65/EC of 13 July 2009

The Sub-fund may invest in the assets specified in Article L214-20 of the French Monetary and Financial Code, subject to the risk-diversification and investment ratio requirements of Articles R214-21 to R214-27 of said Code.

Notwithstanding the 10% limit under Paragraph II of Article R214-21 of the French Monetary and Financial Code, the Sub-fund may invest up to 20% of its assets in the equities and debt securities of a single issuer, in compliance with Article R214-22-I, which deals with index-tracking funds. Pursuant to Article R214-22 II, the Sub-fund may also increase this 20% limit for a single issuer to 35%, when this is justified by exceptional market conditions, and in particular when certain securities are largely dominant.

OVERALL RISK EXPOSURE

The commitment approach is used to calculate the overall risk exposure.

ASSET VALUATION AND ACCOUNTING RULES

A. VALUATION RULES

The Sub-fund's assets are valued in accordance with applicable laws and regulations and most notably Regulation No. 2014-01 of 14 January 2014 of the Comité de la Réglementation Comptable (the Accounting Regulations Committee), which applies to the chart of accounts for undertakings for collective investment in transferable securities.

Financial instruments traded on a regulated market are valued at the closing price recorded on the day prior to the calculation of the net asset value. If these financial instruments are traded on several regulated markets at the same time, the closing price used is that recorded on the regulated market on which they are principally traded.

However, in the absence of significant trading on a regulated market, the following financial instruments are valued using the following methods:

- Negotiable debt securities ("NDS") with a remaining life upon acquisition that is less than or equal to three months are valued by applying the difference between the acquisition value and the redemption value on a straight-line basis over the remaining life. However, the asset manager reserves the right to value these securities at their current value if it deems that they are particularly exposed to interest-rate or other market risks. The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life of more than three months upon acquisition but less than or equal to three months at the net asset value calculation date are valued by applying the difference between the most recent valuation and the redemption value on a straight-line basis over the remaining life. However, the asset manager reserves the right to value these securities at their current value if it deems that they are particularly exposed to interest-rate or other market risks. The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life at the net asset value calculation date that exceeds three months are valued at their current value. The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- Financial futures traded on organized markets are valued at the clearing price on the day prior to the calculation of the net asset value. Options traded on organized markets are valued at their market price on the day prior to the calculation of the net asset value. Forward contracts and over-the-counter options are valued at the price quoted by the counterparty. The asset manager monitors these prices independently.
- Bank deposits are valued at their nominal value plus accrued interest.
- Warrants, short and medium-term notes (bons de caisse), promissory notes and mortgage notes are valued under the asset manager's responsibility at their most likely trading value.
- Securities financing transactions are valued at the market price.
- Units and shares in UCITS under French law are valued at the last known net asset value on the day the Sub-fund's net asset value is calculated.
- Units and shares in foreign investment funds are valued at the last known net asset value at the date the Sub-fund's net asset value is calculated.
- Financial instruments traded on a regulated market and for which no price has been quoted or whose price has been corrected, are valued under the asset manager's responsibility at their most likely trading value.
- The exchange rates used to value financial instruments denominated in a currency other than the Sub-fund's base currency are the rates published by WM Reuters on the day the Sub-fund's net asset value is calculated.

B. ACCOUNTING METHOD FOR TRADING EXPENSES

Trading expenses are included in the initial cost of the transaction.

C. ACCOUNTING METHOD FOR INCOME FROM FIXED-INCOME SECURITIES

Income from fixed-income securities is accounted for using the cash-basis method.

D. DISTRIBUTION POLICY

For more information see the section entitled "Calculation and appropriation of Distributable amounts"

E. ACCOUNTING CURRENCY

The Sub-fund's accounts are kept in euros.

SUB-FUND NO. 12: LYXOR MSCI ALL COUNTRY WORLD UCITS ETF

A SICAV SUB-FUND COMPLIANT WITH DIRECTIVE 2009/65/CE

ISIN CODES:

C-EUR share class: FR0011079466
C-USD share class: FR0011093418

D-EUR share class: FR0011092477
D-USD share class: FR0011092485

CLASSIFICATION

Global equities.

The LYXOR MSCI ALL COUNTRY WORLD UCITS ETF sub-fund (the "Sub-fund") is continuously at least 60% exposed to a foreign equity market or to the equity markets of two or more countries, which may include the French market.
The Sub-fund is a UCITS ETF type index tracker.

DATE ESTABLISHED

The Sub-fund was approved by l'autorité des Marchés Financiers (the French financial markets authority) on 1 September 2011 and was established on 5 September 2011.

The MULTI UNITS FRANCE fund was established on 4 March 2002, for a term of 99 years.

INVESTMENT OBJECTIVE

The Sub-fund's objective is to provide exposure to equity markets in developed and emerging market countries and replicate the performance of the MSCI AC World Index (ACWI) Net Total Return (the "Benchmark Index"), denominated in US dollars (USD), while minimizing the tracking error between the Sub-fund's performance and that of its Benchmark Index.

The expected ex-post tracking error under normal market conditions is 0.07%.

BENCHMARK INDEX

The Benchmark Index is the MSCI AC World Index (ACWI) Net Total Return, with net dividends reinvested.
The Benchmark Index is an equity index calculated and published by international index provider MSCI.

The Benchmark Index is a free-float adjusted market capitalization weighted index designed to measure the investible universe and performance of listed companies in developed and emerging markets. The Benchmark Index was designed to include medium and large-cap companies and is composed in accordance with the MSCI Global Investable Market Index (GIMI) methodology to meet specific size, liquidity and free-float adjusted market capitalization requirements.

The MSCI methodology and calculation method assume a variable number of companies in the Benchmark Index.

A full description of the Benchmark Index and its construction methodology and information on the composition and respective weightings of the Benchmark Index components are available on the Internet at www.msci.com
The performance tracked is that of the Benchmark Index's closing price in USD.

Benchmark Index composition and revision

The Benchmark Index is rebalanced quarterly.

The Benchmark Index composition and MSCI's rules for its revision are available on the MSCI's website at www.msci.com

Benchmark Index publication

The Benchmark Index is available through Reuters and Bloomberg.
Reuters code: .MIWD00000NUS
Bloomberg code: M1WD

The Benchmark Index's closing price is available on the Internet at www.msci.com

Pursuant to Article 52 of European Parliament and Council Regulation 2016/1011 of 8 June 2016, MSCI, the administrator of the MSCI AC World Index (ACWI) Net Total Return benchmark index, has until 1 January 2020 to apply for approval or registration as applicable.

As of the date of the most recent version of this prospectus, the benchmark index administrator was not yet listed in ESMA's register of benchmark administrators.

Pursuant to European Parliament and Council Regulation 2016/1011 of 8 June 2016, the asset management company has a procedure for monitoring the benchmark indices used that specifies the measures to be implemented if an index is substantially modified or is no longer provided.

INVESTMENT STRATEGY

1. Strategy employed:

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund will employ an indirect replication method, which means that it will enter into one or more OTC swap contracts enabling it to achieve its investment objective. These swap contracts will serve to exchange the value of the Sub-fund's assets, which will consist of cash and/or balance sheet assets (excluding any securities received as collateral), for the value of the securities that underlie the Benchmark Index.

The Sub-fund's equities will be mainly those that make up the Benchmark Index, and also other international equities, in all economic sectors and listed in all markets, including small-cap markets.

The basket of securities held may be adjusted daily such that its value will generally be at least 100% of the net assets. When necessary, this adjustment will be made to ensure that the counterparty risk arising from the aforementioned swap contract will be neutralized.

Information on the updated composition of the basket of 'balance sheet' assets in the Sub-fund's portfolio and the value of the swap contract concluded by the Sub-fund, is available on the page dedicated to the Sub-fund on Lyxor's website at www.lyxoretf.com. The frequency of any updates and/or the date on which the aforementioned information is updated is also indicated on the same page of the aforementioned website.

Up to 20% of the Sub-fund's assets may be exposed to equities issued by the same entity. This 20% limit may be increased to 35% for a given issuing entity when this is justified by exceptional market conditions and in particular when certain securities are largely dominant and/or in the event of strong volatility that affects a financial instrument or securities linked to an economic sector represented in the Benchmark Index, particularly in the event of a public offering that substantially affects a Benchmark Index security or in the event of a significant drop in the liquidity of one or more of the Benchmark Index's financial instruments.

2. Balance sheet assets (excluding embedded derivatives)

In accordance with regulatory ratios, the Sub-fund may invest in global equities in all economic sectors and listed on any exchange, including "small-cap" exchanges.

The aforementioned equities will be selected on the basis of the following:

- eligibility criteria and in particular:
 - their inclusion in a major stock exchange index or in the Benchmark Index
 - liquidity (must exceed a minimum daily trading volume and market capitalization)
 - credit rating of the country where the issuer has its registered office (must have a least a minimum S&P or equivalent rating)
- diversification criteria and in particular:
 - the issuer (application of investment ratios to assets that qualify for UCITS, pursuant to Art. R214-21 of the French Monetary and Financial Code)
 - geographic
 - sector

Investors may find more information on the above eligibility and diversification criteria, and in particular the list of eligible indices, on Lyxor's website at www.lyxoretf.com.

Investment in undertakings for collective investment in transferrable securities ("UCITS") that comply with Directive 2009/65/EC is limited to 10% of the Sub-fund's net assets.

The fund manager will not invest in the shares or units of alternative investment funds (AIF) or other investment funds that were formed under a foreign law. The Sub-fund may invest in the shares of UCITS managed by the management company or by a company that is related to the management company.

When the Fund receives collateral in the form of securities, subject to the terms of section 8 below, it acquires full title to these securities and they are therefore included among the balance sheet assets to which it has full title.

To optimize the Sub-fund's management and achieve its investment objective, the asset manager reserves the right to use other financial instruments, in compliance with regulations.

3. Off-balance sheet assets (derivatives)

The Sub-fund will use OTC index-linked swaps that swap the value of the Sub-fund's assets (or the value of any other financial instrument or asset the Sub-fund may hold) for the value of the Benchmark Index (as described in part 1 of this section).

- Maximum proportion of assets under management for which total return swaps (TRS) may be entered into: 100%.
- Expected proportion of assets under management for which total return swaps (TRS) may be entered into: up to 100%.

To optimize the Sub-fund's management and achieve its investment objective, the manager reserves the right to use other financial instruments in compliance with regulations, such as derivative instruments other than index-linked swaps.

In accordance with its best execution policy, the management company considers that Société Générale is the counterparty that is generally able to obtain the best possible execution for these derivative financial instruments. Accordingly, these derivative financial instruments (including index-linked swaps) may be traded via Société Générale without having to seek a competitive bid from another counterparty.

The counterparty of the derivative financial instruments referred to above (the "Counterparty") will have no discretionary power over the composition of the Sub-fund's portfolio nor over the underlying assets of the derivative financial instruments.

4. Securities with embedded derivatives

N/A.

5. Cash deposits

In order to optimize its cash management, the Sub-fund may deposit up to 20% of its assets in the form of cash with credit institutions that belong to the same group as the depositary.

6. Cash borrowing

The Sub-fund may temporarily borrow up to 10% of its net assets.

7. Securities financing transactions

N/A. The manager shall not engage in any temporary purchases or sales of securities.

8. Collateral

Whenever the investment strategy exposes the Sub-fund to counterparty risk, and in particular when the Sub-fund uses over-the-counter swaps, the Sub-fund may accept eligible securities as collateral to reduce the counterparty risk associated with these swaps. The portfolio of collateral received may be adjusted daily to ensure that its value is at least sufficient to cover the Sub-fund's counterparty risk in most cases. The purpose of this adjustment is to neutralize the Sub-fund's counterparty risk.

The Sub-fund manager will not accept cash collateral.

The Sub-fund will have full title to all collateral received, which will be deposited in the Sub-fund's account with the depositary. This collateral will therefore be included in the Sub-fund's assets. If a counterparty defaults on an obligation, the Sub-fund may dispose of the assets received from the counterparty in respect of the secured transaction to pay off the counterparty's debt to the Sub-fund.

All collateral the Sub-fund receives for this purpose must comply with the applicable laws and regulations, with respect in particular to the liquidity and valuation of the collateral, the credit-worthiness of securities issuers, risk exposure correlation and the risks of collateral management and enforceability. All collateral received must in particular meet the following criteria:

- (a) All collateral must be of high quality, be highly liquid and tradable on a regulated market or on a multilateral trading facility, with transparent pricing to enable the collateral to be rapidly sold near its estimated price;
- (b) This collateral must be valued at least daily and assets with highly volatile prices are not acceptable as collateral, unless a sufficiently prudent discount or "haircut" is applied;
- (c) The issuer of this collateral must be independent of the counterparty and must not be closely correlated with the counterparty's financial performance;
- (d) collateral must be sufficiently diversified in terms of country, market and issuer, with exposure to any single issuer not exceeding 20% of the Sub-fund's net asset value;
- (e) The Sub-fund's Management Company must be able to enforce this collateral in full and at any time, without having to consult with the counterparty or obtain its approval.

Notwithstanding the condition specified in (d) above, the Sub-fund may accept a basket of securities collateral that increases its exposure to a single issuer to more than 20% of its net asset value provided that:

- such securities collateral is issued by (i) a Member State, (ii) one or more of a Member State's local authorities, (iii) a country that is not a Member State (iv) a public international organization to which one or more Member States belong; and;
- such securities collateral consists of at least six different issues of securities of which no single issue exceeds 30% of the Sub-fund's assets.

Subject to the above conditions, the Sub-Fund may take collateral in the following forms:

- (i) Cash and cash-equivalent assets, which for example include short-term bank deposits and balances and money-market instruments;
- (ii) Bonds issued or guaranteed by an OECD member state, or by its local government entities, or by an EU, regional or global supranational institution or organisation, or by any country provided that conditions (a) to (e) above are fully complied with;
- (iii) Shares or units issued by money-market funds that calculate a daily net asset value and have an AAA or equivalent credit rating;
- (iv) The shares or units of UCITS that invest mainly in the bonds and/or equities indicated in (v) and (vi) below;
- (v) Bonds issued or guaranteed by first-class issuers offering sufficient liquidity;
- (vi) Equities admitted for trading or traded on a regulated exchange of an EU member country, on a stock exchange of an OECD member country or on a stock exchange of another country provided that conditions (a) to (e) above are fully complied with and that these equities are components of a major index.

Collateral discount policy:

The Sub-fund's management company shall apply a discount to the collateral accepted by the Sub-fund. The amount of these discounts will depend mainly on the following:

- The nature of the collateral asset;
- The collateral's maturity (if applicable);
- The credit rating of the collateral issuer (if applicable).

Reinvestment of collateral:

The collateral received will not be sold, reinvested or pledged.

At the manager's discretion, cash collateral may either be:

- (i) deposited with an authorised institution
- (ii) invested in high-quality government bonds
- (iii) used for reverse repurchase transactions, provided that these are entered into with credit institutions that are subject to prudential supervision and that the fund is able to withdraw the total amount of its cash collateral and the accrued interest at any time;
- (iv) invested in short-term money-market funds as defined in the guidelines for a common definition of European money-market funds.

All cash collateral that is reinvested must be invested in a diversified manner in compliance with the rules that apply to the acceptance of non-cash collateral.

RISK PROFILE

Investors' money will be invested mainly in the financial instruments selected by the management company. These instruments are subject to market trends and contingencies.

Investors in the Sub-fund will mainly be exposed to the following risks:

Equity risk

The price of an equity security can increase or decrease in accordance with changes in the issuer's risk exposure or in the economic conditions of the market in which the security is traded. Equity markets are more volatile than fixed income markets, where under stable macroeconomic conditions income over a given period of time can be estimated with reasonable accuracy.

Emerging Market Risk

The Sub-fund's exposure to emerging markets carries a greater risk of potential loss than an investment in traditional developed markets. Specifically, market operating and supervision rules for an emerging market may differ from standards applicable in developed markets. In particular, exposure to emerging markets can entail: increased market volatility, lower trading volumes, a risk of economic and/or political instability, an uncertain or unstable tax regime and/or regulatory environment, market closure risks, government restrictions on foreign investments, an interruption or limitation of convertibility or transferability of one of the currencies included in the Benchmark Index.

Counterparty risk

The Sub-fund is exposed to the risk that a counterparty with which the Sub-fund has entered into a contract or transaction may go bankrupt or default on a settlement or other obligation. The Sub-fund is in particular exposed to counterparty risk resulting from the use of derivative financial instruments (DFI) traded over the counter with Société Générale or some other counterparty. In compliance with UCITS regulations, exposure to counterparty risk (whether the counterparty is Société Générale or another entity), cannot exceed 10% of the Sub-fund's total assets per counterparty.

If a counterparty defaults on an obligation the DFI contract may be terminated before maturity. The Sub-fund will do everything in its power to achieve its investment objective by, if appropriate, entering into another DFI contract with another counterparty at the market conditions at the time of such an event. If this counterparty risk materializes it could have an impact on the Sub-fund's ability to achieve its investment objective of replicating the Benchmark Index.

When Société Générale is the DFI counterparty, conflicts of interest may arise between it and the Sub-fund's management company, which has procedures to identify and reduce such conflicts of interest and to resolve them equitably if necessary.

Capital risk

The capital invested is not guaranteed. Investors therefore may not recover all or part of their initial investment, particularly in the event that the Benchmark Index posts a negative return over the investment period.

Liquidity risk (primary market)

The Sub-fund's liquidity and/or value may be adversely affected if, when the Sub-fund or a counterparty to a financial derivative instrument (DFI) is rebalancing its exposure, the underlying financial markets are restricted, closed, or subject to wide bid/offer spreads. An inability, due to low trading volume, to execute the trades required to replicate the Benchmark Index may also adversely affect the subscription, conversion or redemption of shares or units.

Liquidity risk (secondary market)

The price of the Sub-fund's listed shares or units may deviate from the Sub-fund's indicative net asset value. The liquidity of shares or units traded on a given exchange may be adversely affected by a suspension in trading for various reasons, for example:

- i) the calculation of the Benchmark Index is suspended or stopped
- ii) trading in the market(s) in the Benchmark Index's underlying assets is suspended
- iii) an exchange cannot obtain or calculate the Sub-fund's indicative net asset value
- iv) a market maker fails to comply with an exchange's rules
- v) an exchange's IT, electronic or other system fails.

Risk that the investment objective may not be fully achieved

There is no guarantee that the investment objective will be achieved, as no asset or financial instrument can ensure that the Benchmark Index will be automatically and continuously replicated, particularly in the event of one or more of the following risks:

Risk of using derivative financial instruments

In order to achieve its investment objective, the Sub-fund can enter into transactions involving over-the-counter derivative financial instruments (DFI), such as swaps, in order to secure the performance of the Benchmark Index. These DFI involve various risks, such as counterparty risk, hedging

disruption, Benchmark Index disruption, taxation risk, regulatory risk, operational risk and liquidity risk. These risks can materially affect an DFI and may require an adjustment of the DFI transaction or even its premature termination, which could adversely affect the Sub-fund's net asset value.

Risk due to a change in the tax regime

A change in the tax regime of a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed could adversely affect the taxation of investors. In such an event, the Sub-fund manager shall not be liable to any investor with respect to any payment that may have to be made to a competent tax authority.

Risk of a change in the taxation of the Sub-fund's underlying assets

A change in the taxation of the Sub-fund's underlying assets could adversely affect the taxation of the Sub-fund. In such an event a discrepancy between the estimated taxation and the actual taxation of the Sub-fund and/or of the Sub-fund's DFI counterparty may adversely affect the Sub-fund's net asset value.

Regulatory risk affecting the Sub-fund

In the event of a change in the regulatory regime in a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed, the subscription, conversion or redemption of shares or units may be adversely affected.

Regulatory risk affecting the Sub-fund's underlying assets

In the event of a change in the regulations that govern the Sub-fund's underlying assets, the Sub-fund's net asset value and the subscription, conversion or redemption of shares or units may be adversely affected.

Benchmark Index disruption risk

If an event adversely affects the Benchmark Index, the Sub-fund manager may be required, as provided for by law, to suspend the subscription and redemption of the Sub-fund's shares or units. The calculation of the Sub-fund's net asset value could also be adversely affected.

If the disruption of the Benchmark Index persists, the Sub-fund manager will determine an appropriate course of action, which could decrease the Sub-fund's net asset value.

A 'Benchmark Index event' includes but is not limited to the following situations:

- i) the Benchmark Index is deemed to be inaccurate or does not reflect actual market developments
- ii) the Benchmark Index is permanently cancelled by the index provider
- iii) the index provider is unable to indicate the level or value of the Benchmark Index
- iv) The index provider makes a material change in the Benchmark Index calculation formula or method (other than a minor modification such as an adjustment to the Benchmark Index's underlying components or their respective weightings) which the Sub-fund cannot effectively replicate at a reasonable cost
- v) a Benchmark Index component becomes illiquid because it is no longer traded on a regulated market or because its trading over-the-counter (e.g. bonds) is disrupted
- vi) the Benchmark Index components are exposed to higher transaction costs for execution or settlement/delivery, or to specific tax constraints and these costs are not reflected in the Benchmark Index's performance.

Corporate action risk

An unforeseen change, by the issuer of a security that is a component of the Benchmark Index, in a planned corporate action that is in contradiction with a previous official announcement on which the Sub-fund based its valuation of the corporate action (and/or on which the Sub-fund's counterparty to a financial derivative instrument or transaction based its valuation of the corporate action) an adversely affect the Sub-fund's net asset value, particularly if the Sub-fund's treatment of the corporate event differs from that of the Benchmark Index.

Currency risk of C-EUR and D-EUR shares

The value of these shares is calculated in euros (EUR) while the Benchmark Index is expressed in US dollars (USD). As a result, the value of C-EUR and D-EU shares may vary in accordance with changes in the EUR/USD exchange rate. When investors subscribe / redeem shares they may therefore see their capital / return increase or decrease from the currency conversion into euros and their exposure to the risk that the euro may rise or fall against the US dollar.

Legal risk

The Fund may be exposed to a legal risk arising from a total return swap (TRS) agreement as indicated in EU Regulation No. 2015/2365.

Currency risk associated with the Benchmark index

The Sub-fund is exposed to currency risk since the securities that underlie the Benchmark Index may be denominated in a different currency than the Benchmark Index, or be derivatives of securities that are denominated in a different currency than the Benchmark Index. Changes in exchange rates may therefore adversely affect the Sub-fund's Benchmark Index.

ELIGIBLE INVESTORS AND TYPICAL INVESTOR PROFILE

The Sub-fund is available to all investors.

Investors in this Sub-fund are seeking exposure to developed and emerging markets.

The amount that can be reasonably invested in the Sub-fund depends on each investor's personal situation. To determine this amount, investors must take into account their personal wealth and/or estate, their cash requirements currently and for the next five years, and their willingness to take on risk or their preference for more prudent investment. Investors are also advised to diversify their investments sufficiently so as not to be exposed solely to this Sub-fund's risks.
All investors are therefore asked to consider their specific situation with the help of their usual investment advisor.
The recommended minimum investment period is at least five years.

CALCULATION AND APPROPRIATION OF DISTRIBUTABLE AMOUNTS

C-EUR and C-USD shares: all distributable amounts are accumulated.

D-EUR and D-USD shares: If a distribution is decided, the management company reserves the right to distribute distributable amounts one or more times a year and/or accumulate all or part of these amounts. Realized net capital gains will be accumulated.

DISTRIBUTION FREQUENCY

If a distribution is decided, the management company reserves the right to distribute distributable amounts in one or more distributions per annum.

SHARE CHARACTERISTICS

Shares may be subscribed by monetary amount or by number.
A whole number of shares must be redeemed

SHARE CURRENCY

	C-EUR shares	C-USD shares	D-EUR shares	D-USD shares
Share currency	Euros	US dollar	Euros	US dollar

SUBSCRIPTION AND REDEMPTION

1 / SUBSCRIPTION AND REDEMPTION ON THE PRIMARY MARKET

Subscription/redemption orders for shares in the Sub-fund will be processed by the Depositary, from 10:00 am to 6.30 pm (Paris time), every day that the Sub-fund's net asset value is to be published, provided that prices can be quoted for a significant proportion of the Benchmark Index components (hereinafter a "**Primary Market Day**", and will be executed at the net asset value on the following Primary Market Day, hereinafter the "**reference NAV**". Subscription/redemption orders submitted after 6.30pm (Paris time) on a Primary Market Day will be processed as if received from 10:00 am to 6.30pm (Paris time) on the following Primary Market Day. Orders to subscribe for or redeem shares in the Sub-fund must be made for a whole number of shares that represents at least 100,000 euros.

Subscriptions and redemptions in cash

Subscriptions and redemptions shall be made exclusively in cash and executed at the ref NAV.

Delivery and settlement

Settlement/delivery of subscriptions and redemptions shall be completed within five French business days upon receipt of the subscription or redemption order.

Date and frequency of NAV calculation

The net asset value will be calculated and published daily, provided that at least one exchange on which the Sub-fund's shares are listed is open and that orders placed in the primary and secondary markets can be funded.

The Sub-fund's net asset value is calculated using the Benchmark Index's closing price. The Sub-fund's net asset value is denominated in EUR.

2 / PURCHASES AND SALES ON THE SECONDARY MARKET

A.COMMON PROVISIONS

For any purchase or sale of shares in the Sub-fund executed directly on an exchange on which the Sub-fund is admitted or will be admitted for continuous trading, no minimum purchase or sale amount is required other than that which may be required by the relevant exchange(s).

Shares in a listed Sub-fund that are purchased on the secondary market cannot generally be directly sold back to that Sub-fund. Investors must therefore buy and sell their shares on a secondary market through an intermediary (e.g. a broker) and may consequently incur costs. Furthermore, there is a possibility that investors may pay more than the indicative net asset value when buying shares and receive less than the indicative net asset value when selling shares.

If the stock market value of a listed Sub-fund's shares differs significantly from its indicative net asset value, or if trading in the Sub-fund's shares is suspended, investors may be authorized, subject to the conditions set forth below, to redeem their shares on the primary market directly from the Sub-fund, without being subject to the minimum redemption amount requirement set forth herein in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)".

The management company shall decide whether to allow such primary market redemptions and for how long, on the basis of the following criteria for assessing the significance of a market disruption:

- The suspension or strong disturbance of secondary trading on a given exchange is relatively frequent

- The link between the market disruption and secondary market operators (such as the default of one or more of the Market Makers of a given exchange, or a breakdown or malfunction of an exchange's IT or operating systems), excluding a disruption caused by a source external to the secondary exchange on which the Sub-fund's shares are traded, such as an event that affects the liquidity and valuation of all or some of the Benchmark Index's components
- Any other objective circumstance that could adversely affect the fair treatment and/or the interests of the Sub-fund's share-holders.

Notwithstanding the provisions concerning fees presented in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions")", redemptions made in the primary market in this case shall only be subject to a net redemption fee of 1% paid to the Sub-fund and which serves to cover its trading costs.

In such exceptional cases when redemption in the primary market is allowed, the Management Company shall post on Lyxor's website at www.lyxor.etf.com the procedure that investors must observe to redeem their shares or units in the primary market. The Management Company shall also make this procedure available to the market undertaking that handles trading in the Sub-fund's shares.

B. SPECIFIC PROVISIONS

- a. **If the Sub-fund's shares are listed on Euronext Paris, as indicated in the "Key Information" part of the "General Characteristics" section of the Fund's prospectus, investors should note the following rules:**

Negotiability of shares and information about the financial institutions acting as Market Makers

The shares are freely negotiable on the Euronext Paris regulated market under the following conditions and according to the applicable legal and regulatory provisions.

The Sub-fund shares will be listed on a specific trading list, the rules for which are defined in the following instructions published by Euronext Paris SA:

- Instruction No. 4-01 "Universal Trading Platform Manual"
- Appendix to Instruction N4-01 (Appendix to the Euronext Market Trading Manual)
- Instruction No. 6-04 "Documentation to be provided when filing a listing application for an ETF, ETN, ETV and open-ended undertakings for collective investment other than"

Pursuant to article D 214-22-1 of the French Monetary and Financial Code the units or shares of undertakings for collective investments in transferable securities may be admitted to trading, provided that these undertakings have a system to ensure that the market price of their units or shares does not differ significantly from their net asset value. Under Euronext Paris SA's rules trading in the Sub-fund's shares is also subject to a 'reservation threshold' of 3% above or below the Sub-fund's indicative net asset value or "iNAV" (see the "Indicative Net Asset Value" section), as published by Euronext Paris SA and updated on an estimated basis during trading in accordance with the change in the Benchmark Index.

To comply with Euronext Paris SA's reservation threshold requirement the Market Makers will ensure that the market price of the Sub-fund's shares does not differ from the Sub-fund's indicative Net Asset Value by more than 3% (see the section entitled "Indicative net asset value").

Euronext Paris SA may suspend trading in the Sub-fund's shares pursuant to the terms of its operating rules, if the aforementioned reservation threshold limit is exceeded.

Euronext Paris SA will also suspend trading in the Sub-fund's shares in the following cases:

- the Benchmark Index is no longer traded or calculated
- Euronext Paris SA cannot obtain the Benchmark Index's level
- Euronext Paris SA cannot obtain the Sub-fund's net asset value

In accordance with the terms and conditions governing admission to trading on Euronext Paris, the Market Makers undertake to provide market-making services for the Sub-fund's shares as soon as they are admitted to trading on the Euronext Paris exchange.

In particular, the Market Makers undertake to carry out market-making operations by maintaining a significant presence in the market, which initially entails the setting of a bid/ask spread.

More specifically, the Market Makers are required by contract with Euronext Paris SA to ensure that the Sub-fund maintains:

- a maximum global spread of 3% between the bid and offer price in the centralized order book.
- a minimum nominal trading value of EUR 100,000.

The obligations of the Sub-fund's Market Makers will be suspended in the following cases:

- the Benchmark Index is no longer traded or calculated
- if trading is substantially disrupted, for example due to a widespread shift in prices or an event that makes normal market making impossible.

Indicative Net Asset Value

Euronext Paris SA will calculate and publish, each Trading Day (as defined below) during trading hours, the Sub-fund's indicative net asset value (hereinafter "iNAV"). The iNAV is a measure of the intra-day value of the Sub-fund's net asset value based on the most recent data. The iNAV is not the value at which investors buy and sell shares in the Sub-fund on the secondary market.

A "Trading Day" is a day on which NSYE Euronext is normally open and on which the Benchmark Index is normally published.

The Sub-fund's iNAV is a theoretical net asset value calculated every 15 seconds by Euronext SA throughout the Paris trading day and is based on the level of the Benchmark Index. The iNAV enables investors to compare the prices that the Market Makers offer on the market with the theoretical value calculated by Euronext.

The iNAV will be calculated every day that the net asset value is calculated and published.

For the calculation of the Sub-fund's iNAV during the Paris trading session (from 9.05 am to 5.35 pm), Euronext Paris SA will use the Benchmark Index value published by Reuters.

If one or more stock exchanges on which the Benchmark Index's constituent equities are listed are closed (on a public holiday as indicated on the TARGET calendar) or if the EUR/USD exchange rate is unavailable and if the iNAV cannot be calculated, trading in the Sub-fund's shares may be suspended.

Lyxor International Asset Management, the Sub-fund's management company, will provide Euronext Paris SA with all the financial and accounting data it needs to calculate the Sub-fund's iNAV and in particular:

- The day's estimated net asset value
- The official net asset value of the previous business day
- The level of the Benchmark Index on the previous business day.

These data will serve as a basis for Euronext Paris SA's calculations to determine the Sub-fund's iNAV in real time every Trading Day.

Additional information about the indicative net asset value of a share listed on an exchange may, in accordance with the terms and limits set by the relevant market undertaking, be provided on this exchange's website. This information is also available on the Reuters or Bloomberg pages dedicated to the particular share. Additional information about the Bloomberg and Reuters codes for the indicative net asset values of all UCITS ETF type share classes is also available in the "Term Sheets" section of Lyxor's website at www.lyxoretf.com.

b. If the Sub-fund's shares are listed on an exchange other than Euronext Paris, as indicated in the "Key Information" section, investors should note the following

Investors wishing to acquire shares in the Sub-fund or obtain more information regarding the market-making terms that govern the listing and trading of shares on the types of exchanges indicated in the "Key Information" section are advised to familiarize themselves with the guidelines laid down by the relevant market undertaking, in compliance with local regulations, and to seek if necessary the assistance of their usual broker(s) for executing trades on the relevant exchange(s).

FEES AND CHARGES

SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)

The subscription and redemption fees shown below respectively increase the subscription price paid by the investor and decrease the redemption price received. Fees kept by the Sub-fund compensate it for the expenses it incurs in investing in the Sub-fund's assets or in divesting these assets. Any fees that are not kept by the Sub-fund are paid to the management company, marketing agent or other service provider.

Fees paid by investors upon subscription or redemption	Base	Maximum charge
Subscription fee not kept by the Sub-fund	NAV per share × number of shares	The higher value of either EUR 50,000 per subscription order or 5% payable to third parties
Subscription fee kept by the Sub-fund	NAV per share × number of shares	N/A
Redemption fee not kept by the Sub-fund	NAV per share × number of shares	The higher value of either EUR 50,000 per redemption order or 5% payable to third parties
Redemption fee kept by the Sub-fund	NAV per share × number of shares	N/A

OPERATIONAL AND MANAGEMENT FEES

These fees cover all the costs invoiced directly to the Sub-fund, except for transaction expenses, which include intermediary fees (brokerage, stock market taxes etc.) and any account activity charge that may be charged by the depositary or the management company.

For this Sub-fund the following fees may be charged in addition to the operating and management fees (see table below):

- incentive fees, which the Sub-fund pays to the management company when the Sub-fund exceeds its objectives
- account activity charges charged to the Sub-fund.

For more information on the fees or expenses that the Sub-fund must pay, see the Statistics section of the Key Investor Information Document (KIID).

Fees charged to the Sub-fund	Base	Maximum charge
Investment management fees and administration fees that are external to the management company (auditor, depositary, fund distribution and legal fees) including tax ⁽¹⁾	Net asset value	0.45% per annum
Incentive fee	Net asset value	N/A
Account activity charge	Charge on each transaction	N/A

⁽¹⁾ Includes all fees and expenses except for transaction expenses, incentive fees and fees associated with investment in UCITS.

COMMERCIAL INFORMATION

Distribution of this prospectus and the offering or purchase of the Fund's share classes may be subject to restrictions with regard to certain persons or in certain countries under national regulations that may apply to these persons or countries. Investors are therefore responsible for ensuring that they can legally subscribe to or invest in this Fund. The information in this prospectus therefore cannot be construed to be an offer or solicitation to buy or sell shares in this Fund in a country where such offer or solicitation is unlawful.

The Fund's share classes will not be registered pursuant to the U.S. Securities Act of 1933, as amended (the "U.S. Securities Act") and cannot be offered, assigned, transferred or allocated to the United States of America, or to:

- (A) any "U.S. Person", as this term is defined (i) under Regulation S of the US Securities Act of 1933 and (ii) under U.S. regulations as defined in Section 7701 (a) (30) of the Internal Revenue Code of 1986 as amended. The Fund's shares will not be offered to U.S. Persons.
- (B) anyone other than those persons considered to be "non-US Persons" as this term is defined under U.S. regulations pursuant to the Commodity Futures Trading Commission, Rule 4.7 (a) (1) (iv).

The Fund's shares will only be offered for sale outside of the United States of America to non-U.S. Persons.

For the purpose of this document, the term "U.S. Person" shall mean, among other things, any individual who resides in the United States of America, any entity organized or formed under the laws of the United States of America, certain entities organized or formed outside of the United States of America by one or more U.S. persons, or any account held on behalf of such a U.S. person.

Under the German tax act on investment funds (InvStG-E), the Sub-fund is a "mutual fund" and must comply with the criteria that apply to "equity funds". As such, the Sub-fund will hold a basket of securities that are eligible for the equity ratio as this term is defined under said German tax act, and which will represent at least 92% of its net assets under normal market conditions. To ensure compliance with this ratio, the Sub-fund may adjust this basket of securities on a daily basis.

Before making an investment in this Fund or Sub-fund, investors should seek the advice of their financial, tax and legal advisers.

PLACE AND METHOD OF NET ASSET VALUE PUBLICATION OR COMMUNICATION

At the head office of LYXOR INTERNATIONAL ASSET MANAGEMENT, at 17, cours Valmy - 92987 Paris La Défense CEDEX - France.

The Sub-fund's net asset value will be calculated and published every Trading Day.

IMPORTANT INFORMATION ABOUT THE INDEX PROVIDER

LYXOR MSCI ALL COUNTRY WORLD UCITS ETF (the "Sub-fund") is in no way sponsored, endorsed, sold or promoted by MSCI Inc. ("MSCI"), nor by any MSCI subsidiary, nor by any entity involved in establishing the MSCI indices. The MSCI indices are the exclusive property of MSCI and the MSCI indices are trademarks of MSCI or its subsidiaries and have been licensed, for certain needs, to Lyxor International Asset Management. Neither MSCI, nor any subsidiary of MSCI, nor any of the entities involved in producing or calculating the MSCI indices have made any statement or any warranty, either expressed or implied, to holders of shares in the sub-fund or, more generally, to the general public, concerning the merits of trading in the shares of the sub-fund in general or in shares of this sub-fund in particular or the ability of any MSCI index to replicate the performance of the global equities market. MSCI and its subsidiaries are the owners of certain names, registered trademarks and the MSCI indices, which are determined, constructed and calculated by MSCI without any consultation with Lyxor International Asset Management or the Sub-fund. Neither MSCI, nor any MSCI subsidiary, nor any of the entities involved in the production of the MSCI indices are obliged to take into consideration the needs of Lyxor International Asset Management or holders of the sub-fund's shares when determining, constructing or calculating the MSCI indices. Neither MSCI, nor any MSCI subsidiary, nor any of the entities involved in the production of the MSCI indices make any decision concerning the launch date, pricing, quantity of the sub-fund's shares or the determination and calculation of the formula used to establish the fund's net asset value. Neither MSCI, nor any MSCI subsidiary, nor any of the entities involved in the production of the MSCI indices accept any responsibility for or obligations concerning the administration, management or marketing of the Sub-fund.

ALTHOUGH MSCI OBTAINS DATA INCORPORATED OR USED IN THE CALCULATION OF INDICES ORIGINATING FROM SOURCES THAT MSCI BELIEVES TO BE RELIABLE, NEITHER MSCI, NOR ANY OTHER PARTY INVOLVED IN THE CREATION OR CALCULATION OF THE MSCI INDICES GUARANTEES THE ACCURACY AND/OR THE COMPLETENESS OF THE INDICES OR ANY INCORPORATED DATA. NEITHER MSCI NOR ANY PARTY INVOLVED IN THE CREATION OR CALCULATION OF THE MSCI INDICES MAKES ANY WARRANTIES, EXPRESSED OR IMPLIED, CONCERNING THE RESULTS THAT THE HOLDER OF A MSCI LICENSE, CUSTOMERS OF SAID LICENSEE, COUNTERPARTIES, FUND HOLDERS OR ANY OTHER PERSON OR ENTITY WILL ACHIEVE FROM THE USE OF THE INDICES OR ANY INCORPORATED DATA IN RELATION TO THE RIGHTS LICENSED OR FOR ANY OTHER PURPOSE. NEITHER MSCI NOR ANY OTHER PARTY MAKES ANY WARRANTIES, EXPRESSED OR IMPLIED, AND MSCI DISCLAIMS ANY WARRANTIES CONCERNING THE COMMERCIAL VALUE OR SUITABILITY FOR A SPECIFIC PURPOSE OF THE INDICES OR INCORPORATED DATA. SUBJECT TO THE FOREGOING, UNDER NO CIRCUMSTANCES SHALL MSCI OR ANY OTHER PARTY BE HELD LIABLE FOR ANY LOSS, BE IT DIRECT, INDIRECT OR OTHER (INCLUDING LOSS OF EARNINGS) EVEN IF IT IS AWARE OF THE POSSIBILITY OF SUCH A LOSS.

ADDITIONAL INFORMATION

The Sub-fund's shares are approved for clearing by Euroclear France S.A.

Subscription and redemption orders are sent by the investors' financial intermediaries (members of Euroclear France SA) to the Depositary.

The Multi Units France prospectus fund, the Key Investor Information Document and the most recent annual reports will be sent to investors within eight business days upon written request to:

LYXOR INTERNATIONAL ASSET MANAGEMENT
17 Cours Valmy - 92987 Paris La Défense France.

E-mail: contact@lyxor.com

More information can also be requested from Lyxor International Asset Management on its website at www.lyxoretf.com.

Prospectus publication date: See the "Publication Date" section.

Pursuant to Article L.533-22-1 of the French Monetary and Financial Code, information concerning the management company's possible inclusion of social, environmental and corporate governance objectives and performance criteria in the investment policy is available on the asset manager's website and in the MULTI UNITS France fund annual report.

The AMF's website (www.amf-france.org) provides more information on the regulatory documents and various provisions that concern investor protection. This Prospectus shall be made available to investors prior to subscription.

INVESTMENT RULES

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

The Sub-fund may invest in the assets specified in Article L214-20 of the French Monetary and Financial Code, subject to the risk-diversification and investment ratio requirements of Articles R214-21 to R214-27 of said Code.

Notwithstanding the 10% limit under Paragraph II of Article R214-21 of the French Monetary and Financial Code, the Sub-fund may invest up to 20% of its assets in the equities and debt securities of a single issuer, in compliance with Article R214-22-I, which deals with index-tracking funds. Pursuant to Article R214-22 II, the Sub-fund may also increase this 20% limit for a single issuer to 35%, when this is justified by exceptional market conditions, and in particular when certain securities are largely dominant.

OVERALL RISK EXPOSURE

The commitment approach is used to calculate the overall risk exposure.

ASSET VALUATION AND ACCOUNTING RULES

A. VALUATION RULES

The Sub-fund's assets are valued in accordance with applicable laws and regulations and most notably Regulation No. 2014-01 of 14 January 2014 of the Comité de la Réglementation Comptable (the Accounting Regulations Committee), which applies to the chart of accounts for undertakings for collective investment in transferable securities.

Financial instruments traded on a regulated market are valued at the closing price recorded on the day prior to the calculation of the net asset value. If these financial instruments are traded on several regulated markets at the same time, the closing price used is that recorded on the regulated market on which they are principally traded.

However, in the absence of significant trading on a regulated market, the following financial instruments are valued using the following methods:

- Negotiable debt securities ("NDS") with a remaining life upon acquisition that is less than or equal to three months are valued by applying the difference between the acquisition value and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life of more than three months upon acquisition but less than or equal to three months at the net asset value calculation date are valued by applying the difference between the most recent valuation and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life at the net asset value calculation date that exceeds three months are valued at their current value. The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- Financial futures traded on organized markets are valued at the clearing price on the day prior to the calculation of the net asset value. Options traded on organized markets are valued at their market price on the day prior to the calculation of the net asset value. Forward contracts and over-the-counter options are valued at the price quoted by the counterparty. The management company monitors these prices independently.
- Bank deposits are valued at their nominal value plus accrued interest.
- Warrants, short and medium-term notes (bons de caisse), promissory notes and mortgage notes are valued under the management company's responsibility at their most likely trading value.
- Securities financing transactions are valued at the market price.
- Shares and units in UCITS under French law are valued at the last known net asset value on the day the Sub-fund's net asset value is calculated.
- Shares and units in foreign investment funds are valued at the last known unitary net asset value at the date the Sub-fund's net asset value is calculated.
- Financial instruments traded on a regulated market and for which no price has been quoted or whose price has been corrected, are valued under the management company's responsibility at their most likely trading value.
- The exchange rates used to value financial instruments denominated in a currency other than the Sub-fund's base currency are the WM Reuters fixing rates published on the day the Sub-fund's net asset value is calculated.

B. ACCOUNTING METHOD FOR TRADING EXPENSES

Trading expenses are included in the initial cost of the transaction.

C. ACCOUNTING METHOD FOR INCOME FROM FIXED-INCOME SECURITIES

Income from fixed-income securities is accounted for using the cash-basis method.

D. DISTRIBUTION POLICY

For more information see the section entitled "Calculation and appropriation of Distributable amounts"

E. ACCOUNTING CURRENCY

The Sub-fund's accounts are kept in euros.

SUB-FUND No. 13: Lyxor EuroMTS Highest Rated Macro-Weighted Govt Bond 1-3Y (DR) UCITS ETF

A SICAV SUB-FUND COMPLIANT WITH DIRECTIVE 2009/65/CE

ISIN CODE:

Acc share class: FR0011146315

CLASSIFICATION

Bonds and other debt securities denominated in euros.

The Lyxor EuroMTS Highest Rated Macro-Weighted Govt Bond 1-3Y (DR) UCITS ETF (hereinafter the "Sub-fund") is continuously exposed to fixed-income securities denominated in euros. Exposure to equity risk does not exceed 10% of the net assets.

The Sub-fund is a UCITS ETF type index tracker.

INVESTMENT OBJECTIVE

The Sub-fund's investment objective is to provide exposure to increases and decreases in the Euros zone government bond segment, by replicating the performance of the FTSE MTS Highest Rated Macro-Weighted Government Bond 1-3Y(Mid Price) index (the "**Benchmark Index**"), denominated in euros (EUR), while minimizing the tracking error between the Sub-fund's performance and that of its Benchmark Index.

The expected ex-post tracking error under normal market conditions is 0.02%.

BENCHMARK INDEX

The Benchmark Index is a "Total Return" index (i.e. all coupons detached by the Benchmark Index constituents are reinvested in the Benchmark Index..

The Benchmark Index measures the performance of Euros zone Government bonds, weighted by country with at least two ratings equal to AAA or equivalent from the three rating agencies S&P, Moody's and Fitch.

A full description of the Benchmark Index and its construction methodology and information on the composition and respective weightings of the Benchmark Index components are available on the Internet at www.ftse.com

The reference indicator is calculated by FTSE MTS.

Methodology

The Benchmark Index is composed of bonds issued by the eurozone countries with the highest credit ratings. These bonds are weighted in the index on the basis of macroeconomic indicators. The Benchmark Index is provided with a history of index values dating back to December 1998. As explained below, the initial index components were selected using the same criteria as those used for FTSE MTS Eurozone Government Broad indices (except for the credit-rating criterion):

The Benchmark Index comprises at least five issuers. If an issuer is downgraded, it will be replaced with another eligible issuer country, such that at least five issuers are maintained in the Benchmark Index.

The Benchmark Index securities are therefore among the highest rated eurozone sovereign bonds.

- To qualify for the Benchmark Index bonds must meet the following criteria:
 - (i) nominal value and coupon are denominated in euros with no option or convertibility
 - (ii) listed on the FTSE MTS platform
 - (iii) issued by a sovereign eurozone government having at least two out of three AAA ratings from Standard & Poor's, Moody's and Fitch, and selected by FTSE MTS from among the following countries as: Austria, Belgium, Finland, France, Germany, Greece, Ireland, Italy, Netherlands, Portugal, Slovenia and Spain
 - (iv) Austria, Belgium, Finland, France, Germany, Greece, Ireland, Italy, Netherlands, Portugal, Slovenia and Spain
 - (v) maturity exceeds one year
 - with issuance of at least two billion euros.

The Benchmark Index must comprise at least five issuing countries. If an issuer is downgraded it will be replaced in the index, provided that there is another country that is eligible, such that the required minimum number of five issuers is maintained.

- The Benchmark Index composition is revised monthly.
- The complete methodology is available at www.ftse.com
- The performance tracked is the closing index price at 5.30 pm (CET).

Benchmark Index publication

The Benchmark Index available in real time through Reuters and Bloomberg.

Reuters code: FMMPHRA5=

Bloomberg code: FMMPHRA5

The Benchmark Index's closing price is available on the Internet at www.ftse.com.

Benchmark Index revision

The Benchmark Index's composition is revised monthly.

The frequency with which the Benchmark Index is rebalanced does not affect the cost of implementing the Investment Strategy.

Pursuant to Article 52 of European Parliament and Council Regulation 2016/1011 of 8 June 2016, FTSE MTS, the administrator of the FTSE MTS Highest Rated Macro-Weighted Government Bond 1-3Y (Mid Price) benchmark index, has until 1 January 2020 to apply for approval or registration as applicable.

As of the date of the most recent version of this prospectus, the benchmark index administrator was not yet listed in ESMA's register of benchmark administrators.

Pursuant to European Parliament and Council Regulation 2016/1011 of 8 June 2016, the asset management company has a procedure for monitoring the benchmark indices used that specifies the measures to be implemented if an index is substantially modified or is no longer provided.

INVESTMENT STRATEGY

1. Strategy employed

The Sub-fund will comply with the investment rules of European Directive 2009/65/EC of 13 July 2009.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund will use a pure replication method, which means that the Sub-fund will invest mainly in the bonds that underlie the Benchmark Index.

Information on the updated composition of the basket of 'balance sheet' assets in the Sub-fund's portfolio and the value of the swap contract concluded by the Sub-fund is available on the page dedicated to the Sub-fund accessible on Lyxor's website at www.lyxoref.com. The frequency of any updates and/or the date on which the aforementioned information is updated is also indicated on the same page of the aforementioned website.

Up to 20% of the Sub-fund's assets may be exposed to debt issued by a given OECD country. This 20% limit can be increased to 35% for a single bond, when this is justified by exceptional market conditions and in particular when certain securities are largely dominant, or a debt issue is highly volatile, or a political and/or economic event has affected or may affect the estimated debt of an issuing country or its credit rating, or in any other event that is likely to affect the liquidity of a Benchmark Index security.

Notwithstanding the above, securities issued by a given sovereign issuer may account for up to 35% of assets, and 100% of assets if the Sub-fund holds at least six issues none of which exceeds 30% of assets, provided that these securities are financial instruments issued or guaranteed by an OECD member state, the local authorities of a European Union member state or a country that is a member of the European Economic Area.

Sub-fund's targeted interest-rate sensitivity	From 1 to 4.
Currencies in which the Sub-fund's securities are denominated	Euros: from 0 to 100% of net assets Other: from 0 to 100% of net assets
Foreign exchange risk to which the Sub-fund is exposed	0% maximum of net assets.
Geographic regions of the issuers of the securities to which the Sub-fund is exposed	Eurozone: from 0 to 100% of net assets Emerging countries: 0% of net assets

The asset manager by delegation currently intends to invest mainly in the assets indicated below.

2.Balance sheet assets (excluding embedded derivatives)

The Sub-fund may invest in global bonds, in compliance with regulatory ratios.

The Sub-fund will mainly be invested in the bonds that make up the Benchmark Index.

Investment in undertakings for collective investment in transferrable securities ("UCITS") that comply with Directive 2009/65/EC is limited to 10% of the Sub-fund's net assets.

The fund manager will not invest in the shares or units of alternative investment funds (AIF) or other investment funds that were formed under a foreign law. To optimize the Sub-fund's management and achieve its investment objective, the asset manager reserves the right to use other financial instruments, in compliance with regulations.

3. Off-balance sheet assets (derivatives)

The Sub-fund will not make use of derivatives, except on an ancillary basis and within regulatory limits, futures contracts on indices or on bonds listed on regulated markets.

If over-the-counter derivatives are used, in accordance with its best-execution policy the management company considers that Société Générale would be the counterparty that would generally provide the best possible execution for any hedging transactions the Sub-fund may enter into pursuant to its investment strategy. Accordingly, all or some of these derivatives (including index-linked swaps) may be traded with Société Générale without having to seek a competitive bid from another counterparty.

4. Securities with embedded derivatives

N/A.

5. Cash deposits

In order to optimize its cash management, the Sub-fund may deposit funds representing up to 20% of its net assets with credit institutions that belong to the same group as the depositary.

6. Cash borrowing

The Sub-fund may temporarily borrow up to 10% of its net assets.

7. Securities financing transactions

The Sub-fund may use various techniques to manage its portfolio efficiently in compliance with Article R214-18 of the French monetary and financial code, including the temporary sale and repurchase of securities.

Maximum proportion of assets under management for which securities financing transactions may be entered into: up to 20% of the Sub-fund's assets.
Expected proportion of assets under management for which securities financing transactions may be entered into: 0% of the Sub-fund's assets.

For this purpose the management company may appoint an intermediary (hereinafter the "Agent) to provide the following services in connection with the Sub-fund's temporary disposals of securities. If such an Agent is used it may be authorised to (i) lend securities, on the Sub-fund's behalf, under framework agreements, such as global master securities lending agreements (GMSLA) and/or any other internationally recognised framework agreement, and (ii) invest, on the Sub-fund's behalf, any liquid assets received as collateral for these securities lending transactions, subject to the restrictions specified in the securities lending agreement, the rules of this prospectus and the applicable regulations.

The Sub-fund shall be entitled to all income from such temporary disposal of securities, net of any direct and indirect operating costs.
These operating costs, which are incurred to manage the portfolio more efficiently, may be borne by the Sub-fund's management company, the Agent and/or other intermediaries that are involved in these transactions.

These direct and indirect operating costs will be calculated as a percentage of the Sub-fund's gross income. More information on these operating costs and on the entities to which these costs are paid will be provided in the Sub-fund's annual report.

All income obtained from the lending of securities (from which must be deducted all direct and indirect operating costs borne by the Agent and if applicable by the management company) shall be paid to the relevant Sub-fund. Since these direct and indirect costs do not increase the Sub-fund's overall operating expenses they have been excluded from ongoing expenses.

The Sub-fund's annual report will provide the following information when applicable:

the exposure resulting from the use of efficient portfolio management techniques/transactions

- the identity of the counterparty(ies) involved in these transactions
- the nature and amount of any collateral received to reduce the Sub-fund's counterparty risk, and;
- the income generated by efficient portfolio management techniques over the relevant period, and any associated direct and indirect operating costs or expenses.

8. Collateral

Whenever the investment strategy exposes the Sub-fund to counterparty risk, and in particular when the Sub-fund engages in securities financing transactions, the Sub-fund may accept eligible securities as collateral to reduce the counterparty risk associated with these transactions. The portfolio of collateral received may be adjusted daily to ensure that its value is at least sufficient to cover the Sub-fund's counterparty risk in most cases. The purpose of this adjustment is to neutralize the Sub-fund's counterparty risk.

The Sub-fund will have full title to all collateral received, which will be deposited in the Sub-fund's account with the depositary. This collateral will therefore be included in the Sub-fund's assets. If a counterparty defaults on an obligation, the Sub-fund may dispose of the assets received from the counterparty in respect of the secured transaction to pay off the the counterparty's debt to the Sub-fund.

All collateral the Sub-fund receives for this purpose must comply with the applicable laws and regulations, with respect in particular to liquidity, valuation, the creditworthiness of securities issuers, correlation, and the risks of collateral management and enforceability. All collateral received must in particular meet the following criteria:

- (a) All collateral must be of high quality, be highly liquid and tradable on a regulated market or on a multilateral trading facility, with transparent pricing to enable the collateral to be rapidly sold near its estimated price
- (b) This collateral must be valued at its mark-to-market price at least daily and assets with highly volatile prices are not acceptable as collateral, unless a sufficiently prudent discount or "haircut" is applied;
- (c) The issuer of this collateral must be independent of the counterparty and must not be closely correlated with the counterparty's financial performance;
- (d) Collateral must be sufficiently diversified in terms of country, market and issuer, with exposure to any single issuer not exceeding 20% of the Sub-fund's net asset value ;
- (e) Collateral must be immediately enforceable by the Sub-fund's management company without informing the counterparty and without its approval.

Notwithstanding the condition specified in (d) above, the Sub-fund may accept a basket of securities collateral that increases its exposure to a single issuer to more than 20% of its net asset value provided that:

such securities collateral is issued by (i) a Member State, (ii) one or more of a Member State's local authorities, (iii) a country that is not a Member State (iv) a public international organisation to which one or more Member States belong; and;

such securities collateral consists of at least six different issues of securities of which no single issue exceeds 30% of the Sub-fund's assets.

In accordance with the above conditions the collateral the Sub-fund accepts may consist of:

- (i) Cash and cash-equivalent assets, which for example include short-term bank deposits and balances and money-market instruments
- (ii) Bonds issued or guaranteed by an OECD member state, or by its local government entities, or by an EU, regional or global supranational institution or organisation, or by any country provided that conditions (a) to (e) above are fully complied with
- (iii) Shares or units issued by money-market funds that calculate a daily net asset value and have an AAA or equivalent credit rating
- (iv) The shares or units of UCITS that invest mainly in the bonds and/or equities indicated in (v) and (vi) below
- (v) Bonds issued or guaranteed by first-class issuers offering sufficient liquidity
- (vi) Equities admitted for trading or traded on a regulated exchange of an EU member country, on a stock exchange of an OECD member country or on a stock exchange of another country provided that conditions (a) to (e) above are fully complied with and that these equities are components of a major index.

Collateral discount policy

The Sub-fund's management company shall apply a discount to the collateral the Sub-fund accepts. The amount of these discounts will depend mainly on the following:

- the nature of the collateral asset
- the collateral's maturity (if applicable)
- the credit rating of the collateral issuer (if applicable).

Reinvestment of collateral

Non-cash collateral will not be sold, reinvested or pledged.

At the manager's discretion, cash collateral may either be:

- deposited with an authorised institution
- invested in high-quality government bonds
- used for reverse repurchase transactions, provided that these are entered into with credit institutions that are subject to prudential supervision and that the fund is able to withdraw the total amount of its cash collateral and the accrued interest at any time.
- invested in short-term money-market funds as defined in the guidelines for a common definition of European money-market funds.

All cash collateral that is reinvested must be invested in a diversified manner in compliance with the rules that apply to the acceptance of non-cash collateral.

RISK PROFILE

Investors in the Sub-fund will mainly be exposed to the following risks:

- Interest rate risk

The price of a bond can be affected by unexpected changes in the level of interest rates, which in particular may modify the shape of the yield curve in particular. The bonds that make up the Benchmark Index are exposed to changes in interest rates. In general, the price of a bond rises when interest rates fall, and falls when interest rates rise.

- Capital risk

The capital invested is not guaranteed. Investors therefore may not recover all or part of their initial investment, particularly in the event that the Benchmark Index posts a negative return over the investment period.

- Credit risk

The Sub-fund could be adversely affected by a lowering of the credit rating of one or more issuers of a bond in the Benchmark Index. This could mean a higher risk that such an issuer might default and could decrease the bond's value.

- Liquidity risk (primary market)

The Sub-fund's liquidity and/or value may be adversely affected if, when the Sub-fund or a counterparty to a financial derivative instrument (DFI) is rebalancing its exposure, the underlying financial markets are restricted, closed, or subject to wide bid/offer spreads. An inability, due to low trading volume, to execute the trades required to replicate the Benchmark Index may also adversely affect the subscription, conversion or redemption of shares or units.

- Liquidity risk (secondary market)

The price of the Sub-fund's listed shares or units may deviate from the Sub-fund's indicative net asset value. The liquidity of the Sub-fund's shares traded on a given exchange may be adversely affected by a suspension in trading for various reasons, such as:

- i) the calculation of the Benchmark Index is suspended or stopped
- ii) trading in the market(s) in the Benchmark Index's underlying assets is suspended
- iii) an exchange cannot obtain or calculate the Sub-fund's indicative net asset value
- iv) a market maker fails to comply with an exchange's rules
- v) an exchange's IT, electronic or other system fails.

- Risk that the investment objective may not be fully achieved

There is no guarantee that the investment objective will be achieved, as no asset or financial instrument can ensure that the Benchmark Index will be automatically and continuously replicated, particularly in the event of one or more of the following risks:

- Risk due to a change in the tax regime

A change in the tax regime of a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed could adversely affect the taxation of investors. In such an event, the Sub-fund manager shall not be liable to any investor with respect to any payment that may have to be made to a competent tax authority.

- Risk of a change in the taxation of the Sub-fund's underlying assets

A change in the taxation of the Sub-fund's underlying assets could adversely affect the taxation of the Sub-fund. In such an event a discrepancy between the Sub-fund's estimated taxation and its actual taxation may adversely affect the Sub-fund's net asset value.

- Regulatory risk affecting the Sub-fund

In the event of a change in the regulatory regime in a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed, the subscription, conversion or redemption of shares or units may be adversely affected.

- Regulatory risk affecting the Sub-fund's underlying assets

In the event of a change in the regulations that govern the Sub-fund's underlying assets, the Sub-fund's net asset value and the subscription, conversion or redemption of shares or units may be adversely affected.

- Benchmark Index disruption risk

If an event adversely affects the Benchmark Index, the Sub-fund manager may be required, as provided for by law, to suspend the subscription and redemption of the Sub-fund's shares or units. The calculation of the Sub-fund's net asset value could also be adversely affected.

If the disruption of the Benchmark Index persists, the Sub-fund manager will determine an appropriate course of action, which could decrease the Sub-fund's net asset value.

A 'Benchmark Index event' includes but is not limited to the following situations:

- i) the Benchmark Index is deemed to be inaccurate or does not reflect actual market developments
- ii) the Benchmark Index is permanently cancelled by the index provider
- iii) the index provider is unable to indicate the level or value of the Benchmark Index.
- iv) the index provider makes a material change in the Benchmark Index calculation formula or method (other than a minor modification such as an adjustment to the Benchmark Index's underlying components or their respective weightings) which the Sub-fund cannot effectively replicate at a reasonable cost.
- v) a Benchmark Index component becomes illiquid because it is no longer traded on a regulated market or because its trading over-the-counter (e.g. bonds) is disrupted
- vi) the Benchmark Index components are exposed to higher transaction costs for execution or settlement/delivery, or to specific tax constraints and these costs are not reflected in the Benchmark Index's performance.

- Corporate action risk

An unforeseen change, by the issuer of a security that is a component of the Benchmark Index, in a planned corporate action that is in contradiction with a previous official announcement on which the Sub-fund based its valuation of the corporate action can adversely affect the Sub-fund's net asset value, particularly if the Sub-fund's treatment of the corporate event differs from that of the Benchmark Index methodology.

- Legal risk

The Sub-fund may be exposed to a legal risk arising from securities financing transactions, pursuant to EU Regulation No. 2015/2365.

ELIGIBLE INVESTORS AND TYPICAL INVESTOR PROFILE

This Sub-fund is available to all investors.

Investors in this Sub-fund are seeking exposure to the performance, whether positive or negative, of the eurozone government bond segment and more specifically to eurozone countries with at least two AAA or equivalent credit ratings from the three rating agencies S&P, Moody's and Fitch.

The amount that can be reasonably invested in the Sub-fund depends on each investor's personal situation. To determine this amount, investors must take into account their personal wealth and/or estate, their cash requirements currently and for the next five years, and their willingness to take on risk or their preference for more prudent investment. Investors are also advised to diversify their investments sufficiently so as not to be exposed solely to this Sub-fund's risks.

All investors are therefore asked to consider their specific situation with the help of their usual investment advisor.

The recommended minimum investment horizon is three years.

CALCULATION AND APPROPRIATION OF DISTRIBUTABLE AMOUNTS

all distributable amounts are accumulated.

DISTRIBUTION FREQUENCY

N/A.

SHARE CHARACTERISTICS

Subscription orders may be placed for a monetary amount or for a number of shares

A whole number of shares must be redeemed.

SHARE CURRENCY

Euros

SUBSCRIPTION AND REDEMPTION

1. SUBSCRIPTION AND REDEMPTION ON THE PRIMARY MARKET

Subscription/redemption requests for shares in the Sub-fund will be processed by the Depositary from 10:00 am and 5.00 pm (Paris time), every day that the Sub-fund's net asset value is to be published, provided that prices can be quoted for a significant proportion of the Benchmark Index components (hereinafter a "Primary Market Day"), and will be executed at the net asset value on that Primary Market Day, hereinafter the "reference NAV". Subscription/redemption orders submitted after 5.00 pm (Paris time) on a Primary Market Day will be processed as if received from 10:00 am to 5.00 pm (Paris time) on the following Primary Market Day. The amount of subscription and redemption orders must be at least 100,000 euros.

Subscriptions in kind

Shares may be subscribed in exchange for the Benchmark Index's underlying bonds, provided that an exact and whole number of Sub-fund shares are subscribed and that the total subscription amount is equivalent to at least 100,000 euros.

These subscription orders will be carried out at the closing price of the markets where the securities are traded and pursuant to the terms that Lyxor International Asset Management has set forth and which include:

- (1) a number of bonds in the Benchmark Index having a total value of at least 100,000 euros, which the subscriber must deliver, and if necessary,
- (2) a cash amount in euros (the "Balance"), which the Sub-fund will pay or receive as required. This positive or negative Balance is the difference between the reference net asset value multiplied by the number of shares subscribed and the value of the bonds to be delivered on the reference net asset value date.

The number of each bond comprising the Benchmark Index mentioned in (1) above and the Balance mentioned in (2) above will be published on Reuters and on Lyxor's website at www.lyxoretf.com

If shares are subscribed in kind, the management company reserves the right to refuse the securities proposed and will have seven days after the securities are deposited to notify its decision.

Subscriptions and redemptions in cash

Subscriptions and redemptions shall be made exclusively in cash and executed at the ref NAV.

Delivery and settlement

Settlement/delivery of subscriptions and redemptions shall be completed within five French business days upon receipt of the subscription or redemption order.

Date and frequency of net asset value calculation

The net asset value will be calculated and published daily, provided that at least one exchange on which the Sub-fund's shares are listed is open and that orders placed in the primary and secondary markets can be funded.

The Sub-fund's net asset value is calculated using the Benchmark Index's closing price. The Sub-fund's net asset value is denominated in euros.

The net asset value of a share class that is denominated in another currency than the Sub-fund's accounting currency (if applicable) is calculated using the exchange rate between the accounting currency and the currency of the share class, at the applicable WM Reuters rate on the date the reference NAV is calculated.

2. PURCHASES AND SALES ON THE SECONDARY MARKET

A. COMMON PROVISIONS

For any purchase or sale of shares in the Sub-fund executed directly on an exchange on which the Sub-fund is admitted or will be admitted for continuous trading, no minimum purchase or sale amount is required other than that which may be required by the relevant exchange(s).

Shares in a listed Sub-fund that are purchased on the secondary market cannot generally be directly sold back to that Sub-fund. Investors must therefore buy and sell their shares on a secondary market through an intermediary (e.g. a broker) and may consequently incur costs. Furthermore, there is a possibility that investors may pay more than the indicative net asset value when buying shares and receive less than the indicative net asset value when selling shares.

If the stock market value of a listed fund's shares or units differs significantly from their indicative net asset value, or if trading in the fund's shares or units is suspended, investors may be authorized, subject to the conditions set forth below, to redeem their shares or units in the primary market directly from the fund, without being subject to the minimum redemption amount requirement set forth herein in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)".

The management company shall decide whether to allow such primary market redemptions and for how long, on the basis of the following criteria for assessing the significance of a market disruption:

- The suspension or strong disturbance of secondary trading on a given exchange is relatively frequent
- The link between the market disruption and secondary market operators (such as the default of one or more of the Market Makers of a given exchange, or a breakdown or malfunction of an exchange's IT or operating systems), excluding a disruption caused by a source external to the secondary exchange on which the Sub-fund's shares are traded, such as an event that affects the liquidity and valuation of all or some of the Benchmark Index's components
- Any other objective circumstance that could adversely affect the fair treatment and/or the interests of the Sub-fund's share-holders.

Redemptions made in the primary market in this case shall only be subject to a redemption fee paid to the Sub-fund and which serves to cover its trading costs. The redemption fee that is not kept by the Sub-fund will normally not be charged.

In such exceptional cases when redemption in the primary market is allowed, the Management Company shall post on Lyxor's website at www.lyxor.etf.com the procedure that investors must observe to redeem their shares or units in the primary market. The Management Company shall also make this procedure available to the market undertaking that handles trading in the Sub-fund's shares.

B. SPECIFIC PROVISIONS

- (a) If the shares are listed on Euronext Paris, as specified in the "Key Information" section, investors should note the following rules

Negotiability of shares and information about the financial institutions acting as Market Makers

The shares are freely negotiable on the Euronext Paris regulated market under the following conditions and according to the applicable legal and regulatory provisions.

The Sub-fund shares will be listed on a specific trading list, the rules for which are defined in the following instructions published by Euronext Paris SA:

- Instruction No. 4-01 " Universal Trading Platform Manual"
- Appendix to Instruction N4-01 (Appendix to the Euronext Market Trading Manual)
- Instruction No. 6-04 "Documentation to be provided when filing a listing application for an ETF, ETN, ETV and open-ended undertakings for collective investment other than"

Pursuant to article D 214-22-1 of the French Monetary and Financial Code the units or shares of undertakings for collective investments in transferable securities may be admitted to trading, provided that these undertakings have a system to ensure that the market price of their units or shares does not differ significantly from their net asset value. Under Euronext Paris SA's rules trading in the Sub-fund's shares is also subject to a 'reservation threshold' of 1.5% above or below the Sub-fund's indicative net asset value or "iNAV" (see the "Indicative Net Asset Value" section), as published by Euronext Paris SA and updated on an estimated basis during trading in accordance with the change in the Benchmark Index.

To comply with Euronext Paris SA's reservation threshold requirement (see the section entitled "Indicative Net Asset Value") the Market Makers will ensure that the market price of the Sub-fund's shares does not differ from the Sub-fund's indicative Net Asset Value by more than 1.5%.

Euronext Paris SA may suspend trading in the Sub-fund's shares pursuant to the terms of its operating rules, if the aforementioned reservation threshold limit is exceeded.

Euronext Paris SA will also suspend trading in the Sub-fund's shares in the following cases:

- the Benchmark Index is no longer traded or calculated
- Euronext Paris SA cannot obtain the Benchmark Index's level
- Euronext Paris SA cannot obtain the Sub-fund's net asset value

In accordance with the terms and conditions governing admission to trading on Euronext Paris, the Market Makers undertake to provide market-making services for the Sub-fund's shares as soon as they are admitted to trading on the Euronext Paris exchange.

In particular, the Market Makers undertake to carry out market-making operations by maintaining a significant presence in the market, which initially entails the setting of a bid/ask spread.

More specifically, the Market Makers are required by contract with Euronext Paris SA to ensure that the Sub-fund maintains:

- a maximum global spread of 1.5% between the bid and offer price in the centralized order book.
- a minimum nominal trading value of EUR 100,000.

The obligations of the Sub-fund's Market Makers will be suspended in the following cases:

- the Benchmark Index is no longer traded or calculated
- if trading is substantially disrupted, for example due to a widespread shift in prices or an event that makes normal market making impossible.

Indicative Net Asset Value

Euronext Paris SA will calculate and publish, each Trading Day (as defined below) during trading hours, the indicative net asset value (hereinafter "iNAV") of the Sub-fund's bonds. The iNAV is a measure of the intra-day value of the Sub-fund's net asset value based on the most recent data. The iNAV is not the value at which investors buy and sell shares in the Sub-fund on the secondary markets.

A "**Trading Day**" is a day on which NSYE Euronext is normally open and on which the Benchmark Index is normally published.

The Sub-fund's iNAV is a theoretical net asset value calculated every 15 seconds by Euronext SA throughout the Paris trading day and is based on the level of the Benchmark Index. The iNAV enables investors to compare the prices that the Market Makers offer on the market with the theoretical value calculated by Euronext.

To calculate the iNAV of the Sub-fund's shares, which is calculated throughout the Paris trading session (from 9.05 am to 5.35 pm), Euronext Paris SA will use the Benchmark Index value published by Reuters.

The market price of the bonds comprising the Benchmark Index used to calculate the level of the Benchmark Index, and therefore the evaluation of the iNAV is supplied directly by the MTS platform.

If one or more of the exchanges on which the bonds that make up the Benchmark Index are listed are closed (on a holiday as per the TARGET calendar), and if the iNAV cannot be calculated, trading in the Sub-fund's shares may be suspended.

Lyxor International Asset Management, the Sub-fund's management company, will provide Euronext Paris SA with all the financial and accounting data it needs to calculate the Sub-fund's iNAV and in particular:

- The day's estimated net asset value
- The official net asset value of the previous business day
- The level of the Benchmark Index on the previous business day.

These data will serve as a basis for Euronext Paris SA's calculations to determine the Sub-fund's iNAV in real time the following Trading Day.

Additional information about the indicative net asset value of a share listed on an exchange may, in accordance with the terms and limits set by the relevant market undertaking, be provided on this exchange's website. This information is also available on the Reuters or Bloomberg pages dedicated to the share. Additional information about the Bloomberg and Reuters codes for the indicative net asset values of all UCITS ETF type share classes is also available in the "Term Sheets" section of Lyxor's website at www.lyxoref.com.

- (b) If the Sub-fund's shares are listed on an exchange other than Euronext Paris, as indicated in the "Key Information" section, investors should note the following

Investors wishing to acquire shares in the Sub-fund or obtain more information regarding the market-making terms that govern the listing and trading of shares on the types of exchanges indicated in the "Key Information" section are advised to familiarize themselves with the guidelines laid down by the relevant market undertaking, in compliance with local regulations, and to seek if necessary the assistance of their usual broker(s) for executing trades on the relevant exchange(s).

FEES AND CHARGES

SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)

The subscription and redemption fees shown below respectively increase the subscription price paid by the investor and decrease the redemption price received. Fees kept by the Sub-fund compensate it for the expenses it incurs in investing in the Sub-fund's assets or in divesting these assets. Any fees that are not kept by the Sub-fund are paid to the management company, marketing agent or other service provider.

Fees paid by investors upon subscription or redemption	Base	Maximum charge
Subscription fee not kept by the Sub-fund	NAV per share × number of shares	The higher value of either EUR 50,000 per subscription order or 5% payable to third parties
Subscription fee kept by the Sub-fund	NAV per share × number of shares	0.05%
Redemption fee not kept by the Sub-fund	NAV per share × number of shares	The higher value of either EUR 50,000 per redemption order or 5% payable to third parties
Redemption fee kept by the Sub-fund	NAV per share × number of shares	0.05%

OPERATIONAL AND MANAGEMENT FEES

These fees cover all the costs invoiced directly to the Sub-fund, except for transaction expenses, which include intermediary fees (brokerage, stock market taxes etc.) and any account activity charge that may be charged by the depositary or the asset manager, in particular.

For this Sub-fund the following fees may be charged in addition to the operating and management fees (see table below):

- incentive fees, which the Sub-fund pays to the management company when the Sub-fund exceeds its objectives
- account activity charges charged to the Sub-fund

For more information on the fees or expenses that the Sub-fund must pay, see the Statistics section of the Key Investor Information Document (KIID).

Fees charged to the Sub-fund	Base	Maximum charge
Investment management fees and administration fees that are external to the management company (auditor, depositary, fund distribution and legal fees) including tax ⁽¹⁾	Net asset value	0.165% per annum
Incentive fee	Net asset value	N/A
Account activity charge	Charge on each transaction	N/A

⁽¹⁾ Includes all fees and expenses except for transaction expenses, incentive fees and fees associated with investment in UCITS.

COMMERCIAL INFORMATION

Distribution of this prospectus and the offering or purchase of the Fund's share classes may be subject to restrictions with regard to certain persons or in certain countries by virtue of national regulations applying to these persons or countries. Investors are therefore responsible for ensuring that they can legally subscribe to or invest in this Fund. The information in this prospectus therefore cannot be construed to be an offer or solicitation to buy or sell shares in this Fund in a country where such offer or solicitation is unlawful.

The Fund's share classes will not be registered pursuant to the U.S. Securities Act of 1933, as amended (the "U.S. Securities Act") and cannot be offered, assigned, transferred or allocated to the United States of America, or to:

- (A) any "U.S. Person", as this term is defined (i) under Regulation S of the US Securities Act of 1933 and (ii) under U.S. regulations as defined in Section 7701 (a) (30) of the Internal Revenue Code of 1986 as amended. The Fund's shares will not be offered to U.S. Persons.
- (B) anyone other than those persons considered to be "non-US Persons" as this term is defined under U.S. regulations pursuant to the Commodity Futures Trading Commission, Rule 4.7 (a) (1) (iv).

The Fund's shares will only be offered for sale outside of the United States of America to non-U.S. Persons.

For the purpose of this document, the term "U.S. Person" shall mean, among other things, any individual who resides in the United States of America, any entity organized or formed under the laws of the United States of America, certain entities organized or formed outside of the United States of America by one or more U.S. persons, or any account held on behalf of such a U.S. person.

Before making an investment in this Fund or Sub-fund, investors should seek the advice of their financial, tax and legal advisers.

PLACE AND METHOD OF NET ASSET VALUE PUBLICATION OR COMMUNICATION

At the head office of LYXOR INTERNATIONAL ASSET MANAGEMENT, at 17, cours Valmy - 92987 Paris La Défense CEDEX - France.

Euronext Paris SA will calculate and publish the Sub-fund's indicative net asset value , each Trading Day (as defined below) during trading hours

IMPORTANT INFORMATION ABOUT THE BENCHMARK INDEX PROVIDER

The Sub-fund is in no way sponsored, endorsed, sold or promoted by FTSE TMX Global Debt Capital Markets (hereinafter collectively referred to as the "Licensors").

FTSE TMX Global Debt Capital Markets cannot be held liable for the promotion or marketing of the Sub-fund.

FTSE MTS and the FTSE MTS index names (FTSE MTS IndexTM) and FTSE MTS indices (FTSE MTS IndicesTM) are registered trademarks of FTSE TMX Global Debt Capital Markets. The FTSE MTS indices are calculated by FTSE TMX Global Debt Capital Markets and are marketed and distributed by MTSNext, a subsidiary of FTSE TMX Global Debt Capital Markets.

Neither FTSE TMX Global Debt Capital Markets nor MTSNext can be held responsible or liable for any loss or damages of any type whatsoever (including, in particular, investment losses) in connection, in whole or in part, with the Sub-fund or the provision of the FTSE MTS Highest Rated Macro-Weighted Government Bond 1-3Y (Mid Price) Index, sub-indices or registered trademarks.

ADDITIONAL INFORMATION

The Sub-fund's shares are accepted for clearing by Euroclear France S.A.

Subscription and redemption orders must be sent in by the investors' financial intermediary (a member of Euroclear France S.A.) to the Depositary.

The Multi Units France fund prospectus, the Key Investor Information Document, and the most recent annual and periodic documents will be sent to investors within eight business days upon receipt of a written request addressed to:

LYXOR INTERNATIONAL ASSET MANAGEMENT

17 Cours Valmy - 92987 Paris La Défense France.

E-mail: contact@lyxor.com

More information can also be requested from Lyxor International Asset Management on its website at www.lyxoretf.com.

Prospectus publication date: See the "Publication Date" section.

Pursuant to Article L.533-22-1 of the French Monetary and Financial Code, information concerning the management company's possible inclusion of social, environmental and corporate governance objectives and performance criteria in the investment policy is available on the management company's website and in the Sub-fund's annual report.

The AMF's website (www.amf-france.org) provides more information on the regulatory documents and various provisions that concern investor protection. This Prospectus shall be made available to investors prior to subscription.

INVESTMENT RULES

The Sub-fund will comply with the investment rules of European Directive 2009/65/EC of 13 July 2009.

The Sub-fund may invest in the assets specified in Article L214-20 of the French Monetary and Financial Code, subject to the risk-diversification and investment ratio requirements of Articles R214-21 to R214-27 of said Code.

Up to 20% of the Sub-fund's assets may be exposed to debt issued by a given OECD country. This 20% limit can be increased to 35% for a single bond, when this is justified by exceptional market conditions and in particular when certain securities are largely dominant, or a debt issue is highly volatile, or a political and/or economic event has affected or may affect the estimated debt of an issuing country or its credit rating, or in any other event that is likely to affect the liquidity of a Benchmark Index security.

Notwithstanding the above, securities issued by a given sovereign issuer may account for up to 35% of assets, and 100% of assets if the Sub-fund holds at least six issues none of which exceeds 30% of assets, provided that these securities are financial instruments issued or guaranteed by an OECD member state, the local authorities of a European Union member state or a country that is a member of the European Economic Area.

OVERALL RISK EXPOSURE

The commitment approach is used to calculate the overall risk exposure.

ASSET RECOGNITION AND VALUATION RULES

A. VALUATION RULES

The Sub-fund's assets are valued in accordance with applicable laws and regulations and most notably Regulation No. 2014-01 of 14 January 2014 of the Comité de la Réglementation Comptable (the Accounting Regulations Committee), which applies to the chart of accounts for undertakings for collective investment in transferable securities.

Financial instruments traded on a regulated market are valued at the closing price recorded on the day prior to the calculation of the net asset value. If these financial instruments are traded on several regulated markets at the same time, the closing price used is that recorded on the regulated market on which they are principally traded.

However, in the absence of significant trading on a regulated market, the following financial instruments are valued using the following methods:

- Negotiable debt securities ("NDS") with a remaining life upon acquisition that is less than or equal to three months are valued by applying the difference between the acquisition value and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life of more than three months upon acquisition but less than or equal to three months at the net asset value calculation date are valued by applying the difference between the most recent valuation and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life at the net asset value calculation date that exceeds three months are valued at their current value. The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- Financial futures traded on organized markets are valued at the clearing price on the day prior to the calculation of the net asset value. Options traded on organized markets are valued at their market price on the day prior to the calculation of the net asset value. Forward contracts and over-the-counter options are valued at the price quoted by the counterparty. The management company monitors these prices independently.
- Bank deposits are valued at their nominal value plus accrued interest.
- Warrants, short and medium-term notes (bons de caisse), promissory notes and mortgage notes are valued under the management company's responsibility at their most likely trading value.
- Securities financing transactions are valued at the market price.
- Shares and units in UCITS under French law are valued at the last known net asset value on the day the Sub-fund's net asset value is calculated.
- Shares and units in foreign investment funds are valued at the last known unitary net asset value at the date the Sub-fund's net asset value is calculated.
- Financial instruments traded on a regulated market and for which no price has been quoted or whose price has been corrected, are valued under the management company's responsibility at their most likely trading value.
- The exchange rates used to value financial instruments denominated in a currency other than the Sub-fund's base currency are the WM Reuters fixing rates published on the day the Sub-fund's net asset value is calculated.

B. ACCOUNTING METHOD FOR TRADING EXPENSES

Trading expenses are included in the initial cost of the transaction.

C. ACCOUNTING METHOD FOR INCOME FROM FIXED-INCOME SECURITIES

Income from fixed-income securities is accounted for using the cash-basis method.

D. DISTRIBUTION POLICY

For more information see the section entitled "Calculation and appropriation of Distributable amounts"

E. ACCOUNTING CURRENCY

The Sub-fund's accounts are kept in euros.

SUB-FUND NO. 14: Lyxor EuroMTS Highest Rated Macro-Weighted Govt Bond 3-5Y (DR) UCITS ETF

A SICAV SUB-FUND COMPLIANT WITH DIRECTIVE 2009/65/CE

ISIN CODE:

Acc share class: FR0011146349

CLASSIFICATION

Bonds and other debt securities denominated in euros.

The Lyxor EuroMTS Highest Rated Macro-Weighted Govt Bond 3-5Y (DR) UCITS ETF (hereinafter the "Sub-fund") is continuously exposed to fixed-income securities denominated in euros. Exposure to equity risk does not exceed 10% of the net assets.

The Sub-fund is a UCITS ETF type index tracker.

INCEPTION DATE

The Sub-fund was approved by l'autorité des Marchés Financiers (the French financial markets authority) on 8 November 2011 and was established on 25 November 2011.

INVESTMENT OBJECTIVE

The Sub-fund's investment objective is to provide exposure to increases and decreases in the Eurozone government bond segment, by replicating the performance of the FTSE MTS Highest Rated Macro-Weighted Government Bond 3-5Y(Mid Price) index (the "**Benchmark Index**"), denominated in euros (EUR), while minimizing the tracking error between the Sub-fund's performance and that of its Benchmark Index.

The expected ex-post tracking error under normal market conditions is 0.02%.

BENCHMARK INDEX

The Benchmark Index is a "Total Return" type index (i.e. all coupons from the Benchmark Index components are reinvested in the index).

The Benchmark Index measures the performance of the eurozone government bond segment and more specifically that of eurozone countries that have at least two AAA or equivalent credit ratings from the three credit rating agencies Standard & Poor's, Moody's and Fitch. It is denominated in euros.

A full description of the Benchmark Index and its construction methodology and information on the composition and respective weightings of the Benchmark Index components are available on the Internet at www.ftse.com

The Benchmark Index is calculated by FTSE MTS.

FTSE MTS is a private company based in London and regulated by the FCA. FTSE MTS manages the European FTSE MTS electronic trading platform for the benchmark bonds in the eurozone and is also responsible for calculating and disseminating the value of the FTSE MTS indices.

Methodology

The Benchmark Index is composed of bonds issued by the eurozone countries with the highest credit ratings. These bonds are weighted in the index on the basis of macroeconomic indicators. The Benchmark Index is provided with a history of index values dating back to December 1998. As explained below, the initial index components were selected using the same criteria as those used for FTSE MTS Eurozone Government Broad indices (except for the credit-rating criterion).

The Benchmark Index comprises at least five issuers. If an issuer is downgraded it will be replaced in the index, provided that there is another country that is eligible, such that the required minimum number of five issuers is maintained.

The Benchmark Index securities are therefore among the highest rated eurozone sovereign bonds.

- To qualify for the Benchmark Index bonds must meet the following criteria:
 - (i) nominal value and coupon are denominated in euros with no option or convertibility
 - (ii) listed on the FTSE MTS platform
 - (iii) issued by a sovereign eurozone government having at least two out of three AAA ratings from Standard & Poor's, Moody's and Fitch, and selected by FTSE MTS from among the following countries: Austria, Belgium, Finland, France, Germany, Greece, Ireland, Italy, Netherlands, Portugal, Slovenia and Spain
 - (iv) Maturity exceeds one year
 - (iv) with issuance of at least two billion euros

The Benchmark Index must comprise at least five issuing countries. If an issuer is downgraded it will be replaced in the index, provided that there is another country that is eligible, such that the required minimum number of five issuers is maintained.

- The composition of these indices is revised monthly.
- The complete methodology is available at www.ftse.com
- The performance tracked is the closing index price at 5.30 pm (CET).

Benchmark index publication

The Benchmark Index available in real time through Reuters and Bloomberg.

Reuters code: FMMPHRB5=
Bloomberg code: FMMPHRB5
The Benchmark Index's closing price is available on the Internet at www.ftse.com

Benchmark Index composition and revision

The Benchmark Index's composition is revised monthly.

The frequency with which the Benchmark Index is rebalanced does not affect the cost of implementing the Investment Strategy.

Pursuant to Article 52 of European Parliament and Council Regulation 2016/1011 of 8 June 2016, FTSE MTS, the administrator of the FTSE MTS Highest Rated Macro-Weighted Government Bond 3-5Y (Mid Price) benchmark index, has until 1 January 2020 to apply for approval or registration as applicable.

As of the date of the most recent version of this prospectus, the benchmark index administrator was not yet listed in ESMA's register of benchmark administrators.

Pursuant to European Parliament and Council Regulation 2016/1011 of 8 June 2016, the asset management company has a procedure for monitoring the benchmark indices used that specifies the measures to be implemented if an index is substantially modified or is no longer provided.

INVESTMENT STRATEGY

1. Strategy employed

The Sub-fund will comply with the investment rules of European Directive 2009/65/EC of 13 July 2009.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund will employ a pure replication method, which means that the Sub-fund will mainly invest in the bonds that underlie the Benchmark Index.

Information on the updated composition of the basket of 'balance sheet' assets in the Sub-fund's portfolio and the value of the swap contract concluded by the Sub-fund is available on the page dedicated to the Sub-fund accessible on Lyxor's website at www.lyxoretf.com. The frequency of any updates and/or the date on which the aforementioned information is updated is also indicated on the same page of the aforementioned website.

Up to 20% of the Sub-fund's assets may be exposed to debt issued by a given OECD country. This 20% limit can be increased to 35% for a single bond, when this is justified by exceptional market conditions and in particular when certain securities are largely dominant, or a debt issue is highly volatile, or a political and/or economic event has affected or may affect the estimated debt of an issuing country or its credit rating, or in any other event that is likely to affect the liquidity of a Benchmark Index security.

Notwithstanding the above, securities issued by a given sovereign issuer may account for up to 35% of assets, and 100% of assets if the Sub-fund holds at least six issues none of which exceeds 30% of assets, provided that these securities are financial instruments issued or guaranteed by an OECD member state, the local authorities of a European Union member state or a country that is a member of the European Economic Area.

Sub-fund's targeted interest-rate sensitivity	From 2 to 6.
Currencies in which the Sub-fund's securities are denominated	Euros: from 0 to 100% of net assets Other: from 0 to 100% of net assets
Foreign exchange risk to which the Sub-fund is exposed	0% maximum of net assets.
Geographic regions of the issuers of the securities to which the Sub-fund is exposed	Eurozone: from 0 to 100% of net assets Emerging countries: 0% of net assets

The asset manager by delegation currently intends to invest mainly in the assets indicated below.

2. Balance sheet assets (excluding embedded derivatives)

The Sub-fund may invest in international debt securities, in compliance with regulatory ratios.

The Sub-fund will mainly be invested in the bonds that make up the Benchmark Index.

Investment in undertakings for collective investment in transferrable securities ("UCITS") that comply with Directive 2009/65/EC is limited to 10% of the Sub-fund's net assets.

The fund manager will not invest in the shares or units of alternative investment funds (AIF) or other investment funds that were formed under a foreign law.

To optimize the Sub-fund's management and achieve its investment objective, the manager reserves the right to use other instruments in accordance with the regulations.

3. Off-balance sheet assets (derivatives)

The Sub-fund will not make use of derivatives, except on an ancillary basis and within regulatory limits, futures contracts on indices or on bonds listed on regulated markets.

If over-the-counter derivatives are used, in accordance with its best-execution policy the management company considers that Société Générale would be the counterparty that would generally provide the best possible execution for any hedging transactions the Sub-fund may enter into pursuant to its investment strategy. Accordingly, all or some of these derivatives (including index-linked swaps) may be traded with Société Générale without having to seek a competitive bid from another counterparty.

4. Securities with embedded derivatives

N/A.

5. Cash deposits

In order to optimize its cash management, the Sub-fund may deposit up to 20% of its assets in the form of cash with credit institutions that belong to the same group as the depositary.

6. Cash borrowing

The Sub-fund may temporarily borrow up to 10% of its net assets.

7. Securities financing transactions

Securities financing transactions

The Sub-fund may use various techniques to manage its portfolio efficiently in compliance with Article R214-18 of the French monetary and financial code, including the temporary sale and repurchase of securities.

Maximum proportion of assets under management for which securities financing transactions may be entered into: up to 20% of the Sub-fund's assets.
Expected proportion of assets under management for which securities financing transactions may be entered into: 0% of the Sub-fund's assets.

For this purpose the management company may appoint an intermediary (hereinafter the "Agent) to provide the following services in connection with the Sub-fund's temporary disposals of securities. If such an Agent is used it may be authorised to (i) lend securities, on the Sub-fund's behalf, under framework agreements, such as global master securities lending agreements (GMSLA) and/or any other internationally recognised framework agreement, and (ii) invest, on the Sub-fund's behalf, any liquid assets received as collateral for these securities lending transactions, subject to the restrictions specified in the securities lending agreement, the rules of this prospectus and the applicable regulations.

The Sub-fund shall be entitled to all income from such temporary disposal of securities, net of any direct and indirect operating costs. These operating costs, which are incurred to manage the portfolio more efficiently, may be borne by the Sub-fund's management company, the Agent and/or other intermediaries that are involved in these transactions.

These direct and indirect operating costs will be calculated as a percentage of the Sub-fund's gross income. More information on these operating costs and on the entities to which these costs are paid will be provided in the Sub-fund's annual report.

All income obtained from the lending of securities (from which must be deducted all direct and indirect operating costs borne by the Agent and if applicable by the management company) shall be paid to the relevant Sub-fund. Since these direct and indirect costs do not increase the Sub-fund's overall operating expenses they have been excluded from ongoing expenses.

The Sub-fund's annual report will provide the following information when applicable:

the exposure resulting from the use of efficient portfolio management techniques/transactions

- the identity of the counterparty(ies) involved in these transactions
- the nature and amount of any collateral received to reduce the Sub-fund's counterparty risk, and;
- the income generated by efficient portfolio management techniques over the relevant period, and any associated direct and indirect operating costs or expenses.

8. Collateral

Whenever the investment strategy exposes the Sub-fund to counterparty risk, and in particular when the Sub-fund engages in securities financing transactions, the Sub-fund may accept eligible securities as collateral to reduce the counterparty risk associated with these transactions. The portfolio of collateral received may be adjusted daily to ensure that its value is at least sufficient to cover the Sub-fund's counterparty risk in most cases. The purpose of this adjustment is to neutralize the Sub-fund's counterparty risk.

The Sub-fund will have full title to all collateral received, which will be deposited in the Sub-fund's account with the depositary. This collateral will therefore be included in the Sub-fund's assets. If a counterparty defaults on an obligation, the Sub-fund may dispose of the assets received from the counterparty in respect of the secured transaction to pay off the the counterparty's debt to the Sub-fund.

All collateral the Sub-fund receives for this purpose must comply with the applicable laws and regulations, with respect in particular to liquidity, valuation, the creditworthiness of securities issuers, correlation, and the risks of collateral management and enforceability. All collateral received must in particular meet the following criteria:

- (a) All collateral must be of high quality, be highly liquid and tradable on a regulated market or on a multilateral trading facility, with transparent pricing to enable the collateral to be rapidly sold near its estimated price
- (b) This collateral must be valued at its mark-to-market price at least daily and assets with highly volatile prices are not acceptable as collateral, unless a sufficiently prudent discount or "haircut" is applied;
- (c) The issuer of this collateral must be independent of the counterparty and must not be closely correlated with the counterparty's financial performance;
- (d) Collateral must be sufficiently diversified in terms of country, market and issuer, with exposure to any single issuer not exceeding 20% of the Sub-fund's net asset value ;
- (e) Collateral must be immediately enforceable by the Sub-fund's management company without informing the counterparty and without its approval.

Notwithstanding the condition specified in (d) above, the Sub-fund may accept a basket of securities collateral that increases its exposure to a single issuer to more than 20% of its net asset value provided that:

such securities collateral is issued by (i) a Member State, (ii) one or more of a Member State's local authorities, (iii) a country that is not a Member State (iv) a public international organisation to which one or more Member States belong; and;

such securities collateral consists of at least six different issues of securities of which no single issue exceeds 30% of the Sub-fund's assets.

In accordance with the above conditions the collateral the Sub-fund accepts may consist of:

- (i) Cash and cash-equivalent assets, which for example include short-term bank deposits and balances and money-market instruments
- (ii) Bonds issued or guaranteed by an OECD member state, or by its local government entities, or by an EU, regional or global supranational institution or organisation, or by any country provided that conditions (a) to (e) above are fully complied with
- (iii) Shares or units issued by money-market funds that calculate a daily net asset value and have an AAA or equivalent credit rating
- (iv) The shares or units of UCITS that invest mainly in the bonds and/or equities indicated in (v) and (vi) below
- (v) Bonds issued or guaranteed by first-class issuers offering sufficient liquidity
- (vi) Equities admitted for trading or traded on a regulated exchange of an EU member country, on a stock exchange of an OECD member country or on a stock exchange of another country provided that conditions (a) to (e) above are fully complied with and that these equities are components of a major index.

Collateral discount policy

The Sub-fund's management company shall apply a discount to the collateral the Sub-fund accepts. The amount of these discounts will depend mainly on the following:

- the nature of the collateral asset
- the collateral's maturity (if applicable)
- the credit rating of the collateral issuer (if applicable).

Reinvestment of collateral

Non-cash collateral will not be sold, reinvested or pledged.

At the manager's discretion, cash collateral may either be:

- deposited with an authorised institution
- invested in high-quality government bonds
- used for reverse repurchase transactions, provided that these are entered into with credit institutions that are subject to prudential supervision and that the fund is able to withdraw the total amount of its cash collateral and the accrued interest at any time.
- invested in short-term money-market funds as defined in the guidelines for a common definition of European money-market funds.

All cash collateral that is reinvested must be invested in a diversified manner in compliance with the rules that apply to the acceptance of non-cash collateral.

RISK PROFILE

Investors in the Sub-fund will mainly be exposed to the following risks:

Interest rate risk

The price of a bond can be affected by unexpected changes in the level of interest rates, which in particular may modify the shape of the yield curve in particular. The bonds that make up the Benchmark Index are exposed to changes in interest rates. In general, the price of a bond rises when interest rates fall, and falls when interest rates rise.

Capital risk

The capital invested is not guaranteed. Investors therefore may not recover all or part of their initial investment, particularly in the event that the Benchmark Index posts a negative return over the investment period.

Credit risk

The Sub-fund could be adversely affected by a lowering of the credit rating of one or more issuers of a bond in the Benchmark Index. This could mean a higher risk that such an issuer might default and could decrease the bond's value.

Liquidity risk (primary market)

The Sub-fund's liquidity and/or value may be adversely affected if, when the Sub-fund or a counterparty to a financial derivative instrument (DFI) is rebalancing its exposure, the underlying financial markets are restricted, closed, or subject to wide bid/offer spreads. An inability, due to low trading volume, to execute the trades required to replicate the Benchmark Index may also adversely affect the subscription, conversion or redemption of shares or units.

Liquidity risk (secondary market)

The price of the Sub-fund's listed shares or units may deviate from the Sub-fund's indicative net asset value. The liquidity of shares or units traded on a given exchange may be adversely affected by a suspension in trading for various reasons, for example:

- i) the calculation of the Benchmark Index is suspended or stopped
- ii) trading in the market(s) in the Benchmark Index's underlying assets is suspended
- iii) an exchange cannot obtain or calculate the Sub-fund's indicative net asset value
- iv) a market maker fails to comply with an exchange's rules
- v) an exchange's IT, electronic or other system fails.

Risk that the investment objective may not be fully achieved

There is no guarantee that the investment objective will be achieved, as no asset or financial instrument can ensure that the Benchmark Index will be automatically and continuously replicated, particularly in the event of one or more of the following risks:

- Risk due to a change in the tax regime

A change in the tax regime of a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed could adversely affect the taxation of investors. In such an event, the Sub-fund manager shall not be liable to any investor with respect to any payment that may have to be made to a competent tax authority.

- Risk of a change in the taxation of the Sub-fund's underlying assets

A change in the taxation of the Sub-fund's underlying assets could adversely affect the taxation of the Sub-fund. In such an event a discrepancy between the Sub-fund's estimated taxation and its actual taxation may adversely affect the Sub-fund's net asset value.

- Regulatory risk affecting the Sub-fund

In the event of a change in the regulatory regime in a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed, the subscription, conversion or redemption of shares or units may be adversely affected.

- Regulatory risk affecting the Sub-fund's underlying assets

In the event of a change in the regulations that govern the Sub-fund's underlying assets, the Sub-fund's net asset value and the subscription, conversion or redemption of shares or units may be adversely affected.

- Benchmark Index disruption risk

If an event adversely affects the Benchmark Index, the Sub-fund manager may be required, as provided for by law, to suspend the subscription and redemption of the Sub-fund's shares or units. The calculation of the Sub-fund's net asset value could also be adversely affected.

If the disruption of the Benchmark Index persists, the Sub-fund manager will determine an appropriate course of action, which could decrease the Sub-fund's net asset value.

A 'Benchmark Index event' includes but is not limited to the following situations:

- i) the Benchmark Index is deemed to be inaccurate or does not reflect actual market developments
- ii) the Benchmark Index is permanently cancelled by the index provider,
- iii) the index provider is unable to indicate the level or value of the Benchmark Index
- iv) The index provider makes a material change in the Benchmark Index calculation formula or method (other than a minor modification such as an adjustment to the Benchmark Index's underlying components or their respective weightings) which the Sub-fund cannot effectively replicate at a reasonable cost.
- v) a Benchmark Index component becomes illiquid because it is no longer traded on a regulated market or because its trading over-the-counter (e.g. bonds) is disrupted
- vi) the Benchmark Index components are exposed to higher transaction costs for execution or settlement/delivery, or to specific tax constraints and these costs are not reflected in the Benchmark Index's performance.

- Corporate action risk

An unforeseen change, by the issuer of a security that is a component of the Benchmark Index, in a planned corporate action that is in contradiction with a previous official announcement on which the Sub-fund based its valuation of the corporate action can adversely affect the Sub-fund's net asset value, particularly if the Sub-fund's treatment of the corporate event differs from that of the Benchmark Index methodology.

- Legal risk

The Sub-fund may be exposed to a legal risk arising from securities financing transactions, pursuant to EU Regulation No. 2015/2365.

ELIGIBLE INVESTORS AND TYPICAL INVESTOR PROFILE

The Sub-fund is available to all investors.

Investors in this Sub-fund are seeking exposure to the performance, whether positive or negative, of the eurozone government bond segment and more specifically to eurozone countries with at least two AAA or equivalent credit ratings from the three rating agencies S&P, Moody's and Fitch.

The amount that can be reasonably invested in the Sub-fund depends on each investor's personal situation. To determine this amount, investors must take into account their personal wealth and/or estate, their cash requirements currently and for the next five years, and their willingness to take on risk or their preference for more prudent investment. Investors are also advised to diversify their investments sufficiently so as not to be exposed solely to this Sub-fund's risks.

All investors are therefore asked to consider their specific situation with the help of their usual investment advisor.
The recommended minimum investment horizon is three years.

CALCULATION AND APPROPRIATION OF DISTRIBUTABLE AMOUNTS

all distributable amounts are accumulated.

DISTRIBUTION FREQUENCY

N/A.

SHARE CHARACTERISTICS

Subscription orders may be placed for a monetary amount or for a number of shares
A whole number of shares must be redeemed.

SHARE CURRENCY

Euros

SUBSCRIPTION AND REDEMPTION

1. SUBSCRIPTION AND REDEMPTION ON THE PRIMARY MARKET

Subscription/redemption requests for shares in the Sub-fund will be processed by the Depositary from 10:00 am and 5.00 pm (Paris time), every day that the Sub-fund's net asset value is to be published, provided that prices can be quoted for a significant proportion of the Benchmark Index components (hereinafter a "Primary Market Day"), and will be executed at the net asset value on that Primary Market Day, hereinafter the "reference NAV". Subscription/redemption orders submitted after 5.00 pm (Paris time) on a Primary Market Day will be processed as if received from 10:00 am to 5.00 pm (Paris time) on the following Primary Market Day. Orders to subscribe for or redeem shares in the Sub-fund must be made for a minimum amount of at least 100,000 euros.

Subscriptions in kind

Shares may be subscribed in exchange for the Benchmark Index's underlying bonds, provided that a whole number of Sub-fund shares are subscribed and that the total subscription amount is equivalent to at least 100,000 euros.

These subscription orders will be carried out at the closing price of the markets where the securities are traded and pursuant to the terms that Lyxor International Asset Management has set forth and which include:

- (1) a number of bonds in the Benchmark Index having a total value of at least 100,000 euros, which the subscriber must deliver, and if necessary:
- (2) a cash amount in euros (the "Balance"), which the Sub-fund will pay or receive as required. This positive or negative Balance is the difference between the reference net asset value multiplied by the number of shares subscribed and the value of the bonds to be delivered on the reference net asset value date.

The number of each bond comprising the Benchmark Index mentioned in (1) above and the Balance mentioned in (2) above will be published on Reuters and on Lyxor's website at www.lyxoret.com

If shares are subscribed in kind, the management company reserves the right to refuse the securities proposed and will have seven days after the securities are deposited to notify its decision.

Subscriptions and redemptions in cash

Subscriptions and redemptions shall be made exclusively in cash and executed at the ref NAV.

Delivery and settlement

Settlement/delivery of subscriptions and redemptions shall be completed within five French business days upon receipt of the subscription or redemption order.

Date and frequency of net asset value calculation

The net asset value will be calculated and published daily, provided that at least one exchange on which the Sub-fund's shares are listed is open and that orders placed in the primary and secondary markets can be funded.

The Sub-fund's net asset value is calculated using the Benchmark Index's closing price. The Sub-fund's net asset value is denominated in euros.

The net asset value of a share class that is denominated in another currency than the Sub-fund's accounting currency (if applicable) is calculated using the exchange rate between the accounting currency and the currency of the share class, at the applicable WM Reuters rate on the date the reference NAV is calculated.

2. PURCHASES AND SALES ON THE SECONDARY MARKET

A. COMMON PROVISIONS

For any purchase or sale of shares in the Sub-fund executed directly on an exchange on which the Sub-fund is admitted or will be admitted for continuous trading, no minimum purchase or sale amount is required other than that which may be required by the relevant exchange(s).

Shares in a listed Sub-fund that are purchased on the secondary market cannot generally be directly sold back to that Sub-fund. Investors must therefore buy and sell their shares on a secondary market through an intermediary (e.g. a broker) and may consequently incur costs. Furthermore, there is a possibility that investors may pay more than the indicative net asset value when buying shares and receive less than the indicative net asset value when selling shares.

If the stock market value of a listed fund's shares or units differs significantly from their indicative net asset value, or if trading in the fund's shares or units is suspended, investors may be authorized, subject to the conditions set forth below, to redeem their shares or units in the primary market directly from the fund, without being subject to the minimum redemption amount requirement set forth herein in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)".

The management company shall decide whether to allow such primary market redemptions and for how long, on the basis of the following criteria for assessing the significance of a market disruption:

- The suspension or strong disturbance of secondary trading on a given exchange is relatively frequent
- The link between the market disruption and secondary market operators (such as the default of one or more of the Market Makers of a given exchange, or a breakdown or malfunction of an exchange's IT or operating systems), excluding a disruption caused by a source external to the secondary exchange on which the Sub-fund's shares are traded, such as an event that affects the liquidity and valuation of all or some of the Benchmark Index's components
- Any other objective circumstance that could adversely affect the fair treatment and/or the interests of the Sub-fund's share-holders.

Redemptions made in the primary market in this case shall only be subject to a redemption fee paid to the Sub-fund and which serves to cover its trading costs. The redemption fee that is not kept by the Sub-fund will normally not be charged.

In such exceptional cases when redemption in the primary market is allowed, the Management Company shall post on Lyxor's website at www.lyxoret.com the procedure that investors must observe to redeem their shares or units in the primary market. The Management Company shall also make this procedure available to the market undertaking that handles trading in the Sub-fund's shares.

B. SPECIFIC PROVISIONS

(a) If the shares are listed on Euronext Paris, as specified in the "Key Information" section, investors should note the following rules

Negotiability of shares and information about the financial institutions acting as Market Makers:

The shares are freely negotiable on the Euronext Paris regulated market under the following conditions and according to the applicable legal and regulatory provisions.

The Sub-fund shares will be listed on a specific trading list, the rules for which are defined in the following instructions published by Euronext Paris SA:

- Instruction No. 4-01 " Universal Trading Platform Manual"
- Appendix to Instruction N4-01 (Appendix to the Euronext Market Trading Manual)
- Instruction No. 6-04 "Documentation to be provided when filing a listing application for an ETF, ETN, ETV and open-ended undertakings for collective investment other than"

Pursuant to article D 214-22-1 of the French Monetary and Financial Code the units or shares of undertakings for collective investments in transferable securities may be admitted to trading, provided that these undertakings have a system to ensure that the market price of their units or shares does not differ significantly from their net

asset value. Under Euronext Paris SA's rules trading in the Sub-fund's shares is also subject to a 'reservation threshold' of 1.5% above or below the Sub-fund's indicative net asset value or "iNAV" (see the "Indicative Net Asset Value" section), as published by Euronext Paris SA and updated on an estimated basis during trading in accordance with the change in the Benchmark Index.

To comply with Euronext Paris SA's reservation threshold requirement (see the section entitled "Indicative Net Asset Value") the Market Makers will ensure that the market price of the Sub-fund's shares does not differ from the Sub-fund's indicative Net Asset Value by more than 1.5%.

Euronext Paris SA may suspend trading in the Sub-fund's shares pursuant to the terms of its operating rules, if the aforementioned reservation threshold limit is exceeded.

Euronext Paris SA will also suspend trading in the Sub-fund's shares in the following cases:

- the Benchmark Index is no longer traded or calculated
- Euronext Paris SA cannot obtain the Benchmark Index's level
- Euronext Paris SA cannot obtain the Sub-fund's net asset value

In accordance with the terms and conditions governing admission to trading on Euronext Paris, the Market Makers undertake to provide market-making services for the Sub-fund's shares as soon as they are admitted to trading on the Euronext Paris exchange.

In particular, the Market Makers undertake to carry out market-making operations by maintaining a significant presence in the market, which initially entails the setting of a bid/ask spread.

More specifically, the Market Makers are required by contract with Euronext Paris SA to ensure that the Sub-fund maintains:

- a maximum global spread of 1.5% between the bid and offer price in the centralized order book.
- a minimum nominal trading value of EUR 100,000.

The obligations of the Sub-fund's Market Makers will be suspended in the following cases:

- the Benchmark Index is no longer traded or calculated
- if trading is substantially disrupted, for example due to a widespread shift in prices or an event that makes normal market making impossible.

Indicative Net Asset Value

Euronext Paris SA will calculate and publish, each Trading Day (as defined below) during trading hours, the indicative net asset value (hereinafter "iNAV") of the Sub-fund's bonds. The iNAV is a measure of the intra-day value of the Sub-fund's net asset value based on the most recent data. The iNAV is not the value at which investors buy and sell shares in the Sub-fund on the secondary markets.

A "Trading Day" is a day on which NSYE Euronext is normally open and on which the Benchmark Index is normally published.

The Sub-fund's iNAV is a theoretical net asset value calculated every 15 seconds by Euronext SA throughout the Paris trading day and is based on the level of the Benchmark Index. The iNAV enables investors to compare the prices that the Market Makers offer on the market with the theoretical value calculated by Euronext.

To calculate the iNAV of the Sub-fund's shares, which is calculated throughout the Paris trading session (from 9.05 am to 5.35 pm), Euronext Paris SA will use the Benchmark Index value published by Reuters.

The market price of the bonds comprising the Benchmark Index used to calculate the level of the Benchmark Index, and therefore the evaluation of the iNAV is supplied directly by the MTS platform.

If one or more of the exchanges on which the bonds that make up the Benchmark Index are listed are closed (on a holiday as per the TARGET calendar), and if the iNAV cannot be calculated, trading in the Sub-fund's shares may be suspended.

Lyxor International Asset Management, the Sub-fund's management company, will provide Euronext Paris SA with all the financial and accounting data it needs to calculate the Sub-fund's iNAV and in particular:

- The day's estimated net asset value
- The official net asset value of the previous business day
- The level of the Benchmark Index on the previous business day.

These data will serve as a basis for Euronext Paris SA's calculations to determine the Sub-fund's iNAV in real time the following Trading Day.

Additional information about the indicative net asset value of a share listed on an exchange may, in accordance with the terms and limits set by the relevant market undertaking, be provided on this exchange's website. This information is also available on the Reuters or Bloomberg pages dedicated to the share. Additional information about the Bloomberg and Reuters codes for the indicative net asset values of all UCITS ETF type share classes is also available in the "Term Sheets" section of Lyxor's website at www.lyxoretf.com.

(b) If the Sub-fund's shares are listed on an exchange other than Euronext Paris, as indicated in the "Key Information" section, investors should note the following

Investors wishing to acquire shares in the Sub-fund or obtain more information regarding the market-making terms that govern the listing and trading of shares on the types of exchanges indicated in the "Key Information" section are advised to familiarize themselves with the guidelines laid down by the relevant market undertaking, in compliance with local regulations, and to seek if necessary the assistance of their usual broker(s) for executing trades on the relevant exchange(s).

FEES AND CHARGES

SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)

The subscription and redemption fees shown below respectively increase the subscription price paid by the investor and decrease the redemption price received. Fees kept by the Sub-fund compensate it for the expenses it incurs in investing in the Sub-fund's assets or in divesting these assets. Any fees that are not kept by the Sub-fund are paid to the asset manager, the marketing agent or other service provider.

Fees paid by investors upon subscription or redemption	Base	Maximum charge
Subscription fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per subscription order or 5% of the net asset value per share multiplied by the number of shares subscribed, payable to third parties
Subscription fee kept by the Sub-fund	NAV per share x number of shares	0.05%
Redemption fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per redemption order or 5% of the net asset value per share multiplied by the number of shares subscribed, payable to third parties
Redemption fee kept by the Sub-fund	NAV per share x number of shares	0.05%

OPERATIONAL AND MANAGEMENT FEES

These fees cover all the costs invoiced directly to the Sub-fund, except for transaction expenses, which include intermediary fees (brokerage, stock market taxes etc.) and any account activity charge that may be charged by the depositary or the asset manager, in particular.

The following fees may be charged in addition to the operating and management fees (see table below):

- incentive fees, which the Sub-fund pays to the management company when the Sub-fund exceeds its objectives
- account activity charges charged to the Sub-fund.

For more information on the fees or expenses that the Sub-fund must pay, see the Statistics section of the Key Investor Information Document (KIID).

Fees charged to the Sub-fund	Base	Maximum charge
Investment management fees and administration fees that are external to the management company (auditor, depositary, fund distribution and legal fees) including tax ⁽¹⁾	Net asset value	0.165% per annum
Incentive fee	Net asset value	N/A
Account activity charge:	Charge on each transaction	N/A

⁽¹⁾ Includes all fees and expenses except for transaction expenses, incentive fees and fees associated with investment in UCITS.

COMMERCIAL INFORMATION

Distribution of this prospectus and the offering or purchase of the Fund's share classes may be subject to restrictions with regard to certain persons or in certain countries by virtue of national regulations applying to these persons or countries. Investors are therefore responsible for ensuring that they can legally subscribe to or invest in this Fund. The information in this prospectus therefore cannot be construed to be an offer or solicitation to buy or sell shares in this Fund in a country where such offer or solicitation is unlawful.

The Fund's share classes will not be registered pursuant to the U.S. Securities Act of 1933, as amended (the "U.S. Securities Act") and cannot be offered, assigned, transferred or allocated to the United States of America, or to:

- (A) any "U.S. Person", as this term is defined (i) under Regulation S of the US Securities Act of 1933 and (ii) under U.S. regulations as defined in Section 7701 (a) (30) of the Internal Revenue Code of 1986 as amended. The Fund's shares will not be offered to U.S. Persons.
- (B) anyone other than those persons considered to be "non-US Persons" as this term is defined under U.S. regulations pursuant to the Commodity Futures Trading Commission, Rule 4.7 (a) (1) (iv).

The Fund's shares will only be offered for sale outside of the United States of America to non-U.S. Persons.

For the purpose of this document, the term "U.S. Person" shall mean, among other things, any individual who resides in the United States of America, any entity organized or formed under the laws of the United States of America, certain entities organized or formed outside of the United States of America by one or more U.S. persons, or any account held on behalf of such a U.S. person.

Before making an investment in this Fund or Sub-fund, investors should seek the advice of their financial, tax and legal advisers.

PLACE AND METHOD OF NET ASSET VALUE PUBLICATION OR COMMUNICATION

At the head office of LYXOR INTERNATIONAL ASSET MANAGEMENT, at 17, cours Valmy - 92800 Puteaux, France.

The Sub-fund's indicative net asset value will be calculated and published by Euronext Paris SA every Paris Trading Day, during trading hours

IMPORTANT INFORMATION ABOUT THE BENCHMARK INDEX PROVIDER

The Sub-fund is in no way sponsored, endorsed, sold or promoted by FTSE TMX Global Debt Capital Markets (hereinafter collectively referred to as the "Licensors").

FTSE TMX Global Debt Capital Markets cannot be held liable for the promotion or marketing of the Sub-fund.

FTSE MTS and the FTSE MTS index names (FTSE MTS IndexTM) and FTSE MTS indices (FTSE MTS IndicesTM) are registered trademarks of FTSE TMX Global Debt Capital Markets. The FTSE MTS indices are calculated by FTSE TMX Global Debt Capital Markets and are marketed and distributed by MTSNext, a subsidiary of FTSE TMX Global Debt Capital Markets.

Neither FTSE TMX Global Debt Capital Markets nor MTSNext can be held responsible or liable for any loss or damages of any type whatsoever (including, in particular, investment losses) in connection, in whole or in part, with the Sub-fund or the provision of the FTSE MTS Highest Rated Macro-Weighted Government Bond 3-5Y (Mid Price) Index, sub-indices or registered trademarks.

ADDITIONAL INFORMATION

The Sub-fund's shares are accepted for clearing by Euroclear France S.A.

Subscription and redemption orders must be sent in by the investors' financial intermediary (a member of Euroclear France S.A.) to the Depositary.

The Multi Units France fund prospectus, the Key Investor Information Document, and the most recent annual and periodic documents will be sent to investors within eight business days upon receipt of a written request addressed to:

LYXOR INTERNATIONAL ASSET MANAGEMENT
17 Cours Valmy - 92987 Paris La Défense France.

e-mail: contact@lyxor.com

More information can also be requested from Lyxor International Asset Management on its website at www.lyxoretf.com.

Prospectus publication date: See the "Publication Date" section.

Pursuant to Article L.533-22-1 of the French Monetary and Financial Code, information concerning the management company's possible inclusion of social, environmental and corporate governance objectives and performance criteria in the investment policy is available on the management company's website and in the Sub-fund's annual report.

The AMF's website (www.amf-france.org) provides more information on the regulatory documents and various provisions that concern investor protection.
This Prospectus shall be made available to investors prior to subscription.

INVESTMENT RULES

The Sub-fund will comply with the investment rules of European Directive 2009/65/EC of 13 July 2009.

The Sub-fund may invest in the assets specified in Article L214-20 of the French Monetary and Financial Code, subject to the risk-diversification and investment ratio requirements of Articles R214-21 to R214-27 of said Code.

Up to 20% of the Sub-fund's assets may be exposed to debt issued by a given OECD country. This 20% limit can be increased to 35% for a single bond, when this is justified by exceptional market conditions and in particular when certain securities are largely dominant, or a debt issue is highly volatile, or a political and/or economic event has affected or may affect the estimated debt of an issuing country or its credit rating, or in any other event that is likely to affect the liquidity of a Benchmark Index security.

Notwithstanding the above, securities issued by a given sovereign issuer may account for up to 35% of assets, and 100% of assets if the Sub-fund holds at least six issues none of which exceeds 30% of assets, provided that these securities are financial instruments issued or guaranteed by an OECD member state, the local authorities of a European Union member state or a country that is a member of the European Economic Area.

OVERALL RISK EXPOSURE

The commitment approach is used to calculate the overall risk exposure.

ASSET VALUATION AND ACCOUNTING RULES

A. VALUATION RULES

The Sub-fund's assets are valued in accordance with applicable laws and regulations and most notably Regulation No. 2014-01 of 14 January 2014 of the Comité de la Réglementation Comptable (the Accounting Regulations Committee), which applies to the chart of accounts for undertakings for collective investment in transferable securities.

Financial instruments traded on a regulated market are valued at the closing price recorded on the day prior to the calculation of the net asset value. If these financial instruments are traded on several regulated markets at the same time, the closing price used is that recorded on the regulated market on which they are principally traded.

However, in the absence of significant trading on a regulated market, the following financial instruments are valued using the following methods:

- Negotiable debt securities ("NDS") with a remaining life upon acquisition that is less than or equal to three months are valued by applying the difference between the acquisition value and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life of more than three months upon acquisition but less than or equal to three months at the net asset value calculation date are valued by applying the difference between the most recent valuation and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life at the net asset value calculation date that exceeds three months are valued at their current value. The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- Financial futures traded on organized markets are valued at the clearing price on the day prior to the calculation of the net asset value. Options traded on organized markets are valued at their market price on the day prior to the calculation of the net asset value. Forward contracts and over-the-counter options are valued at the price quoted by the counterparty. The management company monitors these prices independently.
- Bank deposits are valued at their nominal value plus accrued interest.
- Warrants, short and medium-term notes (bons de caisse), promissory notes and mortgage notes are valued under the management company's responsibility at their most likely trading value.
- Securities financing transactions are valued at the market price.
- Shares and units in UCITS under French law are valued at the last known net asset value on the day the Sub-fund's net asset value is calculated.
- Shares and units in foreign investment funds are valued at the last known unitary net asset value at the date the Sub-fund's net asset value is calculated.
- Financial instruments traded on a regulated market and for which no price has been quoted or whose price has been corrected, are valued under the management company's responsibility at their most likely trading value.
- The exchange rates used to value financial instruments denominated in a currency other than the Sub-fund's base currency are the WM Reuters fixing rates published on the day the Sub-fund's net asset value is calculated.

B. ACCOUNTING METHOD FOR TRADING EXPENSES

Trading expenses are included in the initial cost of the transaction.

C. ACCOUNTING METHOD FOR INCOME FROM FIXED-INCOME SECURITIES

Income from fixed-income securities is accounted for using the cash-basis method.

D. DISTRIBUTION POLICY

For more information see the section entitled "Calculation and appropriation of Distributable amounts"

E. ACCOUNTING CURRENCY

The Sub-fund's accounts are kept in euros.

SUB-FUND NO. 15: Lyxor EuroMTS Highest Rated Macro-Weighted Govt Bond 5-7Y (DR) UCITS ETF

A SICAV SUB-FUND COMPLIANT WITH DIRECTIVE 2009/65/CE

ISIN CODE:

Acc share class: FR0011146356

CLASSIFICATION

Bonds and other debt securities denominated in euros.

The Lyxor EuroMTS Highest Rated Macro-Weighted Govt Bond 5-7Y (DR) UCITS ETF (hereinafter the "Sub-fund") is continuously exposed to fixed-income securities denominated in euros. Exposure to equity risk does not exceed 10% of the net assets.

The Sub-fund is a UCITS ETF type index tracker.

INCEPTION DATE

The Sub-fund was approved by l'autorité des Marchés Financiers (the French financial markets authority) on 8 November 2011 and was established on 25 November 2011.

INVESTMENT OBJECTIVE

The Sub-fund's investment objective is to provide exposure to the performance, whether positive or negative, of the eurozone government bond segment by replicating the performance of the FTSE MTS Mid Price Highest Rated Macro-Weighted Government Bond 5-7Y (Mid Price) index (the "Benchmark Index"), denominated in euros (EUR), while minimizing the tracking error between the Sub-fund's performance and that of its Benchmark Index.

The expected ex-post tracking error under normal market conditions is 0.02%.

BENCHMARK INDEX

The Benchmark Index is a "Total Return" type index (i.e. all coupons from the Benchmark Index components are reinvested in the Benchmark Index).

The Benchmark Index measures the performance of the eurozone government bond segment and more specifically of eurozone countries with at least two AAA or equivalent credit ratings from the three rating agencies S&P, Moody's and Fitch. It is denominated in euros.

A full description of the Benchmark Index and its construction methodology and information on the composition and respective weightings of the Benchmark Index components are available on the Internet at www.ftse.com

The Benchmark Index is calculated by FTSE MTS.

FTSE MTS is a private company based in London and regulated by the FCA. FTSE MTS manages the European MTS electronic trading platform for the benchmark bonds in the eurozone and is also responsible for calculating and disseminating the value of the FTSE MTS indices.

Methodology

The Benchmark Index is composed of bonds issued by the eurozone countries that have the highest credit ratings. They are weighted in the index on the basis of macroeconomic indicators. The Benchmark Index is provided with a history of index values dating back to December 1998. As explained below, the initial index components were selected using the same criteria as those used for FTSE MTS Eurozone Government Broad indices (except for the credit-rating criterion). The Benchmark Index securities are therefore among the highest rated eurozone sovereign bonds.

- To qualify for the Benchmark Index bonds must meet the following criteria:
 - (i) nominal value and coupon are denominated in euros with no option or convertibility
 - (ii) listed on the FTSE MTS platform
 - (iii) issued by a sovereign eurozone government having at least two out of three AAA ratings from Standard & Poor's, Moody's and Fitch, and selected by FTSE MTS from among the following countries: Austria, Belgium, Finland, France, Germany, Greece, Ireland, Italy, Netherlands, Portugal, Slovenia and Spain
 - (iv) maturity exceeds one year
 - (v) with issuance of at least two billion euros

The Benchmark Index must comprise at least five issuing countries. If an issuer is downgraded it will be replaced in the index, provided that there is another country that is eligible, such that the required minimum number of five issuers is maintained.

- The composition of these indices is revised monthly.
- The complete methodology is available at www.ftse.com
- The performance tracked is that of the Benchmark Index's closing price at 5.30 pm (CET).

Benchmark Index publication

The Benchmark Index available in real time through Reuters and Bloomberg.

Reuters code: FMMPHRC5=

Bloomberg code: FMMPHRC5

Benchmark Index revision

The Benchmark Index's composition is revised monthly.

The frequency with which the Benchmark Index is rebalanced does not affect the cost of implementing the Investment Strategy.

Pursuant to Article 52 of European Parliament and Council Regulation 2016/1011 of 8 June 2016, FTSE MTS, the administrator of the FTSE MTS Highest Rated Macro-Weighted Government Bond 5-7Y (Mid Price) benchmark index, has until 1 January 2020 to apply for approval or registration as applicable.

As of the date of the most recent version of this prospectus, the benchmark index administrator was not yet listed in ESMA's register of benchmark administrators.

Pursuant to European Parliament and Council Regulation 2016/1011 of 8 June 2016, the asset management company has a procedure for monitoring the benchmark indices used that specifies the measures to be implemented if an index is substantially modified or is no longer provided.

INVESTMENT STRATEGY

1. Strategy employed

The Sub-fund will comply with the investment rules of European Directive 2009/65/EC of 13 July 2009.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund will employ a pure replication method, which means that the Sub-fund will invest mainly in the bonds that underlie the Benchmark Index.

Information on the updated composition of the basket of 'balance sheet' assets in the Sub-fund's portfolio and the value of the swap contract concluded by the Sub-fund is available on the page dedicated to the Sub-fund accessible on Lyxor's website at www.lyxoretf.com. The frequency of any updates and/or the date on which the aforementioned information is updated is also indicated on the same page of the aforementioned website.

Up to 20% of the Sub-fund's assets may be exposed to debt issued by a given OECD country. This 20% limit can be increased to 35% for a single bond, when this is justified by exceptional market conditions and in particular when certain securities are largely dominant, or a debt issue is highly volatile, or a political and/or economic event has affected or may affect the estimated debt of an issuing country or its credit rating, or in any other event that is likely to affect the liquidity of a Benchmark Index security.

Notwithstanding the above, securities issued by a given sovereign issuer may account for up to 35% of assets, and 100% of assets if the Sub-fund holds at least six issues none of which exceeds 30% of assets, provided that these securities are financial instruments issued or guaranteed by an OECD member state, the local authorities of a European Union member state or a country that is a member of the European Economic Area.

Sub-fund's targeted interest-rate sensitivity	From 4 to 8.
Currencies in which the Sub-fund's securities are denominated	Euros: from 0 to 100% of net assets Other: from 0 to 100% of net assets
Foreign exchange risk to which the Sub-fund is exposed	0% maximum of net assets.
Geographic regions of the issuers of the securities to which the Sub-fund is exposed	Eurozone: from 0 to 100% of net assets Emerging countries: 0% of net assets

2. Balance sheet assets (excluding embedded derivatives)

The Sub-fund may invest in international debt securities, in compliance with regulatory ratios.
The Sub-fund will mainly be invested in the bonds that make up the Benchmark Index.

Investment in undertakings for collective investment in transferrable securities ("UCITS") that comply with Directive 2009/65/EC is limited to 10% of the Sub-fund's net assets.

The fund manager will not invest in the shares or units of alternative investment funds (AIF) or other investment funds that were formed under a foreign law.
To optimize the Sub-fund's management and achieve its investment objective, the asset manager reserves the right to use other instruments in accordance with the regulations.

3. Off-balance sheet assets (derivatives)

The Sub-fund will not make use of derivatives, except on an ancillary basis and within regulatory limits, futures contracts on indices or on bonds listed on regulated markets.
If over-the-counter derivatives are used, in accordance with its best-execution policy the management company considers that Société Générale would be the counterparty that would generally provide the best possible execution for any hedging transactions the Sub-fund may enter into pursuant to its investment strategy.
Accordingly, all of some of these derivatives (including index-linked swaps) may be traded with Société Générale without having to seek a competitive bid from another counterparty.

4. Securities with embedded derivatives

N/A.

5. Cash deposits

In order to optimize its cash management, the Sub-fund may deposit up to 20% of its assets in the form of cash with credit institutions that belong to the same group as the depositary.

6. Cash borrowing

The Sub-fund may temporarily borrow up to 10% of its net assets.

7. Securities financing transactions

The Sub-fund may use various techniques to manage its portfolio efficiently in compliance with Article R214-18 of the French monetary and financial code, including the temporary sale and repurchase of securities.

Maximum proportion of assets under management for which securities financing transactions may be entered into: up to 20% of the Sub-fund's assets.
Expected proportion of assets under management for which securities financing transactions may be entered into: 0% of the Sub-fund's assets.

For this purpose the management company may appoint an intermediary (hereinafter the "Agent) to provide the following services in connection with the Sub-fund's temporary disposals of securities. If such an Agent is used it may be authorised to (i) lend securities, on the Sub-fund's behalf, under framework agreements, such as global master securities lending agreements (GMSLA) and/or any other internationally recognised framework agreement, and (ii) invest, on the Sub-fund's behalf, any liquid assets received as collateral for these securities lending transactions, subject to the restrictions specified in the securities lending agreement, the rules of this prospectus and the applicable regulations.

The Sub-fund shall be entitled to all income from such temporary disposal of securities, net of any direct and indirect operating costs.

These operating costs, which are incurred to manage the portfolio more efficiently, may be borne by the Sub-fund's management company, the Agent and/or other intermediaries that are involved in these transactions.

These direct and indirect operating costs will be calculated as a percentage of the Sub-fund's gross income. More information on these operating costs and on the entities to which these costs are paid will be provided in the Sub-fund's annual report.

All income obtained from the lending of securities (from which must be deducted all direct and indirect operating costs borne by the Agent and if applicable by the management company) shall be paid to the relevant Sub-fund. Since these direct and indirect costs do not increase the Sub-fund's overall operating expenses they have been excluded from ongoing expenses.

The Sub-fund's annual report will provide the following information when applicable:

the exposure resulting from the use of efficient portfolio management techniques/transactions

- the identity of the counterparty(ies) involved in these transactions
- the nature and amount of any collateral received to reduce the Sub-fund's counterparty risk, and;
- the income generated by efficient portfolio management techniques over the relevant period, and any associated direct and indirect operating costs or expenses.

8. Collateral

Whenever the investment strategy exposes the Sub-fund to counterparty risk, and in particular when the Sub-fund engages in securities financing transactions, the Sub-fund may accept eligible securities as collateral to reduce the counterparty risk associated with these transactions. The portfolio of collateral received may be adjusted daily to ensure that its value is at least sufficient to cover the Sub-fund's counterparty risk in most cases. The purpose of this adjustment is to neutralize the Sub-fund's counterparty risk.

The Sub-fund will have full title to all collateral received, which will be deposited in the Sub-fund's account with the depositary. This collateral will therefore be included in the Sub-fund's assets. If a counterparty defaults on an obligation, the Sub-fund may dispose of the assets received from the counterparty in respect of the secured transaction to pay off the counterparty's debt to the Sub-fund.

All collateral the Sub-fund receives for this purpose must comply with the applicable laws and regulations, with respect in particular to liquidity, valuation, the creditworthiness of securities issuers, correlation, and the risks of collateral management and enforceability. All collateral received must in particular meet the following criteria:

- (a) All collateral must be of high quality, be highly liquid and tradable on a regulated market or on a multilateral trading facility, with transparent pricing to enable the collateral to be rapidly sold near its estimated price
- (b) This collateral must be valued at its mark-to-market price at least daily and assets with highly volatile prices are not acceptable as collateral, unless a sufficiently prudent discount or "haircut" is applied;
- (c) The issuer of this collateral must be independent of the counterparty and must not be closely correlated with the counterparty's financial performance;
- (d) Collateral must be sufficiently diversified in terms of country, market and issuer, with exposure to any single issuer not exceeding 20% of the Sub-fund's net asset value ;
- (e) Collateral must be immediately enforceable by the Sub-fund's management company without informing the counterparty and without its approval.

Notwithstanding the condition specified in (d) above, the Sub-fund may accept a basket of securities collateral that increases its exposure to a single issuer to more than 20% of its net asset value provided that:
such securities collateral is issued by (i) a Member State, (ii) one or more of a Member State's local authorities, (iii) a country that is not a Member State (iv) a public international organisation to which one or more Member States belong; and;
such securities collateral consists of at least six different issues of securities of which no single issue exceeds 30% of the Sub-fund's assets.

In accordance with the above conditions the collateral the Sub-fund accepts may consist of:

- (i) Cash and cash-equivalent assets, which for example include short-term bank deposits and balances and money-market instruments
- (ii) Bonds issued or guaranteed by an OECD member state, or by its local government entities, or by an EU, regional or global supranational institution or organisation, or by any country provided that conditions (a) to (e) above are fully complied with
- (iii) Shares or units issued by money-market funds that calculate a daily net asset value and have an AAA or equivalent credit rating
- (iv) The shares or units of UCITS that invest mainly in the bonds and/or equities indicated in (v) and (vi) below
- (v) Bonds issued or guaranteed by first-class issuers offering sufficient liquidity
- (vi) Equities admitted for trading or traded on a regulated exchange of an EU member country, on a stock exchange of an OECD member country or on a stock exchange of another country provided that conditions (a) to (e) above are fully complied with and that these equities are components of a major index.

Collateral discount policy

The Sub-fund's management company shall apply a discount to the collateral the Sub-fund accepts. The amount of these discounts will depend mainly on the following:

- the nature of the collateral asset
- the collateral's maturity (if applicable)
- the credit rating of the collateral issuer (if applicable).

Reinvestment of collateral

Non-cash collateral will not be sold, reinvested or pledged.

At the manager's discretion, cash collateral may either be:

- deposited with an authorised institution
- invested in high-quality government bonds
- used for reverse repurchase transactions, provided that these are entered into with credit institutions that are subject to prudential supervision and that the fund is able to withdraw the total amount of its cash collateral and the accrued interest at any time.
- invested in short-term money-market funds as defined in the guidelines for a common definition of European money-market funds.

All cash collateral that is reinvested must be invested in a diversified manner in compliance with the rules that apply to the acceptance of non-cash collateral.

RISK PROFILE

Investors in the Sub-fund will mainly be exposed to the following risks:

Interest rate risk

The price of a bond can be affected by unexpected changes in the level of interest rates, which in particular may modify the shape of the yield curve in particular. The bonds that make up the Benchmark Index are exposed to changes in interest rates. In general, the price of a bond rises when interest rates fall, and falls when interest rates rise.

Capital risk

The capital invested is not guaranteed. Investors therefore may not recover all or part of their initial investment, particularly in the event that the Benchmark Index posts a negative return over the investment period.

Credit risk

The Sub-fund could be adversely affected by a lowering of the credit rating of one or more issuers of a bond in the Benchmark Index. This could mean a higher risk that such an issuer might default and could decrease the bond's value.

Liquidity risk (primary market)

The Sub-fund's liquidity and/or value may be adversely affected if, when the Sub-fund or a counterparty to a financial derivative instrument (DFI) is rebalancing its exposure, the underlying financial markets are restricted, closed, or subject to wide bid/offer spreads. An inability, due to low trading volume, to execute the trades required to replicate the Benchmark Index may also adversely affect the subscription, conversion or redemption of shares or units.

Liquidity risk (secondary market)

The price of the Sub-fund's listed shares or units may deviate from the Sub-fund's indicative net asset value. The liquidity of shares or units traded on a given exchange may be adversely affected by a suspension in trading for various reasons, for example:

- i) the calculation of the Benchmark Index is suspended or stopped
- ii) trading in the market(s) in the Benchmark Index's underlying assets is suspended
- iii) an exchange cannot obtain or calculate the Sub-fund's indicative net asset value
- iv) a market maker fails to comply with an exchange's rules
- v) an exchange's IT, electronic or other system fails.

Risk that the investment objective may not be fully achieved

There is no guarantee that the investment objective will be achieved, as no asset or financial instrument can ensure that the Benchmark Index will be automatically and continuously replicated, particularly in the event of one or more of the following risks:

- Risk due to a change in the tax regime

A change in the tax regime of a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed could adversely affect the taxation of investors. In such an event, the Sub-fund manager shall not be liable to any investor with respect to any payment that may have to be made to a competent tax authority.

- Risk of a change in the taxation of the Sub-fund's underlying assets

A change in the taxation of the Sub-fund's underlying assets could adversely affect the taxation of the Sub-fund. In such an event a discrepancy between the Sub-fund's estimated taxation and its actual taxation may adversely affect the Sub-fund's net asset value.

- Regulatory risk affecting the Sub-fund

In the event of a change in the regulatory regime in a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed, the subscription, conversion or redemption of units or shares may be adversely affected.

- Regulatory risk affecting the Sub-fund's underlying assets

In the event of a change in the regulations that govern the Sub-fund's underlying assets, the Sub-fund's net asset value and the subscription, conversion or redemption of shares may be adversely affected.

- Benchmark Index disruption risk

An event adversely affects the Benchmark Index, the Sub-fund manager may be required, as provided for by law, to suspend the subscription and redemption of the Sub-fund's shares. The calculation of the Sub-fund's net asset value could also be adversely affected.

If the disruption of the Benchmark Index persists, the Sub-fund manager will determine an appropriate course of action, which could decrease the Sub-fund's net asset value.

A 'Benchmark Index event' includes but is not limited to the following situations:

- i) the Benchmark Index is deemed to be inaccurate or does not reflect actual market developments
- ii) the Benchmark Index is permanently cancelled by the index provider
- iii) the index provider is unable to indicate the level or value of the Benchmark Index
- iv) The index provider makes a material change in the Benchmark Index calculation formula or method (other than a minor modification such as an adjustment to the Benchmark Index's underlying components or their respective weightings) which the Sub-fund cannot effectively replicate at a reasonable cost.
- v) a Benchmark Index component becomes illiquid because it is no longer traded on a regulated market or because its trading over-the-counter (e.g. bonds) is disrupted
- vi) the Benchmark Index components are exposed to higher transaction costs for execution or settlement/delivery, or to specific tax constraints and these costs are not reflected in the Benchmark Index's performance.

- Corporate action risk

An unforeseen change, by the issuer of a security that is a component of the Benchmark Index, in a planned corporate action that is in contradiction with a previous official announcement on which the Sub-fund based its valuation of the corporate action can adversely affect the Sub-fund's net asset value, particularly if the Sub-fund's treatment of the corporate event differs from that of the Benchmark Index methodology.

- Legal risk

The Sub-fund may be exposed to a legal risk arising from securities financing transactions, pursuant to EU Regulation No. 2015/2365.

ELIGIBLE INVESTORS AND TYPICAL INVESTOR PROFILE

The Sub-fund is available to all investors.

Investors in this Sub-fund are seeking exposure to the performance, whether positive or negative, of the eurozone government bond segment and more specifically to eurozone countries with at least two AAA or equivalent credit ratings from the three rating agencies S&P, Moody's and Fitch.

The amount that can be reasonably invested in the Sub-fund depends on each investor's personal situation. To determine this amount, investors must take into account their personal wealth and/or estate, their cash requirements currently and for the next five years, and their willingness to take on risk or their preference for more prudent investment. Investors are also advised to diversify their investments sufficiently so as not to be exposed solely to this Sub-fund's risks.

All investors are therefore asked to consider their specific situation with the help of their usual investment advisor.

The recommended minimum investment horizon is three years.

CALCULATION AND APPROPRIATION OF DISTRIBUTABLE AMOUNTS

All distributable amounts are accumulated.

DISTRIBUTION FREQUENCY

N/A.

SHARE CHARACTERISTICS

Subscription orders may be placed for a monetary amount or for a number of shares.
A whole number of shares must be redeemed.

SHARE CURRENCY

Euros.

SUBSCRIPTION AND REDEMPTION

1. SUBSCRIPTION AND REDEMPTION ON THE PRIMARY MARKET

Subscription/redemption requests for shares in the Sub-fund will be processed by the Depositary from 10:00 am and 5.00 pm (Paris time), every day that the Sub-fund's net asset value is to be published, provided that prices can be quoted for a significant proportion of the Benchmark Index components (hereinafter a "**Primary Market Day**"), and will be executed at the net asset value on that Primary Market Day, hereinafter the "**reference NAV**". Subscription/redemption orders submitted after 5: 00pm (Paris time) on a Primary Market Day will be processed as if received before 5.00 pm (Paris time) on the following Primary Market Day. Orders to subscribe for or redeem shares in the Sub-fund must be made for a minimum amount of at least 100,000 euros.

Subscriptions in kind.

Shares may be subscribed in exchange for the Benchmark Index's underlying bonds, provided that a whole number of Sub-fund shares are subscribed and that the total subscription amount is equivalent to at least 100,000 euros .

These subscription orders will be carried out at the closing price of the markets where the securities are traded and pursuant to the terms that Lyxor International Asset Management has set forth and which include:

(1) the delivery of a number of bonds in the Benchmark Index with a total value of at least 100,000 euros, and if necessary,
(2) a cash amount in euros (the "Balance"), which the Sub-fund will pay or receive as required. This positive or negative Balance is the difference between the reference net asset value multiplied by the number of shares subscribed and the value of the bonds to be delivered on the reference net asset value date.

The number of each bond comprising the Benchmark Index mentioned in (1) above and the Balance mentioned in (2) above will be published on Reuters and on Lyxor's website at www.lyxoretf.com

If shares are subscribed in kind, the asset manager reserves the right to refuse the securities proposed and will have seven days after the securities are deposited to notify its decision.

Subscriptions and redemptions in cash

Subscriptions and redemptions shall be made exclusively in cash and executed at the ref NAV.

Delivery and settlement

Settlement/delivery of subscriptions and redemptions shall be completed within five French business days upon receipt of the subscription or redemption order.

Date and frequency of net asset value calculation

The net asset value will be calculated and published daily, provided that at least one exchange on which the Sub-fund's shares are listed is open and that orders placed in the primary and secondary markets can be funded.

The Sub-fund's net asset value is calculated using the Benchmark Index's closing price. The Sub-fund's net asset value is denominated in euros.

The net asset value of a share class that is denominated in another currency than the Sub-fund's accounting currency (if applicable) is calculated using the exchange rate between the accounting currency and the currency of the share class, at the applicable WM Reuters rate on the date the reference NAV is calculated.

2. PURCHASES AND SALES ON THE SECONDARY MARKET

A. COMMON PROVISIONS

For any purchase or sale of shares in the Sub-fund executed directly on an exchange on which the Sub-fund is admitted or will be admitted for continuous trading, no minimum purchase or sale amount is required other than that which may be required by the relevant exchange(s).

Shares in a listed Sub-fund that are purchased on the secondary market cannot generally be directly sold back to that Sub-fund. Investors must therefore buy and sell their shares on a secondary market through an intermediary (e.g. a broker) and may consequently incur costs. Furthermore, there is a possibility that investors may pay more than the indicative net asset value when buying shares and receive less than the indicative net asset value when selling shares.

If the stock market value of a listed fund's shares or units differs significantly from their indicative net asset value, or if trading in the fund's shares or units is suspended, investors may be authorized, subject to the conditions set forth below, to redeem their shares or units in the primary market directly from the fund, without being subject to the minimum redemption amount requirement set forth herein in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)".

The management company shall decide whether to allow such primary market redemptions and for how long, on the basis of the following criteria for assessing the significance of a market disruption:

- The suspension or strong disturbance of secondary trading on a given exchange is relatively frequent
- The link between the market disruption and secondary market operators (such as the default of one or more of the Market Makers of a given exchange, or a breakdown or malfunction of an exchange's IT or operating systems), excluding a disruption caused by a source external to the secondary exchange on which the Sub-fund's shares are traded, such as an event that affects the liquidity and valuation of all or some of the Benchmark Index's components
- Any other objective circumstance that could adversely affect the fair treatment and/or the interests of the Sub-fund's share-holders.

Redemptions made in the primary market in this case shall only be subject to a redemption fee paid to the Sub-fund and which serves to cover its trading costs. The redemption fee that is not kept by the Sub-fund will normally not be charged.

In such exceptional cases when redemption in the primary market is allowed, the Management Company shall post on Lyxor's website at www.lyxor.etf.com the procedure that investors must observe to redeem their shares or units in the primary market. The Management Company shall also make this procedure available to the market undertaking that handles trading in the Sub-fund's shares.

B. SPECIFIC PROVISIONS

(a) If the shares are listed on Euronext Paris, as specified in the "Key Information" section, investors should note the following rules

Negotiability of shares and information about the financial institutions acting as Market Makers:

The shares are freely negotiable on the Euronext Paris regulated market under the following conditions and according to the applicable legal and regulatory provisions.

The Sub-fund shares will be listed on a specific trading list, the rules for which are defined in the following instructions published by Euronext Paris SA:

- Instruction No. 4-01 "Universal Trading Platform Manual"
- Appendix to Instruction N4-01 (Appendix to the Euronext Market Trading Manual)
- Instruction No. 6-04 "Documentation to be provided when filing a listing application for an ETF, ETN, ETV and open-ended undertakings for collective investment other than"

Pursuant to article D 214-22-1 of the French Monetary and Financial Code the units or shares of undertakings for collective investments in transferable securities may be admitted to trading, provided that these undertakings have a system to ensure that the market price of their units or shares does not differ significantly from their net asset value. Under Euronext Paris SA's rules trading in the Sub-fund's shares is also subject to a 'reservation threshold' of 1.5% above or below the Sub-fund's indicative net asset value or "iNAV" (see the "Indicative Net Asset Value" section), as published by Euronext Paris SA and updated on an estimated basis during trading in accordance with the change in the Benchmark Index.

To comply with Euronext Paris SA's reservation threshold requirement (see the section entitled "Indicative Net Asset Value") the Market Makers will ensure that the market price of the Sub-fund's shares does not differ from the Sub-fund's indicative Net Asset Value by more than 1.5%.

Euronext Paris SA may suspend trading in the Sub-fund's shares pursuant to the terms of its operating rules, if the aforementioned reservation threshold limit is exceeded.

Euronext Paris SA will also suspend trading in the Sub-fund's shares in the following cases:

- the Benchmark Index is no longer traded or calculated
- Euronext Paris SA cannot obtain the Benchmark Index's level
- Euronext Paris SA cannot obtain the Sub-fund's net asset value

In accordance with the terms and conditions governing admission to trading on Euronext Paris, the Market Makers undertake to provide market-making services for the Sub-fund's shares as soon as they are admitted to trading on the Euronext Paris exchange.

In particular, the Market Makers undertake to carry out market-making operations by maintaining a significant presence in the market, which initially entails the setting of a bid/ask spread.

More specifically, the Market Makers are required by contract with Euronext Paris SA to ensure that the Sub-fund maintains:

- a maximum global spread of 1.5% between the bid and offer price in the centralized order book.
- a minimum nominal trading value of EUR 100,000.

The obligations of the Sub-fund's Market Makers will be suspended in the following cases:

- the Benchmark Index is no longer traded or calculated
- if trading is substantially disrupted, for example due to a widespread shift in prices or an event that makes normal market making impossible.

Indicative Net Asset Value:

Euronext Paris SA will calculate and publish, each Trading Day (as defined below) during trading hours, the indicative net asset value (hereinafter "iNAV") of the Sub-fund's bonds. The iNAV is a measure of the intra-day value of the Sub-fund's net asset value based on the most recent data. The iNAV is not the value at which investors buy and sell shares in the Sub-fund on the secondary markets.

A "**Trading Day**" is a day on which NSYE Euronext is normally open and on which the Benchmark Index is normally published.

The Sub-fund's iNAV is a theoretical net asset value calculated every 15 seconds by Euronext SA throughout the Paris trading day and is based on the level of the Benchmark Index. The iNAV enables investors to compare the prices that the Market Makers offer on the market with the theoretical value calculated by Euronext.

To calculate the iNAV of the Sub-fund's shares, which is calculated throughout the Paris trading session (from 9.05 am to 5.35 pm), Euronext Paris SA will use the Benchmark Index value published by Reuters.

The market price of the bonds comprising the Benchmark Index used to calculate the level of the Benchmark Index, and therefore the evaluation of the iNAV is supplied directly by the MTS platform.

If one or more of the exchanges on which the bonds that make up the Benchmark Index are listed are closed (on a holiday as per the TARGET calendar), and if the iNAV cannot be calculated, trading in the Sub-fund's shares may be suspended.

Lyxor International Asset Management, the Sub-fund's management company, will provide Euronext Paris SA with all the financial and accounting data it needs to calculate the Sub-fund's iNAV and in particular:

- The day's estimated net asset value
- The official net asset value of the previous business day
- The level of the Benchmark Index on the previous business day.

These data will serve as a basis for Euronext Paris SA's calculations to determine the Sub-fund's iNAV in real time the following Trading Day.

Additional information about the indicative net asset value of a share listed on an exchange may, in accordance with the terms and limits set by the relevant market undertaking, be provided on this exchange's website. This information is also available on the Reuters or Bloomberg pages dedicated to the share. Additional information about the Bloomberg and Reuters codes for the indicative net asset values of all UCITS ETF type share classes is also available in the "Term Sheets" section of Lyxor's website at www.lyxoref.com.

- (b) If the Sub-fund's shares are listed on an exchange other than Euronext Paris, as indicated in the "Key Information" section, investors should note the following

Investors wishing to acquire shares in the Sub-fund or obtain more information regarding the market-making terms that govern the listing and trading of shares on the types of exchanges indicated in the "Key Information" section are advised to familiarize themselves with the guidelines laid down by the relevant market undertaking, in compliance with local regulations, and to seek if necessary the assistance of their usual broker(s) for executing trades on the relevant exchange(s).

FEES AND CHARGES

SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)

The subscription and redemption fees shown below respectively increase the subscription price paid by the investor and decrease the redemption price received. Fees kept by the Sub-fund compensate it for the expenses it incurs in investing in the Sub-fund's assets or in divesting these assets. Any fees that are not kept by the Sub-fund are paid to the asset manager, the marketing agent or other service provider.

Fees paid by investors upon subscription or redemption	Base	Maximum charge
Subscription fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per subscription order or 5% payable to third parties
Subscription fee kept by the Sub-fund	NAV per share x number of shares	0.05%
Redemption fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per redemption order or 5% payable to third parties
Redemption fee kept by the Sub-fund	NAV per share x number of shares	0.05%

OPERATIONAL AND MANAGEMENT FEES

These fees cover all the costs invoiced directly to the Sub-fund, except for transaction expenses, which include intermediary fees (brokerage, stock market taxes etc.) and any account activity charge that may be charged by the depositary or the asset manager, in particular.

The following fees may be charged in addition to the operating and management fees (see table below):

- incentive fees, which the Sub-fund pays to the management company when the Sub-fund exceeds its objectives
- account activity charges charged to the Sub-fund.

For more information on the fees or expenses that the Sub-fund must pay, see the Statistics section of the Key Investor Information Document (KIID).

Fees charged to the Sub-fund	Base	Maximum charge
Investment management fees and administration fees that are external to the management company (auditor, depositary, fund distribution and legal fees) including tax ⁽¹⁾	Net asset value	0.165% per annum
Incentive fee	Net asset value	N/A
Account activity charge	Charge on each transaction	N/A

⁽¹⁾ Includes all fees and expenses except for transaction expenses, incentive fees and fees associated with investment in UCITS.

COMMERCIAL INFORMATION

Distribution of this prospectus and the offering or purchase of the Fund's share classes may be subject to restrictions with regard to certain persons or in certain countries by virtue of national regulations applying to these persons or countries. Investors are therefore responsible for ensuring that they can legally subscribe to or invest in this Fund. The information in this prospectus therefore cannot be construed to be an offer or solicitation to buy or sell shares in this Fund in a country where such offer or solicitation is unlawful.

The Fund's share classes will not be registered pursuant to the U.S. Securities Act of 1933, as amended (the "U.S. Securities Act") and cannot be offered, assigned, transferred or allocated to the United States of America, or to:

- (A) any "U.S. Person", as this term is defined (i) under Regulation S of the US Securities Act of 1933 and (ii) under U.S. regulations as defined in Section 7701 (a) (30) of the Internal Revenue Code of 1986 as amended. The Fund's shares will not be offered to U.S. Persons.
- (B) anyone other than those persons considered to be "non-US Persons" as this term is defined under U.S. regulations pursuant to the Commodity Futures Trading Commission, Rule 4.7 (a) (1) (iv).

The Fund's shares will only be offered for sale outside of the United States of America to non-U.S. Persons.

For the purpose of this document, the term "U.S. Person" shall mean, among other things, any individual who resides in the United States of America, any entity organized or formed under the laws of the United States of America, certain entities organized or formed outside of the United States of America by one or more U.S. persons, or any account held on behalf of such a U.S. person.

Before making an investment in this Fund or Sub-fund, investors should seek the advice of their financial, tax and legal advisers.

PLACE AND METHOD OF NET ASSET VALUE PUBLICATION OR COMMUNICATION

At the head office of LYXOR INTERNATIONAL ASSET MANAGEMENT, at 17, cours Valmy - 92800 Puteaux, France.

The Sub-fund's indicative net asset value will be calculated and published by Euronext Paris SA every Paris Trading Day, during trading hours

IMPORTANT INFORMATION ABOUT THE BENCHMARK INDEX PROVIDER

The Sub-fund is in no way sponsored, endorsed, sold or promoted by FTSE TMX Global Debt Capital Markets (hereinafter collectively referred to as the "Licensors").

FTSE TMX Global Debt Capital Markets cannot be held liable for the promotion or marketing of the Sub-fund.

FTSE MTS and the FTSE MTS index names (FTSE MTS IndexTM) and FTSE MTS indices (FTSE MTS IndicesTM) are registered trademarks of FTSE TMX Global Debt Capital Markets. The FTSE MTS indices are calculated by FTSE TMX Global Debt Capital Markets and are marketed and distributed by MTSNext, a subsidiary of FTSE TMX Global Debt Capital Markets.

Neither FTSE TMX Global Debt Capital Markets nor MTSNext can be held responsible or liable for any loss or damages of any type whatsoever (including, in particular, investment losses) in connection, in whole or in part, with the Sub-fund or the provision of the FTSE MTS Highest Rated Macro-Weighted Government Bond 5-7Y (Mid Price) Index, sub-indices or registered trademarks.

ADDITIONAL INFORMATION

The Sub-fund's shares are accepted for clearing by Euroclear France S.A.

Subscription and redemption orders must be sent in by the investors' financial intermediary (a member of Euroclear France S.A.) to the Depositary.

The Multi Units France fund prospectus, the Key Investor Information Document, and the most recent annual and periodic documents will be sent to investors within eight business days upon receipt of a written request addressed to:

LYXOR INTERNATIONAL ASSET MANAGEMENT
17 Cours Valmy - 92987 Paris La Défense France.

e-mail: contact@lyxor.com

More information can also be requested from Lyxor International Asset Management on its website at www.lyxoretf.com.

Prospectus publication date: See the "Publication Date" section.

Pursuant to Article L.533-22-1 of the French Monetary and Financial Code, information concerning the management company's possible inclusion of social, environmental and corporate governance objectives and performance criteria in the investment policy is available on the management company's website and in the Sub-fund's annual report.

The AMF's website (www.amf-france.org) provides more information on the regulatory documents and various provisions that concern investor protection.
This Prospectus shall be made available to investors prior to subscription.

INVESTMENT RULES

The Sub-fund will comply with the investment rules of European Directive 2009/65/EC of 13 July 2009.

The Sub-fund may invest in the assets specified in Article L214-20 of the French Monetary and Financial Code, subject to the risk-diversification and investment ratio requirements of Articles R214-21 to R214-27 of said Code.

Up to 20% of the Sub-fund's assets may be exposed to debt issued by a given OECD country. This 20% limit can be increased to 35% for a single bond, when this is justified by exceptional market conditions and in particular when certain securities are largely dominant, or a debt issue is highly volatile, or a political and/or economic event has affected or may affect the estimated debt of an issuing country or its credit rating, or in any other event that is likely to affect the liquidity of a Benchmark Index security.

Notwithstanding the above, securities issued by a given sovereign issuer may account for up to 35% of assets, and 100% of assets if the Sub-fund holds at least six issues none of which exceeds 30% of assets, provided that these securities are financial instruments issued or guaranteed by an OECD member state, the local authorities of a European Union member state or a country that is a member of the European Economic Area.

OVERALL RISK EXPOSURE

The commitment approach is used to calculate the overall risk exposure.

ASSET RECOGNITION AND VALUATION RULES

A. VALUATION RULES

The sub-fund's assets are valued in compliance with the applicable laws and regulations, and most notably Regulation No. 2014-01 of 14 January 2014 of the Comité de la Réglementation Comptable (the Accounting Regulations Committee), which applies to the chart of accounts for undertakings for collective investment in transferable securities.

Securities traded on a French or foreign regulated market are assessed at their market price. The assessment of the reference market price is made according to the provisions decreed by the board of directors. The manner in which these rules shall be applied is specified in the notes to the annual accounts.

However:

- The securities for which the price is not determined on the assessment date or for which the price was corrected are assessed at their probable trading value under the responsibility of the board of directors. These assessments and their justification are provided to the auditor at the time of the latter's verifications.
- Debt securities and similar securities that are not the subject of significant transactions are assessed by application of an actuarial method, with the adopted rate being that of the issues of equivalent securities affected, as relevant, by a difference that is representative of the intrinsic characteristics of the security's issuer. However, negotiable debt instruments with a remaining maturity of less than three months may, in the absence of special considerations, be evaluated by reference to the straight-line method. The application provisions for these rules are set by the board of directors. They are specified in the notes to the annual accounts.
- The units or shares of UCITS are assessed at the last known net asset value.
- Securities that are not negotiated on a regulated market are assessed at their probable trading value, under the responsibility of the board of directors.
- Securities that are the subject of temporary transfer or acquisition contracts are assessed in compliance with the applicable regulations, with the implementing rules being determined by the board of directors and stipulated in the appendix to the annual accounts.
- The operations relating to firm or conditional forward financial instruments negotiated on French or foreign organized markets are valued at the market value according to the provisions determined by the board of directors. They are specified in the notes to the annual accounts.
- Firm or condition forward operations or exchange operations completed on over-the-counter markets authorized by the regulations applicable to UCITS are valued at their market value or a value estimated according to the provisions determined by the board of directors and stipulated in the appendix to the annual accounts.

Furthermore, an indicative net asset value will be calculated by Euronext if the sub-funds are admitted to listing.

B. ACCOUNTING METHOD FOR TRADING EXPENSES

Trading expenses are included in the initial cost of the transaction.

C. ACCOUNTING METHOD FOR INCOME FROM FIXED-INCOME SECURITIES

Income from fixed-income securities is accounted for using the cash-basis method.

D. DISTRIBUTION POLICY

For more information see the section entitled "Calculation and appropriation of Distributable amounts"

E. ACCOUNTING CURRENCY

The Sub-fund's accounts are kept in euros.

SUB-FUND NO. 16: Lyxor Bono 10Y - MTS Spain Government Bond (DR) UCITS ETF

A SICAV SUB-FUND COMPLIANT WITH DIRECTIVE 2009/65/CE

ISIN CODES:

Acc share class: FR0011384148
Dist share class: FR0011384155

CLASSIFICATION

Bonds and other debt securities denominated in euros.

The Lyxor Bono 10Y - MTS Spain Government Bond (DR) UCITS ETF (hereinafter the “**Sub-fund**”) is continuously exposed to fixed-income securities denominated in euros. Exposure to equity risk does not exceed 10% of the net assets.

The Sub-fund is a UCITS ETF type index tracker.

INCEPTION DATE

The Sub-fund was approved by l'autorité des Marchés Financiers (the French financial markets authority) on 31/01/2013 and was established on 11/02/2013

INVESTMENT OBJECTIVE

The Sub-fund’s investment objective is to replicate the performance, whether positive or negative, of the FTSE MTS Target Maturity Government Bond Spain (Mid Price) Index (the “**Benchmark Index**”) denominated in EUR and representative of Spanish sovereign bonds having a target residual maturity of 10 years, while minimizing the tracking error between the Sub-fund’s performance and that of its Benchmark Index.

The expected ex-post tracking error under normal market conditions is 0.02%.

BENCHMARK INDEX

The Benchmark Index is a “Total Return” index (i.e. all coupons from the Benchmark Index components are reinvested in the index..

The Benchmark Index measures the performance of Spanish government bonds having an average residual maturity of 10 years. It is denominated in euros.

The Benchmark Index is calculated by FTSE MTS.

Benchmark Index methodology

The Benchmark Index is composed of bonds issued by the Spanish government with an average residual maturity of 10 years. The index components were initially selected using the same criteria as for the other FTSE MTS indices, which are shown below.

- To qualify for the Benchmark Index bonds must meet the following criteria:
 - (i) Nominal, fixed-coupon bonds, redeemable upon maturity, denominated in the local currency, with no embedded option or maturity
 - (ii) traded on the FTSE MTS platform
 - (iii) issued by the Spanish government
 - (iv) have a minimum outstanding issuance of one billion euros

The Benchmark Index’s composition is revised monthly.

The performance tracked is that of the Benchmark Index’s closing price at 5.30 pm (CET).

A full description of the Benchmark Index and its construction methodology and information on its composition are available on the Internet at www.ftse.com

The frequency with which the Benchmark Index is rebalanced does not affect the cost of implementing the Investment Strategy.

Benchmark Index publication

The Benchmark Index is available through Reuters and Bloomberg.

Reuters code: FMMPESX5=
Bloomberg code: FMMPESX5

Pursuant to Article 52 of European Parliament and Council Regulation 2016/1011 of 8 June 2016, FTSE MTS, the administrator of the FTSE MTS Target Maturity Government Bond Spain (Mid Price) benchmark index, has until 1 January 2020 to apply for approval or registration as applicable.

As of the date of the most recent version of this prospectus, the benchmark index administrator was not yet listed in ESMA’s register of benchmark administrators.

Pursuant to European Parliament and Council Regulation 2016/1011 of 8 June 2016, the asset management company has a procedure for monitoring the benchmark indices used that specifies the measures to be implemented if an index is substantially modified or is no longer provided.

INVESTMENT STRATEGY

1. Strategy employed

The Sub-fund will comply with the investment rules of European Directive 2009/65/EC of 13 July 2009.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund will use a direct replication method, which means that it will invest mainly in the Benchmark Index's constituents.

In order to optimise the direct replication method that is used to track the Benchmark Index, the Sub-fund, represented by its delegated asset manager, may decide to employ a "sampling" technique that consists in investing in a selection of representative Benchmark Index constituents in order to reduce the costs of investing directly in all of the various Benchmark Index constituents. This sampling technique could cause the Sub-fund to invest in a selection of representative Benchmark Index securities (and not in all of them) in proportions that do not reflect their weight within the Benchmark Index, and even to invest in securities that are not constituents of the Benchmark Index.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund may also, on an ancillary basis, engage in transactions involving derivative financial instruments (DFI). These transactions could for example be futures contracts on indices and/or swaps for hedging purposes and in particular to minimise the Sub-fund's tracking error.

To ensure transparency on the use of the direct index replication method (i.e. either full replication of the Benchmark Index or sampling to limit replication costs) and on its consequences in terms of the assets in the Sub-fund's portfolio, information on the updated composition of the basket of 'balance sheet' assets in the Sub-fund's portfolio is available on the page dedicated to the Sub-fund accessible on Lyxor's website at www.lyxoretf.com. The frequency of any updates and/or the date on which the aforementioned information is updated is also indicated on the same page of the aforementioned website www.lyxoretf.com

Up to 20% of the Sub-fund's assets may be exposed to debt issued by a given OECD country. This 20% limit can be increased to 35% for a single bond, when this is justified by exceptional market conditions and in particular when certain securities are largely dominant, or a debt issue is highly volatile, or a political and/or economic event has affected or may affect the estimated debt of an issuing country or its credit rating, or in any other event that is likely to affect the liquidity of a Benchmark Index security.

Notwithstanding the above, securities guaranteed or issued by a given issuer can account for up to 35% of assets and up to 100% if the Sub-fund holds at least six issues of which none exceeds 30% of assets, provided that these securities are financial instruments issued or guaranteed by an OECD member state, the local authorities of a European Union member state or a country that is a member of the European Economic Area.

Sub-fund's targeted interest-rate sensitivity	From 7 to 12
Currencies in which the Sub-fund's securities are denominated	Euros: from 0 to 100% of net assets Other: from 0 to 10% of net assets
Currency risk to which the Sub-fund is exposed:	0% maximum of net assets.
Geographic regions of the issuers of the securities to which the Sub-fund is exposed	Eurozone: from 0 to 100% of net assets Emerging countries: 0% of net assets

2. Balance sheet assets (excluding embedded derivatives)

The Sub-fund may hold financial instruments of any kind, in compliance with regulatory ratios.
The Sub-fund will mainly be invested in the bonds that make up the Benchmark Index.

Investment in undertakings for collective investment in transferrable securities ("UCITS") that comply with Directive 2009/65/EC is limited to 10% of the Sub-fund's net assets. The Sub-fund may invest in the shares of UCITS managed by the management company or by a company that is related to the management company. The fund manager will not invest in the shares or units of alternative investment funds (AIF) or other investment funds that were formed under a foreign law. To optimize the Sub-fund's management and achieve its investment objective, the asset manager reserves the right to use other financial instruments, in compliance with regulations.

3. Off-balance sheet assets (derivatives)

On an ancillary basis, the Sub-fund may engage in transactions involving derivatives traded on a regulated market or over the counter.

If over-the-counter derivatives are used, in accordance with its best-execution policy the management company considers that Société Générale would be the counterparty that would generally provide the best possible execution for any hedging transactions the Sub-fund may enter into pursuant to its investment strategy. Accordingly, all or some of these derivatives (including index-linked swaps) may be traded with Société Générale without having to seek a competitive bid from another counterparty.

4. Securities with embedded derivatives

N/A.

5. Cash deposits

In order to optimize its cash management, the Sub-fund may deposit funds representing up to 20% of its net assets with credit institutions that belong to the same group as the depositary.

6. Cash borrowing

The Sub-fund may temporarily borrow up to 10% of its net assets.

7. Securities financing transactions

Pursuant to its investment strategy, the Sub-fund may use various efficient portfolio management techniques in compliance with Article R214-18 of the French Monetary and Financial Code, including the temporary sale of securities.

- Maximum proportion of assets under management for which securities financing transactions may be entered into: 25% of the Sub-fund's assets.
- Expected proportion of assets under management for which securities financing transactions may be entered into: 20% of the Sub-fund's assets.

For this purpose the management company may appoint an intermediary (hereinafter the "Agent) to provide the following services in connection with the Sub-fund's temporary disposals of securities. If such an Agent is used it may be authorised to (i) lend securities, on the Sub-fund's behalf, under framework agreements, such as global master securities lending agreements (GMSLA) and/or any other internationally recognised framework agreement, and (ii) invest, on the Sub-fund's behalf, any liquid assets received as collateral for these securities lending transactions, subject to the restrictions specified in the securities lending agreement, the rules of this prospectus and the applicable regulations.

The Sub-fund shall be entitled to all income from securities financing transactions, net of any direct and indirect operating costs. These operating costs, which are incurred to manage the portfolio more efficiently, may be borne by the Sub-fund's management company, the Agent and/or other intermediaries that are involved in these transactions.

These direct and indirect operating costs will be calculated as a percentage of the Sub-fund's gross income. Information on direct and indirect operating expenses and on the entities to which these expenses are paid will be provided in the Sub-fund's annual report.

All income obtained from the lending of securities (from which must be deducted all direct and indirect operating costs borne by the Agent and if applicable by the management company) shall be paid to the relevant Sub-fund. Since these direct and indirect costs do not increase the Sub-fund's overall operating expenses they have been excluded from ongoing expenses.

If necessary, the Sub-fund's annual report will provide the following information:

- the exposure resulting from the use of efficient portfolio management techniques/transactions;
- the identity of the counterparty(ies) involved in these transactions;
- the nature and amount of any collateral received to reduce the Sub-fund's counterparty risk, and;
- the income generated by efficient portfolio management techniques over the relevant period, and any associated direct and indirect operating costs or expenses.

8. Collateral

Whenever the investment strategy exposes the Sub-fund to counterparty risk, and in particular when the Sub-fund engages in securities financing transactions, the Sub-fund may accept eligible securities as collateral to reduce the counterparty risk associated with these transactions. The portfolio of collateral received may be adjusted daily to ensure that its value is at least sufficient to cover the Sub-fund's counterparty risk in most cases. The purpose of this adjustment is to neutralize the Sub-fund's counterparty risk.

The Sub-fund will have full title to all collateral received, which will be deposited in the Sub-fund's account with the depositary. This collateral will therefore be included in the Sub-fund's assets. If a counterparty defaults on an obligation, the Sub-fund may dispose of the assets received from the counterparty in respect of the secured transaction to pay off the the counterparty's debt to the Sub-fund.

All collateral the Sub-fund receives for this purpose must comply with the applicable laws and regulations, with respect in particular to liquidity, valuation, the credit-worthiness of securities issuers, correlation, and the risks of collateral management and enforceability. All collateral received must in particular meet the following criteria:

- (a) All collateral must be of high quality, be highly liquid and tradable on a regulated market or on a multilateral trading facility, with transparent pricing to enable the collateral to be rapidly sold near its estimated price
- (b) This collateral must be valued at its mark-to-market price at least daily and assets with highly volatile prices are not acceptable as collateral, unless a sufficiently prudent discount or "haircut" is applied;
- (c) The issuer of this collateral must be independent of the counterparty and must not be closely correlated with the counterparty's financial performance;
- (d) Collateral must be sufficiently diversified in terms of country, market and issuer, with exposure to any single issuer not exceeding 20% of the Sub-fund's net asset value ;
- (e) Collateral must be immediately enforceable by the Sub-fund's management company without informing the counterparty and without its approval.

Notwithstanding the condition specified in (d) above, the Sub-fund may accept a basket of securities collateral that increases its exposure to a single issuer to more than 20% of its net asset value provided that:

such securities collateral is issued by (i) a Member State, (ii) one or more of a Member State's local authorities, (iii) a country that is not a Member State (iv) a public international organisation to which one or more Member States belong; and;
such securities collateral consists of at least six different issues of securities of which no single issue exceeds 30% of the Sub-fund's assets.

In accordance with the above conditions the collateral the Sub-fund accepts may consist of:

- (i) Cash and cash-equivalent assets, which for example include short-term bank deposits and balances and money-market instruments
- (ii) Bonds issued or guaranteed by an OECD member state, or by its local government entities, or by an EU, regional or global supranational institution or organisation, or by any country provided that conditions (a) to (e) above are fully complied with
- (iii) Shares or units issued by money-market funds that calculate a daily net asset value and have an AAA or equivalent credit rating
- (iv) The shares or units of UCITS that invest mainly in the bonds and/or equities indicated in (v) and (vi) below
- (v) Bonds issued or guaranteed by first-class issuers offering sufficient liquidity
- (vi) Equities admitted for trading or traded on a regulated exchange of an EU member country, on a stock exchange of an OECD member country or on a stock exchange of another country provided that conditions (a) to (e) above are fully complied with and that these equities are components of a major index.

Collateral discount policy

The Sub-fund's management company shall apply a discount to the collateral the Sub-fund accepts. The amount of these discounts will depend mainly on the following:

- the nature of the collateral asset
- the collateral's maturity (if applicable)
- the credit rating of the collateral issuer (if applicable).

Reinvestment of collateral

Non-cash collateral will not be sold, reinvested or pledged.

At the manager's discretion, cash collateral may either be:

- deposited with an authorised institution
- invested in high-quality government bonds
- used for reverse repurchase transactions, provided that these are entered into with credit institutions that are subject to prudential supervision and that the fund is able to withdraw the total amount of its cash collateral and the accrued interest at any time.
- invested in short-term money-market funds as defined in the guidelines for a common definition of European money-market funds.

All cash collateral that is reinvested must be invested in a diversified manner in compliance with the rules that apply to the acceptance of non-cash collateral.

RISK PROFILE

Investors' money will be invested mainly in the financial instruments selected by the asset manager. These instruments are subject to market trends and contingencies.

Investors in the Sub-fund will mainly be exposed to the following risks:

Interest rate risk

The price of a bond can be affected by unexpected changes in the level of interest rates, which in particular may modify the shape of the yield curve in particular. The bonds that make up the Benchmark Index are exposed to changes in interest rates. In general, the price of a bond rises when interest rates fall, and falls when interest rates rise.

Capital risk

The capital invested is not guaranteed. Investors therefore may not recover all or part of their initial investment, particularly in the event that the Benchmark Index posts a negative return over the investment period.

Credit risk

The Sub-fund could be adversely affected by a lowering of the credit rating of one or more issuers of a bond in the Benchmark Index. This could mean a higher risk that such an issuer might default and could decrease the bond's value.

Benchmark Index tracking risk

Replicating the performance of the Benchmark Index by investing in all of its constituents may prove to be very difficult to implement and costly. The Sub-fund manager may therefore use various optimisation techniques, such as 'sampling', which consists in investing in a selection of representative securities (and not all securities) that constitute the Benchmark Index, in proportions that differ from those of the Benchmark Index or even investing in securities that are not index constituents and derivatives. In compliance with UCITS regulations, exposure to counterparty risk (whether the counterparty is Société Générale or another entity), cannot exceed 10% of the Sub-fund's total assets per counterparty.

Liquidity risk (primary market)

The Sub-fund's liquidity and/or value may be adversely affected if, when the Sub-fund or a counterparty to a financial derivative instrument (DFI) is rebalancing its exposure, the underlying financial markets are restricted, closed, or subject to large bid/offer spreads. An inability, due to low trading volume, to execute the trades required to replicate the Benchmark Index may also adversely affect the subscription, conversion or redemption of shares or units.

Liquidity risk (secondary market)

The price of the Sub-fund's listed shares or units may deviate from the Sub-fund's indicative net asset value. The liquidity of shares or units traded on a given exchange may be adversely affected by a suspension in trading for various reasons, for example:

- i) the calculation of the Benchmark Index is suspended or stopped
- ii) trading in the market(s) in the Benchmark Index's underlying assets is suspended
- iii) an exchange cannot obtain or calculate the Sub-fund's indicative net asset value
- iv) a market maker fails to comply with an exchange's rules
- v) an exchange's IT, electronic or other system fails.

Counterparty risk

The Sub-fund may use derivative financial instruments (DFI) on an ancillary basis. The Sub-fund will do everything in its power to achieve its investment objective by, if appropriate, entering into another DFI contract with another counterparty at the market conditions prevailing at the time of such an event. In compliance with UCITS regulations, counterparty risk exposure cannot exceed 10% of the value of Sub-fund's total assets per counterparty. When Société Générale is the counterparty for an DFI transaction and/or a temporary securities transaction, conflicts of interest may arise between it and the Sub-fund's management company, which has procedures to identify and reduce such conflicts of interest and to resolve them equitably if necessary.

Risk arising from securities financing transactions

If a borrower of securities defaults on its obligation there could be a risk that the value of the collateral received by the Sub-fund is less than the value of the securities lent. This risk could arise, for example, in the event of (i) an inaccurate valuation of the securities lent and/or (ii) unfavourable market movements and/or (iii) the lowering of the credit rating(s) of the issuer(s) of securities taken as collateral and/or (iv) the illiquidity of the market in which the collateral received is listed. If cash collateral is reinvested this could (i) result in leverage that entails a risk of loss and volatility and/or (ii) expose the Sub-fund to a market that is inappropriate for its

investment objective, and/or (iii) generate less income than the amount of collateral the Sub-fund must repay. The Fund could also fail to receive the securities lent by the date specified, which would diminish its capacity to accommodate investor redemptions.

Risk that the investment objective may not be fully achieved

There is no guarantee that the investment objective will be achieved, as no asset or financial instrument can ensure that the Benchmark Index will be automatically and continuously replicated, particularly in the event of one or more of the following risks:

- Risk due to a change in the tax regime

A change in the tax regime of a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed could adversely affect the taxation of investors. In such an event, the Sub-fund manager shall not be liable to any investor with respect to any payment that may have to be made to a competent tax authority.

- Risk of a change in the taxation of the Sub-fund's underlying assets

A change in the taxation of the Sub-fund's underlying assets could adversely affect the taxation of the Sub-fund. In such an event a discrepancy between the estimated taxation and the actual taxation of the Sub-fund and/or of the Sub-fund's DFI counterparty may adversely affect the Sub-fund's net asset value.

- Regulatory risk affecting the Sub-fund

In the event of a change in the regulatory regime in a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed, the subscription, conversion or redemption of shares or units may be adversely affected.

- Regulatory risk affecting the Sub-fund's underlying assets

In the event of a change in the regulations that govern the Sub-fund's underlying assets, the Sub-fund's net asset value and the subscription, conversion or redemption of shares or units may be adversely affected.

- Benchmark Index disruption risk

If an event adversely affects the Benchmark Index, the Sub-fund manager may be required, as provided for by law, to suspend the subscription and redemption of the Sub-fund's shares or units. The calculation of the Sub-fund's net asset value could also be adversely affected.

If the disruption of the Benchmark Index persists, the Sub-fund manager will determine an appropriate course of action, which could decrease the Sub-fund's net asset value.

A 'Benchmark Index event' includes but is not limited to the following situations:

i) the Benchmark Index is deemed to be inaccurate or does not reflect actual market developments

ii) the Benchmark Index is permanently cancelled by the index provider

iii) the index provider is unable to indicate the level or value of the Benchmark Index

iv) The index provider makes a material change in the Benchmark Index calculation formula or method (other than a minor modification such as an adjustment to the Benchmark Index's underlying components or their respective weightings) which the Sub-fund cannot effectively replicate at a reasonable cost

(v): a Benchmark Index component becomes illiquid because it is no longer traded on a regulated market or because its trading over-the-counter (e.g. bonds) is disrupted

(vi) the Benchmark Index components are exposed to higher transaction costs for execution or settlement/delivery, or to specific tax constraints and these costs are not reflected in the Benchmark Index's performance.

- Corporate action risk

An unforeseen change, by the issuer of a security that is a component of the Benchmark Index, in a planned corporate action that is in contradiction with a previous official announcement on which the Sub-fund based its valuation of the corporate action (and/or on which the Sub-fund's counterparty to a financial derivative instrument or transaction based its valuation of the corporate action) can adversely affect the Sub-fund's net asset value, particularly if the Sub-fund's treatment of the corporate event differs from that of the Benchmark Index methodology.

- Risk of using derivative financial instruments

In order to achieve its investment objective, the Sub-fund can enter into transactions involving over-the-counter derivative financial instruments (DFI), such as swaps, in order to secure the performance of the Benchmark Index. These DFI involve various risks, such as counterparty risk, hedging disruption, Benchmark Index disruption, taxation risk, regulatory risk, operational risk and liquidity risk. These risks can materially affect an DFI and may require an adjustment of the DFI transaction or even its premature termination, which could adversely affect the Sub-fund's net asset value.

- Legal risk

The Fund may be exposed to a legal risk arising from a total return swap (TRS) agreement as indicated in EU Regulation No. 2015/2365.

ELIGIBLE INVESTORS AND TYPICAL INVESTOR PROFILE

The Sub-fund is available to all investors.

Investors in this Sub-fund are seeking exposure to the performance, whether positive or negative, of Spanish government bonds.

The amount that can be reasonably invested in the Sub-fund depends on each investor's personal situation. To determine this amount, investors must take into account their personal wealth and/or estate, their cash requirements currently and for the next five years, and their willingness to take on risk or their preference for more prudent investment. Investors are also advised to diversify their investments sufficiently so as not to be exposed solely to this Sub-fund's risks.

All investors are therefore asked to consider their specific situation with the help of their usual investment advisor.

The recommended minimum investment horizon is three years.

CALCULATION AND APPROPRIATION OF DISTRIBUTABLE AMOUNTS

Acc share class: Distributable amounts are accumulated

Dist share class: The Board of Directors reserves the right to accumulate and/or distribute all or part of income. Realized net capital gains will be accumulated.

DISTRIBUTION FREQUENCY

Dist shares only: If a distribution is decided, the Board of Directors reserves the right to distribute all or part of income in one or more distributions per annum.

SHARE CHARACTERISTICS

Subscription orders may be placed for a monetary amount or for a number of shares.
A whole number of shares must be redeemed.

CURRENCY

Share class	Acc	Dist
Share currency	EURO	EURO

SUBSCRIPTION AND REDEMPTION

1. SUBSCRIPTION AND REDEMPTION ON THE PRIMARY MARKET

Subscription/redemption requests for shares in the Sub-fund will be processed by the Depositary from 10:00 am and 5:00 pm (Paris time), every day that the Sub-fund's net asset value is to be published, provided that prices can be quoted for a significant proportion of the Benchmark Index components (hereinafter a "**Primary Market Day**"), and will be executed at the net asset value on that Primary Market Day, hereinafter the "**reference NAV**". Subscription/redemption orders submitted after 5:00 pm (Paris time) on a Primary Market Day will be processed as if received from 10:00 am to 5:00 pm (Paris time) on the following Primary Market Day. Orders to subscribe for or redeem shares in the Sub-fund must be made for a minimum amount of at least 100,000 euros.

Subscriptions and redemptions in cash:

Subscriptions/redemptions made exclusively in cash will be carried out on the basis of the reference NAV.

Delivery and settlement:

Settlement/delivery of subscriptions and redemptions shall be completed within five French business days upon receipt of the subscription or redemption order.

Date and frequency of net asset value calculation:

The net asset value will be calculated and published daily, provided that at least one exchange on which the Sub-fund's shares are listed is open and that orders placed in the primary and secondary markets can be funded.

The Sub-fund's net asset value is calculated using the Benchmark Index's closing price.

The net asset value of a share class that is denominated in another currency than the Sub-fund's accounting currency (if applicable) is calculated using the exchange rate between the accounting currency and the currency of the share class, at the applicable WM Reuters rate on the date the reference NAV is calculated.

The Sub-fund's net asset value is calculated using the Benchmark Index's closing price.

2. PURCHASES AND SALES ON THE SECONDARY MARKET

A. COMMON PROVISIONS

For any purchase or sale of shares in the Sub-fund executed directly on an exchange on which the Sub-fund is admitted or will be admitted for continuous trading, no minimum purchase or sale amount is required other than that which may be required by the relevant exchange(s).

Shares in a listed Sub-fund that are purchased on the secondary market cannot generally be directly sold back to that Sub-fund. Investors must therefore buy and sell their shares on a secondary market through an intermediary (e.g. a broker) and may consequently incur costs. Furthermore, there is a possibility that investors may pay more than the indicative net asset value when buying shares and receive less than the indicative net asset value when selling shares.

If the stock market value of a listed fund's shares or units differs significantly from their indicative net asset value, or if trading in the fund's shares or units is suspended, investors may be authorized, subject to the conditions set forth below, to redeem their shares on the primary market directly from the fund, without being subject to the minimum redemption amount requirement set forth herein in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)".

The management company shall decide whether to allow such primary market redemptions and for how long, on the basis of the following criteria for assessing the significance of a market disruption:

- The suspension or strong disturbance of secondary trading on a given exchange is relatively frequent
- The link between the market disruption and secondary market operators (such as the default of one or more of the Market Makers of a given exchange, or a breakdown or malfunction of an exchange's IT or operating systems), excluding a disruption caused by a source external to the secondary exchange on which the Sub-fund's shares are traded, such as an event that affects the liquidity and valuation of all or some of the Benchmark Index's components
- Any other objective circumstance that could adversely affect the fair treatment and/or the interests of the Sub-fund's share-holders.

Notwithstanding the provisions concerning fees presented in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)", redemptions made in the primary market in this case shall only be subject to a net redemption fee of 0.5% paid to the Sub-fund and which serves to cover its trading costs.

In such exceptional cases when redemption in the primary market is allowed, the Management Company shall post on Lyxor's website at www.lyxor.etf.com the procedure that investors must observe to redeem their shares or units in the primary market. The Management Company shall also make this procedure available to the market undertaking that handles trading in the Sub-fund's shares.

B. SPECIFIC PROVISIONS

- a. **If the Sub-fund's shares are listed on Euronext Paris, as indicated in the "Key Information" section, investors should note the following rules:**

Negotiability of shares and information about the financial institutions acting as Market Makers:

The shares are freely negotiable on the Euronext Paris regulated market under the following conditions and according to the applicable legal and regulatory provisions.

The Sub-fund shares will be listed on a specific trading list, the rules for which are defined in the following instructions published by Euronext Paris SA:

- Instruction No. 4-01 "Universal Trading Platform Manual"
- Appendix to Instruction N4-01 (Appendix to the Euronext Market Trading Manual)
- Instruction No. 6-04 "Documentation to be provided when filing a listing application for an ETF, ETN, ETV and open-ended undertakings for collective investment other than"

Pursuant to article D 214-22-1 of the French Monetary and Financial Code the units or shares of undertakings for collective investments in transferable securities may be admitted to trading, provided that these undertakings have a system to ensure that the market price of their units or shares does not differ significantly from their net asset value. Under Euronext Paris SA's rules trading in the Sub-fund's shares is also subject to a 'reservation threshold' of 1.5% above or below the Sub-fund's indicative net asset value or "iNAV" (see the "Indicative Net Asset Value" section), as published by Euronext Paris SA and updated on an estimated basis during trading in accordance with the change in the Benchmark Index.

To comply with Euronext Paris SA's reservation threshold requirement (see the section entitled "Indicative net asset value") the Market Makers will ensure that the market price of the Sub-fund's shares does not differ from the Sub-fund's indicative NAV by more than 1.5%.

Euronext Paris SA may suspend trading in the Sub-fund's shares pursuant to the terms of its operating rules, if the aforementioned reservation threshold limit is exceeded.

Euronext Paris SA will also suspend trading in the Sub-fund's shares in the following cases:

- the Benchmark Index is no longer traded or calculated
- Euronext Paris SA cannot obtain the Benchmark Index's level
- Euronext Paris SA cannot obtain the Sub-fund's net asset value

In accordance with the terms and conditions governing admission to trading on Euronext Paris, the Market Makers undertake to provide market-making services for the Sub-fund's shares as soon as they are admitted to trading on the Euronext Paris exchange.

In particular, the Market Makers undertake to carry out market-making operations by maintaining a significant presence in the market, which initially entails the setting of a bid/ask spread.

More specifically, the Market Makers are required by contract with Euronext Paris SA to ensure that the Sub-fund maintains:

- a maximum global spread of 1.5% between the bid and offer price in the centralized order book.
- a minimum nominal trading value of EUR 100,000.

The obligations of the Sub-fund's Market Makers will be suspended in the following cases:

- the Benchmark Index is no longer traded or calculated

if trading is substantially disrupted, for example due to a widespread shift in prices or an event that makes normal market making impossible.

Indicative Net Asset Value:

Euronext Paris SA will calculate and publish, each Trading Day (as defined below) during trading hours, the Sub-fund's indicative net asset value (hereinafter "iNAV").

A "Trading Day" is a day on which NSYE Euronext is normally open and on which the Benchmark Index is normally published.

The Sub-fund's iNAV is a theoretical net asset value calculated every 15 seconds by Euronext SA throughout the Paris trading day and is based on the level of the Benchmark Index. The iNAV enables investors to compare the prices that the Market Makers offer on the market with the theoretical value calculated by Euronext.

The iNAV will be calculated every day that the net asset value is calculated and published.

For the calculation of the Sub-fund's iNAV during the Paris trading session (from 9.05 am to 5.35 pm), Euronext Paris SA will use the Benchmark Index value published by Reuters.

If the EuroMTS platform is closed (on a public holiday on the TARGET calendar), the Benchmark Index price cannot be determined, the iNAV cannot be calculated and trading in the Sub-fund's shares may be suspended.

Lyxor International Asset Management, the Sub-fund's asset manager by delegation, will provide Euronext with all the financial and accounting data that Euronext Paris SA needs to calculate the Sub-fund's iNAV and in particular:

- The day's estimated net asset value
- The official net asset value of the previous business day
- The level of the Benchmark Index on the previous business day.

These data will serve as a basis for Euronext Paris SA's calculations to determine the Sub-fund's iNAV in real time every Trading Day.

Additional information about the indicative net asset value of a share listed on an exchange may, in accordance with the terms and limits set by the relevant market undertaking, be provided on this exchange's website. This information is also available on the Reuters or Bloomberg pages that specifically concern this share. This information is also available on the Reuters or Bloomberg pages dedicated to the particular share. Additional information about the Bloomberg and Reuters codes for the indicative net asset values of all UCITS ETF type shares is also available in the "Term Sheets" section of Lyxor's website at www.lyxoref.com.

- b. **If the Sub-fund's shares are listed on an exchange other than Euronext Paris, as indicated in the "Key Information" section, investors should note the following**

Investors wishing to acquire shares in the Sub-fund or obtain more information regarding the market-making terms that govern the listing and trading of shares on the types of exchanges indicated in the "Key Information" section are advised to familiarize themselves with the guidelines laid down by the relevant market undertaking, in compliance with local regulations, and to seek if necessary the assistance of their usual broker(s) for executing trades on the relevant exchange(s).

FEES AND CHARGES

SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)

The subscription and redemption fees shown below respectively increase the subscription price paid by the investor and decrease the redemption price received. Fees kept by the Sub-fund compensate it for the expenses it incurs in investing in the Sub-fund's assets or in divesting these assets. Any fees that are not kept by the Sub-fund are paid to the asset manager, the marketing agent or other service provider.

Acc and Dist share classes:

Fees paid by investors upon subscription or redemption)	Base	Maximum charge
Subscription fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per subscription order or 5% of the net asset value per share multiplied by the number of shares, payable to third parties
Subscription fee kept by the Sub-fund	NAV per share x number of shares	0.10%
Redemption fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per redemption order or 5% of the net asset value per share multiplied by the number of shares, payable to third parties
Redemption fee kept by the Sub-fund	NAV per share x number of shares	0.10%

(*) IF TRADING IN THE SECONDARY MARKET IS SUSPENDED, SHAREHOLDERS WILL BE ABLE TO REDEEM THEIR SHARES ON THE TERMS SET OUT IN THE PROSPECTUS UNDER THE HEADING "CONDITIONS FOR PURCHASES AND SALES ON THE SECONDARY MARKET".

OPERATIONAL AND MANAGEMENT FEES

These fees cover all the costs invoiced directly to the Sub-fund, except for transaction expenses, which include intermediary fees (brokerage, stock market taxes etc.) and any account activity charge that may be charged by the depositary or the asset manager, in particular.

For this Sub-fund the following fees may be charged in addition to the operating and management fees (see table below):

- incentive fees, which the Sub-fund pays to the management company when the Sub-fund exceeds its objectives
- account activity charges charged to the Sub-fund.

For more information on the fees or expenses that the Sub-fund must pay, see the Statistics section of the Key Investor Information Document (KIID).

Fees charged to the Sub-fund	Base	Maximum charge
Investment management fees and administration fees that are external to the management company (auditor, depositary, fund distribution and legal fees) including tax ⁽¹⁾	Net asset value	0.165% per annum
Account activity charge	Charge on each transaction	N/A
Incentive fee	Net asset value	N/A
Cost of temporary purchases and disposals of securities	The amount of the transaction	35% of the income obtained from these transactions

⁽¹⁾ Includes all fees and expenses except for transaction expenses, incentive fees and fees associated with investment in UCITS.

COMMERCIAL INFORMATION

Distribution of this prospectus and the offering or purchase of the Fund's share classes may be subject to restrictions with regard to certain persons or in certain countries under national regulations that may apply to these persons or countries. Investors are therefore responsible for ensuring that they can legally subscribe to or invest in this Fund. The information in this prospectus therefore cannot be construed to be an offer or solicitation to buy or sell shares in this Fund in a country where such offer or solicitation is unlawful.

The Fund's share classes will not be registered pursuant to the U.S. Securities Act of 1933, as amended (the "U.S. Securities Act") and cannot be offered, assigned, transferred or allocated to the United States of America, or to:

- (A) any "U.S. Person", as this term is defined (i) under Regulation S of the US Securities Act of 1933 and (ii) under U.S. regulations as defined in Section 7701 (a) (30) of the Internal Revenue Code of 1986 as amended. The Fund's shares will not be offered to U.S. Persons.
- (B) anyone other than those persons considered to be "non-US Persons" as this term is defined under U.S. regulations pursuant to the Commodity Futures Trading Commission, Rule 4.7 (a) (1) (iv).

The Fund's shares will only be offered for sale outside of the United States of America to non-U.S. Persons.

For the purpose of this document, the term "U.S. Person" shall mean, among other things, any individual who resides in the United States of America, any entity organized or formed under the laws of the United States of America, certain entities organized or formed outside of the United States of America by one or more U.S. persons, or any account held on behalf of such a U.S. person.

Before making an investment in this Fund or Sub-fund, investors should seek the advice of their financial, tax and legal advisers.

PLACE AND METHOD OF NET ASSET VALUE PUBLICATION OR COMMUNICATION

At the head office of LYXOR INTERNATIONAL ASSET MANAGEMENT, at 17, cours Valmy - 92987 Paris La Défense CEDEX - France.

The Sub-fund's net asset value will be calculated and published by Euronext Paris SA on each Paris Trading Day, during trading hours.

IMPORTANT INFORMATION ABOUT THE INDEX PROVIDER

The Sub-fund is in no way sponsored, endorsed, sold or promoted by FTSE TMX Global Debt Capital Markets (hereinafter collectively referred to as the "Licensors").

FTSE TMX Global Debt Capital Markets cannot be held liable for the promotion or marketing of the Sub-fund.

FTSE MTS and the FTSE MTS index names (FTSE MTS IndexTM) and FTSE MTS indices (FTSE MTS IndicesTM) are registered trademarks of FTSE TMX Global Debt Capital Markets. The FTSE MTS indices are calculated by FTSE TMX Global Debt Capital Markets and are marketed and distributed by MTSNext, a subsidiary of FTSE TMX Global Debt Capital Markets.

Neither FTSE TMX Global Debt Capital Markets nor MTSNext can be held responsible or liable for any loss or damages of any type whatsoever (including, in particular, investment losses) in connection, in whole or in part, with the Sub-fund or with the provision of the FTSE MTS Target Maturity Eurozone Government Bond Spain (Mid Price)IG 25Y+ Index, sub-indices or registered trademarks.

ADDITIONAL INFORMATION

The Sub-fund's shares are admitted for clearing by EuroClearFrance S.A..

Subscription and redemption orders must be sent in by the investors' financial intermediary (a EuroClear member) for processing by the Depositary.

The Multi Units France fund prospectus, the Key Investor Information Document and the most recent annual documents will be sent to investors within eight business days upon written request addressed to:

LYXOR INTERNATIONAL ASSET MANAGEMENT
17 Cours Valmy - 92987 Paris La Défense France.

E-mail: contact@lyxor.com

More information can also be requested from Lyxor International Asset Management on its website at www.lyxoretf.com.

Pursuant to Article L. 533-22-1 of the French Monetary and Financial Code, information concerning the asset manager's possible inclusion of social, environmental and corporate governance objectives and performance criteria in its investment policy is available on the asset manager's website and in the Multi-Unit France fund annual report.

The AMF's website (www.amf-france.org) provides more information on the regulatory documents and various provisions that concern investor protection. This Prospectus shall be made available to investors prior to subscription.

INVESTMENT RULES

The Sub-fund will comply with the investment rules of European Directive 2009/65/EC of 13 July 2009.

The Sub-fund may invest in the assets specified in Article L214-20 of the French Monetary and Financial Code, subject to the risk-diversification and investment ratio requirements of Articles R214-21 to R214-27 of said Code.

Notwithstanding the 10% limit under Paragraph II of Article R214-21 of the French Monetary and Financial Code, the Sub-fund may invest up to 20% of its assets in the equities and debt securities of a single issuer, in compliance with Article R214-22-I, which deals with index-tracking funds. Pursuant to Article R214-22 II, the Sub-fund may also increase this 20% limit for a single issuer to 35%, when this is justified by exceptional market conditions, and in particular when certain securities are largely dominant.

Notwithstanding the above, securities guaranteed or issued by a given issuer can account for up to 35% of assets and up to 100% if the Sub-fund holds at least six issues of which none exceeds 30% of assets, provided that these securities are financial instruments issued or guaranteed by an OECD member state, the local authorities of a European Union member state or a country that is a member of the European Economic Area.

OVERALL RISK EXPOSURE

The commitment approach is used to calculate the overall risk exposure.

ASSET RECOGNITION AND VALUATION RULES

A. VALUATION RULES

The Sub-fund's assets are valued in accordance with applicable laws and regulations and most notably Regulation No. 2014-01 of 14 January 2014 of the Comité de la Réglementation Comptable (the Accounting Regulations Committee), which applies to the chart of accounts for undertakings for collective investment in transferable securities.

Financial instruments traded on a regulated market are valued at the closing price recorded on the day prior to the calculation of the net asset value. If these financial instruments are traded on several regulated markets at the same time, the closing price used is that recorded on the regulated market on which they are principally traded.

However, in the absence of significant trading on a regulated market, the following financial instruments are valued using the following methods:

- Negotiable debt securities ("NDS") with a remaining life upon acquisition that is less than or equal to three months are valued by applying the difference between the acquisition value and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life of more than three months upon acquisition but less than or equal to three months at the net asset value calculation date are valued by applying the difference between the most recent valuation and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life at the net asset value calculation date that exceeds three months are valued at their current value. The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- Financial futures traded on organized markets are valued at the clearing price on the day prior to the calculation of the net asset value. Options traded on organized markets are valued at their market price on the day prior to the calculation of the net asset value. Forward contracts and over-the-counter options are valued at the price quoted by the counterparty. The management company monitors these prices independently.
- Bank deposits are valued at their nominal value plus accrued interest.
- Warrants, short and medium-term notes (bons de caisse), promissory notes and mortgage notes are valued under the management company's responsibility at their most likely trading value.
- Securities financing transactions are valued at the market price.
- Shares and units in UCITS under French law are valued at the last known net asset value on the day the Sub-fund's net asset value is calculated.
- Shares and units in foreign investment funds are valued at the last known unitary net asset value at the date the Sub-fund's net asset value is calculated.
- Financial instruments traded on a regulated market and for which no price has been quoted or whose price has been corrected, are valued under the management company's responsibility at their most likely trading value.
- The exchange rates used to value financial instruments denominated in a currency other than the Sub-fund's base currency are the WM Reuters fixing rates published on the day the Sub-fund's net asset value is calculated.

B. ACCOUNTING METHOD FOR TRADING EXPENSES

Trading expenses are included in the initial cost of the transaction.

C. ACCOUNTING METHOD FOR INCOME FROM FIXED-INCOME SECURITIES

Income from fixed-income securities is accounted for using the cash-basis method.

D. DISTRIBUTION POLICY

For more information see the section entitled "Calculation and appropriation of Distributable amounts"

E. ACCOUNTING CURRENCY

The Sub-fund's accounts are kept in euros.

SUB-FUND NO. 17: LYXOR CSI 300 A-SHARE UCITS ETF

A SICAV SUB-FUND COMPLIANT WITH DIRECTIVE 2009/65/CE

ISIN CODES:

C-EUR share class: FR0011526870

D-EUR share class: FR0011526896

C-USD share class: FR0011526904

D-USD share class: FR0011526862

CLASSIFICATION

Global equities.

The LYXOR CSI 300 A-SHARE UCITS ETF fund (the “Sub-fund”) is continuously at least 60% exposed to a foreign equity market or to the equity markets of two or more countries, which may include the French market.

The Sub-fund is an index tracker of the UCITS ETF type.

INCEPTION DATE

The Sub-fund was approved by l'autorité des Marchés Financiers (the French financial markets authority) on 23/08/13 and was established on 10/09/13.

INVESTMENT OBJECTIVE

The Sub-fund's investment objective is to replicate the performance of the CSI 300 Net Total Return index (the “**Benchmark Index**”), denominated in Chinese Yuan (CNY), which is representative of the performances of the large caps on “A-shares” market, namely, securities issued by companies founded in the People’s Republic of China, excluding Hong Kong, while minimizing the tracking error between the Sub-fund’s performance and that of its Benchmark Index.

The expected ex-post tracking error under normal market conditions is 0.30%.

BENCHMARK INDEX

The Benchmark Index is a “Total Return” index (i.e. the dividends from the Benchmark Index components are reinvested).

The Benchmark Index measures the performance of the “A-shares” market, i.e. shares issued by companies formed in the People’s Republic of China excluding Hong Kong, traded on the Shanghai and Shenzhen stock exchanges and quoted in Chinese Yuan (CNY), by targeting, in general, the 300 largest caps and the most liquid among all A-shares.

The stocks in the Benchmark Index are weighted according to their free-float adjusted market capitalization.

The Benchmark Index is calculated by China Securities index Co., Ltd (“CSI”), a joint venture between the Shanghai and Shenzhen stock exchanges incorporated on 25 August 2005, specializing in the management of financial indices and in the delivery of services associated with these indices.

Benchmark Index composition and revision

The composition of the Benchmark Index is revised every six months, according to the methodology described in the Benchmark Index’s Rulebook, available on the website of China Securities Index Co. Ltd. at www.csindex.com.cn.

The frequency with which the Benchmark Index is rebalanced does not affect the cost of implementing the Investment Strategy.

A full description of the Benchmark Index and its construction methodology and information on the composition and respective weightings of the Benchmark Index components are available on the Internet at www.csindex.com.cn.

Benchmark Index publication

The Benchmark Index available in real time through Reuters and Bloomberg.

Reuters code: CSIN00300

Bloomberg code: CSIN00300

The Benchmark Index’s closing price is available on the Internet at www.csindex.com.cn.

Pursuant to Article 52 of European Parliament and Council Regulation 2016/1011 of 8 June 2016, China Securities Index Co., Ltd, the administrator of the CSI 300 Net Total Return benchmark index, has until 1 January 2020 to apply for approval or registration as applicable.

As of the date of the most recent version of this prospectus, the benchmark index administrator was not yet listed in ESMA’s register of benchmark administrators.

Pursuant to European Parliament and Council Regulation 2016/1011 of 8 June 2016, the asset management company has a procedure for monitoring the benchmark indices used that specifies the measures to be implemented if an index is substantially modified or is no longer provided.

INVESTMENT STRATEGY

1. Strategy employed

The Sub-fund will comply with the investment rules of European Directive 2009/65/EC of 13 July 2009.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund will employ an indirect replication method, which means that it will enter into one or more OTC swap contracts enabling it to achieve its investment objective. These swap contracts will serve to exchange the value of the Sub-fund's assets, which will consist of cash and/or balance sheet assets (excluding any securities received as collateral), for the value of the securities that underlie the Benchmark Index.

The Sub-fund's equities will be mainly those that make up the Benchmark Index, and also other international equities, in all economic sectors and listed in all markets, including small-cap markets.

The basket of securities held may be adjusted daily such that its value will generally be at least 100% of the net assets. When necessary, this adjustment will be made to ensure that the counterparty risk arising from the aforementioned swap contract will be neutralized.

Information on the updated composition of the basket of 'balance sheet' assets in the Sub-fund's portfolio and the value of the swap contract concluded by the Sub-fund, is available on the page dedicated to the Sub-fund on Lyxor's website at www.lyxoretf.com. The frequency of any updates and/or the date on which the aforementioned information is updated is also indicated on the same page of the aforementioned website.

Up to 20% of the Sub-fund's assets may be exposed to equities issued by the same entity. This 20% limit may be increased to 35% for a given issuing entity when this is justified by exceptional market conditions and in particular when certain securities are largely dominant and/or in the event of strong volatility that affects a financial instrument or securities linked to an economic sector represented in the Benchmark Index, particularly in the event of a public offering that substantially affects a Benchmark Index security or in the event of a significant drop in the liquidity of one or more of the Benchmark Index's financial instruments.

2.Balance sheet assets (excluding embedded derivatives)

In accordance with regulatory ratios, the Sub-fund may invest in global equities in all economic sectors and listed on any exchange, including "small-cap" exchanges..

The aforementioned equities will be selected on the basis of the following:

- eligibility criteria and in particular:
 - their inclusion in a major stock exchange index or in the Benchmark Index
 - liquidity (must exceed a minimum daily trading volume and market capitalization)
 - credit rating of the country where the issuer has its registered office (must have a least a minimum S&P or equivalent rating)
- diversification criteria, and in particular:
 - the issuer (application of investment ratios to assets that qualify for UCITS, pursuant to Art. R214-21 of the French Monetary and Financial Code)
 - geographic
 - sector

Investors may find more information on the above eligibility and diversification criteria, and in particular the list of eligible indices, on Lyxor's website at www.lyxoretf.com

Investment in undertakings for collective investment in transferrable securities ("UCITS") that comply with Directive 2009/65/EC is limited to 10% of the Sub-fund's net assets.

The fund manager will not invest in the shares or units of alternative investment funds (AIF) or other investment funds that were formed under a foreign law. The Sub-fund may invest in the shares of UCITS managed by its asset manager or by a company that is related thereto.

When the Fund receives collateral in the form of securities, subject to the terms of section 8 below, it acquires full title to these securities and they are therefore included among the balance sheet assets to which it has full title.

To optimize the Sub-fund's management and achieve its investment objective, the asset manager reserves the right to use other financial instruments, in compliance with regulations.

3.Off-balance sheet assets (derivatives)

The Sub-fund will use OTC index-linked swaps that swap the value of the Sub-fund's assets (or the value of any other financial instrument or asset the Sub-fund may hold) for the value of the Benchmark Index (as described in part 1 of this section).

- Maximum proportion of assets under management for which total return swaps (TRS) may be entered into: 100%.
- Expected proportion of assets under management for which total return swaps (TRS) may be entered into: up to 100%.

To optimize the Sub-fund's management and achieve its investment objective, the manager reserves the right to use other financial instruments in compliance with regulations, such as derivative instruments other than index-linked swaps.

In accordance with its best execution policy, the management company considers that Société Générale is the counterparty that is generally able to obtain the best possible execution for these derivative financial instruments. Accordingly, these derivative financial instruments (including index-linked swaps) may be traded via Société Générale without having to seek a competitive bid from another counterparty.

The Sub-fund may only select a counterparty to a futures or forward contract that is a leading financial institution that is authorized to enter into such contracts for its own account.

The counterparty of the derivative financial instruments referred to above (the "Counterparty") will have no discretionary power over the composition of the Sub-fund's portfolio nor over the underlying assets of the derivative financial instruments.

4. Securities with embedded derivatives

N/A. The Sub-fund will not invest in securities with embedded derivatives

5. Cash deposits

To optimize its cash management, the Sub-fund may deposit funds representing up to 20% of its net assets with credit institutions that belong to the same group as the depositary.

6. Cash borrowing

The Sub-fund may temporarily borrow up to 10% of its net assets.

7. Securities financing transactions

The Sub-fund shall not engage in any temporary purchases or sales of securities.

8. Collateral

Whenever the investment strategy exposes to the Sub-fund to counterparty risk, and in particular when the Sub-fund uses over-the-counter swaps, the Sub-fund may accept eligible securities as collateral to reduce the counterparty risk associated with these swaps. The portfolio of collateral received may be adjusted daily to ensure that its value is at least sufficient to cover the Sub-fund's counterparty risk in most cases. The purpose of this adjustment is to neutralize the Sub-fund's counterparty risk.

The Sub-fund will have full title to all collateral received, which will be deposited in the Sub-fund's account with the depositary. This collateral will therefore be included in the Sub-fund's assets. If a counterparty defaults on an obligation, the Sub-fund may dispose of the assets received from the counterparty in respect of the secured transaction to pay off the counterparty's debt to the Sub-fund.

All collateral the Sub-fund receives for this purpose must comply with the applicable laws and regulations, with respect in particular to the liquidity and valuation of the collateral, the credit-worthiness of securities issuers, risk exposure correlation and the risks of collateral management and enforceability. All collateral received must in particular meet the following criteria:

- (a) All collateral must be of high quality, be highly liquid and tradable on a regulated market or on a multilateral trading facility, with transparent pricing to enable the collateral to be rapidly sold near its estimated price;
- (b) This collateral must be valued at its mark-to-market value at least daily and assets with highly volatile prices are not acceptable as collateral, unless a sufficiently prudent discount or "haircut" is applied;
- (c) The issuer of this collateral must be independent of the counterparty and must not be closely correlated with the counterparty's financial performance;
- (d) This collateral must be sufficiently diversified by country, market and issuer, and no exposure to a single issuer may exceed 20 % of the Sub-fund's net asset value;
- (e) The Sub-fund's Management Company must be able to enforce this collateral in full and at any time, without having to consult with the counterparty or obtain its approval.

Notwithstanding the condition specified in (d) above, the Fund may accept a basket of securities collateral that increases its exposure to a single issuer to more than 20% of its net asset value provided that:

- such securities collateral is issued by (i) a Member State, (ii) one or more of a Member State's local authorities, (iii) a country that is not a Member State (iv) a public international organization to which one or more Member States belong; and;
- such securities collateral consists of at least six different issues of securities of which no single issue exceeds 30% of the Sub-fund's assets.

Subject to the above conditions, the Sub-Fund may take collateral in the following forms:

- (i) Cash and cash-equivalent assets, which for example include short-term bank deposits and balances and money-market instruments;
- (ii) Bonds issued or guaranteed by an OECD member state, or by its local government entities, or by an EU, regional or global supranational institution or organisation, or by any country provided that conditions (a) to (e) above are fully complied with;
- (iii) Shares or units issued by money-market funds that calculate a daily net asset value and have an AAA or equivalent credit rating;
- (iv) The shares or units of UCITS that invest mainly in the bonds and/or equities indicated in (v) and (vi) below;
- (v) Bonds issued or guaranteed by first-class issuers offering sufficient liquidity;
- (vi) Equities admitted for trading or traded on a regulated exchange of an EU member country, on a stock exchange of an OECD member country or on a stock exchange of another country provided that conditions (a) to (e) above are fully complied with and that these equities are components of a major index.

Collateral discount policy:

The Sub-fund's management company shall apply a discount to the collateral accepted by the Sub-fund. The amount of these discounts will depend mainly on the following:

- The nature of the collateral asset;
- The collateral's maturity (if applicable);
- The credit rating of the collateral issuer (if applicable).

Reinvestment of collateral:

Non-cash collateral will not be sold, reinvested or pledged.

At the manager's discretion, cash collateral may either be:

- (i) deposited with an authorized institution
- (ii) invested in high-quality government bonds
- (iii) used for reverse repurchase transactions, provided that these are entered into with credit institutions that are subject to prudential supervision and that the fund is able to withdraw the total amount of its cash collateral and the accrued interest at any time

- (iv) invested in short-term money market funds that meet the guidelines for a common EU definition of money market funds.

All cash collateral that is reinvested must be invested in a diversified manner in compliance with the rules that apply to the acceptance of non-cash collateral.

RISK PROFILE

Investors' money will be invested mainly in the financial instruments selected by the asset manager. These instruments are subject to market trends and contingencies.

Investors in the Sub-fund will mainly be exposed to the following risks:

Capital risk

The capital invested is not guaranteed. Investors therefore may not recover all or part of their initial investment, particularly in the event that the Benchmark Index posts a negative return over the investment period.

Equity risk

The price of an equity security can increase or decrease in accordance with changes in the issuer's risk exposure or in the economic conditions of the market in which the security is traded. Equity markets are more volatile than fixed income markets, where under stable macroeconomic conditions income over a given period of time can be estimated with reasonable accuracy.

Liquidity risk (primary market)

The Sub-fund's liquidity and/or value may be adversely affected if, when the Sub-fund or a counterparty to a financial derivative instrument (DFI) is rebalancing its exposure, the underlying financial markets are restricted, closed, or subject to wide bid/offer spreads. An inability, due to low trading volume, to execute the trades required to replicate the Benchmark Index may also adversely affect the subscription, conversion or redemption of shares or units.

Liquidity risk (secondary market)

The price of the Sub-fund's listed shares or units may deviate from the Sub-fund's indicative net asset value. The liquidity of shares or units traded on a given exchange may be adversely affected by a suspension in trading for various reasons, for example:

- vi) the calculation of the Benchmark Index is suspended or stopped;
- vii) trading in the market(s) in the Benchmark Index's underlying assets is suspended
- viii) an exchange cannot obtain or calculate the Sub-fund's indicative net asset value
- ix) a market maker fails to comply with an exchange's rules
- x) an exchange's IT, electronic or other system fails.

Counterparty risk

The Sub-fund is exposed to the risk that a counterparty with which the Sub-fund has entered into a contract or transaction may go bankrupt or default on a settlement or other obligation. The Sub-fund is mainly exposed to counterparty risk resulting from the use of derivative financial instruments (DFI) traded over the counter with Société Générale or some other counterparty. In compliance with UCITS regulations, exposure to counterparty risk (whether the counterparty is Société Générale or another entity), cannot exceed 10% of the Sub-fund's total assets per counterparty.

If a counterparty defaults on an obligation the DFI contract may be terminated before maturity. The Sub-fund will do everything in its power to achieve its investment objective by, if appropriate, entering into another DFI contract with another counterparty at the market conditions at the time of such an event.

If this counterparty risk materializes it could have an impact on the Sub-fund's ability to achieve its investment objective of replicating the Benchmark Index.

When Société Générale is the DFI counterparty, conflicts of interest may arise between it and the Sub-fund's management company, which has procedures to identify and reduce such conflicts of interest and to resolve them equitably if necessary.

Risk that the investment objective may not be fully achieved

There is no guarantee that the investment objective will be achieved, as no asset or financial instrument can ensure that the Benchmark Index will be automatically and continuously replicated, particularly in the event of one or more of the following risks:

- Risk of using derivative financial instruments

In order to achieve its investment objective, the Sub-fund can enter into transactions involving over-the-counter derivative financial instruments (DFI), such as swaps, in order to secure the performance of the Benchmark Index. These DFI involve various risks, such as counterparty risk, hedging disruption, Benchmark Index disruption, taxation risk, regulatory risk, operational risk and liquidity risk. These risks can materially affect an DFI and may require an adjustment of the DFI transaction or even its premature termination, which could adversely affect the Sub-fund's net asset value.

- Risk due to a change in the tax regime

A change in the tax regime of a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed could adversely affect the taxation of investors. In such an event, the Sub-fund manager shall not be liable to any investor with respect to any payment that may have to be made to a competent tax authority.

- Risk of a change in the taxation of the Sub-fund's underlying assets

A change in the taxation of the Sub-fund's underlying assets could adversely affect the taxation of the Sub-fund. In such an event a discrepancy between the estimated taxation and the actual taxation of the Sub-fund and/or of the Sub-fund's DFI counterparty may adversely affect the Sub-fund's net asset value.

- Regulatory risk affecting the Sub-fund

In the event of a change in the regulatory regime in a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed, the subscription, conversion or redemption of shares or units may be adversely affected.

- Regulatory risk affecting the Sub-fund's underlying assets

In the event of a change in the regulations that govern the Sub-fund's underlying assets, the Sub-fund's net asset value and the subscription, conversion or redemption of shares or units may be adversely affected.

- Benchmark Index disruption risk

If an event adversely affects the Benchmark Index, the Sub-fund manager may be required, as provided for by law, to suspend the subscription and redemption of the Sub-fund's shares or units. The calculation of the Sub-fund's net asset value could also be adversely affected.

If the disruption of the Benchmark Index persists, the Sub-fund manager will determine an appropriate course of action, which could decrease the Sub-fund's net asset value.

A 'Benchmark Index event' includes but is not limited to the following situations:

- i) the Benchmark Index is deemed to be inaccurate or does not reflect actual market developments
- ii) the Benchmark Index is permanently cancelled by the index provider
- iii) the index provider is unable to indicate the level or value of the Benchmark Index
- iv) the index provider makes a material change in the Benchmark Index calculation formula or method (other than a minor modification such as an adjustment to the Benchmark Index's underlying components or their respective weightings) which the Sub-fund cannot effectively replicate at a reasonable cost
- v) a Benchmark Index component becomes illiquid because it is no longer traded on a regulated market or because its trading over-the-counter (e.g. bonds) is disrupted
- vi) the Benchmark Index components are exposed to higher transaction costs for execution or settlement/delivery, or to specific tax constraints and these costs are not reflected in the Benchmark Index's performance.

- Corporate action risk

An unforeseen change, by the issuer of a security that is a component of the Benchmark Index, in a planned corporate action that is in contradiction with a previous official announcement on which the Sub-fund based its valuation of the corporate action (and/or on which the Sub-fund's counterparty to a financial derivative instrument or transaction based its valuation of the corporate action) can adversely affect the Sub-fund's net asset value, particularly if the Sub-fund's treatment of the corporate event differs from that of the Benchmark Index methodology.

- Currency risk of C-EUR and D-EUR shares (EUR/CNY)

These shares are exposed to currency risk since they are denominated in a different currency than the Benchmark Index. Changes in the exchange rate may therefore cause the net asset value of these shares to decrease, even if the value of the Benchmark Index increases.

- USD/CNY currency risk on D-USD and C-USD shares

These shares are exposed to currency risk since they are denominated in a different currency than the Benchmark Index. Changes in exchange rates may therefore cause the net asset value of these share classes to decrease, even if the value of the Benchmark Index increases.

- Emerging Market Risk:

The Sub-fund's exposure to emerging markets carries a greater risk of potential loss than an investment in traditional developed markets. Specifically, market operating and supervision rules for an emerging market may differ from standards applicable in developed markets. In particular, exposure to emerging markets can entail: increased market volatility, lower trading volumes, a risk of economic and/or political instability, an uncertain or unstable tax regime and/or regulatory environment, market closure risks, government restrictions on foreign investments, an interruption or limitation of convertibility or transferability of one of the currencies included in the Benchmark Index.

- **Specific risk of investing in the People's Republic of China**

Persons buying shares in the Sub-fund must be aware of the following risks inherent to any investment in the People's Republic of China (PRC):

Economic, political and social risks

Any political change, social instability or insecurity and unfavourable diplomatic developments which may occur in or in connection with the PRC could result in the introduction by the Chinese State of additional restrictions and limits, in particular expropriation, excessive taxes or the nationalization of certain companies included in the Benchmark Index. Investors' attention is also drawn to the fact that any change in the politics of the PRC could have an adverse impact on the PRC stock exchanges and on the performances of the Sub-fund and could result in the winding up of the Sub-fund on the decision of the Board of Directors.

- Economic risks in the PRC

The economy of the PRC has recently grown very rapidly. It is, however, not certain that this growth will continue and it is possible that growth will be uneven across the different sectors of the PRC economy. Moreover, the government of the PRC has from time to time put in place various measures to prevent the economy from overheating. Moreover, the transformation of the PRC's economy from a socialist economy to a more market-oriented economy has resulted in economic and social tensions in the country such that no guarantee can be given that this transformation will continue or will remain a success. These considerations could negatively affect the performances of the Sub-fund.

- Capital repatriation risks

The system for repatriating capital is subject to the approval by the Chinese SAFE (State Administration of Foreign Exchange) and restrictions are placed regarding the sums and frequency of such repatriation. The Sub-fund uses OTC Swaps traded outside the People's Republic of China so the restrictions or suspensions regarding the ability of Qualified Foreign Institutional Investor s ("QFII") to repatriate amounts in foreign currencies should not affect the operations of the Sub-fund.

However, when the counterparty of the swap is also a QFII or if this swap counterparty enters into a hedge with an affiliated company with QFII status, any impossibility for such QFIIs to repatriate foreign currencies could potential result in liquidity problems for the swap counterparty, which would certainly have a negative impact on the Sub-fund.

Furthermore, the regulations or certain norms in the PRC regarding the legal status of the repatriation to or convertibility of amounts in foreign currencies originating in the local Chinese market on other markets could be modified in a way that is detrimental, irrespective of the will of the Sub-fund and the Management Company.

Where applicable, the regulatory developments and unfavourable situations described above, which disrupt or restrict the convertibility or transferability of foreign currencies could potentially, not only:

- (i) Negatively affect the ability of the Sub-fund to properly achieve its investment objective, and/or;
- (ii) Adversely affect the performances of the Sub-fund, but could also;
- (iii) Ultimately result in the winding up of the Sub-fund on the decision of the Board of Directors.

- Legal risk

The Fund may be exposed to a legal risk arising from a total return swap (TRS) agreement as indicated in EU Regulation No. 2015/2365.

Legal system in the PRC

The legal system in the PRC is based on statutory law. Nevertheless, a major part of the legislation and the regulations have not yet been tested and it is uncertain that they will be effectively applied. In particular, the PRC's regulations regarding exchange rate controls are relatively recent and their application is still very uncertain. Moreover, these regulations allow the China Securities Regulatory Commission – ("CSRC") and the State Administration of Foreign Exchange ("SAFE") considerable discretion as to how they interpret the rules, which is a source of uncertainty regarding how they are applied and used. These considerations could negatively affect the performances of the Sub-fund.

- The Sub-fund's shareholders have no rights to the underlying "A-shares"

An investment in "A-shares" (which include the securities included in the Benchmark Index) and the trading in these shares by foreign companies means that the latter must have received QFII status from the CSRC and a QFII quota from SAFE. Given that this Sub-fund does not have QFII status, it will obtain its economic exposure to these securities through an OTC swap. OTC swaps do not confer any rights or interest, neither beneficial ownership nor equity rights, to the relevant A-shares to which the OTC swaps relate. As a result, investors must be aware that an investment in the Sub-fund is not the equivalent of owning the A-shares making up the Benchmark Index. Investors will thus have no rights to such A-shares, neither as beneficial owners nor as owners. As an OTC swap represents an obligation of the Swap Counterparty rather than a direct investment in A-shares, the Sub-fund may suffer losses equal to the total value of the swap if the Swap Counterparty fails to honour the obligations incumbent on it by virtue of the swap contract.

- Investment quota allocated to investors with QFII status

The PRC's regulations governing QFII status can be modified at any time by the CSRC and or SAFE which could have a prejudicial and negative impact on the Sub-fund's ability to achieve its investment objective and could result in the winding-up of the Sub-fund. In particular, QFII status means that any increase in the investment quota is subject to authorization from SAFE. If an investor with QFII status wishes to increase its own quota at any given time, it may take quite a long time for SAFE approval to be obtained. Any restriction placed on the amount of the quota made available to the Swap Counterparty by the CSRC and SAFE could, over a certain period, prevent the latter from increasing the size of the transactions relating to OTC traded swaps, in which case the Board of Directors could decide to close the Sub-fund to all new subscriptions if it proves impossible to designate another swap counterparty for the Sub-fund. As a result, this restriction could affect the shares, which could trade at a price above their net asset value. Finally, if the Swap Counterparty loses its QFII status or the related quota, it is lawful for the Board of Directors to wind up the Sub-fund, especially if it is impossible to find another swap counterparty.

- State control of exchange rates and of future exchange rate variations

Since 1994, the conversion of CNY into USD has been at the rates fixed by the People's Bank of China; the rates are fixed daily based on the exchange rates previous day's exchange rates observed on the interbank market in the PRC. On 21 July 2005, the government of the PRC introduced a floating exchange rate regime managed such that the value of the CNY fluctuates in line with supply and demand within a range fixed by the authorities, for example, with reference to a basket of currencies. No guarantee can be given that in the future the CNY exchange rate will not fluctuate significantly against the USD or other currencies. Any appreciation of the CNY against the USD or the EUR will increase the performances of the Benchmark Index expressed in USD or in EUR which replicates the Sub-fund by means of an OTC swap, and therefore its net asset value, which will be expressed in USD or in EUR, and vice versa.

- Dependence on the A-shares market

The existence of a liquid market for the A-shares can depend on the supply of and demand for A-shares. It should be noted that the Shanghai and Shenzhen stock exchanges, on which the A-shares are listed, are undergoing huge changes and that their market capitalization and the volume of trades carried out on these exchanges is lower than on the stock exchanges of the developed countries. The volatility of the markets in A-shares and the difficulties in settling trades in the same could result in not-insignificant fluctuations in the price of the securities traded on these markets, and ultimately in the Net Asset Value of the Sub-fund.

- Taxation in the PRC

Several tax reforms have been introduced by the government of the PRC in recent years, and it is possible that the current tax rules will be revised or modified in the future. Any change in tax policy could lead to a reduction in after-tax profits for companies in the PRC on which the Sub-fund's performances depend.

Moreover, even if the PRC's State Administration of Taxation has confirmed a withholding tax on income in the form of dividends, premiums and interest paid to investors with QFII status, it should be noted that it is impossible to know with certainty what the obligations of these investors are in respect of tax deducted by the PRC on capital gains and profits (apart from dividend, premium and interest income). The OTC swap contracts concluded between the Sub-fund and the Swap Counterparty will accordingly contain a specific clause in the section on contractual obligations under which the Sub-fund undertakes to indemnify the Sub-fund in full with any future or retrospective tax charge which could arise from the transactions carried out by the Swap Counterparty on the A-shares and the holding of such shares by the same for the purposes of hedging these OTC swaps.

If the Valuation Agents for the Swaps and the Sub-fund believes that the risk of a similar withholding tax being levied on the gains realized by QFII investors is becoming significant, they can at any moment adjust the valuation in order to take account of the expected amount of the tax liability. Any adjustment to the valuation of the OTC swaps thus made will remain in force until the position of the Swap Counterparty in respect of the PRC taxes is known and the Valuation Agent for the Swaps should then:

- a) decide either that any amount thus deducted from the value of these OTC swaps is sufficient to cover the corresponding tax liability of the Swap Counterparty, in which case the Valuation Agent for the Swaps can decide to adjust the value of these OTC swaps upwards, in order to correct any over-adjustment that has been made, or
- b) decide that any amount thus deducted from the value of these OTC swaps is not sufficient to cover the corresponding tax liability of the Swap Counterparty, in which case the Valuation Agent for the Swaps can decide to further adjust the value of these OTC swaps.

Consequently, we would draw investors' attention to the fact that:

- a) the Net Asset Value of the Sub-fund may be diminished by any such adjustment made to the value of the OTC Swaps
- b) the diminution in the performances of the Sub-fund which investors may experience following such adjustment will depend on the date on which they bought and/or sold the shares in the Sub-fund; and;
- c) the scale of this diminution on the performances of the Sub-fund may not be proportional to the number of shares that an investor holds in the Sub-fund due to a potential retrospective amendment to the tax due in the PRC and, in certain circumstances, this could amount to 100% of the Net Asset Value of a share class.

According to the provisions of the PRC Corporate Income Tax Law (effective from 1 January 2008), dividends, premiums, interest and capital gains originating in the PRC and paid to a company that is not resident in the PRC for tax purposes and capital gains originating in the PRC and paid to a company that is not resident in the PRC for tax purposes and that has no permanent premises or establishment, are subject to a withholding tax of 10%. This withholding tax may be reduced by virtue of a double taxation treaty with China, provided that certain conditions are met and that the PRC's tax administration is in agreement. Although PRC's tax administration may apply a withholding tax to the dividends, premiums and interest paid by companies resident in China for tax purposes to investors with QFII status, it has not yet decided to tax the recovery of the withholding tax on the capital gains realized by the latter.

Although currently in the PRC, withholding tax is not yet charged on capital gains realized by QFIIs on the disposal of A-shares, there is still a risk that the PRC's tax administration will try to impose a withholding tax on capital gains without any prior notice. Moreover, there is a potential risk of this tax measure being applied retrospectively. Any withholding tax on capital gains charged to a QFII investor and owed by the latter can be passed onto the Sub-fund as set out above. The Management Company has decided that no provision will be set aside at this moment by the Sub-fund for such potential withholding tax. Consequently, any

retrospective application of this tax could lead to a considerable, or even significant, fall in the Sub-fund's Net Asset Value per share. As a result, it is possible that an investor will suffer losses due to the introduction of withholding tax on the capital gains payable to a QFII for periods before the investor's acquisition of his holdings in the Sub-fund and that these losses are inconsistent with the gain or loss resulting from the participation of this shareholder in the Sub-fund.

It should be noted further that where applicable dividends paid to shareholders by the Sub-fund derive from the receipt of corresponding amounts under the OTC Swaps and that all amounts of this kind will be net of the withholding tax on dividends, premiums and interest prevailing in the PRC.

On top of the withholding tax on dividends, premiums, interest and capital gains referred to above, the PRC has, since 19 September 2008 deducted from the seller a stock market tax on the transfer of A-shares equal to 0.1% of the value of the transferred shares. This tax is subject to change if the State introduces additional measures.

- Standards for accounting and communication of information:

The standards for accounting, audits and communication of financial data, as well as the practices applying to PRC companies in these areas may be different from those applying in countries where the financial markets are more developed. These disparities can affect areas such as the methods for valuing assets and the rules for communicating information to investors.

ELIGIBLE INVESTORS AND TYPICAL INVESTOR PROFILE

The Sub-fund is available to all investors.

Investors in this Sub-fund are seeking upside and downside exposure to performance of the large caps on the A-shares market, namely, shares issued by companies incorporated in the People's Republic of China, excluding Hong Kong.

The amount that can be reasonably invested in the Sub-fund depends on each investor's personal situation. To determine this amount, investors must take into account their personal wealth and/or estate, their cash requirements currently and for the next five years, and their willingness to take on risk or their preference for more prudent investment. Investors are also advised to diversify their investments sufficiently so as not to be exposed solely to this Sub-fund's risks.

All investors are therefore asked to consider their specific situation with the help of their usual investment advisor.

The recommended minimum investment period is at least five years.

SHARE CURRENCY

Subscription orders may be placed for a monetary amount or for a number of shares.

A whole number of shares must be redeemed.

Share class	C-EUR	D-EUR	C-USD	D-USD
Share currency	EURO	EURO	USD	USD

CALCULATION AND APPROPRIATION OF DISTRIBUTABLE AMOUNTS

C-EUR share class: Accumulation.

D-EUR share class: The Board of Directors reserves the right to accumulate and/or distribute all or part of the amounts available for distribution.

C-USD share class: Accumulation.

D-USD share class: The Board of Directors reserves the right to accumulate and/or distribute all or part of the amounts available for distribution.

DISTRIBUTION FREQUENCY

If a distribution is decided, the Board of Directors reserves the right to distribute all or part of income in one or more distributions per annum.

SUBSCRIPTION AND REDEMPTION

1. SUBSCRIPTION AND REDEMPTION ON THE PRIMARY MARKET

Subscription/redemption orders for shares in the Sub-fund will be processed by the Depositary from 9:00 am to 6.30 pm (Paris time), every day that the Sub-fund's net asset value is to be published, provided that prices can be quoted for a significant proportion of the Benchmark Index components (hereinafter a "Primary Market Day") and will be executed at the net asset value on the following Primary Market Day, hereinafter the "reference NAV". Subscription/redemption requests submitted after 6.30 pm (Paris time) on a Primary Market Day will be processed as if received from 9:00 am to 6.30 pm (Paris time) on the following Primary Market Day. Subscription and redemption orders must be for a whole number of shares and represent a minimum amount of at least 100,000 euros (or the USD equivalent).

Subscriptions and redemptions in cash:

Subscriptions/redemptions made exclusively in cash will be carried out on the basis of the reference NAV.

Delivery and settlement:

Settlement/delivery of subscriptions and redemptions shall be completed within five French business days upon receipt of the subscription or redemption order.

Date and frequency of net asset value calculation:

The net asset value will be calculated and published daily, provided that at least one exchange on which the Sub-fund's shares are listed is open and that orders placed in the primary and secondary markets can be funded.

The Sub-fund's net asset value is calculated using the Benchmark Index's closing price.

The net asset value of a share class that is denominated in another currency than the Sub-fund's accounting currency (if applicable) is calculated using the exchange rate between the accounting currency and the currency of the share class, at the applicable WM Reuters rate on the date the reference NAV is calculated.

2. PURCHASES AND SALES ON THE SECONDARY MARKET

A. COMMON PROVISIONS

For any purchase or sale of shares in the Sub-fund executed directly on an exchange on which the Sub-fund is admitted or will be admitted for continuous trading, no minimum purchase or sale amount is required other than that which may be required by the relevant exchange(s).

Shares in a listed Sub-fund that are purchased on the secondary market cannot generally be directly sold back to that Sub-fund. Investors must therefore buy and sell their shares on a secondary market through an intermediary (e.g. a broker) and may consequently incur costs. Furthermore, there is a possibility that investors may pay more than the indicative net asset value when buying shares and receive less than the indicative net asset value when selling shares.

If the stock market value of a listed fund's shares or units differs significantly from their indicative net asset value, or if trading in the fund's shares or units is suspended, investors may be authorized, subject to the conditions set forth below, to redeem their shares on the primary market directly from the fund, without being subject to the minimum redemption amount requirement set forth herein in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)".

The management company shall decide whether to allow such primary market redemptions and for how long, on the basis of the following criteria for assessing the significance of a market disruption:

- The suspension or strong disturbance of secondary trading on a given exchange is relatively frequent
- The link between the market disruption and secondary market operators (such as the default of one or more of the Market Makers of a given exchange, or a breakdown or malfunction of an exchange's IT or operating systems), excluding a disruption caused by a source external to the secondary exchange on which the Sub-fund's shares are traded, such as an event that affects the liquidity and valuation of all or some of the Benchmark Index's components
- Any other objective circumstance that could adversely affect the fair treatment and/or the interests of the Sub-fund's share-holders.

Notwithstanding the provisions concerning fees presented in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)", redemptions made in the primary market in this case shall only be subject to a net redemption fee of 1% paid to the Sub-fund and which serves to cover its trading costs.

In such exceptional cases when redemption in the primary market is allowed, the Management Company shall post on Lyxor's website at www.lyxor.etf.com the procedure that investors must observe to redeem their shares in the primary market. The Management Company shall also make this procedure available to the market undertaking that handles trading in the Sub-fund's shares.

B. SPECIFIC PROVISIONS

a. If the Sub-fund's shares are listed on Euronext Paris, as indicated in the "Key Information" part of the "General Characteristics" section of the Fund's prospectus, investors should note the following rules:

Negotiability of shares and information about the financial institutions acting as Market Makers:

The shares are freely negotiable on the Euronext Paris regulated market under the following conditions and according to the applicable legal and regulatory provisions.

The Sub-fund shares will be listed on a specific trading list, the rules for which are defined in the following instructions published by Euronext Paris SA:

- Instruction No. 4-01 " Universal Trading Platform Manual"
- Appendix to Instruction N4-01 (Appendix to the Euronext Market Trading Manual)
- Instruction No. 6-04 "Documentation to be provided when filing a listing application for an ETF, ETN, ETV and open-ended undertakings for collective investment other than"

Pursuant to article D 214-22-1 of the French Monetary and Financial Code the units or shares of undertakings for collective investments in transferable securities may be admitted to trading, provided that these undertakings have a system to ensure that the market price of their units or shares does not differ significantly from their net asset value. Under Euronext Paris SA's rules trading in the Sub-fund's shares is also subject to a 'reservation threshold' of 3% above or below the Sub-fund's indicative net asset value or "iNAV" (see the "Indicative Net Asset Value" section), as published by Euronext Paris SA and updated on an estimated basis during trading in accordance with the change in the Benchmark Index.

To comply with Euronext Paris SA's reservation threshold requirement the Market Makers will ensure that the market price of the Sub-fund's shares does not differ from the Sub-fund's indicative Net Asset Value by more than 3% (see the section entitled "Indicative net asset value").

Euronext Paris SA may suspend trading in the Sub-fund's shares pursuant to the terms of its operating rules, if the aforementioned reservation threshold limit is exceeded.

Euronext Paris SA will also suspend trading in the Sub-fund's shares in the following cases:

- the Benchmark Index is no longer traded or calculated
- Euronext Paris SA cannot obtain the Benchmark Index's level
- Euronext Paris SA cannot obtain the Sub-fund's net asset value

In accordance with the terms and conditions governing admission to trading on Euronext Paris, the Market Makers undertake to provide market-making services for the Sub-fund's shares as soon as they are admitted to trading on the Euronext Paris exchange.

In particular, the Market Makers undertake to carry out market-making operations by maintaining a significant presence in the market, which initially entails the setting of a bid/ask spread.

More specifically, the Market Makers are required by contract with Euronext Paris SA to ensure that the Sub-fund maintains:

- a maximum global spread of 3% between the bid and offer price in the centralized order book.
- a minimum nominal trading value of EUR 100,000.

The obligations of the Sub-fund's Market Makers will be suspended in the following cases:

- the Benchmark Index is no longer traded or calculated
- if trading is substantially disrupted, for example due to a widespread shift in prices or an event that makes normal market making impossible.

Indicative Net Asset Value:

Euronext Paris SA will calculate and publish, each Trading Day (as defined below) during trading hours, the Sub-fund's indicative net asset value (hereinafter "iNAV").

A "Trading Day" is a day on which NSYE Euronext is normally open and on which the Benchmark Index is normally published.

The Sub-fund's iNAV is a theoretical net asset value calculated every 15 seconds by Euronext SA throughout the Paris trading day and is based on the level of the Benchmark Index. The iNAV enables investors to compare the prices that the Market Makers offer on the market with the theoretical value calculated by Euronext.

The iNAV will be calculated every day that the net asset value is calculated and published.

For the calculation of the Sub-fund's iNAV during the Paris trading session (from 9.05 am to 5.35 pm), Euronext Paris SA will use the Benchmark Index value published by Reuters.

If one or more exchanges on which the Benchmark Index's constituent equities are listed are closed (on a public holiday on the TARGET calendar), and if the INAV cannot be calculated, trading in the Sub-fund's shares may be suspended.

Lyxor International Asset Management, the Sub-fund's asset manager by delegation, will provide Euronext Paris SA with all the financial and accounting data that Euronext Paris SA needs to calculate the Sub-fund's iNAV and in particular as the reference net asset value, the net asset value of the Sub-fund on the previous business day, along with a reference level for the Benchmark Index that is the previous business day's fixing price.

Euronext Paris SA will use this reference net asset value and these reference Benchmark Index levels to calculate the Sub-fund's iNAV for the next Trading Day, which is updated in real time.

Additional information about the indicative net asset value of a share listed on an exchange may, in accordance with the terms and limits set by the relevant market undertaking, be provided on this exchange's website. This information is also available on the Reuters or Bloomberg pages dedicated to the particular share. Additional information about the Bloomberg and Reuters codes for the indicative net asset values of all UCITS ETF type share classes is also available in the "Term Sheets" section of Lyxor's website at www.lyxoretf.com.

b. **If the Sub-fund's shares are listed on an exchange other than Euronext Paris, as indicated in the "Key Information" section, investors should note the following**

Investors wishing to acquire shares in the Sub-fund or obtain more information regarding the market-making terms that govern the listing and trading of shares on the types of exchanges indicated in the "Key Information" section are advised to familiarize themselves with the guidelines laid down by the relevant market undertaking, in compliance with local regulations, and to seek if necessary the assistance of their usual broker(s) for executing trades on the relevant exchange(s).

FEES AND CHARGES

SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)

The subscription and redemption fees shown below respectively increase the subscription price paid by the investor and decrease the redemption price received. Fees kept by the Sub-fund compensate it for the expenses it incurs in investing in the Sub-fund's assets or in divesting these assets. Any fees that are not kept by the Sub-fund are paid to the asset manager, the marketing agent or other service provider.

C-EUR, D-EUR, C-USD AND D-USD SHARES:

Fees paid by investors upon subscription or redemption	Base	Maximum charge
Subscription fee not kept by the Sub-fund	NAV per share × number of shares	The higher value of either EUR 100,000 per subscription order or 10% payable to third parties
Subscription fee kept by the Sub-fund	NAV per share × number of shares	N/A
Redemption fee not kept by the Sub-fund	NAV per share × number of shares	The higher value of either EUR 100,000 per redemption order or 10% payable to third parties
Redemption fee kept by the Sub-fund	NAV per share × number of shares	N/A

OPERATIONAL AND MANAGEMENT FEES

These fees cover all the costs invoiced directly to the Sub-fund, except for transaction expenses, which include intermediary fees (brokerage, stock market taxes etc.) and any account activity charge that may be charged by the depositary or the asset manager, in particular.

For this Sub-fund the following fees may be charged in addition to the operating and management fees (see table below):

- incentive fees, which the Sub-fund pays to the management company when the Sub-fund exceeds its objectives
- account activity charges charged to the Sub-fund.

For more information on the fees or expenses that the Sub-fund must pay, see the Statistics section of the Key Investor Information Document (KIID).

Fees charged to the Sub-fund	Base	Maximum charge
Investment management fees and administration fees that are external to the management company (auditor, depositary, fund distribution and legal fees) including tax ⁽¹⁾	Net asset value	0.40% per annum
Account activity charge	Charge on each transaction	N/A
Incentive fee	Net asset value	N/A

⁽¹⁾ Includes all fees and expenses except for transaction expenses, incentive fees and fees associated with investment in UCITS..

COMMERCIAL INFORMATION

Distribution of this prospectus and the offering or purchase of the Fund's share classes may be subject to restrictions with regard to certain persons or in certain countries under national regulations that may apply to these persons or countries. Investors are therefore responsible for ensuring that they can legally subscribe to or invest in this Fund. The information in this prospectus therefore cannot be construed to be an offer or solicitation to buy or sell shares in this Fund in a country where such offer or solicitation is unlawful.

The Fund's share classes will not be registered pursuant to the U.S. Securities Act of 1933, as amended (the "U.S. Securities Act") and cannot be offered, assigned, transferred or allocated to the United States of America, or to:

- (A) any "U.S. Person", as this term is defined (i) under Regulation S of the US Securities Act of 1933 and (ii) under U.S. regulations as defined in Section 7701 (a) (30) of the Internal Revenue Code of 1986 as amended. The Fund's shares will not be offered to U.S. Persons.
- (B) anyone other than those persons considered to be "non-US Persons" as this term is defined under U.S. regulations pursuant to the Commodity Futures Trading Commission, Rule 4.7 (a) (1) (iv).

The Fund's shares will only be offered for sale outside of the United States of America to non-U.S. Persons.

For the purpose of this document, the term "U.S. Person" shall mean, among other things, any individual who resides in the United States of America, any entity organized or formed under the laws of the United States of America, certain entities organized or formed outside of the United States of America by one or more U.S. persons, or any account held on behalf of such a U.S. person.

Under the German tax act on investment funds (InvStG-E), the Sub-fund is a "mutual fund" and must comply with the criteria that apply to "equity funds". As such, the Sub-fund will hold a basket of securities that are eligible for the equity ratio as this term is defined under said German tax act, and which will represent at least 94% of its net assets under normal market conditions. To ensure compliance with this ratio, the Sub-fund may adjust this basket of securities on a daily basis. Before making an investment in this Fund or Sub-fund, investors should seek the advice of their financial, tax and legal advisers.

PLACE AND METHOD OF NET ASSET VALUE PUBLICATION OR COMMUNICATION

At the head office of LYXOR INTERNATIONAL ASSET MANAGEMENT, at 17, cours Valmy - 92987 Paris La Défense CEDEX - France.

Euronext Paris SA will calculate and publish the Sub-fund's indicative net asset value , each Trading Day (as defined below) during trading hours.

IMPORTANT INFORMATION ABOUT THE BENCHMARK INDEX PROVIDER

The CSI 300 Net Total Return Index is calculated by China Securities Index Company ("CSI"). CSI gives no guarantee, express or implicit, to any of its clients or to any other party as to the accuracy or completeness of any data relating to the Benchmark Index. All information is purely indicative. CSI is not liable for any errors or for any losses resulting from the use of such data.

ADDITIONAL INFORMATION

The Sub-fund's shares are accepted for clearing by Euroclear France S.A.

Subscription and redemption orders are sent by the investors' financial intermediaries (members of Euroclear France SA) to the Depositary.

The Multi Units France fund prospectus, the Key Investor Information Document and the most recent annual reports will be sent to investors within eight business days upon receipt of a written request addressed to:

LYXOR INTERNATIONAL ASSET MANAGEMENT
17 Cours Valmy - 92987 Paris La Défense France.

E-mail: contact@lyxor.com

More information can also be requested from Lyxor International Asset Management on its website at www.lyxoretf.com.

Prospectus publication date: See the "Publication Date" section.

Pursuant to Article L. 533-22-1 of the French Monetary and Financial Code, information concerning the possible inclusion of social, environmental and corporate governance objectives and performance criteria in the investment policy is available on the asset manager's website and in the Multi-Unit France fund annual report..

The AMF's website (www.amf-france.org) provides more information on the regulatory documents and various provisions that concern investor protection. This Prospectus shall be made available to investors prior to subscription.

INVESTMENT RULES

The Sub-fund will comply with the investment rules of European Directive 2009/65/EC of 13 July 2009.

The Sub-fund may invest in the assets specified in Article L214-20 of the French Monetary and Financial Code, subject to the risk-diversification and investment ratio requirements of Articles R214-21 to R214-27 of said Code.

Notwithstanding the 10% limit under Paragraph II of Article R214-21 of the French Monetary and Financial Code, the Sub-fund may invest up to 20% of its assets in the equities and debt securities of a single issuer, in compliance with Article R214-22-I, which deals with index-tracking funds. Pursuant to Article R214-22 II, the Sub-fund may also increase this 20% limit for a single issuer to 35%, when this is justified by exceptional market conditions, and in particular when certain securities are largely dominant.

OVERALL RISK EXPOSURE

The commitment approach is used to calculate the overall risk exposure.

ASSET RECOGNITION AND VALUATION RULES

A. VALUATION RULES

The Sub-fund's assets are valued in accordance with applicable laws and regulations and most notably Regulation No. 2014-01 of 14 January 2014 of the Comité de la Réglementation Comptable (the Accounting Regulations Committee), which applies to the chart of accounts for undertakings for collective investment in transferable securities.

Financial instruments traded on a regulated market are valued at the closing price recorded on the day prior to the calculation of the net asset value. If these financial instruments are traded on several regulated markets at the same time, the closing price used is that recorded on the regulated market on which they are principally traded.

However, in the absence of significant trading on a regulated market, the following financial instruments are valued using the following methods:

- Negotiable debt securities ("NDS") with a remaining life upon acquisition that is less than or equal to three months are valued by applying the difference between the acquisition value and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life of more than three months upon acquisition but less than or equal to three months at the net asset value calculation date are valued by applying the difference between the most recent valuation and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life at the net asset value calculation date that exceeds three months are valued at their current value. The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- Financial futures traded on organized markets are valued at the clearing price on the day prior to the calculation of the net asset value. Options traded on organized markets are valued at their market price on the day prior to the calculation of the net asset value. Forward contracts and over-the-counter options are valued at the price quoted by the counterparty. The management company monitors these prices independently.
- Bank deposits are valued at their nominal value plus accrued interest.
- Warrants, short and medium-term notes (bons de caisse), promissory notes and mortgage notes are valued under the management company's responsibility at their most likely trading value.
- Securities financing transactions are valued at the market price.
- Shares and units in UCITS under French law are valued at the last known net asset value on the day the Sub-fund's net asset value is calculated.
- Shares and units in foreign investment funds are valued at the last known unitary net asset value at the date the Sub-fund's net asset value is calculated.
- Financial instruments traded on a regulated market and for which no price has been quoted or whose price has been corrected, are valued under the management company's responsibility at their most likely trading value.
- The exchange rates used to value financial instruments denominated in a currency other than the Sub-fund's base currency are the WM Reuters fixing rates published on the day the Sub-fund's net asset value is calculated.

B. ACCOUNTING METHOD FOR TRADING EXPENSES

Trading expenses are included in the initial cost of the transaction.

C. ACCOUNTING METHOD FOR INCOME FROM FIXED-INCOME SECURITIES

Income from fixed-income securities is accounted for using the cash-basis method.

D. DISTRIBUTION POLICY

For more information see the section entitled "Calculation and appropriation of Distributable amounts".

E. ACCOUNTING CURRENCY

The Sub-fund's accounts are kept in euros.

SUB-FUND NO 18: Lyxor PEA Amerique Latine (MSCI EM Latin America) UCITS ETF

A SICAV SUB-FUND COMPLIANT WITH DIRECTIVE 2009/65/CE

ISIN CODES

Capi share class: FR0011551019

CLASSIFICATION

Global equities.

The Lyxor PEA Amerique Latine (MSCI EM Latin America) UCITS ETF sub-fund (the "**Sub-fund**") continuously maintains at least 60% exposure to one or more of the equity markets one or more eurozone countries, which may include France.

The Sub-fund is a UCITS ETF type index tracker.

INCEPTION DATE

The Sub-fund was approved by l'autorité des Marchés Financiers (the French financial markets authority) on 08/08/2013, and was established on 02/09/2013.

INVESTMENT OBJECTIVE

The Sub-fund's investment objective is to replicate increases and decrease in the MSCI Emerging Markets Latin America Net Total Return index (the "**Benchmark Index**"), denominated in US dollars (USD), while minimizing the tracking error between the Sub-fund's performance and that of its Benchmark Index, which is representative of the performance of large and mid-cap companies in the following five countries: Brazil, Chile, Colombia, Mexico and Peru.
The expected ex-post tracking error under normal market conditions is 0.10%.

BENCHMARK INDEX

The Benchmark Index is the MSCI Emerging Markets Latin America Net Total Return, with net dividends reinvested.

The Benchmark Index measures the performance of South American equity markets.

The Benchmark Index is calculated and published by international index provider MSCI.

MSCI Inc. is one of the leading providers of financial indices. MSCI's products and services include not only financial indices, but also performance and risk analysis tools for investors. MSCI is based in New York, and has commercial and research offices across the world.

The Benchmark Index is an equity index that is calculated and published by the global index provider MSCI. The Benchmark Index consists solely of Latin-American emerging market equities and has the same basic characteristics as the MSCI indices, which include free-float adjustment of the market capitalization of the Benchmark Index's components and 85% representativeness of the overall float-adjusted market capitalization of each national equity market

The emerging markets are those of Brazil, Chile, Colombia, Mexico and Peru.

The Benchmark Index is based on the MSCI Global Investable Market Indices (GIMI) methodology, which provides a consistent, overall method for constructing global or regional benchmark indices, for listed companies of all sizes and in all economic sectors and for all investment styles. The GIMI methodology aims to provide comprehensive coverage of the investment universe while ensuring optimum liquidity, investability and reproducibility. The Benchmark Index is revised quarterly (in February, May, August and November) to reflect changes in emerging equity markets while limiting portfolio turnover. During the reviews of May and November, the Benchmark Index is reweighted and the limits between mid-cap and large-cap stocks are revised.

A full description of the Benchmark Index and its construction methodology and information on the composition and respective weightings of the Benchmark Index components are available on the Internet at www.msci.com.

Benchmark Index composition and revision

The Benchmark Index is rebalanced quarterly.

The exact composition and MSCI's rules for rebalancing the Benchmark Index are available on the internet at www.msci.com

The frequency with which the Benchmark Index is rebalanced does not affect the cost of implementing the Investment Strategy.

Benchmark Index publication

The Benchmark Index is calculated daily at the official closing price of the exchanges where the index constituents are listed.

The Benchmark Index is also calculated in real time every stock exchange trading day.

Real-time Benchmark Index values are available via Bloomberg and Reuters.

Reuters code: .dMILA00000NUS

Bloomberg code: NDUEEGFL

The Benchmark Index's closing price is available on MSCI's website at www.msclatam.com.

Pursuant to Article 52 of European Parliament and Council Regulation 2016/1011 of 8 June 2016, MSCI, the administrator of the MSCI Emerging Markets Latin America Net Total Return benchmark index, has until 1 January 2020 to apply for approval or registration as applicable.

As of the date of the most recent version of this prospectus, the benchmark index administrator was not yet listed in ESMA's register of benchmark administrators.

Pursuant to European Parliament and Council Regulation 2016/1011 of 8 June 2016, the asset management company has a procedure for monitoring the benchmark indices used that specifies the measures to be implemented if an index is substantially modified or is no longer provided.

INVESTMENT STRATEGY

1. Strategy employed

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund will employ an indirect replication method, which means that it will enter into one or more OTC swap contracts enabling it to achieve its investment objective. These swap contracts will serve to exchange the value of the Sub-fund's assets, which will consist of cash and/or balance sheet assets (excluding any securities received as collateral), for the value of the securities that underlie the Benchmark Index.

The Sub-fund's equities will be mainly those that make up the Benchmark Index, and also other international equities, in all economic sectors and listed in all markets, including small-cap markets.

The basket of securities held may be adjusted daily such that its value will generally be at least 100% of the net assets. When necessary, this adjustment will be made to ensure that the counterparty risk arising from the aforementioned swap contract will be neutralized.

Information on the updated composition of the basket of 'balance sheet' assets in the Sub-fund's portfolio and the value of the swap contract concluded by the Sub-fund, is available on the page dedicated to the Sub-fund on Lyxor's website at www.lyxoretf.com. The frequency of any updates and/or the date on which the aforementioned information is updated is also indicated on the same page of the aforementioned website.

The Sub-fund will at all times invest at least 75% of its assets in companies with head offices in a member state of the European Union or in another country that is a member of the European Economic Area and which has signed a tax convention with France that includes an administrative assistance clause for the purpose of fighting tax fraud and evasion. This minimum investment requirement qualifies the Sub-fund for French 'PEA' equity savings plans.

Up to 20% of the Sub-fund's assets may be exposed to equities issued by the same entity. This 20% limit will be checked on each rebalancing date for the Benchmark Index, by applying the method for calculating the Benchmark Index which limits exposure to the same issuing entity to 20% and where the calculation is carried out by the sponsor or agent for calculating the Benchmark Index. This 20% limit may be increased to 35% for a given issuing entity when this is shown to be justified by exceptional market conditions, in particular when certain securities are largely dominant and/or in the event of strong volatility affecting a financial instrument or securities linked to an economic sector represented in the Benchmark Index, particularly in the event of a public offering that substantially affects a Benchmark Index security or in the event of a significant drop in the liquidity of one or more of the Benchmark Index's financial instruments.

For this Sub-fund, the asset manager mainly intends to use the following assets:

2. Balance sheet assets (excluding embedded derivatives)

In accordance with regulatory ratios, the Sub-fund may invest in global equities in all economic sectors and listed on any exchange, including "small-cap" exchanges.

The aforementioned equities will be selected on the basis of the following:

- eligibility criteria and in particular:
 - their inclusion in a major stock exchange index or in the Benchmark Index
 - liquidity (must exceed a minimum daily trading volume and market capitalization)
 - credit rating of the country where the issuer has its registered office (must have a least a minimum S&P or equivalent rating)
- diversification criteria, and in particular:
 - the issuer (application of investment ratios to assets that qualify for UCITS, pursuant to Art. R214-21 of the French Monetary and Financial Code)
 - geographic
 - sector

Investors may find more information on the above eligibility and diversification criteria, and in particular the list of eligible indices, on Lyxor's website at www.lyxoretf.com.

Investment in undertakings for collective investment in transferrable securities ("UCITS") that comply with Directive 2009/65/EC is limited to 10% of the Sub-fund's net assets.

The fund manager will not invest in the shares or units of alternative investment funds (AIF) or other investment funds that were formed under a foreign law. The Sub-fund may invest in the shares of UCITS managed by the management company or by a company that is related to the management company.

When the Fund receives collateral in the form of securities, subject to the terms of section 8 below, it acquires full title to these securities and they are therefore included among the balance sheet assets to which it has full title.

To optimize the Sub-fund's management and achieve its investment objective, the asset manager reserves the right to use other financial instruments, in compliance with regulations.

3. Off-balance sheet assets (derivatives)

The Sub-fund will use OTC index-linked swaps that swap the value of the Sub-fund's assets (or the value of any other financial instrument or asset the Sub-fund may hold) for the value of the Benchmark Index (as described in part 1 of this section).

- Maximum proportion of assets under management for which total return swaps (TRS) may be entered into: 100%.
- Expected proportion of assets under management for which total return swaps (TRS) may be entered into: up to 100%.

To optimize the Sub-fund's management and achieve its investment objective, the manager reserves the right to use other financial instruments in compliance with regulations, such as derivative instruments other than index-linked swaps.

In accordance with its best execution policy, the management company considers that Société Générale is the counterparty that is generally able to obtain the best possible execution for these derivative financial instruments. Accordingly, these derivative financial instruments (including index-linked swaps) may be traded via Société Générale without having to seek a competitive bid from another counterparty.

The counterparty of the derivative financial instruments referred to above (the "Counterparty") will have no discretionary power over the composition of the Sub-fund's portfolio nor over the underlying assets of the derivative financial instruments.

4. Securities with embedded derivatives

N/A.

5. Cash deposits

In order to optimize its cash management, the Sub-fund may deposit up to 20% of its assets in the form of cash with credit institutions that belong to the same group as the depositary.

6. Cash borrowing

The Sub-fund may temporarily borrow up to 10% of its net assets.

7. Securities financing transactions

The manager shall not engage in any temporary purchases or sales of securities.

8. Collateral

Whenever the investment strategy exposes to the Sub-fund to counterparty risk, and in particular when the Sub-fund uses over-the-counter swaps, the Sub-fund may accept eligible securities as collateral to reduce the counterparty risk associated with these swaps. The portfolio of collateral received may be adjusted daily to ensure that its value is at least sufficient to cover the Sub-fund's counterparty risk in most cases. The purpose of this adjustment is to neutralize the Sub-fund's counterparty risk.

The Sub-fund will have full title to all collateral received, which will be deposited in the Sub-fund's account with the depositary. This collateral will therefore be included in the Sub-fund's assets. If a counterparty defaults on an obligation, the Sub-fund may dispose of the assets received from the counterparty in respect of the secured transaction to pay off the counterparty's debt to the Sub-fund.

All collateral the Sub-fund receives for this purpose must comply with the applicable laws and regulations, with respect in particular to the liquidity and valuation of the collateral, the credit-worthiness of securities issuers, risk exposure correlation and the risks of collateral management and enforceability. All collateral received must in particular meet the following criteria:

- (a) All collateral must be of high quality, be highly liquid and tradable on a regulated market or on a multilateral trading facility, with transparent pricing to enable the collateral to be rapidly sold near its estimated price;
- (b) This collateral must be valued at its mark-to-market value at least daily and assets with highly volatile prices are not acceptable as collateral, unless a sufficiently prudent discount or "haircut" is applied;
- (c) The issuer of this collateral must be independent of the counterparty and must not be closely correlated with the counterparty's financial performance;
- (d) This collateral must be sufficiently diversified by country, market and issuer, and no exposure to a single issuer may exceed 20 % of the Sub-fund's net asset value;
- (e) The Sub-fund's Management Company must be able to enforce this collateral in full and at any time, without having to consult with the counterparty or obtain its approval.

Notwithstanding the condition specified in (d) above, the Fund may accept a basket of securities collateral that increases its exposure to a single issuer to more than 20% of its net asset value provided that:

- such securities collateral is issued by (i) a Member State, (ii) one or more of a Member State's local authorities, (iii) a country that is not a Member State (iv) a public international organization to which one or more Member States belong; and;
- such securities collateral consists of at least six different issues of securities of which no single issue exceeds 30% of the Sub-fund's assets.

Subject to the above conditions, the Sub-Fund may take collateral in the following forms:

- (i) Cash and cash-equivalent assets, which for example include short-term bank deposits and balances and money-market instruments;
- (ii) Bonds issued or guaranteed by an OECD member state, or by its local government entities, or by an EU, regional or global supranational institution or organisation, or by any country provided that conditions (a) to (e) above are fully complied with;
- (iii) Shares or units issued by money-market funds that calculate a daily net asset value and have an AAA or equivalent credit rating;
- (iv) The shares or units of UCITS that invest mainly in the bonds and/or equities indicated in (v) and (vi) below;
- (v) Bonds issued or guaranteed by first-class issuers offering sufficient liquidity;
- (vi) Equities admitted for trading or traded on a regulated exchange of an EU member country, on a stock exchange of an OECD member country or on a stock exchange of another country provided that conditions (a) to (e) above are fully complied with and that these equities are components of a major index.

Collateral discount policy:

The Sub-fund's management company shall apply a discount to the collateral accepted by the Sub-fund. The amount of these discounts will depend mainly on the following:

- The nature of the collateral asset;
- The collateral's maturity (if applicable);
- The credit rating of the collateral issuer (if applicable).

Reinvestment of collateral:

Non-cash collateral will not be sold, reinvested or pledged.

At the manager's discretion, cash collateral may either be:

- (i) deposited with an authorized institution
- (ii) invested in high-quality government bonds
- (iii) used for reverse repurchase transactions, provided that these are entered into with credit institutions that are subject to prudential supervision and that the fund is able to withdraw the total amount of its cash collateral and the accrued interest at any time
- (iv) invested in short-term money market funds that meet the guidelines for a common EU definition of money market funds.

All cash collateral that is reinvested must be invested in a diversified manner in compliance with the rules that apply to the acceptance of non-cash collateral.

RISK PROFILE

Investors' money will be invested mainly in the financial instruments selected by the management company. These instruments are subject to market trends and contingencies.

Investors in the Sub-fund will mainly be exposed to the following risks:

Equity risk

The price of an equity security can increase or decrease in accordance with changes in the issuer's risk exposure or in the economic conditions of the market in which the security is traded. Equity markets are more volatile than fixed income markets, where under stable macroeconomic conditions income over a given period of time can be estimated with reasonable accuracy.

Capital risk

The capital invested is not guaranteed. Investors therefore may not recover all or part of their initial investment, particularly in the event that the Benchmark Index posts a negative return over the investment period.

Liquidity risk (primary market)

The Sub-fund's liquidity and/or value may be adversely affected if, when the Sub-fund or a counterparty to a financial derivative instrument (DFI) is rebalancing its exposure, the underlying financial markets are restricted, closed, or subject to large bid/offer spreads. An inability, due to low trading volume, to execute the trades required to replicate the Benchmark Index may also adversely affect the subscription, conversion or redemption of shares.

Liquidity risk (secondary market)

The price of the Sub-fund's listed shares or units may deviate from the Sub-fund's indicative net asset value. The liquidity of the Sub-fund's shares traded on a given exchange may be adversely affected by a suspension in trading for various reasons, such as:

- i) the calculation of the Benchmark Index is suspended or stopped
- ii) trading in the market(s) in the Benchmark Index's underlying assets is suspended
- iii) an exchange cannot obtain or calculate the Sub-fund's indicative net asset value
- iv) a market maker fails to comply with an exchange's rules
- v) an exchange's IT, electronic or other system fails.

Counterparty risk

The Sub-fund is exposed to the risk that a counterparty with which the Sub-fund has entered into a contract or transaction may go bankrupt or default on a settlement or other obligation. The Sub-fund is mainly exposed to counterparty risk resulting from the use of derivative financial instruments (DFI) traded over the counter with Société Générale or some other counterparty. In compliance with UCITS regulations, exposure to counterparty risk (whether the counterparty is Société Générale or another entity), cannot exceed 10% of the Sub-fund's total assets per counterparty.

If a counterparty defaults on an obligation the DFI contract may be terminated before maturity. The Sub-fund will do everything in its power to achieve its investment objective by, if appropriate, entering into another DFI contract with another counterparty at the market conditions at the time of such an event.

If this counterparty risk materializes it could have an impact on the Sub-fund's ability to achieve its investment objective of replicating the Benchmark Index

When Société Générale is the DFI counterparty, conflicts of interest may arise between it and the Sub-fund's management company, which has procedures to identify and reduce such conflicts of interest and to resolve them equitably if necessary.

Emerging Market Risk

The Sub-fund's exposure to emerging markets carries a greater risk of potential loss than an investment in traditional developed markets. Specifically, market operating and supervision rules for an emerging market may differ from standards applicable in developed markets. In particular, exposure to emerging markets can entail: increased market volatility, lower trading volumes, a risk of economic and/or political instability, an uncertain or unstable tax regime and/or regulatory environment, market closure risks, government restrictions on foreign investments, an interruption or limitation of convertibility or transferability of one of the currencies included in the Benchmark Index.

- Risk that the investment objective is not fully achieved

There is no guarantee that the investment objective will be achieved, as no asset or financial instrument can ensure that the Benchmark Index will be automatically and continuously replicated, particularly in the event of one or more of the following risks.

- Risk of using derivative financial instruments

In order to achieve its investment objective, the Sub-fund can enter into transactions involving over-the-counter derivative financial instruments (DFI), such as swaps, in order to secure the performance of the Benchmark Index. These DFI involve various risks, such as These DFI involve various risks, such as counterparty risk,

hedging disruption, Benchmark Index disruption, taxation risk, regulatory risk, operational risk and liquidity risk. These risks can materially affect an DFI and may require an adjustment of the DFI transaction or even its premature termination, which could adversely affect the Sub-fund's net asset value.

- Risk due to a change in tax regime

A change in the tax regime of a jurisdiction where the Sub-fund is domiciled, authorised for sale or listed could adversely affect the taxation of investors. In such an event, the Sub-fund manager shall not be liable to any investor with respect to any payment that may have to be made to a competent tax authority.

- Risk due to a change in the tax regime of the Sub-fund's underlying assets

A change in the taxation of the Sub-fund's underlying assets could adversely affect the Sub-fund's taxation. As a result, in case of a discrepancy between the estimated taxes owed and the actual tax treatment applied to the Sub-fund (and/or to the Sub-fund's DFI counterparty), the Sub-fund's net asset value may be adversely affected.

- Regulatory risk affecting the Sub-fund

In the event of a change in the regulatory regime in a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed, the subscription, conversion or redemption of units or shares may be adversely affected.

- Regulatory risk affecting the Sub-fund's underlying assets

In the event of a change in the regulations that govern the Sub-fund's underlying assets, the Sub-fund's net asset value and the subscription, conversion or redemption of shares may be adversely affected.

- Benchmark Index disruption risk

If an event adversely affects the Benchmark Index, the Sub-fund manager may be required, as provided for by law, to suspend the subscription and redemption of the Sub-fund's shares or units. The calculation of the Sub-fund's net asset value could also be adversely affected.

If the disruption of the Benchmark Index persists, the Sub-fund manager will determine an appropriate course of action, which could decrease the Sub-fund's net asset value.

A 'Benchmark Index event' includes but is not limited to the following situations:

i) the Benchmark Index is deemed to be inaccurate or does not reflect actual market developments

ii) the Benchmark Index is permanently cancelled by the index provider

iii) the index provider is unable to indicate the level or value of the Benchmark Index

iv) The index provider makes a material change in the Benchmark Index calculation formula or method (other than a minor modification such as an adjustment to the Benchmark Index's underlying components or their respective weightings) which the Sub-fund cannot effectively replicate at a reasonable cost

v) a Benchmark Index component becomes illiquid because it is no longer traded on a regulated market or because its trading over-the-counter (e.g. bonds) is disrupted.

vi) the Benchmark Index components are exposed to higher transaction costs for execution or settlement/delivery, or to specific tax constraints and these costs are not reflected in the Benchmark Index's performance.

- Corporate action risk

An unforeseen change, by the issuer of a security that is a component of the Benchmark Index, in a planned corporate action that is in contradiction with a previous official announcement on which the Sub-fund based its valuation of the corporate action (and/or on which the Sub-fund's counterparty to a financial derivative instrument or transaction based its valuation of the corporate action) can adversely affect the Sub-fund's net asset value, particularly if the Sub-fund's treatment of the corporate event differs from that of the Benchmark Index methodology.

- Currency risk associated with the Benchmark index

The Sub-fund is exposed to currency risk since the securities that underlie the Benchmark Index may be denominated in a different currency than the Benchmark Index, or be derivatives of securities that are denominated in a different currency than the Benchmark Index. Changes in exchange rates may therefore adversely impact the Sub-fund's Benchmark Index.

- Legal risk

The Fund may be exposed to a legal risk arising from a total return swap (TRS) agreement as indicated in EU Regulation No. 2015/2365.

ELIGIBLE INVESTORS AND TYPICAL INVESTOR PROFILE

The Sub-fund is available to all investors.

Investors in this Sub-fund are seeking exposure to the Latin American equities market.

The amount that can be reasonably invested in the Sub-fund depends on each investor's personal situation. To determine this amount, investors must take into account their personal wealth and/or estate, their cash requirements at present and for the next five years, and their willingness to take on risk or adopt a more cautious approach. Investors are also advised to diversify their investments sufficiently so as not to be exposed solely to this Sub-fund's risks.

All investors are therefore asked to consider their specific situation with the help of their usual investment advisor.

The recommended minimum investment period is at least five years.

CALCULATION AND APPROPRIATION OF DISTRIBUTABLE AMOUNTS

C-EUR share class: all distributable amounts are accumulated

DISTRIBUTION FREQUENCY

N/A.

SHARE CHARACTERISTICS

Subscription orders may be placed for a specific monetary amount or for a whole number of shares.
Only a whole number of shares may be redeemed.

SHARE CURRENCY

Euros

SUBSCRIPTION AND REDEMPTION

1. SUBSCRIPTION AND REDEMPTION ON THE PRIMARY MARKET

Subscription/redemption orders for shares in the Sub-fund will be processed by the Depositary from 9:00 am to 6.30pm (Paris time), every day that the Sub-fund's net asset value is to be published, provided that prices can be quoted for a significant proportion of the Benchmark Index components (hereinafter a "**Primary Market Day**"), and will be executed at the net asset value on that Primary Market Day, hereinafter the "**reference NAV**". Subscription/redemption requests submitted after 5.00 pm (Paris time) on a Primary Market Day will be processed as if received from 9:00 am to 6.30 pm (Paris time) on the following Primary Market Day. Orders to subscribe for or redeem shares in the Sub-fund must be made for an exact number of whole shares that corresponds to a minimum amount of at least 100,000 euros.

Subscriptions and redemptions in cash

Subscriptions and redemptions shall be made exclusively in cash and executed at the ref NAV.

Delivery and settlement

Settlement/delivery of subscriptions and redemptions shall be completed within five French business days upon receipt of the subscription or redemption order.

Date and frequency of net asset value calculation

The net asset value will be calculated and published daily, provided that at least one exchange on which the Sub-fund's shares are listed is open and that orders placed in the primary and secondary markets can be funded.

The Sub-fund's net asset value is calculated using the Benchmark Index's closing price. The Sub-fund's net asset value is denominated in EUR.

The net asset value of a share class that is denominated in another currency than the Sub-fund's accounting currency (if applicable) is calculated using the exchange rate between the accounting currency and the currency of the share class, at the applicable WM Reuters rate on the date the reference NAV is calculated.

2. PURCHASES AND SALES ON THE SECONDARY MARKET

A. COMMON PROVISIONS

For any purchase or sale of shares in the Sub-fund executed directly on an exchange on which the Sub-fund is admitted or will be admitted for continuous trading, no minimum purchase or sale amount is required other than that which may be required by the relevant exchange(s).

Shares in a listed Sub-fund that are purchased on the secondary market cannot generally be directly sold back to that Sub-fund. Investors must therefore buy and sell their shares or units on a secondary market through an intermediary (e.g. a broker) and may consequently incur costs. Furthermore, there is a possibility that investors may pay more than the indicative net asset value when buying shares or units and receive less than the indicative net asset value when selling shares or units.

If the stock market value of a listed fund's shares or units differs significantly from their indicative net asset value, or if trading in the fund's shares or units is suspended, investors may be authorized, subject to the conditions set forth below, to redeem their shares on the primary market directly from the fund, without being subject to the minimum redemption amount requirement set forth herein in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)".

The management company shall decide whether to allow such primary market redemptions and for how long, on the basis of the following criteria for assessing the significance of a market disruption:

- The suspension or strong disturbance of secondary trading on a given exchange is relatively frequent
- The link between the market disruption and secondary market operators (such as the default of one or more of the Market Makers of a given exchange, or a breakdown or malfunction of an exchange's IT or operating systems), excluding a disruption caused by a source external to the secondary exchange on which the Sub-fund's shares are traded, such as an event that affects the liquidity and valuation of all or some of the Benchmark Index's components
- Any other objective circumstance that could adversely affect the fair treatment and/or the interests of the Sub-fund's share-holders.

Notwithstanding the provisions concerning fees presented in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)", redemptions made in the primary market in this case shall only be subject to a net redemption fee of 1% paid to the Sub-fund and which serves to cover its trading costs.

In such exceptional cases when redemption in the primary market is allowed, the Management Company shall post on Lyxor's website at www.lyxor.etf.com the procedure that investors must observe to redeem their shares in the primary market. The Management Company shall also make this procedure available to the market undertaking that handles trading in the Sub-fund's shares.

B. SPECIFIC PROVISIONS

a. If the Sub-fund's shares are listed on Euronext Paris, as indicated in the "Key Information" section, investors should note the following rules

Negotiability of shares and information about the financial institutions acting as Market Makers:

The Sub-fund's share are freely negotiable on Euronext Paris under the following conditions and in compliance with the applicable laws and regulations.

The Sub-fund shares will be listed on a specific trading list, the rules of which are set forth in the following instructions published by Euronext Paris SA:

- Instruction No. 4-01 " Universal Trading Platform Manual"
- Appendix to Instruction N4-01 (Appendix to the Euronext Market Trading Manual
- Instruction No. 6-04 "Documentation to be provided when filing a listing application for an ETF, ETN, ETV and open-ended undertakings for collective investment other than"

Pursuant to article D 214-22-1 of the French Monetary and Financial Code the shares or units of undertakings for collective investments in transferable securities may be admitted to trading, provided that these undertakings have a system to ensure that the market price of their shares or units does not differ significantly from their net asset value. Under Euronext's rules trading in the Sub-fund's shares is also subject to a 'reservation threshold' of 3% above or below the Sub-fund's indicative net asset value or "iNAV" (see the "Indicative Net Asset Value" section), as published by Euronext Paris and updated on an estimated basis during trading in accordance with the change in the Index.

To comply with Euronext Paris' reservation threshold (see the section entitled "Indicative net asset value") the Market Makers will ensure that the market price of the Sub-fund's shares does not differ from the Sub-fund's indicative Net Asset Value by more than 3%.

Euronext Paris may suspend trading in the Sub-fund's shares pursuant to the terms of its operating rules, if the aforementioned reservation threshold limit is exceeded.

Euronext Paris will also suspend trading in the Sub-fund's shares in the following cases:

- the Benchmark Index is no longer traded or calculated
- Euronext Paris cannot obtain the Benchmark Index's level
- Euronext Paris cannot obtain the Sub-fund's net asset value

In accordance with the terms and conditions governing admission to trading on the Euronext Paris exchange, the Market Makers undertake to provide market-making services for the Sub-fund's shares as soon as they are admitted to trading on the Euronext Paris exchange.

In particular, the Market Makers undertake to carry out market-making operations by maintaining a significant presence in the market, which initially entails the setting of a bid/ask spread.

More specifically, the Market Makers are required by contract with Euronext Paris to ensure that the Sub-fund maintains:

- a maximum global spread of 3% between the bid and offer price in the centralized order book.
- a minimum nominal trading value of EUR 100,000.

The obligations of the Sub-fund's Market Makers will be suspended in the following cases:

the Benchmark Index is no longer traded or calculated

if trading is substantially disrupted, for example due to a widespread shift in prices or an event that makes normal market making impossible.

Indicative Net Asset Value

Euronext Paris will calculate and publish, each Trading Day (as defined below) and during trading hours, the Sub-fund's indicative net asset value (hereinafter "iNAV"). The iNAV is a measure of the intra-day value of the Sub-fund's net asset value based on the most recent data. The iNAV is not the value at which investors buy and sell shares in the Sub-fund on the secondary market.

A "Trading Day" is a day on which NSYE Euronext is normally open and on which the Benchmark Index is normally published.

The Sub-fund's iNAV is a theoretical net asset value calculated every 15 seconds by Euronext SA throughout the Paris trading day and is based on the level of the Benchmark Index. The iNAV enables investors to compare the prices that the Market Makers offer on the market with the theoretical value calculated by Euronext.

The iNAV will be calculated every day that the net asset value is calculated and published.

To calculate the Sub-fund's iNAV throughout the Paris trading session (from 9.05 am to 5.35 pm), Euronext Paris will use the Benchmark Index value and the corresponding exchange rate provided by Reuters.

The share prices of the stocks that make up the Benchmark Index and which are used to calculate the value of the Benchmark Index and therefore to determine the iNAV are provided directly to Reuters by the U.S. exchange where the stocks are listed.

If one or more stock exchanges on which the Benchmark Index's constituent equities are listed are closed (on a public holiday as indicated on the TARGET calendar) or if the EUR/USD exchange rate is unavailable and if the iNAV cannot be calculated, trading in the Sub-fund's shares may be suspended.

Lyxor International Asset Management, the Sub-fund's management company, will provide Euronext Paris with all the financial and accounting data it needs to calculate the Sub-fund's iNAV and in particular:

- The day's estimated net asset value
- The official net asset value of the previous business day
- The level of the Benchmark Index on the previous business day.

These data will serve as a basis for Euronext Paris SA's calculations to determine the Sub-fund's iNAV in real time the following Trading Day.

Additional information about the indicative net asset value of a share listed on an exchange may, in accordance with the terms and limits set by the relevant market undertaking, be provided on this exchange's website. This information is also available on the Reuters or Bloomberg pages dedicated to the particular share. Additional information about the Bloomberg and Reuters codes for the indicative net asset values of all UCITS ETF type share classes is also available in the "Term Sheets" section of Lyxor's website at www.lyxoretf.com.

b. If the shares are listed on an exchange other than Euronext Paris, as indicated in the "Key Information" section, investors should note the following rules

Investors wishing to acquire shares in the Sub-fund or obtain more information regarding the market-making terms that govern the listing and trading of shares on the types of exchanges indicated in the "Key Information" section are advised to familiarise themselves with the guidelines laid down by the relevant market undertaking, in compliance with local regulations, and to seek if necessary the assistance of their usual broker(s) for executing trades on the relevant exchange(s).

FEES AND CHARGES

SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)

The subscription and redemption fees shown below respectively increase the subscription price paid by the investor and decrease the redemption price received. Fees kept by the Sub-fund compensate it for the expenses it incurs in investing in the Sub-fund's assets or in divesting these assets. Any fees that are not kept by the Sub-fund are paid to the management company, marketing agent or other service provider.

Fees paid by investors upon subscription or redemption	Base	Maximum charge
Subscription fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per subscription order or 5% payable to third parties
Subscription fee kept by the Sub-fund	NAV per share x number of shares	N/A
Redemption fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per redemption order or 5% payable to third parties
Redemption fee kept by the Sub-fund	NAV per share x number of shares	N/A

OPERATIONAL AND MANAGEMENT FEES

These fees cover all the costs invoiced directly to the Sub-fund, except for transaction expenses, which include intermediary fees (brokerage, stock market taxes etc.) and any account activity charge that may be charged, for example, by the depositary or the management company.

For this Sub-fund the following fees may be charged in addition to the operating and management fees (see table below):

- incentive fees, which the Sub-fund pays to the management company when the Sub-fund exceeds its objectives
- account activity charges charged to the Sub-fund.

For more information on the fees or expenses that the Sub-fund must pay, see the Statistics section of the Key Investor Information Document (KIID).

Fees charged to the Sub-fund	Base	Maximum charge
Investment management fees and administration fees that are external to the management company (auditor, depositary, fund distribution and legal fees) including tax ⁽¹⁾	Net asset value	0.65% per annum
Incentive fee	Net asset value	N/A
Account activity charge:	Charge on each transaction	N/A

⁽¹⁾ Includes all fees and expenses except for transaction expenses, incentive fees and fees associated with investment in UCITS.

COMMERCIAL INFORMATION

Distribution of this prospectus and the offering or purchase of the Fund's share classes may be subject to restrictions with regard to certain persons or in certain countries under national regulations that may apply to these persons or countries. Investors are therefore responsible for ensuring that they can legally subscribe to or invest in this Fund. The information in this prospectus therefore cannot be construed to be an offer or solicitation to buy or sell shares in this Fund in a country where such offer or solicitation is unlawful.

The Fund's share classes will not be registered pursuant to the U.S. Securities Act of 1933, as amended (the "U.S. Securities Act") and cannot be offered, assigned, transferred or allocated to the United States of America, or to:

- (A) any "U.S. Person", as this term is defined (i) under Regulation S of the US Securities Act of 1933 and (ii) under U.S. regulations as defined in Section 7701 (a) (30) of the Internal Revenue Code of 1986 as amended. The Fund's shares will not be offered to U.S. Persons.
- (B) anyone other than those persons considered to be "non-US Persons" as this term is defined under U.S. regulations pursuant to the Commodity Futures Trading Commission, Rule 4.7 (a) (1) (iv).

The Fund's shares will only be offered for sale outside of the United States of America to non-U.S. Persons.

For the purpose of this document, the term "U.S. Person" shall mean, among other things, any individual who resides in the United States of America, any entity organized or formed under the laws of the United States of America, certain entities organized or formed outside of the United States of America by one or more U.S. persons, or any account held on behalf of such a U.S. person.

Before making an investment in this Fund or Sub-fund, investors should seek the advice of their financial, tax and legal advisers.

PLACE AND METHOD OF NET ASSET VALUE PUBLICATION OR COMMUNICATION

At the head office of LYXOR INTERNATIONAL ASSET MANAGEMENT, at 17, cours Valmy - 92987 Paris La Défense CEDEX - France.

The Sub-fund's net asset value will be calculated and published by Euronext Paris SA on each Paris Trading Day, during trading hours.

IMPORTANT INFORMATION ABOUT THE INDEX PROVIDER

Lyxor PEA Amerique Latine (MSCI EM Latin America) UCITS ETF (the "Sub-fund") is in no way sponsored, endorsed, sold or promoted by MSCI Inc. ("MSCI"), nor by any MSCI subsidiary, nor by any entity involved in establishing the MSCI indices. The MSCI indices are the sole property of MSCI, and the MSCI indices are trademarks registered by MSCI and its subsidiaries and have been licensed, for specific purposes, by Lyxor Asset Management. Neither MSCI, nor any subsidiary of MSCI, nor any of the entities involved in producing or calculating the MSCI indices have made any statement or any warranty, either expressed or implied, to holders of shares in the Sub-Fund or, more generally, to the general public, concerning the merits of trading in shares of mutual funds in general or in shares of this Sub-Fund in particular or the ability of any MSCI index to replicate the performance of the global equities market. MSCI and its subsidiaries are the owners of certain names, registered trademarks and the MSCI indices, which are determined, constructed and calculated by MSCI without any consultation with Lyxor International Asset Management or the Sub-Fund. Neither MSCI, nor any MSCI subsidiary, nor any of the entities involved in the production of the MSCI indices are obliged to take into consideration the needs of Lyxor International Asset Management or holders of the Sub-Fund's shares when determining, constructing or calculating the MSCI indices. Neither MSCI, nor any MSCI subsidiary, nor any of the entities involved in the production of the MSCI indices make any decision concerning the launch date, pricing, quantity of the Sub-Fund's shares or the determination and calculation of the formula used to establish the Sub-Fund's net asset value. Neither MSCI, nor any MSCI subsidiary, nor any of the entities involved in the production of the MSCI indices accept any responsibility for or obligations concerning the administration, management or marketing of the Sub-Fund.

ALTHOUGH MSCI OBTAINS DATA INCORPORATED OR USED IN THE CALCULATION OF INDICES ORIGINATING FROM SOURCES THAT MSCI BELIEVES TO BE RELIABLE, NEITHER MSCI NOR ANY OTHER PARTY INVOLVED IN THE CREATION OR CALCULATION OF THE MSCI INDICES GUARANTEES THE ACCURACY AND/OR THE COMPLETENESS OF THE INDICES OR ANY INCORPORATED DATA. NEITHER MSCI NOR ANY PARTY INVOLVED IN THE CREATION OR CALCULATION OF THE MSCI INDICES MAKES ANY WARRANTIES, EXPRESSED OR IMPLIED, CONCERNING THE RESULTS THAT THE HOLDER OF A MSCI LICENSE, CUSTOMERS OF SAID LICENSEE, COUNTERPARTIES, SUB-FUND SHAREHOLDERS OR ANY OTHER PERSON OR ENTITY WILL ACHIEVE FROM THE USE OF THE INDICES OR ANY INCORPORATED DATA IN RELATION TO THE RIGHTS LICENSED OR FOR ANY OTHER PURPOSE. NEITHER MSCI NOR ANY OTHER PARTY MAKES ANY WARRANTIES, EXPRESSED OR IMPLIED, AND MSCI DISCLAIMS ANY WARRANTIES CONCERNING THE COMMERCIAL VALUE OR SUITABILITY FOR A SPECIFIC PURPOSE OF THE INDICES OR INCORPORATED DATA. SUBJECT TO THE FOREGOING, UNDER NO CIRCUMSTANCES SHALL MSCI OR ANY OTHER PARTY BE HELD LIABLE FOR ANY LOSS, BE IT DIRECT, INDIRECT OR OTHER (INCLUDING LOSS OF EARNINGS) EVEN IF IT IS AWARE OF THE POSSIBILITY OF SUCH A LOSS.

ADDITIONAL INFORMATION

The Sub-fund's shares are approved for clearing by Euroclear France S.A.

Subscription and redemption orders are sent by the investors' financial intermediaries (members of Euroclear France SA) to the Depositary.

The Sub-fund's prospectus, the Key Investor Information Document, the most recent annual documents and the asset inventory will be sent to investors within eight business days upon receipt of a written request addressed to:

LYXOR INTERNATIONAL ASSET MANAGEMENT

17 Cours Valmy - 92987 Paris La Défense France.

E-mail: contact@lyxor.com

More information can also be requested from Lyxor International Asset Management on its website at www.lyxoretf.com.

Prospectus publication date: See the "Publication Date" section.

Pursuant to Article L.533-22-1 of the French Monetary and Financial Code, information concerning the management company's possible inclusion of social, environmental and corporate governance objectives and performance criteria in the investment policy is available on the management company's website and in the Sub-fund's annual report.

The AMF's website (www.amf-france.org) provides more information on the regulatory documents and various provisions that concern investor protection. This Prospectus shall be made available to investors prior to subscription.

INVESTMENT RULES

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

The Sub-fund may invest in the assets specified in Article L214-20 of the French Monetary and Financial Code, subject to the risk-diversification and investment ratio requirements of Articles R214-21 to R214-27 of said Code.

Notwithstanding the 10% limit under Paragraph II of Article R214-21 of the French Monetary and Financial Code, the Sub-fund may invest up to 20% of its assets in the equities and debt securities of a single issuer, in compliance with Article R214-22-I, which deals with index-tracking funds. Pursuant to Article R214-22 II, the Sub-fund may also increase this 20% limit for a single issuer to 35%, when this is justified by exceptional market conditions, and in particular when certain securities are largely dominant

OVERALL RISK EXPOSURE

The commitment approach is used to calculate the overall risk exposure.

ASSET VALUATION AND ACCOUNTING RULES

A. VALUATION RULES

The Sub-fund's assets are valued in accordance with applicable laws and regulations and most notably Regulation No. 2014-01 of 14 January 2014 of the Comité de la Réglementation Comptable (the Accounting Regulations Committee), which applies to the chart of accounts for undertakings for collective investment in transferable securities.

Financial instruments traded on a regulated market are valued at the closing price recorded on the day prior to the calculation of the net asset value. If these financial instruments are traded on several regulated markets at the same time, the closing price used is that recorded on the regulated market on which they are principally traded.

However, in the absence of significant trading on a regulated market, the following financial instruments are valued using the following methods:

- Negotiable debt securities ("NDS") with a remaining life upon acquisition that is less than or equal to three months are valued by applying the difference between the acquisition value and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life of more than three months upon acquisition but less than or equal to three months at the net asset value calculation date are valued by applying the difference between the most recent valuation and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life at the net asset value calculation date that exceeds three months are valued at their current value. The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- Financial futures traded on organized markets are valued at the clearing price on the day prior to the calculation of the net asset value. Options traded on organized markets are valued at their market price on the day prior to the calculation of the net asset value. Forward contracts and over-the-counter options are valued at the price quoted by the counterparty. The management company monitors these prices independently.
- Bank deposits are valued at their nominal value plus accrued interest.
- Warrants, short and medium-term notes (bons de caisse), promissory notes and mortgage notes are valued under the management company's responsibility at their most likely trading value.
- Securities financing transactions are valued at the market price.
- Shares and units in UCITS under French law are valued at the last known net asset value on the day the Sub-fund's net asset value is calculated.
- Shares and units in foreign investment funds are valued at the last known unitary net asset value at the date the Sub-fund's net asset value is calculated.
- Financial instruments traded on a regulated market and for which no price has been quoted or whose price has been corrected, are valued under the management company's responsibility at their most likely trading value.
- The exchange rates used to value financial instruments denominated in a currency other than the Sub-fund's base currency are the WM Reuters fixing rates published on the day the Sub-fund's net asset value is calculated.

B. ACCOUNTING METHOD FOR TRADING EXPENSES

Trading expenses are included in the initial cost of the transaction.

C. ACCOUNTING METHOD FOR INCOME FROM FIXED-INCOME SECURITIES

Income from fixed-income securities is accounted for using the cash-basis method.

D. DISTRIBUTION POLICY

For more information see the section entitled "Calculation and appropriation of Distributable amounts"

E. ACCOUNTING CURRENCY

The Sub-fund's accounts are kept in euros.

SUB-FUND NO. 19: Lyxor MSCI Select OECD Emerging Markets GDP UCITS ETF

A SICAV SUB-FUND COMPLIANT WITH DIRECTIVE 2009/65/CE

ISIN CODES

Dist share class: FR0011646496

Acc share classes: FR0011645605

CLASSIFICATION

Global equities.

The Lyxor MSCI Select OECD Emerging Markets GDP UCITS ETF sub-fund (the "Sub-fund") is continuously at least 60% exposed to a foreign equity market or to the equity markets of two or more countries, which may include the French market.

The Sub-fund is a UCITS ETF type index tracker.s

INCEPTION DATE

The Sub-fund was approved by l'autorité des Marchés Financiers (the French financial markets authority) on 29/11/13 and was established on 12/12/13.

INVESTMENT OBJECTIVE

The Sub-fund's investment objective is to replicate the performance, whether positive or negative, of the MSCI Select OECD Emerging Markets GDP Weighted Index (Bloomberg code: M1EFOEGD) (the "Benchmark Index") denominated in US dollars (USD), while minimizing the tracking error between the Sub-fund's performance and that of its Benchmark Index, which is representative of the performance of mid-cap and large-cap stocks of the emerging OECD countries. The expected ex-post tracking error under normal market conditions is 0.15%.

BENCHMARK INDEX

The Benchmark Index is the MSCI Select OECD Emerging Markets GDP Weighted Index.

The Benchmark Index is derived from the MSCI Select OECD Index parent index (the "Parent Index") and measures the performance of large-cap and mid-cap companies in the emerging OECD countries. These countries include: Chile, the Czech Republic, Hungary, Korea, Mexico, Poland and Turkey. Each country is weighted in proportion to the size of its economy (as measured by GDP) rather than by the size of its equity market. The Benchmark Index is calculated and published by the global index provider MSCI.

MSCI Inc. is one of the leading providers of financial indices. MSCI's products and services include not only financial indices, but also performance and risk analysis tools for investors. MSCI is based in New York, and has commercial and research offices across the world.

The Benchmark Index is a custom index calculated by MSCI which includes a group of OECD countries that are selected using an RSI approach. The Benchmark Index uses the same methodology used by the MSCI GDP Weighted Indices.

The Benchmark Index is composed of a static list of the countries that compose the Parent Index, which currently includes: Chile, the Czech Republic, Hungary, Korea, Mexico, Poland and Turkey. The index scope is fully reviewed by the licensee and notified to MSCI at least five business days before the effective rebalancing date.

Any change in the scope of the Parent Index will be replicated in the Benchmark Index.

MSCI GDP Weighted Indices are rebalanced annually, generally on the last business day of May, which is the annual rebalancing date of the Parent Index. A country added to the Parent Index will be added to the Benchmark Index upon the next annual rebalancing. In contrast, a country removed from the Parent Index will be simultaneously removed from the Benchmark Index.

The Benchmark Index is a Net Total Return index. A Net Total Return index includes dividends and all other types of income distribution in the calculation of the performance of the index's components.

A full description of the Benchmark Index and its construction methodology and information on the composition and respective weightings of the Benchmark Index components are available on the Internet at www.msci.com.

Benchmark Index composition and revision

The Benchmark Index is revised annually.

The Benchmark Index's composition and MSCI's rules for its rebalancing are available on the internet at www.msccibarra.com

The frequency with which the Benchmark Index is rebalanced does not affect the cost of implementing the Investment Strategy.

Benchmark Index publication

The Benchmark Index is calculated daily at the official closing price of the exchanges where the index constituents are listed.

The Benchmark Index is also calculated in real time every stock exchange trading day.

Real-time Benchmark Index values are available via Bloomberg and Reuters.

Reuters code: .DMGEF0000WNUS

Bloomberg code: M1EFOEGD

The Benchmark Index's closing price is available on MSCI's website at www.msccibarra.com.

Pursuant to Article 52 of European Parliament and Council Regulation 2016/1011 of 8 June 2016, MSCI, the administrator of the MSCI Select OECD Emerging Markets GDP Weighted Index benchmark index, has until 1 January 2020 to apply for approval or registration as applicable.

As of the date of the most recent version of this prospectus, the benchmark index administrator was not yet listed in ESMA's register of benchmark administrators.

Pursuant to European Parliament and Council Regulation 2016/1011 of 8 June 2016, the asset management company has a procedure for monitoring the benchmark indices used that specifies the measures to be implemented if an index is substantially modified or is no longer provided.

INVESTMENT STRATEGY

1. Strategy employed

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

The Sub-fund's equities will be mainly those that make up the Benchmark Index, and also other international equities, in all economic sectors and listed in all markets, including small-cap markets.

The basket of securities held may be adjusted daily such that its value will generally be at least 100% of the net assets. When necessary, this adjustment will be made to ensure that the counterparty risk arising from the aforementioned swap contract will be neutralized.

Information on the updated composition of the basket of 'balance sheet' assets in the Sub-fund's portfolio and the value of the swap contract concluded by the Sub-fund, is available on the page dedicated to the Sub-fund on Lyxor's website at www.lyxoretf.com. The frequency of any updates and/or the date on which the aforementioned information is updated is also indicated on the same page of the aforementioned website.

Up to 20% of the Sub-fund's assets may be exposed to the equity and debt securities issued by a given entity. This 20% limit may be increased to 35% for a given issuing entity when this is justified by exceptional market conditions and in particular when certain securities are largely dominant and/or in the event of strong volatility that affects a financial instrument or securities linked to an economic sector represented in the Benchmark Index, particularly in the event of a public offering that substantially affects a Benchmark Index security or in the event of a significant drop in the liquidity of one or more of the Benchmark Index's financial instruments.

For this Sub-fund, the asset manager mainly intends to use the following assets:

2. Balance sheet assets (excluding embedded derivatives)

In accordance with regulatory ratios, the Sub-fund may invest in global equities in all economic sectors and listed on any exchange, including "small-cap" exchanges..

The aforementioned equities will be selected on the basis of the following:

- eligibility criteria and in particular:
 - their inclusion in a major stock exchange index or in the Benchmark Index
 - liquidity (must exceed a minimum daily trading volume and market capitalization)
 - credit rating of the country where the issuer has its registered office (must have a least a minimum S&P or equivalent rating)
- diversification criteria, and in particular:
 - the issuer (application of investment ratios to assets that qualify for UCITS, pursuant to Art. R214-21 of the French Monetary and Financial Code)
 - geographic
 - sector

Investors may find more information on the above eligibility and diversification criteria, and in particular the list of eligible indices, on Lyxor's website at www.lyxoretf.com

Investment in undertakings for collective investment in transferrable securities ("UCITS") that comply with Directive 2009/65/EC is limited to 10% of the Sub-fund's net assets.

The fund manager will not invest in the shares or units of alternative investment funds (AIF) or other investment funds that were formed under a foreign law. The Sub-fund may invest in the shares of UCITS managed by the management company or by a company that is related to the management company.

When the Fund receives collateral in the form of securities, subject to the terms of section 8 below, it acquires full title to these securities and they are therefore included among the balance sheet assets to which it has full title.

To optimize the Sub-fund's management and achieve its investment objective, the asset manager reserves the right to use other financial instruments, in compliance with regulations.

3. Off-balance sheet assets (derivatives)

The Sub-fund will use OTC index-linked swaps that swap the value of the Sub-fund's assets (or the value of any other financial instrument or asset the Sub-fund may hold) for the value of the Benchmark Index (as described in part 1 of this section).

- Maximum proportion of assets under management for which total return swaps (TRS) may be entered into: 100%.
- Expected proportion of assets under management for which total return swaps (TRS) may be entered into: up to 100%.

To optimize the Sub-fund's management and achieve its investment objective, the manager reserves the right to use other financial instruments in compliance with regulations, such as derivative instruments other than index-linked swaps.

These derivative instruments (including index-linked swaps) may be transacted with Société Générale without having to seek a competitive bid from another counterparty. The Management Company therefore makes no commitment to observe a formal, traceable and verifiable competitive tendering procedure.

The counterparty of the derivative financial instruments referred to above (the "Counterparty") will have no discretionary power over the composition of the Sub-fund's portfolio nor over the underlying assets of the derivative financial instruments.

4. Securities with embedded derivatives

N/A.

5. Cash deposits

In order to optimize its cash management, the Sub-fund may deposit up to 20% of its assets in the form of cash with credit institutions that belong to the same group as the depositary.

6. Cash borrowing

The Sub-fund may temporarily borrow up to 10% of its net assets.

7. Securities financing transactions

The manager shall not engage in any temporary purchases or sales of securities.

8. Collateral

Whenever the investment strategy exposes to the Sub-fund to counterparty risk, and in particular when the Sub-fund uses over-the-counter swaps, the Sub-fund may accept eligible securities as collateral to reduce the counterparty risk associated with these swaps. The portfolio of collateral received may be adjusted daily to ensure that its value is at least sufficient to cover the Sub-fund's counterparty risk in most cases. The purpose of this adjustment is to neutralize the Sub-fund's counterparty risk.

The Sub-fund will have full title to all collateral received, which will be deposited in the Sub-fund's account with the depositary. This collateral will therefore be included in the Sub-fund's assets. If a counterparty defaults on an obligation, the Sub-fund may dispose of the assets received from the counterparty in respect of the secured transaction to pay off the counterparty's debt to the Sub-fund.

All collateral the Sub-fund receives for this purpose must comply with the applicable laws and regulations, with respect in particular to the liquidity and valuation of the collateral, the credit-worthiness of securities issuers, risk exposure correlation and the risks of collateral management and enforceability. All collateral received must in particular meet the following criteria:

- (a) All collateral must be of high quality, be highly liquid and tradable on a regulated market or on a multilateral trading facility, with transparent pricing to enable the collateral to be rapidly sold near its estimated price;
- (b) This collateral must be valued at its mark-to-market price at least daily and assets with highly volatile prices are not acceptable as collateral, unless a sufficiently prudent discount or "haircut" is applied;
- (c) The issuer of this collateral must be independent of the counterparty and must not be closely correlated with the counterparty's financial performance;
- (d) This collateral must be sufficiently diversified by country, market and issuer, and no exposure to a single issuer may exceed 20 % of the Sub-fund's net asset value;
- (e) The Sub-fund's Management Company must be able to enforce this collateral in full and at any time, without having to consult with the counterparty or obtain its approval.

Notwithstanding the condition specified in (d) above, the Fund may accept a basket of securities collateral that increases its exposure to a single issuer to more than 20% of its net asset value provided that:

- such securities collateral is issued by (i) a Member State, (ii) one or more of a Member State's local authorities, (iii) a country that is not a Member State (iv) a public international organization to which one or more Member States belong; and;
- such securities collateral consists of at least six different issues of securities of which no single issue exceeds 30% of the Sub-fund's assets.

Subject to the above conditions, the Sub-Fund may take collateral in the following forms:

- (i) Cash and cash-equivalent assets, which for example include short-term bank deposits and balances and money-market instruments;
- (ii) Bonds issued or guaranteed by an OECD member state, or by its local government entities, or by an EU, regional or global supranational institution or organisation, or by any country provided that conditions (a) to (e) above are fully complied with;
- (iii) Shares or units issued by money-market funds that calculate a daily net asset value and have an AAA or equivalent credit rating;
- (iv) The shares or units of UCITS that invest mainly in the bonds and/or equities indicated in (v) and (vi) below;
- (v) Bonds issued or guaranteed by first-class issuers offering sufficient liquidity;
- (vi) Equities admitted for trading or traded on a regulated exchange of an EU member country, on a stock exchange of an OECD member country or on a stock exchange of another country provided that conditions (a) to (e) above are fully complied with and that these equities are components of a major index.

Collateral discount policy:

The Sub-fund's management company shall apply a discount to the collateral accepted by the Sub-fund. The amount of these discounts will depend mainly on the following:

- The nature of the collateral asset;
- The collateral's maturity (if applicable);
- The credit rating of the collateral issuer (if applicable).

Reinvestment of collateral:

Non-cash collateral will not be sold, reinvested or pledged.

At the manager's discretion, cash collateral may either be:

- (i) deposited with an authorized institution
- (ii) invested in high-quality government bonds
- (iii) used for reverse repurchase transactions, provided that these are entered into with credit institutions that are subject to prudential supervision and that the fund is able to withdraw the total amount of its cash collateral and the accrued interest at any time
- (iv) invested in short-term money market funds that meet the guidelines for a common EU definition of money market funds.

All cash collateral that is reinvested must be invested in a diversified manner in compliance with the rules that apply to the acceptance of non-cash collateral.

RISK PROFILE

Investors' money will be invested mainly in the financial instruments selected by the management company. These instruments are subject to market trends and contingencies.

Investors in the Sub-fund will mainly be exposed to the following risks:

Equity risk

The price of an equity security can increase or decrease in accordance with changes in the issuer's risk exposure or in the economic conditions of the market in which the security is traded. Equity markets are more volatile than fixed income markets, where under stable macroeconomic conditions income over a given period of time can be estimated with reasonable accuracy.

Capital risk

The capital invested is not guaranteed. Investors therefore may not recover all or part of their initial investment, particularly in the event that the Benchmark Index posts a negative return over the investment period.

Liquidity risk (primary market)

The Sub-fund's liquidity and/or value may be adversely affected if, when the Sub-fund or a counterparty to a financial derivative instrument (DFI) is rebalancing its exposure, the underlying financial markets are restricted, closed, or subject to large bid/offer spreads. An inability, due to low trading volume, to execute the trades required to replicate the Benchmark Index may also adversely affect the subscription, conversion or redemption of shares.

Liquidity risk (secondary market)

The price of the Sub-fund's listed shares or units may deviate from the Sub-fund's indicative net asset value. The liquidity of the Sub-fund's shares traded on a given exchange may be adversely affected by a suspension in trading for various reasons, such as:

- i) the calculation of the Benchmark Index is suspended or stopped
- ii) trading in the market(s) in the Benchmark Index's underlying assets is suspended
- iii) an exchange cannot obtain or calculate the Sub-fund's indicative net asset value
- iv) a market maker fails to comply with an exchange's rules
- v) an exchange's IT, electronic or other system fails.

Counterparty risk

The Sub-fund is exposed to the risk that a counterparty with which the Sub-fund has entered into a contract or transaction may go bankrupt or default on a settlement or other obligation. The Sub-fund is mainly exposed to counterparty risk resulting from the use of derivative financial instruments (DFI) traded over the counter with Société Générale or some other counterparty. In compliance with UCITS regulations, exposure to counterparty risk (whether the counterparty is Société Générale or another entity), cannot exceed 10% of the Sub-fund's total assets per counterparty.

If a counterparty defaults on an obligation the DFI contract may be terminated before maturity. The Sub-fund will do everything in its power to achieve its investment objective by, if appropriate, entering into another DFI contract with another counterparty at the market conditions at the time of such an event.

If this counterparty risk materializes it could have an impact on the Sub-fund's ability to achieve its investment objective of replicating the Benchmark Index

When Société Générale is the DFI counterparty, conflicts of interest may arise between it and the Sub-fund's management company, which has procedures to identify and reduce such conflicts of interest and to resolve them equitably if necessary.

Emerging Market Risk

The Sub-fund's exposure to emerging markets carries a greater risk of potential loss than an investment in traditional developed markets. Specifically, market operating and supervision rules for an emerging market may differ from standards applicable in developed markets. In particular, exposure to emerging markets can entail: increased market volatility, lower trading volumes, a risk of economic and/or political instability, an uncertain or unstable tax regime and/or regulatory environment, market closure risks, government restrictions on foreign investments, an interruption or limitation of convertibility or transferability of one of the currencies included in the Benchmark Index.

Risk that the investment objective may not be fully achieved

There is no guarantee that the investment objective will be achieved, as no asset or financial instrument can ensure that the Benchmark Index will be automatically and continuously replicated, particularly in the event of one or more of the following risks

- Risk of using derivative financial instruments

In order to achieve its investment objective, the Sub-fund can enter into transactions involving over-the-counter derivative financial instruments (DFI), such as swaps, in order to secure the performance of the Benchmark Index. These DFI involve various risks, such as These DFI involve various risks, such as counterparty risk, hedging disruption, Benchmark Index disruption, taxation risk, regulatory risk, operational risk and liquidity risk. These risks can materially affect a DFI and could lead to an adjustment or even the early termination of the DFI transaction, which could affect the Sub-fund's net asset value.

- Risk due to a change in tax regime

A change in the tax regime of a jurisdiction where the Sub-fund is domiciled, authorised for sale or listed could adversely affect the taxation of investors. In such an event, the Sub-fund manager shall not be liable to any investor with respect to any payment that may have to be made to a competent tax authority.

- Risk due to a change in the tax regime of the Sub-fund's underlying assets

A change in the taxation of the Sub-fund's underlying assets could adversely affect the Sub-fund's taxation. As a result, in case of a discrepancy between the estimated taxes owed and the actual tax treatment applied to the Sub-fund (and/or to the Sub-fund's DFI counterparty), the Sub-fund's net asset value may be adversely affected.

- Regulatory risk affecting the Sub-fund

In the event of a change in the regulatory regime in a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed, the subscription, conversion or redemption of units or shares may be adversely affected.

- Regulatory risk affecting the Sub-fund's underlying assets

In the event of a change in the regulations that govern the Sub-fund's underlying assets, the Sub-fund's net asset value and the subscription, conversion or redemption of shares may be adversely affected.

- Benchmark Index disruption risk

If an event adversely affects the Benchmark Index, the Sub-fund manager may be required, as provided for by law, to suspend the subscription and redemption of the Sub-fund's shares. The calculation of the Sub-fund's net asset value could also be adversely affected.

If the disruption of the Benchmark Index persists, the Sub-fund manager will determine an appropriate course of action, which could decrease the Sub-fund's net asset value.

A 'Benchmark Index event' includes but is not limited to the following situations:

- i) the Benchmark Index is deemed to be inaccurate or does not reflect actual market developments,
- ii) the Benchmark Index is permanently cancelled by the index provider,
- iii) the index provider is unable to indicate the level or value of the Benchmark Index,
- iv) the index provider makes a material change in the Benchmark Index calculation formula or method (other than a minor modification such as an adjustment to the Benchmark Index's underlying components or their respective weightings) which the Sub-fund cannot effectively replicate at a reasonable cost;
- v) a Benchmark Index component becomes illiquid because it is no longer traded on a regulated market or because its trading over-the-counter (e.g. bonds) is disrupted.
- vi) the Benchmark Index components are exposed to higher transaction costs for execution or settlement/delivery, or to specific tax constraints and these costs are not reflected in the Benchmark Index's performance.

- Legal risk

The Fund may be exposed to a legal risk arising from a total return swap (TRS) agreement as indicated in EU Regulation No. 2015/2365.

- Corporate action risk

An unforeseen change, by the issuer of a security that is a component of the Benchmark Index, in a planned corporate action that is in contradiction with a previous official announcement on which the Sub-fund based its valuation of the corporate action (and/or on which the Sub-fund's counterparty to a financial derivative instrument or transaction based its valuation of the corporate action) can adversely affect the Sub-fund's net asset value, particularly if the Sub-fund's treatment of the corporate event differs from that of the Benchmark Index methodology.

- Currency risk (EUR/USD) of the Acc share class

This share class is exposed to currency risk since it is denominated in a different currency than the Benchmark Index. Changes in the exchange rate may therefore cause the net asset value of this share class to decrease, even if the value of the Benchmark Index increases.

ELIGIBLE INVESTORS AND TYPICAL INVESTOR PROFILE

The Sub-fund is available to all investors.

Investors in this Sub-fund are seeking exposure to the medium and large capitalization equity markets of the emerging OECD countries.

The amount that can be reasonably invested in the Sub-fund depends on each investor's personal situation. To determine this amount, investors must take into account their personal wealth and/or estate, their cash requirements currently and for the next five years, and their willingness to take on risk or their preference for more prudent investment. Investors are also advised to diversify their investments sufficiently so as not to be exposed solely to this Sub-fund's risks.

All investors are therefore asked to consider their specific situation with the help of their usual investment advisor.

The recommended minimum investment period is at least five years.

CALCULATION AND APPROPRIATION OF DISTRIBUTABLE AMOUNTS

Acc share class: all distributable amounts are accumulated

Dist share class: If a distribution is decided, the management company reserves the right to distribute distributable amounts one or more times a year and/or accumulate all or part of these amounts. Realized net capital gains will be accumulated.

DISTRIBUTION FREQUENCY

If a distribution is decided, the management company reserves the right to distribute distributable amounts in one or more distributions per annum.

SHARE CHARACTERISTICS

Subscription orders may be placed for a specific monetary amount or for a whole number of shares.

Only a whole number of shares may be redeemed.

CURRENCIES

Currencies	Dist shares	Acc shares
	US dollars	Euros

SUBSCRIPTION AND REDEMPTION

1. SUBSCRIPTION AND REDEMPTION ON THE PRIMARY MARKET

Subscription/redemption orders for shares in the Sub-fund will be processed by the Depositary from 9:00 am to 6.30pm (Paris time), every day that the Sub-fund's net asset value is to be published, provided that prices can be quoted for a significant proportion of the Benchmark Index components (hereinafter a "**Primary Market Day**") and will be executed at the net asset value on the following Primary Market Day, hereinafter the "**reference NAV**". Subscription/redemption requests submitted after 6.30 pm (Paris time) on a Primary Market Day will be processed as if received from 9:00 am to 6.30 pm (Paris time) on the following Primary Market Day. Orders to subscribe for or redeem shares in the Sub-fund must be made for an exact number of whole shares that corresponds to a minimum amount of at least 100,000 euros for the Acc share class and at least the USD equivalent of 100,000 euros for Dist share class.

Subscriptions and redemptions in cash

Subscriptions and redemptions shall be made exclusively in cash and executed at the ref NAV.

Delivery and settlement

Settlement/delivery of subscriptions and redemptions shall be completed within five French business days upon receipt of the subscription or redemption order.

Date and frequency of net asset value calculation

The net asset value will be calculated and published daily, provided that at least one exchange on which the Sub-fund's shares are listed is open and that orders placed in the primary and secondary markets can be funded.

The Sub-fund's net asset value is calculated using the Benchmark Index's closing price. The Sub-fund's net asset value is denominated in EUR.

The net asset value of a share class that is denominated in another currency than the Sub-fund's accounting currency (if applicable) is calculated using the exchange rate between the accounting currency and the currency of the share class, at the applicable WM Reuters rate on the date the reference NAV is calculated.

2. PURCHASES AND SALES ON THE SECONDARY MARKET

A. COMMON PROVISIONS

For any purchase or sale of shares in the Sub-fund executed directly on an exchange on which the Sub-fund is admitted or will be admitted for continuous trading, no minimum purchase or sale amount is required other than that which may be required by the relevant exchange(s).

Shares in a listed Sub-fund that are purchased on the secondary market cannot generally be directly sold back to that Sub-fund. Investors must therefore buy and sell their shares or units on a secondary market through an intermediary (e.g. a broker) and may consequently incur costs. Furthermore, there is a possibility that investors may pay more than the indicative net asset value when buying shares or units and receive less than the indicative net asset value when selling shares or units.

If the stock market value of a listed fund's shares or units differs significantly from their indicative net asset value, or if trading in the fund's shares or units is suspended, investors may be authorized, subject to the conditions set forth below, to redeem their shares on the primary market directly from the fund, without being subject to the minimum redemption amount requirement set forth herein in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)".

The management company shall decide whether to allow such primary market redemptions and for how long, on the basis of the following criteria for assessing the significance of a market disruption:

- The suspension or strong disturbance of secondary trading on a given exchange is relatively frequent;
- The link between the market disruption and secondary market operators (such as the default of one or more of the Market Makers of a given exchange, or a breakdown or malfunction of an exchange's IT or operating systems), excluding a disruption caused by a source external to the secondary exchange on which the Sub-fund's shares are traded, such as an event that affects the liquidity and valuation of all or some of the Benchmark Index's components;
- Any other objective circumstance that could adversely affect the fair treatment and/or the interests of the Sub-fund's share-holders.

Notwithstanding the provisions concerning fees presented in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)", redemptions made in the primary market in this case shall only be subject to a net redemption fee of 1% paid to the Sub-fund and which serves to cover its trading costs.

In such exceptional cases when redemption in the primary market is allowed, the Management Company shall post on Lyxor's website at www.lyxoretf.com the procedure that investors must observe to redeem their shares in the primary market. The Management Company shall also make this procedure available to the market undertaking that handles trading in the Sub-fund's shares.

B. SPECIFIC PROVISIONS

a. If shares are listed on Euronext Paris, as specified in the "Key Information" part of the "General Characteristics" section of the Fund's prospectus, investors should note the following rules

Negotiability of shares and information about the financial institutions acting as Market Makers

The Sub-fund's share are freely negotiable on Euronext Paris under the following conditions and in compliance with the applicable laws and regulations.

The Sub-fund shares will be listed on a specific trading list, the rules of which are set forth in the following instructions published by Euronext Paris SA:

- Instruction No. 4-01 " Universal Trading Platform Manual"
- Appendix to Instruction N4-01 (Appendix to the Euronext Market Trading Manual)
- Instruction No. 6-04 "Documentation to be provided when filing a listing application for an ETF, ETN, ETV and open-ended undertakings for collective investment other than ETFS"

Pursuant to article D 214-22-1 of the French Monetary and Financial Code the shares or units of undertakings for collective investments in transferable securities may be admitted to trading, provided that these undertakings have a system to ensure that the market price of their shares or units does not differ significantly from their net asset value. Under Euronext Paris SA's rules trading in the Sub-fund's shares is also subject to a 'reservation threshold' of 3% above or below the Sub-fund's indicative net asset value or "iNAV" (see the "Indicative Net Asset Value" section), as published by Euronext Paris SA and updated on an estimated basis during trading in accordance with the change in the Index.

To comply with Euronext Paris' reservation threshold (see the section entitled "Indicative net asset value") the Market Makers will ensure that the market price of the Sub-fund's shares does not differ from the Sub-fund's indicative Net Asset Value by more than 3%.

Euronext Paris may suspend trading in the Sub-fund's shares pursuant to the terms of its operating rules, if the aforementioned reservation threshold limit is exceeded.

Euronext Paris will also suspend trading in the Sub-fund's shares in the following cases:

- The Benchmark Index is no longer traded or calculated;
- Euronext Paris cannot obtain the Benchmark Index's level;
- Euronext Paris cannot obtain the Sub-fund's net asset value;

In accordance with the terms and conditions governing admission to trading on the Euronext Paris exchange, the Market Makers undertake to provide market-making services for the Sub-fund's shares as soon as they are admitted to trading on the Euronext Paris exchange .

In particular, the Market Makers undertake to carry out market-making operations by maintaining a significant presence in the market, which initially entails the setting of a bid/ask spread.

More specifically, the Market Makers are required by contract with Euronext Paris to ensure that the Sub-fund maintains:

- a maximum global spread of 3% between the bid and offer price in the centralized order book.
- a minimum nominal trading value of EUR 100,000.

The obligations of the Sub-fund's Market Makers will be suspended in the following cases:

- The Benchmark Index is no longer traded or calculated;
- The Market Maker's obligations will be suspended if trading is substantially disrupted, for example due to a widespread shift in prices or an event that makes normal market making impossible.

Indicative Net Asset Value

Euronext Paris will calculate and publish, each Trading Day (as defined below) and during trading hours, the Sub-fund's indicative net asset value (hereinafter the "iNAV"). The iNAV is a measure of the intra-day value of the Sub-fund's net asset value based on the most recent data. The iNAV is not the value at which investors buy and sell shares in the Sub-fund on the secondary market.

A "Trading Day" is a day on which NSYE Euronext is normally open and on which the Benchmark Index is normally published.

The Sub-fund's iNAV is a theoretical net asset value calculated every 15 seconds by Euronext SA throughout the Paris trading day and is based on the level of the Benchmark Index. The iNAV enables investors to compare the prices that the Market Makers offer on the market with the theoretical value calculated by Euronext.

The iNAV will be calculated every day that the net asset value is calculated and published.

To calculate the Sub-fund's iNAV throughout the Paris trading session (from 9.05 am to 5.35 pm), Euronext Paris will use the Benchmark Index value and the corresponding exchange rate provided by Reuters.

The share prices of the stocks that make up the Benchmark Index and which are used to calculate the value of the Benchmark Index and therefore to determine the iNAV are provided directly to Reuters by the U.S. exchange where the stocks are listed.

If one or more stock exchanges on which the Benchmark Index's constituent equities are listed are closed (on a public holiday as indicated on the TARGET calendar) or if the EUR/USD exchange rate is unavailable and if the iNAV cannot be calculated, trading in the Sub-fund's shares may be suspended.

Lyxor International Asset Management, the Sub-fund's management company, will provide Euronext Paris with all the financial and accounting data it needs to calculate the Sub-fund's iNAV and in particular:

- The day's estimated net asset value;
- The official net asset value of the previous business day;
- The level of the Benchmark Index on the previous business day.

These data will serve as a basis for Euronext Paris SA's calculations to determine the Sub-fund's iNAV in real time the following Trading Day.

Additional information about the indicative net asset value of a share listed on a regulated market may, depending on the terms and limits set by the relevant market undertaking, be provided on the website of the exchange where the share is listed. This information is also available on the Reuters or Bloomberg pages dedicated to the particular share. Additional information about the Bloomberg and Reuters codes for the indicative net asset values of all UCITS ETF type share classes is also available in the "Term Sheets" section of Lyxor's website at www.lyxoretf.com.

b. If the Sub-fund's shares are listed on an exchange other than Euronext Paris, as indicated in the "Key Information" section, investors should note the following:

Investors wishing to acquire shares in the Sub-fund or obtain more information regarding the market-making terms that govern the listing and trading of shares on the types of exchanges indicated in the "Key Information" section are advised to familiarize themselves with the guidelines laid down by the relevant market undertaking, in compliance with local regulations, and to seek if necessary the assistance of their usual broker(s) for executing trades on the relevant exchange(s).

FEES AND CHARGES

The following information applies to the Acc and Dist share classes.

SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)

The subscription and redemption fees shown below respectively increase the subscription price paid by the investor and decrease the redemption price received. Fees kept by the Sub-fund compensate it for the expenses it incurs in investing in the Sub-fund's assets or in divesting these assets. Any fees that are not kept by the Sub-fund are paid to the asset manager, marketing agent or other service provider.

Fees paid by investors upon subscription or redemption	Base	Maximum charge
Subscription fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per subscription order or 5% payable to third parties
Subscription fee kept by the Sub-fund	NAV per share x number of shares	N/A
Redemption fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per redemption order or 5% payable to third parties
Redemption fee kept by the Sub-fund	NAV per share x number of shares	N/A

OPERATIONAL AND MANAGEMENT FEES

These fees cover all the costs invoiced directly to the Sub-fund, except for transaction expenses, which include intermediary fees (brokerage, stock market taxes etc.) and any account activity charge that may be charged, for example, by the depositary or the management company.

For this Sub-fund the following fees may be charged in addition to the operating and management fees (see table below):

- incentive fees, which the Sub-fund pays to the management company when the Sub-fund exceeds its objectives
- account activity charges charged to the Sub-fund.

For more information on the fees or expenses that the Sub-fund must pay, see the Statistics section of the Key Investor Information Document (KIID).

Fees charged to the Sub-fund	Base	Maximum charge
Investment management fees and administration fees that are external to the management company (auditor, depositary, fund distribution and legal fees) including tax ⁽¹⁾	Net asset value	0.55% per annum
Incentive fee	Net asset value	N/A
Account activity charge:	Charge on each transaction	N/A

⁽¹⁾ Includes all fees and expenses except for transaction expenses, incentive fees and fees associated with investment in UCITS.

COMMERCIAL INFORMATION

Distribution of this prospectus and the offering or purchase of the Fund's share classes may be subject to restrictions with regard to certain persons or in certain countries under national regulations that may apply to these persons or countries. Investors are therefore responsible for ensuring that they can legally subscribe to or invest in this Fund. The information in this prospectus therefore cannot be construed to be an offer or solicitation to buy or sell shares in this Fund in a country where such offer or solicitation is unlawful.

The Fund's share classes will not be registered pursuant to the U.S. Securities Act of 1933, as amended (the "U.S. Securities Act") and cannot be offered, assigned, transferred or allocated to the United States of America, or to:

- (A) any "U.S. Person", as this term is defined (i) under Regulation S of the US Securities Act of 1933 and (ii) under U.S. regulations as defined in Section 7701 (a) (30) of the Internal Revenue Code of 1986 as amended. The Fund's shares will not be offered to U.S. Persons.
- (B) anyone other than those persons considered to be "non-US Persons" as this term is defined under U.S. regulations pursuant to the Commodity Futures Trading Commission, Rule 4.7 (a) (1) (iv).

The Fund's shares will only be offered for sale outside of the United States of America to non-U.S. Persons.

For the purpose of this document, the term "U.S. Person" shall mean, among other things, any individual who resides in the United States of America, any entity organized or formed under the laws of the United States of America, certain entities organized or formed outside of the United States of America by one or more U.S. persons, or any account held on behalf of such a U.S. person.

Under the German tax act on investment funds (InvStG-E), the Sub-fund is a "mutual fund" and must comply with the criteria that apply to "equity funds". As such, the Sub-fund will hold a basket of securities that are eligible for the equity ratio as this term is defined under said German tax act, and which will represent at least 92% of its net assets under normal market conditions. To ensure compliance with this ratio, the Sub-fund may adjust this basket of securities on a daily basis.

Before making an investment in this Fund or Sub-fund, investors should seek the advice of their financial, tax and legal advisers.

PLACE AND METHOD OF NET ASSET VALUE PUBLICATION OR COMMUNICATION

At the head office of LYXOR INTERNATIONAL ASSET MANAGEMENT, at 17, cours Valmy - 92987 Paris La Défense CEDEX - France.

The Sub-fund's net asset value will be calculated and published by Euronext Paris SA on each Paris Trading Day, during trading hours.

IMPORTANT INFORMATION ABOUT THE INDEX PROVIDER

LYXOR MSCI Select OECD Emerging Markets GDP UCITS ETF(the "Sub-fund") is in no way sponsored, endorsed, sold or promoted by MSCI Inc. ("MSCI"), nor by any MSCI subsidiary, nor by any entity involved in establishing the MSCI indices. The MSCI indices are the sole property of MSCI, and the MSCI indices are trademarks registered by MSCI and its subsidiaries and have been licensed, for specific purposes, by Lyxor Asset Management. Neither MSCI, nor any subsidiary of MSCI, nor any of the entities involved in producing or calculating the MSCI indices have made any statement or any warranty, either expressed or implied, to holders of shares in the Sub-Fund or, more generally, to the general public, concerning the merits of trading in shares of mutual funds in general or in shares of this Sub-Fund in particular or the ability of any MSCI index to replicate the performance of the global equities market. MSCI and its subsidiaries are the owners of certain names, registered trademarks and the MSCI indices, which are determined, constructed and calculated by MSCI without any consultation with Lyxor International Asset Management or the Sub-Fund. Neither MSCI, nor any MSCI subsidiary, nor any of the entities involved in the production of the MSCI indices are obliged to take into consideration the needs of Lyxor International Asset Management or holders of the Sub-Fund's shares when determining, constructing or calculating the MSCI indices. Neither MSCI, nor any MSCI subsidiary, nor any of the entities involved in the production of the MSCI indices make any decision concerning the launch date, pricing, quantity of the Sub-Fund's shares or the determination and calculation of the formula used to establish the Sub-Fund's net asset value. Neither MSCI, nor any MSCI subsidiary, nor any of the entities involved in the production of the MSCI indices accept any responsibility for or obligations concerning the administration, management or marketing of the Sub-Fund.

ALTHOUGH MSCI OBTAINS DATA INCORPORATED OR USED IN THE CALCULATION OF INDICES ORIGINATING FROM SOURCES THAT MSCI BELIEVES TO BE RELIABLE, NEITHER MSCI, NOR ANY OTHER PARTY INVOLVED IN THE CREATION OR CALCULATION OF THE MSCI INDICES GUARANTEES THE ACCURACY AND/OR THE COMPLETENESS OF THE INDICES OR ANY INCORPORATED DATA. NEITHER MSCI NOR ANY PARTY INVOLVED IN THE CREATION OR CALCULATION OF THE MSCI INDICES MAKES ANY WARRANTIES, EXPRESSED OR IMPLIED, CONCERNING THE RESULTS THAT THE HOLDER OF A MSCI LICENSE, CUSTOMERS OF SAID LICENSEE, COUNTERPARTIES, SUB-FUND SHAREHOLDERS OR ANY OTHER PERSON OR ENTITY WILL ACHIEVE FROM THE USE OF THE INDICES OR ANY INCORPORATED DATA IN RELATION TO THE RIGHTS LICENSED OR FOR ANY OTHER PURPOSE. NEITHER MSCI NOR ANY OTHER PARTY MAKES ANY WARRANTIES, EXPRESSED OR IMPLIED, AND MSCI DISCLAIMS ANY WARRANTIES CONCERNING THE COMMERCIAL VALUE OR SUITABILITY FOR A SPECIFIC PURPOSE OF THE INDICES OR INCORPORATED DATA. SUBJECT TO THE FOREGOING, UNDER NO CIRCUMSTANCES SHALL MSCI OR ANY OTHER PARTY BE HELD LIABLE FOR ANY LOSS, BE IT DIRECT, INDIRECT OR OTHER (INCLUDING LOSS OF EARNINGS) EVEN IF IT IS AWARE OF THE POSSIBILITY OF SUCH A LOSS.

ADDITIONAL INFORMATION

The Sub-fund's shares are approved for clearing by Euroclear France S.A.

Subscription and redemption orders are sent by the investors' financial intermediaries (members of Euroclear France SA) to the Depositary.

The Sub-fund's prospectus, the Key Investor Information Document, the most recent annual documents and the asset inventory will be sent to investors within eight business days upon receipt of a written request addressed to:

LYXOR INTERNATIONAL ASSET MANAGEMENT
17 Cours Valmy - 92987 Paris La Défense France.

E-mail: contact@lyxor.com

More information can also be requested from Lyxor International Asset Management on its website at www.lyxoretf.com.

Prospectus publication date: See the "Publication Date" section.

Pursuant to Article L.533-22-1 of the French Monetary and Financial Code, information concerning the management company's possible inclusion of social, environmental and corporate governance objectives and performance criteria in the investment policy is available on the management company's website and in the Sub-fund's annual report.

The AMF's website (www.amf-france.org) provides more information on the regulatory documents and various provisions that concern investor protection. This Prospectus shall be made available to investors prior to subscription.

INVESTMENT RULES

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

The Sub-fund may invest in the assets specified in Article L214-20 of the French Monetary and Financial Code, subject to the risk-diversification and investment ratio requirements of Articles R214-21 to R214-27 of said Code.

Notwithstanding the 10% limit under Paragraph II of Article R214-21 of the French Monetary and Financial Code, the Sub-fund may invest up to 20% of its assets in the equities and debt securities of a single issuer, in compliance with Article R214-22-I, which deals with index-tracking funds. Pursuant to Article R214-22 II, the Sub-fund may also increase this 20% limit for a single issuer to 35%, when this is justified by exceptional market conditions, and in particular when certain securities are largely dominant.

OVERALL RISK EXPOSURE

The commitment approach is used to calculate the overall risk exposure.

ASSET VALUATION AND ACCOUNTING RULES

A. VALUATION RULES

The Sub-fund's assets are valued in accordance with applicable laws and regulations and most notably Regulation No. 2014-01 of 14 January 2014 of the Comité de la Réglementation Comptable (the Accounting Regulations Committee), which applies to the chart of accounts for undertakings for collective investment in transferable securities.

Financial instruments traded on a regulated market are valued at the closing price recorded on the day prior to the calculation of the net asset value. If these financial instruments are traded on several regulated markets at the same time, the closing price used is that recorded on the regulated market on which they are principally traded.

However, in the absence of significant trading on a regulated market, the following financial instruments are valued using the following methods:

- Negotiable debt securities ("NDS") with a remaining life upon acquisition that is less than or equal to three months are valued by applying the difference between the acquisition value and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life of more than three months upon acquisition but less than or equal to three months at the net asset value calculation date are valued by applying the difference between the most recent valuation and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life at the net asset value calculation date that exceeds three months are valued at their current value. The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- Financial futures traded on organized markets are valued at the clearing price on the day prior to the calculation of the net asset value. Options traded on organized markets are valued at their market price on the day prior to the calculation of the net asset value. Forward contracts and over-the-counter options are valued at the price quoted by the counterparty. The management company monitors these prices independently.
- Bank deposits are valued at their nominal value plus accrued interest.
- Warrants, short and medium-term notes (bons de caisse), promissory notes and mortgage notes are valued under the management company's responsibility at their most likely trading value.
- Securities financing transactions are valued at the market price.
- Shares and units in UCITS under French law are valued at the last known net asset value on the day the Sub-fund's net asset value is calculated.
- Shares and units in foreign investment funds are valued at the last known unitary net asset value at the date the Sub-fund's net asset value is calculated.
- Financial instruments traded on a regulated market and for which no price has been quoted or whose price has been corrected, are valued under the management company's responsibility at their most likely trading value.
- The exchange rates used to value financial instruments denominated in a currency other than the Sub-fund's base currency are the WM Reuters fixing rates published on the day the Sub-fund's net asset value is calculated.

B. ACCOUNTING METHOD FOR TRADING EXPENSES

Trading expenses are included in the initial cost of the transaction.

C. ACCOUNTING METHOD FOR INCOME FROM FIXED-INCOME SECURITIES

Income from fixed-income securities is accounted for using the cash-basis method.

D. DISTRIBUTION POLICY

For more information see the section entitled "Calculation and appropriation of Distributable amounts"

E. ACCOUNTING CURRENCY

The Sub-fund's accounts are kept in euros.

SUB-FUND NO. 20: Lyxor EURO STOXX Banks (DR) UCITS ETF

A SICAV SUB-FUND COMPLIANT WITH DIRECTIVE 2009/65/CE

ISIN CODES

Acc share class: FR0011645647

Dist share class: FR0011645662

CLASSIFICATION

Eurozone country equities.

The Lyxor EURO STOXX Banks (DR) UCITS ETF sub-fund (the “**Sub-fund**”) continuously maintains at least 60% exposure to one or more of the equity markets one or more eurozone countries, which may include France.

The Sub-fund is a UCITS ETF type index tracker.

INCEPTION DATE

The Sub-fund was approved by l'autorité des Marchés Financiers (the French financial markets authority) on 29/11/2013 and was established on 12/12/2013.

INVESTMENT OBJECTIVE

The Sub-fund’s investment objective is to replicate the performance, whether positive or negative, of the Euro STOXX® Banks Index (Bloomberg code: SX7T) (the “**Benchmark Index**”) denominated in euros (EUR), while minimizing the tracking error between the Sub-fund’s performance and that of its Benchmark Index, which is representative of the performance of the largest banks in the eurozone.

The expected ex-post tracking error under normal market conditions is 0.40%.

BENCHMARK INDEX

The Benchmark Index is the EURO STOXX® Banks Index,

The Benchmark Index measures the performance of eurozone banks, as defined by the Industry Classification Benchmark (ICB), and offers exposure to the following eurozone countries: Austria, Finland, Germany, Greece, Ireland, Italy, Luxembourg, Netherlands, Portugal and Spain. The index is a sub-index of the EURO STOXX® Index (the “Parent Index”), which measures the performance of the large-cap, mid-cap and small-cap equities of the eurozone’s developed economies.

The Benchmark Index is weighted by float-adjusted market capitalization and measures the performance of euro-zone banks, as defined by the Industry Classification Benchmark (ICB). The ICB categorizes companies on the basis of their main source of income into 10 different industries, which are in turn broken down into 19 super-sectors, 41 sectors and 114 sub-sectors.

The Benchmark Index is rebalanced quarterly, in March, June, September and December.

The Benchmark Index is a Net Total Return index. A Net Total Return index includes dividends and all other types of income distribution in the calculation of index performance.

Benchmark Index composition and revision

The Benchmark Index is rebalanced quarterly.

The Benchmark Index’s composition and STOXX’s rules for its revision are available on STOXX’s website at <https://www.stoxx.com/indices>.

The frequency with which the Benchmark Index is rebalanced does not affect the cost of implementing the Investment Strategy.

Benchmark Index publication

The Benchmark Index is calculated daily at the official closing price of the exchanges where the index constituents are listed.

The Benchmark Index is also calculated in real time every stock exchange trading day.

Real-time Benchmark Index values are available via Bloomberg and Reuters.

Reuters code: .SX7T

Bloomberg code: SX7T

The closing price of the Benchmark Index is available on the Internet at <https://www.stoxx.com/indices>.

Pursuant to Article 52 of European Parliament and Council Regulation 2016/1011 of 8 June 2016, STOXX, the administrator of the EURO STOXX® Banks™ benchmark index, has until 1 January 2020 to apply for approval or registration as applicable.

As of the date of the most recent version of this prospectus, the benchmark index administrator was not yet listed in ESMA’s register of benchmark administrators.

Pursuant to European Parliament and Council Regulation 2016/1011 of 8 June 2016, the asset management company has a procedure for monitoring the benchmark indices used that specifies the measures to be implemented if an index is substantially modified or is no longer provided.

INVESTMENT STRATEGY

1. Strategy employed

The Sub-fund will comply with the investment rules set out in European Directive 2009/65/EC of 13 July 2009.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund will use a direct replication method, which means that it will invest mainly in the Benchmark Index's constituents.

In order to optimize the direct replication method that is used to track the Benchmark Index, the Sub-fund, represented by its delegated asset manager, may decide to employ a "sampling" technique that consists in investing in a selection of representative Benchmark Index constituents in order to reduce the costs of investing directly in all of the various Benchmark Index constituents. This sampling technique could cause the Sub-fund to invest in a selection of representative Benchmark Index securities (and not in all of them) in proportions that do not reflect their weight within the Benchmark Index, and even to invest in securities that are not constituents of the Benchmark Index.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund may also, on an ancillary basis, engage in transactions involving derivative instrument financials (**DFI**). These transactions could for example be futures contracts on indices and/or swaps for hedging purposes and in particular to minimise the Sub-fund's **tracking error**.

To ensure transparency on the use of the direct index replication method (i.e. either full replication of the Benchmark Index or sampling to limit replication costs) and on its consequences in terms of the assets in the Sub-fund's portfolio, information on the updated composition of the basket of 'balance sheet' assets in the Sub-fund's portfolio is available on the page dedicated to the Sub-fund accessible on Lyxor's website at www.lyxoretf.com. The frequency of any updates and/or the date on which the aforementioned information is updated is also indicated on the same page of the aforementioned website.

Up to 20% of the Sub-fund's assets may be exposed to equities issued by the same entity. This 20% limit may be increased to 35% for a given issuing entity when this is justified by exceptional market conditions and in particular when certain securities are largely dominant and/or in the event of strong volatility that affects a financial instrument or securities linked to an economic sector represented in the Benchmark Index, particularly in the event of a public offering that substantially affects a Benchmark Index security or in the event of a significant drop in the liquidity of one or more of the Benchmark Index's financial instruments.

The Sub-fund will at all times invest at least 75% of its assets in companies having their head office in a member state of the European Union or in another country that is a member of the European Economic Area and which has signed a tax convention with France that includes an administrative assistance clause for the purpose of fighting tax fraud and evasion. This minimum investment requirement qualifies the Fund for French 'PEA' equity savings plans.

2. Balance sheet assets (excluding embedded derivatives)

The Sub-fund will comply with the investment rules set out in European Directive 2009/65/EC of 13 July 2009. The Sub-fund will be mainly invested in the securities of the Benchmark Index.

Investment in undertakings for collective investment in transferrable securities ("UCITS") that comply with Directive 2009/65/EC is limited to 10% of the net assets. The Sub-fund may invest in the units or shares of UCITS managed by the management company or by a company that is related to the management company. The fund manager will not invest in the shares or units of alternative investment funds (AIF) or other investment funds that were formed under a foreign law.

When the Sub-fund receives collateral in the form of securities, subject to the terms of section 8 below, it acquires full title to these securities and they are therefore included among the balance sheet assets to which it has full title.

To optimize the Sub-fund's management and achieve its investment objective, the manager reserves the right to use other instruments in accordance with regulations.

3. Off-balance sheet assets (derivatives)

On an ancillary basis, the Sub-fund may engage in transactions involving derivatives traded on a regulated market or over the counter.

With respect to derivatives traded over-the-counter, in accordance with its best-execution policy the management company considers that Société Générale would be the counterparty that would generally provide the best possible execution for any hedging transactions the Sub-fund may enter into pursuant to its investment strategy. Accordingly, all or some of these derivatives (including index-linked swaps) may be traded with Société Générale without having to seek a competitive bid from another counterparty.

4. Securities with embedded derivatives

N/A.

5. Cash deposits

In order to optimize its cash management, the Sub-fund may deposit up to 20% of its assets in the form of cash with credit institutions that belong to the same group as the depositary.

6. Cash borrowing

The Sub-fund may temporarily borrow up to 10% of its net assets.

7. Securities financing transactions

Pursuant to its investment strategy, the Sub-fund may use various efficient portfolio management techniques in compliance with Article R214-18 of the French Monetary and Financial Code, including securities financing transactions.

Maximum proportion of assets under management for which securities financing transactions may be entered into: up to 25% of the Sub-fund's assets.
Expected proportion of assets under management for which securities financing transactions may be entered into: 10% of the Sub-fund's assets .

For this purpose the management company may appoint an intermediary (hereinafter the “Agent) to provide the following services in connection with the Sub-fund’s temporary disposals of securities. If such an Agent is used it may be authorised to (i) lend securities, on the Sub-fund’s behalf, under framework agreements, such as global master securities lending agreements (GMSLA) and/or any other internationally recognised framework agreement, and (ii) invest, on the Sub-fund’s behalf, any liquid assets received as collateral for these securities lending transactions, subject to the restrictions specified in the securities lending agreement, the rules of this prospectus and the applicable regulations.

The Sub-fund shall be entitled to all income from securities financing transactions, net of any direct and indirect operating costs.

These operating costs, which are incurred to manage the portfolio more efficiently, may be borne by the Sub-fund’s management company, the Agent and/or other intermediaries that are involved in these transactions.

These direct and indirect operating costs will be calculated as a percentage of the Sub-fund’s gross income. Information on direct and indirect operating expenses and on the entities to which these expenses are paid will be provided in the Sub-fund’s annual report.

Income from the lending of securities will be paid to the Sub-fund after deduction of the direct and indirect operating expenses borne by the Agent and possibly by the management company. Since these direct and indirect operating expenses do not increase the Sub-fund’s operating expenses they have been excluded from ongoing charges.

If necessary, the Sub-fund’s annual report will provide the following information:

- the exposure resulting from the use of efficient portfolio management techniques/transactions
- the identity of the counterparty(ies) involved in these transactions
- the nature and amount of any collateral received to reduce the Sub-fund’s counterparty risk
- the income generated by efficient portfolio management techniques over the relevant period, and any associated direct and indirect operating costs or expenses.

8. Collateral

Whenever the investment strategy exposes to the Sub-fund to counterparty risk, and in particular when the Sub-fund uses over-the-counter swaps, the Sub-fund may accept eligible securities as collateral to reduce the counterparty risk associated with these swaps. The portfolio of collateral received may be adjusted daily to ensure that its value is at least sufficient to cover the Sub-fund’s counterparty risk in most cases. The purpose of this adjustment is to neutralize the Sub-fund’s counterparty risk.

The Sub-fund will have full title to all collateral received, which will be deposited in the Sub-fund’s account with the depositary. This collateral will therefore be included in the Sub-fund’s assets. If a counterparty defaults on an obligation, the Sub-fund may dispose of the assets received from the counterparty in respect of the secured transaction to pay off the counterparty’s debt to the Sub-fund.

All collateral the Sub-fund receives for this purpose must comply with the applicable laws and regulations, with respect in particular to the liquidity and valuation of the collateral, the credit-worthiness of securities issuers, risk exposure correlation and the risks of collateral management and enforceability. All collateral received must in particular meet the following criteria:

- (a) All collateral must be of high quality, be highly liquid and tradable on a regulated market or on a multilateral trading facility, with transparent pricing to enable the collateral to be rapidly sold near its estimated price;
- (b) This collateral must be valued at its mark-to-market price at least daily and assets with highly volatile prices are not acceptable as collateral, unless a sufficiently prudent discount or “haircut” is applied;
- (c) The issuer of this collateral must be independent of the counterparty and must not be closely correlated with the counterparty’s financial performance;
- (d) This collateral must be sufficiently diversified by country, market and issuer, and no exposure to a single issuer may exceed 20 % of the Sub-fund’s net asset value;
- (e) The Sub-fund’s Management Company must be able to enforce this collateral in full and at any time, without having to consult with the counterparty or obtain its approval.

Notwithstanding the condition specified in (d) above, the Fund may accept a basket of securities collateral that increases its exposure to a single issuer to more than 20% of its net asset value provided that:

- such securities collateral is issued by (i) a Member State, (ii) one or more of a Member State’s local authorities, (iii) a country that is not a Member State (iv) a public international organization to which one or more Member States belong; and;
- such securities collateral consists of at least six different issues of securities of which no single issue exceeds 30% of the Sub-fund’s assets.

Subject to the above conditions, the Sub-Fund may take collateral in the following forms:

- (i) Cash and cash-equivalent assets, which for example include short-term bank deposits and balances and money-market instruments;
- (ii) Bonds issued or guaranteed by an OECD member state, or by its local government entities, or by an EU, regional or global supranational institution or organisation, or by any country provided that conditions (a) to (e) above are fully complied with;
- (iii) Shares or units issued by money-market funds that calculate a daily net asset value and have an AAA or equivalent credit rating;
- (iv) The shares or units of UCITS that invest mainly in the bonds and/or equities indicated in (v) and (vi) below;
- (v) Bonds issued or guaranteed by first-class issuers offering sufficient liquidity;
- (vi) Equities admitted for trading or traded on a regulated exchange of an EU member country, on a stock exchange of an OECD member country or on a stock exchange of another country provided that conditions (a) to (e) above are fully complied with and that these equities are components of a major index.

Collateral discount policy:

The Sub-fund’s management company shall apply a discount to the collateral accepted by the Sub-fund. The amount of these discounts will depend mainly on the following:

- The nature of the collateral asset;
- The collateral’s maturity (if applicable);
- The credit rating of the collateral issuer (if applicable).

A higher discount may be applied to collateral received in a currency other than the euro.

Reinvestment of collateral:

Non-cash collateral will not be sold, reinvested or pledged.

At the manager's discretion, cash collateral may either be:

- (i) deposited with an authorized institution
- (ii) invested in high-quality government bonds
- (iii) used for reverse repurchase transactions, provided that these are entered into with credit institutions that are subject to prudential supervision and that the fund is able to withdraw the total amount of its cash collateral and the accrued interest at any time
- (iv) invested in short-term money market funds that meet the guidelines for a common EU definition of money market funds.

All cash collateral that is reinvested must be invested in a diversified manner in compliance with the rules that apply to the acceptance of non-cash collateral.

RISK PROFILE

Investors' money will be invested mainly in the financial instruments selected by the management company. These instruments are subject to market trends and contingencies.

Investors in the Sub-fund will mainly be exposed to the following risks:

Equity risk

The price of an equity security can increase or decrease in accordance with changes in the issuer's risk exposure or in the economic conditions of the market in which the security is traded. Equity markets are more volatile than fixed income markets, where under stable macroeconomic conditions income over a given period of time can be estimated with reasonable accuracy.

Capital risk

The capital invested is not guaranteed. Investors therefore may not recover all or part of their initial investment, particularly in the event that the Benchmark Index posts a negative return over the investment period.

Liquidity risk (primary market)

The Sub-fund's liquidity and/or value may be adversely affected if, when the Sub-fund or a counterparty to a financial derivative instrument (DFI) is rebalancing its exposure, the underlying financial markets are restricted, closed, or subject to large bid/offer spreads. An inability, due to low trading volume, to execute the trades required to replicate the Benchmark Index may also adversely affect the subscription, conversion or redemption of shares.

Liquidity risk (secondary market)

The price of the Sub-fund's listed shares or units may deviate from the Sub-fund's indicative net asset value. The liquidity of the Sub-fund's shares traded on a given exchange may be adversely affected by a suspension in trading for various reasons, such as:

- i) the calculation of the Benchmark Index is suspended or stopped
- ii) trading in the market(s) in the Benchmark Index's underlying assets is suspended
- iii) an exchange cannot obtain or calculate the Sub-fund's indicative net asset value
- iv) a market maker fails to comply with an exchange's rules
- v) an exchange's IT, electronic or other system fails.

Benchmark Index tracking risk

Replicating the performance of the Benchmark Index by investing in all of its constituents may prove to be very difficult to implement and costly. The Sub-fund manager may therefore use various optimization techniques, such as 'sampling', which consists in investing in a selection of representative securities (and not all securities) that constitute the Benchmark Index, in proportions that differ from those of the Benchmark Index or even investing in securities that are not index constituents or in derivatives. The use of such optimization techniques may increase the ex post tracking error and cause the Sub-fund to perform differently from the Benchmark Index.

Counterparty risk

The Sub-fund may use derivative instrument financials (DFI) on an ancillary basis.

In this case, the Sub-fund will be exposed to the risk that a counterparty with which the Sub-fund has entered into a contract or transaction may go bankrupt or default on a settlement or other obligation. The Sub-fund will in particular be exposed to counterparty risk resulting from the use of DFI traded over the counter. In compliance with UCITS regulations, exposure to counterparty risk may not exceed 10% of the Sub-fund's total assets per counterparty.

When Société Générale is the counterparty for DFI transactions and/or for securities financing transactions, conflicts of interest may arise between it and the Sub-fund's management company, which has procedures to identify and reduce such conflicts of interest and to resolve them equitably if necessary.

Risk that the investment objective may not be fully achieved

There is no guarantee that the investment objective will be achieved, as no asset or financial instrument can ensure that the Benchmark Index will be automatically and continuously replicated, particularly in the event of one or more of the following risks

Risk of using derivative financial instruments

The Sub-fund may enter into transactions involving derivative financial instruments (DFI) traded over the counter or on a regulated exchange, such as swaps. These DFI involve various risks, such as These DFI involve various risks, such as counterparty risk, hedging disruption, Benchmark Index disruption, taxation risk, regulatory risk, operational risk and liquidity risk. These risks can directly affect a DFI and may require an adjustment of the DFI transaction or even its premature termination, which could adversely affect the Sub-fund's net asset value.

Risk of a change in the taxation of the Sub-fund's underlying assets

A change in the taxation of the Sub-fund's underlying assets could adversely affect the taxation of the Sub-fund. In such an event a discrepancy between the estimated taxation and the actual taxation of the Sub-fund and/or of the Sub-fund's DFI counterparty may adversely affect the Sub-fund's net asset value.

Regulatory risk affecting the Sub-fund

In the event of a change in the regulatory regime in a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed, the subscription, conversion or redemption of shares or units may be adversely affected.

Regulatory risk affecting the Sub-fund's underlying assets

In the event of a change in the regulations that govern the Sub-fund's underlying assets, the Sub-fund's net asset value and the subscription, conversion or redemption of shares or units may be adversely affected.

Benchmark Index disruption risk

If an event adversely affects the Benchmark Index, the Sub-fund manager may be required, as provided for by law, to suspend the subscription and redemption of the Sub-fund's shares or units. The calculation of the Sub-fund's net asset value could also be adversely affected.

If the disruption of the Benchmark Index persists, the Sub-fund manager will determine an appropriate course of action, which could decrease the Sub-fund's net asset value.

A 'Benchmark Index event' includes but is not limited to the following situations:

- i) the Benchmark Index is deemed to be inaccurate or does not reflect actual market developments
- ii) the Benchmark Index is permanently cancelled by the index provider
- iii) the index provider is unable to indicate the level or value of the Benchmark Index
- iv) The index provider makes a material change in the Benchmark Index calculation formula or method (other than a minor modification such as an adjustment to the Benchmark Index's underlying components or their respective weightings) which the Sub-fund cannot effectively replicate at a reasonable cost
- v) a Benchmark Index component becomes illiquid because it is no longer traded on a regulated market or because its trading over-the-counter (e.g. bonds) is disrupted.
- vi) the Benchmark Index components are exposed to higher transaction costs for execution or settlement/delivery, or to specific tax constraints and these costs are not reflected in the Benchmark Index's performance.

Risk arising from securities financing transactions

If a borrower of securities defaults on its obligation there could be a risk that the value of the collateral received by the Sub-fund is less than the value of the securities lent. This risk could arise, for example, in the event of (i) an inaccurate valuation of the securities lent and/or (ii) unfavourable market movements and/or (iii) the lowering of the credit rating(s) of the issuer(s) of securities taken as collateral and/or (iv) the illiquidity of the market in which the collateral received is listed. If cash collateral is reinvested this could (i) result in leverage that entails a risk of loss and volatility and/or (ii) expose the Sub-fund to a market that is inappropriate for its investment objective, and/or (iii) generate less income than the amount of collateral the Sub-fund must repay. The Sub-fund could also fail to receive the securities lent by the date specified, which would diminish its capacity to accommodate investor redemptions

Corporate action risk

An unforeseen change, by the issuer of a security that is a component of the Benchmark Index, in a planned corporate action that is in contradiction with a previous official announcement on which the Sub-fund based its valuation of the corporate action (and/or on which the Sub-fund's counterparty to a financial derivative instrument or transaction based its valuation of the corporate action) can adversely affect the Sub-fund's net asset value, particularly if the Sub-fund's treatment of the corporate event differs from that of the Benchmark Index methodology.

Legal risk

The Sub-fund may be exposed to a legal risk arising from securities financing transactions as indicated in EU Regulation No. 2015/2365.

Currency risk associated with listing exchanges

The Sub-fund may be listed on an exchange or multilateral trading facility in a currency that is not the currency of the Benchmark Index. Investors who purchase shares in the Sub-fund in a currency that is not that of the Benchmark index are exposed to currency risk. As a result, due to changes in exchange rates the value of an investment that is made in a currency other than that of the Benchmark Index may decrease even though the value of the Benchmark Index increases.

Concentration risk

Since the index to which investors are exposed represents a given sector it may provide less diversification of assets in comparison with a broader index that is exposed to several sectors. Exposure to such a benchmark index that offers little diversity may result in greater volatility than exposure to a more diversified index and in a higher risk of illiquidity if market liquidity begins to deteriorate or if one or more of the components of the Benchmark Index is suspended from trading.

ELIGIBLE INVESTORS AND TYPICAL INVESTOR PROFILE

The Sub-fund is available to all investors.

Investors in this Sub-fund are seeking exposure to the eurozone equities market.

The amount that can be reasonably invested in the Sub-fund depends on each investor's personal situation. To determine this amount, investors must take into account their personal wealth and/or estate, their cash requirements currently and for the next five years, and their willingness to take on risk or their preference for more prudent investment. Investors are also advised to diversify their investments sufficiently so as not to be exposed solely to this Sub-fund's risks.

All investors are therefore asked to consider their specific situation with the help of their usual investment advisor.

The recommended minimum investment period is at least five years.

CALCULATION AND APPROPRIATION OF DISTRIBUTABLE AMOUNTS

Acc share class: all distributable amounts are accumulated

Dist share class: If a distribution is decided, the management company reserves the right to distribute distributable amounts one or more times a year and/or accumulate all or part of these amounts. Realized net capital gains will be accumulated.

DISTRIBUTION FREQUENCY

If a distribution is decided, the management company reserves the right to distribute distributable amounts in one or more distributions per annum.

SHARE CHARACTERISTICS

Subscription orders may be placed for a specific monetary amount or for a whole number of shares.
Only a whole number of shares may be redeemed.

CURRENCIES

SUBSCRIPTION AND REDEMPTION

1. SUBSCRIPTION AND REDEMPTION ON THE PRIMARY MARKET

Subscription/redemption orders for shares in the Sub-fund will be processed by the Depositary from 10:00 am to 5.00 pm (Paris time), every day that the Sub-fund's net asset value is to be published, provided that prices can be quoted for a significant proportion of the Benchmark Index components (hereinafter a "**Primary Market Day**" and will be executed at the net asset value on that Primary Market Day, hereinafter the "**reference NAV**". Subscription/redemption orders submitted after 5.00 pm (Paris time) on a Primary Market Day will be processed as if received from 10:00 am to 5.00 pm (Paris time) on the following Primary Market Day. Orders to subscribe for or redeem shares in the Sub-fund must be for a whole number of shares and a minimum amount of at least 100,000 euros.

Subscriptions and redemptions in cash

Subscriptions and redemptions shall be made exclusively in cash and executed at the ref NAV.

Delivery and settlement

Settlement/delivery of subscriptions and redemptions shall be completed within five French business days upon receipt of the subscription or redemption order.

Date and frequency of net asset value calculation

The net asset value will be calculated and published daily, provided that at least one exchange on which the Sub-fund's shares are listed is open and that orders placed in the primary and secondary markets can be funded.

The Sub-fund's net asset value is calculated using the Benchmark Index's closing price. The Sub-fund's net asset value is denominated in EUR.

The net asset value of a share class that is denominated in another currency than the Sub-fund's accounting currency (if applicable) is calculated using the exchange rate between the accounting currency and the currency of the share class, at the applicable WM Reuters rate on the date the reference NAV is calculated.

2. PURCHASES AND SALES ON THE SECONDARY MARKET

A. COMMON PROVISIONS

For any purchase or sale of shares in the Sub-fund executed directly on an exchange on which the Sub-fund is admitted or will be admitted for continuous trading, no minimum purchase or sale amount is required other than that which may be required by the relevant exchange(s).

Shares in a listed Sub-fund that are purchased on the secondary market cannot generally be directly sold back to that Sub-fund. Investors must therefore buy and sell their shares or units on a secondary market through an intermediary (e.g. a broker) and may consequently incur costs. Furthermore, there is a possibility that investors may pay more than the indicative net asset value when buying shares or units and receive less than the indicative net asset value when selling shares or units.

If the stock market value of a listed fund's shares or units differs significantly from their indicative net asset value, or if trading in the fund's shares or units is suspended, investors may be authorized, subject to the conditions set forth below, to redeem their shares on the primary market directly from the fund, without being subject to the minimum redemption amount requirement set forth herein in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)".

The management company shall decide whether to allow such primary market redemptions and for how long, on the basis of the following criteria for assessing the significance of a market disruption:

- The suspension or strong disturbance of secondary trading on a given exchange is relatively frequent
- The link between the market disruption and secondary market operators (such as the default of one or more of the Market Makers of a given exchange, or a breakdown or malfunction of an exchange's IT or operating systems), excluding a disruption caused by a source external to the secondary exchange on which the Sub-fund's shares are traded, such as an event that affects the liquidity and valuation of all or some of the Benchmark Index's components
- Any other objective circumstance that could adversely affect the fair treatment and/or the interests of the Sub-fund's share-holders.

Notwithstanding the provisions concerning fees presented in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)", redemptions made in the primary market in this case shall only be subject to a net redemption fee of 0.08% paid to the Sub-fund and which serves to cover its trading costs.

In such exceptional cases when redemption in the primary market is allowed, the Management Company shall post on Lyxor's website at www.lyxor.etf.com the procedure that investors must observe to redeem their shares in the primary market. The Management Company shall also make this procedure available to the market undertaking that handles trading in the Sub-fund's shares.

B. SPECIFIC PROVISIONS

- a) If shares are listed on Euronext Paris, as specified in the "Key Information" part of the "General Characteristics" section of the Fund's prospectus, investors should note the following rules

Negotiability of shares and information about the financial institutions acting as Market Makers:

The shares are freely negotiable on the Euronext Paris regulated market under the following conditions and according to the applicable legal and regulatory provisions.

The Sub-fund shares will be listed on a specific trading list, the rules of which are set forth in the following instructions published by Euronext Paris SA:

- Instruction No. 4-01 " Universal Trading Platform Manual"
- Appendix to Instruction N4-01 (Appendix to the Euronext Market Trading Manual
- Instruction No. 6-04 "Documentation to be provided when filing a listing application for an ETF, ETN, ETV and open-ended undertakings for collective investment other than"

Pursuant to article D 214-22-1 of the French Monetary and Financial Code the shares or units of undertakings for collective investments in transferable securities may be admitted to trading, provided that these undertakings have a system to ensure that the market price of their shares or units does not differ significantly from their net asset value. Under Euronext Paris SA's rules trading in the Sub-fund's shares is also subject to a 'reservation threshold' of 1.5% above or below the Sub-fund's indicative net asset value or "iNAV" (see the "Indicative Net Asset Value" section), as published by Euronext Paris SA and updated on an estimated basis during trading in accordance with the change in the Index.

To comply with Euronext Paris SA's reservation threshold (see the section entitled "Indicative net asset value") the Market Makers will ensure that the market price of the Sub-fund's shares does not differ from the Sub-fund's indicative Net Asset Value by more than 1.5%.

Euronext Paris may suspend trading in the Sub-fund's shares pursuant to the terms of its operating rules, if the aforementioned reservation threshold limit is exceeded.

Euronext Paris will also suspend trading in the Sub-fund's shares in the following cases:

- the Benchmark Index is no longer traded or calculated
- Euronext Paris cannot obtain the Benchmark Index's level
- Euronext Paris cannot obtain the Sub-fund's net asset value

Under Euronext's rules trading in the Sub-fund's shares is also subject to a 'reservation threshold' of 1.5% above or below the Sub-fund's indicative net asset value. In particular, the Market Makers undertake to carry out market-making operations by maintaining a significant presence in the market, which initially entails the setting of a bid/ask spread.

More specifically, the Market Makers are required by contract with Euronext Paris to ensure that the Sub-fund maintains:

- a maximum global spread of 1.5% between the bid and offer price in the centralized order book.
- a minimum nominal trading value of EUR 100,000.

The obligations of the Sub-fund's Market Makers will be suspended in the following cases:

- the Benchmark Index is no longer traded or calculated
- if trading is substantially disrupted, for example due to a widespread shift in prices or an event that makes normal market making impossible.

Indicative Net Asset Value

Euronext Paris SA will calculate and publish, each Trading Day (as defined below) during trading hours, the Sub-fund's indicative net asset value (hereinafter "iNAV"). The iNAV is a measure of the intra-day value of the Sub-fund's net asset value based on the most recent data. The iNAV is not the value at which investors buy and sell shares in the Sub-fund on the secondary market.

A "Trading Day" is a day on which NSYE Euronext is normally open and on which the Benchmark Index is normally published.

The Sub-fund's iNAV is a theoretical net asset value calculated every 15 seconds by Euronext SA throughout the Paris trading day and is based on the level of the Benchmark Index. The iNAV enables investors to compare the prices that the Market Makers offer on the market with the theoretical value calculated by Euronext.

The iNAV will be calculated every day that the net asset value is calculated and published.

For the calculation of the Sub-fund's iNAV during the Paris trading session (from 9.05 am to 5.35 pm), Euronext Paris SA will use the Benchmark Index value published by Reuters.

If one or more stock exchanges on which the Benchmark Index's constituent equities are listed are closed (on a public holiday as indicated on the TARGET calendar), and if the iNAV cannot be calculated, trading in the Sub-fund's shares may be suspended.

Lyxor International Asset Management, the Sub-fund's management company, will provide Euronext Paris SA with all the financial and accounting data it needs to calculate the Sub-fund's iNAV and in particular:

- The day's estimated net asset value
- The official net asset value of the previous business day
- The level of the Benchmark Index on the previous business day.

These data will serve as a basis for Euronext Paris SA's calculations to determine the Sub-fund's iNAV in real time every Trading Day.

Additional information about the indicative net asset value of a share listed on an exchange may, in accordance with the terms and limits set by the relevant market undertaking, be provided on this exchange's website. This information is also available on the Reuters or Bloomberg pages dedicated to the particular share. Additional information about the Bloomberg and Reuters codes for the indicative net asset values of all UCITS ETF type share classes is also available in the "Term Sheets" section of Lyxor's website at www.lyxoretf.com.

- b) If the Sub-fund's shares are listed on an exchange other than Euronext Paris, as indicated in the "Key Information" section, investors should note the following:**

Investors wishing to acquire shares in the Sub-fund or obtain more information regarding the market-making terms that govern the listing and trading of shares on the types of exchanges indicated in the "Key Information" section are advised to familiarise themselves with the guidelines laid down by the relevant market undertaking, in compliance with local regulations, and to seek if necessary the assistance of their usual broker(s) for executing trades on the relevant exchange (s).

FEES AND CHARGES

SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)

The subscription and redemption fees shown below respectively increase the subscription price paid by the investor and decrease the redemption price received. Fees kept by the Sub-fund compensate it for the expenses it incurs in investing in the Sub-fund's assets or in divesting these assets. Any fees that are not kept by the Sub-fund are paid to the asset manager, marketing agent or other service provider.

Fees paid by investors upon subscription or redemption	Base	Maximum charge
Subscription fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per subscription order or 5% payable to third parties
Subscription fee kept by the Sub-fund	NAV per share x number of shares	0.25% ⁽¹⁾
Redemption fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per redemption order or 5% payable to third parties
Redemption fee kept by the Sub-fund	NAV per share x number of shares	0.06% ⁽¹⁾

(1) The management company adjusts these fees whenever necessary to ensure that primary market investors bear no more than the actual costs of adjusting the portfolio, for example when subscription and redemption orders are placed at the same net asset value or when an order is large enough to enable the manager to reduce execution costs.

OPERATIONAL AND MANAGEMENT FEES

These fees cover all the costs invoiced directly to the Sub-fund, except for transaction expenses, which include intermediary fees (brokerage, stock market taxes etc.) and any account activity charge that may be charged, for example, by the depositary or the management company.

For this Sub-fund the following fees may be charged in addition to the operating and management fees (see table below):

- incentive fees, which the Sub-fund pays to the management company when the Sub-fund exceeds its objectives
- account activity charges charged to the Sub-fund.

For more information on the fees or expenses that the Sub-fund must pay, see the Statistics section of the Key Investor Information Document (KIID).

Fees charged to the Sub-fund	Base	Maximum charge
Investment management fees and administration fees that are external to the management company (auditor, depositary, fund distribution and legal fees) including tax ⁽¹⁾	Net asset value	0.30% per annum
Incentive fee	Net asset value	N/A
Account activity charge:	Charge on each transaction	N/A
Securities financing transaction costs*	The amount of the transaction	35% of the income obtained from these transactions

(1) Includes all fees and expenses except for transaction expenses, incentive fees and fees associated with investment in UCITS.

COMMERCIAL INFORMATION

Distribution of this prospectus and the offering or purchase of the Fund's share classes may be subject to restrictions with regard to certain persons or in certain countries under national regulations that may apply to these persons or countries. Investors are therefore responsible for ensuring that they can legally subscribe to or invest in this Fund. The information in this prospectus therefore cannot be construed to be an offer or solicitation to buy or sell shares in this Fund in a country where such offer or solicitation is unlawful.

The Fund's share classes will not be registered pursuant to the U.S. Securities Act of 1933, as amended (the "U.S. Securities Act") and cannot be offered, assigned, transferred or allocated to the United States of America, or to:

- (A) any "U.S. Person", as this term is defined (i) under Regulation S of the US Securities Act of 1933 and (ii) under U.S. regulations as defined in Section 7701 (a) (30) of the Internal Revenue Code of 1986 as amended. The Fund's shares will not be offered to U.S. Persons.
- (B) anyone other than those persons considered to be "non-US Persons" as this term is defined under U.S. regulations pursuant to the Commodity Futures Trading Commission, Rule 4.7 (a) (1) (iv).

The Fund's shares will only be offered for sale outside of the United States of America to non-U.S. Persons.

For the purpose of this document, the term "U.S. Person" shall mean, among other things, any individual who resides in the United States of America, any entity organized or formed under the laws of the United States of America, certain entities organized or formed outside of the United States of America by one or more U.S. persons, or any account held on behalf of such a U.S. person.

Under the German tax act on investment funds (InvStG-E), the Sub-fund is a "mutual fund" and must comply with the criteria that apply to "equity funds". As such, the Sub-fund will hold a basket of securities that are eligible for the equity ratio as this term is defined under said German tax act, and which will represent at least 85% of its net assets under normal market conditions. To ensure compliance with this ratio, the Sub-fund may adjust this basket of securities on a daily basis.

Before making an investment in this Fund or Sub-fund, investors should seek the advice of their financial, tax and legal advisers.

PLACE AND METHOD OF NET ASSET VALUE PUBLICATION OR COMMUNICATION

At the head office of LYXOR INTERNATIONAL ASSET MANAGEMENT, at 17, cours Valmy - 92987 Paris La Défense CEDEX - France.

The Sub-fund's net asset value will be calculated and published by Euronext Paris SA on each Paris Trading Day, during trading hours.

IMPORTANT INFORMATION ABOUT THE INDEX PROVIDER

STOXX and its Licensors have no other relationship with the license-holder than through the license granted in respect of the EURO STOXX® Banks Index and the associated trade marks for the purpose of using them with the Lyxor EURO STOXX Banks (DR) UCITS ETF fund.

STOXX and its licensors:

- make no representation or warranty concerning the merits of trading in the shares or units of the Lyxor EURO STOXX Banks (DR) UCITS ETF fund, which they shall also refrain from selling or promoting.
- make no investment recommendation to anyone whomsoever with respect to the Lyxor EURO STOXX Banks (DR) UCITS ETF fund or other recommendation of any type whatsoever.
- shall not be held responsible or liable nor have any obligation in respect of the issuance, number or pricing of the Sub-fundshares, and will make no decisions in relation to this.
- shall not be held responsible or liable nor have any obligation in respect of the administration, management or marketing of the Lyxor EURO STOXX Banks (DR) UCITS ETF fund.
- have no obligation to take into account the needs or requirements of the Lyxor EURO STOXX Banks (DR) UCITS ETF fund or of its share-holders or unit-holders, to determine, compose or calculate the EURO STOXX® Banks index.

STOXX its Licensors decline any responsibility in relation to the Lyxor EURO STOXX Banks (DR) UCITS ETF fund. More specifically, STOXX and its Licensors do not make or ensure any guarantee whatsoever, either expressed or implied, concerning:

- the results that may be obtained by the Lyxor EURO STOXX Banks (DR) UCITS ETF fund, by the share-holders or unit-holders of the Lyxor EURO STOXX Banks (DR) UCITS ETF fund or by anyone who directly or indirectly uses the EURO STOXX® Banks index or its data;
- the accuracy or completeness of the EURO STOXX® Banks index and of the data it contains
- The negotiability of the EURO STOXX® Banks index and its date and their appropriateness for a specific use or purpose.

STOXX and its Licensors shall not be held liable for any error, omission or interruption whatsoever in the EURO STOXX® Banks index or in its data.

Under no circumstance shall STOXX or its licensors be liable for any economic loss whatsoever, including consequential loss, even if STOXX and its licensors are informed of such risk.

The license agreement between LIAM and STOXX was agreed in their sole interests, and not in the interest of share-holders or unit-holders of the Lyxor EURO STOXX Banks (DR) UCITS ETF fund or of third parties.

ADDITIONAL INFORMATION

The Sub-fund's shares are approved for clearing by Euroclear France S.A.

Subscription and redemption orders are sent by the investors' financial intermediaries (members of Euroclear France SA) to the Depositary.

The Sub-fund's prospectus, the Key Investor Information Document, the most recent annual documents and the asset inventory will be sent to investors within eight business days upon receipt of a written request addressed to:

LYXOR INTERNATIONAL ASSET MANAGEMENT

17 Cours Valmy - 92987 Paris La Défense France.

E-mail: contact@lyxor.com

More information can also be requested from Lyxor International Asset Management on its website at www.lyxoretf.com.

Prospectus publication date: See the "Publication Date" section.

Pursuant to Article L.533-22-1 of the French Monetary and Financial Code, information concerning the management company's possible inclusion of social, environmental and corporate governance objectives and performance criteria in the investment policy is available on the management company's website and in the Sub-fund's annual report.

The AMF's website (www.amf-france.org) provides more information on the regulatory documents and various provisions that concern investor protection. This Prospectus shall be made available to investors prior to subscription.

INVESTMENT RULES

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

The Sub-fund may invest in the assets specified in Article L214-20 of the French Monetary and Financial Code, subject to the risk-diversification and investment ratio requirements of Articles R214-21 to R214-27 of said Code.

Notwithstanding the 10% limit under Paragraph II of Article R214-21 of the French Monetary and Financial Code, the Sub-fund may invest up to 20% of its assets in the equities and debt securities of a single issuer, in compliance with Article R214-22-I, which deals with index-tracking funds. Pursuant to Article R214-22 II, the Sub-fund may also increase this 20% limit for a single issuer to 35%, when this is justified by exceptional market conditions, and in particular when certain securities are largely dominant

OVERALL RISK EXPOSURE

The commitment approach is used to calculate the overall risk exposure.

ASSET VALUATION AND ACCOUNTING RULES

A. VALUATION RULES

The Sub-fund's assets are valued in accordance with applicable laws and regulations and most notably Regulation No. 2014-01 of 14 January 2014 of the Comité de la Réglementation Comptable (the Accounting Regulations Committee), which applies to the chart of accounts for undertakings for collective investment in transferable securities.

Financial instruments traded on a regulated market are valued at the closing price recorded on the day prior to the calculation of the net asset value. If these financial instruments are traded on several regulated markets at the same time, the closing price used is that recorded on the regulated market on which they are principally traded.

However, in the absence of significant trading on a regulated market, the following financial instruments are valued using the following methods:

- Negotiable debt securities ("NDS") with a remaining life upon acquisition that is less than or equal to three months are valued by applying the difference between the acquisition value and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life of more than three months upon acquisition but less than or equal to three months at the net asset value calculation date are valued by applying the difference between the most recent valuation and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life at the net asset value calculation date that exceeds three months are valued at their current value. The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- Financial futures traded on organized markets are valued at the clearing price on the day prior to the calculation of the net asset value. Options traded on organized markets are valued at their market price on the day prior to the calculation of the net asset value. Forward contracts and over-the-counter options are valued at the price quoted by the counterparty. The management company monitors these prices independently.
- Bank deposits are valued at their nominal value plus accrued interest.
- Warrants, short and medium-term notes (bons de caisse), promissory notes and mortgage notes are valued under the management company's responsibility at their most likely trading value.
- Securities financing transactions are valued at the market price.
- Shares and units in UCITS under French law are valued at the last known net asset value on the day the Sub-fund's net asset value is calculated.
- Shares and units in foreign investment funds are valued at the last known unitary net asset value at the date the Sub-fund's net asset value is calculated.
- Financial instruments traded on a regulated market and for which no price has been quoted or whose price has been corrected, are valued under the management company's responsibility at their most likely trading value.
- The exchange rates used to value financial instruments denominated in a currency other than the Sub-fund's base currency are the WM Reuters fixing rates published on the day the Sub-fund's net asset value is calculated.

B. ACCOUNTING METHOD FOR TRADING EXPENSES

Trading expenses are included in the initial cost of the transaction.

C. ACCOUNTING METHOD FOR INCOME FROM FIXED-INCOME SECURITIES

Income from fixed-income securities is accounted for using the cash-basis method.

D. DISTRIBUTION POLICY

For more information see the section entitled "Calculation and appropriation of Distributable amounts"

E. ACCOUNTING CURRENCY

The Sub-fund's accounts are kept in euros.

SUB-FUND NO. 21: Lyxor 10Y US Treasury Daily (-2x) Inverse UCITS ETF

A SICAV SUB-FUND COMPLIANT WITH DIRECTIVE 2009/65/CE

ISIN CODE:

Acc share class: FR0011607084

Dist share class: FR0011607340

The Lyxor 10Y US Treasury Daily (-2x) Inverse UCITS ETF sub-fund (hereinafter the “**Sub-fund**”) is a UCITS ETF type index tracker.

INCEPTION DATE

The Sub-fund was approved by l'autorité des Marchés Financiers (the French financial markets authority) on 10/12/2013 and was created on 8 January 2014.

INVESTMENT OBJECTIVE

The Sub-fund's investment objective is to provide inverse exposure, with 2x leverage, to the daily performance, whether positive or negative, of the US Treasury bond market, by tracking the SGI Double Short 10Y US Treasury index (Bloomberg code: SGIXDSTY) (the “**Benchmark Index**”), denominated in US dollars (USD), while minimizing the tracking error between the Sub-fund's performance and that of its Benchmark Index.

The expected tracking error, monitored ex-post under normal market conditions is 0.07%.

BENCHMARK INDEX

The Benchmark Index is the SGI Double Short 10Y US Treasury index.

The Benchmark Index is a strategy index developed by Société Générale's research staff using a proprietary methodology. It is calculated and maintained by Standard & Poor's.

The Benchmark Index is a total return index that reflects the overall return over a period of time relative to the composite performance of a notional investment in the following

- a series of “CBOT 10Y US Treasury” futures
- the US Federal Reserve's effective funds rate:

The Benchmark Index offers inverse exposure, with daily 200% inverse leverage, to increases and decreases in futures contracts on US Treasury bonds with 10-year maturity. The Benchmark index is therefore correlated with the performance of:

- i) a notional short position in CBOT 10Y US Treasury futures that are closest to their expiry date, to which 200% leverage is applied,
and;
- ii) a long position in a daily investment that is representative of the interest earned on an overnight deposit that is indexed at the US Federal Reserve's effective funds rate.

Therefore, if the value of CBOT 10Y US Treasury futures declines on a Calculation Date (as this term is defined below) the Sub-fund's net asset value will increase by twice this amount on this Calculation Date, and inversely will decrease by twice as much if the price of CBOT 10Y US Treasury futures rises, in which case shareholders will not benefit from the increase in the Benchmark Index.

The notional amount of the two investments in the CBOT 10Y US Treasury futures and in the overnight deposit is revised daily in accordance with the Benchmark Index's most recent performance.

The Benchmark Index's daily performance is therefore equivalent to the inverse of twice the daily performance of CBOT 10Y US Treasury futures plus the interest at the fed funds rate received daily on the value of the CBOT 10Y US Treasury futures at the previous day's fixing price at 5.30 pm.

The leveraged position in a series of suitable futures contracts is rolled over to the next series of futures contracts at each revision date (as this term is defined below). The series of futures contracts is not modified between Revision Dates.

A “**Revision Date**” is the first business day immediately before the expiry date of a given series of futures contracts.

The Benchmark Index is calculated and published by Standard & Poor's Financial services LLC (“S&P”) in accordance with the Benchmark Index methodology.

The composition of the Benchmark Index is revised each quarter.

The complete methodology is available at www.sginindex.fr

The performance tracked is that of the Benchmark Index's closing price at 5.30 pm.

Since the methodology used to calculate the Benchmark Index is not based on direct exposure to 10-year U.S. Treasury bonds but on indirect exposure via futures contracts, the Sub-fund's performance will be affected by the cost of 'rolling over' positions on these futures contracts every quarter.

Over time, this could significantly diminish the Sub-fund's performance in comparison with the gross performance of the short positions on the underlying of the aforementioned futures contracts, particularly in the case of a long-term investment in the Sub-fund

Benchmark Index composition and revision

The Benchmark Index is revised quarterly, in accordance with the methodology described in the Benchmark Index Rulebook, which is available on the SGIndex website at www.sginindex.fr.

The Benchmark Index's leverage may also be adjusted intraday during trading hours if it falls by more than 40% on a Benchmark Index Calculation Day (i.e. if the absolute value of CBOT 10Y US Treasury futures rises by more than 20%).

This frequency of the index rebalancing described above and the rolling over of the futures contracts at the Revision Dates could increase the Sub-fund's costs and therefore adversely affect the Sub-fund's performance.

A full description of the Benchmark Index and its construction methodology and information on the composition and respective weightings of the Benchmark Index components are available on the Internet at www.sgindex.fr.

Benchmark Index publication

The Benchmark Index is calculated daily at the 5.30 pm fixing price for CBOT 10Y US Treasury futures. The Benchmark Index is also calculated in real time every business day in France provided that the exchanges on which the Benchmark Index's underlying components are listed are open, hereinafter a "Benchmark Index Calculation Day".

The Benchmark Index is available through Bloomberg and Reuters.

Reuters code: .SGIXDSTY

Bloomberg code: SGIXDSTY

Pursuant to Article 52 of European Parliament and Council Regulation 2016/1011 of 8 June 2016, Standard & Poor's Financial services LLC, the administrator of the SGI Double Short 10y US Treasury benchmark index, has until 1 January 2020 to apply for approval or registration as applicable.

As of the date of the most recent version of this prospectus, the benchmark index administrator was not yet listed in ESMA's register of benchmark administrators.

Pursuant to European Parliament and Council Regulation 2016/1011 of 8 June 2016, the asset management company has a procedure for monitoring the benchmark indices used that specifies the measures to be implemented if an index is substantially modified or is no longer provided.

INVESTMENT STRATEGY

1. Strategy employed

The Sub-fund will comply with the investment rules of European Directive 2009/65/EC of 13 July 2009.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund will employ an indirect replication method, which means that it will enter into one or more OTC swap contracts enabling it to achieve its investment objective. These swap contracts will serve to exchange the value of the Sub-fund's assets, which will consist of cash and/or balance sheet assets (excluding any securities received as collateral), for the value of the securities that underlie the Benchmark Index.

Investors in this Sub-fund are seeking inverse exposure with 2x leverage to the daily performance, whether positive or negative, of the US Treasury bond market, which is represented by the Benchmark Index.

The Sub-fund will mainly be invested in bonds issued by an OECD member country or by a non-governmental issuer in an OECD country.

Fund's targeted interest-rate sensitivity	From 10 to 18
Currencies in which the Sub-fund's securities are denominated	USD: from 0 to 100% of net assets
Foreign exchange risk to which the Sub-fund is exposed	0% maximum of net assets ⁽¹⁾
Geographic regions of the issuers of the securities to which the Sub-fund is exposed	US: from 0 to 100% of net assets

⁽¹⁾ share classes that are not denominated in USD may however be exposed to currency risk.

The basket of securities held may be adjusted daily such that its value will generally be at least 100% of the net assets. When necessary, this adjustment will be made to ensure that the counterparty risk arising from the aforementioned swap contract will be neutralized.

Information on the updated composition of the basket of 'balance sheet' assets in the Sub-fund's portfolio and the value of the swap contract concluded by the Sub-fund, is available on the page dedicated to the Sub-fund on Lyxor's website at www.lyxoref.com. The frequency of any updates and/or the date on which the aforementioned information is updated is also indicated on the same page of the aforementioned website.

2. Balance sheet assets (excluding embedded derivatives)

The Sub-fund may invest in bonds issued by an OECD member country or by a non-governmental issuer in an OECD country within regulatory limits

These securities will be bonds selected on the basis of the following criteria:

- eligibility criteria and in particular:
 - o senior debt
 - o fixed maturity
 - o maximum residual maturity
 - o minimum issuance size
 - o minimum S&P or equivalent credit rating
- diversification criteria, and in particular:
 - o the issuer (application of investment ratios to assets that qualify for UCITS, pursuant to Art. R214-21 of the French Monetary and Financial Code)
 - o geographic
 - o sector

Investors may find more information on the above eligibility and diversification criteria on Lyxor's website at www.lyxoref.com

Investment in undertakings for collective investment in transferrable securities ("UCITS") that comply with Directive 2009/65/EC is limited to 10% of the Sub-fund's net assets.

The fund manager will not invest in the shares or units of alternative investment funds (AIF) or other investment funds that were formed under a foreign law. The Sub-fund may invest in the units or shares of UCITS managed by the management company or by a company that is related to the management company.

When the Fund receives collateral in the form of securities, subject to the terms of section 8 below, it acquires full title to these securities and they are therefore included among the balance sheet assets to which it has full title.

To optimize the Sub-fund's management and achieve its investment objective, the asset manager reserves the right to use other financial instruments, in compliance with regulations.

3. Off-balance sheet assets (derivatives)

The Sub-fund will use OTC index-linked swaps that swap the value of the Sub-fund's assets (or the value of any other financial instrument or asset the Sub-fund may hold) for the value of the Benchmark Index (as described in part 1 of this section).

- Maximum proportion of assets under management for which total return swaps (TRS) may be entered into: 100%.
- Expected proportion of assets under management for which total return swaps (TRS) may be entered into: up to 100%.

To optimize the Sub-fund's management and achieve its investment objective, the manager reserves the right to use other financial instruments in compliance with regulations, such as derivative instruments other than index-linked swaps.

In accordance with its best execution policy, the management company considers that Société Générale is the counterparty that is generally able to obtain the best possible execution for these derivative financial instruments. Accordingly, these derivative financial instruments (including index-linked swaps) may be traded via Société Générale without having to seek a competitive bid from another counterparty.

The counterparty of the derivative financial instruments referred to above (the "Counterparty") will have no discretionary power over the composition of the Sub-fund's portfolio nor over the underlying assets of the derivative financial instruments.

4. Securities with embedded derivatives

N/A.

5. Cash deposits

In order to optimize its cash management, the Sub-fund may deposit funds representing up to 20% of its net assets with credit institutions that belong to the same group as the depositary.

6. Cash borrowing

The Sub-fund may temporarily borrow up to 10% of its net assets.

7. Securities financing transactions

The manager shall not engage in any temporary purchases or sales of securities.

8. Collateral

Whenever the investment strategy exposes to the Sub-fund to counterparty risk, and in particular when the Sub-fund uses over-the-counter swaps, the Sub-fund may accept eligible securities as collateral to reduce the counterparty risk associated with these swaps. The portfolio of collateral received may be adjusted daily to ensure that its value is at least sufficient to cover the Sub-fund's counterparty risk in most cases. The purpose of this adjustment is to neutralize the Sub-fund's counterparty risk.

The Sub-fund will have full title to all collateral received, which will be deposited in the Sub-fund's account with the depositary. This collateral will therefore be included in the Sub-fund's assets. If a counterparty defaults on an obligation, the Sub-fund may dispose of the assets received from the counterparty in respect of the secured transaction to pay off the counterparty's debt to the Sub-fund.

All collateral the Sub-fund receives for this purpose must comply with the applicable laws and regulations, with respect in particular to the liquidity and valuation of the collateral, the credit-worthiness of securities issuers, risk exposure correlation and the risks of collateral management and enforceability. All collateral received must in particular meet the following criteria:

- (a) All collateral must be of high quality, be highly liquid and tradable on a regulated market or on a multilateral trading facility, with transparent pricing to enable the collateral to be rapidly sold near its estimated price;
- (b) This collateral must be valued at its mark-to-market price at least daily and assets with highly volatile prices are not acceptable as collateral, unless a sufficiently prudent discount or "haircut" is applied;
- (c) The issuer of this collateral must be independent of the counterparty and must not be closely correlated with the counterparty's financial performance;
- (d) This collateral must be sufficiently diversified by country, market and issuer, and no exposure to a single issuer may exceed 20 % of the Sub-fund's net asset value;
- (e) The Sub-fund's Management Company must be able to enforce this collateral in full and at any time, without having to consult with the counterparty or obtain its approval.

Notwithstanding the condition specified in (d) above, the Fund may accept a basket of securities collateral that increases its exposure to a single issuer to more than 20% of its net asset value provided that:

- such securities collateral is issued by (i) a Member State, (ii) one or more of a Member State's local authorities, (iii) a country that is not a Member State (iv) a public international organization to which one or more Member States belong; and;
- such securities collateral consists of at least six different issues of securities of which no single issue exceeds 30% of the Sub-fund's assets.

Subject to the above conditions, the Sub-Fund may take collateral in the following forms:

- (i) Cash and cash-equivalent assets, which for example include short-term bank deposits and balances and money-market instruments;
- (ii) Bonds issued or guaranteed by an OECD member state, or by its local government entities, or by an EU, regional or global supranational institution or organisation, or by any country provided that conditions (a) to (e) above are fully complied with;

- (iii) Shares or units issued by money-market funds that calculate a daily net asset value and have an AAA or equivalent credit rating;
- (iv) The shares or units of UCITS that invest mainly in the bonds and/or equities indicated in (v) and (vi) below;
- (v) Bonds issued or guaranteed by first-class issuers offering sufficient liquidity liquid assets, which include, for example, cash, short-term bank balances and money-market instruments;
- (vi) Equities admitted for trading or traded on a regulated exchange of an EU member country, on a stock exchange of an OECD member country or on a stock exchange of another country provided that conditions (a) to (e) above are fully complied with and that these equities are components of a major index.

Collateral discount policy:

The Sub-fund's management company shall apply a discount to the collateral accepted by the Sub-fund. The amount of these discounts will depend mainly on the following:

- The nature of the collateral asset;
- The collateral's maturity (if applicable);
- The credit rating of the collateral issuer (if applicable).

Reinvestment of collateral:

Non-cash collateral will not be sold, reinvested or pledged.

At the manager's discretion, cash collateral may either be:

- (i) deposited with an authorized institution
- (ii) invested in high-quality government bonds
- (iii) used for reverse repurchase transactions, provided that these are entered into with credit institutions that are subject to prudential supervision and that the fund is able to withdraw the total amount of its cash collateral and the accrued interest at any time
- (iv) invested in short-term money market funds that meet the guidelines for a common EU definition of money market funds.

All cash collateral that is reinvested must be invested in a diversified manner in compliance with the rules that apply to the acceptance of non-cash collateral.

RISK PROFILE

Investors' money will be invested mainly in the financial instruments selected by the asset manager. These instruments are subject to market trends and contingencies. Investors in the Sub-fund will mainly be exposed to the following risks:

Capital risk

The capital invested is not guaranteed. Investors therefore may not recover all or part of their initial investment, particularly in the event that the Benchmark Index posts a negative return over the investment period.

Counterparty risk

The Sub-fund is exposed to the risk that a counterparty with which the Sub-fund has entered into a contract or transaction may go bankrupt or default on a settlement or other obligation. The Sub-fund is in particular exposed to counterparty risk resulting from the use of derivative financial instruments (DFI) traded over the counter with Société Générale or some other counterparty. In compliance with UCITS regulations, exposure to counterparty risk (whether the counterparty is Société Générale or another entity), cannot exceed 10% of the Sub-fund's total assets per counterparty.

If a counterparty defaults on an obligation the DFI contract may be terminated before maturity. The Sub-fund will do everything in its power to achieve its investment objective by, if appropriate, entering into another DFI contract with another counterparty at the market conditions at the time of such an event.

If this counterparty risk materializes it could have an impact on the Sub-fund's ability to achieve its investment objective of replicating the Benchmark Index. When Société Générale is the DFI counterparty, conflicts of interest may arise between it and the Sub-fund's management company, which has procedures to identify and reduce such conflicts of interest and to resolve them equitably if necessary.

Interest rate risk

The price of a bond can be affected by unexpected changes in the level of interest rates, which in particular may modify the shape of the yield curve in particular. The bonds that make up the Benchmark Index are exposed to changes in interest rates. In general, the price of a bond rises when interest rates fall, and falls when interest rates rise.

Daily leverage adjustment risk

Investors are inversely exposed to two times the daily changes which affect the price or level of the CBOT 10y US Treasury futures that underlie the Benchmark Index. In particular, any gain in the underlying market will be inversely amplified and will imply a larger decrease in the Sub-fund's net asset value. Since the exposure in the underlying "double short" Benchmark Index formula is reset daily, over a period of more than one trading day the Sub-fund's return will not be twice that of the CBOT 10y US Treasury futures that underlie the Benchmark Index.

For example, if the CBOT 10y US Treasury futures underlying the Benchmark Index gain 10% a trading day and then lose 5% the following trading day, the Sub-fund will lose a total 12% over these two days (before fees) over the two trading days, while the CBOT 10y US Treasury futures underlying the Benchmark Index will have gained 4.5% over this period.

If the CBOT 10y US Treasury futures underlying the Benchmark Index lose 10% one trading day and then gain 6% the following trading day, the Sub-fund will have gained 5.6% over these two days (before fees), while the CBOT 10y US Treasury futures underlying the Benchmark Index will have lost 4.6% over this period.

Scenario 1 - negative leverage: The negative leverage effect is greater than 2 and the Benchmark Index underlying rises

	Benchmark Index underlying		Benchmark Index		Leverage effect
	Performance day i	Value day i	Performance day i	Value day i	
Day 1		100		100	x-2
Day 2	10%	110	-20%	80	x-2
Total return	-5%	104.5	10%	88	
	4.50%		-12.00%		x-2.67

Scenario 2 - negative leverage: The negative leverage effect is less than 2 and the Benchmark Index underlying falls

	Benchmark Index underlying		Benchmark Index		Leverage effect
	Performance day i	Value day i	Performance day i	Value day i	
Day 1		100		100	x-2
Day 2	-10%	90	20%	120	x-2
Total return	6%	95.4	-12%	105.6	
	-4.60%		5.60%		x-1.22

Furthermore, it is possible that if the Benchmark Index underlying is highly volatile over a period of more than one day the Sub-fund's net asset value may decline even though the Benchmark Index's underlying also declines over this period.

Scenario 3 - inverse leverage: The effective leverage is positive over the period

	Benchmark Index underlying		Benchmark Index		Leverage effect
	Performance day i	Value day i	Performance day i	Value day i	
Day 1		100		100	x-2
Day 2	5%	105	-10%	90	x-2
Total return	-5%	99.75	10%	99	
	-0.25%		-1.00%		x4

Risk that the investment objective may not be fully achieved:

There is no guarantee that the investment objective will be achieved, as no asset or financial instrument can ensure that the Benchmark Index will be automatically and continuously replicated, particularly in the event of one or more of the following risks:

- Risk of using derivative financial instruments

In order to achieve its investment objective, the Sub-fund can enter into transactions involving over-the-counter derivative financial instruments (DFI), such as swaps, in order to secure the performance of the Benchmark Index. These DFI involve various risks, such as counterparty risk, hedging disruption, Benchmark Index disruption, taxation risk, regulatory risk, operational risk and liquidity risk. These risks can materially affect an DFI and may require an adjustment of the DFI transaction or even its premature termination, which could adversely affect the Sub-fund's net asset value.

- Risk due to a change in the tax regime

A change in the tax regime of a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed could adversely affect the taxation of investors. In such an event, the Sub-fund manager shall not be liable to any investor with respect to any payment that may have to be made to a competent tax authority.

- Risk of a change in the taxation of the Sub-fund's underlying assets

A change in the taxation of the Sub-fund's underlying assets could adversely affect the taxation of the Sub-fund. In such an event a discrepancy between the estimated taxation and the actual taxation of the Sub-fund and/or of the Sub-fund's DFI counterparty may adversely affect the Sub-fund's net asset value.

- Regulatory risk affecting the Sub-fund

In the event of a change in the regulatory regime in a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed, the subscription, conversion or redemption of shares or units may be adversely affected.

- Regulatory risk affecting the Sub-fund's underlying assets

In the event of a change in the regulations that govern the Sub-fund's underlying assets, the Sub-fund's net asset value and the subscription, conversion or redemption of shares or units may be adversely affected.

- Benchmark Index disruption risk

If an event adversely affects the Benchmark Index, the Sub-fund manager may be required, as provided for by law, to suspend the subscription and redemption of the Sub-fund's shares or units. The calculation of the Sub-fund's net asset value could also be adversely affected.

If the disruption of the Benchmark Index persists, the Sub-fund manager will determine an appropriate course of action, which could decrease the Sub-fund's net asset value.

A 'Benchmark Index event' includes but is not limited to the following situations:

- i) the Benchmark Index is deemed to be inaccurate or does not reflect actual market developments
- ii) the Benchmark Index is permanently cancelled by the index provider
- iii) the index provider is unable to indicate the level or value of the Benchmark Index
- iv) The index provider makes a material change in the Benchmark Index calculation formula or method (other than a minor modification such as an adjustment to the Benchmark Index's underlying components or their respective weightings) which the Sub-fund cannot effectively replicate at a reasonable cost.
- v) a Benchmark Index component becomes illiquid because it is no longer traded on a regulated market or because its trading over-the-counter (e.g. bonds) is disrupted
- vi) the Benchmark Index components are exposed to higher transaction costs for execution or settlement/delivery, or to specific tax constraints and these costs are not reflected in the Benchmark Index's performance.

- Corporate action risk

An unforeseen change, by the issuer of a security that is a component of the Benchmark Index, in a planned corporate action that is in contradiction with a previous official announcement on which the Sub-fund based its valuation of the corporate action (and/or on which the Sub-fund's counterparty to a financial derivative instrument or transaction based its valuation of the corporate action) can adversely affect the Sub-fund's net asset value, particularly if the Sub-fund's treatment of the corporate event differs from that of the Benchmark Index methodology.

- Liquidity risk (primary market)

The Sub-fund's liquidity and/or value may be adversely affected if, when the Sub-fund or a counterparty to a financial derivative instrument (DFI) is rebalancing its exposure, the underlying financial markets are restricted, closed, or subject to wide bid/offer spreads. An inability, due to low trading volume, to execute the trades required to replicate the Benchmark Index may also adversely affect the subscription, conversion or redemption of shares or units.

- Liquidity risk (secondary market)

The price of the Sub-fund's listed shares may deviate from the Sub-fund's indicative net asset value. The liquidity of shares or units traded on a given exchange may be adversely affected by a suspension in trading for various reasons, for example:

- i) the calculation of the Benchmark Index is suspended or stopped
- ii) trading in the market(s) in the Benchmark Index's underlying assets is suspended
- iii) an exchange cannot obtain or calculate the Sub-fund's indicative net asset value
- iv) a market maker fails to comply with an exchange's rules
- v) an exchange's IT, electronic or other system fails.

- Low diversification risk:

The Benchmark Index to which investors are exposed represents only the U.S. government bond market, which may provide a smaller diversification of assets when compared to a broader index exposed to several regions, sectors or strategies. Exposure to such a less-diversified index may result in higher volatility than more diversified markets. Nevertheless, diversification rules of the UCITS Directive still apply to the Sub-fund's underlying assets at all times.

- Credit risk:

This is the risk that an issuer's credit-worthiness may improve and that a credit-rating agency could raise the issuer's credit rating, which would increase the price of the issuer's bonds and thus adversely affect the Sub-fund's net asset value. The Sub-fund is exposed to U.S. sovereign credit risk.

- Legal risk

The Fund may be exposed to a legal risk arising from a total return swap (TRS) agreement as indicated in EU Regulation No. 2015/2365.

ELIGIBLE INVESTORS AND TYPICAL INVESTOR PROFILE

The Sub-fund is available to all investors.

Investors in this Sub-fund are seeking inverse exposure, with 2x leverage, to increases and decreases in the prices of U.S. Treasury bonds by replicating the performance of the Benchmark Index.

The amount that can be reasonably invested in the Sub-fund depends on each investor's personal situation. To determine this amount, investors must take into account their personal wealth and/or estate, their current cash requirements and their willingness to take on risk or their preference for more prudent investment. Investors are also advised to diversify their investments sufficiently so as not to be exposed solely to this Sub-fund's risks.

All investors are therefore asked to consider their specific situation with the help of their usual investment advisor.

Given this Sub-fund's speculative nature it may not be suitable for investors with a medium to long-term investment horizon.

CALCULATION AND APPROPRIATION OF DISTRIBUTABLE AMOUNTS

Acc share class: all distributable amounts are accumulated.

Dist share class: The Board of Directors reserves the right to accumulate and/or distribute all or part of income in one or more distributions per annum. Realized net capital gains will be accumulated.

DISTRIBUTION FREQUENCY

If a distribution is made, If a distribution is decided, the Board of Directors reserves the right to distribute all or part of the distributable amounts in one or more distributions per annum.

SHARE CHARACTERISTICS

Subscription orders may be placed for a specific monetary amount or for a whole number of shares.

Only a whole number of shares may be redeemed.

CURRENCIES

Share currency	Acc	Dist
	USD	USD

SUBSCRIPTION AND REDEMPTION

1 / SUBSCRIPTION AND REDEMPTION ON THE PRIMARY MARKET

Subscription/redemption requests for shares in the Sub-fund will be processed by the Depositary from 10:00 am and 5.00 pm (Paris time), every day that the Sub-fund's net asset value is to be published, provided that prices can be quoted for a significant proportion of the Benchmark Index components (hereinafter a "Primary Market Day") ,and will be executed at the net asset value on that Primary Market Day, hereinafter the "reference NAV". Subscription/redemption requests submitted after 5.00 pm (Paris time) on a Primary Market Day will be processed as if received from 10:00 am to 5.00 pm (Paris time) on the following Primary Market Day. Orders to subscribe for or redeem shares in the Sub-fund must be made for a whose number of shares and a minimum amount of at least 100,000 euros for the Acc and Dist share classes.

Subscriptions and redemptions in cash

Subscriptions and redemptions shall be made exclusively in cash and executed at the ref NAV.

Delivery and settlement

Settlement/delivery of subscriptions and redemptions shall be completed within five French business days upon receipt of the subscription or redemption order.

Date and frequency of NAV calculation

The net asset value will be calculated and published daily, provided that at least one exchange on which the Sub-fund's shares are listed is open and that orders placed in the primary and secondary markets can be funded.

The Sub-fund's net asset value is calculated using the Benchmark Index's closing price. The Sub-fund's net asset value is denominated in USD.

2 / PURCHASES AND SALES ON THE SECONDARY MARKET

A. COMMON PROVISIONS

For any purchase or sale of shares in the Sub-fund executed directly on an exchange on which the Sub-fund is admitted or will be admitted for continuous trading, no minimum purchase or sale amount is required other than that which may be required by the relevant exchange(s).

Shares in a listed fund that are purchased on the secondary market cannot generally be directly sold back to that fund. Investors must therefore buy and sell their shares on a secondary market through an intermediary (e.g. a broker) and may consequently incur costs. Furthermore, there is a possibility that investors may pay more than the indicative net asset value when buying shares and receive less than the indicative net asset value when selling shares.

If the stock market value of a listed fund's shares differs significantly from its indicative net asset value, or if trading in the fund's shares is suspended, investors may be authorized, subject to the conditions set forth below, to redeem their shares on the primary market directly from the fund, without being subject to the minimum redemption amount requirement set forth herein in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)".

The management company shall decide whether to allow such primary market redemptions and for how long, on the basis of the following criteria for assessing the significance of a market disruption:

- The suspension or strong disturbance of secondary trading on a given exchange is relatively frequent

- The link between the market disruption and secondary market operators (such as the default of one or more of the Market Makers of a given exchange, or a breakdown or malfunction of an exchange's IT or operating systems), excluding a disruption caused by a source external to the secondary exchange on which the Sub-fund's shares are traded, such as an event that affects the liquidity and valuation of all or some of the Benchmark Index's components
- Any other objective circumstance that could adversely affect the fair treatment and/or the interests of the Sub-fund's share-holders.

Notwithstanding the provisions concerning fees presented in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)", redemptions made in the primary market in this case shall only be subject to a net redemption fee of 0.5% paid to the Sub-fund and which serves to cover its trading costs.

In such exceptional cases when redemption in the primary market is allowed, the Management Company shall post on Lyxor's website at www.lyxor.etf.com the procedure that investors must observe to redeem their shares in the primary market. The Management Company shall also make this procedure available to the market undertaking that handles trading in the Sub-fund's shares.

B. SPECIFIC PROVISIONS

- a. If the Sub-fund's shares are listed on Euronext Paris, as indicated in the "Key Information" part of the "General Characteristics" section of the Fund's prospectus, investors should note the following rules:

Negotiability of shares and information about the financial institutions acting as Market Makers

The shares are freely negotiable on the Euronext Paris regulated market under the following conditions and according to the applicable legal and regulatory provisions.

The Sub-fund shares will be listed on a specific trading list, the rules for which are defined in the following instructions published by Euronext Paris SA:

- Instruction No. 4-01 "Universal Trading Platform Manual"
- Appendix to Instruction N4-01 (Appendix to the Euronext Market Trading Manual)
- Instruction No. 6-04 "Documentation to be provided when filing a listing application for an ETF, ETN, ETV and open-ended undertakings for collective investment other than"

Pursuant to article D 214-22-1 of the French Monetary and Financial Code the shares of undertakings for collective investments in transferable securities may be admitted to trading, provided that these undertakings have a system to ensure that the market price of their shares does not differ significantly from their net asset value. Under Euronext Paris SA's rules trading in the Sub-fund's shares is also subject to a 'reservation threshold' of 1.5% above or below the Sub-fund's indicative net asset value or "iNAV" (see the "Indicative Net Asset Value" section), as published by Euronext Paris SA and updated on an estimated basis during trading in accordance with the change in the Benchmark Index.

To comply with Euronext Paris SA's reservation threshold requirement (see the section entitled "Indicative net asset value") the Market Makers will ensure that the market price of the Sub-fund's shares does not differ from the Sub-fund's indicative NAV by more than 1.5%.

Euronext Paris SA may suspend trading in the Sub-fund's shares pursuant to the terms of its operating rules, if the aforementioned reservation threshold limit is exceeded.

Euronext Paris SA will also suspend trading in the Sub-fund's shares in the following cases:

- the Benchmark Index is no longer traded or calculated
- Euronext Paris SA cannot obtain the Benchmark Index's level
- Euronext Paris SA cannot obtain the Sub-fund's net asset value

In accordance with the terms and conditions governing admission to trading on Euronext Paris, the Market Makers undertake to provide market-making services for the Sub-fund's shares as soon as they are admitted to trading on the Euronext Paris exchange.

In particular, the Market Makers undertake to carry out market-making operations by maintaining a significant presence in the market, which initially entails the setting of a bid/ask spread.

More specifically, the Market Makers are required by contract with Euronext Paris SA to ensure that the Sub-fund maintains:

- a maximum global spread of 1.5% between the bid and offer price in the centralized order book.
- a minimum nominal trading value of the USD equivalent of EUR 100,000.

The obligations of the Sub-fund's Market Makers will be suspended in the following cases:

- the Benchmark Index is no longer traded or calculated

if trading is substantially disrupted, for example due to a widespread shift in prices or an event that makes normal market making impossible.

Indicative Net Asset Value:

Euronext Paris SA will calculate and publish, each Trading Day (as defined below) during trading hours, the Sub-fund's indicative net asset value (hereinafter "iNAV"). The iNAV is a measure of the intra-day value of the Sub-fund's net asset value based on the most recent data. The iNAV is not the value at which investors buy and sell shares in the Sub-fund on the secondary market.

A "Trading Day" is a day on which NSYE Euronext is normally open and on which the Benchmark Index is normally published.

The Sub-fund's iNAV is a theoretical net asset value calculated every 15 seconds by Euronext SA throughout the Paris trading day and is based on the level of the Benchmark Index. The iNAV enables investors to compare the prices that the Market Makers offer on the market with the theoretical value calculated by Euronext.

The iNAV will be calculated every day that the net asset value is calculated and published.

To calculate the Sub-fund's iNAV throughout the Paris trading session (9: 05 am to 5: 35 pm), Euronext Paris SA will use the Benchmark Index value published by Reuters.

The market prices of the CBOT 10y US Treasury futures used to calculate the level of the Benchmark Index and therefore to determine the iNAV is provided to Reuters by Eurex.

If Eurex is closed (on a public holiday on the TARGET calendar), the Benchmark Index is no longer published, the net asset value can no longer be calculated and trading in the Sub-fund's shares may be suspended.

Lyxor International Asset Management, the Sub-fund's management company, will provide Euronext Paris SA with all the financial and accounting data it needs to calculate the Sub-fund's iNAV and in particular:

- The day's estimated net asset value
- The official net asset value of the previous business day
- The level of the Benchmark Index on the previous business day.

These data will serve as a basis for Euronext Paris SA's calculations to determine the Sub-fund's iNAV in real time every Trading Day.

Additional information about the indicative net asset value of a share listed on an exchange may, in accordance with the terms and limits set by the relevant market undertaking, be provided on this exchange's website. This information is also available on the Reuters or Bloomberg pages dedicated to the particular share. Additional information about the Bloomberg and Reuters codes for the indicative net asset values of all UCIT ETF type shares is also available in the "Term Sheets" section of Lyxor's website at www.lyxoretf.com.

b. If the shares are listed on an exchange other than Euronext Paris, as indicated in the "Key Information" section, investors should note the following rules

Investors wishing to acquire shares in the Sub-fund or obtain more information regarding the market-making terms that govern the listing and trading of shares on the types of exchanges indicated in the "Key Information" section are advised to familiarize themselves with the guidelines laid down by the relevant market undertaking, in compliance with local regulations, and to seek if necessary the assistance of their usual broker(s) for executing trades on the relevant exchange(s).

FEES AND CHARGES

This information applies to the Acc and Dist share classes.

SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)

The subscription and redemption fees shown below respectively increase the subscription price paid by the investor and decrease the redemption price received. Fees kept by the Sub-fund compensate it for the expenses it incurs in investing in the Sub-fund's assets or in divesting these assets. Any fees that are not kept by the Sub-fund are paid to the asset manager, the marketing agent or other service provider.

Fees paid by investors upon subscription or redemption	Base	Maximum charge
Subscription fee not kept by the Sub-fund	NAV per share × number of shares	The higher value of either EUR 50,000 per subscription order or 5% payable to third parties
Subscription fee kept by the Sub-fund	NAV per share × number of shares	N/A
Redemption fee not kept by the Sub-fund	NAV per share × number of shares	The higher value of either EUR 50,000 per redemption order or 5% payable to third parties
Redemption fee kept by the Sub-fund	NAV per share × number of shares	N/A

OPERATIONAL AND MANAGEMENT FEES:

These fees cover all the costs invoiced directly to the Sub-fund, except for transaction expenses, which include intermediary fees (brokerage, stock market taxes etc.) and any account activity charge that may be charged, for example, by the depositary or the management company.

For this Sub-fund the following fees may be charged in addition to the operating and management fees (see table below):

- incentive fees, which the Sub-fund pays to the management company when the Sub-fund exceeds its objectives
- account activity charges charged to the Sub-fund.

For more information on the fees or expenses that the Sub-fund must pay, see the Statistics section of the Key Investor Information Document (KIID).

Fees charged to the Sub-fund	Base	Maximum charge
Investment management fees and administration fees that are external to the management company (auditor, depositary, fund distribution and legal fees) including tax ⁽¹⁾	Net asset value	0.20% per annum
Incentive fee	Net asset value	N/A
Account activity charge	Charge on each transaction	N/A

⁽¹⁾ Includes all fees and expenses except for transaction expenses, incentive fees and fees associated with investment in UCITS.

COMMERCIAL INFORMATION

Distribution of this prospectus and the offering or purchase of the Fund's share classes may be subject to restrictions with regard to certain persons or in certain countries under national regulations that may apply to these persons or countries. Investors are therefore responsible for ensuring that they can legally subscribe to or invest in this Fund. The information in this prospectus therefore cannot be construed to be an offer or solicitation to buy or sell shares in this Fund in a country where such offer or solicitation is unlawful.

The Fund's share classes will not be registered pursuant to the U.S. Securities Act of 1933, as amended (the "U.S. Securities Act") and cannot be offered, assigned, transferred or allocated to the United States of America, or to:

- (A) any "U.S. Person", as this term is defined (i) under Regulation S of the US Securities Act of 1933 and (ii) under U.S. regulations as defined in Section 7701 (a) (30) of the Internal Revenue Code of 1986 as amended. The Fund's shares will not be offered to U.S. Persons.
- (B) anyone other than those persons considered to be "non-US Persons" as this term is defined under U.S. regulations pursuant to the Commodity Futures Trading Commission, Rule 4.7 (a) (1) (iv).

The Fund's shares will only be offered for sale outside of the United States of America to non-U.S. Persons.

For the purpose of this document, the term "U.S. Person" shall mean, among other things, any individual who resides in the United States of America, any entity organized or formed under the laws of the United States of America, certain entities organized or formed outside of the United States of America by one or more U.S. persons, or any account held on behalf of such a U.S. person.

Before making an investment in this Fund or Sub-fund, investors should seek the advice of their financial, tax and legal advisers.

PLACE AND METHOD OF NET ASSET VALUE PUBLICATION OR COMMUNICATION

At the head office of LYXOR INTERNATIONAL ASSET MANAGEMENT, at 17, cours Valmy - 92987 Paris La Défense CEDEX - France.

The Sub-fund's net asset value will be calculated and published each Calculation Day.

IMPORTANT INFORMATION ABOUT THE BENCHMARK INDEX PROVIDER

LYXOR UCITS ETF Double Short 10Y US Treasury is in no way sponsored, endorsed, sold or promoted by Société Générale Index (SGI), which is a registered trademark of the Société Générale group (hereinafter the "Licensor"). The Licensor makes no warranty, guarantee or commitment, whether express or implied, as to the income to be obtained from using the SGI Double Short 10y US Treasury denominated in US dollars (USD) index and/or the level that this index may reach at any given time or of any other type. The Licensor shall not be liable, to anyone whomsoever, for any error that affects the Benchmark Index and shall have no obligation to inform anyone whomsoever of any such error. The SGI Double Short 10y US Treasury indexdenominated in US dollars (USD) is the exclusive property of Société Générale. Société Générale has signed a contract with Standard & Poor's, under the terms of which S&P undertakes to calculate and maintain the Benchmark Index. However, S&P may not be held liable in the event of an error or omission in the calculation of the Benchmark Index.

ADDITIONAL INFORMATION

The Sub-fund's shares are accepted for clearing by Euroclear France S.A.

Subscription and redemption orders are sent by the investors' financial intermediaries (members of Euroclear France SA) to the Depositary.

Pursuant to Article L. 533-22-1 of the French Monetary and Financial Code, information concerning the possible inclusion of social, environmental and corporate governance objectives and performance criteria in the investment policy is available on the management company's website and in the Multi Unit France fund annual report.

The Multi Units France fund prospectus, the Key Investor Information Document and the most recent annual documents will be sent to investors within eight business days upon written request addressed to:

LYXOR INTERNATIONAL ASSET MANAGEMENT
17 Cours Valmy - 92987 Paris La Défense France.

e-mail: contact@lyxor.com

More information can also be requested from Lyxor International Asset Management on its website at www.lyxoretf.com.

Prospectus publication date: See the "Publication Date" section.

The AMF's website (www.amf-france.org) provides more information on the regulatory documents and various provisions that concern investor protection. This Prospectus shall be made available to investors prior to subscription.

INVESTMENT RULES

The Sub-fund will comply with the investment rules of European Directive 2009/65/EC of 13 July 2009.

The Sub-fund may invest in the assets specified in Article L214-20 of the French Monetary and Financial Code, subject to the risk-diversification and investment ratio requirements of Articles R214-21 to R214-27 of said Code.

Notwithstanding the 10% limit under Paragraph II of Article R214-21 of the French Monetary and Financial Code, the Sub-fund may invest up to 20% of its assets in the equities and debt securities of a single issuer, in compliance with Article R214-22-I, which deals with index-tracking funds. Pursuant to Article R214-22 II, the Sub-fund may also increase this 20% limit for a single issuer to 35%, when this is justified by exceptional market conditions, and in particular when certain securities are largely dominant.

Notwithstanding the above, securities guaranteed or issued by a given issuer can account for up to 35% of assets and up to 100% if the Sub-fund holds at least six issues of which none exceeds 30% of assets, provided that these securities are financial instruments issued or guaranteed by an OECD member state, the local authorities of a European Union member state or a country that is a member of the European Economic Area.

OVERALL RISK EXPOSURE

The commitment approach is used to calculate the overall risk exposure.

ASSET VALUATION AND ACCOUNTING RULES

A. VALUATION RULES

The Sub-fund's assets are valued in accordance with applicable laws and regulations and most notably Regulation No. 2014-01 of 14 January 2014 of the Comité de la Réglementation Comptable (the Accounting Regulations Committee), which applies to the chart of accounts for undertakings for collective investment in transferable securities.

Financial instruments traded on a regulated market are valued at the closing price recorded on the day prior to the calculation of the net asset value. If these financial instruments are traded on several regulated markets at the same time, the closing price used is that recorded on the regulated market on which they are principally traded.

However, in the absence of significant trading on a regulated market, the following financial instruments are valued using the following methods:

- Negotiable debt securities ("NDS") with a remaining life upon acquisition that is less than or equal to three months are valued by applying the difference between the acquisition value and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life of more than three months upon acquisition but less than or equal to three months at the net asset value calculation date are valued by applying the difference between the most recent valuation and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life at the net asset value calculation date that exceeds three months are valued at their current value. The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- Financial futures traded on organized markets are valued at the clearing price on the day prior to the calculation of the net asset value. Options traded on organized markets are valued at their market price on the day prior to the calculation of the net asset value. Forward contracts and over-the-counter options are valued at the price quoted by the counterparty. The management company monitors these prices independently.
- Bank deposits are valued at their nominal value plus accrued interest.
- Warrants, short and medium-term notes (bons de caisse), promissory notes and mortgage notes are valued under the management company's responsibility at their most likely trading value.
- Securities financing transactions are valued at the market price.
- Shares and units in UCITS under French law are valued at the last known net asset value on the day the Sub-fund's net asset value is calculated.
- Shares and units in foreign investment funds are valued at the last known unitary net asset value at the date the Sub-fund's net asset value is calculated.
- Financial instruments traded on a regulated market and for which no price has been quoted or whose price has been corrected, are valued under the management company's responsibility at their most likely trading value.
- The exchange rates used to value financial instruments denominated in a currency other than the Sub-fund's base currency are the WM Reuters fixing rates published on the day the Sub-fund's net asset value is calculated.

B. ACCOUNTING METHOD FOR TRADING EXPENSES

Trading expenses are included in the initial cost of the transaction.

C. ACCOUNTING METHOD FOR INCOME FROM FIXED-INCOME SECURITIES

Income from fixed-income securities is accounted for using the cash-basis method.

D. DISTRIBUTION POLICY

For more information see the section entitled "Calculation and appropriation of Distributable amounts"

E. ACCOUNTING CURRENCY

The Sub-fund's accounts are kept in USD.

SUB-FUND NO. 22: Lyxor FTSE Italia Mid Cap PIR (DR) UCITS ETF

A SICAV SUB-FUND COMPLIANT WITH DIRECTIVE 2009/65/CE

ISIN CODES

Acc share class: FR0011758085

CLASSIFICATION

Eurozone country equities.

The Lyxor FTSE Italia Mid Cap PIR (DR) UCITS ETF sub-fund (the "Sub-fund") continuously maintains at least 60% exposure to one or more of the equity markets one or more eurozone countries, which may include France.

The Sub-fund is a UCITS ETF index-tracker.

INCEPTION DATE

The Sub-fund was approved by l'autorité des Marchés Financiers (the French financial markets authority) on 7 March 2014 and was established on 28 March 2014.

INVESTMENT OBJECTIVE

The Sub-fund's investment objective is to replicate the performance, whether positive or negative, of the FTSE Italia PIR Mid Cap Net Tax Index (the "Benchmark Index") denominated in euros (EUR), while minimizing the tracking error between the Sub-fund's performance and that of its Benchmark Index, which is representative of the performance of mid-cap stocks listed on Borsa Italiana.

The expected ex-post tracking error under normal market conditions is 1%.

BENCHMARK INDEX

The Benchmark Index is the FTSE Italia PIR Mid Cap Net Tax Index,

The Benchmark Index is a free float-adjusted capitalization-weighted index that represents the stock-market performance of the mid-cap equities listed on the Borsa Italiana exchange.

The Benchmark Index is composed of the components of the FTSE Italia Mid Cap Index which are eligible for investment under the "Piano Individuale di Risparmio a lungo termine" (PIR) regime, pursuant to the 2017 Italian Budget Act (Act No. 232 of 11 December 2016) as amended.

The FTSE Italia Mid Cap Index is representative of the performance of the 60 equities listed on Borsa Italiana that are most highly rated in terms of market capitalization and liquidity (based on daily trading volume) and which are not components of the FTSE MIB index.

Each Benchmark Index component is capped at 10% at each quarterly rebalancing. The weight of any component that exceeds 10% will be reduced to 10%. The sum of the weights of the components that are weighted above 5% is capped at 40%.

The Benchmark Index is rebalanced quarterly, in March, June, September and December.

The Benchmark Index is a Net Dividends Reinvested index. A Net Dividends Reinvested index includes net dividends and all other types of income distribution in the calculation of the index's performance.

A full description of the Benchmark Index and its construction methodology and information on the composition and respective weightings of the Benchmark Index components are available on the Internet at www.ftserussell.com.

Benchmark Index composition and revision

The Benchmark Index is rebalanced quarterly.

The exact composition of the Benchmark Index and FTSE's rules for index composition revision are available on the Internet at www.ftserussell.com. The frequency with which the Benchmark Index is rebalanced does not affect the cost of implementing the Investment Strategy.

Benchmark Index publication

The Benchmark Index is calculated daily at the official closing price of the exchanges where the index constituents are listed.

The Benchmark Index is also calculated in real time every stock exchange trading day.

Real-time Benchmark Index values are available via Bloomberg and Reuters.

The Benchmark Index's closing price is available on the Internet at www.ftserussell.com.

Pursuant to Article 52 of European Parliament and Council Regulation 2016/1011 of 8 June 2016, FTSE, the administrator of the FTSE Italia PIR Mid Cap Net Tax Index benchmark index, has until 1 January 2020 to apply for approval or registration as applicable.

As of the date of the most recent version of this prospectus, the benchmark index administrator was not yet listed in ESMA's register of benchmark administrators.

Pursuant to European Parliament and Council Regulation 2016/1011 of 8 June 2016, the asset management company has a procedure for monitoring the benchmark indices used that specifies the measures to be implemented if an index is substantially modified or is no longer provided.

INVESTMENT STRATEGY

1. Strategy employed

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund will use a direct replication method, which means that it will invest mainly in the Benchmark Index's constituents.

The Sub-fund's equities must be those that are eligible for investment under the "Piano Individuale di Risparmio a lungo termine" (PIR) regime, pursuant to the 2017 Italian Budget Act (Act No. 232 of 11 December 2016), as amended.

The Sub-fund must invest at least 70% of its assets in financial instruments traded on a regulated market or on a multilateral trading facility that are issued by or entered into with companies that are domiciled in Italy or in a country of the European Union or the European Economic Area (EEA) and which have a permanent establishment in Italy.

At least 30% of these financial instruments, representing 21% of the total value of the Sub-fund's assets, must be issued by companies that are not components of the FTSE MIB index or an equivalent index.

The Sub-fund cannot invest more than 10% of the total value of its assets in financial instruments that are issued by or entered into with a single company, or by or with companies belonging to the same group, or in cash deposits.

The Sub-fund cannot invest in companies that are domiciled in a country that has not signed an appropriate information-sharing agreement with Italy. These investment restrictions will be observed during at least two thirds of each calendar year, as of 03/03/2017.

In order to optimize the direct replication method that is used to track the Benchmark Index, the Sub-fund, represented by its delegated asset manager, may decide to employ a "sampling" technique that consists in investing in a selection of representative Benchmark Index constituents in order to reduce the costs of investing directly in all of the various Benchmark Index constituents. This sampling technique could cause the Sub-fund to invest in a selection of representative Benchmark Index securities (and not in all of them) in proportions that do not reflect their weight within the Benchmark Index, and even to invest in securities that are not constituents of the Benchmark Index.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund may also, on an ancillary basis, engage in transactions involving derivative financial instruments (DFI). These transactions could for example be futures contracts on indices and/or swaps for hedging purposes and in particular to minimise the Sub-fund's tracking error.

To ensure transparency on the use of the direct index replication method (i.e. either full replication of the Benchmark Index or sampling to limit replication costs) and on its consequences in terms of the assets in the Sub-fund's portfolio, information on the updated composition of the basket of 'balance sheet' assets in the Sub-fund's portfolio is available on the page dedicated to the Sub-fund on Lyxor's website at www.lyxoretf.com. The frequency of any updates and/or the date on which the aforementioned information is updated is also indicated on the same page of the aforementioned website.

Up to 20% of the Sub-fund's assets may be exposed to equities issued by the same entity. This 20% limit may be increased to 35% for a given issuing entity when this is justified by exceptional market conditions and in particular when certain securities are largely dominant and/or in the event of strong volatility that affects a financial instrument or securities linked to an economic sector represented in the Benchmark Index, particularly in the event of a public offering that substantially affects a Benchmark Index security or in the event of a significant drop in the liquidity of one or more of the Benchmark Index's financial instruments.

2. Balance sheet assets (excluding embedded derivatives)

The Sub-fund shall comply with the investment rules set out in the European Directive 2009/65/EC of 13 July 2009.

The Sub-fund will mainly be invested in the securities that make up the Benchmark Index.

Investment in undertakings for collective investment in transferable securities ("UCITS") that comply with Directive 2009/65/EC is limited to 10% of the Sub-fund's net assets. The Sub-fund may invest in the shares of UCITS managed by the management company or by a company that is related to the management company. The fund manager will not invest in the shares or units of alternative investment funds (AIF) or other investment funds that were formed under a foreign law.

When the Fund receives collateral in the form of securities, subject to the terms of section 8 below, it acquires full title to these securities and they are therefore included among the balance sheet assets to which it has full title.

To optimize the Sub-fund's management and achieve its investment objective, the asset manager reserves the right to use other financial instruments, in compliance with regulations.

3. Off-balance sheet assets (derivatives)

The Sub-fund may, on an ancillary basis, engage in transactions involving derivatives traded on a regulated market or over-the-counter.

If over-the-counter derivatives are used, in accordance with its best-execution policy the management company considers that Société Générale would be the counterparty that would generally provide the best possible execution for any hedging transactions the Sub-fund may enter into pursuant to its investment strategy. Accordingly, all or some of these derivatives may be traded with Société Générale without having to seek a competitive bid from another counterparty.

4. Securities with embedded derivatives

N/A.

5. Cash deposits

To optimize its cash management, the Sub-fund may deposit funds representing up to 20% of its net assets with credit institutions that belong to the same group as the depositary.

6. Cash borrowing

The Sub-fund may temporarily borrow up to 10 % of its net assets.

7. Securities financing transactions

Pursuant to its investment strategy, the Sub-fund may use various efficient portfolio management techniques in compliance with Article R214-18 of the French Monetary and Financial Code, including the temporary sale of securities.

Maximum proportion of assets under management for which securities financing transactions may be entered into: 25% of the Sub-fund's assets.
Expected proportion of assets under management for which securities financing transactions may be entered into: 10% of the Sub-fund's assets.

For this purpose the management company may appoint an intermediary (hereinafter the "Agent) to provide the following services in connection with the Sub-fund's temporary disposals of securities. If such an Agent is used it may be authorised to (i) lend securities, on the Sub-fund's behalf, under framework agreements, such as global master securities lending agreements (GMSLA) and/or any other internationally recognised framework agreement, and (ii) invest, on the Sub-fund's behalf, any liquid assets received as collateral for these securities lending transactions, subject to the restrictions specified in the securities lending agreement, the rules of this prospectus and the applicable regulations.

The Sub-fund shall be entitled to all income from securities financing transactions, net of any direct and indirect operating costs. These operating costs, which are incurred to manage the portfolio more efficiently, may be borne by the Sub-fund's management company, the Agent and/or other intermediaries that are involved in these transactions. These direct and indirect operating costs will be calculated as a percentage of the Sub-fund's gross income. Information on direct and indirect operating expenses and on the entities to which these expenses are paid will be provided in the Sub-fund's annual report.

Income from the lending of securities will be paid to the Sub-fund after deduction of the direct and indirect operating expenses borne by the Agent and possibly by the management company. Since these direct and indirect operating expenses do not increase the Sub-fund's operating expenses they have been excluded from ongoing charges.

If necessary, the Sub-fund's annual report will provide the following information:

- the exposure resulting from the use of efficient portfolio management techniques/transactions
- the identity of the counterparty(ies) involved in these transactions
- the nature and amount of any collateral received to reduce the Sub-fund's counterparty risk, and; et
- the income obtained from efficient portfolio management transactions during the relevant period and the direct and indirect operating costs associated with these transactions.

8. Collateral

Whenever the investment strategy exposes to the Sub-fund to counterparty risk, and in particular when the Sub-fund uses over-the-counter swaps, the Sub-fund may accept eligible securities as collateral to reduce the counterparty risk associated with these swaps. The portfolio of collateral received may be adjusted daily to ensure that its value is at least sufficient to cover the Sub-fund's counterparty risk in most cases. The purpose of this adjustment is to neutralize the Sub-fund's counterparty risk.

The Sub-fund will have full title to all collateral received, which will be deposited in the Sub-fund's account with the depositary. This collateral will therefore be included in the Sub-fund's assets. If a counterparty defaults on an obligation, the Sub-fund may dispose of the assets received from the counterparty in respect of the secured transaction to pay off the the counterparty's debt to the Sub-fund.

All collateral the Sub-fund receives for this purpose must comply with the applicable laws and regulations, with respect in particular to the liquidity and valuation of the collateral, the credit-worthiness of securities issuers, risk exposure correlation and the risks of collateral management and enforceability. All collateral received must in particular meet the following criteria:

- (a) All collateral must be of high quality, be highly liquid and tradable on a regulated market or on a multilateral trading facility, with transparent pricing to enable the collateral to be rapidly sold near its estimated price;
- (b) This collateral must be valued at its mark-to-market price at least daily and assets with highly volatile prices are not acceptable as collateral, unless a sufficiently prudent discount or "haircut" is applied;
- (c) The issuer of this collateral must be independent of the counterparty and must not be closely correlated with the counterparty's financial performance;
- (d) This collateral must be sufficiently diversified by country, market and issuer, and no exposure to a single issuer may exceed 20 % of the Sub-fund's net asset value;
- (e) The Sub-fund's Management Company must be able to enforce this collateral in full and at any time, without having to consult with the counterparty or obtain its approval.

Notwithstanding the condition specified in (d) above, the Fund may accept a basket of securities collateral that increases its exposure to a single issuer to more than 20% of its net asset value provided that:

- such securities collateral is issued by (i) a Member State, (ii) one or more of a Member State's local authorities, (iii) a country that is not a Member State (iv) a public international organization to which one or more Member States belong; and;
- such securities collateral consists of at least six different issues of securities of which no single issue exceeds 30% of the Sub-fund's assets.

Subject to the above conditions, the Sub-Fund may take collateral in the following forms:

- (i) Cash and cash-equivalent assets, which for example include short-term bank deposits and balances and money-market instruments;
- (ii) Bonds issued or guaranteed by an OECD member state, or by its local government entities, or by an EU, regional or global supranational institution or organisation, or by any country provided that conditions (a) to (e) above are fully complied with;
- (iii) Shares or units issued by money-market funds that calculate a daily net asset value and have an AAA or equivalent credit rating;
- (iv) The shares or units of UCITS that invest mainly in the bonds and/or equities indicated in (v) and (vi) below;
- (v) Bonds issued or guaranteed by first-class issuers offering sufficient liquidity;
- (vi) Equities admitted for trading or traded on a regulated exchange of an EU member country, on a stock exchange of an OECD member country or on a stock exchange of another country provided that conditions (a) to (e) above are fully complied with and that these equities are components of a major index.

Collateral discount policy:

The Sub-fund's management company shall apply a discount to the collateral accepted by the Sub-fund. The amount of these discounts will depend mainly on the following:

- The nature of the collateral asset;

- The collateral's maturity (if applicable);
- The credit rating of the collateral issuer (if applicable).

A higher discount may be applied to collateral received in a currency other than the euro.

Reinvestment of collateral:

Non-cash collateral will not be sold, reinvested or pledged.

At the manager's discretion, cash collateral may either be:

- (i) deposited with an authorized institution
- (ii) invested in high-quality government bonds
- (iii) used for reverse repurchase transactions, provided that these are entered into with credit institutions that are subject to prudential supervision and that the fund is able to withdraw the total amount of its cash collateral and the accrued interest at any time
- (iv) invested in short-term money market funds that meet the guidelines for a common EU definition of money market funds.

All cash collateral that is reinvested must be invested in a diversified manner in compliance with the rules that apply to the acceptance of non-cash collateral.

RISK PROFILE

Investors' money will be invested mainly in the financial instruments selected by the management company. These instruments are subject to market trends and contingencies.

Investors in the Sub-fund will mainly be exposed to the following risks:

Equity risk

The price of an equity security can increase or decrease in accordance with changes in the issuer's risk exposure or in the economic conditions of the market in which the security is traded. Equity markets are more volatile than fixed income markets, where under stable macroeconomic conditions income over a given period of time can be estimated with reasonable accuracy.

Capital risk

The capital invested is not guaranteed. Investors therefore may not recover all or part of their initial investment, particularly in the event that the Benchmark Index posts a negative return over the investment period.

Liquidity risk (primary market)

The Sub-fund's liquidity and/or value may be adversely affected if, when the Sub-fund or a counterparty to a financial derivative instrument (DFI) is rebalancing its exposure, the underlying financial markets are restricted, closed, or subject to large bid/offer spreads. An inability, due to low trading volume, to execute the trades required to replicate the Benchmark Index may also adversely affect the subscription, conversion or redemption of shares.

Liquidity risk (secondary market)

The price of the Sub-fund's listed shares or units may deviate from the Sub-fund's indicative net asset value. The liquidity of the Sub-fund's shares traded on a given exchange may be adversely affected by a suspension in trading for various reasons, such as:

- i) the calculation of the Benchmark Index is suspended or stopped
- ii) trading in the market(s) in the Benchmark Index's underlying assets is suspended
- iii) an exchange cannot obtain or calculate the Sub-fund's indicative net asset value
- iv) a market maker fails to comply with an exchange's rules
- v) an exchange's IT, electronic or other system fails.

Benchmark Index tracking risk

Replicating the performance of the Benchmark Index by investing in all of its constituents may prove to be very difficult to implement and costly. The Sub-fund manager may therefore use various optimization techniques, such as 'sampling', which consists in investing in a selection of representative securities (and not all securities) that constitute the Benchmark Index, in proportions that differ from those of the Benchmark Index or even investing in securities that are not index constituents or in derivatives. The use of such optimization techniques may increase the ex post tracking error and cause the Sub-fund to perform differently from the Benchmark Index.

Counterparty risk

The Sub-fund may use derivative financial instruments (DFI) on an ancillary basis.

In this case, the Sub-fund will be exposed to the risk that a counterparty with which the Sub-fund has entered into a contract or transaction may go bankrupt or default on a settlement or other obligation. The Sub-fund will in particular be exposed to counterparty risk resulting from the use of DFI traded over the counter. In compliance with UCITS regulations, exposure to counterparty risk may not exceed 10% of the Sub-fund's total assets per counterparty.

When Société Générale is the counterparty in a DFI and/or securities financing transaction, conflicts of interest may arise between it and the Sub-fund's management company, which has procedures to identify and reduce such conflicts of interest and to resolve them equitably if necessary.

Risk of investing mid-cap companies

The Sub-fund is exposed to medium-capitalization companies, which may increase market and liquidity risks. The prices of these securities therefore increase and decrease more sharply and more rapidly in response to market movements than do the prices of large-cap stocks. The Sub-fund's net asset value could behave similarly and therefore fall more sharply than that of a similar investment in large-capitalization equities.

Risk that the investment objective may not be fully achieved

There is no guarantee that the investment objective will be achieved, as no asset or financial instrument can ensure that the Benchmark Index will be automatically and continuously replicated, particularly in the event of one or more of the following risks:

- Risk of using derivative financial instruments

The Sub-fund may invest in derivative financial instruments (DFI), traded over the counter or on regulated markets, such as swaps. These DFI involve various risks, such as counterparty risk, hedging disruption, Benchmark Index disruption, taxation risk, regulatory risk, operational risk and liquidity risk. These risks can materially affect a DFI and may require an adjustment of the DFI transaction or even its premature termination, which could adversely affect the Sub-fund's net asset value.

- Risk due to a change in the tax regime

A change in the tax regime of a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed could adversely affect the taxation of investors. In such an event, the Sub-fund manager shall not be liable to any investor with respect to any payment that may have to be made to a competent tax authority.

- Risk of a change in the taxation of the Sub-fund's underlying assets

A change in the taxation of the Sub-fund's underlying assets could adversely affect the taxation of the Sub-fund. In such an event a discrepancy between the estimated taxation and the actual taxation of the Sub-fund and/or of the Sub-fund's DFI counterparty may adversely affect the Sub-fund's net asset value.

- Regulatory risk affecting the Sub-fund

In the event of a change in the regulatory regime in a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed, the subscription, conversion or redemption of units or shares may be adversely affected.

- Regulatory risk affecting the Sub-fund's underlying assets

In the event of a change in the regulations that govern the Sub-fund's underlying assets, the Sub-fund's net asset value and the subscription, conversion or redemption of shares may be adversely affected.

- Benchmark Index disruption risk

If an event adversely affects the Benchmark Index, the Sub-fund manager may be required, as provided for by law, to suspend the subscription and redemption of the Sub-fund's shares. The calculation of the Sub-fund's net asset value could also be adversely affected.

If the disruption of the Benchmark Index persists, the Sub-fund manager will determine an appropriate course of action, which could decrease the Sub-fund's net asset value.

A 'Benchmark Index event' includes but is not limited to the following situations:

i) the Benchmark Index is deemed to be inaccurate or does not reflect actual market developments,

ii) the Benchmark Index is permanently cancelled by the index provider,

iii) the index provider is unable to indicate the level or value of the Benchmark Index,

iv) the index provider makes a material change in the Benchmark Index calculation formula or method (other than a minor modification such as an adjustment to the Benchmark Index's underlying components or their respective weightings) which the Sub-fund cannot effectively replicate at a reasonable cost;

v) a Benchmark Index component becomes illiquid because it is no longer traded on a regulated market or because its trading over-the-counter (e.g. bonds) is disrupted.

vi) the Benchmark Index components are exposed to higher transaction costs for execution or settlement/delivery, or to specific tax constraints and these costs are not reflected in the Benchmark Index's performance.

- Risk arising from securities financing transactions

If a borrower of securities defaults on its obligation there could be a risk that the value of the collateral received by the Sub-fund is less than the value of the securities lent. This risk could arise, for example, in the event of (i) an inaccurate valuation of the securities lent and/or (ii) unfavourable market movements and/or (iii) the lowering of the credit rating(s) of the issuer(s) of securities taken as collateral and/or (iv) the illiquidity of the market in which the collateral received is listed. If cash collateral is reinvested this could (i) result in leverage that entails a risk of loss and volatility and/or (ii) expose the Sub-fund to a market that is inappropriate for its investment objective, and/or (iii) generate less income than the amount of collateral the Sub-fund must repay. The Sub-fund could also fail to receive the securities lent by the date specified, which would diminish its capacity to accommodate investor redemptions.

- Corporate action risk

An unforeseen change, by the issuer of a security that is a component of the Benchmark Index, in a planned corporate action that is in contradiction with a previous official announcement on which the Sub-fund based its valuation of the corporate action (and/or on which the Sub-fund's counterparty to a financial derivative instrument or transaction based its valuation of the corporate action) can adversely affect the Sub-fund's net asset value, particularly if the Sub-fund's treatment of the corporate event differs from that of the Benchmark Index methodology.

- Legal risk

The Sub-fund may be exposed to a legal risk arising from securities financing transactions as indicated in EU Regulation No. 2015/2365.

ELIGIBLE INVESTORS AND TYPICAL INVESTOR PROFILE

The Sub-fund is This Sub-fund is available to all investors.

Investors in this Sub-fund seek exposure to mid-cap stocks listed on the Borsa Italiana exchange.

The amount that can be reasonably invested in the Sub-fund depends on each investor's personal situation. To determine this amount, investors must take into account their personal wealth and/or estate, their cash requirements currently and for the next five years, and their willingness to take on risk or their preference for more prudent investment. Investors are also advised to diversify their investments sufficiently so as not to be exposed solely to this Sub-fund's risks.

All investors are therefore asked to consider their specific situation with the help of their usual investment advisor.

The recommended minimum investment period is at least five years.

CALCULATION AND APPROPRIATION OF DISTRIBUTABLE AMOUNTS

All distributable amounts will be accumulated.

N/A.

SHARE CHARACTERISTICS

Subscription orders may be placed for a specific monetary amount or for a whole number of shares.

Only a whole number of shares may be redeemed.

CURRENCY

SUBSCRIPTION AND REDEMPTION

1. SUBSCRIPTION AND REDEMPTION ON THE PRIMARY MARKET

Subscription/redemption requests for shares in the Sub-fund will be processed by the Depositary from 10:00 am and 5.00 pm (Paris time), every day that the Sub-fund's net asset value is to be published, provided that prices can be quoted for a significant proportion of the Benchmark Index components (hereinafter a "Primary Market Day"), and will be executed at the net asset value on that Primary Market Day, hereinafter the "reference NAV". Subscription/redemption requests submitted after 5.00 pm (Paris time) on a Primary Market Day will be processed as if received from 10:00 am to 5.00 pm (Paris time) on the following Primary Market Day. Orders to subscribe for or redeem shares in the Sub-fund must be for a whole number of shares and a minimum amount of at least 100,000 euros.

Subscriptions and redemptions in cash

Subscriptions and redemptions shall be made exclusively in cash and executed at the ref NAV.

Delivery and settlement

Settlement/delivery of subscriptions and redemptions shall be completed within five French business days upon receipt of the subscription or redemption order.

Date and frequency of net asset value calculation

The net asset value will be calculated and published daily, provided that at least one exchange on which the Sub-fund's shares are listed is open and that orders placed in the primary and secondary markets can be funded.

The Sub-fund's net asset value is calculated using the Benchmark Index's closing price.

The net asset value of a share class that is denominated in another currency than the Sub-fund's accounting currency (if applicable) is calculated using the exchange rate between the accounting currency and the currency of the share class, at the applicable WM Reuters rate on the date the reference NAV is calculated .

Capping of redemptions

When exceptional circumstances and the preservation of the interests of the Sub-fund's shareholders so require, the management company may suspend redemptions when they reach the maximum amount indicated below and defer the unexecuted fraction of redemption orders over one or more subsequent net asset values.

For this Sub-fund, redemptions at a given net asset value may be suspended when they exceed 10% of the Sub-fund's net assets as calculated using the most recent net asset value for all of the Sub-fund's share classes, which the management company may estimate if necessary on the corresponding Primary Market Day.

If the redemption orders received on a given Primary Market Day exceed 10% of the Sub-fund's net assets, the management company may, depending on the market conditions on that Primary Market Day, decide to suspend redemptions.In this case, the management company will determine the precise amount of the cap on redemptions in accordance with market conditions and in the best interest of the Sub-fund's shareholders.This is because the liquidity of the Sub-fund's assets will depend on the market conditions on that Primary Market Day and in some cases may enable the Sub-fund to fulfil all or some of the redemption orders received on that day above the 10% limit of the Sub-fund's net assets.

When the management company decides to suspend redemptions it specifies the amount of the cap so that it can immediately determine the fraction of each redemption order that cannot be executed and inform, as soon as possible, the shareholders who have placed redemption orders.

The fraction of redemption orders that is not executed will be automatically deferred and treated like a redemption order that is received in the following Primary Market Day, unless the shareholder does not want the unexecuted fraction of the redemption order to be executed, in which case this fraction will be canceled on this Primary Market Day.

The maximum number of net asset values during which redemptions may be capped and suspended by the management company is indicated in the Fund's articles of Association.

For example, if the Sub-fund has net assets of EUR 1,000,000,000 and the redemption orders on a Primary Market Day exceed EUR 100,000,000, the management company may suspend redemptions depending on market conditions and above all on the liquidity of the Sub-fund's assets.If redemption orders total EUR 200,000,000 and the Sub-Fund's has net assets of EUR 1,000,000,000 there are two possibilities:

- the liquidity of the Sub-funds' assets enable the management company to fulfil all redemption orders, in which case the management company will not suspend redemptions, or
- in consideration of the liquidity of the Sub-fund's assets and the best interests of its shareholders, the management company decides to suspend redemptions and sets the cap beyond which it will stop fulfilling all redemption orders. If, for example, the management company caps redemptions at 15% it will fulfil redemption orders up to a maximum of 15% of the Sub-fund's net assets (i.e. EUR 150,000,000).Accordingly, only 75% of each order will be executed ($75\% = \text{EUR } 150,000,000 / \text{EUR } 200,000,000$).Beyond this 15% cap, the fraction of redemption orders that cannot be executed (i.e. EUR 50,000,000 in our example) will be automatically deferred and treated as if it were a redemption order received on the following Primary Market Day.However, shareholders may oppose the deferral of the fraction of their redemption orders that is not executed on this Primary Market Day, in which case this fraction will be canceled.

2. PURCHASES AND SALES ON THE SECONDARY MARKET

A. COMMON PROVISIONS

For any purchase or sale of shares in the Sub-fund made directly on an exchange on which the Sub-fund is admitted or will be admitted for continuous trading, no minimum purchase or sale amount is required other than that which may be required by the relevant exchange(s).

Shares in a listed Sub-fund acquired on the secondary market cannot generally be directly resold to the Sub-fund. Investors must therefore buy and sell their shares or units on a secondary market through an intermediary (e.g. a broker) and may consequently incur costs. Furthermore, there is a possibility that investors may pay more than the indicative net asset value when buying shares or units and receive less than the indicative net asset value when selling shares or units.

If the stock market value of a listed fund's shares or units differs significantly from their indicative net asset value, or if trading in the fund's share or units is suspended, subject to the conditions set forth below and those of the section above entitled "Capping of redemptions,"investors may be allowed to redeem their shares

on the primary market directly from the fund, without being subject to the minimum redemption amount requirement set forth herein in the section SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)".

The management company shall decide whether to allow such primary market redemptions and for how long, on the basis of the following criteria for assessing the significance of a market disruption:

- The suspension or strong disturbance of secondary trading on a given exchange is relatively frequent
- The link between the market disruption and secondary market operators (such as the default of one or more of the Market Makers of a given exchange, or a breakdown or malfunction of an exchange's IT or operating systems), excluding a disruption caused by a source external to the secondary exchange on which the Sub-fund's shares are traded, such as an event that affects the liquidity and valuation of all or some of the Benchmark Index's components;
- Any other objective circumstance that could adversely affect the fair treatment and/or the interests of the Sub-fund's share-holders.

Redemptions made in the primary market in this case shall only be subject to a redemption fee paid to the Sub-fund and which serves to cover its trading costs. The redemption fee that is not kept by the Sub-fund will normally not be charged.

In such exceptional cases when redemption in the primary market is allowed, the Management Company shall post on Lyxor's website at www.lyxor.etf.com the procedure that investors must observe to redeem their shares or units in the primary market. The Management Company shall also make this procedure available to the market undertaking that handles trading in the Sub-fund's shares.

B. SPECIFIC PROVISIONS

- a. If the Sub-fund's shares are listed on Euronext Paris, as indicated in the "Key Information" part of the "General Characteristics" section of the Fund's prospectus, investors should note the following rules:

Negotiability of shares and information about the financial institutions acting as Market Makers:

The shares are freely negotiable on the Euronext Paris regulated market under the following conditions and according to the applicable legal and regulatory provisions.

The Sub-fund shares will be listed on a specific trading list, the rules of which are set forth in the following instructions published by Euronext Paris SA:

- Instruction No. 4-01 " Universal Trading Platform Manual"
- Appendix to Instruction N4-01 (Appendix to the Euronext Market Trading Manual)
- Instruction No. 6-04 "Documentation to be provided when filing a listing application for an ETF, ETN, ETV and open-ended undertakings for collective investment other than ETFs"

Pursuant to article D 214-22-1 of the French Monetary and Financial Code the shares or units of undertakings for collective investments in transferable securities may be admitted to trading, provided that these undertakings have a system to ensure that the market price of their shares or units does not differ significantly from their net asset value. Under Euronext Paris SA's rules trading in the Sub-fund's shares is also subject to a 'reservation threshold' of 1.5% above or below the Sub-fund's indicative net asset value or "iNAV" (see the "Indicative Net Asset Value" section), as published by Euronext Paris SA and updated on an estimated basis during trading in accordance with the change in the Index.

To comply with Euronext Paris SA's reservation threshold (see the section entitled "Indicative net asset value") the Market Makers will ensure that the market price of the Sub-fund's shares does not differ from the Sub-fund's indicative Net Asset Value by more than 1.5%.

Euronext Paris may suspend trading in the Sub-fund's shares pursuant to the terms of its operating rules, if the aforementioned reservation threshold limit is exceeded.

Euronext Paris will also suspend trading in the Sub-fund's shares in the following cases:

- the Benchmark Index is no longer traded or calculated;
- Euronext Paris cannot obtain the Benchmark Index's level
- Euronext Paris cannot obtain the Sub-fund's net asset value;

In accordance with the terms and conditions governing admission to trading on the Euronext Paris exchange, the Market Makers undertake to provide market-making services for the Sub-fund's shares as soon as they are admitted to trading on the Euronext Paris exchange.

In particular, the Market Makers undertake to carry out market-making operations by maintaining a significant presence in the market, which initially entails the setting of a bid/ask spread.

More specifically, the Market Makers are required by contract with Euronext Paris to ensure that the Sub-fund maintains:

- a maximum global spread of 2% between the bid and offer price in the centralized order book.
- a minimum nominal trading value of EUR 200,000.

The obligations of the Sub-fund's Market Makers will be suspended in the following cases:

the Benchmark Index is no longer traded or calculated;

if trading is substantially disrupted, for example due to a widespread shift in prices or an event that makes normal market making impossible.

Indicative Net Asset Value

Euronext Paris SA will calculate and publish, each Trading Day (as defined below) during trading hours, the Sub-fund's indicative net asset value (hereinafter "iNAV"). The iNAV is a measure of the intra-day value of the Sub-fund's net asset value based on the most recent data. The iNAV is not the value at which investors buy and sell shares in the Sub-fund on the secondary market.

A "Trading Day" is a day on which NSYE Euronext is normally open and on which the Benchmark Index is normally published.

The Sub-fund's iNAV is a theoretical net asset value calculated every 15 seconds by Euronext SA throughout the Paris trading day and is based on the level of the Benchmark Index. The iNAV enables investors to compare the prices that the Market Makers offer on the market with the theoretical value calculated by Euronext.

The iNAV will be calculated every day that the net asset value is calculated and published.

To calculate the Sub-fund's iNAV throughout the Paris trading session (9: 05 am to 5: 35 pm), Euronext Paris SA will use the Benchmark Index value published by Reuters.

If one or more stock exchanges on which the Benchmark Index's constituent equities are listed are closed (on a public holiday as indicated on the TARGET calendar), and if the INAV cannot be calculated, trading in the Sub-fund's shares may be suspended.

Lyxor International Asset Management, the Sub-fund's management company, will provide Euronext Paris SA with all the financial and accounting data it needs to calculate the Sub-fund's iNAV and in particular:

- The day's estimated net asset value;
- The official net asset value of the previous business day
- The level of the Benchmark Index on the previous business day.

These data will serve as a basis for Euronext Paris SA's calculations to determine the Sub-fund's iNAV in real time every Trading Day.

Additional information about the indicative net asset value of a share listed on an exchange may, in accordance with the terms and limits set by the relevant market undertaking, be provided on this exchange's website. This information is also available on the Reuters or Bloomberg pages dedicated to the particular share. Additional information about the Bloomberg and Reuters codes for the indicative net asset values of all UCITS ETF type share classes is also available in the "Term Sheets" section of Lyxor's website at www.lyxoretf.com.

b) If the shares are listed on an exchange other than Euronext Paris, as indicated in the "Key Information" section, investors should note the following rules:

Investors wishing to acquire shares in the Sub-fund or obtain more information regarding the market-making terms that govern the listing and trading of shares on the types of exchanges indicated in the "Key Information" section are advised to familiarize themselves with the guidelines laid down by the relevant market undertaking, in compliance with local regulations, and to seek if necessary the assistance of their usual broker(s) for executing trades on the relevant exchange(s).

FEES AND CHARGES

SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)

The subscription and redemption fees shown below respectively increase the subscription price paid by the investor and decrease the redemption price received. Fees kept by the Sub-fund compensate it for the expenses it incurs in investing in the Sub-fund's assets or in divesting these assets. Any fees that are not kept by the Sub-fund are paid to the management company, marketing agent or other service provider.

Fees paid by investors upon subscription or redemption	Base	Maximum charge
Subscription fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per subscription order or 5% payable to third parties
Subscription fee kept by the Sub-fund	NAV per share x number of shares	0.16% ⁽¹⁾
Redemption fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per redemption order or 5% payable to third parties
Redemption fee kept by the Sub-fund	NAV per share x number of shares	0.06% ⁽¹⁾

(1) The management company adjusts these fees whenever necessary to ensure that primary market investors bear no more than the actual costs of adjusting the portfolio, for example when subscription and redemption orders are placed at the same net asset value or when an order is large enough to enable the manager to reduce execution costs.

OPERATIONAL AND MANAGEMENT FEES

These fees cover all the costs invoiced directly to the Sub-fund, except for transaction expenses, which include intermediary fees (brokerage, stock market taxes etc.) and any account activity charge that may be charged, for example, by the depositary or the management company.

For this Sub-fund the following fees may be charged in addition to the operating and management fees (see table below):

- incentive fees, which the Sub-fund pays to the management company when the Sub-fund exceeds its objectives
- account activity charges charged to the Sub-fund.

For more information on the fees or expenses that the Sub-fund must pay, see the Statistics section of the Key Investor Information Document (KIID).

Fees charged to the Sub-fund	Base	Maximum charge
Investment management fees and administration fees that are external to the management company (auditor, depositary, fund distribution and legal fees) including tax ⁽¹⁾	Net asset value	0.40% per annum
Incentive fee	Net asset value	N/A
Account activity charge:	Charge on each transaction	N/A
Temporary securities transaction costs	The amount of the transaction	35% of the income obtained from these transactions

⁽¹⁾ Includes all fees and expenses except for transaction expenses, incentive fees and fees associated with investment in UCITS.

COMMERCIAL INFORMATION

Distribution of this prospectus and the offering or purchase of the Fund's share classes may be subject to restrictions with regard to certain persons or in certain countries by virtue of national regulations applying to these persons or countries. Investors are therefore responsible for ensuring that they are authorized to subscribe to or invest in this Fund. The information in this prospectus therefore cannot be construed to be an offer or solicitation to buy or sell shares in this Fund in a country where such offer or solicitation is unlawful.

The Fund's share classes will not be registered pursuant to the U.S. Securities Act of 1933, as amended (the "U.S. Securities Act") and cannot be offered, assigned, transferred or allocated to the United States of America, or to:

- (A) any "U.S. Person", as this term is defined (i) under Regulation S of the US Securities Act of 1933 and (ii) under U.S. regulations as defined in Section 7701 (a) (30) of the Internal Revenue Code of 1986 as amended. The Fund's shares will not be offered to U.S. Persons.
- (B) anyone other than those persons considered to be "non-US Persons" as this term is defined under U.S. regulations pursuant to the Commodity Futures Trading Commission, Rule 4.7 (a) (1) (iv).

The Fund's shares will only be offered for sale outside of the United States of America to non-U.S. Persons.

For the purpose of this document, the term "U.S. Person" shall mean, among other things, any individual who resides in the United States of America, any entity organized or formed under the laws of the United States of America, certain entities organized or formed outside of the United States of America by one or more U.S. persons, or any account held on behalf of such a U.S. person.

Under the German tax act on investment funds (InvStG-E), the Sub-fund is a "mutual fund" and must comply with the criteria that apply to "equity funds". As such, the Sub-fund will hold a basket of securities that are eligible for the equity ratio as this term is defined under said German tax act, and which will represent at least 65% of its net assets under normal market conditions. To ensure compliance with this ratio, the Sub-fund may adjust this basket of securities on a daily basis.

Before making an investment in this Fund or Sub-fund, investors should seek the advice of their financial, tax and legal advisers.

PLACE AND METHOD OF NET ASSET VALUE PUBLICATION OR COMMUNICATION

At the head office of LYXOR INTERNATIONAL ASSET MANAGEMENT, at 17, cours Valmy - 92987 Paris La Défense CEDEX - France.

The Sub-fund's net asset value will be calculated and published by Euronext Paris SA on each Paris Trading Day, during trading hours.

IMPORTANT INFORMATION ABOUT THE INDEX PROVIDER

The Lyxor FTSE italia Mid Cap PIR (DR) UCITS ETF fund is in no way sponsored, approved, sold or recommended by FTSE International Limited (hereinafter "FTSE") or London Stock Exchange Group companies ("LSEG") (hereinafter collectively referred to as the "Licensors").

The Licensors assume no obligation and provide no warranty, either expressed or implied, as to the results that may be obtained from (i) using the FTSE Italia PIR Mid Cap Net Tax Index (hereinafter the "Index") (on which the Lyxor FTSE italia Mid Cap PIR (DR) UCITS ETF sub-fund is based), (ii) the level of said Index at a given time or day, or of any other type, or (iii) the Index's relevance to the objective for which it is used in relation to Lyxor FTSE italia Mid Cap PIR (DR) UCITS ETF sub-fund.

None of the Licensors has provided nor will provide Lyxor or any of its clients with any investment advice or recommendation in relation to the Index. Index is calculated by or on the behalf of FTSE. The Licensors shall not be liable to anyone (whether on the grounds of negligence or for any other reason) for any error that affects the Index and shall not be obliged to inform anyone of such an error.

All rights to the index are held by FTSE. FTSE® is a trademark of LSEG and is used under license by FTSE.

ADDITIONAL INFORMATION

The Sub-fund's shares are approved for clearing by Euroclear France S.A.

Subscription and redemption orders are sent by the investors' financial intermediaries (members of Euroclear France SA) to the Depositary.

The Sub-fund's prospectus, the Key Investor Information Document, the most recent annual documents and the asset inventory will be sent to investors within eight business days upon receipt of a written request addressed to:

LYXOR INTERNATIONAL ASSET MANAGEMENT

17 Cours Valmy - 92987 Paris La Défense France.

E-mail: contact@lyxor.com

More information can also be requested from Lyxor International Asset Management on its website at www.lyxoretf.com.

Prospectus publication date: See the "Publication Date" section.

Pursuant to Article L.533-22-1 of the French Monetary and Financial Code, information concerning the management company's possible inclusion of social, environmental and corporate governance objectives and performance criteria in the investment policy is available on the management company's website and in the Sub-fund's annual report.

The AMF's website (www.amf-france.org) provides more information on the regulatory documents and various provisions that concern investor protection. This Prospectus shall be made available to investors prior to subscription.

INVESTMENT RULES

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

The Sub-fund may invest in the assets specified in Article L214-20 of the French Monetary and Financial Code, subject to the risk-diversification and investment ratio requirements of Articles R214-21 to R214-27 of said Code.

Notwithstanding the 10% limit under Paragraph II of Article R214-21 of the French Monetary and Financial Code, the Sub-fund may invest up to 20% of its assets in the equities and debt securities of a single issuer, in compliance with Article R214-22-I, which deals with index-tracking funds. Pursuant to Article R214-22 II, the Sub-fund may also increase this 20% limit for a single issuer to 35%, when this is justified by exceptional market conditions, and in particular when certain securities are largely dominant

OVERALL RISK EXPOSURE

The commitment approach is used to calculate the overall risk exposure.

ASSET VALUATION AND ACCOUNTING RULES

A. VALUATION RULES

The Sub-fund's assets are valued in accordance with applicable laws and regulations and most notably Regulation No. 2014-01 of 14 January 2014 of the Comité de la Réglementation Comptable (the Accounting Regulations Committee), which applies to the chart of accounts for undertakings for collective investment in transferable securities.

Financial instruments traded on a regulated market are valued at the closing price recorded on the day prior to the calculation of the net asset value. If these financial instruments are traded on several regulated markets at the same time, the closing price used is that recorded on the regulated market on which they are principally traded.

However, in the absence of significant trading on a regulated market, the following financial instruments are valued using the following methods:

- Negotiable debt securities ("NDS") with a remaining life upon acquisition that is less than or equal to three months are valued by applying the difference between the acquisition value and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life of more than three months upon acquisition but less than or equal to three months at the net asset value calculation date are valued by applying the difference between the most recent valuation and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life at the net asset value calculation date that exceeds three months are valued at their current value. The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- Financial futures traded on organized markets are valued at the clearing price on the day prior to the calculation of the net asset value. Options traded on organized markets are valued at their market price on the day prior to the calculation of the net asset value. Forward contracts and over-the-counter options are valued at the price quoted by the counterparty. The management company monitors these prices independently.
- Bank deposits are valued at their nominal value plus accrued interest.
- Warrants, short and medium-term notes (bons de caisse), promissory notes and mortgage notes are valued under the management company's responsibility at their most likely trading value.
- Securities financing transactions are valued at the market price.
- Shares and units in UCITS under French law are valued at the last known net asset value on the day the Sub-fund's net asset value is calculated.
- Shares and units in foreign investment funds are valued at the last known net asset value at the date the Sub-fund's net asset value is calculated.
- Financial instruments traded on a regulated market and for which no price has been quoted or whose price has been corrected, are valued under the management company's responsibility at their most likely trading value.
- The exchange rates used to value financial instruments denominated in a currency other than the Sub-fund's base currency are the WM / Reuters fixing rates on the day the Sub-fund's net asset value is calculated.

B. ACCOUNTING METHOD FOR TRADING EXPENSES

Trading expenses are included in the initial cost of the transaction.

C. ACCOUNTING METHOD FOR INCOME FROM FIXED-INCOME SECURITIES

Income from fixed-income securities is accounted for using the cash-basis method.

D. DISTRIBUTION POLICY

For more information see the section entitled "Calculation and appropriation of Distributable amounts"

E. ACCOUNTING CURRENCY

The Sub-fund's accounts are kept in euros

SUB-FUND NO. 23: Lyxor German Mid-Cap MDAX UCITS ETF

A SICAV SUB-FUND COMPLIANT WITH DIRECTIVE 2009/65/CE

ISIN CODES

Dist shares: FR0011857234

CLASSIFICATION

Eurozone country equities.

The Lyxor German Mid-Cap MDAX UCITS ETF sub-fund (the "Sub-fund") continuously maintains at least 60% exposure to one or more of the equity markets one or more eurozone countries, which may include France

The Sub-fund is a UCITS ETF index-tracker.

INCEPTION DATE

The Sub-fund was approved by l'autorité des Marchés Financiers (the French financial markets authority) on 23/04/2014 and will be formed on 15/05/2014.

INVESTMENT OBJECTIVE

The Sub-fund's investment objective is to replicate the performance, whether positive or negative, of the Mid Cap DAX Index (Bloomberg code: MDAX) (the "Benchmark Index"), denominated in euros (EUR), while minimizing the tracking error between the Sub-fund's performance and that of its Benchmark Index, which is representative of the 50 German mid-cap companies listed on the first segment of the Deutsche Börse.

The expected ex-post tracking error under normal market conditions is 0.08%.

BENCHMARK INDEX

The Benchmark Index is the Mid Cap DAX Index.

The Benchmark Index represents the performance of the 50 mid-cap stocks listed on the first segment of the German stock exchange (Deutsche Börse), which immediately follow the 30 stocks that comprise the DAX 30 index, in terms of market capitalisation and liquidity.

The Benchmark Index is calculated by Deutsche Börse AG

The Benchmark Index is weighted by float-adjusted market capitalization and is designed to measure the share price performance of the 50 mid-cap stocks listed on the first segment of the German stock exchange (Deutsche Börse), which have the largest float-adjusted market capitalization, after excluding the 30 stocks that comprise the DAX 30 index.

The Benchmark Index is a Net Dividends Reinvested Index, which includes the returns of index components, including dividends and other distributions, in the calculation of the index's performance.

A full description of the Benchmark Index and its construction methodology and information on the composition and respective weightings of the Benchmark Index components are available on Deutsche Börse AG's website at www.dax-indices.com

Benchmark Index composition and revision

The Benchmark Index's composition is revised annually and rebalanced quarterly.

Each index component is weighted by its float-adjusted market capitalization, with the weight of each component being capped at 10% when the index is rebalanced. The float-adjusted market capitalization is the market value of the shares issued and available for trading.

The exact composition of the Benchmark Index and Deutsche Börse AG's rules for its revision are available on its website at www.dax-indices.com.

The frequency with which the Benchmark Index is rebalanced does not affect the cost of implementing the Investment Strategy.

Benchmark Index publication

The Benchmark Index is calculated daily at the official closing price of the exchanges where the index constituents are listed.

The Benchmark Index is also calculated in real time every stock exchange trading day.

Real-time Benchmark Index values are available via Bloomberg and Reuters.

On Reuters: .MDAXI

On Bloomberg: MDAX

The Benchmark Index's closing value is available on Deutsche Börse AG's website at www.dax-indices.com.

Pursuant to Article 52 of European Parliament and Council Regulation 2016/1011 of 8 June 2016, Deutsche Börse AG, the administrator of the Mid Cap DAX benchmark index, has until 1 January 2020 to apply for approval or registration as applicable.

As of the date of the most recent version of this prospectus, the benchmark index administrator was not yet listed in ESMA's register of benchmark administrators.

Pursuant to European Parliament and Council Regulation 2016/1011 of 8 June 2016, the asset management company has a procedure for monitoring the benchmark indices used that specifies the measures to be implemented if an index is substantially modified or is no longer provided.

INVESTMENT STRATEGY

1. Strategy employed

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund will employ an indirect replication method, which means that it will enter into one or more OTC swap contracts enabling it to achieve its investment objective. These swap contracts will serve to exchange the value of the Sub-fund's assets, which will consist of cash and/or balance sheet assets (excluding any securities received as collateral), for the value of the securities that underlie the Benchmark Index.

The Sub-fund's equities will be mainly those that make up the Benchmark Index, and also other international equities, in all economic sectors and listed in all markets, including small-cap markets.

The basket of securities held may be adjusted daily such that its value will generally be at least 100% of the net assets. When necessary, this adjustment will be made to ensure that the counterparty risk arising from the aforementioned swap contract will be neutralized.

Information on the updated composition of the basket of 'balance sheet' assets in the Sub-fund's portfolio and the value of the swap contract concluded by the Sub-fund, is available on the page dedicated to the Sub-fund on Lyxor's website at www.lyxoretf.com. The frequency of any updates and/or the date on which the aforementioned information is updated is also indicated on the same page of the aforementioned website.

Up to 20% of the Sub-fund's assets may be exposed to equities issued by the same entity. This 20% limit will be checked on each rebalancing date for the Benchmark Index, by applying the method for calculating the Benchmark Index which limits exposure to the same issuing entity to 20% and where the calculation is carried out by the sponsor or agent for calculating the Benchmark Index. This 20% limit may be increased to 35% for a given issuing entity when this is shown to be justified by exceptional market conditions, in particular when certain securities are largely dominant and/or in the event of strong volatility affecting a financial instrument or securities linked to an economic sector represented in the Benchmark Index, particularly in the event of a public offering that substantially affects a Benchmark Index security or in the event of a significant drop in the liquidity of one or more of the Benchmark Index's financial instruments.

For this Sub-fund, the asset manager mainly intends to use the following assets:

2. Balance sheet assets (excluding embedded derivatives)

In accordance with regulatory ratios, the Sub-fund may invest in global equities in all economic sectors and listed on any exchange, including "small-cap" exchanges.

The aforementioned equities will be selected on the basis of the following:

- eligibility criteria and in particular:
 - their inclusion in a major stock exchange index or in the Benchmark Index
 - liquidity (must exceed a minimum daily trading volume and market capitalization)
 - credit rating of the country where the issuer has its registered office (must have a least a minimum S&P or equivalent rating)
- diversification criteria, and in particular:
 - the issuer (application of investment ratios to assets that qualify for UCITS, pursuant to Art. R214-21 of the French Monetary and Financial Code)
 - geographic
 - sector

Investors may find more information on the above eligibility and diversification criteria, and in particular the list of eligible indices, on Lyxor's website at www.lyxoretf.com.

Investment in undertakings for collective investment in transferrable securities ("UCITS") that comply with Directive 2009/65/EC is limited to 10% of the Sub-fund's net assets.

The fund manager will not invest in the shares or units of alternative investment funds (AIF) or other investment funds that were formed under a foreign law. The Sub-fund may invest in the shares of UCITS managed by the management company or by a company that is related to the management company.

When the Fund receives collateral in the form of securities, subject to the terms of section 8 below, it acquires full title to these securities and they are therefore included among the balance sheet assets to which it has full title.

To optimize the Sub-fund's management and achieve its investment objective, the asset manager reserves the right to use other financial instruments, in compliance with regulations.

3. Off-balance sheet assets (derivatives)

The Sub-fund will use OTC index-linked swaps that swap the value of the Sub-fund's assets (or the value of any other financial instrument or asset the Sub-fund may hold) for the value of the Benchmark Index (as described in part 1 of this section).

- Maximum proportion of assets under management for which total return swaps (TRS) may be entered into: 100%.
- Expected proportion of assets under management for which total return swaps (TRS) may be entered into: up to 100%.

To optimize the Sub-fund's management and achieve its investment objective, the manager reserves the right to use other financial instruments in compliance with regulations, such as derivative instruments other than index-linked swaps.

These derivative instruments (including index-linked swaps) may be transacted with Société Générale without having to seek a competitive bid from another counterparty. The Management Company therefore makes no commitment to observe a formal, traceable and verifiable competitive tendering procedure.

The counterparty of the derivative financial instruments referred to above (the “Counterparty”) will have no discretionary power over the composition of the Sub-fund’s portfolio nor over the underlying assets of the derivative financial instruments.

4. Securities with embedded derivatives

N/A.

5. Cash deposits

To optimize its cash management, the Sub-fund may deposit funds representing up to 20% of its net assets with credit institutions that belong to the same group as the depositary.

6. Cash borrowing

The Sub-fund may temporarily borrow up to 10% of its net assets.

7. Securities financing transactions

The manager shall not engage in any temporary purchases or sales of securities.

8. Collateral

Whenever the investment strategy exposes to the Sub-fund to counterparty risk, and in particular when the Sub-fund uses over-the-counter swaps, the Sub-fund may accept eligible securities as collateral to reduce the counterparty risk associated with these swaps. The portfolio of collateral received may be adjusted daily to ensure that its value is at least sufficient to cover the Sub-fund’s counterparty risk in most cases. The purpose of this adjustment is to neutralize the Sub-fund’s counterparty risk.

The Sub-fund will have full title to all collateral received, which will be deposited in the Sub-fund’s account with the depositary. This collateral will therefore be included in the Sub-fund’s assets. If a counterparty defaults on an obligation, the Sub-fund may dispose of the assets received from the counterparty in respect of the secured transaction to pay off the counterparty’s debt to the Sub-fund.

All collateral the Sub-fund receives for this purpose must comply with the applicable laws and regulations, with respect in particular to the liquidity and valuation of the collateral, the credit-worthiness of securities issuers, risk exposure correlation and the risks of collateral management and enforceability. All collateral received must in particular meet the following criteria:

- (a) All collateral must be of high quality, be highly liquid and tradable on a regulated market or on a multilateral trading facility, with transparent pricing to enable the collateral to be rapidly sold near its estimated price;
- (b) This collateral must be valued at its mark-to-market price at least daily and assets with highly volatile prices are not acceptable as collateral, unless a sufficiently prudent discount or “haircut” is applied;
- (c) The issuer of this collateral must be independent of the counterparty and must not be closely correlated with the counterparty’s financial performance;
- (d) This collateral must be sufficiently diversified by country, market and issuer, and no exposure to a single issuer may exceed 20 % of the Sub-fund’s net asset value;
- (e) The Sub-fund’s Management Company must be able to enforce this collateral in full and at any time, without having to consult with the counterparty or obtain its approval.

Notwithstanding the condition specified in (d) above, the Fund may accept a basket of securities collateral that increases its exposure to a single issuer to more than 20% of its net asset value provided that:

- such securities collateral is issued by (i) a Member State, (ii) one or more of a Member State’s local authorities, (iii) a country that is not a Member State (iv) a public international organization to which one or more Member States belong; and;
- such securities collateral consists of at least six different issues of securities of which no single issue exceeds 30% of the Sub-fund’s assets.

Subject to the above conditions, the Sub-Fund may take collateral in the following forms:

- (i) Cash and cash-equivalent assets, which for example include short-term bank deposits and balances and money-market instruments;
- (ii) Bonds issued or guaranteed by an OECD member state, or by its local government entities, or by an EU, regional or global supranational institution or organisation, or by any country provided that conditions (a) to (e) above are fully complied with;
- (iii) Shares or units issued by money-market funds that calculate a daily net asset value and have an AAA or equivalent credit rating;
- (iv) The shares or units of UCITS that invest mainly in the bonds and/or equities indicated in (v) and (vi) below;
- (v) Bonds issued or guaranteed by first-class issuers offering sufficient liquidity;
- (vi) Equities admitted for trading or traded on a regulated exchange of an EU member country, on a stock exchange of an OECD member country or on a stock exchange of another country provided that conditions (a) to (e) above are fully complied with and that these equities are components of a major index.

Collateral discount policy:

The Sub-fund's management company shall apply a discount to the collateral accepted by the Sub-fund. The amount of these discounts will depend mainly on the following:

- The nature of the collateral asset;
- The collateral's maturity (if applicable);
- The credit rating of the collateral issuer (if applicable).

Reinvestment of collateral:

Non-cash collateral will not be sold, reinvested or pledged.

At the manager's discretion, cash collateral may either be:

- (i) deposited with an authorized institution
- (ii) invested in high-quality government bonds
- (iii) used for reverse repurchase transactions, provided that these are entered into with credit institutions that are subject to prudential supervision and that the fund is able to withdraw the total amount of its cash collateral and the accrued interest at any time
- (iv) invested in short-term money market funds that meet the guidelines for a common EU definition of money market funds.

All cash collateral that is reinvested must be invested in a diversified manner in compliance with the rules that apply to the acceptance of non-cash collateral.

RISK PROFILE

Investors' money will be invested mainly in the financial instruments selected by the management company. These instruments are subject to market trends and contingencies.

Investors in the Sub-fund will mainly be exposed to the following risks:

Equity risk

The price of an equity security can increase or decrease in accordance with changes in the issuer's risk exposure or in the economic conditions of the market in which the security is traded. Equity markets are more volatile than fixed income markets, where under stable macroeconomic conditions income over a given period of time can be estimated with reasonable accuracy.

Capital risk

The capital invested is not guaranteed. Investors therefore may not recover all or part of their initial investment, particularly in the event that the Benchmark Index posts a negative return over the investment period.

Liquidity risk (primary market)

The Sub-fund's liquidity and/or value may be adversely affected if, when the Sub-fund or a counterparty to a financial derivative instrument (DFI) is rebalancing its exposure, the underlying financial markets are restricted, closed, or subject to large bid/offer spreads. An inability, due to low trading volume, to execute the trades required to replicate the Benchmark Index may also adversely affect the subscription, conversion or redemption of shares.

Liquidity risk (secondary market)

The price of the Sub-fund's listed shares or units may deviate from the Sub-fund's indicative net asset value. The liquidity of the Sub-fund's shares traded on a given exchange may be adversely affected by a suspension in trading for various reasons, such as:

- i) the calculation of the Benchmark Index is suspended or stopped
- ii) trading in the market(s) in the Benchmark Index's underlying assets is suspended
- iii) an exchange cannot obtain or calculate the Sub-fund's indicative net asset value
- iv) a market maker fails to comply with an exchange's rules
- v) an exchange's IT, electronic or other system fails.

Counterparty risk

The Sub-fund is exposed to the risk that a counterparty with which the Sub-fund has entered into a contract or transaction may go bankrupt or default on a settlement or other obligation. The Sub-fund is mainly exposed to counterparty risk resulting from the use of derivative financial instruments (DFI) traded over the counter with Société Générale or some other counterparty. In compliance with UCITS regulations, exposure to counterparty risk (whether the counterparty is Société Générale or another entity), cannot exceed 10% of the Sub-fund's total assets per counterparty.

If a counterparty defaults on an obligation the DFI contract may be terminated before maturity. The Sub-fund will do everything in its power to achieve its investment objective by, if appropriate, entering into another DFI contract with another counterparty at the market conditions at the time of such an event.

If this counterparty risk materializes it could have an impact on the Sub-fund's ability to achieve its investment objective of replicating the Benchmark Index »

When Société Générale is the DFI counterparty, conflicts of interest may arise between it and the Sub-fund's management company, which has procedures to identify and reduce such conflicts of interest and to resolve them equitably if necessary.

Risk of investing mid-cap companies:

The Sub-fund is exposed to medium-capitalization companies and more specifically to the equity securities of medium and intermediate sized enterprises, which may increase market and liquidity risks. The prices of these securities therefore increase and decrease more sharply than those of large-cap stocks. The Sub-fund's net asset value could behave similarly and therefore fall more sharply than that of a similar investment in large-capitalization equities.

Risk that the investment objective may not be fully achieved

There is no guarantee that the investment objective will be achieved, as no asset or financial instrument can ensure that the Benchmark Index will be automatically and continuously replicated, particularly in the event of one or more of the following risks

- Risk of using derivative financial instruments

In order to achieve its investment objective, the Sub-fund can enter into transactions involving over-the-counter derivative financial instruments (DFI), such as These DFI involve various risks, such as counterparty risk, hedging disruption, Benchmark Index disruption, taxation risk, regulatory risk, operational risk and liquidity risk. These risks can materially affect an DFI and may require an adjustment of the DFI transaction or even its premature termination, which could adversely affect the Sub-fund's net asset value.

- Risk due to a change in the tax regime

A change in the tax regime of a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed could adversely affect the taxation of investors. In such an event, the Sub-fund manager shall not be liable to any investor with respect to any payment that may have to be made to a competent tax authority.

- Risk of a change in the taxation of the Sub-fund's underlying assets

A change in the taxation of the Sub-fund's underlying assets could adversely affect the taxation of the Sub-fund. In such an event a discrepancy between the estimated taxation and the actual taxation of the Sub-fund and/or of the Sub-fund's DFI counterparty may adversely affect the Sub-fund's net asset value.

- Regulatory risk affecting the Sub-fund

In the event of a change in the regulatory regime in a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed, the subscription, conversion or redemption of units or shares may be adversely affected.

- Regulatory risk affecting the Sub-fund's underlying assets

In the event of a change in the regulations that govern the Sub-fund's underlying assets, the Sub-fund's net asset value and the subscription, conversion or redemption of shares may be adversely affected.

- Benchmark Index disruption risk

If an event adversely affects the Benchmark Index, the Sub-fund manager may be required, as provided for by law, to suspend the subscription and redemption of the Sub-fund's shares. The calculation of the Sub-fund's net asset value could also be adversely affected.

If the disruption of the Benchmark Index persists, the Sub-fund manager will determine an appropriate course of action, which could decrease the Sub-fund's net asset value.

A 'Benchmark Index event' includes but is not limited to the following situations:

- i) the Benchmark Index is deemed to be inaccurate or does not reflect actual market developments,
- ii) the Benchmark Index is permanently cancelled by the index provider,
- iii) the index provider is unable to indicate the level or value of the Benchmark Index,
- iv) The index provider makes a material change in the Benchmark Index calculation formula or method (other than a minor modification such as an adjustment to the Benchmark Index's underlying components or their respective weightings) which the Sub-fund cannot effectively replicate at a reasonable cost;
- v) a Benchmark Index component becomes illiquid because it is no longer traded on a regulated market or because its trading over-the-counter (e.g. bonds) is disrupted.
- vi) the Benchmark Index components are exposed to higher transaction costs for execution or settlement/delivery, or to specific tax constraints and these costs are not reflected in the Benchmark Index's performance.

- Corporate action risk

An unforeseen change, by the issuer of a security that is a component of the Benchmark Index, in a planned corporate action that is in contradiction with a previous official announcement on which the Sub-fund based its valuation of the corporate action (and/or on which the Sub-fund's counterparty to a financial derivative instrument or transaction based its valuation of the corporate action) can adversely affect the Sub-fund's net asset value, particularly if the Sub-fund's treatment of the corporate event differs from that of the Benchmark Index methodology.

- Legal risk

The Fund may be exposed to a legal risk arising from a total return swap (TRS) agreement as indicated in EU Regulation No. 2015/2365.

ELIGIBLE INVESTORS AND TYPICAL INVESTOR PROFILE

The Sub-fund is available to all investors.

An investor in the Sub-fund is seeking exposure to the equities of German mid-cap companies.

The amount that can be reasonably invested in the Sub-fund depends on each investor's personal situation. To determine this amount, investors must take into account their personal wealth and/or estate, their cash requirements currently and for the next five years, and their willingness to take on risk or their preference for more prudent investment. Investors are also advised to diversify their investments sufficiently so as not to be exposed solely to this Sub-fund's risks.

All investors are therefore asked to consider their specific situation with the help of their usual investment advisor.

The recommended minimum investment period is at least five years.

CALCULATION AND APPROPRIATION OF DISTRIBUTABLE AMOUNTS

D-EUR share class: The management company reserves the right to distribute distributable amounts one or more times a year and/or accumulate all or part of these amounts. Realized net capital gains will be accumulated.

DISTRIBUTION FREQUENCY

If a distribution is decided, the management company reserves the right to distribute distributable amounts in one or more distributions per annum.

SHARE CHARACTERISTICS

Subscription orders may be placed for a specific monetary amount or for a whole number of shares.
Only a whole number of shares may be redeemed.

CURRENCY

Dist shares
Euro

SUBSCRIPTION AND REDEMPTION

1. SUBSCRIPTION AND REDEMPTION ON THE PRIMARY MARKET

Subscription/redemption requests for shares in the Sub-fund will be processed by the Depositary from 10:00 am and 5.00 pm (Paris time), every day that the Sub-fund's net asset value is to be published, provided that prices can be quoted for a significant proportion of the Benchmark Index components (hereinafter a "Primary Market Day"), and will be executed at the net asset value on that Primary Market Day, hereinafter the "reference NAV". Subscription/redemption requests submitted after 5.00 pm (Paris time) on a Primary Market Day will be processed as if received from 10:00 am to 5.00 pm (Paris time) on the following Primary Market Day. Orders to subscribe for or redeem shares in the Sub-fund must be made for an exact number of whole shares that corresponds to a minimum amount of at least 100,000 euros.

Subscriptions and redemptions in cash

Subscriptions and redemptions shall be made exclusively in cash and executed at the ref NAV.

Delivery and settlement

A subscription or redemption will be delivered and settled within five French business days after reception of the subscription or redemption order.

Date and frequency of net asset value calculation

The net asset value will be calculated and published daily, provided that at least one exchange on which the Sub-fund's shares are listed is open and that orders placed in the primary and secondary markets can be funded.

The Sub-fund's net asset value is calculated using the Benchmark Index's closing price. The Sub-fund's net asset value is denominated in EUR.

The net asset value of a share class that is denominated in another currency than the Sub-fund's accounting currency (if applicable) is calculated using the exchange rate between the accounting currency and the currency of the share class, at the applicable WM Reuters rate on the date the reference NAV is calculated.

2. PURCHASES AND SALES ON THE SECONDARY MARKET

A. COMMON PROVISIONS

For any purchase or sale of shares in the Sub-fund made directly on an exchange on which the Sub-fund is admitted or will be admitted for continuous trading, no minimum purchase or sale amount is required other than that which may be required by the relevant exchange(s).

Shares in a listed Sub-fund acquired on the secondary market cannot generally be directly resold to the Sub-fund. Investors must therefore buy and sell their shares or units on a secondary market through an intermediary (e.g. a broker) and may consequently incur costs. Furthermore, there is a possibility that investors may pay more than the indicative net asset value when buying shares or units and receive less than the indicative net asset value when selling shares or units.

If the stock market value of a listed fund's shares or units differs significantly from their indicative net asset value, or if trading in the fund's shares or units is suspended, investors may be authorized, subject to the conditions set forth below, to redeem their shares on the primary market directly from the fund, without being subject to the minimum redemption amount requirement set forth herein in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)".

The management company shall decide whether to allow such primary market redemptions and for how long, on the basis of the following criteria for assessing the significance of a market disruption:

- The suspension or strong disturbance of secondary trading on a given exchange is relatively frequent
- The link between the market disruption and secondary market operators (such as the default of one or more of the Market Makers of a given exchange, or a breakdown or malfunction of an exchange's IT or operating systems), excluding a disruption caused by a source external to the secondary exchange on which the shares or units of the fund are traded, such as an event that affects the liquidity and valuation of all or some of the Benchmark Index's components
- Any other objective circumstance that could adversely affect the fair treatment and/or the interests of the Sub-fund's share-holders.

Notwithstanding the provisions concerning fees presented in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)", redemptions made in the primary market in this case shall only be subject to a net redemption fee of 0.5% paid to the Sub-fund and which serves to cover its trading costs.

In such exceptional cases when redemption in the primary market is allowed, the Management Company shall post on Lyxor's website at www.lyxor.etf.com the procedure that investors must observe to redeem their shares or units in the primary market. The Management Company shall also make this procedure available to the market undertaking that handles trading in the Sub-fund's shares.

B. SPECIFIC PROVISIONS

- a) If shares have listed on Euronext Paris, as indicated in the "Key Information" part of the "General Characteristics" section of the Fund's prospectus, investors should note the following rules

Negotiability of shares and information about the financial institutions acting as Market Makers:

The Sub-fund's share are freely negotiable on Euronext Paris under the following conditions and in compliance with the applicable laws and regulations.

The Sub-fund shares will be listed on a specific trading list, the rules of which are set forth in the following instructions published by Euronext Paris SA:

- Instruction No. 4-01 " Universal Trading Platform Manual"
- Appendix to Instruction N4-01 (Appendix to the Euronext Market Trading Manual)
- Instruction No. 6-04 "Documentation to be provided when filing a listing application for an ETF, ETN, ETV and open-ended undertakings for collective investment other than ETFs"

Pursuant to article D 214-22-1 of the French Monetary and Financial Code the shares or units of undertakings for collective investments in transferable securities may be admitted to trading, provided that these undertakings have a system to ensure that the market price of their shares or units does not differ significantly from their net asset value. Under Euronext's rules trading in the Sub-fund's shares is also subject to a 'reservation threshold' of 1.5% above or below the Sub-fund's indicative net asset value or "iNAV" (see the "Indicative Net Asset Value" section), as published by Euronext Paris SA and updated on an estimated basis during trading in accordance with the change in the Index.

To comply with Euronext Paris SA's reservation threshold (see the section entitled "Indicative net asset value") the Market Makers will ensure that the market price of the Sub-fund's shares does not differ from the Sub-fund's indicative Net Asset Value by more than 1.5%.

Euronext Paris may suspend trading in the Sub-fund's shares pursuant to the terms of its operating rules, if the aforementioned reservation threshold limit is exceeded.

Euronext Paris will also suspend trading in the Sub-fund's shares in the following cases:

- the Benchmark Index is no longer traded or calculated
- Euronext Paris cannot obtain the Benchmark Index's level
- Euronext Paris cannot obtain the Sub-fund's net asset value.

In accordance with the terms and conditions governing admission to trading on the Euronext Paris exchange, the Market Makers undertake to provide market-making services for the Sub-fund's shares as soon as they are admitted to trading on the Euronext Paris exchange.

In particular, the Market Makers undertake to carry out market-making operations by maintaining a significant presence in the market, which initially entails the setting of a bid/ask spread.

More specifically, the Market Makers are required by contract with Euronext Paris to ensure that the Sub-fund maintains:

- a maximum global spread of 1.5% between the bid and offer price in the centralized order book.
- minimum nominal trading value of EUR 100,000.

The obligations of the Sub-fund's Market Makers will be suspended in the following cases:

the Benchmark Index is no longer traded or calculated;

if trading is substantially disrupted, for example due to a widespread shift in prices or an event that makes normal market making impossible.

Indicative Net Asset Value

Euronext Paris will calculate and publish, each Trading Day (as defined below) and during trading hours, the Sub-fund's indicative net asset value (hereinafter the "iNAV"). The iNAV is a measure of the intra-day value of the Sub-fund's net asset value based on the most recent data. The iNAV is not the value at which investors buy and sell shares in the Sub-fund on the secondary market.

A "Trading Day" is a day on which NSYE Euronext is normally open and on which the Benchmark Index is normally published.

The Sub-fund's iNAV is a theoretical net asset value calculated every 15 seconds by Euronext SA throughout the Paris trading day and is based on the level of the Benchmark Index. The iNAV enables investors to compare the prices that the Market Makers offer on the market with the theoretical value calculated by Euronext.

The iNAV will be calculated every day that the net asset value is calculated and published.

To calculate the Sub-fund's iNAV throughout the Paris trading session (from 9.05 am to 5.35 pm), Euronext Paris will use the Benchmark Index value and the corresponding exchange rate provided by Reuters.

The share prices of the stocks that make up the Benchmark Index and which are used to calculate the value of the Benchmark Index and therefore to determine the iNAV are provided directly to Reuters by the U.S. exchange where the stocks are listed.

If one or more stock exchanges on which the Benchmark Index's constituent equities are listed are closed (on a public holiday as indicated on the TARGET calendar) or if the EUR/USD exchange rate is unavailable and if the iNAV cannot be calculated, trading in the Sub-fund's shares may be suspended.

Lyxor International Asset Management, the Sub-fund's management company, will provide Euronext Paris with all the financial and accounting data it needs to calculate the Sub-fund's iNAV and in particular:

- The day's estimated net asset value
- The official net asset value of the previous business day
- The level of the Benchmark Index on the previous business day.

These data will serve as a basis for Euronext Paris SA's calculations to determine the Sub-fund's iNAV in real time the following Trading Day.

Additional information about the indicative net asset value of a share listed on an exchange may, in accordance with the terms and limits set by the relevant market undertaking, be provided on this exchange's website. This information is also available on the Reuters or Bloomberg pages dedicated to the particular share. Additional information about Bloomberg and Reuters codes corresponding to the indicative net asset value of UCITS ETF type shares is also available in the "Term Sheets" section of Lyxor's website at www.lyxoretf.com.

b) If the Sub-fund's shares are listed on an exchange other than Euronext Paris, as indicated in the "Key Information" section, investors should note the following

Investors wishing to acquire shares in the Sub-fund or obtain more information regarding the market-making terms that govern the listing and trading of shares on the types of exchanges indicated in the "Key Information" section are advised to familiarise themselves with the guidelines laid down by the relevant market undertaking, in compliance with local regulations, and to seek if necessary the assistance of their usual broker(s) for executing trades on the relevant exchange(s).

FEES AND CHARGES

SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)

The subscription and redemption fees shown below respectively increase the subscription price paid by the investor and decrease the redemption price received. Fees kept by the Sub-fund compensate it for the expenses it incurs in investing in the Sub-fund's assets or in divesting these assets. Any fees that are not kept by the Sub-fund are paid to the management company, marketing agent or other service provider.

Fees paid by investors upon subscription or redemption	Base	Maximum charge
Subscription fee not kept by the Sub-fund	NAV per share × number of shares	The higher value of either EUR 50,000 per subscription order or 5% payable to third parties
Subscription fee kept by the Sub-fund	NAV per share × number of shares	N/A
Redemption fee not kept by the Sub-fund	NAV per share × number of shares	The higher value of either EUR 50,000 per redemption order or 5% payable to third parties
Redemption fee kept by the Sub-fund	NAV per share × number of shares	N/A

OPERATIONAL AND MANAGEMENT FEES

These fees cover all the costs invoiced directly to the Sub-fund, except for transaction expenses, which include intermediary fees (brokerage, stock market taxes etc.) and any account activity charge that may be charged, for example, by the depositary or the management company.

For the Sub-fund the following fees may be charged in addition to the operating and management fees (see table below):

- incentive fees, which the Sub-fund pays to the asset management company when the Sub-fund exceeds its objectives;
- account activity charges charged to the Sub-fund.

For more information on the fees charged to the Sub-fund, see the Statistics section of the Key Investor Information Document (KIID).

Fees charged to the Sub-fund	Base	Maximum charge
Investment management fees and administration fees that are external to the management company (auditor, depositary, fund distribution and legal fees) including tax ⁽¹⁾	Net asset value	0.42% per annum
Incentive fee	Net asset value	N/A
Account activity charge:	Charge on each transaction	N/A

⁽¹⁾ Includes all fees and expenses except for transaction expenses, incentive fees and fees associated with investment in UCITS.

COMMERCIAL INFORMATION

Distribution of this prospectus and the offering or purchase of the Fund's share classes may be subject to restrictions with regard to certain persons or in certain countries by virtue of national regulations applying to these persons or countries. Investors are therefore responsible for ensuring that they are authorized to subscribe to or invest in this Fund. The information in this prospectus therefore cannot be construed to be an offer or solicitation to buy or sell shares in this Fund in a country where such offer or solicitation is unlawful.

The Fund's share classes will not be registered pursuant to the U.S. Securities Act of 1933, as amended (the "U.S. Securities Act") and cannot be offered, assigned, transferred or allocated to the United States of America, or to:

- (A) any "U.S. Person", as this term is defined (i) under Regulation S of the US Securities Act of 1933 and (ii) under U.S. regulations as defined in Section 7701 (a) (30) of the Internal Revenue Code of 1986 as amended. The Fund's shares will not be offered to U.S. Persons.
- (B) anyone other than those persons considered to be "non-US Persons" as this term is defined under U.S. regulations pursuant to the Commodity Futures Trading Commission, Rule 4.7 (a) (1) (iv).

The Fund's shares will only be offered for sale outside of the United States of America to non-U.S. Persons.

For the purpose of this document, the term "U.S. Person" shall mean, among other things, any individual who resides in the United States of America, any entity organized or formed under the laws of the United States of America, certain entities organized or formed outside of the United States of America by one or more U.S. persons, or any account held on behalf of such a U.S. person.

Under the German tax act on investment funds (InvStG-E), the Sub-fund is a "mutual fund" and must comply with the criteria that apply to "equity funds". As such, the Sub-fund will hold a basket of securities that are eligible for the equity ratio as this term is defined under said German tax act, and which will represent at least 94% of its net assets under normal market conditions. To ensure compliance with this ratio, the Sub-fund may adjust this basket of securities on a daily basis.

Before making an investment in this Fund or Sub-fund, investors should seek the advice of their financial, tax and legal advisers.

PLACE AND METHOD OF NET ASSET VALUE PUBLICATION OR COMMUNICATION

At the head office of LYXOR INTERNATIONAL ASSET MANAGEMENT, at 17, cours Valmy - 92987 Paris La Défense CEDEX - France.

The Sub-fund's net asset value will be calculated and published by Euronext Paris SA on each Paris Trading Day, during trading hours.

IMPORTANT INFORMATION ABOUT THE INDEX PROVIDER

This financial instrument is not sponsored, recommended, distributed or otherwise supported by Deutsche Börse AG (the "Licensor"). The Licensor grants no guarantee and issues no statement, whether explicit or implicit, regarding the results arising from use of the index and/or the index's registered trademark, or the value of the index at any given time or date, or regarding any other matter. The Index is calculated and published by the Licensor. However, within the limits of the law, the Licensor shall not be liable to all and any third parties in the event of potential errors in the Index. Moreover, the Licensor is under no obligation to report potential errors in the Index to any third parties, including investors.

Neither the publication of the Index by the Licensor, nor the license granted for the Index and its registered trademark for use with the financial instrument or other securities or financial products arising from the index amount to a recommendation by the Licensor for capital investment, nor do they carry, in any way, a guarantee or opinion from the Licensor concerning the advisability of investing in this product.

In its capacity as sole holder of all the rights relating to the Index and the Index's registered trademark, the Licensor has only granted to the financial instrument's issuer the right to use the Index and the Index's registered trademark, together with all and any reference to the Index and its registered trademark in relation to the financial instrument.

ADDITIONAL INFORMATION

The Sub-fund's shares are approved for clearing by Euroclear France S.A.

Subscription and redemption orders are sent by the investors' financial intermediaries (members of Euroclear France SA) to the Depositary.

The Sub-fund's prospectus, the Key Investor Information Document, the most recent annual documents and the asset inventory will be sent to investors within eight business days upon receipt of a written request addressed to:

LYXOR INTERNATIONAL ASSET MANAGEMENT
17 Cours Valmy - 92987 Paris La Défense France.

E-mail: contact@lyxor.com

More information can also be requested from Lyxor International Asset Management on its website at www.lyxoretf.com.

Prospectus publication date: See the "Publication Date" section.

Pursuant to Article L.533-22-1 of the French Monetary and Financial Code, information concerning the management company's possible inclusion of social, environmental and corporate governance objectives and performance criteria in the investment policy is available on the management company's website and in the Sub-fund's annual report.

The AMF's website (www.amf-france.org) provides more information on the regulatory documents and various provisions that concern investor protection. This Prospectus shall be made available to investors prior to subscription.

INVESTMENT RULES

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

The Sub-fund may invest in the assets specified in Article L214-20 of the French Monetary and Financial Code, subject to the risk-diversification and investment ratio requirements of Articles R214-21 to R214-27 of said Code.

Notwithstanding the 10% limit under Paragraph II of Article R214-21 of the French Monetary and Financial Code, the Fund may invest up to 20% of its assets in the equities and debt securities of a single issuer, in compliance with Article R214-22-I, which deals with index-tracking funds. Pursuant to Article R214-22 II, the Sub-fund may also increase this 20% limit for a single issuer to 35%, when this is justified by exceptional market conditions, and in particular when certain securities are largely dominant

OVERALL RISK EXPOSURE

The commitment approach is used to calculate the overall risk exposure.

ASSET VALUATION AND ACCOUNTING RULES

A. VALUATION RULES

The Sub-fund's assets are valued in accordance with applicable laws and regulations and most notably Regulation No. 2014-01 of 14 January 2014 of the Comité de la Réglementation Comptable (the Accounting Regulations Committee), which applies to the chart of accounts for undertakings for collective investment in transferable securities.

Financial instruments traded on a regulated market are valued at the closing price recorded on the day prior to the calculation of the net asset value. If these financial instruments are traded on several regulated markets at the same time, the closing price used is that recorded on the regulated market on which they are principally traded.

However, in the absence of significant trading on a regulated market, the following financial instruments are valued using the following methods:

- Negotiable debt securities ("NDS") with a remaining life upon acquisition that is less than or equal to three months are valued by applying the difference between the acquisition value and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life of more than three months upon acquisition but less than or equal to three months at the net asset value calculation date are valued by applying the difference between the most recent valuation and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life at the net asset value calculation date that exceeds three months are valued at their current value. The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- Financial futures traded on organized markets are valued at the clearing price on the day prior to the calculation of the net asset value. Options traded on organized markets are valued at their market price on the day prior to the calculation of the net asset value. Forward contracts and over-the-counter options are valued at the price quoted by the counterparty. The management company monitors these prices independently.
- Bank deposits are valued at their nominal value plus accrued interest.
- Warrants, short and medium-term notes (bons de caisse), promissory notes and mortgage notes are valued under the management company's responsibility at their most likely trading value.
- Securities financing transactions are valued at the market price.
- Shares and units in UCITS under French law are valued at the last known net asset value on the day the Sub-fund's net asset value is calculated.
- Shares and units in foreign investment funds are valued at the last known net asset value at the date the Sub-fund's net asset value is calculated.
- Financial instruments traded on a regulated market and for which no price has been quoted or whose price has been corrected, are valued under the management company's responsibility at their most likely trading value.
- The exchange rates used to value financial instruments denominated in a currency other than the Sub-fund's base currency are the WM / Reuters fixing rates on the day the Sub-fund's net asset value is calculated.

B. ACCOUNTING METHOD FOR TRADING EXPENSES

Trading expenses are included in the initial cost of the transaction.

C. ACCOUNTING METHOD FOR INCOME FROM FIXED-INCOME SECURITIES

Income from fixed-income securities is accounted for using the cash-basis method.

D. DISTRIBUTION POLICY

For more information see the section entitled "Calculation and appropriation of Distributable amounts"

E. ACCOUNTING CURRENCY

The Fund's accounts are kept in euros.

SUB-FUND NO. 24: Lyxor Fortune SG MSCI China A (DR) UCITS ETF

A SICAV SUB-FUND COMPLIANT WITH DIRECTIVE 2009/65/CE

ISIN CODES:

Acc share class: FR0011720911
C-RMB share class: FR0011720937

CLASSIFICATION

Global equities.

The Lyxor Fortune SG MSCI China A (DR) UCITS ETF fund (the “**Sub-fund**”) is continuously at least 60% exposed to a foreign equity market or to the equity markets or two or more countries, which may include the French market.

The Sub-fund is a UCITS ETF index-tracker.

INCEPTION DATE

The Sub-fund was approved by l’Autorité des Marchés Financiers on 07/05/2014 and was established on 28/08/2014.

DELEGATED ASSET MANAGER

Fortune SG Asset Management (Hong Kong) Co., Limited has a “Type 9” license to manage assets in Hong Kong. It is domiciled at 19/F Three Pacific Place, 1 Queen’s Road East, Hong Kong.

The delegated asset manager has a Renminbi Qualified Foreign Institutional Investor (RQFII) license and has been granted a quota of “A share” investments for the Sub-fund.

INVESTMENT OBJECTIVE

The Sub-fund’s investment objective is to replicate the performance, whether positive or negative, of the MSCI China A Onshore Net Total Return index (the “**Benchmark Index**”), denominated in onshore RMB (CNY), whether positive or negative, while minimizing the tracking error between the Sub-fund’s performance and that of its Benchmark Index.

The expected ex-post tracking error under normal market conditions is 2%.

Investors’ attention is drawn to the risks incurred specifically from investing in the People’s Republic of China (PRC), as described in greater detail in the Risk Profile section below.

It should in particular be noted that there are some uncertainties as to the capital gains on the sale of "A-shares". On 14 November 2014, the PRC Ministry of Finance and tax authority issued circulars to clarify the tax treatment of share sales. These circulars specify in particular that:

- Capital gains on sales before 17 November 2014 are taxable.
- Capital gains on sales after 17 November 2014 are temporarily tax exempt.

Since the PRC tax authority has not made a definitive pronouncement on how the tax would be calculated or collected, nor on the duration of the exemption, investors should note that:

- a) the Sub-fund’s Net Asset Value may be adversely affected by a change in PRC tax rules
- b) the adverse impact on the Sub-fund’s performance resulting from a change in PRC tax rules will depend on the date the Sub-fund’s shares are bought or sold
- c) the magnitude of this adverse impact on the Sub-fund’s performance may not be proportional to the number of shares that an investor holds in the Sub-fund if tax obligations in PRC are amended retroactively and, in certain circumstances, could amount to 100% of the Net Asset Value of a given share class.

The investor is therefore urged to refer to the “**Taxation in the PRC**” section below for more detailed information.

BENCHMARK INDEX

The MSCI China A Onshore Net Total Return index is the Benchmark Index. It is a capitalization-weighted index that tracks the performance of “A-Shares” (which are shares in companies formed in the People’s Republic of China, excluding Hong Kong (hereinafter “PRC”), which are listed on the Shanghai and Shenzhen exchanges and traded in Chinese yuan (“CNY”). The Benchmark Index is composed of medium and large-sized companies that represent 85% of the PRC universe of investable equities, in terms of free-float market capitalization. On 31 October 2013 the index was composed of 464 shares.

The MSCI China A Onshore Net Total Return Index is a capitalization-weighted index, which means that the weight of each index constituent is proportional to its free-float market capitalization.

The Benchmark Index is a “Total Return” index (i.e. the dividends from the Benchmark Index constituents are reinvested).

A full description of the Benchmark Index and its construction methodology and information on the composition and respective weightings of the Benchmark Index constituents are available on the Internet at http://www.msci.com/products/indices/country_andRegional/domestic_equity_indices/china/

Benchmark Index composition and revision

The composition of the Benchmark Index is revised every six months, using the methodology described in the Benchmark Index's Rulebook, available on MSCI's website at:
http://www.msci.com/products/indices/country_andRegional/domestic_equity_indices/china/.

The frequency with which the Benchmark Index is rebalanced does not affect the cost of implementing the Investment Strategy.

Benchmark Index publication:

The Benchmark Index available in real time through Reuters and Bloomberg.

In CNY:

On Reuters: .MICNA0000NCN
On Bloomberg: M7CN1A

In USD:

On Reuters: .MDCNA0000GUS
On Bloomberg: MBCN1A

The Benchmark Index's closing price is available on the Internet at <http://www.msci.com>.

Pursuant to Article 52 of European Parliament and Council Regulation 2016/1011 of 8 June 2016, MSCI, the administrator of the MSCI China A Onshore Net Total Return benchmark index, has until 1 January 2020 to apply for approval or registration as applicable.

As of the date of the most recent version of this prospectus, the benchmark index administrator was not yet listed in ESMA's register of benchmark administrators.

Pursuant to European Parliament and Council Regulation 2016/1011 of 8 June 2016, the asset management company has a procedure for monitoring the benchmark indices used that specifies the measures to be implemented if an index is substantially modified or is no longer provided.

INVESTMENT STRATEGY

1. Strategy employed

The Sub-fund will comply with the investment rules of European Directive 2009/65/EC of 13 July 2009.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund will employ a direct replication method, which means that the Sub-fund will mainly invest in the actions that underlie the Benchmark Index.

In order to optimize the direct replication method that is used to track the Benchmark Index, the Sub-fund, represented by its delegated asset manager, may decide to employ a "sampling" technique that consists in investing in a selection of representative Benchmark Index constituents in order to reduce the costs of investing directly in all of the various Benchmark Index constituents and/or to reduce the operational constraints of investing in the various Benchmark Index constituents. This sampling technique could cause the Sub-fund to invest in a selection of representative Benchmark Index securities (and not in all of them) in proportions that do not reflect their weight within the Benchmark Index, and even to invest in securities that are not constituents of the Benchmark Index.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund may also, on an ancillary basis, engage in transactions involving derivative financial instruments (DFI). These transactions could for example be futures contracts on indices and/or swaps for hedging purposes and in particular to minimise the Sub-fund's tracking error.

To ensure transparency on the use of the direct index replication method (i.e. either full replication of the Benchmark Index or sampling to limit replication costs) and on its consequences in terms of the assets in the Sub-fund's portfolio, information on the updated composition of the basket of 'balance sheet' assets in the Sub-fund's portfolio is available on the page dedicated to the Sub-fund accessible on Lyxor's website at www.lyxoretf.com. The frequency of any updates and/or the date on which the aforementioned information is updated is also indicated on the same page of the aforementioned website.

Up to 20% of the Sub-fund's assets may be exposed to equities issued by the same entity. This 20% limit may be increased to 35% for a given issuing entity when this is justified by exceptional market conditions and in particular when certain securities are largely dominant and/or in the event of strong volatility that affects a financial instrument or securities linked to an economic sector represented in the Benchmark Index, particularly in the event of a public offering that substantially affects a Benchmark Index security or in the event of a significant drop in the liquidity of one or more of the Benchmark Index's financial instruments.

Investors should also note that the Sub-fund's delegated asset manager is a Renminbi Qualified Foreign Institutional Investor (hereinafter "RQFII") and has a license as such (an "RFQII License") that is valid in the People's Republic of China ("PRC") and is allotted a RQFII quota specifically for the Sub-fund's investments (the "Quota") that will enable this asset manager, acting in the Sub-fund's name and on its behalf, to implement the aforementioned Invested Strategy. More specifically, and subject to the risks indicated in the Risk Profile section below, the aforementioned RQFII License and Quota will enable the delegated asset manager to:

- Invest in A-shares, in the Sub-fund's name and on its behalf, subject to the terms and within the limits of the License and Quota, with no minimum holding period requirement
- Repatriate into and out of PRC the amount of funds the Sub-fund needs to buy or sell A-shares, every business day in PRC and effect any foreign exchange transactions that are required to convert funds in RMB into the currency of the relevant share class.

In order to implement the investment strategy described above, the Sub-fund's asset manager by delegation may also invest in A-shares via the "Shanghai Hong-Kong Stock Connect", the common trading platform set up on 17 November 2014 between the Hong-Kong and Shanghai stock exchanges. The Shanghai Hong-Kong Stock Connect enables investors outside of PRC to invest in A-shares traded on the Shanghai exchange, without necessarily having to have an RQFII License and Quota.

Investors may obtain more information on the terms that govern the delegated asset manager's transactions in Chinese A-shares, under the RQFII License and Quota, and/or under the rules of the Shanghai Hong-Kong Stock Connect, upon written request to the Management Company.

2. Balance sheet assets (excluding embedded derivatives)

The Sub-fund may invest in international stocks, in any economic sector and listed on any exchange, in compliance with regulatory ratios.

Investment in undertakings for collective investment in transferrable securities ("UCITS") that comply with Directive 2009/65/EC is limited to 10% of the Sub-fund's net assets. The Sub-fund may invest in the units or shares of investment funds managed by its asset manager or by a company related thereto. The fund manager will not invest in the shares or units of alternative investment funds (AIF) or other investment funds that were formed under a foreign law.

To optimize the Sub-fund's management and achieve its investment objective, the asset manager reserves the right to use other financial instruments, in compliance with regulations.

3. Off-balance sheet assets (derivatives)

The Sub-fund will not invest in derivatives, except on an ancillary basis and within regulatory limits, futures contracts on indices or on bonds listed on a regulated market.

If over-the-counter derivatives are used, in accordance with its best-execution policy the management company considers that Société Générale would be the counterparty that would generally provide the best possible execution for any hedging transactions the Sub-fund may enter into pursuant to its investment strategy. Accordingly, all or some of these derivatives (including index-linked swaps) may be traded with Société Générale without having to seek a competitive bid from another counterparty.

4. Off-balance sheet assets (derivatives)

N/A.

5. Cash deposits

To optimize its cash management, the Sub-fund may deposit funds representing up to 20% of its net assets with credit institutions that belong to the same group as the depositary.

6. Cash borrowing

The Sub-fund may temporarily borrow up to 10 % of its net assets.

7. Securities financing transactions

7.1. Securities financing transactions

The Sub-fund may use various techniques to manage its portfolio efficiently in compliance with Article R214-18 of the French monetary and financial code, including the temporary sale and repurchase of securities.

Maximum proportion of assets under management for which securities financing transactions may be entered into: up to 20% of the Sub-fund's assets.
Expected proportion of assets under management for which securities financing transactions may be entered into: 0% of the Sub-fund's assets.

For this purpose the management company may appoint an intermediary (hereinafter the "Agent) to provide the following services in connection with the Sub-fund's temporary disposals of securities. If such an Agent is used it may be authorised to (i) lend securities, on the Sub-fund's behalf, under framework agreements, such as global master securities lending agreements (GMSLA) and/or any other internationally recognised framework agreement, and (ii) invest, on the Sub-fund's behalf, any liquid assets received as collateral for these securities lending transactions, subject to the restrictions specified in the securities lending agreement, the rules of this prospectus and the applicable regulations.

The Sub-fund shall be entitled to all income from such temporary disposal of securities, net of any direct and indirect operating costs.
These operating costs, which are incurred to manage the portfolio more efficiently, may be borne by the Sub-fund's management company, the Agent and/or other intermediaries that are involved in these transactions.
These direct and indirect operating costs will be calculated as a percentage of the Sub-fund's gross income. More information on these operating costs and on the entities to which these costs are paid will be provided in the Sub-fund's annual report.

All income obtained from the lending of securities (from which must be deducted all direct and indirect operating costs borne by the Agent and if applicable by the management company) shall be paid to the relevant Sub-fund. Since these direct and indirect costs do not increase the Sub-fund's overall operating expenses they have been excluded from ongoing expenses.

The Sub-fund's annual report will provide the following information when applicable:

- the exposure resulting from the use of efficient portfolio management techniques/transactions
- the identity of the counterparty(ies) involved in these transactions
- the nature and amount of any collateral received to reduce the Sub-fund's counterparty risk, and;
- the income generated by efficient portfolio management techniques over the relevant period, and any associated direct and indirect operating costs or expenses.

8. Collateral

Whenever the investment strategy exposes the Sub-fund to counterparty risk, and in particular when the Sub-fund engages in securities financing transactions, the Sub-fund may accept eligible securities as collateral to reduce the counterparty risk associated with these transactions. The portfolio of collateral received may be adjusted daily to ensure that its value is at least sufficient to cover the Sub-fund's counterparty risk in most cases. The purpose of this adjustment is to neutralize the Sub-fund's counterparty risk.

The Sub-fund will have full title to all collateral received, which will be deposited in the Sub-fund's account with the depositary. This collateral will therefore be included in the Sub-fund's assets. If a counterparty defaults on an obligation, the Sub-fund may dispose of the assets received from the counterparty in respect of the secured transaction to pay off the the counterparty's debt to the Sub-fund.

All collateral the Sub-fund receives for this purpose must comply with the applicable laws and regulations, with respect in particular to liquidity, valuation, the credit-worthiness of securities issuers, correlation, and the risks of collateral management and enforceability. All collateral received must in particular meet the following criteria:

- (a) All collateral must be of high quality, be highly liquid and tradable on a regulated market or on a multilateral trading facility, with transparent pricing to enable the collateral to be rapidly sold near its estimated price
- (b) This collateral must be valued at its mark-to-market price at least daily and assets with highly volatile prices are not acceptable as collateral, unless a sufficiently prudent discount or "haircut" is applied;
- (c) The issuer of this collateral must be independent of the counterparty and must not be closely correlated with the counterparty's financial performance;
- (d) Collateral must be sufficiently diversified in terms of country, market and issuer, with exposure to any single issuer not exceeding 20% of the Sub-fund's net asset value ;
- (e) Collateral must be immediately enforceable by the Sub-fund's management company without informing the counterparty and without its approval.

Notwithstanding the condition specified in (d) above, the Sub-fund may accept a basket of securities collateral that increases its exposure to a single issuer to more than 20% of its net asset value provided that:

- such securities collateral is issued by (i) a Member State, (ii) one or more of a Member State's local authorities, (iii) a country that is not a Member State (iv) a public international organisation to which one or more Member States belong; and;
- such securities collateral consists of at least six different issues of securities of which no single issue exceeds 30% of the Sub-fund's assets.

In accordance with the above conditions the collateral the Sub-fund accepts may consist of:

- (i) Cash and cash-equivalent assets, which for example include short-term bank deposits and balances and money-market instruments
- (ii) Bonds issued or guaranteed by an OECD member state, or by its local government entities, or by an EU, regional or global supranational institution or organisation, or by any country provided that conditions (a) to (e) above are fully complied with
- (iii) Shares or units issued by money-market funds that calculate a daily net asset value and have an AAA or equivalent credit rating
- (iv) The shares or units of UCITS that invest mainly in the bonds and/or equities indicated in (v) and (vi) below
- (v) Bonds issued or guaranteed by first-class issuers offering sufficient liquidity
- (vi) Equities admitted for trading or traded on a regulated exchange of an EU member country, on a stock exchange of an OECD member country or on a stock exchange of another country provided that conditions (a) to (e) above are fully complied with and that these equities are components of a major index.

Collateral discount policy

The Sub-fund's management company shall apply a discount to the collateral the Sub-fund accepts. The amount of these discounts will depend mainly on the following:

- the nature of the collateral asset
- the collateral's maturity (if applicable)
- the credit rating of the collateral issuer (if applicable).

Reinvestment of collateral

Non-cash collateral will not be sold, reinvested or pledged.

At the manager's discretion, cash collateral may either be:

- deposited with an authorised institution
- invested in high-quality government bonds
- used for reverse repurchase transactions, provided that these are entered into with credit institutions that are subject to prudential supervision and that the fund is able to withdraw the total amount of its cash collateral and the accrued interest at any time.
- invested in short-term money-market funds as defined in the guidelines for a common definition of European money-market funds.

All cash collateral that is reinvested must be invested in a diversified manner in compliance with the rules that apply to the acceptance of non-cash collateral.

RISK PROFILE

Investors' money will be invested mainly in the financial instruments selected by the asset manager. These instruments are subject to market trends and contingencies.

Investors in the Sub-fund will mainly be exposed to the following risks:

Specific risk of investing in the People's Republic of China:

Investors in the Sub-fund should be aware of the following risks inherent to investments in the People's Republic of China (PRC):

- RQFII risk

The Sub-fund's capacity to achieve its investment objective depends among other things on the RQFII quota it is allotted. If the Sub-fund's RQFII quota is too small this could adversely affect the Sub-fund's operation. PRC regulations governing RQFII status may also be amended at any time by the China Securities Regulatory Commission (**CSRC**) and/or, with respect to foreign exchange, by the State Administration of Foreign Exchange ("SAFE") bureau, which could adversely affect the Sub-fund's capacity to achieve its investment objective and result in its dissolution. In particular, RQFII status means that any increase in the investment quota is subject to SAFE's authorization. If the Sub-fund wishes to increase its quota it may take quite a long time to obtain SAFE's approval. Any restriction on the quota that the Sub-fund has been granted may affect its investments. Such a restriction may therefore affect the trading of the Sub-fund's shares on an exchange, which could, in such circumstances and depending on the exchange's rules, trade at more than their Net Asset Value. Lastly, if the delegated asset manager loses its RQFII license, if the RQFII quota is reduced, or if RQFII requirements are significantly increased, the Board of Directors may decide to dissolve the Sub-fund, subject to the AMF's approval.

- Shanghai Hong-Kong Stock Connect risks

The Sub-fund's capacity to achieve its investment objective depends among other things on whether or not A-shares can be traded via the Shanghai Hong-Kong Stock Connect. As of the date of this publication, the Shanghai Hong-Kong Stock Connect imposes two quotas on the total net purchase orders that may be executed: a daily quota and an overall quota since 17 November 2014. If either of these quotas is exceeded, purchase orders on the Shanghai Hong-Kong Stock Connect will be automatically suspended (at least temporarily in the case of the daily quota), which could impair the Sub-fund's capacity to achieve its investment objective.

- Economic, political and social risks

Any political change, social instability and/or unfavourable diplomatic, political, economic and/or social development which may occur in or in connection with PRC (hereinafter a "Policy Change") could result in the imposition by the Chinese government of additional restrictions and limits, such as expropriation, confiscatory taxes or the nationalization of certain companies included in the Benchmark Index. Investors should also note that a Policy Change may have an adverse impact on PRC stock exchanges and on the Sub-fund's performance and could ultimately result in the Sub-fund's dissolution by decision of the Board of Directors.

- Economic risks in PRC

The PRC economy has grown very rapidly. It is, however, not certain that this growth will continue and it may be irregular across the different sectors of the PRC economy. The PRC government has from time to time put in place various measures to prevent an excessively sharp acceleration of the business cycle and the transition of the country's economy from a socialist economy to one that is more market-oriented has caused economic and social tensions that could stop this transition or compromise its success. Any of these risks could diminish the Sub-fund's performance.

- Capital repatriation risks

The system for repatriating capital is subject to the approval of the Chinese SAFE authorities and to the risk that the repatriation of capital may be restricted in terms of amount or frequency (as of the date of the Sub-fund's inception RQFII regulations do however allow capital to be repatriated daily without requiring approval).

Furthermore, the regulations and standard economic practices in PRC that govern the repatriation of funds from the domestic Chinese market to other markets and their conversion into a foreign currency could be modified in a way that adversely affects the Sub-fund.

The unfavourable regulatory developments and situations described above could suspend or restrict the conversion or transfer of foreign currencies and could possibly:

- (i) diminish the Sub-fund's capacity to fully achieve its investment objective
- (ii) diminish the Sub-fund's performance
- (iii) ultimately result in the Sub-fund's dissolution, by decision of the Board of Directors.

- PRC legal system risk

The legal system in PRC is based on statutory law. However, some regulations have yet to be implemented and there is no assurance that they will actually ever be implemented in their entirety. In particular PRC regulations on the control of exchange rates are relatively recent and their application is still quite uncertain. Moreover, these regulations give the Chinese authorities (and in particular CSRC and SAFE) broad discretion in their respective interpretation of the regulations, which leaves uncertainty as to how they might be applied and used. Any of these risks could diminish the Sub-fund's performance.

- State control of exchange rates and of future exchange rate movements

Under the current RQFII system offshore RMB (CNH) can be converted into onshore RMB (CNY) and vice-versa on a one-for-one basis. The CNH also serves as a pivot currency between the share class currencies (USD and EUR) and CNY. There is no guarantee that in the future an exchange rate will not be applied to the conversion of CNH into CNY or vice-versa.

- Dependence on the A-shares market

The existence of a liquid market for A-shares depends on the supply of and demand for A-shares. It should be noted that the Shanghai and Shenzhen stock exchanges, on which the A-shares are listed, are undergoing huge changes and that their market capitalizations and trading volume are less than those of developed country exchanges. The volatility of A-share markets and any difficulty in trading A-shares or in settling A-share trades could result in significant fluctuations in the price of the securities traded in these markets, and ultimately in the Sub-fund's Net Asset Value.

- Taxation in the PRC

Several tax reforms have been introduced by the PRC government in recent years. The current tax rules may be revised or amended in the future.

Furthermore, the PRC's tax authority (the "State Administration of Taxation") has confirmed the 10% withholding tax on dividends, premiums and interest paid to investors with RQFII status (subsequent to the "PRC Corporate Income Tax Law", which came into effect on 1 January 2008) or who invest via the Shanghai Hong-Kong Stock Connect (subsequent to Caishui circular [2014] No. 81).

This withholding tax may be reduced by virtue of a double taxation treaty with China, provided that certain conditions are met and subject to the approval of PRC tax authorities.

It should also be noted that any dividends paid to shareholders by the Sub-fund will be obtained from the receipt of corresponding amounts from the investment in the A-shares and that all amounts of this kind will be net of the withholding tax on dividends, premiums and interest applicable in the PRC.

Concerning the taxation of share sales, on 14 November 2014, the PRC Ministry of Finance and tax authority issued circulars, which among other things specified the tax treatment to be applied to capital gains from the sale of "A-Shares" purchased subject to an RQFII quota or via the Shanghai Hong-Kong Stock Connect, the following should in particular be noted:

- Capital gains on sales before 17 November 2014 are taxable
- Capital gains on sales as of 17 November 2014 are temporarily tax exempt.

Since the PRC tax authority has not made a definitive pronouncement on how the tax would be calculated or collected, nor on the duration of the exemption, investors should note that:

- a) the Sub-fund's Net Asset Value may be adversely affected by a change in PRC tax rules
- b) the adverse impact on the Sub-fund's performance resulting from a change in PRC tax rules will depend on the date the Sub-fund's shares are bought or sold
- c) the magnitude of this adverse impact on the Sub-fund's performance may not be proportional to the number of shares that an investor holds in the Sub-fund if tax obligations in PRC are amended retroactively and, in certain circumstances, could amount to 100% of the Net Asset Value of a share class.

The asset manager by delegation has made a 10% provision on the Sub-fund's capital gains up to 14 November 2014. Furthermore, it should be noted that although the PRC tax authority has confirmed the temporary exemption of withholding tax on capital gains on share sales as of 17/11/2014, there is no way of knowing with certainty what investor obligations will be with respect to PRC's taxation of capital gains on share sales before 17/11/2014. Until further information is provided on the taxation and calculation of withholding tax on capital gains before 17 November 2014, there can be no assurance as to whether the aforementioned provision is sufficient or not, since it cannot currently be known with certainty what obligations may be imposed on investors with RQFII status in respect of the PRC's taxation of capital gains. If the provision made proves to be insufficient, this could adversely affect the Sub-fund's Net Asset Value. However, and as is the case for any mutual

fund that complies with Directive 2009/65/EC, the Sub-fund's shareholders can lose no more than the capital they invest and the expense of purchasing and selling shares.

Furthermore, since Chinese tax authorities have only confirmed a temporary exemption of the taxation of capital gains made as of 17 November, the asset manager by delegation may decide to make a provision if Chinese tax authorities specify the duration of the exemption or amend this temporary rule in part or in whole. In this event, such a provision would adversely affect all of the Sub-fund's net asset values calculated as of the date of the first provision. Such a provision would also reduce the Sub-fund's performance relative to that of the Benchmark Index.

In addition to the withholding tax on dividends, premiums, interest and capital gains referred to above, since 19 September 2008 the sellers of A-shares have been required to pay a stock market tax of 0.1% of the share price. PRC authorities may decide to modify this tax.

- Accounting and reporting standards:

The standards and practices for accounting, auditing and the reporting of financial information that apply to PRC companies may differ from those of countries with more developed financial markets. Such differences can adversely affect certain practices such as asset valuation methods and the reporting of information to investors.

- Order execution risk in PRC

Under RQFII regulations, the delegated asset manager must select one or more intermediaries ("Brokers") in PRC to execute stock-market orders involving A-shares on the Shanghai Stock Exchange and the Shenzhen Stock Exchange. The delegated asset manager may select the same broker for transactions on both of these exchanges. If a Broker defaults, the Sub-fund may have difficulty recovering its assets, which could adversely affect its valuation.

Société Générale and the delegated asset manager have procedures to identify and reduce such conflicts of interest and to resolve them equitably if necessary.

- Custody risk in PRC

Under RQFII regulations, a sub-custodian in PRC must be selected. The sub-custodian selected is Bank of China Limited, which in this capacity holds the Sub-fund's onshore RMB and securities accounts in PRC. Under RQFII regulations, these accounts must be registered jointly in the names of the delegated asset manager (which has the RQFII license) and the Sub-fund. There is therefore a risk that the assets held in PRC may not be as well protected as if they were registered in the Sub-fund's name only.

When, pursuant to the investment strategy, the delegated asset manager purchases and/or sells A-shares via the Shanghai Honk-Kong Stock Connect, the sub-custody in relation to these transactions may be entrusted to a sub-custodian other than Bank of China Limited (the "Third Party Sub-custodian"). In this case, the Sub-fund's accounts with the Third-Party Sub-custodian will be opened in the joint name of the Depositary and the Sub-fund.

- Risk that trading is suspended

Trading in the benchmark index constituents may be temporarily suspended, making it impossible for the Sub-fund to value these securities correctly and/or buy or sell them.

Other risks in investing in this Sub-fund:

Capital risk

The capital invested is not guaranteed. Investors therefore may not recover all or part of their initial investment, particularly in the event that the Benchmark Index posts a negative return over the investment period.

Equity risk

The price of an equity security can increase or decrease in accordance with changes in the issuer's risk exposure or in the economic conditions of the market in which the security is traded. Equity markets are more volatile than fixed income markets, where under stable macroeconomic conditions income over a given period of time can be estimated with reasonable accuracy.

Low Benchmark Index diversification risk

Since the index to which investors are exposed represents a given region, sector and strategy it may provide less diversification of assets in comparison with a broader index that is exposed to several regions, sectors or strategies. Exposure to such a less-diversified index may result in higher volatility than more diversified markets. Nevertheless, diversification rules of the UCITS Directive still apply to the Sub-fund's underlying assets at all times.

Benchmark Index tracking risk

Replicating the performance of the Benchmark Index by investing in all of its constituents may prove to be very difficult to implement and costly. The Sub-fund manager may therefore use various optimization techniques, such as 'sampling', which consists in investing in a selection of representative securities (and not all securities) that constitute the Benchmark Index, in proportions that differ from those of the Benchmark Index or even investing in securities that are not index constituents and in derivatives. The use of such optimization techniques may increase the ex post tracking error and cause the Sub-fund to perform differently from that Benchmark Index.

Emerging Market Risk

The Sub-fund's exposure to emerging markets carries a greater risk of potential loss than an investment in traditional developed markets. Specifically, market operating and supervision rules for an emerging market may differ from standards applicable in developed markets. In particular, exposure to emerging markets can entail: increased market volatility, lower trading volumes, a risk of economic and/or political instability, an uncertain or unstable tax regime and/or regulatory environment, market closure risks, government restrictions on foreign investments, an interruption or limitation of convertibility or transferability of one of the currencies included in the Benchmark Index.

Liquidity risk (primary market)

The Sub-fund's liquidity and/or value may be adversely affected if, when the Sub-fund or a counterparty to a financial derivative instrument (DFI) is rebalancing its exposure, the underlying financial markets are restricted, closed, or subject to wide bid/offer spreads. An inability, due to low trading volumes, to execute trades associated with the replication of the Benchmark Index may also affect the process of subscriptions, conversions and redemptions of shares.

Liquidity risk (secondary market)

The price of the Sub-fund's listed shares or units may deviate from the Sub-fund's indicative net asset value. The liquidity of shares or units traded on a given exchange may be adversely affected by a suspension in trading for various reasons, for example:

- i) the calculation of the Benchmark Index is suspended or stopped
- ii) trading in the market(s) in the Benchmark Index's underlying assets is suspended
- iii) an exchange cannot obtain or calculate the Sub-fund's indicative net asset value
- iv) a market maker fails to comply with an exchange's rules
- v) an exchange's IT, electronic or other system fails.

Risk that the investment objective may not be fully achieved

There is no guarantee that the investment objective will be achieved, as no asset or financial instrument can ensure that the Benchmark Index will be automatically and continuously replicated, particularly in the event of one or more of the following risks:

- Risk due to a change in the tax regime

A change in the tax regime of a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed could adversely affect the taxation of investors. In such an event, the Sub-fund manager shall not be liable to any investor with respect to any payment that may have to be made to a competent tax authority.

- Risk of a change in the taxation of the Sub-fund's underlying assets

A change in the taxation of the Sub-fund's underlying assets could adversely affect the taxation of the Sub-fund. In such an event a discrepancy between the Sub-fund's estimated taxation and its actual taxation may adversely affect the Sub-fund's net asset value.

- Regulatory risk affecting the Sub-fund

In the event of a change in the regulatory regime in a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed, the subscription, conversion or redemption of units or shares may be adversely affected.

- Regulatory risk affecting the Sub-fund's underlying assets

In the event of a change in the regulations that govern the Sub-fund's underlying assets, the Sub-fund's net asset value and the subscription, conversion or redemption of shares may be adversely affected.

- Benchmark Index disruption risk

If an event adversely affects the Benchmark Index, the Sub-fund manager may be required, as provided for by law, to suspend the subscription and redemption of the Sub-fund's shares or units. The calculation of the Sub-fund's net asset value could also be adversely affected.

If the disruption of the Benchmark Index persists, the Sub-fund manager will determine an appropriate course of action, which could decrease the Sub-fund's net asset value.

A 'Benchmark Index event' includes but is not limited to the following situations:

- i) the Benchmark Index is deemed to be inaccurate or does not reflect actual market developments
- ii) the Benchmark Index is permanently cancelled by the index provider
- iii) the index provider is unable to indicate the level or value of the Benchmark Index
- iv) The index provider makes a material change in the Benchmark Index calculation formula or method (other than a minor modification such as an adjustment to the Benchmark Index's underlying constituents or their respective weightings) which the Sub-fund cannot effectively replicate at a reasonable cost
- v) a Benchmark Index constituent becomes illiquid because it is no longer traded on a regulated market or because its trading over-the-counter (e.g. bonds) is disrupted)
- vi) the Benchmark Index constituents are exposed to higher transaction costs for execution or settlement/delivery, or to specific tax constraints and these costs are not reflected in the Benchmark Index's performance.

- Corporate action risk

An unforeseen change, by the issuer of a security that is a constituent of the Benchmark Index, in a planned corporate action that is in contradiction with a previous official announcement on which the Sub-fund based its valuation of the corporate action (and/or on which the Sub-fund's counterparty to a financial derivative instrument or transaction based its valuation of the corporate action) can adversely affect the Sub-fund's net asset value, particularly if the Sub-fund's treatment of the corporate event differs from that of the Benchmark Index methodology.

- USD/CNY currency risk of Acc shares

These shares are exposed to currency risk since they are denominated in a different currency than the Benchmark Index. Changes in the exchange rate may therefore cause the net asset value of these shares to decrease, even if the value of the Benchmark Portfolio increases.

- CNH/CNY currency risk of C-RMB shares

The RMB may be divided into two categories: RMB offshore (CNH) and RMB onshore (CNY).The above share classes are denominated in offshore RMB (CNH) and may be exposed to currency risk since they are not denominated in the same currency as the Benchmark Index. Changes in the exchange rate may therefore cause the net asset value of these shares to decrease, even if the value of the Benchmark Portfolio increases.

- Legal risk

The Sub-fund may be exposed to a legal risk arising from securities financing transactions, pursuant to EU Regulation No. 2015/2365.

ELIGIBLE INVESTORS AND TYPICAL INVESTOR PROFILE

The Sub-fund is available to all investors .

Investors in this Sub-fund are seeking upside and downside exposure to performance of the large caps on the A-shares market, namely, shares issued by companies incorporated in the People's Republic of China, excluding Hong Kong.

The amount that can be reasonably invested in the Sub-fund depends on each investor's personal situation. To determine this amount, investors must take into account their personal wealth and/or estate, their cash requirements currently and for the next five years, and their willingness to take on risk or their preference for more prudent investment. Investors are also advised to diversify their investments sufficiently so as not to be exposed solely to this Sub-fund's risks.

All investors are therefore asked to consider their specific situation with the help of their usual investment advisor.

The recommended minimum investment period is at least five years.

CALCULATION AND APPROPRIATION OF DISTRIBUTABLE AMOUNTS

Accumulation.

DISTRIBUTION FREQUENCY

N/A.

SHARE CHARACTERISTICS

Subscription orders must be placed for a monetary amount.
A whole number of shares must be redeemed.

SHARE CURRENCIES

Share class	Acc	C-RMB
Share currency	USD	RMB

SUBSCRIPTION AND REDEMPTION

1. SUBSCRIPTION AND REDEMPTION ON THE PRIMARY MARKET

Subscription/redemption requests for shares in the Sub-fund will be processed by the Depositary until 6.00 pm (Paris time), every day that the Sub-fund's net asset value is to be published, provided that prices can be quoted for a significant proportion of the Benchmark Index constituents (hereinafter a "**Primary Market Day**"), and will be executed at the net asset value on the first Primary Market Day following this day, hereinafter the "**reference NAV**". Subscription/redemption orders submitted after 6.00 pm (Paris time) on a Primary Market Day will be processed as if received before 6.00 pm (Paris time) on the following Primary Market Day. Subscription orders must be placed for at least 1,000,000 USD for the Acc share class and for at least the RMB equivalent of 1,000,000 USD for the C-RMB share class. Redemption orders must be for an exact whole number of shares that represents at least 1,000,000 USD for the Acc share class, and at least the RMB equivalent of 1,000,000 USD for the C-RMB share class.

Subscriptions and redemptions in cash

Subscriptions and redemptions shall be made exclusively in cash and executed at the ref NAV.

Delivery and settlement

Subscriptions must be fully paid up on the date that subscription orders are received (by the transfer agent before 2:00 p.m.).

The delivery of subscriptions and the settlement/delivery of redemptions shall be completed within five French business days after receipt of the subscription or redemption orders.

Date and frequency of net asset value calculation

The net asset value will be calculated and published daily, provided that at least one exchange on which the Sub-fund's shares are listed is open and that orders placed in the primary and secondary markets can be funded.

The Sub-fund's net asset value is calculated using the closing prices of the Benchmark Index components and the WM Reuters rate for CNY/USD at 9:00 a.m. GMT.

The net asset value of a share class that is denominated in another currency than the Sub-fund's accounting currency (if applicable) is calculated using the WM Reuters exchange rate between the accounting currency and the currency of the share class at 9:00 a.m. GMT on the date the reference NAV is calculated.

2. PURCHASES AND SALES ON THE SECONDARY MARKET

A. COMMON PROVISIONS

For any purchase or sale of shares in the Sub-fund made directly on an exchange on which the Sub-fund is admitted or will be admitted for continuous trading, no minimum purchase or sale amount is required other than that which may be required by the relevant exchange(s).

Shares in a listed Sub-fund acquired on the secondary market cannot generally be directly resold to the Sub-fund. Investors must therefore buy and sell their shares on a secondary market through an intermediary (e.g. a broker) and may consequently incur costs. Furthermore, there is a possibility that investors may pay more than the indicative net asset value when buying shares and receive less than the indicative net asset value when selling shares.

If the stock market value of a listed fund's shares or units differs significantly from their indicative net asset value, or if trading in the fund's shares or units is suspended, investors may be authorized, subject to the conditions set forth below, to redeem their shares or units in the primary market directly from the fund, without being subject to the minimum redemption amount requirement set forth herein in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)".

The management company shall decide whether to allow such primary market redemptions and for how long, on the basis of the following criteria for assessing the significance of a market disruption:

- The suspension or strong disturbance of secondary trading on a given exchange is relatively frequent

- The link between the market disruption and secondary market operators (such as the default of one or more of the Market Makers of a given exchange, or a breakdown or malfunction of an exchange's IT or operating systems), excluding a disruption caused by a source external to the secondary exchange on which the Sub-fund's shares are traded, such as an event that affects the liquidity and valuation of all or some of the Benchmark Index's constituents
- Any other objective circumstance that could adversely affect the fair treatment and/or the interests of the Sub-fund's shareholders.

Notwithstanding the provisions concerning fees presented in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions") , redemptions made in the primary market in this case shall only be subject to a net redemption fee of 1% paid to the Sub-fund and which serves to cover its trading costs.

In such exceptional cases when redemption in the primary market is allowed, the Management Company shall post on Lyxor's website at www.lyxor.etf.com the procedure that investors must observe to redeem their shares or units in the primary market. The Management Company shall also make this procedure available to the market undertaking that handles trading in the Sub-fund's shares.

B. SPECIFIC PROVISIONS

- (a) **If the Sub-fund's shares are listed on Euronext Paris, as indicated in the "Key Information" part of the "General Characteristics" section of the Fund's prospectus, investors should note the following rules:**

Negotiability of shares and information about the financial institutions acting as Market Makers:

The shares are freely negotiable on the Euronext Paris regulated market under the following conditions and according to the applicable legal and regulatory provisions.

The Sub-fund shares will be listed on a specific trading list, the rules for which are defined in the following instructions published by Euronext Paris SA:

- Instruction No. 4-01 " Universal Trading Platform Manual"
- Appendix to Instruction N4-01 (Appendix to the Euronext Market Trading Manual)
- Instruction No. 6-04 "Documentation to be provided when filing a listing application for an ETF, ETN, ETV and open-ended undertakings for collective investment other than ETFs"

Pursuant to article D 214-22-1 of the French Monetary and Financial Code the units or shares of undertakings for collective investments in transferable securities may be admitted to trading, provided that these undertakings have a system to ensure that the market price of their units or shares does not differ significantly from their net asset value. Under Euronext Paris SA's rules trading in the Sub-fund's shares is also subject to a 'reservation threshold' of 3% above or below the Sub-fund's indicative net asset value or "iNAV" (see the "Indicative Net Asset Value" section), as published by Euronext Paris SA and updated on an estimated basis during trading in accordance with the change in the Benchmark Index.

To comply with Euronext Paris SA's reservation threshold requirement the Market Makers will ensure that the market price of the Sub-fund's shares does not differ from the Sub-fund's indicative Net Asset Value by more than 3% (see the section entitled "Indicative net asset value").

Euronext Paris SA may suspend trading in the Sub-fund's shares pursuant to the terms of its operating rules, if the aforementioned reservation threshold limit is exceeded.

Euronext Paris SA will also suspend trading in the Sub-fund's shares in the following cases:

- the Benchmark Index is no longer traded or calculated
- Euronext Paris SA cannot obtain the Benchmark Index's level
- Euronext Paris SA cannot obtain the Sub-fund's net asset value.

In accordance with the terms and conditions governing admission to trading on Euronext Paris, the Market Makers undertake to provide market-making services for the Sub-fund's shares as soon as they are admitted to trading on the Euronext Paris exchange.

In particular, the Market Makers undertake to carry out market-making operations by maintaining a significant presence in the market, which initially entails the setting of a bid/ask spread.

More specifically, the Market Makers are required by contract with Euronext Paris SA to ensure that the Sub-fund maintains:

- a maximum global spread of 3% between the bid and offer price in the centralized order book.
- a minimum nominal trading value of EUR 100,000.

The obligations of the Sub-fund's Market Makers will be suspended in the following cases:

- the Benchmark Index is no longer traded or calculated
- if trading is substantially disrupted, for example due to a widespread shift in prices or an event that makes normal market making impossible.

Indicative Net Asset Value:

Euronext Paris SA will calculate and publish, each Trading Day (as defined below) during trading hours, the Sub-fund's indicative net asset value (hereinafter "iNAV"). The iNAV is a measure of the intra-day value of the Sub-fund's net asset value based on the most recent data. The iNAV is not the value at which investors buy and sell shares in the Sub-fund on the secondary market.

A "Trading Day" is a day on which NSYE Euronext is normally open and on which the Benchmark Index is normally published.

The Sub-fund's iNAV is a theoretical net asset value calculated every 15 seconds by Euronext SA throughout the Paris trading day and is based on the level of the Benchmark Index. The iNAV enables investors to compare the prices that the Market Makers offer on the market with the theoretical value calculated by Euronext.

The iNAV will be calculated every day that the net asset value is calculated and published.

To calculate the Sub-fund's iNAV throughout the Paris trading session (9: 05 am to 5: 35 pm), Euronext Paris SA will use the Benchmark Index value published by Reuters.

If one or more exchanges on which the Benchmark Index's constituent equities are listed are closed (on a public holiday on the TARGET calendar), and if the INAV cannot be calculated, trading in the Sub-fund's shares may be suspended.

Lyxor International Asset Management, the Sub-fund's management company, will provide Euronext Paris SA with all the financial and accounting data that EuronextParis SA needs to calculate the Sub-fund's iNAV and in particular:

- The day's estimated net asset value
- The official net asset value of the previous business day
- The level of the Benchmark Index on the previous business day.

These data will serve as a basis for Euronext Paris SA's calculations to determine the Sub-fund's iNAV in real time every Trading Day.

Additional information about the indicative net asset value of a share listed on an exchange may, in accordance with the terms and limits set by the relevant market undertaking, be provided on this exchange's website. This information is also available on the Reuters or Bloomberg pages dedicated to the particular share. Additional information about Bloomberg and Reuters codes corresponding to the indicative net asset value of UCITS ETF type shares is also available in the "Term Sheets" section of Lyxor's website at <http://www.lyxoretf.com>.

(b) If the Sub-fund's shares are listed on an exchange other than Euronext Paris, as indicated in the "Key Information" section, investors should note the following:

Investors wishing to acquire shares in the Sub-fund or obtain more information regarding the market-making terms that govern the listing and trading of shares on the types of exchanges indicated in the "Key Information" section are advised to familiarize themselves with the guidelines laid down by the relevant market undertaking, in compliance with local regulations, and to seek if necessary the assistance of their usual broker(s) for executing trades on the relevant exchange(s).

FEES AND CHARGES

SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)

The subscription and redemption fees shown below respectively increase the subscription price paid by the investor and decrease the redemption price received. Fees kept by the Sub-fund compensate it for the expenses it incurs in investing in the Sub-fund's assets or in divesting these assets. Any fees that are not kept by the Sub-fund are paid to the asset manager, the marketing agent or other service provider.

Fees paid by investors upon subscription or redemption	Base	Maximum charge
Subscription fee not kept by the Sub-fund	NAV per share × number of shares	The higher value of either EUR 50,000 per subscription order or 5% payable to third parties
Subscription fee kept by the Sub-fund	NAV per share × number of shares	0.20%
Redemption fee not kept by the Sub-fund	NAV per share × number of shares	The higher value of either EUR 50,000 per redemption order or 5% payable to third parties
Redemption fee kept by the Sub-fund	NAV per share × number of shares	0.30%

OPERATIONAL AND MANAGEMENT FEES

These fees cover all the costs invoiced directly to the Sub-fund, except for transaction expenses, which include intermediary fees (brokerage, stock market taxes etc.) and any account activity charge that may be charged by the depositary or the management company.

For this Sub-fund the following fees may be charged in addition to the operating and management fees (see table below):

- incentive fees, which the Sub-fund pays to the management company when the Sub-fund exceeds its objectives
- account activity charges charged to the Sub-fund

For more information on the fees or expenses that the Sub-fund must pay, see the Statistics section of the Key Investor Information Document (KIID).

Fees charged to the Sub-fund	Base	Maximum charge
Investment management fees and administration fees that are external to the management company (auditor, depositary, fund distribution and legal fees) including tax ⁽¹⁾	Net asset value	0.65% per annum
Account activity charge	Charge on each transaction	N/A
Incentive fee	Net asset value	N/A

(1) Includes all fees and expenses except for transaction expenses, incentive fees and fees associated with investment in UCITS.

COMMERCIAL INFORMATION

Distribution of this prospectus and the offering or purchase of the Fund's share classes may be subject to restrictions with regard to certain persons or in certain countries by virtue of national regulations applying to these persons or countries. Investors are therefore responsible for ensuring that they are authorized to subscribe to or invest in this Fund. The information in this prospectus therefore cannot be construed to be an offer or solicitation to buy or sell shares in this Fund in a country where such offer or solicitation is unlawful.

The Fund's share classes will not be registered pursuant to the U.S. Securities Act of 1933, as amended (the "U.S. Securities Act") and cannot be offered, assigned, transferred or allocated to the United States of America, or to:

- (A) any "U.S. Person", as this term is defined (i) under Regulation S of the US Securities Act of 1933 and (ii) under U.S. regulations as defined in Section 7701 (a) (30) of the Internal Revenue Code of 1986 as amended. The Fund's shares will not be offered to U.S. Persons.
- (B) anyone other than those persons considered to be "non-US Persons" as this term is defined under U.S. regulations pursuant to the Commodity Futures Trading Commission, Rule 4.7 (a) (1) (iv).

The Fund's shares will only be offered for sale outside of the United States of America to non-U.S. Persons.

For the purpose of this document, the term "U.S. Person" shall mean, among other things, any individual who resides in the United States of America, any entity organized or formed under the laws of the United States of America, certain entities organized or formed outside of the United States of America by one or more U.S. persons, or any account held on behalf of such a U.S. person.

Under the German tax act on investment funds (InvStG-E), the Sub-fund is a "mutual fund" and must comply with the criteria that apply to "equity funds". As such, the Sub-fund will hold a basket of securities that are eligible for the equity ratio as this term is defined under said German tax act, and which will represent at least 90% of its net assets under normal market conditions. To ensure compliance with this ratio, the Sub-fund may adjust this basket of securities on a daily basis.

Before making an investment in this Fund or Sub-fund, investors should seek the advice of their financial, tax and legal advisers.

PLACE AND METHOD OF NET ASSET VALUE PUBLICATION OR COMMUNICATION

At the head office of LYXOR INTERNATIONAL ASSET MANAGEMENT, at 17, cours Valmy - 92987 Paris La Défense CEDEX - France.

Euronext Paris SA will calculate and publish the Sub-fund's indicative net asset value , each Trading Day (as defined below) during trading hours.

IMPORTANT INFORMATION ABOUT THE BENCHMARK INDEX PROVIDER

The LYXOR MSCI CHINA A (DR) UCITS ETF sub-fund (the "Sub-fund") is in no way sponsored, endorsed, sold or promoted by MSCI Inc. ("MSCI"), nor by any MSCI subsidiary, nor by any entity involved in establishing the MSCI indices. The MSCI indices are the sole property of MSCI, and the MSCI indices are trademarks registered by MSCI and its subsidiaries and have been licensed, for specific purposes, by Lyxor Asset management. Neither MSCI, nor any subsidiary of MSCI, nor any of the entities involved in producing or calculating the MSCI indices have made any statement or any warranty, either expressed or implied, to holders of shares in the Sub-fund or, more generally, to the general public, concerning the merits of trading in shares of mutual funds in general or in shares of this Sub-fund in particular or the ability of any MSCI index to replicate the performance of the global equities market. MSCI and its subsidiaries are the owners of certain names, registered trademarks and the MSCI indices, which are determined, constructed and calculated by MSCI without any consultation with Lyxor International Asset Management or the Sub-fund. Neither MSCI, nor any MSCI subsidiary, nor any of the entities involved in the production of the MSCI indices are obliged to take into consideration the needs of Lyxor International Asset Management or holders of the Sub-fund's shares when determining, constructing or calculating the MSCI indices. Neither MSCI, nor any MSCI subsidiary, nor any of the entities involved in the production of the MSCI indices make any decision concerning the launch date, pricing, quantity of the Sub-fund's shares or the determination and calculation of the formula used to establish the Sub-fund's net asset value. Neither MSCI, nor any MSCI subsidiary, nor any of the entities involved in the production of the MSCI indices accept any responsibility for or obligations concerning the administration, management or marketing of the Sub-fund.

ALTHOUGH MSCI OBTAINS DATA INCORPORATED OR USED IN THE CALCULATION OF INDICES ORIGINATING FROM SOURCES THAT MSCI BELIEVES TO BE RELIABLE, NEITHER MSCI, NOR ANY OTHER PARTY INVOLVED IN THE CREATION OR CALCULATION OF THE MSCI INDICES GUARANTEES THE ACCURACY AND/OR THE COMPLETENESS OF THE INDICES OR ANY INCORPORATED DATA. NEITHER MSCI NOR ANY PARTY INVOLVED IN THE CREATION OR CALCULATION OF THE MSCI INDICES MAKES ANY WARRANTIES, EXPRESSED OR IMPLIED, CONCERNING THE RESULTS THAT THE HOLDER OF A MSCI LICENSE, CUSTOMERS OF SAID LICENSEE, COUNTERPARTIES, SUB-FUND SHAREHOLDERS OR ANY OTHER PERSON OR ENTITY WILL ACHIEVE FROM THE USE OF THE INDICES OR ANY INCORPORATED DATA IN RELATION TO THE RIGHTS LICENSED OR FOR ANY OTHER PURPOSE

NEITHER MSCI NOR ANY OTHER PARTY MAKES ANY WARRANTIES, EXPRESSED OR IMPLIED, AND MSCI DISCLAIMS ANY WARRANTIES CONCERNING THE COMMERCIAL VALUE OR SUITABILITY FOR A SPECIFIC PURPOSE OF THE INDICES OR INCORPORATED DATA. SUBJECT TO THE FOREGOING, UNDER NO CIRCUMSTANCES SHALL MSCI OR ANY OTHER PARTY BE HELD LIABLE FOR ANY LOSS, BE IT DIRECT, INDIRECT OR OTHER (INCLUDING LOSS OF EARNINGS) EVEN IF IT IS AWARE OF THE POSSIBILITY OF SUCH A LOSS.

ADDITIONAL INFORMATION

The Sub-fund's shares are accepted for clearing by Euroclear France S.A.

Subscription and redemption orders are sent by the investors' financial intermediaries (members of Euroclear France SA) to the Depositary.

The Multi Units France fund prospectus, the Key Investor Information Document and the most recent annual reports will be sent to investors within eight business days upon receipt of a written request addressed to:

LYXOR INTERNATIONAL ASSET MANAGEMENT
17 Cours Valmy - 92987 Paris La Défense France.

E-mail: contact@lyxor.com

More information can also be requested from Lyxor International Asset Management on its website at www.lyxoretf.com.

Prospectus publication date: See the "Publication Date" section.

Pursuant to Article L. 533-22-1 of the French Monetary and Financial Code, information concerning the possible inclusion of social, environmental and corporate governance objectives and performance criteria in the investment policy is available on the asset manager's website and in the Multi-Unit France fund annual report.

The AMF's website (www.amf-france.org) provides additional information on regulatory documents and the protection of investors. This Prospectus shall be made available to investors prior to subscription.

INVESTMENT RULES

The Sub-fund will comply with the investment rules of European Directive 2009/65/EC of 13 July 2009.

The Sub-fund may invest in the assets specified in Article L214-20 of the French Monetary and Financial Code, subject to the risk-diversification and investment ratio requirements of Articles R214-21 to R214-27 of said Code.

Notwithstanding the 10% limit under Paragraph II of Article R214-21 of the French Monetary and Financial Code, the Sub-fund may invest up to 20% of its assets in the equities and debt securities of a single issuer, in compliance with Article R214-22-I, which deals with index-tracking funds. Pursuant to Article R214-22 II, the Sub-fund may also increase this 20% limit for a single issuer to 35%, when this is justified by exceptional market conditions, and in particular when certain securities are largely dominant.

OVERALL RISK EXPOSURE

The commitment approach is used to calculate the Sub-fund's overall risk exposure.

ASSET VALUATION AND ACCOUNTING RULES

A. VALUATION RULES

The Sub-fund's assets are valued in accordance with applicable laws and regulations and most notably Regulation No. 2014-01 of 14 January 2014 of the Comité de la Réglementation Comptable (the Accounting Regulations Committee), which applies to the chart of accounts for undertakings for collective investment in transferable securities.

Financial instruments traded on a regulated market are valued at the closing price recorded on the day prior to the calculation of the net asset value. If these financial instruments are traded on several regulated markets at the same time, the closing price used is that recorded on the regulated market on which they are principally traded.

However, in the absence of significant trading on a regulated market, the following financial instruments are valued using the following methods:

Negotiable debt securities ("NDS") with a remaining life upon acquisition that is less than or equal to three months are valued by applying the difference between the acquisition value and the redemption value on a straight-line basis over the remaining life. However, the Board of Directors reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc.). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;

- NDS with a remaining life of more than three months upon acquisition but less than or equal to three months at the net asset value calculation date are valued by applying the difference between the most recent valuation and the redemption value on a straight-line basis over the remaining life. However, the Board of Directors reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc.). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life at the net asset value calculation date that exceeds three months are valued at their current value. The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- Financial futures traded on organized markets are valued at the clearing price on the day prior to the calculation of the net asset value. Options traded on organized markets are valued at their market price on the day prior to the calculation of the net asset value. Forward contracts and over-the-counter options are valued at the price quoted by the counterparty. The asset manager monitors these prices independently.
- Bank deposits are valued at their nominal value plus accrued interest.
- Warrants, short and medium-term notes (bons de caisse), promissory notes and mortgage notes are valued under the asset manager's responsibility at their most likely trading value.
- Securities financing transactions are valued at the market price.
- Shares and units in UCITS under foreign law are valued at the last known net asset value on the day the Sub-fund's net asset value is calculated.
- Shares and units in foreign investment funds are valued at the last known net asset value at the date the Sub-fund's net asset value is calculated.
- Financial instruments traded on a regulated market and for which no price has been quoted or whose price has been corrected, are valued under the asset manager's responsibility at their most likely trading value.
- The exchange rates used to value financial instruments denominated in Renminbi (RMB) is the WM Reuters fixing rate at 9:00 a.m. GMT published by Thomson Reuters on the day the Sub-fund's net asset value is determined.

B. ACCOUNTING METHOD FOR TRADING EXPENSES

Trading expenses are included in the initial cost of the transaction.

C. ACCOUNTING METHOD FOR INCOME FROM FIXED-INCOME SECURITIES

Income from fixed-income securities is accounted for using the cash-basis method.

D. DISTRIBUTION POLICY

For more information see the section entitled "Calculation and appropriation of Distributable amounts".

E. ACCOUNTING CURRENCY

The Sub-fund's accounts are kept in US dollars

SUB-FUND NO. 25: Lyxor iBoxx Germany 1-3Y (DR) UCITS ETF

A SICAV SUB-FUND COMPLIANT WITH DIRECTIVE 2009/65/CE

ISIN CODE

Acc share class: FR0012283398

CLASSIFICATION

Bonds and other debt securities denominated in euros.

The Lyxor iBoxx Germany 1-3Y (DR) UCITS ETF sub-fund (the “**Sub-fund**”) is continuously exposed to fixed-income securities denominated in euros. Exposure to equity risk does not exceed 10% of net assets.

The Sub-fund is a UCITS ETF index-tracker.

INCEPTION DATE

The Sub-fund was approved by the Autorité des Marchés Financiers on 29/10/2014.

The Sub-fund will be formed on 19/11/2014.

INVESTMENT OBJECTIVE

The Sub-fund’s objective is to replicate the performance, whether positive or negative, of the Markit Iboxx EUR Germany 1-3 Mid Price TCA index (the “**Benchmark Index**”), denominated in euros (EUR), while minimizing the tracking error between the Sub-fund’s performance and that of its Benchmark Index, which is representative of the performance of German government bonds having a residual maturity of 1 to 3 years.

The expected ex post index tracking error under normal market conditions is 0.08%.

BENCHMARK INDEX

The Benchmark Index (the iBoxx €Germany 1-3 TRI index) is a “Total Return” index, which means that all coupons from the Benchmark Index components are reinvested in the Benchmark Index.

The Markit Iboxx EUR Germany 1-3 Mid Price TCA Benchmark Index is denominated in euros.

The Benchmark Index provides exposure to German government bonds having a residual maturity of 1 to 3 years and is weighted by volume.

The Benchmark Index is calculated by Markit iBoxx Limited.

The Benchmark Index is composed of German government bonds having a residual maturity of one to three years. The weight of each index component depends on the corresponding bond’s market value. Inclusion of a given bond in the Benchmark Index is based on the following criteria:

To be included in the Benchmark Index a bond must:

- be fixed rate
- have been issued by the German government
- have a minimum issuance size of two billion euros.

The settlement date for Markit indices is T+0 days. The Benchmark Index is calculated using the average price (or “mid price”) between the bid and ask prices. New bonds are included in the Benchmark Index at their mid price.

Benchmark index composition and revision

The Benchmark Index’s composition is reviewed monthly.

The complete index methodology is available at <https://ihsmarkit.com/products/iboxx.html>.

Benchmark Index publication

The price of the Benchmark Index is fixed daily by Reuters and Bloomberg.

Reuters code: IBXXAXBX

Bloomberg code: IBXXAXBX

The Benchmark Index’s closing price is available on the Internet at <https://ihsmarkit.com/products/iboxx.html>.

Benchmark index composition and revision:

The Benchmark Index is revised monthly.

The frequency of rebalancing does not affect the cost of implementing the investment strategy.

A full description and the complete methodology used to construct the Benchmark Index and information on the composition and respective weightings of the Benchmark Index components are available on the Markit iBoxx Limited website at <https://ihsmarkit.com/products/iboxx.html>.

Pursuant to Article 52 of European Parliament and Council Regulation 2016/1011 of 8 June 2016, Markit iBoxx Limited, the administrator of the Markit Iboxx EUR Germany 1-3 Mid Price TCA benchmark index, has until 1 January 2020 to apply for approval or registration as applicable.

As of the date of the most recent version of this prospectus, the benchmark index administrator was not yet listed in ESMA’s register of benchmark administrators.

Pursuant to European Parliament and Council Regulation 2016/1011 of 8 June 2016, the asset management company has a procedure for monitoring the benchmark indices used that specifies the measures to be implemented if an index is substantially modified or is no longer provided.

INVESTMENT STRATEGY

1.Strategy employed

The Sub-fund will comply with the investment rules of European Directive 2009/65/EC of 13 July 2009.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund will use a direct replication method, which means that it will invest mainly in the Benchmark Index's constituents.

In order to optimize the direct replication method that is used to track the Benchmark Index, the Sub-fund, represented by its delegated asset manager, may decide to employ a "sampling" technique that consists in investing in a selection of representative Benchmark Index constituents in order to reduce the costs of investing directly in all of the various Benchmark Index constituents. This sampling technique could cause the Sub-fund to invest in a selection of representative Benchmark Index securities (and not in all of them) in proportions that do not reflect their weight within the Benchmark Index, and even to invest in securities that are not constituents of the Benchmark Index.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund may also, on an ancillary basis, engage in transactions involving derivative financial instruments (DFI). These transactions could for example be futures contracts on indices and/or swaps for hedging purposes and in particular to minimise the Sub-fund's tracking error.

To ensure that investors are fully informed of the method used to directly replicate the Benchmark Index (either full replication or sampling to reduce replication costs) and of the consequences of this method on the Sub-fund's assets, information on the updated composition of the basket of 'balance sheet' assets in the Sub-fund's portfolio is available on the page dedicated to the Sub-fund on Lyxor's website at www.lyxoretf.com. The frequency of any updates and/or the date on which the aforementioned information is updated is also indicated on the same page of the aforementioned website.

Up to 20% of the Sub-fund's assets may be exposed to debt issued by a given OECD country. This 20% limit can be increased to 35% for a single bond, when this is shown to be justified by exceptional market conditions, in particular when certain securities are largely dominant and/or in the case of strong volatility in a debt issue, or an event of a political and/or economic nature that has affected or may affect the estimated debt of an issuing country and/or the credit rating of an issuing country or any other event likely to affect the liquidity of a Benchmark Index security.

Notwithstanding the above, securities issued by a given sovereign issuer may account for up to 35% of assets, and up to 100% of the assets if the Sub-fund holds at least six issues none of which exceeds 30% of assets, provided that these securities are financial instruments issued or guaranteed by an OECD member state, the local authorities of a European Union member state or a country that is a member of the European Economic Area.

Sub-fund's targeted interest-rate sensitivity:	From 1 to 3
Currencies in which the Sub-fund's securities are denominated:	Euro: 100% of net assets Other: 0% of net assets
Currency risk to which the Sub-fund is exposed:	0% maximum of net assets.
Geographic regions of the issuers of the securities to which the Sub-fund is exposed:	Eurozone: 100% of net assets Emerging countries: 0% of net assets

2.Balance sheet date

The Sub-fund may invest in global bonds, in compliance with regulatory ratios.

Investment in undertakings for collective investment in transferrable securities ("UCITS") that comply with Directive 2009/65/EC is limited to 10% of the Sub-fund's net assets.

The fund manager will not invest in the shares or units of alternative investment funds (AIF) or other investment funds that were formed under a foreign law. The Sub-fund may invest in the shares of UCITS managed by its asset manager or by a company that is related thereto.

3.Off-balance sheet assets (derivatives)

On an ancillary basis, the Sub-fund may engage in transactions involving derivatives traded on a regulated market or over the counter.

If over-the-counter derivatives are used, in accordance with its best-execution policy the management company considers that Société Générale would be the counterparty that would generally provide the best possible execution for any hedging transactions the Sub-fund may enter into pursuant to its investment strategy. Accordingly, all or some of these derivative financial instruments may be traded via Société Générale without having to seek a competitive bid from another counterparty.

4. Securities with embedded derivatives

N/A.

5. Cash deposits

To optimize its cash management, the Sub-fund may deposit funds representing up to 20% of its net assets with credit institutions that belong to the same group as the depositary.

6.Cash borrowing

The Sub-fund may temporarily borrow up to 10% of its net assets.

7.Securities financing transactions

Pursuant to its investment strategy, the Sub-fund may use various efficient portfolio management techniques in compliance with Article R214-18 of the French Monetary and Financial Code, including the temporary sale of securities.

- Maximum proportion of assets under management for which securities financing transactions may be entered into: 20% of the Sub-fund's assets.
- Expected proportion of assets under management for which securities financing transactions may be entered into: 0% of the Sub-fund's assets.

For this purpose the management company may appoint an intermediary (hereinafter the “**Agent**”) to provide the following services in connection with the Sub-fund’s temporary disposals of securities. If such an Agent is used it may be authorised to (i) lend securities, on the Sub-fund’s behalf, under framework agreements, such as global master securities lending agreements (GMSLA) and/or any other internationally recognised framework agreement, and (ii) invest, on the Sub-fund’s behalf, any liquid assets received as collateral for these securities lending transactions, subject to the restrictions specified in the securities lending agreement, the rules of this prospectus and the applicable regulations.

The Sub-fund shall be entitled to all income from securities financing transactions, net of any direct and indirect operating costs.

These operating costs, which are incurred to manage the portfolio more efficiently, may be borne by the Sub-fund’s management company, the Agent and/or other intermediaries that are involved in these transactions.

These direct and indirect operating costs will be calculated as a percentage of the Sub-fund’s gross income. Information on direct and indirect operating expenses and on the entities to which these expenses are paid will be provided in the Sub-fund’s annual report.

All income obtained from the lending of securities (from which must be deducted all direct and indirect operating costs borne by the Agent and if applicable by the management company) shall be paid to the relevant Sub-fund. Since these direct and indirect costs do not increase the Sub-fund’s overall operating expenses they have been excluded from ongoing expenses.

If necessary, the Sub-fund’s annual report will provide the following information:

- the risk exposure resulting from efficient portfolio management transactions;
- the identity of the counterparty(ies) to these efficient portfolio management transactions;
- the nature and amount of any collateral received to reduce the Sub-fund’s counterparty risk, and;
- the income obtained from efficient portfolio management transactions during the relevant period and the direct and indirect operating costs associated with these transactions.

8. Collateral

Whenever the investment strategy exposes to the Sub-fund to counterparty risk, and in particular when the Sub-fund uses over-the-counter swaps or enters into securities financing transactions, the Sub-fund may accept eligible securities as collateral to reduce the counterparty risk associated with these swaps. The portfolio of collateral received may be adjusted daily to ensure that its value is at least sufficient to cover the Sub-fund’s counterparty risk in most cases. The purpose of this adjustment is to neutralize the Sub-fund’s counterparty risk.

The Sub-fund will have full title to all collateral received, which will be deposited in the Sub-fund’s account with the depositary. This collateral will therefore be included in the Sub-fund’s assets. If a counterparty defaults on an obligation, the Sub-fund may dispose of the assets received from the counterparty in respect of the secured transaction to pay off the the counterparty’s debt to the Sub-fund.

All collateral the Sub-fund receives for this purpose must comply with the applicable laws and regulations, with respect in particular to the liquidity and valuation of the collateral, the credit-worthiness of securities issuers, risk exposure correlation and the risks of collateral management and enforceability. More specifically, all collateral received must meet the following conditions:

- a. all collateral must be of high quality, be highly liquid and tradable on a regulated market or on a multilateral trading facility, with transparent pricing to enable the collateral to be rapidly sold near its estimated price
- b. this collateral must be valued at its mark-to-market price at least daily and must not include assets with highly volatile prices unless a sufficiently prudent discount is applied to such assets
- c. this collateral must be issued by an entity that is independent from the counterparty and must not be highly correlated with the counterparty’s financial performance
- d. collateral must be sufficiently diversified in terms of country, market and issuer, with exposure to any single issuer not exceeding 20% of the Sub-fund’s net asset value
- e. the Sub-fund’s management company must be able to fully enforce the collateral at all times without the prior consultation or approval of the counterparty.

Notwithstanding the condition specified in (d) above, the Fund may accept a basket of securities collateral that increases its exposure to a single issuer to more than 20% of its net asset value provided that:

- such securities collateral is issued by (i) a Member State, (ii) one or more of a Member State’s local authorities, (iii) a country that is not a Member State (iv) a public international organization to which one or more Member States belong; and
- such securities collateral consists of at least six different issues of securities of which no single issue exceeds 30% of the Sub-fund’s assets.

In accordance with the above conditions the collateral accepted by the Sub-fund may include:

- i) cash and cash-equivalent assets, which for example include short-term bank deposits and balances and money-market instruments
- ii) bonds issued or guaranteed by an OECD member state, by the local authorities of an OECD member state, by a supranational institution or organization of a community, regional or global nature, or by any other country provided that the conditions specified in points (a) to (e) inclusive above are fully complied with
- iii) shares or units issued by money-market funds that calculate a daily net asset value and have an AAA or equivalent credit rating
- iv) shares or units issued by UCITS that invest mainly in the bonds or shares indicated at points (v) and (vi) below
- v) bonds issued or guaranteed by top-rated issuers that offer sufficient liquidity
- vi) shares admitted for trading or traded on a regulated market of an EU member state, on a securities exchange of an OECD member state, or on a securities exchange of a non-OECD country provided that the conditions of points (a) to (e) above are fully met and that these shares are a component of a leading stock index.

Discounting policy

The Sub-fund’s management company shall apply a discount to the collateral accepted by the Sub-fund for securities lending and repo transactions. The amount of this discount will depend on the following criteria:

- The type of asset provided as collateral
- The maturity of the asset provided as collateral (if relevant)
- The credit rating of the issuer of the asset provided as collateral (if relevant)

A higher discount may be applied to collateral received in a currency other than the euro.

Reinvestment of collateral

Non-cash collateral will not be sold, reinvested or pledged.

Cash collateral may, at the manager's discretion, be:

- (c) deposited with an authorized institution
- (d) invested in high-quality government bonds
- (e) used for reverse repurchase transactions, provided that these are entered into with credit institutions that are subject to prudential supervision and that the fund may recover the full cash amount at any time with accrued interest
- (f) invested in short-term money-market funds as defined in the guidelines for a common definition of European money-market funds.

All cash collateral that is reinvested must be invested in a diversified manner in compliance with the rules that apply to the acceptance of non-cash collateral.

RISK PROFILE

Investors' money will be invested mainly in the financial instruments selected by the asset manager. These instruments are subject to market trends and contingencies.

Investors in the Sub-fund will mainly be exposed to the following risks:

- Interest rate risk

The price of a bond can be affected by unexpected changes in the level of interest rates, which in particular may modify the shape of the yield curve. The bonds that make up the Benchmark Index are exposed to such changes in interest rates. In general, the price of a bond rises when interest rates fall, and falls when interest rates rise.

- Capital risk

The capital invested is not guaranteed. Investors therefore may not recover all or part of their initial investment, particularly in the event that the Benchmark Index posts a negative return over the investment period.

- Credit risk

The Sub-fund could be adversely affected by a lowering of the credit rating of one or more issuers of a bond in the Benchmark Index. This could mean a higher risk that such an issuer might default and could decrease the bond's value.

- Liquidity risk (primary market)

The Sub-fund's liquidity and/or value may be negatively affected if, when the Sub-fund (or one of its counterparties in a transaction involving a derivative financial instrument) is rebalancing its exposure the corresponding financial markets are restricted, closed, or subject to wide bid/offer spreads. An inability, due to low trading volumes, to execute the trades necessary to replicate the Benchmark Index may also have adverse consequences on share subscription, conversion and redemption.

- Liquidity risk (secondary market)

The price of the Sub-fund's listed shares may deviate from the Sub-fund's indicative net asset value. The liquidity of the Sub-fund's shares traded on a given exchange may be adversely affected by a suspension in trading for various reasons, for example:

- i) the calculation of the Benchmark Index is suspended or stopped
- ii) the market(s) in the Benchmark Index's underlying assets is (are) suspended, and/or
- iii) an exchange cannot obtain or calculate the Sub-fund's indicative net asset value
- iv) a market maker fails to comply with an exchange's rules
- v) an exchange's IT, electronic or other system fails.

- Benchmark Index tracking risk

Replicating the performance of the Benchmark Index by investing in all of its constituents may prove to be very difficult to implement and costly. The Sub-fund manager may therefore use various optimization techniques, such as 'sampling', which consists in investing in a selection of representative securities (and not all securities) that constitute the Benchmark Index, in proportions that differ from those of the Benchmark Index or even investing in securities that are not index constituents or in derivatives. The use of such optimization techniques may increase the ex post tracking error and cause the Sub-fund to perform differently from the Benchmark Index.

- Counterparty risk

The Sub-fund may use derivative instrument financials (DFI) on an ancillary basis.

In this case, the Sub-fund will be exposed to the risk that a counterparty with which the Sub-fund has entered into a contract or transaction may go bankrupt or default on a settlement or other obligation. The Sub-fund will in particular be exposed to counterparty risk resulting from the use of DFI traded over the counter. In compliance with UCITS regulations, exposure to counterparty risk may not exceed 10% of the Sub-fund's total assets per counterparty.

Where Société Générale acts as the DFI counterparty, conflicts of interest may arise between the Sub-fund's Management Company and the DFI counterparty. The Management Company has procedures to identify and reduce such conflicts of interest and to resolve them equitably if necessary.

- Risk arising from securities financing transactions

If a borrower of securities defaults on its obligation there could be a risk that the value of the collateral received by the Sub-fund is less than the value of the securities lent. This risk could arise, for example, in the event of (i) an inaccurate valuation of the securities lent and/or (ii) unfavourable market movements and/or (iii) the lowering of the credit rating(s) of the issuer(s) of securities taken as collateral and/or (iv) the illiquidity of the market in which the collateral received is listed. If cash collateral is reinvested this could (i) result in leverage that entails a risk of loss and volatility and/or (ii) expose the Sub-fund to a market that is inappropriate for its investment objective, and/or (iii) generate less income than the amount of collateral the Sub-fund must repay. The Sub-fund could also fail to receive the securities lent by the date specified, which would diminish its capacity to accommodate investor redemptions.

- Risk that the investment objective is not fully achieved

There is no guarantee that the investment objective will be achieved, as no asset or financial instrument can ensure that the Benchmark Index will be automatically and continuously replicated, particularly in the event of one or more of the following risks:

- Risk of using derivative financial instruments

In order to secure the Benchmark Index returns and achieve its investment objective, the Sub-fund can enter into transactions involving over-the-counter derivative financial instruments (DFI), such as swaps. These DFI involve various risks, such as counterparty risk, hedging disruption, Benchmark Index disruption, taxation risk, regulatory risk, operational risk and liquidity risk. These risks can materially affect a DFI and could lead to an adjustment or even the early termination of the DFI transaction, which could affect the Sub-fund's net asset value.

- Risk due to a change in tax regime

A change in the tax regime of a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed could adversely affect the taxation of investors. In such an event, the Sub-fund manager shall not be liable to any investor with respect to any payment that may have to be made to a competent tax authority.

- Risk due to a change in the tax regime of the Sub-fund's underlying assets

A change in the taxation of the Sub-fund's underlying assets could adversely affect the taxation of the Sub-fund. As a result, in case of a discrepancy between the estimated taxes owed and the actual tax treatment applied to the Sub-fund (and/or to the Sub-fund's DFI counterparty), the Sub-fund's net asset value may be adversely affected.

- Regulatory risk exposure of the Sub-fund

In the event of a change in the regulatory regime in a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed, the subscription, conversion or redemption of the Sub-fund's shares may be adversely affected.

- Regulatory risk exposure of the Sub-fund's underlying assets

In the event of a change in the tax regime that applies to the Sub-fund's underlying assets, the Sub-fund's net asset value and the subscription, conversion or redemption of the Sub-fund's shares may be adversely affected.

- Benchmark Index disruption risk

In the event of a Benchmark Index disruption, the manager, acting in accordance with applicable laws and regulations, may have to suspend the subscription and redemption of the Sub-fund's shares. The calculation of the Sub-fund's net asset value could also be adversely affected.

If the disruption of the Benchmark Index persists, the Sub-fund manager will determine an appropriate course of action, which could decrease the Sub-fund's net asset value.

A 'Benchmark Index event' includes but is not limited to the following situations:

- i) the Benchmark Index is deemed to be inaccurate or does not reflect actual market developments
- ii) the Benchmark Index is permanently cancelled by the index provider
- iii) the index provider is unable to indicate the level or value of the Benchmark Index
- iv) The index provider makes a material change in the Benchmark Index calculation formula or method (other than a minor modification such as an adjustment to the Benchmark Index's underlying constituents or their respective weightings) which the Sub-fund cannot effectively replicate at a reasonable cost
- v) a Benchmark Index component becomes illiquid because it is no longer traded on a regulated market or because its trading over-the-counter (e.g. bonds) is disrupted
- vi) the Benchmark Index components are exposed to higher transaction costs for execution or settlement/delivery, or to specific tax constraints and these costs are not reflected in the Benchmark Index's performance.

- Corporate Action risk
An unforeseen change, by the issuer of a security that is a constituent of the Benchmark Index, in a planned corporate action that is in contradiction with a previous official announcement on which the Sub-fund based its valuation of the corporate action (and/or on which the Sub-fund's counterparty to a financial derivative instrument or transaction based its valuation of the corporate action) can adversely affect the Sub-fund's net asset value, particularly if the Sub-fund's treatment of the corporate event differs from that of the Benchmark Index methodology.

- Legal risk

The Fund may be exposed to a legal risk arising from a total return swap (TRS) agreement as indicated in EU Regulation No. 2015/2365.

ELIGIBLE INVESTORS AND TYPICAL INVESTOR PROFILE

The Sub-fund is available to all investors.

Investors in this Sub-fund are seeking exposure to increases and decreases in the prices of German government bonds.

The amount that can be reasonably invested in the Sub-fund depends on each investor's personal situation. To determine this amount, investors must take into account their personal wealth and/or estate, their cash requirements currently and for the next three years, and their willingness to take on risk or their preference for more prudent investment. Investors are also advised to diversify their investments sufficiently so as not to be exposed solely to this Sub-fund's risks.

All investors are therefore asked to consider their specific situation with the help of their usual investment advisor.

The recommended minimum investment horizon is three years.

CALCULATION AND APPROPRIATION OF DISTRIBUTABLE AMOUNTS

Acc share class: All amounts available for distribution are reinvested.

DISTRIBUTION FREQUENCY

N/A

SHARE CHARACTERISTICS

Subscription orders may be placed for a monetary amount or for a number of shares
A whole number of shares must be redeemed.

CURRENCY

Euros.

SUBSCRIPTION AND REDEMPTION

1. SUBSCRIPTION AND REDEMPTION ON THE PRIMARY MARKET

Subscription/redemption requests for shares in the Sub-fund will be processed by the Depositary from 10:00 am and 5.00 pm (Paris time), every day that the Sub-fund's net asset value is to be published, provided that prices can be quoted for a significant proportion of the Benchmark Index components (hereinafter a "Primary Market Day") and will be executed at the net asset value on that Primary Market Day (hereinafter the "reference NAV"). Subscription/redemption orders submitted after 5.00 pm (Paris time) on a Primary Market Day will be processed as if received from 10:00 am to 5.00 pm (Paris time) on the following Primary Market Day. Orders to subscribe for or redeem shares in the Sub-fund must be made for a minimum amount of at least 100,000 euros.

Subscriptions and redemptions in cash

Subscriptions and redemptions shall be made exclusively in cash and executed at the ref NAV.

Delivery and settlement

Delivery and settlement of subscriptions and redemptions shall be completed within five French business days after the subscription or redemption order is received.

Date and frequency of NAV calculation:

The net asset value will be calculated and published daily, provided that at least one exchange on which the Sub-fund's shares are listed is open and that orders placed in the primary and secondary markets can be funded.

The Sub-fund's net asset value is calculated using the Benchmark Index's closing price.

The net asset value of a share class that is denominated in another currency than the Sub-fund's accounting currency (if applicable) is calculated using the exchange rate between the accounting currency and the currency of the share class, at the applicable WM Reuters rate on the date the reference NAV is calculated.

2. PURCHASES AND SALES ON THE SECONDARY MARKET

A. COMMON PROVISIONS

For any purchase or sale of shares in the Sub-fund made directly on an exchange on which the Sub-fund is admitted or will be admitted for continuous trading, no minimum purchase or sale amount is required other than that which may be required by the relevant exchange(s).

Shares in a listed Sub-fund acquired on the secondary market cannot generally be directly resold to the Sub-fund. Investors must therefore buy and sell their shares on a secondary market through an intermediary (e.g. a broker) and may consequently incur costs. Furthermore, there is a possibility that investors may pay more than the indicative net asset value when buying shares and receive less than the indicative net asset value when selling shares.

If the stock market value of the Sub-fund's shares differs significantly from its indicative net asset value, or if the listing of the Sub-fund's shares is suspended, investors may be authorised, subject to the conditions set out below, to redeem their shares on the primary market directly from the Sub-fund, without being subject to the minimum redemption amount requirement specified herein in the section entitled "Subscription and Redemption fees (charged only on primary market transactions)".

The management company shall decide whether to allow such primary market redemptions and for how long, on the basis of the following criteria for assessing the significance of a market disruption:

- The suspension or strong disturbance of secondary trading on a given exchange is relatively frequent
- The link between the market disruption and secondary market operators (such as the default of one or more of the Market Makers of a given exchange, or a breakdown or malfunction of an exchange's IT or operating systems), excluding a disruption caused by a source external to the secondary exchange on which the Sub-fund's shares are traded, such as an event that affects the liquidity and valuation of all or some of the Benchmark Index's constituents
- Any other objective circumstance that could adversely affect the fair treatment and/or the interests of the Sub-fund's shareholders.

Redemptions made in the primary market in this case shall only be subject to a redemption fee paid to the Sub-fund and which serves to cover its trading costs. The redemption fee that is not kept by the Sub-fund will normally not be charged.

In such exceptional cases when redemption in the primary market is allowed, the Management Company shall post on Lyxor's website at www.lyxoret.com the procedure that investors must observe to redeem their shares in the primary market. The Management Company shall also make this procedure available to the market undertaking that handles trading in the Sub-fund's shares.

B. SPECIFIC PROVISIONS

- a) If the Sub-fund's shares are listed on Euronext Paris, as indicated in the "Key Information" part of the "General Characteristics" section of the Fund's prospectus, investors should note the following rules:

Negotiability of shares and information about the financial institutions acting as Market Makers:

The shares are freely negotiable on the Euronext Paris regulated market under the following conditions and pursuant to the applicable laws and regulations.

The Sub-fund shares will be listed on a specific trading list, the rules for which are defined in the following instructions published by Euronext Paris SA:

- Instruction No. 4-01 "Universal Trading Platform Manual"
- Appendix to Instruction N4-01 (Appendix to the Euronext Market Trading Manual)
- Instruction No. 6-04 "Documentation to be provided when filing a listing application for an ETF, ETN, ETV and open-ended undertakings for collective investment other than ETFS"

Pursuant to article D 214-22-1 of the French Monetary and Financial Code the units or shares of undertakings for collective investments in transferable securities may be admitted to trading, provided that these undertakings have a system to ensure that the market price of their units or shares does not differ significantly from their net asset value. Under Euronext Paris SA's rules trading in the Sub-fund's shares is also subject to a 'reservation threshold' of 1.5% above or below the Sub-fund's

indicative net asset value or "iNAV" (see the "Indicative Net Asset Value" section), as published by Euronext Paris SA and updated on an estimated basis during trading in accordance with the change in the Benchmark Index.

To comply with Euronext Paris SA's reservation threshold requirement (see the section entitled "Indicative Net Asset Value") the Market Makers will ensure that the market price of the Sub-fund's shares does not differ from the Sub-fund's indicative Net Asset Value by more than 1.5%.

Euronext Paris SA may suspend trading in the Sub-fund's shares pursuant to the terms of its operating rules, if the aforementioned reservation threshold limit is exceeded.

Euronext Paris SA will also suspend trading in the Sub-fund's shares in the following cases:

- the Benchmark Index is no longer traded or calculated
- Euronext Paris SA cannot obtain the Benchmark Index's level
- Euronext Paris SA cannot obtain the Sub-fund's net asset value

In accordance with the terms and conditions governing admission to trading on Euronext Paris, the Market Makers undertake to provide market-making services for the Sub-fund's shares as soon as they are admitted to trading on the Euronext Paris exchange.

In particular, the Market Makers undertake to carry out market-making operations by maintaining a significant presence in the market, which initially entails the setting of a bid/ask spread.

More specifically, the Market Makers are required by contract with Euronext Paris SA to ensure that the Sub-fund maintains:

- a total spread of no more than 2% between the bid and ask prices in the central order book.
- a minimum nominal trading value of EUR 100,000.

The obligations of the Sub-fund's Market Makers will be suspended in the following cases:

- the Benchmark Index is no longer listed or calculated
- The Market Maker's obligations will be suspended if trading is substantially disrupted, for example due to a widespread shift in prices or an event that makes normal market making impossible.

Indicative Net Asset Value

Euronext Paris will calculate and publish, each Trading Day (as defined below) and during trading hours, the Sub-fund's indicative net asset value (hereinafter "iNAV"). The iNAV is a measure of the intra-day value of the Sub-fund's net asset value based on the most recent data. The iNAV is not the value at which investors buy and sell shares in the Sub-fund on the secondary market.

A "**Trading Day**" is a day on which NSYE Euronext is normally open and on which the Benchmark Index is normally published.

The Sub-fund's iNAV is a theoretical net asset value calculated every 15 seconds by Euronext SA throughout the Paris trading day and is based on the level of the Benchmark Index. The iNAV enables investors to compare the prices that the Market Makers offer on the market with the theoretical value calculated by Euronext.

The iNAV will be calculated every day that the net asset value is normally calculated and published.

To calculate the Sub-fund's iNAV throughout the Paris trading session (9: 05 am to 5: 35 pm), Euronext Paris SA will use the Benchmark Index value published by Reuters.

If one or more stock exchanges on which the Benchmark Index's constituent securities are listed are closed (on a public holiday as indicated on the TARGET calendar) and if the calculation of the iNAV proves impossible, trading in the Sub-fund's shares may be suspended.

Lyxor International Asset Management, the Sub-fund's management company, will provide Euronext Paris SA with all the financial and accounting data it needs to calculate the Sub-fund's iNAV and in particular:

- The day's estimated net asset value
- The official net asset value of the previous business day
- The level of the Benchmark Index on the previous business day.

These data will serve as a basis for Euronext Paris SA's calculations to determine the Sub-fund's iNAV in real time the following Trading Day.

Additional information about the indicative net asset value of a share listed on a regulated market may, depending on the terms and limits set by the relevant market undertaking, be provided on the website of the exchange where the share is listed. This information is also available on the Reuters or Bloomberg pages dedicated to the particular share. Additional information about the Bloomberg and Reuters codes for the indicative net asset values of all UCITS ETF type share classes is also available in the "Term Sheets" section of Lyxor's website at www.lyxoretf.com.

b) If the shares are listed on an exchange other than Euronext Paris, as indicated in the "Key Information" section, investors should note the following rules:

Investors wishing to acquire shares in the Sub-fund or obtain more information regarding the market-making terms that govern the listing and trading of shares on exchanges such as indicated in the "Key Information" section are advised to familiarize themselves with the guidelines laid down by the relevant market undertaking, in compliance with local regulations, and to seek if necessary the assistance of their usual broker(s) for executing trades on the relevant exchange(s).

FEES AND CHARGES

SUBSCRIPTION AND REDEMPTION FEES (CHARGED ONLY ON PRIMARY MARKET TRANSACTIONS)

Subscription and redemption fees increase the subscription price paid by investors and reduce the redemption price. Fees kept by the Sub-fund compensate it for the expenses it incurs in investing in the Sub-fund's assets or in divesting these assets. Any fees that are not kept by the Sub-fund are paid to the asset manager, the marketing agent or other service provider.

Fees paid by investors upon subscription or redemption	Base	Maximum charge
Subscription fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per subscription order or 5% of the net asset value per share multiplied by the number of shares subscribed, payable to third parties
Subscription fee kept by the Sub-fund	NAV per share x number of shares	0.05%
Redemption fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per redemption request or 5% of the net asset value per share multiplied by the number of shares subscribed, payable to third parties
Redemption fee kept by the Sub-fund	NAV per share x number of shares	0.05%

OPERATING AND MANAGEMENT FEES

These fees cover all the costs invoiced directly to the Sub-fund, except for transaction expenses, which include intermediary fees (brokerage, stock market taxes etc.) and any account activity charge that may be charged by the depositary or the management company.

For this Sub-fund the following fees may be charged in addition to the operating and management fees (see table below):

- incentive fees, which the management company receives when the Sub-fund exceeds its objectives. They are therefore paid by the Sub-fund.
- account activity charges charged to the Sub-fund.

For more information on the fees or expenses that the Sub-fund must pay, see the Statistics section of the Key Investor Information Document (KIID).

Fees charged to the Sub-fund	Base	Maximum charge
Investment management fees and administration fees that are external to the management company (auditor, depositary, fund distribution and legal fees) including tax ⁽¹⁾	Net asset value	0.10% per annum
Account activity charge	On each transaction	N/A
Incentive fee	Net asset value	N/A

⁽¹⁾ Includes all fees and expenses except for transaction expenses, incentive fees and fees associated with investment in UCITS.

COMMERCIAL INFORMATION

Distribution of this prospectus and the offering or purchase of the Fund's share classes may be subject to restrictions with regard to certain persons or in certain countries by virtue of national regulations applying to these persons or countries.
Investors are therefore responsible for ensuring that they are authorized to subscribe to or invest in this Fund. The information in this prospectus therefore cannot be construed to be an offer or solicitation to buy or sell shares in this Fund in a country where such offer or solicitation is unlawful.

The Fund's share classes will not be registered pursuant to the U.S. Securities Act of 1933, as amended (the "U.S. Securities Act") and cannot be offered, assigned, transferred or allocated to the United States of America, or to:

- (A) any "U.S. Person", as this term is defined (i) under Regulation S of the US Securities Act of 1933 and (ii) under U.S. regulations as defined in Section 7701 (a) (30) of the Internal Revenue Code of 1986 as amended. The Fund's shares will not be offered to U.S. Persons.
- (B) anyone other than those persons considered to be "non-US Persons" as this term is defined under U.S. regulations pursuant to the Commodity Futures Trading Commission, Rule 4.7 (a) (1) (iv).

The Fund's shares will only be offered for sale outside of the United States of America to non-U.S. Persons.

For the purpose of this document, the term "U.S. Person" shall mean, among other things, any individual who resides in the United States of America, any entity organized or formed under the laws of the United States of America, certain entities organized or formed outside of the United States of America by one or more U.S. persons, or any account held on behalf of such a U.S. person.

Before making an investment in this Fund or Sub-fund, investors should seek the advice of their financial, tax and legal advisers.

PLACE AND METHOD OF NET ASSET VALUE PUBLICATION OR COMMUNICATION

At the head office of LYXOR INTERNATIONAL ASSET MANAGEMENT, at 17, cours Valmy - 92987 Paris La Défense CEDEX - France.
The Sub-fund's indicative net asset value will be calculated and published by Euronext Paris SA every Paris Trading Day, during trading hours.

IMPORTANT INFORMATION ABOUT THE BENCHMARK INDEX PROVIDER

The Markit Iboxx EUR Germany 1-3 Mid Price TCA index ("the Index") referred to here is the property of Markit Indices Limited. (the "Index Sponsor") and is used under license for the Lyxor UCITS ETF iBoxx Germany 1-3Y sub-fund. Lyxor International Asset Management recognizes and accepts that the Sub-fund is not sponsored, approved nor promoted by the Index Sponsor. The Index Sponsor makes no explicit or implicit commitment of any type whatsoever and expressly refuses to be bound by any warranty or guarantee in relation to the Index (with respect, for example, to its commercial value or suitability for a specific purpose) or to any data in the Index or in connection therewith, and in particular provides no warranty or guarantee with respect to the quality, accuracy and/or completeness of the Index or of its related data, to the results that may be obtained from using the Index, to the Index's composition at any given date or time, to the credit-worthiness of any issuing entity, or to any credit or similar event (however so defined) pertaining to a bond that is a constituent of the Index at any given date or time.

The Index Sponsor shall not be liable to anyone whomsoever for an error in the Index (even in the event of negligence or for any other reason) and shall not be required to inform anyone in the event of such an error.

The Index Sponsor provides no recommendation, or expressed or implied, to buy or sell shares in the Sub-fund, and expresses no opinion on whether the Index is capable of replicating the performance of the relevant markets, or on the Index itself or on any transaction or product in relation thereto, or on any risks associated therewith. The Index Sponsor shall under no circumstance be required to take into consideration the needs of any third party when determining or modifying the composition of the Index or calculating the Index. No third party, nor the Index Sponsor, shall be liable to any other third party for any act or omission on the part of the Index Sponsor in relation to the determination, modification, calculation or maintenance of the Index.

ADDITIONAL INFORMATION

The Sub-fund's shares are admitted for clearing by Euroclear France S.A.

Subscription and redemption orders must be sent by the investors' financial intermediaries (Euroclear France SA members) to the Depositary.

The Multi Units France fund prospectus, the Key Investor Information Documents and the most recent annual reports will be sent to investors within eight business days upon written request to:

LYXOR INTERNATIONAL ASSET MANAGEMENT
17 Cours Valmy - 92987 Paris La Défense France.

E-mail: contact@lyxor.com

More information can also be requested from Lyxor International Asset Management on its website at www.lyxoretf.com.

Prospectus publication date: see the "*Publication date*" section.

Pursuant to Article L.533-22-1 of the French Monetary and Financial Code, information concerning the asset manager's possible inclusion of social, environmental and corporate governance objectives and performance criteria in its investment policy is available on the asset manager's website and in the Sub-fund's annual report.

The AMF's website (www.amf-france.org) contains additional information on the list of regulatory documents and all the provisions relating to investor protection.
This Prospectus must be made available to investors prior to subscription.

INVESTMENT RULES

The Sub-fund will comply with the investment rules of European Directive 2009/65/EC of 13 July 2009.

The Sub-fund may invest in the assets specified in Article L214-20 of the French Monetary and Financial Code, subject to the risk-diversification and investment ratio requirements of Articles R214-21 to R214-27 of said Code.

Notwithstanding the 10% limit under Paragraph II of Article R214-21 of the French Monetary and Financial Code, the Sub-fund may invest up to 20% of its assets in the equities and debt securities of a single issuer, in compliance with Article R214-22-I, which deals with index-tracking funds. Pursuant to Article R214-22 II, the Sub-fund may also increase this 20% limit for a single issuer to 35%, when this is justified by exceptional market conditions, and in particular when certain securities are largely dominant.

Notwithstanding the above, securities guaranteed or issued by a given issuer can account for up to 35% of assets and up to 100% if the Sub-fund holds at least six issues of which none exceeds 30% of assets, provided that these securities are financial instruments issued or guaranteed by an OECD member state, the local authorities of a European Union member state or a country that is a member of the European Economic Area.

OVERALL RISK EXPOSURE

The commitment approach is used to calculate overall risk exposure.

ASSET VALUATION AND ACCOUNTING RULES

A. VALUATION RULES

The Sub-fund's assets are valued in accordance with applicable laws and regulations and most notably Regulation No. 2014-01 of 14 January 2014 of the Comité de la Réglementation Comptable (the Accounting Regulations Committee), which applies to the chart of accounts for undertakings for collective investment in transferable securities.

Financial instruments traded on a regulated market are valued at the closing price recorded on the day prior to the calculation of the net asset value. If these financial instruments are traded on several regulated markets at the same time, the closing price used is that recorded on the regulated market on which they are principally traded.

However, in the absence of significant trading on a regulated market, the following financial instruments are valued using the following methods:

- Negotiable debt securities ("NDS") with a remaining life upon acquisition that is less than or equal to three months are valued by applying the difference between the acquisition value and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- NDS with a remaining life of more than three months upon acquisition but less than or equal to three months at the net asset value calculation date are valued by applying the difference between the most recent valuation and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- NDS with a remaining life at the net asset value calculation date that exceeds three months are valued at their current value. The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- Financial futures traded on organised markets are valued at the clearing price on the day prior to the calculation of the net asset value. Options traded on organised markets are valued at their market price on the day prior to the calculation of the net asset value. Forward contracts and over-the-counter options are valued at the price quoted by the counterparty. The management company monitors these prices independently.
- Bank deposits are valued at their nominal value plus accrued interest.
- Warrants, short and medium-term notes (bons de caisse), promissory notes and mortgage notes are valued under the management company's responsibility at their most likely trading value.
- Securities financing transactions are valued at the market price.
- Shares and units in UCITS under French law are valued at the last known net asset value on the day the Sub-fund's net asset value is calculated.
- Shares and units in foreign investment funds are valued at the last known net asset value at the date the Sub-fund's net asset value is calculated.
- Financial instruments traded on a regulated market and for which no price has been quoted or whose price has been corrected, are valued under the management company's responsibility at their most likely trading value.
- The exchange rates used to value financial instruments denominated in currencies other than the Sub-fund's reference currency are the exchange rates provided by WM Reuters on the day on which the Sub-fund's net asset value is calculated.

B. ACCOUNTING METHOD FOR TRADING EXPENSES

Trading expenses are included in the initial cost of the transaction.

C. ACCOUNTING METHOD FOR INCOME FROM FIXED-INCOME SECURITIES

Income from fixed-income securities is accounted for using the cash-basis method.

D. DISTRIBUTION POLICY

For more information see the section entitled "Calculation and appropriation of Distributable amounts"

E. ACCOUNTING CURRENCY

The Sub-fund's accounts are kept in euros

SUB-FUND NO. 26: Lyxor Barclays Floating Rate Euro 0-7Y UCITS ETF

A SICAV SUB-FUND COMPLIANT WITH DIRECTIVE 2009/65/CE

ISIN CODES

Acc shares: FR0012386696
Dist shares: FR0012386704

CLASSIFICATION

Bonds and other debt securities denominated in euros.

The Lyxor Barclays Floating Rate Euro 0-7Y UCITS ETF sub-fund (hereinafter the “**Sub-fund**”) is continuously exposed to euro-denominated debt securities. Exposure to equity risk does not exceed 10% of net assets.

The Sub-fund is a UCITS ETF index-tracker.

INCEPTION DATE

The Sub-fund was approved by l'autorité des Marchés Financiers (the French financial markets authority) on 16/12/2014 and will be established on 07/01/2015.

INVESTMENT OBJECTIVE

The Sub-fund’s investment objective is to replicate the performance, whether positive or negative, of the “Barclays Euro Corporate FRN 0-7Y Enhanced Duration index”(hereinafter the “**Benchmark Index**”) denominated in Euros and representative of the performance of corporate floating-rate debt securities nominated in euros and having a residual maturity of less than seven years.

The expected ex-post tracking error under normal market conditions is 0.08%.

BENCHMARK INDEX

The Benchmark Index is a “Total Return” type index (i.e. all coupons detached by the components of the index are reinvested in the Benchmark Index).

The Benchmark Index is denominated in euros.

The Benchmark Index is calculated by Barclays Capital.

The Benchmark Index provides exposure to floating-rate corporate debt securities denominated in euros and having a residual maturity of one month to seven years. The weight of each index component is proportional to the market value of securities in circulation, and is then adjusted such that 50% of the index will be invested in eligible securities with a residual maturity of no more than three years and the remaining 50%in eligible securities with a residual maturity of three to seven years inclusive.

To be eligible for the Benchmark Index, a debt securitymust meet the following criteria:

- Have a median credit rating of at leastBBa3/BBB-/BBB- (“investment grade”), among the Moody’s, S&P and Fitch ratings
- Have a residual maturity of at least one month and less than seven years
- Have a nominal value in circulation of at least 750 million euros
- Have been issued less than two years ago
- Be one of the following four types:
 - floating-rate and linked to 3-month Euribor
 - step-up notes and bonds
 - callable
 - bullet.
- Perpetual bonds are not eligible.

A full description of the Benchmark Index and its construction methodology and information on the composition and respective weightings of the Benchmark Index components are available on the Internet at www.barcap.com/indices

The performance tracked is that of the Benchmark Index’s closing price at 5.00 pm (CET).

Benchmark Index publication

The Benchmark Index price is fixed daily and available through Bloomberg.

Bloomberg code: BFRDTREU

The Benchmark Index’s closing price is available on the Internet at www.barcap.com/indices

Benchmark Index composition and revision

The Benchmark Index is revised monthly.

The frequency of this rebalancing will have an impact on the Sub-fund’s costs and could therefore diminish its performance.

A full description of the Benchmark Index and its construction methodology and information on the composition and respective weightings of the Benchmark Index components are available on Barclay Capital’s website atwww.barcap.com/indices

Pursuant to Article 52 of European Parliament and Council Regulation 2016/1011 of 8 June 2016, Barclays Capital, the administrator of the Barclays Euro Corporate FRN 0-7Y Enhanced Duration benchmark index, has until 1 January 2020 to apply for approval or registration as applicable.

As of the date of the most recent version of this prospectus, the benchmark index administrator was not yet listed in ESMA’s register of benchmark administrators.

Pursuant to European Parliament and Council Regulation 2016/1011 of 8 June 2016, the asset management company has a procedure for monitoring the benchmark indices used that specifies the measures to be implemented if an index is substantially modified or is no longer provided.

INVESTMENT STRATEGY

1.Strategy employed

The Sub-fund will comply with the investment rules of European Directive 2009/65/EC of 13 July 2009.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund will employ an indirect replication method, which means that it will enter into one or more OTC swap contracts enabling it to achieve its investment objective. These swap contracts will serve to exchange the value of the Sub-fund's assets, which will consist of cash and/or balance sheet assets (excluding any securities received as collateral), for the value of the securities that underlie the Benchmark Index.

The Sub-fund will mainly invest in bonds issued by eurozone governments having the highest credit quality.

The basket of securities held may be adjusted daily such that its value will generally be at least 100% of the net assets. When necessary, this adjustment will be made to ensure that the counterparty risk arising from the aforementioned swap contract will be neutralized.

Investors may find more information on the above eligibility and diversification criteria on Lyxor's website at www.lyxoretf.com. Information on the updated composition of the basket of 'balance sheet' assets in the Sub-fund's portfolio and the value of the swap contract concluded by the Sub-fund, is available on the page dedicated to the Sub-fund on Lyxor's website at www.lyxoretf.com. The frequency of any updates and/or the date on which the aforementioned information is updated is also indicated on the same page of the aforementioned website.

Up to 20% of the Sub-fund's assets may be exposed to debt issued by a non-sovereign entity. This 20% limit will be checked on each rebalancing date for the Benchmark Index, by applying the method for calculating the Benchmark Index, which limits exposure to each component to 20%, this calculation being made by the Benchmark Index sponsor or calculation agent. This 20% limit can be increased to 35% for a single non-sovereign issuer, when this is justified by exceptional market conditions and in particular when certain securities are largely dominant, or a debt issue is highly volatile, or a political and/or economic event has affected or may affect the estimated debt of an issuing country or its credit rating, or in any other event that is likely to affect the liquidity of a Benchmark Index security.

Sub-fund's targeted interest-rate sensitivity:	From 1 to 7
Currencies in which the Sub-fund's securities are denominated:	Euro: 100% of net assets Other: 0% of net assets
Foreign exchange risk to which the Sub-fund is exposed:	0% maximum of net assets.
Geographic regions of the issuers of the securities to which the Sub-fund is exposed:	Eurozone: 100% of net assets Emerging countries: 0% of net assets

2. Balance sheet assets (excluding embedded derivatives)

The Sub-fund may invest in global bonds, in compliance with regulatory ratios.

These securities will be bonds selected largely on the basis of the following eligibility criteria:

- senior debt
- fixed maturity
- maximum residual maturity
- minimum issuance size
- minimum S&P or equivalent credit rating
- diversification criteria, and in particular:
 - the issuer (application of investment ratios to assets that qualify for UCITS, pursuant to Art. R214-21 of the French Monetary and Financial Code)
 - geographic
 - sector

Investors may find more information on the above eligibility and diversification criteria, and in particular the list of eligible indices, on Lyxor's website at www.lyxoretf.com.

Investment in undertakings for collective investment in transferrable securities ("UCITS") that comply with Directive 2009/65/EC is limited to 10% of the Sub-fund's net assets.

The fund manager will not invest in the shares or units of alternative investment funds (AIF) or other investment funds that were formed under a foreign law. The Sub-fund may invest in the shares of UCITS managed by its asset manager or by a company that is related thereto.

When the Fund receives collateral in the form of securities, subject to the terms of section 8 below, it acquires full title to these securities and they are therefore included among the balance sheet assets to which it has full title.

To optimize the Sub-fund's management and achieve its investment objective, the asset manager reserves the right to use other financial instruments, in compliance with regulations.

3.Off-balance sheet assets (derivatives)

The Sub-fund will use OTC index-linked swaps that swap the value of the Sub-fund's assets (or the value of any other financial instrument or asset the Sub-fund may hold) for the value of the Benchmark Index (as described in part 1 of this section).

- Maximum proportion of assets under management for which total return swaps (TRS) may be entered into: 100%.
- Expected proportion of assets under management for which total return swaps (TRS) may be entered into: up to 100%.

To optimize the Sub-fund's management and achieve its investment objective, the manager reserves the right to use other financial instruments in compliance with regulations, such as derivative instruments other than index-linked swaps.

In accordance with its best execution policy, the management company considers that Société Générale is the counterparty that is generally able to obtain the best possible execution for these derivative financial instruments. Accordingly, these derivative financial instruments (including index-linked swaps) may be traded via Société Générale without having to seek a competitive bid from another counterparty.

The Sub-fund may only select a counterparty to a futures or forward contract that is a leading financial institution that is authorized to enter into such contracts for its own account.

The counterparty of the derivative financial instruments referred to above (the “**Counterparty**”) will have no discretionary power over the composition of the Sub-fund's portfolio nor over the underlying assets of the derivative financial instruments.

4. Securities with embedded derivatives

N/A.

5. Cash deposits

In order to optimize its cash management, the Sub-fund may deposit up to 20% of its assets in the form of cash with credit institutions that belong to the same group as the depositary.

6. Cash borrowing

The Sub-fund may temporarily borrow up to 10 % of its net assets.

7. Securities financing transactions

The manager shall not engage in any temporary purchases or sales of securities.

8. Collateral

Whenever the investment strategy exposes to the Sub-fund to counterparty risk, and in particular when the Sub-fund uses over-the-counter swaps, the Sub-fund may accept eligible securities as collateral to reduce the counterparty risk associated with these swaps. The portfolio of collateral received may be adjusted daily to ensure that its value is at least sufficient to cover the Sub-fund's counterparty risk in most cases. The purpose of this adjustment is to neutralize the Sub-fund's counterparty risk.

The Sub-fund will have full title to all collateral received, which will be deposited in the Sub-fund's account with the depositary. This collateral will therefore be included in the Sub-fund's assets. If a counterparty defaults on an obligation, the Sub-fund may dispose of the assets received from the counterparty in respect of the secured transaction to pay off the the counterparty's debt to the Sub-fund.

All collateral the Sub-fund receives for this purpose must comply with the applicable laws and regulations, with respect in particular to the liquidity and valuation of the collateral, the credit-worthiness of securities issuers, risk exposure correlation and the risks of collateral management and enforceability. All collateral received must in particular meet the following criteria:

- (a) All collateral must be of high quality, be highly liquid and tradable on a regulated market or on a multilateral trading facility, with transparent pricing to enable the collateral to be rapidly sold near its estimated price;
- (b) This collateral must be valued at its mark-to-market price at least daily and assets with highly volatile prices are not acceptable as collateral, unless a sufficiently prudent discount or “haircut” is applied;
- (c) The issuer of this collateral must be independent of the counterparty and must not be closely correlated with the counterparty's financial performance;
- (d) This collateral must be sufficiently diversified by country, market and issuer, and no exposure to a single issuer may exceed 20 % of the Sub-fund's net asset value;
- (e) The Sub-fund's Management Company must be able to enforce this collateral in full and at any time, without having to consult with the counterparty or obtain its approval.

Notwithstanding the condition specified in (d) above, the Fund may accept a basket of securities collateral that increases its exposure to a single issuer to more than 20% of its net asset value provided that:

- such securities collateral is issued by (i) a Member State, (ii) one or more of a Member State's local authorities, (iii) a country that is not a Member State (iv) a public international organization to which one or more Member States belong; and;
- such securities collateral consists of at least six different issues of securities of which no single issue exceeds 30% of the Sub-fund's assets.

Subject to the above conditions, the Sub-Fund may take collateral in the following forms:

- (i) Cash and cash-equivalent assets, which for example include short-term bank deposits and balances and money-market instruments;
- (ii) Bonds issued or guaranteed by an OECD member state, or by its local government entities, or by an EU, regional or global supranational institution or organisation, or by any country provided that conditions (a) to (e) above are fully complied with;
- (iii) Shares or units issued by money-market funds that calculate a daily net asset value and have an AAA or equivalent credit rating;
- (iv) The shares or units of UCITS that invest mainly in the bonds and/or equities indicated in (v) and (vi) below;
- (v) Bonds issued or guaranteed by first-class issuers offering sufficient liquidity;
- (vi) Equities admitted for trading or traded on a regulated exchange of an EU member country, on a stock exchange of an OECD member country or on a stock exchange of another country provided that conditions (a) to (e) above are fully complied with and that these equities are components of a major index.

Collateral discount policy:

The Sub-fund's management company shall apply a discount to the collateral accepted by the Sub-fund. The amount of these discounts will depend mainly on the following:

- The nature of the collateral asset;

- The collateral's maturity (if applicable);
- The credit rating of the collateral issuer (if applicable).

Reinvestment of collateral:

The collateral received will not be sold, reinvested or pledged.

At the manager's discretion, cash collateral may either be:

- (i) deposited with an authorised institution
- (ii) invested in high-quality government bonds
- (iii) used for reverse repurchase transactions, provided that these are entered into with credit institutions that are subject to prudential supervision and that the fund is able to withdraw the total amount of its cash collateral and the accrued interest at any time;
- (iv) invested in short-term money-market funds as defined in the guidelines for a common definition of European money-market funds.

All cash collateral that is reinvested must be invested in a diversified manner in compliance with the rules that apply to the acceptance of non-cash collateral.

RISK PROFILE

Investors' money will be invested mainly in the financial instruments selected by the asset manager. These instruments are subject to market trends and contingencies.

Investors in the Sub-fund will mainly be exposed to the following risks:

- Interest rate risk

The price of a bond can be affected by unexpected changes in the level of interest rates, which in particular may modify the shape of the yield curve in particular. The bonds that make up the Benchmark Index are exposed to changes in interest rates. In general, the price of a bond rises when interest rates fall, and falls when interest rates rise.

- Capital risk

The capital invested is not guaranteed. Investors therefore may not recover all or part of their initial investment, particularly in the event that the Benchmark Index posts a negative return over the investment period.

- Credit risk

The Sub-fund could be adversely affected by a lowering of the credit rating of one or more issuers of a bond in the Benchmark Index. This could mean a higher risk that such an issuer might default and could decrease the bond's value.

- Liquidity risk (primary market)

The Sub-fund's liquidity and/or value may be adversely affected if, when the Sub-fund or a counterparty to a financial derivative instrument (**DFI**) is rebalancing its exposure, the underlying financial markets are restricted, closed, or subject to large bid/offer spreads. An inability, due to low trading volumes, to execute trades associated with the replication of the Benchmark Index may also adversely affect share subscription, conversion and redemptions.

- Liquidity risk (secondary market)

The price of the Sub-fund's listed shares or units may deviate from the Sub-fund's indicative net asset value. The liquidity of shares or units traded on a given exchange may be adversely affected by a suspension in trading for various reasons, for example:

- i) the calculation of the Benchmark Index is suspended or stopped
- ii) trading in the market(s) in the Benchmark Index's underlying assets is suspended
- iii) an exchange cannot obtain or calculate the Sub-fund's indicative net asset value
- iv) a market maker fails to comply with an exchange's rules
- v) an exchange's IT, electronic or other system fails.

- Counterparty risk

The Sub-fund is exposed to the risk that a counterparty with which the Sub-fund has entered into a contract or transaction may go bankrupt or default on a settlement or other obligation. The Sub-fund is in particular exposed to counterparty risk resulting from the use of derivative financial instruments (DFI) traded over the counter with Société Générale or some other counterparty. In compliance with UCITS regulations, exposure to counterparty risk (whether the counterparty is Société Générale or another entity), cannot exceed 10% of the Sub-fund's total assets per counterparty.

If a counterparty defaults on an obligation the DFI contract may be terminated before maturity. The Sub-fund will do everything in its power to achieve its investment objective by, if appropriate, entering into another DFI contract with another counterparty at the market conditions at the time of such an event.

If this counterparty risk materializes it could have an impact on the Sub-fund's ability to achieve its investment objective of replicating the Benchmark Index.

When Société Générale is the DFI counterparty, conflicts of interest may arise between it and the Sub-fund's management company, which has procedures to identify and reduce such conflicts of interest and to resolve them equitably if necessary.

- Risk that the investment objective may not be fully achieved

There is no guarantee that the investment objective will be achieved, as no asset or financial instrument can ensure that the Benchmark Index will be automatically and continuously replicated, particularly in the event of one or more of the following risks:

- Risk of using derivative financial instruments

In order to achieve its investment objective, the Sub-fund can enter into transactions involving over-the-counter derivative financial instruments (DFI), such as swaps, in order to secure the performance of the Benchmark Index. These DFI involve various risks, such as counterparty risk, hedging disruption, Benchmark Index disruption, taxation risk, regulatory risk, operational risk and liquidity risk. These risks can materially affect anDFI and could lead to an adjustment or even the early termination of the DFI transaction, which could affect the Sub-fund's net asset value.

- Risk due to a change in the tax regime

A change in the tax regime of a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed could adversely affect the taxation of investors. In such an event, the Sub-fund manager shall not be liable to any investor with respect to any payment that may have to be made to a competent tax authority.

- Risk of a change in the taxation of the Sub-fund's underlying assets

A change in the taxation of the Sub-fund's underlying assets could adversely affect the taxation of the Sub-fund. In such an event a discrepancy between the estimated taxation and the actual taxation of the Sub-fund and/or of the Sub-fund's DFI counterparty may adversely affect the Sub-fund's net asset value.

- Regulatory risk affecting the Sub-fund

In the event of a change in the regulatory regime in a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed, the subscription, conversion or redemption of shares or units may be adversely affected.

- Regulatory risk affecting the Sub-fund's underlying assets

In the event of a change in the regulations that govern the Sub-fund's underlying assets, the Sub-fund's net asset value and the subscription, conversion or redemption of shares or units may be adversely affected.

- Benchmark Index disruption risk

If an event adversely affects the Benchmark Index, the Sub-fund manager may be required, as provided for by law, to suspend the subscription and redemption of the Sub-fund's shares or units. The calculation of the Sub-fund's net asset value could also be adversely affected.

If the disruption of the Benchmark Index persists, the Sub-fund manager will determine an appropriate course of action, which could decrease the Sub-fund's net asset value.

A "Benchmark Index event" includes but is not limited to the following situations:

- i) the Benchmark Index is deemed to be inaccurate or does not reflect actual market developments
- ii) the Benchmark Index is permanently cancelled by the index provider
- iii) the index provider is unable to indicate the level or value of the Benchmark Index,
- iv) The index provider makes a material change in the Benchmark Index calculation formula or method (other than a minor modification such as an adjustment to the Benchmark Index's underlying components or their respective weightings) which the Sub-fund cannot effectively replicate at a reasonable cost.
- v) a Benchmark Index component becomes illiquid because it is no longer traded on a regulated market or because its trading over-the-counter (e.g. bonds) is disrupted
- vi) the Benchmark Index components are exposed to higher transaction costs for execution or settlement/delivery, or to specific tax constraints and these costs are not reflected in the Benchmark Index's performance.

- Corporate action risk

An unforeseen change, by the issuer of a security that is a constituent of the Benchmark Index, in a planned corporate action that is in contradiction with a previous official announcement on which the Sub-fund based its valuation of the corporate action (and/or on which the Sub-fund's counterparty to a financial derivative instrument or transaction based its valuation of the corporate action) can adversely affect the Sub-fund's net asset value, particularly if the Sub-fund's treatment of the corporate event differs from that of the Benchmark Index methodology.

- Low diversification risk

Since the index to which investors are exposed represents a given region, sector and strategy it may provide less diversification of assets in comparison with a broader index that is exposed to several regions, sectors or strategies. Exposure to such a less-diversified index may result in higher volatility than more diversified markets. Nevertheless, diversification rules of the UCITS Directive still apply to the Sub-fund's underlying assets at all times.

- Legal risk

The Fund may be exposed to a legal risk arising from a total return swap (TRS) agreement as indicated in EU Regulation No. 2015/2365.

ELIGIBLE INVESTORS AND TYPICAL INVESTOR PROFILE

The Sub-fund is available to all investors.

Investors in this Sub-fund are seeking exposure to the performance, whether positive or negative, of corporate floating-rate debt securities, denominated in euros..

The amount that can be reasonably invested in the Sub-fund depends on each investor's personal situation. To determine this amount, investors must take into account their personal wealth and/or estate, their cash requirements currently and for the next five years, and their willingness to take on risk or their preference for more prudent investment. Investors are also advised to diversify their investments sufficiently so as not to be exposed solely to this Sub-fund's risks.

All investors are therefore asked to consider their specific situation with the help of their usual investment advisor.

The recommended minimum investment horizon is three years.

CALCULATION AND APPROPRIATION OF DISTRIBUTABLE AMOUNTS

Acc share class: All distributable amounts are accumulated.

Dist share class: If a distribution is decided, the Board of Directors reserves the right to distribute and/or accumulate some or all of income in one or more distributions per annum. All net capital gains realized will be accumulated.

DISTRIBUTION FREQUENCY

Acc share class: N/A

Dist share class: If a distribution is decided, the Board of Directors reserves the right to distribute some or all of the distributable amount in one or more distributions per annum.

SHARE CHARACTERISTICS

Subscription orders may be placed for a monetary amount or for a number of shares
A whole number of shares must be redeemed.

SHARE CURRENCY

Shares	Acc	Dist
Currency	Euro	Euro

SUBSCRIPTION AND REDEMPTION

1. SUBSCRIPTION AND REDEMPTION ON THE PRIMARY MARKET

Subscription/redemption requests for shares in the Sub-fund will be processed by the Depositary from 10:00 am and 5.00 pm (Paris time), every day that the Sub-fund's net asset value is to be published, provided that prices can be quoted for a significant proportion of the Benchmark Index components (hereinafter a "Primary Market Day"), and will be executed at the net asset value on that Primary Market Day, hereinafter the "**reference NAV**"). Subscription/redemption orders submitted after 5.00 pm (Paris time) on a Primary Market Day will be processed as if received from 10:00 am to 5.00 pm (Paris time) on the following Primary Market Day. Orders to subscribe for or redeem shares in the Sub-fund must be made for a minimum amount of at least 100,000 euros.

Subscriptions and redemptions in cash

Subscriptions and redemptions shall be made exclusively in cash and executed at the ref NAV.

Delivery and settlement

Settlement/delivery of subscriptions and redemptions shall be completed within five French business days upon receipt of the subscription or redemption order.

Date and frequency of net asset value calculation

The net asset value will be calculated and published daily, provided that at least one exchange on which the Sub-fund's shares are listed is open and that orders placed in the primary and secondary markets can be funded.

The Sub-fund's net asset value is calculated using the Benchmark Index's closing price.

The net asset value of a share class that is denominated in another currency than the Sub-fund's accounting currency (if applicable) is calculated using the exchange rate between the accounting currency and the currency of the share class, at the applicable WM Reuters rate on the date of reference NAV calculation.

2. PURCHASES AND SALES ON THE SECONDARY MARKET

A. COMMON PROVISIONS:

For any purchase or sale of shares in the Sub-fund made directly on an exchange on which the Sub-fund is admitted or will be admitted for continuous trading, no minimum purchase or sale amount is required other than that which may be required by the relevant exchange(s).

Shares in a listed Sub-fund that are purchased on the secondary market cannot generally be directly sold back to that Sub-fund. Investors must therefore buy and sell their shares on a secondary market through an intermediary (e.g. a broker) and may consequently incur costs. Furthermore, there is a possibility that investors may pay more than the indicative net asset value when buying shares and receive less than the indicative net asset value when selling shares.

If the stock market value of a listed fund's shares or units differs significantly from their indicative net asset value, or if trading in the fund's shares or units is suspended, investors may be authorized, subject to the conditions set forth below, to redeem their shares on the primary market directly from the fund, without being subject to the minimum redemption amount requirement set forth herein in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)".

The management company shall decide whether to allow such primary market redemptions and for how long, on the basis of the following criteria for assessing the significance of a market disruption:

- The suspension or strong disturbance of secondary trading on a given exchange is relatively frequent;
- The link between the market disruption and secondary market operators (such as the default of one or more of the Market Makers of a given exchange, or a breakdown or malfunction of an exchange's IT or operating systems), excluding a disruption caused by a source external to the secondary exchange on which the Sub-fund's shares are traded, such as an event that affects the liquidity and valuation of all or some of the Benchmark Index's components;
- Any other objective circumstance that could adversely affect the fair treatment and/or the interests of the Sub-fund's share-holders.

Notwithstanding the provisions concerning fees presented in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)", redemptions made in the primary market in this case shall only be subject to a net redemption fee of 5% paid to the Sub-fund and which serves to cover its trading costs.

In such exceptional cases when redemption in the primary market is allowed, the Management Company shall post on Lyxor's website at www.lyxoretf.com the procedure that investors must observe to redeem their shares in the primary market. The Management Company shall also make this procedure available to the market undertaking that handles trading in the Sub-fund's shares.

B. SPECIFIC PROVISIONS

- (a) If the Sub-fund's shares are listed on Euronext Paris, as indicated in the "Key Information" part of the "General Characteristics" section of the Fund's prospectus, investors should note the following rules:**

Negotiability of shares and information about the financial institutions acting as Market Makers:

The shares are freely negotiable on the Euronext Paris regulated market under the following conditions and pursuant to the applicable laws and regulations.

The Sub-fund's shares will be listed on a specific trading list, the rules for which are defined in the following instructions published by Euronext Paris SA:

- Instruction No. 4-01 "Universal Trading Platform Manual"
- Appendix to Instruction N4-01 (Appendix to the Euronext Market Trading Manual)
- Instruction No. 6-04 "Documentation to be provided when filing a listing application for an ETF, ETN, ETV and open-ended undertakings for collective investment other than"

Pursuant to article D 214-22-1 of the French Monetary and Financial Code the units or shares of undertakings for collective investments in transferable securities may be admitted to trading, provided that these undertakings have a system to ensure that the market price of their units or shares does not differ significantly from their net asset value. Under Euronext Paris SA's rules trading in the Sub-fund's shares is also subject to a 'reservation threshold' of 1.5% above or below the Sub-fund's indicative net asset value or "iNAV" (see the "Indicative Net Asset Value" section), as published by Euronext Paris SA and updated on an estimated basis during trading in accordance with the change in the Benchmark Index.

To comply with Euronext Paris SA's reservation threshold requirement (see the section entitled "Indicative Net Asset Value") the Market Makers will ensure that the market price of the Sub-fund's shares does not differ from the Sub-fund's indicative Net Asset Value by more than 1.5%).

Euronext Paris SA may suspend trading in the Sub-fund's shares pursuant to the terms of its operating rules, if the aforementioned reservation threshold limit is exceeded.

Euronext Paris SA will also suspend trading in the Sub-fund's shares in the following cases:

- the Benchmark Index is no longer traded or calculated
- Euronext Paris SA cannot obtain the Benchmark Index's level
- Euronext Paris SA cannot obtain the Sub-fund's net asset value.

In accordance with the terms and conditions governing admission to trading on Euronext Paris, the Market Makers undertake to provide market-making services for the Sub-fund's shares as soon as they are admitted to trading on the Euronext Paris exchange.

In particular, the Market Makers undertake to carry out market-making operations by maintaining a significant presence in the market, which initially entails the setting of a bid/ask spread.

More specifically, the Market Makers are required by contract with Euronext Paris SA to ensure that the Sub-fund maintains:

- a maximum global spread of 2% between the bid and offer price in the centralized order book.
- a minimum nominal trading value of EUR 100,000.

The obligations of the Sub-fund's Market Makers will be suspended in the following cases:

- the Benchmark Index is no longer traded or calculated;
- if trading is substantially disrupted, for example due to a widespread shift in prices or an event that makes normal market making impossible.

Indicative net asset value

Euronext Paris will calculate and publish, each Trading Day (as defined below) and during trading hours, the Sub-fund's indicative net asset value (hereinafter "iNAV"). The iNAV is a measure of the intra-day value of the Sub-fund's net asset value based on the most recent data. The iNAV is not the value at which investors buy and sell shares in the Sub-fund on the secondary market.

A "Trading Day" is a day on which NSYE Euronext is normally open and on which the Benchmark Index is normally published.

The Sub-fund's iNAV is a theoretical net asset value calculated every 15 seconds by Euronext SA throughout the Paris trading day and is based on the level of the Benchmark Index. The iNAV enables investors to compare the prices that the Market Makers offer on the market with the theoretical value calculated by Euronext.

The iNAV will be calculated every day that the net asset value is calculated and published.

For the calculation of the Sub-fund's iNAV during the Paris trading session (from 9.05 am to 5.35 pm), Euronext Paris SA will use the Benchmark Index value published by Reuters.

The market prices of the bonds in the Benchmark Index used to calculate its level and accordingly determine the iNAV are provided directly by the Barclays platform . If the Barclays Capital platform is closed (on a public holiday pursuant to the TARGET calendar) the iNAV cannot be calculated and trading in the Sub-fund's shares may be suspended.

Lyxor International Asset Management, the Sub-fund's management company, will provide Euronext Paris SA with all the financial and accounting data it needs to calculate the Sub-fund's iNAV and in particular:

- The day's estimated net asset value
- The official net asset value of the previous business day
- The level of the Benchmark Index on the previous business day.

These data will serve as a basis for Euronext Paris SA's calculations to determine the Sub-fund's iNAV in real time the following Trading Day.

Additional information about the indicative net asset value of a share listed on an exchange may, in accordance with the terms and limits set by the relevant market undertaking, be provided on this exchange's website. This information is also available on the Reuters or Bloomberg pages dedicated to the particular share. Additional information about the Bloomberg and Reuters codes for the indicative net asset values of all UCITS ETF type share classes is also available in the "Term Sheets" section of Lyxor's website at www.lyxoret.com.

- (b) If the Sub-fund's shares are listed on an exchange other than Euronext Paris, as indicated in the "Key Information" section, investors should note the following:**

Investors wishing to acquire shares in the Sub-fund or obtain more information regarding the market-making terms that govern the listing and trading of shares on exchanges such as indicated in the "Key Information" section are advised to familiarize themselves with the guidelines laid down by the relevant market undertaking, in compliance with local regulations, and to seek if necessary the assistance of their usual broker(s) for executing trades on the relevant exchange(s).

FEES AND CHARGES

SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)

The subscription and redemption fees shown below respectively increase the subscription price paid by the investor and decrease the redemption price received. Fees kept by the Sub-fund compensate it for the expenses it incurs in investing in the Sub-fund's assets or in divesting these assets. Any fees that are not kept by the Sub-fund are paid to the asset manager, the marketing agent or other service provider.

Fees paid by investors upon subscription or redemption	Base	Maximum charge
Subscription fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per subscription order or 5% payable to third parties
Subscription fee kept by the Sub-fund	NAV per share x number of shares	N/A
Redemption fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per redemption order or 5% payable to third parties
Redemption fee kept by the Sub-fund	NAV per share x number of shares	N/A

OPERATIONAL AND MANAGEMENT FEES

These fees cover all the costs invoiced directly to the Sub-fund, except for transaction expenses, which include intermediary fees (brokerage, stock market taxes etc.) and any account activity charge that may be charged by the depositary or the asset manager, in particular.

For this Sub-fund the following fees may be charged in addition to the operating and management fees (see table below):

- incentive fees, which the Sub-fund pays to the management company when the Sub-fund exceeds its objectives. They are therefore paid by the Sub-fund
- account activity charges, which are charged to the Sub-fund.

For more information on the fees or expenses that the Sub-fund must pay, see the Statistics section of the Key Investor Information Document (KIID).

Fees charged to the Sub-fund	Base	Maximum charge
Investment management fees and administration fees that are external to the management company (auditor, depositary, fund distribution and legal fees) including tax ⁽¹⁾	Net asset value	0.15% per annum
Account activity charge	Charge on each transaction	N/A
Incentive fee	Net asset value	N/A

⁽¹⁾ Includes all fees and expenses except for transaction expenses, incentive fees and fees associated with investment in UCITS.

COMMERCIAL INFORMATION

Distribution of this prospectus and the offering or purchase of the Fund's share classes may be subject to restrictions with regard to certain persons or in certain countries by virtue of national regulations applying to these persons or countries.

Investors are therefore responsible for ensuring that they can legally subscribe to or invest in this Fund. The information in this prospectus therefore cannot be construed to be an offer or solicitation to buy or sell shares in this Fund in a country where such offer or solicitation is unlawful.

The Fund's share classes will not be registered pursuant to the U.S. Securities Act of 1933, as amended (the "U.S. Securities Act") and cannot be offered, assigned, transferred or allocated to the United States of America, or to:

- (A) any "U.S. Person", as this term is defined (i) under Regulation S of the US Securities Act of 1933 and (ii) under U.S. regulations as defined in Section 7701 (a) (30) of the Internal Revenue Code of 1986 as amended. The Fund's shares will not be offered to U.S. Persons.
- (B) anyone other than those persons considered to be "non-US Persons" as this term is defined under U.S. regulations pursuant to the Commodity Futures Trading Commission, Rule 4.7 (a) (1) (iv).

The Fund's shares will only be offered for sale outside of the United States of America to non-U.S. Persons.

For the purpose of this document, the term "U.S. Person" shall mean, among other things, any individual who resides in the United States of America, any entity organized or formed under the laws of the United States of America, certain entities organized or formed outside of the United States of America by one or more U.S. persons, or any account held on behalf of such a U.S. person.

Before making an investment in this Fund or Sub-fund, investors should seek the advice of their financial, tax and legal advisers.

PLACE AND METHOD OF NET ASSET VALUE PUBLICATION OR COMMUNICATION

At the head office of LYXOR INTERNATIONAL ASSET MANAGEMENT, at 17, cours Valmy - 92987 Paris La Défense CEDEX - France.
The Sub-fund's net asset value will be calculated and published by Euronext Paris SA on each Paris Trading Day, during trading hours.

IMPORTANT INFORMATION ABOUT THE BENCHMARK INDEX PROVIDER

Barclays Bank PLC or Barclays Capital Inc. and its affiliated companies (hereinafter "Barclays") did not create or issue the Lyxor Barclays Floating Rate Euro 0-7Y UCITS ETF fund and Barclays has no responsibility, obligation or duty with respect to the investors in the Lyxor Barclays Floating Rate Euro 0-7Y UCITS ETF fund. The Barclays Euro Corporate FRN 0-7Y Enhanced Duration index is a trademark of Barclays Bank PLC and is used under a license granted to LYXOR International Asset Management, which is the issuer of the Lyxor Barclays Floating Rate Euro 0-7Y UCITS ETF fund. Although Lyxor International Asset Management can in its name enter into transactions with Barclays that are directly or indirectly related to the Barclays Euro Corporate FRN 0-7Y Enhanced Duration index in relation to the Lyxor Barclays Floating Rate Euro 0-7Y UCITS ETF fund, investors who purchase shares of Lyxor International Asset Management's Lyxor Barclays Floating Rate Euro 0-7Y UCITS ETF fund will never acquire any interest in Barclays Euro Corporate FRN 0-7Y Enhanced Duration index and do not enter into any relationship with Barclays simply because they are invested in the Lyxor Barclays Floating Rate Euro 0-7Y UCITS ETF fund. The Lyxor Barclays Floating Rate Euro 0-7Y UCITS ETF fund is not sponsored, approved, sold or promoted by Barclays and Barclays makes no representation whatsoever as to any benefit to be gained from investing in the Lyxor Barclays Floating Rate Euro 0-7Y UCITS ETF fund, from using the Barclays Euro Corporate FRN 0-7Y Enhanced Duration index, or from using any data in this index. Barclays shall under no circumstance be held liable to the issuer, investors or any third party for the use or accuracy of the Barclays Euro Corporate FRN 0-7Y Enhanced Duration index or of any data it may contain.

ADDITIONAL INFORMATION

The Sub-fund's shares are admitted for clearing by Euroclear France S.A.

Investors must submit subscription and redemption orders via their financial intermediaries (members of Euroclear France SA) to the Depositary.

The Multi Units France fund prospectus, the Key Investor Information Document and the most recent annual reports will be sent to investors within eight business days upon written request to:

LYXOR INTERNATIONAL ASSET MANAGEMENT
17 Cours Valmy - 92987 Paris La Défense France.

E-mail: contact@lyxor.com

More information can also be requested from Lyxor International Asset Management on its website at www.lyxoretf.com.

Prospectus publication date: see the "Publication date" section.

Pursuant to Article L.533-22-1 of the French Monetary and Financial Code, information concerning the asset manager's possible inclusion of social, environmental and corporate governance objectives and performance criteria in its investment policy is available on the asset manager's website and in the Sub-fund's annual report.

The AMF's website (www.amf-france.org) provides more information on the regulatory documents and various provisions that concern investor protection.
This Prospectus shall be made available to investors prior to subscription.

INVESTMENT RULES

The Sub-fund will comply with the investment rules of European Directive 2009/65/EC of 13 July 2009.

The Sub-fund may invest in the assets specified in Article L214-20 of the French Monetary and Financial Code, subject to the risk-diversification and investment ratio requirements of Articles R214-21 to R214-27 of said Code.

Notwithstanding the 10% limit under Paragraph II of Article R214-21 of the French Monetary and Financial Code, the Sub-fund may invest up to 20% of its assets in the equities and debt securities of a single issuer, in compliance with Article R214-22-I, which deals with index-tracking funds. Pursuant to Article R214-22 II, the Sub-fund may also increase this 20% limit for a single issuer to 35%, when this is justified by exceptional market conditions, and in particular when certain securities are largely dominant.

OVERALL RISK EXPOSURE

The commitment approach is used to calculate overall risk exposure.

ASSET VALUATION AND ACCOUNTING RULES

A. VALUATION RULES

The Sub-fund's assets are valued in accordance with applicable laws and regulations and most notably Regulation No. 2014-01 of 14 January 2014 of the Comité de la Réglementation Comptable (the Accounting Regulations Committee), which applies to the chart of accounts for undertakings for collective investment in transferable securities.

Financial instruments traded on a regulated market are valued at the closing price recorded on the day prior to the calculation of the net asset value. If these financial instruments are traded on several regulated markets at the same time, the closing price used is that recorded on the regulated market on which they are principally traded.

However, in the absence of significant trading on a regulated market, the following financial instruments are valued using the following methods:

- Negotiable debt securities ("NDS") with a remaining life upon acquisition that is less than or equal to three months are valued by applying the difference between the acquisition value and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life of more than three months upon acquisition but less than or equal to three months at the net asset value calculation date are valued by applying the difference between the most recent valuation and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life at the net asset value calculation date that exceeds three months are valued at their current value. The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- Financial futures traded on organized markets are valued at the clearing price on the day prior to the calculation of the net asset value. Options traded on organized markets are valued at their market price on the day prior to the calculation of the net asset value. Forward contracts and over-the-counter options are valued at the price quoted by the counterparty. The management company monitors these prices independently.
- Bank deposits are valued at their nominal value plus accrued interest.
- Warrants, short and medium-term notes (bons de caisse), promissory notes and mortgage notes are valued under the management company's responsibility at their most likely trading value.
- Securities financing transactions are valued at the market price.
- Shares and units in UCITS under French law are valued at the last known net asset value on the day the Sub-fund's net asset value is calculated.
- Shares and units in foreign investment funds are valued at the last known unitary net asset value at the date the Sub-fund's net asset value is calculated.
- Financial instruments traded on a regulated market and for which no price has been quoted or whose price has been corrected, are valued under the management company's responsibility at their most likely trading value.
- The exchange rates used to value financial instruments denominated in a currency other than the Sub-fund's base currency are the WM Reuters fixing rates published on the day the Sub-fund's net asset value is calculated.

B. ACCOUNTING METHOD FOR TRADING EXPENSES

Trading expenses are included in the initial cost of the transaction.

C. ACCOUNTING METHOD FOR INCOME FROM FIXED-INCOME SECURITIES

Income from fixed-income securities is accounted for using the cash-basis method.

D. DISTRIBUTION POLICY

For more information see the section entitled "Calculation and appropriation of Distributable amounts"

E. ACCOUNTING CURRENCY

The Sub-fund's accounts are kept in euros

SUB-FUND NO. 27: LYXOR ULTRA LONG DURATION EURO GOVT FTSE MTS 25+Y (DR) UCITS ETF

A SICAV SUB-FUND COMPLIANT WITH DIRECTIVE 2009/65/CE

ISIN CODE

C-EUR share class: FR0012538148

CLASSIFICATION

Bonds and other debt securities denominated in euros.

The LYXOR ULTRA LONG DURATION EURO GOVT FTSE MTS 25+Y (DR) UCITS ETF sub-fund (the “**Sub-fund**”) is continuously exposed to debt securities denominated in euros. Exposure to equity risk does not exceed 10% of net assets.

The Sub-fund is a UCITS ETF index-tracker.

INCEPTION DATE

The Sub-fund was approved by the Autorité des Marchés Financiers on 13/02/2015.

The Sub-fund will be formed on xx/xx/2015.

INVESTMENT OBJECTIVE

The Sub-fund’s investment objective is to reproduce the performance, whether positive or negative, of the “FTSE MTS Eurozone Government Bond IG 25Y+ (Mid Price) Index”(the “**Benchmark Index**”) denominated in euros (EUR) and consisting of securities with a maturity of over 25 years, and the sub-index of the FTSE MTS Eurozone Government Bond investment Grade All Maturity Index, which is a “Total Return” index composed of securities issued by eurozone member governments and weighted by issuer country.

The expected tracking error, monitored ex-post under normal market conditions is 0.02%.

BENCHMARK INDEX

The Benchmark Index is a “Total Return” index, which means that all of the coupons from the Benchmark Index components are reinvested in the Benchmark Index.

The “FTSE MTS Eurozone Government Bond IG 25Y+ (Mid Price) Index (Bloomberg code: FMMPI255)” Benchmark Index is denominated in euros.

The FTSE MTS Eurozone Government Bond IG 25Y+ Index”(Bloomberg code: EMIEFB5) (see the “Benchmark Index” section below), is composed of debt securities that are issued by eurozone member country governments and have a maturity of over 25 years.

The Benchmark Index is calculated in real time by FTSE MTS.

To be eligible for a FTSE MTS index securities must meet the following criteria:

- (i) Nominal and fixed-coupon bonds denominated in euros with no option or convertibility; and having a maturity of at least 1 year;
- (ii) issued by a sovereign government of the euro zone and selected by FTSE MTS among the following list of countries as having at least two Investment Grade ratings issued by the credit-rating agencies Standard & Poor’s, Moody’s and Fitch: Austria, Belgium, Finland, France, Germany, Ireland, Italy, Netherlands, Portugal and Spain;
- (iii) with at least EUR two billion issued;
- (iv) listed on the MTS markets.

The methodology of the FTSE MTS indices is supervised by an independent advisory committee composed of bond and issuer specialists.

The Benchmark Index is revised monthly.

A full description and the complete methodology used to construct the Benchmark Index and information on the composition and respective weightings of the Benchmark Index components are available on the Internet at <http://www.ftse.com/products/indices/ftsemits>.

These characteristics ensure that FTSE MTS indices are highly liquid and representative of the performance of sovereign bonds.
The tracked performance is based on the 5.30pm (Paris time) fixing of the index as determined by FTSE MTS.

A full description of the Benchmark Index and its construction methodology and information on its composition are available on the Internet at <http://www.ftse.com/products/indices/ftsemits>.

The price of the Benchmark Index is fixed daily by Reuters and Bloomberg.

Reuters: FMMPI25R=

Bloomberg: FMMPI255

The Benchmark Index's closing price is available on the Internet at <http://www.ftse.com/products/indices/ftsemits>.

Pursuant to Article 52 of European Parliament and Council Regulation 2016/1011 of 8 June 2016, FTSE MTS, the administrator of the FTSE MTS Eurozone Government Bond IG 25Y+ (Mid Price) benchmark index, has until 1 January 2020 to apply for approval or registration as applicable.

As of the date of the most recent version of this prospectus, the benchmark index administrator was not yet listed in ESMA’s register of benchmark administrators.

Pursuant to European Parliament and Council Regulation 2016/1011 of 8 June 2016, the asset management company has a procedure for monitoring the benchmark indices used that specifies the measures to be implemented if an index is substantially modified or is no longer provided.

Benchmark index composition and revision:

The Benchmark Index is revised monthly.

The frequency of rebalancing does not affect the cost of implementing the investment strategy.

A full description of the Benchmark Index and its construction methodology and information on the composition and respective weightings of the Benchmark Index components are available on the Internet at <http://www.ftse.com/products/indices/ftsemts>.

INVESTMENT STRATEGY

1. Strategy employed

The Sub-fund will comply with the investment rules of European Directive 2009/65/EC of 13 July 2009.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund will use a direct replication method, which means that it will invest mainly in the Benchmark Index's constituents.

In order to optimize the direct replication method that is used to track the Benchmark Index, the Sub-fund, represented by its delegated asset manager, may decide to employ a "sampling" technique that consists in investing in a selection of representative Benchmark Index constituents in order to reduce the costs of investing directly in all of the various Benchmark Index constituents. This sampling technique could cause the Sub-fund to invest in a selection of representative Benchmark Index securities (and not in all of them) in proportions that do not reflect their weight within the Benchmark Index, and even to invest in securities that are not constituents of the Benchmark Index.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund may also, on an ancillary basis, engage in transactions involving derivative financial instruments (DFI). These transactions could for example be futures contracts on indices and/or swaps for hedging purposes and in particular to minimise the Sub-fund's tracking error.

To ensure transparency on the use of the direct index replication method (i.e. either full replication of the Benchmark Index or sampling to limit replication costs) and on its consequences in terms of the assets in the Sub-fund's portfolio, information on the updated composition of the basket of 'balance sheet' assets in the Sub-fund's portfolio is available on the page dedicated to the Sub-fund accessible on Lyxor's website at www.lyxoret.com. The frequency of any updates and/or the date on which the aforementioned information is updated is also indicated on the same page of the aforementioned website.

Up to 20% of the Sub-fund's assets may be exposed to debt issued by a given OECD country. This 20% limit can be increased to 35% for a single bond, when this is shown to be justified by exceptional market conditions, in particular when certain securities are largely dominant and/or in the case of strong volatility in a debt issue, or an event of a political and/or economic nature that has affected or may affect the estimated debt of an issuing country and/or the credit rating of an issuing country or any other event likely to affect the liquidity of a Benchmark Index security.

Notwithstanding the above, securities issued by a given sovereign issuer may account for up to 35% of assets, and up to 100% of the assets if the Sub-fund holds at least six issues none of which exceeds 30% of assets, provided that these securities are financial instruments issued or guaranteed by an OECD member state, the local authorities of a European Union member state or a country that is a member of the European Economic Area.

Sub-fund's targeted interest-rate sensitivity:	From 12 to 40
Currencies in which the Sub-fund's securities are denominated:	Euro: 100% of net assets Other: from 0% to 10% of net assets
Currency risk to which the Sub-fund is exposed:	0% maximum of net assets.
Geographic regions of the issuers of the securities to which the Sub-fund is exposed:	Eurozone: 100% of net assets Emerging countries: 0% of net assets

2. Balance sheet date

The Sub-fund may invest in global bonds, in compliance with regulatory ratios.

Investment in undertakings for collective investment in transferrable securities ("UCITS") that comply with Directive 2009/65/EC is limited to 10% of the Sub-fund's net assets.

The fund manager will not invest in the shares or units of alternative investment funds (AIF) or other investment funds that were formed under a foreign law.

The Sub-fund may invest in the shares of UCITS managed by its asset manager or by a company that is related thereto.

When the Sub-fund receives collateral in the form of securities, subject to the terms of section 8 below, it acquires full title to these securities and they are therefore included among the balance sheet assets to which it has full title.

3. Off-balance sheet assets (derivatives)

On an ancillary basis, the Sub-fund may engage in transactions involving derivatives traded on a regulated market or over the counter.

If over-the-counter derivatives are used, in accordance with its best-execution policy the management company considers that Société Générale would be the counterparty that would generally provide the best possible execution for any hedging transactions the Sub-fund may enter into pursuant to its investment strategy. Accordingly, all or some of these derivative financial instruments may be traded via Société Générale without having to seek a competitive bid from another counterparty.

4. Securities with embedded derivatives

N/A.

5. Cash deposits

To optimize its cash management, the Sub-fund may deposit funds representing up to 20% of its net assets with credit institutions that belong to the same group as the depositary.

6. Cash borrowing

The Sub-fund may temporarily borrow up to 10% of its net assets.

7. Securities financing transactions

Pursuant to its investment strategy, the Sub-fund may use various efficient portfolio management techniques in compliance with Article R214-18 of the French Monetary and Financial Code, including the temporary sale of securities.

- Maximum proportion of assets under management for which securities financing transactions may be entered into: 20% of the Sub-fund's assets.
- Expected proportion of assets under management for which securities financing transactions may be entered into: 0% of the Sub-fund's assets.

For this purpose the management company may appoint an intermediary (hereinafter the "Agent) to provide the following services in connection with the Sub-fund's temporary disposals of securities. If such an Agent is used it may be authorised to (i) lend securities, on the Sub-fund's behalf, under framework agreements, such as global master securities lending agreements (GMSLA) and/or any other internationally recognised framework agreement, and (ii) invest, on the Sub-fund's behalf, any liquid assets received as collateral for these securities lending transactions, subject to the restrictions specified in the securities lending agreement, the rules of this prospectus and the applicable regulations.

The Sub-fund shall be entitled to all income from securities financing transactions, net of any direct and indirect operating costs.

These operating costs, which are incurred to manage the portfolio more efficiently, may be borne by the Sub-fund's management company, the Agent and/or other intermediaries that are involved in these transactions.

These direct and indirect operating costs will be calculated as a percentage of the Sub-fund's gross income. Information on direct and indirect operating expenses and on the entities to which these expenses are paid will be provided in the Sub-fund's annual report.

All income obtained from the lending of securities (from which must be deducted all direct and indirect operating costs borne by the Agent and if applicable by the management company) shall be paid to the relevant Sub-fund. Since these direct and indirect costs do not increase the Sub-fund's overall operating expenses they have been excluded from ongoing expenses.

If necessary, the Sub-fund's annual report will provide the following information:

- the risk exposure resulting from efficient portfolio management transactions;
- the identity of the counterparty(ies) to these efficient portfolio management transactions;
- the nature and amount of any collateral received to reduce the Sub-fund's counterparty risk, and; et
- the income obtained from efficient portfolio management transactions during the relevant period and the direct and indirect operating costs associated with these transactions.

8. Collateral

Whenever the investment strategy exposes to the Sub-fund to counterparty risk, and in particular when the Sub-fund uses over-the-counter swaps or enters into securities financing transactions, the Sub-fund may accept eligible securities as collateral to reduce the counterparty risk associated with these swaps. The portfolio of collateral received may be adjusted daily to ensure that its value is at least sufficient to cover the Sub-fund's counterparty risk in most cases. The purpose of this adjustment is to neutralize the Sub-fund's counterparty risk.

The Sub-fund will have full title to all collateral received, which will be deposited in the Sub-fund's account with the depositary. This collateral will therefore be included in the Sub-fund's assets. If a counterparty defaults on an obligation, the Sub-fund may dispose of the assets received from the counterparty in respect of the secured transaction to pay off the the counterparty's debt to the Sub-fund.

All collateral the Sub-fund receives for this purpose must comply with the applicable laws and regulations, with respect in particular to the liquidity and valuation of the collateral, the credit-worthiness of securities issuers, risk exposure correlation and the risks of collateral management and enforceability. More specifically, all collateral received must meet the following conditions:

- (a) all non-cash collateral must be of high quality, be highly liquid and tradable on a regulated market or on a multilateral trading facility, with transparent pricing to enable the collateral to be rapidly sold near its estimated price;
- (b) this collateral must be valued at its mark-to-market price at least daily and must not include assets with highly volatile prices unless a sufficiently prudent discount is applied to such assets;
- (c) this collateral must be issued by an entity that is independent from the counterparty and must not be highly correlated with the counterparty's financial performance;
- (d) collateral must be sufficiently diversified in terms of country, market and issuer, with exposure to any single issuer not exceeding 20% of the Sub-fund's net asset value;
- (e) the Sub-fund's management company must be able to fully enforce the collateral at all times without the prior consultation or approval of the counterparty.

Notwithstanding the condition specified in (d) above, the Fund may accept a basket of securities collateral that increases its exposure to a single issuer to more than 20% of its net asset value provided that:

- such securities collateral is issued by (i) a Member State, (ii) one or more of a Member State's local authorities, (iii) a country that is not a Member State (iv) a public international organization to which one or more Member States belong; and;
- such securities collateral consists of at least six different issues of securities of which no single issue exceeds 30% of the Sub-fund's assets.

In accordance with the above conditions the collateral accepted by the Sub-fund may include:

- (i) cash and cash-equivalent assets, which for example include short-term bank deposits and balances and money-market instruments;
- (ii) bonds issued or guaranteed by an OECD member state, by the local authorities of an OECD member state, by a supranational institution or organization of a community, regional or global nature, or by any other country provided that the conditions specified in points (a) to (e) inclusive above are fully complied with;
- (iii) shares or units issued by money-market funds that calculate a daily net asset value and have an AAA or equivalent credit rating;
- (iv) shares or units issued by UCITS that invest mainly in the bonds or shares indicated at points (v) and (vi) below;
- (v) bonds issued or guaranteed by top-rated issuers that offer sufficient liquidity;
- (vi) shares admitted for trading or traded on a regulated market of an EU member state, on a securities exchange of an OECD member state, or on a securities exchange of a non-OECD country provided that the conditions of points (a) to (e) above are fully met and that these shares are a component of a leading stock index.

Discounting policy:

The Sub-fund's management company shall apply a discount to the collateral accepted by the Sub-fund for securities lending and repo transactions. The amount of this discount will depend on the following criteria:

- The type of asset provided as collateral
- The maturity of the asset provided as collateral (if relevant)
- The credit rating of the issuer of the asset provided as collateral (if relevant).

A higher discount may be applied to collateral received in a currency other than the euro.

Reinvestment of collateral:

Non-cash collateral will not be sold, reinvested or pledged.

Cash collateral may, at the manager's discretion, be:

- (i) deposited with an authorized institution;
- (ii) invested in high-quality government bonds;
- (iii) used for reverse repurchase transactions, provided that these are entered into with credit institutions that are subject to prudential supervision and that the fund may recover the full cash amount at any time with accrued interest;
- (iv) invested in short-term money-market funds as defined in the guidelines for a common definition of European money-market funds.

All cash collateral that is reinvested must be invested in a diversified manner in compliance with the rules that apply to the acceptance of non-cash collateral.

RISK PROFILE

Investors' money will be invested mainly in the financial instruments selected by the asset manager. These instruments are subject to market trends and contingencies.

Investors in the Sub-fund will mainly be exposed to the following risks:

- Interest rate risk

The price of a bond or other debt security is affected by changes in interest rates. The price of most debt securities increases when interest rates decline and decreases when interest rates rise. Bonds with relatively long maturities (which is the case of those in the Benchmark Index) are more sensitive to changes in interest rates and are therefore more volatile investments than debt securities with shorter maturities.

- Capital risk

The capital invested is not guaranteed. Investors therefore may not recover all or part of their initial investment, particularly in the event that the Benchmark Index posts a negative return over the investment period.

- Credit risk

The Sub-fund could be adversely affected by a lowering of the credit rating of one or more issuers of a bond in the Benchmark Index. This could mean a higher risk that such an issuer might default and could decrease the bond's value.

- Liquidity risk (primary market)

The Sub-fund's liquidity and/or value may be negatively affected if, when the Sub-fund (or one of its counterparties in a transaction involving a derivative financial instrument) is rebalancing its exposure the corresponding financial markets are restricted, closed, or subject to wide bid/offer spreads. An inability, due to low trading volumes, to execute the trades necessary to replicate the Benchmark Index may also have adverse consequences on share subscription, conversion and redemption.

- Liquidity risk (secondary market)

The price of the Sub-fund's listed shares may deviate from the Sub-fund's indicative net asset value. The liquidity of the Sub-fund's shares traded on a given exchange may be adversely affected by a suspension in trading for various reasons, for example:

- i) the calculation of the Benchmark Index is suspended or stopped
- ii) the market(s) in the Benchmark Index's underlying assets is (are) suspended, and/or
- iii) an exchange cannot obtain or calculate the Sub-fund's indicative net asset value
- iv) a market maker fails to comply with an exchange's rules
- v) an exchange's IT, electronic or other system fails.

- Benchmark Index tracking risk

Replicating the performance of the Benchmark Index by investing in all of its constituents may prove to be very difficult to implement and costly. The Sub-fund manager may therefore use various optimisation techniques, such as 'sampling', which consists in investing in a selection of representative securities (and not all securities) that constitute the Benchmark Index, in proportions that differ from those of the Benchmark Index or even investing in securities that are not index constituents and derivatives. The use of such optimization techniques may increase the ex post tracking error and cause the Sub-fund to perform differently from that Benchmark Index.

- Counterparty risk

The Sub-fund may use derivative financial instruments (DFI) on an ancillary basis.

In this case, the Sub-fund will be exposed to the risk that a counterparty with which the Sub-fund has entered into a contract or transaction may go bankrupt or default on a settlement or other obligation. The Sub-fund will in particular be exposed to counterparty risk resulting from the use of DFI traded over the counter. In compliance with UCITS regulations, exposure to counterparty risk may not exceed 10% of the Sub-fund's total assets per counterparty.

Where Société Générale acts as the DFI counterparty, conflicts of interest may arise between the Sub-fund's Management Company and the DFI counterparty. The Management Company has procedures to identify and reduce such conflicts of interest and to resolve them equitably if necessary.

- Risk arising from securities financing transactions

If a borrower of securities defaults on its obligation there could be a risk that the value of the collateral received by the Sub-fund is less than the value of the securities lent. This risk could arise, for example, in the event of (i) an inaccurate valuation of the securities lent and/or (ii) unfavourable market movements and/or (iii) the lowering of the credit rating(s) of the issuer(s) of securities taken as collateral and/or (iv) the illiquidity of the market in which the collateral received is listed. If cash collateral is reinvested this could (i) result in leverage that entails a risk of loss and volatility and/or (ii) expose the Sub-fund to a market that is inappropriate for its investment objective, and/or (iii) generate less income than the amount of collateral the Sub-fund must repay. The Sub-fund could also fail to receive the securities lent by the date specified, which would diminish its capacity to accommodate investor redemptions.

- Risk that the investment objective is not fully achieved

There is no guarantee that the investment objective will be achieved, as no asset or financial instrument can ensure that the Benchmark Index will be automatically and continuously replicated, particularly in the event of one or more of the following risks:

- Risk of using derivative financial instruments

In order to secure the Benchmark Index returns and achieve its investment objective, the Sub-fund can enter into transactions involving over-the-counter derivative financial instruments (DFI), such as swaps. These DFI involve various risks, such as counterparty risk, hedging disruption, Benchmark Index disruption, taxation risk, regulatory risk, operational risk and liquidity risk. These risks can materially affect a DFI and could lead to an adjustment or even the early termination of the DFI transaction, which could affect the Sub-fund's net asset value.

- Risk due to a change in tax regime

A change in the tax regime of a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed could adversely affect the taxation of investors. In such an event, the Sub-fund manager shall not be liable to any investor with respect to any payment that may have to be made to a competent tax authority.

- Risk due to a change in the tax regime of the Sub-fund's underlying assets

A change in the taxation of the Sub-fund's underlying assets could adversely affect the taxation of the Sub-fund. As a result, in case of a discrepancy between the estimated taxes owed and the actual tax treatment applied to the Sub-fund (and/or to the Sub-fund's DFI counterparty), the Sub-fund's net asset value may be adversely affected.

- Regulatory risk exposure of the Sub-fund

In the event of a change in the regulatory regime in a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed, the subscription, conversion or redemption of the Sub-fund's shares may be adversely affected.

- Regulatory risk exposure of the Sub-fund's underlying assets

In the event of a change in the tax regime that applies to the Sub-fund's underlying assets, the Sub-fund's net asset value and the subscription, conversion or redemption of the Sub-fund's shares may be adversely affected.

- Benchmark Index disruption risk

In the event of a Benchmark Index disruption, the manager, acting in accordance with applicable laws and regulations, may have to suspend the subscription and redemption of the Sub-fund's shares. The calculation of the Sub-fund's net asset value could also be adversely affected.

If the disruption of the Benchmark Index persists, the Sub-fund manager will determine an appropriate course of action, which could decrease the Sub-fund's net asset value.

A 'Benchmark Index event' includes but is not limited to the following situations:

- i) the Benchmark Index is deemed to be inaccurate or does not reflect actual market developments;
- ii) the Benchmark Index is permanently cancelled by the index provider;
- iii) the index provider is unable to indicate the level or value of the Benchmark Index;
- iv) The index provider makes a material change in the Benchmark Index calculation formula or method (other than a minor modification such as an adjustment to the Benchmark Index's underlying constituents or their respective weightings) which the Sub-fund cannot effectively replicate at a reasonable cost;
- v) a Benchmark Index component becomes illiquid because it is no longer traded on a regulated market or because its trading over-the-counter (e.g. bonds) is disrupted;
- vi) the Benchmark Index components are exposed to higher transaction costs for execution or settlement/delivery, or to specific tax constraints and these costs are not reflected in the Benchmark Index's performance.

- Corporate Action risk

An unforeseen change, by the issuer of a security that is a constituent of the Benchmark Index, in a planned corporate action that is in contradiction with a previous official announcement on which the Sub-fund based its valuation of the corporate action (and/or on which the Sub-fund's counterparty to a financial derivative instrument or transaction based its valuation of the corporate action) can adversely affect the Sub-fund's net asset value, particularly if the Sub-fund's treatment of the corporate event differs from that of the Benchmark Index methodology.

- Legal risk

The Fund may be exposed to a legal risk arising from a total return swap (TRS) agreement as indicated in EU Regulation No. 2015/2365.

ELIGIBLE INVESTORS AND TYPICAL INVESTOR PROFILE

The Sub-fund is available to all investors.

Investors in this Sub-fund are seeking exposure to the performance, whether positive or negative, of the eurozone government bond segment.

The amount that can be reasonably invested in the Sub-fund depends on each investor's personal situation. To determine this amount, investors must take into account their personal wealth and/or estate, their cash requirements currently and for the next three years, and their willingness to take on risk or their preference for more prudent investment. Investors are also advised to diversify their investments sufficiently so as not to be exposed solely to this Sub-fund's risks.

All investors are therefore invited to consider their specific situation with the help of their usual investment advisor.

The recommended minimum investment horizon is three years.

CALCULATION AND APPROPRIATION OF DISTRIBUTABLE AMOUNTS

C-EUR shares: all distributable amounts are accumulated.

DISTRIBUTION FREQUENCY

C-EUR shares: N/A

SHARE CHARACTERISTICS

Subscription orders may be placed for a monetary amount or for a number of shares.
A whole number of shares must be redeemed.

CURRENCY

Euros.

SUBSCRIPTION AND REDEMPTION

1. SUBSCRIPTION AND REDEMPTION ON THE PRIMARY MARKET

Subscription/redemption requests for shares in the Sub-fund will be processed by the Depositary from 10:00 am and 5.00 pm (Paris time), every day that the Sub-fund's net asset value is to be published, provided that prices can be quoted for a significant proportion of the Benchmark Index components (hereinafter a "Primary Market Day") and will be executed at the net asset value on that Primary Market Day (hereinafter the "reference NAV"). Subscription/redemption orders submitted after 5.00 pm (Paris time) on a Primary Market Day will be processed as if received from 10:00 am to 5.00 pm (Paris time) on the following Primary Market Day. Orders to subscribe for or redeem shares in the Sub-fund must be made for a minimum amount of at least 100,000 euros.

Subscriptions and redemptions in cash:

Subscriptions and redemptions shall be made exclusively in cash and executed at the ref NAV.

Delivery and settlement:

Delivery and settlement of subscriptions and redemptions shall be completed within five French business days after the subscription or redemption order is received.

Date and frequency of NAV calculation:

The net asset value will be calculated and published daily, provided that at least one exchange on which the Sub-fund's shares are listed is open and that orders placed in the primary and secondary markets can be funded.

The Sub-fund's net asset value is calculated using the Benchmark Index's closing price.

The net asset value of a share class that is denominated in another currency than the Sub-fund's accounting currency (if applicable) is calculated using the exchange rate between the accounting currency and the currency of the share class, at the applicable WM Reuters rate on the date the reference NAV is calculated.

2. PURCHASES AND SALES ON THE SECONDARY MARKET

A. COMMON PROVISIONS:

For any purchase or sale of shares in the Sub-fund made directly on an exchange on which the Sub-fund is admitted or will be admitted for continuous trading, no minimum purchase or sale amount is required other than that which may be required by the relevant exchange(s).

Shares in a listed Sub-fund acquired on the secondary market cannot generally be directly resold to the Sub-fund. Investors must therefore buy and sell their shares on a secondary market through an intermediary (e.g. a broker) and may consequently incur costs. Furthermore, there is a possibility that investors may pay more than the indicative net asset value when buying shares and receive less than the indicative net asset value when selling shares.

If the stock market value of the Sub-fund's shares differs significantly from its indicative net asset value, or if the listing of the Sub-fund's shares is suspended, investors may be authorised, subject to the conditions set out below, to redeem their shares on the primary market directly from the Sub-fund, without being subject to the minimum redemption amount requirement specified herein in the section entitled "Subscription and Redemption fees (charged only on primary market transactions)".

The management company shall decide whether to allow such primary market redemptions and for how long, on the basis of the following criteria for assessing the significance of a market disruption:

- The suspension or strong disturbance of secondary trading on a given exchange is relatively frequent;
- The link between the market disruption and secondary market operators (such as the default of one or more of the Market Makers of a given exchange, or a breakdown or malfunction of an exchange's IT or operating systems), excluding a disruption caused by a source external to the secondary exchange on which the Sub-fund's shares are traded, such as an event that affects the liquidity and valuation of all or some of the Benchmark Index's constituents;
- Any other objective circumstance that could adversely affect the fair treatment and/or the interests of the Sub-fund's shareholders.

Redemptions made in the primary market in this case shall only be subject to a redemption fee paid to the Sub-fund and which serves to cover its trading costs. The redemption fee that is not kept by the Sub-fund will normally not be charged.

In such exceptional cases when redemption in the primary market is allowed, the Management Company shall post on Lyxor's website at www.lyxoretf.com the procedure that investors must observe to redeem their shares in the primary market. The Management Company shall also make this procedure available to the market undertaking that handles trading in the Sub-fund's shares.

B. SPECIFIC PROVISIONS:

- a) If the Sub-fund's shares are listed on Euronext Paris, as indicated in the "Key Information" part of the "General Characteristics" section of the Fund's prospectus, investors should note the following rules:

Negotiability of shares and information about the financial institutions acting as Market Makers:

The shares are freely negotiable on the Euronext Paris regulated market under the following conditions and pursuant to the applicable laws and regulations.

The Sub-fund shares will be listed on a specific trading list, the rules for which are defined in the following instructions published by Euronext Paris SA:

- Instruction No. 4-01 " Universal Trading Platform Manual"
- Appendix to Instruction N4-01 (Appendix to the Euronext Market Trading Manual)
- Instruction No. 6-04 "Documentation to be provided when filing a listing application for an ETF, ETN, ETV and open-ended undertakings for collective investment other than ETFS"

Pursuant to article D 214-22-1 of the French Monetary and Financial Code the units or shares of undertakings for collective investments in transferable securities may be admitted to trading, provided that these undertakings have a system to ensure that the market price of their units or shares does not differ significantly from their net asset value. Under Euronext Paris SA's rules trading in the Sub-fund's shares is also subject to a 'reservation threshold' of 1.5% above or below the Sub-fund's indicative net asset value or "iNAV" (see the "Indicative Net Asset Value" section), as published by Euronext Paris SA and updated on an estimated basis during trading in accordance with the change in the Benchmark Index.

To comply with Euronext Paris SA's reservation threshold requirement (see the section entitled "Indicative Net Asset Value") the Market Makers will ensure that the market price of the Sub-fund's shares does not differ from the Sub-fund's indicative Net Asset Value by more than 1.5%.

Euronext Paris SA may suspend trading in the Sub-fund's shares pursuant to the terms of its operating rules, if the aforementioned reservation threshold limit is exceeded.

Euronext Paris SA will also suspend trading in the Sub-fund's shares in the following cases:

- the Benchmark Index is no longer listed or calculated;
- Euronext Paris SA cannot obtain the Benchmark Index's level;
- Euronext Paris SA cannot obtain the Sub-fund's net asset value;

In accordance with the terms and conditions governing admission to trading on Euronext Paris, the Market Makers undertake to provide market-making services for the Sub-fund's shares as soon as they are admitted to trading on the Euronext Paris exchange.

In particular, the Market Makers undertake to carry out market-making operations by maintaining a significant presence in the market, which initially entails the setting of a bid/ask spread.

More specifically, the Market Makers are required by contract with Euronext Paris SA to ensure that the Sub-fund maintains:

- a total spread of no more than 2% between the bid and ask prices in the central order book.
- a minimum nominal trading value of EUR 100,000.

The obligations of the Sub-fund's Market Makers will be suspended in the following cases:

- the Benchmark Index is no longer listed or calculated;
- The Market Maker's obligations will be suspended if trading is substantially disrupted, for example due to a widespread shift in prices or an event that makes normal market making impossible.

Indicative Net Asset Value

Euronext Paris will calculate and publish, each Trading Day (as defined below) and during trading hours, the Sub-fund's indicative net asset value (hereinafter "iNAV"). The iNAV is a measure of the intra-day value of the Sub-fund's net asset value based on the most recent data. The iNAV is not the value at which investors buy and sell shares in the Sub-fund on the secondary market.

A "**Trading Day**" is a day on which NSYE Euronext is normally open and on which the Benchmark Index is normally published.

The Sub-fund's iNAV is a theoretical net asset value calculated every 15 seconds by Euronext SA throughout the Paris trading day and is based on the level of the Benchmark Index. The iNAV enables investors to compare the prices that the Market Makers offer on the market with the theoretical value calculated by Euronext.

The iNAV will be calculated every day that the net asset value is normally calculated and published.

To calculate the Sub-fund's iNAV throughout the Paris trading session (9: 05 am to 5: 35 pm), Euronext Paris SA will use the Benchmark Index value published by Reuters.

If one or more stock exchanges on which the Benchmark Index's constituent securities are listed are closed (on a public holiday as indicated on the TARGET calendar) and if the calculation of the iNAV proves impossible, trading in the Sub-fund's shares may be suspended.

Lyxor International Asset Management, the Sub-fund's management company, will provide Euronext Paris SA with all the financial and accounting data it needs to calculate the Sub-fund's iNAV and in particular:

- The day's estimated net asset value;
- The official net asset value of the previous business day;
- The level of the Benchmark Index on the previous business day.

These data will serve as a basis for Euronext Paris SA's calculations to determine the Sub-fund's iNAV in real time the following Trading Day.

Additional information about the indicative net asset value of a share listed on a regulated market may, depending on the terms and limits set by the relevant market undertaking, be provided on the website of the exchange where the share is listed. This information is also available on the Reuters or Bloomberg pages dedicated to the particular share. Additional information about the Bloomberg and Reuters codes for the indicative net asset values of all UCITS ETF type share classes is also available in the "Term Sheets" section of Lyxor's website at www.lyxoretf.com.

b) If the shares are listed on an exchange other than Euronext Paris, as indicated in the "Key Information" section, investors should note the following rules:

Investors wishing to acquire shares in the Sub-fund or obtain more information regarding the market-making terms that govern the listing and trading of shares on exchanges such as indicated in the "Key Information" section are advised to familiarize themselves with the guidelines laid down by the relevant market undertaking, in compliance with local regulations, and to seek if necessary the assistance of their usual broker(s) for executing trades on the relevant exchange(s).

FEES AND CHARGES

SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)

Subscription and redemption fees increase the subscription price paid by investors and reduce the redemption price. Fees kept by the Sub-fund compensate it for the expenses it incurs in investing in the Sub-fund's assets or in divesting these assets. Any fees that are not kept by the Sub-fund are paid to the asset manager, the marketing agent or other service provider.

Fees paid by investors upon subscription and redemption	Base	Maximum charge
Subscription fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per subscription order or 5% payable to third parties
Subscription fee kept by the Sub-fund	NAV per share x number of shares	0.15%
Redemption fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per redemption request or 5% of payable to third parties
Redemption fee kept by the Sub-fund	NAV per share x number of shares	0.15%

OPERATING AND MANAGEMENT FEES

These fees cover all the costs invoiced directly to the Sub-fund, except for transaction expenses, which include intermediary fees (brokerage, stock market taxes etc.) and any account activity charge that may be charged by the depositary or the management company.

For this Sub-fund the following fees may be charged in addition to the operating and management fees (see table below):

- incentive fees, which the management company receives when the Sub-fund exceeds its objectives. They are therefore paid by the Sub-fund;
- account activity charges charged to the Sub-fund.

For more information on the fees or expenses that the Sub-fund must pay, see the Statistics section of the Key Investor Information Document (KIID).

Fees charged to the Sub-fund	Base	Maximum charge
Investment management fees and administration fees that are external to the management company (auditor, depositary, fund distribution and legal fees) including tax ⁽¹⁾	Net asset value	0.10% per annum
Account activity charge	On each transaction	N/A
Incentive fee	Net asset value	N/A

⁽¹⁾ Includes all fees and expenses except for transaction expenses, incentive fees and fees associated with investment in UCITS.

COMMERCIAL INFORMATION

Distribution of this prospectus and the offering or purchase of the Fund's share classes may be subject to restrictions with regard to certain persons or in certain countries by virtue of national regulations applying to these persons or countries.
Investors are therefore responsible for ensuring that they are authorized to subscribe to or invest in this Fund. The information in this prospectus therefore cannot be construed to be an offer or solicitation to buy or sell shares in this Fund in a country where such offer or solicitation is unlawful.

The Fund's share classes will not be registered pursuant to the U.S. Securities Act of 1933, as amended (the "U.S. Securities Act") and cannot be offered, assigned, transferred or allocated to the United States of America, or to:

- (A) any "U.S. Person", as this term is defined (i) under Regulation S of the US Securities Act of 1933 and (ii) under U.S. regulations as defined in Section 7701 (a) (30) of the Internal Revenue Code of 1986 as amended. The Fund's shares will not be offered to U.S. Persons.
- (B) anyone other than those persons considered to be "non-US Persons" as this term is defined under U.S. regulations pursuant to the Commodity Futures Trading Commission, Rule 4.7 (a) (1) (iv).

The Fund's shares will only be offered for sale outside of the United States of America to non-U.S. Persons.

For the purpose of this document, the term "U.S. Person" shall mean, among other things, any individual who resides in the United States of America, any entity organized or formed under the laws of the United States of America, certain entities organized or formed outside of the United States of America by one or more U.S. persons, or any account held on behalf of such a U.S. person.

Before making an investment in this Fund or Sub-fund, investors should seek the advice of their financial, tax and legal advisers.

PLACE AND METHOD OF NET ASSET VALUE PUBLICATION OR COMMUNICATION

At the head office of LYXOR INTERNATIONAL ASSET MANAGEMENT, at 17, cours Valmy - 92987 Paris La Défense CEDEX - France.
The Sub-fund's indicative net asset value will be calculated and published by Euronext Paris SA every Paris Trading Day, during trading hours.

IMPORTANT INFORMATION ABOUT THE BENCHMARK INDEX PROVIDER

The Sub-fund is in no way sponsored, endorsed, sold or promoted by FTSE TMX Global Debt Capital Markets (hereinafter collectively referred to as the "Licensors").

FTSE TMX Global Debt Capital Markets cannot be held liable for the promotion or marketing of the Sub-fund.

FTSE MTS and the FTSE MTS index names (FTSE MTS Index™) and FTSE MTS indices (FTSE MTS Indices™) are registered trademarks of FTSE TMX Global Debt Capital Markets. The FTSE MTS indices are calculated by FTSE TMX Global Debt Capital Markets and are marketed and distributed by MTSNext, a subsidiary of FTSE TMX Global Debt Capital Markets.

Neither FTSE TMX Global Debt Capital Markets nor MTSNext can be held responsible or liable for any loss or damages of any type whatsoever (including, in particular, investment losses) in connection, in whole or in part, with the Sub-fund or with the provision of the FTSE MTS Eurozone Government Bond IG 25Y+ (Mid Price) Index, sub-indices or registered trademarks.

ADDITIONAL INFORMATION

The Sub-fund's shares are admitted for clearing by Euroclear France S.A.

Subscription and redemption orders must be sent by the investors' financial intermediaries (Euroclear France SA members) to the Depositary.

The Multi Units France fund prospectus, the Key Investor Information Documents and the most recent annual reports will be sent to investors within eight business days upon written request to:

LYXOR INTERNATIONAL ASSET MANAGEMENT
17 Cours Valmy - 92987 Paris La Défense France.
E-mail: contact@lyxor.com

More information can also be requested from Lyxor International Asset Management on its website at www.lyxoretf.com.

Prospectus publication date: see the "Publication date" section.

Pursuant to Article L.533-22-1 of the French Monetary and Financial Code, information concerning the asset manager's possible inclusion of social, environmental and corporate governance objectives and performance criteria in its investment policy is available on the asset manager's website and in the Sub-fund's annual report.

The AMF's website (www.amf-france.org) contains additional information on the list of regulatory documents and all the provisions relating to investor protection.
This Prospectus must be made available to investors prior to subscription.

INVESTMENT RULES

The Sub-fund will comply with the investment rules of European Directive 2009/65/EC of 13 July 2009.

The Sub-fund may invest in the assets specified in Article L214-20 of the French Monetary and Financial Code, subject to the risk-diversification and investment ratio requirements of Articles R214-21 to R214-27 of said Code.

Notwithstanding the 10% limit under Paragraph II of Article R214-21 of the French Monetary and Financial Code and in compliance with the risk diversification and investment rules set forth in Articles R214-21 to R214-27 of said Code, the Sub-fund may invest up to 20% of its assets in the equities and debt securities of a single issuer, in compliance with Article R214-22-I, which deals with index-tracking funds. Pursuant to Article R214-22 II, the Sub-fund may also increase this 20% limit for a single issuer to 35%, when this is justified by exceptional market conditions, and in particular when certain securities are largely dominant.

Notwithstanding the above, securities guaranteed or issued by a given issuer can account for up to 35% of assets and up to 100% if the Sub-fund holds at least six issues of which none exceeds 30% of assets, provided that these securities are financial instruments issued or guaranteed by an OECD member state, the local authorities of a European Union member state or a country that is a member of the European Economic Area.

OVERALL RISK EXPOSURE

The commitment approach is used to calculate overall risk exposure.

ASSET VALUATION AND ACCOUNTING RULES

A. VALUATION RULES

The Sub-fund's assets are valued in accordance with applicable laws and regulations and most notably Regulation No. 2014-01 of 14 January 2014 of the Comité de la Réglementation Comptable (the Accounting Regulations Committee), which applies to the chart of accounts for undertakings for collective investment in transferable securities.

Financial instruments traded on a regulated market are valued at the closing price recorded on the day prior to the calculation of the net asset value. If these financial instruments are traded on several regulated markets at the same time, the closing price used is that recorded on the regulated market on which they are principally traded.

However, in the absence of significant trading on a regulated market, the following financial instruments are valued using the following methods:

- Negotiable debt securities ("NDS") with a remaining life upon acquisition that is less than or equal to three months are valued by applying the difference between the acquisition value and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life of more than three months upon acquisition but less than or equal to three months at the net asset value calculation date are valued by applying the difference between the most recent valuation and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life at the net asset value calculation date that exceeds three months are valued at their current value. The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- Financial futures traded on organised markets are valued at the clearing price on the day prior to the calculation of the net asset value. Options traded on organised markets are valued at their market price on the day prior to the calculation of the net asset value. Forward contracts and over-the-counter options are valued at the price quoted by the counterparty. The management company monitors these prices independently.
- Bank deposits are valued at their nominal value plus accrued interest.
- Warrants, short and medium-term notes (bons de caisse), promissory notes and mortgage notes are valued under the management company's responsibility at their most likely trading value.
- Securities financing transactions are valued at the market price.
- Shares and units in UCITS under French law are valued at the last known net asset value on the day the Sub-fund's net asset value is calculated.
- Shares and units in foreign investment funds are valued at the last known net asset value at the date the Sub-fund's net asset value is calculated.
- Financial instruments traded on a regulated market and for which no price has been quoted or whose price has been corrected, are valued under the management company's responsibility at their most likely trading value.
- The exchange rates used to value financial instruments denominated in currencies other than the Sub-fund's reference currency are the exchange rates provided by WM Reuters on the day on which the Sub-fund's net asset value is calculated.

B. ACCOUNTING METHOD FOR TRADING EXPENSES

Trading expenses are included in the initial cost of the transaction.

C. ACCOUNTING METHOD FOR INCOME FROM FIXED-INCOME SECURITIES

Income from fixed-income securities is accounted for using the cash-basis method.

D. DISTRIBUTION POLICY

For more information see the section entitled "Calculation and appropriation of Distributable amounts"

E. ACCOUNTING CURRENCY

The Sub-fund's accounts are kept in euros.

SUB-FUND NO. 28: LYXOR FORTUNE SG CHINA SOVEREIGN BONDS (DR) UCITS ETF

A SICAV SUB-FUND COMPLIANT WITH DIRECTIVE 2009/65/CE

ISIN CODES

C-USD share class: FR0012698157
D-USD share class: FR0012698165

CLASSIFICATION

Bonds and other international debt securities.

The LYXOR FORTUNE SG CHINA SOVEREIGN BONDS (DR) UCITS ETF sub-fund (the “**Sub-fund**”) is continuously exposed to fixed-income securities denominated in other currencies than the euro (and possibly to fixed-income securities denominated in euros). Exposure to equity risk does not exceed 10% of the net assets.

The Sub-fund is an index tracker of the UCITS ETF type.

INCEPTION DATE

The Sub-fund was approved by the Autorité des Marchés Financiers on 22/05/2015.

DELEGATED ASSET MANAGER

Fortune SG Asset Management (Hong Kong) Co. Limited has a “Type 9” license to manage assets in Hong Kong. It is domiciled at 19/F Three Pacific Place, 1 Queen’s Road East, Hong Kong.

The sub-delegated asset manager has a Renminbi Qualified Foreign Institutional Investor (RQFII) license and has been granted a quota of bonds issued by the People’s Republic of China for investment by the Sub-fund.

INVESTMENT OBJECTIVE

The Sub-fund’s objective is to replicate the performance, whether positive or negative, of the S&P China Sovereign Bond 1-10 Year Spread Adjusted index (the “**Benchmark Index**”), denominated in Dollar US (USD), while minimizing the tracking error between the Sub-fund’s performance and that of its Benchmark Index, which is representative of the performance of People’s Republic of China government bonds having a maturity of 1 to 10 years.

The expected ex-post tracking error under normal market conditions is 1%.

Investors’ attention is drawn to the risks incurred specifically from investing in the People’s Republic of China (PRC), as described in greater detail in the Risk Profile section below.

It should also be noted that it is difficult to know with certainty the tax treatment that is applicable to investments in bonds in PRC and that current tax laws and regulations may be revised or amended in the future.

Consequently, investors should note that:

- d) the Sub-fund’s Net Asset Value may be adversely affected by a change in PRC tax rules
- e) the adverse impact on the Sub-fund’s performance resulting from a change in PRC tax rules will depend on the date the Sub-fund’s shares are bought or sold
- f) the magnitude of this adverse impact on the Sub-fund’s performance may not be proportional to the number of shares that an investor holds in the Sub-fund if tax obligations in PRC are amended retroactively and, in certain circumstances, could amount to 100% of the Net Asset Value of a share class.

The investor is therefore urged to refer to the “Taxation in the PRC” section below for more detailed information.

BENCHMARK INDEX

The Benchmark Index provides exposure to bonds issued by the People’s Republic of China having a maturity of 1 to 10 years.

The Benchmark Index is calculated by S&P Dow Jones Indices LLC.

The weight of each component of the Benchmark Index is determined by the market value of the bonds, which must be selected from the investment universe described below:

Criteria for bond inclusion in the Benchmark Index:

- Only bonds issued by the People’s Republic of China and listed on the Shanghai Stock Exchange, the Shenzhen Stock Exchange and the Chinese Interbank Bond Market (CIBM) may be included
- Maturity of 1 to 10 years
- A nominal value in circulation of at least 10 billion CNY

- Only fixed-rate coupon bonds.

The following types of bonds are not eligible for inclusion in the Benchmark Index:

- Floating-rate bonds or notes
- Callable bonds
- Inflation-linked debt securities
- Strip bonds.

The Benchmark Index is calculated using the Thomson Reuters “mid-price” for each bond. The index will be valued in USD using the TMA USD/CNH fixing rate at 11:00 am Hong Kong time.

The Benchmark Index is a “Total Return” type index (i.e. all coupons from the Benchmark Index components are reinvested in the Benchmark Index).

BENCHMARK INDEX PUBLICATION

The Benchmark Index available in real time through Reuters and Bloomberg.

Via Reuters: .SPBCNS2U

Via Bloomberg: SPBCNS2U

The Benchmark Index closing price is available at www.spindices.com

Pursuant to Article 52 of European Parliament and Council Regulation 2016/1011 of 8 June 2016, S&P Dow Jones Indices LLC, the administrator of the S&P China Sovereign Bond 1-10 Year Spread Adjusted (USD) benchmark index, has until 1 January 2020 to apply for approval or registration as applicable.

As of the date of the most recent version of this prospectus, the benchmark index administrator was not yet listed in ESMA’s register of benchmark administrators.

Pursuant to European Parliament and Council Regulation 2016/1011 of 8 June 2016, the asset management company has a procedure for monitoring the benchmark indices used that specifies the measures to be implemented if an index is substantially modified or is no longer provided.

BENCHMARK INDEX COMPOSITION AND REVISION:

The Benchmark Index is revised monthly.

The frequency with which the Benchmark Index is rebalanced will affect the cost of implementing the Investment Strategy.

A full description and the complete methodology used to construct the Benchmark Index and information on the composition and respective weightings of the Benchmark Index components are available on S&P Dow Jones’ website at www.spindices.com.

INVESTMENT STRATEGY

1. Strategy employed

The Sub-fund will comply with the investment rules of European Directive 2009/65/EC of 13 July 2009.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund will use a direct replication method, which means that it will invest mainly in the Benchmark Index’s constituents.

In order to optimize the direct replication method that is used to track the Benchmark Index, the Sub-fund, represented by its delegated asset manager, may decide to employ a “sampling” technique that consists in investing in a selection of representative Benchmark Index constituents in order to reduce the costs of investing directly in all of the various Benchmark Index constituents and/or to reduce the operational constraints of investing in the various Benchmark Index constituents. This sampling technique could cause the Sub-fund to invest in a selection of representative Benchmark Index securities (and not in all of them) in proportions that do not reflect their weight within the Benchmark Index, and even to invest in securities that are not constituents of the Benchmark Index.

To ensure transparency on the use of the direct index replication method (i.e. either full replication of the Benchmark Index and/or sampling) and on its consequences in terms of the assets in the Sub-fund’s portfolio, information on the updated composition of the basket of ‘balance sheet’ assets in the Sub-fund’s portfolio is available on the page dedicated to the Sub-fund accessible on Lyxor’s website at www.lyxoret.com. The frequency of any updates and/or the date on which the aforementioned information is updated is also indicated on the same page of the aforementioned website.

Up to 20% of the Sub-fund’s assets may be exposed to debt issued by a non-OECD country. This 20% limit can be increased to 35% for a single bond, when this is justified by exceptional market conditions and in particular when certain securities are largely dominant, or a debt issue is highly volatile, or a political and/or economic event has affected or may affect the estimated debt of an issuing country or its credit rating, or in another event that is likely to affect the liquidity of a Benchmark Index security.

Notwithstanding the assumptions set out in the above paragraph, the securities issued by the same issuing state may represent up to 35% of the assets, and 100% of the assets if the Sub-fund holds at least six issues none of which exceeds 30% of the assets. The above-mentioned securities must be financial instruments issued or guaranteed by a Member State of the European Union, a third-party country, local authorities of a Member State of the European Union or a party to the agreement on the EEA.

Investors should also note that (i) Fortune SG Asset Management (Hong Kong) Co. and/or (ii) Lyxor International Asset Management / Lyxor Asset Management is a Renminbi Qualified Foreign Institutional Investor (hereinafter “RQFII”) and has a license as such (an “RFQII License”) that is valid in the People’s Republic of China (“PRC”) and is allotted a RQFII quota specifically for the Sub-fund’s investments (the “Quota”) that will enable the aforementioned sub-delegated asset manager, acting in the Sub-fund’s name and on its behalf, to implement the aforementioned Invested Strategy. More specifically, and subject to the risks indicated in the Risk Profile section below, the aforementioned RQFII License(s) and Quota(s) will enable the sub-delegated asset manager to:

- Invest in PRC bonds, in the Sub-fund’s name and on its behalf, subject to the terms and within the limits of the License and Quota, with no minimum holding period requirement
- Repatriate into and out of PRC the amount of funds the Sub-fund needs to buy or sell bonds, every business day in PRC and effect any foreign exchange transactions that are required to convert funds in yuan (CNY) into the currency of the relevant share class.

Investors may obtain more information on the terms that govern the sub-delegated asset manager's transactions in PRC bonds, under the RQFII License(s) and Quota(s) upon written request to the sub-delegated asset manager.

Sub-fund's targeted interest-rate sensitivity	Between 1 and 8
Currencies in which the Sub-fund's securities are denominated	CNY: 100% of net assets Other: 0% of net assets
Foreign exchange risk to which the Sub-fund is exposed	100% maximum of net assets.
Geographic regions of the issuers of the securities to which the Sub-fund is exposed	Geographical zone: Emerging countries: People's Republic of China (100% of net assets)

2.Balance sheet assets (excluding embedded derivatives)

The Sub-fund may invest in global bonds, in compliance with regulatory ratios.

Investment in undertakings for collective investment in transferrable securities ("UCITS") that comply with Directive 2009/65/EC is limited to 10% of the Sub-fund's net assets.

The fund manager will not invest in the shares or units of alternative investment funds (AIF) or other investment funds that were formed under a foreign law. The Sub-fund may invest in the shares of UCITS managed by its asset manager or by a company that is related thereto.

3.Off-balance sheet assets (derivatives)

On an ancillary basis, the Sub-fund may engage in transactions involving derivative financial instruments (DFI) traded on a regulated market or over the counter.

If over-the-counter derivatives are used, in accordance with its best-execution policy the management company considers that Société Générale would be the counterparty that would generally provide the best possible execution for any hedging transactions the Sub-fund may enter into pursuant to its investment strategy. Accordingly, all of some of these derivatives (including index-linked swaps) may be traded with Société Générale without having to seek a competitive bid from another counterparty.

4.Securities with embedded derivatives

N/A.

5.Cash deposits

In order to optimize its cash management, the Sub-fund may deposit funds representing up to 20% of its net assets with credit institutions that belong to the same group as the depositary.

6.Cash borrowing

The Sub-fund may temporarily borrow up to 10% of its net assets.

7.Temporary security transactions

The Sub-fund shall not engage in any temporary purchases or sales of securities

8.Collateral N/A.

The Sub-fund will not give or receive any collateral for the purpose of its investment management.

RISK PROFILE

The shareholder's money will mainly be invested in the financial instruments selected by the sub-delegated asset manager. These instruments are subject to market trends and contingencies.

Investors in the Sub-fund will mainly be exposed to the following risks:

- a) Risks specific to investing in the People's Republic of China
- b) Persons buying shares in the Sub-fund must be aware of the following risks inherent to any investment in the People's Republic of China (PRC):

- RQFII risk

The Sub-fund's capacity to achieve its investment objective depends on the RQFII quota it is allotted. If the Sub-fund's RQFII quota is too small this could adversely affect the Sub-fund's operation. PRC regulations governing RQFII status may also be amended at any time by the China Securities Regulatory Commission (CSRC) and/or, with respect to foreign exchange, by the State Administration of Foreign Exchange ("SAFE") bureau, which could adversely affect the Sub-fund's capacity to achieve its investment objective and result in its dissolution. In particular, RQFII status means that any increase in the investment quota is subject to SAFE's authorization. If the Sub-fund wishes to increase its quota it may take quite a long time to obtain SAFE's approval. Any restriction placed on the quota made available to the Sub-fund may affect its investments, in which case the Board of Directors could decide to close the Sub-fund to all new subscriptions. Such a restriction may therefore affect the trading of the Sub-fund's shares on an exchange, which could, in such circumstances and depending on the exchange's rules, trade at more than their Net Asset Value. Lastly, if Lyxor International Asset Management, Lyxor Asset Management or Fortune SG Asset Management (Hong Kong) Co. Limited lose their RQFII license, if the RQFII quota is reduced, or if RQFII requirements are significantly increased, the Board of Directors may decide to dissolve the Sub-fund, subject to the AMF's approval.

- Economic, political and social risks

Any political change, social instability and/or unfavourable diplomatic, political, economic and/or social development which may occur in or in connection with PRC (hereinafter a "Policy Change") could result in the imposition by the Chinese government of additional restrictions and limits. Investors should also note that a Policy Change may have an adverse impact on PRC stock exchanges and on the Sub-fund's performance and could ultimately result in the Sub-fund's dissolution by decision of the Board of Directors.

- Economic risks in the PRC

The economy of the PRC has recently grown very rapidly. It is, however, not certain that this growth will continue and it is possible that growth will be uneven across the different sectors of the PRC economy. The PRC government has from time to time put in place various measures to prevent an excessively sharp acceleration of the business cycle. Moreover, the transformation of the PRC's economy from a socialist economy to a more market-oriented economy has resulted in economic and social tensions in the country such that no guarantee can be given that this transformation will continue or will remain a success. These considerations could negatively affect the performances of the Sub-fund.

- Capital repatriation risks

The system for repatriating capital is subject to the approval of the Chinese SAFE authorities and to the risk that the repatriation of capital may be restricted in terms of amount or frequency (as of the date of the Sub-fund's inception RQFII regulations do however allow capital to be repatriated daily without requiring approval). Furthermore, the regulations and standard economic practices in PRC that govern the repatriation of funds from the domestic Chinese market to other markets and their conversion into a foreign currency could be modified in a way that adversely affects the Sub-fund.

The unfavourable regulatory developments and situations described above could suspend or restrict the conversion or transfer of foreign currencies and could possibly:

- (i) diminish the Sub-fund's capacity to fully achieve its investment objective
- (ii) diminish the Sub-fund's performance
- (iii) ultimately result in the Sub-fund's dissolution, by decision of the Board of Directors.

- Legal system in the PRC

The legal system in the PRC is based on statutory law. However, some regulations have yet to be implemented and there is no assurance that they will actually ever be implemented in their entirety. In particular PRC regulations on the control of exchange rates are relatively recent and their application is still quite uncertain. Moreover, these regulations give the Chinese authorities (and in particular CSRC and SAFE) broad discretion in their respective interpretation of the regulations, which leaves uncertainty as to how they might be applied and used. These considerations could negatively affect the performances of the Sub-fund.

- State control of exchange rates and of future exchange rate variations

Under the current RQFII system offshore RMB (CNH) can be converted into onshore RMB (CNY) and vice-versa on a one-for-one basis. The CNH also serves as a pivot currency between the USD and CNY share class currencies. There is no guarantee that in the future an exchange rate will not be applied to the conversion of CNH into CNY or vice-versa. As long as an exchange rate is not required assets in China will be valued in CNH and consequently any appreciation of the CNH vs. the USD will enhance the performance of the Benchmark Index (denominated in CNY and valued in CNH) expressed in USD, which the Sub-fund tracks and therefore the Sub-fund's net asset value, which will be expressed in USD or EUR. If the CNH depreciates against the USD the opposite will occur.

- Taxation in the PRC

Several tax reforms have been introduced by the government of the PRC in recent years, and it is possible that the current tax rules will be revised or amended in the future.

Taxation of capital gains

There is no way of being certain whether or not a 10% withholding tax will be applied to any capital gains on selling PRC bonds. A French tax resident may be exempted from this withholding tax under a tax treaty between France and China, which came into effect on 28 December 2014 (the "Convention"). This exemption is subject to the prior approval of the PRC tax authorities. At the date of the Sub-fund's inception, the approval of the PRC tax authorities had not been obtained. If tax authorities require the payment of a withholding tax on capital gains on the sale of PRC bonds, the asset manager would submit an application to the PRC tax authorities to enable the Sub-fund to benefit from the Convention. After examining the situation and consulting with an independent tax advisor, the asset manager believes that since the Sub-fund is a French tax resident it is entitled to benefit from the Convention and has therefore decided not to make a provision to account for the possibility that it may have to pay such a withholding tax.

Although tax is currently not withheld in PRC on capital gains on the sale of PRC bonds, there is a risk that (i) PRC tax authorities may decide to impose such a withholding tax and (ii) that PRC tax authorities refuse the asset manager's request for exemption under the Convention. The PRC tax authorities could make this decision with no prior notification. Moreover, there is a potential risk of this tax measure being applied retrospectively. Any withholding tax on capital gains on the sale of PRC bonds that could be required by tax authorities could be charged to the Sub-fund.

Taxation of interest income:

It should also be noted that, as of the Sub-fund's inception date, pursuant to the provisions of the PRC Corporate Income Tax Law (effective from 1 January 2008), interest paid by PRC bonds is not subject to withholding tax.

There is a risk however that current tax laws or regulations may be revised or amended in the future and that the PRC tax authorities may seek to impose such a withholding tax. If so, the PRC tax authorities could make this decision with no prior notice. Moreover, there is a risk that this tax measure could be applied retroactively. Any withholding tax on interest paid by the PRC bonds that tax authorities could require could be charged to the Sub-fund.

Consequently, if the tax authorities come to require the payment of a withholding tax on (i) capital gains on the sale of PRC bonds and/or (ii) on the interest paid by PRC bonds, in order to attenuate the impact of this eventuality, the delegated asset manager could decide to make a provision for (i) the realized and/or unrealized capital gains (ii) the interest received by the Sub-fund. If this should be the case, this provision would therefore reduce the Sub-fund's net asset values calculated as of the first provision date, and therefore affect investors in the Sub-fund's shares from this date (including those who buy and sell shares in the secondary market). Such a provision would also reduce the Sub-fund's performance relative to that of the Benchmark Index. Furthermore, there can be no assurance that this provision will be sufficient if a capital gains tax is applied retroactively, since it is impossible to know with any certainty what obligations will be imposed on investors with RQFII status in respect of the PRC government's taxation of capital gains and profits. Any retroactive application of this tax could result in a significant or even large decrease in the Sub-fund's net asset value per share. A shareholder may therefore incur losses from the introduction of a withholding tax on capital gains from selling PRC bonds or on the interest paid by PRC bonds for periods prior to the shareholder's purchase of shares in the Sub-fund and these losses may be far greater than the gain or loss resulting directly from the shareholder's investment in the Sub-fund. However, and as is the case for any mutual fund that complies with Directive 2009/65/EC, the Sub-fund's shareholders can lose no more than the capital they invest and the expense of purchasing and selling shares.

Consequently, we draw the attention of investors to the fact that:

- a) the Sub-fund's Net Asset Value may be adversely affected by a change in PRC tax rules
- b) the adverse impact on the Sub-fund's performance resulting from a change in PRC tax rules will depend on the date the Sub-fund's shares are bought or sold

- c) the magnitude of this adverse impact on the Sub-fund's performance may not be proportional to the number of shares that an investor holds in the Sub-fund if tax obligations in PRC are amended retroactively and, in certain circumstances, could amount to 100% of the Net Asset Value of a share class.

- **Order execution risk in PRC**

Pursuant to RQFII regulations, the sub-delegated asset manager must select one or more intermediaries to execute orders (i.e. a "Broker") in PRC for bonds traded on the Shanghai Stock Exchange, the Shenzhen Stock Exchange and the CIBM. The sub-delegated asset manager may select the same Broker to execute orders on these three exchanges. If a Broker fails to execute an order, the Sub-fund could have difficulty in recovering its assets in a timely manner, which could adversely affect the Sub-fund's valuation. The delegated asset manager and the sub-delegated asset manager have procedures to identify and reduce such conflicts of interest and to resolve them equitably if necessary.

- **Custody risk in PRC**

Under RQFII regulations, a custodian in PRC must be selected. This custodian selected is Industrial and Commercial Bank of China Limited ("ICBC"), which also serves as the SICAV fund's sub-custodian. ICBC Limited holds the Sub-fund's onshore RMB and securities accounts in PRC. Under RQFII regulations, these accounts must be registered in the name of the holder of the RQFII license and the Sub-fund. There is therefore a risk that the assets held in PRC may not be as well protected as if they were registered in the Sub-fund's name only.

- **Development of the PRC Bond market**

Investors should note that PRC securities exchanges, and in particular PRC bond exchanges, are at an early stage of their development and that the volume of securities traded on these exchanges may be less than that traded in more developed financial markets. The lack of liquidity that may result from relatively less trading on PRC debt markets may result in significant variations in the prices of the securities traded on these markets, and may result in considerable volatility of the Fund's Net Asset Value.

- **Risks arising from the exchanges on which the securities are listed or traded**

PRC securities exchanges are generally entitled to suspend or limit the trading of any security traded on the exchange.

If trading is suspended, the Sub-fund could be unable to correctly value the securities and the sub-delegated asset manager would be unable to liquidate its positions. Furthermore, when trading is resumed, the sub-delegated asset manager could be unable to liquidate its positions at a favourable price. This could expose the Sub-fund to substantial loss.

The Sub-fund may buy or sell bonds on the Shanghai Stock Exchange and the Shenzhen Stock Exchange, which are PRC's two main stock exchanges, and on the CIBM, which is an over-the-counter market founded in 1997. On the CIBM, institutional investors may buy or sell over the counter various types of debt securities, including government and corporate bonds. Bonds on the CIBM must be traded bilaterally on a transaction-by-transaction basis. Investors should be aware that the trading of securities on the CIBM increases the Sub-fund's exposure to counterparty risk.

The CIBM is regulated and supervised by the People's Bank of China ("PBOC"). The PBOC is responsible for determining the CIBM's listing, trading and operating rules and for supervising CIBM operators. In order to trade securities on the CIBM, the sub-delegated asset manager and/or the delegated asset manager must first obtain the PBOC's authorization. At the date of the Sub-fund's inception, neither the sub-delegated asset manager nor the delegated asset manager had been granted this authorization. There is a risk that this authorization may not be obtained and that the Sub-Fund may not be able to participate in the CIBM, and therefore not benefit from the additional liquidity that the CIBM provides.

- **Settlement and delivery risk**

Investing in debt securities will expose the Sub-fund to counterparty default risk. PRC bonds that are traded on organized exchanges may be exposed to counterparty risk, even though this risk is reduced by a central clearing platform. Counterparty risk may be higher when securities are traded on the CIBM, where transactions occur directly between two counterparties. A counterparty in a transaction with the Sub-fund may default on its obligation by failing to deliver the security or to make payment for it. If one of its counterparties goes bankrupt or becomes insolvent, the Sub-fund may be delayed in liquidating its positions and consequently may suffer considerable loss.

Other risks in investing in this Sub-fund:

- **Interest rate risk**

The price of a bond can be affected by unexpected changes in the level of interest rates, which in particular may modify the shape of the yield curve in particular. The bonds that make up the Benchmark Index are exposed to changes in interest rates. In general, the price of a bond rises when interest rates fall, and falls when interest rates rise.

- **Capital risk**

The capital invested is not guaranteed. As a consequence, investor's capital is at risk. Investors therefore may not recover all or part of their initial investment, particularly in the event that the Benchmark Index posts a negative return over the investment period.

- **Credit risk**

The Sub-fund could be adversely affected by a lowering of the credit rating of one or more issuers of a bond in the Benchmark Index. This could mean a higher risk that such an issuer might default and could decrease the bond's value.

- **Benchmark Index tracking risk**

Replicating the performance of the Benchmark Index by investing in all of its constituents may prove to be very difficult to implement and costly. The Sub-fund manager may therefore use various optimisation techniques, such as 'sampling', which consists in investing in a selection of representative securities (and not all securities) that constitute the Benchmark Index, in proportions that differ from those of the Benchmark Index or even investing in securities that are not index constituents or derivatives. In compliance with UCITS regulations, exposure to counterparty risk (whether the counterparty is Société Générale or another entity), cannot exceed 10% of the Sub-fund's total assets per counterparty.

- **Emerging Market Risk**

The Sub-fund's exposure to emerging markets carries a greater risk of potential loss than an investment in traditional developed markets. Specifically, market operating and supervision rules for an emerging market may differ from standards applicable in developed markets. In particular, exposure to emerging markets can entail: increased market volatility, lower trading volumes, a risk of economic and/or political instability, an uncertain or unstable tax regime and/or regulatory environment, market closure risks, government restrictions on foreign investments, an interruption or limitation of convertibility or transferability of one of the currencies included in the Benchmark Index.

- **Low diversification risk:**

The Benchmark Index to which investors are exposed represents only the PRC sovereign bond market, which may provide a smaller diversification of assets when compared to a broader index exposed to several regions, sectors or strategies. Exposure to such a less-diversified index may result in higher volatility than more diversified markets. Nevertheless, diversification rules of the UCITS Directive still apply to the Sub-fund's underlying assets at all times.

- **Liquidity risk (primary market)**

The Sub-fund's liquidity and/or value may be adversely affected if, when the Sub-fund or a counterparty to a financial derivative instrument (DFI) is rebalancing its exposure, the underlying financial markets are restricted, closed, or subject to large bid/offer spreads. An inability, due to low trading volume, to execute the trades required to replicate the Benchmark Index may also adversely affect the subscription, conversion or redemption of shares or units.

- **Liquidity risk (secondary market)**

The price of the Sub-fund's listed shares or units may deviate from the Sub-fund's indicative net asset value. The liquidity of shares or units traded on a given exchange may be adversely affected by a suspension in trading for various reasons, for example:

- vi) the calculation of the Benchmark Index is suspended or stopped
- vii) the market(s) in the Benchmark Index's underlying assets is (are) suspended, and/or
- viii) an exchange cannot obtain or calculate the Sub-fund's indicative net asset value
- ix) a market maker fails to comply with an exchange's rules
- x) an exchange's IT, electronic or other system fails.

- **Risk of using derivative financial instruments**

The Sub-fund may use derivative financial instruments (DFI) on an ancillary basis. The risk of investing in DFI may be relatively high. Since the amount of money required to establish a position in an DFI is much less than the exposure obtained using these instruments, each transaction involves "leverage". A relatively small market movement may therefore have a very large proportional positive or negative impact on the Sub-fund. DFI are highly volatile and their market value can vary considerably. These DFI involve various risks, such as These DFI involve various risks, such as counterparty risk, hedging disruption, Benchmark Index disruption, taxation risk, regulatory risk, operational risk and liquidity risk. These risks can materially affect an DFI and may require an adjustment of the DFI transaction or even its premature termination, which could adversely affect the Sub-fund's net asset value.

- **Counterparty risk**

The Sub-fund may use derivative financial instruments (DFI) on an ancillary basis.

In this case, the Sub-fund will be exposed to the risk that a counterparty with which the Sub-fund has entered into a contract or transaction may go bankrupt or default on a settlement or other obligation. The Sub-fund will in particular be exposed to counterparty risk resulting from the use of DFI traded over the counter. If a counterparty defaults on an obligation the DFI contract may be terminated before maturity. If this risk materializes it could have an impact on the Sub-fund's ability to achieve its investment objective, i.e. to replicate the Benchmark Index.

Where Société Générale acts as the DFI counterparty, conflicts of interest may arise between the Sub-fund's delegated asset manager or sub-delegated asset manager and the counterparty. The delegated asset manager or the sub-delegated asset manager have procedures to identify and reduce such conflicts of interest and to resolve them equitably if necessary.

- **Risk that the investment objective may not be fully achieved**

There is no guarantee that the investment objective will be achieved, as no asset or financial instrument can ensure that the Benchmark Index will be automatically and continuously replicated, particularly in the event of one or more of the following risks:

- **Risk due to a change in the tax regime**

A change in the tax regime of a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed could adversely affect the taxation of investors. In such an event, the Sub-fund manager shall not be liable to any investor with respect to any payment that may have to be made to a competent tax authority.

- **Risk of a change in the taxation of the Sub-fund's underlying assets**

A change in the taxation of the Sub-fund's underlying assets could adversely affect the taxation of the Sub-fund. In such an event a discrepancy between the estimated taxation and the actual taxation of the Sub-fund and/or of the Sub-fund's DFI counterparty may adversely affect the Sub-fund's net asset value.

- **Regulatory risk affecting the Sub-fund**

In the event of a change in the regulatory regime in a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed, the subscription, conversion or redemption of shares or units may be adversely affected.

- **Regulatory risk affecting the Sub-fund's underlying assets**

In the event of a change in the regulations that govern the Sub-fund's underlying assets, the Sub-fund's net asset value and the subscription, conversion or redemption of shares or units may be adversely affected.

- **Benchmark Index disruption risk**

If an event adversely affects the Benchmark Index, the Sub-fund manager may be required, as provided for by law, to suspend the subscription and redemption of the Sub-fund's shares or units. The calculation of the Sub-fund's net asset value could also be adversely affected.

If the disruption of the Benchmark Index persists, the Sub-fund manager will determine an appropriate course of action, which could decrease the Sub-fund's net asset value.

A 'Benchmark Index event' includes but is not limited to the following situations:

- i) the Benchmark Index is deemed to be inaccurate or does not reflect actual market developments
- ii) the Benchmark Index is permanently cancelled by the index provider
- iii) the index provider is unable to indicate the level or value of the Benchmark Index
- iv) the index provider makes a material change in the Benchmark Index calculation formula or method (other than a minor modification such as an adjustment to the Benchmark Index's underlying components or their respective weightings) which the Sub-fund cannot effectively replicate at a reasonable cost;
- v) a Benchmark Index component becomes illiquid because it is no longer traded on a regulated market or because its trading over-the-counter (e.g. bonds) is disrupted
- vi) the Benchmark Index components are exposed to higher transaction costs for execution or settlement/delivery, or to specific tax constraints and these costs are not reflected in the Benchmark Index's performance.

- **Corporate action risk**

An unforeseen change, by the issuer of a security that is a constituent of the Benchmark Index, in a planned corporate action that is in contradiction with a previous official announcement on which the Sub-fund based its valuation of the corporate action (and/or on which the Sub-fund's counterparty to a financial derivative instrument or transaction based its valuation of the corporate action) can adversely affect the Sub-fund's net asset value, particularly if the Sub-fund's treatment of the corporate event differs from that of the Benchmark Index methodology.

- **Currency risk associated with the Benchmark index**

The aforementioned share classes are exposed to currency risk since the securities that underlie the Benchmark Index may be denominated in a different currency than the Benchmark Index or be derivatives of securities that are denominated in a different currency than the Benchmark Index. Changes in exchange rates may therefore adversely affect the Benchmark Index of the aforementioned share classes.

ELIGIBLE INVESTORS AND TYPICAL INVESTOR PROFILE

The Sub-fund is available to all investors.

Investors in this Sub-fund are seeking exposure to increases and decreases in the prices of PRC government bonds.

The amount that can be reasonably invested in the Sub-fund depends on each investor's personal situation. To determine this amount, investors must take into account their personal wealth and/or estate, their cash requirements currently and for the next five years, and their willingness to take on risk or their preference for more prudent investment. Investors are also advised to diversify their investments sufficiently so as not to be exposed solely to this Sub-fund's risks.

All investors are therefore asked to consider their specific situation with the help of their usual investment advisor.

The recommended minimum investment horizon is three years.

CALCULATION AND APPROPRIATION OF DISTRIBUTABLE AMOUNTS

C-USD share class: all distributable amounts are accumulated.

D-USD share class: If a distribution is decided, the management company reserves the right to distribute distributable amounts one or more times a year and/or accumulate all or part of these amounts. Realized net capital gains will be accumulated.

DISTRIBUTION FREQUENCY

If a distribution is decided, the management company reserves the right to distribute distributable amounts in one or more distributions per annum.

SHARE CHARACTERISTICS

Subscription orders may be placed for a monetary amount or for a number of shares.

A whole number of shares must be redeemed.

SHARE CURRENCY

USD.

SUBSCRIPTION AND REDEMPTION

1. SUBSCRIPTION AND REDEMPTION ON THE PRIMARY MARKET

Subscription/redemption orders for shares in the Sub-fund will be processed by the Depositary from 10:00 am to noon (Paris time), every day that the Sub-fund's net asset value is to be published, provided that prices can be quoted for a significant proportion of the Benchmark Index components (hereinafter a "Primary Market Day") and will be executed at the net asset value on the second following Primary Market Day, hereinafter the "**reference NAV**". Subscription/redemption orders submitted after noon (Paris time) on a Primary Market Day will be processed as if received from 10:00 am to noon (Paris time) on the following Primary Market Day. Subscription/redemption requests may only be made for a number of sub-fund shares, corresponding to a minimum amount in USD equivalent to EUR 100,000.

Subscriptions and redemptions in cash:

Subscriptions and redemptions shall be made exclusively in cash and executed at the ref NAV.

Delivery and settlement:

Subscriptions must be fully paid up on the date that subscription orders are received. (by the transfer agent before noon Paris time).

The delivery of subscriptions and the settlement/delivery of redemptions shall be completed within five French business days after receipt of the subscription or redemption orders.

Date and frequency of net asset value calculation:

The net asset value will be calculated and published daily, provided that at least one exchange on which the Sub-fund's shares are listed is open and that orders placed in the primary and secondary markets can be funded.

The Sub-fund's net asset value is calculated using the mid-price of the Benchmark Index components calculated by Thomson Reuters, and the TMA USD/CNH fixing rate at 11:00 am (Hong Kong Time).

The net asset value of a share class that is denominated in another currency than the Sub-fund's accounting currency (if applicable) is calculated using the WM Reuters exchange rate between the accounting currency and the currency of the share class at 9:00 a. m. GMT on the date the reference NAV is calculated.

2. PURCHASES AND SALES ON THE SECONDARY MARKET

A. COMMON PROVISIONS:

For any purchase or sale of shares in the Sub-fund executed directly on an exchange on which the Sub-fund is admitted or will be admitted for continuous trading, no minimum purchase or sale amount is required other than that which may be required by the relevant exchange(s).

Shares in a listed Sub-fund that are purchased on the secondary market cannot generally be directly sold back to that Sub-fund. Investors must therefore buy and sell their shares on a secondary market through an intermediary (e.g. a broker) and may consequently incur costs. Furthermore, there is a possibility that investors may pay more than the indicative net asset value when buying shares and receive less than the indicative net asset value when selling shares.

If the stock market value of a listed fund's shares or units differs significantly from their indicative net asset value, or if trading in the fund's shares or units is suspended, investors may be authorized, subject to the conditions set forth below, to redeem their shares on the primary market directly from the fund, without being subject to the minimum redemption amount requirement set forth herein in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)".

The management company shall decide whether to allow such primary market redemptions and for how long, on the basis of the following criteria for assessing the significance of a market disruption:

- The suspension or strong disturbance of secondary trading on a given exchange is relatively frequent
- The link between the market disruption and secondary market operators (such as the default of one or more of the Market Makers of a given exchange, or a breakdown or malfunction of an exchange's IT or operating systems), excluding a disruption caused by a source external to the secondary exchange on which the Sub-fund's shares are traded, such as an event that affects the liquidity and valuation of all or some of the Benchmark Index's components
- Any other objective circumstance that could adversely affect the fair treatment and/or the interests of the Sub-fund's share-holders.

Redemptions made in the primary market in this case shall only be subject to a redemption fee paid to the Sub-fund and which serves to cover its trading costs. The redemption fee that is not kept by the Sub-fund will normally not be charged.

In such exceptional cases when redemption in the primary market is allowed, the delegated asset manager shall post on Lyxor's website at www.lyxor.etf.com the procedure that investors must observe to redeem their shares in the primary market. The delegated asset manager shall also make this procedure available to the market undertaking that handles trading in the Sub-fund's shares.

B. SPECIAL PROVISIONS:

(a) If the Sub-fund's shares are listed on Euronext Paris, as indicated in the "Key Information" section, investors should note the following rules:

Negotiability of shares and information about the financial institutions acting as Market Makers:

The shares are freely negotiable on the Euronext Paris regulated market under the following conditions and according to the applicable legal and regulatory provisions.

The Sub-fund's shares will be listed on a specific trading list, the rules for which are defined in the following instructions published by Euronext Paris SA:

- Instruction No. 4-01 "Universal Trading Platform Manual"
- Appendix to Instruction N4-01 (Appendix to the Euronext Market Trading Manual)
- Instruction No. 6-04 "Documentation to be provided when filing a listing application for an ETF, ETN, ETV and open-ended undertakings for collective investment other than"

Pursuant to article D 214-22-1 of the French Monetary and Financial Code the units or shares of undertakings for collective investments in transferable securities may be admitted to trading, provided that these undertakings have a system to ensure that the market price of their units or shares does not differ significantly from their net asset value. Under Euronext Paris SA's rules trading in the Sub-fund's shares is also subject to a 'reservation threshold' of 3% above or below the Sub-fund's indicative net asset value or "iNAV" (see the "Indicative Net Asset Value" section), as published by Euronext Paris SA and updated on an estimated basis during trading in accordance with the change in the Benchmark Index.

To comply with Euronext Paris SA's reservation threshold requirement the Market Makers will ensure that the market price of the Sub-fund's shares does not differ from the Sub-fund's indicative Net Asset Value by more than 3% (see the section entitled "Indicative net asset value").

Euronext Paris SA may suspend trading in the Sub-fund's shares pursuant to the terms of its operating rules, if the aforementioned reservation threshold limit is exceeded.

Euronext Paris SA will also suspend trading in the Sub-fund's shares in the following cases:

- the Benchmark Index is no longer traded or calculated
- Euronext Paris SA cannot obtain the Benchmark Index's level
- Euronext Paris SA cannot obtain the Sub-fund's net asset value

In accordance with the terms and conditions governing admission to trading on Euronext Paris, the Market Makers undertake to provide market-making services for the Sub-fund's shares as soon as they are admitted to trading on the Euronext Paris exchange.

In particular, the Market Makers undertake to carry out market-making operations by maintaining a significant presence in the market, which initially entails the setting of a bid/ask spread.

More specifically, the Market Makers are required by contract with Euronext Paris SA to ensure that the Sub-fund maintains:

- a maximum global spread of 3% between the bid and offer price in the centralized order book.

- a minimum nominal trading value of EUR 100,000.

The obligations of the Sub-fund's Market Makers will be suspended in the following cases:

- the Benchmark Index is no longer traded or calculated
- if trading is substantially disrupted, for example due to a widespread shift in prices or an event that makes normal market making impossible.

Indicative Net Asset Value

Euronext Paris will calculate and publish, each Trading Day (as defined below) and during trading hours, the Sub-fund's indicative net asset value (hereinafter "iNAV"). The iNAV is a measure of the intra-day value of the Sub-fund's net asset value based on the most recent data. The iNAV is not the value at which investors buy and sell shares in the Sub-fund on the secondary market.

A "**Trading Day**" is a day on which NSYE Euronext is normally open and on which the Benchmark Index is normally published.

The Sub-fund's iNAV is a theoretical net asset value calculated every 15 seconds by Euronext SA throughout the Paris trading day and is based on the level of the Benchmark Index. The iNAV enables investors to compare the prices that the Market Makers offer on the market with the theoretical value calculated by Euronext.

The iNAV will be calculated every day that the net asset value is calculated and published.

For the calculation of the Sub-fund's iNAV during the Paris trading session (from 9. 05 am to 5. 35 pm), Euronext Paris SA will use the Benchmark Index value published by Reuters.

If one or more stock exchanges on which the Benchmark Index's constituent securities are listed are closed (on a public holiday as indicated on the TARGET calendar) and if the calculation of the iNAV proves impossible, trading in the Sub-fund's shares may be suspended.

As the Sub-fund's delegated asset manager, Lyxor International Asset Management will provide Euronext Paris SA with all the financial and accounting data that Euronext Paris SA needs to calculate the Sub-fund's iNAV and in particular:

- The day's estimated net asset value
- The official net asset value of the previous business day
- The level of the Benchmark Index on the previous business day.

These data will serve as a basis for Euronext Paris SA's calculations to determine the Sub-fund's iNAV in real time the following Trading Day.

Additional information about the indicative net asset value of a share listed on an exchange may, in accordance with the terms and limits set by the relevant market undertaking, be provided on this exchange's website. This information is also available on the Reuters or Bloomberg pages dedicated to the particular share. Additional information about the Bloomberg and Reuters codes for the indicative net asset values of all UCITS ETF type share classes is also available in the "Term Sheets" section of Lyxor's website at www.lyxoretf.com.

(b) If the Sub-fund's shares are listed on an exchange other than Euronext Paris, as indicated in the "Key Information" section, investors should note the following

Investors wishing to acquire shares in the Sub-fund or obtain more information regarding the market-making terms that govern the listing and trading of shares on exchanges such as indicated in the "Key Information" section are advised to familiarize themselves with the guidelines laid down by the relevant market undertaking, in compliance with local regulations, and to seek if necessary the assistance of their usual broker(s) for executing trades on the relevant exchange(s).

FEES AND CHARGES

SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)

The subscription and redemption fees shown below respectively increase the subscription price paid by the investor and decrease the redemption price received. Fees kept by the Sub-fund compensate it for the expenses it incurs in investing in the Sub-fund's assets or in divesting these assets. Any fees that are not kept by the Sub-fund are paid to the asset manager, the marketing agent or other service provider.

Fees paid by investors and deducted from Fees paid by investors upon subscription or redemption	Base	Maximum charge
Subscription fee not kept by the Sub-fund	NAV per share x the number of shares	The higher value of either EUR 50,000 per subscription order or 5% payable to third parties
Subscription fee kept by the Sub-fund	NAV per share x the number of shares	1% ⁽¹⁾
Redemption fee not kept by the Sub-fund	NAV per share x the number of shares	The higher value of either EUR 50,000 per redemption request or 5% of payable to third parties
Redemption fee kept by the Sub-fund	NAV per share x the number of shares	1% ⁽¹⁾

(1) The management company adjusts these fees whenever necessary to ensure that primary market investors bear no more than the actual costs of adjusting the portfolio, for example when subscription and redemption orders are placed at the same net asset value or when an order is large enough to enable the manager to reduce execution costs.

OPERATIONAL AND MANAGEMENT FEES

These fees cover all costs charged directly to the sub-fund, with the exception of transaction fees. Transaction fees include intermediation expenses (brokerage, stock exchange taxes etc.) and transaction fees, if applicable, which may be levied by the custodian and the financial manager by delegation.

For this Sub-fund the following fees may be charged in addition to the operating and management fees (see table below):

- Incentive fees, which the Sub-fund pays to the management company when the Sub-fund exceeds its objectives. They are charged to the Sub-fund.
- Account activity charges charged to the Sub-fund.

For more information on the fees or expenses that the Sub-fund must pay, see the Statistics section of the Key Investor Information Document (KIID).

Fees charged to the Sub-fund	Base	Maximum charge
Investment management fees and administration fees that are external to the management company (auditor, depositary, fund distribution and legal fees) including tax ⁽¹⁾	Net asset value	0. 50% p. a. maximum
Account activity charge	Charge on each transaction	N/A
Incentive fee	Net asset value	N/A

(1) Includes all fees and expenses except for transaction expenses, incentive fees and fees associated with investment in UCITS.

COMMERCIAL INFORMATION

Distribution of this prospectus and the offering or purchase of the Fund's share classes may be subject to restrictions with regard to certain persons or in certain countries by virtue of national regulations applying to these persons or countries.

Investors are therefore responsible for ensuring that they can legally subscribe to or invest in this Fund. The information in this prospectus therefore cannot be construed to be an offer or solicitation to buy or sell shares in the Sub-fund in a country where such offer or solicitation is unlawful.

The Fund's share classes will not be registered pursuant to the U.S. Securities Act of 1933, as amended (the "U.S. Securities Act") and cannot be offered, assigned, transferred or allocated to the United States of America, or to:

- (A) any "U.S. Person", as this term is defined (i) under Regulation S of the US Securities Act of 1933 and (ii) under U.S. regulations as defined in Section 7701 (a) (30) of the Internal Revenue Code of 1986 as amended. The Fund's shares will not be offered to U.S. Persons.
- (B) anyone other than those persons considered to be "non-US Persons" as this term is defined under U.S. regulations pursuant to the Commodity Futures Trading Commission, Rule 4.7 (a) (1) (iv).

The Fund's shares will only be offered for sale outside of the United States of America to non-U.S. Persons.

For the purpose of this document, the term "U.S. Person" shall mean, among other things, any individual who resides in the United States of America, any entity organized or formed under the laws of the United States of America, certain entities organized or formed outside of the United States of America by one or more U.S. persons, or any account held on behalf of such a U.S. person.

Before making an investment in this Fund or Sub-fund, investors should seek the advice of their financial, tax and legal advisers.

PLACE AND METHOD OF NET ASSET VALUE PUBLICATION OR COMMUNICATION

At the head office of LYXOR INTERNATIONAL ASSET MANAGEMENT, at 17, cours Valmy - 92987 Paris La Défense CEDEX - France.
The Sub-fund's net asset value will be calculated and published by Euronext Paris SA on each Paris Trading Day, during trading hours.

IMPORTANT INFORMATION ABOUT THE BENCHMARK INDEX PROVIDER

LYXOR FORTUNE SG CHINA SOVEREIGN BONDS (DR) UCITS ETF is not sponsored, endorsed, sold or promoted by Standard & Poor's or its subsidiaries ("S&P®"). S&P® makes no representation or warranty, express or implied, to the owners of the Fund or to any member of the public regarding the advisability of investing in securities generally or in the Fund in particular or the ability of the S&P® China Sovereign Bond 1-10 Year index to track the returns and performance of any financial market and/or any subset of a financial market and/or group or category of assets. The only binding relationship between S&P® and Lyxor International Asset Management is the granting of licenses for certain registered trademarks or commercial marks and for the "S&P China Sovereign Bond 1-10 Year" index, which is defined, composed and calculated by S&P®, without regard for Lyxor International Asset Management or the Sub-fund. In defining the composition of or calculating the "S&P China Sovereign Bond 1-10 Year" index, S&P® is not obliged to take into account the needs of Lyxor International Asset Management or the Sub-fund holders. S&P® is not responsible for and has not participated in the determination of the prices or amounts of the Sub-fund or of the timing of Sub-fund issues or sales, or in the determination or calculation of the equation by which the Fund's share to be converted into cash. S&P® has no obligation or liability in connection with the administration, marketing or trading of the Sub-fund.

S&P® does not guarantee the accuracy and/or the completeness of the S&P® China Sovereign Bond 1-10 Year index or of any data included therein and shall have no liability for any errors, omissions or interruptions therein. S&P® makes no representation or warranty expressed or implied as to the results to be obtained by Lyxor International Asset Management, by the owners of the Fund or by any other person or entity from the use of the S&P® China Sovereign Bond 1-10 Year index or of any data included therein. S&P® makes no representation or warranty expressed or implied and expressly disclaims all warranties of merchantability or fitness for a particular purpose or use and any other express or implied warranty in relation to the S&P® China Sovereign Bond 1-10 Year index or to any data included therein. Without limiting any of the foregoing, in no event shall S&P® have any liability for any special, punitive, indirect or consequential damages (including lost profits) resulting from the use of the S&P® China Sovereign Bond 1-10 Year index or of any data included therein, even if notified of the possibility of such damages.

ADDITIONAL INFORMATION

The Sub-fund's shares are accepted for clearing by Euroclear France S.A.

Subscription and redemption orders are sent by the investors' financial intermediaries (members of Euroclear France SA) to the Depositary.

The SICAV Multi Units France prospectus, the Key Investor Information Document and the most recent annual reports will be sent to investors within eight business days upon written request to:

LYXOR INTERNATIONAL ASSET MANAGEMENT
17 Cours Valmy - 92987 Paris La Défense France.
E-mail: contact@lyxor.com

More information can also be requested from Lyxor International Asset Management on its website at www.lyxoretf.com.

Prospectus publication date: See the "Publication Date" section.

Pursuant to Article L. 533-22-1 of the French Monetary and Financial Code, information concerning the asset manager's possible inclusion of social, environmental and corporate governance objectives and performance criteria in its investment policy is available on the asset manager's website and in the Sub-fund's annual report.

The AMF's website (www.amf-france.org) provides more information on the regulatory documents and various provisions that concern investor protection.
This Prospectus shall be made available to investors prior to subscription.

INVESTMENT RULES

The Sub-fund will comply with the investment rules of European Directive 2009/65/EC of 13 July 2009.

The Sub-fund may invest in the assets specified in Article L214-20 of the French Monetary and Financial Code, subject to the risk-diversification and investment ratio requirements of Articles R214-21 to R214-27 of said Code.

Notwithstanding the 10% limit under Paragraph II of Article R214-21 of the French Monetary and Financial Code, the Sub-fund may invest up to 20% of its assets in the equities and debt securities of a single issuer, in compliance with Article R214-22-I, which deals with index-tracking funds. Pursuant to Article R214-22 II, the Sub-fund may also increase this 20% limit for a single issuer to 35%, when this is justified by exceptional market conditions, and in particular when certain securities are largely dominant.

Notwithstanding the assumptions set out in the above paragraph, the securities issued by a single issuer may represent up to 35% of the assets, and 100% of the assets if the Sub-fund holds at least six issues none of which exceeds 30% of the assets. The securities must be financial instruments issued or guaranteed by a Member State of the European Union, a third-party country, local authorities of a Member State of the European Union or a party to the agreement on the EEA.

OVERALL RISK EXPOSURE

The commitment approach is used to calculate the overall risk exposure.

ASSET VALUATION AND ACCOUNTING RULES

A. VALUATION RULES

The Sub-fund's assets are valued in accordance with applicable laws and regulations and in particular the rules of CRC Regulation No. 2014-01 of 14 January 2014 on the chart of accounts for French UCITS.

Financial instruments traded on a regulated market are valued at the closing price recorded on the day prior to the calculation of the net asset value. If these financial instruments are traded on several regulated markets at the same time, the closing price used is that recorded on the regulated market on which they are principally traded.

However, in the absence of significant trading on a regulated market, the following financial instruments are valued using the following methods:

- Negotiable debt securities ("NDS") with a remaining life upon acquisition that is less than or equal to three months are valued by applying the difference between the acquisition value and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life of more than three months upon acquisition but less than or equal to three months at the net asset value calculation date are valued by applying the difference between the most recent valuation and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems they are particularly exposed to market risks (interest rates, etc). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life at the net asset value calculation date that exceeds three months are valued at their current value. The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- Government and corporate bonds will be valued using the same method as that used for the Index that the Sub-fund replicates.
- Financial futures traded on organized markets are valued at the clearing price on the day prior to the calculation of the net asset value. Options traded on organized markets are valued at their market price on the day prior to the calculation of the net asset value. Forward contracts and over-the-counter options are valued at the price quoted by the counterparty. The management company monitors these prices independently.
- Bank deposits are valued at their nominal value plus accrued interest.
- Warrants, short and medium-term notes (bons de caisse), promissory notes and mortgage notes are valued under the management company's responsibility at their most likely trading value.
- Securities financing transactions are valued at the market price.
- Shares and units in UCITS under French law are valued at the last known net asset value on the day the Sub-fund's net asset value is calculated.
- Shares and units in foreign investment funds are valued at the last known unitary net asset value at the date the Sub-fund's net asset value is calculated.
- Financial instruments traded on a regulated market and for which no price has been quoted or whose price has been corrected, are valued under the management company's responsibility at their most likely trading value.
- The exchange rates used to value financial instruments denominated in a currency other than the Sub-fund's base currency are the WM Reuters fixing rates published on the day the Sub-fund's net asset value is calculated.

B. ACCOUNTING METHOD FOR TRADING EXPENSES

Trading expenses are included in the initial cost of the transaction.

C. ACCOUNTING METHOD FOR INCOME FROM FIXED-INCOME SECURITIES

Income from fixed-income securities is accounted for using the cash-basis method.

D. DISTRIBUTION POLICY

For more information see the section entitled "Calculation and appropriation of Distributable amounts"

E. ACCOUNTING CURRENCY

The Sub-fund's accounts are kept in US dollars.

SUB-FUND NO. 29: LYXOR MSCI WORLD EX EMU UCITS ETF

A SICAV SUB-FUND COMPLIANT WITH DIRECTIVE 2009/65/CE

CLASSIFICATION

Global equities.
The Lyxor MSCI World Ex EMU UCITS ETF fund (the “**Sub-fund**”) is continuously at least 60% exposed to a foreign equity market or to the equity markets of two or more countries, which may include the French market.

The Sub-fund is a UCITS ETF index-tracker.

INCEPTION DATE

The Sub-fund was approved by l’Autorité des Marchés Financiers (the French financial markets authority) on 10 October 2016.
It was created on 24 October 2016.

INVESTMENT OBJECTIVE

The Sub-fund's investment objective is to replicate the performance, whether positive or negative, of the World ex EMU Net Total Return index (hereinafter the “**Benchmark Index**”) denominated in USD and representative of the performance of medium and large capitalisation companies listed on the stock markets of developed countries, excluding those of the eurozone, while minimizing the tracking error between the Sub-fund and the Benchmark Index.

The expected ex-post tracking error, under normal market conditions, is 0.07%.

BENCHMARK INDEX

The Benchmark Index is a “Total Return” index (i.e. the dividends from the Benchmark Index constituents are reinvested).

The Benchmark Index is an equity index that is calculated and published by the global index provider MSCI.
It measures the overall performance of equity markets in the developed countries, except for those of the eurozone. It covers approximately 85% of each country's total stock market capitalization.

The Benchmark Index is composed of multiple MSCI indices each of which represents countries which MSCI considers to be “developed”, while excluding those of the eurozone.

The weighting of each stock in the Benchmark Index is adjusted in line with its free-floating market capitalization. As a result the number of stocks in the Benchmark Index can change over time.

The MSCI methodology and calculation method are based on a variable number of companies in the Benchmark Index.

A full description of the Benchmark Index and its construction methodology and information on the composition and respective weightings of the Benchmark Index constituents are available on the Internet at <https://www.msci.com/>.

The performance tracked is that of the Benchmark Index's closing price.

BENCHMARK INDEX COMPOSITION AND REVISION

The Benchmark Index is rebalanced quarterly.
The exact composition and the rules concerning Benchmark Index revisions are published by MSCI and are available on its website at <https://www.msci.com/>.
The frequency with which the Benchmark Index is rebalanced does not affect the cost of implementing the Investment Strategy.

BENCHMARK INDEX PUBLICATION

The Benchmark Index is calculated daily at the close of trade using the official closing price of the exchanges where the index constituents are listed.
The Benchmark Index is also calculated in real time every stock exchange trading day.
Real-time Benchmark Index values are available via Bloomberg and Reuters.
Reuters code: .MIWOM0000NUS

Bloomberg code: M1WOM

The closing price of the Benchmark Index is available on MSCI's website at <https://www.msci.com/>.

Pursuant to Article 52 of European Parliament and Council Regulation 2016/1011 of 8 June 2016, MSCI, the administrator of the World ex EMU Net Total Return benchmark index, has until 1 January 2020 to apply for approval or registration as applicable.

As of the date of the most recent version of this prospectus, the benchmark index administrator was not yet listed in ESMA's register of benchmark administrators.

Pursuant to European Parliament and Council Regulation 2016/1011 of 8 June 2016, the asset management company has a procedure for monitoring the benchmark indices used that specifies the measures to be implemented if an index is substantially modified or is no longer provided.

INVESTMENT STRATEGY

1. Strategy employed

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund will employ an indirect replication method, which means that it will enter into one or more OTC swap contracts enabling it to achieve its investment objective. These swap contracts will serve to exchange the value of the Sub-fund's assets, which will consist of cash and/or balance sheet assets (excluding any securities received as collateral), for the value of the securities that underlie the Benchmark Index.

The Sub-fund's securities may consist of those that make up the Benchmark Index, as well as other international equities from all economic sectors, listed on all exchanges including small-cap exchanges.

The basket of assets held may be adjusted daily such that its value will generally be at least 100% of the net assets. When necessary, this adjustment will be made to ensure that the counterparty risk arising from the aforementioned swap contract will be neutralized.

Information on the updated composition of the basket of 'balance sheet' assets in the Sub-fund's portfolio and the value of the swap contract concluded by the Sub-fund is available on the page dedicated to the Sub-fund on Lyxor's website at www.lyxoretf.com. The frequency of any updates and/or the date on which the aforementioned information is updated is also indicated on the same page of the aforementioned website.

Up to 20% of the Sub-fund's assets may be exposed to equities issued by the same entity. This 20% limit may be increased to 35% for a given issuing entity when this is shown to be justified by exceptional market conditions, in particular when certain securities are largely dominant and/or in the event of strong volatility affecting a financial instrument or securities linked to an economic sector represented in the Benchmark Index, particularly in the event of a public offering that substantially affects a Benchmark Index security or in the event of a significant drop in the liquidity of one or more of the Benchmark Index's financial instruments.

2. Balance sheet assets (excluding embedded derivatives)

In accordance with regulatory ratios, the Sub-fund can hold in its portfolio global equities in all economic sectors and listed on any exchange, including "small-cap" exchanges.

The aforementioned equities will be selected on the basis of the following:

- eligibility criteria, including:
 - their inclusion in a major stock exchange index or in the Benchmark Index
 - liquidity (must exceed a minimum daily trading volume and market capitalization)
 - credit rating of the country where the issuer has its registered office (must have a least a minimum S&P or equivalent rating)
- diversification criteria, and in particular:
 - the issuer (application of investment ratios to assets that qualify for UCITS, pursuant to Art. R214-21 of the French Monetary and Financial Code)
 - geography
 - sector.

Investors may find more information on the above eligibility and diversification criteria, and in particular the list of eligible indices, on Lyxor's website at www.lyxoretf.com

Investment in undertakings for collective investment in transferrable securities ("UCITS") that comply with Directive 2009/65/EC is limited to 10% of the Sub-fund's net assets. The Sub-fund may invest in the shares of UCITS managed by the management company or by a company that is related to the management company. The fund manager will not invest in the shares or units of alternative investment funds (AIF) or other investment funds that were formed under a foreign law.

When the Fund receives collateral in the form of securities, subject to the terms of section 8 below, it acquires full title to these securities and they are therefore included among the balance sheet assets to which it has full title.

To optimize the Sub-fund's management and achieve its investment objective, the manager reserves the right to use other financial instruments in compliance with regulations.

3. Off-balance sheet assets (derivatives)

The Sub-fund will use OTC index-linked swaps that swap the value of the Sub-fund's assets (or the value of any other financial instrument or asset the Sub-fund may hold) for the value of the Benchmark Index (as described in part I of this section).

- Maximum proportion of assets under management for which total return swaps (TRS) may be entered into: 100%.
- Expected proportion of assets under management for which total return swaps (TRS) may be entered into: up to 100%.

To optimize the Sub-fund's management and achieve its investment objective, the manager reserves the right to use other financial instruments in compliance with regulations, such as derivative instruments other than index-linked swaps.

In accordance with its best execution policy, the management company considers that Société Générale is the counterparty that is generally able to obtain the best possible execution for these derivative instruments. Accordingly, these derivative financial instruments (including index-linked swaps) may be traded via Société Générale without having to seek a competitive bid from another counterparty.

The counterparty of the derivative financial instruments referred to above (the **Counterparty**) will have no discretionary power over the composition of the Sub-fund's portfolio or over the underlying assets of the derivative instruments.

4. Securities with embedded derivatives

N/A.

5. Cash deposits

In order to optimize its cash management, the Sub-fund may deposit up to 20% of its assets in the form of cash with credit institutions that belong to the same group as the depositary.

6. Cash borrowing

The Sub-fund may temporarily borrow up to 10% of its net assets.

7. Securities financing transactions

The manager shall not engage in any temporary purchases or sales of securities.

8. Financial guarantees

Whenever the investment strategy exposes to the Sub-fund to counterparty risk, and in particular when the Sub-fund uses over-the-counter swaps, the Sub-fund may accept eligible securities as collateral to reduce the counterparty risk associated with these swaps. The portfolio of collateral received may be adjusted daily to ensure that its value is at least sufficient to cover the Sub-fund's counterparty risk in most cases. The purpose of this adjustment is to neutralize the Sub-fund's counterparty risk.

The Sub-fund will have full title to all collateral received, which will be deposited in the Sub-fund's account with the depositary. This collateral will therefore be included in the Sub-fund's assets. If a counterparty defaults on an obligation, the Sub-fund may dispose of the assets received from the counterparty in respect of the secured transaction to pay off the the counterparty's debt to the Sub-fund.

All collateral the Sub-fund receives for this purpose must comply with the applicable laws and regulations, with respect in particular to the liquidity and valuation of the collateral, the credit-worthiness of securities issuers, risk exposure correlation and the risks of collateral management and enforceability. More specifically, all collateral received must meet the following conditions:

- (a) All collateral must be of high quality, be highly liquid and tradable on a regulated market or on a multilateral trading facility, with transparent pricing to enable the collateral to be rapidly sold near its estimated price.
- (b) This collateral must be valued at its mark-to-market price at least daily and assets with highly volatile prices are not acceptable as collateral, unless a sufficiently prudent discount is applied.
- (c) The collateral must be issued by an entity that is independent from the counterparty and must not be highly correlated with the counterparty's financial performance.
- (d) The collateral must be sufficiently diversified in terms of country, market and issuer, with exposure to any single issuer not exceeding 20% of the Sub-fund's net asset value.
- (e) The Sub-fund's Management Company must be able to fully enforce the collateral at all times without the prior consultation or approval of the counterparty.

Notwithstanding the condition specified in (d) above, the Fund may accept a basket of securities collateral that increases its exposure to a single issuer to more than 20% of its net asset value provided that:

- such securities collateral is issued by (i) a Member State, (ii) one or more of a Member State's local authorities, (iii) a country that is not a Member State (iv) a public international organization to which one or more Member States belong; and
- such securities collateral consists of at least six different issues of securities of which no single issue exceeds 30% of the Sub-fund's assets.

Subject to the above conditions, the Sub-Fund may take collateral in the following forms:

- (i) cash and cash-equivalent assets, which for example include short-term bank deposits and balances and money-market instruments
- (ii) bonds issued or guaranteed by an OECD member state, or by its local government entities, or by an EU, regional or global supranational institution or organisation, or by any country provided that conditions (a) to (e) above are fully complied with
- (iii) shares or units issued by money-market funds that calculate a daily net asset value and have an AAA or equivalent credit rating
- (iv) the shares or units of UCITS that invest mainly in the bonds and/or equities indicated in (v) and (vi) below
- (v) bonds issued or guaranteed by top-rated issuers that offer sufficient liquidity
- (vi) shares admitted for trading or traded on a regulated market of an EU member state, on a securities exchange of an OECD member state, or on a securities exchange of a non-OECD country provided that the conditions of points (a) to (e) above are fully met and that these shares are a component of a leading stock index.

Collateral discount policy

The Sub-fund's management company shall apply a discount to the collateral accepted by the Sub-fund. The amount of this discount will depend on the following criteria:

- the type of asset provided as collateral
- the maturity of the asset provided as collateral (if relevant)
- the credit rating of the issuer of the asset provided as collateral (if relevant).

Reinvestment of collateral

Non-cash collateral will not be sold, reinvested or pledged.

At the manager's discretion, cash collateral may either be:

- (i) deposited with an authorized institution
- (ii) invested in high-quality government bonds
- (iii) used for reverse repurchase transactions, provided that these are entered into with credit institutions that are subject to prudential supervision and that the fund is able to withdraw the total amount of its cash collateral and the accrued interest at any time
- (iv) invested in short-term money market funds that meet the guidelines for a common EU definition of money market funds.

All cash collateral that is reinvested must be invested in a diversified manner in compliance with the rules that apply to the acceptance of non-cash collateral.

RISK PROFILE

Investors' money will be invested mainly in the financial instruments selected by the Management Company. These instruments are subject to market trends and contingencies.

Investors in the Sub-fund will mainly be exposed to the following risks:

- Equity risk

The price of an equity security can increase or decrease in accordance with changes in the issuer's risk exposure or in the economic conditions of the market in which the security is traded. Equity markets are more volatile than fixed income markets, where under stable macroeconomic conditions income over a given period of time can be estimated with reasonable accuracy.

- Capital risk

The capital invested is not guaranteed. As a consequence, investor's capital is at risk. Investors therefore may not recover all or part of their initial investment, particularly in the event that the Benchmark Index posts a negative return over the investment period.

- Liquidity risk (primary market)

The Sub-fund's liquidity and/or value may be adversely affected if, when the Sub-fund or a counterparty to a financial derivative instrument (**DFI**) is rebalancing its exposure, the underlying financial markets are restricted, closed, or subject to large bid/offer spreads. An inability, due to low trading volumes, to execute trades associated with the replication of the Benchmark Index may also adversely affect share subscription, conversion and redemptions.

- Liquidity risk (secondary market)

The price of the Sub-fund's listed shares or units may deviate from the Sub-fund's indicative net asset value. The liquidity of the Sub-fund's shares traded on a given exchange may be adversely affected by a suspension in trading for various reasons, such as:

- i) the calculation of the Benchmark Index is suspended or stopped
- ii) the market(s) in the Benchmark Index's underlying assets is (are) suspended
- iii) an exchange cannot obtain or calculate the Sub-fund's indicative net asset value
- iv) a market maker fails to comply with an exchange's rules
- v) an exchange's IT, electronic or other system fails.

- Counterparty risk

The Sub-fund is exposed to the risk that a counterparty with which the Sub-fund has entered into a contract or transaction may go bankrupt or default on a settlement or other obligation. The Sub-fund is in particular exposed to counterparty risk resulting from the use of derivative financial instruments (**DFI**) traded over the counter with Société Générale or some other counterparty. In compliance with UCITS regulations, exposure to counterparty risk (whether the counterparty is Société Générale or another entity), cannot exceed 10% of the Sub-fund's total assets per counterparty.

If a counterparty defaults on an obligation the DFI contract may be terminated before maturity. The Sub-fund will do everything in its power to achieve its investment objective by, if appropriate, entering into another DFI contract with another counterparty at the market conditions prevailing at the time of such an event.

If this counterparty risk materializes it could have an impact on the Sub-fund's ability to achieve its investment objective of replicating the Benchmark Index.

Where Société Générale acts as the DFI counterparty, conflicts of interest may arise between the Sub-fund's Management Company and the DFI counterparty. The Management Company has procedures to identify and reduce such conflicts of interest and to resolve them equitably if necessary.

- Risk of investing in small and mid-cap companies

The Sub-fund is exposed to small and medium capitalization companies and more specifically to the equity securities of small, medium and "intermediate" sized enterprises, which may increase market and liquidity risks. The prices of these securities therefore increase and decrease more sharply than those of large-cap stocks. The Sub-fund's net asset value could behave similarly and therefore fall more sharply than that of a similar investment in large-capitalization equities.

- Risk that the investment objective is not fully achieved

There is no guarantee of achieving the investment objective. Indeed, no asset or financial instrument allows for a continuous and automatic replication of the benchmark index, particularly if one or more of the following risks occurs:

- Derivatives risk

In order to secure the Benchmark Index returns and achieve its investment objective, the Sub-fund can enter into transactions involving over-the-counter derivative financial instruments (**DFI**), such as swaps. These derivatives involve various risks, such as counterparty risk, hedging disruption, index disruption, taxation risk, regulatory risk, operational risk and liquidity risk. These risks can materially affect an DFI and could lead to an adjustment or even the early termination of the DFI transaction, which could affect the Sub-fund's net asset value.

- Risk due to a change in the tax regime

A change in the tax regime of a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed could adversely affect the taxation of investors. In such an event, the Sub-fund manager shall not be liable to any investor with respect to any payment that may have to be made to a competent tax authority.

- Risk of a change in the taxation of the Fund's underlying assets

A change in the taxation of the Sub-fund's underlying assets could adversely affect the Sub-fund's taxation. In such an event a discrepancy between the estimated taxation and the actual taxation of the Sub-fund (and/or of the Sub-fund's DFI counterparty) may adversely affect the Sub-fund's net asset value.

- Regulatory risk affecting the Sub-fund

In the event of a change in the regulatory regime in a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed, the subscription, conversion or redemption of the Sub-fund's shares may be adversely affected.

- Regulatory risk affecting the Fund's underlying assets

In the event of a change in the regulations that govern the Sub-fund's underlying assets, the Sub-fund's net asset value and the subscription, conversion or redemption of shares may be adversely affected.

- Benchmark Index disruption risk

If an event adversely affects the Benchmark Index, the Sub-fund manager may be required, as provided for by law, to suspend the subscription and redemption of the Sub-fund's shares. The calculation of the Sub-fund's net asset value could also be adversely affected.

If the disruption of the Benchmark Index persists, the Sub-fund manager will determine an appropriate course of action, which could decrease the Sub-fund's net asset value.

A 'Benchmark Index event' includes but is not limited to the following situations:

- i) the Benchmark Index is deemed to be inaccurate or does not reflect actual market developments
- ii) the Benchmark Index is permanently cancelled by the index provider
- iii) the index provider is unable to indicate the level or value of the Benchmark Index
- iv) the index provider makes a material change in the Benchmark Index calculation formula or method (other than a minor modification such as an adjustment to this Benchmark Index's underlying components or their respective weightings) which the Sub-fund cannot effectively replicate at a reasonable cost
- v) a Benchmark Index component becomes illiquid because it is no longer traded on a regulated market or because its trading over-the-counter (e.g. bonds) is disrupted.
- vi) the Benchmark Index components are exposed to higher transaction costs for execution or settlement/delivery, or to specific tax constraints and these costs are not reflected in the Benchmark Index's performance.

- Corporate action risk

An unforeseen change, by the issuer of a security that is a component of the Benchmark Index, in a planned corporate action that is in contradiction with a previous official announcement on which the Sub-fund based its valuation of the corporate action (and/or on which the Sub-fund's counterparty to a financial derivative instrument or transaction based its valuation of the corporate action) can adversely affect the Sub-fund's net asset value, particularly if the Sub-fund's treatment of the corporate event differs from that of the Benchmark Index methodology.

- Currency risk associated with the Benchmark index

The Sub-fund is exposed to currency risk since the securities that underlie the Benchmark Index may be denominated in a different currency than the Benchmark Index, or be derivatives of securities that are denominated in a different currency than the Benchmark Index. Changes in exchange rates may therefore adversely impact the Sub-fund's Benchmark Index.

- Currency hedging risk on the Monthly Hedged to EUR - Acc , Monthly Hedged to EUR - Dist, Monthly Hedged to GBP - Acc, Monthly Hedged to GBP - Dist, Monthly Hedged to CHF - Acc and Monthly Hedged to CHF - Dist share classes:

To hedge the EUR currency risk (and respectively the GBP and CHF currency risk) against the currency of each of the securities that make up the Benchmark Index for the relevant Monthly Hedged share class, the Sub-fund will employ a hedging strategy that enables it to reduce the impact of a change in the exchange rate between the currency of each of the securities that make up the Benchmark Index and the currency of that share class. However, given the monthly adjustment of the hedging and the hedging instruments employed this does not necessarily ensure zero exposure to adverse market movements that may decrease the net asset value of the share class. The cost of hedging currency risk will also decrease the net asset value of the Monthly Hedged share classes.

- Legal risk

The Fund may be exposed to a legal risk arising from a total return swap (TRS) agreement as indicated in EU Regulation No. 2015/2365.

ELIGIBLE INVESTORS AND TYPICAL INVESTOR PROFILE

The Sub-fund is This Sub-fund is available to all investors.

Investors in this Sub-fund seek exposure to the financial performance of mid-cap and large-cap companies listed on developed country exchanges, excluding those of the eurozone countries.

The amount that should reasonably be invested in this Sub-fund depends on the personal situation of each investor. To determine this amount, investors must take into account their personal wealth and/or estate, their cash requirements currently and for the next five years, and their willingness to take on risk or their preference for more prudent investment. Investors are also advised to diversify their investments sufficiently so as not to be exposed solely to this Sub-fund's risks.

All investors are therefore asked to consider their specific situation with the help of their usual investment advisor.

The recommended minimum investment period is at least five years.

CALCULATION AND APPROPRIATION OF DISTRIBUTABLE AMOUNTS

Acc share class: All amounts available for distribution are reinvested.

Dist share class: The management company reserves the right to accumulate and/or distribute all or part of distributable income in one or more annual distributions. All net capital gains realized will be accumulated.

Monthly Hedged to EUR - Acc share class: All amounts available for distribution are accumulated

Monthly Hedged to EUR - Dist share class: The management company reserves the right to accumulate and/or distribute all or part of distributable income in one or more annual distributions. All net capital gains realized will be accumulated.

Monthly Hedged to GBP - Acc share class: All amounts available for distribution are accumulated.

Monthly Hedged to GBP - Dist share class: The management company reserves the right to accumulate and/or distribute all or part of distributable income in one or more annual distributions. All net capital gains realized will be accumulated.

Monthly Hedged to CHF - Acc share class: All amounts available for distribution are accumulated.

Monthly Hedged to CHF - Dist share class: The management company reserves the right to accumulate and/or distribute all or part of distributable income in one or more annual distributions. All net capital gains realized will be accumulated.

DISTRIBUTION FREQUENCY

The management company reserves the right to distribute distributable amounts in one or more annual distributions.

SHARE CHARACTERISTICS

Subscription orders may be placed for a specific monetary amount or for a whole number of shares.
Redemptions are made in whole numbers of shares.

SUBSCRIPTION AND REDEMPTION

1. SUBSCRIPTION AND REDEMPTION ON THE PRIMARY MARKET

Subscription/redemption orders for shares in the Sub-fund will be processed by the Depositary until 6.30 pm (Paris time), every day that the Sub-fund's net asset value is to be published, provided that prices can be quoted for a significant proportion of the Benchmark Index components (hereinafter a "Primary Market Day") and will be executed at the net asset value on the following Primary Market Day, hereinafter the "reference NAV". Subscription/redemption orders submitted after 6.30 pm (Paris time) on a Primary Market Day will be processed as if received by 6.30 pm (Paris time) on the following Primary Market Day. Orders to subscribe for or redeem shares in the Sub-fund must be made for a whole number of shares, and, for share classes denominated in USD, GBP and CHF, for a minimum amount in USD, GBP, CHF respectively that is equivalent to 100,000 EUR.

Subscriptions and redemptions in cash.

Subscriptions and redemptions shall be made exclusively in cash and executed at the ref NAV.

Delivery and settlement.

Settlement/delivery of subscriptions and redemptions shall be completed within five French business days after the subscription or redemption order is received.

Date and frequency of net asset value calculation

The net asset value will be calculated and published daily, provided that at least one exchange on which the Sub-fund's shares are listed is open and that orders placed in the primary and secondary markets can be funded.

The Sub-fund's net asset value is calculated using the Benchmark Index's closing price.

The net asset value of a share class that is denominated in another currency than the Sub-fund's accounting currency (if applicable) is calculated using the exchange rate between the accounting currency and the currency of the share class, at the applicable WM Reuters rate on the date the reference NAV is calculated.

2. PURCHASES AND SALES ON THE SECONDARY MARKET

A. COMMON PROVISIONS

For any purchase or sale of shares in the Sub-fund made directly on an exchange on which the Sub-fund is admitted or will be admitted for continuous trading, no minimum purchase or sale amount is required other than that which may be required by the relevant exchange(s).

Shares in a listed Sub-fund acquired on the secondary market cannot generally be directly resold to the Sub-fund. Investors must therefore buy and sell their shares on a secondary market through an intermediary (e.g. a broker) and may consequently incur costs. Furthermore, there is a possibility that investors may pay more than the indicative net asset value when buying shares or units and receive less than the indicative net asset value when selling shares or units.

If the stock market value of a listed fund's shares or units differs significantly from their indicative net asset value, or if trading in the fund's shares or units is suspended, investors may be authorised, subject to the conditions set forth below, to redeem their shares on the primary market directly from the fund, without being subject to the minimum redemption amount requirement set forth herein in the section entitled "*Subscription and Redemption Fees(charged only on primary market transactions)*".

The management company shall decide whether to allow such primary market redemptions and for how long, on the basis of the following criteria for assessing the significance of a market disruption:

- The suspension or strong disturbance of secondary trading on a given exchange is relatively frequent
- The link between the market disruption and secondary market operators (such as the default of one or more of the Market Makers of a given exchange, or a breakdown or malfunction of an exchange's IT or operating systems), excluding a disruption caused by a source external to the secondary exchange on which the Sub-fund's shares are traded, such as an event that affects the liquidity and valuation of all or some of the Benchmark Index's components
- Any other objective circumstance that could adversely affect the fair treatment and/or the interests of the Sub-fund's share-holders.

Notwithstanding the provisions concerning fees presented in the section entitled "*Subscription and redemption fees (charged only on primary market transactions)*", redemptions made in the primary market in this case shall only be subject to a net redemption fee of 1% paid to the Sub-fund and which serves to cover its trading costs.

In such exceptional cases when redemption in the primary market is allowed, the Management Company shall post on Lyxor's website at www.lyxor.etf.com the procedure that investors must observe to redeem their shares or units in the primary market. The Management Company shall also make this procedure available to the market undertaking that handles trading in the Sub-fund's shares.

B. SPECIAL PROVISIONS

- a) **If the Sub-fund's shares are listed on The Euronext Paris exchange, as indicated in the "Key Information" section, investors should note the following rules:**

Negotiability of shares and information about the financial institutions acting as Market Makers

The shares shall be freely negotiable on the Euronext Paris regulated market subject to the following conditions and the applicable laws and regulations..

The Sub-fund shares will be listed on a specific trading list, the rules of which are set forth in the following instructions published by Euronext Paris SA:

- Instruction No. 4-01 " Universal Trading Platform Manual"
- Appendix to Instruction N4-01 "Appendix to the Euronext Market Trading Manual"
- Instruction No. 6-04 "Documentation to be provided when filing a listing application for an ETF, ETN, ETV and open-ended undertakings for collective investment other than ETFs"

Pursuant to article D 214-22-1 of the French Monetary and Financial Code the units or shares of undertakings for collective investments in transferable securities may be admitted to trading, provided that these undertakings have a system to ensure that the market price of their units or shares does not differ significantly from their net asset value. Under Euronext's rules trading in the Sub-fund's shares is also subject to a 'reservation threshold' of 3% above or below the Sub-fund's indicative net asset value or "iNAV" (see the "Indicative Net Asset Value" section), as published by Euronext Paris SA and updated on an estimated basis during trading in accordance with the change in the Benchmark Index.

To comply with Euronext Paris's reservation threshold (see the section entitled "Indicative net asset value") the Market Makers will ensure that the market price of the Sub-fund's shares does not differ from the Sub-fund's Indicative Net Asset Value by more than 3%.

Euronext Paris may suspend trading in the Sub-fund's shares pursuant to the terms of its operating rules, if the aforementioned reservation threshold limit is exceeded.

Euronext Paris will also suspend trading in the Sub-fund's shares in the following cases:

- the Benchmark Index is no longer traded or calculated
- Euronext Paris cannot obtain the Benchmark Index's level
- Euronext Paris cannot obtain the Sub-fund's net asset value.

In accordance with the terms and conditions governing admission to trading on Euronext Paris, the Market Makers undertake to provide market-making services for the Sub-fund's shares as soon as they are admitted to trading on the Euronext Paris market.

In particular, the Market Makers undertake to carry out market-making operations by maintaining a significant presence in the market, which initially entails the setting of a bid/ask spread.

More specifically, the Market Makers are required by contract with Euronext Paris to ensure that the Sub-fund maintains:

- a maximum global spread of 3% between the bid and offer price in the centralised order book.
- a minimum par value of EUR100,000 on the buy and sell side.

The obligations of the Sub-fund's Market Makers will be suspended in the following cases:

- the Benchmark Index is no longer traded or calculated
- if trading is substantially disrupted, for example due to a widespread shift in prices or an event that makes normal market making impossible.

Indicative net asset value

Euronext Paris SA will calculate and publish, each Trading Day (as defined below) during trading hours, the Sub-fund's indicative net asset value (hereinafter "iNAV"). The iNAV is a measure of the intra-day value of the Sub-fund's net asset value based on the most recent data. The iNAV is not the value at which investors buy and sell shares in the Sub-fund on the secondary market.

A "Trading Day" is a day on which NSYE Euronext is normally open and on which the Benchmark Index is normally published.

The Sub-fund's iNAV is a theoretical net asset value calculated every 15 seconds by Euronext SA throughout the Paris trading day and is based on the level of the Benchmark Index. The iNAV enables investors to compare the prices that the Market Makers offer on the market with the theoretical value calculated by Euronext.

The iNAV will be calculated every day that the net asset value is normally calculated and published.

To calculate the Sub-fund's iNAV throughout the Paris trading session (9:05 am to 5:35 pm), Euronext Paris SA will use the Benchmark Index value published by Reuters.

If one or more stock exchanges on which the Benchmark Index's constituent equities are listed are closed (on a public holiday as indicated on the TARGET calendar), and if the iNAV cannot be calculated, trading in the Sub-fund's shares may be suspended.

Lyxor International Asset Management, the Sub-fund's management company, will provide Euronext Paris SA with all the financial and accounting data it needs to calculate the Sub-fund's iNAV and in particular:

- The day's estimated net asset value
- The official net asset value of the previous business day
- The level of the Benchmark Index on the previous business day.

These data will serve as a basis for Euronext Paris SA's calculations to determine the Sub-fund's iNAV in real time every Trading Day.

Additional information about the indicative net asset value of a share listed on an exchange may, depending on the terms and limits set by the relevant market undertaking, be provided on this exchange's website. This information is also available on the Reuters or Bloomberg pages that specifically concern the share. Additional information about the Bloomberg and Reuters codes for the indicative net asset values of all UCITS ETF type share classes is also available in the "Term Sheets" section of Lyxor's website at www.lyxoretf.com.

b) If the Sub-fund's shares are listed on an exchange other than Euronext Paris, as indicated in the "Key Information" section, investors should note the following:

Investors wishing to acquire shares in the Sub-fund or obtain more information regarding the market-making terms that govern the listing and trading of shares on the types of exchanges indicated in the "Key Information" section are advised to familiarize themselves with the guidelines laid down by the relevant market undertaking, in compliance with local regulations, and to seek if necessary the assistance of their usual broker(s) for executing trades on the relevant exchange(s).

FEES AND CHARGES

SUBSCRIPTION AND REDEMPTION FEES (CHARGED ONLY ON PRIMARY MARKET TRANSACTIONS)

The subscription and redemption fees shown below respectively increase the subscription price paid by the investor and decrease the redemption price received. Fees kept by the Sub-fund compensate it for the expenses it incurs in investing in the Sub-fund's assets or in divesting these assets. Any fees that are not kept by the Fund are paid to the management company, marketing agent, or other service provider.

Fees paid by investors upon subscription or redemption	Base	Maximum charge
Subscription fee not kept by the Sub-fund	NAV per share x the number of shares	The higher value of either EUR 50,000 per subscription order or 5% payable to third parties
Subscription fee kept by the Sub-fund	NAV per share x the number of shares	N/A
Redemption fee not kept by the Sub-fund	NAV per share x the number of shares	The higher value of either EUR 50,000 per redemption order or 5% payable to third parties
Redemption fee kept by the Sub-fund	NAV per share x the number of shares	N/A

OPERATIONAL AND MANAGEMENT FEES

These fees cover all the costs invoiced directly to the Sub-fund, except for transaction expenses. Transaction expenses include intermediary fees (brokerage fees, stock market taxes etc.) and any account activity charges that may be charged, in particular by the depositary or the management company.

For this Sub-fund the following fees may be charged in addition to the operating and management fees (see table below).

Incentive fees, which the Sub-fund pays to the management company when the Sub-fund exceeds its objectives.

Account activity charges charged to the Sub-fund.

For more information on the fees or expenses that are charged to the Sub-fund, see the Statistics section of the Key Investor Information Document (KIID).

Fees charged to the Sub-fund	Base	Maximum rate for the Acc and Dist share classes	Maximum rate for the Monthly Hedged to EUR - Acc , Monthly Hedged to EUR - Dist, Monthly Hedged to GBP - Acc, Monthly Hedged to GBP - Dist, Monthly Hedged to CHF - Acc and Monthly Hedged to CHF - Dist share classes
Investment management fees and administration fees that are external to the management company (auditor, depositary, fund distribution and legal fees) including tax ⁽¹⁾	Net asset value	0.35% per annum	0.45% per annum
Of which management fees that are external to the management company (auditor, depositary, fund distribution and legal fees)	Net asset value		0.12% per annum
Incentive fee	Net asset value		N/A
Account activity charge	Charged on each transaction		N/A

(1) Includes all fees and expenses except for transaction expenses, incentive fees and fees associated with investment in UCITS.

COMMERCIAL INFORMATION

Distribution of this prospectus and the offering or purchase of the Fund's share classes may be subject to restrictions with regard to certain persons or in certain countries under national regulations that may apply to these persons or countries. Investors are therefore responsible for ensuring that they can legally subscribe to or invest in this Fund. The information in this prospectus therefore cannot be construed to be an offer or solicitation to buy or sell shares in this Fund in a country where such offer or solicitation is unlawful.

The Fund's share classes will not be registered pursuant to the U.S. Securities Act of 1933, as amended (the "U.S. Securities Act") and cannot be offered, assigned, transferred or allocated to the United States of America, or to:

- (A) any "U.S. Person", as this term is defined (i) under Regulation S of the US Securities Act of 1933 and (ii) under U.S. regulations as defined in Section 7701 (a) (30) of the Internal Revenue Code of 1986 as amended. The Fund's shares will not be offered to U.S. Persons.
- (B) anyone other than those persons considered to be "non-US Persons" as this term is defined under U.S. regulations pursuant to the Commodity Futures Trading Commission, Rule 4.7 (a) (1) (iv).

The Fund's shares will only be marketed outside of the United States of America to **non-U.S. Persons**.

For the purpose of this document, the term "U.S. Person" shall mean, among other things, any individual who resides in the United States of America, any entity organized or formed under the laws of the United States of America, certain entities organized or formed outside of the United States of America by one or more U.S. persons, or any account held on behalf of such a U.S. person.

Under the German tax act on investment funds (InvStG-E), the Sub-fund is a "mutual fund" and must comply with the criteria that apply to "equity funds". As such, the Sub-fund will hold a basket of securities that are eligible for the equity ratio as this term is defined under said German tax act, and which will represent at least 92% of its net assets under normal market conditions. To ensure compliance with this ratio, the Sub-fund may adjust this basket of securities on a daily basis.

Before making an investment in this Fund or this Sub-fund, investors should seek the advice of their financial, tax and legal advisers.

PLACE AND METHOD OF NET ASSET VALUE PUBLICATION OR COMMUNICATION

At the head office of LYXOR INTERNATIONAL ASSET MANAGEMENT, at 17, cours Valmy – 92800 Puteaux, France.

The Sub-fund's net asset value will be calculated and published by Euronext Paris SA on each Paris Trading Day, during trading hours.

IMPORTANT INFORMATION ABOUT THE INDEX PROVIDER

The Sub-Fund is in no way sponsored, endorsed, sold or promoted by MSCI Inc. ("MSCI"), nor by any MSCI subsidiary, nor by any of the entities involved in establishing the MSCI indices. The MSCI indices are the sole property of MSCI, and the MSCI indices are trademarks registered by MSCI and its subsidiaries and have been licensed, for specific purposes, by Lyxor Asset Management. Neither MSCI, nor any subsidiary of MSCI, nor any of the entities involved in producing or calculating the MSCI indices have made any representation or any warranty, either expressed or implied, to holders of shares in the Sub-fund or, more generally, to the general public, concerning the merits of trading in shares or units of investment funds in general or in the shares of this Sub-fund in particular or the ability of any MSCI index to replicate the performance of the global equities market. MSCI and its subsidiaries are the owners of certain names, registered trademarks and the MSCI indices, which are determined, constructed and calculated by MSCI without any consultation with Lyxor International Asset Management or the Sub-fund. Neither MSCI, nor any MSCI subsidiary, nor any of the entities involved in the production of the MSCI indices are obliged to take into consideration the needs of Lyxor International Asset Management or of the holders of the Sub-fund's shares when determining, constructing or calculating the MSCI indices. Neither MSCI, nor any MSCI subsidiary, nor any of the entities involved in the production of the MSCI indices make any decision concerning the launch date, pricing, quantity of the Sub-Fund's shares or the determination and calculation of the formula used to establish the Sub-Fund's net asset value. Neither MSCI, nor any MSCI subsidiary, nor any of the entities involved in the production of the MSCI indices accept any responsibility for or obligations concerning the administration, management or marketing of the Sub-fund.

ALTHOUGH MSCI OBTAINS DATA INCORPORATED OR USED IN THE CALCULATION OF INDICES ORIGINATING FROM SOURCES THAT MSCI BELIEVES TO BE RELIABLE, NEITHER MSCI NOR ANY OTHER PARTY INVOLVED IN THE CREATION OR CALCULATION OF THE MSCI INDICES GUARANTEES THE ACCURACY AND/OR THE COMPLETENESS OF THE INDICES OR ANY INCORPORATED DATA. NEITHER MSCI NOR ANY PARTY INVOLVED IN THE CREATION OR CALCULATION OF THE MSCI INDICES MAKES ANY WARRANTIES, EXPRESSED OR IMPLIED, CONCERNING THE RESULTS THAT THE HOLDER OF A MSCI LICENCE, CUSTOMERS OF SAID LICENSEE, COUNTERPARTIES, FUND SHAREHOLDERS OR ANY OTHER PERSON OR ENTITY WILL ACHIEVE FROM THE USE OF THE INDICES OR ANY INCORPORATED DATA IN RELATION TO THE RIGHTS LICENSED OR FOR ANY OTHER PURPOSE. NEITHER MSCI NOR ANY OTHER PARTY MAKES ANY WARRANTIES, EXPRESSED OR IMPLIED, AND MSCI DISCLAIMS ANY WARRANTIES CONCERNING THE COMMERCIAL VALUE OR SUITABILITY FOR A SPECIFIC PURPOSE OF THE INDICES OR INCORPORATED DATA. WITHOUT PREJUDICE TO THE FOREGOING, UNDER NO CIRCUMSTANCES SHALL MSCI OR ANY OTHER PARTY BE HELD LIABLE FOR ANY LOSS, BE IT DIRECT, INDIRECT OR OTHER (INCLUDING LOSS OF EARNINGS) EVEN IF IT IS AWARE OF THE POSSIBILITY OF SUCH A LOSS.

ADDITIONAL INFORMATION

The Sub-fund's shares are admitted for clearing by Euroclear France S.A.

Subscription and redemption orders are sent to the Depositary by the investors' financial intermediaries (members of Euroclear France SA).

The Sub-fund's prospectus, the Key Investor Information Document, the most recent annual documents and the asset inventory will be sent to investors within eight business days upon receipt of a written request submitted to:

LYXOR INTERNATIONAL ASSET MANAGEMENT

17 Cours Valmy - 92987 Paris La Défense France.

E-mail: contact@lyxor.com

More information can also be requested from Lyxor International Asset Management on its website at www.lyxoretf.com.

Prospectus publication date: See the "Publication Date" section.

Pursuant to Article L.533-22-1 of the French Monetary and Financial Code, information concerning the Management Company's possible inclusion of social, environmental and corporate governance objectives and performance criteria in its investment policy is available on the management company's website and in the Sub-fund's annual report.

The AMF's website (www.amf-france.org) contains additional information on the relevant regulatory documents and investor protection measures. This Prospectus shall be made available to investors prior to subscription.

INVESTMENT RULES

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

The Sub-fund may invest in the assets specified in Article L214-20 of the French Monetary and Financial Code, subject to the risk-diversification and investment ratio requirements of Articles R214-21 to R214-27 of said Code.

Notwithstanding the 10% limit under Paragraph II of Article R214-21 of the French Monetary and Financial Code, the Sub-fund may invest up to 20% of its assets in the equities and debt securities of a single issuer, in compliance with Article R214-22-I, which deals with index-tracking funds. Pursuant to Article R214-22 II, the Sub-fund may also increase this 20% limit for a single issuer to 35%, when this is shown to be justified by exceptional market conditions, and in particular when certain securities are largely dominant.

OVERALL RISK EXPOSURE

The commitment approach is used to calculate the overall risk exposure.

ASSET VALUATION AND ACCOUNTING RULES

A. VALUATION RULES

The Sub-fund's assets are valued in accordance with applicable laws and regulations and most notably Regulation No. 2014-01 of 14 January 2014 of the Comité de la Réglementation Comptable (the Accounting Regulations Committee), which applies to the chart of accounts for undertakings for collective investment in transferable securities. Financial instruments traded on a regulated market are valued at the closing price recorded on the day prior to the calculation of the net asset value. If these financial instruments are traded on several regulated markets at the same time, the closing price used is that recorded on the regulated market on which they are principally traded.

However, in the absence of significant trading on a regulated market, the following financial instruments are valued using the following methods:

- Negotiable debt securities ("NDS") with a remaining life upon acquisition that is less than or equal to three months are valued by applying the difference between the acquisition value and the redemption value on a straight-line basis over the remaining life. The management company nevertheless reserves the right to value these instruments at their market price if they are particularly sensitive to any market risks (interest rate risk, etc.). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life of more than three months upon acquisition but less than or equal to three months at the net asset value calculation date are valued by applying the difference between the most recent valuation and the redemption value on a straight-line basis over the remaining life. The management company nevertheless reserves the right to value these instruments at their market price if they are particularly sensitive to any market risks (interest rate risk, etc.). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life at the net asset value calculation date that exceeds three months are valued at their current value. The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- Financial futures traded on organized markets are valued at the clearing price on the day prior to the calculation of the net asset value. Options traded on organized markets are valued at their market price on the day prior to the calculation of the net asset value. Forward contracts and over-the-counter options are valued at the price quoted by the counterparty. The management company monitors these prices independently.
- Bank deposits are valued at their nominal value plus accrued interest.
- Warrants, short and medium-term notes (*bons de caisse*), promissory notes and mortgage notes are valued under the management company's responsibility at their most likely trading value.
- Securities financing transactions are valued at the market price.
- Shares and units in UCITS under French law are valued at the last known net asset value on the day the Sub-fund's net asset value is calculated.
- Shares and units in foreign investment funds are valued at the last known unitary net asset value at the date the Sub-fund's net asset value is calculated.
- Financial instruments traded on a regulated market and for which no price has been quoted or whose price has been adjusted, are valued under the management company's responsibility at their most likely trading value.
- The exchange rates used to value financial instruments denominated in a currency other than the Sub-fund's base currency are the WM Reuters fixing rates published on the day the Sub-fund's net asset value is calculated.

B. ACCOUNTING METHOD FOR TRADING EXPENSES

Trading expenses are included in the initial cost of the transaction.

C. ACCOUNTING METHOD FOR INCOME FROM FIXED-INCOME SECURITIES

Income from fixed-income securities is accounted for using the cash-basis method.

D. DISTRIBUTION POLICY

For more information see the section entitled "Calculation and appropriation of Distributable amounts"

E. ACCOUNTING CURRENCY

The Sub-fund's accounts are kept in USD.

SUB-FUND NO. 30: Lyxor FTSE US QUALITY Low Vol Dividend (DR) UCITS ETF

A SICAV SUB-FUND COMPLIANT WITH DIRECTIVE 2009/65/CE

ISIN code

Acc share class:	FR0013235249
Dist share class:	FR0013235256
Daily Hedged to EUR - Acc share class:	FR0013235264
Daily Hedged to EUR - Dist share class:	FR0013235272
Daily Hedged to GBP - Acc share class:	FR0013235280
Daily Hedged to GBP - Dist share class:	FR0013235298
Daily Hedged to CHF - Acc share class:	FR0013235306
Daily Hedged to CHF - Dist share class:	FR0013235314

CLASSIFICATION

Global equities.

At least 60% of the net assets of the Lyxor FTSE US Quality Low Vol Dividend (DR) UCITS ETF sub-fund (the “**Sub-fund**”) are continuously exposed to a foreign equity market or to the equity markets of two or more countries, one of which may be France.

The Sub-fund is a UCITS ETF type index tracker.

INCEPTION DATE

The Sub-fund was approved by l’Autorité des Marchés Financiers (the French financial markets authority) on 24/03/2017.

INVESTMENT OBJECTIVE

The investment objective of the Lyxor FTSE US Quality Low Vol Dividend (DR) UCITS ETF sub-fund is to replicate the performance, whether positive or negative, of the “FTSE USA Qual/Vol/Yield Factor 5% Capped Index”(the “Benchmark Index”) which is denominated in USD, is representative of the stock performance of a basket of companies based in the United States, and which gives equal weighting to their dividend yields, volatility and financial quality, while minimising the tracking error between the Sub-fund and Benchmark Index. The weight of each equity in the Benchmark Index is capped at 5%.

For the Daily Hedged to EUR - Acc and Daily Hedged to EUR - Dist share classes, the Sub-fund will employ a daily currency hedging strategy to reduce the impact of a change in the euro (EUR) exchange rate vis-à-vis each of the equities that make up the Benchmark Index.

For the Daily Hedged to GBP - Acc and Daily Hedged to GBP - Dist share classes, the Sub-fund will also employ a daily currency hedging strategy to reduce the impact of a change in the pound sterling (GBP) exchange rate vis-à-vis each of the equities that make up the Benchmark Index.

For the Daily Hedged to CHF - Acc and Daily Hedged to CHF - Dist, the Sub-fund will also employ a daily currency hedging strategy to reduce the impact of a change in the Swiss franc (CHF) exchange rate vis-à-vis each of the equities that make up the Benchmark Index.

The expected ex-post tracking error under normal market conditions is 0.20%.

BENCHMARK INDEX

The Benchmark Index is the “ FTSE USA Qual/Vol/Yield Factor 5% Capped Index”. It is a “Net Total Return” index, which means that the dividends paid by the Benchmark Index’s components are reinvested in the Benchmark Index after the deduction of withholding tax. It is denominated in USD.

The Benchmark Index is published and calculated by the index provider FTSE International Limited. The Benchmark Index’s investment universe is that of the FTSE USA Index (the “Parent Index”), which is representative of large-capitalisation companies based in the United States.

The weight of each Benchmark Index component depends on its weight in the Parent Index (based on its adjusted market capitalisation) and on the following financial analysis criteria, each of which is weighted equally to determine an overall score which may range from 0 to 1:

- the dividend yield (12-month moving average)
- volatility (5-year moving average)
- financial quality, as determined from the following indicators: (i) return on assets, (ii) change in the asset turnover ratio, (iii) revenue quality (proportion of accounts receivable on the balance sheet) and (iv) the debt-to-equity ratio.

If the weight of a component thus determined falls below 0.05% it is excluded from the Benchmark Index. Accordingly the Benchmark Index may have fewer components than the Parent Index.

The weight of each security is capped at 5% of the Benchmark Index.

A full description and the complete methodology used to construct the Benchmark Index and information on the composition and respective weightings of the Benchmark Index components are available on the Internet at <http://www.ftse.com/>.

The performance tracked is that of the Benchmark Index’s daily closing price.

Benchmark Index composition and revision

The Benchmark Index’s composition is revised annually.

The weights of the Benchmark Index components are revised quarterly.

The exact composition and FTSE International Limited's rules for rebalancing the Benchmark Index are available on the Internet at <http://www.ftse.com/>.
The frequency with which the Benchmark Index is rebalanced does not affect the cost of implementing the Investment Strategy.

Benchmark Index publication:

The Benchmark Index is calculated daily at the official closing price of the exchanges where the index constituents are listed.

The Benchmark Index is also calculated in real time every stock exchange trading day.

Real-time Benchmark Index values are available via Bloomberg and Reuters.

Reuters: TRIFUSYQVCN

Bloomberg: FUSYQVCN

The Benchmark Index's closing price is available on the Internet at <http://www.ftse.com/>

Pursuant to Article 52 of European Parliament and Council Regulation 2016/1011 of 8 June 2016, FTSE, the administrator of the FTSE USA Qual/Vol/Yield Factor 5% Capped Index benchmark index, has until 1 January 2020 to apply for approval or registration as applicable.

As of the date of the most recent version of this prospectus, the benchmark index administrator was not yet listed in ESMA's register of benchmark administrators.

Pursuant to European Parliament and Council Regulation 2016/1011 of 8 June 2016, the asset management company has a procedure for monitoring the benchmark indices used that specifies the measures to be implemented if an index is substantially modified or is no longer provided.

INVESTMENT STRATEGY

1. Strategy employed

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund will use a direct replication method, which means that it will invest mainly in the Benchmark Index's constituents.

In order to optimise the direct replication method that is used to track the Benchmark Index, the Sub-fund, represented by its delegated asset manager, may decide to employ a "sampling" technique that consists in investing in a selection of representative Benchmark Index constituents in order to reduce the costs of investing directly in all of the various Benchmark Index constituents. This sampling technique could cause the Sub-fund to invest in a selection of representative Benchmark Index securities (and not in all of them) in proportions that do not reflect their weight within the Benchmark Index, and even to invest in securities that are not constituents of the Benchmark Index.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund may also, on an ancillary basis, engage in transactions involving financial derivative instruments (FDI). These transactions could for example be futures contracts on indices and/or swaps for hedging purposes and in particular to minimise the Sub-fund's tracking error.

To ensure transparency on the use of the direct index replication method (i.e.either full replication of the Benchmark Index or sampling to limit replication costs) and on its consequences in terms of the assets in the Sub-fund's portfolio, information on the updated composition of the basket of 'balance sheet' assets in the Sub-fund's portfolio is available on the page dedicated to the Sub-fund accessible on Lyxor's website at www.lyxoretf.com. The frequency of any updates and/or the date on which the aforementioned information is updated is also indicated on the same page of the aforementioned website.

Up to 20% of the Sub-fund's assets may be exposed to equities issued by the same entity. This 20% limit will be checked on each rebalancing date for the Benchmark Index, by applying the method for calculating the Benchmark Index which limits exposure to the same issuing entity to 20% and where the calculation is carried out by the sponsor or agent for calculating the Benchmark Index. This 20% limit may be increased to 35% for a given issuing entity when this is shown to be justified by exceptional market conditions and in particular when certain securities are largely dominant and/or in the event of strong volatility that affects a financial instrument or securities linked to an economic sector represented in the Benchmark Index, particularly in the event of a public offering that substantially affects a Benchmark Index security or in the event of a significant drop in the liquidity of one or more of the Benchmark Index's financial instruments.

2. Balance sheet assets (excluding embedded derivatives)

In accordance with regulatory ratios, the Sub-fund may invest in global equities in all economic sectors and listed on any exchange, including "small-cap" exchanges.
The Sub-fund will mainly be invested in the securities that make up the Benchmark Index.

Investment in undertakings for collective investment in transferrable securities ("UCITS") that comply with Directive 2009/65/EC is limited to 10% of the Sub-fund's net assets. The Sub-fund may invest in the shares of UCITS managed by the management company or by a company that is related to the management company. The fund manager will not invest in the shares or units of alternative investment funds (AIF) or other investment funds that were formed under a foreign law.

When the Fund receives collateral in the form of securities, subject to the terms of section 8 below, it acquires full title to these securities and they are therefore included among the balance sheet assets to which it has full title.

To optimize the Sub-fund's management and achieve its investment objective, the manager reserves the right to use other financial instruments in compliance with regulations.

When the Fund receives collateral in the form of securities, subject to the terms of section 8 below, it acquires full title to these securities and they are therefore included among the balance sheet assets to which it has full title.

3. Off-balance sheet assets (derivatives)

On an ancillary basis, the Sub-fund may engage in transactions involving derivatives traded on a regulated market or over the counter.

With respect to derivatives traded over-the-counter, in accordance with its best-execution policy the management company considers that Société Générale would be the counterparty that would generally provide the best possible execution for any hedging transactions the Sub-fund may enter into pursuant to its investment strategy. Accordingly, all of some of these derivatives (including index-linked swaps) may be traded with Société Générale without having to seek a competitive bid from another counterparty.

4. Securities including derivatives

N/A.

5. Cash deposits

In order to optimize its cash management, the Sub-fund may deposit up to 20% of its assets in the form of cash with credit institutions that belong to the same group as the depositary.

6. Cash borrowing

The Sub-fund may temporarily borrow up to 10% of its net assets.

7. Securities financing transactions

Pursuant to its investment strategy, the Sub-fund may use various efficient portfolio management techniques in compliance with Article R214-18 of the French Monetary and Financial Code, including the temporary sale of securities.

For this purpose the management company may appoint an intermediary (hereinafter the "Agent) to provide the following services in connection with the Sub-fund's temporary disposals of securities. If such an Agent is used it may be authorised to (i) lend securities, on the Sub-fund's behalf, under framework agreements, such as global master securities lending agreements (GMSLA) and/or any other internationally recognised framework agreement, and (ii) invest, on the Sub-fund's behalf, any liquid assets received as collateral for these securities lending transactions, subject to the restrictions specified in the securities lending agreement, the rules of this prospectus and the applicable regulations.

Maximum proportion of assets under management for which securities financing transactions may be entered into: up to 25% of the Sub-fund's assets.
Expected proportion of assets under management for which securities financing transactions may be entered into: 0% of assets under management.

The Sub-fund shall be entitled to all income from securities financing transactions, net of any direct and indirect operating costs.

These operating costs, which are incurred to manage the portfolio more efficiently, may be borne by the Sub-fund's management company, the Agent and/or other intermediaries that are involved in these transactions.

These direct and indirect operating costs will be calculated as a percentage of the Sub-fund's gross income. Information on direct and indirect operating expenses and on the entities to which these expenses are paid will be provided in the Sub-fund's annual report.

All income obtained from the lending of securities (from which must be deducted all direct and indirect operating costs borne by the Agent and if applicable by the management company) shall be paid to the relevant Sub-fund. Since these direct and indirect costs do not increase the Sub-fund's overall operating expenses they have been excluded from ongoing expenses.

If necessary, the Sub-fund's annual report will provide the following information:

- the exposure resulting from the use of efficient portfolio management techniques/transactions
- the identity of the counterparty(ies) involved in these transactions
- the nature and amount of any collateral received to reduce the Sub-fund's counterparty risk, and
- the income generated by efficient portfolio management techniques over the relevant period, and any associated direct and indirect operating costs or expenses.

8. Collateral

Whenever the investment strategy exposes the Sub-fund to counterparty risk, and in particular when the Sub-fund uses over-the-counter swaps and enters into securities financing transactions, the Sub-fund may accept eligible securities as collateral to reduce the counterparty risk associated with these transactions. The portfolio of collateral received may be adjusted daily to ensure that its value is at least sufficient to cover the Sub-fund's counterparty risk in most cases. The purpose of this adjustment is to neutralize the Sub-fund's counterparty risk.

The Sub-fund will have full title to all collateral received, which will be deposited in the Sub-fund's account with the depositary. This collateral will therefore be included in the Sub-fund's assets. If a counterparty defaults on an obligation, the Sub-fund may dispose of the assets received from the counterparty in respect of the secured transaction to pay off the the counterparty's debt to the Sub-fund.

All collateral the Sub-fund receives for this purpose must comply with the applicable laws and regulations, with respect in particular to the liquidity and valuation of the collateral, the credit-worthiness of securities issuers, risk exposure correlation and the risks of collateral management and enforceability. All collateral received must in particular meet the following criteria:

- (a) All collateral must be of high quality, be highly liquid and tradable on a regulated market or on a multilateral trading facility, with transparent pricing to enable the collateral to be rapidly sold near its estimated price.
- (b) This collateral must be valued at its mark-to-market price at least daily and assets with highly volatile prices are not acceptable as collateral, unless a sufficiently prudent discount is applied.
- (c) The issuer of this collateral must be independent of the counterparty and must not be closely correlated with the counterparty's financial performance.
- (d) The collateral must be sufficiently diversified in terms of country, market and issuer, with exposure to any single issuer not exceeding 20% of the Sub-fund's net asset value.
- (e) The Sub-fund's management company must be able to enforce this collateral in full and at any time, without having to consult with the counterparty or obtain its approval.

Notwithstanding the condition specified in (d) above, the Fund may accept a basket of securities collateral that increases its exposure to a single issuer to more than 20% of its net asset value provided that:

- such securities collateral is issued by (i) a Member State, (ii) one or more of a Member State's local authorities, (iii) a country that is not a Member State (iv) a public international organization to which one or more Member States belong; and;
- such securities collateral consists of at least six different issues of securities of which no single issue exceeds 30% of the Sub-fund's assets.

Subject to the above conditions, the Sub-Fund may take collateral in the following forms:

- (i) cash and cash-equivalent assets, which for example include short-term bank deposits and balances and money-market instruments
- (ii) bonds issued or guaranteed by an OECD member state, or by its local government entities, or by an EU, regional or global supranational institution or organisation, or by any country provided that conditions (a) to (e) above are fully complied with;
- (iii) shares or units issued by money-market funds that calculate a daily net asset value and have an AAA or equivalent credit rating;
- (iv) the shares or units of UCITS that invest mainly in the bonds and/or equities indicated in (v) and (vi) below;
- (v) bonds issued or guaranteed by first-class issuers offering sufficient liquidity;
- (vi) equities admitted for trading or traded on a regulated exchange of an EU member country, on a stock exchange of an OECD member country or on a stock exchange of another country provided that conditions (a) to (e) above are fully complied with and that these equities are components of a major index.

Collateral discount policy

The Sub-fund's management company shall apply a discount to the collateral accepted by the Sub-fund. The amount of this discount will depend on the following criteria:

- the type of asset provided as collateral
- the maturity of the asset provided as collateral (if relevant)
- the credit rating of the issuer of the asset provided as collateral (if relevant).

A higher discount may be applied to collateral received in a currency other than the euro.

Reinvestment of collateral:

Non-cash collateral will not be sold, reinvested or pledged.

At the manager's discretion, cash collateral may either be:

- (i) deposited with an authorized institution
- (ii) invested in high-quality government bonds
- (iii) used for reverse repurchase transactions, provided that these are entered into with credit institutions that are subject to prudential supervision and that the fund is able to withdraw the total amount of its cash collateral and the accrued interest at any time
- (iv) invested in short-term money market funds that meet the guidelines for a common EU definition of money market funds.

All cash collateral that is reinvested must be invested in a diversified manner in compliance with the rules that apply to the acceptance of non-cash collateral.

RISK PROFILE

Investors' money will be invested mainly in the financial instruments selected by the management company. These instruments are subject to market trends and contingencies.

Investors in the Sub-fund will mainly be exposed to the following risks:

- **Equity risk**

The price of an equity security can increase or decrease in accordance with changes in the issuer's risk exposure or in the economic conditions of the market in which the security is traded. Equity markets are more volatile than fixed income markets, where under stable macroeconomic conditions income over a given period of time can be estimated with reasonable accuracy.

- **Capital risk**

The capital invested is not guaranteed. As a consequence, investor's capital is at risk. Investors therefore may not recover all or part of their initial investment, particularly in the event that the Benchmark Index posts a negative return over the investment period.

- **Liquidity risk (primary market)**

The Sub-fund's liquidity and/or value may be adversely affected if, when the Sub-fund or a counterparty to a financial derivative instrument (FDI) is rebalancing its exposure, the underlying financial markets are restricted, closed, or subject to large bid/offer spreads. An inability, due to low trading volume, to execute the trades required to replicate the Benchmark Index may also adversely affect the subscription, conversion or redemption of shares or units.

- **Benchmark Index tracking risk**

Replicating the performance of the Benchmark Index by investing in all of its constituents may prove to be very difficult to implement and costly. The Sub-fund manager may therefore use various optimization techniques, such as 'sampling', which consists in investing in a selection of representative securities (and not all securities) that constitute the Benchmark Index, in proportions that differ from those of the Benchmark Index or even investing in securities that are not index constituents and derivatives. The use of such optimization techniques may increase the ex post tracking error and cause the Fund to perform differently from that Benchmark Index.

- **Liquidity risk (secondary market)**

The price of the Sub-fund's listed shares or units may deviate from the Sub-fund's indicative net asset value. The liquidity of the Sub-fund's shares traded on a given exchange may be adversely affected by a suspension in trading for various reasons, such as:

- i) the calculation of the Benchmark Index is suspended or stopped
- ii) trading in the market(s) in the Benchmark Index's underlying assets is suspended
- iii) an exchange cannot obtain or calculate the Sub-fund's indicative net asset value
- iv) a market maker fails to comply with an exchange's rules
- v) an exchange's IT, electronic or other system fails.

- **Counterparty risk**

The Sub-fund may use financial derivative instruments (FDI) on an ancillary basis.

In this case, the Sub-fund will be exposed to the risk that a counterparty with which the Sub-fund has entered into a contract or transaction may go bankrupt or default on a settlement or other obligation. The Sub-fund will in particular be exposed to counterparty risk resulting from the use of FDI traded over the counter. In compliance with UCITS regulations, exposure to counterparty risk may not exceed 10% of the Sub-fund's total assets per counterparty.

Where Société Générale acts as the FDI counterparty, conflicts of interest may arise between the Sub-fund's Management Company and the FDI counterparty. The Management Company has procedures to identify and reduce such conflicts of interest and to resolve them equitably if necessary.

- **Risk arising from securities financing transactions**

If a borrower of securities defaults on its obligation there could be a risk that the value of the collateral received by the Sub-fund is less than the value of the securities lent. This risk could arise, for example, in the event of (i) an inaccurate valuation of the securities lent and/or (ii) unfavourable market movements and/or (iii) the lowering of the credit rating(s) of the issuer(s) of securities taken as collateral and/or (iv) the illiquidity of the market in which the collateral received is listed. If cash collateral is reinvested this could (i) result in leverage that entails a risk of loss and volatility and/or (ii) expose the Sub-fund to a market that is inappropriate for its investment objective, and/or (iii) generate less income than the amount of collateral the Sub-fund must repay. The Sub-fund could also fail to receive the securities lent by the date specified, which would diminish its capacity to accommodate investor redemptions.

- **Model risk**

The equities that make up the Benchmark Index are selected at each revision date using a proprietary selection strategy that is based on three criteria: quality, volatility and dividend yield. The Benchmark Index and its methodology are based on the observation of historical data that may not be representative over the period during which the Benchmark Index will be exposed to the selected equities.

- Risk of over-concentration relative to the Parent Index

The Benchmark Index is subject to a dynamic allocation mechanism that may reduce its exposure to a sub-set of securities in the Parent Index. This may increase the Benchmark Index's concentration above that of the Parent Index. The Benchmark Index may therefore underperform and/or be more volatile than the Parent Index.

- Risk that the investment objective is not fully achieved

There is no guarantee of achieving the investment objective. Indeed, no asset or financial instrument allows for a continuous and automatic replication of the benchmark index, particularly if one or more of the following risks occurs:

- Risk due to a change in the tax regime

A change in the tax regime of a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed could adversely affect the taxation of investors. In such an event, the Sub-fund manager shall not be liable to any investor with respect to any payment that may have to be made to a competent tax authority.

- Risk of a change in the taxation of the Sub-fund's underlying assets

A change in the taxation of the Sub-fund's underlying assets could adversely affect the taxation of the Sub-fund. In such an event a discrepancy between the estimated taxation and the actual taxation of the Sub-fund and/or of the Sub-fund's FDI counterparty may adversely affect the Sub-fund's net asset value.

- Regulatory risk affecting the Sub-fund

In the event of a change in the regulatory regime in a jurisdiction where the Sub-fund is domiciled, authorized for sale or listed, the subscription, conversion or redemption of the Sub-fund's shares may be adversely affected.

- Regulatory risk affecting the Sub-fund's underlying assets

In the event of a change in the regulations that govern the Sub-fund's underlying assets, the Sub-fund's net asset value and the subscription, conversion or redemption of shares may be adversely affected.

- Benchmark Index disruption risk

If an event adversely affects the Benchmark Index, the Sub-fund manager may be required, as provided for by law, to suspend the subscription and redemption of the Sub-fund's shares. The calculation of the Sub-fund's net asset value could also be adversely affected.

If the disruption of the Benchmark Index persists, the Sub-fund manager will determine an appropriate course of action, which could decrease the Sub-fund's net asset value.

A 'Benchmark Index event' includes but is not limited to the following situations:

i) the Benchmark Index is deemed to be inaccurate or does not reflect actual market developments

ii) the Benchmark Index is permanently cancelled by the index provider

iii) the index provider is unable to indicate the level or value of the Benchmark Index

iv) the index provider makes a material change in the Benchmark Index calculation formula or method (other than a minor modification such as an adjustment to this Benchmark Index's underlying components or their respective weightings) which the Sub-fund cannot effectively replicate at a reasonable cost

v) a Benchmark Index component becomes illiquid because it is no longer traded on a regulated market or because its trading over-the-counter (e.g.bonds) is disrupted.

vi) the Benchmark Index components are exposed to higher transaction costs for execution or settlement/delivery, or to specific tax constraints and these costs are not reflected in the Benchmark Index's performance.

- Corporate action risk

An unforeseen change, by the issuer of a security that is a component of the Benchmark Index, in a planned corporate action that is in contradiction with a previous official announcement on which the Sub-fund based its valuation of the corporate action (and/or on which the Sub-fund's counterparty to a financial derivative instrument or transaction based its valuation of the corporate action) can adversely affect the Sub-fund's net asset value, particularly if the Sub-fund's treatment of the corporate event differs from that of the Benchmark Index methodology.

- Currency hedging risk of the Daily Hedged to EUR - Acc and Daily Hedged to EUR - Dist share classes

To hedge the EUR/USD currency risk on the Daily Hedged to EUR - Acc and Daily Hedged to EUR - Dist share classes, the Sub-fund uses a hedging strategy that reduces the impact of a change in the exchange rate between the currency of the Benchmark Index and the currency of the share class. Given the daily implementation of this hedging and its imperfect nature, the Daily Hedged to EUR - Acc and Daily Hedged to EUR - Dist share classes may be subject to adverse market movements and costs that reduce their net asset value.

- Currency hedging risk of the Daily Hedged to GBP - Acc and Daily Hedged to GBP - Dist share classes

To hedge the GBP/USD currency risk on the Daily Hedged to GBP - Acc and Daily Hedged to GBP - Dist shares, the Sub-fund uses a hedging strategy that reduces the impact of a change in the exchange rate between the currency of the Benchmark Index and the currency of the share class. Given the daily implementation of this hedging and its imperfect nature, the Daily Hedged to GBP - Acc and Daily Hedged to GBP - Dist share classes may be subject to adverse market movements and costs that reduce their net asset value.

- Currency hedging risk of the Daily Hedged to CHF - Acc and Daily Hedged to CHF - Dist share classes

To hedge the CHF/USD currency risk on the Daily Hedged to CHF - Acc and Daily Hedged to CHF - Dist shares, the Sub-fund uses a hedging strategy that reduces the impact of a change in the exchange rate between the currency of the Benchmark Index and the currency of the share class. Given the daily implementation of this hedging and its imperfect nature, the Daily Hedged to CHF - Acc and Daily Hedged to CHF - Dist share classes may be subject to adverse market movements and costs that reduce their net asset value.

- Risk of using financial derivative instruments

In order to achieve its investment objective, the Sub-fund can enter into transactions involving over-the-counter financial derivative instruments (FDI), such as swaps, in order to secure the performance of the Benchmark Index. These FDI involve various risks, such as These FDI involve various risks, such as counterparty risk, hedging disruption, Benchmark Index disruption, taxation risk, regulatory risk, operational risk and liquidity risk. These risks can materially affect an FDI and may require an adjustment of the FDI transaction or even its premature termination, which could adversely affect the Sub-fund's net asset value.

- Legal risk

The Sub-fund may be exposed to a legal risk arising from securities financing transactions, pursuant to EU Regulation No. 2015/2365.

ELIGIBLE INVESTORS AND TYPICAL INVESTOR PROFILE

The Sub-fund is available to all investors.

Investors in the Sub-fund are seeking exposure to the equities of large-capitalisation companies based in the United States.

The amount that should reasonably be invested in this Sub-fund depends on the personal situation of each investor. To determine this amount, investors must take into account their personal wealth and/or estate, their cash requirements currently and for the next five years, and their willingness to take on risk or their preference for more prudent investment. Investors are also advised to diversify their investments sufficiently so as not to be exposed solely to this Sub-fund's risks.

All investors are therefore asked to consider their specific situation with the help of their usual investment advisor.

The recommended minimum investment period is at least five years.

CALCULATION AND ALLOCATION OF DISTRIBUTABLE AMOUNTS

Acc, Daily Hedged to GBP - Acc, Daily Hedged to EUR - Acc and Daily Hedged to CHF - Acc share classes: All distributable amounts are accumulated.

Dist, Daily Hedged to GBP - Dist, Daily Hedged to EUR - Dist and Daily Hedged to CHF - Dist share classes: The management company may distribute all or part of income each year in one or more distributions and/or accumulate this income. Realized net capital gains will be accumulated.

DISTRIBUTION FREQUENCY

The management company reserves the right to distribute distributable amounts in one or more annual distributions.

SHARE CHARACTERISTICS

Subscription orders may be placed for a specific monetary amount or for a whole number of shares.

Redemptions are made in whole numbers of shares.

Share class currencies

Acc and Dist shares: USD

Daily Hedged to GBP - Acc and Daily Hedged to GBP - Dist shares: GBP

Daily Hedged to EUR - Acc and Daily Hedged to EUR - Dist shares: EUR

Daily Hedged to CHF - Acc and Daily Hedged to CHF - Dist shares: CHF.

SUBSCRIPTION AND REDEMPTION

1. SUBSCRIPTION AND REDEMPTION ON THE PRIMARY MARKET

Subscription/redemption orders for shares in the Sub-fund will be processed by the Depositary from 9:00 am to 6.30 pm (Paris time), every day that the Sub-fund's net asset value is to be published, provided that prices can be quoted for a significant proportion of the Benchmark Index components (hereinafter a "Primary Market Day") and will be executed at the net asset value on the Primary Market Day, hereinafter the "reference NAV". Subscription/redemption requests submitted after 6.30 pm (Paris time) on a Primary Market Day will be processed as if received from 9:00 am to 6.30 pm (Paris time) on the following Primary Market Day. Orders to subscribe for or redeem shares in the Sub-fund must be for a whole number of shares and represent at least 100,000 euros or the equivalent of 100,000 euros in GBP, USD or CHF.

Subscriptions and redemptions in cash

Subscriptions and redemptions shall be made exclusively in cash and executed at the ref NAV.

Delivery and settlement

Settlement/delivery of subscriptions and redemptions shall be completed within five French business days upon receipt of the subscription or redemption order.

Date and frequency of net asset value calculation

The net asset value will be calculated and published daily, provided that at least one exchange on which the Sub-fund's shares are listed is open and that orders placed in the primary and secondary markets can be funded.

The Sub-fund's net asset value is calculated using the Benchmark Index's closing price.

The net asset value of a share class that is denominated in another currency than the Sub-fund's accounting currency (if applicable) is calculated using the exchange rate between the accounting currency and the currency of the share class, at the applicable WM Reuters rate on the date the reference NAV is calculated.

2. PURCHASES AND SALES ON THE SECONDARY MARKET

COMMON PROVISIONS

For any purchase or sale of shares in the Sub-fund made directly on an exchange on which the Sub-fund is admitted or will be admitted for continuous trading, no minimum purchase or sale amount is required other than that which may be required by the relevant exchange(s).

Shares in a listed Sub-fund that are purchased on the secondary market cannot generally be directly sold back to that Sub-fund. Investors must therefore buy and sell their shares on a secondary market through an intermediary (e.g. a broker) and may consequently incur costs. Furthermore, there is a possibility that investors may pay more than the indicative net asset value when buying shares or units and receive less than the indicative net asset value when selling shares or units.

If the stock market value of a listed fund's shares or units differs significantly from their indicative net asset value, or if trading in the fund's shares or units is suspended, investors may be authorised, subject to the conditions set forth below, to redeem their shares on the primary market directly from the fund, without being subject to the minimum redemption amount requirement set forth herein in the section entitled "Subscription and Redemption Fees (charged only on primary market transactions)".

The management company shall decide whether to allow such primary market redemptions and for how long, on the basis of the following criteria for assessing the significance of a market disruption:

- The suspension or strong disturbance of secondary trading on a given exchange is relatively frequent
- There is a link between the market disruption and secondary market operators (such as the default of one or more of the Market Makers of a given exchange, or a breakdown or malfunction of an exchange's IT or operating systems), excluding a disruption caused by a source external to the secondary exchange on which the Sub-fund's shares are traded, such as an event that affects the liquidity and valuation of all or some of the Benchmark Index's components
- Any other objective circumstance that could adversely affect the fair treatment and/or the interests of the Sub-fund's share-holders.

Notwithstanding the provisions concerning fees presented in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)", redemptions made in the primary market in this case shall only be subject to a net redemption fee of 0.03% paid to the Sub-fund and which serves to cover its trading costs.

In such exceptional cases when redemption in the primary market is allowed, the Management Company shall post on Lyxor's website at www.lyxor.etf.com the procedure that investors must observe to redeem their shares or units in the primary market. The Management Company shall also make this procedure available to the market undertaking that handles trading in the Sub-fund's shares.

B SPECIFIC PROVISIONS

- a) If shares are listed on Euronext Paris, as specified in the "Key Information" part of the "General Characteristics" section of the Fund's prospectus, investors should note the following rules

Negotiability of shares and information about the financial institutions acting as Market Makers:

The shares shall be freely negotiable on the Euronext Paris regulated market subject to the following conditions and the applicable laws and regulations.

The Sub-fund shares will be listed on a specific trading list, the rules of which are set forth in the following instructions published by Euronext Paris SA:

- Instruction No. 4-01 "Universal Trading Platform Manual"
- Appendix to Instruction N4-01 "Appendix to the Euronext Market Trading Manual"
- Instruction No. 6-04 "Documentation to be provided when filing a listing application for an ETF, ETN, ETV and open-ended undertakings for collective investment other than ETFs"

Pursuant to article D 214-22-1 of the French Monetary and Financial Code the units or shares of undertakings for collective investments in transferable securities may be admitted to trading, provided that these undertakings have a system to ensure that the market price of their units or shares does not differ significantly from their net asset value. Under Euronext Paris SA's rules trading in the Sub-fund's shares is also subject to a 'reservation threshold' of 3% above or below the Sub-fund's indicative net asset value or "iNAV" (see the "Indicative Net Asset Value" section), as published by Euronext Paris and updated on an estimated basis during trading in accordance with the change in the Benchmark Index.

To comply with Euronext Paris's reservation threshold (see the section entitled "Indicative net asset value") the Market Makers will ensure that the market price of the Sub-fund's shares does not differ from the Sub-fund's Indicative Net Asset Value by more than 3%.

Euronext Paris may suspend trading in the Sub-fund's shares pursuant to the terms of its operating rules, if the aforementioned reservation threshold limit is exceeded.

Euronext Paris will also suspend trading in the Sub-fund's shares in the following cases:

- the Benchmark Index is no longer traded or calculated
- Euronext Paris cannot obtain the Benchmark Index's level
- Euronext Paris cannot obtain the Sub-fund's net asset value.

In accordance with the terms and conditions governing admission to trading on Euronext Paris, the Market Makers undertake to provide market-making services for the Sub-fund's shares as soon as they are admitted to trading on the Euronext Paris market.

In particular, the Market Makers undertake to carry out market-making operations by maintaining a significant presence in the market, which initially entails the setting of a bid/ask spread.

More specifically, the Market Makers are required by contract with Euronext Paris to ensure that the Sub-fund maintains:

- a maximum overall spread of 3% between the bid and offer price in the centralized order book.
- a minimum nominal trading value of EUR 100,000.

The obligations of the Sub-fund's Market Makers will be suspended in the following cases:

- the Benchmark Index is no longer traded or calculated
- if trading is substantially disrupted, for example due to a widespread shift in prices or an event that makes normal market making impossible.

Indicative Net Asset Value

Euronext Paris SA will calculate and publish, each Trading Day (as defined below) during trading hours, the Sub-fund's indicative net asset value (hereinafter "iNAV"). The iNAV is a measure of the intra-day value of the Sub-fund's net asset value based on the most recent data. The iNAV is not the value at which investors buy and sell shares in the Sub-fund on the secondary market.

A "Trading Day" is a day on which NSYE Euronext is normally open and on which the Benchmark Index is normally published.

The Sub-fund's iNAV is a theoretical net asset value calculated every 15 seconds by Euronext SA throughout the Paris trading day and is based on the level of the Benchmark Index. The iNAV enables investors to compare the prices that the Market Makers offer on the market with the theoretical value calculated by Euronext.

The iNAV will be calculated every day that the net asset value is calculated and published.

To calculate the Sub-fund's iNAV throughout the Paris trading session (9:05 am to 5:35 pm), Euronext Paris SA will use the Benchmark Index value published by Reuters.

If one or more stock exchanges on which the Benchmark Index's constituent equities are listed are closed (on a public holiday as indicated on the TARGET calendar), and if the iNAV cannot be calculated, trading in the Sub-fund's shares may be suspended.

Lyxor International Asset Management, the Sub-fund's management company, will provide Euronext Paris SA with all the financial and accounting data it needs to calculate the Sub-fund's iNAV and in particular:

- The day's estimated net asset value
- The official net asset value of the previous business day
- The level of the Benchmark Index on the previous business day.

These data will serve as a basis for Euronext Paris SA's calculations to determine the Sub-fund's iNAV in real time every Trading Day.

Additional information about the indicative net asset value of a share listed on an exchange may, depending on the terms and limits set by the relevant market undertaking, be provided on this exchange's website. This information is also available on the Reuters or Bloomberg pages dedicated to the particular share. Additional information about the Bloomberg and Reuters codes for the indicative net asset values of all UCITS ETF type share classes is also available in the "Term Sheets" section of Lyxor's website at www.lyxoretf.com.

- b) If the Sub-fund's shares are listed on an exchange other than Euronext Paris, as indicated in the "Key Information" section, investors should note the following:

Investors wishing to acquire shares in the Sub-fund or obtain more information regarding the market-making terms that govern the listing and trading of shares on the types of exchanges indicated in the "Key Information" section are advised to familiarize themselves with the guidelines laid down by the relevant market undertaking, in compliance with local regulations, and to seek if necessary the assistance of their usual broker(s) for executing trades on the relevant exchange(s).

FEES AND CHARGES

SUBSCRIPTION AND REDEMPTION FEES (CHARGED ONLY ON PRIMARY MARKET TRANSACTIONS)

The subscription and redemption fees shown below respectively increase the subscription price paid by the investor and decrease the redemption price received. Fees kept by the Sub-fund compensate it for the expenses it incurs in investing in the Sub-fund's assets or in divesting these assets. Any fees that are not kept by the Fund are paid to the management company, marketing agent or other service provider.

Fees paid by investors upon subscription or redemption	Base	Maximum charge
Subscription fee not kept by the Sub-fund	NAV per share x the number of shares	The higher value of either EUR 50,000 per subscription order or 5% payable to third parties
Subscription fee kept by the Sub-fund	NAV per share x the number of shares	0.04%
Redemption fee not kept by the Sub-fund	NAV per share x the number of shares	The higher value of either EUR 50,000 per redemption order or 5% payable to third parties
Redemption fee kept by the Sub-fund	NAV per share x the number of shares	0.04%

OPERATIONAL AND MANAGEMENT FEES

These fees cover all the costs invoiced directly to the Sub-fund, except for transaction expenses. Transaction expenses include intermediary fees (brokerage fees, stock market taxes etc.) and any account activity charges that may be charged, in particular by the depositary or the management company.

For this Sub-fund the following fees may be charged in addition to the operating and management fees (see table below):

- incentive fees, which the Sub-fund pays to the management company when the Sub-fund exceeds its objectives
- account activitychargescharged to the Sub-fund.

For more information on the fees or expenses that are charged to the Sub-fund, see the Statistics section of the Key Investor Information Document (KIID).

Fees charged to the Sub-fund	Base	Maximum rate for the Acc and Dist share classes	Maximum rate for the:
			Daily Hedged to GBP - Acc and Daily Hedged to GBP - Dist Daily Hedged to EUR - Acc and Daily Hedged to EUR - Dist Daily Hedged to CHF - Acc and Daily Hedged to CHF - Dist
Investment management fees and administration fees that are external to the management company (auditor, depositary, fund distribution and legal fees) including tax ⁽¹⁾	Net asset value	0.30%	0.40%
Incentive fee	Net asset value		N/A
Account activitycharge	Charge on each transaction		N/A

COMMERCIAL INFORMATION

Distribution of this prospectus and the offer or purchase of shares in the Sub-fund may be subject to restrictions with regard to certain persons or in certain countries under national regulations that may apply to these persons or countries. Investors are therefore responsible for ensuring that they can legally subscribe to or invest in this Sub-fund. The information in this prospectus therefore cannot be construed to be an offer or solicitation to buy or sell shares in the Sub-fund in a country where such offer or solicitation is unlawful.

The Sub-fund's share classes will not be registered pursuant to the U.S.Securities Act of 1933, as amended (the "U.S.Securities Act") and cannot be offered, assigned, transferred or allocated in the United States of America, or to:

- (C) any "U.S.Person", as this term is defined (i) under Regulation S of the US Securities Act of 1933 and (ii) under U.S.regulations as defined in Section 7701 (a) (30) of the Internal Revenue Code of 1986 as amended. The Sub-fund's share classes will not be offered to U.S Persons.
- (D) anyone other than those persons considered to be "non-US Persons" as this term is defined under U.S.regulations pursuant to the Commodity Futures Trading Commission, Rule 4.7 (a) (1) (iv).

The Sub-fund's share classes will only be marketed outside of the United States of America to non-U.S Persons.

For the purpose of this document, the term "U.S.Person" shall mean, among other things, any individual who resides in the United States of America, any entity organized or formed under the laws of the United States of America, certain entities organized or formed outside of the United States of America by one or more U.S.persons, or any account held on behalf of such a U.S.person.

Under the German tax act on investment funds (InvStG-E), the Sub-fund is a "mutual fund" and must comply with the criteria that apply to "equity funds". As such, the Sub-fund will hold a basket of securities that are eligible for the equity ratio as this term is defined under said German tax act, and which will represent at least 85% of its net assets under normal market conditions. To ensure compliance with this ratio, the Sub-fund may adjust this basket of securities on a daily basis.

Before making an investment in this Fund or Sub-fund, investors should seek the advice of their financial, tax and legal advisers.

PLACE AND METHOD OF NET ASSET VALUE PUBLICATION OR COMMUNICATION

At the head office of LYXOR INTERNATIONAL ASSET MANAGEMENT, at 17, cours Valmy - 92987 Paris La Défense CEDEX - France.
The Sub-fund's net asset value will be calculated and published by Euronext Paris SA on each Paris Trading Day, during trading hours.

IMPORTANT INFORMATION ABOUT THE INDEX PROVIDER

LYXOR FTSE US Quality Low Vol Dividend (DR) UCITS ETF is in no way sponsored, endorsed, sold or promoted by FTSE International Limited (hereinafter "FTSE"), or any company of the London Stock Exchange Group ("LSEG"), (hereinafter collectively referred to as the "Licensors").

The Licensors assume no obligation and provide no warranty, expressed or implied in respect of (i) the results that may be obtained from using the FTSE USA Qual/Vol/Yield Factor 5% Capped Index (the "Benchmark Index"), (ii) the level this Index may reach at any given time or date, and/or relative to any other measure, (iii) the Benchmark Index' appropriateness for the objectives for which it is used in respect of the Lyxor FTSE US Quality Low Vol Dividend (DR) UCITS ETF fund. The Licensors have not provided and will not provide financial or investment advisor recommendations concerning the Benchmark Index to its clients. The Benchmark Index is calculated by or on behalf of FTSE and LSEG. The Licensors disclaim all liability (whether due to negligence or any other reason) for any error that may adversely affect the Index with respect to anyone whomsoever and shall not be obliged to inform anyone of such an error.

"FTSE®" is a registered trademark of LSEG and is used under license by FTSE.

ADDITIONAL INFORMATION

The Sub-fund's shares are approved for clearing by Euroclear France S.A.

Subscription and redemption orders are sent to the Depositary by the investors' financial intermediaries (members of Euroclear France SA).

The Sub-fund's prospectus, the Key Investor Information Document, the most recent annual documents and the asset inventory will be sent to investors within eight business days upon receipt of a written request submitted to:

LYXOR INTERNATIONAL ASSET MANAGEMENT
17 Cours Valmy - 92987 Paris La Défense France.

E-mail: contact@lyxor.com

More information can also be requested from Lyxor International Asset Management on its website at www.lyxoretf.com.

Prospectus publication date: See the "Publication Date" section.

Pursuant to Article L. 533-22-1 of the French Monetary and Financial Code, information concerning the Management Company's possible inclusion of social, environmental and corporate governance objectives and performance criteria in its investment policy is available on the management company's website and in the Sub-fund's annual report.

The AMF's website (www.amf-france.org) contains additional information on the relevant regulatory documents and investor protection measures. This Prospectus shall be made available to investors prior to subscription.

INVESTMENT RULES

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

The Sub-fund may invest in the assets specified in Article L214-20 of the French Monetary and Financial Code, subject to the risk-diversification and investment ratio requirements of Articles R214-21 to R214-27 of said Code.

Notwithstanding the 10% limit under Paragraph II of Article R214-21 of the French Monetary and Financial Code, the Sub-fund may invest up to 20% of its assets in the equities and debt securities of a single issuer, in compliance with Article R214-22-I, which deals with index-tracking funds. Pursuant to Article R214-22 II, the Sub-fund may also increase this 20% limit for a single issuer to 35%, when this is shown to be justified by exceptional market conditions, and in particular when certain securities are largely dominant.

OVERALL RISK EXPOSURE

The commitment approach is used to calculate the overall risk exposure.

ASSET VALUATION AND ACCOUNTING RULES

A. VALUATION RULES

The Sub-fund's assets are valued in accordance with applicable laws and regulations and most notably Regulation No. 2014-01 of 14 January 2014 of the Comité de la Réglementation Comptable (the Accounting Regulations Committee), which applies to the chart of accounts for undertakings for collective investment in transferable securities. Financial instruments traded on a regulated market are valued at the closing price recorded on the day prior to the calculation of the net asset value. If these financial instruments are traded on several regulated markets at the same time, the closing price used is that recorded on the regulated market on which they are principally traded.

However, in the absence of significant trading on a regulated market, the following financial instruments are valued using the following methods:

- Negotiable debt securities ("NDS") with a remaining life upon acquisition that is less than or equal to three months are valued by applying the difference between the acquisition value and the redemption value on a straight-line basis over the remaining life. The management company nevertheless reserves the right to value these instruments at their market price if they are particularly sensitive to any market risks (interest rate risk, etc.). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life of more than three months upon acquisition but less than or equal to three months at the net asset value calculation date are valued by applying the difference between the most recent valuation and the redemption value on a straight-line basis over the remaining life. The management company nevertheless reserves the right to value these instruments at their market price if they are particularly sensitive to any market risks (interest rate risk, etc.). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer;
- NDS with a remaining life at the net asset value calculation date that exceeds three months are valued at their current value. The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- Financial futures traded on organized markets are valued at the clearing price on the day prior to the calculation of the net asset value. Options traded on organized markets are valued at their market price on the day prior to the calculation of the net asset value. Forward contracts and over-the-counter options are valued at the price quoted by the counterparty. The management company monitors these prices independently.
- Bank deposits are valued at their nominal value plus accrued interest.
- Warrants, short and medium-term notes (bons de caisse), promissory notes and mortgage notes are valued under the management company's responsibility at their most likely trading value.
- Securities financing transactions are valued at the market price.
- Shares and units in UCITS under French law are valued at the last known net asset value on the day the Sub-fund's net asset value is calculated.
- Shares and units in foreign investment funds are valued at the last known unitary net asset value at the date the Sub-fund's net asset value is calculated.
- Financial instruments traded on a regulated market and for which no price has been quoted or whose price has been adjusted, are valued under the management company's responsibility at their most likely trading value.
- The exchange rates used to value financial instruments denominated in a currency other than the Sub-fund's base currency are the WM Reuters fixing rates published on the day the Sub-fund's net asset value is calculated.

B. ACCOUNTING METHOD FOR TRADING EXPENSES

Trading expenses are included in the initial cost of the transaction.

C. ACCOUNTING METHOD FOR INCOME FROM FIXED-INCOME SECURITIES

Income from fixed-income securities is accounted for using the cash-basis method.

D. DISTRIBUTION POLICY

For more information see the section entitled "Calculation and Allocation of Distributable amounts"

E. ACCOUNTING CURRENCY

The Sub-fund's accounts are kept in U.S. dollars(USD).

SUB-FUND NO. 31: LYXOR DJ GLOBAL TITANS 50 UCITS ETF

A SICAV SUB-FUND COMPLIANT WITH DIRECTIVE 2009/65/EC

ISIN CODE

Dist share class: FR0007075494

CLASSIFICATION

Global equities.

The Lyxor DJ Global Titans 50 UCITS ETF sub-fund (the “**Sub-fund**”) continuously maintains at least 60% exposure to one or more foreign equity markets, and possibly to the French equity market.

The Sub-fund is a UCITS ETF index-tracker.

INCEPTION DATE

This Sub-fund was approved by l’Autorité des Marchés Financiers on 08/02/2018 and will be created on 23/03/2018.

INVESTMENT OBJECTIVE

The investment objective of the Lyxor DJ Global Titans 50 UCITS ETF Sub-fund is to replicate the performance of the Dow Jones Global Titans 50 Total Return index (the “**Benchmark Index**”) denominated in euros, while minimising the tracking error between the Sub-fund’s performance and that of its Benchmark Index.

The expected ex-post tracking error under normal market conditions is 0.05%.

BENCHMARK INDEX

The Benchmark Index is the Dow Jones Global Titans 50 Total Return index denominated in euros.

The Benchmark Index is a “Total Return” index, i.e. the dividends from the Benchmark Index constituents are reinvested.

The Benchmark Index is a capitalisation-weighted index of global multi-national companies that replicates the performance of the world’s 50 largest companies selected from 18 sectors. Nine countries are represented in the index.

The stocks are selected by Dow Jones on the basis of the following four criteria:

- relatively low risk and share price volatility
- global leadership in their sector
- earnings stability
- broad global diversification.

The Benchmark Index is published by Dow Jones from Monday to Friday and was the first global index on which futures were traded.

The performance tracked is that of the closing prices of the equities that make up the Benchmark Index.

A full description and the complete methodology used to construct the Benchmark Index and information on the composition and respective weightings of the Benchmark Index components are available on the Internet at <http://www.djindexes.com/titans/>.

Benchmark Index publication

The Benchmark Index is published by Bloomberg and Reuters.

Reuters code: DJGTET

Bloomberg code: DJGTET

The Benchmark Index’s closing price is available on the Internet at <http://www.djindexes.com/titans/>.

Pursuant to Article 52 of European Parliament and Council Regulation 2016/1011 of 8 June 2016, DJI Opc, LLC, the administrator of the Dow Jones Global Titans 50 Total Return benchmark index, has until 1 January 2020 to apply for approval or registration as applicable.

As of the date of the most recent version of this prospectus, the benchmark index administrator was not yet listed in ESMA’s register of benchmark administrators.

Pursuant to European Parliament and Council Regulation 2016/1011 of 8 June 2016, the asset management company has a procedure for monitoring the benchmark indices used that specifies the measures to be implemented if an index is substantially modified or is no longer provided.

Benchmark Index composition and revision

The Benchmark Index components are revised quarterly by DJI Opc, LLC.

The frequency of this rebalancing does not affect the cost of implementing the Investment Strategy.

The exact composition of the Benchmark Index and Dow Jones rules for index rebalancing are available on the internet at <http://www.djindexes.com/titans/>.

INVESTMENT STRATEGY

1. Strategy employed

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund will employ an indirect replication method, which involves entering into one or more OTC swap contracts to achieve its investment objective. These swap contracts will serve to exchange the value of the Sub-fund’s assets, which will consist of cash and/or balance sheet assets (excluding any securities received as collateral), for the value of the securities that underlie the Benchmark Index.

The securities in which the Sub-fund may invest include those that make up the Benchmark Index, and also other international equities across all economic sectors and listed on all exchanges including small-cap exchanges.

The basket of securities held may be adjusted daily such that its value will generally be at least 100% of the net assets. When necessary, this adjustment will aim to neutralise the counterparty risk arising from the aforementioned swap contract.

Information on the updated composition of the basket of ‘balance sheet’ assets in the Sub-fund’s portfolio and the value of the swap contract concluded by the Sub-fund is available on the page dedicated to the Sub-fund on Lyxor’s website at www.lyxoretf.com. The frequency of any updates and/or the date on which the aforementioned information is updated is also indicated on the same page of the aforementioned website.

In managing its exposure, no more than 20% of the Sub-fund’s assets may be exposed to the equities of a given issuer. This 20% limit may be increased to 35% for a single issuing entity when this is shown to be justified by exceptional market conditions, in particular when certain securities are largely dominant and/or in the event of strong volatility affecting a financial instrument or securities linked to an economic sector represented in the Benchmark Index. This could be the case, for example, in the event of a public offering affecting any of the securities that make up the Benchmark Index or in the event of a significant restriction of liquidity affecting one or more financial instruments in the Benchmark Index.

2. Balance sheet assets (excluding embedded derivatives)

In accordance with regulatory ratios, the Sub-fund’s portfolio may include global equities across all economic sectors and listed on any exchange, including “small-cap” exchanges.

The aforementioned equities will be selected on the basis of the following:

- eligibility criteria, in particular:
 - their inclusion in a major stock exchange index or in the Benchmark Index
 - liquidity (must exceed a minimum daily trading volume and market capitalisation)
 - credit rating of the country where the issuer has its registered office (must have a least a minimum S&P or equivalent rating)
- diversification criteria, in particular regarding:
 - the issuer (application of investment ratios to assets that qualify for UCITS, pursuant to Art. R214-21 of the French monetary and financial code)
 - geography
 - sector

Investors may find more information on the above eligibility and diversification criteria, and in particular the list of eligible indices, on Lyxor’s website at www.lyxoretf.com

Investment in undertakings for collective investment in transferrable securities (“UCITS”) that comply with Directive 2009/65/EC is limited to 10% of the Sub-fund’s net assets. In respect of these investments, the Sub-fund may invest in the units or shares of UCITS managed by the management company or by a company that is related to the management company. The fund manager will not invest in the shares or units of alternative investment funds (AIF) or other investment funds that were formed under a foreign law.

To optimise the Sub-fund’s management, the manager reserves the right to use other instruments in accordance with the applicable regulations in order to achieve its investment objective.

3. Off-balance sheet assets (derivatives)

The Sub-fund will use OTC index-linked swaps that swap the value of the Sub-fund’s assets (or of any other financial instrument or asset the Sub-fund may hold) for the value of the Benchmark Index.

To optimise the Sub-fund’s management, the manager reserves the right to use other instruments in accordance with the applicable regulations in order to achieve its investment objective, such as derivatives other than index-linked swaps.

In accordance with its best execution policy, the management company considers that Société Générale is the counterparty that is generally able to obtain the best possible execution for these derivative financial instruments. Accordingly, these derivative financial instruments (including index-linked swaps) may be traded via Société Générale without having to seek a competitive bid from another counterparty.

The counterparty of the derivative financial instruments referred to above (the “**Counterparty**”) will have no discretionary power over the composition of the Fund’s portfolio nor over the underlying assets of the derivative financial instruments.

4. Securities with embedded derivatives

N/A.

5. Cash deposits

In order to optimise its cash management, the Sub-fund may deposit funds representing up to 20% of its net assets with lending institutions that belong to the same group as the depositary/custodian.

6. Cash borrowing

The Fund may temporarily borrow up to 10% of its net assets.

7. Securities financing transactions

N/A. The manager will not engage in any securities financing transactions.

8. Collateral

Whenever the investment strategy exposes to the Sub-fund to counterparty risk, and in particular when the Sub-fund uses over-the-counter swaps, the Sub-fund may accept eligible securities as collateral to reduce the counterparty risk associated with these swaps. The portfolio of collateral received may be adjusted daily to ensure that its value is at least sufficient to cover the Sub-fund’s counterparty risk in most cases. The purpose of this adjustment is to neutralise the Sub-fund’s counterparty risk.

The Sub-fund will have full title to all collateral received, which will be deposited in the Sub-fund’s account with the depositary. This collateral will therefore be included in the Sub-fund’s assets.

All collateral the Sub-fund receives for this purpose must comply with the applicable laws and regulations, with respect in particular to liquidity, valuation, the creditworthiness of securities issuers, correlation, and the risks of collateral management and enforceability. All collateral received must in particular meet the following criteria:

- (a) All collateral must be of high quality, be highly liquid and tradable on a regulated market or on a multilateral trading facility, with transparent pricing to enable the collateral to be rapidly sold near its estimated price

- (b) This collateral must be valued at its mark-to-market price at least daily and assets with highly volatile prices are not acceptable as collateral, unless a sufficiently prudent discount or "haircut" is applied;
- (c) The issuer of this collateral must be independent of the counterparty and must not be closely correlated with the counterparty's financial performance;
- (d) Collateral must be sufficiently diversified in terms of country, market and issuer, with exposure to any single issuer not exceeding 20% of the Sub-fund's net asset value ;
- (e) Collateral must be immediately enforceable by the Sub-fund's management company without informing the counterparty and without its approval.

Notwithstanding the condition specified in (d) above, the Sub-fund may accept a basket of securities collateral that increases its exposure to a single issuer to more than 20% of its net asset value provided that:

- such securities collateral is issued by (i) a Member State, (ii) one or more of a Member State's local authorities, (iii) a country that is not a Member State (iv) a public international organisation to which one or more Member States belong; and;
- such securities collateral consists of at least six different issues of securities of which no single issue exceeds 30% of the Sub-fund's assets.

In accordance with the above conditions the collateral the Sub-fund accepts may consist of:

- (i) Cash and cash-equivalent assets, which for example include short-term bank deposits and balances and money-market instruments
- (ii) Bonds issued or guaranteed by an OECD member state, or by its local government entities, or by an EU, regional or global supranational institution or organisation, or by any country provided that conditions (a) to (e) above are fully complied with
- (iii) Shares or units issued by money-market funds that calculate a daily net asset value and have an AAA or equivalent credit rating
- (iv) The shares or units of UCITS that invest mainly in the bonds and/or equities indicated in (v) and (vi) below
- (v) Bonds issued or guaranteed by first-class issuers offering sufficient liquidity
- (vi) Equities admitted for trading or traded on a regulated exchange of an EU member country, on a stock exchange of an OECD member country or on a stock exchange of another country provided that conditions (a) to (e) above are fully complied with and that these equities are components of a major index.

Collateral discount policy

The Sub-fund's management company shall apply a discount to the collateral the Sub-fund accepts. The amount of these discounts will depend mainly on the following:

- the nature of the collateral asset
- the collateral's maturity (if applicable)
- the credit rating of the collateral issuer (if applicable).

Reinvestment of collateral

Non-cash collateral will not be sold, reinvested or pledged.

At the manager's discretion, cash collateral may either be:

- (i) deposited with an authorised institution
- (ii) invested in high-quality government bonds
- (iii) used for reverse repurchase transactions, provided that these are entered into with credit institutions that are subject to prudential supervision and that the fund is able to withdraw the total amount of its cash collateral and the accrued interest at any time
- (iv) invested in short-term money-market funds as defined in the guidelines for a common definition of European money-market funds.

All cash collateral that is reinvested must be invested in a diversified manner in compliance with the rules that apply to the acceptance of non-cash collateral.

RISK PROFILE

The shareholder's money will be mainly invested in the financial instruments selected by the delegated asset manager. These instruments are subject to market trends and contingencies.

Shareholders in the Sub-fund will be mainly exposed to the following risks:

- Equity risk

The price of an equity security can increase or decrease in accordance with changes in the issuer's risk exposure or in the economic conditions of the market in which the security is traded. Equity markets are more volatile than fixed-income markets, where it is possible to estimate revenues for a certain period of time under the same macroeconomic conditions.

- Capital risk

The capital invested is not guaranteed. Investors therefore may not recover all or part of their initial investment, particularly in the event that the Benchmark Index posts a negative return over the investment period

- Liquidity risk (primary market)

The Sub-fund's liquidity and/or value may be adversely affected if, when the Sub-fund or a counterparty to a derivative financial instrument (DFI) is rebalancing its exposure, the underlying financial markets are restricted, closed, or subject to large bid/offer spreads. An inability, due to low trading volume, to execute the trades required to replicate the Benchmark Index may also adversely affect the subscription, conversion or redemption of shares.

- Liquidity risk (secondary market)

The Sub-fund's on-exchange price may deviate from its indicative net asset value. The liquidity of the Sub-fund's shares on an exchange may be adversely affected by a suspension of or disruption in market operation, such as one of the following events:

- i) the calculation of the Benchmark Index is suspended or stopped and/or
- ii) the market(s) in the Benchmark Index's underlying assets is (are) suspended, and/or
- iii) a stock exchange cannot obtain or calculate the Sub-fund's indicative net asset value and/or
- iv) a market maker fails to comply with an exchange's rules and/or
- v) an exchange's IT, electronic or other system fails.

- Counterparty risk

The Sub-fund is exposed to the risk that a counterparty with which the Fund has entered into a contract or transaction may go bankrupt or default on a settlement or other obligation. The Fund is mainly exposed to counterparty risk resulting from the use of derivative financial instruments (DFI) traded over the counter with Société Générale or another counterparty. In compliance with UCITS regulations, exposure to counterparty risk (whether the counterparty is Société Générale or another entity), cannot exceed 10% of the Sub-fund's total assets per counterparty.

If a counterparty defaults on an obligation the DFI contract may be terminated before maturity. The Sub-fund will do everything in its power to achieve its investment objective by, if appropriate, entering into another DFI contract with another counterparty at the market conditions at the time of such an event.

If this counterparty risk materialises it could have an impact on the Sub-fund's ability to achieve its investment objective of replicating the Benchmark Index.

Where Société Générale acts as the DFI counterparty, conflicts of interest may arise between the Sub-fund's Management Company and the DFI counterparty. The Management Company has procedures to identify and reduce such conflicts of interest and to resolve them equitably if necessary.

- Risk that the investment objective is not fully achieved

There is no guarantee that the investment objective will be achieved, as no asset or financial instrument can ensure that the Benchmark Index will be automatically and continuously replicated, particularly in the event of one or more of the following risks:

- Risk of using derivative financial instruments

In order to achieve its investment objective and secure the performance of the Benchmark Index, the Sub-fund can enter into over-the-counter derivative financial instruments ("DFI"), such as swaps. This DFI involve various risks, such as counterparty risk, hedging disruption, Benchmark Index disruption, taxation risk, regulatory risk, operational risk and liquidity risk. These risks can materially affect a DFI and could lead to an adjustment or even the early termination of the DFI transaction, which could affect the Sub-fund's net asset value.

- Risk of a change in the tax regime

A change in the tax regime of a jurisdiction where the Sub-fund is domiciled, authorised for sale or listed could adversely affect the taxation of investors. In such an event, the Sub-fund manager will not be liable to any investor with respect to any payment that may have to be made to a competent tax authority.

- Risk of a change in the tax regime of the Fund's underlying assets

A change in a tax regime that applies to the Sub-fund's underlying assets could affect the tax treatment of the Sub-fund. As a result, in case of a discrepancy between the estimated and effective tax treatments applied to the Sub-fund and/or to the Sub-fund's counterparty to the DFI, the Sub-fund's net asset value may be affected.

- Regulatory risk affecting the Fund

In the event of a change in the regulatory regime in a jurisdiction where the Sub-fund is domiciled, authorised for sale or listed, the subscription, conversion or redemption of shares may be adversely affected.

- Regulatory risk affecting the Fund's underlying assets

In the event of a change in the regulations that govern the Sub-fund's underlying assets, the Sub-fund's net asset value and the subscription, conversion or redemption of shares or units may be adversely affected.

- Benchmark Index disruption risk

If an event adversely affects the Benchmark Index, the Fund manager may be required, in accordance with the applicable laws and regulations, to suspend the subscription and redemption of the Sub-fund's shares. The calculation of the Sub-fund's net asset value could also be adversely affected.

If the Benchmark Index disruption persists, the manager of the Sub-fund will determine the appropriate measures to be carried out, which could have an impact on the Sub-fund's net asset value.

A 'Benchmark Index event' includes but is not limited to the following situations:

- i) the Benchmark Index is deemed to be inaccurate or does not reflect actual market developments
- ii) the Benchmark Index is permanently cancelled by the index provider
- iii) the index provider is unable to indicate the level or value of the Benchmark Index
- iv) the index provider makes a material change in the Benchmark Index calculation formula or method (other than a minor modification such as an adjustment to the Benchmark Index's underlying components or their respective weightings) which the Sub-fund cannot effectively replicate at a reasonable cost.
- v) a Benchmark Index component becomes illiquid because it is no longer traded on a regulated market or because its trading over-the-counter (e.g. bonds) is disrupted
- vi) the Benchmark Index components are exposed to higher transaction costs for execution or settlement/delivery, or to specific tax constraints and these costs are not reflected in the Benchmark Index's performance.

- Corporate action risk

An unforeseen change, by the issuer of a security that is a component of the Benchmark Index, in a planned corporate action that is in contradiction with a previous official announcement on which the Sub-fund based its valuation of the corporate action (and/or on which the Sub-fund's counterparty to a derivative financial instrument or transaction based its valuation of the corporate action) can adversely affect the Sub-fund's net asset value, particularly if the Sub-fund's treatment of the corporate event differs from that of the Benchmark Index.

- Benchmark Index currency risk

The Sub-fund is exposed to currency risk, as the underlying securities composing the Benchmark Index may be denominated in a currency that is different from that of the Benchmark Index, or be derived from securities denominated in a currency different to that of the Benchmark Index. Exchange rate fluctuations can therefore have a negative impact on the Benchmark Index tracked by the Sub-fund.

- Legal risk

The Sub-fund may be exposed to a legal risk arising from a total return swap (TRS) agreement as indicated in EU Regulation 2015/2365.

ELIGIBLE INVESTORS AND TYPICAL INVESTOR PROFILE

This Sub-fund is available to all investors .

Investors in this sub-fund are seeking exposure to global equity markets.

The amount that you may reasonably invest in this sub-fund depends on your personal situation. To determine this amount, investors must take into account their personal wealth and/or estate, their cash requirements currently and for the next five years, and their willingness to take on risk or their preference for more prudent investment. Investors are also advised to diversify their investments sufficiently so as not to be exposed solely to this sub-fund's risks.

All investors are therefore asked to consider their specific situation with the help of their usual investment advisor.

The recommended minimum investment period is at least five years.

CALCULATION AND ALLOCATION OF DISTRIBUTABLE AMOUNTS

Dist share classes: The management company reserves the right to accumulate and/or distribute all or part of distributable income in one or more annual distributions. Net realised capital gains will be reinvested.

DISTRIBUTION FREQUENCY

If distribution is decided, The management company reserves the right to distribute distributable amounts in one or more annual distributions.

SHARE CHARACTERISTICS

The Dist class shares will be issued at a price that is equivalent to the net asset value of the corresponding absorbed unit class on the day the Lyxor DJ Global Titans 50 UCITS ETF is merged.

Subscription orders may be placed for a specific monetary amount or for a whole number of shares.
Redemptions will be made in whole numbers of shares.

UNIT CURRENCY

	Dist share class
Currency	US dollar

SUBSCRIPTION AND REDEMPTION

1. SUBSCRIPTION AND REDEMPTION ON THE PRIMARY MARKET

Subscription/redemption orders for units in the Sub-fund will be processed by the Depositary from 9.00 am to 6.30 pm (Paris time) every day that the Sub-fund's net asset value is to be published, provided that prices are quoted for a significant proportion of the Benchmark Index components (hereinafter a "**Primary Market Day**"), and will be executed at the net asset value of the following Primary Market Day (hereinafter the "**reference NAV**"). Subscription/redemption orders submitted after 6.30 pm (Paris time) on a Primary Market Day will be processed as if received from 9.00 am to 6.30 pm (Paris time) on the following Primary Market Day. Orders to subscribe for or redeem shares in the Sub-fund must be for a whole number of shares and represent at least the USD equivalent of 100,000 EUR for the Dist share class.

Subscriptions and redemptions in cash

Subscriptions and redemptions shall be made exclusively in cash and executed at the ref NAV.

Delivery and settlement

Settlement/delivery of subscriptions and redemptions shall be completed within five French business days upon receipt of the subscription or redemption order.

Date and frequency of net asset value calculation

The net asset value will be calculated and published daily, provided that at least one exchange on which the Sub-fund's shares are listed is open and that orders placed in the primary and secondary markets can be funded.

The Sub-fund's net asset value is calculated using the Benchmark Index's closing price.

The net asset value of a share class that is denominated in another currency than the Fund's accounting currency (if applicable) is calculated using the exchange rate between the accounting currency and the currency of the share class, at the applicable WM Reuters rate on the date the reference NAV is calculated.

2. PURCHASES AND SALES ON THE SECONDARY MARKET

A. COMMON PROVISIONS

Purchases and sales of Sub-fund shares made directly on an exchange on which the Sub-fund is or will be listed and continuously traded will be subject to no minimum purchase/sale requirements other than those of the relevant exchange(s).

Shares in a listed sub-fund that are purchased on the secondary market cannot generally be directly sold back to that sub-fund. Investors must therefore buy and sell their shares on a secondary market through an intermediary (e.g. a broker) and may consequently incur costs. It is also possible that investors may pay more than the indicative net asset value when buying shares and receive less than the indicative net asset value when selling shares.

If the stock market value of a listed fund's shares or units differs significantly from their indicative net asset value, or if trading in the fund's share or units is suspended, subject to the conditions set forth below, investors may be allowed to redeem their shares on the primary market directly from the fund, without being subject to the minimum redemption amount requirement set forth herein in the section SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions).

The management company shall decide whether to allow such primary market redemptions and for how long, on the basis of the following criteria for assessing the significance of a market disruption:

- The suspension or strong disturbance of secondary trading on a given exchange is relatively frequent.
- The link between the market disruption and secondary market operators (such as the default of one or more of the Market Makers of a given exchange, or a breakdown or malfunction of an exchange's IT or operating systems), excluding a disruption caused by a source external to the secondary exchange on which the shares or units of the Sub-fund are traded, such as an event that affects the liquidity and valuation of all or some of the Benchmark Index's components
- Any other objective circumstance that could adversely affect the fair treatment and/or the interests of the Sub-fund's shareholders.

Notwithstanding the provisions concerning fees presented in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)", redemptions made in the primary market in this case shall only be subject to a net redemption fee of 5.00% paid to the Sub-fund and which serves to cover its trading costs.

In such exceptional cases when redemption in the primary market is allowed, the Management Company shall post on Lyxor's website at www.lyxor.etc.com the procedure that investors must observe to redeem their shares in the primary market. The Management Company shall also make this procedure available to the market undertaking that handles trading in the Sub-fund's shares.

B. SPECIAL PROVISIONS

- a) **If the Sub-fund's shares are listed on Euronext Paris (as indicated in the "Key Information" section) investors should note the following rules**

Negotiability of shares and information about the financial institutions acting as Market Makers:

The shares shall be freely negotiable on the Euronext Paris regulated market subject to the following conditions and the applicable laws and regulations.

The Sub-fund shares will be listed on a specific trading list, the rules of which are defined in the following instructions published by Euronext Paris SA:

- Instruction No. 4-01 "Universal Trading Platform Manual"
- Appendix to Instruction N4-01 (Appendix to the Euronext Market Trading Manual)
- Instruction No. 6-04 "Documentation to be provided when filing a listing application for an ETF, ETN, ETV and open-ended undertakings for collective investment other than ETFS"

Pursuant to article D 214-22-1 of the French monetary and financial code the units or shares of undertakings for collective investments in transferable securities may be admitted to trading, provided that these undertakings have a system to ensure that the market price of their units or shares does not differ significantly from their net asset value. Under Euronext Paris' rules trading in the Sub-fund's shares is also subject to a 'reservation threshold' of 3% above or below the Sub-fund's Indicative Net Asset value or "iNAV" (see the "Indicative Net Asset Value" section), as published by Euronext Paris SA and updated on an estimated basis during trading in accordance with the change in the Benchmark Index.

To comply with Euronext Paris SA's reservation thresholds (see the "Indicative Net Asset Value" section) the Market Makers will ensure that the market price of the Sub-fund's shares does not differ from the Sub-fund's indicative Net Asset Value by more than 3%.

Euronext Paris SA may suspend trading in the Sub-fund's shares pursuant to the terms of its operating rules, if the aforementioned reservation threshold limit is exceeded.

Euronext Paris SA will also suspend trading in the Sub-fund's shares in the following cases:

- the Benchmark Index is no longer traded or calculated
- Euronext Paris SA cannot obtain the Benchmark Index's level
- Euronext Paris SA cannot obtain the Sub-fund's net asset value.

In accordance with the terms and conditions governing admission to trading on Euronext Paris, the Market Makers undertake to provide market-making services for the Sub-fund's shares as soon as they are admitted to trading on the Euronext Paris exchange.

In particular, the Market Makers undertake to carry out market-making operations by maintaining a significant presence in the market, which initially entails the setting of a bid/ask spread.

More specifically, the Market Makers are required by contract with Euronext Paris SA to ensure that the Sub-fund maintains:

- a maximum global spread of 3% between the bid and offer price in the centralised order book
- a minimum nominal trading value of EUR 100,000.

The obligations of the Sub-fund's Market Makers will be suspended in the following cases:

- the Benchmark Index is no longer traded or calculated
- If trading is substantially disrupted, for example due to a widespread shift in prices or an event that makes normal market making impossible.

Indicative net asset value

Euronext Paris will calculate and publish for each Trading Day (as defined below), the Sub-fund's indicative net asset value (hereinafter the "iNAV") during trading hours. The iNAV is a measure of the intra-day value of the Sub-fund's net asset value based on the most recent data. The iNAV is not the value at which investors buy and sell shares in the Sub-fund on the secondary market.

A "Trading Day" is a day on which Euronext is normally open and on which the Benchmark Index is normally published.

The Sub-fund's iNAV is a theoretical net asset value calculated every 15 seconds by Euronext SA throughout the Paris trading day and is based on the level of the Benchmark Index. The iNAV enables investors to compare the prices that the Market Makers offer on the market with the theoretical value calculated by Euronext.

The iNAV will be calculated every day that the net asset value is calculated and published.

For the calculation of the Sub-fund's iNAV during the Paris trading session (from 9.05 am to 5.35 pm), Euronext Paris SA will use the Benchmark Index value provided by Reuters.

If one or more exchanges on which the Benchmark Index's constituent equities are listed are closed (on a public holiday as indicated on the TARGET calendar), and if the iNAV cannot be calculated, trading in the Sub-fund's shares may be suspended.

As the Sub-fund's delegated asset manager, Lyxor International Asset Management will provide Euronext Paris SA with all the financial and accounting data it needs to calculate the Sub-fund's iNAV and in particular:

- The day's estimated net asset value
- The official net asset value of the previous business day
- The level of the Benchmark Index on the previous business day.

Euronext Paris SA will use these data in its calculations to establish, each subsequent Trading Day, the Sub-fund's iNAV, which is updated in real time.

Additional information about the indicative net asset value of a share listed on a regulated market may, depending on the terms and limits set by the relevant market undertaking, be provided on the website of the exchange where the share is listed. This information is also available on the Reuters or Bloomberg pages dedicated to the particular share. Additional information about Bloomberg and Reuters codes corresponding to the indicative net asset value of UCITS ETF type shares is also available in the "Term Sheets" section of Lyxor's website at www.lyxoretf.com.

b) **If the Sub-fund's shares are listed on an exchange other than Euronext Paris (as indicated in the "Key Information" section) investors should note the following**

Investors wishing to acquire shares in the Sub-fund or obtain more information regarding the market-making terms that govern the listing and trading of shares on the types of exchanges indicated in the "Key Information" section are advised to familiarise themselves with the guidelines laid down by the relevant market undertaking in compliance with local regulations, and to seek if necessary the assistance of their usual broker(s) for executing trades on the relevant exchange(s).

FEES AND CHARGES

SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)

Subscription and redemption fees increase the subscription price paid by investors and reduce the redemption price. Fees kept by the Sub-fund compensate it for the expenses it incurs in investing in the Sub-fund's assets or in divesting these assets. Any fees that are not kept by the Fund are paid to the management company, marketing agent or other service provider.

Fees paid by investors upon subscription or redemption	Base	Maximum charge
Subscription fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per subscription order or 5% payable to third parties
Subscription fee kept by the Sub-fund	NAV per share x number of shares	N/A
Redemption fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per redemption order or 5% payable to third parties
Redemption fee kept by the Sub-fund	NAV per share x number of shares	N/A

No subscription or redemption fee will be charged for any purchase or sale of Sub-fund shares on an exchange where the Fund is listed.

OPERATING AND MANAGEMENT FEES

These fees cover all the costs invoiced directly to the Fund, except for transaction expenses, which include intermediary fees (brokerage, stock market taxes etc.) and any account activity fee that may be charged by the depositary or the management company.

For this Sub-fund the following fees may be charged in addition to the operating and management fees (see table below):

- Incentive fees, which the Sub-fund pays to the management company when the Sub-fund exceeds its objectives
- Account activity fees charged to the Sub-fund.

For more information on the fees or expenses that are charged to the Sub-fund, see the Statistics section of the Key Investor Information Document (KIID).

Fees charged to the Sub-fund	Base	Maximum charge
Investment management fees and administration fees that are external to the management company ⁽¹⁾	Net asset value	0.40% annual
Maximum indirect expenses (management expenses and fees)	Net asset value	N/A
Account activity fee	Charged on each transaction	N/A
Incentive fee	Net asset value	N/A

(1) Includes all fees and expenses except for transaction expenses, incentive fees and fees associated with investment in UCITS.

COMMERCIAL INFORMATION

Distribution of this prospectus and the offer or purchase of the Fund share classes may be subject to restrictions with regard to certain persons or in certain countries by virtue of national regulations applying to such persons or such countries. Each investor is therefore responsible for ensuring that he or she is authorised to subscribe to or invest in this Fund. As a result, the information contained in this prospectus cannot be understood as constituting an offer or solicitation to buy or sell shares in this Fund in a country where such offer or solicitation is unlawful.

The Fund's share classes will not be registered pursuant to the US Securities Act of 1933, as amended (the "US Securities Act") and cannot be offered, assigned, transferred or allocated to the United States of America, or to:

- (A) any "US Person", as this term is defined (i) under Regulation S of the US Securities Act of 1933 and (ii) under US regulations as defined in Section 7701 (a) (30) of the Internal Revenue Code of 1986 as amended. The Sub-fund's shares will not be offered to US Persons.
- (B) anyone other than those persons considered to be "non-US Persons" as this term is defined under US regulations pursuant to the Commodity Futures Trading Commission, Rule 4.7 (a) (1) (iv).

The Sub-fund's shares will only be offered for sale outside of the United States of America to non-US Persons.

For the purpose of this document, the term "US Person" shall mean, among other things, any individual who resides in the United States of America, any entity organised or formed under the laws of the United States of America, certain entities organised or formed outside of the United States of America by one or more US persons, or any account held on behalf of such a US person.

Under the German tax act on investment funds (InvStG-E), the Sub-fund is a "mutual fund" and must comply with the criteria that apply to "equity funds". As such, the Sub-fund will hold a basket of securities that are eligible for the equity ratio as this term is defined under said German tax act, and which will represent at least 92% of its net assets under normal market conditions. To ensure compliance with this ratio, the Sub-fund may adjust this basket of securities on a daily basis.

Before making an investment in this Fund or this Sub-fund, investors should seek the advice of their financial, tax and legal advisers.

PLACE AND METHOD OF NET ASSET VALUE PUBLICATION OR COMMUNICATION

At the registered office of LYXOR INTERNATIONAL ASSET MANAGEMENT, 17, cours Valmy – 92800 Puteaux – France

The Sub-fund's net asset value will be calculated and published by Euronext Paris SA on each Paris Trading Day, during trading hours.

IMPORTANT INFORMATION ABOUT THE BENCHMARK INDEX PROVIDER

The LYXOR DJ GLOBAL TITANS 50 UCITS ETF sub-fund is not, in any way whatsoever, sponsored, supported, promoted or marketed by Dow Jones. Dow Jones assumes no obligation and provides no warranty, either express or implied, in respect of the results that may be obtained from using the Dow Jones Global Titans Net Total Return index (hereinafter "the Index" and/or the level of said Index at any given time or day, or of any other type. The Index is calculated by and in the name of Dow Jones. Dow Jones will not be held responsible or liable (whether due to negligence or for any other reason) for any error that affects the Index with regard to any party whomsoever and will not be obliged to inform any party whomsoever of any error that may affect the Index.

ADDITIONAL INFORMATION

The Sub-fund's shares are admitted to trading by Euroclear France S.A.

Subscription and redemption orders are sent by investors' financial intermediaries (members of Euroclear France S.A.) to the Depositary.

The Sub-fund's prospectus, the Key Investor Information Document, the most recent annual documents and the asset inventory will be sent to investors within eight business days upon receipt of a written request addressed to:

LYXOR INTERNATIONAL ASSET MANAGEMENT
17, cours Valmy - 92987 Paris La Défense CEDEX – France.
e-mail: contact@lyxor.com

More information can also be requested from Lyxor International Asset Management on its website at www.lyxoretf.com.

Prospectus publication date: see the "Publication Date" section

Pursuant to Article L.533-22-1 of the French monetary and financial code, information concerning the Management Company's possible inclusion of social, environmental and corporate governance objectives and performance criteria in its investment policy is available on the management company's website and in the Multi Units France annual report.

The AMF's website (www.amf-france.org) provides additional information on the list of regulatory documents and on all provisions relating to investor protection. This Prospectus must be made available to investors prior to subscription.

INVESTMENT RULES

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

The Sub-fund may invest in the assets indicated in Article L214-20 of the French monetary and financial code, subject to the risk-diversification and investment ratio requirements of Articles R214-21 to R214-27 of said code.

Notwithstanding the 10% limit under Paragraph II of Article R214-21 of the French monetary and financial code, the Sub-fund may invest up to 20% of its assets in the equities and debt securities of a single issuer, in compliance with Article R214-22-I, which deals with index-tracking funds. Pursuant to Article R214-22 II, the Sub-fund may also increase this 20% limit for a single issuer to 35%, when this is shown to be justified by exceptional market conditions, and in particular when certain securities are largely dominant.

OVERALL RISK EXPOSURE

The commitment approach is used to calculate the overall risk exposure.

ASSET VALUATION AND ACCOUNTING RULES

A. VALUATION RULES

The Sub-fund's assets are valued in accordance with applicable laws and regulations and most notably Regulation NO. 2014-01 of 14 January 2014 of the Comité de la Réglementation Comptable (the Accounting Regulations Committee), which applies to the chart of accounts for UCITS investment funds.

Financial instruments traded on a regulated market are valued at the closing price recorded on the day prior to the calculation of the net asset value. If these financial instruments are traded on several regulated markets at the same time, the closing price used is that recorded on the regulated market on which they are principally traded.

However, in the absence of significant trading on a regulated market, the following financial instruments are valued using the following methods:

- Negotiable debt securities ("NDS") with a remaining life upon acquisition that is less than or equal to three months are valued by applying the difference between the acquisition value and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc.). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- NDS with a remaining life of more than three months upon acquisition but less than or equal to three months at the net asset value calculation date are valued by applying the difference between the most recent valuation and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc.). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- NDS with a remaining life at the net asset value calculation date that exceeds three months are valued at their current value. The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- Financial futures traded on organised markets are valued at the clearing price on the day prior to the calculation of the net asset value. Options traded on organised markets are valued at their market price on the day prior to the calculation of the net asset value. Forward contracts and over-the-counter options are valued at the price quoted by the counterparty. The management company monitors these prices independently.
- Bank deposits are valued at their nominal value plus accrued interest.
- Warrants, short and medium-term notes (bons de caisse), promissory notes and mortgage notes are valued under the management company's responsibility at their most likely trading value.
- Securities financing transactions are valued at the market price.
- Shares and units in UCITS under French law are valued at the last known net asset value on the day the Sub-fund's net asset value is calculated.
- Shares and units in foreign investment funds are valued at the last known net asset value at the date the Sub-fund's net asset value is calculated.
- Financial instruments traded on a regulated market and for which no price has been quoted or whose price has been corrected, are valued under the management company's responsibility at their most likely trading value.
- The exchange rates used to value financial instruments denominated in a currency other than the Sub-fund's base currency are the WM Reuters fixing rates on the day the Sub-fund's net asset value is calculated.

B. ACCOUNTING METHOD FOR TRADING EXPENSES

Trading expenses are included in the initial cost of the transaction.

C. ACCOUNTING METHOD FOR INCOME FROM FIXED-INCOME SECURITIES

Income from fixed-income securities is accounted for using the cash-basis method.

D. DISTRIBUTION POLICY

For more information see the section entitled "Calculation and Allocation of Distributable amounts"

E. ACCOUNTING CURRENCY

The Sub-fund's accounts are kept in euros.

SUB-FUND NO. 32: LYXOR SMI DAILY (-2X) INVERSE UCITS ETF

A SICAV SUB-FUND COMPLIANT WITH DIRECTIVE 2009/65/EC

ISIN CODE

Acc share class: FR0010869438

CLASSIFICATION

The Lyxor SMI Daily (-2x) Inverse UCITS ETF sub-fund (the “**Sub-fund**”) is a UCITS ETF index-tracker.

INCEPTION DATE

This sub-fund was approved by l’Autorité des Marchés Financiers on 19/04/2018 and was created on [***].

INVESTMENT OBJECTIVE

The Sub-fund's investment objective is to give inverse exposure with daily 2x leverage (positive or negative) to the Swiss equity market, by replicating the movement of the SMI Daily Short Leverage index (the “**Benchmark Index**”), while minimising the tracking error between the Sub-fund's performance and that of the Benchmark Index.

The SMI Daily Short Leverage Benchmark Index replicates the inverse of the performance of the SMI® Swiss Market Index Total Return (the “**Parent Index**”) with a 2x daily leverage effect, which means that if underlying index increases 2% on a given day, the leveraged index will decrease 4%, less the borrowing costs for that day, and vice-versa.

The expected ex-post tracking error under normal market conditions is 0.15%.

BENCHMARK INDEX

The Benchmark Index is the SMI Daily Short Leverage strategy index (with gross US dollars) denominated in Swiss francs (CHF).

The Benchmark Index is a strategy index defined and calculated by SIX Swiss Exchange SA.

The Benchmark Index provides daily inverse exposure to increases and decreases in the Parent Index with a daily double leverage effect. Therefore, if the Parent Index decreases during a given day, the Sub-fund's net asset value will increase by twice as much that day, and conversely, if the Parent Index increases during a given day, the Sub-fund's net asset value will decrease by twice as much that day and investors will not benefit from the increase in the Parent Index.

The Parent Index is capitalisation-weighted with free-float adjustment. It covers 20 of the largest and most liquid shares which represent about 85% of the total capitalisation of the Swiss equity market. The index is calculated in real time in Swiss francs and is available at www.six-swiss-exchange.com.

The performance of the Benchmark Index is equal to double the inverse daily performance of the Parent Index, together with total interest (SAR Swiss Average Rate On®) paid daily on 3x the closing value of Parent Index. It is therefore constitutes a short position strategy against the Parent Index, with 2x leverage and daily rebalancing. Additional rebalancing will be performed during the session if the Parent Index rises by more than 25% during a trading day in relation to the previous closing price of the preceding trading day.

A full description and the complete methodology used to construct the Benchmark Index and information on the composition and respective weightings of the Benchmark Index components are available on the Internet at http://www.six-swiss-exchange.com/indices/data_centre/strategy_indices/leveraged_indices_en.html AND http://www.six-swiss-exchange.com/indices/data_centre/shares/smi_family_fr.html

The monitored performance is based on the closing prices of the index in Swiss francs.

Benchmark Index publication

The Benchmark Index is calculated daily at the official closing price of the exchanges where the index constituents are listed.

Real-time Benchmark Index values are available via Bloomberg and Reuters.

Reuters code: .SMISL

Bloomberg code: SMISL

The closing price of the Benchmark Index is available on the Internet at <http://www.six-swiss-exchange.com/indices>

Pursuant to Article 52 of European Parliament and Council Regulation 2016/1011 of 8 June 2016, SIX Swiss Exchange AG the administrator of the SMI Daily Short Leverage benchmark index, has until 1 January 2020 to apply for approval or registration as applicable.

As of the date of the most recent version of this prospectus, the benchmark index administrator was not yet listed in ESMA's register of benchmark administrators.

Pursuant to European Parliament and Council Regulation 2016/1011 of 8 June 2016, the asset management company has a procedure for monitoring the benchmark indices used that specifies the measures to be implemented if an index is substantially modified or is no longer provided.

Benchmark Index composition and revision

The composition of the SMI Daily Short Leverage index is dependent on the revision of the Benchmark Index.

The leverage factor used in the Benchmark Index calculation formula is reset daily. The consequences of this daily resetting are explained in the Benchmark Index and Risk Profile sections of this prospectus.

The revision of the Benchmark Index's composition is dependent on the composition of the Parent Index.

The Parent Index is revised daily.

The exact composition of the Parent Index and SIX Swiss Exchange's rules for revising its composition, and consequently that of the Benchmark Index are available on the Internet at http://www.six-swiss-exchange.com/indices/data_centre/shares/smi_family_fr.html and http://www.six-swiss-exchange.com/indices/data_centre/strategy_indices/leveraged_indices_en.html.

The frequency of this rebalancing does not affect the cost of implementing the Investment Strategy.

INVESTMENT STRATEGY

1. STRATEGY EMPLOYED

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund will employ an indirect replication method, which involves entering into one or more OTC swap contracts to achieve its investment objective. These swap contracts will serve to exchange the value of the Sub-fund's assets, which will consist of cash and/or balance sheet assets (excluding any securities received as collateral), for the value of the securities that underlie the Benchmark Index.

The Sub-fund's securities may include the securities that make up the Parent Index, as well as other international equities across all economic sectors, listed on any exchange, including small-cap exchanges

The basket of securities held may be adjusted daily such that its value will generally be at least 100% of the net assets. When necessary, this adjustment will aim to neutralise the counterparty risk arising from the aforementioned swap contract.

Information on the updated composition of the basket of 'balance sheet' assets in the Sub-fund's portfolio and the value of the swap contract concluded by the Sub-fund is available on the page dedicated to the Sub-fund on Lyxor's website at www.lyxoretf.com. The frequency of any updates and/or the date on which the aforementioned information is updated is also indicated on the same page of the aforementioned website.

In managing its exposure, no more than 20% of the Sub-fund's assets may be exposed to the equities of a given issuer. This 20% limit will be checked on each Benchmark Index rebalancing date, using the Benchmark Index calculation method which limits exposure to a given issuer's equities to 20%, this calculation being performed by the Benchmark Index sponsor or calculation agent. This 20% limit may be increased to 35% for a given issuing entity when this is shown to be justified by exceptional market conditions, in particular when certain securities are largely dominant and/or in the event of strong volatility affecting a financial instrument or securities linked to an economic sector represented in the Benchmark Index. This could be the case, for example, in the event of a public offering that substantially affects a Benchmark Index security or in the event of a significant drop in the liquidity of one or more of the Benchmark Index's financial instruments.

2. Balance sheet assets (excluding embedded derivatives)

In accordance with regulatory ratios, the Sub-fund's portfolio may include global equities across all economic sectors and listed on any exchange, including "small-cap" exchanges.

The aforementioned equities will be selected on the basis of the following:

- eligibility criteria, in particular:
 - their inclusion in a major stock exchange index or in the Benchmark Index
 - liquidity (must exceed a minimum daily trading volume and market capitalisation)
 - credit rating of the country where the issuer has its registered office (must have a least a minimum S&P or equivalent rating)
- diversification criteria, in particular regarding:
 - the issuer (application of investment ratios to assets that qualify for UCITS, pursuant to Art. R214-21 of the French monetary and financial code)
 - geography
 - sector

Investment in undertakings for collective investment in transferrable securities ("UCITS") that comply with Directive 2009/65/EC is limited to 10% of the Sub-fund's net assets.

The fund manager will not invest in the shares or units of alternative investment funds (AIF) or other investment funds that were formed under a foreign law.

To optimise the Sub-fund's management, the manager reserves the right to use other instruments in accordance with the applicable regulations in order to achieve its investment objective.

3. Off-balance sheet assets (derivatives)

The Sub-fund will use OTC index-linked swaps that swap the value of the Sub-fund's assets (or of any other financial instrument or asset the Sub-fund may hold) for the value of the Benchmark Index.

To optimise the Sub-fund's management, the manager reserves the right to use other instruments in accordance with the applicable regulations in order to achieve its investment objective, such as derivatives other than index-linked swaps.

In accordance with its best execution policy, the management company considers that Société Générale is the counterparty that is generally able to obtain the best possible execution for these derivative financial instruments. Accordingly, these derivative financial instruments (including index-linked swaps) may be traded via Société Générale without having to seek a competitive bid from another counterparty.

The counterparty of the derivative financial instruments referred to above (the "**Counterparty**") will have no discretionary power over the composition of the Fund's portfolio nor over the underlying assets of the derivative financial instruments.

4. Securities with embedded derivatives

N/A.

5. Cash deposits

In order to optimise its cash management, the Sub-fund may deposit funds representing up to 20% of its net assets with lending institutions that belong to the same group as the depositary/custodian.

6. Cash borrowing

The Fund may temporarily borrow up to 10% of its net assets.

7. Securities financing transactions

N/A. The manager will not engage in any securities financing transactions.

8. Collateral

Whenever the investment strategy exposes the Sub-fund to counterparty risk, and in particular when the Sub-fund uses over-the-counter swaps, the Sub-fund may accept eligible securities as collateral to reduce the counterparty risk associated with these swaps. The portfolio of collateral received may be adjusted daily to ensure that its value is at least sufficient to cover the Sub-fund's counterparty risk in most cases. The purpose of this adjustment is to neutralise the Sub-fund's counterparty risk.

The Sub-fund will have full title to all collateral received, which will be deposited in the Sub-fund's account with the depositary. This collateral will therefore be included in the Sub-fund's assets.

All collateral the Sub-fund receives for this purpose must comply with the applicable laws and regulations, with respect in particular to liquidity, valuation, the credit-worthiness of securities issuers, correlation, and the risks of collateral management and enforceability. All collateral received must in particular meet the following criteria:

- (a) All collateral must be of high quality, be highly liquid and tradable on a regulated market or on a multilateral trading facility, with transparent pricing to enable the collateral to be rapidly sold near its estimated price
- (b) This collateral must be valued at its mark-to-market price at least daily and assets with highly volatile prices are not acceptable as collateral, unless a sufficiently prudent discount or "haircut" is applied;
- (c) The issuer of this collateral must be independent of the counterparty and must not be closely correlated with the counterparty's financial performance;
- (d) Collateral must be sufficiently diversified in terms of country, market and issuer, with exposure to any single issuer not exceeding 20% of the Sub-fund's net asset value ;
- (e) Collateral must be immediately enforceable by the Sub-fund's management company without informing the counterparty and without its approval.

Notwithstanding the condition specified in (d) above, the Sub-fund may accept a basket of securities collateral that increases its exposure to a single issuer to more than 20% of its net asset value provided that:

such securities collateral is issued by (i) a Member State, (ii) one or more of a Member State's local authorities, (iii) a country that is not a Member State (iv) a public international organisation to which one or more Member States belong; and;
such securities collateral consists of at least six different issues of securities of which no single issue exceeds 30% of the Sub-fund's assets.

In accordance with the above conditions the collateral the Sub-fund accepts may consist of:

- (i) Cash and cash-equivalent assets, which for example include short-term bank deposits and balances and money-market instruments
- (ii) Bonds issued or guaranteed by an OECD member state, or by its local government entities, or by an EU, regional or global supranational institution or organisation, or by any country provided that conditions (a) to (e) above are fully complied with
- (iii) Shares or units issued by money-market funds that calculate a daily net asset value and have an AAA or equivalent credit rating
- (iv) The shares or units of UCITS that invest mainly in the bonds and/or equities indicated in (v) and (vi) below
- (v) Bonds issued or guaranteed by first-class issuers offering sufficient liquidity
- (vi) Equities admitted for trading or traded on a regulated exchange of an EU member country, on a stock exchange of an OECD member country or on a stock exchange of another country provided that conditions (a) to (e) above are fully complied with and that these equities are components of a major index.

Collateral discount policy

The Sub-fund's management company shall apply a discount to the collateral the Sub-fund accepts. The amount of these discounts will depend mainly on the following:

- the nature of the collateral asset
- the collateral's maturity (if applicable)
- the credit rating of the collateral issuer (if applicable).

Reinvestment of collateral

Non-cash collateral will not be sold, reinvested or pledged.

At the manager's discretion, cash collateral may either be:

- (i) deposited with an authorised institution
- (ii) invested in high-quality government bonds
- (iii) used for reverse repurchase transactions, provided that these are entered into with credit institutions that are subject to prudential supervision and that the fund is able to withdraw the total amount of its cash collateral and the accrued interest at any time
- (iv) invested in short-term money-market funds as defined in the guidelines for a common definition of European money-market funds.

All cash collateral that is reinvested must be invested in a diversified manner in compliance with the rules that apply to the acceptance of non-cash collateral.

RISK PROFILE

The shareholder's money will be mainly invested in the financial instruments selected by the management company. These instruments are subject to market trends and contingencies.

Shareholders in the Sub-fund will be mainly exposed to the following risks:

- Equity risk

The price of an equity security can increase or decrease in accordance with changes in the issuer's risk exposure or in the economic conditions of the market in which the security is traded. Equity markets are more volatile than fixed-income markets, where it is possible to estimate revenues for a certain period of time under the same macroeconomic conditions.

- Capital risk

The capital invested is not guaranteed. Investors therefore may not recover all or part of their initial investment, particularly in the event that the Benchmark Index posts a negative return over the investment period.

- Liquidity risk (primary market)

The Sub-fund's liquidity and/or value may be adversely affected if, when the Sub-fund or a counterparty to a derivative financial instrument (DFI) is rebalancing its exposure, the underlying financial markets are restricted, closed, or subject to large bid/offer spreads. An inability, due to low trading volume, to execute the trades required to replicate the Benchmark Index may also adversely affect the subscription, conversion or redemption of shares.

- Liquidity risk (secondary market)

The Sub-fund's on-exchange price may deviate from its indicative net asset value. The liquidity of the Sub-fund's shares on an exchange may be adversely affected by a suspension of or disruption in market operation, such as one of the following events:

- i) the calculation of the Benchmark Index is suspended or stopped and/or
- ii) the market(s) in the Benchmark Index's underlying assets is (are) suspended, and/or
- iii) a stock exchange cannot obtain or calculate the Sub-fund's indicative net asset value and/or
- iv) a market maker fails to comply with an exchange's rules and/or
- v) an exchange's IT, electronic or other system fails.

- Counterparty risk

The Sub-fund is exposed to the risk that a counterparty with which the Sub-fund has entered into a contract or transaction may go bankrupt or default on a settlement or other obligation. The Fund is mainly exposed to counterparty risk resulting from the use of derivative financial instruments (DFI) traded over the counter with Société Générale or another counterparty. In compliance with UCITS regulations, exposure to counterparty risk (whether the counterparty is Société Générale or another entity), cannot exceed 10% of the Sub-fund's total assets per counterparty.

If a counterparty defaults on an obligation the DFI contract may be terminated before maturity. The Sub-fund will do everything in its power to achieve its investment objective by, if appropriate, entering into another DFI contract with another counterparty at the market conditions at the time of such an event. If this counterparty risk materialises it could have an impact on the Sub-fund's ability to achieve its investment objective of replicating the Benchmark Index.

Where Société Générale acts as the DFI counterparty, conflicts of interest may arise between the Sub-fund's Management Company and the DFI counterparty. The Management Company has procedures to identify and reduce such conflicts of interest and to resolve them equitably if necessary.

- Daily leverage reset risk

Investors are inversely exposed to two times the daily change in the price or level of the Parent Index. Most notably, any increase in the underlying market will be inversely amplified and will imply a larger decrease in the Sub-fund's net asset value. The daily readjustment in the underlying 'double short' index formula implies that the Sub-fund's performance will not be equivalent to two times the inverse performance of the Parent Index exposure for holding periods greater than one business day. For example, if the Parent Index increases 10% on a given business day and then decreases of 5% the following business day, the Sub-fund's net asset value will decline by 12% (before the deduction of relevant fees) over these two days, while the Parent Index will have risen 4.5% over the same period. If the Parent Index falls 5% per day over two consecutive business days, it will have decreased a total of 9.75%, whereas the Sub-fund will have gained a total of 21% over this period (before the deduction of relevant fees).

Negative scenario

1

The Parent Index rises and the leverage effect is negative is greater than 2

Parent Index		Strategy Index			
Performance day i	Value day i	Performance day i	Value day i	Leverage effect	
	100		100		
Day 1	10%	110	-20%	80	x-2
Day 2	-5%	104.5	10%	88	x-2
Total return	4.50%		-12.00%		x-2,67

Negative scenario

2

The Parent Index falls and the leverage effect is negative is less than 2

Parent Index		Strategy Index			
Performance day i	Value day i	Performance day i	Value day i	Leverage effect	
	100		100		
Day 1	-10%	90	20%	120	x-2
Day 2	6%	95.4	-12%	105.6	x-2
Total return	-4.60%		5.60%		x-1,22

Furthermore, if the Parent Index is highly volatile over a period of more than one day, the Sub-fund's net asset value may decline over this period even though the Parent Index has also declined.

Inverse leverage scenario

The leverage effect is positive over the period

Parent Index		Strategy Index			
Performance day i	Value day i	Performance day i	Value day i	Leverage effect	

		100		100	
Day 1	5%	105	-10%	90	x-2
Day 2	-5%	99.75	10%	99	x-2
Total return	-0.25%		-1.00%		x4

- Risk that the investment objective is not fully achieved

There is no guarantee that the investment objective will be achieved, as no asset or financial instrument can ensure that the Benchmark Index will be automatically and continuously replicated, particularly in the event of one or more of the following risks:

- Risk of using derivative financial instruments

In order to achieve its investment objective, the Sub-fund can enter into over-the-counter derivative financial instruments ("DFI"), such as swaps, in order to achieve the performance of the Benchmark Index. These DFI involve various risks, such as counterparty risk, hedging disruption, Benchmark Index disruption, taxation risk, regulatory risk, operational risk and liquidity risk. These risks can materially affect a DFI and could lead to an adjustment or even the early termination of the DFI transaction, which could affect the Sub-fund's net asset value.

- Risk of a change in the tax regime

A change in the tax regime of a jurisdiction where the Sub-fund is domiciled, authorised for sale or listed could adversely affect the taxation of investors. In such an event, the Sub-fund manager will not be liable to any investor with respect to any payment that may have to be made to a competent tax authority.

- Risk of a change in the tax regime of the Fund's underlying assets

A change in a tax regime that applies to the Sub-fund's underlying assets could affect the tax treatment of the Sub-fund. As a result, in case of a discrepancy between the estimated and effective tax treatments applied to the Sub-fund and/or to the Sub-fund's counterparty to the DFI, the Sub-fund's net asset value may be affected.

- Regulatory risk affecting the Fund

In the event of a change in the regulatory regime in a jurisdiction where the Sub-fund is domiciled, authorised for sale or listed, the subscription, conversion or redemption of shares may be adversely affected.

- Regulatory risk affecting the Fund's underlying assets

In the event of a change in the regulations that govern the Sub-fund's underlying assets, the Sub-fund's net asset value and the subscription, conversion or redemption of shares or units may be adversely affected.

- Benchmark Index disruption risk

If an event adversely affects the Benchmark Index, the Fund manager may be required, in accordance with the applicable laws and regulations, to suspend the subscription and redemption of the Sub-fund's shares. The calculation of the Sub-fund's net asset value could also be adversely affected.

If the Benchmark Index disruption persists, the manager of the Sub-fund will determine the appropriate measures to be carried out, which could have an impact on the Sub-fund's net asset value.

A 'Benchmark Index event' includes but is not limited to the following situations:

- i) the Benchmark Index is deemed to be inaccurate or does not reflect actual market developments
- ii) the Benchmark Index is permanently cancelled by the index provider
- iii) the index provider is unable to indicate the level or value of the Benchmark Index,
- iv) the index provider makes a material change in the Benchmark Index calculation formula or method (other than a minor modification such as an adjustment to the Benchmark Index's underlying components or their respective weightings) which the Sub-fund cannot effectively replicate at a reasonable cost.
- v) a Benchmark Index component becomes illiquid because it is no longer traded on a regulated market or because its trading over-the-counter (e.g. bonds) is disrupted
- vi) the Benchmark Index components are exposed to higher transaction costs for execution or settlement/delivery, or to specific tax constraints and these costs are not reflected in the Benchmark Index's performance.

- Corporate action risk

An unforeseen change, by the issuer of a security that is a component of the Benchmark Index, in a planned corporate action that is in contradiction with a previous official announcement on which the Sub-fund based its valuation of the corporate action (and/or on which the Sub-fund's counterparty to a derivative financial instrument or transaction based its valuation of the corporate action) can adversely affect the Sub-fund's net asset value, particularly if the Sub-fund's treatment of the corporate event differs from that of the Benchmark Index.

- Legal risk

The Sub-fund may be exposed to a legal risk arising from a total return swap (TRS) agreement as indicated in EU Regulation 2015/2365.

ELIGIBLE INVESTORS AND TYPICAL INVESTOR PROFILE

This Sub-fund is available to all investors.

Investors in this Sub-fund seek exposure to the Swiss equity market, with a leverage effect of + or - 2.

The amount that it is reasonable to invest in this Sub-fund depends on each investor's personal situation. To determine this amount, investors must take into account their personal wealth and/or estate, their cash requirements currently and for the next five years, and their willingness to take on risk or their preference for more prudent investment. It is also recommended that investors diversify their investments so that they are not exclusively exposed to this Sub-fund's risks. Given the speculative nature of this Sub-fund it may not be suitable for investors with a medium to long-term investment horizon.

All investors are therefore asked to consider their specific situation with the help of their usual investment advisor.

CALCULATION AND ALLOCATION OF DISTRIBUTABLE AMOUNTS

All distributable amounts are accumulated.

DISTRIBUTION FREQUENCY

N/A.

SHARE CHARACTERISTICS

The Acct class shares will be issued at a price that is equivalent to the net asset value of the corresponding absorbed unit class on the day the Lyxor SMI Daily (-2x) Inverse UCITS ETF is merged.
Subscription orders may be placed for a specific monetary amount or for a whole number of shares.
Redemptions will be made in whole numbers of shares.

UNIT CURRENCY

	Acc share class
Currency	Swiss francs

SUBSCRIPTION AND REDEMPTION

1. SUBSCRIPTION AND REDEMPTION ON THE PRIMARY MARKET

Orders to subscribe for or redeem shares in the Sub-fund will be processed by the Depositary, at 5.00 pm (Paris time), every day that the Sub-fund's net asset value is to be published, provided that prices are quoted for a significant proportion of the Benchmark Index components (hereinafter a "**Primary Market Day**", and will be executed at the net asset value on that Primary Market Day(hereinafter the "**reference NAV**"). Subscription/redemption orders submitted after 5.00 pm (Paris time) on a Primary Market Day will be processed as if received before 5.00 pm (Paris time) on the following Primary Market Day. Orders to subscribe for or redeem shares in the Sub-fund must be made for a whole number of shares and for an amount that is at least the CHF equivalent of 100,000 EUR.

Subscriptions and redemptions in cash

Subscriptions and redemptions shall be made exclusively in cash and executed at the ref NAV

Delivery and settlement

Settlement/delivery of subscriptions and redemptions shall be completed within five French business days upon receipt of the subscription or redemption order.

Date and frequency of net asset value calculation

The net asset value will be calculated and published each day that the Sub-fund's net asset value is to be published, provided that the market on which the Sub-fund's shares are traded is open and that orders placed in the primary and secondary markets can be funded.

The Sub-fund's net asset value is calculated using the Benchmark Index's closing price. The Sub-fund's net asset value is denominated in CHF.

The net asset value of the unit classes that are denominated in another currency than the Fund's accounting currency (if applicable) is calculated using the exchange rate between the accounting currency and the currency of the share class, at the applicable WM Reuters rate on the date the reference NAV is calculated .

2. PURCHASES AND SALES ON THE SECONDARY MARKET

A. COMMON PROVISIONS

Purchases and sales of Sub-fund shares made directly on an exchange on which the Sub-fund is or will be listed and continuously traded will be subject to no minimum purchase/sale requirements other than those of the relevant exchange(s).

Shares in a listed sub-fund that are purchased on the secondary market cannot generally be directly sold back to that sub-fund. Investors must therefore buy and sell their shares on a secondary market through an intermediary (e.g. a broker) and may consequently incur costs. It is also possible that investors may pay more than the indicative net asset value when buying shares and receive less than the indicative net asset value when selling shares.

If the stock market value of a listed fund's shares or units differs significantly from their indicative net asset value, or if trading in the fund's share or units is suspended, subject to the conditions set forth below, investors may be allowed to redeem their shares on the primary market directly from the fund, without being subject to the minimum redemption amount requirement set forth herein in the section SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)".

The management company shall decide whether to allow such primary market redemptions and for how long, on the basis of the following criteria for assessing the significance of a market disruption:

- The suspension or strong disturbance of secondary trading on a given exchange is relatively frequent.
- The link between the market disruption and secondary market operators (such as the default of one or more of the Market Makers of a given exchange, or a breakdown or malfunction of an exchange's IT or operating systems), excluding a disruption caused by a source external to the secondary exchange on which the shares or units of the Sub-fund are traded, such as an event that affects the liquidity and valuation of all or some of the Benchmark Index's components
- Any other objective circumstance that could adversely affect the fair treatment and/or the interests of the Sub-fund's shareholders.

Notwithstanding the provisions concerning fees presented in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions")", redemptions made in the primary market in this case shall only be subject to a net redemption fee of 5.00% paid to the Sub-fund and which serves to cover its trading costs.

In such exceptional cases when redemption in the primary market is allowed, the Management Company shall post on Lyxor's website at www.lyxor.etc.com the procedure that investors must observe to redeem their shares in the primary market. The Management Company shall also make this procedure available to the market undertaking that handles trading in the Sub-fund's shares.

B. SPECIAL PROVISIONS

a) **If the Sub-fund's shares are listed on Euronext Paris (as indicated in the "Key Information" section) investors should note the following rules**

Negotiability of shares and information about the financial institutions acting as Market Makers:

The shares shall be freely negotiable on the Euronext Paris regulated market subject to the following conditions and the applicable laws and regulations.

The Sub-fund shares will be listed on a specific trading list, the rules of which are defined in the following instructions published by Euronext Paris SA:

- Instruction No. 4-01 "Universal Trading Platform Manual"
- Appendix to Instruction N4-01 (Appendix to the Euronext Market Trading Manual)
- Instruction No. 6-04 "Documentation to be provided when filing a listing application for an ETF, ETN, ETV and open-ended undertakings for collective investment other than ETFS"

Pursuant to article D 214-22-1 of the French monetary and financial code the units or shares of undertakings for collective investments in transferable securities may be admitted to trading, provided that these undertakings have a system to ensure that the market price of their units or shares does not differ significantly from their net asset value. Under Euronext Paris' rules trading in the Sub-fund's shares is also subject to a 'reservation threshold' of 1.5% above or below the Sub-fund's Indicative Net Asset value or "iNAV" (see the "Indicative Net Asset Value" section), as published by Euronext Paris SA and updated on an estimated basis during trading in accordance with the change in the Benchmark Index.

To comply with Euronext Paris SA's reservation thresholds (see the "Indicative Net Asset Value" section), the Market Makers will ensure that the market price of the Sub-fund's shares does not differ from the Sub-fund's indicative net asset value by more than 1.5%.

Euronext Paris SA may suspend trading in the Sub-fund's shares pursuant to the terms of its operating rules, if the aforementioned reservation threshold limit is exceeded.

Euronext Paris SA will also suspend trading in the Sub-fund's shares in the following cases:

- the Benchmark Index is no longer traded or calculated
- Euronext Paris SA cannot obtain the Benchmark Index's level
- Euronext Paris SA cannot obtain the Sub-fund's net asset value.

In accordance with the terms and conditions governing admission to trading on Euronext Paris, the Market Makers undertake to provide market-making services for the Sub-fund's shares as soon as they are admitted to trading on the Euronext Paris exchange.

In particular, the Market Makers undertake to carry out market-making operations by maintaining a significant presence in the market, which initially entails the setting of a bid/ask spread.

More specifically, the Market Makers are required by contract with Euronext Paris SA to ensure that the Sub-fund maintains:

- a maximum global spread of 3% between the bid and offer price in the centralised order book
- a minimum nominal trading value of EUR 100,000.

The obligations of the Sub-fund's Market Makers will be suspended in the following cases:

- the Benchmark Index is no longer traded or calculated
- If trading is substantially disrupted, for example due to a widespread shift in prices or an event that makes normal market making impossible.

Indicative net asset value

Euronext Paris will calculate and publish for each Trading Day (as defined below), the Sub-fund's indicative net asset value (hereinafter the "iNAV") during trading hours). The iNAV is a measure of the intra-day value of the Sub-fund's net asset value based on the most recent data. The iNAV is not the value at which investors buy and sell shares in the Sub-fund on the secondary market.

A "Trading Day" is a day on which Euronext is normally open and on which the Benchmark Index is normally published.

The Sub-fund's iNAV is a theoretical net asset value calculated every 15 seconds by Euronext SA throughout the Paris trading day and is based on the level of the Benchmark Index. The iNAV enables investors to compare the prices that the Market Makers offer on the market with the theoretical value calculated by Euronext.

The iNAV will be calculated every day that the net asset value is calculated and published.

For the calculation of the Sub-fund's iNAV during the Paris trading session (from 9.05 am to 5.35 pm), Euronext Paris SA will use the Benchmark Index value provided by Reuters.

If one or more exchanges on which the Benchmark Index's constituent equities are listed are closed (on a public holiday as indicated on the TARGET calendar), and if the iNAV cannot be calculated, trading in the Sub-fund's shares may be suspended.

As the Sub-fund's delegated asset manager, Lyxor International Asset Management will provide Euronext Paris SA with all the financial and accounting data it needs to calculate the Sub-fund's iNAV and in particular:

- The day's estimated net asset value
- The official net asset value of the previous business day
- The level of the Benchmark Index on the previous business day.

Euronext Paris SA will use these data in its calculations to establish, each subsequent Trading Day, the Sub-fund's iNAV, which is updated in real time.

Additional information about the indicative net asset value of a share listed on a regulated market may, depending on the terms and limits set by the relevant market undertaking, be provided on the website of the exchange where the share is listed. This information is also available on the Reuters or Bloomberg pages dedicated to the particular share. Additional information about Bloomberg and Reuters codes corresponding to the indicative net asset value of UCITS ETF type shares is also available in the "Term Sheets" section of Lyxor's website at www.lyxoretf.com.

b) **If the Sub-fund's shares are listed on an exchange other than Euronext Paris (as indicated in the "Key Information" section) investors should note the following**

Investors wishing to acquire shares in the Sub-fund or obtain more information regarding the market-making terms that govern the listing and trading of shares on the types of exchanges indicated in the "Key Information" section are advised to familiarise themselves with the guidelines laid down by the relevant market undertaking in compliance with local regulations, and to seek if necessary the assistance of their usual broker(s) for executing trades on the relevant exchange(s).

FEES AND CHARGES

SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)

Subscription and redemption fees increase the subscription price paid by investors and reduce the redemption price. Fees kept by the Sub-fund compensate it for the expenses it incurs in investing in the Sub-fund's assets or in divesting these assets. Any fees that are not kept by the Fund are paid to the management company, marketing agent or other service provider.

Fees paid by investors upon subscription or redemption	Base	Maximum charge
Subscription fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of the CHF equivalent of EUR 50,000 per subscription order or 5%, payable to third parties
Subscription fee kept by the Sub-fund	NAV per share x number of shares	N/A
Redemption fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of the CHF equivalent of EUR 50,000 per redemption order or 5%, payable to third parties
Redemption fee kept by the Sub-fund	NAV per share x number of shares	N/A

No subscription or redemption fee will be charged for any purchase or sale of Sub-fund shares on an exchange where the Fund is listed.

OPERATING AND MANAGEMENT FEES

These fees cover all the costs invoiced directly to the Fund, except for transaction expenses, which include intermediary fees (brokerage, stock market taxes etc.) and any account activity fee that may be charged by the depositary or the management company.

For this Sub-fund the following fees may be charged in addition to the operating and management fees (see table below):

- Incentive fees, which the Sub-fund pays to the management company when the Sub-fund exceeds its objectives
- Account activity fees charged to the Sub-fund.

For more information on the fees or expenses that are charged to the Sub-fund, see the Statistics section of the Key Investor Information Document (KIID).

Fees charged to the Sub-fund	Base	Maximum charge
Investment management fees and administration fees that are external to the management company ⁽¹⁾	Net asset value	0.60% annual
Maximum indirect expenses (management expenses and fees)	Net asset value	N/A
Account activity fee	Charged on each transaction	N/A
Incentive fee	Net asset value	N/A

(1)Includes all fees and expenses except for transaction expenses, incentive fees and fees associated with investment in UCITS or alternative investment funds

COMMERCIAL INFORMATION

Distribution of this prospectus and the offer or purchase of the Fund share classes may be subject to restrictions with regard to certain persons or in certain countries by virtue of national regulations applying to such persons or such countries. Each investor is therefore responsible for ensuring that he or she is authorised to subscribe to or invest in this Fund. As a result, the information contained in this prospectus cannot be understood as constituting an offer or solicitation to buy or sell shares in this Fund in a country where such offer or solicitation is unlawful.

The Fund's share classes will not be registered pursuant to the US Securities Act of 1933, as amended (the "US Securities Act") and cannot be offered, assigned, transferred or allocated to the United States of America, or to:

- (A) any "US Person", as this term is defined (i) under Regulation S of the US Securities Act of 1933 and (ii) under US regulations as defined in Section 7701 (a) (30) of the Internal Revenue Code of 1986 as amended. The Sub-fund's shares will not be offered to US Persons.
- (B) anyone other than those persons considered to be "non-US Persons" as this term is defined under US regulations pursuant to the Commodity Futures Trading Commission, Rule 4.7 (a) (1) (iv).

The Sub-fund's shares will only be offered for sale outside of the United States of America to non-US Persons.

For the purpose of this document, the term "US Person" shall mean, among other things, any individual who resides in the United States of America, any entity organised or formed under the laws of the United States of America, certain entities organised or formed outside of the United States of America by one or more US persons, or any account held on behalf of such a US person.

Under the German tax act on investment funds (InvStG-E), the Sub-fund is a "mutual fund" and must comply with the criteria that apply to "equity funds. As such, the Sub-fund will hold a basket of securities that are eligible for the equity ratio as this term is defined under said German tax act, and which will represent at least 94% of its net assets under normal market conditions. To ensure compliance with this ratio, the Sub-fund may adjust this basket of securities on a daily basis.

Before making an investment in this Fund or this Sub-fund, investors should seek the advice of their financial, tax and legal advisers.

PLACE AND METHOD OF NET ASSET VALUE PUBLICATION OR COMMUNICATION

At the registered office of LYXOR INTERNATIONAL ASSET MANAGEMENT, 17, cours Valmy – 92800 Puteaux – France

The Sub-fund's net asset value will be calculated and published by Euronext Paris SA on each Paris Trading Day, during trading hours.

IMPORTANT INFORMATION ABOUT THE INDEX PROVIDER

The LYXOR ETF DAILY DOUBLE SHORT SMI fund is in no way sponsored, approved, sold or recommended by SIX Swiss Exchange SA, which does not guarantee (either expressly or tacitly) the results of using the SMI® index (hereinafter the "Index") or the level reached by the Index at any time or date. SIX Swiss Exchange SA accepts no responsibility for errors that may nevertheless, through negligence or otherwise, appear in the index. In addition, SIX Swiss Exchange SA has no obligation to draw attention to such errors.

SIX®, SIX Swiss Exchange®, SPI®, Swiss Performance Index (SPI)®, SPI EXTRA®, SPI formerly SLI®, Swiss Market Index (SMI)®, SMIM®, SMI MID (SMIM)®, SMI Expanded®, SLI®, SLI Swiss Leader Index®, SXI®, SXI LIFE SCIENCES®, SXI Bio+Medtech®, SBI®, SBI Swiss Bond Index®, VSMI®, SWX Immobilienfonds Index® and SWX Quotematch® are trademarks registered in Switzerland and/or overseas for SIX Group SA respectively SIX Swiss Exchange SA. Their use requires a licence.

ADDITIONAL INFORMATION

The Sub-fund's shares are admitted to trading by Euroclear France S.A.

Subscription and redemption orders are sent by investors' financial intermediaries (members of Euroclear France S.A.) to the Depositary.

The Sub-fund's prospectus, the Key Investor Information Document, the most recent annual documents and the asset inventory will be sent to investors within eight business days upon receipt of a written request addressed to:

LYXOR INTERNATIONAL ASSET MANAGEMENT
17, cours Valmy - 92987 Paris La Défense CEDEX – France.
e-mail: contact@lyxor.com

More information can also be requested from Lyxor International Asset Management on its website at www.lyxoretf.com.

Prospectus publication date: see the "Publication Date" section

Pursuant to Article L.533-22-1 of the French monetary and financial code, information concerning the Management Company's possible inclusion of social, environmental and corporate governance objectives and performance criteria in its investment policy is available on the management company's website and in the Multi Units France annual report.

The AMF's website (www.amf-france.org) provides additional information on the list of regulatory documents and on all provisions relating to investor protection. This Prospectus must be made available to investors prior to subscription.

INVESTMENT RULES

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

The Sub-fund may invest in the assets indicated in Article L214-20 of the French monetary and financial code, subject to the risk-diversification and investment ratio requirements of Articles R214-21 to R214-27 of said code.

Notwithstanding the 10% limit under Paragraph II of Article R214-21 of the French monetary and financial code, the Sub-fund may invest up to 20% of its assets in the equities and debt securities of a single issuer, in compliance with Article R214-22-I, which deals with index-tracking funds. Pursuant to Article R214-22 II, the Sub-fund may also increase this 20% limit for a single issuer to 35%, when this is shown to be justified by exceptional market conditions, and in particular when certain securities are largely dominant.

OVERALL RISK EXPOSURE

The commitment approach is used to calculate the overall risk exposure.

ASSET VALUATION AND ACCOUNTING RULES

A. Valuation rules

The Sub-fund's assets are valued in accordance with applicable laws and regulations and most notably Regulation NO. 2014-01 of 14 January 2014 of the Comité de la Réglementation Comptable (the Accounting Regulations Committee), which applies to the chart of accounts for UCITS investment funds.

Financial instruments traded on a regulated market are valued at the closing price recorded on the day prior to the calculation of the net asset value. If these financial instruments are traded on several regulated markets at the same time, the closing price used is that recorded on the regulated market on which they are principally traded.

However, in the absence of significant trading on a regulated market, the following financial instruments are valued using the following methods:

- Negotiable debt securities ("NDS") with a remaining life upon acquisition that is less than or equal to three months are valued by applying the difference between the acquisition value and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc.). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- NDS with a remaining life of more than three months upon acquisition but less than or equal to three months at the net asset value calculation date are valued by applying the difference between the most recent valuation and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc.). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- NDS with a remaining life at the net asset value calculation date that exceeds three months are valued at their current value. The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- Financial futures traded on organised markets are valued at the clearing price on the day prior to the calculation of the net asset value. Options traded on organised markets are valued at their market price on the day prior to the calculation of the net asset value. Forward contracts and over-the-counter options are valued at the price quoted by the counterparty. The management company monitors these prices independently.
- Bank deposits are valued at their nominal value plus accrued interest.
- Warrants, short and medium-term notes (bons de caisse), promissory notes and mortgage notes are valued under the management company's responsibility at their most likely trading value.
- Securities financing transactions are valued at the market price.
- Shares and units in UCITS under French law are valued at the last known net asset value on the day the Sub-fund's net asset value is calculated.
- Shares and units in foreign investment funds are valued at the last known net asset value at the date the Sub-fund's net asset value is calculated.
- Financial instruments traded on a regulated market and for which no price has been quoted or whose price has been corrected, are valued under the management company's responsibility at their most likely trading value.
- The exchange rates used to value financial instruments denominated in a currency other than the Sub-fund's base currency are the WM Reuters fixing rates on the day the Sub-fund's net asset value is calculated.

B. ACCOUNTING METHOD FOR TRADING EXPENSES

Trading expenses are included in the initial cost of the transaction.

C. ACCOUNTING METHOD FOR INCOME FROM FIXED-INCOME SECURITIES

Income from fixed-income securities is accounted for using the cash-basis method.

D. DISTRIBUTION POLICY

For more information see the section entitled "Calculation and Allocation of Distributable amounts"

E. ACCOUNTING CURRENCY

The Sub-fund's accounts are kept in CHF.

SUB-FUND NO. 33: LYXOR DAILY SHORTDAX X2 UCITS ETF

A SICAV SUB-FUND COMPLIANT WITH DIRECTIVE 2009/65/EC

ISIN CODE

Acc share class: FR0010869495
I-USD share class: FR0010883157

The Lyxor Daily Shortdax x2 UCITS ETF sub-fund (the “**Sub-fund**”) is a UCITS ETF index-tracker.

INCEPTION DATE

This sub-fund was approved by l’Autorité des Marchés Financiers on 15/02/2018 and was created on 19 April 2018.

INVESTMENT OBJECTIVE

The Sub-fund’s investment objective is to give inverse exposure (positive or negative), with double daily leverage, to the German equity market, by replicating the performance of the ShortDAX x2 benchmark index (the “**Benchmark Index**”), while minimising the tracking error between the Sub-fund’s performance and that of the Benchmark Index. The Benchmark Index replicates the inverse performance of the DAX® index (the “**Parent Index**”) with a daily double inverse leverage effect. This means that if underlying index increases 2% on a given day, the leveraged index will decrease 4%, less the borrowing costs for that day, and vice-versa. The expected ex-post tracking error under normal market conditions is 0.15%.

BENCHMARK INDEX

The Benchmark Index is the ShortDax index (with gross US dollars), denominated in euros (EUR).
The Benchmark Index is constructed and calculated by Deutsche Börse AG.

The Benchmark Index provides daily inverse exposure to increases and decreases in the Parent Index with a daily double leverage effect. Therefore, if the Parent Index decreases during a given day, the Sub-fund’s net asset value will increase by twice as much that day, and conversely, if the Parent Index increases during a given day, the Sub-fund’s net asset value will decrease by twice as much that day and investors will not benefit from the increase in the Parent Index

The Parent Index is composed of the 30 largest German stocks. These companies are the most actively traded stocks on the Frankfurt stock exchange. The Frankfurt stock exchange accounts for 85% of German stock trading volume and 35% of European trading volume. The index methodology is available at <http://www.dax-indices.com>.

The performance of the Benchmark Index is equal to double the inverse daily performance of the Parent Index, together with total interest (EONIA) paid daily on 3x the Parent Index’s closing value.

It is therefore constitutes a short position strategy against the Parent Index, with 2x leverage and daily rebalancing. Further rebalancing during a trading session is possible if the Benchmark Index loses more than 50% during a Trading Day.

The Parent Index is free-float market capitalisation-weighted and measures the performance of the 30 largest stocks on the Frankfurt stock exchange.

A full description and the complete methodology used to construct the Benchmark Index and information on the composition and respective weightings of the Benchmark Index components are available on the Internet at: www.russell.com. <https://www.dax-indices.com/indices>

The performance tracked is that of the index’s closing price in euros.

Benchmark Index publication

The Benchmark Index is calculated daily at the official closing price of the exchanges where the index constituents are listed.

The Benchmark Index is published by Bloomberg and Reuters.

Reuters code: . SHORTDAX2

Bloomberg code: SHRTDAX2

The closing price of the Benchmark Index is available on the internet at <http://www.dax-indices.com>

Pursuant to Article 52 of European Parliament and Council Regulation 2016/1011 of 8 June 2016, Deutsche Börse AG, the administrator of the ShortDAX x2 benchmark index, has until 1 January 2020 to apply for approval or registration as applicable.

As of the date of the most recent version of this prospectus, the benchmark index administrator was not yet listed in ESMA’s register of benchmark administrators.

Pursuant to European Parliament and Council Regulation 2016/1011 of 8 June 2016, the asset management company has a procedure for monitoring the benchmark indices used that specifies the measures to be implemented if an index is substantially modified or is no longer provided.

Benchmark Index composition and revision

The revision of the Benchmark Index’s composition is dependent on the composition of the Parent Index.

The Parent Index is revised daily.

The leverage factor used in the Benchmark Index calculation formula is reset daily. The consequences of this daily resetting are explained in the Benchmark Index and Risk Profile sections of this prospectus.

The exact composition of the Parent Index and Deutsche Börse AG’s rules for revising its composition, and consequently that of the Benchmark Index are available on the Internet at <https://www.dax-indices.com/indices>.

The frequency of this rebalancing does not affect the cost of implementing the Investment Strategy.

INVESTMENT STRATEGY

1. STRATEGY EMPLOYED

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund will employ an indirect replication method, which involves entering into one or more OTC swap contracts to achieve its investment objective. These swap contracts will serve to exchange the value of the Sub-fund's assets, which will consist of cash and/or balance sheet assets (excluding any securities received as collateral), for the value of the securities that underlie the Benchmark Index.

The securities in which the Sub-fund may invest include those that make up the Benchmark Index, and also other international equities across all economic sectors and listed on all exchanges including small-cap exchanges.

The basket of securities held may be adjusted daily such that its value will generally be at least 100% of the net assets. When necessary, this adjustment will aim to neutralise the counterparty risk arising from the aforementioned swap contract.

Information on the updated composition of the basket of 'balance sheet' assets in the Sub-fund's portfolio and the value of the swap contract concluded by the Sub-fund is available on the page dedicated to the Sub-fund on Lyxor's website at www.lyxoref.com. The frequency of any updates and/or the date on which the aforementioned information is updated is also indicated on the same page of the aforementioned website.

In managing its exposure, no more than 20% of the Sub-fund's assets may be exposed to the equities of a given issuer. This 20% limit may be increased to 35% for a single issuing entity when this is shown to be justified by exceptional market conditions, in particular when certain securities are largely dominant and/or in the event of strong volatility affecting a financial instrument or securities linked to an economic sector represented in the Benchmark Index. This could be the case, for example, in the event of a public offering affecting any of the securities that make up the Benchmark Index or in the event of a significant restriction of liquidity affecting one or more financial instruments in the Benchmark Index.

2. Balance sheet assets (excluding embedded derivatives)

In accordance with regulatory ratios, the Sub-fund's portfolio may include global equities across all economic sectors and listed on any exchange, including "small-cap" exchanges.

The aforementioned equities will be selected on the basis of the following:

- eligibility criteria, in particular:
 - their inclusion in a major stock exchange index or in the Benchmark Index
 - liquidity (must exceed a minimum daily trading volume and market capitalisation)
 - credit rating of the country where the issuer has its registered office (must have a least a minimum S&P or equivalent rating)
- diversification criteria, in particular regarding:
 - the issuer (application of investment ratios to assets that qualify for UCITS, pursuant to Art. R214-21 of the French monetary and financial code)
 - geography
 - sector

Investment in undertakings for collective investment in transferrable securities ("UCITS") that comply with Directive 2009/65/EC is limited to 10% of the Sub-fund's net assets. The fund manager will not invest in the shares or units of alternative investment funds (AIF) or other investment funds that were formed under a foreign law.

When the Sub-fund receives collateral in the form of securities, subject to the terms of section 8 below, it acquires full title to these securities and they are therefore included among the balance sheet assets to which it has full title.

To optimise the Sub-fund's management, the manager reserves the right to use other instruments in accordance with the applicable regulations in order to achieve its investment objective.

3. Off-balance sheet assets (derivatives)

The Sub-fund will use OTC index-linked swaps that swap the value of the Sub-fund's equity assets (or the value of any other financial instrument the Sub-fund may hold) for the value of the Benchmark Index (as described in section 1 above).

To optimise the Sub-fund's management, the manager reserves the right to use other instruments in accordance with the applicable regulations in order to achieve its investment objective, such as derivatives other than index-linked swaps.

- Maximum proportion of assets under management for which total return swaps may be entered into: 100% of assets under management.
- Expected proportion of assets under management for which total return swaps may be entered into: up to 100%.

In accordance with its best execution policy, the management company considers that Société Générale is the counterparty that is generally able to obtain the best possible execution for these derivative financial instruments. Accordingly, these derivative financial instruments (including index-linked swaps) may be traded via Société Générale without having to seek a competitive bid from another counterparty.

The counterparty of the derivative financial instruments referred to above (the "**Counterparty**") will have no discretionary power over the composition of the Fund's portfolio nor over the underlying assets of the derivative financial instruments.

4. Securities with embedded derivatives

N/A.

5. Cash deposits

In order to optimise its cash management, the Sub-fund may deposit funds representing up to 20% of its net assets with lending institutions that belong to the same group as the depositary/custodian.

6. Cash borrowing

The Fund may temporarily borrow up to 10% of its net assets.

7. Securities financing transactions

N/A. The manager will not engage in any securities financing transactions.

8. Collateral

Whenever the investment strategy exposes to the Sub-fund to counterparty risk, and in particular when the Sub-fund uses over-the-counter swaps, the Sub-fund may accept eligible securities as collateral to reduce the counterparty risk associated with these swaps. The portfolio of collateral received may be adjusted daily to ensure that its value is at least sufficient to cover the Sub-fund's counterparty risk in most cases. The purpose of this adjustment is to neutralise the Sub-fund's counterparty risk.

The Sub-fund will have full title to all collateral received, which will be deposited in the Sub-fund's account with the depositary. This collateral will therefore be included in the Sub-fund's assets.

All collateral the Sub-fund receives for this purpose must comply with the applicable laws and regulations, with respect in particular to liquidity, valuation, the credit-worthiness of securities issuers, correlation, and the risks of collateral management and enforceability. All collateral received must in particular meet the following criteria:

- (a) All collateral must be of high quality, be highly liquid and tradable on a regulated market or on a multilateral trading facility, with transparent pricing to enable the collateral to be rapidly sold near its estimated price
- (b) This collateral must be valued at its mark-to-market price at least daily and assets with highly volatile prices are not acceptable as collateral, unless a sufficiently prudent discount or "haircut" is applied;
- (c) The issuer of this collateral must be independent of the counterparty and must not be closely correlated with the counterparty's financial performance;
- (d) Collateral must be sufficiently diversified in terms of country, market and issuer, with exposure to any single issuer not exceeding 20% of the Sub-fund's net asset value ;
- (e) Collateral must be immediately enforceable by the Sub-fund's management company without informing the counterparty and without its approval.

Notwithstanding the condition specified in (d) above, the Sub-fund may accept a basket of securities collateral that increases its exposure to a single issuer to more than 20% of its net asset value provided that:

such securities collateral is issued by (i) a Member State, (ii) one or more of a Member State's local authorities, (iii) a country that is not a Member State (iv) a public international organisation to which one or more Member States belong; and;

such securities collateral consists of at least six different issues of securities of which no single issue exceeds 30% of the Sub-fund's assets.

In accordance with the above conditions the collateral the Sub-fund accepts may consist of:

- (i) Cash and cash-equivalent assets, which for example include short-term bank deposits and balances and money-market instruments
- (ii) Bonds issued or guaranteed by an OECD member state, or by its local government entities, or by an EU, regional or global supranational institution or organisation, or by any country provided that conditions (a) to (e) above are fully complied with
- (iii) Shares or units issued by money-market funds that calculate a daily net asset value and have an AAA or equivalent credit rating
- (iv) The shares or units of UCITS that invest mainly in the bonds and/or equities indicated in (v) and (vi) below
- (v) Bonds issued or guaranteed by first-class issuers offering sufficient liquidity
- (vi) Equities admitted for trading or traded on a regulated exchange of an EU member country, on a stock exchange of an OECD member country or on a stock exchange of another country provided that conditions (a) to (e) above are fully complied with and that these equities are components of a major index.

Collateral discount policy

The Sub-fund's management company shall apply a discount to the collateral the Sub-fund accepts. The amount of these discounts will depend mainly on the following:

- the nature of the collateral asset
- the collateral's maturity (if applicable)
- the credit rating of the collateral issuer (if applicable).

Reinvestment of collateral

Non-cash collateral will not be sold, reinvested or pledged.

At the manager's discretion, cash collateral may either be:

- (i) deposited with an authorised institution
- (ii) invested in high-quality government bonds
- (iii) used for reverse repurchase transactions, provided that these are entered into with credit institutions that are subject to prudential supervision and that the fund is able to withdraw the total amount of its cash collateral and the accrued interest at any time
- (iv) invested in short-term money-market funds as defined in the guidelines for a common definition of European money-market funds.

All cash collateral that is reinvested must be invested in a diversified manner in compliance with the rules that apply to the acceptance of non-cash collateral.

RISK PROFILE

The shareholder's money will be mainly invested in the financial instruments selected by the management company. These instruments are subject to market trends and contingencies.

Shareholders in the Sub-fund will be mainly exposed to the following risks:

- Equity risk

The price of an equity security can increase or decrease in accordance with changes in the issuer's risk exposure or in the economic conditions of the market in which the security is traded. Equity markets are more volatile than fixed-income markets, where it is possible to estimate revenues for a certain period of time under the same macroeconomic conditions.

- Capital risk

The capital invested is not guaranteed. Investors therefore may not recover all or part of their initial investment, particularly in the event that the Benchmark Index posts a negative return over the investment period

- Liquidity risk (primary market)

The Sub-fund's liquidity and/or value may be adversely affected if, when the Sub-fund or a counterparty to a derivative financial instrument (DFI) is rebalancing its exposure, the underlying financial markets are restricted, closed, or subject to large bid/offer spreads. An inability, due to low trading volume, to execute the trades required to replicate the Benchmark Index may also adversely affect the subscription, conversion or redemption of shares.

- Liquidity risk (secondary market)

The Sub-fund's on-exchange price may deviate from its indicative net asset value. The liquidity of the Sub-fund's shares on an exchange may be adversely affected by a suspension of or disruption in market operation, such as one of the following events:

- i) the calculation of the Benchmark Index is suspended or stopped and/or
- ii) the market(s) in the Benchmark Index's underlying assets is (are) suspended, and/or
- iii) a stock exchange cannot obtain or calculate the Sub-fund's indicative net asset value and/or
- iv) a market maker fails to comply with an exchange's rules and/or
- v) an exchange's IT, electronic or other system fails.

- Counterparty risk

The Sub-fund is exposed to the risk that a counterparty with which the Sub-fund has entered into a contract or transaction may go bankrupt or default on a settlement or other obligation. The Fund is mainly exposed to counterparty risk resulting from the use of derivative financial instruments (DFI) traded over the counter with Société Générale or another counterparty. In compliance with UCITS regulations, exposure to counterparty risk (whether the counterparty is Société Générale or another entity), cannot exceed 10% of the Sub-fund's total assets per counterparty.

If a counterparty defaults on an obligation the DFI contract may be terminated before maturity. The Sub-fund will do everything in its power to achieve its investment objective by, if appropriate, entering into another DFI contract with another counterparty at the market conditions at the time of such an event.

If this counterparty risk materialises it could have an impact on the Sub-fund's ability to achieve its investment objective of replicating the Benchmark Index.

Where Société Générale acts as the DFI counterparty, conflicts of interest may arise between the Sub-fund's Management Company and the DFI counterparty. The Management Company has procedures to identify and reduce such conflicts of interest and to resolve them equitably if necessary.

- Daily leverage reset risk

Investors are inversely exposed to two times the daily change in the price or level of the Parent Index. Most notably, any increase in the underlying market will be inversely amplified and will imply a larger decrease in the Sub-fund's net asset value. The daily readjustment in the underlying 'double short' index formula implies that the Sub-fund's performance will not be equivalent to two times the inverse performance of the Parent Index exposure for holding periods longer than one business day.

For example, if the Parent Index increases 10% on a given business day and then decreases of 5% the following business day, the Sub-fund's net asset value will decline by 12% (before the deduction of relevant fees) over these two days, while the Parent Index will have risen 4.5% over the same period.

If the Parent Index falls 5% per day over two consecutive business days, it will have decreased a total of 9.75%, whereas the Sub-fund will have gained a total of 21% over this period (before the deduction of relevant fees).

Negative scenario 1

The Parent Index rises and the leverage effect is negative is greater than 1

	Parent Index		Strategy Index		Leverage effect
	Performance day i	Value day i	Performance day i	Value day i	
Day 1		100		100	
	10%	110	-10%	90	x-1
Day 2	-8%	101.2	8%	97.2	x-1
Total return		1.20%		-2.80%	x-2,33

Negative scenario 2

The Parent Index falls and the leverage effect is negative is less than 1

	Parent Index		Strategy Index		Leverage effect
	Performance day i	Value day i	Performance day i	Value day i	
Day 1		100		100	
	-10%	90	10%	110	x-1
Day 2	6%	95.4	-6%	103.4	x-1

Total return	-4.60%	3.40%	x-0.74
--------------	--------	-------	--------

Furthermore, if the Parent Index is highly volatile over a period of more than one day, the Sub-fund's net asset value may decline over this period even though the Parent Index has also declined.

Inverse leverage scenario	The leverage effect is positive over the period				
	Parent Index		Strategy Index		
	Performance day i	Value day i	Performance day i	Value day i	Leverage effect
Day 1		100		100	
Day 1	5%	105	-5%	95	x-1
Day 2	-5%	99.75	5%	99.75	x-1
Total return	-0.25%		-0.25%		x1

- Risk that the investment objective is not fully achieved

There is no guarantee that the investment objective will be achieved, as no asset or financial instrument can ensure that the Benchmark Index will be automatically and continuously replicated, particularly in the event of one or more of the following risks:

- Risk of using derivative financial instruments

In order to achieve its investment objective, the Sub-fund can enter into over-the-counter derivative financial instruments ("DFI"), such as swaps, in order to achieve the performance of the Benchmark Index. These DFI involve various risks, such as counterparty risk, hedging disruption, Benchmark Index disruption, taxation risk, regulatory risk, operational risk and liquidity risk. These risks can materially affect a DFI and could lead to an adjustment or even the early termination of the DFI transaction, which could affect the Sub-fund's net asset value.

- Risk of a change in the tax regime

A change in the tax regime of a jurisdiction where the Sub-fund is domiciled, authorised for sale or listed could adversely affect the taxation of investors. In such an event, the Sub-fund manager will not be liable to any investor with respect to any payment that may have to be made to a competent tax authority.

- Risk of a change in the tax regime of the Fund's underlying assets

A change in a tax regime that applies to the Sub-fund's underlying assets could affect the tax treatment of the Sub-fund. As a result, in case of a discrepancy between the estimated and effective tax treatments applied to the Sub-fund and/or to the Sub-fund's counterparty to the DFI, the Sub-fund's net asset value may be affected.

- Regulatory risk affecting the Fund

In the event of a change in the regulatory regime in a jurisdiction where the Sub-fund is domiciled, authorised for sale or listed, the subscription, conversion or redemption of shares may be adversely affected.

- Regulatory risk affecting the Fund's underlying assets

In the event of a change in the regulations that govern the Sub-fund's underlying assets, the Sub-fund's net asset value and the subscription, conversion or redemption of shares or units may be adversely affected.

- Benchmark Index disruption risk

If an event adversely affects the Benchmark Index, the Fund manager may be required, in accordance with the applicable laws and regulations, to suspend the subscription and redemption of the Sub-fund's shares. The calculation of the Sub-fund's net asset value could also be adversely affected.

If the Benchmark Index disruption persists, the manager of the Sub-fund will determine the appropriate measures to be carried out, which could have an impact on the Sub-fund's net asset value.

A 'Benchmark Index event' includes but is not limited to the following situations:

- i) the Benchmark Index is deemed to be inaccurate or does not reflect actual market developments
- ii) the Benchmark Index is permanently cancelled by the index provider
- iii) the index provider is unable to indicate the level or value of the Benchmark Index
- iv) the index provider makes a material change in the Benchmark Index calculation formula or method (other than a minor modification such as an adjustment to the Benchmark Index's underlying components or their respective weightings) which the Sub-fund cannot effectively replicate at a reasonable cost.
- v) a Benchmark Index component becomes illiquid because it is no longer traded on a regulated market or because its trading over-the-counter (e.g. bonds) is disrupted
- vi) the Benchmark Index components are exposed to higher transaction costs for execution or settlement/delivery, or to specific tax constraints and these costs are not reflected in the Benchmark Index's performance.

- Legal risk

The Sub-fund may be exposed to a legal risk arising from a total return swap (TRS) agreement as indicated in EU Regulation No. 2015/2365.

- Corporate action risk

An unforeseen change, by the issuer of a security that is a component of the Benchmark Index, in a planned corporate action that is in contradiction with a previous official announcement on which the Sub-fund based its valuation of the corporate action (and/or on which the Sub-fund's counterparty to a derivative financial instrument or transaction based its valuation of the corporate action) can adversely affect the Sub-fund's net asset value, particularly if the Sub-fund's treatment of the corporate event differs from that of the Benchmark Index.

ELIGIBLE INVESTORS AND TYPICAL INVESTOR PROFILE

This Sub-fund is available to all investors .

Investors in this Sub-fund will be inversely exposed (both positively and negatively) to the German equity market with 2x leverage.

The amount that it is reasonable to invest in this Sub-fund depends on each investor's personal situation. To determine this amount, investors must take into account their personal wealth and/or estate, their cash requirements currently and for the next five years, and their willingness to take on risk or their preference for more prudent investment. It is also recommended that investors diversify their investments so that they are not exclusively exposed to this Sub-fund's risks. Given the speculative nature of this Sub-fund it may not be suitable for investors with a medium to long-term investment horizon

All investors are therefore asked to consider their specific situation with the help of their usual investment advisor.

CALCULATION AND ALLOCATION OF DISTRIBUTABLE AMOUNTS

I-USD share class: The management company reserves the right to distribute distributable amounts one or more times a year and/or accumulate all or part of these amounts.

Acc share class: all distributable amounts are accumulated

DISTRIBUTION FREQUENCY

The management company reserves the right to distribute distributable amounts in one or more annual distributions.

SHARE CHARACTERISTICS

The Acct and I-USD class shares will be issued at a price that is equivalent to the net asset value of the corresponding absorbed unit class on the day the Daily Shortdax x2 UCITS ETF is merged.

Only a whole number of shares may be subscribed for.

Redemptions will be made in whole numbers of shares.

UNIT CURRENCY

	Acc share class	I-USD share class
Currency	Euros	US dollar

SUBSCRIPTION AND REDEMPTION

1. SUBSCRIPTION AND REDEMPTION ON THE PRIMARY MARKET

Orders to subscribe for or redeem shares in the Sub-fund will be processed by the Depositary, at 5.00 pm (Paris time), every day that the Sub-fund's net asset value is to be published, provided that prices are quoted for a significant proportion of the Benchmark Index components (hereinafter a "**Primary Market Day**" and will be executed at the net asset value on that Primary Market Day(hereinafter the "**reference NAV**"). Subscription/redemption orders submitted after 5.00 pm (Paris time) on a Primary Market Day will be processed as if received at 5.00 pm (Paris time) on the following Primary Market Day. Orders to subscribe for or redeem shares in the Sub-fund must be made for a whole number of shares that represents at least 100,000 euros.

Subscriptions/redemptions in cash:

Subscriptions and redemptions shall be made exclusively in cash and executed at the ref NAV.

Delivery and settlement

Settlement/delivery of subscriptions and redemptions shall be completed within five French business days upon receipt of the subscription or redemption order.

Date and frequency of net asset value calculation

The net asset value will be calculated and published each day that the Sub-fund's net asset value is to be published, provided that the market on which the Sub-fund's shares are traded is open and that orders placed in the primary and secondary markets can be funded.

The net asset value of a share class that is denominated in another currency than the Fund's accounting currency (if applicable) is calculated using the exchange rate between the accounting currency and the currency of the share class, at the applicable WM Reuters rate on the date the reference NAV is calculated.

The Sub-fund's net asset value is calculated using the Benchmark Index's closing price. The Sub-fund's net asset value is denominated in EUR.

2. PURCHASES AND SALES ON THE SECONDARY MARKET

A. COMMON PROVISIONS

Purchases and sales of Sub-fund shares made directly on an exchange on which the Sub-fund is or will be listed and continuously traded will be subject to no minimum purchase/sale requirements other than those of the relevant exchange(s).

Shares in a listed sub-fund that are purchased on the secondary market cannot generally be directly sold back to that sub-fund. Investors must therefore buy and sell their shares on a secondary market through an intermediary (e.g. a broker) and may consequently incur costs. It is also possible that investors may pay more than the indicative net asset value when buying shares and receive less than the indicative net asset value when selling shares.

If the stock market value of a listed fund's shares or units differs significantly from their indicative net asset value, or if trading in the fund's share or units is suspended, subject to the conditions set forth below, investors may be allowed to redeem their shares on the primary market directly from the fund, without being subject to the minimum redemption amount requirement set forth herein in the section SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)".

The management company shall decide whether to allow such primary market redemptions and for how long, on the basis of the following criteria for assessing the significance of a market disruption:

- The suspension or strong disturbance of secondary trading on a given exchange is relatively frequent.
- The link between the market disruption and secondary market operators (such as the default of one or more of the Market Makers of a given exchange, or a breakdown or malfunction of an exchange's IT or operating systems), excluding a disruption caused by a source external to the secondary exchange on which the Sub-fund's shares are traded such as an event that affects the liquidity and valuation of all or some of the Benchmark Index's components
- Any other objective circumstance that could adversely affect the fair treatment and/or the interests of the Sub-fund's shareholders.

Notwithstanding the provisions concerning fees presented in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions")**,** redemptions made in the primary market in this case shall only be subject to a net redemption fee of 1% paid to the Sub-fund and which serves to cover its trading costs.

In such exceptional cases when redemption in the primary market is allowed, the management company will post on Lyxor's website at www.lyxor.etf.com the procedure that investors must observe to redeem their shares in the primary market. The Management Company shall also make this procedure available to the market undertaking that handles trading in the Sub-fund's shares.

B. SPECIAL PROVISIONS

- a) **If the Sub-fund's shares are listed on Euronext Paris (as indicated in the "Key Information" section) investors should note the following rules**

Negotiability of shares and information about the financial institutions acting as Market Makers:

The shares shall be freely negotiable on the Euronext Paris regulated market subject to the following conditions and the applicable laws and regulations.

The Sub-fund shares will be listed on a specific trading list, the rules of which are defined in the following instructions published by Euronext Paris SA:

- Instruction No. 4-01 "Universal Trading Platform Manual"
- Appendix to Instruction N4-01 (Appendix to the Euronext Market Trading Manual)
- Instruction No. 6-04 "Documentation to be provided when filing a listing application for an ETF, ETN, ETV and open-ended undertakings for collective investment other than ETFS"

Pursuant to article D 214-22-1 of the French monetary and financial code the units or shares of undertakings for collective investments in transferable securities may be admitted to trading, provided that these undertakings have a system to ensure that the market price of their units or shares does not differ significantly from their net asset value. Under Euronext Paris' rules trading in the Sub-fund's shares is also subject to a 'reservation threshold' of 1.5% above or below the Sub-fund's Indicative Net Asset value or "iNAV" (see the "Indicative Net Asset Value" section), as published by Euronext Paris SA and updated on an estimated basis during trading in accordance with the change in the Benchmark Index.

To comply with Euronext Paris SA's reservation thresholds (see the "Indicative Net Asset Value" section), the Market Makers will ensure that the market price of the Sub-fund's shares does not differ from the Sub-fund's indicative net asset value by more than 1.5%.

Euronext Paris SA may suspend trading in the Sub-fund's shares pursuant to the terms of its operating rules, if the aforementioned reservation threshold limit is exceeded.

Euronext Paris SA will also suspend trading in the Sub-fund's shares in the following cases:

- the Benchmark Index is no longer traded or calculated
- Euronext Paris SA cannot obtain the Benchmark Index's level
- Euronext Paris SA cannot obtain the Sub-fund's net asset value.

In accordance with the terms and conditions governing admission to trading on Euronext Paris, the Market Makers undertake to provide market-making services for the Sub-fund's shares as soon as they are admitted to trading on the Euronext Paris exchange.

In particular, the Market Makers undertake to carry out market-making operations by maintaining a significant presence in the market, which initially entails the setting of a bid/ask spread.

More specifically, the Market Makers are required by contract with Euronext Paris SA to ensure that the Sub-fund maintains:

- a maximum overall spread of 2% between the bid and ask price in the centralised order book.
- a minimum nominal trading value of EUR 100,000.

The obligations of the Sub-fund's Market Makers will be suspended in the following cases:

- the Benchmark Index is no longer traded or calculated
- If trading is substantially disrupted, for example due to a widespread shift in prices or an event that makes normal market making impossible.

Indicative net asset value

Euronext Paris SA will calculate and publish, each Trading Day (as defined below) during trading hours, the Sub-fund's indicative net asset value (hereinafter the "iNAV"). The iNAV is a measure of the intra-day value of the Sub-fund's net asset value based on the most recent data. The iNAV is not the value at which investors buy and sell shares in the Sub-fund on the secondary market.

A "Trading Day" is a day on which Euronext is normally open and on which the Benchmark Index is normally published.

The Sub-fund's iNAV is a theoretical net asset value calculated every 15 seconds by Euronext SA throughout the Paris trading day and is based on the level of the Benchmark Index. The iNAV enables investors to compare the prices that the Market Makers offer on the market with the theoretical value calculated by Euronext.

The iNAV will be calculated every day that the net asset value is calculated and published.

For the calculation of the Sub-fund's iNAV during the Paris trading session (from 9.05 am to 5.35 pm), Euronext Paris SA will use the Benchmark Index value provided by Reuters.

If one or more stock exchanges on which the Benchmark Index's constituent equities are listed are closed (on a public holiday as indicated on the TARGET calendar), and if the iNAV cannot be calculated, trading in the Sub-fund's shares may be suspended.

Lyxor International Asset Management, the Sub-fund's management company, will provide Euronext Paris SA with all the financial and accounting data it needs to calculate the Sub-fund's iNAV and in particular:

- The day's estimated net asset value
- The official net asset value of the previous business day
- The level of the Benchmark Index on the previous business day.

These data will serve as a basis for Euronext Paris SA's calculations to determine the Sub-fund's iNAV in real time every Trading Day.

Additional information about the indicative net asset value of a share listed on a regulated market may, depending on the terms and limits set by the relevant market undertaking, be provided on the website of the exchange where the share is listed. This information is also available on the Reuters or Bloomberg pages dedicated to the particular share. Additional information about Bloomberg and Reuters codes corresponding to the indicative net asset value of UCITS ETF type shares is also available in the "Term Sheets" section of Lyxor's website at www.lyxoretf.com.

b) **If the Sub-fund's shares are listed on an exchange other than Euronext Paris (as indicated in the "Key Information" section) investors should note the following**

Investors wishing to acquire shares in the Sub-fund or obtain more information regarding the market-making terms that govern the listing and trading of shares on the types of exchanges indicated in the "Key Information" section are advised to familiarise themselves with the guidelines laid down by the relevant market undertaking in compliance with local regulations, and to seek if necessary the assistance of their usual broker(s) for executing trades on the relevant exchange(s).

FEES AND CHARGES

SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)

Subscription and redemption fees increase the subscription price paid by investors and reduce the redemption price. Fees kept by the Sub-fund compensate it for the expenses it incurs in investing in the Sub-fund's assets or in divesting these assets. Any fees that are not kept by the Fund are paid to the management company, marketing agent or other service provider.

Fees paid by investors upon subscription or redemption	Base	Maximum charge
Subscription fee not kept by the Sub-fund	NAV per share x number of shares	The higher of EUR 50,000 per subscription order or 5%, payable to third parties
Subscription fee kept by the Sub-fund	NAV per share x number of shares	N/A
Redemption fee not kept by the Sub-fund	NAV per share x number of shares	The higher of EUR 50,000 per redemption order or 5%, payable to third parties
Redemption fee kept by the Sub-fund	NAV per share x number of shares	N/A

No subscription or redemption fee will be charged for any purchase or sale of Sub-fund shares on an exchange where the Fund is listed

OPERATING AND MANAGEMENT FEES

These fees cover all the costs invoiced directly to the Fund, except for transaction expenses, which include intermediary fees (brokerage, stock market taxes etc.) and any account activity fee that may be charged by the depositary or the management company.

For this Sub-fund the following fees may be charged in addition to the operating and management fees (see table below):

- Incentive fees, which the Sub-fund pays to the management company when the Sub-fund exceeds its objectives . They are therefore charged to the Sub-fund
- Account activity fees charged to the Sub-fund.

For more information on the fees or expenses that are charged to the Sub-fund, see the Statistics section of the Key Investor Information Document (KIID).

Fees charged to the Sub-fund	Base	Maximum charge
Investment management fees and administration fees that are external to the management company ⁽¹⁾	Net asset value	0.60% annual
Maximum indirect expenses (management expenses and fees)	Net asset value	N/A
Account activity fee	Charged on each transaction	N/A
Incentive fee	Net asset value	N/A

(1)Includes all fees and expenses except for transaction expenses, incentive fees and fees associated with investment in UCITS or alternative investment funds

COMMERCIAL INFORMATION

Distribution of this prospectus and the offer or purchase of the Fund share classes may be subject to restrictions with regard to certain persons or in certain countries by virtue of national regulations applying to such persons or such countries. Each investor is therefore responsible for ensuring that he or she is authorised to subscribe to or invest in this Fund. As a result, the information contained in this prospectus cannot be understood as constituting an offer or solicitation to buy or sell shares in this Fund in a country where such offer or solicitation is unlawful.

The Fund's share classes will not be registered pursuant to the US Securities Act of 1933, as amended (the "US Securities Act") and cannot be offered, assigned, transferred or allocated to the United States of America, or to:

- (A) any "US Person", as this term is defined (i) under Regulation S of the US Securities Act of 1933 and (ii) under US regulations as defined in Section 7701 (a) (30) of the Internal Revenue Code of 1986 as amended. The Sub-fund's shares will not be offered to US Persons.
- (B) anyone other than those persons considered to be "non-US Persons" as this term is defined under US regulations pursuant to the Commodity Futures Trading Commission, Rule 4.7 (a) (1) (iv).

The Sub-fund's shares will only be offered for sale outside of the United States of America to non-US Persons.

For the purpose of this document, the term "US Person" shall mean, among other things, any individual who resides in the United States of America, any entity organised or formed under the laws of the United States of America, certain entities organised or formed outside of the United States of America by one or more US persons, or any account held on behalf of such a US person.

Under the German tax act on investment funds (InvStG-E), the Sub-fund is a "mutual fund" and must comply with the criteria that apply to "equity funds". As such, the Sub-fund will hold a basket of securities that are eligible for the equity ratio as this term is defined under said German tax act, and which will represent at least 94% of its net assets under normal market conditions. To ensure compliance with this ratio, the Sub-fund may adjust this basket of securities on a daily basis.

Before making an investment in this Fund or this Sub-fund, investors should seek the advice of their financial, tax and legal advisers.

PLACE AND METHOD OF NET ASSET VALUE PUBLICATION OR COMMUNICATION

At the registered office of LYXOR INTERNATIONAL ASSET MANAGEMENT, 17, cours Valmy - 92987 Paris La Défense CEDEX - France

The Sub-fund's net asset value will be calculated and published every Trading Day.

IMPORTANT INFORMATION ABOUT THE INDEX PROVIDER

This financial instrument is not sponsored, recommended, distributed or otherwise supported by Deutsche Börse AG (the "Licensor"). The Licensor grants no guarantee and issues no statement, whether explicit or implicit, regarding the results arising from use of the index and/or the index's registered trademark, or the value of the index at any given time or date, or regarding any other matter. The Index is calculated and published by the Licensor. However, within the limits of the law, the Licensor will not be liable to all and any third parties in the event of potential errors in the Index. Moreover, the Licensor is under no obligation to report potential errors in the Index to any third parties, including investors. Neither the publication of the Index by the Licensor, nor the license granted for the Index and its registered trademark for use with the financial instrument or other securities or financial products arising from the index amount to a recommendation by the Licensor for capital investment, nor do they carry, in any way, a guarantee or opinion from the Licensor concerning the appeal of an investment in this product. In its capacity as sole holder of all the rights relating to the Index and the Index's registered trademark, the Licensor has only granted to the financial instrument's issuer the right to use the Index and the Index's registered trademark, together with all and any reference to the Index and its registered trademark in relation to the financial instrument. Investors are encouraged to form their own opinions as to the advisability of the investment they plan to make and to consult their usual advisors before purchasing shares.

ADDITIONAL INFORMATION

The Sub-fund's shares are admitted to trading by Euroclear France S.A.

Subscription and redemption orders are sent by investors' financial intermediaries (members of Euroclear France S.A.) to the Depositary.

The Sub-fund's prospectus, the Key Investor Information Document, the most recent annual documents and the asset inventory will be sent to investors within eight business days upon receipt of a written request addressed to:

LYXOR INTERNATIONAL ASSET MANAGEMENT

17 Cours Valmy - 92987 Paris La Défense France.

E-mail: contact@lyxor.com

More information can also be requested from Lyxor International Asset Management on its website at www.lyxoretf.com.

Prospectus publication date: see the "Publication Date" section.

Pursuant to Article L.533-22-1 of the French monetary and financial code, information concerning the Management Company's possible inclusion of social, environmental and corporate governance objectives and performance criteria in its investment policy is available on the management company's website and in the Multi Units France annual report.

The AMF's website (www.amf-france.org) provides additional information on the list of regulatory documents and on all provisions relating to investor protection. This Prospectus must be made available to investors prior to subscription.

INVESTMENT RULES

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

The Sub-fund may invest in the assets indicated in Article L214-20 of the French monetary and financial code, subject to the risk-diversification and investment ratio requirements of Articles R214-21 to R214-27 of said code.

Notwithstanding the 10% limit under Paragraph II of Article R214-21 of the French monetary and financial code, the Sub-fund may invest up to 20% of its assets in the equities and debt securities of a single issuer, in compliance with Article R214-22-I, which deals with index-tracking funds. Pursuant to Article R214-22 II, the Sub-fund may also increase this 20% limit for a single issuer to 35%, when this is shown to be justified by exceptional market conditions, and in particular when certain securities are largely dominant.

OVERALL RISK EXPOSURE

The commitment approach is used to calculate the overall risk exposure.

ASSET VALUATION AND ACCOUNTING RULES

A. Valuation rules

The Sub-fund's assets are valued in accordance with applicable laws and regulations and most notably Regulation NO. 2014-01 of 14 January 2014 of the Comité de la Réglementation Comptable (the Accounting Regulations Committee), which applies to the chart of accounts for UCITS investment funds. Financial instruments traded on a regulated market are valued at the closing price recorded on the day prior to the calculation of the net asset value. If these financial instruments are traded on several regulated markets at the same time, the closing price used is that recorded on the regulated market on which they are principally traded.

However, in the absence of significant trading on a regulated market, the following financial instruments are valued using the following methods:

- Negotiable debt securities ("NDS") with a remaining life upon acquisition that is less than or equal to three months are valued by applying the difference between the acquisition value and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc.). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- NDS with a remaining life of more than three months upon acquisition but less than or equal to three months at the net asset value calculation date are valued by applying the difference between the most recent valuation and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc.). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- NDS with a remaining life at the net asset value calculation date that exceeds three months are valued at their current value. The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- Financial futures traded on organised markets are valued at the clearing price on the day prior to the calculation of the net asset value. Options traded on organised markets are valued at their market price on the day prior to the calculation of the net asset value. Forward contracts and over-the-counter options are valued at the price quoted by the counterparty. The management company monitors these prices independently.
- Bank deposits are valued at their nominal value plus accrued interest.
- Warrants, short and medium-term notes (bons de caisse), promissory notes and mortgage notes are valued under the management company's responsibility at their most likely trading value.
- Securities financing transactions are valued at the market price.
- Shares and units in UCITS under French law are valued at the last known net asset value on the day the Sub-fund's net asset value is calculated.
- Shares and units in foreign investment funds are valued at the last known net asset value at the date the Sub-fund's net asset value is calculated.

Financial instruments traded on a regulated market and for which no price has been quoted or whose price has been corrected, are valued under the management company's responsibility at their most likely trading value.

The exchange rates used to value financial instruments denominated in a currency other than the Sub-fund's base currency are the WM Reuters fixing rates published on the day the Sub-fund's net asset value is calculated.

B. ACCOUNTING METHOD FOR TRADING EXPENSES

Trading expenses are included in the initial cost of the transaction.

C. ACCOUNTING METHOD FOR INCOME FROM FIXED-INCOME SECURITIES

Income from fixed-income securities is accounted for using the cash-basis method.

D. DISTRIBUTION POLICY

For more information see the section entitled "Calculation and Allocation of Distributable amounts"

E. ACCOUNTING CURRENCY

The Sub-fund's accounts are kept in euros.

SUB-FUND NO. 34: LYXOR IBEX 35 DOBLE APALANCADO DIARIO UCITS ETF

A SICAV SUB-FUND COMPLIANT WITH DIRECTIVE 2009/65/EC

ISIN CODE

Acc share class: FR0011042753

CLASSIFICATION

Eurozone country equities.

The Lyxor Ibex 35 Doble Apalancado Diario UCITS ETF sub-fund (the “**Sub-fund**”) continuously maintains at least 60% exposure to the equity markets of one or more eurozone countries, including the French equity market.

The Sub-fund is a UCITS ETF index-tracker.

INCEPTION DATE

This sub-fund was approved by l’Autorité des Marchés Financiers on 15/02/2018 and was created on 19 April 2018.

INVESTMENT OBJECTIVE

The Sub-fund's investment objective is to gain exposure with 2x daily leverage (positive or negative) to the Spanish equity market, by replicating the performance of the IBEX 35® DobleApalancadoNeto strategy index (see "Benchmark Index"), denominated in euros (EUR), while minimising the tracking error between the Sub-fund's performance and that of its Benchmark Index.

The expected ex-post tracking error under normal market conditions is 0.10%.

BENCHMARK INDEX

The Sub-fund's Benchmark Index is the IBEX 35® DobleApalancadoNeto strategy index including any dividends the Sub-fund may receive from holding stocks in the Benchmark Index.

The Benchmark Index is an equity strategy index that is calculated, maintained and published by Sociedad de Bolsas. The Benchmark Index provides exposure with daily 2x leverage to increases and decreases in the IBEX 35® index (hereinafter the “Parent Index”). This means that if the Parent Index rises on a day that the net asset value is calculated, the Sub-fund's net asset value will increase by twice the amount of the increase on that day, and conversely, if the Parent Index declines on a day that the net asset value is calculated, the Sub-fund net asset value will decline by twice the amount of the decrease on that day.

The Parent Index is the main benchmark index of the Madrid stock exchange and is composed of the 35 most actively traded stocks in the Spanish market. The Parent Index is weighted by float-adjusted market capitalisation.

The Benchmark Index is calculated daily at the official closing price of the exchanges where the index constituents are listed.

A full description and the complete methodology used to construct the Benchmark Index and the respective weightings of the Benchmark Index components are available on the Internet at: <http://www.bolsamadrid.es/ing/aspx/Indices/Resumen.aspx>.

The performance tracked is that of the Benchmark Index's closing price.

Benchmark Index publication

The Benchmark Index is published by Bloomberg and Reuters.

On Reuters: .IBEXDLN

Bloomberg code: IBXQ

The closing price of the Benchmark Index is available on the Internet at <http://www.bolsamadrid.es/ing/aspx/Indices/Resumen.aspx>

Pursuant to Article 52 of European Parliament and Council Regulation 2016/1011 of 8 June 2016, Sociedad de Bolsas, the administrator of the Ibex 35® Doble Apalancado Neto benchmark index, has until 1 January 2020 to apply for approval or registration as applicable.

As of the date of the most recent version of this prospectus, the benchmark index administrator was not yet listed in ESMA's register of benchmark administrators.

Pursuant to European Parliament and Council Regulation 2016/1011 of 8 June 2016, the asset management company has a procedure for monitoring the benchmark indices used that specifies the measures to be implemented if an index is substantially modified or is no longer provided.

Benchmark Index composition and revision

The revision of the Benchmark Index's composition is dependent on the composition of the Parent Index.

The Parent Index is revised every six months.

The leverage factor used in the Benchmark Index calculation formula is reset daily. The consequences of this daily resetting are explained in the Benchmark Index and Risk Profile sections of this prospectus.

The exact composition of the Benchmark Index and the rules for its rebalancing are available on the Internet at <http://www.bolsamadrid.es/ing/aspx/Indices/Resumen.aspx>

The frequency of the aforementioned rebalancing does not affect the cost of implementing the Investment Strategy

The advantage of the “Leverage” strategy

The “Leverage” strategy (with a daily leverage effect) is a dynamic strategy that is applied to the Benchmark Index. By borrowing securities, it enables investors to double the effect of their investment, on a daily basis, in comparison with a “single” investment in the Parent Index. If the Benchmark Index rises, the gain on a given day will be twice as much as with a “single” investment in the Parent Index. However, in a bear market the multiplier effect of the leverage also doubles losses on a daily basis. The daily multiplier effect also affects the risks of the overall investment strategy.

INVESTMENT STRATEGY

1. Strategy employed

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund will employ an indirect replication method, which involves entering into one or more OTC swap contracts to achieve its investment objective. These swap contracts will serve to exchange the value of the Sub-fund's assets, which will consist of cash and/or balance sheet assets (excluding any securities received as collateral), for the value of the securities that underlie the Benchmark Index.

The basket of securities held may be adjusted daily such that its value will generally be at least 100% of the net assets. When necessary, this adjustment will aim to neutralise the counterparty risk arising from the aforementioned swap contract.

The Securities in the Sub-fund's portfolio may include those that make up the Parent Index, as well as other global equities across all economic sectors and listed on all exchanges including small-cap exchanges.

The Sub-fund's equity assets will be chosen so as to limit the cost of replicating the Benchmark Index

Information on the updated composition of the basket of 'balance sheet' assets in the Sub-fund's portfolio and the value of the swap contract concluded by the Sub-fund is available on the page dedicated to the Sub-fund on Lyxor's website at www.lyxoretf.com. The frequency of any updates and/or the date on which the aforementioned information is updated is also indicated on the same page of the aforementioned website.

In managing its exposure, no more than 20% of the Sub-fund's assets may be exposed to the equities of a given issuer. This 20% limit may be increased to 35% for a single issuing entity when this is shown to be justified by exceptional market conditions, in particular when certain securities are largely dominant and/or in the event of strong volatility affecting a financial instrument or securities linked to an economic sector represented in the Benchmark Index. This could be the case, for example, in the event of a public offering affecting any of the securities that make up the Benchmark Index or in the event of a significant restriction of liquidity affecting one or more financial instruments in the Benchmark Index.

2. Balance sheet assets (excluding embedded derivatives)

In accordance with regulatory ratios, the Sub-fund's portfolio may include global equities across all economic sectors and listed on any exchange, including "small-cap" exchanges.

The aforementioned equities will be selected on the basis of the following:

- eligibility criteria, in particular:
 - their inclusion in a major stock exchange index or in the Benchmark Index
 - liquidity (must exceed a minimum daily trading volume and market capitalisation)
 - credit rating of the country where the issuer has its registered office (must have a least a minimum S&P or equivalent rating)
- diversification criteria, in particular regarding:
 - the issuer (application of investment ratios to assets that qualify for UCITS, pursuant to Art. R214-21 of the French monetary and financial code)
 - geography
 - sector

Investors may find more information on the above eligibility and diversification criteria, and in particular the list of eligible indices, on Lyxor's website at www.lyxoretf.com

Investment in undertakings for collective investment in transferrable securities ("UCITS") that comply with Directive 2009/65/EC is limited to 10% of the Sub-fund's net assets.

The fund manager will not invest in the shares or units of alternative investment funds (AIF) or other investment funds that were formed under a foreign law.

When the Sub-fund receives collateral in the form of securities, subject to the terms of section 8 below, it acquires full title to these securities and they are therefore included among the balance sheet assets to which it has full title.

In respect of these investments, the Sub-fund may invest in the units or shares of UCITS managed by the management company or by a company that is related to the management company.

To optimise the Sub-fund's management, the manager reserves the right to use other instruments in accordance with the applicable regulations in order to achieve its investment objective.

3. Off-balance sheet assets (derivatives)

The Sub-fund will use OTC index-linked swaps that swap the value of its equity assets (or of any other financial instrument or asset the Fund may hold) for the value of the Benchmark Index (as described in part 1 of this section).

To optimise the Sub-fund's management, the manager reserves the right to use other instruments in accordance with the applicable regulations in order to achieve its investment objective, such as derivatives other than index-linked swaps.

In accordance with its best execution policy, the management company considers that Société Générale is the counterparty that is generally able to obtain the best possible execution for these derivative financial instruments. Accordingly, these derivative financial instruments (including index-linked swaps) may be traded via Société Générale without having to seek a competitive bid from another counterparty.

The counterparty of the derivative financial instruments referred to above (the "Counterparty") will have no discretionary power over the composition of the Fund's portfolio nor over the underlying assets of the derivative financial instruments.

4. Securities with embedded derivatives

N/A.

5. Cash deposits

In order to optimise its cash management, the Sub-fund may deposit funds representing up to 20% of its net assets with lending institutions that belong to the same group as the depositary/custodian.

6. Cash borrowing

The Sub-fund may temporarily borrow up to 10 % of its net assets.

7. Securities financing transactions

N/A. The manager will not engage in any securities financing transactions.

8. Collateral

Whenever the investment strategy exposes to the Sub-fund to counterparty risk, and in particular when the Sub-fund uses over-the-counter swaps, the Sub-fund may accept eligible securities as collateral to reduce the counterparty risk associated with these swaps. The portfolio of collateral received may be adjusted daily to ensure that its value is at least sufficient to cover the Sub-fund's counterparty risk in most cases. The purpose of this adjustment is to neutralise the Sub-fund's counterparty risk.

The Sub-fund will have full title to all collateral received, which will be deposited in the Sub-fund's account with the depositary. This collateral will therefore be included in the Sub-fund's assets.

All collateral the Sub-fund receives for this purpose must comply with the applicable laws and regulations, with respect in particular to liquidity, valuation, the credit-worthiness of securities issuers, correlation, and the risks of collateral management and enforceability. All collateral received must in particular meet the following criteria:

- (a) All collateral must be of high quality, be highly liquid and tradable on a regulated market or on a multilateral trading facility, with transparent pricing to enable the collateral to be rapidly sold near its estimated price
- (b) This collateral must be valued at its mark-to-market price at least daily and assets with highly volatile prices are not acceptable as collateral, unless a sufficiently prudent discount or "haircut" is applied;
- (c) The issuer of this collateral must be independent of the counterparty and must not be closely correlated with the counterparty's financial performance;
- (d) Collateral must be sufficiently diversified in terms of country, market and issuer, with exposure to any single issuer not exceeding 20% of the Sub-fund's net asset value ;
- (e) Collateral must be immediately enforceable by the Sub-fund's management company without informing the counterparty and without its approval.

Notwithstanding the condition specified in (d) above, the Sub-fund may accept a basket of securities collateral that increases its exposure to a single issuer to more than 20% of its net asset value provided that:

such securities collateral is issued by (i) a Member State, (ii) one or more of a Member State's local authorities, (iii) a country that is not a Member State (iv) a public international organisation to which one or more Member States belong; and;

such securities collateral consists of at least six different issues of securities of which no single issue exceeds 30% of the Sub-fund's assets.

In accordance with the above conditions the collateral the Sub-fund accepts may consist of:

- (i) Cash and cash-equivalent assets, which for example include short-term bank deposits and balances and money-market instruments
- (i) Bonds issued or guaranteed by an OECD member state, or by its local government entities, or by an EU, regional or global supranational institution or organisation, or by any country provided that conditions (a) to (e) above are fully complied with
- (ii) Shares or units issued by money-market funds that calculate a daily net asset value and have an AAA or equivalent credit rating
- (iii) The shares or units of UCITS that invest mainly in the bonds and/or equities indicated in (v) and (vi) below
- (iv) Bonds issued or guaranteed by first-class issuers offering sufficient liquidity
- (v) Equities admitted for trading or traded on a regulated exchange of an EU member country, on a stock exchange of an OECD member country or on a stock exchange of another country provided that conditions (a) to (e) above are fully complied with and that these equities are components of a major index.

Collateral discount policy

The Sub-fund's management company shall apply a discount to the collateral the Sub-fund accepts. The amount of these discounts will depend mainly on the following:

- the nature of the collateral asset
- the collateral's maturity (if applicable)
- the credit rating of the collateral issuer (if applicable).

Reinvestment of collateral

Non-cash collateral will not be sold, reinvested or pledged.

At the manager's discretion, cash collateral may either be:

- (i) deposited with an authorised institution
- (ii) invested in high-quality government bonds
- (iii) used for reverse repurchase transactions, provided that these are entered into with credit institutions that are subject to prudential supervision and that the fund is able to withdraw the total amount of its cash collateral and the accrued interest at any time
- (iv) invested in short-term money-market funds as defined in the guidelines for a common definition of European money-market funds.

All cash collateral that is reinvested must be invested in a diversified manner in compliance with the rules that apply to the acceptance of non-cash collateral.

RISK PROFILE

The shareholder's money will be mainly invested in the financial instruments selected by the management company. These instruments are subject to market trends and contingencies.

Shareholders in the Sub-fund will be mainly exposed to the following risks:

- Equity risk

The price of an equity security can increase or decrease in accordance with changes in the issuer's risk exposure or in the economic conditions of the market in which the security is traded. Equity markets are more volatile than fixed-income markets, where it is possible to estimate revenues for a certain period of time under the same macroeconomic conditions.

The Sub-fund has a high equity risk.

Capital risk

The capital invested is not guaranteed. Investors therefore may not recover all or part of their initial investment, particularly in the event that the Benchmark Index posts a negative return over the investment period

- Daily leverage reset risk

Investors are exposed to twice the daily change in the price or level of the Parent Index. They should note in particular that a decline in the underlying market will be amplified and will result a larger decrease in the Sub-fund's net asset value. Since the leverage in the Benchmark Index formula is reset daily the Sub-fund will not return twice as much as the Parent Index over a period of more than one trading day.

For example, if the Parent Index gains 10% on a given trading day and then declines 5% the next trading day, the Sub-fund will have gained of 8% (before fees) over these two days, while the Parent Index will have gained a total of 4.5%.

If the Parent Index loses 5% a day over two consecutive trading days, the Sub-fund will have lost 19% (before fees) over this period while the Parent Index will have lost 9.75%.

Negative scenario 1

The leverage effect is greater than 2 and the Parent Index declines

	Parent Index		Strategy Index		Leverage effect
	Performance day i	Value day i	Performance day i	Value day i	
Day 1		100			100
Day 2	10%	110	20%	120	x2
Total return	-11%	97.9	-22%	93.6	x2
	-2.10%		-6.40%		x3.05

Negative scenario 2

The leverage effect is less than 2 and the Parent Index rises

	Parent Index		Strategy Index		Leverage effect
	Performance day i	Value day i	Performance day i	Value day i	
Day 1		100			100
Day 2	-5%	95	-10%	90	x2
Total return	6%	100.7	12%	100.8	x2
	0.70%		0.80%		x1.14

Furthermore, if the Parent Index is highly volatile over a period of more than one day, the Sub-fund's net asset value may even fall although the Parent Index rises over this period.

Inverse leverage scenario

The leverage effect is negative over the period

	Parent Index		Strategy Index		Leverage effect
	Performance day i	Value day i	Performance day i	Value day i	
Day 1		100			100
	20%	120	40%	140	x2

Day 2	-16%	100.8	-32%	95.2	x2
Total return	0.80%		-4.80%		x-6

- Liquidity risk (primary market)

The Sub-fund's liquidity and/or value may be adversely affected if, when the Sub-fund or a counterparty to a derivative financial instrument (DFI) is rebalancing its exposure, the underlying financial markets are restricted, closed, or subject to large bid/offer spreads. An inability, due to low trading volume, to execute the trades required to replicate the Benchmark Index may also adversely affect the subscription, conversion or redemption of shares.

- Liquidity risk (secondary market)

The Sub-fund's on-exchange price may deviate from its indicative net asset value. The liquidity of the Sub-fund's shares on an exchange may be adversely affected by a suspension of or disruption in market operation, such as one of the following events:

- i) the calculation of the Benchmark Index is suspended or stopped and/or
- ii) the market(s) in the Benchmark Index's underlying assets is (are) suspended, and/or
- iii) a stock exchange cannot obtain or calculate the Sub-fund's indicative net asset value and/or
- iv) a market maker fails to comply with an exchange's rules and/or
- v) an exchange's IT, electronic or other system fails.

- Counterparty risk

The Sub-fund is exposed to the risk that a counterparty with which the Fund has entered into a contract or transaction may go bankrupt or default on a settlement or other obligation. The Fund is in particular exposed to counterparty risk resulting from the use of derivative financial instruments (DFI) traded over the counter with Société Générale or some other counterparty. In compliance with UCITS regulations, exposure to counterparty risk (whether the counterparty is Société Générale or another entity), cannot exceed 10% of the Sub-fund's total assets per counterparty.

If a counterparty defaults on an obligation the DFI contract may be terminated before maturity. The Sub-fund will do everything in its power to achieve its investment objective by, if appropriate, entering into another DFI contract with another counterparty at the market conditions at the time of such an event.

If this counterparty risk materialises it could have an impact on the Sub-fund's ability to achieve its investment objective of replicating the Benchmark Index ».

Where Société Générale acts as the DFI counterparty, conflicts of interest may arise between the Sub-fund's Management Company and the DFI counterparty. The Management Company has procedures to identify and reduce such conflicts of interest and to resolve them equitably if necessary.

Risk that the Sub-fund does not fully achieve its investment objective:

There is no guarantee of achieving the investment objective. There is no guarantee that the investment objective will be achieved, as no asset or financial instrument can ensure that the Benchmark Index will be automatically and continuously replicated, particularly in the event of one or more of the following risks:

- Risk that the investment objective is not fully achieved

There is no guarantee of achieving the investment objective. There is no guarantee that the investment objective will be achieved, as no asset or financial instrument can ensure that the Benchmark Index will be automatically and continuously replicated, particularly in the event of one or more of the following risks:

- Risk of using derivative financial instruments

In order to achieve its investment objective, the Sub-fund may enter into over-the-counter derivative financial instruments ("DFI"), such as swaps, in order to achieve the performance of the Benchmark Index. In order to achieve its investment objective, the Sub-fund may enter into over-the-counter derivative financial instruments ("DFI"), such as swaps, in order to achieve the performance of the Benchmark Index. These DFI involve various risks, such as counterparty risk, hedging disruption, Benchmark Index disruption, taxation risk, regulatory risk, operational risk and liquidity risk. These risks can materially affect a DFI and could lead to an adjustment or even the early termination of the DFI transaction, which could affect the Sub-fund's net asset value.

- Risk of a change in the tax regime

A change in the tax regime of a jurisdiction where the Sub-fund is domiciled, authorised for sale or listed could adversely affect the taxation of investors. In such an event, the Sub-fund manager will not be liable to any investor with respect to any payment that may have to be made to a competent tax authority.

- - Risk of a change in the tax regime of the Fund's underlying assets

A change in a tax regime that applies to the Sub-fund's underlying assets could affect the tax treatment of the Sub-fund. As a result, in case of a discrepancy between the estimated and effective tax treatments applied to the Sub-fund and/or to the Sub-fund's counterparty to the DFI, the Sub-fund's net asset value may be affected.

- Regulatory risk affecting the Fund

In the event of a change in the regulatory regime in a jurisdiction where the Sub-fund is domiciled, authorised for sale or listed, the subscription, conversion or redemption of shares may be adversely affected.

- Regulatory risk affecting the Fund's underlying assets

In the event of a change in the regulations that govern the Sub-fund's underlying assets, the Sub-fund's net asset value and the subscription, conversion or redemption of shares or units may be adversely affected.

- - Benchmark Index disruption risk

If an event adversely affects the Benchmark Index, the Fund manager may be required, in accordance with the applicable laws and regulations, to suspend the subscription and redemption of the Sub-fund's shares. The calculation of the Sub-fund's net asset value could also be adversely affected.

If the Benchmark Index disruption persists, the manager of the Sub-fund will determine the appropriate measures to be carried out, which could have an impact on the Sub-fund's net asset value.

A 'Benchmark Index event' includes but is not limited to the following situations:

- i) the Benchmark Index is deemed to be inaccurate or does not reflect actual market developments
- ii) the Benchmark Index is permanently cancelled by the index provider
- iii) the index provider is unable to indicate the level or value of the Benchmark Index,
- iv) the index provider makes a material change in the formula for or the method of calculating the Benchmark Index (other than a minor modification such as an adjustment to the Benchmark Index's underlying assets or the respective weightings among its components) which the Sub-fund cannot effectively replicate at a reasonable cost.
- v) a Benchmark Index component becomes illiquid because it is no longer traded on a regulated market or because its trading over-the-counter (e.g. bonds) is disrupted
- vi) the Benchmark Index components are exposed to higher transaction costs for execution or settlement/delivery, or to specific tax constraints and these costs are not reflected in the Benchmark Index's performance.

- Corporate action risk

An unforeseen change, by the issuer of a security that is a component of the Benchmark Index, in a planned corporate action that is in contradiction with a previous official announcement on which the Sub-fund based its valuation of the corporate action (and/or on which the Sub-fund's counterparty to a derivative financial instrument or transaction based its valuation of the corporate action) can adversely affect the Sub-fund's net asset value, particularly if the Sub-fund's treatment of the corporate event differs from that of the Benchmark Index.

- Legal risk

The Sub-fund may be exposed to a legal risk arising from a total return swap (TRS) agreement as indicated in EU Regulation 2015/2365.

ELIGIBLE INVESTORS AND TYPICAL INVESTOR PROFILE

This Sub-fund is available to all investors .

Investors in this Sub-fund are seeking exposure with 2x leverage to the performance of the Spanish equities market, whether positive or negative.

The amount that it is reasonable to invest in this Sub-fund depends on each investor's personal situation. To determine this amount, investors must take into account their personal wealth and/or estate, their cash requirements at present and for the next five years, and their willingness to take on risk or adopt a more cautious approach. It is also recommended that investors diversify their investments so that they are not exclusively exposed to this Sub-fund's risks.

All investors are therefore asked to consider their specific situation with the help of their usual investment advisor.

The recommended minimum investment period is at least five years.

CALCULATION AND ALLOCATION OF DISTRIBUTABLE AMOUNTS

SUBSCRIPTION AND REDEMPTION

1. SUBSCRIPTION AND REDEMPTION ON THE PRIMARY MARKET

Orders to subscribe for or redeem shares in the Sub-fund will be processed by the Depositary, from 10.00 am to 5.00 pm (Paris time), every day that the Sub-fund's net asset value is to be published, provided that prices are quoted for a significant proportion of the Benchmark Index components (hereinafter a "**Primary Market Day**", and will be executed at the net asset value on that Primary Market Day (hereinafter the "**reference NAV**"). Subscription/redemption orders submitted after 5.00 pm (Paris time) on a Primary Market Day will be processed as if received from 10.00 am to 5.00 pm (Paris time) on the following Primary Market Day. Orders to subscribe for or redeem shares in the Sub-fund must be made for a whole number of shares that represents at least 100,000 euros.

Subscriptions and redemptions in cash:

Subscriptions and redemptions shall be made exclusively in cash and executed at the ref NAV

Delivery and settlement:

Settlement/delivery of subscriptions and redemptions shall be completed within five French business days upon receipt of the subscription or redemption order.

Date and frequency of net asset value calculation

The net asset value will be calculated and published each day that the Sub-fund's net asset value is to be published, provided that the market on which the Fund's units are traded is open and that orders placed in the primary and secondary markets can be funded.

The Sub-fund's net asset value is calculated using the Benchmark Index's closing price. The net asset value of a share class that is denominated in another currency than the Fund's accounting currency (if applicable) is calculated using the exchange rate between the accounting currency and the currency of the share class, at the applicable WM Reuters rate on the date the reference NAV is calculated.

2. PURCHASES AND SALES ON THE SECONDARY MARKET

A. COMMON PROVISIONS

Purchases and sales of Sub-fund shares made directly on an exchange on which the Sub-fund is or will be listed and continuously traded will be subject to no minimum purchase/sale requirements other than those of the relevant exchange(s).

Shares in a listed sub-fund that are purchased on the secondary market cannot generally be directly sold back to that sub-fund. Investors must therefore buy and sell their shares on a secondary market through an intermediary (e.g. a broker) and may consequently incur costs. It is also possible that investors may pay more than the indicative net asset value when buying shares and receive less than the indicative net asset value when selling shares.

If the stock market value of a listed fund's shares or units differs significantly from their indicative net asset value, or if trading in the fund's share or units is suspended, subject to the conditions set forth below, investors may be allowed to redeem their shares on the primary market directly from the fund, without being subject to the minimum redemption amount requirement set forth herein in the section SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)".

The management company shall decide whether to allow such primary market redemptions and for how long, on the basis of the following criteria for assessing the significance of a market disruption:

- The suspension or strong disturbance of secondary trading on a given exchange is relatively frequent.
- The link between the market disruption and secondary market operators (such as the default of one or more of the Market Makers of a given exchange, or a breakdown or malfunction of an exchange's IT or operating systems), excluding a disruption caused by a source external to the secondary exchange on which the Sub-fund's shares are traded, such as an event that affects the liquidity and valuation of all or some of the Benchmark Index's components
- Any other objective circumstance that could adversely affect the fair treatment and/or the interests of the Sub-fund's shareholders.

Notwithstanding the provisions concerning fees presented in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)", redemptions made in the primary market in this case shall only be subject to a net redemption fee of 1% paid to the Sub-fund and which serves to cover its trading costs.

In such exceptional cases when redemption in the primary market is allowed, the management company will post on Lyxor's website at www.lyxor.etf.com the procedure that investors must observe to redeem their shares in the primary market. The Management Company shall also make this procedure available to the market undertaking that handles trading in the Sub-fund's shares.

B SPECIAL PROVISIONS

- a) **If the Sub-fund's shares are listed on Euronext Paris (as indicated in the "Key Information" section) investors should note the following rules**

Negotiability of shares and information about the financial institutions acting as Market Makers

The shares shall be freely negotiable on the Euronext Paris regulated market subject to the following conditions and the applicable laws and regulations.

The Sub-fund shares will be listed on a specific trading list, the rules of which are defined in the following instructions published by Euronext Paris SA:

- Instruction No. 4-01 "Universal Trading Platform Manual"
- Appendix to Instruction N4-01 (Appendix to the Euronext Market Trading Manual)
- Instruction No. 6-04 "Documentation to be provided when filing a listing application for an ETF, ETN, ETV and open-ended undertakings for collective investment other than ETFS"

Pursuant to article D 214-22-1 of the French monetary and financial code the units or shares of undertakings for collective investments in transferable securities may be admitted to trading, provided that these undertakings have a system to ensure that the market price of their units or shares does not differ significantly from their net asset value. Under Euronext Paris' rules trading in the Sub-fund's shares is also subject to a 'reservation threshold' of 1.5% above or below the Sub-fund's Indicative Net Asset value or "iNAV" (see the "Indicative Net Asset Value" section), as published by Euronext Paris SA and updated on an estimated basis during trading in accordance with the change in the Benchmark Index.

To comply with Euronext Paris SA's reservation thresholds (see the "Indicative Net Asset Value" section) the Market Makers will ensure that the market price of the Sub-fund's units does not differ from the Sub-fund's indicative net asset value by more than 1.5%.

Euronext Paris SA may suspend trading in the Sub-fund's shares pursuant to the terms of its operating rules, if the aforementioned reservation threshold limit is exceeded.

Euronext Paris SA will also suspend trading in the Sub-fund's shares in the following cases:

- the Benchmark Index is no longer traded or calculated
- Euronext Paris SA cannot obtain the Benchmark Index's level
- Euronext Paris SA cannot obtain the Sub-fund's net asset value.

In accordance with the terms and conditions governing admission to trading on Euronext Paris, the Market Makers undertake to provide market-making services for the Sub-fund's shares as soon as they are admitted to trading on the Euronext Paris exchange.

In particular, the Market Makers undertake to carry out market-making operations by maintaining a significant presence in the market, which initially entails the setting of a bid/ask spread.

More specifically, the Market Makers are required by contract with Euronext Paris SA to ensure that the Sub-fund maintains:

- a maximum overall spread of 2% between the bid and ask price in the centralised order book.
- a minimum nominal trading value of EUR 100,000.

The obligations of the Sub-fund's Market Makers will be suspended in the following cases:

- the Benchmark Index is no longer traded or calculated
- If trading is substantially disrupted, for example due to a widespread shift in prices or an event that makes normal market making impossible.

Indicative net asset value

Euronext Paris SA will calculate and publish the Sub-fund's indicative net asset value (hereinafter the "iNAV") during trading hours every Trading Day (as defined below) (hereinafter the "iNAV"). The iNAV is a measure of the intra-day value of the Sub-fund's net asset value based on the most recent data. The iNAV is not the value at which investors buy and sell shares in the Sub-fund on the secondary market.

A ("Trading Day") is a day on which Euronext is normally open and on which the Benchmark Index is normally published.

The Sub-fund's iNAV is a theoretical net asset value calculated every 15 seconds by Euronext SA throughout the Paris trading day and is based on the level of the Benchmark Index. The iNAV enables investors to compare the prices that the Market Makers offer on the market with the theoretical value calculated by Euronext.

The iNAV will be calculated every day that the net asset value is calculated and published.

For the calculation of the Sub-fund's iNAV during the Paris trading session (from 9.05 am to 5.35 pm), Euronext Paris SA will use the Benchmark Index value provided by Reuters.

If one or more stock exchanges on which the Benchmark Index's constituent equities are listed are closed (on a public holiday as indicated on the TARGET calendar) and if the calculation of the iNAV proves impossible, trading in the Sub-fund's shares may be suspended.

Lyxor International Asset Management, the Sub-fund's management company, will provide Euronext Paris SA with all the financial and accounting data it needs to calculate the Sub-fund's iNAV and in particular:

- The day's estimated net asset value
- The official net asset value of the previous business day
- The level of the Benchmark Index on the previous business day.

These data will serve as a basis for Euronext Paris SA's calculations to determine the Sub-fund's iNAV in real time every Trading Day.

Additional information about the indicative net asset value of a share listed on a regulated market may, depending on the terms and limits set by the relevant market undertaking, be provided on the website of the exchange where the share is listed. This information is also available on the Reuters or Bloomberg pages dedicated to the particular share. Additional information about Bloomberg and Reuters codes corresponding to the indicative net asset value of UCITS ETF type shares is also available in the "Term Sheets" section of Lyxor's website at www.lyxoretf.com.

b) If the Sub-fund's shares are listed on an exchange other than Euronext Paris (as indicated in the "Key Information" section) investors should note the following

Investors wishing to acquire shares in the Sub-fund or obtain more information regarding the market-making terms that govern the listing and trading of shares on the types of exchanges indicated in the "Key Information" section are advised to familiarise themselves with the guidelines laid down by the relevant market undertaking in compliance with local regulations, and to seek if necessary the assistance of their usual broker(s) for executing trades on the relevant exchange(s).

FEES AND CHARGES

SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)

Subscription and redemption fees increase the subscription price paid by investors and reduce the redemption price. Fees kept by the Sub-fund compensate it for the expenses it incurs in investing in the Sub-fund's assets or in divesting these assets. Any fees that are not kept by the Fund are paid to the management company, marketing agent or other service provider.

Fees paid by investors upon subscription or redemption	Base	Maximum charge
Subscription fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per subscription order or 5%, payable to third parties
Subscription fee kept by the Sub-fund	NAV per share x number of shares	N/A
Redemption fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per redemption order or 5%, payable to third parties
Redemption fee kept by the Sub-fund	NAV per share x number of shares	N/A

No subscription or redemption fee will be charged for any purchase or sale of Sub-fund shares on an exchange where the Fund is listed.

OPERATING AND MANAGEMENT FEES

These fees cover all the costs invoiced directly to the Fund, except for transaction expenses, which include intermediary fees (brokerage, stock market taxes etc.) and any account activity fee that may be charged by the depositary or the management company.

For this Sub-fund the following fees may be charged in addition to the operating and management fees (see table below):

- Incentive fees, which the Sub-fund pays to the management company when the Sub-fund exceeds its objectives
- Account activity fees charged to the Sub-fund.

For more information on the fees or expenses that are charged to the Sub-fund, see the Statistics section of the Key Investor Information Document (KIID).

Fees charged to the Sub-fund	Base	Maximum charge
Investment management fees and administration fees that are external to the management company ⁽¹⁾	Net asset value	0.40% annual
Maximum indirect expenses (management expenses and fees)	Net asset value	N/A
Account activity fee	Charged on each transaction	N/A
Incentive fee	Net asset value	N/A

(1) Includes all fees and expenses except for transaction expenses, incentive fees and fees associated with investment in UCITS.

COMMERCIAL INFORMATION

Distribution of this prospectus and the offer or purchase of the Fund share classes may be subject to restrictions with regard to certain persons or in certain countries by virtue of national regulations applying to such persons or such countries. Each investor is therefore responsible for ensuring that he or she is authorised to subscribe to or invest in this Fund. As a result, the information contained in this prospectus cannot be understood as constituting an offer or solicitation to buy or sell shares in this Fund in a country where such offer or solicitation is unlawful.

The Fund's share classes will not be registered pursuant to the US Securities Act of 1933, as amended (the "US Securities Act") and cannot be offered, assigned, transferred or allocated to the United States of America, or to:

- (A) any "US Person", as this term is defined (i) under Regulation S of the US Securities Act of 1933 and (ii) under US regulations as defined in Section 7701 (a) (30) of the Internal Revenue Code of 1986 as amended. The Sub-fund's shares will not be offered to US Persons.
- (B) anyone other than those persons considered to be "non-US Persons" as this term is defined under US regulations pursuant to the Commodity Futures Trading Commission, Rule 4.7 (a) (1) (iv).

The Sub-fund's shares will only be offered for sale outside of the United States of America to non-US Persons.

For the purpose of this document, the term "US Person" shall mean, among other things, any individual who resides in the United States of America, any entity organised or formed under the laws of the United States of America, certain entities organised or formed outside of the United States of America by one or more US persons, or any account held on behalf of such a US person.

Before making an investment in this Fund or Sub-fund, investors should seek the advice of their financial, tax and legal advisers.

PLACE AND METHOD OF NET ASSET VALUE PUBLICATION OR COMMUNICATION

At the head office of LYXOR INTERNATIONAL ASSET MANAGEMENT, at 17, cours Valmy - 92987 Paris La Défense CEDEX - France.

The Sub-fund's net asset value will be calculated and published every Trading Day.

IMPORTANT INFORMATION ABOUT THE BENCHMARK INDEX PROVIDER

Sociedad de Bolsa provides no warranty of any sort, either express or implied, regarding the results that may be obtained from using the Sociedad de Bolsa index. Sociedad de Bolsa disclaims any liability of any kind (for negligence or for any other reason) for any error that may affect the index, irrespective of the parties involved, and shall have no obligation to inform any party of such an error.

The LYXOR IBEX 35 DOBLE APALANCADO DIARIO UCITS ETF fund is in no way sponsored, promoted nor marketed by Sociedad de Bolsa.

ADDITIONAL INFORMATION

The Sub-fund's shares are admitted to trading by Euroclear France S.A.

Subscription and redemption orders are sent by investors' financial intermediaries (members of Euroclear France S.A.) to the Depositary.

The Sub-fund's prospectus, the Key Investor Information Document, the most recent annual documents and the asset inventory will be sent to investors within eight business days upon receipt of a written request addressed to:

LYXOR INTERNATIONAL ASSET MANAGEMENT
17, cours Valmy - 92987 Paris La Défense Cedex - FRANCE.
e-mail: contact@lyxor.com

More information can also be requested from Lyxor International Asset Management on its website at www.lyxor.fr.

Prospectus publication date: see the "Publication Date" section.

Pursuant to Article L.533-22-1 of the French monetary and financial code, information concerning the Management Company's possible inclusion of social, environmental and corporate governance objectives and performance criteria in its investment policy is available on the management company's website and in the Multi Units France annual report.

The AMF's website (www.amf-france.org) provides additional information on the list of regulatory documents and on all provisions relating to investor protection.

This Prospectus must be made available to investors prior to subscription.

INVESTMENT RULES

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

The Sub-fund may invest in the assets indicated in Article L214-20 of the French monetary and financial code, subject to the risk-diversification and investment ratio requirements of Articles R214-21 to R214-27 of said code.

Notwithstanding the 10% limit under Paragraph II of Article R214-21 of the French monetary and financial code, the Sub-fund may invest up to 20% of its assets in the equities and debt securities of a single issuer, in compliance with Article R214-22-I, which deals with index-tracking funds. Pursuant to Article R214-22 II, the Sub-fund may also increase this 20% limit for a single issuer to 35%, when this is shown to be justified by exceptional market conditions, and in particular when certain securities are largely dominant.

OVERALL RISK EXPOSURE

The commitment approach is used to calculate the overall risk exposure.

ASSET VALUATION AND ACCOUNTING RULES

A. VALUATION RULES

The Sub-fund's assets are valued in accordance with applicable laws and regulations and most notably Regulation NO. 2014-01 of 14 January 2014 of the Comité de la Réglementation Comptable (the Accounting Regulations Committee), which applies to the chart of accounts for UCITS investment funds.

Financial instruments traded on a regulated market are valued at the closing price recorded on the day prior to the calculation of the net asset value. If these financial instruments are traded on several regulated markets at the same time, the closing price used is that recorded on the regulated market on which they are principally traded.

However, in the absence of significant trading on a regulated market, the following financial instruments are valued using the following methods:

- Negotiable debt securities ("NDS") with a remaining life upon acquisition that is less than or equal to three months are valued by applying the difference between the acquisition value and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc.). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
 - NDS with a remaining life of more than three months upon acquisition but less than or equal to three months at the net asset value calculation date are valued by applying the difference between the most recent valuation and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc.). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
 - NDS with a remaining life at the net asset value calculation date that exceeds three months are valued at their current value. The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
 - Financial futures traded on organised markets are valued at the clearing price on the day prior to the calculation of the net asset value. Options traded on organised markets are valued at their market price on the day prior to the calculation of the net asset value. Forward contracts and over-the-counter options are valued at the price quoted by the counterparty. The management company monitors these prices independently.
 - Bank deposits are valued at their nominal value plus accrued interest.
 - Warrants, short and medium-term notes (bons de caisse), promissory notes and mortgage notes are valued under the management company's responsibility at their most likely trading value.
 - Securities financing transactions are valued at the market price.
- Shares and units in UCITS under French law are valued at the last known net asset value on the day the Sub-fund's net asset value is calculated.
Shares and units in foreign investment funds are valued at the last known net asset value at the date the Sub-fund's net asset value is calculated.
- Financial instruments traded on a regulated market and for which no price has been quoted or whose price has been corrected, are valued under the management company's responsibility at their most likely trading value.
 - The exchange rates used to value financial instruments denominated in a currency other than the Sub-fund's base currency are the WM Reuters fixing rates published on the day the Sub-fund's net asset value is calculated.

B. ACCOUNTING METHOD FOR TRADING EXPENSES

Trading expenses are included in the initial cost of the transaction.

C. ACCOUNTING METHOD FOR INCOME FROM FIXED-INCOME SECURITIES

Income from fixed-income securities is accounted for using the cash-basis method.

D. DISTRIBUTION POLICY

For more information see the section entitled "Calculation and Allocation of Distributable amounts".

E. ACCOUNTING CURRENCY

The Sub-fund's accounts are kept in euros.

SUB-FUND NO. 35: LYXOR IBEX 35 DOBLE INVERSO DIARIO UCITS ETF

A SICAV SUB-FUND COMPLIANT WITH DIRECTIVE 2009/65/EC

ISIN CODE

Acc share class: FR0011036268

The Lyxor Ibex 35 Doble Inverso Diario UCITS ETF sub-fund (the “**Sub-fund**”) is a UCITS ETF strategy index tracker.

INCEPTION DATE

This sub-fund was approved by l’Autorité des Marchés Financiers on 15/02/2018 and was created on 19 April 2018.

INVESTMENT OBJECTIVE

The Sub-fund's investment objective is to give inverse exposure with daily 2x leverage (positive or negative) to the Spanish equity market, by replicating the performance of the IBEX 35 ® DOBLE INVERSO strategy index (the "**Benchmark Index**"), denominated in euros (EUR), whether positive or negative, while minimising the tracking error between the Sub-fund's performance and that of its Benchmark Index

The expected ex-post tracking error under normal market conditions is 0.15%.

BENCHMARK INDEX

The Benchmark Index is the IBEX 35 ® DOBLE INVERSO TOTAL RETURN strategy index, with gross US dollars.

The Benchmark Index is an equity strategy index that is calculated, maintained and published by Sociedad de Bolsas. The Benchmark Index provides inverse exposure with daily 2x leverage to increases and decreases in the IBEX 35® index (the "**Parent Index**"). Accordingly, if the Parent Index rises by a given amount on a given trading day, the Fund's net asset value will decrease by twice that amount that day, and shareholders will not profit from the increase in the Parent Index.

The Parent Index is the main benchmark index of the Madrid stock exchange and is composed of the 35 most actively traded stocks in the Spanish market.

The Parent Index is weighted by float-adjusted market capitalisation.

A full description of the Benchmark Index and its construction methodology, and information on the composition and respective weightings of the Benchmark Index components, are available on the Internet at <http://www.bolsamadrid.es/ing/aspx/Indices/Resumen.aspx>.

The performance tracked is that of the Benchmark Index's closing price in euros

Benchmark Index publication

The Benchmark Index is calculated daily at the official closing price of the exchanges where the index constituents are listed.

The Benchmark Index is also calculated in real time every day that the Benchmark Index is published.

Real-time Benchmark Index values are available via Bloomberg and Reuters.

Reuters code: IBEXDS

Bloomberg code: IBEXDS

The closing price of the Benchmark Index is available on the Internet at <http://www.bolsamadrid.es/ing/aspx/Indices/Resumen.aspx>

Pursuant to Article 52 of European Parliament and Council Regulation 2016/1011 of 8 June 2016, Sociedad de Bolsas, the administrator of the Ibex 35® Doble Inverso benchmark index, has until 1 January 2020 to apply for approval or registration as applicable.

As of the date of the most recent version of this prospectus, the benchmark index administrator was not yet listed in ESMA's register of benchmark administrators.

Pursuant to European Parliament and Council Regulation 2016/1011 of 8 June 2016, the asset management company has a procedure for monitoring the benchmark indices used that specifies the measures to be implemented if an index is substantially modified or is no longer provided.

Benchmark Index composition and revision

The revision of the Benchmark Index's composition is dependent on the composition of the Parent Index.

The Parent Index is revised every six months.

The double inverse leverage factor used in calculating the Benchmark Index is reset daily. The consequences of this daily resetting are explained in the Benchmark Index and Risk Profile sections of this prospectus.

The frequency of this rebalancing does not affect the cost of implementing the Investment Strategy.

The exact composition of the Benchmark Index and the rules for its revision are available on the Internet at <http://www.bolsamadrid.es/ing/aspx/Indices/Resumen.aspx>

INVESTMENT STRATEGY

1. Strategy employed

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund will employ an indirect replication method, which involves entering into one or more OTC swap contracts to achieve its investment objective. These swap contracts will serve to exchange the value of the Sub-fund's assets, which will consist of cash and/or balance sheet assets (excluding any securities received as collateral), for the value of the securities that underlie the Benchmark Index.

The Securities in the Sub-fund's portfolio may include those that make up the Parent Index, as well as other international equities across all economic sectors and listed on all exchanges including small-cap exchanges.

The basket of securities held may be adjusted daily such that its value will generally be at least 100% of the net assets. When necessary, this adjustment will aim to neutralise the counterparty risk arising from the aforementioned swap contract.

Information on the updated composition of the basket of ‘balance sheet’ assets in the Sub-fund’s portfolio and the value of the swap contract concluded by the Sub-fund is available on the page dedicated to the Sub-fund on Lyxor’s website at www.lyxoretf.com. The frequency of any updates and/or the date on which the aforementioned information is updated is also indicated on the same page of the aforementioned website.

In managing its exposure, no more than 20% of the Sub-fund’s assets may be exposed to the equities of a given issuer. This 20% limit may be increased to 35% for a single issuing entity when this is shown to be justified by exceptional market conditions, in particular when certain securities are largely dominant and/or in the event of strong volatility affecting a financial instrument or securities linked to an economic sector represented in the Benchmark Index. This could be the case, for example, in the event of a public offering affecting any of the securities that make up the Benchmark Index or in the event of a significant restriction of liquidity affecting one or more financial instruments in the Benchmark Index.

2. Balance sheet assets (excluding embedded derivatives)

In accordance with regulatory ratios, the Sub-fund’s portfolio may include global equities across all economic sectors and listed on any exchange, including “small-cap” exchanges.

The aforementioned equities will be selected on the basis of the following:

- eligibility criteria, in particular:
 - their inclusion in a major stock exchange index or in the Benchmark Index
 - liquidity (must exceed a minimum daily trading volume and market capitalisation)
 - credit rating of the country where the issuer has its registered office (must have a least a minimum S&P or equivalent rating)
- diversification criteria, in particular regarding:
 - the issuer (application of investment ratios to assets that qualify for UCITS, pursuant to Art. R214-21 of the French monetary and financial code)
 - geography
 - sector

Investors may find more information on the above eligibility and diversification criteria, and in particular the list of eligible indices, on Lyxor’s website at www.lyxoretf.com

Investment in undertakings for collective investment in transferrable securities (“UCITS”) that comply with Directive 2009/65/EC is limited to 10% of the Sub-fund’s net assets.

The fund manager will not invest in the shares or units of alternative investment funds (AIF) or other investment funds that were formed under a foreign law. When the Sub-fund receives collateral in the form of securities, subject to the terms of section 8 below, it acquires full title to these securities and they are therefore included among the balance sheet assets to which it has full title.

In respect of these investments, the Sub-fund may invest in the units or shares of UCITS managed by the management company or by a company that is related to the management company.

To optimise the Sub-fund’s management, the manager reserves the right to use other instruments in accordance with the applicable regulations in order to achieve its investment objective.

3. Off-balance sheet assets (derivatives)

The Sub-fund will use OTC index-linked swaps that swap the value of the Sub-fund’s assets (or of any other financial instrument or asset the Fund may hold) for the value of the Benchmark Index (as described in part 1 of this section).

To optimise the Sub-fund’s management, the manager reserves the right to use other instruments in accordance with the applicable regulations in order to achieve its investment objective, such as derivatives other than index-linked swaps.

In accordance with its best execution policy, the management company considers that Société Générale is the counterparty that is generally able to obtain the best possible execution for these derivative financial instruments. Accordingly, these derivative financial instruments (including index-linked swaps) may be traded via Société Générale without having to seek a competitive bid from another counterparty.

The counterparty of the derivative financial instruments referred to above (the “**Counterparty**”) will have no discretionary power over the composition of the Fund’s portfolio nor over the underlying assets of the derivative financial instruments.

- Maximum proportion of assets under management for which total return swaps may be entered into: 100% of assets under management.
- Expected proportion of assets under management for which total return swaps may be entered into: up to 100%.

4. Securities with embedded derivatives

N/A.

5. Cash deposits

In order to optimise its cash management, the Sub-fund may deposit funds representing up to 20% of its net assets with lending institutions that belong to the same group as the depositary/custodian.

6. Cash borrowing

The Fund may temporarily borrow up to 10% of its net assets.

7. Securities financing transactions

N/A. The manager will not engage in any securities financing transactions.

8. Collateral

Whenever the investment strategy exposes to the Sub-fund to counterparty risk, and in particular when the Sub-fund uses over-the-counter swaps, the Sub-fund may accept eligible securities as collateral to reduce the counterparty risk associated with these swaps. The portfolio of collateral received may be adjusted daily to ensure

that its value is at least sufficient to cover the Sub-fund's counterparty risk in most cases. The purpose of this adjustment is to neutralise the Sub-fund's counterparty risk.

The Sub-fund will have full title to all collateral received, which will be deposited in the Sub-fund's account with the depositary. This collateral will therefore be included in the Sub-fund's assets.

All collateral the Sub-fund receives for this purpose must comply with the applicable laws and regulations, with respect in particular to liquidity, valuation, the credit-worthiness of securities issuers, correlation, and the risks of collateral management and enforceability. All collateral received must in particular meet the following criteria:

- (a) All collateral must be of high quality, be highly liquid and tradable on a regulated market or on a multilateral trading facility, with transparent pricing to enable the collateral to be rapidly sold near its estimated price
- (b) This collateral must be valued at its mark-to-market price at least daily and assets with highly volatile prices are not acceptable as collateral, unless a sufficiently prudent discount or "haircut" is applied;
- (c) The issuer of this collateral must be independent of the counterparty and must not be closely correlated with the counterparty's financial performance;
- (d) Collateral must be sufficiently diversified in terms of country, market and issuer, with exposure to any single issuer not exceeding 20% of the Sub-fund's net asset value ;
- (e) Collateral must be immediately enforceable by the Sub-fund's management company without informing the counterparty and without its approval.

Notwithstanding the condition specified in (d) above, the Sub-fund may accept a basket of securities collateral that increases its exposure to a single issuer to more than 20% of its net asset value provided that:

such securities collateral is issued by (i) a Member State, (ii) one or more of a Member State's local authorities, (iii) a country that is not a Member State (iv) a public international organisation to which one or more Member States belong; and;
such securities collateral consists of at least six different issues of securities of which no single issue exceeds 30% of the Sub-fund's assets.

In accordance with the above conditions the collateral the Sub-fund accepts may consist of:

- (i) Cash and cash-equivalent assets, which for example include short-term bank deposits and balances and money-market instruments
- (ii) Bonds issued or guaranteed by an OECD member state, or by its local government entities, or by an EU, regional or global supranational institution or organisation, or by any country provided that conditions (a) to (e) above are fully complied with
- (iii) Shares or units issued by money-market funds that calculate a daily net asset value and have an AAA or equivalent credit rating
- (iv) The shares or units of UCITS that invest mainly in the bonds and/or equities indicated in (v) and (vi) below
- (v) Bonds issued or guaranteed by first-class issuers offering sufficient liquidity
- (vi) Equities admitted for trading or traded on a regulated exchange of an EU member country, on a stock exchange of an OECD member country or on a stock exchange of another country provided that conditions (a) to (e) above are fully complied with and that these equities are components of a major index.

Collateral discount policy

The Sub-fund's management company shall apply a discount to the collateral the Sub-fund accepts. The amount of these discounts will depend mainly on the following:

- the nature of the collateral asset
- the collateral's maturity (if applicable)
- the credit rating of the collateral issuer (if applicable).

Reinvestment of collateral

Non-cash collateral will not be sold, reinvested or pledged.

At the manager's discretion, cash collateral may either be:

- (i) deposited with an authorised institution
- (i) invested in high-quality government bonds
- (ii) used for reverse repurchase transactions, provided that these are entered into with credit institutions that are subject to prudential supervision and that the fund is able to withdraw the total amount of its cash collateral and the accrued interest at any time
- (iii) invested in short-term money-market funds as defined in the guidelines for a common definition of European money-market funds.

All cash collateral that is reinvested must be invested in a diversified manner in compliance with the rules that apply to the acceptance of non-cash collateral.

RISK PROFILE

The shareholder's money will be mainly invested in the financial instruments selected by the management company. These instruments are subject to market trends and contingencies.

Shareholders in the Sub-fund will be mainly exposed to the following risks:

- Equity risk

The price of an equity security can increase or decrease in accordance with changes in the issuer's risk exposure or in the economic conditions of the market in which the security is traded. Equity markets are more volatile than fixed-income markets, where it is possible to estimate revenues for a certain period of time under the same macroeconomic conditions.

Capital risk

The capital invested is not guaranteed. Investors therefore may not recover all or part of their initial investment, particularly in the event that the Benchmark Index posts a negative return over the investment period

- Liquidity risk (primary market)

The Sub-fund's liquidity and/or value may be adversely affected if, when the Sub-fund or a counterparty to a derivative financial instrument (DFI) is rebalancing its exposure, the underlying financial markets are restricted, closed, or subject to large bid/offer spreads. An inability, due to low trading volume, to execute the trades required to replicate the Benchmark Index may also adversely affect the subscription, conversion or redemption of shares.

- Liquidity risk (secondary market)

The Sub-fund's on-exchange price may deviate from its indicative net asset value. The liquidity of the Sub-fund's shares on an exchange may be adversely affected by a suspension of or disruption in market operation, such as one of the following events:

- i) the calculation of the Benchmark Index is suspended or stopped and/or
- ii) the market(s) in the Benchmark Index's underlying assets is (are) suspended, and/or
- iii) a stock exchange cannot obtain or calculate the Sub-fund's indicative net asset value and/or
- iv) a market maker fails to comply with an exchange's rules and/or
- v) an exchange's IT, electronic or other system fails.

- Counterparty risk

The Sub-fund is exposed to the risk that a counterparty with which the Fund has entered into a contract or transaction may go bankrupt or default on a settlement or other obligation. The Fund is mainly exposed to counterparty risk resulting from the use of derivative financial instruments (DFI) traded over the counter with Société Générale or some other counterparty. In compliance with UCITS regulations, exposure to counterparty risk (whether the counterparty is Société Générale or another entity), cannot exceed 10% of the Sub-fund's total assets per counterparty.

If a counterparty defaults on an obligation the DFI contract may be terminated before maturity. The Sub-fund will do everything in its power to achieve its investment objective by, if appropriate, entering into another DFI contract with another counterparty at the market conditions at the time of such an event.

If this counterparty risk materialises it could have an impact on the Sub-fund's ability to achieve its investment objective of replicating the Benchmark Index.

Where Société Générale acts as the DFI counterparty, conflicts of interest may arise between the Sub-fund's Management Company and the DFI counterparty. The Management Company has procedures to identify and reduce such conflicts of interest and to resolve them equitably if necessary.

- Daily leverage reset risk

Investors are inversely exposed to two times the daily change in the price or level of the Parent Index. In particular, any appreciation of the underlying market will be inversely amplified and will result a sharper depreciation of the Sub-fund's net asset value. The daily leverage reset in the underlying "double short" strategy index formula means that the Sub-fund's performance will not be equivalent to two times the inverse performance of the Parent Index for holding periods greater than one business day.

For example, if the Parent Index gains 10% on a given business day and then loses 5% the following business day, the Sub-fund will decline a total of 12% (before deduction of relevant fees) over the two business days, while the Parent Index will have gained 4.5% over this period.

If the Parent Index declines 5% per day over two consecutive business days, the Sub-fund will gain a total of 21% (before deduction of relevant fees), while the Parent Index will have lost 9.75% over this period.

Negative scenario 1

The Parent Index rises and the leverage effect is negative is greater than 2

	Parent Index		Benchmark Index		Leverage effect
	Performance day i	Value day i	Performance day i	Value day i	
Day 1		100			100
Day 2	10%	110	-20%	80	x-2
	-5%	104.5	10%	88	x-2
Total return		4.50%		-12.00%	x-2,67

Negative scenario 2

The Parent Index falls and the leverage effect is negative is less than 2

	Parent Index		Benchmark Index		Leverage effect
	Performance day i	Value day i	Performance day i	Value day i	
Day 1		100			100
Day 2	-10%	90	20%	120	x-2
	6%	95.4	-12%	105.6	x-2
Total return		-4.60%		5.60%	x-1,22

Furthermore, if the Parent Index is highly volatile over a period of more than one day, the Fund's net asset value may decline over this period even though the Parent Index has also declined.

Inverse leverage scenario	The leverage effect is positive over the period				
	Parent Index		Benchmark Index		Leverage effect
	Performance day i	Value day i	Performance day i	Value day i	
Day 1		100		100	100
Day 2	5%	105	-10%	90	x-2
Total return	-5%	99.75	10%	99	x-2
			-0.25%	-1.00%	x4

- Risk that the Sub-fund does not fully achieve its investment objective:

There is no guarantee that the investment objective will be achieved, as no asset or financial instrument can ensure that the Benchmark Index will be automatically and continuously replicated, particularly in the event of one or more of the following risks:

- Risk of using derivative financial instruments

In order to achieve its investment objective and secure the performance of the Benchmark Index, the Sub-fund can enter into over-the-counter derivative financial instruments ("DFI"), such as swaps. These DFI involve various risks, such as counterparty risk, hedging disruption, Benchmark Index disruption, taxation risk, regulatory risk, operational risk and liquidity risk. These risks can materially affect a DFI and could lead to an adjustment or even the early termination of the DFI transaction, which could affect the Sub-fund's net asset value.

- Risk of a change in the tax regime

A change in the tax regime of a jurisdiction where the Sub-fund is domiciled, authorised for sale or listed could adversely affect the taxation of investors. In such an event, the Sub-fund manager will not be liable to any investor with respect to any payment that may have to be made to a competent tax authority.

- Risk of a change in the tax regime of the Fund's underlying assets

A change in a tax regime that applies to the Sub-fund's underlying assets could affect the tax treatment of the Sub-fund. As a result, in case of a discrepancy between the estimated and effective tax treatments applied to the Sub-fund and/or to the Sub-fund's counterparty to the DFI, the Sub-fund's net asset value may be affected.

- Regulatory risk affecting the Fund

In the event of a change in the regulatory regime in a jurisdiction where the Sub-fund is domiciled, authorised for sale or listed, the subscription, conversion or redemption of shares may be adversely affected.

- Regulatory risk affecting the Fund's underlying assets

In the event of a change in the regulations that govern the Sub-fund's underlying assets, the Sub-fund's net asset value and the subscription, conversion or redemption of shares or units may be adversely affected.

- Benchmark Index disruption risk

If an event adversely affects the Benchmark Index, the Fund manager may be required, in accordance with the applicable laws and regulations, to suspend the subscription and redemption of the Sub-fund's shares. The calculation of the Sub-fund's net asset value could also be adversely affected.

If the Benchmark Index disruption persists, the manager of the Sub-fund will determine the appropriate measures to be carried out, which could have an impact on the Sub-fund's net asset value.

A 'Benchmark Index event' includes but is not limited to the following situations:

- i) the Benchmark Index is deemed to be inaccurate or does not reflect actual market developments
- ii) the Benchmark Index is permanently cancelled by the index provider
- iii) the index provider is unable to indicate the level or value of the Benchmark Index
- iv) the index provider makes a material change in the formula for or the method of calculating the Benchmark Index (other than a minor modification such as an adjustment to the Benchmark Index's underlying assets or the respective weightings among its components) which the Sub-fund cannot effectively replicate at a reasonable cost.
- v) a Benchmark Index component becomes illiquid because it is no longer traded on a regulated market or because its trading over-the-counter (e.g. bonds) is disrupted
- vi) the Benchmark Index components are exposed to higher transaction costs for execution or settlement/delivery, or to specific tax constraints and these costs are not reflected in the Benchmark Index's performance.

- Corporate action risk

An unforeseen change, by the issuer of a security that is a component of the Benchmark Index, in a planned corporate action that is in contradiction with a previous official announcement on which the Sub-fund based its valuation of the corporate action (and/or on which the Sub-fund's counterparty to a derivative financial instrument or transaction based its valuation of the corporate action) can adversely affect the Sub-fund's net asset value, particularly if the Sub-fund's treatment of the corporate event differs from that of the Benchmark Index.

- Legal risk

The Sub-fund may be exposed to a legal risk arising from a total return swap (TRS) agreement as indicated in EU Regulation No. 2015/2365.

ELIGIBLE INVESTORS AND TYPICAL INVESTOR PROFILE

This Sub-fund is available to all investors .

Investors in this Sub-fund are seeking inverse exposure (positive or negative), with x2 leverage, to the Spanish equity market.

The amount that it is reasonable to invest in this Sub-fund depends on each investor's personal situation. To determine this amount, investors must take into account their personal wealth and/or estate, their cash requirements currently and for the next five years, and their willingness to take on risk or their preference for more prudent investment. It is also recommended that investors diversify their investments so that they are not exclusively exposed to this Sub-fund's risks.

All investors are therefore asked to consider their specific situation with the help of their usual investment advisor.

Given the speculative nature of this Sub-fund it may not be suitable for investors with a medium to long-term investment horizon

CALCULATION AND ALLOCATION OF DISTRIBUTABLE AMOUNTS

Acc share class: all distributable amounts are accumulated

DISTRIBUTION FREQUENCY

If distribution is decided, The management company reserves the right to distribute distributable amounts in one or more annual distributions.

SHARE CHARACTERISTICS

The Acc class shares will be issued at a price that is equivalent to the net asset value of the corresponding absorbed unit class on the day the Ibex 35 Doble Inverso Dario UCITS ETF is merged.

Subscription orders may be placed for a specific monetary amount or for a whole number of shares.

Redemptions will be made in whole numbers of shares.

UNIT CURRENCY

	Acc share class
Currency	Euros

SUBSCRIPTION AND REDEMPTION

1. SUBSCRIPTION AND REDEMPTION ON THE PRIMARY MARKET

Orders to subscribe for or redeem shares in the Sub-fund will be processed by the Depositary, from 10.00 am to 5.00 pm (Paris time), every day that the Sub-fund's net asset value is to be published, provided that prices are quoted for a significant proportion of the Benchmark Index components (hereinafter a "**Primary Market Day**" and will be executed at the net asset value on that Primary Market Day (hereinafter the "**reference NAV**"). Subscription/redemption orders submitted after 5.00 pm (Paris time) on a Primary Market Day will be processed as if received from 10.00 am to 5.00 pm (Paris time) on the following Primary Market Day. Orders to subscribe for or redeem shares in the Sub-fund must be for a whole number of shares and represent a minimum amount of at least 100,000 euros.

Subscriptions and redemptions in cash:

Subscriptions and redemptions shall be made exclusively in cash and executed at the ref NAV

Delivery and settlement.

Settlement/delivery of subscriptions and redemptions shall be completed within five French business days upon receipt of the subscription or redemption order.

Date and frequency of net asset value calculation

The net asset value will be calculated and published each day that the Sub-fund's net asset value is to be published, provided that the market on which the Fund's units are traded is open and that orders placed in the primary and secondary markets can be funded.

The Sub-fund's net asset value is calculated using the Benchmark Index's closing price.

The net asset value of a share class that is denominated in another currency than the Fund's accounting currency (if applicable) is calculated using the exchange rate between the accounting currency and the currency of the share class, at the applicable WM Reuters rate on the date the reference NAV is calculated.

2. PURCHASES AND SALES ON THE SECONDARY MARKET

A. COMMON PROVISIONS

Purchases and sales of Sub-fund shares made directly on an exchange on which the Sub-fund is or will be listed and continuously traded will be subject to no minimum purchase/sale requirements other than those of the relevant exchange(s).

Shares in a listed sub-fund that are purchased on the secondary market cannot generally be directly sold back to that sub-fund. Investors must therefore buy and sell their shares on a secondary market through an intermediary (e.g. a broker) and may consequently incur costs. It is also possible that investors may pay more than the indicative net asset value when buying shares and receive less than the indicative net asset value when selling shares.

If the stock market value of a listed fund's shares differs significantly from its indicative net asset value, or if trading in the fund's shares is suspended, subject to the conditions set forth below, investors may be allowed to redeem their shares on the primary market directly from the fund, without being subject to the minimum redemption amount requirement set forth herein in the section **SUBSCRIPTION AND REDEMPTION FEES** (charged only on primary market transactions)".

The management company shall decide whether to allow such primary market redemptions and for how long, on the basis of the following criteria for assessing the significance of a market disruption:

The suspension or strong disturbance of secondary trading on a given exchange is relatively frequent.

The link between the market disruption and secondary market operators (such as the default of one or more of the Market Makers of a given exchange, or a breakdown or malfunction of an exchange's IT or operating systems), excluding a disruption caused by a source external to the secondary exchange on which the Sub-fund's shares are traded, such as an event that affects the liquidity and valuation of all or some of the Benchmark Index's components
Any other objective circumstance that could adversely affect the fair treatment and/or the interests of the Sub-fund's shareholders.

Notwithstanding the provisions concerning fees presented in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions")", redemptions made in the primary market in this case shall only be subject to a net redemption fee of 1% paid to the Sub-fund and which serves to cover its trading costs.

In such exceptional cases when redemption in the primary market is allowed, the management company will post on Lyxor's website at www.lyxor.etf.com the procedure that investors must observe to redeem their shares in the primary market. The Management Company shall also make this procedure available to the market undertaking that handles trading in the Sub-fund's shares.

B SPECIAL PROVISIONS

- a) **If the Sub-fund's shares are listed on Euronext Paris (as indicated in the "Key Information" section) investors should note the following rules**

Negotiability of shares and information about the financial institutions acting as Market Makers:

The shares shall be freely negotiable on the Euronext Paris regulated market subject to the following conditions and the applicable laws and regulations.

The Sub-fund shares will be listed on a specific trading list, the rules of which are defined in the following instructions published by Euronext Paris SA:
- Instruction No. 4-01 "Universal Trading Platform Manual"
- Appendix to Instruction N4-01 (Appendix to the Euronext Market Trading Manual)
- Instruction No. 6-04 "Documentation to be provided when filing a listing application for an ETF, ETN, ETV and open-ended undertakings for collective investment other than ETFS"

Pursuant to article D 214-22-1 of the French monetary and financial code the units or shares of undertakings for collective investments in transferable securities may be admitted to trading, provided that these undertakings have a system to ensure that the market price of their units or shares does not differ significantly from their net asset value. Under Euronext Paris' rules trading in the Sub-fund's shares is also subject to a 'reservation threshold' of 1.5% above or below the Sub-fund's Indicative Net Asset value or "iNAV" (see the "Indicative Net Asset Value" section), as published by Euronext Paris SA and updated on an estimated basis during trading in accordance with the change in the Benchmark Index.

To comply with Euronext Paris SA's reservation thresholds (see the "Indicative Net Asset Value" section) the Market Makers will ensure that the market price of the Sub-fund's shares does not differ from the Sub-fund's indicative Net Asset Value by more than 1.5%.

Euronext Paris SA may suspend trading in the Sub-fund's shares pursuant to the terms of its operating rules, if the aforementioned reservation threshold limit is exceeded.

Euronext Paris SA will also suspend trading in the Sub-fund's shares in the following cases:

- the Benchmark Index is no longer traded or calculated
- Euronext Paris SA cannot obtain the Benchmark Index's level
- Euronext Paris SA cannot obtain the Sub-fund's net asset value.

In accordance with the terms and conditions governing admission to trading on Euronext Paris, the Market Makers undertake to provide market-making services for the Sub-fund's shares as soon as they are admitted to trading on the Euronext Paris exchange.

In particular, the Market Makers undertake to carry out market-making operations by maintaining a significant presence in the market, which initially entails the setting of a bid/ask spread.

More specifically, the Market Makers are required by contract with Euronext Paris SA to ensure that the Sub-fund maintains:

- a maximum overall spread of 2% between the bid and ask price in the centralised order book.
- a minimum nominal trading value of EUR 100,000.

The obligations of the Sub-fund's Market Makers will be suspended in the following cases:

- the Benchmark Index is no longer traded or calculated
- If trading is substantially disrupted, for example due to a widespread shift in prices or an event that makes normal market making impossible.

Indicative net asset value

Euronext Paris SA will calculate and publish, each Trading Day (as defined below) during trading hours, the Sub-fund's indicative net asset value (hereinafter the "iNAV"). The iNAV is a measure of the intra-day value of the Sub-fund's net asset value based on the most recent data. The iNAV is not the value at which investors buy and sell shares in the Sub-fund on the secondary market.

A ("Trading Day") is a day on which Euronext is normally open and on which the Benchmark Index is normally published.

The Sub-fund's iNAV is a theoretical net asset value calculated every 15 seconds by Euronext SA throughout the Paris trading day and is based on the level of the Benchmark Index. The iNAV enables investors to compare the prices that the Market Makers offer on the market with the theoretical value calculated by Euronext.

The iNAV will be calculated every day that the net asset value is calculated and published.

For the calculation of the Sub-fund's iNAV during the Paris trading session (from 9.05 am to 5.35 pm), Euronext Paris SA will use the Benchmark Index value provided by Reuters.

If one or more stock exchanges on which the Benchmark Index's constituent equities are listed are closed (on a public holiday as indicated on the TARGET calendar) and if the calculation of the iNAV proves impossible, trading in the Sub-fund's shares may be suspended.

Lyxor International Asset Management, the Sub-fund's management company, will provide Euronext Paris SA with all the financial and accounting data it needs to calculate the Sub-fund's iNAV and in particular:

- The day's estimated net asset value

- The official net asset value of the previous business day
- The level of the Benchmark Index on the previous business day.

These data will serve as a basis for Euronext Paris SA's calculations to determine the Sub-fund's iNAV in real time every Trading Day.

Additional information about the indicative net asset value of a share listed on a regulated market may, depending on the terms and limits set by the relevant market undertaking, be provided on the website of the exchange where the share is listed. This information is also available on the Reuters or Bloomberg pages dedicated to the particular share. Additional information about Bloomberg and Reuters codes corresponding to the indicative net asset value of UCITS ETF type shares is also available in the "Term Sheets" section of Lyxor's website at www.lyxoretf.com.

b) **If the Sub-fund's shares are listed on an exchange other than Euronext Paris (as indicated in the "Key Information" section) investors should note the following**

Investors wishing to acquire shares in the Sub-fund or obtain more information regarding the market-making terms that govern the listing and trading of shares on the types of exchanges indicated in the "Key Information" section are advised to familiarise themselves with the guidelines laid down by the relevant market undertaking in compliance with local regulations, and to seek if necessary the assistance of their usual broker(s) for executing trades on the relevant exchange(s).

FEES AND CHARGES

SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)

Subscription and redemption fees increase the subscription price paid by investors and reduce the redemption price. Fees kept by the Sub-fund compensate it for the expenses it incurs in investing in the Sub-fund's assets or in divesting these assets. Any fees that are not kept by the Fund are paid to the management company, marketing agent or other service provider.

Fees paid by investors upon subscription or redemption	Base	Maximum charge
Subscription fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per subscription order or 5%, payable to third parties
Subscription fee kept by the Sub-fund	NAV per share x number of shares	N/A
Redemption fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per redemption order or 5%, payable to third parties
Redemption fee kept by the Sub-fund	NAV per share x number of shares	N/A

No subscription or redemption fee will be charged for any purchase or sale of Sub-fund shares on an exchange where the Fund is listed

OPERATING AND MANAGEMENT FEES

These fees cover all the costs invoiced directly to the Fund, except for transaction expenses, which include intermediary fees (brokerage, stock market taxes etc.) and any account activity fee that may be charged by the depositary or the management company.

For this Sub-fund the following fees may be charged in addition to the operating and management fees (see table below):

- Incentive fees, which the Sub-fund pays to the management company when the Sub-fund exceeds its objectives. They are charged to the Sub-fund.
- Account activity fees charged to the Sub-fund.

For more information on the fees or expenses that are actually charged to the Sub-fund see the Statistics section of the Key Investor Information Document (KIID).

Fees charged to the Sub-fund	Base	Maximum charge
Investment management fees and administration fees that are external to the management company ⁽¹⁾	Net asset value	0.60% annual
Maximum indirect expenses (management expenses and fees)	Net asset value	N/A
Account activity fee	Charged on each transaction	N/A
Incentive fee	Net asset value	N/A

(1) Includes all fees and expenses except for transaction expenses, incentive fees and fees associated with investment in UCITS.

COMMERCIAL INFORMATION

Distribution of this prospectus and the offer or purchase of the Fund share classes may be subject to restrictions with regard to certain persons or in certain countries by virtue of national regulations applying to such persons or such countries. Each investor is therefore responsible for ensuring that he or she is authorised to subscribe to or invest in this Fund. As a result, the information contained in this prospectus cannot be understood as constituting an offer or solicitation to buy or sell shares in this Fund in a country where such offer or solicitation is unlawful.

The Fund's share classes will not be registered pursuant to the US Securities Act of 1933, as amended (the "US Securities Act") and cannot be offered, assigned, transferred or allocated to the United States of America, or to:

- (A) any "US Person", as this term is defined (i) under Regulation S of the US Securities Act of 1933 and (ii) under US regulations as defined in Section 7701 (a) (30) of the Internal Revenue Code of 1986 as amended. The Sub-fund's shares will not be offered to US Persons.
- (B) anyone other than those persons considered to be "non-US Persons" as this term is defined under US regulations pursuant to the Commodity Futures Trading Commission, Rule 4.7 (a) (1) (iv).

The Sub-fund's shares will only be offered for sale outside of the United States of America to non-US Persons.

For the purpose of this document, the term "US Person" shall mean, among other things, any individual who resides in the United States of America, any entity organised or formed under the laws of the United States of America, certain entities organised or formed outside of the United States of America by one or more US persons, or any account held on behalf of such a US person.

Before making an investment in this Fund or Sub-fund, investors should seek the advice of their financial, tax and legal advisers.

PLACE AND METHOD OF NET ASSET VALUE PUBLICATION OR COMMUNICATION

At the registered office of LYXOR INTERNATIONAL ASSET MANAGEMENT, 17, cours Valmy - 92987 Paris La Défense CEDEX - France.

The Sub-fund's net asset value will be calculated and published every Trading Day.

IMPORTANT INFORMATION ABOUT THE BENCHMARK INDEX PROVIDER

Sociedad de Bolsa provides no warranty of any sort, either express or implied, regarding the results that may be obtained from using the Sociedad de Bolsa index. Sociedad de Bolsa disclaims any liability of any kind (for negligence or for any other reason) for any error that may affect the index, irrespective of the parties involved, and shall have no obligation to inform any party of such an error.
LYXOR IBEX 35 DOBLE INVERSO DIARIO UCITS ETF is in no way sponsored, promoted or sold by Sociedad de Bolsa.

ADDITIONAL INFORMATION

The Sub-fund's shares are admitted to trading by Euroclear France S.A.

Subscription and redemption orders are sent by investors' financial intermediaries (members of Euroclear France S.A.) to the Depositary.

The Sub-fund's prospectus, the Key Investor Information Document, the most recent annual documents and the asset inventory will be sent to investors within eight business days upon receipt of a written request addressed to:

LYXOR INTERNATIONAL ASSET MANAGEMENT
17 Cours Valmy - 92987 Paris La Défense France.

E-mail: contact@lyxor.com

More information can also be requested from Lyxor International Asset Management on its website at www.lyxoretf.com.

Prospectus publication date: see the "Publication Date" section.

Pursuant to Article L.533-22-1 of the French monetary and financial code, information concerning the Management Company's possible inclusion of social, environmental and corporate governance objectives and performance criteria in its investment policy is available on the management company's website and in the Multi Units France annual report.

The AMF's website (www.amf-france.org) provides additional information on the list of regulatory documents and on all provisions relating to investor protection. This Prospectus must be made available to investors prior to subscription.

INVESTMENT RULES

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

The Sub-fund may invest in the assets indicated in Article L214-20 of the French monetary and financial code, subject to the risk-diversification and investment ratio requirements of Articles R214-21 to R214-27 of said code.

Notwithstanding the 10% limit under Paragraph II of Article R214-21 of the French monetary and financial code, the Sub-fund may invest up to 20% of its assets in the equities and debt securities of a single issuer, in compliance with Article R214-22-I, which deals with index-tracking funds. Pursuant to Article R214-22 II, the Sub-fund may also increase this 20% limit for a single issuer to 35%, when this is shown to be justified by exceptional market conditions, and in particular when certain securities are largely dominant.

OVERALL RISK EXPOSURE

The commitment approach is used to calculate the overall risk exposure.

ASSET VALUATION AND ACCOUNTING RULES

A. VALUATION RULES

The Sub-fund's assets are valued in accordance with applicable laws and regulations and most notably Regulation NO. 2014-01 of 14 January 2014 of the Comité de la Réglementation Comptable (the Accounting Regulations Committee), which applies to the chart of accounts for UCITS investment funds.

Financial instruments traded on a regulated market are valued at the closing price recorded on the day prior to the calculation of the net asset value. If these financial instruments are traded on several regulated markets at the same time, the closing price used is that recorded on the regulated market on which they are principally traded.

However, in the absence of significant trading on a regulated market, the following financial instruments are valued using the following methods:

- Negotiable debt securities ("NDS") with a remaining life upon acquisition that is less than or equal to three months are valued by applying the difference between the acquisition value and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc.). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- NDS with a remaining life of more than three months upon acquisition but less than or equal to three months at the net asset value calculation date are valued by applying the difference between the most recent valuation and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc.). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- NDS with a remaining life at the net asset value calculation date that exceeds three months are valued at their current value. The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- Financial futures traded on organised markets are valued at the clearing price on the day prior to the calculation of the net asset value. Options traded on organised markets are valued at their market price on the day prior to the calculation of the net asset value. Forward contracts and over-the-counter options are valued at the price quoted by the counterparty. The management company monitors these prices independently.
- Bank deposits are valued at their nominal value plus accrued interest.
- Warrants, short and medium-term notes (bons de caisse), promissory notes and mortgage notes are valued under the management company's responsibility at their most likely trading value.
- Securities financing transactions are valued at the market price.
- Shares and units in UCITS under French law are valued at the last known net asset value on the day the Sub-fund's net asset value is calculated.
- Shares and units in foreign investment funds are valued at the last known net asset value at the date the Sub-fund's net asset value is calculated.
- Financial instruments traded on a regulated market and for which no price has been quoted or whose price has been corrected, are valued under the management company's responsibility at their most likely trading value.
- The exchange rates used to value financial instruments denominated in a currency other than the Sub-fund's base currency are the WM Reuters fixing rates published on the day the Sub-fund's net asset value is calculated.

B. ACCOUNTING METHOD FOR TRADING EXPENSES

Trading expenses are included in the initial cost of the transaction.

C. ACCOUNTING METHOD FOR INCOME FROM FIXED-INCOME SECURITIES

Income from fixed-income securities is accounted for using the cash-basis method.

D. DISTRIBUTION POLICY

For more information see the section entitled "CALCULATION AND ALLOCATION OF DISTRIBUTABLE AMOUNTS".

E. ACCOUNTING CURRENCY

The Sub-fund's accounts are kept in EUR

SUB-FUND NO. 36: LYXOR IBEX 35 INVERSO DIARIO UCITS ETF

The Lyxor Ibex 35 Inverso Diario UCITS ETF sub-fund (the “**Sub-fund**”) is a UCITS ETF index-tracker.

INCEPTION DATE

This sub-fund was approved by l’Autorité des Marchés Financiers on 15/02/2018 and was created on 19 April 2018.

INVESTMENT OBJECTIVE

The Sub-fund’s investment objective is to give inverse exposure to increases and decreases in Spanish equity prices, by replicating the performance of the IBEX 35® INVERSO strategy index (the “Benchmark Index”), denominated in euros (EUR), whether positive or negative, while minimising the tracking error between the Sub-fund’s performance and that of the Benchmark Index.

The expected ex-post tracking error under normal market conditions is 0.10%.

BENCHMARK INDEX

The Benchmark Index is the IBEX 35® INVERSO strategy index (gross US dollars).

The Benchmark Index is an equity strategy index that is calculated, maintained and published by Sociedad de Bolsas.

The Benchmark Index provides inverse exposure to increases and decreases in the IBEX 35® index (hereinafter the “Parent Index”). Accordingly, if the Parent Index rises by a given amount on a given trading day, the Sub-fund’s net asset value will decrease by that amount that day, and unit-holders will not profit from the increase in the Parent Index.

The Parent Index is the main benchmark index of the Madrid stock exchange and is composed of the 35 most actively traded stocks in the Spanish market. The Parent Index is weighted by float-adjusted market capitalisation.

A complete description of the Benchmark Index and its construction methodology, and information on the composition and respective weightings of the Benchmark Index components, are available on the Internet at <http://www.bolsamadrid.es/ing/aspx/Indices/Resumen.aspx>

The performance tracked is that of the Benchmark Index’s closing price.

Benchmark Index publication

The Benchmark Index is calculated daily at the official closing price of the exchanges where the index constituents are listed.

Real-time Benchmark Index values are available via Bloomberg and Reuters.

Reuters code: IBEXSH

Bloomberg code: IBEXSH

The closing price of the Benchmark Index is available on the Internet at de la Sociedad de Bolsas: <http://www.bolsamadrid.es/ing/aspx/Indices/Resumen.aspx>

Pursuant to Article 52 of European Parliament and Council Regulation 2016/1011 of 8 June 2016, Sociedad de Bolsas, the administrator of the Ibex 35® INVERSO benchmark index has until 1 January 2020 to apply for approval or registration as applicable.

As of the date of the most recent version of this prospectus, the benchmark index administrator was not yet listed in ESMA’s register of benchmark administrators.

Pursuant to European Parliament and Council Regulation 2016/1011 of 8 June 2016, the asset management company has a procedure for monitoring the benchmark indices used that specifies the measures to be implemented if an index is substantially modified or is no longer provided.

Benchmark Index composition and revision

The revision of the Benchmark Index’s composition is dependent on the composition of the Parent Index.

The Parent Index is revised every six months.

The inverse leverage factor used in calculating the Benchmark Index is reset daily. The consequences of this daily resetting are explained in the Benchmark Index and Risk Profile sections of this prospectus.

The rules for revising the Parent Index, and consequently the Benchmark Index, are available on the Internet at <http://www.bolsamadrid.es/ing/aspx/Indices/Resumen.aspx>. The frequency of this rebalancing does not affect the cost of implementing the Investment Strategy.

INVESTMENT STRATEGY

1. Strategy employed

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund will employ an indirect replication method, which involves entering into one or more OTC swap contracts to achieve its investment objective. These swap contracts will serve to exchange the value of the Sub-fund’s assets, which will consist of cash and/or balance sheet assets (excluding any securities received as collateral), for the value of the securities that underlie the Benchmark Index.

Investors in this Sub-fund are fully and inversely exposed to the Spanish equity market.

The Securities in the Sub-fund’s portfolio may include those that make up the Parent Index, as well as other global equities across all economic sectors and listed on all exchanges including small-cap exchanges.

The basket of securities held may be adjusted daily such that its value will generally be at least 100% of the net assets. When necessary, this adjustment will aim to neutralise the counterparty risk arising from the aforementioned swap contract.

Information on the updated composition of the basket of ‘balance sheet’ assets in the Sub-fund’s portfolio and the value of the swap contract concluded by the Sub-fund is available on the page dedicated to the Sub-fund on Lyxor’s website at www.lyxoretf.com. The frequency of any updates and/or the date on which the aforementioned information is updated is also indicated on the same page of the aforementioned website.

In managing its exposure, no more than 20% of the Sub-fund’s assets may be exposed to the equities of a given issuer. This 20% limit may be increased to 35% for a single issuing entity when this is shown to be justified by exceptional market conditions, in particular when certain securities are largely dominant and/or in the event of strong volatility affecting a financial instrument or securities linked to an economic sector represented in the Benchmark Index. This could be the case, for example, in the event of a public offering affecting any of the securities that make up the Benchmark Index or in the event of a significant restriction of liquidity affecting one or more financial instruments in the Benchmark Index.

2. Balance sheet assets (excluding embedded derivatives)

In accordance with regulatory ratios, the Sub-fund’s portfolio may include global equities across all economic sectors and listed on any exchange, including “small-cap” exchanges.

The aforementioned equities will be selected on the basis of the following:

- eligibility criteria, in particular:
 - their inclusion in a major stock exchange index or in the Benchmark Index
 - liquidity (must exceed a minimum daily trading volume and market capitalisation)
 - credit rating of the country where the issuer has its registered office (must have a least a minimum S&P or equivalent rating)
- diversification criteria, in particular regarding:
 - the issuer (application of investment ratios to assets that qualify for UCITS, pursuant to Art. R214-21 of the French monetary and financial code)
 - geography
 - sector

Investors may find more information on the above eligibility and diversification criteria, and in particular the list of eligible indices, on Lyxor’s website at www.lyxoretf.com.

Investment in undertakings for collective investment in transferrable securities (“UCITS”) that comply with Directive 2009/65/EC is limited to 10% of the Sub-fund’s net assets.

The fund manager will not invest in the shares or units of alternative investment funds (AIF) or other investment funds that were formed under a foreign law. In respect of these investments, the Sub-fund may invest in the units or shares of UCITS managed by the management company or by a company that is related to the management company.

When the Sub-fund receives collateral in the form of securities, subject to the terms of section 8 below, it acquires full title to these securities and they are therefore included among the balance sheet assets to which it has full title.

To optimise the Sub-fund’s management, the manager reserves the right to use other instruments in accordance with the applicable regulations in order to achieve its investment objective.

3. Off-balance sheet assets (derivatives)

The Sub-fund will use OTC index-linked swaps that swap the value of its equity assets (or of any other financial instrument or asset the Fund may hold) for the value of the Benchmark Index (as described in part 1 of this section).

To optimise the Sub-fund’s management, the manager reserves the right to use other instruments in accordance with the applicable regulations in order to achieve its investment objective, such as derivatives other than index-linked swaps.

In accordance with its best execution policy, the management company considers that Société Générale is the counterparty that is generally able to obtain the best possible execution for these derivative financial instruments. Accordingly, these derivative financial instruments (including index-linked swaps) may be traded via Société Générale without having to seek a competitive bid from another counterparty.

The counterparty of the derivative financial instruments referred to above (the “**Counterparty**”) will have no discretionary power over the composition of the Fund’s portfolio nor over the underlying assets of the derivative financial instruments.

4. Securities with embedded derivatives

N/A.

5. Cash deposits

In order to optimise its cash management, the Sub-fund may deposit funds representing up to 20% of its net assets with lending institutions that belong to the same group as the depositary/custodian.

6. Cash borrowing

The Fund may temporarily borrow up to 10% of its net assets.

7. Securities financing transactions

N/A. The manager will not engage in any securities financing transactions.

8. Collateral

Whenever the investment strategy exposes to the Sub-fund to counterparty risk, and in particular when the Sub-fund uses over-the-counter swaps, the Sub-fund may accept eligible securities as collateral to reduce the counterparty risk associated with these swaps. The portfolio of collateral received may be adjusted daily to ensure that its value is at least sufficient to cover the Sub-fund’s counterparty risk in most cases. The purpose of this adjustment is to neutralise the Sub-fund’s counterparty risk.

The Sub-fund will have full title to all collateral received, which will be deposited in the Sub-fund's account with the depositary. This collateral will therefore be included in the Sub-fund's assets.

All collateral the Sub-fund receives for this purpose must comply with the applicable laws and regulations, with respect in particular to liquidity, valuation, the credit-worthiness of securities issuers, correlation, and the risks of collateral management and enforceability. All collateral received must in particular meet the following criteria:

- (a) All collateral must be of high quality, be highly liquid and tradable on a regulated market or on a multilateral trading facility, with transparent pricing to enable the collateral to be rapidly sold near its estimated price
- (b) This collateral must be valued at its mark-to-market price at least daily and assets with highly volatile prices are not acceptable as collateral, unless a sufficiently prudent discount or "haircut" is applied;
- (c) The issuer of this collateral must be independent of the counterparty and must not be closely correlated with the counterparty's financial performance;
- (d) Collateral must be sufficiently diversified in terms of country, market and issuer, with exposure to any single issuer not exceeding 20% of the Sub-fund's net asset value ;
- (e) Collateral must be immediately enforceable by the Sub-fund's management company without informing the counterparty and without its approval.

Notwithstanding the condition specified in (d) above, the Sub-fund may accept a basket of securities collateral that increases its exposure to a single issuer to more than 20% of its net asset value provided that:
such securities collateral is issued by (i) a Member State, (ii) one or more of a Member State's local authorities, (iii) a country that is not a Member State (iv) a public international organisation to which one or more Member States belong; and;
such securities collateral consists of at least six different issues of securities of which no single issue exceeds 30% of the Sub-fund's assets.

In accordance with the above conditions the collateral the Sub-fund accepts may consist of:

- (i) Cash and cash-equivalent assets, which for example include short-term bank deposits and balances and money-market instruments
- (ii) Bonds issued or guaranteed by an OECD member state, or by its local government entities, or by an EU, regional or global supranational institution or organisation, or by any country provided that conditions (a) to (e) above are fully complied with
- (iii) Shares or units issued by money-market funds that calculate a daily net asset value and have an AAA or equivalent credit rating
- (iv) The shares or units of UCITS that invest mainly in the bonds and/or equities indicated in (v) and (vi) below
- (v) Bonds issued or guaranteed by first-class issuers offering sufficient liquidity
- (vi) Equities admitted for trading or traded on a regulated exchange of an EU member country, on a stock exchange of an OECD member country or on a stock exchange of another country provided that conditions (a) to (e) above are fully complied with and that these equities are components of a major index.

Collateral discount policy

The Sub-fund's management company shall apply a discount to the collateral the Sub-fund accepts. The amount of these discounts will depend mainly on the following:

- the nature of the collateral asset
- the collateral's maturity (if applicable)
- the credit rating of the collateral issuer (if applicable).

Reinvestment of collateral

Non-cash collateral will not be sold, reinvested or pledged.

At the manager's discretion, cash collateral may either be:

- (i) deposited with an authorised institution
- (ii) invested in high-quality government bonds
- (iii) used for reverse repurchase transactions, provided that these are entered into with credit institutions that are subject to prudential supervision and that the fund is able to withdraw the total amount of its cash collateral and the accrued interest at any time
- (iv) invested in short-term money-market funds as defined in the guidelines for a common definition of European money-market funds.

All cash collateral that is reinvested must be invested in a diversified manner in compliance with the rules that apply to the acceptance of non-cash collateral.

RISK PROFILE

The shareholder's money will be mainly invested in the financial instruments selected by the management company. These instruments are subject to market trends and contingencies.

Shareholders in the Sub-fund will be mainly exposed to the following risks:

- Equity risk

The price of an equity security can increase or decrease in accordance with changes in the issuer's risk exposure or in the economic conditions of the market in which the security is traded. Equity markets are more volatile than fixed-income markets, where it is possible to estimate revenues for a certain period of time under the same macroeconomic conditions.

- Capital risk

The capital invested is not guaranteed. Investors therefore may not recover all or part of their initial investment, particularly in the event that the Benchmark Index posts a negative return over the investment period

- Liquidity risk (primary market)

The Sub-fund's liquidity and/or value may be adversely affected if, when the Sub-fund or a counterparty to a derivative financial instrument (DFI) is rebalancing its exposure, the underlying financial markets are restricted, closed, or subject to large bid/offer spreads. An inability, due to low trading volume, to execute the trades required to replicate the Benchmark Index may also adversely affect the subscription, conversion or redemption of shares.

- Liquidity risk (secondary market)

The Sub-fund's on-exchange price may deviate from its indicative net asset value. The liquidity of the Sub-fund's shares on an exchange may be adversely affected by a suspension or disruption in market operation, such as one of the following events:

- i) the calculation of the Benchmark Index is suspended or stopped and/or
- ii) the market(s) in the Benchmark Index's underlying assets is (are) suspended, and/or
- iii) a stock exchange cannot obtain or calculate the Sub-fund's indicative net asset value and/or
- iv) a market maker fails to comply with an exchange's rules and/or
- v) an exchange's IT, electronic or other system fails.

- Counterparty risk

The Sub-fund is exposed to the risk that a counterparty with which the Sub-fund has entered into a contract or transaction may go bankrupt or default on a settlement or other obligation. The Fund is mainly exposed to counterparty risk resulting from the use of derivative financial instruments (DFI) traded over the counter with Société Générale or some other counterparty. In compliance with UCITS regulations, exposure to counterparty risk (whether the counterparty is Société Générale or another entity), cannot exceed 10% of the Sub-fund's total assets per counterparty.

If a counterparty defaults on an obligation the DFI contract may be terminated before maturity. The Sub-fund will do everything in its power to achieve its investment objective by, if appropriate, entering into another DFI contract with another counterparty at the market conditions at the time of such an event.

If this counterparty risk materialises it could have an impact on the Sub-fund's ability to achieve its investment objective of replicating the Benchmark Index ».

Where Société Générale acts as the DFI counterparty, conflicts of interest may arise between the Sub-fund's Management Company and the DFI counterparty. The Management Company has procedures to identify and reduce such conflicts of interest and to resolve them equitably if necessary.

- Daily leverage reset risk

Investors are inversely exposed to the daily changes which affect the price or level of the Parent Index.

The daily reset in the exposure in the underlying "short" strategy index formula means that over a period of more than one business day the Sub-fund's performance will not be equivalent to the inverse performance of the Parent Index. This means that investors are underexposed to volatility.

For example, if the Parent Index gains 10% on a given business day and then loses 5% the following business day, the Sub-fund will decline a total of 5.5% (before deduction of relevant fees) over the two business days, while the Parent Index will have gained 4.5% over this period.

If the Parent Index declines 5% per day over two consecutive business days, the Sub-fund will gain a total of 10.25% (before deduction of relevant fees), while the Parent Index will have lost 9.75% over this period.

Negative scenario 1

The Parent Index rises and the leverage effect is negative is greater than 1

	Parent Index		Benchmark Index		Leverage effect
	Performance day i	Value day i	Performance day i	Value day i	
Day 1	10%	100	-10%	100	x-1
Day 2	-8%	110	8%	90	x-1
Total return	1.20%	101.2	-2.80%	97.2	x-2,33

Negative scenario 2

The Parent Index falls and the leverage effect is negative is less than 1

	Parent Index		Benchmark Index		Leverage effect
	Performance day i	Value day i	Performance day i	Value day i	
Day 1	-10%	100	10%	100	x-1
Day 2	6%	90	-6%	110	x-1
Total return	-4.60%	95.4	3.40%	103.4	x-0,74

Furthermore, if the Parent Index is highly volatile over a period of more than one day, the Sub-fund's net asset value may decline over this period even though the Parent Index has also declined.

Inverse leverage scenario	The leverage effect is positive over the period				
	Parent Index		Benchmark Index		Leverage effect
	Performance day i	Value day i	Performance day i	Value day i	
Day 1		100		100	x-1
Day 2	5%	105	-5%	95	x-1
Total return	-0.25%		-0.25%		x1

- Risk that the investment objective is not fully achieved

There is no guarantee that the investment objective will be achieved, as no asset or financial instrument can ensure that the Benchmark Index will be automatically and continuously replicated, particularly in the event of one or more of the following risks:

- Risk of using derivative financial instruments

In order to achieve its investment objective and secure the performance of the Benchmark Index, the Sub-fund can enter into over-the-counter derivative financial instruments ("DFI"), such as swaps. These DFI involve various risks, such as counterparty risk, hedging disruption, Benchmark Index disruption, taxation risk, regulatory risk, operational risk and liquidity risk. These risks can materially affect a DFI and could lead to an adjustment or even the early termination of the DFI transaction, which could affect the Sub-fund's net asset value.

- Risk of a change in the tax regime

A change in the tax regime of a jurisdiction where the Sub-fund is domiciled, authorised for sale or listed could adversely affect the taxation of investors. In such an event, the Sub-fund manager will not be liable to any investor with respect to any payment that may have to be made to a competent tax authority.

- Risk of a change in the tax regime of the Fund's underlying assets

A change in a tax regime that applies to the Sub-fund's underlying assets could affect the tax treatment of the Sub-fund. As a result, in case of a discrepancy between the estimated and effective tax treatments applied to the Sub-fund and/or to the Sub-fund's counterparty to the DFI, the Sub-fund's net asset value may be affected.

- Regulatory risk affecting the Fund

In the event of a change in the regulatory regime in a jurisdiction where the Sub-fund is domiciled, authorised for sale or listed, the subscription, conversion or redemption of shares may be adversely affected.

- Regulatory risk affecting the Fund's underlying assets

In the event of a change in the regulations that govern the Sub-fund's underlying assets, the Sub-fund's net asset value and the subscription, conversion or redemption of shares or units may be adversely affected.

- Benchmark Index disruption risk

If an event adversely affects the Benchmark Index, the Fund manager may be required, in accordance with the applicable laws and regulations, to suspend the subscription and redemption of the Sub-fund's shares. The calculation of the Sub-fund's net asset value could also be adversely affected.

If the Benchmark Index disruption persists, the manager of the Sub-fund will determine the appropriate measures to be carried out, which could have an impact on the Sub-fund's net asset value.

A 'Benchmark Index event' includes but is not limited to the following situations:

- i) the Benchmark Index is deemed to be inaccurate or does not reflect actual market developments
- ii) the Benchmark Index is permanently cancelled by the index provider
- iii) the index provider is unable to indicate the level or value of the Benchmark Index
- iv) the index provider makes a material change in the formula for or the method of calculating the Benchmark Index (other than a minor modification such as an adjustment to the Benchmark Index's underlying assets or the respective weightings among its components) which the Sub-fund cannot effectively replicate at a reasonable cost.
- (v) a Benchmark Index component becomes illiquid because it is no longer traded on a regulated market or because its trading over-the-counter (e.g. bonds) is disrupted.
- (vi) the Benchmark Index components are exposed to higher transaction costs for execution or settlement/delivery, or to specific tax constraints and these costs are not reflected in the Benchmark Index's performance.

- Corporate action risk

An unforeseen change, by the issuer of a security that is a component of the Benchmark Index, in a planned corporate action that is in contradiction with a previous official announcement on which the Sub-fund based its valuation of the corporate action (and/or on which the Sub-fund's counterparty to a derivative financial instrument or transaction based its valuation of the corporate action) can adversely affect the Sub-fund's net asset value, particularly if the Sub-fund's treatment of the corporate event differs from that of the Benchmark Index.

- Legal risk

The Sub-fund may be exposed to a legal risk arising from a total return swap (TRS) agreement as indicated in EU Regulation 2015/2365.

ELIGIBLE INVESTORS AND TYPICAL INVESTOR PROFILE

This Sub-fund is available to all investors .

Investors in this Sub-fund are seeking inverse exposure to the performance of the Spanish equity market, whether positive or negative.

The amount that it is reasonable to invest in this Sub-fund depends on each investor's personal situation. To determine this amount, investors must take into account their personal wealth and/or estate, their cash requirements currently and for the next five years, and their willingness to take on risk or their preference for more prudent investment. It is also recommended that investors diversify their investments so that they are not exclusively exposed to this Sub-fund's risks.

All investors are therefore asked to consider their specific situation with the help of their usual investment advisor.

Given the speculative nature of this Sub-fund it may not be suitable for investors with a medium to long-term investment horizon.

CALCULATION AND ALLOCATION OF DISTRIBUTABLE AMOUNTS

Acc share class: all distributable amounts are accumulated

DISTRIBUTION FREQUENCY

If distribution is decided, The management company reserves the right to distribute distributable amounts in one or more annual distributions.

SHARE CHARACTERISTICS

The Acct class shares will be issued at a price that is equivalent to the net asset value of the corresponding absorbed unit class on the day the Lyxor Ibex 35 Inverso Dario UCITS ETF is merged.

Subscription orders may be placed for a specific monetary amount or for a whole number of shares.

Redemptions will be made in whole numbers of shares.

CURRENCY

	Acc share class
Currency	Euros

SUBSCRIPTION AND REDEMPTION

1. SUBSCRIPTION AND REDEMPTION ON THE PRIMARY MARKET

Orders to subscribe for or redeem shares in the Sub-fund will be processed by the Depositary, from 10.00 am to 5.00 pm (Paris time), every day that the Sub-fund's net asset value is to be published, provided that prices are quoted for a significant proportion of the Benchmark Index components (hereinafter a "**Primary Market Day**") and will be executed at the net asset value on that Primary Market Day (hereinafter the "**reference NAV**"). Subscription/redemption orders submitted after 5.00 pm (Paris time) on a Primary Market Day will be processed as if received from 10.00 am to 5.00 pm (Paris time) on the following Primary Market Day. Orders to subscribe for or redeem shares in the Sub-fund must be made for a whole number of shares that represents at least 100,000 euros.

Subscriptions and redemptions in cash:

Subscriptions and redemptions shall be made exclusively in cash and executed at the ref NAV.

Delivery and settlement.

Settlement/delivery of subscriptions and redemptions shall be completed within five French business days upon receipt of the subscription or redemption order.

DATE AND FREQUENCY OF NET ASSET VALUE CALCULATION

The net asset value will be calculated and published each day that the Sub-fund's net asset value is to be published, provided that the market on which the Fund's units are traded is open and that orders placed in the primary and secondary markets can be funded.

The Sub-fund's net asset value is calculated using the Benchmark Index's closing price.

The net asset value of a share class that is denominated in another currency than the Fund's accounting currency (if applicable) is calculated using the exchange rate between the accounting currency and the currency of the share class, at the applicable WM Reuters rate on the date the reference NAV is calculated.

2. SUBSCRIPTION AND REDEMPTION ON THE SECONDARY MARKET

A. COMMON PROVISIONS

Purchases and sales of Sub-fund shares made directly on an exchange on which the Sub-fund is or will be listed and continuously traded will be subject to no minimum purchase/sale requirements other than those of the relevant exchange(s).

Shares in a listed sub-fund that are purchased on the secondary market cannot generally be directly sold back to that sub-fund. Investors must therefore buy and sell their shares on a secondary market through an intermediary (e.g. a broker) and may consequently incur costs. It is also possible that investors may pay more than the indicative net asset value when buying shares and receive less than the indicative net asset value when selling shares.

If the stock market value of a listed fund's shares or units differs significantly from their indicative net asset value, or if trading in the fund's shares or units is suspended, subject to the conditions set forth below, investors may be allowed to redeem their shares on the primary market directly from the fund, without being subject to the minimum redemption amount requirement set forth herein in the section SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)".

The management company shall decide whether to allow such primary market redemptions and for how long, on the basis of the following criteria for assessing the significance of a market disruption:

- The suspension or strong disturbance of secondary trading on a given exchange is relatively frequent.
- The link between the market disruption and secondary market operators (such as the default of one or more of the Market Makers of a given exchange, or a breakdown or malfunction of an exchange's IT or operating systems), excluding a disruption caused by a source external to the secondary exchange on which the shares or units of the Sub-fund are traded, such as an event that affects the liquidity and valuation of all or some of the Benchmark Index's components
- Any other objective circumstance that could adversely affect the fair treatment and/or the interests of the Sub-fund's shareholders.

Notwithstanding the provisions concerning fees presented in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions")", redemptions made in the primary market in this case shall only be subject to a net redemption fee of 1% paid to the Sub-fund and which serves to cover its trading costs.

In such exceptional cases when redemption in the primary market is allowed, the management company will post on Lyxor's website at www.lyxor.etf.com the procedure that investors must observe to redeem their shares in the primary market. The Management Company shall also make this procedure available to the market undertaking that handles trading in the Sub-fund's shares.

B. SPECIAL PROVISIONS

- a) **If the Sub-fund's shares are listed on Euronext Paris (as indicated in the "Key Information" section) investors should note the following rules**

Negotiability of shares and information about the financial institutions acting as Market Makers:

The shares shall be freely negotiable on the Euronext Paris regulated market subject to the following conditions and the applicable laws and regulations.

The Sub-fund shares will be listed on a specific trading list, the rules of which are defined in the following instructions published by Euronext Paris SA:

- Instruction No. 4-01 "Universal Trading Platform Manual"
- Appendix to Instruction N4-01 (Appendix to the Euronext Market Trading Manual)
- Instruction No. 6-04 "Documentation to be provided when filing a listing application for an ETF, ETN, ETV and open-ended undertakings for collective investment other than ETFS"

Pursuant to article D 214-22-1 of the French monetary and financial code the units or shares of undertakings for collective investments in transferable securities may be admitted to trading, provided that these undertakings have a system to ensure that the market price of their units or shares does not differ significantly from their net asset value. Under Euronext Paris' rules trading in the Sub-fund's shares is also subject to a 'reservation threshold' of 1.5% above or below the Sub-fund's Indicative Net Asset value or "iNAV" (see the "Indicative Net Asset Value" section), as published by Euronext Paris SA and updated on an estimated basis during trading in accordance with the change in the Benchmark Index.

To comply with Euronext Paris SA's reservation thresholds (see the "Indicative Net Asset Value" section), the Market Makers will ensure that the market price of the Sub-fund's shares does not differ from the Sub-fund's indicative net asset value by more than 1.5%.

Euronext Paris SA may suspend trading in the Sub-fund's shares pursuant to the terms of its operating rules, if the aforementioned reservation threshold limit is exceeded.

Euronext Paris SA will also suspend trading in the Sub-fund's shares in the following cases:

- the Benchmark Index is no longer traded or calculated
- Euronext Paris SA cannot obtain the Benchmark Index's level
- Euronext Paris SA cannot obtain the Sub-fund's net asset value.

In accordance with the terms and conditions governing admission to trading on Euronext Paris, the Market Makers undertake to provide market-making services for the Sub-fund's shares as soon as they are admitted to trading on the Euronext Paris exchange.

In particular, the Market Makers undertake to carry out market-making operations by maintaining a significant presence in the market, which initially entails the setting of a bid/ask spread.

More specifically, the Market Makers are required by contract with Euronext Paris SA to ensure that the Sub-fund maintains:

- a maximum overall spread of 2% between the bid and ask price in the centralised order book.
- a minimum nominal trading value of EUR 100,000.

The obligations of the Sub-fund's Market Makers will be suspended in the following cases:

- the Benchmark Index is no longer traded or calculated
- If trading is substantially disrupted, for example due to a widespread shift in prices or an event that makes normal market making impossible.

Indicative net asset value

Euronext Paris SA will calculate and publish for each Trading Day (as defined below), the Sub-fund's indicative net asset value (hereinafter the "iNAV"). The iNAV is a measure of the intra-day value of the Sub-fund's net asset value based on the most recent data. The iNAV is not the value at which investors buy and sell shares in the Sub-fund on the secondary market.

A "Trading Day" is a day on which Euronext is normally open and on which the Benchmark Index is normally published.

The Sub-fund's iNAV is a theoretical net asset value calculated every 15 seconds by Euronext SA throughout the Paris trading day and is based on the level of the Benchmark Index. The iNAV enables investors to compare the prices that the Market Makers offer on the market with the theoretical value calculated by Euronext.

The iNAV will be calculated every day that the net asset value is calculated and published.

For the calculation of the Sub-fund's iNAV during the Paris trading session (from 9.05 am to 5.35 pm), Euronext Paris SA will use the Benchmark Index value provided by Reuters.

If one or more stock exchanges on which the Benchmark Index's constituent equities are listed are closed (on a public holiday as indicated on the TARGET calendar), and if the iNAV cannot be calculated, trading in the Sub-fund's shares may be suspended.

Lyxor International Asset Management, the Sub-fund's management company, will provide Euronext Paris SA with all the financial and accounting data it needs to calculate the Sub-fund's iNAV and in particular:

- The day's estimated net asset value
- The official net asset value of the previous business day
- The level of the Benchmark Index on the previous business day.

These data will serve as a basis for Euronext Paris SA's calculations to determine the Sub-fund's iNAV in real time every Trading Day.

Additional information about the indicative net asset value of a share listed on a regulated market may, depending on the terms and limits set by the relevant market undertaking, be provided on the website of the exchange where the share is listed. This information is also available on the Reuters or Bloomberg pages dedicated to the particular share. Additional information about Bloomberg and Reuters codes corresponding to the indicative net asset value of UCITS ETF type shares is also available in the "Term Sheets" section of Lyxor's website at www.lyxoretf.com.

b) **If the Sub-fund's shares are listed on an exchange other than Euronext Paris (as indicated in the "Key Information" section) investors should note the following**

Investors wishing to acquire shares in the Sub-fund or obtain more information regarding the market-making terms that govern the listing and trading of shares on the types of exchanges indicated in the "Key Information" section are advised to familiarise themselves with the guidelines laid down by the relevant market undertaking in compliance with local regulations, and to seek if necessary the assistance of their usual broker(s) for executing trades on the relevant exchange(s).

FEES AND CHARGES

SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)

Subscription and redemption fees increase the subscription price paid by investors and reduce the redemption price. Fees kept by the Sub-fund compensate it for the expenses it incurs in investing in the Sub-fund's assets or in divesting these assets. Any fees that are not kept by the Fund are paid to the management company, marketing agent or other service provider.

Fees paid by investors upon subscription or redemption	Base	Maximum charge
Subscription fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per subscription order or 5%, payable to third parties
Subscription fee kept by the Sub-fund	NAV per share x number of shares	N/A
Redemption fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per redemption order or 5%, payable to third parties
Redemption fee kept by the Sub-fund	NAV per share x number of shares	N/A

No subscription or redemption fee will be charged for any purchase or sale of Sub-fund shares on an exchange where the Fund is listed

OPERATING AND MANAGEMENT FEES

These fees cover all the costs invoiced directly to the Fund, except for transaction expenses, which include intermediary fees (brokerage, stock market taxes etc.) and any account activity fee that may be charged by the depositary or the management company.

For this Sub-fund the following fees may be charged in addition to the operating and management fees (see table below):

- Incentive fees, which the Sub-fund pays to the management company when the Sub-fund exceeds its objectives
- Account activity fees charged to the Sub-fund.

For more information on the fees or expenses that are charged to the Sub-fund, see the Statistics section of the Key Investor Information Document (KIID).

Fees charged to the Sub-fund	Base	Maximum charge
Investment management fees and administration fees that are external to the management company ⁽¹⁾	Net asset value	0.40% annual
Maximum indirect expenses (management expenses and fees)	Net asset value	N/A
Account activity fee	Charged on each transaction	N/A
Incentive fee	Net asset value	N/A

(1) Includes all fees and expenses except for transaction expenses, incentive fees and fees associated with investment in UCITS.

COMMERCIAL INFORMATION

Distribution of this prospectus and the offer or purchase of the Fund share classes may be subject to restrictions with regard to certain persons or in certain countries by virtue of national regulations applying to such persons or such countries. Each investor is therefore responsible for ensuring that he or she is authorised to subscribe to or invest in this Fund. As a result, the information contained in this prospectus cannot be understood as constituting an offer or solicitation to buy or sell shares in this Fund in a country where such offer or solicitation is unlawful.

The Fund's share classes will not be registered pursuant to the US Securities Act of 1933, as amended (the "US Securities Act") and cannot be offered, assigned, transferred or allocated to the United States of America, or to:

- (A) any "US Person", as this term is defined (i) under Regulation S of the US Securities Act of 1933 and (ii) under US regulations as defined in Section 7701 (a) (30) of the Internal Revenue Code of 1986 as amended. The Sub-fund's shares will not be offered to US Persons.
- (B) anyone other than those persons considered to be "non-US Persons" as this term is defined under US regulations pursuant to the Commodity Futures Trading Commission, Rule 4.7 (a) (1) (iv).

The Sub-fund's shares will only be offered for sale outside of the United States of America to non-US Persons.

For the purpose of this document, the term "US Person" shall mean, among other things, any individual who resides in the United States of America, any entity organised or formed under the laws of the United States of America, certain entities organised or formed outside of the United States of America by one or more US persons, or any account held on behalf of such a US person.

Before making an investment in this Fund or Sub-fund, investors should seek the advice of their financial, tax and legal advisers.

PLACE AND METHOD OF NET ASSET VALUE PUBLICATION OR COMMUNICATION

At the registered office of LYXOR INTERNATIONAL ASSET MANAGEMENT, 17, cours Valmy - 92987 Paris La Défense CEDEX - France.

The Sub-fund's net asset value will be calculated and published every Trading Day.

IMPORTANT INFORMATION ABOUT THE BENCHMARK INDEX PROVIDER

Sociedad de Bolsa provides no warranty of any sort, either express or implied, regarding the results that may be obtained from using the Sociedad de Bolsa index. Sociedad de Bolsa disclaims any liability of any kind (for negligence or for any other reason) for any error that may affect the index, irrespective of the parties involved, and shall have no obligation to inform any party of such an error.

The Lyxor IBEX 35 INVERSO DIARIO UCITS ETF fund is in no way sponsored, promoted or sold by Sociedad de Bolsa.

ADDITIONAL INFORMATION

The Sub-fund's shares are admitted for clearing by Euroclear France S.A.

Subscription and redemption orders are sent by investors' financial intermediaries (members of Euroclear France S.A.) to the Depositary.

The Sub-fund's prospectus, the Key Investor Information Document, the most recent annual documents and the asset inventory will be sent to investors within eight business days upon receipt of a written request addressed to:

LYXOR INTERNATIONAL ASSET MANAGEMENT
17 Cours Valmy - 92987 Paris La Défense France.
e-mail: contact@lyxor.com

More information can also be requested from Lyxor International Asset Management on its website at www.lyxoretf.com

Prospectus publication date: see the "Publication Date" section.

Pursuant to Article L.533-22-1 of the French monetary and financial code, information concerning the Management Company's possible inclusion of social, environmental and corporate governance objectives and performance criteria in its investment policy is available on the management company's website and in the Multi Units France annual report.

The AMF's website (www.amf-france.org) provides additional information on the list of regulatory documents and on all provisions relating to investor protection. This Prospectus must be made available to investors prior to subscription.

INVESTMENT RULES

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

The Sub-fund may invest in the assets indicated in Article L214-20 of the French monetary and financial code, subject to the risk-diversification and investment ratio requirements of Articles R214-21 to R214-27 of said code.

Notwithstanding the 10% limit under Paragraph II of Article R214-21 of the French monetary and financial code, the Sub-fund may invest up to 20% of its assets in the equities and debt securities of a single issuer, in compliance with Article R214-22-I, which deals with index-tracking funds. Pursuant to Article R214-22 II, the Sub-fund may also increase this 20% limit for a single issuer to 35%, when this is shown to be justified by exceptional market conditions, and in particular when certain securities are largely dominant.

OVERALL RISK EXPOSURE

The commitment approach is used to calculate the overall risk exposure.

ASSET VALUATION AND ACCOUNTING RULES

A. VALUATION RULES

The Sub-fund's assets are valued in accordance with applicable laws and regulations and most notably Regulation NO. 2014-01 of 14 January 2014 of the Comité de la Réglementation Comptable (the Accounting Regulations Committee), which applies to the chart of accounts for UCITS investment funds.

- Financial instruments traded on a regulated market are valued at the closing price recorded on the day prior to the calculation of the net asset value. If these financial instruments are traded on several regulated markets at the same time, the closing price used is that recorded on the regulated market on which they are principally traded.
- However, in the absence of significant trading on a regulated market, the following financial instruments are valued using the following methods:
- Negotiable debt securities ("NDS") with a remaining life upon acquisition that is less than or equal to three months are valued by applying the difference between the acquisition value and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc.). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- NDS with a remaining life of more than three months upon acquisition but less than or equal to three months at the net asset value calculation date are valued by applying the difference between the most recent valuation and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc.). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- NDS with a remaining life at the net asset value calculation date that exceeds three months are valued at their current value. The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- Financial futures traded on organised markets are valued at the clearing price on the day prior to the calculation of the net asset value. Options traded on organised markets are valued at their market price on the day prior to the calculation of the net asset value. Forward contracts and over-the-counter options are valued at the price quoted by the counterparty. The management company monitors these prices independently.
- Bank deposits are valued at their nominal value plus accrued interest.
- Warrants, short and medium-term notes (bons de caisse), promissory notes and mortgage notes are valued under the management company's responsibility at their most likely trading value.
- Securities financing transactions are valued at the market price.
- Shares and units in UCITS under French law are valued at the last known net asset value on the day the Sub-fund's net asset value is calculated.
- Shares and units in foreign investment funds are valued at the last known net asset value at the date the Sub-fund's net asset value is calculated.
- Financial instruments traded on a regulated market and for which no price has been quoted or whose price has been corrected, are valued under the management company's responsibility at their most likely trading value.
- The exchange rates used to value financial instruments denominated in a currency other than the Sub-fund's base currency are the WM Reuters fixing rates published on the day the Sub-fund's net asset value is calculated.

B. ACCOUNTING METHOD FOR TRADING EXPENSES

Trading expenses are included in the initial cost of the transaction.

C. ACCOUNTING METHOD FOR INCOME FROM FIXED-INCOME SECURITIES

Income from fixed-income securities is accounted for using the cash-basis method.

D. DISTRIBUTION POLICY

For more information see the section entitled "CALCULATION AND ALLOCATION OF DISTRIBUTABLE AMOUNTS".

E. ACCOUNTING CURRENCY

The Sub-fund's accounts are kept in euros.

SUB-FUND NO. 37: LYXOR NASDAQ-100 DAILY (2X) LEVERAGED UCITS ETF

A SICAV SUB-FUND COMPLIANT WITH DIRECTIVE 2009/65/EC

ISIN CODE:

Acc share class: FR0010342592

CLASSIFICATION

Global equities.

The Lyxor Nasdaq-100 Daily (2x) Leveraged UCITS ETF sub-fund (the “**Sub-fund**”) continuously maintains at least 60% exposure to one or more foreign equity markets, and possibly to the French equity market.

The Sub-fund is a UCITS ETF index-tracker.

INCEPTION DATE

This sub-fund was approved by l’Autorité des Marchés Financiers on 15/02/2018 and was created on 19 April 2018.

INVESTMENT OBJECTIVE

The Sub-fund’s investment objective is to provide exposure to the performance of the US equity market, whether positive or negative, by replicating the movement of the NASDAQ-100 Leveraged Notional Net Return strategy index (the “**Benchmark Index**”) denominated in US dollars (USD), while minimising the tracking error between the Sub-fund’s performance and that of the Benchmark Index.

The expected ex-post tracking error under normal market conditions is 0.15%.

BENCHMARK INDEX

The Benchmark Index is the NASDAQ-100 Leveraged Notional Net Return Index (i.e. with net dividends reinvested).

The Benchmark Index was created by NASDAQ OMX Group, Inc. and is calculated and maintained by S&P.

The Benchmark Index is a strategy index that tracks the performance of the NASDAQ-100 (NDX) index (the “**Parent index**”) with a daily 2x leverage effect, which means that if the Parent Index rises or falls by 2% on a given trading day, the Benchmark Index will respectively rise or fall by 4% on that same day, less the cost of borrowing securities. This double leverage effect is achieved by borrowing securities to double the investment in the stocks that make up the Parent Index. The cost of this borrowing is included in the calculation of the Benchmark Index.

The Benchmark Index is a subset of the Parent Index. The Parent Index is a U. S. technology index that provides a benchmark for the U. S. technology sector. It is composed of 100 securities and includes the largest companies by market capitalisation in the following sectors: Internet software and services, IT services and consultancy, software, electronic hardware and instruments, office electronics and semi-conductors.

The NASDAQ-100 Leveraged Notional Net Return Benchmark Index was created on 18 November 2009.

A full description and the complete methodology used to construct the Benchmark Index and information on the composition and respective weightings of the Benchmark Index components are available on the Internet at <https://indexes.nasdaqomx.com/>. The performance tracked is that of the Benchmark Index’s closing price in USD.

Benchmark Index publication

The Benchmark Index is calculated daily at the official closing price of the exchanges where the index constituents are listed.

The Benchmark Index is also calculated in real time every day that the Benchmark Index is published.

Real-time Benchmark Index values are available via Bloomberg and Reuters.

Reuters code: XNDXNNRL

Bloomberg code: XNDXNNRL

The Benchmark Index’s closing price is available on the Internet at <https://indexes.nasdaqomx.com/>

Pursuant to Article 52 of European Parliament and Council Regulation 2016/1011 of 8 June 2016, NASDAQ OMX Group, Inc., the administrator of the NASDAQ-100 Leveraged Notional Net Return benchmark index, has until 1 January 2020 to apply for approval or registration as applicable.

As of the date of the most recent version of this prospectus, the benchmark index administrator was not yet listed in ESMA’s register of benchmark administrators.

Pursuant to European Parliament and Council Regulation 2016/1011 of 8 June 2016, the asset management company has a procedure for monitoring the benchmark indices used that specifies the measures to be implemented if an index is substantially modified or is no longer provided.

BENCHMARK INDEX COMPOSITION AND REVISION

The composition of the Benchmark Index is revised in conjunction with the revision of the Parent Index.

The Parent Index is revised quarterly.

The leverage factor used in the Benchmark Index calculation formula is reset daily. The consequences of this daily resetting are explained in the Benchmark Index and Risk Profile sections of this prospectus.

The exact composition of the Parent Index and NASDAQ OMX Group Inc. rules for revising this index, and consequently the Benchmark Index, are available on the Internet at <https://indexes.nasdaqomx.com/>

The frequency of this rebalancing does not affect the cost of implementing the Investment Strategy.

THE ADVANTAGE OF THE "LEVERAGE" STRATEGY

The “Leverage” strategy (with a daily leverage effect) is a dynamic strategy that is applied to the Benchmark Index. By borrowing securities, it enables investors to double the effect of their investment, on a daily basis, in comparison with a “single” investment in the Parent Index. If the Benchmark Index rises, the gain on a given day will be twice as much as with a “single” investment in the Parent Index. However, in a bear market the multiplier effect of the leverage also doubles losses on a daily basis. The daily multiplier effect also affects the risks of the overall investment strategy.

INVESTMENT STRATEGY:

1. Strategy employed

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund will employ an indirect replication method, which involves entering into one or more OTC swap contracts to achieve its investment objective. These swap contracts will serve to exchange the value of the Sub-fund's assets, which will consist of cash and/or balance sheet assets (excluding any securities received as collateral), for the value of the securities that underlie the Benchmark Index.

The Securities in the Sub-fund's portfolio may include those that make up the Parent Index, as well as other global equities across all economic sectors and listed on all exchanges including small-cap exchanges.

The basket of securities held may be adjusted daily such that its value will generally be at least 100% of the net assets. When necessary, this adjustment will aim to neutralise the counterparty risk arising from the aforementioned swap contract.

Information on the updated composition of the basket of 'balance sheet' assets in the Sub-fund's portfolio and the value of the swap contract concluded by the Sub-fund is available on the page dedicated to the Sub-fund on Lyxor's website at www.lyxoretf.com. The frequency of any updates and/or the date on which the aforementioned information is updated is also indicated on the same page of the aforementioned website.

The Sub-fund will at all times invest at least 75% of its assets in companies having their registered office in a member state of the European Union or in another country that is a member of the European Economic Area and which have signed a tax convention with France that includes an administrative assistance clause for the purpose of fighting tax fraud and evasion. This minimum investment requirement qualifies the Fund for French 'PEA' equity savings plans.

In managing its exposure, no more than 20% of the Sub-fund's assets may be exposed to the equities of a given issuer. This 20% limit will be checked on each Benchmark Index rebalancing date using the Benchmark Index calculation method which limits exposure to a given issuer's equities to 20%, this calculation being performed by the Benchmark Index sponsor or calculation agent. This 20% limit may be increased to 35% for a given issuing entity when this is shown to be justified by exceptional market conditions, in particular when certain securities are largely dominant and/or in the event of strong volatility affecting a financial instrument or securities linked to an economic sector represented in the Benchmark Index. This could be the case, for example, in the event of a public offering that substantially affects a Benchmark Index security or in the event of a significant drop in the liquidity of one or more of the Benchmark Index's financial instruments.

2. Balance sheet assets (excluding embedded derivatives)

In accordance with regulatory ratios, the Sub-fund's portfolio may include global equities across all economic sectors and listed on any exchange, including "small-cap" exchanges.

The aforementioned equities will be selected on the basis of the following:

- eligibility criteria, in particular:
 - their inclusion in a major stock exchange index or in the Benchmark Index
 - liquidity (must exceed a minimum daily trading volume and market capitalisation)
 - credit rating of the country where the issuer has its registered office (must have a least a minimum S&P or equivalent rating)
- diversification criteria, in particular regarding:
 - the issuer (application of investment ratios to assets that qualify for UCITS, pursuant to Art. R214-21 of the French monetary and financial code)
 - geography
 - sector

Investors may find more information on the above eligibility and diversification criteria, and in particular the list of eligible indices, on Lyxor's website at www.lyxoretf.com.

Investment in undertakings for collective investment in transferrable securities ("UCITS") that comply with Directive 2009/65/EC is limited to 10% of the Sub-fund's net assets.

The fund manager will not invest in the shares or units of alternative investment funds (AIF) or other investment funds that were formed under a foreign law.

In respect of these investments, the Sub-fund may invest in the units or shares of UCITS managed by the management company or by a company that is related to the management company.

The fund manager will not invest in the shares or units of alternative investment funds (AIF) or other investment funds that were formed under a foreign law.

When the Sub-fund receives collateral in the form of securities, subject to the terms of section 8 below, it acquires full title to these securities and they are therefore included among the balance sheet assets to which it has full title.

To optimise the Sub-fund's management, the manager reserves the right to use other instruments in accordance with the applicable regulations in order to achieve its investment objective.

3. Off-balance sheet assets (derivatives)

The Sub-fund will use OTC index-linked swaps that swap the value of its equity assets (or of any other financial instrument or asset the Fund may hold) for the value of the Benchmark Index (as described in part 1 of this section).

To optimise the Sub-fund's management, the manager reserves the right to use other instruments in accordance with the applicable regulations in order to achieve its investment objective, such as derivatives other than index-linked swaps.

In accordance with its best execution policy, the management company considers that Société Générale is the counterparty that is generally able to obtain the best possible execution for these derivative financial instruments. Accordingly, these derivative financial instruments (including index-linked swaps) may be traded via Société Générale without having to seek a competitive bid from another counterparty.

The counterparty of the derivative financial instruments referred to above (the "Counterparty") will have no discretionary power over the composition of the Fund's portfolio nor over the underlying assets of the derivative financial instruments.

- Maximum proportion of assets under management for which total return swaps may be entered into: 100% of assets under management.
- Expected proportion of assets under management for which total return swaps may be entered into: up to 100%.

4. Securities with embedded derivatives

N/A.

5. Cash deposits

In order to optimise its cash management, the Sub-fund may deposit funds representing up to 20% of its net assets with lending institutions that belong to the same group as the depositary/custodian.

6. Cash borrowing

The Fund may temporarily borrow up to 10% of its net assets.

7. Securities financing transactions

N/A.

The manager will not engage in any temporary purchases or sales of securities.

8. Collateral

Whenever the investment strategy exposes to the Sub-fund to counterparty risk, and in particular when the Sub-fund uses over-the-counter swaps, the Sub-fund may accept eligible securities as collateral to reduce the counterparty risk associated with these swaps. The portfolio of collateral received may be adjusted daily to ensure that its value is at least sufficient to cover the Sub-fund's counterparty risk in most cases. The purpose of this adjustment is to neutralise the Sub-fund's counterparty risk.

The Sub-fund will have full title to all collateral received, which will be deposited in the Sub-fund's account with the depositary. This collateral will therefore be included in the Sub-fund's assets.

All collateral the Sub-fund receives for this purpose must comply with the applicable laws and regulations, with respect in particular to liquidity, valuation, the credit-worthiness of securities issuers, correlation, and the risks of collateral management and enforceability. All collateral received must in particular meet the following criteria:

- (a) All collateral must be of high quality, be highly liquid and tradable on a regulated market or on a multilateral trading facility, with transparent pricing to enable the collateral to be rapidly sold near its estimated price
- (b) This collateral must be valued at its mark-to-market price at least daily and assets with highly volatile prices are not acceptable as collateral, unless a sufficiently prudent discount or "haircut" is applied;
- (c) The issuer of this collateral must be independent of the counterparty and must not be closely correlated with the counterparty's financial performance;
- (d) Collateral must be sufficiently diversified in terms of country, market and issuer, with exposure to any single issuer not exceeding 20% of the Sub-fund's net asset value ;
- (e) Collateral must be immediately enforceable by the Sub-fund's management company without informing the counterparty and without its approval.

Notwithstanding the condition specified in (d) above, the Sub-fund may accept a basket of securities collateral that increases its exposure to a single issuer to more than 20% of its net asset value provided that:

such securities collateral is issued by (i) a Member State, (ii) one or more of a Member State's local authorities, (iii) a country that is not a Member State (iv) a public international organisation to which one or more Member States belong; and;

such securities collateral consists of at least six different issues of securities of which no single issue exceeds 30% of the Sub-fund's assets.

In accordance with the above conditions the collateral the Sub-fund accepts may consist of:

- (i) Cash and cash-equivalent assets, which for example include short-term bank deposits and balances and money-market instruments
- (ii) Bonds issued or guaranteed by an OECD member state, or by its local government entities, or by an EU, regional or global supranational institution or organisation, or by any country provided that conditions (a) to (e) above are fully complied with
- (iii) Shares or units issued by money-market funds that calculate a daily net asset value and have an AAA or equivalent credit rating
- (iv) The shares or units of UCITS that invest mainly in the bonds and/or equities indicated in (v) and (vi) below
- (v) Bonds issued or guaranteed by first-class issuers offering sufficient liquidity
- (vi) Equities admitted for trading or traded on a regulated exchange of an EU member country, on a stock exchange of an OECD member country or on a stock exchange of another country provided that conditions (a) to (e) above are fully complied with and that these equities are components of a major index.

Collateral discount policy

The Sub-fund's management company shall apply a discount to the collateral the Sub-fund accepts. The amount of these discounts will depend mainly on the following:

- the nature of the collateral asset
- the collateral's maturity (if applicable)
- the credit rating of the collateral issuer (if applicable).

Reinvestment of collateral

Non-cash collateral will not be sold, reinvested or pledged.

At the manager's discretion, cash collateral may either be:

- (i) deposited with an authorised institution
- (ii) invested in high-quality government bonds
- (iii) used for reverse repurchase transactions, provided that these are entered into with credit institutions that are subject to prudential supervision and that the fund is able to withdraw the total amount of its cash collateral and the accrued interest at any time
- (iv) invested in short-term money-market funds as defined in the guidelines for a common definition of European money-market funds.

All cash collateral that is reinvested must be invested in a diversified manner in compliance with the rules that apply to the acceptance of non-cash collateral.

RISK PROFILE

The shareholder's money will be mainly invested in the financial instruments selected by the management company. These instruments are subject to market trends and contingencies.

Shareholders in the Sub-fund will be mainly exposed to the following risks:

- Equity risk

The price of an equity security can increase or decrease in accordance with changes in the issuer's risk exposure or in the economic conditions of the market in which the security is traded. Equity markets are more volatile than fixed-income markets, where it is possible to estimate revenues for a certain period of time under the same macroeconomic conditions.

- Capital risk

The capital invested is not guaranteed. Investors therefore may not recover all or part of their initial investment, particularly in the event that the Benchmark Index posts a negative return over the investment period

- Liquidity risk (primary market)

The Sub-fund's liquidity and/or value may be adversely affected if, when the Sub-fund or a counterparty to a derivative financial instrument (DFI) is rebalancing its exposure, the underlying financial markets are restricted, closed, or subject to large bid/offer spreads. An inability, due to low trading volume, to execute the trades required to replicate the Benchmark Index may also adversely affect the subscription, conversion or redemption of shares.

- Liquidity risk (secondary market)

The Sub-fund's on-exchange price may deviate from its indicative net asset value. The liquidity of the Sub-fund's shares on an exchange may be adversely affected by a suspension or disruption in market operation, such as one of the following events:

- i) the calculation of the Benchmark Index is suspended or stopped and/or
- ii) the market(s) in the Benchmark Index's underlying assets is (are) suspended, and/or
- iii) a stock exchange cannot obtain or calculate the Sub-fund's indicative net asset value and/or
- iv) a market maker fails to comply with an exchange's rules and/or
- v) an exchange's IT, electronic or other system fails.

- Counterparty risk

The Sub-fund is exposed to the risk that a counterparty with which the Sub-fund has entered into a contract or transaction may go bankrupt or default on a settlement or other obligation. The Fund is mainly exposed to counterparty risk resulting from the use of derivative financial instruments (DFI) traded over the counter with Société Générale or some other counterparty. In compliance with UCITS regulations, exposure to counterparty risk (whether the counterparty is Société Générale or another entity), cannot exceed 10% of the Sub-fund's total assets per counterparty.

If a counterparty defaults on an obligation the DFI contract may be terminated before maturity. The Sub-fund will do everything in its power to achieve its investment objective by, if appropriate, entering into another DFI contract with another counterparty at the market conditions at the time of such an event. If this counterparty risk materialises it could have an impact on the Sub-fund's ability to achieve its investment objective of replicating the Benchmark Index.

Where Société Générale acts as the DFI counterparty, conflicts of interest may arise between the Sub-fund's Management Company and the DFI counterparty. The Management Company has procedures to identify and reduce such conflicts of interest and to resolve them equitably if necessary.

Daily leverage reset risk

The Fund may be exposed to a legal risk arising from a total return swap (TRS) agreement as indicated in EU Regulation NO. 2015/2365. They should note in particular that a decline in the underlying market will be amplified and will result a larger decrease in the Sub-fund's net asset value. Since the leverage in the Benchmark Index formula is reset daily the Sub-fund will not return twice as much as the Parent Index over a period of more than one trading day.

- Legal risk

The Sub-fund may be exposed to a legal risk arising from a total return swap (TRS) agreement as indicated in EU Regulation No. 2015/2365.

For example, if the Parent Index gains 10% on a given trading day and then declines 5% the next trading day, the Sub-fund will have gained of 8% (before fees) over these two days, while the Parent Index will have gained a total of 4.5%. If the Parent Index loses 5% a day over two consecutive trading days, the Sub-fund will have decreased a 19% (before fees) over this period while the Parent Index will have lost 9.75%.

Negative scenario 1		The leverage effect is greater than 2 and the Parent Index declines			
		Parent Index		Strategy Index	
		Performance day i	Value day i	Performance day i	Value day i
Day 1	10%	100		20%	100
Day 2	-11%	110	97.9	-22%	93.6
Total return	-2.10%			-6.40%	x3.05

Negative scenario 2		The leverage effect is less than 2 and the Parent Index rises			

	Parent Index		Strategy Index		
	Performance day i	Value day i	Performance day i	Value day i	Leverage effect
		100		100	
Day 1	-5%	95	-10%	90	x2
Day 2	6%	100.7	12%	100.8	x2
Total return	0.70%		0.80%		x1.14

Furthermore, if the Parent Index is highly volatile over a period of more than one day, the Sub-fund's net asset value may even fall although the Parent Index rises over this period.

<u>Inverse leverage scenario</u>	The leverage effect is negative over the period				
	Parent Index		Strategy Index		
	Performance day i	Value day i	Performance day i	Value day i	Leverage effect
		100		100	
Day 1	20%	120	40%	140	x2
Day 2	-16%	100.8	-32%	95.2	x2
Total return	0.80%		-4.80%		x-6

- Risk that the investment objective is not fully achieved

There is no guarantee of achieving the investment objective. There is no guarantee that the investment objective will be achieved, as no asset or financial instrument can ensure that the Benchmark Index will be automatically and continuously replicated, particularly in the event of one or more of the following risks:

- Risk of using derivative financial instruments

In order to achieve its investment objective and secure the performance of the Benchmark Index, the Sub-fund can enter into over-the-counter derivative financial instruments ("DFI"), such as swaps. This DFI involve various risks, such as counterparty risk, hedging disruption, Benchmark Index disruption, taxation risk, regulatory risk, operational risk and liquidity risk. These risks can materially affect a DFI and could lead to an adjustment or even the early termination of the DFI transaction, which could affect the Sub-fund's net asset value.

- Risk of a change in the tax regime

A change in the tax regime of a jurisdiction where the Sub-fund is domiciled, authorised for sale or listed could adversely affect the taxation of investors. In such an event, the Sub-fund manager will not be liable to any investor with respect to any payment that may have to be made to a competent tax authority.

- Risk of a change in the tax regime of the Fund's underlying assets

A change in a tax regime that applies to the Sub-fund's underlying assets could affect the tax treatment of the Sub-fund. As a result, in case of a discrepancy between the estimated and effective tax treatments applied to the Sub-fund and/or to the Sub-fund's counterparty to the DFI, the Sub-fund's net asset value may be affected.

- Regulatory risk affecting the Fund

In the event of a change in the regulatory regime in a jurisdiction where the Sub-fund is domiciled, authorised for sale or listed, the subscription, conversion or redemption of shares may be adversely affected.

- Regulatory risk affecting the Fund's underlying assets

In the event of a change in the regulations that govern the Sub-fund's underlying assets, the Sub-fund's net asset value and the subscription, conversion or redemption of shares or units may be adversely affected.

- Benchmark Index disruption risk

If an event adversely affects the Benchmark Index, the Fund manager may be required, in accordance with the applicable laws and regulations, to suspend the subscription and redemption of the Sub-fund's shares. The calculation of the Sub-fund's net asset value could also be adversely affected.

If the Benchmark Index disruption persists, the manager of the Sub-fund will determine the appropriate measures to be carried out, which could have an impact on the Sub-fund's net asset value.

A 'Benchmark Index event' includes but is not limited to the following situations:

- i) the Benchmark Index is deemed to be inaccurate or does not reflect actual market developments
- ii) the Benchmark Index is permanently cancelled by the index provider
- iii) the index provider is unable to indicate the level or value of the Benchmark Index
- iv) the index provider makes a material change in the Benchmark Index calculation formula or method (other than a minor modification such as an adjustment to the Benchmark Index's underlying components or their respective weightings) which the Sub-fund cannot effectively replicate at a reasonable cost
- v) a Benchmark Index component becomes illiquid because it is no longer traded on a regulated market or because its trading over-the-counter (e.g. bonds) is disrupted
- vi) the Benchmark Index components are exposed to higher transaction costs for execution or settlement/delivery, or to specific tax constraints and these costs are not reflected in the Benchmark Index's performance.

- Corporate action risk

An unforeseen change, by the issuer of a security that is a component of the Benchmark Index, in a planned corporate action that is in contradiction with a previous official announcement on which the Sub-fund based its valuation of the corporate action (and/or on which the Sub-fund's counterparty to a derivative financial instrument or transaction based its valuation of the corporate action) can adversely affect the Sub-fund's net asset value, particularly if the Sub-fund's treatment of the corporate event differs from that of the Benchmark Index.

- Index currency risk

The Sub-fund is exposed to currency risk, as the underlying securities composing the Benchmark Index may be denominated in a currency that is different from that of the Benchmark Index, or be derived from securities denominated in a currency different to that of the Benchmark Index. Exchange rate fluctuations can therefore have a negative impact on the benchmark index the Sub-fund tracks.

ELIGIBLE INVESTORS AND TYPICAL INVESTOR PROFILE

This Sub-fund is available to all investors .

Investors in this Sub-fund are seeking exposure to the performance of the US equity market, whether positive or negative.

The amount that you may reasonably invest in this sub-fund depends on your personal situation. To determine this amount, investors must take into account their personal wealth and/or estate, their cash requirements at present and for the next five years, and their willingness to take on risk or adopt a more cautious approach. Investors are also advised to diversify their investments sufficiently so as not to be exposed solely to this sub-fund's risks.

All investors are therefore asked to consider their specific situation with the help of their usual investment advisor.

The recommended minimum investment period is at least five years.

CALCULATION AND ALLOCATION OF DISTRIBUTABLE AMOUNTS

Acc share class: all distributable amounts are accumulated

DISTRIBUTION FREQUENCY

If distribution is decided, The management company reserves the right to distribute distributable amounts in one or more annual distributions.

SHARE CHARACTERISTICS

The Acct class shares will be issued at a price that is equivalent to the net asset value of the corresponding absorbed unit class on the day the Lyxor Nasdaq-100 Daily (2x) Leveraged UCITS ETF is merged.

Subscription orders may be placed for a specific monetary amount or for a whole number of shares.

Redemptions will be made in whole numbers of shares.

UNIT CURRENCY

	Acc share class
Currency	Euros

SUBSCRIPTION AND REDEMPTION

1. SUBSCRIPTION AND REDEMPTION ON THE PRIMARY MARKET

Orders to subscribe for or redeem shares in the Sub-fund will be processed by the Depositary, from 10.00 am to 6.30 pm (Paris time), every day that the Sub-fund's net asset value is to be published, provided that prices are quoted for a significant proportion of the Benchmark Index components (hereinafter a "**Primary Market Day**") and will be executed at the net asset value on that Primary Market Day (hereinafter the "**reference NAV**"). Subscription/redemption orders submitted after 6.30 pm (Paris time) on a Primary Market Day will be processed as if received from 10.00 am to 6.30 pm (Paris time) on the following Primary Market Day. Orders to subscribe for or redeem shares in the Sub-fund must be made for a whole number of shares that represents at least 100,000 euros.

Subscriptions/redemptions in cash:

Subscriptions and redemptions shall be made exclusively in cash and executed at the ref NAV.

Delivery and settlement.

Settlement/delivery of subscriptions and redemptions shall be completed within five French business days upon receipt of the subscription or redemption order.

Date and frequency of net asset value calculation

The net asset value will be calculated and published each day that the Sub-fund's net asset value is to be published, provided that the market on which the Sub-fund's shares are traded is open and that orders placed in the primary and secondary markets can be funded.

The Sub-fund's net asset value is calculated using the Benchmark Index's closing price. The Sub-fund's net asset value is denominated in EUR.

The net asset value of a share class that is denominated in another currency than the Fund's accounting currency (if applicable) is calculated using the exchange rate between the accounting currency and the currency of the share class, at the applicable WM Reuters rate on the date the reference NAV is calculated.

2. PURCHASES AND SALES ON THE SECONDARY MARKET

A. COMMON PROVISIONS

Purchases and sales of Sub-fund shares made directly on an exchange on which the Sub-fund is or will be listed and continuously traded will be subject to no minimum purchase/sale requirements other than those of the relevant exchange(s).

Shares in a listed sub-fund that are purchased on the secondary market cannot generally be directly sold back to that sub-fund. Investors must therefore buy and sell their shares on a secondary market through an intermediary (e.g. a broker) and may consequently incur costs. It is also possible that investors may pay more than the indicative net asset value when buying shares and receive less than the indicative net asset value when selling shares.

If the stock market value of a listed Sub-fund's shares or units differs significantly from their indicative net asset value, or if trading in the Sub-fund's share or units is suspended, investors may be allowed, subject to the conditions set forth below, to redeem their shares on the primary market directly from the listed Sub-fund, without being subject to the minimum redemption amount requirement set forth herein in the section entitled " SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)".

The management company shall decide whether to allow such primary market redemptions and for how long, on the basis of the following criteria for assessing the significance of a market disruption:

- The suspension or strong disturbance of secondary trading on a given exchange is relatively frequent.
- The link between the market disruption and secondary market operators (such as the default of one or more of the Market Makers of a given exchange, or a breakdown or malfunction of an exchange's IT or operating systems), excluding a disruption caused by a source external to the secondary exchange on which the Sub-fund's shares are traded such as an event that affects the liquidity and valuation of all or some of the Benchmark Index's components
- Any other objective circumstance that could adversely affect the fair treatment and/or the interests of the Sub-fund's shareholders.

Notwithstanding the provisions concerning fees presented in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)", redemptions made in the primary market in this case shall only be subject to a net redemption fee of 1.00% paid to the Sub-fund and which serves to cover its trading costs.

In such exceptional cases when redemption in the primary market is allowed, the management company will post on Lyxor's website at www.lyxor.etf.com the procedure that investors must observe to redeem their shares in the primary market. The Management Company shall also make this procedure available to the market undertaking that handles trading in the Sub-fund's shares.

B. SPECIAL PROVISIONS

a) If the Sub-fund's shares are listed on Euronext Paris (as indicated in the "Key Information" section) investors should note the following rules

Negotiability of shares and information about the financial institutions acting as Market Makers:

The shares shall be freely negotiable on the Euronext Paris regulated market subject to the following conditions and the applicable laws and regulations.

The Sub-fund shares will be listed on a specific trading list, the rules of which are defined in the following instructions published by Euronext Paris SA:

- Instruction No. 4-01 "Universal Trading Platform Manual"
- Appendix to Instruction N4-01 (Appendix to the Euronext Market Trading Manual)
- Instruction No. 6-04 "Documentation to be provided when filing a listing application for an ETF, ETN, ETV and open-ended undertakings for collective investment other than ETFS"

Pursuant to article D 214-22-1 of the French monetary and financial code the units or shares of undertakings for collective investments in transferable securities may be admitted to trading, provided that these undertakings have a system to ensure that the market price of their units or shares does not differ significantly from their net asset value. Under Euronext Paris' rules trading in the Sub-fund's shares is also subject to a 'reservation threshold' of 3% above or below the Sub-fund's Indicative Net Asset Value or "iNAV" (see the "Indicative Net Asset Value" section), as published by Euronext Paris SA and updated on an estimated basis during trading in accordance with the change in the Benchmark Index.

To comply with Euronext Paris SA's reservation thresholds (see the "Indicative Net Asset Value" section) the Market Makers will ensure that the market price of the Sub-fund's shares does not differ from the Sub-fund's indicative Net Asset Value by more than 3%.

Euronext Paris SA may suspend trading in the Sub-fund's units pursuant to the terms of its operating rules, if the aforementioned reservation threshold limit is exceeded.

Euronext Paris SA will also suspend trading in the Sub-fund's shares in the following cases:

- the Benchmark Index is no longer traded or calculated
- Euronext Paris SA cannot obtain the Benchmark Index's level
- Euronext Paris SA cannot obtain the Sub-fund's net asset value.

In accordance with the terms and conditions governing admission to trading on Euronext Paris, the Market Makers undertake to provide market-making services for the Sub-fund's shares as soon as they are admitted to trading on the Euronext Paris exchange.

In particular, the Market Makers undertake to carry out market-making operations by maintaining a significant presence in the market, which initially entails the setting of a bid/ask spread.

More specifically, the Market Makers are required by contract with Euronext Paris SA to ensure that the Sub-fund maintains:

- a maximum global spread of 3% between the bid and offer price in the centralised order book
- a minimum nominal trading value of EUR 100,000.

The obligations of the Sub-fund's Market Makers will be suspended in the following cases:

- the Benchmark Index is no longer traded or calculated
- If trading is substantially disrupted, for example due to a widespread shift in prices or an event that makes normal market making impossible.

Indicative net asset value

Euronext Paris SA will calculate and publish, each Trading Day (as defined below) during trading hours, the Sub-fund's indicative net asset value (hereinafter the "iNAV"). The iNAV is a measure of the intra-day value of the Sub-fund's net asset value based on the most recent data. The iNAV is not the value at which investors buy and sell shares in the Sub-fund on the secondary market.

A "Trading Day" is a day on which Euronext is normally open and on which the Benchmark Index is normally published.

The Sub-fund's iNAV is a theoretical net asset value calculated every 15 seconds by Euronext SA throughout the Paris trading day and is based on the level of the Benchmark Index. The iNAV enables investors to compare the prices that the Market Makers offer on the market with the theoretical value calculated by Euronext.

The iNAV will be calculated every day that the net asset value is calculated and published.

For the calculation of the Sub-fund's iNAV during the Paris trading session (from 9.05 am to 5.35 pm), Euronext Paris SA will use the Benchmark Index value provided by Reuters.

If one or more stock exchanges on which the Benchmark Index's constituent equities are listed are closed (on a public holiday as indicated on the TARGET calendar), and if the INAV cannot be calculated, trading in the Sub-fund's shares may be suspended.

Lyxor International Asset Management, the Sub-fund's management company, will provide Euronext Paris SA with all the financial and accounting data it needs to calculate the Sub-fund's iNAV and in particular:

- The day's estimated net asset value
- The official net asset value of the previous business day
- The level of the Benchmark Index on the previous business day.

These data will serve as a basis for Euronext Paris SA's calculations to determine the Sub-fund's iNAV in real time every Trading Day.

Additional information about the indicative net asset value of a share listed on a regulated market may, depending on the terms and limits set by the relevant market undertaking, be provided on the website of the exchange where the share is listed. This information is also available on the Reuters or Bloomberg pages dedicated to the particular share. Additional information about Bloomberg and Reuters codes corresponding to the indicative net asset value of UCITS ETF type shares is also available in the "Term Sheets" section of Lyxor's website at www.lyxoretf.com.

b) **If the Sub-fund's shares are listed on an exchange other than Euronext Paris (as indicated in the "Key Information" section) investors should note the following**

Investors wishing to acquire shares in the Sub-fund or obtain more information regarding the market-making terms that govern the listing and trading of shares on the types of exchanges indicated in the "Key Information" section are advised to familiarise themselves with the guidelines laid down by the relevant market undertaking in compliance with local regulations, and to seek if necessary the assistance of their usual broker(s) for executing trades on the relevant exchange(s).

FEES AND CHARGES

SUBSCRIPTION AND REDEMPTION FEES (CHARGED ONLY ON PRIMARY MARKET TRANSACTIONS)

Subscription and redemption fees increase the subscription price paid by investors and reduce the redemption price. Fees kept by the Sub-fund compensate it for the expenses it incurs in investing in the Sub-fund's assets or in divesting these assets. Any fees that are not kept by the Sub-fund are paid to the management company, marketing agent, or other service provider.

Fees paid by investors upon subscription or redemption	<u>BASE</u>	Maximum charge
Subscription fee not kept by the Sub-fund	Net asset value x number of shares	The higher value of either EUR 50,000 per subscription order or 5% payable to third parties
Subscription fee kept by the Sub-fund	Net asset value x number of shares	N/A.
Redemption fee not kept by the Sub-fund	Net asset value x number of shares	The higher value of either EUR 50,000 per redemption order or 5% of payable to third parties
Redemption fee kept by the Sub-fund	Net asset value x number of shares	N/A.

No subscription or redemption fee will be charged for any purchase or sale of Sub-fund shares on an exchange where the Fund is listed

OPERATING AND MANAGEMENT FEES

These fees cover all the costs invoiced directly to the Sub-fund, except for transaction expenses, which include intermediary fees (brokerage, stock market taxes etc.) and any account activity fee that may be charged by the depositary or the management company.

For this Sub-fund the following fees may be charged in addition to the operating and management fees (see table below):

- Incentive fees, which the Sub-fund pays to the management company when the Sub-fund exceeds its objectives
- Account activity fees charged to the Sub-fund.

For more information on the fees or expenses that are actually charged to the Sub-fund see the Statistics section of the Key Investor Information Document (KIID).

Fees charged to the Sub-fund	Base	Maximum charge
Investment management fees and administration fees that are external to the management company ⁽¹⁾	Net asset value	0.60% annual
Maximum indirect expenses (management expenses and fees)	Net asset value	N/A
Account activity fee	Charged on each transaction	N/A
Incentive fee	Net asset value	N/A

(1) Includes all fees and expenses except for transaction expenses, incentive fees and fees associated with investment in UCITS.

COMMERCIAL INFORMATION

Distribution of this prospectus and the offer or purchase of the Fund share classes may be subject to restrictions with regard to certain persons or in certain countries by virtue of national regulations applying to such persons or such countries. Each investor is therefore responsible for ensuring that he or she is authorised to subscribe to or invest in this Fund. As a result, the information contained in this prospectus cannot be understood as constituting an offer or solicitation to buy or sell shares in this Fund in a country where such offer or solicitation is unlawful.

The Fund's share classes will not be registered pursuant to the US Securities Act of 1933, as amended (the "US Securities Act") and cannot be offered, assigned, transferred or allocated to the United States of America, or to:

- (A) any "US Person", as this term is defined (i) under Regulation S of the US Securities Act of 1933 and (ii) under US regulations as defined in Section 7701 (a) (30) of the Internal Revenue Code of 1986 as amended. The Sub-fund's shares will not be offered to US Persons.
- (B) anyone other than those persons considered to be "non-US Persons" as this term is defined under US regulations pursuant to the Commodity Futures Trading Commission, Rule 4.7 (a) (1) (iv).

The Sub-fund's shares will only be offered for sale outside of the United States of America to non-US Persons.

For the purpose of this document, the term "US Person" shall mean, among other things, any individual who resides in the United States of America, any entity organised or formed under the laws of the United States of America, certain entities organised or formed outside of the United States of America by one or more US persons, or any account held on behalf of such a US person.

Under the German tax act on investment funds (InvStG-E), the Sub-fund is a "mutual fund" and must comply with the criteria that apply to "equity funds". As such, the Sub-fund will hold a basket of securities that are eligible for the equity ratio as this term is defined under said German tax act, and which will represent at least 91% of its net assets under normal market conditions. To ensure compliance with this ratio, the Sub-fund may adjust this basket of securities on a daily basis.

Before making an investment in this Fund or this Sub-fund, investors should seek the advice of their financial, tax and legal advisers.

PLACE AND METHOD OF NET ASSET VALUE PUBLICATION OR COMMUNICATION

At the head office of LYXOR INTERNATIONAL ASSET MANAGEMENT, at 17, cours Valmy - 92987 Paris La Défense CEDEX - France.

The Sub-fund's net asset value will be calculated and published every Trading Day.

IMPORTANT INFORMATION ABOUT THE INDEX PROVIDER

The LYXOR NASDAQ-100 DAILY LEVERAGE UCITS ETF fund (the "Product") is not sponsored, endorsed, sold or promoted by "The Nasdaq Stock Market", Inc., which together with its affiliates are hereinafter referred to as the "Companies". The Companies have not verified the legality or relevance of the Product, nor the accuracy and suitability of the descriptions and representations made in relation to the Product. The Companies do not expressly or implicitly provide any warranties or guarantees to Product unit-holders or to anyone whomsoever regarding the advisability of purchasing securities in general or more specifically of investing in the Product, or regarding the NASDAQ-100 Index®'s capacity to track the performance of equities markets. The only relationship between the Companies and LYXOR INTERNATIONAL ASSET MANAGEMENT (the "Licensee") is a license agreement to use Nasdaq®, Nasdaq-100® and Nasdaq-100 Index® trademarks and certain other trade names that belong to the Companies, and to use the Nasdaq-100 Index®, which Nasdaq has created, constructed and calculated independently of the Licensee and the Product. Nasdaq is not bound in any way to take the Licensee's needs or those of the Product holders into consideration in determining, constructing or calculating the Nasdaq-100 Index®. The Companies are not responsible for and were not involved in determining the Product issuance schedule, prices or quantities or in selecting the calculation formulas or making the calculations necessary to convert the Product into cash. The Companies are in no way responsible for the administration, sale or trading of the Product.

ADDITIONAL INFORMATION

The Sub-fund's shares are admitted to trading by Euroclear France S.A.

Subscription and redemption orders are sent by investors' financial intermediaries (members of Euroclear France S.A.) to the Depositary.

The Sub-fund's prospectus, the Key Investor Information Document, the most recent annual documents and the asset inventory will be sent to investors within eight business days upon receipt of a written request addressed to:

LYXOR INTERNATIONAL ASSET MANAGEMENT
17 Cours Valmy - 92987 Paris La Défense France.

E-mail: contact@lyxor.com

More information can also be requested from Lyxor International Asset Management on its website at www.lyxoretf.com.

Prospectus publication date: see the "Publication Date" section.

Pursuant to Article L.533-22-1 of the French monetary and financial code, information concerning the Management Company's possible inclusion of social, environmental and corporate governance objectives and performance criteria in its investment policy is available on the management company's website and in the Multi Units France annual report.

The AMF's website (www.amf-france.org) provides additional information on the list of regulatory documents and on all provisions relating to investor protection. This Prospectus must be made available to investors prior to subscription.

INVESTMENT RULES

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

The Sub-fund may invest in the assets indicated in Article L214-20 of the French monetary and financial code, subject to the risk-diversification and investment ratio requirements of Articles R214-21 to R214-27 of said code.

Notwithstanding the 10% limit under Paragraph II of Article R214-21 of the French monetary and financial code, the Sub-fund may invest up to 20% of its assets in the equities and debt securities of a single issuer, in compliance with Article R214-22-I, which deals with index-tracking funds. Pursuant to Article R214-22 II, the Sub-fund may also increase this 20% limit for a single issuer to 35%, when this is shown to be justified by exceptional market conditions, and in particular when certain securities are largely dominant.

OVERALL RISK EXPOSURE

The commitment approach is used to calculate the overall risk exposure.

ASSET VALUATION AND ACCOUNTING RULES

A. VALUATION RULES

The Sub-fund's assets are valued in accordance with applicable laws and regulations and most notably Regulation NO. 2014-01 of 14 January 2014 of the Comité de la Réglementation Comptable (the Accounting Regulations Committee), which applies to the chart of accounts for UCITS investment funds.

Financial instruments traded on a regulated market are valued at the closing price recorded on the day prior to the calculation of the net asset value. If these financial instruments are traded on several regulated markets at the same time, the closing price used is that recorded on the regulated market on which they are principally traded.

However, in the absence of significant trading on a regulated market, the following financial instruments are valued using the following methods:

- Negotiable debt securities ("NDS") with a remaining life upon acquisition that is less than or equal to three months are valued by applying the difference between the acquisition value and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc.). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- NDS with a remaining life of more than three months upon acquisition but less than or equal to three months at the net asset value calculation date are valued by applying the difference between the most recent valuation and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc.). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- NDS with a remaining life at the net asset value calculation date that exceeds three months are valued at their current value. The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- Financial futures traded on organised markets are valued at the clearing price on the day prior to the calculation of the net asset value. Options traded on organised markets are valued at their market price on the day prior to the calculation of the net asset value. Forward contracts and over-the-counter options are valued at the price quoted by the counterparty. The management company monitors these prices independently.
- Bank deposits are valued at their nominal value plus accrued interest.
- Warrants, short and medium-term notes (bons de caisse), promissory notes and mortgage notes are valued under the management company's responsibility at their most likely trading value.
- Securities financing transactions are valued at the market price.
- Shares and units in UCITS under French law are valued at the last known net asset value on the day the Sub-fund's net asset value is calculated.
- Shares and units in foreign investment funds are valued at the last known net asset value at the date the Sub-fund's net asset value is calculated.
- Financial instruments traded on a regulated market and for which no price has been quoted or whose price has been corrected, are valued under the management company's responsibility at their most likely trading value.
- The exchange rates used to value financial instruments denominated in a currency other than the Sub-fund's base currency are the WM Reuters fixing rates on the day the Sub-fund's net asset value is calculated.

B. ACCOUNTING METHOD FOR TRADING EXPENSES

Trading expenses are included in the initial cost of the transaction.

C. ACCOUNTING METHOD FOR INCOME FROM FIXED-INCOME SECURITIES

Income from fixed-income securities is accounted for using the cash-basis method.

D. DISTRIBUTION POLICY

For more information see the section entitled "Calculation and Allocation of Distributable amounts"

E. ACCOUNTING CURRENCY

The Sub-fund's accounts are kept in euros.

SUB-FUND NO. 38: LYXOR PEA PME (DR) UCITS ETF

A SICAV SUB-FUND COMPLIANT WITH DIRECTIVE 2009/65/EC

ISIN CODE

Dist share class: FR0011770775

CLASSIFICATION

Eurozone country equities.

The Lyxor PEA PME (DR) UCITS ETF sub-fund (the “**Sub-fund**”) continuously maintains at least 60% exposure to the equity markets of one or more eurozone countries, including the French equity market.

The Sub-fund is a UCITS ETF index-tracker.

INCEPTION DATE

This Sub-fund was approved by l’Autorité des Marchés Financiers on 08/02/2018 and will be created on 23/03/2018.

INVESTMENT OBJECTIVE

The Sub-fund’s objective is to replicate the performance, whether positive or negative, of the CAC PME GR index (the “**Benchmark Index**”), denominated in euros (EUR), while minimising the tracking error between the Sub-fund’s performance and that of its Benchmark Index. This index is representative of SME and intermediate size companies listed on the Euronext Paris exchange that are eligible for PEA PME savings plans.

The expected ex-post tracking error under normal market conditions is 0.30%.

BENCHMARK INDEX

The Benchmark Index is the CAC PME GR index.

The Benchmark Index is a proxy for the performance of the highest-rated SME and intermediate size companies listed on the Euronext Paris exchange, which are selected on the basis of their liquidity and “SME” criteria.

The Benchmark Index is composed of 20 to 40 equities that are representative of the highest-rated small-cap, mid-cap and intermediate size companies listed on the Euronext Paris exchange.

It is weighted by modified market capitalisation, with no single component exceeding 7.5% of the index and no economic sector exceeding 25%.

The Benchmark Index is rebalanced quarterly over a five-day period. On each rebalancing date eligible securities will be selected if they meet all of the following criteria:

- a “liquidity factor” that is based on the average daily trading volume over a 3-month period and 1% of the float-adjusted market capitalisation
- “SME criteria”, whereby:
 - the issuer of the securities must have from 250 to 4,999 employees
 - the issuer’s annual sales must not exceed 1.5 billion euros and its total assets must not be less than two billion euros.

The Benchmark Index is with gross dividends reinvested, which means that the performance of its components includes the reinvestment of gross dividends and all other distributions.

Benchmark Index publication

Real-time Benchmark Index values are available via Bloomberg and Reuters.

Reuters code: . CACPG

Bloomberg code: CACPG Index

The performance tracked is that of the Benchmark Index’s closing price.

The complete methodology is available at www.euronext.com

Pursuant to Article 52 of European Parliament and Council Regulation 2016/1011 of 8 June 2016, Euronext Paris S.A., the administrator of the CAC PME GR benchmark index, has until 1 January 2020 to apply for approval or registration as applicable.

As of the date of the most recent version of this prospectus, the benchmark index administrator was not yet listed in ESMA’s register of benchmark administrators.

Pursuant to European Parliament and Council Regulation 2016/1011 of 8 June 2016, the asset management company has a procedure for monitoring the benchmark indices used that specifies the measures to be implemented if an index is substantially modified or is no longer provided.

Benchmark Index composition and revision

The Benchmark Index is rebalanced quarterly, over a 5-day period.

A full description and the complete methodology used to construct the Benchmark Index and information on the composition and respective weightings of the Benchmark Index components are available on the Internet at www.euronext.com

The frequency of this rebalancing does not affect the cost of implementing the Investment Strategy.

INVESTMENT STRATEGY

1. Strategy employed

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund will employ a direct replication method, which means that the Sub-fund will mainly invest in the securities that underlie the Benchmark Index.

In order to optimize the direct replication method that is used to track the Benchmark Index, the Sub-fund, represented by its delegated asset manager, may decide to employ a “sampling” technique that consists in investing in a selection of representative Benchmark Index constituents in order to reduce the costs of investing directly in all of the various Benchmark Index constituents. This sampling technique could cause the Sub-fund to invest in a selection of representative Benchmark

Index securities (and not in all of them) in proportions that do not reflect their weight within the Benchmark Index, and even to invest in securities that are not constituents of the Benchmark Index

On an ancillary basis, and once again to ensure the highest possible correlation with the performance of the Benchmark Index, the Sub-fund may also enter into contracts involving derivative financial instruments ("DFI"). These transactions could for example be futures contracts on indices and/or swaps for hedging purposes and in particular to minimise the Sub-fund's tracking error.

The Lyxor website at www.lyxoretf.com features a page dedicated to the Sub-fund, which among other things explains the direct index replication method selected, i.e. either full replication of the Benchmark Index or sampling to limit replication costs. The frequency of any updates and/or the date on which the aforementioned information is updated is also indicated on the same page of the aforementioned website.

The Sub-fund will also continuously comply with INSEE's eligibility criteria for inclusion in a PEA-PME savings plan, which require that the issuer's workforce not exceed 5,000 employees, that its annual revenue not exceed 1.5 billion euros and that its total assets not be less than two billion euros.

In managing its exposure, no more than 20% of the Sub-fund's assets may be exposed to the equities of a given issuer. This 20% limit will be checked on each Benchmark Index rebalancing date using the Benchmark Index calculation method which limits exposure to a given issuer's equities to 20%, this calculation being performed by the Benchmark Index sponsor or calculation agent. This 20% limit may be increased to 35% for a given issuing entity when this is shown to be justified by exceptional market conditions, in particular when certain securities are largely dominant and/or in the event of strong volatility affecting a financial instrument or securities linked to an economic sector represented in the Benchmark Index. This could be the case, for example, in the event of a public offering that substantially affects a Benchmark Index security or in the event of a significant drop in the liquidity of one or more of the Benchmark Index's financial instruments.

To optimise the Sub-fund's management, the manager reserves the right to use other instruments in accordance with the applicable regulations in order to achieve its investment objective.

2. Balance sheet assets (excluding embedded derivatives)

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

The Sub-fund will mainly be invested in the securities that make up the Benchmark Index.

The Sub-fund will at all times invest at least 75% of its assets in companies having their registered office in a member state of the European Union or in another country that is a member of the European Economic Area and which have signed a tax convention with France that includes an administrative assistance clause for the purpose of fighting tax fraud and evasion. This minimum investment requirement qualifies the Fund for French 'PEA' equity savings plans.

Investment in undertakings for collective investment in transferrable securities ("UCITS") that comply with Directive 2009/65/EC is limited to 10% of the Sub-fund's net assets. In respect of these investments, the Sub-fund may invest in the units or shares of UCITS managed by the management company or by a company that is related to the management company. The fund manager will not invest in the shares or units of alternative investment funds (AIF) or other investment funds that were formed under a foreign law.

When the Sub-fund receives collateral in the form of securities, subject to the terms of section 8 below, it acquires full title to these securities and they are therefore included among the balance sheet assets to which it has full title.

3. Off-balance sheet assets (derivatives)

On an ancillary basis, the Sub-fund may engage in transactions involving derivatives traded on a regulated market or over the counter.

If over-the-counter derivatives are used, in keeping with its best execution policy, the management company considers that Société Générale would be the counterparty that is generally able to obtain the best possible execution for these derivative financial instruments which would be used for hedging purposes in accordance with the Sub-fund's investment strategy. Accordingly, all or some of these derivatives (including index-linked swaps) may be traded with Société Générale without having to seek a competitive bid from another counterparty.

4. Securities with embedded derivatives

N/A.

5. Cash deposits

In order to optimise its cash management, the Sub-fund may deposit funds representing up to 20% of its net assets with lending institutions that belong to the same group as the depository/custodian.

6. Cash borrowing

The Sub-fund may temporarily borrow up to 10 % of its net assets.

7. Securities financing transactions

The Sub-fund may use various techniques to manage its portfolio efficiently in compliance with Article R214-18 of the French monetary and financial code, including the temporary sale and repurchase of securities.

- Maximum proportion of assets under management for which securities financing transactions may be entered into: 250% of assets under management.
- Expected proportion of assets under management for which securities financing transactions may be entered into: up to 20%.
-

For this purpose the management company may appoint an intermediary (hereinafter the "Agent) to provide the following services in connection with the Sub-fund's temporary disposals of securities. If such an Agent is used it may be authorised to (i) lend securities, on the Sub-fund's behalf, under framework agreements, such as global master securities lending agreements (GMSLA) and/or any other internationally recognised framework agreement, and (ii) invest, on the Sub-fund's behalf, any liquid assets received as collateral for these securities lending transactions, subject to the restrictions specified in the securities lending agreement, the rules of this prospectus and the applicable regulations.

The Sub-fund shall be entitled to all income from such temporary disposal of securities, net of any direct and indirect operating costs. These operating costs, which are incurred to manage the portfolio more efficiently, may be borne by the Sub-fund's management company, the Agent and/or other intermediaries that are involved in these transactions. These direct and indirect operating costs will be calculated as a percentage of the Sub-fund's gross income. More information on these operating costs and on the entities to which these costs are paid will be provided in the Multi Units France fund's annual report.

All income obtained from the lending of securities (from which must be deducted all direct and indirect operating costs borne by the Agent and if applicable by the management company) shall be paid to the relevant Sub-fund. Since these direct and indirect costs do not increase the Sub-fund's overall operating expenses they have been excluded from ongoing expenses.

The Multi Units France annual report will provide the following information when applicable:

- the exposure resulting from the use of efficient portfolio management techniques/transactions
- the identity of the counterparty(ies) involved in these transactions
- the nature and amount of any collateral received to reduce the Sub-fund's counterparty risk, and;
- the income generated by efficient portfolio management techniques over the relevant period, and any associated direct and indirect operating costs or expenses.

8. Collateral

Whenever the investment strategy exposes the Sub-fund to counterparty risk, and in particular when the Sub-fund engages in securities financing transactions, the Sub-fund may accept eligible securities as collateral to reduce the counterparty risk associated with these transactions. The portfolio of collateral received may be adjusted daily to ensure that its value is at least sufficient to cover the Sub-fund's counterparty risk in most cases. The purpose of this adjustment is to neutralise the Sub-fund's counterparty risk.

The Sub-fund will have full title to all collateral received, which will be deposited in the Sub-fund's account with the depositary. This collateral will therefore be included in the Sub-fund's assets.

All collateral the Sub-fund receives for this purpose must comply with the applicable laws and regulations, with respect in particular to liquidity, valuation, the credit-worthiness of securities issuers, correlation, and the risks of collateral management and enforceability. All collateral received must in particular meet the following criteria:

- (a) All collateral must be of high quality, be highly liquid and tradable on a regulated market or on a multilateral trading facility, with transparent pricing to enable the collateral to be rapidly sold near its estimated price
- (b) This collateral must be valued at its mark-to-market price at least daily and assets with highly volatile prices are not acceptable as collateral, unless a sufficiently prudent discount or "haircut" is applied;
- (c) The issuer of this collateral must be independent of the counterparty and must not be closely correlated with the counterparty's financial performance;
- (d) Collateral must be sufficiently diversified in terms of country, market and issuer, with exposure to any single issuer not exceeding 20% of the Sub-fund's net asset value ;
- (e) Collateral must be immediately enforceable by the Sub-fund's management company without informing the counterparty and without its approval.

Notwithstanding the condition specified in (d) above, the Sub-fund may accept a basket of securities collateral that increases its exposure to a single issuer to more than 20% of its net asset value provided that:
such securities collateral is issued by (i) a Member State, (ii) one or more of a Member State's local authorities, (iii) a country that is not a Member State (iv) a public international organisation to which one or more Member States belong; and;
such securities collateral consists of at least six different issues of securities of which no single issue exceeds 30% of the Sub-fund's assets.

In accordance with the above conditions the collateral the Sub-fund accepts may consist of:

- (i) Cash and cash-equivalent assets, which for example include short-term bank deposits and balances and money-market instruments
- (ii) Bonds issued or guaranteed by an OECD member state, or by its local government entities, or by an EU, regional or global supranational institution or organisation, or by any country provided that conditions (a) to (e) above are fully complied with
- (iii) Shares or units issued by money-market funds that calculate a daily net asset value and have an AAA or equivalent credit rating
- (iv) The shares or units of UCITS that invest mainly in the bonds and/or equities indicated in (v) and (vi) below
- (v) Bonds issued or guaranteed by first-class issuers offering sufficient liquidity
- (vi) Equities admitted for trading or traded on a regulated exchange of an EU member country, on a stock exchange of an OECD member country or on a stock exchange of another country provided that conditions (a) to (e) above are fully complied with and that these equities are components of a major index.

Collateral discount policy

The Sub-fund's management company shall apply a discount to the collateral the Sub-fund accepts under securities financing agreements. The amount of these discounts will depend mainly on the following:

- The nature of the collateral asset
- The collateral's maturity (if applicable)
- The credit rating of the collateral issuer (if applicable)

A higher discount may be applied to collateral received in a currency other than the euro.

Reinvestment of collateral

Non-cash collateral will not be sold, reinvested or pledged.

At the manager's discretion, cash collateral may either be:

- i) deposited with an authorised institution
- ii) invested in high-quality government bonds

- iii) used for reverse repurchase transactions, provided that these are entered into with credit institutions that are subject to prudential supervision and that the fund is able to withdraw the total amount of its cash collateral and the accrued interest at any time
- iv) invested in short-term money-market funds as defined in the guidelines for a common definition of European money-market funds.

All cash collateral that is reinvested must be invested in a diversified manner in compliance with the rules that apply to the acceptance of non-cash collateral.

RISK PROFILE

The shareholder's money will be mainly invested in the financial instruments selected by the management company. These instruments are subject to market trends and contingencies.

Shareholders in the Sub-fund will be mainly exposed to the following risks:

- Equity risk

The price of an equity security can increase or decrease in accordance with changes in the issuer's risk exposure or in the economic conditions of the market in which the security is traded. Equity markets are more volatile than fixed-income markets, where it is possible to estimate revenues for a certain period of time under the same macroeconomic conditions.

- Low Benchmark Index Diversification risk

Since the index to which investors are exposed represents a given region, sector and strategy it may provide less diversification of assets in comparison with a broader index that is exposed to two or more regions, sectors or strategies. Exposure to such a less-diversified index may result in higher volatility than exposure to more diversified markets. However, the Sub-fund's underlying securities shall be subject to the diversification rules of UCITS directives.

- Capital risk

The capital invested is not guaranteed. Investors therefore may not recover all or part of their initial investment, particularly in the event that the Benchmark Index posts a negative return over the investment period

- Liquidity risk (primary market)

The Sub-fund's liquidity and/or value may be adversely affected if, when the Sub-fund or a counterparty to a derivative financial instrument (DFI) is rebalancing its exposure, the underlying financial markets are restricted, closed, or subject to large bid/offer spreads. An inability, due to low trading volume, to execute the trades required to replicate the Benchmark Index may also adversely affect the subscription, conversion or redemption of shares.

- Benchmark Index tracking risk

Replicating the performance of the Benchmark Index by investing in all of its constituents may prove to be extremely difficult or costly. The Sub-Fund's asset manager may therefore use various optimisation techniques, such as 'sampling', which consists in investing in a selection of representative securities (and not all securities) that constitute the Benchmark Index in proportions that differ from those of the Benchmark Index, or even investing in securities that are not Benchmark Index constituents or derivatives. The use of such optimisation techniques may increase the ex post tracking error and cause the Sub-Fund to perform differently from the Benchmark Index.

- Liquidity risk (secondary market)

The Sub-fund's on-exchange price may deviate from its indicative net asset value. The liquidity of the Sub-fund's shares on an exchange may be adversely affected by a suspension of or disruption in market operation, such as one of the following events:

- i) the calculation of the Benchmark Index is suspended or stopped, and/or
- ii) the market(s) in the Benchmark Index's underlying assets is (are) suspended, and/or
- iii) a stock exchange cannot obtain or calculate the Sub-fund's indicative net asset value and/or
- iv) a market maker fails to comply with an exchange's rules and/or
- v) an exchange's IT, electronic or other system fails.

- Counterparty risk

If over-the-counter derivative financial instruments or efficient portfolio management techniques are used, the Sub-fund may be particularly exposed to counterparty risk. In this case, the Sub-fund could be exposed to the risk that a counterparty with which it has entered into a contract or transaction may go bankrupt or default on a settlement or other obligation.

If a counterparty defaults on an obligation the DFI contract may be terminated before it matures. Where Société Générale is the counterparty to a DFI, a conflict of interests may arise between the Sub-fund's management company and the DFI counterparty. The management company has procedures to identify and reduce such conflicts of interest and to resolve them equitably if necessary.

- Risk arising from securities financing transactions

If a borrower of securities defaults on its obligation there could be a risk that the value of the collateral received by the Sub-fund is less than the value of the securities lent. This risk could arise, for example, in the event of (i) an inaccurate valuation of the securities lent and/or (ii) unfavourable market movements and/or (iii) the lowering of the credit rating(s) of the issuer(s) of securities taken as collateral and/or (iv) the illiquidity of the market in which the collateral received is listed. If cash collateral is reinvested this could (i) result in leverage that entails a risk of loss and volatility and/or (ii) expose the Sub-fund to a market that is inappropriate for its investment objective, and/or (iii) generate less income than the amount of collateral the Sub-fund must repay. The Sub-fund could also fail to receive the securities lent by the date specified, which would diminish its capacity to accommodate investor redemptions.

- Derivatives risk

On an ancillary basis, the Sub-fund may invest in Derivative Financial Instruments ("DFI") traded over the counter or listed on an exchange, and in particular in futures and/or swaps for hedging purposes. These DFI involve various risks, such as counterparty risk, hedging disruption risk, Benchmark Index disruption risk, taxation risk, regulatory risk and liquidity risk. These risks may affect a derivative instrument directly and may result in a modification or even the premature termination of the DFI contract, which could adversely affect the Sub-fund's net asset value.

Investment in DFI may be risky. Since the amount of money required to establish a position in a DFI may much less than the exposure thus obtained, each transaction involves "leverage". A relatively small market movement may therefore have a very large potential positive or negative impact on the Sub-fund.

The market value of DFI is highly volatile and they may therefore be subject to large variations.

The Sub-fund may invest in DFI traded over the counter. DFI traded over the counter may also be less liquid than transactions on an organised market, where the volumes traded are generally quite higher, and the prices of these DFI may therefore be more volatile

- Risk that the investment objective is not fully achieved

There is no guarantee that the investment objective will be achieved, as no asset or financial instrument can ensure that the Benchmark Index will be automatically and continuously replicated, particularly in the event of one or more of the following risks:

- Risk of a change in the tax regime

A change in the tax regime of a jurisdiction where the Sub-fund is domiciled, authorised for sale or listed could adversely affect the taxation of investors. In such an event, the Sub-fund manager will not be liable to any investor with respect to any payment that may have to be made to a competent tax authority.

- Risk of a change in the tax regime of the Fund's underlying assets

A change in a tax regime that applies to the Sub-fund's underlying assets could affect the tax treatment of the Sub-fund. As a result, in case of a discrepancy between the estimated and effective tax treatments applied to the Sub-fund and/or to the Sub-fund's counterparty to the DFI, the Sub-fund's net asset value may be affected.

- Regulatory risk affecting the Fund

In the event of a change in the regulatory regime in a jurisdiction where the Sub-fund is domiciled, authorised for sale or listed, the subscription, conversion or redemption of shares may be adversely affected.

- Regulatory risk affecting the Fund's underlying assets

In the event of a change in the regulations that govern the Sub-fund's underlying assets, the Sub-fund's net asset value and the subscription, conversion or redemption of shares or units may be adversely affected.

- Benchmark Index disruption risk

If an event adversely affects the Benchmark Index, the Fund manager may be required, in accordance with the applicable laws and regulations, to suspend the subscription and redemption of the Sub-fund's shares. The calculation of the Sub-fund's net asset value could also be adversely affected.

If the Benchmark Index disruption persists, the manager of the Sub-fund will determine the appropriate measures to be carried out, which could have an impact on the Sub-fund's net asset value.

A 'Benchmark Index event' includes but is not limited to the following situations:

- i) the Benchmark Index is deemed to be inaccurate or does not reflect actual market developments
- ii) the Benchmark Index is permanently cancelled by the index provider
- iii) the index provider is unable to indicate the level or value of the Benchmark Index
- iv) The index provider makes a material change in the Benchmark Index calculation formula or method (other than a minor modification such as an adjustment to the Benchmark Index's underlying components or their respective weightings) which the Sub-fund cannot effectively replicate at a reasonable cost.
- v) a Benchmark Index component becomes illiquid because it is no longer traded on a regulated market or because its trading over-the-counter (e.g. bonds) is disrupted
- vi) the Benchmark Index components are exposed to higher transaction costs for execution or settlement/delivery, or to specific tax constraints and these costs are not reflected in the Benchmark Index's performance.

- Corporate action risk

An unforeseen change, by the issuer of a security that is a component of the Benchmark Index, in a planned corporate action that is in contradiction with a previous official announcement on which the Sub-fund based its valuation of the corporate action (and/or on which the Sub-fund's counterparty to a derivative financial instrument or transaction based its valuation of the corporate action) can adversely affect the Sub-fund's net asset value, particularly if the Sub-fund's treatment of the corporate event differs from that of the Benchmark Index.

- Risk of investing in small and mid-cap companies

The Sub-fund is exposed to small and medium capitalisation companies and more specifically to the equity securities of small, medium and "intermediate" sized enterprises, which may increase market and liquidity risks. The prices of these securities therefore increase and decrease more sharply than those of large-cap stocks. The Sub-fund's net asset value could behave similarly and therefore fall more sharply than that of a similar investment in large-capitalisation equities.

- Legal risk:

The Sub-fund may be exposed to a **legalrisk** arising from securities financing transactions, pursuant to EU Regulation No. 2015/2365.

ELIGIBLE INVESTORS AND TYPICAL INVESTOR PROFILE

The Sub-fund shares are available to all investors.

Investors in this Sub-fund are seeking exposure to equity securities issued by small-cap, mid-cap and intermediate size companies listed on the Euronext Paris exchange.

The amount that it is reasonable to invest in this Sub-fund depends on each investor's personal situation. To determine this amount, investors must take into account their personal wealth and/or estate, their cash requirements currently and for the next five years, and their willingness to take on risk or their preference for more prudent investment. It is also recommended that investors diversify their investments so that they are not exclusively exposed to this Sub-fund's risks.

All investors are therefore asked to consider their specific situation with the help of their usual investment advisor.

The recommended minimum investment period is at least five years.

CALCULATION AND ALLOCATION OF AMOUNTS AVAILABLE FOR DISTRIBUTION

The management company reserves the right to distribute, in one or more distributions, and/or accumulate all or part of its annual revenue. Net realised capital gains will be reinvested.

DISTRIBUTION FREQUENCY

If distribution is decided, The management company reserves the right to distribute distributable amounts in one or more annual distributions.

SHARE CHARACTERISTICS

The Dist class shares will be issued at a price that is equivalent to the net asset value of the corresponding absorbed unit class on the day the Lyxor PEA PME (DR) UCITS ETF is merged.

Subscription orders may be placed for a specific monetary amount or for a whole number of shares.

Redemptions will be made in whole numbers of shares.

UNIT CURRENCY

	Dist share class
Currency	Euros

SUBSCRIPTION AND REDEMPTION

1. SUBSCRIPTION AND REDEMPTION ON THE PRIMARY MARKET

Orders to subscribe for or redeem shares in the Sub-fund will be processed by the Depositary, from 10.00 am to 5.00 pm (Paris time), every day that the Sub-fund's net asset value is to be published, provided that prices are quoted for a significant proportion of the Benchmark Index components (hereinafter a "**Primary Market Day**" and will be executed at the net asset value on that Primary Market Day hereinafter the "**reference NAV**". Subscription/redemption orders submitted after 5.00 pm (Paris time) on a Primary Market Day will be processed as if received from 10.00 am to 5.00 pm (Paris time) on the following Primary Market Day. Orders to subscribe for or redeem shares in the Sub-fund must be made for a whole number of shares that represents at least 100,000 euros pour la Dist share class.

Subscriptions and redemptions in cash

Subscriptions and redemptions shall be made exclusively in cash and executed at the ref NAV.

Delivery and settlement

Settlement/delivery of subscriptions and redemptions shall be completed within five French business days upon receipt of the subscription or redemption order.

The Sub-fund's net asset value is calculated using the Benchmark Index's closing price denominated in EUR.

DATE AND FREQUENCY OF NET ASSET VALUE CALCULATION

The net asset value will be calculated and published daily provided that at least one of the exchanges where the Sub-fund is traded is open and that the orders placed in the primary and secondary markets can be funded.

The Sub-fund's net asset value is calculated using the Benchmark Index's closing price. The Sub-fund's net asset value is denominated in EUR.

The net asset value of a share class that is denominated in another currency than the Fund's accounting currency (if applicable) is calculated using the exchange rate between the accounting currency and the currency of the share class, at the applicable WM Reuters rate on the date the reference NAV is calculated.

2. PURCHASES AND SALES ON THE SECONDARY MARKET

A. COMMON PROVISIONS

Purchases and sales of Sub-fund shares made directly on an exchange on which the Sub-fund is or will be listed and continuously traded will be subject to no minimum purchase/sale requirements other than those of the relevant exchange(s).

Shares in a listed sub-fund that are purchased on the secondary market cannot generally be directly sold back to that sub-fund. Investors must therefore buy and sell their shares or units on a secondary market through an intermediary (e.g. a broker) and may consequently incur costs. Furthermore, investors may have to pay more than the current net asset value when they buy units and receive less than the current net asset value when they sell them.

If the stock market value of a listed fund's shares or units differs significantly from their indicative net asset value, or if trading in the fund's share or units is suspended, subject to the conditions set forth below, investors may be allowed to redeem their shares on the primary market directly from the fund, without being subject to the minimum redemption amount requirement set forth herein in the section SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)".

The management company shall decide whether to allow such primary market redemptions and for how long, on the basis of the following criteria for assessing the significance of a market disruption:

- The suspension or strong disturbance of secondary trading on a given exchange is relatively frequent.
- The link between the market disruption and secondary market operators (such as the default of one or more of the Market Makers of a given exchange, or a breakdown or malfunction of an exchange's IT or operating systems), excluding a disruption caused by a source external to the secondary exchange on which the shares or units of the Sub-fund are traded, such as an event that affects the liquidity and valuation of all or some of the Benchmark Index's components
- Any other objective circumstance that could adversely affect the fair treatment and/or the interests of the Sub-fund's shareholders.

Notwithstanding the provisions concerning fees presented in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions")", redemptions made in the primary market in this case shall only be subject to a net redemption fee of 0.5% paid to the Sub-fund and which serves to cover its trading costs.

In such exceptional cases when redemption in the primary market is allowed, the Management Company shall post on Lyxor's website at www.lyxor.etc.com the procedure that investors must observe to redeem their shares in the primary market. The Management Company shall also make this procedure available to the market undertaking that handles trading in the Sub-fund's shares.

B. SPECIAL PROVISIONS

- a) **If the Sub-fund's shares are listed on Euronext Paris (as indicated in the "Key Information" section) investors should note the following rules**

Negotiability of shares and information about the financial institutions acting as Market Makers:

The shares shall be freely negotiable on the Euronext Paris regulated market subject to the following conditions and the applicable laws and regulations.

The Sub-fund shares will be listed on a specific trading list, the rules of which are defined in the following instructions published by Euronext Paris SA:

- Instruction No. 4-01 "Trading Manual on the Universal Trading Platform".
- Appendix to Instruction N4-01 (Appendix to the Euronext Market Trading Manual)
- Instruction No. 6-04 "Documentation to be provided when filing a listing application for an ETF, ETN, ETV and open-ended undertakings for collective investment other than ETFS"

Pursuant to article D 214-22-1 of the French monetary and financial code the units or shares of undertakings for collective investments in transferable securities may be admitted to trading, provided that these undertakings have a system to ensure that the market price of their units or shares does not differ significantly from their net asset value. Under Euronext Paris' rules trading in the Sub-fund's shares is also subject to a 'reservation threshold' of 1.5% above or below the Sub-fund's Indicative Net Asset value or "iNAV" (see the "Indicative Net Asset Value" section), as published by Euronext Paris SA and updated on an estimated basis during trading in accordance with the change in the Benchmark Index.

To comply with Euronext Paris SA's reservation thresholds (see the "Indicative Net Asset Value" section) the Market Makers will ensure that the market price of the Sub-fund's shares does not differ from the Sub-fund's indicative Net Asset Value by more than 1.5%.

Euronext Paris SA may suspend trading in the Sub-fund's shares pursuant to the terms of its operating rules, if the aforementioned reservation threshold limit is exceeded.

Euronext Paris SA will also suspend trading in the Sub-fund's shares in the following cases:

- the Benchmark Index is no longer traded or calculated
- Euronext Paris SA cannot obtain the Benchmark Index's level
- Euronext Paris SA cannot obtain the Sub-fund's net asset value.

In accordance with the terms and conditions governing admission to trading on Euronext Paris, the Market Makers undertake to provide market-making services for the Sub-fund's shares as soon as they are admitted to trading on the Euronext Paris exchange.

In particular, the Market Makers undertake to carry out market-making operations by maintaining a significant presence in the market, which initially entails the setting of a bid/ask spread.

More specifically, the Market Makers are required by contract with Euronext Paris SA to ensure that the Sub-fund maintains:

- a maximum overall spread of 2% between the bid and ask price in the centralised order book.
- a minimum nominal trading value of EUR 100,000.

The obligations of the Sub-fund's Market Makers will be suspended in the following cases:

- the Benchmark Index is no longer traded or calculated
- If trading is substantially disrupted, for example due to a widespread shift in prices or an event that makes normal market making impossible.

Indicative net asset value

Euronext Paris SA will calculate and publish, on each "**Trading Day**" (as defined below) and during trading hours, the Sub-fund's indicative net asset value (hereinafter the "**iNAV**"). The iNAV is a measure of the intra-day value of the Sub-fund's net asset value based on the most recent data. The iNAV is not the value at which investors buy and sell shares in the Sub-fund on the secondary market.

A "**Trading Day**" is a day on which Euronext is normally open and on which the Benchmark Index is normally published.

The Sub-fund's iNAV is a theoretical net asset value calculated every 15 seconds by Euronext SA throughout the Paris trading day and is based on the level of the Benchmark Index. The iNAV enables investors to compare the prices that the Market Makers offer on the market with the theoretical value calculated by Euronext.

The iNAV will be calculated every day that the net asset value is calculated and published.

For the calculation of the Sub-fund's iNAV during the Paris trading session (from 9.05 am to 5.35 pm), Euronext Paris SA will use the Benchmark Index value provided by Reuters.

If one or more stock exchanges on which the Benchmark Index's constituent equities are listed are closed (on a public holiday as indicated on the TARGET calendar), and if the iNAV cannot be calculated, trading in the Sub-fund's shares may be suspended.

Lyxor International Asset Management, the Sub-fund's management company, will provide Euronext Paris SA with all the financial and accounting data it needs to calculate the Sub-fund's iNAV and in particular:

- The day's estimated net asset value
- The official net asset value of the previous business day
- The level of the Benchmark Index on the previous business day.

Euronext Paris SA will use these data in its calculations to establish, each subsequent Trading Day, the Sub-fund's iNAV, which is updated in real time.

Additional information about the indicative net asset value of a share listed on a regulated market may, depending on the terms and limits set by the relevant market undertaking, be provided on the website of the exchange where the share is listed. This information is also available on the Reuters or Bloomberg pages dedicated to the particular share. Additional information about Bloomberg and Reuters codes corresponding to the indicative net asset value of UCITS ETF type shares is also available in the "Term Sheets" section of Lyxor's website at www.lyxoretf.com.

- c) **If the Sub-fund's shares are listed on an exchange other than Euronext Paris (as indicated in the "Key Information" section) investors should note the following**

Investors wishing to acquire shares in the Sub-fund or obtain more information regarding the market-making terms that govern the listing and trading of shares on the types of exchanges indicated in the "Key Information" section are advised to familiarise themselves with the guidelines laid down by the relevant market undertaking in compliance with local regulations, and to seek if necessary the assistance of their usual broker(s) for executing trades on the relevant exchange(s).

FEES AND CHARGES

SUBSCRIPTION AND REDEMPTION FEES (CHARGED ONLY ON PRIMARY MARKET TRANSACTIONS)

Subscription and redemption fees increase the subscription price paid by investors and reduce the redemption price. Fees kept by the Sub-fund compensate it for the expenses it incurs in investing in the Sub-fund's assets or in divesting these assets. Any fees that are not kept by the Fund are paid to the management company, marketing agent or other service provider.

Fees paid by investors upon subscription or redemption	Base	Maximum charge
Subscription fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per subscription order or 5% of the net asset value per share multiplied by the number of shares subscribed, payable to third parties
Subscription fee kept by the Sub-fund	NAV per share x number of shares	0.50%
Redemption fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per subscription order or 5% of the net asset value per share multiplied by the number of shares redeemed, payable to third parties
Redemption fee kept by the Sub-fund	NAV per share x number of shares	0.03%

* The management company adjusts these fees whenever necessary to ensure that primary market investors bear no more than the actual costs of adjusting the portfolio, for example when subscription and redemption orders are placed at the same net asset value or when an order is large enough to enable the manager to reduce execution costs.

No subscription or redemption fee will be charged for any purchase or sale of Sub-fund shares on an exchange where the Fund is listed

OPERATING AND MANAGEMENT FEES

These fees cover all the costs invoiced directly to the Fund, except for transaction expenses, which include intermediary fees (brokerage, stock market taxes etc.) and any account activity fee that may be charged by the depositary or the management company.

For this Sub-fund the following fees may be charged in addition to the operating and management fees (see table below):

- Incentive fees, which the Sub-fund pays to the management company when the Sub-fund exceeds its objectives
- Account activity fees charged to the Sub-fund.

For more information on the fees or expenses that are charged to the Sub-fund, see the Statistics section of the Key Investor Information Document (KIID).

Fees charged to the Sub-fund	Base	Maximum charge
Investment management fees and administration fees that are external to the management company ⁽¹⁾	Net asset value	0.5% annual
Maximum indirect expenses (management expenses and fees)	Net asset value	N/A
Account activity fee	Charged on each transaction	N/A
Incentive fee	Net asset value	N/A
Costs arising from securities financing transactions	The amount of the transaction	35% of the income from these transactions

(1) Includes all fees and expenses except for transaction expenses, incentive fees and fees associated with investment in UCITS.

COMMERCIAL INFORMATION

Distribution of this prospectus and the offer or purchase of the Fund share classes may be subject to restrictions with regard to certain persons or in certain countries by virtue of national regulations applying to such persons or such countries. Each investor is therefore responsible for ensuring that he or she is authorised to subscribe to or invest in this Fund. As a result, the information contained in this prospectus cannot be understood as constituting an offer or solicitation to buy or sell shares in this Fund in a country where such offer or solicitation is unlawful.

The Fund's share classes will not be registered pursuant to the US Securities Act of 1933, as amended (the "US Securities Act") and cannot be offered, assigned, transferred or allocated to the United States of America, or to:

- (A) any "US Person", as this term is defined (i) under Regulation S of the US Securities Act of 1933 and (ii) under US regulations as defined in Section 7701 (a) (30) of the Internal Revenue Code of 1986 as amended. The Sub-fund's shares will not be offered to US Persons.
- (B) anyone other than those persons considered to be "non-US Persons" as this term is defined under US regulations pursuant to the Commodity Futures Trading Commission, Rule 4.7 (a) (1) (iv).

The Sub-fund's shares will only be offered for sale outside of the United States of America to non-US Persons.

For the purpose of this document, the term "US Person" shall mean, among other things, any individual who resides in the United States of America, any entity organised or formed under the laws of the United States of America, certain entities organised or formed outside of the United States of America by one or more US persons, or any account held on behalf of such a US person.

Before making an investment in the Sub-fund, investors should seek the advice of their financial, tax and legal advisers.

PLACE AND METHOD OF NET ASSET VALUE PUBLICATION OR COMMUNICATION

At the head office of LYXOR INTERNATIONAL ASSET MANAGEMENT, at 17, cours Valmy - 92987 Paris La Défense CEDEX - France.

The Sub-fund's net asset value will be calculated and published by Euronext Paris SA on each Paris Trading Day, during trading hours.

IMPORTANT INFORMATION ABOUT THE BENCHMARK INDEX PROVIDER

The Sub-fund is not, in any way whatsoever, sponsored, supported, promoted or marketed by Euronext N.V. or its subsidiaries (hereinafter "Euronext") (collectively referred to as the "Licensors"). The Licensors assume no obligation and provide no warranty, expressed or implied, in respect of the results that may be obtained from using the CAC PME index (hereinafter the "Index") and/or the level this Index may reach at any given time or date, or of any other type. The Index is calculated by or in the name of Euronext. The Licensors disclaim all liability (whether due to negligence or any other reason) for any error that may adversely affect the Index with respect to anyone whomsoever and will not be obliged to inform anyone of such an error.

Euronext N.V. or its subsidiaries holds all property rights in relation to the Index. Euronext N.V. or its subsidiaries do not guarantee, approve or are concerned in any manner whatsoever with the issuance and/or offering of the product. Euronext N.V. or its subsidiaries, will not be held liable with regards to third parties for any inaccurate data on which the Index is based, fault, error or omission concerning the calculation or dissemination of the Index, or pertaining to its use within the framework of said issuance and/or offering.

ADDITIONAL INFORMATION

The Sub-fund's shares have been admitted to trading by Euroclear France S.A.

Subscription and redemption orders are sent by investors' financial intermediaries (members of Euroclear France S.A.) to the Depositary.

The Sub-fund's prospectus, the Key Investor Information Document, the most recent annual documents and the asset inventory will be sent to investors within eight business days upon receipt of a written request addressed to:

LYXOR INTERNATIONAL ASSET MANAGEMENT
17, cours Valmy - 92987 Paris La Défense CEDEX – France.
e-mail: contact@lyxor.com

More information can also be requested from Lyxor International Asset Management on its website at www.lyxoretf.com.

Prospectus publication date: see the "Publication Date" section.

Pursuant to Article L.533-22-1 of the French monetary and financial code, information concerning the Management Company's possible inclusion of social, environmental and corporate governance objectives and performance criteria in its investment policy is available on the management company's website and in the Multi Units France annual report.

The AMF's website (www.amf-france.org) provides additional information on the list of regulatory documents and on all provisions relating to investor protection.

This Prospectus must be made available to investors prior to subscription.

INVESTMENT RULES

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

The Sub-fund may invest in the assets indicated in Article L214-20 of the French monetary and financial code, subject to the risk-diversification and investment ratio requirements of Articles R214-21 to R214-27 of said code.

Notwithstanding the 10% limit under Paragraph II of Article R214-21 of the French monetary and financial code, the Sub-fund may invest up to 20% of its assets in the equities and debt securities of a single issuer, in compliance with Article R214-22-I, which deals with index-tracking funds. Pursuant to Article R214-22 II, the Sub-fund may also increase this 20% limit for a single issuer to 35%, when this is shown to be justified by exceptional market conditions, and in particular when certain securities are largely dominant.

OVERALL RISK EXPOSURE

The commitment approach is used to calculate the overall risk exposure.

ASSET VALUATION AND ACCOUNTING RULES

A. VALUATION RULES

The Sub-fund's assets are valued in accordance with applicable laws and regulations and most notably Regulation NO. 2014-01 of 14 January 2014 of the Comité de la Réglementation Comptable (the Accounting Regulations Committee), which applies to the chart of accounts for UCITS investment funds.

Financial instruments traded on a regulated market are valued at the closing price recorded on the day prior to the calculation of the net asset value. If these financial instruments are traded on several regulated markets at the same time, the closing price used is that recorded on the regulated market on which they are principally traded.

However, in the absence of significant trading on a regulated market, the following financial instruments are valued using the following methods:

- Negotiable debt securities ("NDS") with a remaining life upon acquisition that is less than or equal to three months are valued by applying the difference between the acquisition value and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc.). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- NDS with a remaining life of more than three months upon acquisition but less than or equal to three months at the net asset value calculation date are valued by applying the difference between the most recent valuation and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc.). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- NDS with a remaining life at the net asset value calculation date that exceeds three months are valued at their current value. The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- Financial futures traded on organised markets are valued at the clearing price on the day prior to the calculation of the net asset value. Options traded on organised markets are valued at their market price on the day prior to the calculation of the net asset value. Forward contracts and over-the-counter options are valued at the price quoted by the counterparty. The management company monitors these prices independently.
- Bank deposits are valued at their nominal value plus accrued interest.
- Warrants, short and medium-term notes (bons de caisse), promissory notes and mortgage notes are valued under the management company's responsibility at their most likely trading value.
- Securities financing transactions are valued at the market price.
- Shares and units in UCITS under French law are valued at the last known net asset value on the day the Sub-fund's net asset value is calculated.
- Shares and units in foreign alternative investment funds are valued at the last known net asset value at the date the Sub-fund's net asset value is calculated.
- Financial instruments traded on a regulated market and for which no price has been quoted or whose price has been corrected, are valued under the management company's responsibility at their most likely trading value.
- The exchange rates used to value financial instruments denominated in a currency other than the Sub-fund's base currency are the WM Reuters fixing rates on the day the Sub-fund's net asset value is calculated

B. ACCOUNTING METHOD FOR TRADING EXPENSES

Trading expenses are included in the initial cost of the transaction.

C. ACCOUNTING METHOD FOR INCOME FROM FIXED-INCOME SECURITIES

Income from fixed-income securities is accounted for using the cash-basis method.

D. DISTRIBUTION POLICY

For more information see the section entitled "Calculation and Allocation of Distributable amounts".

E. ACCOUNTING CURRENCY

The Sub-fund's accounts are kept in euros.

SUB-FUND NO. 39: LYXOR RUSSELL 1000 GROWTH UCITS ETF

A SICAV SUB-FUND COMPLIANT WITH DIRECTIVE 2009/65/EC

ISIN CODE

Acc share class: FR0011119171

Dist share class: FR0011119155

CLASSIFICATION

International equities

The Lyxor Russell 1000 Growth UCITS ETF sub-fund (the “**Sub-fund**”) continuously maintains at least 60% exposure to one or more foreign equity markets, and possibly to the French equity market.

The Sub-fund is a UCITS ETF index-tracker.

INCEPTION DATE

This sub-fund was approved by l’Autorité des Marchés Financiers on 15/02/2018 and was created on 19 April 2018.

INVESTMENT OBJECTIVE

The Sub-fund’s investment objective is to seek exposure to large-cap US stocks that offer the most potential for growth, by replicating the performance, whether positive or negative, of the Russell 1000® Growth Net Total Return index (the “Benchmark Index”), denominated in US dollars (USD), while minimising the tracking error between the Sub-fund’s performance and that of the Benchmark Index

The expected ex-post tracking error under normal market conditions is 0.05%.

BENCHMARK INDEX

Description

The Benchmark Index is the Russell 1000® Growth Net Total Return index with net dividends reinvested.

The Benchmark Index reflects the performance of the ‘growth style’ segment of the US large-cap stock market. It is composed of the Russell 1000 companies that have the highest price-to-book ratios and offer the most growth potential.

The Benchmark Index is designed to be a reliable indicator of large-cap ‘growth’ stocks.

A full description and the complete methodology used to construct the Benchmark Index and information on the composition and respective weightings of the Benchmark Index components are available on the Internet at www.russell.com

The performance tracked is that of the Benchmark Index’s closing price in US Dollars.

Methodology

Russell provides a family of US stock indexes weighted by market capitalisation. All of the US indices are sub-sets of the Russell 3000E™ Index, which represents approximately 99% of the US stock market.

The Benchmark Index is a sub-set of the Russell 1000® Index that represents the latter’s ‘growth’ stocks. Each index component is selected on the basis of its price-to-book ratio, I/B/E/S medium-term growth forecast and historic revenue growth.

Each year, Russell Investments observes the following methodology to select the stocks that are to be included in the Russell 1000® Index:

- Classification by market capitalisation as at 31 May
- The largest 3,000 stocks comprise the Russell 3000® Index
- The largest 1,000 stocks comprise the Russell 1000® Index

The following are excluded:

- Stocks that trade at less than one dollar.
- Stocks that trade on the OTC Bulletin Board or on the Pink Quote market
- Closed funds, SCS, royalty trusts, etc.
- Non-US stocks and American Depository Receipts (ADRs).

Dividends are reinvested at the ex-dividend date.

Benchmark Index publication

The Benchmark Index is available via Reuters et Bloomberg.

Reuters code: RLGNET

Bloomberg code: RU1GN30U

The closing price of the Benchmark Index is available on the Internet at www.russell.com

Pursuant to Article 52 of European Parliament and Council Regulation 2016/1011 of 8 June 2016, Frank Russell Company, the administrator of the Russell 1000® Growth Net Total Return benchmark index, has until 1 January 2020 to apply for approval or registration as applicable.

As of the date of the most recent version of this prospectus, the benchmark index administrator was not yet listed in ESMA’s register of benchmark administrators.

Pursuant to European Parliament and Council Regulation 2016/1011 of 8 June 2016, the asset management company has a procedure for monitoring the benchmark indices used that specifies the measures to be implemented if an index is substantially modified or is no longer provided.

Benchmark Index composition and revision

The Benchmark Index is revised annually.

The exact composition of the Benchmark Index and Russell’s rules for index composition revision are available at www.russell.com

The frequency of this rebalancing does not affect the cost of implementing the Investment Strategy.

INVESTMENT STRATEGY

1. Strategy employed

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund will employ an indirect replication method, which involves entering into one or more OTC swap contracts to achieve its investment objective. These swap contracts will serve to exchange the value of the Sub-fund's assets, which will consist of balance sheet assets (excluding any securities received as collateral), for the value of the securities that underlie the Benchmark Index.

The Securities in the Sub-fund's portfolio may include those that make up the Benchmark Index, as well as other global equities across all economic sectors and listed on all exchanges including small-cap exchanges.

The basket of securities held may be adjusted daily such that its value will generally be at least 100% of the net assets. When necessary, this adjustment will aim to neutralise the counterparty risk arising from the aforementioned swap contract.

Information on the updated composition of the basket of 'balance sheet' assets in the Sub-fund's portfolio and the value of the swap contract concluded by the Sub-fund is available on the page dedicated to the Sub-fund on Lyxor's website at www.lyxoretf.com. The frequency of any updates and/or the date on which the aforementioned information is updated is also indicated on the same page of the aforementioned website.

In managing its exposure, no more than 20% of the Sub-fund's assets may be exposed to the equities of a given issuer. This 20% limit may be increased to 35% for a single issuing entity when this is shown to be justified by exceptional market conditions, in particular when certain securities are largely dominant and/or in the event of strong volatility affecting a financial instrument or securities linked to an economic sector represented in the Benchmark Index. This could be the case, for example, in the event of a public offering affecting any of the securities that make up the Benchmark Index or in the event of a significant restriction of liquidity affecting one or more financial instruments in the Benchmark Index.

2. Balance sheet assets (excluding embedded derivatives)

In compliance with the ratios indicated in the applicable regulations, the Sub-fund may invest in global equities in all economic sectors and listed on all exchanges including small-cap exchanges.

The aforementioned equities will be selected on the basis of the following:

- eligibility criteria, in particular:
 - o their inclusion in a major stock exchange index or in the Benchmark Index
 - o liquidity (must exceed a minimum daily trading volume and market capitalisation)
 - o credit rating of the country where the issuer has its registered office (must have a least a minimum S&P or equivalent rating)
- diversification criteria, in particular regarding:
 - o the issuer (application of investment ratios to assets that qualify for UCITS, pursuant to Art. R214-21 of the French monetary and financial code)
 - o geography
 - o sector

Investors may find more information on the above eligibility and diversification criteria, and in particular the list of eligible indices, on Lyxor's website at www.lyxoretf.com.

Investment in undertakings for collective investment in transferrable securities ("UCITS") that comply with Directive 2009/65/EC is limited to 10% of the Sub-fund's net assets.

The fund manager will not invest in the shares or units of alternative investment funds (AIF) or other investment funds that were formed under a foreign law. In respect of these investments, the Sub-fund may invest in the units or shares of UCITS managed by the management company or by a company that is related to the management company.

To optimise the Sub-fund's management, the manager reserves the right to use other instruments in accordance with the applicable regulations in order to achieve its investment objective.

3. Off-balance sheet assets (derivatives)

The Sub-fund will use OTC index-linked swaps that swap the value of its equity assets (or the value of any other financial instruments or assets the Sub-fund may hold) for the value of the Benchmark Index.

- Maximum proportion of assets under management for which total return swaps may be entered into: 100% of assets under management.
- Expected proportion of assets under management for which total return swaps may be entered into: up to 100% of assets under management.

To optimise the Sub-fund's management, the manager reserves the right to use other instruments in accordance with the applicable regulations in order to achieve its investment objective, such as derivatives other than index-linked swaps.

In accordance with its best execution policy, the management company considers that Société Générale is the counterparty that is generally able to obtain the best possible execution for these derivative financial instruments. Accordingly, these derivative financial instruments (including index-linked swaps) may be traded via Société Générale without having to seek a competitive bid from another counterparty.

The counterparty of the derivative financial instruments referred to above (the "Counterparty") will have no discretionary power over the composition of the Fund's portfolio nor over the underlying assets of the derivative financial instruments.

4. Securities with embedded derivatives

N/A.

5. Cash deposits

In order to optimise its cash management, the Sub-fund may deposit funds representing up to 20% of its net assets with lending institutions that belong to the same group as the depositary/custodian.

6. Cash borrowing

The Fund may temporarily borrow up to 10% of its net assets.

7. Securities financing transactions

N/A.

8. Collateral

N/A. In trying to achieve its investment objective the Sub-fund will not give nor receive any collateral.

RISK PROFILE

The shareholder's money will be mainly invested in the financial instruments selected by the management company. These instruments are subject to market trends and contingencies.

Shareholders in the Sub-fund will be mainly exposed to the following risks:

- Equity risk

The price of an equity security can increase or decrease in accordance with changes in the issuer's risk exposure or in the economic conditions of the market in which the security is traded. Equity markets are more volatile than fixed-income markets, where it is possible to estimate revenues for a certain period of time under the same macroeconomic conditions.

- Capital risk

The capital invested is not guaranteed. Investors therefore may not recover all or part of their initial investment, particularly in the event that the Benchmark Index posts a negative return over the investment period

- Liquidity risk (primary market)

The Sub-fund's liquidity and/or value may be adversely affected if, when the Sub-fund or a counterparty to a derivative financial instrument (DFI) is rebalancing its exposure, the underlying financial markets are restricted, closed, or subject to large bid/offer spreads. An inability, due to low trading volume, to execute the trades required to replicate the Benchmark Index may also adversely affect the subscription, conversion or redemption of shares.

- Liquidity risk (secondary market)

The Sub-fund's on-exchange price may deviate from its indicative net asset value. The liquidity of the Sub-fund's shares on an exchange may be adversely affected by a suspension of or disruption in market operation, such as one of the following events:

- i) the calculation of the Benchmark Index is suspended or stopped and/or
- ii) the market(s) in the Benchmark Index's underlying assets is (are) suspended, and/or
- iii) a stock exchange cannot obtain or calculate the Sub-fund's indicative net asset value and/or
- iv) a market maker fails to comply with an exchange's rules and/or
- v) an exchange's IT, electronic or other system fails.

- Counterparty risk

The Sub-fund is exposed to the risk that a counterparty with which the Sub-fund has entered into a contract or transaction may go bankrupt or default on a settlement or other obligation. The Fund is mainly exposed to counterparty risk resulting from the use of derivative financial instruments (DFI) traded over the counter with Société Générale or some other counterparty. In compliance with UCITS regulations, exposure to counterparty risk (whether the counterparty is Société Générale or another entity), cannot exceed 10% of the Sub-fund's total assets per counterparty

If a counterparty defaults on an obligation the DFI contract may be terminated before maturity. The Sub-fund will do everything in its power to achieve its investment objective by, if appropriate, entering into another DFI contract with another counterparty at the market conditions at the time of such an event.

If this counterparty risk materialises it could have an impact on the Sub-fund's ability to achieve its investment objective of replicating the Benchmark Index.

Where Société Générale acts as the DFI counterparty, conflicts of interest may arise between the Sub-fund's Management Company and the DFI counterparty. The Management Company has procedures to identify and reduce such conflicts of interest and to resolve them equitably if necessary.

Risk that the investment objective is not fully achieved

There is no guarantee of achieving the investment objective. There is no guarantee that the investment objective will be achieved, as no asset or financial instrument can ensure that the Benchmark Index will be automatically and continuously replicated, particularly in the event of one or more of the following risks:

- Risk of using derivative financial instruments

In order to achieve its investment objective and secure the performance of the Benchmark Index, the Sub-fund can enter into over-the-counter derivative financial instruments ("DFI"), such as swaps. This DFI involve various risks, such as counterparty risk, hedging disruption, Benchmark Index disruption, taxation risk, regulatory risk, operational risk and liquidity risk. These risks can materially affect a DFI and could lead to an adjustment or even the early termination of the DFI transaction, which could affect the Sub-fund's net asset value.

- Risk of a change in the tax regime

A change in the tax regime of a jurisdiction where the Sub-fund is domiciled, authorised for sale or listed could adversely affect the taxation of investors. In such an event, the Sub-fund manager will not be liable to any investor with respect to any payment that may have to be made to a competent tax authority.

- Risk of a change in the tax regime of the Fund's underlying assets

A change in a tax regime that applies to the Sub-fund's underlying assets could affect the tax treatment of the Sub-fund. As a result, in case of a discrepancy between the estimated and effective tax treatments applied to the Sub-fund and/or to the Sub-fund's counterparty to the DFI, the Sub-fund's net asset value may be affected.

- Regulatory risk affecting the Fund

In the event of a change in the regulatory regime in a jurisdiction where the Sub-fund is domiciled, authorised for sale or listed, the subscription, conversion or redemption of shares may be adversely affected.

- Regulatory risk affecting the Fund's underlying assets

In the event of a change in the regulations that govern the Sub-fund's underlying assets, the Sub-fund's net asset value and the subscription, conversion or redemption of shares or units may be adversely affected.

- Benchmark Index disruption risk

If an event adversely affects the Benchmark Index, the Fund manager may be required, in accordance with the applicable laws and regulations, to suspend the subscription and redemption of the Sub-fund's shares. The calculation of the Sub-fund's net asset value could also be adversely affected.

If the Benchmark Index disruption persists, the manager of the Sub-fund will determine the appropriate measures to be carried out, which could have an impact on the Sub-fund's net asset value.

A 'Benchmark Index event' includes but is not limited to the following situations:

- i) the Benchmark Index is deemed to be inaccurate or does not reflect actual market developments
- ii) the Benchmark Index is permanently cancelled by the index provider
- iii) the index provider is unable to provide the level or the value of the Benchmark Index
- iv) the index provider makes a material change in the Benchmark Index calculation formula or method (other than a minor modification such as an adjustment to the Benchmark Index's underlying components or their respective weightings) which the Sub-fund cannot effectively replicate at a reasonable cost
- v) a Benchmark Index component becomes illiquid because it is no longer traded on a regulated market or because its trading over-the-counter (e.g. bonds) is disrupted
- vi) The Benchmark Index components are exposed to higher transaction costs for execution or settlement/delivery, or to specific tax constraints and these costs are not reflected in the Benchmark Index's performance.

- Corporate action risk

An unforeseen change, by the issuer of a security that is a component of the Benchmark Index, in a planned corporate action that is in contradiction with a previous official announcement on which the Sub-fund based its valuation of the corporate action (and/or on which the Sub-fund's counterparty to a derivative financial instrument or transaction based its valuation of the corporate action) can adversely affect the Sub-fund's net asset value, particularly if the Sub-fund's treatment of the corporate event differs from that of the Benchmark Index.

- Legal risk

The Sub-fund may be exposed to a legal risk arising from a total return swap (TRS) agreement as indicated in EU Regulation 2015/2365.

ELIGIBLE INVESTORS AND TYPICAL INVESTOR PROFILE

This Sub-fund is available to all investors .

Investors in this Sub-fund are seeking exposure to the performance of large-cap US stocks with growth potential, which is achieved by replicating the performance of the Benchmark Index

The amount that it is reasonable to invest in this Sub-fund depends on each investor's personal situation. To determine this amount, investors must take into account their personal wealth and/or estate, their cash requirements at present and for the next five years, and their willingness to take on risk or adopt a more cautious approach. It is also recommended that investors diversify their investments so that they are not exclusively exposed to this Sub-fund's risks.

All investors are therefore asked to consider their specific situation with the help of their usual investment advisor.

The recommended minimum investment period is at least five years.

CALCULATION AND ALLOCATION OF DISTRIBUTABLE AMOUNTS

Acc share class: All distributable amounts are accumulated.

Dist share class: The management company reserves the right to accumulate and/or distribute all or part of distributable income in one or more annual distributions. Realised net capital gains will be accumulated.

DISTRIBUTION FREQUENCY

If distribution is decided, The management company reserves the right to distribute distributable amounts in one or more annual distributions.

SHARE CHARACTERISTICS

The Acct and Disk class shares will be issued at a price that is equivalent to the net asset value of the corresponding absorbed unit class on the day the Lyxor Russell 1000 Growth UCITS ETF is merged.

Subscription orders may be placed for a specific monetary amount or for a whole number of shares.

Redemptions will be made in whole numbers of shares.

UNIT CURRENCY

	Acc share class	Dist share class
Currency	US dollar	US dollar

SUBSCRIPTION AND REDEMPTION

1. SUBSCRIPTION AND REDEMPTION ON THE PRIMARY MARKET

Orders to subscribe for or redeem shares in the Sub-fund will be processed by the Depositary, from 10.00 am to 6.30 pm (Paris time), every day that the Sub-fund's net asset value is to be published, provided that prices are quoted for a significant proportion of the Benchmark Index components (hereinafter a "Primary Market Day"), and will be executed at the net asset value on that Primary Market Day(hereinafter the "reference NAV"). Subscription/redemption orders submitted after 6.30 pm (Paris time) on a Primary Market Day will be processed as if received from 10.00 am to 6.30 pm (Paris time) on the following Primary Market Day. Subscription and redemption orders must be for a whole number of shares having a minimum amount of at least the USD equivalent of 100,000 EUR for the Acc and Dist share classes.

Subscriptions and redemptions in cash

Subscriptions and redemptions shall be made exclusively in cash and executed at the ref NAV.

Delivery and settlement

Settlement/delivery of subscriptions and redemptions shall be completed within five French business days upon receipt of the subscription or redemption order.

Date and frequency of net asset value calculation

The net asset value will be calculated and published each day that the Sub-fund's net asset value is to be published, provided that the market on which the Sub-fund's shares are traded is open and that orders placed in the primary and secondary markets can be funded.

The Sub-fund's net asset value is calculated using the Benchmark Index's closing price denominated in USD.

The Sub-fund's net asset value is denominated in EUR.

The net asset value of a share class that is denominated in another currency than the Fund's accounting currency (if applicable) is calculated using the exchange rate between the accounting currency and the currency of the share class, at the applicable WM Reuters rate on the date the reference NAV is calculated.

2. PURCHASES AND SALES ON THE SECONDARY MARKET

- COMMON PROVISIONS

Purchases and sales of Sub-fund shares made directly on an exchange on which the Sub-fund is or will be listed and continuously traded will be subject to no minimum purchase/sale requirements other than those of the relevant exchange(s).

Shares in a listed sub-fund that are purchased on the secondary market cannot generally be directly sold back to that sub-fund. Investors must therefore buy and sell their shares or units on a secondary market through an intermediary (e.g. a broker) and may consequently incur costs. It is also possible that investors may pay more than the indicative net asset value when buying shares and receive less than the indicative net asset value when selling shares.

If the stock market value of a listed fund's shares or units differs significantly from their indicative net asset value, or if trading in the fund's share or units is suspended, subject to the conditions set forth below, investors may be allowed to redeem their shares on the primary market directly from the fund, without being subject to the minimum redemption amount requirement set forth herein in the section SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)".

The management company shall decide whether to allow such primary market redemptions and for how long, on the basis of the following criteria for assessing the significance of a market disruption:

- The suspension or strong disturbance of secondary trading on a given exchange is relatively frequent.
- The link between the market disruption and secondary market operators (such as the default of one or more of the Market Makers of a given exchange, or a breakdown or malfunction of an exchange's IT or operating systems), excluding a disruption caused by a source external to the secondary exchange on which the shares or units of the Sub-fund are traded, such as an event that affects the liquidity and valuation of all or some of the Benchmark Index's components
- Any other objective circumstance that could adversely affect the fair treatment and/or the interests of the Sub-fund's shareholders.

Notwithstanding the provisions concerning fees presented in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)", redemptions made in the primary market in this case shall only be subject to a net redemption fee of 1.00% paid to the Sub-fund and which serves to cover its trading costs.

In such exceptional cases when redemption in the primary market is allowed, the Management Company shall post on Lyxor's website at www.lyxor.etc.com the procedure that investors must observe to redeem their shares in the primary market. The Management Company shall also make this procedure available to the market undertaking that handles trading in the Sub-fund's shares.

B. SPECIAL PROVISIONS

a) If the Sub-fund's shares are listed on Euronext Paris (as indicated in the "Key Information" section) investors should note the following rules

Negotiability of shares and information about the financial institutions acting as Market Makers:

The shares shall be freely negotiable on the Euronext Paris regulated market subject to the following conditions and the applicable laws and regulations.

The Sub-fund shares will be listed on a specific trading list, the rules of which are defined in the following instructions published by Euronext Paris SA:

- Instruction No. 4-01 "Universal Trading Platform Manual"
- Appendix to Instruction N4-01 (Appendix to the Euronext Market Trading Manual)
- Instruction No. 6-04 "Documentation to be provided when filing a listing application for an ETF, ETN, ETV and open-ended undertakings for collective investment other than ETFS"

Pursuant to article D 214-22-1 of the French monetary and financial code the units or shares of undertakings for collective investments in transferable securities may be admitted to trading, provided that these undertakings have a system to ensure that the market price of their units or shares does not differ significantly from their net asset value. Under Euronext Paris' rules trading in the Sub-fund's shares is also subject to a 'reservation threshold' of 3% above or below the Sub-fund's Indicative Net Asset value or "iNAV"(see the "Indicative Net Asset Value" section), as published by Euronext Paris SA and updated on an estimated basis during trading in accordance with the change in the Benchmark Index.

To comply with Euronext Paris SA's reservation thresholds (see the "Indicative Net Asset Value" section) the Market Makers will ensure that the market price of the Sub-fund's shares does not differ from the Sub-fund's indicative Net Asset Value by more than 3%.

Euronext Paris SA may suspend trading in the Sub-fund's shares pursuant to the terms of its operating rules, if the aforementioned reservation threshold limit is exceeded.

Euronext Paris SA will also suspend trading in the Sub-fund's shares in the following cases:

- the Benchmark Index is no longer traded or calculated
- Euronext Paris SA cannot obtain the Benchmark Index's level
- Euronext Paris SA cannot obtain the Sub-fund's net asset value.

In accordance with the terms and conditions governing admission to trading on Euronext Paris, the Market Makers undertake to provide market-making services for the Sub-fund's shares as soon as they are admitted to trading on the Euronext Paris exchange.

In particular, the Market Makers undertake to carry out market-making operations by maintaining a significant presence in the market, which initially entails the setting of a bid/ask spread.

More specifically, the Market Makers are required by contract with Euronext Paris SA to ensure that the Sub-fund maintains:

- a maximum global spread of 3% between the bid and offer price in the centralised order book
- a minimum nominal trading value of EUR 100,000.

The obligations of the Sub-fund's Market Makers will be suspended in the following cases:

- the Benchmark Index is no longer traded or calculated
- If trading is substantially disrupted, for example due to a widespread shift in prices or an event that makes normal market making impossible.

Indicative net asset value

Euronext Paris SA will calculate and publish, each Trading Day (as defined below) during trading hours, the Sub-fund's indicative net asset value (hereinafter the "iNAV"). The iNAV is a measure of the intra-day value of the Sub-fund's net asset value based on the most recent data. The iNAV is not the value at which investors buy and sell shares in the Sub-fund on the secondary market.

A "Trading Day" is a day on which Euronext is normally open and on which the Benchmark Index is normally published.

The Sub-fund's iNAV is a theoretical net asset value calculated every 15 seconds by Euronext SA throughout the Paris trading day and is based on the level of the Benchmark Index. The iNAV enables investors to compare the prices that the Market Makers offer on the market with the theoretical value calculated by Euronext.

The iNAV will be calculated every day that the net asset value is calculated and published.

For the calculation of the Sub-fund's iNAV during the Paris trading session (from 9.05 am to 5.35 pm), Euronext Paris SA will use the Benchmark Index value provided by Reuters.

If one or more stock exchanges on which the Benchmark Index's constituent equities are listed are closed (on a public holiday as indicated on the TARGET calendar) and if the calculation of the iNAV proves impossible, trading in the Sub-fund's shares may be suspended.

Lyxor International Asset Management, the Sub-fund's management company, will provide Euronext Paris SA with all the financial and accounting data it needs to calculate the Sub-fund's iNAV and in particular:

- The day's estimated net asset value
- The official net asset value of the previous business day
- The level of the Benchmark Index on the previous business day.

These data will serve as a basis for Euronext Paris SA's calculations to determine the Sub-fund's iNAV in real time every Trading Day.

Additional information about the indicative net asset value of a share listed on a regulated market may, depending on the terms and limits set by the relevant market undertaking, be provided on the website of the exchange where the share is listed. This information is also available on the Reuters or Bloomberg pages dedicated to the particular share. Additional information about Bloomberg and Reuters codes corresponding to the indicative net asset value of UCITS ETF type shares is also available in the "Term Sheets" section of Lyxor's website at www.lyxoretf.com.

b) If the Sub-fund's shares are listed on an exchange other than Euronext Paris (as indicated in the "Key Information" section) investors should note the following rules

Investors wishing to acquire shares in the Sub-fund or obtain more information regarding the market-making terms that govern the listing and trading of shares on the types of exchanges indicated in the "Key Information" section are advised to familiarise themselves with the guidelines laid down by the relevant market undertaking in compliance with local regulations, and to seek if necessary the assistance of their usual broker(s) for executing trades on the relevant exchange(s).

FEES AND CHARGES

SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)

Subscription and redemption fees increase the subscription price paid by investors and reduce the redemption price. Fees kept by the Sub-fund compensate it for the expenses it incurs in investing in the Sub-fund's assets or in divesting these assets. Any fees that are not kept by the Fund are paid to the management company, marketing agent or other service provider.

Fees paid by investors upon subscription or redemption	Base	Maximum charge
Subscription fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per subscription order or 5%, payable to third parties
Subscription fee kept by the Sub-fund	NAV per share x number of shares	N/A
Redemption fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per redemption order or 5%, payable to third parties
Redemption fee kept by the Sub-fund	NAV per share x number of shares	N/A

No subscription or redemption fee will be charged for any purchase or sale of Sub-fund shares on an exchange where the Fund is listed

OPERATING AND MANAGEMENT FEES

These fees cover all the costs invoiced directly to the Fund, except for transaction expenses, which include intermediary fees (brokerage, stock market taxes etc.) and any account activity fee that may be charged by the depositary or the management company.

For this Sub-fund the following fees may be charged in addition to the operating and management fees (see table below):

- Incentive fees, which the Sub-fund pays to the management company when the Sub-fund exceeds its objectives;
- Account activity fees charged to the Sub-fund.

For more information on the fees that are actually charged to the Sub-fund, see the Statistics section of the Key Investor Information Document.

Fees charged to the Sub-fund	Base	Maximum charge
Investment management fees and administration fees that are external to the management company ⁽¹⁾	Net asset value	0.19% annual
Maximum indirect expenses (management expenses and fees)	Net asset value	N/A
Account activity fee	Net asset value	N/A
Incentive fee	Net asset value	N/A

(1) Includes all fees and expenses except for transaction expenses, incentive fees and fees associated with investment in UCITS.

COMMERCIAL INFORMATION

Distribution of this prospectus and the offer or purchase of the Fund share classes may be subject to restrictions with regard to certain persons or in certain countries by virtue of national regulations applying to such persons or such countries. Each investor is therefore responsible for ensuring that he or she is authorised to subscribe to or invest in this Fund. As a result, the information contained in this prospectus cannot be understood as constituting an offer or solicitation to buy or sell shares in this Fund in a country where such offer or solicitation is unlawful.

The Fund's share classes will not be registered pursuant to the US Securities Act of 1933, as amended (the "US Securities Act") and cannot be offered, assigned, transferred or allocated to the United States of America, or to:

- (A) any "US Person", as this term is defined (i) under Regulation S of the US Securities Act of 1933 and (ii) under US regulations as defined in Section 7701 (a) (30) of the Internal Revenue Code of 1986 as amended. The Sub-fund's shares will not be offered to US Persons.
- (B) anyone other than those persons considered to be "non-US Persons" as this term is defined under US regulations pursuant to the Commodity Futures Trading Commission, Rule 4.7 (a) (1) (iv).

The Sub-fund's shares will only be offered for sale outside of the United States of America to non-US Persons.

For the purpose of this document, the term "US Person" shall mean, among other things, any individual who resides in the United States of America, any entity organised or formed under the laws of the United States of America, certain entities organised or formed outside of the United States of America by one or more US persons, or any account held on behalf of such a US person.

Under the German tax act on investment funds (InvStG-E), the Sub-fund is a "mutual fund" and must comply with the criteria that apply to "equity funds". As such, the Sub-fund will hold a basket of securities that are eligible for the equity ratio as this term is defined under said German tax act, and which will represent at least 92% of its net assets under normal market conditions. To ensure compliance with this ratio, the Sub-fund may adjust this basket of securities on a daily basis.

Before making an investment in this Fund or this Sub-fund, investors should seek the advice of their financial, tax and legal advisers.

PLACE AND METHOD OF NET ASSET VALUE PUBLICATION OR COMMUNICATION

At the head office of LYXOR INTERNATIONAL ASSET MANAGEMENT, at 17, cours Valmy - 92987 Paris La Défense CEDEX - France.

The Sub-fund's indicative net asset value will be calculated and published each Trading Day during trading hours.

IMPORTANT INFORMATION ABOUT THE BENCHMARK INDEX PROVIDER

The LYXOR RUSSELL 1000 GROWTH UCITS ETF Sub-fund is in no way sponsored, approved, sold or promoted by the Frank Russell Company ("Russell"), which makes no representations or warranties and provides no express or implied guarantee to LYXOR RUSSELL 1000 GROWTH UCITS ETF fund unit-holders or to the general public in respect of the advisability of trading in the shares or units of mutual funds in general or specifically in the shares of the LYXOR RUSSELL 1000 GROWTH UCITS ETF Sub-fund, or in respect of the ability of the Russell 1000® Growth Net Total Return index to replicate the performance of the market or a segment thereof. The publication of the Russell 1000® Growth Net Total Return Index in no way implies or suggests that it is advisable to invest in any or all of the securities that comprise the Russell 1000® Growth Net Total Return Index. The sole relationship between Lyxor International Asset Management is the agreement of the Frank Russell Company ("Russell") in respect of the use of Russell's registered trademarks and brands and of the Russell 1000® Growth Net Total Return index, which Russell composes and calculates independently of Lyxor International Asset Management and the Sub-fund. Russell will not be held liable, has not studied the Sub-fund nor any literature or other publication and makes no representation nor provides any express or implied warranty as to its accuracy or comprehensiveness. Russell reserves the right, at any time and without prior notification, to revise, modify, close or change in any way the Russell 1000® Growth Net Total Return index. Russell shall accept no liability or obligation in respect of the administration, management or marketing of the LYXOR RUSSELL 1000 GROWTH UCITS ETF Sub-fund.

RUSSELL DOES NOT GUARANTEE THE ACCURACY AND/OR THE COMPREHENSIVE NATURE OF THE INDICES OR OF ANY DATA INCLUDED. NOR DOES RUSSELL OR ANY OTHER PARTY INVOLVED IN THE CREATION OR CALCULATION OF A RUSSELL INDEX PROVIDE ANY EXPRESS OR IMPLIED WARRANTY IN RESPECT OF THE RESULTS THAT A HOLDER OF A RUSSELL LICENCE MAY OBTAIN. RUSSELL DISCLAIMS ALL WARRANTIES OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR USE OF THE INDICES OR DATA INCLUDED. WITHOUT LIMITING THE FOREGOING, UNDER NO CIRCUMSTANCES SHALL RUSSELL OR ANY OTHER PARTY BE HELD LIABLE FOR ANY LOSS, BE IT DIRECT, INDIRECT OR OTHER (INCLUDING LOST PROFITS) EVEN IF IT IS AWARE OF THE POSSIBILITY OF SUCH A LOSS.

ADDITIONAL INFORMATION

The Sub-fund's shares are admitted to trading by Euroclear France S.A.

Subscription and redemption orders are sent by investors' financial intermediaries (members of Euroclear France S.A.) to the Depositary.

The Sub-fund's prospectus, the Key Investor Information Document, the most recent annual documents and the asset inventory will be sent to investors within eight business days upon receipt of a written request addressed to:

LYXOR INTERNATIONAL ASSET MANAGEMENT

17 Cours Valmy - 92987 Paris La Défense France.

E-mail: contact@lyxor.com

More information can also be requested from Lyxor International Asset Management on its website at www.lyxoretf.com.

Prospectus publication date: see the "Publication Date" section.

Pursuant to Article L.533-22-1 of the French monetary and financial code, information concerning the Management Company's possible inclusion of social, environmental and corporate governance objectives and performance criteria in its investment policy is available on the management company's website and in the Multi Units France annual report.

The AMF's website (www.amf-france.org) provides additional information on the list of regulatory documents and on all provisions relating to investor protection.

This Prospectus must be made available to investors prior to subscription.

INVESTMENT RULES

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

The Sub-fund may invest in the assets indicated in Article L214-20 of the French monetary and financial code, subject to the risk-diversification and investment ratio requirements of Articles R214-21 to R214-27 of said code.

Notwithstanding the 10% limit under Paragraph II of Article R214-21 of the French monetary and financial code, the Sub-fund may invest up to 20% of its assets in the equities and debt securities of a single issuer, in compliance with Article R214-22-I, which deals with index-tracking funds. Pursuant to Article R214-22 II, the Sub-fund may also increase this 20% limit for a single issuer to 35%, when this is shown to be justified by exceptional market conditions, and in particular when certain securities are largely dominant.

OVERALL RISK EXPOSURE

The commitment approach is used to calculate the overall risk exposure

ASSET VALUATION AND ACCOUNTING RULES

A. VALUATION RULES

The Sub-fund's assets are valued in accordance with applicable laws and regulations and most notably Regulation NO. 2014-01 of 14 January 2014 of the Comité de la Réglementation Comptable (the Accounting Regulations Committee), which applies to the chart of accounts for UCITS investment funds.

Financial instruments traded on a regulated market are valued at the closing price recorded on the day prior to the calculation of the net asset value. If these financial instruments are traded on several regulated markets at the same time, the closing price used is that recorded on the regulated market on which they are principally traded.

However, in the absence of significant trading on a regulated market, the following financial instruments are valued using the following methods:

- Negotiable debt securities with a residual term to maturity of less than three months on acquisition are valued at their purchase price. Any discount or premium to redemption value is amortised on a straight-line basis over the residual term of the instrument. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc.). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- NDS with a remaining life of more than three months upon acquisition but less than or equal to three months at the net asset value calculation date are valued by applying the difference between the most recent valuation and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc.). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- NDS with a remaining life at the net asset value calculation date that exceeds three months are valued at their current value. The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- Financial futures traded on organised markets are valued at the clearing price on the day prior to the calculation of the net asset value. Options traded on organised markets are valued at their market price on the day prior to the calculation of the net asset value. Forward contracts and over-the-counter options are valued at the price quoted by the counterparty. The management company monitors these prices independently.
- Bank deposits are valued at their nominal value plus accrued interest.
- Warrants, short and medium-term notes (bons de caisse), promissory notes and mortgage notes are valued under the management company's responsibility at their most likely trading value.
- Securities financing transactions are valued at the market price.
- Shares and units in UCITS under French law are valued at the last known net asset value on the day the Sub-fund's net asset value is calculated.
- Shares and units in foreign investment funds are valued at the last known net asset value at the date the Sub-fund's net asset value is calculated.
- Financial instruments traded on a regulated market and for which no price has been quoted or whose price has been corrected, are valued under the management company's responsibility at their most likely trading value.
- The exchange rates used to value financial instruments denominated in a currency other than the Sub-fund's base currency are the WM Reuters fixing rates published on the day the Sub-fund's net asset value is calculated.

B. ACCOUNTING METHOD FOR TRADING EXPENSES

Trading expenses are included in the initial cost of the transaction.

C. ACCOUNTING METHOD FOR INCOME FROM FIXED-INCOME SECURITIES

Income from fixed-income securities is accounted for using the cash-basis method.

D. DISTRIBUTION POLICY

For more information see the section entitled "CALCULATION AND ALLOCATION OF AMOUNTS AVAILABLE FOR DISTRIBUTION"

E. ACCOUNTING CURRENCY

The Sub-fund's accounts are kept in euro.

SUB-FUND NO. 40: LYXOR RUSSELL 1000 VALUE UCITS ETF

A SICAV SUB-FUND COMPLIANT WITH DIRECTIVE 2009/65/EC

ISIN CODE

Acc share class: FR0011119205
Dist share class: FR0011119213

CLASSIFICATION

International equities

The Lyxor Russell 1000 Value UCITS ETF sub-fund (the “**Sub-fund**”) continuously maintains at least 60% exposure to one or more foreign equity markets, and possibly to the French equity market.

The Sub-fund is a UCITS ETF index-tracker.

INCEPTION DATE

This sub-fund was approved by l’Autorité des Marchés Financiers on 15/02/2018 and was created on 19 April 2018.

INVESTMENT OBJECTIVE

The Sub-fund’s investment objective is to seek exposure to the ‘value’ segment of the US large-cap stock market by replicating the performance, whether positive or negative, of the Russell 1000® Value Net Total Return index (the “**Benchmark Index**”), denominated in US dollars (USD), while minimising the tracking error between the Sub-fund’s performance and that of its Benchmark Index.

The expected ex-post tracking error under normal market conditions is 0.05%.

BENCHMARK INDEX

Description

The Benchmark Index is the Russell 1000® Value Net Total Return index with net dividends reinvested.

The Benchmark Index reflects the performance of the ‘value’ or ‘value stocks’ segment of the US large-cap stock market. It is composed of the Russell 1000 companies that have the lowest price-to-book ratios and the least growth potential.

The Benchmark Index is designed to be a reliable indicator of large-cap ‘value’ stocks. The Benchmark Index is updated annually to ensure that new value stocks are included and that it continues to represent the ‘value’ market in a consistent manner.

The performance tracked is that of the Benchmark Index’s closing price.

The Benchmark Index is calculated by Russell Investments.

Methodology

Russell provides a family of US stock indexes weighted by market capitalisation. All of the US indices are sub-sets of the Russell 3000E™ Index, which represents approximately 99% of the US stock market.

The Benchmark Index is a sub-set of the Russell 1000® Index which represents the latter’s ‘value’ stocks. Each index component is selected on the basis of its price-to-book ratio, I/B/E/S medium-term growth forecast and historic revenue growth.

Each year, Russell Investments observes the following methodology to select the stocks that are to be included in the Benchmark Index:

- Classification by market capitalisation as at 31 May
- The largest 3,000 stocks comprise the Russell 3000® Index
- The largest 1,000 stocks comprise the Russell 1000® Index

The following are excluded:

- Stocks that trade at less than one dollar.
- Stocks that trade on the OTC Bulletin Board or on the Pink Quote market
- Closed funds, SCS, royalty trusts, etc.
- Non-US stocks and American Depository Receipts (ADRs).

Dividends are reinvested at the ex-dividend date.

A full description and the complete methodology used to construct the Benchmark Index and information on the composition and respective weightings of the Benchmark Index components are available on the Internet at www.russell.com.

Benchmark index publication

The Benchmark Index is available via Reuters et Bloomberg.

Reuters code: . RLVNET

Bloomberg code: RU1VN30U

The closing price of the Benchmark Index is available on the Internet at www.russell.com

Pursuant to Article 52 of European Parliament and Council Regulation 2016/1011 of 8 June 2016, Frank Russell Company, the administrator of the Russell 1000® Value Net Total Return benchmark index, has until 1 January 2020 to apply for approval or registration as applicable.

As of the date of the most recent version of this prospectus, the benchmark index administrator was not yet listed in ESMA’s register of benchmark administrators.

Pursuant to European Parliament and Council Regulation 2016/1011 of 8 June 2016, the asset management company has a procedure for monitoring the benchmark indices used that specifies the measures to be implemented if an index is substantially modified or is no longer provided.

Benchmark Index composition and revision

The Benchmark Index is revised annually.

The exact composition of the Benchmark Index and Russell's rules for index composition revision are available at www.russell.com

The frequency of this rebalancing does not affect the cost of implementing the Investment Strategy.

On 14 October 2011, the Benchmark Index was composed of 657 securities.

INVESTMENT STRATEGY

1. Strategy employed

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund will employ an indirect replication method, which involves entering into one or more OTC swap contracts to achieve its investment objective. These swap contracts will serve to exchange the value of the Sub-fund's assets, which will consist of balance sheet assets (excluding any securities received as collateral), for the value of the securities that underlie the Benchmark Index.

The Securities in the Sub-fund's portfolio may include those that make up the Benchmark Index, as well as other global equities across all economic sectors and listed on all exchanges including small-cap exchanges.

The basket of securities held may be adjusted daily such that its value will generally be at least 100% of the net assets. When necessary, this adjustment will aim to neutralise the counterparty risk arising from the aforementioned swap contract.

Information on the updated composition of the basket of 'balance sheet' assets in the Sub-fund's portfolio and the value of the swap contract concluded by the Sub-fund is available on the page dedicated to the Sub-fund on Lyxor's website at www.lyxoretf.com. The frequency of any updates and/or the date on which the aforementioned information is updated is also indicated on the same page of the aforementioned website.

In managing its exposure, no more than 20% of the Sub-fund's assets may be exposed to the equities of a given issuer. This 20% limit may be increased to 35% for a single issuing entity when this is shown to be justified by exceptional market conditions, in particular when certain securities are largely dominant and/or in the event of strong volatility affecting a financial instrument or securities linked to an economic sector represented in the Benchmark Index. This could be the case, for example, in the event of a public offering affecting any of the securities that make up the Benchmark Index or in the event of a significant restriction of liquidity affecting one or more financial instruments in the Benchmark Index.

2. Balance sheet assets (excluding embedded derivatives)

In compliance with the ratios indicated in the applicable regulations, the Sub-fund may invest in global equities in all economic sectors and listed on all exchanges including small-cap exchanges.

The aforementioned equities will be selected on the basis of the following:

- eligibility criteria, in particular:
 - their inclusion in a major stock exchange index
 - liquidity (must exceed a minimum daily trading volume and market capitalisation)
 - credit rating of the country where the issuer has its registered office (must have a least a minimum S&P or equivalent rating)
- diversification criteria, in particular regarding:
 - the issuer (application of investment ratios to assets that qualify for UCITS, pursuant to Art. R214-21 of the French monetary and financial code)
 - geography
 - sector

Investors may find more information on the above eligibility and diversification criteria, and in particular the list of eligible indices, on Lyxor's website at www.lyxoretf.com.

Investment in undertakings for collective investment in transferrable securities ("UCITS") that comply with Directive 2009/65/EC is limited to 10% of the Sub-fund's net assets.

The fund manager will not invest in the shares or units of alternative investment funds (AIF) or other investment funds that were formed under a foreign law. In respect of these investments, the Sub-fund may invest in the units or shares of UCITS managed by the management company or by a company that is related to the management company.

To optimise the Sub-fund's management, the manager reserves the right to use other instruments in accordance with the applicable regulations in order to achieve its investment objective.

3. Off-balance sheet assets (derivatives)

The Sub-fund will use OTC index-linked swaps that swap the value of its equity assets (or the value of any other financial instruments or assets the Sub-fund may hold) for the value of the Benchmark Index.

- Maximum proportion of assets under management for which total return swaps may be entered into: 100% of assets under management.
- Expected proportion of assets under management for which total return swaps may be entered into: up to 100% of assets under management.

To optimise the Sub-fund's management, the manager reserves the right to use other instruments in accordance with the applicable regulations in order to achieve its investment objective, such as derivatives other than index-linked swaps.

In accordance with its best execution policy, the management company considers that Société Générale is the counterparty that is generally able to obtain the best possible execution for these derivative financial instruments. Accordingly, these derivative financial instruments (including index-linked swaps) may be traded via Société Générale without having to seek a competitive bid from another counterparty.

The counterparty of the derivative financial instruments referred to above (the "Counterparty") will have no discretionary power over the composition of the Fund's portfolio nor over the underlying assets of the derivative financial instruments.

4. Securities with embedded derivatives

N/A.

5. Cash deposits

In order to optimise its cash management, the Sub-fund may deposit funds representing up to 20% of its net assets with lending institutions that belong to the same group as the depositary/custodian.

6. Cash borrowing

The Fund may temporarily borrow up to 10% of its net assets.

7. Securities financing transactions

N/A.

8. Collateral

N/A. In trying to achieve its investment objective the Sub-fund will not give nor receive any collateral.

RISK PROFILE

The shareholder's money will be mainly invested in the financial instruments selected by the management company. These instruments are subject to market trends and contingencies.

Shareholders in the Sub-fund will be mainly exposed to the following risks:

- Equity risk

The price of an equity security can increase or decrease in accordance with changes in the issuer's risk exposure or in the economic conditions of the market in which the security is traded. Equity markets are more volatile than fixed-income markets, where it is possible to estimate revenues for a certain period of time under the same macroeconomic conditions.

- Capital risk

The capital invested is not guaranteed. Investors therefore may not recover all or part of their initial investment, particularly in the event that the Benchmark Index posts a negative return over the investment period

- Liquidity risk (primary market)

The Sub-fund's liquidity and/or value may be adversely affected if, when the Sub-fund or a counterparty to a derivative financial instrument (DFI) is rebalancing its exposure, the underlying financial markets are restricted, closed, or subject to large bid/offer spreads. An inability, due to low trading volume, to execute the trades required to replicate the Benchmark Index may also adversely affect the subscription, conversion or redemption of shares.

- Liquidity risk (secondary market)

The Sub-fund's on-exchange price may deviate from its indicative net asset value. The liquidity of the Sub-fund's shares on an exchange may be adversely affected by a suspension of or disruption in market operation, such as one of the following events:

- i) the calculation of the Benchmark Index is suspended or stopped and/or
- ii) the market(s) in the Benchmark Index's underlying assets is (are) suspended, and/or
- iii) a stock exchange cannot obtain or calculate the Sub-fund's indicative net asset value and/or
- iv) a market maker fails to comply with an exchange's rules and/or
- v) an exchange's IT, electronic or other system fails.

- Counterparty risk

The Sub-fund is exposed to the risk that a counterparty with which the Sub-fund has entered into a contract or transaction may go bankrupt or default on a settlement or other obligation. The Fund is mainly exposed to counterparty risk resulting from the use of derivative financial instruments (DFI) traded over the counter with Société Générale or some other counterparty. In compliance with UCITS regulations, exposure to counterparty risk (whether the counterparty is Société Générale or another entity), cannot exceed 10% of the Sub-fund's total assets per counterparty

If a counterparty defaults on an obligation the DFI contract may be terminated before maturity. The Sub-fund will do everything in its power to achieve its investment objective by, if appropriate, entering into another DFI contract with another counterparty at the market conditions at the time of such an event.

If this counterparty risk materialises it could have an impact on the Sub-fund's ability to achieve its investment objective of replicating the Benchmark Index.

Where Société Générale acts as the DFI counterparty, conflicts of interest may arise between the Sub-fund's Management Company and the DFI counterparty. The Management Company has procedures to identify and reduce such conflicts of interest and to resolve them equitably if necessary.

- Risk that the investment objective is not fully achieved

There is no guarantee that the investment objective will be achieved, as no asset or financial instrument can ensure that the Benchmark Index will be automatically and continuously replicated, particularly in the event of one or more of the following risks:

- Risk of using derivative financial instruments

In order to achieve its investment objective and secure the performance of the Benchmark Index, the Sub-fund can enter into over-the-counter derivative financial instruments ("DFI"), such as swaps. This DFI involve various risks, such as counterparty risk, hedging disruption, Benchmark Index disruption, taxation risk, regulatory risk, operational risk and liquidity risk. These risks can materially affect a DFI and could lead to an adjustment or even the early termination of the DFI transaction, which could affect the Sub-fund's net asset value.

- Risk of a change in the tax regime

A change in the tax regime of a jurisdiction where the Sub-fund is domiciled, authorised for sale or listed could adversely affect the taxation of investors. In such an event, the Sub-fund manager will not be liable to any investor with respect to any payment that may have to be made to a competent tax authority.

- Risk of a change in the tax regime of the Fund's underlying assets

A change in a tax regime that applies to the Sub-fund's underlying assets could affect the tax treatment of the Sub-fund. As a result, in case of a discrepancy between the estimated and effective tax treatments applied to the Sub-fund and/or to the Sub-fund's counterparty to the DFI, the Sub-fund's net asset value may be affected.

- Regulatory risk affecting the Fund

In the event of a change in the regulatory regime in a jurisdiction where the Sub-fund is domiciled, authorised for sale or listed, the subscription, conversion or redemption of shares may be adversely affected.

- Regulatory risk affecting the Fund's underlying assets

In the event of a change in the regulations that govern the Sub-fund's underlying assets, the Sub-fund's net asset value and the subscription, conversion or redemption of shares or units may be adversely affected.

- Benchmark Index disruption risk

If an event adversely affects the Benchmark Index, the Fund manager may be required, in accordance with the applicable laws and regulations, to suspend the subscription and redemption of the Sub-fund's shares. The calculation of the Sub-fund's net asset value could also be adversely affected.

If the Benchmark Index disruption persists, the manager of the Sub-fund will determine the appropriate measures to be carried out, which could have an impact on the Sub-fund's net asset value.

A 'Benchmark Index event' includes but is not limited to the following situations:

- i) the Benchmark Index is deemed to be inaccurate or does not reflect actual market developments
- ii) the Benchmark Index is permanently cancelled by the index provider
- iii) the index provider is unable to provide the level or the value of the Benchmark Index
- iv) the index provider makes a material change in the Benchmark Index calculation formula or method (other than a minor modification such as an adjustment to the Benchmark Index's underlying components or their respective weightings) which the Sub-fund cannot effectively replicate at a reasonable cost
- v) a Benchmark Index component becomes illiquid because it is no longer traded on a regulated market or because its trading over-the-counter (e.g. bonds) is disrupted
- vi) The Benchmark Index components are exposed to higher transaction costs for execution or settlement/delivery, or to specific tax constraints and these costs are not reflected in the Benchmark Index's performance.

- Corporate action risk

An unforeseen change, by the issuer of a security that is a component of the Benchmark Index, in a planned corporate action that is in contradiction with a previous official announcement on which the Sub-fund based its valuation of the corporate action (and/or on which the Sub-fund's counterparty to a derivative financial instrument or transaction based its valuation of the corporate action) can adversely affect the Sub-fund's net asset value, particularly if the Sub-fund's treatment of the corporate event differs from that of the Benchmark Index.

- Legal risk

The Sub-fund may be exposed to a legal risk arising from a total return swap (TRS) agreement as indicated in EU Regulation 2015/2365.

ELIGIBLE INVESTORS AND TYPICAL INVESTOR PROFILE

This Sub-fund is available to all investors.

Investors in this Sub-fund are seeking exposure to the performance of large-cap US stocks with growth potential which is achieved by replicating the performance of the Benchmark Index.

The amount that it is reasonable to invest in this Sub-fund depends on each investor's personal situation. To determine this amount, investors must take into account their personal wealth and/or estate, their cash requirements at present and for the next five years, and their willingness to take on risk or adopt a more cautious approach. It is also recommended that investors diversify their investments so that they are not exclusively exposed to this Sub-fund's risks.

All investors are therefore asked to consider their specific situation with the help of their usual investment advisor.

The recommended minimum investment period is at least five years.

CALCULATION AND ALLOCATION OF DISTRIBUTABLE AMOUNTS

Acc share class: All distributable amounts are accumulated.

Dist share class: The management company reserves the right to accumulate and/or distribute all or part of distributable income in one or more annual distributions. Net realised capital gains will be accumulated.

DISTRIBUTION FREQUENCY

If distribution is decided, The management company reserves the right to distribute distributable amounts in one or more annual distributions.

SHARE CHARACTERISTICS

The Acc and Dist class shares will be issued at a price that is equivalent to the net asset value of the corresponding absorbed unit class on the day the Lyxor Russell 1000 Value UCITS ETF is merged.

Subscription orders may be placed for a specific monetary amount or for a whole number of shares.

Redemptions will be made in whole numbers of shares.

UNIT CURRENCY

	Acc share class	Dist share class
Currency	US dollar	US dollar

SUBSCRIPTION AND REDEMPTION

1. SUBSCRIPTION AND REDEMPTION ON THE PRIMARY MARKET

Orders to subscribe for or redeem shares in the Sub-fund will be processed by the Depositary, from 10.00 am to 6.30 pm (Paris time), every day that the Sub-fund's net asset value is to be published, provided that prices are quoted for a significant proportion of the Benchmark Index components (hereinafter a "Primary Market Day"), and will be executed at the net asset value on that Primary Market Day(hereinafter the "reference NAV"). Subscription/redemption orders submitted after 6.30 pm (Paris time) on a Primary Market Day will be processed as if received from 10.00 am to 6.30 pm (Paris time) on the following Primary Market Day. Orders to

subscribe for or redeem shares in the Sub-fund must be for a whole number of shares and represent at least the USD equivalent of 100,000 euros for the Acc and Dist share classes.

Subscriptions and redemptions in cash

Subscriptions and redemptions shall be made exclusively in cash and executed at the ref NAV.

Delivery and settlement

Settlement/delivery of subscriptions and redemptions shall be completed within five French business days upon receipt of the subscription or redemption order.

Date and frequency of net asset value calculation

The net asset value will be calculated and published each day that the Sub-fund's net asset value is to be published, provided that the market on which the Sub-fund's shares are traded is open and that orders placed in the primary and secondary markets can be funded.

The Sub-fund's net asset value is calculated using the Benchmark Index's closing price denominated in USD. The Sub-fund's net asset value is denominated in EUR. The net asset value of a share class that is denominated in another currency than the Fund's accounting currency (if applicable) is calculated using the exchange rate between the accounting currency and the currency of the share class, at the applicable WM Reuters rate on the date the reference NAV is calculated.

2. PURCHASES AND SALES ON THE SECONDARY MARKET

A. COMMON PROVISIONS

Purchases and sales of Sub-fund shares made directly on an exchange on which the Sub-fund is or will be listed and continuously traded will be subject to no minimum purchase/sale requirements other than those of the relevant exchange(s).

Shares in a listed sub-fund that are purchased on the secondary market cannot generally be directly sold back to that sub-fund. Investors must therefore buy and sell their shares on a secondary market through an intermediary (e.g. a broker) and may consequently incur costs. It is also possible that investors may pay more than the indicative net asset value when buying shares and receive less than the indicative net asset value when selling shares.

If the stock market value of a listed fund's shares differs significantly from its indicative net asset value, or if trading in the fund's shares is suspended, subject to the conditions set forth below, investors may be allowed to redeem their shares on the primary market directly from the fund, without being subject to the minimum redemption amount requirement set forth herein in the section SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)".

The management company shall decide whether to allow such primary market redemptions and for how long, on the basis of the following criteria for assessing the significance of a market disruption:

- The suspension or strong disturbance of secondary trading on a given exchange is relatively frequent.
- The link between the market disruption and secondary market operators (such as the default of one or more of the Market Makers of a given exchange, or a breakdown or malfunction of an exchange's IT or operating systems), excluding a disruption caused by a source external to the secondary exchange on which the shares or units of the Sub-fund are traded, such as an event that affects the liquidity and valuation of all or some of the Benchmark Index's components
- Any other objective circumstance that could adversely affect the fair treatment and/or the interests of the Sub-fund's shareholders.

Notwithstanding the provisions concerning fees presented in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)", redemptions made in the primary market in this case shall only be subject to a net redemption fee of 1.00% paid to the Sub-fund and which serves to cover its trading costs.

In such exceptional cases when redemption in the primary market is allowed, the Management Company shall post on Lyxor's website at www.lyxor.etc.com the procedure that investors must observe to redeem their shares in the primary market. The Management Company shall also make this procedure available to the market undertaking that handles trading in the Sub-fund's shares.

B. SPECIAL PROVISIONS

a) If the Sub-fund's shares are listed on Euronext Paris (as indicated in the "Key Information" section) investors should note the following rules

Negotiability of shares and information about the financial institutions acting as Market Makers:

The shares shall be freely negotiable on the Euronext Paris regulated market subject to the following conditions and the applicable laws and regulations.

The Sub-fund shares will be listed on a specific trading list, the rules of which are defined in the following instructions published by Euronext Paris SA:

- Instruction No. 4-01 "Universal Trading Platform Manual".
- Appendix to Instruction N4-01 (Appendix to the Euronext Market Trading Manual).
- Instruction No. 6-04 "Documentation to be provided when filing a listing application for an ETF, ETN, ETV and open-ended undertakings for collective investment other than ETFS".

Pursuant to article D 214-22-1 of the French monetary and financial code the units or shares of undertakings for collective investments in transferable securities may be admitted to trading, provided that these undertakings have a system to ensure that the market price of their units or shares does not differ significantly from their net asset value. Under Euronext Paris' rules trading in the Sub-fund's shares is also subject to a 'reservation threshold' of 3% above or below the Sub-fund's Indicative Net Asset value or "iNAV"(see the "Indicative Net Asset Value" section), as published by Euronext Paris SA and updated on an estimated basis during trading in accordance with the change in the Benchmark Index.

To comply with Euronext Paris SA's reservation thresholds (see the "Indicative Net Asset Value" section) the Market Makers will ensure that the market price of the Sub-fund's shares does not differ from the Sub-fund's indicative Net Asset Value by more than 3%.

Euronext Paris SA may suspend trading in the Sub-fund's shares pursuant to the terms of its operating rules, if the aforementioned reservation threshold limit is exceeded.

Euronext Paris SA will also suspend trading in the Sub-fund's shares in the following cases:

- the Benchmark Index is no longer traded or calculated
- Euronext Paris SA cannot obtain the Benchmark Index's level
- Euronext Paris SA cannot obtain the Sub-fund's net asset value.

In accordance with the terms and conditions governing admission to trading on Euronext Paris, the Market Makers undertake to provide market-making services for the Sub-fund's shares as soon as they are admitted to trading on the Euronext Paris exchange.

In particular, the Market Makers undertake to carry out market-making operations by maintaining a significant presence in the market, which initially entails the setting of a bid/ask spread.

More specifically, the Market Makers are required by contract with Euronext Paris SA to ensure that the Sub-fund maintains:

- a maximum global spread of 3% between the bid and offer price in the centralised order book
- a minimum nominal trading value of EUR 100,000.

The obligations of the Sub-fund's Market Makers will be suspended in the following cases:

- the Benchmark Index is no longer traded or calculated
- If trading is substantially disrupted, for example due to a widespread shift in prices or an event that makes normal market making impossible.

Indicative net asset value

Euronext Paris SA will calculate and publish, each Trading Day (as defined below) during trading hours, the Sub-fund's indicative net asset value (hereinafter the "iNAV"). The iNAV is a measure of the intra-day value of the Sub-fund's net asset value based on the most recent data. The iNAV is not the value at which investors buy and sell shares in the Sub-fund on the secondary market.

A "Trading Day" is a day on which Euronext is normally open and on which the Benchmark Index is normally published.

The Sub-fund's iNAV is a theoretical net asset value calculated every 15 seconds by Euronext SA throughout the Paris trading day and is based on the level of the Benchmark Index. The iNAV enables investors to compare the prices that the Market Makers offer on the market with the theoretical value calculated by Euronext.

The iNAV will be calculated every day that the net asset value is calculated and published.

For the calculation of the Sub-fund's iNAV during the Paris trading session (from 9.05 am to 5.35 pm), Euronext Paris SA will use the Benchmark Index value provided by Reuters.

If one or more stock exchanges on which the Benchmark Index's constituent equities are listed are closed (on a public holiday as indicated on the TARGET calendar) and if the calculation of the iNAV proves impossible, trading in the Sub-fund's shares may be suspended.

Lyxor International Asset Management, the Sub-fund's management company, will provide Euronext Paris SA with all the financial and accounting data it needs to calculate the Sub-fund's iNAV and in particular:

- The day's estimated net asset value
- The official net asset value of the previous business day
- The level of the Benchmark Index on the previous business day.

These data will serve as a basis for Euronext Paris SA's calculations to determine the Sub-fund's iNAV in real time every Trading Day.

Additional information about the indicative net asset value of a share listed on a regulated market may, depending on the terms and limits set by the relevant market undertaking, be provided on the website of the exchange where the share is listed. This information is also available on the Reuters or Bloomberg pages dedicated to the particular share. Additional information about Bloomberg and Reuters codes corresponding to the indicative net asset value of UCITS ETF type shares is also available in the "Term Sheets" section of Lyxor's website at www.lyxoretf.com.

b) If the shares are listed on an exchange other than Euronext Paris, as indicated in the "Key Information" section, investors should note the following rules

Investors wishing to acquire shares in the Sub-fund or obtain more information regarding the market-making terms that govern the listing and trading of shares on the types of exchanges indicated in the "Key Information" section are advised to familiarise themselves with the guidelines laid down by the relevant market undertaking in compliance with local regulations, and to seek if necessary the assistance of their usual broker(s) for executing trades on the relevant exchange(s).

FEES AND CHARGES

SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)

Subscription and redemption fees increase the subscription price paid by investors and reduce the redemption price. Fees kept by the Sub-fund compensate it for the expenses it incurs in investing in the Sub-fund's assets or in divesting these assets. Any fees that are not kept by the Fund are paid to the management company, marketing agent or other service provider.

Fees paid by investors upon subscription or redemption	Base	Maximum charge
Subscription fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per subscription order or 5%, payable to third parties
Subscription fee kept by the Sub-fund	NAV per share x number of shares	N/A
Redemption fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per redemption order or 5%, payable to third parties
Redemption fee kept by the Sub-fund	NAV per share x number of shares	N/A

No subscription or redemption fee will be charged for any purchase or sale of Sub-fund shares on an exchange where the Fund is listed

OPERATING AND MANAGEMENT FEES

These fees cover all the costs invoiced directly to the Fund, except for transaction expenses, which include intermediary fees (brokerage, stock market taxes etc.) and any account activity fee that may be charged by the depositary or the management company.

For this Sub-fund the following fees may be charged in addition to the operating and management fees (see table below):

- Incentive fees, which the Sub-fund pays to the management company when the Sub-fund exceeds its objectives;
- Account activity fees charged to the Sub-fund.

For more information on the fees that are actually charged to the Sub-fund, see the Statistics section of the Key Investor Information Document.

Fees charged to the Sub-fund	Base	Maximum charge
Investment management fees and administration fees that are external to the management company ⁽¹⁾	Net asset value	0.19% annual
Maximum indirect expenses (management expenses and fees)	Net asset value	N/A
Account activity fee	Net asset value	N/A
Incentive fee	Net asset value	N/A

(1) Includes all fees and expenses except for transaction expenses, incentive fees and fees associated with investment in UCITS.

COMMERCIAL INFORMATION

Distribution of this prospectus and the offer or purchase of the Fund share classes may be subject to restrictions with regard to certain persons or in certain countries by virtue of national regulations applying to such persons or such countries. Each investor is therefore responsible for ensuring that he or she is authorised to subscribe to or invest in this Fund. As a result, the information contained in this prospectus cannot be understood as constituting an offer or solicitation to buy or sell shares in this Fund in a country where such offer or solicitation is unlawful.

The Fund's share classes will not be registered pursuant to the US Securities Act of 1933, as amended (the "US Securities Act") and cannot be offered, assigned, transferred or allocated to the United States of America, or to:

- (A) any "US Person", as this term is defined (i) under Regulation S of the US Securities Act of 1933 and (ii) under US regulations as defined in Section 7701 (a) (30) of the Internal Revenue Code of 1986 as amended. The Sub-fund's shares will not be offered to US Persons.
- (B) anyone other than those persons considered to be "non-US Persons" as this term is defined under US regulations pursuant to the Commodity Futures Trading Commission, Rule 4.7 (a) (1) (iv).

The Sub-fund's shares will only be offered for sale outside of the United States of America to non-US Persons.

For the purpose of this document, the term "US Person" shall mean, among other things, any individual who resides in the United States of America, any entity organised or formed under the laws of the United States of America, certain entities organised or formed outside of the United States of America by one or more US persons, or any account held on behalf of such a US person.

Under the German tax act on investment funds (InvStG-E), the Sub-fund is a "mutual fund" and must comply with the criteria that apply to "equity funds". As such, the Sub-fund will hold a basket of securities that are eligible for the equity ratio as this term is defined under said German tax act, and which will represent at least 92% of its net assets under normal market conditions. To ensure compliance with this ratio, the Sub-fund may adjust this basket of securities on a daily basis.

Before making an investment in this Fund or this Sub-fund, investors should seek the advice of their financial, tax and legal advisers.

PLACE AND METHOD OF NET ASSET VALUE PUBLICATION OR COMMUNICATION

At the head office of LYXOR INTERNATIONAL ASSET MANAGEMENT, at 17, cours Valmy - 92987 Paris La Défense CEDEX - France.

The Sub-fund's net asset value will be calculated and published every Trading Day.

IMPORTANT INFORMATION ABOUT THE BENCHMARK INDEX PROVIDER

The LYXOR RUSSELL 1000 VALUE UCITS ETF Sub-fund is in no way sponsored, approved, sold or promoted by the Frank Russell Company ("Russell"), which makes no representations or warranties and provides no express or implied guarantee to LYXOR RUSSELL 1000 VALUE UCITS ETF Sub-fund unit-holders or to the general public in respect of the advisability of trading in the shares or units of mutual funds in general or specifically in the shares of the LYXOR RUSSELL 1000 VALUE UCITS ETF Sub-fund, or in respect of the ability of the Russell 1000® Value Net Total Return index to replicate the performance of the market or a segment thereof. The publication of the Russell 1000® Value Net Total Return Index in no way implies or suggests that it is advisable to invest in any or all of the securities that comprise the Russell 1000® Value Net Total Return Index. The sole relationship between Lyxor International Asset Management is the agreement of the Frank Russell Company ("Russell") in respect of the use of Russell's registered trademarks and brands and of the Russell 1000® Value Net Total Return index, which Russell composes and calculates independently of Lyxor International Asset Management and the Sub-fund. Russell will not be held liable, has not studied the Sub-fund nor any literature or other publication and makes no representation nor provides any express or implied warranty as to its accuracy or comprehensiveness. Russell reserves the right, at any time and without prior notification, to revise, modify, close or change in any way the Russell 1000® Value Net Total Return index. Russell will accept no liability or obligation in respect of the administration, management or marketing of the LYXOR RUSSELL 1000 VALUE UCITS ETF Sub-fund.

RUSSELL DOES NOT GUARANTEE THE ACCURACY AND/OR THE COMPREHENSIVE NATURE OF THE INDICES OR OF ANY DATA INCLUDED. NOR DOES RUSSELL OR ANY OTHER PARTY INVOLVED IN THE CREATION OR CALCULATION OF A RUSSELL INDEX PROVIDE ANY EXPRESS OR IMPLIED WARRANTY IN RESPECT OF THE RESULTS THAT A HOLDER OF A RUSSELL LICENCE MAY OBTAIN. RUSSELL DISCLAIMS ALL WARRANTIES OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR USE OF THE INDICES OR DATA INCLUDED. WITHOUT LIMITING THE FOREGOING, UNDER NO CIRCUMSTANCES SHALL RUSSELL OR ANY OTHER PARTY BE HELD LIABLE FOR ANY LOSS, BE IT DIRECT, INDIRECT OR OTHER (INCLUDING LOST PROFITS) EVEN IF IT IS AWARE OF THE POSSIBILITY OF SUCH A LOSS.

ADDITIONAL INFORMATION

The Sub-fund's shares are admitted to trading by Euroclear France S.A.

Subscription and redemption orders are sent by investors' financial intermediaries (members of Euroclear France S.A.) to the Depositary.

The Sub-fund's prospectus, the Key Investor Information Document, the most recent annual documents and the asset inventory will be sent to investors within eight business days upon receipt of a written request addressed to:

LYXOR INTERNATIONAL ASSET MANAGEMENT

17 Cours Valmy - 92987 Paris La Défense France.

E-mail: contact@lyxor.com

More information can also be requested from Lyxor International Asset Management on its website at www.lyxoretf.com.

Prospectus publication date: see the "Publication Date" section

Pursuant to Article L.533-22-1 of the French monetary and financial code, information concerning the Management Company's possible inclusion of social, environmental and corporate governance objectives and performance criteria in its investment policy is available on the management company's website and in the Multi Units France annual report.

The AMF's website (www.amf-france.org) provides additional information on the list of regulatory documents and on all provisions relating to investor protection.

This Prospectus must be made available to investors prior to subscription.

INVESTMENT RULES

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

The Sub-fund may invest in the assets indicated in Article L214-20 of the French monetary and financial code, subject to the risk-diversification and investment ratio requirements of Articles R214-21 to R214-27 of said code.

Notwithstanding the 10% limit under Paragraph II of Article R214-21 of the French monetary and financial code, the Sub-fund may invest up to 20% of its assets in the equities and debt securities of a single issuer, in compliance with Article R214-22-I, which deals with index-tracking funds. Pursuant to Article R214-22 II, the Sub-fund may also increase this 20% limit for a single issuer to 35%, when this is shown to be justified by exceptional market conditions, and in particular when certain securities are largely dominant.

OVERALL RISK EXPOSURE

The commitment approach is used to calculate the overall risk exposure

ASSET VALUATION AND ACCOUNTING RULES

A. Valuation rules

The Sub-fund's assets are valued in accordance with applicable laws and regulations and most notably Regulation NO. 2014-01 of 14 January 2014 of the Comité de la Réglementation Comptable (the Accounting Regulations Committee), which applies to the chart of accounts for UCITS investment funds.

Financial instruments traded on a regulated market are valued at the closing price recorded on the day prior to the calculation of the net asset value. If these financial instruments are traded on several regulated markets at the same time, the closing price used is that recorded on the regulated market on which they are principally traded.

However, in the absence of significant trading on a regulated market, the following financial instruments are valued using the following methods:

- Negotiable debt securities ("NDS") with a remaining life upon acquisition that is less than or equal to three months are valued by applying the difference between the acquisition value and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc.). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- NDS with a remaining life of more than three months upon acquisition but less than or equal to three months at the net asset value calculation date are valued by applying the difference between the most recent valuation and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc.). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- NDS with a remaining life at the net asset value calculation date that exceeds three months are valued at their current value. The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- Financial futures traded on organised markets are valued at the clearing price on the day prior to the calculation of the net asset value. Options traded on organised markets are valued at their market price on the day prior to the calculation of the net asset value. Forward contracts and over-the-counter options are valued at the price quoted by the counterparty. The management company monitors these prices independently.
- Bank deposits are valued at their nominal value plus accrued interest.
- Warrants, short and medium-term notes (bons de caisse), promissory notes and mortgage notes are valued under the management company's responsibility at their most likely trading value.
- Securities financing transactions are valued at the market price.
- Shares and units in UCITS under French law are valued at the last known net asset value on the day the Sub-fund's net asset value is calculated.
- Shares and units in foreign investment funds are valued at the last known net asset value at the date the Sub-fund's net asset value is calculated.
- Financial instruments traded on a regulated market and for which no price has been quoted or whose price has been corrected, are valued under the management company's responsibility at their most likely trading value.
- The exchange rates used to value financial instruments denominated in a currency other than the Sub-fund's base currency are the WM Reuters fixing rates on the day the Sub-fund's net asset value is calculated.

B. ACCOUNTING METHOD FOR TRADING EXPENSES

Trading expenses are included in the initial cost of the transaction.

C. ACCOUNTING METHOD FOR INCOME FROM FIXED-INCOME SECURITIES

Income from fixed-income securities is accounted for using the cash-basis method.

D. DISTRIBUTION POLICY

For more information see the section entitled "Calculation and Allocation of Distributable amounts"

E. ACCOUNTING CURRENCY

The Sub-fund's accounts are kept in euros.

SUB-FUND NO. 41: LYXOR CAC 40 DAILY (2X) LEVERAGED UCITS ETF

A SICAV SUB-FUND COMPLIANT WITH DIRECTIVE 2009/65/EC

ISIN CODE

Acc share class: FR0010592014

CLASSIFICATION

Eurozone country equities.

The Lyxor CAC 40 Daily (2x) Leveraged UCITS ETF sub-fund (the “**Sub-fund**”) continuously maintains at least 60% exposure to one or more eurozone equity markets, which may include the French equity market.

The Sub-fund is a UCITS ETF index-tracker.

INCEPTION DATE

This sub-fund was approved by l’Autorité des Marchés Financiers on 15/02/2018 and was created on 19 April 2018.

INVESTMENT OBJECTIVE

The Sub-fund's investment objective is to replicate the performance, whether positive or negative, of the CAC 40® LEVERAGE GROSS RETURN strategy index (the “**Benchmark Index**”), while minimising the tracking error between the Sub-fund's performance and that of the Benchmark Index

The Benchmark Index reflects the performance of the CAC 40® Gross Return index (the “Parent Index”), with a daily x2 leverage effect. This means that if the underlying index rises/falls by 2% on a given day the leveraged index will rise/fall respectively by 4%, minus borrowing costs, on that day.

The expected ex-post tracking error under normal market conditions is 0.12%.

BENCHMARK INDEX

The Benchmark Index is the CAC 40® LEVERAGE GROSS RETURN strategy index (gross dividends reinvested), denominated in euros.

The Benchmark Index is a strategy index designed and calculated by the international index provider Euronext. It is calculated by Euronext.

The Benchmark Index is a strategy index which reflects the performance of the Parent Index, with a daily x2 leverage effect. This means that if the underlying index rises/falls by 2% on a given day, the leveraged index will rise/fall respectively by 4%, minus borrowing costs, on that day. The 2x leverage is obtained by doubling the investment by borrowing securities in the index's basket of equities. The cost of borrowing is taken into account when calculating the strategy index.

The Parent Index, which is weighted by float-adjusted market capitalisation, measures the performance of 40 of the largest stocks listed on the Euronext Paris exchange. The index constituents are selected for their large market capitalisation, sector representativeness and high trading volume.

A complete description of the Benchmark Index and its construction methodology, and information on the composition and respective weightings of the Benchmark Index components, are available on the Internet at <https://www.euronext.com/en>.

The performance tracked is that of the Benchmark Index's closing price in euros.

Publication de The Benchmark Index

The Benchmark Index is calculated daily at the official closing price of the exchanges where the index constituents are listed.

The Benchmark Index is also calculated in real time every day that the Benchmark Index is published.

The Benchmark Index is published by Bloomberg and Reuters.

Reuters code: . CACGL

Bloomberg code: CACGL

The closing price of the Benchmark Index is available on the Internet at: <https://www.euronext.com/en>.

Pursuant to Article 52 of European Parliament and Council Regulation 2016/1011 of 8 June 2016, Euronext Paris S.A., the administrator of the CAC 40® LEVERAGE GROSS RETURN benchmark index, has until 1 January 2020 to apply for approval or registration as applicable.

As of the date of the most recent version of this prospectus, the benchmark index administrator was not yet listed in ESMA's register of benchmark administrators.

Pursuant to European Parliament and Council Regulation 2016/1011 of 8 June 2016, the asset management company has a procedure for monitoring the benchmark indices used that specifies the measures to be implemented if an index is substantially modified or is no longer provided.

Benchmark Index composition and revision

The Benchmark Index's composition is revised in conjunction with the revision of the Parent Index.

The Parent Index is revised quarterly.

The leverage factor used in the Benchmark Index calculation formula is reset daily. The consequences of this daily resetting are explained in the Benchmark Index and Risk Profile sections of this prospectus.

The exact composition of the Parent Index and Euronext's rules for revising this index and consequently the Benchmark Index, are available on the Internet at <https://www.euronext.com/en>

The advantage of the “Leverage” strategy

The “Leverage” strategy (with a daily leverage effect) is a dynamic strategy that is applied to the Benchmark Index. By borrowing securities, it enables investors to double the effect of their investment, on a daily basis, in comparison with a “single” investment in the Parent Index. If the Benchmark Index rises, the gain on a given day will be twice as much as with a “single” investment in the Parent Index. However, in a bear market the multiplier effect of the leverage also doubles losses on a daily basis. The daily multiplier effect also affects the risks of the overall investment strategy.

INVESTMENT STRATEGY

1. Strategy employed

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund will employ an indirect replication method, which involves entering into one or more OTC swap contracts to achieve its investment objective. These swap contracts will serve to exchange the value of the Sub-fund's assets, which will consist of cash and/or balance sheet assets (excluding any securities received as collateral), for the value of the securities that underlie the Benchmark Index.

The Securities in the Sub-fund's portfolio may include those that make up the Benchmark Index and other global equities across all economic sectors and listed on all exchanges including small-cap exchanges.

The basket of securities held may be adjusted daily such that its value will generally be at least 100% of the net assets. When necessary, this adjustment will aim to neutralise the counterparty risk arising from the aforementioned swap contract.

Information on the updated composition of the basket of 'balance sheet' assets in the Sub-fund's portfolio and the value of the swap contract concluded by the Sub-fund is available on the page dedicated to the Sub-fund on Lyxor's website at www.lyxoref.com. The frequency of any updates and/or the date on which the aforementioned information is updated is also indicated on the same page of the aforementioned website.

The Sub-fund will at all times invest at least 75% of its assets in companies having their registered office in a member state of the European Union or in another country that is a member of the European Economic Area and which have signed a tax convention with France that includes an administrative assistance clause for the purpose of fighting tax fraud and evasion. This minimum investment requirement qualifies the Fund for French 'PEA' equity savings plans.

In managing its exposure, no more than 20% of the Sub-fund's assets may be exposed to the equities of a given issuer. This 20% limit will be checked on each Benchmark Index rebalancing date, using the Benchmark Index calculation method which limits exposure to a given issuer's equities to 20%, this calculation being performed by the Benchmark Index sponsor or calculation agent. This 20% limit may be increased to 35% for a given issuing entity when this is shown to be justified by exceptional market conditions, in particular when certain securities are largely dominant and/or in the event of strong volatility affecting a financial instrument or securities linked to an economic sector represented in the Benchmark Index. This could be the case, for example, in the event of a public offering that substantially affects a Benchmark Index security or in the event of a significant drop in the liquidity of one or more of the Benchmark Index's financial instruments.

2. Balance sheet assets (excluding embedded derivatives)

In accordance with regulatory ratios, the Sub-fund's portfolio may include global equities across all economic sectors and listed on any exchange, including "small-cap" exchanges.

The aforementioned equities will be selected on the basis of the following:

- eligibility criteria, in particular:
 - their inclusion in a major stock exchange index or in the Benchmark Index
 - liquidity (must exceed a minimum daily trading volume and market capitalisation)
 - credit rating of the country where the issuer has its registered office (must have a least a minimum S&P or equivalent rating)
- diversification criteria, in particular regarding:
 - the issuer (application of investment ratios to assets that qualify for UCITS, pursuant to Art. R214-21 of the French monetary and financial code)
 - geography
 - sector

Investment in undertakings for collective investment in transferrable securities ("UCITS") that comply with Directive 2009/65/EC is limited to 10% of the Sub-fund's net assets. In respect of these investments, the Sub-fund may invest in the units or shares of UCITS managed by the management company or by a company that is related to the management company. The fund manager will not invest in the shares or units of alternative investment funds (AIF) or other investment funds that were formed under a foreign law.

When the Sub-fund receives collateral in the form of securities, subject to the terms of section 8 below, it acquires full title to these securities and they are therefore included among the balance sheet assets to which it has full title.

To optimise the Sub-fund's management, the manager reserves the right to use other instruments in accordance with the applicable regulations in order to achieve its investment objective.

3. Off-balance sheet assets (derivatives)

The Sub-fund will use OTC index-linked swaps that swap the value of its equity assets (or the value of any other asset or financial instrument the Sub-fund may hold) for the value of the Benchmark Index (as described in part I of this section).

- Maximum proportion of assets under management for which total return swaps may be entered into: 100% of assets under management.
- Expected proportion of assets under management for which total return swaps may be entered into: up to 100%.

To optimise the Sub-fund's management, the manager reserves the right to use other instruments in accordance with the applicable regulations in order to achieve its investment objective, such as derivatives other than index-linked swaps.

In accordance with its best execution policy, the management company considers that Société Générale is the counterparty that is generally able to obtain the best possible execution for these derivative financial instruments. Accordingly, these derivative financial instruments (including index-linked swaps) may be traded via Société Générale without having to seek a competitive bid from another counterparty.

All counterparties to a futures or forward contract that are selected by the Sub-fund must be leading financial institutions that are authorised to enter into such contracts for their own account.

The counterparty of the aforementioned derivative financial instruments (the "Counterparty") shall have no discretion over the composition of the Sub-fund's portfolio nor over the assets that underlie the derivative financial instruments.

4. Securities with embedded derivatives

N/A.

5. Cash deposits

In order to optimise its cash management, the Sub-fund may deposit funds representing up to 20% of its net assets with lending institutions that belong to the same group as the depositary/custodian.

6. Cash borrowing

The Sub-fund may temporarily borrow up to 10% of its net assets.

7. Securities financing transactions

N/A. The manager will not engage in any securities financing transactions.

8. Collateral

Whenever the investment strategy exposes the Sub-fund to counterparty risk, and in particular when the Sub-fund uses over-the-counter swaps, the Sub-fund may accept eligible securities as collateral to reduce the counterparty risk associated with these swaps. The portfolio of collateral received may be adjusted daily to ensure that its value is at least sufficient to cover the Sub-fund's counterparty risk in most cases. The purpose of this adjustment is to neutralise the Sub-fund's counterparty risk.

The Sub-fund will have full title to all collateral received, which will be deposited in the Sub-fund's account with the depositary. This collateral will therefore be included in the Sub-fund's assets.

All collateral the Sub-fund receives for this purpose must comply with the applicable laws and regulations, with respect in particular to liquidity, valuation, the credit-worthiness of securities issuers, correlation, and the risks of collateral management and enforceability. All collateral received must in particular meet the following criteria:

- (a) All collateral must be of high quality, be highly liquid and tradable on a regulated market or on a multilateral trading facility, with transparent pricing to enable the collateral to be rapidly sold near its estimated price
- (b) This collateral must be valued at its mark-to-market price at least daily and assets with highly volatile prices are not acceptable as collateral, unless a sufficiently prudent discount or "haircut" is applied;
- (c) The issuer of this collateral must be independent of the counterparty and must not be closely correlated with the counterparty's financial performance;
- (d) Collateral must be sufficiently diversified in terms of country, market and issuer, with exposure to any single issuer not exceeding 20% of the Sub-fund's net asset value ;
- (e) Collateral must be immediately enforceable by the Sub-fund's management company without informing the counterparty and without its approval.

Notwithstanding the condition specified in (d) above, the Sub-fund may accept a basket of securities collateral that increases its exposure to a single issuer beyond 20% of its net asset value provided that:

- such securities collateral is issued by (i) a Member State, (ii) one or more of a Member State's local authorities, (iii) a country that is not a Member State (iv) a public international organisation to which one or more Member States belong; and;
- such securities collateral consists of at least six different issues of securities of which no single issue exceeds 30% of the Sub-fund's assets.

In accordance with the above conditions the collateral the Sub-fund accepts may consist of:

- (i) Cash and cash-equivalent assets, which for example include short-term bank deposits and balances and money-market instruments
- (ii) Bonds issued or guaranteed by an OECD member state, or by its local government entities, or by an EU, regional or global supranational institution or organisation, or by any country provided that conditions (a) to (e) above are fully complied with
- (iii) Shares or units issued by money-market funds that calculate a daily net asset value and have an AAA or equivalent credit rating
- (iv) The shares or units of UCITS that invest mainly in the bonds and/or equities indicated in (v) and (vi) below
- (v) Bonds issued or guaranteed by first-class issuers offering sufficient liquidity
- (vi) Equities admitted for trading or traded on a regulated exchange of an EU member country, on a stock exchange of an OECD member country or on a stock exchange of another country provided that conditions (a) to (e) above are fully complied with and that these equities are components of a major index.

Collateral discount policy

The Sub-fund's management company shall apply a discount to the collateral the Sub-fund accepts. The amount of these discounts will depend mainly on the following:

- the nature of the collateral asset
- the collateral's maturity (if applicable)
- the credit rating of the collateral issuer (if applicable).

Reinvestment of collateral

Non-cash collateral will not be sold, reinvested or pledged.

At the manager's discretion, cash collateral may either be:

- (i) deposited with an authorised institution
- (ii) invested in high-quality government bonds
- (iii) used for reverse repurchase transactions, provided that these are entered into with credit institutions that are subject to prudential supervision and that the fund is able to withdraw the total amount of its cash collateral and the accrued interest at any time.
- (iv) invested in short-term money-market funds as defined in the guidelines for a common definition of European money-market funds.

All cash collateral that is reinvested must be invested in a diversified manner in compliance with the rules that apply to the acceptance of non-cash collateral.

RISK PROFILE

The shareholder's money will be mainly invested in the financial instruments selected by the management company. These instruments are subject to market trends and contingencies.

Shareholders in the Sub-fund will be mainly exposed to the following risks:

- Equity risk

The price of an equity security can increase or decrease in accordance with changes in the issuer's risk exposure or in the economic conditions of the market in which the security is traded. Equity markets are more volatile than fixed-income markets, where it is possible to estimate revenues for a certain period of time under the same macroeconomic conditions.

- Capital risk

The capital invested is not guaranteed. Investors therefore may not recover all or part of their initial investment, particularly in the event that the Benchmark Index posts a negative return over the investment period

- Liquidity risk (primary market)

The Sub-fund's liquidity and/or value may be adversely affected if, when the Sub-fund or a counterparty to a derivative financial instrument (DFI) is rebalancing its exposure, the underlying financial markets are restricted, closed, or subject to large bid/offer spreads. An inability, due to low trading volume, to execute the trades required to replicate the Benchmark Index may also adversely affect the subscription, conversion or redemption of shares.

- Liquidity risk (secondary market)

The Sub-fund's on-exchange price may deviate from its indicative net asset value. The liquidity of the Sub-fund's shares on an exchange may be adversely affected by a suspension of or disruption in market operation, such as one of the following events:

- i) the calculation of the Benchmark Index is suspended or stopped and/or
- ii) the market(s) in the Benchmark Index's underlying assets is (are) suspended, and/or
- iii) a stock exchange cannot obtain or calculate the Sub-fund's indicative net asset value and/or
- iv) a market maker fails to comply with an exchange's rules and/or
- v) an exchange's IT, electronic or other system fails.

- Counterparty risk

The Sub-fund is exposed to the risk that a counterparty with which the Fund has entered into a contract or transaction may go bankrupt or default on a settlement or other obligation. The Fund is mainly exposed to counterparty risk resulting from the use of derivative financial instruments (DFI) traded over the counter with Société Générale or another counterparty. In compliance with UCITS regulations, exposure to counterparty risk (whether the counterparty is Société Générale or another entity), cannot exceed 10% of the Sub-fund's total assets per counterparty.

If a counterparty defaults on an obligation the DFI contract may be terminated before maturity. The Sub-fund will do everything in its power to achieve its investment objective by, if appropriate, entering into another DFI contract with another counterparty at the market conditions at the time of such an event.

If this counterparty risk materialises it could have an impact on the Sub-fund's ability to achieve its investment objective of replicating the Benchmark Index ».

Where Société Générale acts as the DFI counterparty, conflicts of interest may arise between the Sub-fund's Management Company and the DFI counterparty. The Management Company has procedures to identify and reduce such conflicts of interest and to resolve them equitably if necessary.

- Daily leverage reset risk

Investors are exposed to twice the daily change in the price or level of the Parent Index. They should note in particular that a decline in the underlying market will be amplified and will result a larger decrease in the Sub-fund's net asset value. Since the 'leverage' index formula is reset daily the Sub-fund will not return twice as much as the Parent Index over a period of more than one trading day.

For example, if the Parent Index gains 10% on a given trading day and then declines 5% the following trading day 2, the Fund will have gained of 8% (before fees) over these two days, while the Parent Index will have risen 4.5% over this period.

If the Parent Index loses 5% a day over two consecutive trading days, the Fund will decrease by a total of 19% (before fees), while the Parent Index will have lost 9.75% over this period.

Negative scenario 1	The leverage effect is greater than 2 and the Parent Index declines				
	Parent Index		Strategy Index		
	Performance day i	Value day i	Performance day i	Value day i	Leverage effect
		100		100	
Day 1	10%	110	20%	120	x2
Day 2	-11%	97.9	-22%	93.6	x2
Total return	-2.10%		-6.40%		x3.05

Negative scenario 2	The leverage effect is less than 2 and the Parent Index rises				
	Parent Index		Strategy Index		
	Performance day i	Value day i	Performance day i	Value day i	Leverage effect
		100		100	

Day 1	-5%	95	-10%	90	x2
Day 2	6%	100.7	12%	100.8	x2
Total return	0.70%		0.80%		x1.14

Furthermore, if the Parent Index is highly volatile over a period of more than one day, the Sub-fund's net asset value may even fall although the Parent Index rises over this period.

Inverse leverage scenario	The leverage effect is negative over the period				
	Parent Index		Strategy Index		
	Performance day i	Value day i	Performance day i	Value day i	Leverage effect
		100		100	
Day 1	20%	120	40%	140	x2
Day 2	-16%	100.8	-32%	95.2	x2
Total return	0.80%		-4.80%		x-6

- Risk that the investment objective is not fully achieved

There is no guarantee that the investment objective will be achieved, as no asset or financial instrument can ensure that the Benchmark Index will be automatically and continuously replicated, particularly in the event of one or more of the following risks:

-Risk of using derivative financial instruments

In order to achieve its investment objective and secure the performance of the Benchmark Index, the Sub-fund can enter into over-the-counter derivative financial instruments ("DFI"), such as swaps. These DFI involve various risks, such as counterparty risk, hedging disruption, Benchmark Index disruption, taxation risk, regulatory risk, operational risk and liquidity risk. These risks can materially affect a DFI and could lead to an adjustment or even the early termination of the DFI transaction, which could affect the Sub-fund's net asset value.

-Risk of a change in the tax regime

A change in the tax regime of a jurisdiction where the Sub-fund is domiciled, authorised for sale or listed could adversely affect the taxation of investors. In such an event, the Sub-fund manager will not be liable to any investor with respect to any payment that may have to be made to a competent tax authority.

-Risk of a change in the taxation of the Sub-fund's underlying assets

A change in a tax regime that applies to the Sub-fund's underlying assets could affect the tax treatment of the Sub-fund. As a result, in case of a discrepancy between the estimated and effective tax treatments applied to the Sub-fund and/or to the Sub-fund's counterparty to the DFI, the Sub-fund's net asset value may be affected.

-Regulatory risk

In the event of a change in the regulatory regime in a jurisdiction where the Sub-fund is domiciled, authorised for sale or listed, the subscription, conversion or redemption of shares may be adversely affected.

-Regulatory risk affecting the Sub-fund's underlying assets

In the event of a change in the regulations that govern the Sub-fund's underlying assets, the Sub-fund's net asset value and the subscription, conversion or redemption of shares or units may be adversely affected.

-Benchmark Index disruption risk

If an event adversely affects the Benchmark Index, the Fund manager may be required, in accordance with the applicable laws and regulations, to suspend the subscription and redemption of the Sub-fund's shares. The calculation of the Sub-fund's net asset value could also be adversely affected.

If the Benchmark Index disruption persists, the manager of the Sub-fund will determine the appropriate measures to be carried out, which could have an impact on the Sub-fund's net asset value.

A 'Benchmark Index event' includes but is not limited to the following situations:

- i) the Benchmark Index is deemed to be inaccurate or does not reflect actual market developments
- ii) the Benchmark Index is permanently cancelled by the index provider
- iii) the index provider is unable to indicate the level or value of the Benchmark Index
- iv) the index provider makes a material change in the Benchmark Index calculation formula or method (other than a minor modification such as an adjustment to the Benchmark Index's underlying components or their respective weightings) which the Sub-fund cannot effectively replicate at a reasonable cost.
- (v): a Benchmark Index component becomes illiquid because it is no longer traded on a regulated market or because its trading over-the-counter (e.g. bonds) is disrupted;
- (vi) the Benchmark Index components are exposed to higher transaction costs for execution or settlement/delivery, or to specific tax constraints and these costs are not reflected in the Benchmark Index's performance.

-Corporate action risk

An unforeseen change, by the issuer of a security that is a component of the Benchmark Index, in a planned corporate action that is in contradiction with a previous official announcement on which the Sub-fund based its valuation of the corporate action (and/or on which the Sub-fund's counterparty to a derivative financial instrument or transaction based its valuation of the corporate action) can adversely affect the Sub-fund's net asset value, particularly if the Sub-fund's treatment of the corporate event differs from that of the Benchmark Index.

- Legal risk

The Sub-fund may be exposed to a legal risk arising from a total return swap (TRS) agreement as indicated in EU Regulation No. 2015/2365.

ELIGIBLE INVESTORS AND TYPICAL INVESTOR PROFILE

This Sub-fund is available to all investors .

Investors in this Sub-fund are seeking exposure to the equities of large eurozone companies.

The amount that it is reasonable to invest in this Sub-fund depends on each investor's personal situation. To determine this amount, investors must take into account their personal wealth and/or estate, their cash requirements at present and for the next five years, and their willingness to take on risk or adopt a more cautious approach. It is also recommended that investors diversify their investments so that they are not exclusively exposed to this Sub-fund's risks.

All investors are therefore asked to consider their specific situation with the help of their usual investment advisor.

The recommended minimum investment period is at least five years.

CALCULATION AND ALLOCATION OF DISTRIBUTABLE AMOUNTS

Acc share class: All distributable amounts are accumulated.

DISTRIBUTION FREQUENCY

N/A.

SHARE CHARACTERISTICS

The Acct class shares will be issued at a price that is equivalent to the net asset value of the corresponding absorbed unit class on the day the Lyxor CAC 40 Daily (2x) Leveraged UCITS ETF is merged.

Subscription orders may be placed for a specific monetary amount or for a whole number of shares.

Redemptions will be made in whole numbers of shares.

UNIT CURRENCY

	Acc share class
Currency	Euros

SUBSCRIPTION AND REDEMPTION

1. SUBSCRIPTION AND REDEMPTION ON THE PRIMARY MARKET

Orders to subscribe for or redeem shares in the Sub-fund will be processed by the Depositary, from 10.00 am to 5.00 pm (Paris time), every day that the Sub-fund's net asset value is to be published, provided that prices are quoted for a significant proportion of the Benchmark Index components (hereinafter a "**Primary Market Day**"), and will be executed at the net asset value on that Primary Market Day (hereinafter the "**reference NAV**"). Subscription/redemption orders submitted after 5.00 pm (Paris time) on a Primary Market Day will be processed as if received from 10.00 am to 5.00 pm (Paris time) on the following Primary Market Day. Orders to subscribe for or redeem units in the Sub-fund must be made for a whole number of shares and for a minimum amount of at least 100,000 euros.

Subscriptions/redemptions in cash:

Subscriptions and redemptions shall be made exclusively in cash and executed at the ref NAV.

Delivery and settlement:

Settlement/delivery of subscriptions and redemptions shall be completed within five French business days upon receipt of the subscription or redemption order.

Date and frequency of net asset value calculation

The net asset value will be calculated and published daily, provided that at least one exchange on which the Sub-fund's shares are listed is open and that orders placed in the primary and secondary markets can be funded.

The Sub-fund's net asset value is calculated using the Benchmark Index's closing price.

The net asset value of a share class that is denominated in another currency than the Fund's accounting currency (if applicable) is calculated using the exchange rate between the accounting currency and the currency of the share class, at the applicable WM Reuters rate on the date the reference NAV is calculated.

2. SUBSCRIPTION AND REDEMPTION ON THE SECONDARY MARKET

A. COMMON PROVISIONS

Purchases and sales of Sub-fund shares made directly on an exchange on which the Sub-fund is or will be listed and continuously traded will be subject to no minimum purchase/sale requirements other than those of the relevant exchange(s).

Shares in a listed sub-fund that are purchased on the secondary market cannot generally be directly sold back to that sub-fund. Investors must therefore buy and sell their shares on a secondary market through an intermediary (e.g. a broker) and may consequently incur costs. It is also possible that investors may pay more than the indicative net asset value when buying shares and receive less than the indicative net asset value when selling them.

If the stock market value of a listed fund's shares or units differs significantly from their indicative net asset value, or if trading in the fund's share or units is suspended, investors may be allowed, subject to the conditions set forth below, to redeem their shares on the primary market directly from the Sub-fund, without being subject to the minimum redemption amount requirement set forth herein in the section entitled **SUBSCRIPTION AND REDEMPTION FEES** (charged only on primary market transactions)".

The management company shall decide whether to allow such primary market redemptions and for how long, on the basis of the following criteria for assessing the significance of a market disruption:

- The suspension or strong disturbance of secondary trading on a given exchange is relatively frequent.
- The link between the market disruption and secondary market operators (such as the default of one or more of the Market Makers of a given exchange, or a breakdown or malfunction of an exchange's IT or operating systems), excluding a disruption caused by a source external to the secondary exchange on which the Sub-fund's shares are traded, such as an event that affects the liquidity and valuation of all or some of the Benchmark Index's components
- Any other objective circumstance that could adversely affect the fair treatment and/or the interests of the Sub-fund's shareholders.

Notwithstanding the provisions concerning fees presented in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)", redemptions made in the primary market in this case shall only be subject to a net redemption fee of 1% paid to the Sub-fund and which serves to cover its trading costs.

In such exceptional cases when redemption in the primary market is allowed, the management company will post on Lyxor's website at www.lyxor.etf.com the procedure that investors must observe to redeem their shares in the primary market. The Management Company shall also make this procedure available to the market undertaking that handles trading in the Sub-fund's shares.

B. **SPECIAL PROVISIONS**

- a) **If the Sub-fund's shares are listed on Euronext Paris (as indicated in the "Key Information" section) investors should note the following rules**

Negotiability of shares and information about the financial institutions acting as Market Makers:

The shares shall be freely negotiable on the Euronext Paris regulated market subject to the following conditions and the applicable laws and regulations.

The Sub-fund's shares will be listed on a specific trading list, the rules for which are defined in the following instructions published by Euronext Paris SA:

- Instruction No. 4-01 " Universal Trading Platform Manual"
- Appendix to Instruction N4-01 (Appendix to the Euronext Market Trading Manual)
- Instruction No. 6-04 "Documentation to be provided when filing a listing application for an ETF, ETN, ETV and open-ended undertakings for collective investment other than ETFS"

Pursuant to article D 214-22-1 of the French monetary and financial code the units or shares of undertakings for collective investments in transferable securities may be admitted to trading, provided that these undertakings have a system to ensure that the market price of their units or shares does not differ significantly from their net asset value. Under Euronext Paris SA's rules trading in the Sub-fund's shares is also subject to a 'reservation threshold' of 1.5% above or below the Sub-fund's indicative net asset value or "iNAV" (see the "Indicative Net Asset Value" section), as published by Euronext Paris SA and updated on an estimated basis during trading in accordance with the change in the Benchmark Index.

To comply with Euronext Paris SA's reservation thresholds (see the "Indicative Net Asset Value" section), the Market Makers will ensure that the market price of the Sub-fund's shares does not differ from the Sub-fund's indicative net asset value by more than 1.5%.

Euronext Paris SA may suspend trading in the Sub-fund's shares pursuant to the terms of its operating rules, if the aforementioned reservation threshold limit is exceeded.

Euronext Paris SA will also suspend trading in the Sub-fund's shares in the following cases:

- The Benchmark Index is no longer traded or calculated
- Euronext Paris SA cannot obtain the Benchmark Index's level
- Euronext Paris SA cannot obtain the Sub-fund's net asset value.

In accordance with the terms and conditions governing admission to trading on Euronext Paris, the Market Makers undertake to provide market-making services for the Sub-fund's shares as soon as they are admitted to trading on the Euronext Paris exchange.

In particular, the Market Makers undertake to carry out market-making operations by maintaining a significant presence in the market, which initially entails the setting of a bid/ask spread.

More specifically, the Market Makers are required by contract with Euronext Paris SA to ensure that the Sub-fund maintains:

- a maximum global spread of 1.5% between the bid and offer price in the centralised order book.
- a minimum nominal trading value of EUR 100,000.

The obligations of the Sub-fund's Market Makers will be suspended in the following cases:

- The Benchmark Index is no longer traded or calculated
- If trading is substantially disrupted, for example due to a widespread shift in prices or an event that makes normal market making impossible.

Indicative net asset value

Euronext Paris SA will calculate and publish, each Trading Day (as defined below) during trading hours, the Sub-fund's indicative net asset value (hereinafter the "iNAV"). The iNAV is a measure of the intra-day value of the Sub-fund's net asset value based on the most recent data. The iNAV is not the value at which investors buy and sell shares in the Sub-fund on the secondary market.

A ("Trading Day") is a day on which Euronext is normally open and on which the Benchmark Index is normally published.

The Sub-fund's iNAV is a theoretical net asset value calculated every 15 seconds by Euronext SA throughout the Paris trading day and is based on the level of the Benchmark Index. The iNAV enables investors to compare the prices that the Market Makers offer on the market with the theoretical value calculated by Euronext.

The iNAV will be calculated every day that the net asset value is calculated and published.

For the calculation of the Sub-fund's iNAV during the Paris trading session (from 9.05 am to 5.35 pm), Euronext Paris SA will use the Benchmark Index value provided by Reuters.

If one or more stock exchanges on which the Benchmark Index's constituent equities are listed are closed (on a public holiday as indicated on the TARGET calendar) and if the calculation of the iNAV proves impossible, trading in the Sub-fund's shares may be suspended.

Lyxor International Asset Management, the Sub-fund's management company, will provide Euronext Paris SA with all the financial and accounting data it needs to calculate the Sub-fund's iNAV and in particular:

- the day's estimated net asset value
- the official net asset value of the previous business day
- the level of the Benchmark index on the previous business day.

These data will serve as a basis for Euronext Paris SA's calculations to determine the Sub-fund's iNAV in real time every Trading Day.

Additional information about the indicative net asset value of a share listed on a regulated market may, depending on the terms and limits set by the relevant market undertaking, be provided on the website of this regulated market. This information is also available on the Reuters or Bloomberg pages dedicated to the particular share. Additional information about Bloomberg and Reuters codes corresponding to the indicative net asset value of UCITS ETF type shares is also available in the "Term Sheets" section of Lyxor's website at www.lyxoretf.com.

b) If the Sub-fund's shares are listed on an exchange other than Euronext Paris, as indicated in the "Key Information" section, investors should note the following

Investors wishing to acquire shares in the Sub-fund or obtain more information regarding the market-making terms that govern the listing and trading of shares on the types of exchanges indicated in the "Key Information" section should familiarize themselves with the guidelines laid down by the relevant market undertaking in compliance with local regulations, and if necessary seek the assistance of their usual broker(s) for executing trades on the relevant exchange(s).

FEES AND CHARGES

SUBSCRIPTION AND REDEMPTION FEES (CHARGED ONLY ON PRIMARY MARKET TRANSACTIONS)

The subscription and redemption fees shown below respectively increase the subscription price paid by the investor and decrease the redemption price received. Fees kept by the Sub-fund compensate it for the expenses it incurs in investing in the Sub-fund's assets or in divesting these assets. Any fees that are not kept by the Fund are paid to the management company, marketing agent or other service provider.

Fees paid by investors upon subscription or redemption	Base	Maximum charge
Subscription fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per subscription order or 5%, payable to third parties
Subscription fee kept by the Sub-fund	NAV per share x number of shares	N/A
Redemption fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per redemption order or 5%, payable to third parties
Redemption fee kept by the Sub-fund	NAV per share x number of shares	N/A

No subscription or redemption fee will be charged for any purchase or sale of Sub-fund shares on an exchange where the Fund is listed.

OPERATING AND MANAGEMENT FEES

These fees cover all the costs invoiced directly to the Fund, except for transaction expenses, which include intermediary fees (brokerage, stock market taxes etc.) and any account activity fee that may be charged by the depositary or the management company.

For this Sub-fund the following fees may be charged in addition to the operating and management fees (see table below):

- Incentive fees, which the Sub-fund pays to the management company when the Sub-fund exceeds its objectives
- Account activity fees charged to the Sub-fund.

For more information on the fees or expenses that are charged to the Sub-fund, see the Statistics section of the Key Investor Information Document (KIID).

Fees charged to the Sub-fund	Base	Maximum charge
Investment management and administrative fees that are external to the management company, including tax ⁽¹⁾	Net asset value	0.40% annual
Maximum indirect expenses (management expenses and fees)	Net asset value	N/A
Account activity fee	Charged on each transaction	N/A
Incentive fee	Net asset value	N/A

(1) Includes all fees and expenses except for transaction expenses, incentive fees and fees associated with investment in UCITS.

COMMERCIAL INFORMATION

Distribution of this prospectus and the offer or purchase of shares in the Fund may be subject to restrictions with regard to certain persons or in certain countries by virtue of national regulations applying to such persons or such countries. Each investor is therefore responsible for ensuring that he or she is authorised to subscribe to or invest in this Fund. As a result, the information contained in this prospectus cannot be understood as constituting an offer or solicitation to buy or sell shares in this Fund in a country where such offer or solicitation is unlawful.

The Fund's share classes will not be registered pursuant to the US Securities Act of 1933, as amended (the "US Securities Act") and cannot be offered, assigned, transferred or allocated to the United States of America, or to:

- (A) any "US Person", as this term is defined (i) under Regulation S of the US Securities Act of 1933 and (ii) under US regulations as defined in Section 7701 (a) (30) of the Internal Revenue Code of 1986 as amended. The Fund's shares will not be offered to US Persons.
- (B) anyone other than those persons considered to be "non-US Persons" as this term is defined under US regulations pursuant to the Commodity Futures Trading Commission, Rule 4.7 (a) (1) (iv).

The Sub-fund's shares will only be offered for sale outside of the United States of America to non-US Persons.

For the purpose of this document, the term "US Person" shall mean, among other things, any individual who resides in the United States of America, any entity organised or formed under the laws of the United States of America, certain entities organised or formed outside of the United States of America by one or more US persons, or any account held on behalf of such a US person.

Under the German tax act on investment funds (InvStG-E), the Sub-fund is a "mutual fund" and must comply with the criteria that apply to "equity funds. As such, the Sub-fund will hold a basket of securities that are eligible for the equity ratio as this term is defined under said German tax act, and which will represent at least 94% of its net assets under normal market conditions. To ensure compliance with this ratio, the Sub-fund may adjust this basket of securities on a daily basis.

Before making an investment in this Fund or this Sub-fund, investors should seek the advice of their financial, tax and legal advisers.

PLACE AND METHOD OF NET ASSET VALUE PUBLICATION OR COMMUNICATION

At the head office of LYXOR INTERNATIONAL ASSET MANAGEMENT, at 17, cours Valmy - 92987 Paris La Défense CEDEX - France.

The Sub-fund's net asset value will be calculated and published every Trading Day.

IMPORTANT INFORMATION ABOUT THE INDEX PROVIDER

"CAC 40®" and "CAC®" are trademarks of Euronext Paris S.A. , a subsidiary of Euronext N.V.

Euronext Paris S.A. holds all property rights in relation to the Index. Euronext Paris S.A., or any directly or indirectly held subsidiary, do not guarantee, approve or are concerned in any manner whatsoever by the issue and offer of the product. Euronext Paris S.A., or any directly or indirectly held subsidiary, will not be held liable with regards to third parties for any inaccurate data on which the Index is based, fault, error or omission concerning the calculation or dissemination of the Index, or pertaining to its use within the framework of this issue or of this offer.

LYXOR DAILY LEVERAGE CAC 40 UCITS ETF is not, in any way whatsoever, sponsored, supported, promoted or marketed by Euronext or its subsidiaries (hereinafter "**Euronext**") (collectively referred to as the "**Licensors**").

The Licensors assume no obligation and provide no warranty, expressed or implied, in respect of the results that may be obtained from using the CAC 40® LEVERAGE GROSS RETURN index (hereinafter the "Index") and/or the level this Index may reach at any given time or date, or of any other type. The Index is calculated by or in the name of Euronext. The Licensors disclaim all liability (whether due to negligence or any other reason) for any error that may adversely affect the Index with respect to anyone whomsoever and will not be obliged to inform anyone of such an error.

ADDITIONAL INFORMATION

The Sub-fund's shares are admitted to trading by Euroclear France S.A.

Subscription and redemption orders must be sent to the Depositary by the investor's financial intermediary.

The Sub-fund's prospectus, the Key Investor Information Document, the most recent annual documents and the asset inventory will be sent to investors within eight business days upon receipt of a written request addressed to:

LYXOR INTERNATIONAL ASSET MANAGEMENT
17, cours Valmy - 92987 Paris La Défense CEDEX – France.

E-mail: contact@lyxor.com

More information can also be requested from Lyxor International Asset Management on its website at www.lyxoretf.com.

Prospectus publication date: see the "Publication Date" section

Pursuant to Article L.533-22-1 of the French monetary and financial code, information concerning the Management Company's possible inclusion of social, environmental and corporate governance objectives and performance criteria in its investment policy is available on the management company's website and in the Multi Units France annual report.

The AMF's website (www.amf-france.org) provides additional information on the list of regulatory documents and on all provisions relating to investor protection.

This Prospectus must be made available to investors prior to subscription.

INVESTMENT RULES

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

The Sub-fund may invest in the assets indicated in Article L214-20 of the French monetary and financial code, subject to the risk-diversification and investment ratio requirements of Articles R214-21 to R214-27 of said code.

Notwithstanding the 10% limit under Paragraph II of Article R214-21 of the French monetary and financial code, the Sub-fund may invest up to 20% of its assets in the equities and debt securities of a single issuer, in compliance with Article R214-22-I, which deals with index-tracking funds. Pursuant to Article R214-22 II, the Sub-fund may also increase this 20% limit for a single issuer to 35%, when this is shown to be justified by exceptional market conditions, and in particular when certain securities are largely dominant.

OVERALL RISK EXPOSURE

The commitment approach is used to calculate the overall risk exposure.

ASSET VALUATION AND ACCOUNTING RULES

A. VALUATION RULES

The Sub-fund's assets are valued in accordance with applicable laws and regulations and most notably Regulation NO. 2014-01 of 14 January 2014 of the Comité de la Réglementation Comptable (the Accounting Regulations Committee), which applies to the chart of accounts for UCITS investment funds.

Financial instruments traded on a regulated market are valued at the closing price recorded on the day prior to the calculation of the net asset value. If these financial instruments are traded on several regulated markets at the same time, the closing price used is that recorded on the regulated market on which they are principally traded.

However, in the absence of significant trading on a regulated market, the following financial instruments are valued using the following methods:

- Negotiable debt securities ("NDS") with a remaining life upon acquisition that is less than or equal to three months are valued by applying the difference between the acquisition value and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc.). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- NDS with a remaining life of more than three months upon acquisition but less than or equal to three months at the net asset value calculation date are valued by applying the difference between the most recent valuation and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc.). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- NDS with a remaining life at the net asset value calculation date that exceeds three months are valued at their current value. The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- Financial futures traded on organised markets are valued at the clearing price on the day prior to the calculation of the net asset value. Options traded on organised markets are valued at their market price on the day prior to the calculation of the net asset value. Forward contracts and over-the-counter options are valued at the price quoted by the counterparty. The management company monitors these prices independently.
- Bank deposits are valued at their nominal value plus accrued interest.
- Warrants, short and medium-term notes (bons de caisse), promissory notes and mortgage notes are valued under the management company's responsibility at their most likely trading value.
- Securities financing transactions are valued at the market price.
- Shares and units in UCITS under French law are valued at the last known net asset value on the day the Sub-fund's net asset value is calculated.
- Shares and units in foreign investment funds are valued at the last known net asset value at the date the Sub-fund's net asset value is calculated.
- Financial instruments traded on a regulated market and for which no price has been quoted or whose price has been corrected, are valued under the management company's responsibility at their most likely trading value.
- The exchange rates used to value financial instruments denominated in a currency other than the Sub-fund's base currency are the WM Reuters fixing rates on the day the Sub-fund's net asset value is calculated.

B. ACCOUNTING METHOD FOR TRADING EXPENSES

Trading expenses are included in the initial cost of the transaction.

C. ACCOUNTING METHOD FOR INCOME FROM FIXED-INCOME SECURITIES

Income from fixed-income securities is accounted for using the cash-basis method.

D. DISTRIBUTION POLICY

For more information see the section entitled "Calculation and Allocation of Distributable amounts"

E. ACCOUNTING CURRENCY

The Sub-fund's accounts are kept in euros.

SUB-FUND NO. 42: LYXOR CAC 40 DAILY (-2X) INVERSE UCITS ETF

A SICAV SUB-FUND COMPLIANT WITH DIRECTIVE 2009/65/EC

ISIN CODE

Acc share class: FR0010411884

CLASSIFICATION

The Lyxor CAC 40 Daily (-2x) Inverse UCITS ETF sub-fund (the “**Sub-fund**”) is a UCITS ETF index-tracker.

INCEPTION DATE

This sub-fund was approved by l’Autorité des Marchés Financiers on 15/02/2018 and was created on 19 April 2018.

INVESTMENT OBJECTIVE

The Sub-fund’s investment objective is to achieve inverse exposure, with daily 2x leverage, to the French equity market by replicating the movement of the CAC 40 Double Short GR strategy index denominated in euros (EUR) (the “Benchmark index”), whether positive or negative, while minimising the tracking error between the Sub-fund’s performance and that of the CAC 40 Double Short GR index.

The expected ex-post tracking error under normal market conditions is 0.15%.

BENCHMARK INDEX

The Benchmark Index is the CAC 40 Double Short GR index (with gross US dollars).
The CAC 40 Double Short GR index is a strategy index created and maintained by Euronext.

Therefore, if the Parent Index falls on a given trading day, the Sub-fund’s net asset value will rise by double that amount on that day, and if the Parent Index rises on a given trading day, the Sub-fund’s net asset value will fall by double that amount on that day and shareholders will not be able to profit from the rise in the Parent Index.

The short positions taken on the Benchmark Index entail borrowing costs which are included in the Benchmark Index calculation methodology.

Thus, the Benchmark Index performance calculated on one trading day is equal to 2x the inverse performance of the Parent Index on that day, plus the cumulative interest (at the EONIA rate) paid daily on three times the Benchmark Index’s closing value, less the cost of short selling 2x the securities that underlie the Parent Index.

The Parent Index is free-float market capitalisation weighted and measures the performance of the 40 largest stocks on the Euronext Paris exchange.

A full description and the complete methodology used to construct the Benchmark Index and information on the composition and respective weightings of the Benchmark Index components are available on the Internet at <http://indices.nyx.com/sites/indices.nyx.com>

The performance tracked is that of the closing prices of the equities that make up the Benchmark Index.

Benchmark Index publication

The Benchmark Index is calculated daily at the official closing price of the exchanges where the index constituents are listed.

The Benchmark Index is also calculated in real time every day that the Benchmark Index is published.

The Benchmark Index is published by Bloomberg and Reuters.

Bloomberg code: CACDSH

Reuters code: CAC2S

The closing price of the Benchmark Index is available on the Internet at <https://www.euronext.com/en>

Pursuant to Article 52 of European Parliament and Council Regulation 2016/1011 of 8 June 2016, Euronext Paris S.A., the administrator of the CAC 40 Double Short GR benchmark index, has until 1 January 2020 to apply for approval or registration as applicable.

As of the date of the most recent version of this prospectus, the benchmark index administrator was not yet listed in ESMA’s register of benchmark administrators.

Pursuant to European Parliament and Council Regulation 2016/1011 of 8 June 2016, the asset management company has a procedure for monitoring the benchmark indices used that specifies the measures to be implemented if an index is substantially modified or is no longer provided.

Benchmark Index composition and revision

The Benchmark Index’s composition is revised in conjunction with the revision of the Parent Index.

The Parent Index is revised quarterly.

The leverage factor used in the Benchmark Index calculation formula is reset daily. The consequences of this daily resetting are explained in the Benchmark Index and Risk Profile sections of this prospectus.

The exact composition of the Parent Index and Euronext’s rules for revising this index and consequently the Benchmark Index, are available on the Internet at <https://www.euronext.com/en>

The frequency of this rebalancing does not affect the cost of implementing the Investment Strategy.

INVESTMENT STRATEGY

1. STRATEGY EMPLOYED

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund will employ an indirect replication method, which involves entering into one or more OTC swap contracts to achieve its investment objective. These swap contracts will serve to exchange the value of the Sub-fund’s assets, which will consist of cash and/or balance sheet assets (excluding any securities received as collateral), for the value of the securities that make up the Benchmark Index.

The Securities in the Sub-fund's portfolio may include those that make up the Benchmark Index and other global equities across all economic sectors and listed on all exchanges including small-cap exchanges.

The basket of securities held may be adjusted daily such that its value will generally be at least 100% of the net assets. When necessary, this adjustment will aim to neutralise the counterparty risk arising from the aforementioned swap contract.

The Sub-fund will at all times invest at least 75% of its assets in companies having their registered office in a member state of the European Union or in another country that is a member of the European Economic Area and which have signed a tax convention with France that includes an administrative assistance clause for the purpose of fighting tax fraud and evasion. This minimum investment requirement qualifies the Fund for French 'PEA' equity savings plans.

In managing its exposure, no more than 20% of the Sub-fund's assets may be exposed to the equities of a given issuer. This 20% limit will be checked on each Benchmark Index rebalancing date, using the Benchmark Index calculation method which limits exposure to a given issuer's equities to 20%, this calculation being performed by the Benchmark Index sponsor or calculation agent. This 20% limit may be increased to 35% for a given issuing entity when this is shown to be justified by exceptional market conditions, in particular when certain securities are largely dominant and/or in the event of strong volatility affecting a financial instrument or securities linked to an economic sector represented in the Benchmark Index. This could be the case, for example, in the event of a public offering that substantially affects a Benchmark Index security or in the event of a significant drop in the liquidity of one or more of the Benchmark Index's financial instruments.

2. Balance sheet assets (excluding embedded derivatives)

In accordance with regulatory ratios, the Sub-fund's portfolio may include global equities across all economic sectors and listed on any exchange, including "small-cap" exchanges.

The aforementioned equities will be selected on the basis of the following:

- eligibility criteria, in particular:
 - their inclusion in a major stock exchange index or in the Benchmark Index
 - liquidity (must exceed a minimum daily trading volume and market capitalisation)
 - credit rating of the country where the issuer has its registered office (must have a least a minimum S&P or equivalent rating)
- diversification criteria, in particular regarding:
 - the issuer (application of investment ratios to assets that qualify for UCITS, pursuant to Art. R214-21 of the French monetary and financial code)
 - geography
 - sector

Information on the updated composition of the basket of 'balance sheet' assets in the Sub-fund's portfolio and the value of the swap contract concluded by the Sub-fund is available on the page dedicated to the Sub-fund on Lyxor's website at www.lyxoretf.com. The frequency of any updates and/or the date on which the aforementioned information is updated is also indicated on the same page of the aforementioned website.

Investment in undertakings for collective investment in transferrable securities ("UCITS") that comply with Directive 2009/65/EC is limited to 10% of the Sub-fund's net assets. In respect of these investments, the Sub-fund may invest in the units or shares of UCITS managed by the management company or by a company that is related to the management company. The fund manager will not invest in the shares or units of alternative investment funds (AIF) or other investment funds that were formed under a foreign law.

When the Sub-fund receives collateral in the form of securities, subject to the terms of section 8 below, it acquires full title to these securities and they are therefore included among the balance sheet assets to which it has full title.

To optimise the Sub-fund's management, the manager reserves the right to use other instruments in accordance with the applicable regulations in order to achieve its investment objective.

3. Off-balance sheet assets (derivatives)

The Sub-fund will use OTC index-linked swaps that swap the value of its equity assets (or the value of any other asset or financial instrument the Sub-fund may hold) for the value of the Benchmark Index (as described in part 1 of this section).

To optimise the Sub-fund's management, the manager reserves the right to use other instruments in accordance with the applicable regulations in order to achieve its investment objective, such as derivatives other than index-linked swaps.

In accordance with its best execution policy, the management company considers that Société Générale is the counterparty that is generally able to obtain the best possible execution for these derivative financial instruments. Accordingly, these derivative financial instruments (including index-linked swaps) may be traded via Société Générale without having to seek a competitive bid from another counterparty.

The counterparty of the aforementioned derivative financial instruments (the "Counterparty") shall have no discretion over the composition of the Sub-fund's portfolio nor over the assets that underlie the derivative financial instruments.

- Maximum proportion of assets under management for which total return swaps may be entered into: 100% of assets under management.
- Expected proportion of assets under management for which total return swaps may be entered into: up to 100%.

4. Securities with embedded derivatives

N/A.

5. Cash deposits

In order to optimise its cash management, the Sub-fund may deposit funds representing up to 20% of its net assets with lending institutions that belong to the same group as the depository/custodian.

6. Cash borrowing

The Fund may temporarily borrow up to 10% of its net assets.

7. Securities financing transactions

N/A. The manager will not engage in any securities financing transactions.

8. Collateral

Whenever the investment strategy exposes the Sub-fund to counterparty risk, and in particular when the Sub-fund uses over-the-counter swaps, the Sub-fund may accept eligible securities as collateral to reduce the counterparty risk associated with these swaps. The portfolio of collateral received may be adjusted daily to ensure that its value is at least sufficient to cover the Sub-fund's counterparty risk in most cases. The purpose of this adjustment is to neutralise the Sub-fund's counterparty risk.

The Sub-fund will have full title to all collateral received, which will be deposited in the Sub-fund's account with the depositary. This collateral will therefore be included in the Sub-fund's assets.

All collateral the Sub-fund receives for this purpose must comply with the applicable laws and regulations, with respect in particular to liquidity, valuation, the creditworthiness of securities issuers, correlation, and the risks of collateral management and enforceability. All collateral received must in particular meet the following criteria:

- (a) All collateral must be of high quality, be highly liquid and tradable on a regulated market or on a multilateral trading facility, with transparent pricing to enable the collateral to be rapidly sold near its estimated price
- (b) This collateral must be valued at its mark-to-market price at least daily and assets with highly volatile prices are not acceptable as collateral, unless a sufficiently prudent discount or "haircut" is applied;
- (c) The issuer of this collateral must be independent of the counterparty and must not be closely correlated with the counterparty's financial performance;
- (d) Collateral must be sufficiently diversified in terms of country, market and issuer, with exposure to any single issuer not exceeding 20% of the Sub-fund's net asset value ;
- (e) Collateral must be immediately enforceable by the Sub-fund's management company without informing the counterparty and without its approval.

Notwithstanding the condition specified in (d) above, the Sub-fund may accept a basket of securities collateral that increases its exposure to a single issuer beyond 20% of its net asset value provided that:

- such securities collateral is issued by (i) a Member State, (ii) one or more of a Member State's local authorities, (iii) a country that is not a Member State (iv) a public international organisation to which one or more Member States belong; and;
- such securities collateral consists of at least six different issues of securities of which no single issue exceeds 30% of the Sub-fund's assets.

In accordance with the above conditions the collateral the Sub-fund accepts may consist of:

- (i) Cash and cash-equivalent assets, which for example include short-term bank deposits and balances and money-market instruments
- (ii) Bonds issued or guaranteed by an OECD member state, or by its local government entities, or by an EU, regional or global supranational institution or organisation, or by any country provided that conditions (a) to (e) above are fully complied with
- (iii) Shares or units issued by money-market funds that calculate a daily net asset value and have an AAA or equivalent credit rating
- (iv) The shares or units of UCITS that invest mainly in the bonds and/or equities indicated in (v) and (vi) below
- (v) Bonds issued or guaranteed by first-class issuers offering sufficient liquidity
- (vi) Equities admitted for trading or traded on a regulated exchange of an EU member country, on a stock exchange of an OECD member country or on a stock exchange of another country provided that conditions (a) to (e) above are fully complied with and that these equities are components of a major index.

Collateral discount policy

The Sub-fund's management company shall apply a discount to the collateral the Sub-fund accepts. The amount of these discounts will depend mainly on the following:

- the nature of the collateral asset
- the collateral's maturity (if applicable)
- the credit rating of the collateral issuer (if applicable).

Reinvestment of collateral

Non-cash collateral will not be sold, reinvested or pledged.

At the manager's discretion, cash collateral may either be:

- (i) deposited with an authorised institution
- (ii) invested in high-quality government bonds
- (iii) used for reverse repurchase transactions, provided that these are entered into with credit institutions that are subject to prudential supervision and that the fund is able to withdraw the total amount of its cash collateral and the accrued interest at any time.
- (iv) invested in short-term money-market funds as defined in the guidelines for a common definition of European money-market funds.

All cash collateral that is reinvested must be invested in a diversified manner in compliance with the rules that apply to the acceptance of non-cash collateral.

RISK PROFILE

The shareholder's money will be mainly invested in the financial instruments selected by the management company. These instruments are subject to market trends and contingencies.

Shareholders in the Sub-fund will be mainly exposed to the following risks:

- Equity risk

The price of an equity security can increase or decrease in accordance with changes in the issuer's risk exposure or in the economic conditions of the market in which the security is traded. Equity markets are more volatile than fixed-income markets, where it is possible to estimate revenues for a certain period of time under the same macroeconomic conditions.

- Capital risk

The capital invested is not guaranteed. Investors therefore may not recover all or part of their initial investment, particularly in the event that the Benchmark Index posts a negative return over the investment period

- Liquidity risk (primary market)

The Sub-fund's liquidity and/or value may be adversely affected if, when the Sub-fund or a counterparty to a derivative financial instrument (DFI) is rebalancing its exposure, the underlying financial markets are restricted, closed, or subject to large bid/offer spreads. An inability, due to low trading volume, to execute the trades required to replicate the Benchmark Index may also adversely affect the subscription, conversion or redemption of shares or units.

- Liquidity risk (secondary market)

The Sub-fund's on-exchange price may deviate from its indicative net asset value. The liquidity of the Sub-fund's shares on an exchange may be adversely affected by a suspension of or disruption in market operation, such as one of the following events:

- i) the calculation of the Benchmark Index is suspended or stopped and/or
- ii) the market(s) in the Benchmark Index's underlying assets is (are) suspended, and/or
- iii) a stock exchange cannot obtain or calculate the Sub-fund's indicative net asset value and/or
- iv) a market maker fails to comply with an exchange's rules and/or
- v) an exchange's IT, electronic or other system fails.

- Counterparty risk

The Sub-fund is exposed to the risk that a counterparty with which the Sub-fund has entered into a contract or transaction may go bankrupt or default on a settlement or other obligation. The Fund is mainly exposed to counterparty risk resulting from the use of derivative financial instruments (DFI) traded over the counter with Société Générale or another counterparty. In compliance with UCITS regulations, exposure to counterparty risk (whether the counterparty is Société Générale or another entity), cannot exceed 10% of the Sub-fund's total assets per counterparty.

If a counterparty defaults on an obligation the DFI contract may be terminated before maturity. The Sub-fund will do everything in its power to achieve its investment objective by, if appropriate, entering into another DFI contract with another counterparty at the market conditions at the time of such an event. If this counterparty risk materializes it could have an impact on the Fund's ability to achieve its investment objective of replicating the Benchmark Index.

Where Société Générale acts as the DFI counterparty, conflicts of interest may arise between the Sub-fund's Management Company and the DFI counterparty. The Management Company has procedures to identify and reduce such conflicts of interest and to resolve them equitably if necessary.

- Daily leverage reset risk

Investors are inversely exposed to two times the daily change in the price or level of the Parent Index. Most notably, any increase in the underlying market will be inversely amplified and will imply a larger decrease in the Sub-fund's net asset value. The daily readjustment in the underlying 'double short' index formula implies that the Sub-fund's performance will not be equivalent to two times the inverse performance of the Parent Index exposure for holding periods greater than one business day.

For example, if the Parent Index gains 10% on a given business day and then loses 5% the following business day, the Sub-fund's net asset value will decline by 12% (before the deduction of relevant fees) over these two days, while the Parent Index will have gained 4.5% over the same period.

If the Parent Index loses 5% a day over two consecutive business days, it will have lost a total of 9.75%, while the Sub-fund will have gained a total of 21%, before the deduction of relevant fees.

<u>Negative scenario 1</u>		The leverage effect is negative and greater than 2 and the Parent Index increases				
		Parent Index		Strategy index		Leverage effect
		Performance day i	Value day i	Performance day i	Value day i	
			100		100	
Day 1		10%	110	-20%	80	x-2
Day 2		-5%	104.5	10%	88	x-2
Total return		4.50%		-12.00%		x-2.67

<u>Negative scenario 2</u>		The leverage effect is negative and less than 2 and the Parent Index decreases				
		Parent Index		Strategy index		Leverage effect
		Performance day i	Value day i	Performance day i	Value day i	
			100		100	
Day 1		-10%	90	20%	120	x-2
Day 2		6%	95.4	-12%	105.6	x-2
Total return		-4.60%		5.60%		x-1.22

Furthermore, if the Parent Index is highly volatile over a period of more than one day, the Sub-fund's net asset value may decline over this period even though the Parent Index has also declined.

Inverse leverage scenario	The leverage effect is positive over the period				
	Parent Index		Strategy index		Leverage effect
	Performance day i	Value day i	Performance day i	Value day i	
Day 1		100		100	
Day 1	5%	105	-10%	90	x-2
Day 2	-5%	99.75	10%	99	x-2
Total return	-0.25%		-1.00%		x4

- Risk that the investment objective is not fully achieved

There is no guarantee that the investment objective will be achieved, as no asset or financial instrument can ensure that the Benchmark Index will be automatically and continuously replicated, particularly in the event of one or more of the following risks:

- Risk of using derivative financial instruments

In order to secure the performance of the Benchmark Index and achieve its investment objective, the Sub-fund can enter into transactions involving over-the-counter derivative financial instruments (DFI), such as swaps. These DFI involve various risks, such as counterparty risk, hedging disruption, Benchmark Index disruption, taxation risk, regulatory risk, operational risk and liquidity risk. These risks can materially affect a DFI and could lead to an adjustment or even the early termination of the DFI transaction, which could affect the Sub-fund's net asset value.

- Legal risk

The Sub-fund may be exposed to a legal risk arising from a total return swap (TRS) agreement as indicated in EU Regulation 2015/2365.

- Risk of a change in the tax regime

A change in the tax regime of a jurisdiction where the Sub-fund is domiciled, authorised for sale or listed could adversely affect the taxation of investors. In such an event, the Sub-fund manager will not be liable to any investor with respect to any payment that may have to be made to a competent tax authority.

- Risk of a change in the tax regime of the Fund's underlying assets

A change in a tax regime that applies to the Sub-fund's underlying assets could affect the tax treatment of the Sub-fund. As a result, in case of a discrepancy between the estimated and effective tax treatments applied to the Sub-fund and/or to the Sub-fund's counterparty to the DFI, the Sub-fund's net asset value may be affected.

- Regulatory risk affecting the Fund

In the event of a change in the regulatory regime in a jurisdiction where the Sub-fund is domiciled, authorised for sale or listed, the subscription, conversion or redemption of its shares may be adversely affected.

- Regulatory risk affecting the Fund's underlying assets

In the event of a change in the regulations that govern the Sub-fund's underlying assets, the Sub-fund's net asset value and the subscription, conversion or redemption of its shares may be adversely affected.

- Benchmark Index disruption risk

If an event adversely affects the Benchmark Index, the Sub-fund manager may be required, in accordance with the applicable laws and regulations, to suspend the subscription and redemption of the Sub-fund's shares. The calculation of the Sub-fund's net asset value could also be adversely affected.

If the Benchmark Index disruption persists, the manager of the Sub-fund will determine the appropriate measures to be carried out, which could have an impact on the Sub-fund's net asset value.

A 'Benchmark Index event' includes but is not limited to the following situations:

i) the Benchmark Index is deemed to be inaccurate or does not reflect actual market developments

ii) the Benchmark Index is permanently cancelled by the index provider

iii) the index provider is unable to indicate the level or value of the Benchmark Index

iv) the index provider makes a material change in the Benchmark Index calculation formula or method (other than a minor modification such as an adjustment to the Benchmark Index's underlying components or their respective weightings) which the Sub-fund cannot effectively replicate at a reasonable cost.

v) a Benchmark Index component becomes illiquid because it is no longer traded on a regulated market or because its trading over-the-counter (e.g. bonds) is disrupted;

vi) the Benchmark Index components are exposed to higher transaction costs for execution or settlement/delivery, or to specific tax constraints and these costs are not reflected in the Benchmark Index's performance.

- Corporate action risk

An unforeseen change, by the issuer of a security that is a component of the Benchmark Index, in a planned corporate action that is in contradiction with a previous official announcement on which the Sub-fund based its valuation of the corporate action (and/or on which the Sub-fund's counterparty to a derivative financial instrument or transaction based its valuation of the corporate action) can adversely affect the Sub-fund's net asset value, particularly if the Sub-fund's treatment of the corporate event differs from that of the Benchmark Index.

ELIGIBLE INVESTORS AND TYPICAL INVESTOR PROFILE

This Sub-fund is available to all investors .

Investors in this fund are seeking inverse exposure with 2x leverage to the performance of the French equities market, whether positive or negative.

The amount that it is reasonable to invest in this Sub-fund depends on each investor's personal situation. To determine this amount, investors must take into account their personal wealth and/or estate, their cash requirements currently and for the next five years, and their willingness to take on risk or their preference for more prudent investment. Investors are also advised to diversify their investments sufficiently so as not to be exposed solely to this sub-fund's risks.

All investors are therefore asked to consider their specific situation with the help of their usual investment advisor.

Given the speculative nature of this Sub-fund it may not be suitable for investors with a medium to long-term investment horizon.

CALCULATION AND ALLOCATION OF AMOUNTS AVAILABLE FOR DISTRIBUTION

Acc share class: All distributable amounts are accumulated.

SUBSCRIPTION AND REDEMPTION

1) SUBSCRIPTION AND REDEMPTION ON THE PRIMARY MARKET

Orders to subscribe for or redeem shares in the Sub-fund will be processed by the Depositary from 10.00 am to 5.00 pm (Paris time), every day that the Sub-fund's net asset value is to be published, provided that prices are quoted for a significant proportion of the Benchmark Index components (hereinafter a "**Primary Market Day**"), and will be executed at the net asset value on that Primary Market Day (hereinafter the "**reference NAV**"). Subscription/redemption orders submitted after 5.00 pm (Paris time) on a Primary Market Day will be processed as if received from 10.00 am to 5.00 pm (Paris time) on the following Primary Market Day. Orders to subscribe for or redeem shares in the Sub-fund must be for a whole number of shares and for a minimum amount of at least 100,000 euros.

Subscriptions and redemptions in cash

Subscriptions and redemptions shall be made exclusively in cash and executed at the ref NAV.

Delivery and settlement

Settlement/delivery of subscriptions and redemptions shall be completed within five French business days upon receipt of the subscription or redemption order.

Date and frequency of NAV calculation

The net asset value will be calculated and published daily, provided that at least one exchange on which the Sub-fund's shares are listed is open and that the market on which the Sub-fund's shares are traded is open and that orders placed in the primary and secondary markets can be funded.

The Sub-fund's net asset value is calculated using the Benchmark Index's closing price.

The net asset value of a share class that is denominated in another currency than the Fund's accounting currency (if applicable) is calculated using the exchange rate between the accounting currency and the currency of the share class, at the applicable WM Reuters rate on the date the reference NAV is calculated.

2) PURCHASES AND SALES ON THE SECONDARY MARKET

A. COMMON PROVISIONS

Purchases and sales of Sub-fund shares made directly on an exchange on which the Sub-fund is or will be listed and continuously traded will be subject to no minimum purchase/sale requirements other than those of the relevant exchange(s).

Shares in a listed sub-fund that are purchased on the secondary market cannot generally be directly sold back to that sub-fund. Investors must therefore buy and sell their shares on a secondary market through an intermediary (e.g. a broker) and may consequently incur costs. It is also possible that investors may pay more than the indicative net asset value when buying shares and receive less than the indicative net asset value when selling shares.

If the stock market value of a listed fund's shares or units differs significantly from their indicative net asset value, or if trading in the fund's share or units is suspended, subject to the conditions set forth below, investors may be allowed to redeem their shares on the primary market directly from the fund, without being subject to the minimum redemption amount requirement set forth herein in the section SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)".

The management company shall decide whether to allow such primary market redemptions and for how long, on the basis of the following criteria for assessing the significance of a market disruption:

- The suspension or strong disturbance of secondary trading on a given exchange is relatively frequent.
- The link between the market disruption and secondary market operators (such as the default of one or more of the Market Makers of a given exchange, or a breakdown or malfunction of an exchange's IT or operating systems), excluding a disruption caused by a source external to the secondary exchange on which the Sub-fund's shares are traded, such as an event that affects the liquidity and valuation of all or some of the Benchmark Index's components
- Any other objective circumstance that could adversely affect the fair treatment and/or the interests of the Sub-fund's shareholders.

Notwithstanding the provisions concerning fees presented in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)", redemptions made in the primary market in this case shall only be subject to a redemption fee of 0.5% paid to the Sub-fund and which serves to cover its trading costs

In such exceptional cases when redemption in the primary market is allowed, the management company will post on Lyxor's website at www.lyxor.etf.com the procedure that investors must observe to redeem their shares in the primary market. The Management Company shall also make this procedure available to the market undertaking that handles trading in the Sub-fund's shares.

B. SPECIAL PROVISIONS

a) If the Fund's units are listed on Euronext Paris, as indicated in the "Key Information" section, investors should note the following rules

Negotiability of shares and information about the financial institutions acting as Market Makers:

The shares shall be freely negotiable on the Euronext Paris regulated market subject to the following conditions and the applicable laws and regulations.

The Sub-fund's shares will be listed on a specific trading list, the rules for which are defined in the following instructions published by Euronext Paris SA:
- Instruction No. 4-01 "Universal Trading Platform Manual"
- Appendix to Instruction N4-01 (Appendix to the Euronext Market Trading Manual)
- Instruction No. 6-04 "Documentation to be provided when filing a listing application for an ETF, ETN, ETV and open-ended undertakings for collective investment other than ETFS"

Pursuant to article D 214-22-1 of the French monetary and financial code the units or shares of undertakings for collective investments in transferable securities may be admitted to trading, provided that these undertakings have a system to ensure that the market price of their units or shares does not differ significantly from their net asset value. Under Euronext Paris SA's rules trading in the Sub-fund's shares is also subject to a 'reservation threshold' of 1.5% above or below the Sub-fund's indicative net asset value or "iNAV" (see the "Indicative Net Asset Value" section), as published by Euronext Paris SA and updated on an estimated basis during trading in accordance with the change in the Benchmark Index.

To comply with Euronext Paris SA's reservation thresholds (see the "Indicative Net Asset Value" section) the Market Makers will ensure that the market price of the Sub-fund's shares does not differ from the Sub-fund's indicative Net Asset Value by more than 1.5%.

Euronext Paris SA may suspend trading in the Sub-fund's shares pursuant to the terms of its operating rules, if the aforementioned reservation threshold limit is exceeded.

Euronext Paris SA will also suspend trading in the Sub-fund's shares in the following cases:

- the Benchmark Index is no longer traded or calculated
- Euronext Paris SA cannot obtain the Benchmark Index's level

Euronext Paris SA cannot obtain the Sub-fund's net asset value.

In accordance with the terms and conditions governing admission to trading on Euronext Paris, the Market Makers undertake to provide market-making services for the Sub-fund's shares as soon as they are admitted to trading on the Euronext Paris exchange.

In particular, the Market Makers undertake to carry out market-making operations by maintaining a significant presence in the market, which initially entails the setting of a bid/ask spread.

More specifically, the Market Makers are required by contract with Euronext Paris SA to ensure that the Sub-fund maintains:

- a maximum global spread of 1.5% between the bid and offer price in the centralised order book.
- a minimum nominal trading value of EUR 100,000.

The obligations of the Sub-fund's Market Makers will be suspended in the following cases:

- the Benchmark Index is no longer traded or calculated
- If trading is substantially disrupted, for example due to a widespread shift in prices or an event that makes normal market making impossible.

Indicative net asset value

Euronext Paris SA will calculate and publish, each Trading Day and during trading hours, the Sub-fund's indicative net asset value (hereinafter "iNAV"). The iNAV is a measure of the intra-day value of the Sub-fund's net asset value based on the most recent data. The iNAV is not the value at which investors buy and sell shares in the Sub-fund on the secondary market.

A "Trading Day" is a day on which Euronext is normally open and on which the Benchmark Index is normally published.

The Sub-fund's iNAV is a theoretical net asset value calculated every 15 seconds by Euronext SA throughout the Paris trading day and is based on the level of the Benchmark Index. The iNAV enables investors to compare the prices that the Market Makers offer on the market with the theoretical value calculated by Euronext.

The iNAV will be calculated every day that the net asset value is calculated and published.

For the calculation of the Sub-fund's iNAV during the Paris trading session (from 9.05 am to 5.35 pm), Euronext Paris SA will use the Benchmark Index value provided by Reuters.

If one or more stock exchanges on which the Benchmark Index's constituent equities are listed are closed (on a public holiday as indicated on the TARGET calendar) and if the calculation of the iNAV proves impossible, trading in the Sub-fund's shares may be suspended.

Lyxor International Asset Management, the Sub-fund's management company, will provide Euronext Paris SA with all the financial and accounting data it needs to calculate the Sub-fund's iNAV and in particular:

- The day's estimated net asset value
- The official net asset value of the previous business day
- The level of the Benchmark Index on the previous business day.

These data will serve as a basis for Euronext Paris SA's calculations to determine the Sub-fund's iNAV in real time every Trading Day.

Additional information about the indicative net asset value of a share listed on a regulated market may, depending on the terms and limits set by the relevant market undertaking, be provided on the website of this regulated market. This information is also available on the Reuters or Bloomberg pages dedicated to the particular share. Additional information about the Bloomberg and Reuters codes for the indicative net asset values of all UCITS ETF type shares classes is also available in the "Term Sheets" section of Lyxor's website at www.lyxoretf.com.

b) If the units are listed on an exchange other than Euronext Paris, as indicated in the "Key Information" section, investors should note the following rules:

Investors wishing to acquire shares in the Sub-fund or obtain more information regarding the market-making terms that govern the listing and trading of shares on the types of exchanges indicated in the "Key Information" section should familiarize themselves with the guidelines laid down by the relevant market undertaking in compliance with local regulations, and if necessary seek the assistance of their usual broker(s) for executing trades on the relevant exchange(s).

FEES AND CHARGES

SUBSCRIPTION AND REDEMPTION FEES (CHARGED ONLY ON PRIMARY MARKET TRANSACTIONS)

Subscription and redemption fees increase the subscription price paid by investors and reduce the redemption price. Fees kept by the Sub-fund compensate it for the expenses it incurs in investing in the Sub-fund's assets or in divesting these assets. Any fees that are not kept by the Fund are paid to the management company, marketing agent or other service provider.

Fees paid by investors upon subscription or redemption	Base	Maximum charge
Subscription fee not kept by the Sub-fund	Net asset value x number of shares subscribed	The higher value of either EUR 50,000 per subscription order or 5% of the net asset value per share multiplied by the number of shares subscribed, payable to third parties
Subscription fee kept by the Sub-fund	Net asset value x number of shares subscribed	N/A
Redemption fee not kept by the Sub-fund	Net asset value x number of shares redeemed	The higher value of either EUR 50,000 per subscription order or 5% of the net asset value per share multiplied by the number of shares redeemed, payable to third parties
Redemption fee kept by the Sub-fund	Net asset value x number of shares redeemed	N/A

No subscription or redemption fee will be charged for any purchase or sale of Sub-fund shares on an exchange where the Fund is listed.

OPERATING AND MANAGEMENT FEES

These fees cover all the costs invoiced directly to the Fund, except for transaction expenses, which include intermediary fees (brokerage, stock market taxes etc.) and any account activity fee that may be charged by the depositary or the management company.

For this Sub-fund the following fees may be charged in addition to the operating and management fees (see table below):

- Incentive fees, which the Sub-fund pays to the management company when the Sub-fund exceeds its objectives
- Account activity fees charged to the Sub-fund.

For more information on the fees or expenses that are charged to the Sub-fund, see the Statistics section of the Key Investor Information Document (KIID).

Fees charged to the Sub-fund	Base	Maximum charge
Investment management and administrative fees that are external to the management company, including tax ⁽¹⁾	Net asset value	0.60% per annum
Maximum indirect expenses (management expenses and fees)	Net asset value	N/A
Account activity fee	Charged on each transaction	N/A
Incentive fee	Net asset value	N/A

(1) Includes all fees and expenses except for transaction expenses, incentive fees and fees associated with investment in UCITS.

COMMERCIAL INFORMATION

Distribution of this prospectus and the offer or purchase of shares in the Fund may be subject to restrictions with regard to certain persons or in certain countries by virtue of national regulations applying to such persons or such countries. Each investor is therefore responsible for ensuring that he or she is authorised to subscribe to or invest in this Fund. As a result, the information contained in this prospectus cannot be understood as constituting an offer or solicitation to buy or sell shares in this Fund in a country where such offer or solicitation is unlawful.

The Fund's share classes will not be registered pursuant to the US Securities Act of 1933, as amended (the "US Securities Act") and cannot be offered, assigned, transferred or allocated to the United States of America, or to:

- (A) any "US Person", as this term is defined (i) under Regulation S of the US Securities Act of 1933 and (ii) under US regulations as defined in Section 7701 (a) (30) of the Internal Revenue Code of 1986 as amended. The Fund's shares will not be offered to US Persons.
- (B) anyone other than those persons considered to be "non-US Persons" as this term is defined under US regulations pursuant to the Commodity Futures Trading Commission, Rule 4.7 (a) (1) (iv).

The Sub-fund's shares will only be offered for sale outside of the United States of America to non-US Persons.

For the purpose of this document, the term "US Person" shall mean, among other things, any individual who resides in the United States of America, any entity organised or formed under the laws of the United States of America, certain entities organised or formed outside of the United States of America by one or more US persons, or any account held on behalf of such a US person.

Under the German tax act on investment funds (InvStG-E), the Sub-fund is a "mutual fund" and must comply with the criteria that apply to "equity funds. As such, the Sub-fund will hold a basket of securities that are eligible for the equity ratio as this term is defined under said German tax act, and which will represent at least 94% of its net assets under normal market conditions. To ensure compliance with this ratio, the Sub-fund may adjust this basket of securities on a daily basis.

Before making an investment in this Fund or this Sub-fund, investors should seek the advice of their financial, tax and legal advisers.

PLACE AND METHOD OF NET ASSET VALUE PUBLICATION OR COMMUNICATION

At the registered office of LYXOR INTERNATIONAL ASSET MANAGEMENT, 17, cours Valmy - 92987 Paris La Défense CEDEX - France

The Sub-fund's net asset value will be calculated and published every Trading Day.

IMPORTANT INFORMATION ABOUT THE BENCHMARK INDEX PROVIDER

The Sub-fund is in no way sponsored, approved, sold or recommended by Euronext or its subsidiaries (hereinafter "Euronext") (collectively referred to as the "Licensors").

The Licensors provide no warranty nor make no commitment, either express or implied, as to the results that may be obtained from using the CAC 40 DOUBLE SHORT GR INDEX (hereinafter the "Index") and/or the level this Index may reach at any given time or date, or of any other type. The Index is calculated by or in the name of Euronext. The Licensors disclaim all liability (whether due to negligence or any other reason) for any error that may adversely affect the Index with respect to anyone whomsoever and will not be obliged to inform anyone of such an error.

ADDITIONAL INFORMATION

The Sub-fund's shares are admitted to trading by Euroclear France S.A.

Subscription and redemption orders must be sent to the Depositary by the investor's financial intermediary.

The Sub-fund's prospectus, the Key Investor Information Document, the most recent annual documents and the asset inventory will be sent to investors within eight business days upon receipt of a written request addressed to:

LYXOR INTERNATIONAL ASSET MANAGEMENT
17, cours Valmy - 92987 Paris La Défense CEDEX – France.

E-mail: contact@lyxor.com

More information can also be requested from Lyxor International Asset Management on its website at www.lyxoretf.com.

Prospectus publication date: see the "Publication Date" section.

Pursuant to Article L.533-22-1 of the French monetary and financial code, information concerning the Management Company's possible inclusion of social, environmental and corporate governance objectives and performance criteria in its investment policy is available on the management company's website and in the Multi Units France annual report.

The AMF's website (www.amf-france.org) provides additional information on the list of regulatory documents and on all provisions relating to investor protection.

This Prospectus must be made available to investors prior to subscription.

INVESTMENT RULES

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

The Sub-fund may invest in the assets indicated in Article L214-20 of the French monetary and financial code, subject to the risk-diversification and investment ratio requirements of Articles R214-21 to R214-27 of said Code. The Sub-fund may invest in the assets indicated in Article L214-20 of the French monetary and financial code, subject to the risk-diversification and investment ratio requirements of Articles R214-21 to R214-27 of said code.

Notwithstanding the 10% limit under Paragraph II of Article R214-21 of the French monetary and financial code, the Sub-fund may invest up to 20% of its assets in the equities and debt securities of a single issuer, in compliance with Article R214-22-I, which deals with index-tracking funds. Pursuant to Article R214-22 II, the Sub-fund may also increase this 20% limit for a single issuer to 35%, when this is shown to be justified by exceptional market conditions, and in particular when certain securities are largely dominant.

OVERALL RISK EXPOSURE

The commitment approach is used to calculate the overall risk exposure.

ASSET VALUATION AND ACCOUNTING RULES

A. VALUATION RULES

The Sub-fund's assets are valued in accordance with applicable laws and regulations and most notably Regulation NO. 2014-01 of 14 January 2014 of the Comité de la Réglementation Comptable (the Accounting Regulations Committee), which applies to the chart of accounts for UCITS investment funds. Financial instruments traded on a regulated market are valued at the closing price recorded on the day prior to the calculation of the net asset value. If these financial instruments are traded on several regulated markets at the same time, the closing price used is that recorded on the regulated market on which they are principally traded.

However, in the absence of significant trading on a regulated market, the following financial instruments are valued using the following methods:

- Negotiable debt securities ("NDS") with a remaining life upon acquisition that is less than or equal to three months are valued by applying the difference between the acquisition value and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc.). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- NDS with a remaining life of more than three months upon acquisition but less than or equal to three months at the net asset value calculation date are valued by applying the difference between the most recent valuation and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc.). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- NDS with a remaining life at the net asset value calculation date that exceeds three months are valued at their current value. The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- Financial futures traded on organised markets are valued at the clearing price on the day prior to the calculation of the net asset value. Options traded on organised markets are valued at their market price on the day prior to the calculation of the net asset value. Forward contracts and over-the-counter options are valued at the price quoted by the counterparty. The management company monitors these prices independently.
- Bank deposits are valued at their nominal value plus accrued interest.
- Warrants, short and medium-term notes (bons de caisse), promissory notes and mortgage notes are valued under the management company's responsibility at their most likely trading value.
- Securities financing transactions are valued at the market price.
- Shares and units in UCITS under French law are valued at the last known net asset value on the day the Sub-fund's net asset value is calculated.
- Shares and units in foreign investment funds are valued at the last known net asset value at the date the Sub-fund's net asset value is calculated.
- Financial instruments traded on a regulated market and for which no price has been quoted or whose price has been corrected, are valued under the management company's responsibility at their most likely trading value.
- The exchange rates used to value financial instruments denominated in a currency other than the Fund's base currency are the WM / Reuters fixing rates on the day the Fund's net asset value is calculated.

B. ACCOUNTING METHOD FOR TRADING EXPENSES

Trading expenses are included in the initial cost of the transaction.

C. ACCOUNTING METHOD FOR INCOME FROM FIXED-INCOME SECURITIES

Income from fixed-income securities is accounted for using the cash-basis method.

D. DISTRIBUTION POLICY

For more information see the section entitled "Calculation and Allocation of Distributable amounts".

E. ACCOUNTING CURRENCY

The Sub-fund's accounts are kept in euro.

SUB-FUND NO. 43: LYXOR CAC 40 DAILY (-1X) INVERSE UCITS ETF

A SICAV SUB-FUND COMPLIANT WITH DIRECTIVE 2009/65/EC

ISIN CODE

Acc share class: FR0010591362

CLASSIFICATION

The Lyxor CAC 40 Daily (-1x) Inverse UCITS ETF sub-fund (the “**Sub-fund**”) is a UCITS ETF index-tracker.

INCEPTION DATE

This sub-fund was approved by l’Autorité des Marchés Financiers on 15/02/2018 and was created on 19 April 2018.

INVESTMENT OBJECTIVE

The Sub-fund’s investment objective is to gain exposure to the performance of the French equities market, whether positive or negative, by replicating the behaviour of the CAC 40® Short benchmark index (the “**Benchmark Index**”), while minimising the tracking error between the Sub-fund’s performance and that of the CAC 40® Short index.

The expected ex-post tracking error under normal market conditions is 0.08%.

BENCHMARK INDEX

The Benchmark Index is the CAC 40 Short Index with gross dividends reinvested and denominated in euros.

The Benchmark Index provides daily inverse exposure to increases and decreases in the CAC 40® index with US dollars (the “Parent Index”). Therefore, if the Parent Index decreases on a given day, the Sub-fund’s net asset value will increase that day, and conversely, if the Parent Index increases on a given day, the Sub-fund’s net asset value will decrease that day and investors will not benefit from the increase in the Parent Index.

The Parent Index is the main benchmark for the Paris stock market. It measures changes in the prices of 40 stocks selected for their large market capitalisation, their representativity of a given sector and the large volume of trading in their shares.

The performance of the Benchmark Index is equal to the inverted daily performance of the Parent Index, plus the interest (EONIA) received daily on 2x the closing value of the Benchmark Index (minus the cost of short positions on the Parent Index basket for one day).

The index therefore is representative of a short position strategy against the Parent Index, gross US dollars, with daily rebalancing.

The Benchmark Index is an equity index that is calculated, maintained and published by Euronext.

The performance tracked is that of the Benchmark Index’s closing price.

A full description and the complete methodology used to construct the Benchmark Index and information on the composition and respective weightings of the Benchmark Index components are available on the Internet at: www.russell.com. <https://www.euronext.com/en>

Benchmark Index publication

The Benchmark Index is calculated daily at the official closing price of the exchanges where the index constituents are listed.

The Benchmark Index is published by Bloomberg and Reuters.

Reuters code: . CACSH

Bloomberg code: CACSH

The closing price of the Benchmark Index is available on the Internet at <https://www.euronext.com/en>

Pursuant to Article 52 of European Parliament and Council Regulation 2016/1011 of 8 June 2016, Euronext Paris S.A., the administrator of the CAC 40® Short benchmark index, has until 1 January 2020 to apply for approval or registration as applicable.

As of the date of the most recent version of this prospectus, the benchmark index administrator was not yet listed in ESMA’s register of benchmark administrators.

Pursuant to European Parliament and Council Regulation 2016/1011 of 8 June 2016, the asset management company has a procedure for monitoring the benchmark indices used that specifies the measures to be implemented if an index is substantially modified or is no longer provided.

Benchmark Index composition and revision

The composition of the Benchmark Index is not revised since its composition is adjusted when the Parent Index is revised.

The Parent Index is revised quarterly

The exact composition and Euronext’s rules for rebalancing the Benchmark Index are available on the internet at <https://www.euronext.com/en>

INVESTMENT STRATEGY

1. Strategy employed

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund will employ an indirect replication method, which involves entering into one or more OTC swap contracts to achieve its investment objective. These swap contracts will serve to exchange the value of the Sub-fund’s assets, which will consist of cash and/or balance sheet assets (excluding any securities received as collateral), for the value of the securities that make up the Benchmark Index.

The Securities in the Sub-fund’s portfolio may include those that make up the Parent Index, as well as other global equities across all economic sectors and listed on all exchanges including small-cap exchanges.

The basket of securities held may be adjusted daily such that its value will generally be at least 100% of the net assets. When necessary, this adjustment will aim to neutralise the counterparty risk arising from the aforementioned swap contract.

Information on the updated composition of the basket of ‘balance sheet’ assets in the Sub-fund’s portfolio and the value of the swap contract concluded by the Sub-fund is available on the page dedicated to the Sub-fund on Lyxor’s website at www.lyxoref.com. The frequency of any updates and/or the date on which the aforementioned information is updated is also indicated on the same page of the aforementioned website.

The Sub-fund will at all times invest at least 75% of its assets in companies having their registered office in a member state of the European Union or in another country that is a member of the European Economic Area and which have signed a tax convention with France that includes an administrative assistance clause for the purpose of fighting tax fraud and evasion. This minimum investment requirement qualifies the Fund for French ‘PEA’ equity savings plans.

In managing its exposure, no more than 20% of the Sub-fund’s assets may be exposed to the equities of a given issuer. This 20% limit will be checked on each Benchmark Index rebalancing date, using the Benchmark Index calculation method which limits exposure to a given issuer’s equities to 20%, this calculation being performed by the Benchmark Index sponsor or calculation agent. This 20% limit may be increased to 35% for a given issuing entity when this is shown to be justified by exceptional market conditions, in particular when certain securities are largely dominant and/or in the event of strong volatility affecting a financial instrument or securities linked to an economic sector represented in the Benchmark Index. This could be the case, for example, in the event of a public offering that substantially affects a Benchmark Index security or in the event of a significant drop in the liquidity of one or more of the Benchmark Index’s financial instruments.

The manager currently intends to invest mainly in the assets indicated below.

2. Balance sheet assets (excluding embedded derivatives)

In accordance with regulatory ratios, the Sub-fund’s portfolio may include global equities across all economic sectors and listed on any exchange, including “small-cap” exchanges.

The aforementioned equities will be selected on the basis of the following:

- eligibility criteria, in particular:
 - their inclusion in a major stock exchange index or in the Benchmark Index
 - liquidity (must exceed a minimum daily trading volume and market capitalisation)
 - credit rating of the country where the issuer has its registered office (must have a least a minimum S&P or equivalent rating)
- diversification criteria, in particular regarding:
 - the issuer (application of investment ratios to assets that qualify for UCITS, pursuant to Art. R214-21 of the French monetary and financial code)
 - geography
 - sector

Investment in undertakings for collective investment in transferrable securities (“UCITS”) that comply with Directive 2009/65/EC is limited to 10% of the Fund’s net assets. In respect of these investments, the Sub-fund may invest in the units or shares of UCITS managed by the management company or by a company that is related to the management company. The fund manager will not invest in the shares or units of alternative investment funds (AIF) or other investment funds that were formed under a foreign law.

When the Sub-fund receives collateral in the form of securities, subject to the terms of section 8 below, it acquires full title to these securities and they are therefore included among the balance sheet assets to which it has full title.

To optimise the Sub-fund’s management, the manager reserves the right to use other instruments in accordance with the applicable regulations in order to achieve its investment objective.

3. Off-balance sheet assets (derivatives)

The Sub-fund will use OTC index-linked swaps that swap the value of its equity assets (or the value of any other asset or financial instrument the Sub-fund may hold) for the value of the Benchmark Index (as described in part 1 of this section).

- Maximum proportion of assets under management for which total return swaps may be entered into: 100% of assets under management.
- Expected proportion of assets under management for which total return swaps may be entered into: up to 100%.

To optimise the Sub-fund’s management, the manager reserves the right to use other instruments in accordance with the applicable regulations in order to achieve its investment objective, such as derivatives other than index-linked swaps.

In accordance with its best execution policy, the management company considers that Société Générale is the counterparty that is generally able to obtain the best possible execution for these derivative financial instruments. Accordingly, these derivative financial instruments (including index-linked swaps) may be traded via Société Générale without having to seek a competitive bid from another counterparty.

The counterparty of the derivative financial instruments referred to above (the “**Counterparty**”) will have no discretionary power over the composition of the Fund’s portfolio nor over the underlying assets of the derivative financial instruments.

4. Securities with embedded derivatives

N/A.

5. Cash deposits

In order to optimise its cash management, the Sub-fund may deposit funds representing up to 20% of its net assets with lending institutions that belong to the same group as the depositary/custodian.

6. Cash borrowing

The Sub-fund may temporarily borrow up to 10% of its net assets.

7. Securities financing transactions

N/A. The manager will not engage in any securities financing transactions.

8. Collateral

Whenever the investment strategy exposes to the Sub-fund to counterparty risk, and in particular when the Sub-fund uses over-the-counter swaps, the Sub-fund may accept eligible securities as collateral to reduce the counterparty risk associated with these swaps. The portfolio of collateral received may be adjusted daily to ensure that its value is at least sufficient to cover the Sub-fund's counterparty risk in most cases. The purpose of this adjustment is to neutralise the Sub-fund's counterparty risk.

The Sub-fund will have full title to all collateral received, which will be deposited in the Sub-fund's account with the depositary. This collateral will therefore be included in the Sub-fund's assets.

All collateral the Sub-fund receives for this purpose must comply with the applicable laws and regulations, with respect in particular to liquidity, valuation, the creditworthiness of securities issuers, correlation, and the risks of collateral management and enforceability. All collateral received must in particular meet the following criteria:

- (a) All collateral must be of high quality, be highly liquid and tradable on a regulated market or on a multilateral trading facility, with transparent pricing to enable the collateral to be rapidly sold near its estimated price
- (b) This collateral must be valued at its mark-to-market price at least daily and assets with highly volatile prices are not acceptable as collateral, unless a sufficiently prudent discount or "haircut" is applied;
- (c) The issuer of this collateral must be independent of the counterparty and must not be closely correlated with the counterparty's financial performance;
- (d) Collateral must be sufficiently diversified in terms of country, market and issuer, with exposure to any single issuer not exceeding 20% of the Sub-fund's net asset value ;
- (e) Collateral must be immediately enforceable by the Sub-fund's management company without informing the counterparty and without its approval.

Notwithstanding the condition specified in (d) above, the Sub-fund may accept a basket of securities collateral that increases its exposure to a single issuer beyond 20% of its net asset value provided that:

- such securities collateral is issued by (i) a Member State, (ii) one or more of a Member State's local authorities, (iii) a country that is not a Member State
- (iv) a public international organisation to which one or more Member States belong; and;
- such securities collateral consists of at least six different issues of securities of which no single issue exceeds 30% of the Sub-fund's assets.

In accordance with the above conditions the collateral the Sub-fund accepts may consist of:

- (i) Cash and cash-equivalent assets, which for example include short-term bank deposits and balances and money-market instruments
- (ii) Bonds issued or guaranteed by an OECD member state, or by its local government entities, or by an EU, regional or global supranational institution or organisation, or by any country provided that conditions (a) to (e) above are fully complied with
- (iii) Shares or units issued by money-market funds that calculate a daily net asset value and have an AAA or equivalent credit rating
- (iv) The shares or units of UCITS that invest mainly in the bonds and/or equities indicated in (v) and (vi) below
- (v) Bonds issued or guaranteed by first-class issuers offering sufficient liquidity
- (vi) Equities admitted for trading or traded on a regulated exchange of an EU member country, on a stock exchange of an OECD member country or on a stock exchange of another country provided that conditions (a) to (e) above are fully complied with and that these equities are components of a major index.

Collateral discount policy

The Sub-fund's management company shall apply a discount to the collateral the Sub-fund accepts. The amount of these discounts will depend mainly on the following:

- the nature of the collateral asset
- the collateral's maturity (if applicable)
- the credit rating of the collateral issuer (if applicable).

Reinvestment of collateral

Non-cash collateral will not be sold, reinvested or pledged.

At the manager's discretion, cash collateral may either be:

- (i) deposited with an authorised institution
- (ii) invested in high-quality government bonds
- (iii) used for reverse repurchase transactions, provided that these are entered into with credit institutions that are subject to prudential supervision and that the fund is able to withdraw the total amount of its cash collateral and the accrued interest at any time.
- (iv) invested in short-term money-market funds as defined in the guidelines for a common definition of European money-market funds.

All cash collateral that is reinvested must be invested in a diversified manner in compliance with the rules that apply to the acceptance of non-cash collateral.

RISK PROFILE

The investors' money will be invested mainly in the financial instruments selected by the management company. These instruments are subject to market trends and contingencies.

Shareholders in the Sub-fund will be mainly exposed to the following risks:

- Equity risk

The price of an equity security can increase or decrease in accordance with changes in the issuer's risk exposure or in the economic conditions of the market in which the security is traded. Equity markets are more volatile than fixed-income markets, where it is possible to estimate revenues for a certain period of time under the same macroeconomic conditions.

- Capital risk

The capital invested is not guaranteed. Investors therefore may not recover all or part of their initial investment, particularly in the event that the Benchmark Index posts a negative return over the investment period

- Liquidity risk (primary market)

The Sub-fund's liquidity and/or value may be adversely affected if, when the Sub-fund or a counterparty to a derivative financial instrument (DFI) is rebalancing its exposure, the underlying financial markets are restricted, closed, or subject to large bid/offer spreads. An inability, due to low trading volume, to execute the trades required to replicate the Benchmark Index may also adversely affect the subscription, conversion or redemption of shares or units.

- Liquidity risk (secondary market)

The Sub-fund's on-exchange price may deviate from its indicative net asset value. The liquidity of the Sub-fund's shares on an exchange may be adversely affected by a suspension of or disruption in market operation, such as one of the following events:

- i) the calculation of the Benchmark Index is suspended or stopped and/or
- ii) the market(s) in the Benchmark Index's underlying assets is (are) suspended, and/or
- iii) a stock exchange cannot obtain or calculate the Sub-fund's indicative net asset value and/or
- iv) a market maker fails to comply with an exchange's rules and/or
- v) an exchange's IT, electronic or other system fails.

- Counterparty risk

The Sub-fund is exposed to the risk that a counterparty with which the Sub-fund has entered into a contract or transaction may go bankrupt or default on a settlement or other obligation. The Fund is mainly exposed to counterparty risk resulting from the use of derivative financial instruments (DFI) traded over the counter with Société Générale or some other counterparty. In compliance with UCITS regulations, exposure to counterparty risk (whether the counterparty is Société Générale or another entity), cannot exceed 10% of the Sub-fund's total assets per counterparty.

If a counterparty defaults on an obligation the DFI contract may be terminated before maturity. The Sub-fund will do everything in its power to achieve its investment objective by, if appropriate, entering into another DFI contract with another counterparty at the market conditions at the time of such an event. If this counterparty risk materialises it could have an impact on the Sub-fund's ability to achieve its investment objective of replicating the Benchmark Index.

Where Société Générale acts as the DFI counterparty, conflicts of interest may arise between the Sub-fund's Management Company and the DFI counterparty. The Management Company has procedures to identify and reduce such conflicts of interest and to resolve them equitably if necessary.

- Daily leverage reset risk

Investors are inversely exposed to the daily fluctuations affecting the price or level of the Parent Index. The daily reset in the exposure in the underlying "short" strategy index formula implies that the Sub-fund's performance will not be equivalent to the inverse performance of the Parent Index for holding periods greater than one trading day. This means that investors are underexposed to volatility.

For example, if the Parent Index appreciates by 10% on business day one, and then depreciates by 5% on business day two, the ETF will be subject to a total decrease of 5.5% (before deduction of relevant fees) over the two business days, while the Parent Index will be subject to an increase of 4.5% over the same period. If the Parent Index depreciates by 5% per day over two consecutive business days, the ETF will see a total increase of 10.25% (before deduction of relevant fees), while the Parent Index will see a decrease of 9.75% over the same period.

Negative scenario 1

The Parent Index rises and the leverage effect is negative is greater than 1

	Parent Index		Strategy Index		Leverage effect
	Performance day i	Value day i	Performance day i	Value day i	
Day 1	10%	100	-10%	100	x-1
Day 2	-8%	110	8%	90	x-1
Total return		101.2		97.2	
	1.20%		-2.80%		x-2,33

Negative scenario 2

The Parent Index falls and the leverage effect is negative is less than 1

	Parent Index		Strategy Index		Leverage effect
	Performance day i	Value day i	Performance day i	Value day i	
Day 1	100	100	10%	110	x-1
Day 2	-10%	90	10%	110	x-1
	6%	95.4	-6%	103.4	

Total return	-4.60%	3.40%	x-0,74
--------------	---------------	--------------	---------------

Furthermore, if the Parent Index is highly volatile over a period of more than one day, the Sub-fund's net asset value may decline over this period even though the Parent Index has also declined.

Inverse leverage scenario	The leverage effect is positive over the period				Leverage effect	
	Parent Index		Strategy Index			
	Performance day i	Value day i	Performance day i	Value day i		
Day 1		100		100		
Day 1	5%	105	-5%	95	x-1	
Day 2	-5%	99.75	5%	99.75	x-1	
Total return	-0.25%		-0.25%		x1	

- Risk that the investment objective is not fully achieved

There is no guarantee that the investment objective will be achieved, as no asset or financial instrument can ensure that the Benchmark Index will be automatically and continuously replicated, particularly in the event of one or more of the following risks:

- Risk of using derivative financial instruments

In order to achieve its investment objective and secure the performance of the Benchmark Index, the Sub-fund can enter into over-the-counter derivative financial instruments ("DFI"), such as swaps. This DFI involve various risks, such as counterparty risk, hedging disruption, Benchmark Index disruption, taxation risk, regulatory risk, operational risk and liquidity risk. These risks can materially affect a DFI and could lead to an adjustment or even the early termination of the DFI transaction, which could affect the Sub-fund's net asset value.

- Risk of a change in the tax regime

A change in the tax regime of a jurisdiction where the Sub-fund is domiciled, authorised for sale or listed could adversely affect the taxation of investors. In such an event, the Sub-fund manager will not be liable to any investor with respect to any payment that may have to be made to a competent tax authority.

- Risk of a change in the tax regime of the Fund's underlying assets

A change in a tax regime that applies to the Sub-fund's underlying assets could affect the tax treatment of the Sub-fund. As a result, in case of a discrepancy between the estimated and effective tax treatments applied to the Sub-fund and/or to the Sub-fund's counterparty to the DFI, the Sub-fund's net asset value may be affected.

- Regulatory risk affecting the Fund

In the event of a change in the regulatory regime in a jurisdiction where the Sub-fund is domiciled, authorised for sale or listed, the subscription, conversion or redemption of shares may be adversely affected.

- Regulatory risk affecting the Fund's underlying assets

In the event of a change in the regulations that govern the Sub-fund's underlying assets, the Sub-fund's net asset value and the subscription, conversion or redemption of shares or units may be adversely affected.

- Benchmark Index disruption risk

If an event adversely affects the Benchmark Index, the Fund manager may be required, in accordance with the applicable laws and regulations, to suspend the subscription and redemption of the Sub-fund's shares. The calculation of the Sub-fund's net asset value could also be adversely affected.

If the Benchmark Index disruption persists, the manager of the Sub-fund will determine the appropriate measures to be carried out, which could have an impact on the Sub-fund's net asset value.

A 'Benchmark Index event' includes but is not limited to the following situations:

- i) the Benchmark Index is deemed to be inaccurate or does not reflect actual market developments
- ii) the Benchmark Index is permanently cancelled by the index provider
- iii) the index provider is unable to indicate the level or value of the Benchmark Index
- iv) the index provider makes a material change in the Benchmark Index calculation formula or method (other than a minor modification such as an adjustment to the Benchmark Index's underlying components or their respective weightings) which the Sub-fund cannot effectively replicate at a reasonable cost.
- v) a Benchmark Index component becomes illiquid because it is no longer traded on a regulated market or because its trading over-the-counter (e.g. bonds) is disrupted;
- (vi) the Benchmark Index components are exposed to higher transaction costs for execution or settlement/delivery, or to specific tax constraints and these costs are not reflected in the Benchmark Index's performance.

- Corporate action risk

An unforeseen change, by the issuer of a security that is a component of the Benchmark Index, in a planned corporate action that is in contradiction with a previous official announcement on which the Sub-fund based its valuation of the corporate action (and/or on which the Sub-fund's counterparty to a derivative financial instrument or transaction based its valuation of the corporate action) can adversely affect the Sub-fund's net asset value, particularly if the Sub-fund's treatment of the corporate event differs from that of the Benchmark Index.

- Legal risk

The Sub-fund may be exposed to a legal risk arising from a total return swap (TRS) agreement as indicated in EU Regulation No. 2015/2365.

ELIGIBLE INVESTORS AND TYPICAL INVESTOR PROFILE

This Sub-fund is available to all investors .

Investors in this fund are looking for inverse exposure to rising and falling eurozone equity prices.

The amount that it is reasonable to invest in this Sub-fund depends on each investor's personal situation. To determine this amount, investors must take into account their personal wealth and/or estate, their cash requirements currently and for the next five years, and their willingness to take on risk or their preference for more prudent investment. It is also recommended that investors diversify their investments so that they are not exclusively exposed to this Sub-fund's risks. All investors are therefore asked to consider their specific situation with the help of their usual investment advisor.

Given the speculative nature of this Sub-fund it may not be suitable for investors with a medium to long-term investment horizon.

CALCULATION AND ALLOCATION OF DISTRIBUTABLE AMOUNTS

Acc share class: All distributable amounts are accumulated.

DISTRIBUTION FREQUENCY

N/A.

SHARE CHARACTERISTICS

The Acct class shares will be issued at a price that is equivalent to the net asset value of the corresponding absorbed unit class on the day the Lyxor CAC 40 Daily (-1x) UCITS ETF is merged.

Subscription orders may be placed for a specific monetary amount or for a whole number of shares.

Redemptions will be made in whole numbers of shares.

UNIT CURRENCY

	Share class Acc
Currency	Euros

SUBSCRIPTION AND REDEMPTION

1. SUBSCRIPTION AND REDEMPTION ON THE PRIMARY MARKET

Orders to subscribe for or redeem shares in the Sub-fund will be processed by the Depositary, from 10.00 am to 5.00 pm (Paris time), every day that the Sub-fund's net asset value is to be published, provided that prices are quoted for a significant proportion of the Benchmark Index components (hereinafter a "**Primary Market Day**", and will be executed at the net asset value on that Primary Market Day(hereinafter the "**reference NAV**"). Subscription/redemption orders submitted after 5.00 pm (Paris time) on a Primary Market Day will be processed as if received from 10.00 am to 5.00 pm (Paris time) on the following Primary Market Day. Orders to subscribe for or redeem shares in the Sub-fund must be made for a whole number of shares that represents at least 100,000 euros.

Subscriptions and redemptions in cash:

Subscriptions and redemptions shall be made exclusively in cash and executed at the ref NAV.

Delivery and settlement:

Settlement/delivery of subscriptions and redemptions shall be completed within five French business days upon receipt of the subscription or redemption order.

Date and frequency of net asset value calculation

The net asset value will be calculated and published daily, provided that at least one exchange on which the Sub-fund's shares are listed is open and that orders placed in the primary and secondary markets can be funded.

The Fund's net asset value will be calculated each Trading Day.

The Sub-fund's net asset value is calculated using the Benchmark Index's closing price.

The net asset value of a share class that is denominated in another currency than the Fund's accounting currency (if applicable) is calculated using the exchange rate between the accounting currency and the currency of the share class, at the applicable WM Reuters rate on the date the reference NAV is calculated.

2. PURCHASES AND SALES ON THE SECONDARY MARKET

B. COMMON PROVISIONS

Purchases and sales of Sub-fund shares made directly on an exchange on which the Sub-fund is or will be listed and continuously traded will be subject to no minimum purchase/sale requirements other than those of the relevant exchange(s).

Shares in a listed sub-fund that are purchased on the secondary market cannot generally be directly sold back to that sub-fund. Investors must therefore buy and sell their shares on a secondary market through an intermediary (e.g. a broker) and may consequently incur costs. It is also possible that investors may pay more than the indicative net asset value when buying shares and receive less than the indicative net asset value when selling shares.

If the stock market value of a listed fund's shares or units differs significantly from their indicative net asset value, or if trading in the fund's share or units is suspended, subject to the conditions set forth below, investors may be allowed to redeem their shares on the primary market directly from the fund, without being

subject to the minimum redemption amount requirement set forth herein in the section *SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)*".

The management company shall decide whether to allow such primary market redemptions and for how long, on the basis of the following criteria for assessing the significance of a market disruption:

- The suspension or strong disturbance of secondary trading on a given exchange is relatively frequent.
- The link between the market disruption and secondary market operators (such as the default of one or more of the Market Makers of a given exchange, or a breakdown or malfunction of an exchange's IT or operating systems), excluding a disruption caused by a source external to the secondary exchange on which the Sub-fund's shares are traded, such as an event that affects the liquidity and valuation of all or some of the Benchmark Index's components
- Any other objective circumstance that could adversely affect the fair treatment and/or the interests of the Sub-fund's shareholders.

Notwithstanding the provisions concerning fees presented in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)", redemptions made in the primary market in this case shall only be subject to a net redemption fee of 1% paid to the Sub-fund and which serves to cover its trading costs.

In such exceptional cases when redemption in the primary market is allowed, the Management Company shall post on Lyxor's website at www.lyxor.etc.com the procedure that investors must observe to redeem their shares in the primary market. The Management Company shall also make this procedure available to the market undertaking that handles trading in the Sub-fund's shares.

C. **SPECIAL PROVISIONS**

a) **If the Sub-fund's units are listed on Euronext Paris, as indicated in the "Key Information" section, investors should note the following rules**

Negotiability of shares and information about the financial institutions acting as Market Makers:

The shares shall be freely negotiable on the Euronext Paris regulated market subject to the following conditions and the applicable laws and regulations.

The Sub-fund's shares will be listed on a specific trading list, the rules for which are defined in the following instructions published by Euronext Paris SA:

- Instruction No. 4-01 "Universal Trading Platform Manual"
- Appendix to Instruction N4-01 (Appendix to the Euronext Market Trading Manual)
- Instruction No. 6-04 "Documentation to be provided when filing a listing application for an ETF, ETN, ETV and open-ended undertakings for collective investment other than ETFS"

Pursuant to article D 214-22-1 of the French monetary and financial code the units or shares of undertakings for collective investments in transferable securities may be admitted to trading, provided that these undertakings have a system to ensure that the market price of their units or shares does not differ significantly from their net asset value. Under Euronext Paris SA's rules trading in the Sub-fund's shares is also subject to a 'reservation threshold' of 1.5% above or below the Sub-fund's indicative net asset value or "**iNAV**" (see the "Indicative Net Asset Value" section), as published by Euronext Paris SA and updated on an estimated basis during trading in accordance with the change in the Benchmark Index.

To comply with Euronext Paris SA's reservation thresholds (see the "Indicative Net Asset Value" section) the Market Makers will ensure that the market price of the Sub-fund's shares does not differ from the Sub-fund's indicative Net Asset Value by more than 1.5%.

Euronext Paris SA may suspend trading in the Sub-fund's shares pursuant to the terms of its operating rules, if the aforementioned reservation threshold limit is exceeded.

Euronext Paris SA will also suspend trading in the Sub-fund's shares in the following cases:

- the Benchmark Index is no longer traded or calculated
- Euronext Paris SA cannot obtain the Benchmark Index's level
- Euronext Paris SA cannot obtain the Sub-fund's net asset value.

In accordance with the terms and conditions governing admission to trading on Euronext Paris, the Market Makers undertake to provide market-making services for the Sub-fund's shares as soon as they are admitted to trading on the Euronext Paris exchange.

In particular, the Market Makers undertake to carry out market-making operations by maintaining a significant presence in the market, which initially entails the setting of a bid/ask spread.

More specifically, the Market Makers are required by contract with Euronext Paris SA to ensure that the Sub-fund maintains:

- a maximum global spread of 1.5% between the bid and offer price in the centralised order book.
- a minimum nominal trading value of EUR 100,000.

The obligations of the Sub-fund's Market Makers will be suspended in the following cases:

- the Benchmark Index is no longer traded or calculated
- If trading is substantially disrupted, for example due to a widespread shift in prices or an event that makes normal market making impossible.

Indicative net asset value

Euronext Paris SA will calculate and publish, each Trading Day (as defined below) during trading hours, the Sub-fund's indicative net asset value (hereinafter the "**iNAV**"). The iNAV is a measure of the intra-day value of the Sub-fund's net asset value based on the most recent data. The iNAV is not the value at which investors buy and sell shares in the Sub-fund on the secondary market.

A "**Trading Day**" is a day on which Euronext is normally open and on which the Benchmark Index is normally published.

The Sub-fund's iNAV is a theoretical net asset value calculated every 15 seconds by Euronext SA throughout the Paris trading day and is based on the level of the Benchmark Index. The iNAV enables investors to compare the prices that the Market Makers offer on the market with the theoretical value calculated by Euronext.

The iNAV will be calculated every day that the net asset value is calculated and published.

For the calculation of the Sub-fund's iNAV during the Paris trading session (from 9.05 am to 5.35 pm), Euronext Paris SA will use the Benchmark Index value provided by Reuters.

If one or more stock exchanges on which the Benchmark Index's constituent equities are listed are closed (on a public holiday as indicated on the TARGET calendar) and if the calculation of the iNAV proves impossible, trading in the Sub-fund's shares may be suspended.

Lyxor International Asset Management, the Sub-fund's management company, will provide Euronext Paris SA with all the financial and accounting data it needs to calculate the Sub-fund's iNAV and in particular:

- The day's estimated net asset value
- The official net asset value of the previous business day
- The level of the Benchmark Index on the previous business day.

These data will serve as a basis for Euronext Paris SA's calculations to determine the Sub-fund's iNAV in real time every Trading Day.

Additional information about the indicative net asset value of a share listed on a regulated market may, depending on the terms and limits set by the relevant market undertaking, be provided on the website of this regulated market. This information is also available on the Reuters or Bloomberg pages dedicated to the particular share. Additional information about Bloomberg and Reuters codes corresponding to the indicative net asset value of UCITS ETF type shares is also available in the "Term Sheets" section of Lyxor's website at www.lyxoretf.com.

b) **If the Sub-fund's shares are listed on an exchange other than Euronext Paris, as indicated in the "Key Information" section, investors should note the following**

Investors wishing to acquire shares in the Sub-fund or obtain more information regarding the market-making terms that govern the listing and trading of shares on the types of exchanges indicated in the "Key Information" section are advised to familiarise themselves with the guidelines laid down by the relevant market undertaking in compliance with local regulations, and to seek if necessary the assistance of their usual broker(s) for executing trades on the relevant exchange(s).

FEES AND CHARGES

SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)

Subscription and redemption fees increase the subscription price paid by investors and reduce the redemption price. Fees kept by the Sub-fund compensate it for the expenses it incurs in investing in the Sub-fund's assets or in divesting these assets. Any fees that are not kept by the Fund are paid to the management company, marketing agent or other service provider.

Fees paid by investors upon subscription or redemption	Base	Maximum charge
Subscription fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per subscription order or 5%, payable to third parties
Subscription fee kept by the Sub-fund	NAV per share x number of shares	N/A
Redemption fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per redemption order or 5%, payable to third parties
Redemption fee kept by the Sub-fund	NAV per share x number of shares	N/A

No subscription or redemption fee will be charged for any purchase or sale of Sub-fund shares on an exchange where the Fund is listed

OPERATING AND MANAGEMENT FEES

These fees cover all the costs invoiced directly to the Fund, except for transaction expenses, which include intermediary fees (brokerage, stock market taxes etc.) and any account activity fee that may be charged by the depositary or the management company.

For this Sub-fund the following fees may be charged in addition to the operating and management fees (see table below):

- Incentive fees, which the Sub-fund pays to the management company when the Sub-fund exceeds its objectives
- Account activity fees charged to the Sub-fund.

For more information on the fees or expenses that are charged to the Sub-fund, see the Statistics section of the Key Investor Information Document (KIID).

Fees charged to the Sub-fund	Base	Maximum charge
Investment management fees and administration fees that are external to the management company ⁽¹⁾	Net asset value	0.40% per annum
Maximum indirect expenses (management expenses and fees)	Net asset value	N/A
Account activity fee	Charged on each transaction	N/A
Incentive fee	Net asset value	N/A

(1) Includes all fees and expenses except for transaction expenses, incentive fees and fees associated with investment in UCITS.

COMMERCIAL INFORMATION

Distribution of this prospectus and the offer or purchase of shares in the Fund may be subject to restrictions with regard to certain persons or in certain countries by virtue of national regulations applying to such persons or such countries. Each investor is therefore responsible for ensuring that he or she is authorised to subscribe to or invest in this Fund. As a result, the information contained in this prospectus cannot be understood as constituting an offer or solicitation to buy or sell shares in this Fund in a country where such offer or solicitation is unlawful.

The Fund's share classes will not be registered pursuant to the US Securities Act of 1933, as amended (the "US Securities Act") and cannot be offered, assigned, transferred or allocated to the United States of America, or to:

- (A) any "US Person", as this term is defined (i) under Regulation S of the US Securities Act of 1933 and (ii) under US regulations as defined in Section 7701 (a) (30) of the Internal Revenue Code of 1986 as amended. The Fund's shares will not be offered to US Persons.
- (B) anyone other than those persons considered to be "non-US Persons" as this term is defined under US regulations pursuant to the Commodity Futures Trading Commission, Rule 4.7 (a) (1) (iv).

The Sub-fund's shares will only be offered for sale outside of the United States of America to non-US Persons.

For the purpose of this document, the term "US Person" shall mean, among other things, any individual who resides in the United States of America, any entity organised or formed under the laws of the United States of America, certain entities organised or formed outside of the United States of America by one or more US persons, or any account held on behalf of such a US person.

Under the German tax act on investment funds (InvStG-E), the Sub-fund is a "mutual fund" and must comply with the criteria that apply to "equity funds. As such, the Sub-fund will hold a basket of securities that are eligible for the equity ratio as this term is defined under said German tax act, and which will represent at least 94% of its net assets under normal market conditions. To ensure compliance with this ratio, the Sub-fund may adjust this basket of securities on a daily basis.

Before making an investment in this Fund or this Sub-fund, investors should seek the advice of their financial, tax and legal advisers.

PLACE AND METHOD OF NET ASSET VALUE PUBLICATION OR COMMUNICATION

At the registered office of LYXOR INTERNATIONAL ASSET MANAGEMENT, 17, cours Valmy - 92987 Paris La Défense CEDEX - France

The Sub-fund's net asset value will be calculated and published every Trading Day.

IMPORTANT INFORMATION ABOUT THE BENCHMARK INDEX PROVIDER

The Lyxor CAC 40 Daily (-1x) Inverse UCITS ETF sub-fund is not sponsored, endorsed, sold or promoted in any way whatsoever by Euronext Paris SA or its subsidiaries (hereinafter "**Euronext**" and collectively referred to as the "**Licensors**").

The Licensors provide no guarantee and make no commitment either express or implied, regarding the results that may be obtained by using the CAC 40 ® Short Index and/or regarding the level the Index may reach at any given time or on any given day, or regarding anything else. The Index is calculated by or in the name of Euronext. The Licensors will not be liable, to anyone whomsoever, for any error that affects the Index and shall have no obligation to inform anyone whomsoever of any error that may affect the Index.

ADDITIONAL INFORMATION

The Sub-fund's shares are admitted to trading by Euroclear France S.A.

Subscription and redemption orders are sent by investors' financial intermediaries (members of Euroclear France S.A.) to the Depositary.

The Sub-fund's prospectus, the Key Investor Information Document, the most recent annual documents and the asset inventory will be sent to investors within eight business days upon receipt of a written request addressed to:

LYXOR INTERNATIONAL ASSET MANAGEMENT

17 Cours Valmy - 92987 Paris La Défense France.

E-mail: contact@lyxor.com

More information can also be requested from Lyxor International Asset Management on its website at www.lyxoref.com.

Pursuant to Article L.533-22-1 of the French monetary and financial code, information concerning the Management Company's possible inclusion of social, environmental and corporate governance objectives and performance criteria in its investment policy is available on the management company's website and in the Multi Units France annual report.

The AMF's website (www.amf-france.org) provides additional information on the list of regulatory documents and on all provisions relating to investor protection. This Prospectus must be made available to investors prior to subscription.

INVESTMENT RULES

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

The Sub-fund may invest in the assets indicated in Article L214-20 of the French monetary and financial code, subject to the risk-diversification and investment ratio requirements of Articles R214-21 to R214-27 of said code.

Notwithstanding the 10% limit under Paragraph II of Article R214-21 of the French monetary and financial code, the Sub-fund may invest up to 20% of its assets in the equities and debt securities of a single issuer, in compliance with Article R214-22-I, which deals with index-tracking funds. Pursuant to Article R214-22 II, the Sub-fund may also increase this 20% limit for a single issuer to 35%, when this is shown to be justified by exceptional market conditions, and in particular when certain securities are largely dominant.

OVERALL RISK EXPOSURES

The commitment approach is used to calculate the overall risk exposure.

ASSET VALUATION RULES AND ACCOUNTING RULES

A. Valuation rules

The Sub-fund's assets are valued in accordance with applicable laws and regulations and most notably Regulation No. 2014-01 of 14 January 2014 of the Comité de la Réglementation Comptable (the Accounting Regulations Committee), which applies to the chart of accounts for UCITS investment funds.

Financial instruments traded on a regulated market are valued at the closing price recorded on the day prior to the calculation of the net asset value. If these financial instruments are traded on several regulated markets at the same time, the closing price used is that recorded on the regulated market on which they are principally traded.

However, in the absence of significant trading on a regulated market, the following financial instruments are valued using the following methods:

- Negotiable debt securities ("NDS") with a remaining life upon acquisition that is less than or equal to three months are valued by applying the difference between the acquisition value and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc.). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- NDS with a remaining life of more than three months upon acquisition but less than or equal to three months at the net asset value calculation date are valued by applying the difference between the most recent valuation and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc.). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- NDS with a remaining life at the net asset value calculation date that exceeds three months are valued at their current value. The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- Financial futures traded on organised markets are valued at the clearing price on the day prior to the calculation of the net asset value. Options traded on organised markets are valued at their market price on the day prior to the calculation of the net asset value. Forward contracts and over-the-counter options are valued at the price quoted by the counterparty. The management company monitors these prices independently.
- Bank deposits are valued at their nominal value plus accrued interest.
- Warrants, short and medium-term notes (bons de caisse), promissory notes and mortgage notes are valued under the management company's responsibility at their most likely trading value.
- Securities financing transactions are valued at the market price.
- Shares and units in UCITS under French law are valued at the last known net asset value on the day the Sub-fund's net asset value is calculated.
- Shares and units in foreign investment funds are valued at the last known net asset value at the date the Sub-fund's net asset value is calculated.
- Financial instruments traded on a regulated market and for which no price has been quoted or whose price has been corrected, are valued under the management company's responsibility at their most likely trading value.
- The exchange rates used to value financial instruments denominated in a currency other than the Sub-fund's base currency are the WM Reuters fixing rates published on the day the Sub-fund's net asset value is calculated.

B. ACCOUNTING METHOD FOR TRADING EXPENSES

Trading expenses are included in the initial cost of the transaction.

C. ACCOUNTING METHOD FOR INCOME FROM FIXED-INCOME SECURITIES

Income from fixed-income securities is accounted for using the cash-basis method.

D. DISTRIBUTION POLICY

For more information see the section entitled "Calculation and Allocation of Distributable amounts".

E. ACCOUNTING CURRENCY

The Sub-fund's accounts are kept in euro.

SUB-FUND NO. 44: LYXOR CAC MID 60 UCITS ETF

A SICAV SUB-FUND COMPLIANT WITH DIRECTIVE 2009/65/EC

ISIN CODES

I-EUR share class: FR0011046754
Dist share class: FR0011041334

CLASSIFICATION

French equities

The Lyxor CAC Mid 60 UCITS ETF sub-fund (the “**Sub-fund**”) continuously maintains at least 60% exposure to the French equity market.

The Sub-fund is a UCITS ETF index-tracker.

INCEPTION DATE

This sub-fund was approved by l’Autorité des Marchés Financiers on 15/02/2018 and was created on 19 April 2018.

INVESTMENT OBJECTIVE

The Sub-fund's investment objective is to provide exposure to the 60 top-rated stocks on Euronext Paris that are not part of the CAC Large 60 index, by replicating the performance, whether positive or negative, of the CAC Mid 60 Gross Total Return index (the ‘**Benchmark Index**’), denominated in euros, while minimising the tracking error between the Sub-fund’s performance and that of its Benchmark Index.

The expected ex-post tracking error under normal market conditions is 0.05%.

BENCHMARK INDEX

The Benchmark Index is the CAC Mid 60 Gross Total Return strategy index (gross US dollars).

The Benchmark Index, which is weighted by free-floating market capitalisation, replicates the share price movements of 60 mid-cap companies listed on Euronext Paris regulated exchanges.

Eligible securities are rated by free-floating capitalisation and trading volume. The securities chosen for the Benchmark Index are the top-rated stocks that are not components of the CAC Large 60 index.

The Benchmark Index is an equities index that is calculated and published by the index provider Euronext.

The Benchmark Index measures the performance of the 60 top-rated stocks that are not part of the CAC Large 60 index. A ‘buffer zone’ is currently observed whereby current index components that are rated from 56th to 65th position have selection priority over eligible securities that are not currently components of the CAC Mid 60 or CAC Large 60 indices at the time of index revision.

The weight of each index constituent is adjusted to account for free float, which is rounded upward in 5% increments.

A full description and the complete methodology used to construct the Benchmark Index and information on the composition and respective weightings of the Benchmark Index components are available on the Internet at: www.russell.com. <https://www.euronext.com/en>
The performance tracked is that of the Benchmark Index's closing price.

Benchmark Index publication

The Benchmark Index is available via Reuters et Bloomberg.

Reuters code: .CACMR

Bloomberg code: CM1GR

The closing price of the Benchmark Index is available on the Internet at: <https://www.euronext.com/en>

Pursuant to Article 52 of European Parliament and Council Regulation 2016/1011 of 8 June 2016, Euronext Paris S.A., the administrator of the CAC Mid 60 Gross Total Return benchmark index, has until 1 January 2020 to apply for approval or registration as applicable.

As of the date of the most recent version of this prospectus, the benchmark index administrator was not yet listed in ESMA's register of benchmark administrators.

Pursuant to European Parliament and Council Regulation 2016/1011 of 8 June 2016, the asset management company has a procedure for monitoring the benchmark indices used that specifies the measures to be implemented if an index is substantially modified or is no longer provided.

Benchmark Index composition and revision

The composition and number of equities in the Benchmark Index is revised quarterly, at the close of the 3rd Friday in March, June, September and December.

The exact composition of the Benchmark Index and Euronext's rules for its revision are available on the Internet at <https://indices.nyx.com/>

The frequency of this rebalancing does not affect the cost of implementing the Investment Strategy.

INVESTMENT STRATEGY

1. STRATEGY EMPLOYED

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

To achieve the highest possible correlation with the performance of the Benchmark Index, the Sub-fund will employ an indirect replication method, which involves entering into one or more OTC swap contracts to achieve its investment objective. These swap contracts will serve to exchange the value of the Sub-fund's assets, which will consist of cash and/or balance sheet assets (excluding any securities received as collateral), for the value of the securities that underlie the Benchmark Index.

The securities in which the Sub-fund may invest include those that make up the Benchmark Index, and also other international equities across all economic sectors and listed on all exchanges including small-cap exchanges.

The basket of securities held may be adjusted daily such that its value will generally be at least 100% of the net assets. When necessary, this adjustment will aim to neutralise the counterparty risk arising from the aforementioned swap contract.

Information on the updated composition of the basket of ‘balance sheet’ assets in the Sub-fund’s portfolio and the value of the swap contract concluded by the Sub-fund is available on the page dedicated to the Sub-fund on Lyxor’s website at www.lyxoretf.com. The frequency of any updates and/or the date on which the aforementioned information is updated is also indicated on the same page of the aforementioned website.

The Sub-fund will at all times invest at least 75% of its assets in companies having their registered office in a member state of the European Union or in another country that is a member of the European Economic Area and which have signed a tax convention with France that includes an administrative assistance clause for the purpose of fighting tax fraud and evasion. This minimum investment requirement qualifies the Fund for French ‘PEA’ equity savings plans.

In managing its exposure, no more than 20% of the Sub-fund’s assets may be exposed to the equities of a given issuer. This 20% limit will be checked on each Benchmark Index rebalancing date, using the Benchmark Index calculation method which limits exposure to a given issuer’s equities to 20%, this calculation being performed by the Benchmark Index sponsor or calculation agent. This 20% limit may be increased to 35% for a given issuing entity when this is shown to be justified by exceptional market conditions, in particular when certain securities are largely dominant and/or in the event of strong volatility affecting a financial instrument or securities linked to an economic sector represented in the Benchmark Index. This could be the case, for example, in the event of a public offering that substantially affects a Benchmark Index security or in the event of a significant drop in the liquidity of one or more of the Benchmark Index’s financial instruments.

The manager currently intends to invest mainly in the assets indicated below.

2. Balance sheet assets (excluding embedded derivatives)

In accordance with regulatory ratios, the Sub-fund’s portfolio may include global equities across all economic sectors and listed on any exchange, including “small-cap” exchanges.

The aforementioned equities will be selected on the basis of the following:

- eligibility criteria, in particular:
 - their inclusion in a major stock exchange index or in the Benchmark Index
 - liquidity (must exceed a minimum daily trading volume and market capitalisation)
 - credit rating of the country where the issuer has its registered office (must have a least a minimum S&P or equivalent rating)
- diversification criteria, in particular regarding:
 - the issuer (application of investment ratios to assets that qualify for UCITS, pursuant to Art. R214-21 of the French monetary and financial code)
 - geography
 - sector

Investors may find more information on the above eligibility and diversification criteria, and in particular the list of eligible indices, on Lyxor’s website at www.lyxoretf.com.

Investment in undertakings for collective investment in transferrable securities (“UCITS”) that comply with Directive 2009/65/EC is limited to 10% of the Sub-fund’s net assets. In respect of these investments, the Sub-fund may invest in the units or shares of UCITS managed by the management company or by a company that is related to the management company. The fund manager will not invest in the shares or units of alternative investment funds (AIF) or other investment funds that were formed under a foreign law.

When the Sub-fund receives collateral in the form of securities, subject to the terms of section 8 below, it acquires full title to these securities and they are therefore included among the balance sheet assets to which it has full title.

To optimise the Sub-fund’s management, the manager reserves the right to use other instruments in accordance with the applicable regulations in order to achieve its investment objective.

3. Off-balance sheet assets (derivatives)

The Sub-fund will use OTC index-linked swaps that swap the value of its assets (or of any other asset or financial instrument the Sub-fund may hold) for the value of the Benchmark Index (as described in part 1 of this section).

To optimise the Sub-fund’s management, the manager reserves the right to use other instruments in accordance with the applicable regulations in order to achieve its investment objective, such as derivatives other than index-linked swaps.

In accordance with its best execution policy, the management company considers that Société Générale is the counterparty that is generally able to obtain the best possible execution for these derivative financial instruments. Accordingly, these derivative financial instruments (including index-linked swaps) may be traded via Société Générale without having to seek a competitive bid from another counterparty.

The counterparty of the aforementioned derivative financial instruments (the “Counterparty”) shall have no discretion over the composition of the Sub-fund’s portfolio nor over the assets that underlie the derivative financial instruments.

4. Securities with embedded derivatives

N/A.

5. Cash deposits

In order to optimise its cash management, the Sub-fund may deposit funds representing up to 20% of its net assets with lending institutions that belong to the same group as the depositary/custodian.

6. Cash borrowing

The Fund may temporarily borrow up to 10% of its net assets.

7. Securities financing transactions

N/A. The manager will not engage in any securities financing transactions.

8. Collateral

Whenever the investment strategy exposes the Sub-fund to counterparty risk, and in particular when the Sub-fund uses over-the-counter swaps, the Sub-fund may accept eligible securities as collateral to reduce the counterparty risk associated with these swaps. The portfolio of collateral received may be adjusted daily to ensure that its value is at least sufficient to cover the Sub-fund's counterparty risk in most cases. The purpose of this adjustment is to neutralise the Sub-fund's counterparty risk.

The Sub-fund will have full title to all collateral received, which will be deposited in the Sub-fund's account with the depositary. This collateral will therefore be included in the Sub-fund's assets.

All collateral the Sub-fund receives for this purpose must comply with the applicable laws and regulations, with respect in particular to liquidity, valuation, the credit-worthiness of securities issuers, correlation, and the risks of collateral management and enforceability. All collateral received must in particular meet the following criteria:

- (a) All collateral must be of high quality, be highly liquid and tradable on a regulated market or on a multilateral trading facility, with transparent pricing to enable the collateral to be rapidly sold near its estimated price
- (b) This collateral must be valued at its mark-to-market price at least daily and assets with highly volatile prices are not acceptable as collateral, unless a sufficiently prudent discount or "haircut" is applied;
- (c) The issuer of this collateral must be independent of the counterparty and must not be closely correlated with the counterparty's financial performance;
- (d) Collateral must be sufficiently diversified in terms of country, market and issuer, with exposure to any single issuer not exceeding 20% of the Sub-fund's net asset value ;
- (e) Collateral must be immediately enforceable by the Sub-fund's management company without informing the counterparty and without its approval.

Notwithstanding the condition specified in (d) above, the Sub-fund may accept a basket of securities collateral that increases its exposure to a single issuer beyond 20% of its net asset value provided that:

- such securities collateral is issued by (i) a Member State, (ii) one or more of a Member State's local authorities, (iii) a country that is not a Member State (iv) a public international organisation to which one or more Member States belong; and;
- such securities collateral consists of at least six different issues of securities of which no single issue exceeds 30% of the Sub-fund's assets.

In accordance with the above conditions the collateral the Sub-fund accepts may consist of:

- (i) Cash and cash-equivalent assets, which for example include short-term bank deposits and balances and money-market instruments
- (ii) Bonds issued or guaranteed by an OECD member state, or by its local government entities, or by an EU, regional or global supranational institution or organisation, or by any country provided that conditions (a) to (e) above are fully complied with
- (iii) Shares or units issued by money-market funds that calculate a daily net asset value and have an AAA or equivalent credit rating
- (iv) The shares or units of UCITS that invest mainly in the bonds and/or equities indicated in (v) and (vi) below
- (v) Bonds issued or guaranteed by first-class issuers offering sufficient liquidity
- (vi) Equities admitted for trading or traded on a regulated exchange of an EU member country, on a stock exchange of an OECD member country or on a stock exchange of another country provided that conditions (a) to (e) above are fully complied with and that these equities are components of a major index.

Collateral discount policy

The Sub-fund's management company shall apply a discount to the collateral the Sub-fund accepts. The amount of these discounts will depend mainly on the following:

- the nature of the collateral asset
- the collateral's maturity (if applicable)
- the credit rating of the collateral issuer (if applicable).

Reinvestment of collateral

Non-cash collateral will not be sold, reinvested or pledged.

At the manager's discretion, cash collateral may either be:

- (i) deposited with an authorised institution
- (ii) invested in high-quality government bonds
- (iii) used for reverse repurchase transactions, provided that these are entered into with credit institutions that are subject to prudential supervision and that the fund is able to withdraw the total amount of its cash collateral and the accrued interest at any time.
- (iv) invested in short-term money-market funds as defined in the guidelines for a common definition of European money-market funds.

All cash collateral that is reinvested must be invested in a diversified manner in compliance with the rules that apply to the acceptance of non-cash collateral.

RISK PROFILE

The shareholder's money will be mainly invested in the financial instruments selected by the management company. These instruments are subject to market trends and contingencies.

Shareholders in the Sub-fund will be mainly exposed to the following risks:

- Equity risk

The price of an equity security can increase or decrease in accordance with changes in the issuer's risk exposure or in the economic conditions of the market in which the security is traded. Equity markets are more volatile than fixed-income markets, where it is possible to estimate revenues for a certain period of time under the same macroeconomic conditions.

- Counterparty risk

The Sub-fund is exposed to the risk that a counterparty with which the Fund has entered into a contract or transaction may go bankrupt or default on a settlement or other obligation. The Fund is mainly exposed to counterparty risk resulting from the use of derivative financial instruments (DFI) traded over the counter with Société Générale or another counterparty. In compliance with UCITS regulations, exposure to counterparty risk (whether the counterparty is Société Générale or another entity), cannot exceed 10% of the Sub-fund's total assets per counterparty.

If a counterparty defaults on an obligation the DFI contract may be terminated before maturity. The Sub-fund will do everything in its power to achieve its investment objective by, if appropriate, entering into another DFI contract with another counterparty at the market conditions at the time of such an event.

If this counterparty risk materialises it could have an impact on the Sub-fund's ability to achieve its investment objective of replicating the Benchmark Index.

Where Société Générale acts as the DFI counterparty, conflicts of interest may arise between the Sub-fund's Management Company and the DFI counterparty. The Management Company has procedures to identify and reduce such conflicts of interest and to resolve them equitably if necessary.

- Capital risk

The capital invested is not guaranteed. Investors therefore may not recover all or part of their initial investment, particularly in the event that the Benchmark Index posts a negative return over the investment period.

- Liquidity risk (primary market)

The Sub-fund's liquidity and/or value may be adversely affected if, when the Sub-fund or a counterparty to a derivative financial instrument (DFI) is rebalancing its exposure, the underlying financial markets are restricted, closed, or subject to large bid/offer spreads. An inability, due to low trading volume, to execute the trades required to replicate the Benchmark Index may also adversely affect the subscription, conversion or redemption of shares or units.

- Liquidity risk (secondary market)

The Sub-fund's on-exchange price may deviate from its indicative net asset value. The liquidity of the Sub-fund's shares on an exchange may be adversely affected by a suspension of or disruption in market operation, such as one of the following events:

- i) the calculation of the Benchmark Index is suspended or stopped and/or
- ii) the market(s) in the Benchmark Index's underlying assets is (are) suspended, and/or
- iii) a stock exchange cannot obtain or calculate the Sub-fund's indicative net asset value and/or
- iv) a market maker fails to comply with an exchange's rules and/or
- v) an exchange's IT, electronic or other system fails.

- Risk that the investment objective is only partially achieved

There is no guarantee that the investment objective will be achieved, as no asset or financial instrument can ensure that the Benchmark Index will be automatically and continuously replicated, particularly in the event of one or more of the following risks:

- Risk of using derivative financial instruments

In order to achieve its investment objective and secure the performance of the Benchmark Index, the Sub-fund can enter into over-the-counter derivative financial instruments ("DFI"), such as swaps. This DFI involve various risks, such as counterparty risk, hedging disruption, Benchmark Index disruption, taxation risk, regulatory risk, operational risk and liquidity risk. These risks can materially affect a DFI and could lead to an adjustment or even the early termination of the DFI transaction, which could affect the Sub-fund's net asset value.

- Legal risk

The Sub-fund may be exposed to a legal risk arising from a total return swap (TRS) agreement as indicated in EU Regulation 2015/2365.

- Risk of a change in the tax regime

A change in the tax regime of a jurisdiction where the Sub-fund is domiciled, authorised for sale or listed could adversely affect the taxation of investors. In such an event, the Sub-fund manager will not be liable to any investor with respect to any payment that may have to be made to a competent tax authority.

- Risk of a change in the tax regime of the Fund's underlying assets

A change in a tax regime that applies to the Sub-fund's underlying assets could affect the tax treatment of the Sub-fund. As a result, in case of a discrepancy between the estimated and effective tax treatments applied to the Sub-fund and/or to the Sub-fund's counterparty to the DFI, the Sub-fund's net asset value may be affected.

- Regulatory risk affecting the Fund

In the event of a change in the regulatory regime in a jurisdiction where the Sub-fund is domiciled, authorised for sale or listed, the subscription, conversion or redemption of shares may be adversely affected.

- Regulatory risk affecting the Fund's underlying assets

In the event of a change in the regulations that govern the Sub-fund's underlying assets, the Sub-fund's net asset value and the subscription, conversion or redemption of shares or units may be adversely affected.

- Benchmark Index disruption risk

If an event adversely affects the Benchmark Index, the Sub-fund manager may be required, as provided for by law, to suspend the subscription and redemption of the Sub-fund's shares. The calculation of the Sub-fund's net asset value could also be adversely affected.

If the Benchmark Index disruption persists, the manager of the Sub-fund will determine the appropriate measures to be carried out, which could have an impact on the Sub-fund's net asset value.

A 'Benchmark Index event' includes but is not limited to the following situations:

- i) the Benchmark Index is deemed to be inaccurate or does not reflect actual market developments
- ii) the Benchmark Index is permanently cancelled by the index provider
- iii) the index provider is unable to indicate the level or value of the Benchmark Index,
- iv) the index provider makes a material change in the Benchmark Index calculation formula or method (other than a minor modification such as an adjustment to the Benchmark Index's underlying components or their respective weightings) which the Sub-fund cannot effectively replicate at a reasonable cost.
- v) a Benchmark Index component becomes illiquid because it is no longer traded on a regulated market or because its trading over-the-counter (e.g. bonds) is disrupted;
- (vi) the Benchmark Index components are exposed to higher transaction costs for execution or settlement/delivery, or to specific tax constraints and these costs are not reflected in the Benchmark Index's performance.

- Risk of corporate action involving a Benchmark Index constituent

An unforeseen change, by the issuer of a security that is a component of the Benchmark Index, in a planned corporate action that is in contradiction with a previous official announcement on which the Sub-fund based its valuation of the corporate action (and/or on which the Sub-fund's counterparty to a derivative financial instrument or transaction based its valuation of the corporate action) can adversely affect the Sub-fund's net asset value, particularly if the Sub-fund's treatment of the corporate event differs from that of the Benchmark Index.

ELIGIBLE INVESTORS AND TYPICAL INVESTOR PROFILE

This Sub-fund is available to all investors seeking exposure to the performance of the 60 top-rated stocks that are not constituents of the CAC Large 60 index. I-EUR share are specifically intended for institutional investors.

The amount that it is reasonable to invest in this Sub-fund depends on each investor's personal situation. To determine this amount, investors must take into account their personal wealth and/or estate, their cash requirements at present and for the next five years, and their willingness to take on risk or adopt a more cautious approach. It is also recommended that investors diversify their investments so that they are not exclusively exposed to this Sub-fund's risks.

All investors are therefore asked to consider their specific situation with the help of their usual investment advisor.

The recommended minimum investment period is at least five years.

CALCULATION AND ALLOCATION OF DISTRIBUTABLE AMOUNTS

Dist and I-EUR share classes: The management company reserves the right to distribute any distributable amounts one or more times a year and/or accumulate all or part of such amounts. Net capital gains are reinvested.

DISTRIBUTION FREQUENCY

If distribution is decided, The management company reserves the right to distribute distributable amounts in one or more annual distributions.

SHARE CHARACTERISTICS

The Dist and I-EUR class shares will be issued at a price that is equivalent to the net asset value of the corresponding absorbed unit class on the day the Lyxor CAC Mid 60 UCITS ETF is merged.

Only a whole number of shares may be subscribed for.

Redemptions will be made in whole numbers of shares.

UNIT CURRENCY

	I-EUR share class	Dist share class
Currency	Euros	Euros

SUBSCRIPTION AND REDEMPTION

1. SUBSCRIPTION AND REDEMPTION ON THE PRIMARY MARKET

Orders to subscribe for or redeem shares in the Sub-fund will be processed by the Depositary, from 9.00 am to 5.00 pm (Paris time), every day that the Sub-fund's net asset value is to be published, provided that prices are quoted for a significant proportion of the Benchmark Index components (hereinafter a "Primary Market Day") and will be executed at the net asset value of that Primary Market Day (hereinafter the "reference NAV"). Subscription/redemption orders submitted after 5.00 pm (Paris time) on a Primary Market Day will be processed as if received from 9.00 am to 5.00 pm (Paris time) on the following Primary Market Day. Orders to purchase or redeem shares in the Sub-fund must be made for a whole number of units and for a minimum amount of at least 100,000 euros for both the Dist and the I-EUR share classes.

Subscriptions/redemptions in cash:

Subscriptions and redemptions shall be made exclusively in cash and executed at the ref NAV.

Delivery and settlement

Settlement/delivery of subscriptions and redemptions shall be completed within five French business days upon receipt of the subscription or redemption order.

The Sub-fund's net asset value is calculated using the Benchmark Index's closing price.

Registrar and transfer agent by delegation from the management company:

SOCIÉTÉ GÉNÉRALE - 32, rue du Champ de Tir - 44000 Nantes – France

Date and frequency of net asset value calculation

The net asset value will be calculated and published daily provided that at least one of the exchanges where the Sub-fund shares are traded is open and that orders placed in the primary and secondary markets can be funded.

The Sub-fund's net asset value is calculated using the Benchmark Index's closing price.

The Sub-fund's net asset value is denominated in EUR

The net asset value of a share class that is denominated in another currency than the Fund's accounting currency (if applicable) is calculated using the exchange rate between the accounting currency and the currency of the share class, at the applicable WM Reuters rate on the date the reference NAV is calculated.

The Sub-fund's net asset value is calculated using the Benchmark Index's closing price. The Sub-fund's net asset value is denominated in EUR.

2. PURCHASES AND SALES ON THE SECONDARY MARKET

A. COMMON PROVISIONS

Purchases and sales of Sub-fund shares made directly on an exchange on which the Sub-fund is or will be listed and continuously traded will be subject to no minimum purchase/sale requirements other than those of the relevant exchange(s).

Shares in a listed sub-fund that are purchased on the secondary market cannot generally be directly sold back to that sub-fund. Investors must therefore buy and sell their shares on a secondary market through an intermediary (e.g. a broker) and may consequently incur costs. It is also possible that investors may pay more than the indicative net asset value when buying shares and receive less than the indicative net asset value when selling shares.

If the stock market value of a listed fund's shares or units differs significantly from their indicative net asset value, or if trading in the fund's share or units is suspended, investors may be allowed, subject to the conditions set forth below, to redeem their shares on the primary market directly from the Sub-fund, without being subject to the minimum redemption amount requirement set forth herein in the section entitled SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions).

The management company shall decide whether to allow such primary market redemptions and for how long, on the basis of the following criteria for assessing the significance of a market disruption:

- The suspension or strong disturbance of secondary trading on a given exchange is relatively frequent.
- The link between the market disruption and secondary market operators (such as the default of one or more of the Market Makers of a given exchange, or a breakdown or malfunction of an exchange's IT or operating systems), excluding a disruption caused by a source external to the secondary exchange on which the Sub-fund's shares are traded, such as an event that affects the liquidity and valuation of all or some of the Benchmark Index's components
- Any other objective circumstance that could adversely affect the fair treatment and/or the interests of the Sub-fund's shareholders.

Notwithstanding the provisions concerning fees presented in the section entitled "SUBSCRIPTION AND REDEMPTION FEES (charged only on primary market transactions)", redemptions made in the primary market in this case shall only be subject to a net redemption fee of 1% paid to the Sub-fund and which serves to cover its trading costs.

In such exceptional cases when redemption in the primary market is allowed, the Management Company shall post on Lyxor's website at www.lyxor.etc.com the procedure that investors must observe to redeem their shares in the primary market. The Management Company shall also make this procedure available to the market undertaking that handles trading in the Sub-fund's shares.

B. SPECIAL PROVISIONS

a) If the Fund's units are listed on Euronext Paris, as indicated in the "Key Information" section, investors should note the following rules

Negotiability of shares and information about the financial institutions acting as Market Makers:

The shares shall be freely negotiable on the Euronext Paris regulated market subject to the following conditions and the applicable laws and regulations.

The Sub-fund's shares will be listed on a specific trading list, the rules for which are defined in the following instructions published by Euronext Paris SA:

- Instruction No. 4-01 "Universal Trading Platform Manual"
- Appendix to Instruction N4-01 (Appendix to the Euronext Market Trading Manual)
- Instruction No. 6-04 "Documentation to be provided when filing a listing application for an ETF, ETN, ETV and open-ended undertakings for collective investment other than ETFS"

Pursuant to article D 214-22-1 of the French monetary and financial code the units or shares of undertakings for collective investments in transferable securities may be admitted to trading, provided that these undertakings have a system to ensure that the market price of their units or shares does not differ significantly from their net asset value. Under Euronext Paris SA's rules trading in the Sub-fund's shares is also subject to a 'reservation threshold' of 1.5% above or below the Sub-fund's indicative net asset value or "iNAV" (see the "Indicative Net Asset Value" section), as published by Euronext Paris SA and updated on an estimated basis during trading in accordance with the change in the Benchmark Index.

To comply with Euronext Paris SA's reservation thresholds (see the "Indicative Net Asset Value" section), the Market Makers will ensure that the market price of the Sub-fund's shares does not differ from the Sub-fund's indicative net asset value by more than 1.5%.

Euronext Paris SA may suspend trading in the Sub-fund's shares pursuant to the terms of its operating rules, if the aforementioned reservation threshold limit is exceeded.

Euronext Paris SA will also suspend trading in the Sub-fund's shares in the following cases:

- the Benchmark Index is no longer traded or calculated
- Euronext Paris SA cannot obtain the Benchmark Index's level
- Euronext Paris SA cannot obtain the Sub-fund's net asset value.

In accordance with the terms and conditions governing admission to trading on Euronext Paris, the Market Makers undertake to provide market-making services for the Sub-fund's shares as soon as they are admitted to trading on the Euronext Paris exchange.

In particular, the Market Makers undertake to carry out market-making operations by maintaining a significant presence in the market, which initially entails the setting of a bid/ask spread.

More specifically, the Market Makers are required by contract with Euronext Paris SA to ensure that the Sub-fund maintains:

- a maximum global spread of 1.5% between the bid and offer price in the centralised order book.
- a minimum nominal trading value of EUR 100,000.

The obligations of the Sub-fund's Market Makers will be suspended in the following cases:

- the Benchmark Index is no longer traded or calculated
- If trading is substantially disrupted, for example due to a widespread shift in prices or an event that makes normal market making impossible.

Indicative net asset value

Euronext Paris SA will calculate and publish the Sub-fund's indicative net asset value (hereinafter the "iNAV") during trading hours every Trading Day (as defined below) (hereinafter the "iNAV"). The iNAV is a measure of the intra-day value of the Sub-fund's net asset value based on the most recent data. The iNAV is not the value at which investors buy and sell shares in the Sub-fund on the secondary market.

A “**Trading Day**” is a day on which Euronext is normally open and on which the Benchmark Index is normally published.

The Sub-fund’s iNAV is a theoretical net asset value calculated every 15 seconds by Euronext SA throughout the Paris trading day and is based on the level of the Benchmark Index. The iNAV enables investors to compare the prices that the Market Makers offer on the market with the theoretical value calculated by Euronext.

The iNAV will be calculated every day that the net asset value is calculated and published.

For the calculation of the Sub-fund’s iNAV during the Paris trading session (from 9.05 am to 5.35 pm), Euronext Paris SA will use the Benchmark Index value provided by Reuters.

If one or more stock exchanges on which the Benchmark Index’s constituent equities are listed are closed (on a public holiday as indicated on the TARGET calendar), and if the INAV cannot be calculated, trading in the Sub-fund’s shares may be suspended.

Lyxor International Asset Management, the Sub-fund’s management company, will provide Euronext Paris SA with all the financial and accounting data it needs to calculate the Sub-fund’s iNAV and in particular:

- The day's estimated net asset value
- The official net asset value of the previous business day
- The level of the Benchmark Index on the previous business day.

These data will serve as a basis for Euronext Paris SA’s calculations to determine the Sub-fund’s iNAV in real time every Trading Day.

Additional information about the indicative net asset value of a share listed on a regulated market may, depending on the terms and limits set by the relevant market undertaking, be provided on the website of this regulated market. This information is also available on the Reuters or Bloomberg pages dedicated to the particular share. Additional information about Bloomberg and Reuters codes corresponding to the indicative net asset value of UCITS ETF type shares is also available in the “Term Sheets” section of Lyxor’s website at www.lyxoretf.com.

b) **If the Sub-fund’s shares are listed on an exchange other than Euronext Paris, as indicated in the "Key Information" section, investors should note the following**

Investors wishing to acquire shares in the Sub-fund or obtain more information regarding the market-making terms that govern the listing and trading of shares on the types of exchanges indicated in the “Key Information” section should familiarize themselves with the guidelines laid down by the relevant market undertaking in compliance with local regulations, and if necessary seek the assistance of their usual broker(s) for executing trades on the relevant exchange(s).

FEES AND CHARGES

SUBSCRIPTION AND REDEMPTION FEES (CHARGED ONLY ON PRIMARY MARKET TRANSACTIONS)

Subscription and redemption fees increase the subscription price paid by investors and reduce the redemption price. Fees kept by the Sub-fund compensate it for the expenses it incurs in investing in the Sub-fund's assets or in divesting these assets. Any fees that are not kept by the Fund are paid to the management company, marketing agent or other service provider.

Fees paid by investors upon subscription or redemption	Base	Maximum charge
Subscription fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per subscription order or 5% payable to third parties
Subscription fee kept by the Sub-fund	NAV per share x number of shares	N/A
Redemption fee not kept by the Sub-fund	NAV per share x number of shares	The higher value of either EUR 50,000 per redemption order or 5% payable to third parties
Redemption fee kept by the Sub-fund	NAV per share x number of shares	N/A

No subscription or redemption fee will be charged for any purchase or sale of Sub-fund shares on an exchange where the Fund is listed

OPERATING AND MANAGEMENT FEES

These fees cover all the costs invoiced directly to the Fund, except for transaction expenses, which include intermediary fees (brokerage, stock market taxes etc.) and any account activity fee that may be charged by the depositary or the management company.

For this Sub-fund the following fees may be charged in addition to the operating and management fees (see table below):

- Incentive fees, which the Sub-fund pays to the management company when the Sub-fund exceeds its objectives
- Account activity fees charged to the Sub-fund.

For more information on the fees or expenses that are charged to the Sub-fund, see the Statistics section of the Key Investor Information Document (KIID).

Dist share class:

Fees charged to the Sub-fund	Base	Maximum charge
Investment and administrative fees that are external to the management company ⁽¹⁾	Net asset value	0.50% p.a.
Maximum indirect expenses (management expenses and fees)	Net asset value	N/A
Account activity fee	Charged on each transaction	N/A
Incentive fee	Net asset value	N/A

(1) Includes all fees and expenses except for transaction expenses, incentive fees and fees associated with investment in UCITS.

I-EUR share class:

Fees charged to the Sub-fund	Base	Maximum charge
Investment and administrative fees that are external to the management company ⁽¹⁾	Net asset value	1% p.a.
Maximum indirect expenses (management expenses and fees)	Net asset value	N/A
Account activity fee	Charged on each transaction	N/A
Incentive fee	Net asset value	N/A

(1) Includes all fees and expenses except for transaction expenses, incentive fees and fees associated with investment in UCITS.

COMMERCIAL INFORMATION

Distribution of this prospectus and the offer or purchase of shares in the Fund may be subject to restrictions with regard to certain persons or in certain countries by virtue of national regulations applying to such persons or such countries. Each investor is therefore responsible for ensuring that he or she is authorised to subscribe to or invest in this Fund. As a result, the information contained in this prospectus cannot be understood as constituting an offer or solicitation to buy or sell shares in this Fund in a country where such offer or solicitation is unlawful.

The Fund's share classes will not be registered pursuant to the US Securities Act of 1933, as amended (the "US Securities Act") and cannot be offered, assigned, transferred or allocated to the United States of America, or to:

- (A) any "US Person", as this term is defined (i) under Regulation S of the US Securities Act of 1933 and (ii) under US regulations as defined in Section 7701 (a) (30) of the Internal Revenue Code of 1986 as amended. The Fund's shares will not be offered to US Persons.
- (B) anyone other than those persons considered to be "non-US Persons" as this term is defined under US regulations pursuant to the Commodity Futures Trading Commission, Rule 4.7 (a) (1) (iv).

The Sub-fund's shares will only be offered for sale outside of the United States of America to non-US Persons.

For the purpose of this document, the term "US Person" shall mean, among other things, any individual who resides in the United States of America, any entity organised or formed under the laws of the United States of America, certain entities organised or formed outside of the United States of America by one or more US persons, or any account held on behalf of such a US person.

Under the German tax act on investment funds (InvStG-E), the Sub-fund is a "mutual fund" and must comply with the criteria that apply to "equity funds. As such, the Sub-fund will hold a basket of securities that are eligible for the equity ratio as this term is defined under said German tax act, and which will represent at least 94% of its net assets under normal market conditions. To ensure compliance with this ratio, the Sub-fund may adjust this basket of securities on a daily basis.

Before making an investment in this Fund or this Sub-fund, investors should seek the advice of their financial, tax and legal advisers.

PLACE AND METHOD OF NET ASSET VALUE PUBLICATION OR COMMUNICATION

At the head office of LYXOR INTERNATIONAL ASSET MANAGEMENT, at 17, cours Valmy - 92987 Paris La Défense CEDEX - France.
The Sub-fund's net asset value will be calculated and published every Trading Day.

IMPORTANT INFORMATION ABOUT THE INDEX PROVIDER

Euronext N.V. holds all property rights in relation to the Index. Euronext N.V., or any directly or indirectly held subsidiary, do not guarantee, approve or are concerned in any manner whatsoever by the issue and offer of the product. Euronext N.V., or any directly or indirectly held subsidiary, will not be held liable with regards to third parties for any inaccurate data on which the Index is based, fault, error or omission concerning the calculation or dissemination of the Index, or pertaining to its use within the framework of this issue or of this offer.

ADDITIONAL INFORMATION

The Sub-fund's shares are admitted to trading by Euroclear France S.A.
Subscription and redemption orders must be sent to the Depositary by the investor's financial intermediary.

The Sub-fund's prospectus, the Key Investor Information Document, the most recent annual documents and the asset inventory will be sent to investors within eight business days upon receipt of a written request addressed to:
LYXOR INTERNATIONAL ASSET MANAGEMENT

17, cours Valmy - 92987 Paris La Défense CEDEX – France.

E-mail: contact@lyxor.com

More information can also be requested from Lyxor International Asset Management on its website at www.lyxoretf.com.

Prospectus publication date: see the "Publication Date" section.

Pursuant to Article L.533-22-1 of the French monetary and financial code, information concerning the Management Company's possible inclusion of social, environmental and corporate governance objectives and performance criteria in its investment policy is available on the management company's website and in the Multi Units France annual report.

The AMF's website (www.amf-france.org) provides additional information on the list of regulatory documents and on all provisions relating to investor protection.

This Prospectus must be made available to investors prior to subscription.

INVESTMENT RULES

The Sub-fund will comply with the investment rules of the European Directive 2009/65/EC of 13 July 2009.

The Sub-fund may invest in the assets indicated in Article L214-20 of the French monetary and financial code, subject to the risk-diversification and investment ratio requirements of Articles R214-21 to R214-27 of said code.

Notwithstanding the 10% limit under Paragraph II of Article R214-21 of the French monetary and financial code, the Sub-fund may invest up to 20% of its assets in the equities and debt securities of a single issuer, in compliance with Article R214-22-I, which deals with index-tracking funds. Pursuant to Article R214-22 II, the Sub-fund may also increase this 20% limit for a single issuer to 35%, when this is shown to be justified by exceptional market conditions, and in particular when certain securities are largely dominant.

OVERALL RISK EXPOSURE

The commitment approach is used to calculate the overall risk exposure.

ASSET VALUATION AND ACCOUNTING RULES

A. VALUATION RULES

The Sub-fund's assets are valued in accordance with applicable laws and regulations and most notably Regulation NO. 2014-01 of 14 January 2014 of the Comité de la Réglementation Comptable (the Accounting Regulations Committee), which applies to the chart of accounts for UCITS investment funds.

Financial instruments traded on a regulated market are valued at the closing price recorded on the day prior to the calculation of the net asset value. If these financial instruments are traded on several regulated markets at the same time, the closing price used is that recorded on the regulated market on which they are principally traded.

However, in the absence of significant trading on a regulated market, the following financial instruments are valued using the following methods:

- Negotiable debt securities ("NDS") with a remaining life upon acquisition that is less than or equal to three months are valued by applying the difference between the acquisition value and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc.). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- NDS with a remaining life of more than three months upon acquisition but less than or equal to three months at the net asset value calculation date are valued by applying the difference between the most recent valuation and the redemption value on a straight-line basis over the remaining life. However, the management company reserves the right to value these securities at their current value if it deems that they are particularly exposed to market risks (interest rates, etc.). The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- NDS with a remaining life at the net asset value calculation date that exceeds three months are valued at their current value. The rate applied is that of issues of equivalent securities adjusted by the risk margin relating to the issuer.
- Financial futures traded on organised markets are valued at the clearing price on the day prior to the calculation of the net asset value. Options traded on organised markets are valued at their market price on the day prior to the calculation of the net asset value. Forward contracts and over-the-counter options are valued at the price quoted by the counterparty. The management company monitors these prices independently.
- Bank deposits are valued at their nominal value plus accrued interest.
- Warrants, short and medium-term notes (bons de caisse), promissory notes and mortgage notes are valued under the management company's responsibility at their most likely trading value.
- Securities financing transactions are valued at the market price.
- Shares and units in UCITS under French law are valued at the last known net asset value on the day the Sub-fund's net asset value is calculated.
- Shares and units in foreign investment funds are valued at the last known net asset value at the date the Sub-fund's net asset value is calculated.
- Financial instruments traded on a regulated market and for which no price has been quoted or whose price has been corrected, are valued under the management company's responsibility at their most likely trading value.
- The exchange rates used to value financial instruments denominated in a currency other than the Sub-fund's base currency are the WM / Reuters fixing rates on the day the Sub-fund's net asset value is calculated..

B. ACCOUNTING METHOD FOR TRADING EXPENSES

Trading expenses are included in the initial cost of the transaction.

C. ACCOUNTING METHOD FOR INCOME FROM FIXED-INCOME SECURITIES

Income from fixed-income securities is accounted for using the cash-basis method.

D. DISTRIBUTION POLICY

For more information see the section entitled "Calculation and Allocation of Distributable amounts"

E. ACCOUNTING CURRENCY

The Sub-fund's accounts are kept in euros.

MULTI UNITS FRANCE

ARTICLES OF ASSOCIATION OF THE MULTI UNITS FRANCE FUND A SICAV FUND COMPLIANT WITH EUROPEAN STANDARDS

NAME: MULTI UNITS FRANCE.

Legal Form = Société d'Investissement à Capital Variable (SICAV) incorporated in the form of a Société Anonyme (SA)
Head office address: Tour Societe Generale, 17 cours Valmy, 92800 Puteaux, FRANCE.
Trade and Commercial Registry: N° 441 298 163 NANTERRE.

TITLE 1

FORM, PURPOSE, NAME, REGISTERED OFFICE, DURATION

ARTICLE 1 - FORM

It is established, between the holders of the shares created below and those that will subsequently created, a *Société d'Investissement à Capital Variable* ("SICAV"), a French registered investment company with variable capital, operating under French law, established in France, that is notably governed by the provisions of the Commercial Code relative to Sociétés anonymes (Book II – Title II – Chapter V), the Monetary and Financial Code (Book II – Title 1 – Chapter IV -Section I - sub - section 1), its application texts, the subsequent texts and by the present articles of incorporation.

In compliance with article L 214-33 of the Monetary and Financial Code, the Fund consists of several Sub-funds. Each Sub-fund shall give rise to the issuance of a one or several share classes representing those assets of the Fund attributed to the respective Sub-fund.

ARTICLE 2 - PURPOSE

The purpose of this company is the establishment and management of a portfolio of financial instruments and deposits.

Within the limits of the applicable regulations, the Fund can carry out operations on regulated firm or conditional future markets (French or foreign) or over-the-counter markets in order to hedge its portfolio or to expose it to business sectors, rates, indices, equities or similar securities in order to attain its management objective and/or to have some of its Sub-funds benefit from the guarantee as defined in the prospectus mentioned in article 23 of the present articles of incorporation. These operations will be carried out up to a maximum commitment limit of one time the Fund's assets. Within this framework, the Fund can also establish positions in order to hedge the currency risk of its portfolio.

ARTICLE 3 - NAME

The Company is called: MULTI UNITS FRANCE, followed by the indication "Société d'Investissement à Capital Variable", accompanied or not by the term "SICAV".

ARTICLE 4 – REGISTERED OFFICE

The registered office is located in the Société Générale Tower, 17 cours Valmy, 92 800 Puteaux, FRANCE.

ARTICLE 5 – DURATION

The duration of the Company is 99 years as at its registration with the register of companies, except in the case of early dissolution or extension as indicated in the present articles of association.

TITLE 2

CAPITAL, CHANGES IN CAPITAL, CHARACTERISTICS OF SHARES

ARTICLE 6 – SHARE CAPITAL

The initial capital amounts to EUR 8 million (eight million euros), i.e.the equivalent of fifty-two million four hundred seventy-six thousand five hundred and sixty francs, divided into 80,000 shares, entirely paid up.

It was established exclusively by payments in cash.

Classes of shares shall be issued to represent the assets attributed to each Sub-fund. The provisions hereof applicable to shares are applicable to such categories of shares.

The shares do not grant their holders any direct right to the assets of the Sub-funds.

The shares can be grouped or divided upon proposal from the board of directors and decision by the extraordinary general assembly.

The shares can be fractioned, by decision of the board of directors, into 10ths, 100ths, 1000ths, 10,000ths, or 100,000ths, known as share fractions.

The provisions of the articles governing the issue and redemption of shares are applicable to the share fractions, the value of which will always be proportional with that of the share that they represent. All other provisions relating to shares shall apply *mutatis mutandis* to fractional shares unless otherwise provided.

An asset ceiling (in amount of assets or number of shares) can be established for certain guaranteed classified Sub-funds of the Fund, and will be indicated in the prospectus.

The shares representing the Company's capital can be full distribution shares, accumulation and/or distribution shares or full accumulation shares. Full distribution shares and accumulation and/or distribution shares Full distribution shares, accumulation and/or distribution shares entail a right to the payment of dividends according to the provisions contained in article 27 of the present articles of association. Any dividend payment will result in an increase of the ratio between the net asset value of the accumulation shares and those of the distribution shares. At any time, any shareholder can carry out an exchange between full distribution shares, accumulation and/or distribution shares or full accumulation shares and vice-versa, according to the parity P defined by the board of directors. Shareholders who would not receive, due to the exchange parity, a whole number of shares can, if they desire, pay a supplement in cash as required for the allocation of an additional share.

During these operations, the Fund shall not apply the subscription and redemption fees payable to it.

The board of directors determines the calculation conditions of the net asset values of the full distribution shares, accumulation and/or distribution shares or full accumulation shares. They are brought to the attention of the shareholders in the appendix to the annual accounts.

ARTICLE 7 – CHANGES IN CAPITAL

The capital amount is subject to change resulting from the Company's issuing of new shares and from decreases after the redemption of shares by the Company to shareholders who so request.

At all times, the capital amount is equal to the sum of the net assets of the Company's Sub-funds, including accumulated amounts, less the sum distributable within Sub-funds, in compliance with the provisions of article 27.

ARTICLE 8 – CREATION, MODIFICATION, LIQUIDATION OF A SUB-FUND – CREATION, LIQUIDATION OF SHARE CLASSES - ISSUE, REDEMPTION OF SHARES

8. 1 Creation, modification and Liquidation of a Sub-fund

The Board of Directors is the only body entitled to create, modify or liquidate a Sub-fund of the Fund.

8. 2. Creation and liquidation of share classes

The Board of Directors is the only body entitled to create or liquidate share classes.

8. 3 Issue and redemption of shares

The issue price and the redemption price are equal to the net asset value obtained by dividing the Sub-fund's net assets by the number of shares, increased or decreased by a subscription or redemption fee as indicated in the prospectus mentioned in article 23 of the present articles of association.

The board of directors sets the minimum subscription conditions (subscription units) and the redemption conditions (redemption units), which are mentioned in the prospectus.

Redemptions and subscriptions will be carried out in accordance with the terms conditions set out in the prospectus.

Any subscription of new shares must, on pain of nullity, be entirely paid up and the issued shares include usufruct on the same date as the shares existing on the day of issue.

Any redemption request must be accompanied by the deposit of the shares and share fractions, the payment of the redemption price is carried out within a maximum of five trading days following the redemption request, subject to the exceptions listed below and the provisions relating to registered shares and share fractions.

In the absence of contrary legal provisions, the disposal or transfer of shares between shareholders or benefiting a third party carried out outside of a regulated market, is considered to be a redemption followed by a subscription. When the operation involves a third party, the disposal or transfer amount must, where appropriate, be completed in cash by the beneficiary in order to attain at least the minimum subscription required by the prospectus.

In accordance with article L. 214-19 of the Monetary and Financial Code, the redemption by the Company of its shares and share fractions, as well as the issue of new shares and share fractions, can be temporarily suspended by the board of directors, when compelled by exceptional circumstances and if required in the interests of the shareholders.

When the net assets of the Fund (or where applicable a Sub-fund) fall below the amount stipulated by the regulations, no redemption of shares or share fractions can be carried out (for the relevant Sub-fund).

Pursuant to Articles L.214-7-4 of the French monetary and civil code and 411-20-1 of the AMF's General Regulations, in the event of exceptional circumstances the management company may decide to suspend redemptions when a specified limit or "cap" is reached, if it believes that this is in the best interests of shareholders or the general public.

Redemptions for a given Sub-fund may be suspended when their amount, net of subscriptions, on a given order processing date exceeds 10% of the Sub-fund's net assets. This limit is based on the Sub-fund's most recent net asset value, which the management company may estimate if necessary on the corresponding Primary Market Day.

If the management company decides to suspend redemptions, the fraction of redemption orders above the cap that is not executed will be automatically deferred and will be treated as a redemption order to be executed at the next net asset value.

Shareholders whose redemptions orders have been partially deferred may have the Depositary cancel the deferred execution of the unexecuted fraction of their orders up until the time limit indicated in the section entitled "Subscription and Redemption on the Primary Market" for the relevant Sub-fund.

The maximum number of net asset values for which the management company may cap redemptions is 20 over a period of three months.

So-called "round-trip" trades, where a shareholder or beneficial owner subscribes and redeems the same number of shares at the same net asset value, will not be subject to the cap on redemptions.

ARTICLE 9 - CALCULATION OF NET ASSET VALUE

The calculation of the share's net asset value is carried out each day (except on public holidays as defined in the prospectus mentioned in article 23 of the present articles of association), while taking into account the assessment rules stipulated below:

- The securities traded on a French or foreign regulated market are assessed at the market price. The assessment of the reference market price is made according to the provisions decreed by the board of directors. The manner in which these rules shall be applied is specified in the notes to the annual accounts.

However:

. The securities for which the price was not determined on the assessment date or for which the price has been corrected are assessed at their probable trading value under the responsibility of the board of directors. These assessments and their justification are provided to the auditor at the time of the latter's verifications.

. Securities involving debt securities and other securities that are not the subject of significant transactions are assessed by application of an actuarial method, with the adopted rate being that of the issues of equivalent securities affected, as relevant, by a difference that is representative of the intrinsic characteristics of the security's issuer. However, negotiable debt instruments with a remaining maturity of less than three months may, in the absence of special considerations, be evaluated by reference to the straight-line method. The terms of application for these rules are set by the board of directors. They are specified in the notes to the annual accounts.

- The units or shares of UCITS are assessed at the last known net asset value.

- Securities that are not traded on a regulated market are assessed at their probable trading value, under the responsibility of the board of directors.

- Securities that are the subject of temporary transfer or acquisition contracts are assessed in compliance with the applicable regulations, with the terms of application being determined by the board of directors and stipulated in the appendix to the annual accounts.

- The operations relating to firm or conditional forward financial instruments traded on French or foreign organised markets are valued at the market value according to the provisions determined by the board of directors. They are specified in the notes to the annual accounts.

- The operations relating to firm or conditional forward financial instruments traded on French or foreign organised markets are valued at the market value according to the provisions determined by the board of directors. They are specified in the notes to the annual accounts.

Moreover, an instantaneous indicative net asset value will be calculated by the market undertaking if the Sub-funds are accepted for trading and listing.

Contributions in kind may only be in the form of securities or contracts eligible as component assets of the UCITS; they are valued in accordance with the valuation rules applying to the calculation of the net asset value.

ARTICLE 10 – FORM OF THE SHARES

Shares may be in either bearer or registered form at the subscriber's option.

In accordance with article L. 211-4 of the Monetary and Financial Code and its implementation legislation, securities must be listed in accounts held, as relevant, by the issuer or an authorized intermediary.

The rights of shareholders shall be represented by an inscription in their name in a register:

- held by an intermediary of their choice, for securities held by the shareholder;
- with the issuer, and if they so desire, with the intermediary of their choice for registered shares.

In exchange for payment at its expense, the Company can request the names, nationalities and addresses of the Fund's shareholders, as well as the quantity of shares held by each of them, in accordance with article L 211-5 of the Monetary and Financial Code.

ARTICLE 11 – ADMISSION TO TRADING ON A REGULATED MARKET

The shares may be listed for trading on a regulated market in accordance with applicable regulations.

In this case, it should be noted that the Fund must implement means to ensure that its share price does not deviate from its net asset value by more than 1. 5%.

ARTICLE 12 – RIGHTS AND OBLIGATIONS ATTACHED TO THE SHARES

Each share confers a right to an interest in the ownership of corporate assets and the sharing of profits, proportional to the fraction of capital represented thereby.

The rights and obligations conferred by the share run with the security, regardless of the holder.

Whenever it is necessary to hold several shares in order to exercise a given right, and particularly in the case of exchange or grouping, the holders of single shares or of less than the necessary number of shares cannot exercise such rights unless they arrange to group their shares with others or arrange the purchase or sale of the necessary number of shares.

ARTICLE 13 - INDIVISIBILITY OF THE SHARES

All undivided holders of a share or eligible parties are required to be represented to the Company by a single person appointed by agreement between them, or, failing that, by the president of the commercial court with jurisdiction over the site of the head office.

The owners of share fractions can group together. In such a case, they must be represented in the manner set forth in the previous paragraph, i.e. by a single person who shall exercise, for each group, the rights conferred by the ownership of one whole share.

In the absence of a contrary agreement declared to the Company, the voting right belongs to the usufructuary during ordinary general meetings and to the bare owner during extraordinary general meetings.

TITLE 3

ADMINISTRATION AND MANAGEMENT OF THE COMPANY

ARTICLE 14 - ADMINISTRATION

The Company is administered by a board of directors consisting of at least three and at most eighteen members, appointed by the ordinary general meeting.

Subject to international conventions, the chairman of the board of directors and, where appropriate, the board member temporarily appointed to carry out all or parts of the chairman's duties, the delegated managing director and at least 2/3 of the board members must be French or citizens of the European Union.

During the life of the Company, the directors shall be appointed or reappointed to their offices by the ordinary general meeting of the shareholders.

The directors can be natural persons or legal entities. The latter must, at the time of their appointment, designate a permanent representative who is subject to the same conditions and obligations and who incurs the same civil and penal liabilities as though this person were a member of the board of directors in his/her own right, without prejudice to the liability of the legal person that he/she represents. His term of office as permanent representative shall have the same duration as that of the legal entity that he represents.

If the legal entity revokes the representative's mandate, it must forthwith declare this revocation to the Fund by registered mail, together with the identity of its new permanent representative. The same rule shall apply in case of death, resignation or protracted impediment of the permanent representative.

ARTICLE 15 - DURATION OF THE TERMS OF THE BOARD MEMBERS – RENEWAL OF THE BOARD

Subject to the provisions of the following paragraph, the terms of the board members shall be for three years for the first board members and a maximum of six years for the following board members, with each year consisting of the interval between two consecutive annual general meetings.

Should one or more board member position(s) become vacant between two general meetings, due to death or resignation, the board of directors can carry out one or more temporary appointment(s).

A board member appointed by the board as a temporary replacement for another member who has died, been dismissed or resigned either automatically or by request, only remains on the board for the time remaining in his/her predecessor's term.

Appointments of members by the board of directors are subject to ratification by the next ordinary general meeting. Should this ratification be refused, the deliberations undertaken and the actions carried out beforehand remain valid.

The directors may be re-elected. They may be dismissed at any time by the ordinary general meeting of the shareholders.

The term of each member of the board of directors is terminated at the end of the annual general meeting of the shareholders that voted on the accounts of the past financial year and held in the year in which the member's mandate would expire, with the understanding that, if no ordinary general meeting is held during the said year, the term of the member in question ends on 31 December of that same year, though the above is subject to the following exceptions.

Any board member can be appointed for a term that is less than six years when this is necessary in order for the renewal of the board to remain as regular as possible and within each six-year period. This shall apply, in particular, if the number of directors is increased or decreased to the point of affecting the regularity of the renewal.

Should the number of members of the board of directors fall below the legal minimum, the remaining member(s), or failing that the Auditors, must immediately call an ordinary general meeting of the shareholders in order to make up the board's size.

ARTICLE 16 - EXECUTIVE COMMITTEE

From amongst its members, for the duration that it determines but which cannot exceed that of the board member's term, the board elects a chairman who must necessarily be a natural person.

The chairman of the board of directors represents the board of directors. He organises and directs the work of the board and reports back to the general meeting. He ensures the management bodies of the company operate smoothly and ensures, in particular, that the directors are able to accomplish their duties.

If considered useful, it also appoints a deputy chairman and it can also choose a secretary that is not a member.

In case of temporary impediment or death of the chairman, the deputy chairman presides over the board meeting. Failing that, the board will appoint a meeting chairman from amongst its members.

The chairman, deputy chairman and secretary can always be re-elected.

ARTICLE 17 - BOARD MEETINGS AND DELIBERATIONS

The board of directors meets when called by the chairman, as often as required in the Company's interests, either at the head office or at any other location indicated in the meeting notice. The invitations can be made by any means.

If the board has not met for over two months, at least one third of its members can call a meeting of the board to deliberate a particular agenda.

The presence of no fewer than one-half of the members of the Board of Directors is necessary in order for deliberations to be valid. Decisions shall be taken by majority vote of the members present or represented.

By letter or telegram, a board member can give another board member a proxy to represent him/her during a board meeting. During a given board meeting, each board member can only have one proxy.

Each Director shall have one vote. In case of a tie vote, the chairman's vote shall decide.

ARTICLE 18 - MINUTES

The minutes are drawn up and the copies or extracts of the deliberations are issued and certified in accordance with the law.

ARTICLE 19 – POWERS OF THE BOARD OF DIRECTORS

The board of directors determines the company's business strategy and oversees its implementation. It examines any and all matters within the Company's object and which concern the efficient running of the business and which are not expressly decided by shareholders at shareholder meetings, and makes any and all business decisions within its remit

The board of directors has the broadest possible powers in order to act, in all circumstances, in the name of the Company; it exercises these powers within the limits of the Company's corporate purpose and subject to the powers expressly attributed by law to the meetings of the shareholders.

ARTICLE 20 – GENERAL MANAGEMENT

The general management of the Company is taken on, under his/her responsibility, either by the chairman of the board of directors or by another natural person appointed by the board of directors and bearing the title of managing director.

The choice between two ways of conducting the general management is taken subject to the conditions set by under these Articles by the board of directors for a term expiring when the term of current chairman of the board of directors expires. The shareholders and third parties will be notified of the choice in accordance with the conditions set according to the prevailing statutory and regulatory provisions.

Depending on the choice made by the board of directors in accordance with clause above, the general management will be assured, either by the chairman or by a managing director. If the board of directors chooses to separate the functions of chairman and managing director, it will appoint a managing director and fix the term of his mandate. If the chairman of the board of directors is responsible for the general management of the company, the following provisions applying to the managing director also apply to the chairman.

Subject to the powers that the law expressly attributes to the meetings of shareholders, to the powers that it specially reserves for the board of directors, and within the limits of the corporate purposes, the managing director is granted the broadest possible powers to act in the Company's name in all circumstances. He exercises these

powers within the limits of the company purpose and within the powers expressly attributed by law to the shareholders' meetings and meetings of the executive committee. He represents the Company in its relations with third parties.

The managing director can grant all partial delegations of his/her powers to any person of his/her choice.

The managing director can be dismissed by the board of directors at any time. Upon proposal from the managing director, the board of directors can appoint up to five natural persons to assist the managing director under the title deputy managing director.

This also applies to the deputy managing directors, upon proposal from the managing director. In case of death, resignation or dismissal of the managing director, the deputy managing directors retain, unless decided otherwise by the board, their duties and attributions until the appointment of a new managing director.

The deputy managing directors can be dismissed by the board of directors at any time, on the proposal of the managing director.

In agreement with the managing director, the Board determines the extent and duration of the powers delegated to the deputy managing directors.

These powers may include a right of partial delegation. In case of death, resignation or dismissal of the managing director, they retain, unless decided otherwise by the board, their duties and attributions until the appointment of a new managing director.

With regard to third parties, the deputy managing directors have the same powers as the managing director.

The managing director commits the Company even with regard to actions not included in the corporate purpose unless it can be proven that the third party knew that the action was outside of this purpose or could not have been ignorant of this in view of the circumstances, without the mere publication of the articles of association being sufficient to establish this proof.

Any limitation of the powers of the managing director by the present articles of association or by a decision of the board of directors has no effect with regard to third parties.

ARTICLE 21 - ALLOWANCES AND REMUNERATION OF THE BOARD

The general meeting can allocate to the board members, as remuneration for their efforts, a fixed annual amount in the form of director's fees, the amount of which is included in the Company's operating expenses and distributed to the board members at the board's discretion.

The remuneration of the managing director and that of the deputy managing director(s) are set by the board.

ARTICLE 22 - CUSTODIAN

The custodian, selected by the board of directors, is the following:

SOCIETE GENERALE
29, boulevard Haussmann – 75009 Paris

The custodian is responsible for the duties incumbent on it in application of the regulations in force as well as those contractually conferred on it by the financial manager by delegation or by the Fund. It must, in particular ensure the regularity of the decisions taken by the portfolio management company. It must, if necessary, take all protective measures it deems appropriate. In the event of a dispute with the management company, it shall inform l'Autorité des marchés financiers.

ARTICLE 23 - PROSPECTUS

A prospectus has been prepared in compliance with the applicable regulations.

The board of directors or, if the Fund has delegated its overall management, the management company has all powers in order to make, if necessary, any modifications to ensure the proper management of the Company, all within the framework of the legislative and regulatory provisions specific to SICAV funds.

TITLE 4

STATUTORY AUDITORS

ARTICLE 24 - APPOINTMENT - POWERS - REMUNERATION

A statutory auditor is appointed by the management company's board of directors for a term of six financial years after approval from the Autorité des Marchés Financiers.

The auditor certifies the accuracy and sincerity of the financial statements.

The auditor may be reappointed.

The auditor shall inform the Autorité des marchés financiers without delay of any fact or any decision concerning the undertaking for collective investment in transferable securities of which it became aware in carrying out its audit duties and which might:

1. constitute a breach of the legal or regulatory provisions applying to such undertaking and which could have a significant impact on the financial situation, result or assets;
2. jeopardise the conditions or continuity of operations;
3. result in the expression of qualifications or a refusal to certify the accounts

The auditor shall supervise the valuation of the assets and the determination of exchange ratios used in the event of a conversion, merger or split.

The auditor shall be responsible for reviewing all contributions in kind.

The auditor shall check the composition of the assets and other information before any publication.

The auditor's fees are determined by mutual agreement between the auditor and the Board of Directors or the managing body of the management company on the basis of a work schedule indicating all duties deemed necessary.

In the event of a liquidation, the auditor shall value the amount of the assets and establish a report on the terms and conditions of such liquidation.

The auditor certifies the financial statements serving as the basis for the payment of interim dividends.

The auditor's fees are included in the management fees.

The ordinary general meeting will designate a Replacement Auditor in order to replace the Auditor in the event of a refusal, impediment, resignation or death.

TITLE 5

GENERAL MEETINGS

ARTICLE 25 – GENERAL MEETINGS

The annual general meetings of the shareholders are convened and deliberate according to legal requirements.

The annual general meeting, which must approve the Company's accounts, must be called within four months of the end of the financial year.

Meetings shall be held at the registered office or at any such other place as may be specified in the notice of meeting.

Any shareholder can participate, either personally or by representative, in the meetings upon providing proof of identity and of ownership of shares, in any form, either by personal registration or by depositing the holder shares or deposit certificate, at the locations indicated in the meeting invitation; the time period for carrying out these formalities ends three days before the meeting date.

A shareholder may be represented as provided for under Article L225-106 of the French Code of Commerce.

Any shareholder may submit a vote by mail in the manner prescribed by the applicable regulations.

The meetings are presided over by the chairman of the board of directors or, in the latter's absence, by a deputy chairman or board member delegated for this purpose by the board. Failing that, the meeting appoints its own chairman.

The minutes are drafted and the copies or extracts of the deliberations are provided and certified in compliance with the law.

TITLE 6

ANNUAL ACCOUNTS

ARTICLE 26 – FINANCIAL YEAR

The financial year begins on the day after the last calculation date of the net asset value in October and ends on the last calculation date of the net asset value in the same month of the following year.

Exceptionally, the first financial year will begin on the creation date of the Company and will end on 31 October 2002.

ARTICLE 27 - PROCEDURES FOR ALLOCATING INCOME AND AMOUNTS AVAILABLE FOR DISTRIBUTION

The board of directors approves the net income figure for the financial year, which, in accordance with legal requirements, is equal to interest payments, arrears, premiums, dividends, directors' fees and all other income derived from the fund's securities, plus income on temporarily available sums and minus management fees and borrowing costs.

Distributable income comprise:

1° Net income plus retained earnings and plus/minus the balance of the income adjustment account;

2° Capital gains, net of fees, minus capital losses, net of fees, realised during the financial year, plus net capital gains of the same nature realised in previous financial years that were not distributed or capitalised and plus/minus the balance of the capital-gains adjustment account.

The sums mentioned in paragraphs 1° and 2° may be distributed in whole or in part, independently of each other.

For each class of shares, the Fund may propose:

Pure accumulation: distributable income are fully capitalised with the exception of those that must be distributed by law;

Pure distribution: distributable income, rounded off to the nearest whole figure, are fully distributed, with the option of interim distributions;

Accumulation and/or Distribution: each year the board of directors decides how to allocate income. In the course of the financial year, the board of directors may decide to pay out one or more instalments of distributable income that have been booked on the date of the decision. Remaining distributable income shall be reinvested.

The decisions of the board of directors pertaining to the distributable income for each financial year are subject to approval of the General Meeting of Shareholders.

Procedures for income allocation and distributable income are specified in the prospectus.

TITLE 7

EXTENSION - DISSOLUTION - LIQUIDATION

ARTICLE 28 - EXTENSION OR EARLY DISSOLUTION

At any time and for any reason whatsoever, the board of directors can propose the extension or early dissolution or liquidation of the Fund to an extraordinary general meeting.

The issuing of new shares and the redemption by the Fund of shares for shareholders so requesting ends on the publication date of the notice for the general meeting during which will be proposed the Company's early dissolution and liquidation, or upon the expiry of the Company's duration.

ARTICLE 29 - LIQUIDATION

Liquidation procedures comply with Article L 214-12 of the French Monetary and Financial Code (*Code Monétaire et Financier*).

TITLE 8

DISPUTES

ARTICLE 30 - COMPETENT COURTS - JURISDICTION

Any disputes that may arise during the life of the Company or upon its liquidation, either between the shareholders and the Company, or among the shareholders, and with regard to the affairs of the Company, are judged in compliance with the law and are subject to the jurisdiction of the courts responsible for the head office.
