

OYSTER

**An Open-ended Investment Fund (SICAV)
Luxembourg**

PROSPECTUS

Subscriptions can only be accepted once the appropriate KIID has been provided and on the basis of the current Prospectus, which is only valid if it is accompanied by a copy of the latest available annual report and a copy of the semi-annual report, if published subsequently.

November 2017

INTRODUCTION

OYSTER, the Fund, is registered on the official list of UCI in accordance with part I of the Law.

This registration may not be interpreted as a positive judgement passed by the supervisory authority on the content of the Prospectus or on the quality of the securities offered and held by the Fund. Any claim to the contrary would be unauthorized and illegal.

This Prospectus and the KIID may not be used for purposes of an offer or solicitation for sale in any countries or in any circumstances in which such an offer or solicitation is not authorized.

In particular, the Shares of the Fund have not been registered under any securities legislation of the United States of America and may not be offered for sale in the United States of America or in any of its territories or any of its possessions or regions subject to its jurisdiction.

No person may rely on any information other than that given in the Prospectus and in the documents mentioned in the latter and which can be consulted by the public.

The Board of Directors accepts responsibility for the accuracy of the information contained in the Prospectus at the publication date thereof.

The Prospectus is liable to be updated in order to take account of important changes made to the present document. Subscribers are therefore recommended to enquire of the Fund to determine whether it has published a more recent Prospectus.

Subscribers are recommended to take advice on the laws and regulations (such as those concerning taxation and exchange controls) applicable to the subscription, purchase, holding and realization of Shares in their place of origin, residence and domicile.

The Fund draws investors' attention to the fact that any investor may only fully exercise his/her investor's rights directly vis-a-vis the Fund - in particular the right to take part in general meetings of shareholders - if the investor him-/herself is listed in his/her own name in the Fund's shareholders' register. In cases in which an investor invests in the Fund through an intermediary investing in the Fund in its own name but for the investor's account, the investor may not necessarily be able to assert certain rights attached to the status of shareholder directly vis-a-vis the Fund. Investors are recommended to obtain advice about their rights.

DEFINITIONS

The following definitions apply to the entire contents of the Prospectus:

Asset-Backed Security or ABS	a share in the financial flows generated by specific claims, most of the time a pool of claims similar to one another, such as automobile loans, claims on credit cards, loans guaranteed by a piece of real estate, home loans or bank bonds;
Amended and Restated Depository Bank Agreement	the amended and restated depository bank agreement effective as of 18 March 2016 and entered into between the Fund and the Depository Bank;
Articles	the articles of incorporation of the Fund as amended from time to time;
Banking day	a Banking day in Luxembourg, it being understood that Good Friday and December 24 are not deemed to be a Banking day;
Board of Directors	the board of directors of the Fund;
Central Administration	the entity designated as such under the section 1 "Administration of the Fund";
CHF	the currency of Switzerland;
Class	two or more Share classes may be offered in a Sub-fund, the assets of which will be invested jointly according to the specific investment policy of the Sub-fund; however, a specific structure of charges, specific minimum investments, a specific distribution policy, a specific accounting currency, a special hedging policy or other special features will be able to be applied separately to each class within the Sub-fund;
Credit Default Swap or CDS	a bilateral financial agreement between two counterparties, the seller of protection and the buyer of protection, under the terms of which the buyer of protection pays a premium to the seller of protection. In return, the seller of protection promises to pay a certain amount to the buyer of protection if the reference entity, specified in the contract, turns out to be the subject of a credit event;
CRS	the Common Reporting Standard as set out in the CRS Law;
CRS Information	the information, as exhaustively set out in Annex I of the CRS Law;
CRS Law	the Luxembourg law dated 18 December 2015 concerning the automatic exchange of information relating to financial accounts in tax matters;
CSSF	the Luxembourg financial supervisory authority, the " <i>Commission de Surveillance du Secteur Financier</i> ";
Depository Bank	the entity designated as such under the section 1 "Administration of the Fund";
Director	a member of the Board of Directors of the Fund;
Distributing Class	Classes providing for the payment of one annual or more interim dividends to investors during the Financial year, as detailed under section 8 "Dividend Payment Policy";
EEA	the European Economic Area;
ESMA	the European Securities and Markets Authority;
EU	European Union;
EURO/EUR	the currency of the Member States of the EU participating in Economic and Monetary Union;

FATCA	the "Foreign Account Tax Compliance Act" provisions of the U.S. "Hiring Incentives to Restore Employment Act" promulgated in March 2010 and other regulations promulgated thereunder;
Financial year	begins on the first day of January and ends on the last day of December of each year;
Fund	OYSTER;
GBP	the currency of the United Kingdom;
Hard Closure	the event impacting either a Sub-fund or a Class as more fully described under the section 11.13.;
High Water Mark	the NAV per Share of a Class at the closing date of a the latest Financial year for which a performance fee was charged;
Invariable Characteristics	the predefined characteristics of a Class as more fully described under the section 2 "General Characteristics of the Fund";
JPY	the currency of Japan;
KIID	a Key Investor Information Document within the meaning of article 159 of the Law;
Law	the Luxembourg law of 17 December 2010 relating to undertakings for collective investment, as may be amended from time to time;
Luxembourg Register of Companies	the Luxembourg administrative authority, the <i>Registre de Commerce et des Sociétés de Luxembourg</i> ;
Management Company	the entity designated as such under the section 1 "Administration of the Fund";
Mémorial	the <i>Mémorial C, Recueil des Sociétés et Associations</i> , the Luxembourg official journal to publish documents and corporate information on companies and associations domiciled in Luxembourg. Since 1 June 2016, the Mémorial was replaced by the <i>Recueil Electronique des Sociétés et Associations</i> . The list of publications is made available on the website of the Luxembourg Register of Companies, www.rcsl.lu ;
Mortgage-Backed Security (MBS)	securities with an identical flow that represent shares in pools of mortgage loans to which are transferred repayments of capital and interest payments made monthly by individual borrowers on the mortgage loans underlying the securities;
N/A	non applicable;
Net asset value or NAV	value of the net assets of a given Class/a given Sub-fund, calculated by deducting from the total value of its assets an amount equal to all its liabilities; The NAV per Share consequently corresponds to the NAV then divided by the total number of Shares of the Class/Sub-fund outstanding at the given Valuation date;
NFE	a non-financial entity for the purpose of the CRS;
Nominee	an institution which purchases and holds Shares in its own name and on behalf of an investor;
OECD	Organisation for Economic Cooperation and Development;
OECD Member State	the countries that have signed the Convention on the Organisation for Economic Cooperation and Development, as indicated on the OECD website www.oecd.org ;
Outperformance High Water Mark	has the meaning ascribed to it under section 9.2.3., <i>id est</i> the latest historical outperformance record of a given Class compared with its associated hurdle rate or benchmark index as appropriate, in respect of which outperformance a performance fee was charged;

Partner characteristic	the relevant Variable Characteristic as described below in more details under section 2.3 “The different Classes”;
PEA	the French “ <i>Plan d’épargne en actions</i> ” pursuant to the section 6, article L221-30 of the French monetary and financial Code, providing, under specific conditions, for tax exemption of investments made in European domiciled companies;
PIR	the Italian “ <i>Piani individuali di risparmio a lungo termine</i> ” as introduced by the Italian Law n. 232 dated 11 December 2016 on the State forecast budget for the 2017 financial year and multi-annual budget for the 2017-2019 triennium; In order to be PIR compliant, a Sub-fund must comply with the additional investment restrictions as described under the section 13;
Prospectus	the current prospectus as approved by the CSSF;
Redemption price	Net asset value per Share of the Class concerned on the Transaction date and calculated on a given Valuation date, after deduction, if applicable, of a redemption fee or other expenses;
Registered Office	the registered office of the Fund, as indicated as such under the section 1 “Administration of the Fund”;
Regulated Market	a multilateral system operated and/or managed by a market operator, which brings together or facilitates the bringing together of multiple third-party buying and selling interests in financial instruments pursuant to the Directive 2014/65/EU on markets in financial instruments and as published in the Official Journal of the EU or on its official website;
Repo/Reverse Repo	securities repurchase/reverse repurchase transaction as defined by section I.C. of CSSF Circular 08/356;
Reportable Persons	for the purpose of CRS, a person of a jurisdiction subject to declaration other than: i) a company whose shares are regularly traded on one or more regulated stock markets, ii) a company which is an entity related to a company described in i); iii) a public entity; iv) an international organization; v) a central bank; or vi) financial institution;
RESA	the Luxembourg <i>Recueil Electronique des Sociétés et Associations</i> available from the website of the Luxembourg Register of Companies, www.rcsl.lu ;
Sale with a right of repurchase	a sale transaction involving a right of repurchase as defined by section I.B. of CSSF Circular 08/356;
Saving Scheme	a general program designed to encourage savings through small but regular deposits or automatic deductions from salaries or wages;
Securities Lending	the operation whereby securities are transferred temporarily to approved borrowers in exchange for collateral. These operations are usually conducted by participation to a program of securities lending conducted by one or more Fund’s agent(s) acting on behalf of the Fund;
Securities Lending Agent	the Fund’s agent conducting securities lending transactions on behalf of the Fund designated as such under the section 15.2.3. “Securities Lending and Borrowing operations”;
SEK	the currency of Sweden;
SGD	the currency of Singapore;
Share	a share of each Class within each Sub-fund in the capital of the Fund;

Soft Closure	the event impacting either a Sub-fund or a Share Class as more fully described under the section 11.13.;
Standard	Standard for Automatic Exchange of Financial Account Information in Tax matters published on 21 July 2014 by the OECD;
Sub-fund	a portfolio of assets of the Fund invested on the basis of a particular investment policy;
Sub-distributor	the Management Company's direct or indirect agent marketing the Shares;
Subscription price	Net asset value per Share of the Class concerned on the Transaction date and calculated on a given Valuation date plus a sales commission, if applicable, or other expenses;
SYZ Group	all subsidiaries and affiliates, including their branches of the Management Company;
Total Return Swap (TRS)	a swap agreement whereby a party (the total return receiver) makes payments based on a set rate, either fixed or variable, while the other party makes payments based on the return of an underlying asset, which includes both the income it generates and any capital gains. Total Return Swaps entered into by a Sub-fund may be in the form of funded and/or unfunded swaps. An unfunded swap is a swap where no upfront payment is made by the total return receiver at inception. A funded swap is a swap where the total return receiver pays an upfront amount in return for the total return of the reference asset. Funded swaps tend to be costlier due to the upfront payment requirement;
Transaction date	<p>date on which the Net asset value per Share of a Class and/or, as applicable, of a Sub-fund of the Fund is applied, that is, the day for which the Net asset value is determined and Share subscription, switching and redemption applications are taken into consideration, as defined for each of the Sub-funds in the annex to the Prospectus.</p> <p>A list of expected non-Transaction dates of the ongoing Financial year and in relation to the Shares of each Sub-fund is available from the Management Company on request and will be available on the Website;</p>
Transfer Agent and Registrar	the entity designated as such under the section 1 "Administration of the Fund";
UCI or other UCI	an undertaking for collective investment within the meaning of article 1, paragraph (2), point a) and b) of the UCITS Directive;
UCITS	an undertaking for collective investment in transferable securities authorised according to the UCITS Directive;
UCITS Directive	the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009, as amended;
US Person	any person considered as such by the authorities and the regulations of the United States of America and in particular any national, citizen or resident of the United States of America or of one of the territories or possessions or regions under their jurisdiction, or any persons normally resident there (including the succession of any persons, corporations or partnerships established or organized in that country) and any national of the United States of America who would come within the scope of FATCA;
USD (= base currency)	the currency of the United States of America;
Valuation date	day on which the Net asset value per Share of a Class and/or, as applicable, of a Sub-fund of the Fund is calculated, it being understood that the Board of Directors may decide to have the Net asset values calculated and published more frequently or on additional dates, as described in greater detail in section 11.8.1. "Determination of the Net asset value" of the Prospectus;

Unless otherwise specified within the annex to the Prospectus for a given Sub-fund, the Valuation date will be every Banking day following a Transaction date (D + 1). The Net asset value will however not be calculated for the Shares of a particular Sub-fund

- (i) on a day on which the prices of the majority of the assets relating to this Sub-fund are not available owing to closure of the players of the markets in which said assets are invested, in accordance with the section 11.8.2.,
- (ii) on a day which is not a Transaction date, and
- (iii) on December 24;

Variable Characteristics

the additional characteristics of a Class as more fully described under the section 2 “General Characteristics of the Fund”;

VAT

the value added tax;

Website

the Internet site reachable at www.syzassetmanagement.com;

144A Securities

securities that come within the scope of rule 144A of the 1933 “Securities Act” of the United States of America, as amended.

1. ADMINISTRATION OF THE FUND

The Fund has been established at the initiative of the SYZ banking group.

1.1 Board of Directors

Chairman:	Mrs. Katia COUDRAY CORNU, Chief Executive Officer, SYZ Asset Management (Switzerland) Ltd, Geneva
Directors:	Mr. Massimo Paolo GENTILI, Partner, Gentili & Partners, Luxembourg
	Mr. Claude KREMER, Partner, Arendt & Medernach S.A., Luxembourg
	Mr. Alexandre PIERRON, Senior Executive, SYZ Asset Management (Luxembourg) S.A., Luxembourg

The Directors shall make the efforts required to achieve the Fund's objectives; however, they cannot guarantee the extent to which the investment objectives will be achieved.

1.2 Administration and Management

Registered Office	11/13, boulevard de la Foire, L-1528 Luxembourg
Management Company	SYZ Asset Management (Luxembourg) S.A. 54, rue Charles Martel, L-2134 Luxembourg
Depository Bank	RBC Investor Services Bank S.A. 14, Porte de France, L-4360 Esch-sur-Alzette
Central Administration	RBC Investor Services Bank S.A. 14, Porte de France, L-4360 Esch-sur-Alzette
Transfer Agent and Registrar	RBC Investor Services Bank S.A. 14, Porte de France, L-4360 Esch-sur-Alzette
Approved Independent Auditor	PricewaterhouseCoopers (PwC), Société coopérative 2, rue Gerhard Mercator, L-2182 Luxembourg
Legal Adviser under Luxembourg law	Arendt & Medernach S.A. 41A, avenue J. F. Kennedy, L-2082 Luxembourg

2. GENERAL CHARACTERISTICS OF THE FUND

2.1 Structure

The Fund was incorporated for an unspecified period of time on August 2, 1996 under the laws of the Grand-Duchy of Luxembourg as a *société anonyme* and qualifies as a *société d'investissement à capital variable* under the Law.

The Fund is registered on the official lists of UCITS pursuant to the provisions of part I of the Law, and therefore qualifies as UCITS under the UCITS Directive.

The Articles were published in the Mémorial dated August 30, 1996 and were last amended on August 22, 2012, as published in the Mémorial on September 18, 2012.

The Fund is enrolled in the Luxembourg Register of Companies under the number B-55740.

The Registered Office is located in Luxembourg.

The capital of the Fund is at all times equal to the value of its net assets and is represented by fully paid-up Shares issued without any indication of face value. Capital changes may be made by right and without observing the requirements relating to notice and recording in the register of shareholders of commercial companies laid down for capital increases and reductions in public limited companies. Its minimum capital is the equivalent in USD of EUR 1,250,000.

The Fund is established as a fund with multiple sub-funds, each representing a body of specific assets and liabilities and each corresponding to a separate investment policy. The Fund constitutes a single legal entity. However, it is pointed out that in the shareholders' dealings with each other, each Sub-fund is considered to be a separate entity constituting a separate pool of assets with its own objectives and represented by one or more separate Class(es). In addition, each Sub-fund will be solely responsible for the liabilities assigned to it in dealings with third parties, and in particular in dealings with the Fund's creditors.

The multiple Sub-funds structure offers investors the advantage of being able to choose between different Sub-funds, but also of being able to switch from one Sub-fund to another.

The Board of Directors, respectively the Management Company, are authorized to issue, within each Sub-fund, one or more Classes, the assets of which will be invested jointly according to the specific investment policy of the Sub-fund but in which a specific structure of charges, specific minimum investments, a specific distribution policy, a specific accounting currency, a special hedging policy or other special features will be able to be applied separately to each Class.

The Fund has appointed SYZ Asset Management (Luxembourg) S.A. to act as its Management Company.

2.2 The different Sub-funds

The different Sub-funds of the Fund and their characteristics are described in the annex to the Prospectus.

The Sub-funds' assets consist of eligible financial assets as defined in the section "Investment restrictions", that is, of transferable securities, money-market instruments, units of UCITS and/or of UCIs, bank deposits and derivative financial instruments.

Following the initial subscription period, Shares in these Sub-funds will be offered for sale according to the terms and conditions laid down in the Prospectus. The Fund reserves the right to cancel this initial offer. In this case the Prospectus shall be duly amended.

The Sub-funds will hereinafter be referred to by the second part of their name, that is, without making reference to the name of the "OYSTER" Fund.

The Board of Directors may create other Sub-funds whose investment policy and characteristics will be communicated in due course by updating the Prospectus, as deemed advisable by the Board of Directors.

The Board of Directors defines the investment policy of each Sub-fund, as developed below, and is responsible for executing this policy.

2.3 The different Classes

Each Sub-fund may issue one or several Classes.

The Board of Directors, respectively the Management Company, may decide to launch new Classes by adding one or more Variable Characteristics to predefine type of Invariable Characteristics of the Classes, in accordance with the tables hereafter.

The Board of Directors, respectively the Management Company, may also launch several Classes of the same type for a given Sub-fund. In that case, the next Class will have in its name a number directly following its characteristics, such number starting at “2” to differentiate it from the previous Class.

As a consequence, the Fund might issue for example in a given Sub-fund an “I M EUR” Class, being a Class for (1) institutional investors reserved to (2) clients of certain distributors which provide nominee services to investors and for certain investors, at the Management Company’s discretion and (3) denominated in Euros. The Fund might also thereafter decide to issue for the same Sub-fund another Class of the same type which will be then named an “I M EUR 2” Class, by adding a “2” in its name.

Invariable characteristics of the Classes:

Each type of Class has some characteristics as defined hereafter that must be put in place when launched. By opposition, in the next section are defined the particulars that the Board of Directors, respectively the Management Company, may decide to introduce for a specific Class.

Type of Class	Eligible investors	Minimum...			Management Fee ⁴
		...initial subscription per Sub-fund	...holding per Sub-fund ^{2,3}	...subsequent subscription ²	
C	Available to any type of investors.	N/A	N/A	N/A	Yes
N	Available to any type of investors (no sales commission but higher management fee).	N/A	N/A	N/A	Yes
R	Available to (A) financial intermediaries to whom EU regulations are applicable, who subscribe to this share class on behalf of their clients and (1) who, according to regulatory requirements applicable in their home country, are not allowed to accept and keep trailer commissions (this will include financial intermediaries providing discretionary portfolio management or investment advice on an independent basis), or (2) who render non independent advice and who, according to individual fee arrangements with their clients, are not allowed to accept and keep trailer commissions; (B) financial intermediaries to whom EU regulations are not applicable, who subscribe to this share class on behalf of their clients and (1) who, according to regulatory requirements applicable in their home country, are not allowed to accept and keep trailer commissions, or (2) who, according to individual fee arrangements with their clients, are not allowed to accept and keep trailer commissions.	N/A	N/A	N/A	Yes
I	Institutional investors ¹ .	EUR 1.000.000 USD 1.000.000 CHF 1.000.000 JPY 100.000.000 GBP 1.000.000 SEK 10.000.000 SGD 1.000.000	N/A	N/A	Yes
Z	Institutional investors ¹ with specific remuneration contract with the Management Company / another entity of the SYZ Group.	N/A	N/A	N/A	N/A

¹ Institutional investors as defined for the purposes of the Law and by the administrative practice of the CSSF. The eligibility of these investors must be proved by the investors concerned, who will in particular have to complete a specific subscription form and provide proof of their status of institutional investor.

² Amount to be converted into the currency of the concerned Class when applicable.

³ The Fund reserves the right, at any time, to redeem all Shares of any investor whose aggregated holdings in one or various Sub-Funds are that low that the maintenance costs exposed are disproportionate compared to such aggregate holdings. The aggregated amount of holdings in one or various Sub-Funds by any one investor shall be of at least USD 100 (or equivalent amounts in alternative currencies), or such a higher amount if provided by the Invariable Characteristic of the relevant Class(es).

⁴ Please refer to the annex of the concerned Sub-fund for the maximum rate per year of management fee effectively applicable.

Investors of certain Classes will have to comply with the minimum initial subscription requirements, in respect of the corresponding Sub-fund. The Board of Directors, respectively the Management Company, also reserves the right to accept subscriptions lower than the above-mentioned minimum amounts for subscription, subject to compliance with the principle of equal treatment between shareholders of the Fund.

Variable characteristics of the Classes:

The Board of Directors, respectively the Management Company, may add one or more Variable Characteristics to the Invariable Characteristics of the Class, by following the table hereafter in its order from the top to the bottom of the table.

Type of Class	C		N		R		I		Z	
	Yes	No								
Partner characteristic¹	M / S	-	M / S	-	M / S	-	M / S	-	M / S	-
Currency Code	EUR / USD / CHF / JPY / GBP / SEK / SGD		EUR / USD / CHF / JPY / GBP / SEK / SGD		EUR / USD / CHF / JPY / GBP / SEK / SGD		EUR / USD / CHF / JPY / GBP / SEK / SGD		EUR / USD / CHF / JPY / GBP / SEK / SGD	
Dividend distribution² (D)	Yes	No								
	D	-	D	-	D	-	D	-	D	-
Hedging of FX (HA³ or HP⁴)	Yes	No								
	HA HP	-								
Hedging of duration⁵ (HD)	Yes	No								
	HD	-								
Performance Fee (PR⁶ or PF⁷)	Yes	No								
	PF PR	-								

¹ Partner characteristic:

If a Partner characteristic is applied, this is in the form of either M or S.

If applicable, the name of the Class will include the letter “M” or “S” just after the relevant type of Class code.

The consequences could be a decrease in proportion of the fees for as long as the Share Class is in existence.

Share Classes with the “M” Characteristic are available to clients of certain distributors which provide nominee services to investors and for certain investors, who have entered, at the Management Company’s discretion, into a specific agreement with the Management Company.

Share Classes with the “S” Characteristic are available to investors willing to actively support the growth in assets under management of a given Sub-fund, provided that such investors fulfil specific conditions, which, together with the consequences of the said support, will be detailed on the Website. These conditions will typically consist in:

- a limited timeframe to subscribe in the Share Class having a seeding characteristic;
- a limit in the size of the Share Class of the relevant Sub-fund.

Once the growth target is reached, such Share Class with the “S” Characteristic will typically be the subject of a Hard Closure, unless otherwise specified on the Website.

Under no circumstances, a Partner characteristic can derogate to the Invariable Characteristics of a Class to which it is inherent.

Partner characteristics are exclusive one from each other.

² Dividend distribution:

For certain Sub-funds there may be Classes with one annual dividend only and/or Classes with one or more interim dividends. If applicable, the name of the Class will include the letter “D” just after the relevant type of Currency Code. Please refer to Section 8 “Dividend Payment Policy” for additional information.

Hedging of foreign exchange (FX):

Two different types of FX hedging may be applied as follows.

³ Active hedging (HA): the sub-manager will be able to decide at its discretion whether or not to hedge all or part of the positions in the portfolio against the currency of a given Class, according to its market analysis. It is however pointed out that it cannot be guaranteed these Classes will fully hedge the risk they refer to.

⁴ Passive hedging (HP): In this scenario, Classes with exchange-rate risk are systematically hedged against the currency in which the assets of the Sub-fund are denominated or in which the Sub-fund is denominated. It is however pointed out that it cannot be guaranteed these Classes will fully hedge the risk they refer to.

A list of Share Classes in issue with either an HA or an HP Variable Characteristic is made available on the Website.

⁵ Hedging of duration:

The fluctuation risk related to interest rates, as measured by the portfolio’s duration, is aimed to be mitigated by a hedging strategy implemented by using derivative instruments. It will be systematic hedging. It is however pointed out that it cannot be guaranteed that these Classes will fully hedge the risk they refer to. If applicable, the name of the Class will end with the letters “HD”.

For further information relating to the functioning of the “HD” Classes, please refer to the section 15 “Financial techniques and instruments”.

A list of Share Classes in issue with an HD Variable Characteristic is made available on the Website.

In accordance with the ESMA’s Opinion ESMA34-43-296 dated 30 January 2017 on “Share classes of UCITS”, the Share Classes with an HD Variable Characteristic have been subject to a Soft-Closure since 30 July 2017. Existing investors at that date, that choose to remain invested in these Share Classes will be able to top-up their investment and reinvest dividends, if any, until 30 July 2018, on which date these Share Classes will be eventually subject to a Hard Closure (no further subsequent subscription will be allowed).

Performance Fee:

Two different types of performance fee may be applied as follows.

⁶ PR refers to Classes with relative performance fee, i.e. compared to a benchmark.

⁷ PF refers to Classes with other applicable performance fee methods.

There are various ways on how performance fees can be calculated and charged. Please refer to Section 9.2 “Management Fees” for additional information.

Additional information:

In addition to the above, Share Classes P can also be created, using the same variable characteristics of a Class.

The Share Classes P are reserved for institutional investors which are members of the SYZ Group. Their maximum applicable management fee is 1.50% and they do not have any minimum initial or subsequent investment requirements, nor do they have a minimum holding requirement.

It should be noted that any entity of the SYZ Group is eligible to invest for its own account in all the Classes offered by the Fund for operational reasons when the existence of the Classes is jeopardized by excessive Share redemptions or by way of priming capital.

List of available Classes:

The list of available Classes per Sub-fund is disclosed in the annual and semi-annual reports, on the Website, and can be obtained at the Registered Office, the registered office of the Management Company or from local representatives of the Fund. The list of available Classes may also differ from one country to another. Any Class may be listed on the Luxembourg Stock Exchange at the discretion of the Fund.

3. SHARES

Shares are issued solely as registered shares.

The register of shareholders is kept in Luxembourg.

Shareholders will be entered by name in the register kept for this purpose by the Transfer Agent and Registrar on behalf of the Fund and no certificate representing their Shares will be issued unless they expressly request one. The Fund shall issue a confirmation of enrolment in the register in lieu of a certificate.

The Shares must be fully paid-up and are issued without any indication of face value.

The Shares can be divided into one thousandth of one Share.

Their issue is not limited in number.

The rights attached to the Shares are those stated in the law of August 10, 1915 on commercial companies, as amended, provided that no derogation is allowed by Law. The Shares have an equal voting right, whatever the Sub-fund and the Class to which they belong; they entitle the holder to the proceeds of liquidation of the Fund in proportion to their Net asset value.

Any amendment to the Articles that entails a change in the rights of a Sub-fund or a Class must be approved by a decision of the general meeting of the Fund or by that of the shareholders of the Sub-fund or Class concerned, as applicable.

4. ISSUE OF SHARES AND SUBSCRIPTION AND PAYMENT PROCEDURE

The Board of Directors, respectively the Management Company, shall be authorized to issue Shares at any time and without limitation.

Preliminarily, in compliance with the Luxembourg law on the fight against money laundering and financing of terrorism, the Fund shall not accept payment and shall not pay any sum in connection with the subscription, switching and redemption of Shares to third parties other than the shareholders enrolled in the register and authorized to receive or make said payment.

4.1. General points

The Shares of each Sub-fund are issued at a price corresponding to the Net asset value per Share, plus a sales commission subject to the maximum rates laid down hereafter. The sales commission is payable to the Management Company, which may retrocede all or part of this commission to the sub-distributors.

Maximum applicable percentage of sales commission per type of Class:

Type of Class	C	N	P	R	I	Z
Subscription fee (Max.)	2% for equity funds and mixed funds / 1% for bond funds	N/A	2% for equity funds and mixed funds / 1% for bond funds	2% for equity funds and mixed funds / 1% for bond funds	2% for equity funds and mixed funds / 1% for bond funds	2% for equity funds and mixed funds / 1% for bond funds

In addition, investment expenses, for the sole benefit of the Sub-fund, may also be charged up to a maximum of 1% of the Net asset value per Share at the discretion of the Board of Directors, respectively the Management Company.

Investors' attention is drawn to the fact that, in some countries, additional expenses concerning the functions and services of local paying agents, correspondent banks or other similar entities may be invoiced to them.

4.2. Procedure

Subscription applications are to be addressed to the Fund or directly to the Transfer Agent and Registrar.

The KIID relating to the Shares to which investors wish to subscribe shall be provided to them before they make their subscription. The KIID is made available to investors free of charge, in particular at the registered office of the Management Company, on the Website and/or on the local websites of www.morningstar.com. Investors must read the KIID before investing. They may be asked to confirm receipt of the latest version of the KIID prior to any investment.

Subscription applications will be processed, if they are accepted, on the basis of the Net asset value of the Transaction date calculated on the next Valuation date provided that the applications are received by the Fund or by the Transfer Agent and Registrar before the cut-off time of the Sub-fund concerned. Applications notified after the cut-off time, as defined for each Sub-fund in the annex to the Prospectus in the "Submission of orders" section, will be deemed to have been received on the following Transaction date.

Subscriptions are made at an unknown Net asset value for all the Sub-funds.

The Subscription price of each Share is payable within the cut-off time specified for each Sub-fund in the annex to the Prospectus in the "Submission of orders" section. The Fund may offer investors the option of settling their subscription in several payments staggered over time, according to the provisions of section 4.3 below. The Subscription price is, in principle, payable in the accounting currency of the chosen Sub-fund or Class, unless other provisions are made in the annex to the Prospectus for one or more Class(es) in a Sub-fund.

The Subscription price is payable in cash or by a contribution in kind of transferable securities and other eligible assets. Contributions in kind can be accepted in accordance with the provisions of Luxembourg law, in particular the obligation for the approved auditor of the Fund to draw up a special valuation report, and provided that the transferable securities and other eligible assets are compatible with the investment objectives, policies and restrictions of the Sub-fund concerned.

The Fund reserves the right to:

- a) reject all or part of a Share subscription application;

- b) redeem at any time the Shares held by persons who are not authorized to purchase or hold Shares of the Fund or do not comply any longer with any one of the characteristics of a Class, whether these are Invariable Characteristics or Variable Characteristics;
- c) redeem at any time the Shares held by any investor whose aggregated holdings in one or various Sub-Funds are that low that the maintenance costs exposed are disproportionate compared to such aggregate holdings, as this is detailed in the section 2.3 "The different Classes".

The Fund will in particular have power to limit or prohibit the ownership of its Shares by any US Person.

The Fund shall also have power to limit or prevent the holding of its Shares by any person who would not provide the Fund with enough information for it to comply with the applicable legal and regulatory provisions (FATCA and others) or by any person who would be deemed capable of causing a potential financial risk to the Fund and/or its investors.

In addition, the Fund shall have power to limit or prevent the holding of its Shares by any natural person or legal entity if said person or entity holds directly or indirectly, without prior permission from the Board of Directors, 10% or more of the Shares of a Sub-fund and if, in the opinion of the Board of Directors, such a holding may damage the Fund's interests or may lead to a breach of a Luxembourg or foreign law or regulation, or if the result thereof would be that the Fund would be subject to tax disadvantages or other financial disadvantages which it would not otherwise have sustained.

4.3. Savings Scheme

The Board of Directors may propose Saving Scheme to investors via the distribution networks of the countries in which the Fund is marketed. The modalities will be described in the sales documents available in each of these countries. Nevertheless, investors will in any event only be able to subscribe via a Saving Scheme if their distributor offers this mode of investment.

The amounts to be invested can be paid by means of individual payments made to a Saving Scheme which allows investors to stagger the investment in the Fund according to the criteria chosen by the investor. In particular, when subscribing, the investor must indicate the total value of the subscription, the number of individual payments to the Saving Scheme, the amount of each payment and the frequency thereof.

Investors participating in the Saving Scheme may suspend their participation in it at any time, or terminate it provided that they comply with the modalities described in the sales documents available in each of the countries concerned.

In addition, investors retain the possibility of making direct subscriptions to the Fund and the amounts to be invested in the Fund can be paid in a single instalment according to the modalities set out in section 4.2. above.

4.4. General explanation of FATCA and power to request information

In general, the FATCA provisions require a declaration to be made to the U.S. authorities at the U.S. Internal Revenue Service (IRS) detailing the Nationals of the United States of America who directly or indirectly own bank accounts or shares abroad (i.e. outside of the United States). Failing this declaration, a 30% withholding tax at source may be applied to certain items of income originating in the United States of America (including dividends and interest) and to the gross proceeds from sales of real estate which can generate interest or dividends of U.S. source.

The general terms of the FATCA regulation describe the Fund for the moment as a "Financial Institution" which, in order to comply with this regulation, must be able to ask its investors to provide proof of their tax domicile and any other information necessary to comply with this regulation.

The Grand Duchy of Luxembourg and the United States of America signed an intergovernmental agreement on March 28, 2014 in order to facilitate the process of rendering compliant entities such as the Fund in particular.

Without prejudice to any provision to the contrary in the Prospectus and to the extent permitted by Luxembourg law, the Fund may, in connection with FATCA:

- deduct any tax, expense or charge which it is legally bound to withhold, by law or for other reasons, in connection with any shareholding in the Fund and all expenses and charges directly or indirectly borne in order to comply with FATCA (including advisory and procedural expenses);
- request any shareholder or beneficial owner of the Fund to provide it promptly with any personal data requested discretionally by the Fund in order to comply with the applicable laws and regulations and/or to determine promptly the amount to be withheld;
- disclose any personal information to any tax or regulatory authority when the applicable law or the authority concerned so requires;
- withhold payment of dividends or the Redemption price due to a shareholder until sufficient information is obtained to allow it to determine the correct amount to be withheld.

5. REDEMPTION OF SHARES

5.1. General points

Any shareholder is entitled, at any time and without limitation, unless otherwise specified, to have his/her Shares redeemed by the Fund. The Shares redeemed by the Fund will be cancelled.

5.2. Redemption procedure

Redemption applications must be sent in writing, by telex or fax to the Fund care of the Transfer Agent and Registrar. The application must be irrevocable (subject to the provisions of section 11.8.2. "Suspension of calculation of the Net asset value and of the issue, redemption and switching of Shares") and must indicate the number, Sub-fund and Share Classes to be repurchased, and all the references needed to complete the settlement of the redemption.

The application must be accompanied by the certificates representing the Shares to be repurchased (if such certificates have been issued), by the name under which they are registered and by any documents attesting to a transfer.

Redemption applications will be processed, if they are accepted, on the basis of the Net asset value of the Transaction date calculated on the next Valuation date provided that the applications are received by the Fund or by the Transfer Agent and Registrar before the cut-off time of the Sub-fund concerned, as indicated in the annex for each Sub-fund in the section "Submission of orders".

Applications notified after this time-limit will be deemed to have been received on the following Transaction date.

Consequently, redemptions are made at an unknown Net asset value for all the Sub-funds.

A redemption fee expressed as a maximum percentage of the Net asset value per Share of each Class of the Fund, subject to the maximum rates laid down hereafter, as applicable, will be levied in favour of the Management Company, which may retrocede all or part of this fee to the sub-distributors.

Maximum applicable percentage of redemption fee per type of Class:

Type of Class	C	N	P	R	I	Z
Redemption fee (Max.)	1%	1%	1%	1%	1%	1%

Investors' attention is drawn to the fact that in some countries, additional expenses concerning the functions and services of local paying agents, correspondent banks or other similar entities may be invoiced to them.

Disinvestment expenses may also be charged in favour of a Sub-fund at the discretion of the Board of Directors, respectively the Management Company, at the maximum rate of 1% of the Net asset value per Share. Redemption fees and disinvestment expenses will be deducted from the Redemption price.

Furthermore, if the redemption applications (including the outgoing switching applications) received by the Fund or the Transfer Agent and Registrar for a given Transaction date exceed 10% of the Shares outstanding in a given Sub-fund, or in the case of the multi-Class Sub-funds, 10% of the Shares outstanding in a given Class, the Board of Directors, respectively the Management Company, may decide that the redemption of all or part of these Shares will be deferred until the next Transaction date. On that date these redemption applications will be processed with priority over applications submitted after this Transaction date; however, they will be processed after the previously-submitted applications that had been deferred and may therefore, if these priority applications exceed 10% of the Shares of the Sub-fund or Class concerned, be deferred again and as many times as necessary until the next applicable Transaction date.

5.3 Payments

Payment of the Redemption price of the Shares will be made in the accounting currency of the relevant Sub-fund/Share Classes, within the time-limit specified for each Sub-fund in the annex in the "Submission of orders" section, provided however that all the documents attesting to the redemption have been received by the Transfer Agent and Registrar.

The Redemption price is, in principle, payable in the accounting currency of the chosen Sub-fund or Class, unless other provisions are made in the annex to the Prospectus for one or more Class(es) in a Sub-fund.

The Redemption price of the Shares of the Fund may be higher or lower than the purchase price paid by the shareholder at the time of subscription, depending on whether the Net asset value has appreciated or depreciated.

6. SWITCHING OF SHARES

6.1. General points

Any shareholder may request the switching of all or part of his/her Shares to Shares of any Class of any Sub-fund, provided that said Shareholder complies with the Invariable Characteristics and the Variable Characteristics of said Class.

Furthermore, if the switching applications received by the Fund or the Transfer Agent and Registrar for a given Transaction date exceed 10% of the Shares outstanding in a given Sub-fund, or in the case of the multi-Class Sub-funds, 10% of the Shares outstanding in a given Class, the Board of Directors, respectively the Management Company, may decide that the switching of all or part of these Shares will be deferred for a period and on the terms determined by the Board of Directors, respectively the Management Company, having regard to the interests of the Fund. These switching applications will be processed on the basis of the Net asset value of the Shares concerned, as determined at the first Transaction date following this period and will enjoy priority over applications submitted subsequently.

6.2. Procedure

Applications must be sent in writing, by telex or fax to the Fund or directly to the Transfer Agent and Registrar and must indicate the number of Shares concerned, the Sub-fund and the Share Classes concerned.

The switching application must be accompanied by the certificates representing the Shares to be switched (if such certificates have been issued), the name under which they are registered and by any documents proving a transfer.

The KIID relating to the Shares which investors wish to acquire via a switch of their existing Shares shall be provided to them before the switch. The KIID is made available to investors free of charge, in particular at the registered office of the Management Company, on the Website and/or on the local websites of www.morningstar.com. Investors must read the KIID before investing. They may be asked to confirm receipt of the latest version of the KIID prior to any switch.

A switching fee expressed as a percentage of the Net asset value per Share of each Class may, subject to the maximum rates laid down hereafter, be levied in favour of the Management Company, which may retrocede all or part of this fee to the sub-distributors.

Maximum applicable percentage of switching fee per type of Class:

Type of Class	C	N	P	R	I	Z
Switching fee (Max.)	1%	1%	1%	1%	1%	1%

Investment and disinvestment expenses may also be charged in favour of a Sub-fund at the maximum rates provided for here above in sections 4.1 and 5.2; they will be borne by the investor.

The switching of Shares to Shares of any Class of any Sub-fund charging a higher sales commission shall give rise to payment of the difference between the sales commissions. No redemption fee shall be charged, however, when Shares are switched.

Without prejudice to a suspension of the calculation of the Net asset value, switching applications will be processed, if they are accepted, at a rate calculated with reference to the Net asset value of the Transaction date D calculated on the next Valuation date provided that the applications are received by the Fund or by the Transfer Agent and Registrar before the cut-off time of the Sub-funds concerned, as indicated in the annex for each Sub-fund in the "Submission of orders" section. In the event of a difference between the cut-off time of the original Sub-fund and that of the new Sub-fund, the switching application must be received before the earlier of the two cut-off times.

Applications for switching between Sub-funds having a different cut-off time for receiving orders or whose Net asset value is calculated at a different frequency will be processed, subject to the above and to any notice periods to be observed, on the basis of the Net asset value of the next joint Transaction date. Until that date the shareholders shall consequently remain invested in their current Sub-fund and shall bear the related risks.

Consequently, switches are made at an unknown Net asset value for all the Sub-funds.

Switches between Sub-funds having no common usual Transaction date are not allowed.

The rate at which some or all of the Shares in a given Sub-fund/Class (the "original Sub-fund/Class") are switched to Shares of another Sub-fund/Class (the "new Sub-fund/Class") shall be determined strictly according to the following formula:

$$A = \frac{B \times (C-F) \times E}{D}$$

where:

- A is the number of Shares of the new Sub-fund/Class to be allocated;
- B is the number of Shares of the original Sub-fund to be converted;
- C is the Net asset value per Share of the original Sub-fund/Class as calculated at the Valuation date concerned;
- D is the Net asset value per Share of the new Sub-fund/Class, as calculated at the Valuation date concerned;
- E is the exchange rate at the date concerned between the currency of the original Sub-fund/Class and the currency of the new Sub-fund/Class, if applicable;
- F is the switching fee as described above.

The transfer of the amount of the Share switch will be made between the Sub-funds within the cut-off times for payment of subscriptions and redemptions mentioned for each of the Sub-funds in the annex in the section "Submission of orders", provided that these cut-off times are identical for both Sub-funds concerned.

Applications for switches between Sub-funds having different cut-off times will be processed using the cut-off time of the original Sub-fund, which may result in an extension of the cut-off time for the other Sub-fund.

7. MARKET TIMING

The practices associated with *market timing* are not allowed since they may affect the shareholders' interests.

By *market timing* is meant the arbitrage technique by which an investor subscribes and repurchases or systematically converts units or shares of the same UCI within a short space of time by exploiting time differences and/or imperfections or deficiencies in the system used by the UCI to determine the net asset value.

With regard to these practices, the Board of Directors, respectively the Management Company, reserve the right, when it deems it appropriate, to instruct the Registrar and Transfer Agent to reject Share subscription or switching orders placed by an investor whom it suspects of employing such practices and it may take the necessary measures, if applicable, to protect the other investors. In this respect the Board of Directors, respectively the Management Company, will take into consideration the history of the investments made by each investor taken individually and the Registrar and Transfer Agent may group together Shares held by one and the same shareholder.

This clause is also valid if such practices are suspected on nominee accounts. It will be incumbent upon the holder of the nominee account to prove, in due course and as applicable, that the transactions thought to be suspicious concern investors who have no link with each other.

8. DIVIDEND PAYMENT POLICY

It is not planned to pay out dividends but to fully capitalize the income produced by the investments of the Sub-funds described in the Prospectus, with the exception of the following Classes.

Distributing Classes are those which contain the letter "D" in their name (for distribution) just after the relevant type of currency code. Dividends in respect of such Share Classes D are payable annually. However, for certain Sub-funds and at the discretion of the Board of Directors, respectively the Management Company, there may be, within the same type of Class, (i) Shares with one annual dividend only and/or (ii) Shares with one or more interim dividends.

The Board of Directors may decide to distribute, or not to distribute, dividends corresponding to investment income, realized or unrealized capital gains and/or to the net assets relating to the Distributing Classes.

These dividend payments may be made at a frequency specified for each Sub-fund in the annex to the Prospectus. The payments will be declared as annual dividends by the annual general meeting of shareholders of the Fund.

No dividend will be paid if it results in the net assets of the Fund being reduced to below the statutory minimum fixed for the share capital of the Fund, which is currently EUR 1,250,000.-.

The Board of Directors will be able to determine the manner in which the dividends of these Classes will be distributed. The Board of Directors will thus be able to decide whether the dividends will be able to be distributed in the form of cash or automatically re-invested in the purchase of new Shares of the same Distributing Class. Similarly, the Board of Directors reserves the right not to pay any dividend in cash if (i) the amount of the dividend to be paid out per Share or (ii) the total amount of the distributions to be paid to a shareholder is lower than an amount fixed periodically by the Board of Directors. In the latter two cases the amount to be paid out will be automatically re-invested in new Shares of the same Distributing Class. In these cases no sales commission will be charged.

Dividends will be paid at the date determined by the Board of Directors. Dividends paid in cash form will be paid on the same terms as those applicable to the redemption of Shares. Dividends re-invested in new Shares will give rise to a confirmation of an entry in the share register in the same manner as for Share subscriptions.

Dividends approved for payment but not claimed for a period of five years from the date of approval for payment will no longer be able to be claimed and will revert to the Class and/or the Sub-fund concerned.

No interest will be paid on the dividends announced and held by the Fund for the account of the shareholders concerned until the date on which these dividends are forfeited.

Investors' attention is drawn to the fact that the dividends deducted from the capital or the net assets of the Sub-fund concerned may be taxed as income in certain jurisdictions.

9. CHARGES AND EXPENSES

9.1. Establishment expenses

The initial establishment expenses cover the cost of preparing and printing the Prospectus, the notary's fees, the cost of registering the Fund with the administrative and stock exchange authorities, the cost of printing certificates and any other expenses in connection with the establishment, promotion and launch of the Fund.

The expenses relating to the launch of a new Sub-fund will be written off over a period not exceeding five years against the assets of that Sub-fund, in annual amounts determined by the Board of Directors on an equitable basis.

9.2. Management Fees

9.2.1. Management fee

By way of remuneration for the management services of the Fund's portfolios and the marketing services of the Fund's Shares as described in section 11.2. below, the Management Company shall charge the Fund, at the end of each quarter, a management fee at the maximum annual rates described in the corresponding annex to each of the Sub-funds in the section "Fees specific to the Sub-fund" and applied to the average Net asset value of each Class. A percentage of this management fee shall be payable (i) to the different sub-managers mentioned in the corresponding annex to each of the Sub-funds and (ii) to the different investment advisers mentioned in section 11.6. below and in the annex. A percentage of this management fee may also be paid to distributors, distribution partners, business providers, sales agents, service providers or other intermediaries, by way of remuneration for their activity, including in particular a distribution or business provision activity or infrastructure services comprising operational, legal and administrative assistance (order reconciliation, transaction settlement, data analysis etc.).

In addition, the Management Company shall receive a performance fee, as described below and mentioned in the corresponding annex to each of the Sub-funds concerned, which is to be debited directly to certain Sub-funds.

9.2.2. Absolute performance fee (PF Class)

Share Class PF not combined with a High Water Mark

Shares Classes PF of the Sub-fund(s) listed in the below table, will charge, each separately and at the end of the Financial year, a performance fee at the maximum rate as indicated in the below table of the annual performance calculated on each Valuation date on the basis of the Net asset value per Share, before deduction of the performance fee. The first period for calculating the performance fee will begin on the launch date of each Class, unless provided for otherwise below and in the annex to the Prospectus. For Shares redeemed during the Financial year, the cumulative provision of the performance fees during the same period shall be crystallized and charged at the end of the period to the Management Company. The calculated percentage of performance is applied to the total net assets of each of the Classes. The Board of Directors reserves the right in the event of exceptional circumstances, such as a large volume of redemptions, to crystallize the performance fee.

Further Share Classes PF as the above, may be launched at anytime in accordance with the below table. In such case, the Website and the list kept at the Registered Office will be immediately updated with the newly launched Share Classes, which will be included in the next Prospectus. The KIID provided to investors in relation to each new Share Class will include the required information on the applicable performance fee.

Sub-fund(s)	Maximum rate of the performance fee
Dynamic Allocation	10%
European Opportunities	10%
Multi-Asset Diversified until 31 December 2017	10%
Any other newly launched Share Class PF	Maximum rate to be disclosed on the Website and at the Registered Office

Share Class PF combined with a High Water Mark

Share Classes PF of the Sub-funds listed in the below table, will charge, each separately and at the end of the Financial year, a performance fee at the maximum rate as indicated in the below table, applied to the difference between the Net asset value per Share concerned at the closing date of the current Financial Year and the High Water Mark, if this difference is positive. This fee will be calculated and provisioned or deprovisioned each time the Net Asset Value is calculated and will be based on the amounts of the net assets of each Class concerned before deduction of the performance fee. For Shares redeemed during the Financial year, the cumulative provision of the performance fees during the same period shall be crystallized and charged at the end of the period to the Management Company. The Board of Directors reserves the right in the event of exceptional circumstances, such as a large volume of redemptions, to crystallize the performance fee.

Further Share Classes PF as the above, may be launched at anytime in accordance with the below table. In such case, the Website and the list kept at the Registered Office will be immediately updated with the newly launched Share Classes,

which will be included in the next Prospectus. The KIID provided to investors in relation to each new Share Class will include the required information on the applicable performance fee.

Sub-fund	Maximum rate of the performance fee	Initial High Water Mark
Market Neutral Europe	15%	Net Asset Value on December 27, 2013
Any other newly launched Share Class PF	Maximum rate to be disclosed on the Website and at the Registered Office	The initial issue price until it is outperformed, unless otherwise specified on the Website and on the list kept at the Registered Office

9.2.3. Relative performance fee (PR Class)

Share Class PR based on a benchmark index or a hurdle rate

Share Classes PR of the Sub-funds listed in the below table will charge, each separately at the end of each Financial year, a performance fee of a maximum rate as indicated in the below table, of the annual performance calculated on each Valuation date and applied to the difference between the performance of the Net asset value per Share, before deduction of the performance fee, and the performance of their benchmark index or their reference hurdle rate for the same period. The first period for calculating the performance fee will begin on the launch date of each Class, unless provided for otherwise below and in the annex to the Prospectus. For Shares redeemed during the Financial year, the cumulative provision of the performance fees during the same period shall be crystallized and charged at the end of the period to the Management Company. The calculated percentage of performance is applied to the total net assets of each of the Classes. The Board of Directors reserves the right in the event of exceptional circumstances, such as a large volume of redemptions, to crystallize the performance fee.

Further Share Classes PR as the above, may be launched at anytime in accordance with the below table. In such case, the Website and the list kept at the Registered Office will be immediately updated with the newly launched Share Classes, which will be included in the next Prospectus. The KIID provided to investors in relation to each new Share Class will include the required information on the applicable performance fee.

Sub-fund	Class	Maximum rate of the performance fee	Hurdle rate or benchmark index
European Mid & Small Cap	Classes in EUR and/or hedged	10%	STOXX Europe Small 200 EUR (net return) (Ticker SCXR, in EUR)
	Non hedged Classes in other currencies		STOXX Europe Small 200 EUR (net return) (Ticker SCXR, in EUR) converted for each NAV calculation in the corresponding currency
European Opportunities	Classes in EUR and/or hedged	10%	STOXX Europe 600 EUR (net return) (Ticker SXXR, in EUR)
	Non hedged Classes in USD		STOXX Europe 600 USD (net return) (Ticker SXXV, in USD)
	Non hedged Classes in other currencies		STOXX Europe 600 EUR (net return) (Ticker SXXR, in EUR) converted for each NAV calculation in the corresponding currency
Italian Opportunities	Classes in EUR and/or hedged	10%	FTSE Italia All-Share Price Return (Ticker ITLMS, in EUR)
	Non hedged Classes in other currencies		FTSE Italia All-Share Price Return (Ticker ITLMS, in EUR) converted for each NAV calculation in the corresponding currency
Italian Value	Classes in EUR and/or hedged	10%	FTSE Italia All-Share Price Return (Ticker ITLMS, in EUR)
	Non hedged Classes in other currencies		FTSE Italia All-Share Price Return (Ticker ITLMS, in EUR) converted for each NAV calculation in the corresponding currency

Japan Opportunities	Classes in JPY and/or hedged (except if mentioned hereafter)	10%	Topix Net TR (Ticker TPXNTR, in JPY)
	Non hedged Classes in other currencies		Topix Net TR (Ticker TPXNTR, in JPY) converted for each NAV calculation in the corresponding currency
	Classes HP in EUR		TOPIX Net TR Euro Hedged (Ticker TPXNEH)
Multi-Asset Diversified, as from 1 January 2018	All Share Classes PR	10%	Libor 1 month EUR
All other existing or future Sub-fund(s)	Any other newly launched Share Class PR	Maximum rate to be disclosed on the Website and at the Registered Office	Hurdle rate or benchmark index to be disclosed on the Website and at the Registered Office

Share Class PR subject to outperforming its hurdle rate or benchmark index

Share Classes PR of the Sub-fund(s) listed below, will charge, each separately and at the end of the Financial year, a performance fee at the maximum rate as indicated in the below table, on the basis of the difference between the Net asset value per Share at the last Valuation date of the current Financial year and the Net asset value per Share at the last Valuation date of the previous Financial year provided that the level of the hurdle rate as indicated below is exceeded. The Net Asset Value taken into consideration for the calculation at the Valuation date will be considered before the provision made for the current year at the Valuation date. The rate of the performance fee will be applied to the average annual assets calculated on each Valuation date. The Board of Directors reserves the right in the event of exceptional circumstances, such as a large volume of subscriptions and/or redemptions, to crystallize the performance fee. For the first calculation of the performance fee, the basis is the difference between the Net asset value per Share of the Sub-fund concerned, before deduction of the performance fee, calculated at the last Valuation date of the current Financial year and that calculated on the first Valuation date of the Sub-fund. This fee will be calculated each time the Net asset value is calculated, without consideration to the historically highest Net asset value.

Further Share Classes PR as the above, may be launched at anytime in accordance with the below table. In such case, the Website and the list kept at the Registered Office will be immediately updated with the newly launched Share Classes, which will be included in the next Prospectus. The KIID provided to investors in relation to each new Share Class will include the required information on the applicable performance fee.

Sub-fund	Class	Maximum rate of the performance fee	Hurdle rate or benchmark index
Multi-Asset Absolute Return EUR	Classes in EUR (unless otherwise specified hereinafter)	10%	Libor 1 month EUR
	Class C EUR D PR and N EUR PR Shares	10%	Libor 1 month EUR
	Classes hedged in other currencies	10%	Libor 1 month in the corresponding currency
All other existing or future Sub-fund(s)	Any other newly launched Share Class PR	Maximum rate to be disclosed on the Website and at the Registered Office	Hurdle rate or benchmark index to be disclosed on the Website and at the Registered Office

Share Class PR combined with an Outperformance High Water Mark

Share Classes PR of the Sub-funds described in the table below will charge, each separately and at the end of the Financial year, a performance fee at a maximum rate as indicated in the below table, against the Outperformance High Water Mark that is the latest historical outperformance record of a given Class compared with its associated hurdle rate

or benchmark index as appropriate, in respect of which outperformance a performance fee was charged. Outperformance is calculated on each Valuation date on the basis of the performance of the Net asset value per share, before performance fee, and of the performance of the benchmark index. The provision set aside in respect of this performance fee is adjusted on each valuation day according to the change in the relative performance of the Class. If the relative performance of the Class decreases during the calculation period, the provision set aside will be reduced accordingly. If this provision is reduced to zero, no performance fee will be payable. The first period for calculating the performance fee will begin on the launch date of the Class. For shares redeemed during the Financial year, the cumulative provision of the performances during the same period will be crystallized and charged at the end of the period to the Management Company. The calculated percentage of performance is applied to the total net assets of the Class. The Board of Directors reserves the right in the event of exceptional circumstances, such as a large volume of redemptions, to crystallize the performance fee.

Further Share Classes PR as the above, may be launched at anytime in accordance with the below table. In such case, the Website and the list kept at the Registered Office will be immediately updated with the newly launched Share Classes, which will be included in the next Prospectus. The KIID provided to investors in relation to each new Share Class will include the required information on the applicable performance fee.

Sub-fund	Class	Maximum rate of the performance fee	Hurdle rate or benchmark index
Equity Premia Global	All Share Classes PR	10%	Libor 3 months USD
Flexible Credit	Classes in EUR and/or hedged	20%	1 month Euribor (Bloomberg: EUR001M Index)
	Non hedged Classes in other currencies		1 month Euribor (Bloomberg: EUR001M Index) converted for each NAV calculation in the corresponding currency
All other existing or future Sub-fund(s)	Any other newly launched Share Class PR	Maximum rate to be disclosed on the Website and at the Registered Office	Hurdle rate or benchmark index to be disclosed on the Website and at the Registered Office

9.2.4. Miscellaneous provisions

The Board of Directors reserves the right to change the characteristics of the performance fee, particularly if the benchmark or reference index were to cease to exist.

The Board of Directors eventually reserves the right to stop charging a performance fee in respect of any Share Class, in which case the performance fee will be calculated according to the above sections 9.2.2. or 9.2.3. as appropriate, up to the date the performance fee is no longer charged and paid at the end of the relevant Financial year.

In all the cases above, the performance fee Variable Characteristic of the relevant Share Class will be immediately updated, the investors will be given appropriate information and prior notice (where necessary), and the next Prospectus will be duly amended.

9.3. Specific fee for management of the duration risk of the Shares Class HD:

By way of remuneration for the services described for these Classes in section 1.3., the Share Classes HD may pay, each separately, at the end of each quarter, a duration risk management fee at the maximum annual rates of 0.05% and applied to the average Net Asset Value of each Share Class HD.

This fee shall be payable to the sub-manager of the Sub-fund concerned and/or to the entity in charge of the management of the duration.

9.4. Specific fee for management of the foreign exchange (FX) risk of the Shares Classes HA and HP:

By way of remuneration for the services described for these Classes in section 1.3., the Share Classes HA and HP may pay, each separately, at the end of each quarter, a FX risk management fee at the maximum annual rates of 0.10% and applied to the average Net asset value per Share of each Share Class HA or HP.

This fee shall be payable to the entity in charge of the management of the FX.

9.5. Depository Bank

The Fund will pay to the Depository Bank an annual fee which will vary between 0.012% of the Net asset value and a maximum of 0.20% of the Net asset value per sub-fund subject to a minimum fee per Sub-fund of EUR 35,000. These fees are payable on a monthly basis and do not include the transaction fees or the sub-custodian or similar agents' fees. The Depository Bank is also entitled to be reimbursed for the reasonable expenses and outlays which are not included in the expenses mentioned below.

9.6. Administrative fee

An annual administrative fee representing a maximum of 0.45% of the net assets of each Sub-fund will be paid to the Management Company on a quarterly basis by way of remuneration for the central administration services that it provides to the Fund, as well as for the control services.

A portion of this annual administrative fee will also enable the Management Company to remunerate RBC Investor Services Bank S.A. for its functions of Central Administration, Transfer Agent and Registrar.

9.7. Other costs, charges and expenses

The Fund shall bear all fixed and variable costs, charges and expenses in relation especially to the Fund's operation, promotion and publication. These may include costs, charges and expenses incurred for the preservation and conservation of the Fund's interests or the interests of its investors (such as legal fees when pursuing a lawsuit in the interest of the Fund), whether all these costs, charges and expenses are mandatory, customary or exposed opportunistically in the Fund's interests or in the interests of its investors and whether they are incurred by the Fund itself, the Management Company or any of their delegates on behalf of the Fund.

With the Directors' approval, the Fund may pay for marketing and advertising expenses up to a maximum amount of 0.20% per annum of the Net asset value of all the Sub-funds taken together (with the exception, however, of the Italian Value Sub-fund) at the end of the Financial year; any excess will be covered by the Management Company. This fee shall be a maximum rate of 0.40% per annum for the Italian Value Sub-fund;

Transaction as well as research fees will also be charged at mutually agreed rates.

The costs, charges and expenses that can be assigned to a given Class and/or a given Sub-fund shall be assigned to it directly.

Other costs, charges and expenses which cannot be directly assigned to a given Class and/or a given Sub-fund will be assigned equally to the different Classes within the different Sub-funds and/or to the different Sub-funds; if the amount of the costs, charges and expenses so requires, they will be assigned to the Classes and/or to the Sub-funds in proportion to their respective net assets.

9.8. Expenses resulting from investment by the Fund in other UCIs or UCITS

To the extent that the Fund may invest in any other UCI or UCITS, additional sales commissions or redemption fees may be charged to it. The Fund may, in addition, be required to indirectly pay management fees of a maximum of 2.5% on account of its investment in other UCIs or UCITS.

It is pointed out that the Sub-funds will not be charged any sales commission or redemption fee and will be charged only a maximum management fee of 0.25% if they acquire target funds:

- managed directly or indirectly by the Management Company or
- managed by a company to which the Management Company and/or the Fund are/is linked (1) through common management, (2) through common control or (3) through a direct or indirect shareholding of more than 10% of the capital or votes.

9.9. Expenses resulting from master-feeder structures

When a Sub-fund that can be described as a feeder UCITS within the meaning of the Law invests in shares or units of a master UCITS, the master UCITS will not be authorized to charge any subscription/sale or redemption fees on the Sub-fund's investments in shares or units of this master UCITS.

When a Sub-fund acts as a feeder UCITS, all the remunerations and costs chargeable to this Sub-fund on account of its investments in shares or units of the master UCITS, as well as the total expenses of this Sub-fund and its master UCITS, will be described in an addendum to the Prospectus. Furthermore the Fund shall describe in its annual report the total expenses of the feeder Sub-fund and its master UCITS.

When a Sub-fund can be described as a master UCITS within the meaning of the Law, it shall charge no sales or redemption fees on the investments of the feeder UCITS in the Shares of the Sub-fund acting as master UCITS.

9.10. Expenses resulting from efficient portfolio management techniques and TRS

In connection with the Securities Lending Agent, the Fund will pay expenses and fees that will be calculated on the basis of the income received by the Fund, as negotiated by the Securities Lending Agent on behalf of the Fund in connection with the Securities Lending transaction.

The amount, in the form of a percentage of the income received, shall be determined by mutual agreement between the Securities Lending Agent and the Fund. The Management Company, by mutual agreement with the Fund, shall also receive a portion of such revenues for the performance of its duties and in compensation of related costs and out of pocket expenses. It is pointed out that all of the income obtained in respect of the revenues generated by the Securities Lending operations shall accrue to the Fund, after deduction of the expenses and fees mentioned above. These incomes, expenses and fees shall be described in the annual report of the Fund.

In connection with the Sale with a right of repurchase and Repo/Reverse Repo transactions, the Fund will pay to the Depository Bank transaction fees and sub-custodian fees if applicable and as defined in the Depository Bank contract. It will also reimburse the Depository Bank, as applicable, for reasonable expenses and disbursements incurred by the Depository Bank for the operational processing of these transactions. All revenues arising from Sale with a right of repurchase and Repo/Reverse Repo transactions will be returned to the relevant Sub-fund, and the Management Company will not take any fees or costs out of those revenues additional to the management fee for the relevant Sub-fund as set out in section 9.2. "Management Fees".

In connection with the TRS, the Fund will pay to the Depository Bank transaction fees and sub-custodian fees if applicable and as defined in the Depository Bank contract. It will also reimburse the Depository Bank, as applicable, for reasonable expenses and disbursements incurred by the Depository Bank for the operational processing of these transactions. All revenues arising from TRS transactions will be returned to the relevant Sub-fund, and the Management Company will not take any fees or costs out of those revenues additional to the management fee for the relevant Sub-fund as set out in section 9.2. "Management Fees".

In either of the cases above, the Fund and the Management Company are not related parties to the Securities Lending Agent, the securities borrowers or the counterpart.

10. TAXATION

Please be aware that the residence concept used under the respective headings below applies for Luxembourg income tax assessment purposes only. Any reference in the present section to a tax, duty, levy, impost or other charge or withholding of a similar nature refers to Luxembourg tax law and/or concepts only. Also, please note that a reference to Luxembourg income tax generally encompasses corporate income tax (*impôt sur le revenu des collectivités*), municipal business tax (*impôt commercial communal*), a solidarity surcharge (*contribution au fonds pour l'emploi*), personal income tax (*impôt sur le revenu*), as well as a temporary equalisation tax (*impôt d'équilibrage budgétaire temporaire*). Corporate taxpayers may further be subject to net wealth tax (*impôt sur la fortune*) as well as other duties, levies or taxes. Corporate income tax, municipal business tax, as well as the solidarity surcharge invariably apply to most corporate taxpayers resident of Luxembourg for tax purposes. Individual taxpayers are generally subject to personal income tax, to the solidarity surcharge and to the temporary equalisation tax. Under certain circumstances, where an individual taxpayer acts in the course of the management of a professional or business undertaking, municipal business tax may apply as well.

10.1. Taxation of the Fund

By virtue of the legislation in force and according to current practice, the Fund is not subject to any Luxembourg tax on income and capital gains. Similarly, the dividends paid by the Fund are not subject to any Luxembourg withholding tax.

On the other hand, the Fund is subject in Luxembourg to an annual tax (*taxe d'abonnement*) representing 0.05% of the Net asset value. A reduced tax rate of 0.01% of the Net asset value for the Classes will be applicable to (i) undertakings whose sole object is the collective investment in money market instruments and the placing of deposits with credit institutions, (ii) undertakings whose sole object is the collective investment in deposits with credit institutions and (iii) individual compartments of UCIs with multiple compartments referred to in the Law as well as for individual classes of securities issued within a UCI or within a compartment of a UCI with multiple compartments, provided that the securities of such compartments or classes are reserved for institutional investors.

An exemption from subscription tax will be applicable in the following cases:

- a) for the value of the assets represented by shares or units held in other UCIs to the extent such shares or units have already been subject to the subscription tax provided by the amended law of 13 February 2007 on specialised investment funds or the Law;
- b) for UCIs, as well as individual sub-funds of UCIs with multiple sub-funds:
 - (i) the securities of which are reserved for institutional investors; and
 - (ii) the exclusive object of which is the collective investment in money market instruments and the placing of deposits with credit institutions; and
 - (iii) the weighted residual portfolio maturity of which does not exceed 90 days; and
 - (iv) that have obtained the highest possible rating from a recognised rating agency;
- c) for UCIs, the securities of which are reserved for (i) institutions for occupational retirement provision, or similar investment vehicles, set up on one or several employers' initiative for the benefit of their employees and (ii) companies of one or several employers investing the funds they hold, in order to provide their employees with retirement benefits; or
- d) UCIs as well as individual sub-funds of umbrella UCIs with multiple sub-funds whose main objective is the investment in microfinance institutions.
- e) for UCIs as well as individual compartments of UCIs with multiple compartments (i) whose securities are listed or traded on at least one stock exchange or another regulated market operating regularly, recognised and open to the public and (ii) whose exclusive object is to replicate the performance of one or more indices.

This tax is payable quarterly on the basis of the net assets of the Fund calculated at the end of the quarter to which the tax relates.

Some dividend and interest income from the Fund's portfolio may be liable to withholding taxes at variable rates levied in the countries where said income originates.

No Luxembourg tax is payable on realised or unrealised capital appreciation of the assets of the Fund.

No stamp duty or other tax is payable in Luxembourg on the issue of Shares in the Fund against cash. However, the Fund is liable to a fixed registration duty of EUR 75.- on the registration of its incorporation or on any amendment to its articles of association.

Dividends and interest and capital gains (if any) received by the Fund on its investments may be subject to non-recoverable withholding or other taxes in the countries of origin. It is anticipated that the Fund may not be able to benefit from reduced rates of withholding tax in double taxation agreements between Luxembourg and such countries. As the Fund itself is exempt from income tax, withholding tax levied at source, if any, is not refundable in Luxembourg. Whether the Company may benefit from a double tax treaty entered into by Luxembourg must be analysed on a case-by-case basis.

The Fund is considered in Luxembourg as a taxable person for VAT purposes without any input VAT deduction right. A VAT exemption applies in Luxembourg for services qualifying as fund management services. Other services supplied to the Fund could potentially trigger VAT and require the VAT registration of the Fund in Luxembourg. As a result of such VAT registration, the Fund will be in a position to fulfil its duty to self-assess the VAT regarded as due in Luxembourg on taxable services (or goods to some extent) purchased from abroad.

10.2. Taxation of shareholders

No VAT liability arises in principle in Luxembourg in respect of any payments by the Fund to its shareholders, to the extent such payments are linked to their subscription to the Shares and do, therefore, not constitute the consideration received for taxable services supplied.

Shareholders should be aware that paid-out dividends will usually be treated as investment income in most European countries and that conversions between Sub-funds may not be tax-exempt in their country of residence. The Fund shall not be held responsible for any fiscal liability incurred by shareholders in connection with their investments in the Fund.

Investors should be aware that income or dividends received or profits realised may lead to an additional taxation in their country of citizenship, residence, domicile and/or incorporation.

Investors should inform themselves of, and when appropriate consult their professional advisers on, the possible tax consequences of subscribing for, buying, holding, converting (if any), redeeming or otherwise disposing of Shares under the laws of their country of citizenship, residence, or domicile or incorporation.

Shareholder's tax residence

A shareholder does not obtain tax residence in Luxembourg solely based on holding, transfer, conversion, or delivery of Shares or the execution, performance, delivery and/or enforcement of its rights and obligations under the Shares.

Luxembourg non-residents

Shareholders, who are non-residents of Luxembourg and who have neither a permanent establishment nor a permanent representative in Luxembourg to which or whom the Shares are attributable, are not liable to any Luxembourg income tax on income received and capital gains realised upon the sale, disposal or redemption of the Shares.

Non-resident corporate shareholders having a permanent establishment or a permanent representative in Luxembourg, to which or whom the Shares are attributable, must include any income received, as well as any gain realised on the sale, disposal or redemption of the Shares, in their taxable income for Luxembourg tax assessment purposes. The same inclusion applies to individuals, acting in the course of the management of a professional or business undertaking, who have a permanent establishment or a permanent representative in Luxembourg, to which or whom the Shares are attributable. Taxable gains are determined as being the difference between the sale, repurchase or redemption price and the lower of the cost or book value of the Shares sold, repurchased or redeemed.

Luxembourg residents

Resident shareholders are not subject to income tax in case of reimbursement of capital contributed to the Fund.

Luxembourg resident individual

Dividends and other payments deriving from Shares received by resident individual shareholders, who act in the course of the management of either their private wealth or their professional / business activity, are subject to income tax at the progressive ordinary rates.

Capital gains realised upon disposal of the Shares by resident individual shareholders, acting in the course of the management of their private wealth, are not subject to income tax, unless said capital gains qualify either as speculative gains or as gains on a substantial participation. Capital gains are deemed to be speculative and are thus subject to income tax at ordinary rates if the Shares are disposed of less than six months after their acquisition, or if their disposal precedes their acquisition. A shareholding is considered as a substantial shareholding in limited cases, in particular if (i) the shareholder has held, either alone or together with his spouse and/or his minor children, either directly or indirectly, at any time within the five (5) years preceding the realisation of the gain, more than ten percent (10%) of the share capital of the Fund or (ii) the taxpayer acquired free of charge, within the five years preceding the transfer, a participation that was constituting a substantial participation in the hands of the alienator (or the alienators, in case of successive transfers free of charge within the same five-year period). Capital gains realised on a substantial participation more than six months after their acquisition are subject to income tax according to the half-global rate method, (*i.e.* the average rate applicable to the total income is calculated according to progressive income tax rates and half of the average rate is applied to the capital gains realised on the substantial participation). A disposal may include a sale, an exchange, a contribution or any other kind of alienation of the Shares.

Capital gains realised upon the disposal of the Shares by a resident individual shareholder, who acts in the course of the management of his professional/business activity, are subject to income tax at ordinary rates. Taxable gains are determined as being the difference between the price for which the Shares have been disposed of and the lower of their cost or book value.

Luxembourg resident companies

Luxembourg resident corporate companies holders of Shares must include in their taxable income in Luxembourg any income received, as well as any capital gains realised on the transfer, disposal, or redemption of Shares. The amount of taxable capital gains is equal to the difference between the sell or redemption price and the lesser of subscription price and book value of the Shares sold or redeemed.

Luxembourg resident companies benefiting from an exceptional tax scheme

Luxembourg resident Shareholders which benefit from a special tax regime (such as the rules applicable to UCIs subject to the Law, specialised investment funds subject to the amended Law of 13 February 2007, and family wealth management companies governed by the amended Law of 11 May 2007) are exempt entities in Luxembourg and therefore not subject to any income tax in Luxembourg.

Net wealth tax

A Luxembourg resident shareholder, as well as a non-resident shareholder, who has a permanent establishment or a permanent representative in Luxembourg to which or whom the Shares are attributable, other than (i) a resident or non-resident individual taxpayer, (ii) an UCI subject to the Law, (iii) a securitisation company governed by the amended law of 22 March 2004 on securitisation, (iv) a company governed by the amended law of 15 June 2004 on venture capital vehicles, (v) a specialised investment fund governed by the amended law of 13 February 2007, or (vi) a family wealth management company governed by the amended law of 11 May 2007, would generally be subject to net wealth tax.

However, subject to the law of 18 December 2015, a minimum net worth tax would be applicable for a securitization company governed by the amended law of 22 March 2004 on securitization and a company governed by the amended law of 15 June 2004 on venture capital vehicles.

Other taxes

Under Luxembourg tax law, where an individual shareholder is a resident of Luxembourg for tax purposes at the time of his death, the Shares are included in his taxable basis for inheritance tax purposes. On the contrary, no estate or inheritance tax is levied on the transfer of the Shares upon death of a shareholder in cases where the deceased was not a resident of Luxembourg for inheritance tax purposes at the time of his death.

Luxembourg gift tax may be levied on a gift or donation of the Shares if embodied in a Luxembourg notarial deed or registered in Luxembourg.

The above provisions are based on current law and practice and are subject to amendment.

Potential shareholders are recommended to obtain information and, if necessary, to seek advice on the laws and regulations (such as those concerning taxation and exchange controls) applicable to them when subscribing to, purchasing, holding and realizing Shares in their country of origin or their place of residence or domicile.

10.3. FATCA

Following the transposition of FATCA, the Fund may have to bear a withholding tax of 30% on payments of U.S.-source income (including dividends and interest) and on the gross proceeds from sales of real estate which can generate interest or dividends of U.S. source if the Fund were to be unable to respect its obligations to the U.S. fiscal authorities. This will depend on whether or not each shareholder of the Fund meets his/her obligation to provide the necessary information requested of the Fund.

Any shareholder who would not supply the requested documents and information may be held liable for payment of all taxes and charges borne by the Fund which would be attributable to him/her on account of failure by this shareholder to meet the obligations to provide FATCA-related information.

While the Fund will make every effort to obtain the necessary information from the shareholders in order to comply with these rules and, as applicable, to pass on all the taxes borne or having to be withheld under FATCA from the shareholders who are to blame for this taxation owing to their failure to meet their obligation to provide information, it is not possible for the moment to know for certain whether and in what manner the presence of shareholders who do not comply with FATCA will affect the other shareholders of the Fund.

All the investors and shareholders are invited to consult their tax advisers to determine whether and how their investment in the Fund will potentially be impacted by FATCA.

10.4 Common Reporting Standard

The Fund may be subject to the Standard and its CRS as set out in the CRS Law.

Under the terms of the CRS Law, the Fund is likely to be treated as a Luxembourg Reporting Financial Institution. As such, as of 30 June 2017 and without prejudice to other applicable data protection provisions as set out in the Fund's documentation, the Fund will be required to annually report to the Luxembourg tax authority CRS Information related, inter alia, to the identification of, holdings by and payments made to (i) certain Reportable Persons and (ii) controlling persons of certain NFEs which are themselves Reportable Persons. The CRS Information, will include personal data related to the Reportable Persons.

The Fund's ability to satisfy its reporting obligations under the CRS Law will depend on each shareholder providing the Fund with the CRS Information, along with the required supporting documentary evidence. In this context, the shareholders are hereby informed that, as data controller, the Fund will process the CRS Information for the purposes as

set out in the CRS Law. The shareholders undertake to inform their controlling persons, if applicable, of the processing of their CRS Information by the Fund.

The shareholders are further informed that the CRS Information related to Reportable Persons within the meaning of the CRS Law will be disclosed to the Luxembourg tax authority annually for the purposes set out in the CRS Law. In particular, Reportable Persons are informed that certain operations performed by them will be reported to them through the issuance of statements, and that part of this information will serve as a basis for the annual disclosure to the Luxembourg tax authority.

Similarly, the shareholders undertake to inform the Fund within thirty (30) days of receipt of these statements, should any included personal data be not accurate. The shareholders and prospective investors further undertake to inform the Fund of, and provide the Fund with all supporting documentary evidence of any changes related to the CRS Information after occurrence of such changes within thirty (30) days.

Any shareholder that fails to comply with the Fund's CRS Information or documentation requests may be held liable for penalties imposed on the Fund and attributable to such investor's failure to provide the CRS Information or subject to disclosure of the CRS Information by the Fund to the Luxembourg tax authority.

11. GENERAL INFORMATION

11.1. General points

Notwithstanding the fact that the Fund has only one legal status, each Sub-fund constitutes a separate body of assets and liabilities.

11.2. Management Company

The Fund has in accordance with the Law appointed SYZ Asset Management (Luxembourg) S.A. as management company by way of an agreement entered into on November 17, 2006 for an unspecified duration. This agreement may be terminated by either party according to the modalities provided for therein.

The services provided by the Management Company comprise management of the Fund's portfolios, central administration of the Fund and marketing of the Fund's Shares, while remaining under the constant supervision of the Board of Directors.

The Management Company has also been appointed by the Board of Directors as the agent in charge of monitoring whether transactions comply with the investment restrictions and in particular of verifying the charges and prices applied by brokers.

The Management Company is subject in particular to the provisions of chapter 15 of the Law.

The Management Company was established on July 26, 2001 in the form of a public limited company. Its registered office is located at 54, rue Charles Martel, L-2134 Luxembourg.

The articles of association of the Management Company were published in the Mémorial on January 17, 2001. These articles were last amended on July 21, 2014; these amendments were published in the Mémorial on September 1, 2014.

The Management Company is enrolled with the Luxembourg Register of Companies under the number B-83 117. Its share capital amounts to CHF 900,000 and is entirely paid up.

The Management Company is in charge of the Fund's day-to-day operations. Its Board of Directors consists of:

- Sébastien Dessimoz (Chairman), Chief Operating Officer, SYZ Asset Management (Suisse) SA, Geneva;
- Massimo Paolo Gentili, Partner, Gentili & Partners, Luxembourg;
- Mark Lloyd-Price, Chief Executive Officer, SYZ Asset Management (Europe) Limited, London (until 30 June 2017).

The conduct of the business of the Management Company is determined by Mr. Alexandre Pierron, Head of the Central Administration & Business Support, SYZ Asset Management (Luxembourg) S.A. and by Mr. Jean-Benoît Bourgeois, Head of Risk Management, SYZ Asset Management (Luxembourg) S.A.

The Management Company has been authorized to delegate, on its own responsibility, its duties to third parties. It has delegated the duties of central administration, transfer agent and registrar, investment management and advice as described in greater detail below.

The Management Company must always act in the interests of the shareholders of the Fund and in accordance with the provisions of the Law, the Prospectus and the articles of association of the Fund.

The Management Company has appointed PricewaterhouseCoopers (PwC), Société cooperative, as the approved independent auditor.

If another management company were to be appointed by the Fund, the Fund would, at the request of SYZ Asset Management (Luxembourg) S.A., be obliged to change its name, which would then contain neither the word "Oyster" nor any reference to a company of the SYZ Group.

11.3. Depositary Bank

The Fund has appointed RBC Investor Services Bank S.A., having its registered office at 14, Porte de France, L-4360 Esch-sur-Alzette, Grand-Duchy of Luxembourg, to act as its Depositary Bank with responsibility for the

- (a) safekeeping of the assets,
- (b) oversight duties and
- (c) cash flow monitoring

in accordance with the Law, and the Amended and Restated Depositary Bank Agreement.

RBC Investor Services Bank S.A. is registered with the Luxembourg Register of Companies under number B-47192 and was incorporated in 1994 under the name "First European Transfer Agent". It is licensed to carry out banking activities under the terms of the Luxembourg law of 5 April 1993 on the financial services sector and specialises in custody, fund

administration and related services. Its equity capital as at 31 October 2016 amounted to approximately EUR 1,059,950,131.

The Depositary Bank has been authorized by the Fund to delegate its safekeeping duties (i) to delegates in relation to other assets and (ii) to sub-custodians in relation to financial instruments and to open accounts with such sub-custodians.

An up to date description of any safekeeping functions delegated by the Depositary Bank and an up to date list of the delegates and sub-custodians may be obtained, upon request, from the Depositary Bank or via the following website link:

<http://gmi.rbcits.com/rt/gss.nsf/Royal+Trust+Updates+Mini/53A7E8D6A49C9AA285257FA8004999BF?opendocument> .

The Depositary Bank shall act honestly, fairly, professionally, independently and solely in the interests of the Fund and the Shareholders in the execution of its duties under the Law and the Amended and Restated Depositary Bank Agreement.

Under its oversight duties, the Depositary Bank will:

- ensure that the sale, issue, repurchase, redemption and cancellation of Shares effected on behalf of the Fund are carried out in accordance with the Law and with the articles of association of the Fund,
- ensure that the value of Shares is calculated in accordance with the Law and the articles of association of the Fund,
- carry out the instructions of the Fund or the Management Company acting on behalf of the Fund, unless they conflict with the Law or the articles of association of the Fund,
- ensure that in transactions involving the Fund's assets, the consideration is remitted to the Fund within the usual time limits,
- ensure that the income of the Fund is applied in accordance with the Law and the articles of association of the Fund.

The Depositary Bank will also ensure that cash flows are properly monitored in accordance with the Law and the Amended and Restated Depositary Bank Agreement.

Depositary Bank's conflicts of interests

From time to time conflicts of interests may arise between the Depositary Bank and the delegates, for example where an appointed delegate is an affiliated group company which receives remuneration for another custodial service it provides to the Fund. On an ongoing basis, the Depositary Bank analyzes, based on applicable laws and regulations any potential conflicts of interests that may arise while carrying out its functions. Any identified potential conflict of interest is managed in accordance with the Depositary Bank's conflicts of interests' policy which is subject to applicable laws and regulation for a credit institution according to and under the terms of the Luxembourg law of 5 April 1993 on the financial services sector.

Further, potential conflicts of interest may arise from the provision by the Depositary Bank and/or its affiliates of other services to the Fund and/or other parties. For example, the Depositary Bank and/or its affiliates may act as the depositary, custodian and/or administrator of other funds. It is therefore possible that the Depositary Bank (or any of its affiliates) may in the course of its business have conflicts or potential conflicts of interest with those of the Fund and/or other funds for which the Depositary Bank (or any of its affiliates) act.

The Depositary Bank has implemented and maintains a management of conflicts of interests' policy, aiming namely at:

- Identifying and analysing potential situations of conflicts of interests;
- Recording, managing and monitoring the conflicts of interests situations in:
 - Implementing a functional and hierarchical segregation making sure that operations are carried out at arm's length from the Depositary Bank business ;
 - Implementing preventive measures to decline any activity giving rise to the conflict of interest such as:
 - the Depositary Bank and any third party to whom the custodian functions have been delegated do not accept any investment management mandates;
 - the Depositary Bank does not accept any delegation of the compliance and risk management functions.
 - the Depositary Bank has a strong escalation process in place to ensure that regulatory breaches are notified to compliance which reports material breaches to senior management and the board of directors of the Depositary Bank.
 - a dedicated permanent internal audit department provides independent, objective risk assessment and evaluation of the adequacy and effectiveness of internal controls and governance processes.

The Depositary Bank confirms that based on the above, no potential situation of conflicts of interest could be identified as at the date of the Prospectus.

An up to date information on conflicts of interest policy referred to above may be obtained, upon request, from the Depository Bank or via the following website link:
https://www.rbcits.com/AboutUs/CorporateGovernance/p_InformationOnConflictsOfInterestPolicy.aspx

11.4. Central Administration

By a services contract for Investment Funds dated November 17, 2006, RBC Investor Services Bank S.A. was instructed to provide the services of Domiciliation Agent and Paying Agent.

By a Contract providing for Sub-Delegation of the duties of Administrative and Transfer Agent dated November 17, 2006, the Management Company instructed RBC Investor Services Bank S.A. to provide the services of Administrative Agent, Transfer Agent and Registrar of the Fund.

These contracts may be terminated by either party subject to three months' notice in writing.

The Administrative Agent is responsible in particular for calculating the Net asset values per Share, bookkeeping and the other administrative duties.

In its capacity of Transfer Agent and Registrar, RBC Investor Services Bank S.A. is responsible mainly for handling the issue, switching and redemption of Shares and for keeping the register of shareholders of the Fund.

11.5. Sub-Managers

The Management Company is assisted by sub-managers in connection with the performance of its management duties. The Management Company has thus appointed, on its own responsibility, the companies named in the annex to perform the duties of sub-managers of the Sub-funds of the Fund according to the distribution stated there.

It is specified that the Management Company may at any time decide to alter the assignment of the Sub-funds to the different sub-managers. It may therefore decide without notice to replace the sub-manager of a given Sub-fund with another of the sub-managers mentioned below if it considers that this is in the interests of the shareholders concerned. In such a case the shareholders of the Fund may be advised a posteriori by any mean required by law, and the Prospectus will be duly amended.

It is further specified that the Management Company may decide at any time to appoint new sub-managers.

11.6. Investment adviser

The Management Company may also be assisted, at its own expense, by an investment adviser in order to determine the investment policy of each Sub-fund of the Fund.

With the agreement of the Management Company and for certain Sub-funds of the Fund, specific advisers, who are named in the annex, have also been appointed to act as investment adviser to one or more Sub-funds.

11.7. Distribution

The Management Company may enter into agreements with distributors acting as its agents (individually a "sub-distributor" and collectively the "sub-distributors") in connection with the distribution of the Shares.

The Management Company and the sub-distributors, if applicable, have been authorized by the Board of Directors to intervene in the collection of the subscription and redemption orders for the account of the Fund and the Sub-funds concerned and may, in this case, provide "nominee" services to investors subscribing to Shares through their agency.

At present only the sub-distributors shall intervene in the collection of the different orders and shall perform the related "nominee" functions.

The Fund, the Management Company and the sub-distributors shall comply at all times with all obligations imposed by all applicable regulations, laws and rules governing the fight against money laundering and the financing of terrorism and, in particular, with the law dated November 12, 2004 on the fight against money laundering and the financing of terrorism, CSSF regulation N° 12-02 of December 14, 2012 and with CSSF Circular 13/556, as they may be periodically amended or revised, and shall in addition adopt procedures to ensure that they will comply with this commitment as far as possible. The sub-distributors shall comply at all times, as applicable, with the laws, rules and regulations relating to the fight against money laundering and the financing of terrorism that are applicable in their respective jurisdictions.

The sub-distributors shall forward the subscription forms to the Transfer Agent and Registrar and shall transfer the amounts relating to Share subscriptions to the Depository Bank acting on behalf of the Fund.

11.8. Net asset value

11.8.1. Determination of the Net asset value

The Net asset value per Share of all the Classes and/or, where applicable, of all the Sub-funds is calculated on each Valuation date, under the responsibility of the Board of Directors.

The Board of Directors may decide to have the Net asset value calculated and published more frequently or on additional dates compared with the frequency stated for each of the Sub-funds in the annex to the Prospectus. These additional Valuation dates do not, in principle, give rise to a Transaction date for processing Share subscription, switching and redemption applications unless a decision to the contrary is taken by the Board of Directors, in which case all the shareholders concerned will be informed in advance by a written notice. These additional Net asset values are, in principle, indicative and may simply be estimated except when they give rise to processing of Share subscription, switching and redemption applications. When indicative and estimated additional Net asset values are calculated and published, they do not necessarily give rise to the different verification levels applicable to the calculation of the Net asset value when the latter is used to determine Subscription and Redemption prices.

The Net asset value is determined by dividing the net assets of each Class and/or of each Sub-fund (consisting of the portion of the assets of this Sub-fund or Class less the portion of the liabilities attributable to this Sub-fund or Class) by the total number of Shares outstanding in this Class and/or in this Sub-fund at the Valuation date and for the Transaction date concerned.

The Net asset value per Share of the Sub-funds will be rounded off to two decimal places.

It is expressed in the accounting currency of the Class concerned, as defined for each Sub-fund in the annex to the Prospectus.

For each Sub-fund and/or Class, the Board of Directors may fix other currencies in which the Net asset value per Share may be expressed. These currencies will be defined, if applicable, in the annex for the Sub-funds concerned.

The Sub-funds are divided into several separate Classes which are attached to a common portfolio. The Net asset value per Share of each Class differs according to the holding by these Sub-funds of assets and liabilities attributable to a specific Class and in particular on account of their specific expense structure and/or on account of currency futures contracts and call or put options on currencies concluded in respect of the Classes.

The Net asset value of each Sub-fund will fluctuate mainly as a function of the value of the assets contained in the underlying portfolio.

The net assets of each Sub-fund shall be valued in the following manner:

- I. The assets of the Fund shall comprise in particular:
 - a) all cash in hand or on deposit, including accrued interest;
 - b) all bills and notes payable on sight and accounts receivable (including the results of the sale of securities whose price has not yet been collected);
 - c) all the securities, units, shares, bonds, debt securities, option or subscription rights and other investments and transferable securities which are owned by the Fund;
 - d) all the dividends and distributions receivable by the Fund (given that the Fund will be able to make adjustments to take into consideration fluctuations in the market value of the transferable securities caused by practices such as ex-dividend or ex-rights trading or similar practices);
 - e) all the accrued interest earned by the securities which are owned by the Fund except, however, if this interest is included in the principal of these assets;
 - f) the preliminary expenses of the Fund, to the extent that they have not been written off; and
 - g) all other assets of whatsoever nature, including pre-paid expenses.

The value of these assets shall be determined as follows:

- a) The value of cash in hand or on deposit, of bills and notes payable on sight and accounts receivable, of pre-paid expenses and dividends and interest that have been announced or that have matured but have not yet been collected will be constituted by the face value of these assets, unless it proves unlikely that this value can be collected; in the latter case the value will be determined by deducting an amount that the Fund shall consider adequate in order to reflect the real value of these assets.
- b) The valuation of the assets that are officially listed or are listed on any other regulated market that operates regularly, is recognized and open to the public is based on the most representative price of the markets

and/or the transactions conducted on these markets by the fund managers and other market players. Said price may be the last-known price or the price at a precise time determined in advance for each of the markets and deemed more representative by the Board of Directors, taking account of liquidity criteria and the transactions conducted in the markets concerned. If the Board of Directors considers that the market price is not representative of the value of an asset, the valuation will be based on the probable realization value that the Board of Directors shall estimate with prudence and good faith.

- c) Assets not listed or not traded on a stock market or on any other regulated market that operates regularly, is recognized and open to the public will be valued by the Board of Directors on the basis of their probable realization value estimated with prudence and good faith.
- d) Units and shares of open-ended UCIs or of UCITS will be valued on the basis of the latest-known net asset values or, if the price determined is not representative of the true value of these assets, the price will be determined fairly and equitably by the Board of Directors. Units and shares of closed-end UCIs will be valued on the basis of their latest market price or, if the price determined is not representative of the real value of these assets, the price will be determined fairly and equitably by the Board of Directors.
- e) Cash and money-market instruments can be valued at their face value plus accrued interest or on the basis of straight-line depreciation. All other assets can be valued, as far as possible, in the same manner.
- f) All the other assets will be valued by the Board of Directors on the basis of their probable realization value, which must be estimated in good faith and according to generally accepted principles and procedures

The Board of Directors may use its discretion to allow the use of any other generally accepted valuation method if it considers that this valuation reflects more accurately the probable realization value of an asset held by the Fund.

II. The liabilities of the Fund shall comprise in particular:

- a) all borrowings, bills matured and accounts payable;
- b) all known obligations, whether due or not due, including all contractual obligations which have fallen due and which concern payments either in cash or in kind, including the amount of the dividends announced by the Fund but not yet paid;
- c) an appropriate reserve for future taxes on capital and income which has accrued up to the Valuation date and is determined periodically by the Fund and, if applicable, other reserves authorized or approved by the Board of Directors;
- d) all other liabilities of the Fund, of any nature and kind whatsoever, with the exception of the liabilities represented by the Shares of the Fund. In order to value the amount of these other liabilities, the Fund shall take into consideration all the expenditures to be borne by it, including establishment expenses, the expenses payable to the Management Company, the investment advisers, accountant, Depositary Bank, Administrative Agent, Domiciliation Agent, Transfer Agent and Registrar, paying agents and permanent representatives at the places of registration, any other agent employed by the Fund, the expenses of the legal and auditing services, the stock exchange listing expenses, the cost of registering the Fund and maintaining said registration with governmental institutions, advertising and printing expenditure, including the cost of publicity and preparing and printing the certificates, Prospectuses, explanatory notices or declarations of registration, government taxes or levies and any other operating expenses, including the cost of purchasing and selling assets, interest, bank and brokerage charges and postal, telephone and telex expenses. The Fund may calculate the administrative and other expenditures that are of a regular or periodical nature by making an estimate for the year or any other period by distributing the amount in proportion to the fractions of this period.

III. Every Share of the Fund which is in the process of being redeemed will be treated as a Share issued and outstanding until closure on the Valuation date applicable to the redemption of this Share and its price will be deemed to be a liability of the Fund from closure on this day until it is paid.

Every Share to be issued by the Fund in accordance with the subscription applications received will be treated as having been issued from closure on the Valuation date of its issue price and its price will be treated as an amount due to the Fund until it has been received by the latter.

All the investments, cash balances and other assets of the Fund will be valued after account will have been taken of the market rates or exchange rates applicable on the Valuation date of the Net asset value of the Shares.

IV. Account shall be taken as far as possible on the Valuation date of any investment or disinvestment decided by the Fund on the corresponding Transaction date.

V. The Net asset value of each Class and Sub-fund will be calculated in its accounting currency and may be expressed in any other currency(ies) selected by the Board of Directors. These currencies will be defined, as appropriate, in the annex for the Sub-funds concerned.

All assets not expressed in the accounting currency of the Sub-fund will be converted into this currency at the exchange rate applicable in the Grand Duchy of Luxembourg at the Valuation date concerned. The Net asset value

of the Shares, as calculated in the currency of the Sub-fund or Class concerned, as the case may be, may then be converted into other currencies for the purposes of settling subscriptions and redemptions; this conversion will be based on the exchange rate applicable in the Grand Duchy of Luxembourg.

The value of the net assets of the Fund is equal to the sums of the Net asset values of the different Sub-funds. The capital of the Fund will at any time be equal to the value of the net assets of the Fund and its currency of consolidation is the USD.

VI. A body of common assets will be established for each Sub-fund or each Class as follows:

- a) the proceeds from the issue of Shares in a given Sub-fund or Class will be attributed in the books of the Fund to the body of assets established for this Sub-fund and relating to this Class, and the assets, liabilities, income and expenditure relating to this Sub-fund or Class will be attributed to the body of assets of this Sub-fund or Class;
- b) the assets which derive from other assets will be attributed in the books of the Fund to the same body of assets as the assets from which they derive. Whenever an asset is re-valued, the increase or decrease in value of this asset will be allocated to the Sub-fund's body of assets relating to the Class to which this asset is attributable;
- c) all the liabilities of the Fund which can be attributed to a Sub-fund or Class will be assigned to the body of assets attributable to this Sub-fund or Class;
- d) the assets, liabilities, charges and expenses which are not attributable to a particular Sub-fund or Class will be allocated to the different Sub-funds or Classes in equal units or, provided that the amounts in question warrant it, in proportion to their respective net assets;
- e) following any payment of dividends to the shareholders of a Sub-fund, the Net asset value of this Sub-fund or Share will be reduced by the amount of these dividends.

The Fund constitutes a single legal entity. However, in dealings with third parties and in particular with the Fund's creditors, each Sub-fund will be responsible solely for the liabilities assigned to it, unless an agreement to the contrary is reached with the creditors.

All the valuation and calculation rules shall be interpreted and applied in accordance with generally accepted accounting principles.

11.8.2. Suspension of calculation of the Net asset value and of the issue, redemption and switching of Shares

The Board of Directors, respectively the Management Company, is authorized to suspend temporarily the calculation of the Net asset value of one or more Sub-fund(s) or one or more Class(es), as well as the issue, redemption and switching of Shares in the following cases:

- a) throughout any period during which one of the main markets or one of the main securities exchanges on which a substantial portion of the investments of one or more Sub-fund(s) or one or more Class(es) is listed is closed, except on usual closing days, or during which trading is subject to major restrictions or is suspended;
- b) when the political, economic, military, monetary or social situation or any act of *force majeure* which is beyond the responsibility or control of the Fund renders it impossible to dispose of its assets by reasonable and normal means without seriously harming the shareholders' interests;
- c) during any breakdown in the means of communication normally used to determine the price of any investment of the Fund or of ordinary prices on any market or stock exchange whatsoever;
- d) when exchange-control or capital-transfer restrictions prevent transactions from being carried out on behalf of the Fund or when the purchase or sale transactions concerning the assets of the Fund cannot be conducted at normal exchange rates or when the payments due for redemption or switching of Shares in the Fund cannot, in the Board of Directors' opinion, be conducted at normal exchange rates;
- d) as soon as a general meeting of shareholders has been convened at which it will be proposed that the Fund be wound up.
- e) when the calculation of the net asset value of a UCITS/UCI in which the Fund has invested a substantial portion of the assets of one or more Sub-fund(s) or one or more Class(es) is suspended or unavailable or when the issue, redemption or switching of the units of this UCITS or other UCI is suspended or restricted.

Suspension will concern one or more Sub-funds or Classes, depending on the situations in question. The notice of such a suspension and the lifting thereof will be published on fundsquare.net and fundinfo.com and in any other media selected by the Board of Directors.

Shareholders tendering Shares for redemption or switching will also be advised of the suspension of calculation of the Net asset value.

Subscriptions and pending redemption or switching applications may be withdrawn by written notification provided that the latter is received by the Fund before the suspension ceases.

Pending subscriptions, redemptions and switches will be given priority consideration over applications submitted subsequently for the first Transaction date following cessation of the suspension.

11.9. Annual general meetings and reports

The annual general meeting of shareholders is held each year at the Registered Office or at any other location in Luxembourg which will be specified in the summons to attend.

The annual general meeting is held on the third Thursday of the month of April at 3.00 p.m., or if this is a public holiday, on the next Banking day.

Notices of all general meetings are sent by post to all the registered shareholders at their address recorded in the register of shareholders at least eight days before the general meeting.

These notices shall state the time and place of the general meeting and the conditions of admission, the agenda and the requirements of Luxembourg law for the necessary quorum and majority.

The requirements concerning participation in, quorum and majority at any general meeting are those laid down in articles 67 and 67-1 (as amended) of the law of August 10, 1915 on commercial companies, as amended, unless otherwise stated in the articles of association of the Fund or in the Law.

Furthermore, notices convening meetings may be published in the RESA and in a Luxembourg newspaper (the Luxemburger Wort), as well as in the press or in any other media selected by the Board of Directors, respectively the Management Company, in the countries in which the Fund is marketed, and on fundsquare.net.

Holders of Share Classes P will propose a list of candidates to the general meeting of shareholders of the Fund, from which the majority of the Directors will be appointed by the general meeting of shareholders. The list of candidates proposed by the holders of Share Classes P shall comprise a number of candidates equal to at least double the number of seats to be filled for this category of Director. The candidates on the list who receive the largest number of votes shall be elected. Moreover, any shareholder wishing to propose another candidate for the position of Director at the general meeting of shareholders must inform the Fund in writing at least two weeks before the date on which the general meeting is to be held. In order to avoid any ambiguity, the list of candidates submitted by the holders of Share Classes P shall comply with the same modalities.

The Financial year begins on January 1 of each year and ends on December 31 of the same year.

The Fund publishes a detailed annual report on its activity and the management of its assets, comprising its financial statements expressed in USD, the detailed composition of the assets of each Sub-fund and the approved independent auditor's report.

In addition, it publishes a report after the end of each half-year.

The accounts of the Fund and the annual reports are audited by PricewaterhouseCoopers (PwC), Société coopérative.

11.10. Liquidation – Winding up of the Fund

Liquidation of the Fund shall take place under the conditions provided for by law.

Should the share capital of the Fund fall below two thirds of the minimum capital, the Directors must submit the question of winding up the Fund to the general meeting of Shareholders, deliberating without any quorum conditions and deciding by a simple majority of the votes cast at the meeting.

If the share capital of the Fund falls below one quarter of the minimum capital, the Directors must submit the question of winding up the Fund to the general meeting deliberating without any quorum conditions: winding-up may be decided by shareholders owning one quarter of the Shares represented at the meeting.

The meeting must be convened in such a way that it is held within forty days of the date on which it was ascertained that the net assets fell below two thirds or one quarter respectively of the minimum capital.

Furthermore the Fund may be wound up by a decision of a general meeting, ruling according to the relevant provisions of the articles of association.

The decisions of the general meeting concerning the winding up and liquidation of the Fund shall be published in the RESA. This publication is effected at the request of the liquidator or liquidators.

In the event of the Fund being wound up, liquidation shall be carried out by one or more liquidators appointed in accordance with the articles of association of the Fund and with the Law. The net proceeds of liquidation shall be

distributed to the shareholders in proportion to the number of Shares that they hold. Amounts which have not been claimed by the shareholders upon completion of liquidation shall be deposited with the *Caisse de Consignation* in Luxembourg.

The amounts deposited will no longer be able to be withdrawn if they are not claimed prior to expiry of the period of statutory limitation (30 years).

11.11. Liquidation - Winding up of Sub-funds and/or of Classes

The Board of Directors may decide to liquidate one or more Sub-fund(s) or one or more Class(es) by cancelling the Shares of this (these) Sub-fund(s) or this (these) Class(es) and by reimbursing to the shareholders of this (these) Sub-fund(s) and/or this (these) Class(es) the entire net assets relating thereto to the value of their shareholding.

In the event of liquidation of a Sub-fund or a Class by a decision of the Board of Directors, the shareholders of the Sub-fund(s) or the Class(es) to be liquidated may continue to request redemption of their Shares until the actual liquidation date.

For redemptions carried out under these circumstances, the Fund shall apply a Net asset value which takes into consideration the liquidation expenses but which shall not include other expenses. The liquidation proceeds accruing to securities the holders of which did not come forward at the close of the liquidation operations of a Sub-fund shall be deposited with the *Caisse de Consignation* in the Grand Duchy of Luxembourg.

11.12. Merger – Splitting of Sub-funds and/or Classes

11.12.1. Merger of Sub-funds and/or Classes

The Board of Directors may decide to merge one or more Sub-funds of the Fund (either as an absorbed Sub-fund(s) or as an absorbing Sub-fund(s)) with one or more Sub-funds of the Fund or with another Luxembourg or foreign UCITS (or a sub-fund thereof) governed by the Directive, in accordance with the procedure laid down in the Law and in particular in chapter 8 (notably regarding the merger plan and the information to be provided to the shareholders), by allocating them, if applicable, new Shares in the absorbing Sub-fund or the absorbing UCITS to the value of their previous shareholding in the absorbed Sub-fund and in application of the exchange ratio.

The Board of Directors may also decide to merge one or more Class(es) of one or more Sub-funds of the Fund with one or more Class(es) in the same Sub-fund(s) or in one or more other Sub-fund(s) of the Fund.

Notwithstanding the above provisions, the general meeting of shareholders of the Fund may also decide, by a decision taken by a simple majority of the votes cast and without any particular quorum condition, to merge one or more Sub-funds of the Fund (as (an) absorbed Sub-fund(s)) with one or more Sub-funds of the Fund or with another Luxembourg or foreign UCITS (or a sub-fund thereof), in accordance with the procedures laid down in the Law and in particular in chapter 8.

In all cases of merger, the shareholders of the Sub-fund(s) concerned may continue to request redemption of their Shares, at no charge other than the expenses intended to cover the disinvestment costs or, when this is possible, a switch to Shares of another Sub-fund of the Fund or another UCITS managed by SYZ Asset Management (Luxembourg) S.A. or by another company of the SYZ Group or affiliated to the SYZ Group and pursuing a similar investment policy. This right shall become effective at the time the shareholders concerned will have been informed of the proposed merger and shall expire five Banking days before the date on which the exchange ratio is calculated; this time-limit may not be less than thirty days.

The procedures described above may also be applied at the level of the Fund (in particular as an absorbing entity), as provided for by the Law.

11.12.2. Splitting of Sub-funds and/or Classes

The Board of Directors may decide to re-organize a Sub-fund or a Class by splitting it into two or more Sub-funds or Classes, depending on the case, pursuant to the legal and/or regulatory requirements. This decision shall be published or notified, as applicable, on the same terms and conditions as those applicable to merger operations described above, and such publication or such notification, as the case may be, shall specify the information relating to the two or more Sub-funds or Classes resulting from such a split and the modalities for switching Shares.

Notwithstanding the provisions of the previous paragraph, the Board of Directors may also decide to submit the decision to split a Sub-fund or Class to the general meeting of shareholders of the Sub-fund or Class concerned. Such a decision shall be taken by a simple majority of the votes cast and without any particular quorum condition.

11.13. Sub-funds and/or Share Classes Soft Closure or Hard Closure

A Sub-fund or Share Class, may be the subject of a “Soft Closure” whereby any new investor cannot subscribe for Shares if, in the opinion of the Management Company, the closing is necessary to protect the interests of existing Shareholders or in any other circumstances as foreseen in this Prospectus. The Soft Closure is applicable in respect of a Sub-fund or

Share Class to new subscriptions or switches in but not to redemptions, switches out or transfers. Any Sub-fund or Share Class, may be the subject of a Soft Closure without notice to Shareholders.

A Sub-fund or Share Class, may be the subject of a “Hard Closure” whereby any subscription or switch in will no longer be accepted if, in the opinion of the Management Company, the closing is necessary to protect the interests of existing Shareholders or in any other circumstances as foreseen in this Prospectus. The Hard Closure is not applicable with regards to redemptions, switches out or transfers. The Hard Closure will be communicated to impacted Shareholders as soon as practicable.

Without limiting the circumstances where a Soft Closure or a Hard Closure may be appropriate, one such circumstance would be where the Sub-fund has reached a size such that the capacity of the market and/or the capacity of the Sub-Manager has been reached, and where to permit further inflows would be detrimental to the performance of the Sub-fund.

Notwithstanding the above, the Management Company may temper the scope of such Soft Closure or Hard Closure when the relevant types of flows do not present any challenge with respect to capacity.

Once the Soft Closure or Hard Closure is applicable, the relevant Sub-fund or Share Class will not be re-opened until, in the opinion of the Management Company, the circumstances which required the Soft Closure or Hard Closure no longer prevail.

Shareholders and potential investors should confirm with the Company, the Management Company or the Sub-distributor(s) or check the Website for the current status of the Sub-funds or Share Classes.

11.14. Publications

The Net asset value per Share of each Class, as applicable, within each Sub-fund, the Share issue, redemption and switching prices are published on each Valuation date at the Registered Office in Luxembourg and at that of the Representative, as specified below.

They shall, in addition, be published on fundinfo.com.

11.15. Documents available to the public

The articles of association and financial reports of the Fund are made available to the public free of charge at the Registered Office in Luxembourg.

In accordance with the applicable legal and regulatory provisions, the KIID must be provided at no charge to investors before the first subscription or before any switching request for the Shares of a Class or Sub-fund. The up-to-date version of the KIID is available free of charge from the Management Company, on the Website and/or on the local sites of www.morningstar.com.

Any document provided for in chapter 21 of the Law may be consulted by any shareholder and kept at his/her disposal at the Registered Office on all Banking days during the normal office opening hours.

Similarly the procedure relating to the processing of investors’ complaints and the strategy developed for the exercise of the voting rights relating to the instruments held in the portfolios under management and the updated register of situations liable to generate a conflict of interest may be consulted by any shareholder and will be kept at his/her disposal at the registered office of the Management Company on all Banking days during the normal office opening hours.

11.16. Specific information for the shareholders

a) Investors may obtain from the Management Company information relating to, amongst others, the composition and the performance of any Sub-fund in which they are invested, provided that said investors enter into an appropriate agreement with the Management Company detailing the terms and conditions for the provision of such information and their confidentiality duties.

b) Information for the shareholders of the “European Opportunities” and “European Mid & Small Cap” Sub-funds (hereinafter for the purposes of this section the “Sub-funds”):

STOXX and its licensors have no relationship to the licensee other than the licensing of the Stoxx 600 Europe 600 EUR (Net Return) ® index and the Stoxx Europe Small 200 EUR (Net Return) ® index and the related trademarks for use in connection with the Sub-funds.

STOXX and its licensors:

- do not make any statement of guarantee regarding the advisability of a transaction on the Shares of the Sub-funds, which they also refrain from selling and promoting;
- do not issue any investment recommendation to any person whatsoever as far as the Sub-funds are concerned or in any other respect whatsoever;
- do not accept any liability or obligation about the launch date, quantity or price of the Shares of the Sub-funds, and do not take any decision in this regard;

- do not accept any liability or obligation concerning the administration, management or marketing of the Sub-funds;
- are not required to take into consideration the requirements of the Sub-funds or its shareholders to determine, compile or calculate the Stoxx Europe 600 EUR (net return)[®] index and the Stoxx Europe Small 200 EUR (Net Return)[®] index.

STOXX and its licensors refuse to accept any liability in connection with the Sub-fund. More particularly,

- **STOXX and its licensors do not supply or provide any guarantee whatsoever, whether express or implied, concerning:**
 - **the results to be obtained by the Sub-funds, the shareholders in the Sub-funds or any other person involved in the use of the Stoxx Europe 600 EUR (net return)[®] index and the Stoxx Europe Small 200 EUR (Net Return)[®] index and the data included in the Stoxx Europe 600 EUR (net return)[®] index and the Stoxx Europe Small 200 EUR (Net Return)[®] index;**
 - **the accuracy or completeness of the Stoxx Europe 600 EUR (net return)[®] index and the Stoxx Europe Small 200 EUR (Net Return)[®] index and the data they contain;**
 - **the merchantability of the Stoxx Europe 600 EUR (net return)[®] index and the Stoxx Europe Small 200 EUR (Net Return)[®] index and their data and their fitness for a particular purpose or use;**
- **STOXX and its licensors will have no liability for any errors, omissions or interruptions whatsoever in the Stoxx Europe 600 EUR (net return)[®] index and the Stoxx Europe Small 200 EUR (Net Return)[®] index or the data they contain;**
- **under no circumstances shall STOXX or its licensors be held liable for any loss of earnings whatsoever. The same applies to any indirect damage or loss even if STOXX and its licensors have been advised of the existence of such risks.**

The license contract between OYSTER and STOXX has been drawn up solely in their interests and not in those of the shareholders of the Sub-funds or of third parties.

c) Communication by emails:

To the extent investors have filled in and signed the appropriate form with the Transfer Agent and Registrar, the investors may, without incurring any extra-costs, ask the Transfer Agent and Registrar to electronically send the documents attesting to their transactions in the Fund (subscriptions, redemptions and/or switches) as well as documents attesting at a given date, to the value of their shareholding, to an email address provided to the Transfer Agent and Registrar.

The investors acknowledge that an email is not a secure, confidential and/or prompt mean of communication and further recognize and accept the associated risks pertaining to the sending of the said documents despite their confidential nature including, without limitation, the risks of non-receipt or delay, the interruption of the email communication, the interference with the integrity of the email communication, the risk of interception of the emails and the loss of confidentiality.

12. PROTECTION OF PERSONAL DATA

In order to meet its legal obligations, the Fund collects, stores and processes electronically or by other means the personal data supplied by the shareholders when making their subscription.

The personal data that are processed include among other the name, address and the amount invested by each shareholder.

Shareholders may refuse to communicate their personal data to the Fund and thereby prevent it from using them. However, in this case these persons will not be able to become shareholders of the Fund.

In particular, the personal data supplied by the shareholders are processed in order to (i) update the register of shareholders of the Fund, (ii) process subscriptions, redemptions and conversions of Shares as well as the payment of dividends to the shareholders, (iii) carry out checks for *late trading* and *market timing* practices and (iv) comply with the applicable rules on prevention of money laundering and the financing of terrorism.

By completing and returning a subscription and/or account-opening form, the shareholders explicitly agree to the use and/or archiving of their personal data by the Fund and to the delegation by the latter of the processing of the personal data mentioned above to its service providers or affiliates (such as in particular the Management Company, the Depository Bank, the Transfer Agent and Registrar, the sub-distributors and/or their agents (each of whom is an "Agent")) located in the EU or in countries offering an adequate level of protection.

The Fund undertakes not to transfer the personal data to any third party other than an Agent unless it is otherwise required by law or unless the shareholder concerned gives his/her prior consent.

Upon request in writing the shareholders will be given the right to access the personal data that they have supplied to the Fund.

The Fund may also transfer the shareholders' personal data to entities located outside the EU which may, however, not have developed an adequate level of data protection legislation. The Fund will comply with Luxembourg data protection legislation as far as the protection of personal data is concerned.

The shareholders may request in writing that their personal data be rectified. All the personal data will only be stored by the Fund for the duration that is necessary to process them.

The shareholders' explicit permission will have to be given for their personal data to be used for commercial purposes.

The Management Company and/or the sub-distributors may use the personal data to regularly inform the shareholders of other products and services which the Management Company and/or the sub-distributors consider may be of interest to the shareholders, unless the shareholders have informed the Management Company and/or the sub-distributors in writing that they did not wish to receive such information.

13. INVESTMENT RESTRICTIONS

General Part of the Investment Restrictions

13.1. The investments of the different Sub-funds of the Fund must consist exclusively of:

- a) transferable securities and money-market instruments listed or traded on a Regulated Market;
- b) transferable securities and money-market instruments traded on another regulated market of an EU Member State which operates regularly, is recognized and open to the public;
- c) transferable securities and money-market instruments officially listed on a securities exchange of a non-Member State of the EU or which are traded on another regulated market of a non-Member State of the EU which operates regularly, is recognized and open to the public, such other securities exchange and such other regulated market being located in any other European country that is not a Member State of the EU or in any other country of the American continent, Africa, the Middle East, Asia, Australia or the Pacific;
- d) Recently-issued transferable securities and money-market instruments provided that (i) the conditions of issue comprise the undertaking that the application for official listing on a securities exchange or another regulated market as described above which operates regularly, is recognized and open to the public will be filed and that (ii) the listing be obtained no later than one year after the issue;
- e) units of UCITS approved in accordance with the Directive and/or of other UCIs within the meaning of article 1, paragraph 2, sections a) and b) of the Directive, whether or not they are located in an EU Member State, provided that:
 - (i) these other UCIs are approved in accordance with legislation which provides that said undertakings be subject to supervision deemed to be equivalent to that required by Community legislation and that cooperation between the authorities is sufficiently guaranteed;
 - (ii) the level of protection guaranteed to the unitholders of these other UCIs is equivalent to that provided for the unitholders of a UCITS and, in particular, that the rules relating to the division of assets, to borrowings, loans and short selling of transferable securities and money-market instruments are equivalent to the requirements of the Directive;
 - (iii) semi-annual and annual reports are issued on the activities of the other UCIs which allow the assets and liabilities, earnings and transactions to be evaluated for the period under consideration; and
 - (iv) the proportion of assets of the UCITS or other UCIs in which a purchase is envisaged which may, according to their founding documents, be invested in overall terms in units of other UCITS or other UCIs does not exceed 10%;
- f) Shares issued by one or more other Sub-funds of the Fund or shares or units of a master UCITS on the terms and conditions laid down by the Law.
- g) deposits with a banking institution that are reimbursable on request or which can be withdrawn and have a term to maturity of less than or equal to twelve months, provided that the banking institution has its registered office in an EU Member State or, if the registered office of the banking institution is located in a third country, that it is subject to prudential rules which the CSSF deems to be equivalent to those required by Community legislation;
- h) derivative financial instruments, including similar instruments giving rise to a cash settlement, which are traded on a regulated market referred to in points a), b) and c) above, and/or over-the-counter derivative financial instruments ("over-the-counter derivative financial instruments"), in order both to manage the portfolio efficiently and to protect its assets and liabilities and as a main investment, provided that:
 - (i) the underlying consists of instruments mentioned in article 41(1) of the Law, of financial indices, interest rates, exchange rates or currencies in which the Fund may make investments in accordance with its investment objectives;
 - (ii) the counterparties in transactions on over-the-counter derivative instruments are banking institutions subject to prudential supervision and belonging to the categories approved by the CSSF;
 - (iii) over-the-counter derivative instruments are valued reliably and verifiably on a daily basis and can, at the Fund's initiative, be sold, liquidated or closed out by a symmetrical transaction at any time and at their fair value; and
 - (iv) these transactions do not under any circumstances lead the Fund to depart from its investment objectives;

- i) money-market instruments other than those traded on a regulated market, provided that the issuer or the issuer of these instruments is itself subject to regulation aimed at protecting investors and savings and that these instruments:
 - (i) are issued or guaranteed by a central, regional or local authority, by a central bank of an EU Member State, by the European Central Bank, by the EU or by the European Investment Bank, by a third State or, in the case of a federal state, by one of the members that make up the federation, or by a public international organization to which one or more EU Member States belong; or
 - (ii) are issued by a company whose securities are traded on the regulated markets referred to in points a), b) and c) above; or
 - (iii) are issued or guaranteed by an institution subject to prudential supervision according to the criteria defined by Community law, or by an institution which is subject to and complies with prudential rules deemed by the CSSF as being at least as strict as those provided for by Community legislation; or
 - (iv) are issued by other entities belonging to the categories approved by the CSSF, provided that the investments in these instruments are subject to investor protection rules which are equivalent to those laid down in the first, second or third indents, and that the issuer is a company whose capital and reserves amount to at least ten million euros (EUR 10,000,000) and which submits and publishes its annual financial statements in accordance with directive 2013/34/EU, either an entity which, within a group of companies including one or more listed companies, is dedicated to financing the group, or an entity which is dedicated to financing securitization vehicles benefiting from a bank credit line.

13.2. Any Sub-fund of the Fund may in addition:

- a) invest up to a maximum of 10% of its net assets in transferable securities or money-market instruments other than those referred to in point 1 above;
- b) hold liquid assets in an ancillary capacity.

13.3. The Fund undertakes not to invest its net assets in transferable securities and money-market instruments of one and the same issuer in a proportion which exceeds the limits set below, it being understood that (i) these limits are to be observed within each Sub-fund and that (ii) the companies which are grouped together for the purpose of accounts consolidation, within the meaning of directive 2013/34/EU or in accordance with recognized international accounting rules, are to be considered as a single entity for the calculation of the limits described in points a) 2nd paragraph to e), 4 and 5a) below.

- a) a Sub-fund may not invest more than 10% of its net assets in transferable securities and money-market instruments issued by the same entity.

In addition, the total value of the transferable securities and money-market instruments held by the Sub-fund in issuers in which it invests more than 5% of its net assets may not exceed 40% of the value of its net assets. This limit does not apply to deposits with financial institutions which are subject to prudential supervision or to over-the-counter transactions on derivative instruments with these institutions;

- b) one and the same Sub-fund may invest on aggregate up to 20% of its assets in transferable securities and money-market instruments of the same group;
- c) the 10% limit referred to in paragraph a) above may be increased to 35% maximum when the transferable securities and money-market instruments are issued or guaranteed by a Member State of the EU, by its regional or local authorities, by a State which does not belong to the EU or by public international organizations to which one or more EU Member States belong;
- d) the 10% limit referred to in paragraph a) above may be increased to a maximum of 25% for certain bonds when they are issued by a banking institution which has its registered office in an EU Member State and is subject, by law, to special public supervision aimed at protecting the holders of these bonds. In particular, the sums deriving from the issue of these bonds must be invested, in accordance with the Law, in assets which sufficiently cover the resultant liabilities throughout the entire duration of validity of the bonds and which are allocated on a preferential basis to reimbursement of the capital and to payment of accrued interest in case of default by the issuer. If a Sub-fund invests more than 5% of its net assets in bonds referred to above and issued by the same issuer, the total value of these investments may not exceed 80% of the value of its net assets;
- e) the transferable securities and money-market instruments referred to in paragraphs c) and d) above are not taken into account for the application of the 40% limit laid down in paragraph a) above;
- f) By way of derogation, any Sub-fund is authorized to invest, according to the principle of risk spreading, up to 100% of its net assets in different issues of transferable securities and money-market instruments issued or guaranteed (i) by a Member State of the EU, its regional or local authorities or by public international organizations to which one or more EU Member States belong, (ii) by a State which belongs to the OECD or the G-20 or (iii) by Singapore or Hong Kong.

If a Sub-fund makes use of the latter possibility, it must then hold assets belonging to at least six different issues, without the assets belonging to the same issue being able to exceed 30% of the total amount of the net assets;

- g) without prejudice to the limits set in point 9 below, the 10% limit referred to in point a) above is increased to a maximum of 20% for investments in shares and/or debt securities issued by the same entity, when the aim of the Fund's investment policy is to reproduce the composition of a specific share or debt security index or any other type of financial index which is recognized by the CSSF, on the following bases:
 - (i) the composition of the index is sufficiently diversified,
 - (ii) the index constitutes a representative yardstick of the market to which it relates,
 - (iii) it appears in an appropriate publication.

The 20% limit is increased to 35% when this turns out to be justified by exceptional market conditions, in particular on regulated markets on which certain transferable securities or certain money-market instruments are largely predominant. The investment up to this limit is permitted only for a single issuer.

13.4. The Fund may not invest more than 20% of the net assets of each Sub-fund in bank deposits held with the same entity.

- 13.5.** a) The counterparty risk in an over-the-counter transaction on derivative instruments may not exceed 10% of the Sub-fund's net assets when the counterparty is one of the banking institutions referred to in section 1. f) above, or 5% of its assets in other cases.
 - b) Investments in derivative financial instruments can be realized provided that, on aggregate, the risks to which the underlying assets are exposed do not exceed the investment limits set in points 3 a) to e), 4, 5a) above and 7 and 8 below. When the Fund invests in index-based derivative financial instruments, these investments are not necessarily combined with these limits.
 - c) When a transferable security or money-market instrument comprises a derivative instrument, the latter must be taken into account when applying the provisions set out in point 5 d) below, as well as for assessing the risks involved in transactions on derivative instruments, so that the overall risk involved in derivative instruments does not exceed the total value of the net assets.
 - d) Each Sub-fund ensures that the overall risk involved in derivative instruments does not exceed the total net value of its portfolio. The risks are calculated taking account of the current value of the underlying assets, the counterparty, the foreseeable market trend and the time available to liquidate the positions.
- 13.6.** a) The Fund may not invest more than 20% of the net assets of each Sub-fund in units of the same UCITS or other open-ended UCIs, as defined in point 1 e) above, except when a Sub-fund of the Fund invests in shares or units of a master UCITS within the meaning of the Law.

A Sub-fund acting as a feeder UCITS must invest at least 85% of its assets in shares or units of its master UCITS, whereby the latter is itself not allowed to be a feeder UCITS or to hold shares or units of a feeder UCITS.

A Sub-fund acting as a feeder UCITS may invest up to 15% of its assets in one or more of the following elements:

- (i) liquidity in an ancillary capacity in accordance with article 41, paragraph (2), second indent of the Law;
 - (ii) derivative financial instruments, which may be used only for hedging purposes, in accordance with article 41, paragraph (1), point g), and article 42, paragraphs (2) and (3) of the Law;
 - (iii) the movable and immovable property essential to the direct conduct of the Fund's business activity.
- b) Investment in units of UCIs other than UCITS may not exceed, in total, 30% of the net assets of the Fund.

To the extent that this UCITS or UCI is a legal entity with Sub-funds in which the assets of a Sub-fund are exclusively liable for the investors' rights relating to this Sub-fund and for the rights of creditors whose claim originated at the time of establishment, operation or liquidation of this Sub-fund, each Sub-fund is to be considered as a separate issuer for the application of the above risk-spreading rules.
 - c) A Sub-fund of the Fund may subscribe, acquire and/or hold Shares issued or to be issued by one or more other Sub-funds of the Fund, but provided that:
 - (i) the target Sub-fund does not in turn invest in the Sub-fund which is invested in this target Sub-fund; and that
 - (ii) the proportion of assets which the target Sub-funds in which an acquisition is envisaged may generally invest in Shares of other target Sub-funds of the Fund does not exceed 10%; and that

- (iii) the voting rights attached to the Shares concerned shall be suspended for as long as they will be held by the Sub-fund in question and without prejudice to appropriate treatment in the accounts and periodic reports; and
- (iv) in any event, for as long as these securities are held by the Fund, their value shall not be taken into account to calculate the net assets of the Fund for the purpose of verifying the minimum threshold of net assets required by the Law; and
- (v) there is no duplication of management, subscription/sale or redemption fees between these charges at the level of the Sub-fund that has invested in the target Sub-fund and this target Sub-fund.

13.7. Notwithstanding the individual limits set in points 3 a), 4 and 5 a) above, a Sub-fund may not combine several of the following elements, when this would require it to invest more than 20% of its assets in the same entity:

- investments in transferable securities or money-market instruments issued by the same entity,
- deposits held with the same entity, and/or
- risks resulting from transactions on over-the-counter derivative instruments with a single entity.

13.8. The limits laid down in points 3 a), 3 c), 3 d), 4, 5 a) and 7 cannot be aggregated and consequently investment in the transferable securities of one and the same issuer made in accordance with points 3 a), 3 c), 3 d), 4, 5 a) and 7 may not in any event exceed in total 35% of the net assets of the Sub-fund concerned.

- 13.9.**
- a) The Fund may not purchase voting shares which would enable it to exert a significant influence on the management of an issuer.
 - b) The Fund undertakes not to acquire more than 10% of the non-voting shares of the same issuer.
 - c) The Fund undertakes not to acquire more than 10% of the debt securities of the same issuer.
 - d) The Fund undertakes not to acquire more than 10% of the money-market instruments of the same issuer.
 - e) The Fund undertakes not to acquire more than 25% of the units of the same UCITS and/or another UCI.

The limits laid down in points 9 c) to e) above may be disregarded at the time of acquisition if at that time the gross amount of bonds or money-market instruments, or the net amount of the instruments issued, cannot be calculated.

The limits laid down in points 9 a) to e) above are waived with regard to:

- transferable securities and money-market instruments issued or guaranteed by an EU Member State or by its regional or local authorities;
- transferable securities and money-market instruments issued or guaranteed by a non-Member State of the EU;
- transferable securities and money-market instruments issued by public international organizations of which one or more EU Member States are members;
- shares held in the capital of a company of a non-EU State, provided that (i) this company invests its assets mainly in the securities of issuing bodies having their registered offices in that State where (ii) under the legislation of that State such a holding represents the only way in which the Fund can invest in the securities of issuing bodies of that State, and (iii) this company complies in its investment policy with the rules on risk spreading, counterparty and control limitation laid down in points 3 a), 3 b), 3 c), 3 d), 4, 5 a), 6 a) and b), 7, 8 and 9 a) to e) above;
- the shares held in the capital of subsidiary companies carrying out management, advisory or marketing activities in the country in which the subsidiary is established as far as redemption of units at the shareholders' request is concerned, exclusively for its account or for their account.

13.10. Each Sub-fund is authorized to borrow up to 10% of its net assets provided that such borrowing is temporary. Each Sub-fund may also purchase currencies by means of cross-currency loans.

Liabilities connected with options contracts, purchases and sales of forward contracts are not deemed to be borrowings for the calculation of the present investment limit.

13.11. The Fund may neither grant loans nor act as guarantor for the account of third parties. This restriction is not an obstacle to the acquisition of transferable securities, money-market instruments or other financial instruments that are not fully paid-up.

- 13.12. The Fund may not sell short transferable securities, money-market instruments or other financial instruments mentioned in points 1 e), g) and h) above.
- 13.13. The Fund may not purchase real estate, except if such purchases are indispensable to the direct conduct of its activity. In this case it may be authorized to borrow up to 10% of its net assets.
- 13.14. The Fund may not purchase commodities, precious metals or certificates representing the latter. When the Fund is authorized to borrow under paragraphs 10 and 13, these borrowings shall not exceed 15% of its net assets.
- 13.15. The Fund may not use its assets to guarantee securities.
- 13.16. The Fund may not issue warrants or other instruments bestowing the right to purchase Shares in the Fund.
- 13.17. Furthermore the Fund will not invest more than 10% of the net assets of each sub-Sub-fund in Russian transferable securities or money-market instruments (that is, in securities physically deposited with Russian transfer agents) except as far as transferable securities or money-market instruments are concerned which are listed or traded on the *Moscow Exchange MICEX-RTS*, which is deemed to be a regulated market, for which no investment limit is applicable.

The Moscow Exchange MICEX-RTS is the result of the merger between the two largest Moscow stock exchanges, viz. MICEX (*Moscow Interbank Currency Exchange*) and RTS (*Russian Trading System*). Its listing comprises mainly Russian assets. This market fixes the market prices for a wide range of equities and bonds. This commercial information is distributed worldwide through financial information services companies, such as Reuters and Bloomberg.

The limits set previously need not be observed when exercising subscription rights attaching to transferable securities or money-market instruments which form part of the assets of the Sub-fund concerned.

If the maximum percentages above are exceeded for reasons beyond the control of the Fund or as a result of the exercise of subscription rights attached to securities in the portfolio, the Fund must adopt, as a priority objective for its sales transactions, the remedying of that situation, taking due account of its shareholders' interests.

Specific Part of the Investment Restrictions

Eligibility of the Sub-fund to the PIR

- 13.18. In order for a Sub-fund to be eligible to the PIR, such Sub-fund shall comply with the following specific investment restrictions:
- the Sub-fund shall invest at least 70% of its portfolio in financial instruments, whether or not negotiated on a Regulated Market or on a multilateral trading facility, issued by or entered into with companies not engaged in real estate business, which are resident in Italy, or in a Member State of the EU or of the EEA and have a permanent establishment in Italy;
 - at least 30% of the aforementioned financial instruments, which correspond to 21% of the relevant Sub-fund's portfolio, shall be issued by companies which are not listed in the FTSE MIB index or in any other equivalent indices;
 - the Sub-fund cannot invest more than 10% of its portfolio in financial instruments issued by, or entered into with the same company, or companies belonging to the same group, or in cash deposits;
 - the Sub-fund cannot invest in financial instruments issued by companies which are not resident in countries that allow an adequate exchange of information with Italy.
- 13.19. A Sub-fund eligible to the PIR shall fulfil the aforementioned investment restrictions for at least two third of each calendar year during which the said Sub-fund has been in existence.
- 13.20. The Sub-funds that have elected to be eligible for PIR, shall comply with the above specific investment restrictions and include in their investment policies a statement to that purpose.

14. RISK PROFILES AND FACTORS

14.1. Risk profiles of the Sub-funds

I) Equity Sub-funds

The attention of subscribers to these Sub-funds is drawn to the fact that the transferable securities which make up these Sub-funds are subject to the fluctuations that characterize equities and in particular to volatility risk. The risk involved in investments in equities is significant owing to the dependence of the value of equities on factors that are difficult to foresee. These factors include in particular a sudden or prolonged drop on the financial markets following economic, political or social events or the financial difficulties that one company in particular may encounter.

For the investor, the major risk involved in any investment in equities is the potential loss of value of this investment. Investments in this type of Sub-fund are subject to market fluctuations and the investor runs the risk of recovering an amount lower than that which he/she invested. However, the transferable securities which make up these Sub-funds are valued at each Valuation date on the basis of the latest price on the main market for the securities in question, on the basis of any other price deemed more representative of the value of these securities, on the basis of their latest-known market values or on the basis of their probable realization value determined in good faith by the Board of Directors in accordance with the provisions of paragraph 11.8.1. To the extent that these transferable securities are issued by particularly large-sized companies, they enjoy a high degree of liquidity.

The attention of subscribers to these Equity Sub-funds is drawn to the fact that these Equity Sub-funds may, depending on their investment policy, be exposed to additional risks as described in greater detail in section 14.2. "Risk factors of the Sub-funds" below.

II) Bond Sub-funds

The attention of subscribers to these Sub-funds is drawn to the fact that these Sub-funds are mainly exposed to the interest-rate and credit risks involved in any investment in bonds. For the investor, the major risk involved in any investment in bonds is the potential loss of value of this investment following (i) an increase in interest rates and/or (ii) a deterioration of the quality of the issuer, or even (iii) its default in reimbursing the capital at the maturity date or in paying interest. For these reasons, the investor runs the risk of recovering an amount lower than that which he/she invested.

The attention of subscribers to these Bond Sub-funds is drawn to the fact that these Bond Sub-funds may, depending on their investment policy, be exposed to additional risks as described in greater detail in section 14.2. "Risk factors of the Sub-funds" below.

III) Mixed Sub-funds

The attention of subscribers to these Sub-funds is drawn to the fact that they are principally exposed to the risk involved in any investment in equities and bonds as described in paragraphs I) and II) above.

Consequently an investor investing in these Sub-funds runs the risk of recovering an amount lower than that which he/she invested.

However, the Mixed Sub-funds generally have a greater risk spread, which thus renders them less sensitive to the risks specific to "Equity" Sub-funds.

The attention of subscribers to these Mixed Sub-funds is drawn to the fact that these Mixed Sub-funds may, depending on their investment policy, be exposed to additional risks as described in greater detail in section 14.2. "Risk factors of the Sub-funds" below.

14.2. Risk factors of the Sub-funds

1. Risk of investments in emerging countries

The attention of potential investors is drawn to the fact that the Sub-funds will be able to invest in transferable securities issued by emerging countries and which involve a degree of risk greater than in developed countries with regard in particular to:

a) Volatility

Numerous emerging markets are relatively limited, have low trading volumes, suffer from periods of illiquidity and are characterized by substantial price volatility.

b) Liquidity shortage

The trading volume on certain emerging markets is significantly lower than that of the largest securities exchanges at the global level. Consequently increasing and selling certain shareholdings may require a certain amount of time and be carried out at unfavourable prices.

c) Restrictions on investment and repatriation

Certain emerging markets for attractive securities restrict to varying degrees foreign investment in equities. The Fund may not be able to invest in certain attractive transferable securities owing to the fact that foreign shareholders hold the maximum amount authorized by the current laws.

The repatriation of investment income, capital and the proceeds of sales by foreign investors may require registration and/or government approval and may be subject to exchange-control restrictions.

d) Clearing risks

The clearing systems of the emerging markets may be less well organized than those of the developed countries. Clearing operations may be delayed and the cash or transferable securities held by the Fund can be affected on account of failure or malfunctioning of the clearing systems. Market practice may thus require that settlement be completed prior to delivery of the transferable security which is being purchased, or that the delivery of a transferable security which is being sold be completed prior to settlement. In such cases the failure of the stock exchange company or bank (the "Counterparty") through which the transaction is effected may cause a loss to the Fund.

e) Political and economic uncertainty and instability

Certain emerging markets can be exposed to social, political and economic uncertainty. Their political and social conditions may have an unfavourable influence on the Fund's investments in the emerging markets.

Political changes may result in significant changes to the taxation of foreign investors. These changes may concern legislation, how the laws are interpreted or the decision to allow foreign investors to benefit from international taxation treaties. Such changes may have a retroactive effect and a negative impact on the return on investment of the Fund's shareholders.

2. Risks inherent to specific countries

a) Investments made in Russia

Investments made in Russia are exposed to additional risks relating to ownership and safe custody of securities. In Russia, ownership of securities is evidenced by entries in the accounting books of a company or its registrar (which is neither an agent of the Depositary Bank nor accountable to the latter). No certificate proving ownership of Russian companies will be held by the Depositary Bank or any of its local correspondent banks or in an effective central safe custody system. A result of this system and the lack of regulation and intervention by the public authorities is a risk that the Fund could lose its registration and ownership of Russian securities as a result of fraud, negligence or an oversight. Furthermore Russian securities involve an increased holding risk because, in keeping with market practice, they are kept by Russian institutions which do not have adequate insurance covering losses due to theft, destruction or failure while the assets in question are held by these institutions.

b) Risks linked with dealing in securities in China via the Shanghai-Hong Kong Stock Connect and the Shenzhen-Hong Kong Stock Connect

Some of the Sub-funds may seek exposure to stocks issued by companies listed on China stock exchanges via the Shanghai-Hong Kong Stock Connect or the Shenzhen-Hong Kong Stock Connect, which are trading programmes that link the stock markets in Shanghai or, respectively, Shenzhen and Hong Kong and which may be subject to additional risk factors. Investors in Hong Kong and Mainland China can trade and settle shares listed on the other market via the exchange and clearing house in their home market. The Shanghai-Hong Kong Stock Connect **and the Shenzhen-Hong Kong Stock Connect** are subject to quota limitations, which may restrict a Sub-fund's ability to deal via the Shanghai-Hong Kong Stock Connect **and the Shenzhen-Hong Kong Stock Connect** on a timely basis. This may impact that Sub-fund's ability to implement its investment strategy effectively. Initially, the scope of Stock Connect includes all constituent stocks of the SSE 180 Index, the SSE 380 Index and all SSE-listed China A Shares and certain other securities as well as select securities listed on the Shenzhen Stock Exchange including any constituent stock of the Shenzhen Stock Exchange Component Index and the Shenzhen Stock Exchange Small/Mid Cap Innovation Index which has a market capitalisation of RMB6 billion or above and all Shenzhen Stock exchange listed shares of companies which have issued both China A-shares and H shares. Investors should note that a security may be recalled from the scope of the Shanghai-Hong Kong Stock Connect or the **Shenzhen-Hong Kong Stock Connect**. This may adversely affect the Sub-fund's ability to meet its investment objective, e.g. when it wishes to purchase a security which is recalled from the scope of the Shanghai-Hong Kong Stock Connect or the **Shenzhen-Hong Kong Stock Connect**.

Under the Shanghai-Hong Kong Stock Connect and the **Shenzhen-Hong Kong Stock Connect**, China A shares listed companies and trading of China A shares are subject to market rules and disclosure requirements of the China A shares market. Any changes in laws, regulations and policies of the China A shares market or rules in relation to the Shanghai-Hong Kong Stock Connect or the **Shenzhen-Hong Kong Stock Connect** may affect share prices. Foreign shareholding restrictions and disclosure obligations are also applicable to China A shares.

The sub-managers will be subject to restrictions on trading (including restriction on retention of proceeds) in China A shares as a result of its interest in the China A shares. The sub-managers are solely responsible for compliance with all notifications, reports and relevant requirements in connection with their interests in China A shares.

Under the current Mainland China rules, once an investor holds up to 5% of the shares of a company listed on a Mainland China stock exchange, the investor is required to disclose his interest within three working days and during which he cannot trade the shares of that company. The investor is also required to disclose any change in his shareholding and comply with related trading restrictions in accordance with the Mainland China rules.

According to existing Mainland China practices, the Fund as beneficial owner of China A shares traded via the Shanghai-Hong Kong Stock Connect or the **Shenzhen-Hong Kong Stock Connect** cannot appoint proxies to attend shareholders' meetings on its behalf.

3. Risks linked to particular instruments used for investments

a) Risk of investing in high-yield securities

Investors' attention must be drawn to the fact that some Sub-funds may invest in "high-yield" or "sub-investment grade" securities.

These securities correspond to the category described as "speculative" by the principal rating agencies, involving higher levels of (1) credit risk, as their issuers are more likely to default during challenging economical times, such as a recession or a sustained period of rising interest rates, that could affect their ability to repay the face value of the securities and the interests, and (2) market risk, as high-yield securities may also be subject to higher price volatility depending on interest-rate fluctuations, the market players' perception of the issuer's credibility and overall market liquidity.

Consequently the Sub-funds making use of this type of product are intended for investors experienced enough to be able to assess appropriately the risks and opportunities of this type of investment.

b) Risks relating to investments in 144 A Securities

Certain Sub-funds may invest in particular in 144A Securities, as described in greater detail in their respective investment policy.

144A Securities are securities that benefit from an exemption from the registration obligation laid down by the 1933 "Securities Act" of the United States of America for resale to certain approved institutional purchasers, as defined by the 1933 "Securities Act" of the United States of America. Since the administrative expenses are reduced by this exemption, investors in the Sub-funds concerned will be able to benefit from a higher return on their investments if 144A Securities are used. On the other hand, given that 144A Securities are traded between a limited number of investors, the price volatility of certain 144A Securities may increase and, under extreme market conditions, the liquidity of certain 144A Securities may decrease.

c) Use of derivative financial instruments

Each Sub-fund may, provided that it complies with the investment restrictions laid down in section 13, invest in derivative financial instruments traded on an official market or over the counter in order to manage the portfolio efficiently and/or in order to protect its assets and liabilities but also by way of a principal investment for some Sub-funds, as stated in greater detail in their respective investment policy set out in the annex. Contracts on derivative financial instruments may lead to a long-term commitment on the part of the Fund or to financial liabilities which may be amplified by leverage and entail variations in the market value of the underlying. Leverage means that the counterpart necessary to conclude the operation is considerably less than the face value of the subject of the contract. If a transaction is conducted with leverage, a relatively minor correction in the market will have a proportionally greater impact on the value of the investment for the Fund and this may happen both to the detriment and to the advantage of the Fund.

By investing in derivative financial instruments traded on an official market or over the counter, the Fund is exposed to:

- a market risk, characterized by the fact that fluctuations are likely to negatively affect the value of a contract on derivative financial instruments following variations in the price or value of the underlying;
- a liquidity risk, characterized by the fact that a party may be unable to meet its actual obligations; and
- a management risk, characterized by the fact that a party's internal risk-management system may be inadequate or may not be able to properly control the risks that result from the operations on derivative financial instruments.

The participants in the over-the-counter market are also exposed to a counterparty risk to the extent that this type of market does not provide any protection if a counterparty defaults, owing to the absence of an organized clearing system.

The use of derivative financial instruments may not be regarded as a guarantee that the envisaged objective will be attained.

Certain Sub-funds may in particular invest in CDS, as described in greater detail in their respective investment policy.

If the reference entity as indicated in the CDS contract is affected by a credit event, the CDS contract is unwound and gives rise to a settlement in kind or in cash. In the case of a settlement in kind, the seller of protection takes delivery of an unpaid debt security (or bond) issued by said reference entity in exchange for payment of the face value (or the reference price) to the buyer of protection.

In the case of a settlement in cash, the seller of protection pays the difference between the face value (or the reference price) and the amount recovered from this debt (or bond) to the buyer of protection.

The credit risk of the reference entity is thus transferred from the buyer of protection to the seller of protection.

Credit events generally include bankruptcies, insolvency, court-ordered re-organizations/liquidations, debt rescheduling or failures to pay the debts owed.

Certain Sub-funds may enter into swap agreements, such as TRS, for the purposes of attempting to obtain a particular desired return at a lower cost to the Sub-funds than if the Sub-funds had invested directly in an instrument that yielded that desired return. In a standard TRS transaction, two parties agree to exchange the returns (or differential in rates of return) earned or realised on particular predetermined investments or instruments. The gross returns to be exchanged or "swapped" between the parties are calculated with respect to a "notional amount", i.e. the return on or increase in value of a particular US dollar amount invested at a particular interest rate, in a particular foreign currency, or in a "basket" of securities representing a particular index. The "notional amount" of the TRS is only a fictive basis on which to calculate the obligations which the parties to a TRS have agreed to exchange. The Sub-funds' obligations (or rights) under a TRS will generally be equal only to the net amount to be paid or received under the agreement based on the relative values of the positions held by each party to the agreement (the "net amount").

Whether the Sub-funds' use of TRS will be successful in furthering its investment objective will depend on the ability of the Sub-Managers to correctly predict whether certain types of investments are likely to produce greater returns than other investments. Because they are two-party contracts and because they may have terms of greater than seven (7) calendar days, TRS may be considered to be illiquid. Moreover, the relevant Sub-funds bear the risk of loss of the amount expected to be received under a TRS in the event of the default or bankruptcy of a TRS counterparty.

The International Swaps and Derivatives Association (ISDA) has published standard documentation for these transactions; it is included in the "ISDA Master Agreement".

Further information on the risk management method applicable to the Fund is provided in section 16 "Risk Management Procedure".

d) Risks connected with investments made in other UCIs

Investment by the Fund in other UCIs or UCITS involves the following risks:

- the value of an investment represented by a UCI or UCITS in which the Fund invests may be affected by fluctuations of the currency of the country in which this UCI or UCITS invests, or by the exchange control regulations, the enforcement of the tax laws of the different countries, including withholding taxes, changes of government or economic or monetary policy in the countries concerned. Moreover, it should be noted that the Net asset value per Share of the Fund will fluctuate as a function of the net asset value of the UCIs and/or the UCITS in question particularly where UCIs investing mainly in equities are concerned since they exhibit higher volatility than UCIs investing in bonds and/or in other liquid financial assets;

- moreover, owing to the fact that the Fund will invest in other UCIs or UCITS, the investor is exposed to a potential duplication of expenses and fees.

- furthermore the value of an investment represented by a UCI or UCITS in which the Fund invests may be affected by the following factors:

- liquidity shortage;
- suspension of the net asset value;
- volatility of the investments made;
- lack of available information;
- valuation of UCIs or UCITS;
- effects of investments or redemptions made by the investors of the UCIs or UCITS;
- risk concentration;
- lack of recent data;
- use of specific techniques by UCIs or UCITS or their investment managers;
- use of leverage;
- risks due to investments in financial instruments;
- risks of government interventions.

Nevertheless the risks connected with investments in other UCIs or UCITS are limited to the loss of the investment made by the Fund.

e) Risks connected with investments made in warrants

Warrants entitle those who invest in them to subscribe to a given number of shares in a given company at a predetermined price and for a given period of time.

The price of this right is considerably lower than the price of the share itself. Consequently the fluctuations in the price of the share underlying the warrant are multiplied all the more in the fluctuations in the price of the warrant. This multiplier is called leverage or leverage effect. The greater this leverage, the more attractive the warrant. By comparing the premium paid for the right attached to a warrant with its leverage, the relative value of warrants can be determined. The levels of premium paid for this right and leverage may increase or decrease as a function of investors' reactions. Warrants are therefore more volatile and more speculative than conventional shares. Shareholders must be aware of the extreme volatility of the prices of warrants and that, moreover, it is not always possible to dispose of them. The leverage associated with warrants may entail the loss of the entire price or the premium of the warrant concerned.

f) Risks relating to investments made in ABS and MBS

Some Sub-funds may invest in particular in ABS and in MBS, as described in greater detail in their respective investment policy.

Early or late repayment of the principal of an underlying loan in relation to the amortization schedule of the securities in the pool held by the Sub-funds may lower the profitability rate when the Sub-funds re-invest this principal. Furthermore, as is the case in general for bonds that can be repaid early, if the Sub-funds have purchased the securities at a premium, early repayment would reduce the value of the security in relation to the premium paid. In the event of a decrease or increase in interest rates, the value of a security of the type concerned generally decreases or increases, but to a lesser extent than that of other fixed-term bonds without an early repayment clause.

g) Risk of investing in contingent convertible bonds

Certain Sub-funds may invest in contingent convertible bonds, as described in greater detail in their respective investment policy.

A contingent convertible bond is a debt instrument which may be converted into the issuer's equity or be partly or wholly written off if a predefined trigger event occurs. The terms of the bond will set out specific trigger events and conversion rates. Trigger events may be outside of the issuer's control. A common trigger event is the decrease in the issuer's capital ratio below a given threshold. Conversion may cause the value of the investment to fall significantly and irreversibly, and in some cases even to zero.

Coupon payments on certain contingent convertible bonds may be entirely discretionary and may be cancelled by the issuer at any point, for any reason, and for any length of time.

Contrary to typical capital hierarchy, contingent convertible bond investors may suffer a loss of capital before equity holders.

Most contingent convertible bonds are issued as perpetual instruments which are callable at pre-determined dates. Perpetual contingent convertible bonds may not be called on the pre-defined call date and investors may not receive return of principal on the call date or at any date.

There are no widely accepted standards for valuing contingent convertible bonds. The price at which bonds are sold may therefore be higher or lower than the price at which they were valued immediately before their sale.

h) Risk of investing in subordinated bonds

Certain Sub-funds may invest in subordinated bonds, also known as "junior securities", which, in the case of insolvency of the issuer, rank below other debt instruments in relation to repayment, in particular below senior bonds which take priority over other debt instruments of the issuer. The chance of receiving any repayment of subordinated bonds on insolvency is reduced and therefore subordinated bonds represent a greater risk to the investor.

i) Risks involved in companies with a low market capitalization

The transferable securities are issued by companies having a low market capitalization which may involve a lower degree of liquidity than conventional shares.

4. Other risks

a) Counterparty risk

The Sub-funds may be exposed to the risk of loss resulting from the fact that the counterparty to a transaction may fail to meet its contractual obligations before the transaction has been definitively settled in the form of a financial flow, in particular in connection with time deposits or fiduciary deposits and/or in connection with transactions concerning over-the-counter derivative financial instruments (such as TRS) or efficient portfolio management techniques. The default of a counterparty may give rise to additional lead-times in realizing gains, to the impossibility of realizing these gains, a decrease in the value of the assets for the Sub-fund concerned and an increase in costs connected with the actions

undertaken to enforce one's rights. In particular, in the event of bankruptcy or insolvency of a counterparty, the Sub-funds may undergo delays in realizing their investments and substantial losses, including losses of the value of the investments during the period in which the Fund undertakes the necessary actions to obtain fulfilment of the contractual obligations of the counterparty concerned, in particular in connection with a liquidation procedure. Similarly, it is not guaranteed that the Fund will be able to obtain fulfilment of the counterparty's obligations and the Sub-funds concerned may thus lose the total amount of their investment that is exposed to the credit risk of the defaulting counterparty, that is, the part of the transaction that is not covered by a financial guarantee or collateral. It is also possible that transactions exposing the Sub-funds to a credit risk may be terminated before their terms, for example, owing to changes in the fiscal, accounting or prudential regulatory framework occurring unexpectedly after having initiated the transaction with the counterparty concerned.

Furthermore uncertainty over the sovereign debt crisis of certain States and/or a change of national currency or a new legal framework imposed at the national or supranational level may have a significant impact on the counterparties' ability to meet their obligations. It is possible that certain counterparties may become incapable of continuing, or not disposed to continue, to make payments in the agreed currency, in spite of any contractual bond obliging them to do so, knowing in particular that the fulfilment of these obligations may become difficult in practice, even if the provisions of the contract require fulfilment of this obligation.

b) Institutional Risks

All assets of the Fund will be held under the supervision of the Depositary Bank. The Depositary Bank is authorized to use correspondents to safekeep the Fund's assets, which may include affiliates of the sub-manager. The institutions, including brokerage firms and banks, with which the Fund (directly or indirectly) does business, or to which portfolio securities have been entrusted for safekeeping purposes, may encounter financial difficulties that impair the operational capabilities or the capital position of the Fund. The Fund intends to limit its securities transactions to well-capitalized and established banks and brokerage firms in an effort to mitigate such risks.

c) Liabilities risk between Classes for all the Classes

Although there is an accounting allocation of the assets and liabilities for each Class, there is no division between the Classes of the same Sub-fund. Consequently, if the liabilities of one Class exceed its assets, the creditors of said Class of the Sub-fund will be able to exercise a claim on the assets allocated to the other Classes of the Sub-fund.

To the extent that there is an accounting allocation of the assets and liabilities without any legal division between the Classes, any transaction relating to one Class may affect the other Classes of the same Sub-fund.

The above risk of contagion (also known as spill-over) is particularly relevant to Share Classes using a derivative overlays to systematically hedge out currency risk could also cause a disadvantage to investors in other Share Classes of the same Sub-fund. The application of a derivative overlay in a currency risk hedged share class therefore introduces potential counterparty and operational risk for all investors in the Sub-Fund to which the Share Class with a derivative overlay belongs to.

d) Collateral Management Risk

Collateral management risk derives from transactions involving the use of derivative financial instruments traded over-the-counter or from the use of efficient portfolio management techniques.

The collateral management risk involves the following specific risks:

- operational risk being the risk that operational processes, including those related to the safekeeping of assets, valuation and transaction processing may fail, resulting in losses, due to human errors, physical and electronic system failures and other business execution risks as well as external events;
- liquidity risk, which is as described below;
- counterparty risk, which is as described above;
- custody risk: the assets of the Fund are safe-kept by the Depositary Bank and investors are exposed to the risk of the Depositary Bank not being able to fully meet its obligation to reconstitute in a short timeframe all of the Fund's assets in the case of bankruptcy of the Depositary Bank. The Fund's assets will be identified in the Depositary Bank's books as belonging to the Fund. Securities and debt obligations (including loan assignments and loan participations) held by the Depositary Bank will be segregated from other assets of the Depositary Bank which mitigates but does not exclude the risk of non-restitution in case of bankruptcy. However, no such segregation applies to cash which increases the risk of non-restitution in case of bankruptcy. The Depositary Bank does not keep all the Fund's assets itself but uses a network of sub-custodians which are not part of the same group of companies as the Depositary Bank. Investors are also exposed to the risk of bankruptcy of the sub-custodians.
- legal risk: the Fund must comply with various legal and regulatory requirements, including requirements imposed by the securities laws and companies laws in various jurisdictions. The interpretation, the implementation as well as the enforcement of rights under such various legal and regulatory requirements may involve significant uncertainties and can be often contradictory. This may impact the enforceability of the various agreements and guarantees entered into by the Fund. Additionally, legislation may be imposed

retrospectively or may be issued in the form of internal regulations not generally available to the public. Courts may not adhere to the legal and regulatory requirements, and the relevant contracts; it cannot be guaranteed that any recourse or judgment obtained in a foreign court will be enforced in certain jurisdictions where the assets relating to securities held by the Fund are located.

- reinvestment risk: a Sub-fund may also incur a loss in reinvesting cash collateral received, where permitted. Such a loss may arise due to a decline in the value of the investments made. A decline in the value of such investments would reduce the amount of collateral available to be returned by the Sub-fund to the counterparty as required by the terms of the transaction. The Sub-fund would be required to cover the difference in value between the collateral originally received and the amount available to be returned to the counterparty, thereby resulting in a loss to the Sub-fund.

e) Liquidity risk

There are two forms of liquidity risk:

- asset side liquidity risk that refers to the inability of a Sub-fund to sell a position at its quoted price or market value due to such factors as a sudden change in the perceived value or credit worthiness of such position, or due to adverse market conditions generally; and
- liability side liquidity risk that refers to the inability of a Sub-fund to meet a redemption request, due to the inability of the Sub-fund to sell positions in order to raise sufficient cash to meet the redemption request. This may be due to adverse conditions on the markets where the Fund's securities are traded, which may have an adverse impact on the Net asset value and on the ability of a Sub-fund to meet redemption requests in a timely manner.

Certain securities may also be illiquid because of a limited trading market, the financial weakness of the securities' issuers as well as restrictions on resale or transfer. These securities may also be illiquid in the sense they cannot be sold within seven days at approximately the price at which they are valued by the Central Administration. Such securities involve greater risk than securities with more liquid markets and they may have an adverse impact on the Fund's ability to sell particular securities when necessary to meet its liquidity needs.

14.3. Conflict of interests

The Management Company, its agents, representatives or any other entity of the same group and other service providers may conduct transactions in which they have, directly or indirectly, an interest which may involve a risk of conflict with the interests of the Fund or its Sub-funds.

These conflicts of interest include in particular management of other funds, purchases and sales of shares of the Sub-funds or other entities, brokerage services, securities deposit and custodian services and acting as a director, manager, adviser or representative of other funds or companies, including companies in which a Sub-fund might invest.

The Management Company and each of its agents will ensure that their respective obligations are not compromised by the above-mentioned involvements.

More specifically, the Management Company, by virtue of the rules of conduct applicable to it, must try to avoid conflicts of interest and, when they cannot be avoided, ensure that its clients (including the Fund) are treated equitably.

14.4. FATCA requirements

Although the Fund endeavours to meet the obligations to which it is subject to avoid the 30% withholding tax, there is no guarantee that it will be able to do so. If the Fund were to become liable for this withholding tax due to the application of FATCA, the value of the Shares held by all the shareholders would be negatively impacted.

The Fund and/or its shareholders may also be indirectly affected by the fact that a non-U.S. financial entity may not comply with the FATCA rules even though the Fund meets its own FATCA obligations.

14.5 Remuneration of the Management Company

Pursuant to article 111bis of the Law, the Management Company implemented a remuneration policy that is consistent with and promotes sound and effective risk management. Such policy as well as related practices, must not encourage any risk taking that is inconsistent with the risk profile, the Prospectus or the Articles of the Fund, and must not impair compliance with the Management Company's duty to act in the best interest of the Fund.

The remuneration policy and related practices shall apply to categories of staff, including senior management, risk takers, control functions, and any employee receiving total remuneration that falls within the bracket of senior management and risk takers, whose professional activities have a material impact on the risk profile of the Management Company or the Fund.

The remuneration includes a fixed (essentially the base salary) and variable component (annual bonuses). The variable component can be paid in cash, share related securities or a combination of both. A significant portion of the bonus can be deferred for at least three years and payment of bonus is subject to claw back provisions.

The details of the up-to-date remuneration policy, including, but not limited to, a description of how remuneration and benefits are calculated, the identity of persons responsible for awarding the remuneration and benefits, including the composition of the compensation committee is available on the Website. Paper copy will be made available free of charge upon request.

15. FINANCIAL TECHNIQUES AND INSTRUMENTS

15.1. General provisions

In order to ensure efficient management of the portfolio (in particular to create additional capital or income for the Fund) and/or to protect its assets and liabilities, the Fund may make use in each Sub-fund of techniques and instruments which concern transferable securities and money-market instruments, as described below.

When these transactions concern the use of derivative instruments, the conditions and limits set in section 13 "Investment restrictions", more particularly, in points 1 g), 5 a) to e), 7 and 8 must be observed.

The use of derivative-instrument transactions or other financial techniques and instruments must not under any circumstances lead the Fund to depart from the investment objectives set out in the Prospectus nor to add additional major risks to the risk management procedure described in section 16 below.

The Fund may in particular enter into transactions on options, forward contracts on financial instruments, swap contracts and options on such contracts.

In addition, each Sub-fund is, in particular, authorized to engage in transactions the purpose of which is to sell or purchase forward exchange-rate contracts, to sell or purchase forward currency contracts and to sell call options or to purchase put options on currencies in order to hedge its assets against exchange-rate fluctuations or to optimize its yield, that is, with a view to good management of the portfolio.

In order to reduce exposure to counterparty risk resulting from transactions on over-the-counter derivative financial instruments, the Fund may receive financial guarantees in accordance with section 15.3. below.

In order to manage the portfolio efficiently, the Fund may also engage in:

- 1) Securities Lending and borrowing transactions;
- 2) Sale with a right of repurchase transactions;
- 3) Repo/Reverse Repo transactions.

All income resulting from these efficient portfolio management techniques will be returned in full to the Sub-fund concerned after deduction of the resultant direct and indirect operating costs. The policy on these operating costs is stated in section 9.10. above for the efficient portfolio management techniques.

15.2. Specific efficient portfolio management techniques and TRS

The use by any Sub-fund of efficient portfolio management techniques or TRS will be specified in the annex relating to the relevant Sub-fund.

15.2.1. Total Return Swaps

Use may be made of Total Return Swaps or an equivalent instrument on the following products:

- An individual transferable security ;
- An index whose allocation, or allocation principles, is/are public ;
- Equities and bonds indices, equities baskets as well as commodities indices and variance swaps ;
- Exchange traded funds.

These contracts shall be entered into with good-quality financial institutions based in OECD Member States that are subject to prudential supervision (such as credit institutions or investment firms) and selected from a list of entities duly validated by the Management Company, based amongst others, on their Tier1 ratio, their results to European stress tests etc. It is specified that though the credit rating of such financial institutions is being considered as part of their selection, the Management Company does not define and rely on a minimum credit rating level.

In no event these financial institutions have discretion on the composition of the portfolio of any of the Sub-funds using Total Return Swaps or an equivalent instrument.

Most of the TRS used by the Sub-funds will be unfunded unless otherwise stated in their investment policies.

15.2.2. Securities Lending and borrowing operations

The Fund may engage in Securities Lending and borrowing operations provided that the following rules are complied with.

As at the date of this Prospectus, the Securities Lending Agent is RBC Investor Services Trust, a trust company incorporated under the laws of Canada having an office at 3rd floor, 155 Wellington Street West, Toronto, Ontario M5V 3L3.

I. Rules intended to ensure proper execution of lending and borrowing operations

The Fund may lend or borrow equities or fixed-income securities, in which the Fund may make investments in accordance with its investment objectives, either directly or within the scope of a standardized lending system organized by a recognized securities clearing system or by a financial institution specializing in this type of transaction. Such financial institution shall be chosen amongst good-quality financial institutions based in OECD Member States that are subject to prudential supervision (such as credit institutions or investment firms) and selected from a list of entities duly validated by the Management Company, based amongst others, on their Tier1 ratio, their results to European stress tests etc. It is specified that though the credit rating of such financial institutions is being considered as part of their selection, the Management Company does not define and rely on a minimum credit rating level.

In any event the counterparty to the Securities Lending contract will be selected with a minimum credit rating of investment grade, and will be subject to prudential supervisory rules deemed by the CSSF to be equivalent to those provided for by the EU legislation.

In the context of its lending operations, the Fund must, as a matter of principle, receive financial guarantees in accordance with section 15.3 below.

II. Conditions and limits of the lending and borrowing operations

The Fund may engage in Securities Lending and borrowing operations on condition that it complies with the rules of the applicable laws, regulations and CSSF circulars, in particular but not limited to CSSF circulars 08/356 and 14/592, ESMA Guidelines n° 2014/937 and Regulation (EU) 2015/2365.

In particular, the Fund must be able at all times (i) to request the return of the securities lent or (ii) to terminate any Securities Lending transaction that it has entered into, so that it is able at all times to meet its redemption obligations and that these transactions do not compromise management of the Fund's assets in accordance with the investment policy of the Sub-fund concerned.

15.2.3. Sale with a right of repurchase transactions

The Fund may engage in an ancillary capacity in Sales with a right of repurchase transactions which consist of purchases and sales of securities the clauses of which bestow on the vendor the right to repurchase the securities sold from the purchaser at a price and a date stipulated between the two parties when the contract is entered into.

The Fund may act either as purchaser or as vendor in Sales with a right of repurchase transactions. Its intervention in the transactions in question is, however, subject to the following rules:

I. Rules intended to ensure proper completion of the Sale with a right of repurchase transactions

The Fund may only buy or sell securities, in which the Fund may make investments in accordance with its investment objectives, with a repurchase clause if the counterparties in these transactions are financial institutions specializing in this type of transaction. Such financial institutions shall be chosen amongst good-quality financial institutions based in OECD Member States that are subject to prudential supervision (such as credit institutions or investment firms) and selected from a list of entities duly validated by the Management Company, based amongst others, on their Tier1 ratio, their results to European stress tests etc. It is specified that though the credit rating of such financial institutions is being considered as part of their selection, the Management Company does not define and rely on a minimum credit rating level.

II. Conditions and limits of the Sale with a right of repurchase transactions

The Fund may engage in the Sale with a right of repurchase transactions on condition that it complies with the rules of the applicable laws, regulations and CSSF circulars, in particular but not limited to CSSF circulars 08/356 and 14/592, ESMA Guidelines n° 2014/937 and Regulation (EU) 2015/2365.

15.2.4. Repo/Reverse Repo transactions

The Fund may engage in Repo and/or Reverse Repo transactions, as more detailed below, always in relation to equities or fixed-income securities, in which the Fund may make investments in accordance with its investment objectives.

I. Reverse Repo transactions

The Fund can engage in Reverse Repo transactions consisting of agreements at the maturity date of which the transferor (counterparty) is under an obligation to repurchase the asset concerned by the reverse repurchase agreement and the Fund is under an obligation to return the asset concerned by the reverse repurchase agreement.

The Fund shall ensure that the counterparties in these Reverse Repo transactions are financial institutions which specialize in this type of transaction and that they are chosen amongst good-quality financial institutions based in OECD Member States that are subject to prudential supervision (such as credit institutions or investment firms) and selected from a list of entities duly validated by the Management Company, based amongst others, on their Tier1 ratio, their

results to European stress tests etc. It is specified that though the credit rating of such financial institutions is being considered as part of their selection, the Management Company does not define and rely on a minimum credit rating level.

Throughout the whole duration of the Reverse Repo agreement, the Fund may not sell or pledge the securities that are the subject of this agreement unless the Fund has other means of cover. The Fund must ensure that it keeps the scale of Reverse Repo transactions at a level such that it can execute at all times the redemption applications submitted by shareholders.

The Fund shall ensure that it is able, at all times, to recall the total amount in cash or to terminate the reverse repo agreement either on a pro rata temporis basis or on a mark-to-market basis.

When cash can be recalled at any time on a mark-to-market basis, the mark-to-market value of the reverse repurchase agreement is used to calculate the net asset value of the Fund.

The securities that are the subject of reverse repo transactions must be deemed to be financial guarantees that comply with the conditions laid down in section 15.3. below.

Reverse Repo agreements with a term not exceeding seven days are deemed to be transactions that enable the Fund to recall the assets at any time.

II. Repo transactions

The Fund can engage in Repo transactions consisting of agreements at the maturity date of which the Fund is obliged to repurchase the asset concerned by the agreement while the transferee (counterparty) is under an obligation to return the asset concerned by the agreement.

The Fund shall ensure that the counterparties in these Repo transactions are financial institutions which specialize in this type of transaction and that they are chosen amongst good-quality financial institutions based in OECD Member States that are subject to prudential supervision (such as credit institutions or investment firms) and selected from a list of entities duly validated by the Management Company, based amongst others, on their Tier1 ratio, their results to European stress tests etc. It is specified that though the credit rating of such financial institutions is being considered as part of their selection, the Management Company does not define and rely on a minimum credit rating level.

The Fund must hold, at the maturity date of the Repo agreement, the assets necessary to pay the price agreed for the securities to be returned to the Fund. The Fund must ensure that it keeps the scale of Repo transactions at a level such that it can execute at all times the redemption applications submitted by shareholders.

Repo transactions with a term not exceeding seven days are deemed to be transactions that enable the Fund to recall the assets at any time.

15.3. Financial guarantees management

The counterparty risk in transactions on over-the-counter derivative instruments, combined with that resulting from the other efficient portfolio management techniques, may not exceed 10% of the net assets of a given Sub-fund when the counterparty is one of the banking institutions referred to in section 13.1. g) above, or 5% of its assets in the other cases.

In this respect and in order to reduce exposure to counterparty risk resulting from transactions on over-the-counter derivative financial instruments and efficient portfolio management techniques, the Fund may receive financial guarantees.

This collateral must be provided in the form of cash, bonds issued or guaranteed by Member States of the OECD or by their regional or local authorities or by supranational institutions and organizations of a Community, regional or global nature.

The financial guarantees received in the form of a transfer of ownership shall be held with the Depository Bank or by one of its agents or a third party under its control. As far as the other types of financial guarantee contracts are concerned, financial guarantees may be held by a third-party custodian subject to prudential supervision and which has no connection with the provider of the financial guarantees.

Financial guarantees other than those in cash will be neither sold nor re-invested nor pledged. They shall comply at all times with the criteria defined in the ESMA Guidelines n°2014/937 in terms of liquidity, valuation, issuer credit standing, correlation and diversification, with an exposure to a given issuer of a maximum of 20% of the net asset value of the Fund.

By way of derogation, in accordance with the ESMA Guidelines n° 2014/937, each Sub-fund can in practice be entirely guaranteed by bonds issued or guaranteed by an OECD Member State. In this case, the Sub-fund must receive transferable securities from at least six different issues with an exposure to a given issue of a maximum of 30% of the net asset value of this Sub-fund.

The collateral received in relation to a Securities Lending operation, will be highly liquid and in the form of equity and/or transferable securities issued or guaranteed by highly rated OECD Member States or by their local authorities or by supranational institutions and organizations with no restrictions on maturity, type or liquidity.

The financial guarantees received in cash may be re-invested. Assuming this is the case, this re-investment shall comply with the investment policy of the Fund and shall meet the following conditions laid down by the ESMA Guidelines:

- Deposits must be placed with entities specified in section 13.1.g) above;
- Investment in high-quality government bonds;
- Use for purposes of Reverse Repo agreements entered into with banking institutions subject to prudential supervision and provided that the Fund is able to recall at any time the total amount of the cash, taking account of accrued interest;
- Investment in short-term money-market UCIs as defined in the Guidelines on a common definition of European money market funds.

These cash guarantees liable to be re-invested shall meet the same diversification requirements as the guarantees received in a form other than cash. Without prejudice to the provisions applicable under Luxembourg law, the re-investment of these financial guarantees received in cash shall be taken into account in the calculation of the aggregate exposure of the Fund.

These financial guarantees will be valued every day in accordance with section “11.8.1. Determination of the Net asset value”. However, the Fund will apply the following minimum haircuts:

Over-the-counter derivative instruments	
Type of financial guarantee received	Haircut
Cash	
EUR-USD-GBP	0%
Other currencies	0-10%
Government bonds ¹	
Maturity of up to 1 year	0%
Maturity from 1 to 10 years	1%
Maturity of more than 10 years	3%
Securities Lending	
Type of financial guarantee received	Haircut
Equities	2-5% ³
Government bonds ²	2-5% ³
Cash ⁴	0%
Repo/Reverse Repo	
Type of financial guarantee received	Haircut
Government bonds ²	0%

¹ Issued or guaranteed by OECD Member States

² Issued or guaranteed by highly rated OECD Member States or their regional or local authorities or by highly rated supranational organizations and institutions

³ The level of haircut effectively applied depends on the type of assets lent.

⁴ In the same currency as the securities lent

Collateral will be valued, on a daily basis, using available market prices and taking into account appropriate discounts which will be determined for each asset class based on the haircut policy adopted by the Management Company.

Valuation of the collateral in relation to Securities Lending

The aggregate market value of the collateral provided shall never be less than the percentage of the aggregate market value of the securities lent, which is the higher of the following two values, (a) the minimum percentage required by any applicable legislation or regulatory authority having jurisdiction over the Fund and (b) prevailing market practice.

The minimum margin requirements are 102% of the value of the bonds lent and 105% of the value of the equities lent. The Fund has appointed the Securities Lending Agent as its collateral manager in respect of the collateral with the authority to service, administer and exercise any and all rights and remedies, on behalf of the Fund in respect of the collateral. The Securities Lending Agent will monitor and calculate the market value of both the collateral and the securities lent, at least daily or otherwise in accordance with standard market practice, and, as appropriate, diligently request additional collateral from a securities borrower under the relevant loan agreement. The Securities Lending Agent will, as collateral manager, monitor and calculate the market value of both the transaction and the collateral (mark-to-market) at least daily or otherwise in accordance with standard market practice, and, as appropriate, diligently request additional collateral from the counterparty

15.4. Functioning of the “HD” Classes

Interest-rate risk implies an inverted relationship with the price of the fixed-income securities (bonds). If interest rates rise, the value of fixed-income securities decreases and consequently the Net asset value of a Sub-fund invested in fixed-income securities is negatively impacted. The effective duration or life of the fixed-income securities held in a Sub-fund measures the sensitivity of this Sub-fund to a change in interest rates. By using an interest-rate risk hedging strategy,

the "HD" Classes of the Sub-fund aim to maintain a sensitivity, as measured by the duration, that is lower than that of the "non-HD" Classes of the same Sub-fund. It is important to note (1) that even if the interest-rate risk of the "HD" Classes is intended to be significantly reduced, hedging is not perfect and no guarantee can be given that this objective will be achieved and (2) that the "HD" Classes will not be able to take full advantage of a decrease in interest rates. When interest rates decrease, owing to the inverted relationship, the value of fixed-income securities increases, the interest-rate risk becomes an opportunity and the Net asset value of a Sub-fund invested in this type of securities tends to appreciate. The interest-rate risk hedging performed in connection with the "HD" Classes does not allow these Classes to take full advantage of this interest-rate movement.

The hedging of the "HD" Classes is performed mainly by means of listed futures on government bonds and of other derivative instruments on interest rates such as IRS and options. The risks involved in using these derivative instruments are described in greater detail in section 14 of the Prospectus.

16. RISK MANAGEMENT PROCEDURE

In accordance with the Law and the applicable regulations, in particular CSSF circular 11/512, the Fund uses a risk management procedure that allows it to evaluate the Sub-funds' exposure to market, liquidity and counterparty risks and to any other risk, including operating risks, which are substantial for the Sub-funds concerned.

As part of the risk management procedure, in order to manage and measure the overall exposure of each Sub-fund, either the commitment approach is used, or the approach based on the relative or absolute "value-at-risk" (hereinafter "VaR"). The choice of the approach to be used is based on the investment strategy of each Sub-fund and on the types and complexity of the derivative instruments employed, as well as of the portion of the portfolio of the Sub-fund consisting of derivative instruments.

The commitment approach measures the overall exposure to the positions in derivative instruments and other investment techniques (taking into account the effects of set-off and hedging), which may not exceed the Net asset value. According to this approach, the position of each derivative instrument is, as a matter of principle, converted at the market value of an equivalent position in the underlying asset of this derivative instrument.

"VaR" is the measurement of the expected maximum loss, taking into account a given confidence level and over a given period.

Calculation of the VaR is effected on the basis of a unilateral confidence interval of 99% and a holding period equivalent to 1 month (20 days).

If relative VaR is used, the overall risk related to all the positions of the portfolio of the Sub-fund concerned calculated by means of the VaR shall not exceed twice the VaR of a benchmark portfolio.

If absolute VaR is used, the "VaR" of the Sub-fund concerned is limited to a maximum of 20% of its Net asset value.

The method of determining the overall risk and the reference portfolio for the Sub-funds using a relative VaR approach are described in greater detail for each Sub-fund in the annex.

Leverage

The expected level of leverage for each of the Sub-funds using VaR is indicated in the annex. Under certain circumstances, however, this level of leverage may be exceeded. The leverage of these Sub-funds is determined both according to the exposures approach and to the sum of the notional of the derivative financial instruments used.

17. CO-MANAGEMENT TECHNIQUES

17.1. Pooling

In order to ensure efficient management of its portfolios, the Fund may manage all or part of the assets of one or more Sub-funds on the so-called pooling basis, according to which assets are grouped, either between several Sub-funds or between the assets of one or more Sub-funds of the Fund and assets belonging to other undertakings for collective investment, in compliance with their respective investment policies.

The effect of this management technique is to achieve economies of scale. Management of the assets via the pools will enable the shareholders to benefit from the experience of sub-managers specializing in asset management and appointed by the Management Company. The assets contributed by the different Sub-funds participating in the pools will be invested in shares and bonds of issuers of different nationalities and denominated in different currencies, in accordance with the objective specific to each pool and with the investment policy specific to each participating Sub-fund. The Sub-funds may thus take a stake in such pools in proportion to the assets that they contribute to them.

These pools are not to be considered as separate legal entities and the notional units of account of a pool are not to be considered as Shares, nor are the Shares to be considered as issued in connection with these pools but solely in connection with each Sub-fund concerned, which might participate in the pools with some of its assets, with the above-mentioned objective. The effect of pooling may be to reduce as well as to increase the Net asset value of a Sub-fund which participates in a pool: the losses as well as the gains attributable to a pool shall accrue proportionally to the Sub-funds holding notional units of account in this pool, thereby altering the Net asset value of a participating Sub-fund even if the value of the assets contributed by this Sub-fund to the pool has not fluctuated.

The pools will be established by transferring from time to time transferable securities, cash and other eligible assets from the Sub-funds and, if applicable, from the other participating entities, to such pools (provided that such assets are suitable in the light of the investment objective and policy of the participating Sub-funds). Subsequently the Board of Directors or its appointed agent (such as the Management Company or a sub-manager) may from time to time make other transfers in favour of each pool. Assets may also be removed from a pool and be re-transferred to the participating Sub-fund up to the value of its stake in said pool, which will be measured by reference to notional units of account in the pool or pools.

When a pool is established, these notional units of account will be expressed in a currency which the Board of Directors shall deem appropriate and they will be allocated to each Sub-fund participating therein, at a value equal to that of the transferable securities, cash and/or other eligible assets contributed thereto; the value of the notional units of account of a pool will be calculated at each Valuation date by dividing its net assets by the number of notional units of account issued and/or remaining.

When additional cash or assets are transferred to or withdrawn from a pool, the allocation of units made to the participating Sub-fund concerned will be increased or decreased, as the case may be, by the number of units calculated by dividing the amount of cash or the value of the assets transferred or withdrawn, by the current value of a unit. When a contribution is made in cash, it will be treated for the purpose of these calculations as being reduced by an amount which the Board of Directors shall consider suitable to cover the taxes or transaction and investment charges which are likely to be incurred when this cash is invested; if cash is withdrawn, the withdrawal shall comprise, in addition, an amount corresponding to the charges likely to be incurred when the transferable securities and other assets of the pool are realized.

The stake of each Sub-fund participating in the pool applies to each investment line of the pool.

The dividends, interest and other distributions which correspond according to their nature to income received in connection with the assets in a pool, will be credited to the participating Sub-funds in proportion to their respective stakes in the pool at the time said income is collected. When the Fund is wound up, the assets which are in a pool will be attributed (subject to creditors' rights) to the participating Sub-funds, in proportion to their respective stakes in the pool.

The assets of the Sub-funds may only be co-managed with assets for which the Depositary Bank also acts as depositary, so that the latter is capable of fully discharging its duties and meeting its responsibilities according to the Law. The Depositary Bank must at all times keep the assets of the Fund segregated from the assets of the other entities participating in the pool and must therefore be capable of identifying the Fund's assets at any time.

In order to ensure efficient management of assets via the pools, the Fund may make use of techniques and instruments intended to hedge certain risks. These operations shall be carried out within the limits set in section 13 "Investment restrictions" of the Prospectus. The Fund may thus use financial techniques and instruments intended to hedge exchange-rate risk. However, it is not guaranteed that the pools will have their exchange-rate risk systematically hedged.

17.2. Cross-investments

Any Sub-fund authorized by its investment policy to invest in units of UCITS and/or other UCIs may invest in Shares of one or more other Sub-funds, according to the terms and conditions laid down by the Law and set out in paragraph 13., 6., c) of the Prospectus.

18. LIST OF THE SUB-FUNDS

OFFER

of Share Classes of no par value, each linked to one of the following Sub-Funds, at the published offer price for the Shares of the relevant Sub-Fund:

Equity Sub-Funds described in Annex 1:

- 1) OYSTER - CONTINENTAL EUROPEAN SELECTION
- 2) OYSTER - EMERGING OPPORTUNITIES
- 3) OYSTER - EQUITY PREMIA GLOBAL
- 4) OYSTER - EUROPEAN MID & SMALL CAP
- 5) OYSTER - EUROPEAN OPPORTUNITIES
- 6) OYSTER - EUROPEAN SELECTION
- 7) OYSTER - GLOBAL HIGH DIVIDEND
- 8) OYSTER - ITALIAN OPPORTUNITIES
- 9) OYSTER - ITALIAN VALUE
- 10) OYSTER - JAPAN OPPORTUNITIES
- 11) OYSTER - US SELECTION
- 12) OYSTER - WORLD OPPORTUNITIES

Bond Sub-Funds described in Annex 2:

- 13) OYSTER - EMERGING FIXED INCOME
- 14) OYSTER - EUROPEAN CORPORATE BONDS
- 15) OYSTER - EURO FIXED INCOME
- 16) OYSTER - EUROPEAN SUBORDINATED BONDS
- 17) OYSTER - FLEXIBLE CREDIT
- 18) OYSTER - GLOBAL CONVERTIBLES
- 19) OYSTER - GLOBAL HIGH YIELD
- 20) OYSTER - USD BONDS

Mixed Sub-Funds described in Annex 3:

- 21) OYSTER - ABSOLUTE RETURN GBP
- 22) OYSTER - DIVERSIFIED GBP
- 23) OYSTER - DYNAMIC ALLOCATION
- 24) OYSTER - MARKET NEUTRAL EUROPE
- 25) OYSTER - MULTI-ASSET ABSOLUTE RETURN EUR
- 26) OYSTER - MULTI-ASSET ACTIPROTECT
- 27) OYSTER - MULTI-ASSET DIVERSIFIED
- 28) OYSTER - MULTI-ASSET INFLATION SHIELD

ANNEX 1. EQUITY SUB-FUNDS

The annexes below will be updated to take account of any changes affecting one of the existing Sub-funds and when establishing new Sub-funds

1) OYSTER – CONTINENTAL EUROPEAN SELECTION

Typical investor profile:

This Sub-fund is more particularly aimed at investors who:

- Wish to benefit from the performance of shares on the different target financial markets;
- Have an investment horizon of at least 5 years.

Investors are advised to invest only a part of their assets in such a sub-fund.

For further details, please refer to the section "Risk profiles and factors of the Sub-funds".

Investment policy:

The objective of this Sub-fund is to provide its investors with capital growth, principally by means of investments in equities and other similar instruments issued by companies having their registered office in continental Europe (excluding the United Kingdom), or having a predominant proportion of their assets or interests in this geographical area, or which operate predominantly in or from those countries.

The investment strategy of the Sub-fund focuses on companies whose growth prospects, according to the manager's analysis, are attractive over a horizon of at least 3 to 5 years and do not depend on the economic cycle, and which have worthwhile earnings and valuation ratios.

Priority is given to stock picking; consequently the resultant sectoral or geographical allocation may vary significantly from that of the market. Furthermore the Sub-fund will opt for a degree of concentration while observing a sound level of diversification.

The Sub-fund will give priority to companies:

- whose business model is based on a sustainable competitive advantage;
- which benefit from a sound balance sheet;
- whose valuation is attractive.

The Sub-fund may invest in Russian equities and other similar instruments in accordance with the provisions of section 13 point 17 of the Prospectus.

Fees specific to the Sub-fund:

The fees below are to be understood as the maximum applicable.

Type of Class	C	N	R	I	Z
Maximum management fee	1.75%	2.25%	1.00%	0.80%	N/A

Regarding the other charges and expenses payable by the Sub-fund, please refer to the sections "Charges and Expenses" and "Taxation" of the Prospectus.

The Sub-fund shall not invest more than 10% of its net assets in units of UCITS and/or other UCIs.

The Sub-fund may also invest in derivative financial instruments in order to manage its portfolio efficiently and to protect its assets and liabilities.

The Sub-fund may participate in Securities Lending operations for an expected proportion amounting to 30% of its assets, subject to a maximum of 100%.

Accounting currency of the Sub-fund: GBP

Sub-Manager:

SYZ Asset Management (Europe) Limited, through its head office and/or any of its local branches

Submission of orders:

Subscriptions / Redemptions / Switches

Cut-off time for receiving orders and Transaction date:

This is referred to as "D", the Transaction date (every Banking day except for December 24), the date on which the NAV is applied to the transactions.

In order to be processed at the NAV of D, orders must be received no later than 12.00 noon (Luxembourg time) on the Transaction date D.

Valuation date:

Every Banking day following a Transaction date (D+1).
Calculation of the NAV dated D.

The Subscription and/or Redemption price of each Share is payable in the currency of the Class concerned within three (3) Banking days following the applicable Transaction date.

Risk management:

Method of determining aggregate risk: commitment approach.

2) OYSTER - EMERGING OPPORTUNITIES

Typical investor profile:

This Sub-fund is aimed more particularly at investors who:

- Wish to benefit from the performance of equities on the different target financial markets;
- Wish to invest in the emerging countries;
- Have an investment horizon of at least 7 years.

Investors are advised to invest only a part of their assets in such a sub-fund.

For further details, please refer to the section "Risk profiles and factors of the Sub-funds".

Investment policy:

The objective of this Sub-fund is to provide its investors with capital growth, principally by means of diversified investments in equities and other similar instruments issued by companies having their registered office in an emerging country (Latin America, Asia, Africa and Eastern Europe), or having a predominant proportion of their assets or interests in one or more emerging countries, or which operate predominantly in or from these countries.

At least two thirds of the sub-fund's assets are invested at all times in equities and similar transferable securities issued by companies having their registered office in an emerging country (Latin America, Asia, Africa and Eastern Europe), or operating predominantly in those countries.

The Sub-fund may invest in Russian equities and other similar instruments in accordance with the provisions of section 13 point 17 of the Prospectus. The Sub-fund shall not invest more than 10% of its net assets in units of UCITS and/or other UCIs. The Sub-fund may also invest in derivative financial instruments in order to manage its portfolio efficiently and to protect its assets and liabilities.

The Sub-fund is invested according to a diversified and selective approach. The starting point for constructing the portfolio is founded on a diversified allocation per country, based on an equally weighted approach, corrected by a liquidity factor and regularly rebalanced. Consequently diversification of "country risk" is a central feature of the Sub-fund's investment policy and of the construction of the portfolio.

Fees specific to the Sub-fund:

The fees below are to be understood as the maximum applicable.

Type of Class	C	N	R	I	Z
Maximum management fee	1.50%	2.00%	1.00%	0.90%	N/A

Regarding the other expenses payable by the Sub-fund and the modalities of calculating the performance fee, please refer to the sections "Charges and Expenses" and "Taxation" of the Prospectus.

Regarding securities selection, the sub-manager uses a disciplined and automated investment process in order to select, from within a universe of nearly 6,000 companies, those which, in its opinion, have the best qualities in each country. The management process is based on a multi-factor analysis of securities selection. Particular attention is constantly paid to the analytical model in order to test its relevance and robustness. Risk monitoring forms an integral part of the portfolio construction process, as does the transaction process, whose aim is to make it as cost-efficient as possible.

The sub-manager benefits from great expertise in managing this type of assets, with a team that has been dedicated to the emerging markets since 1994.

Accounting currency of the Sub-fund: USD

Sub-Manager:

Acadian Asset Management LLC

Submission of orders:

Subscriptions/Redemptions/Switches

Cut-off time for receiving orders and Transaction date:

This is referred to as "D", the Transaction date (every Banking day except for December 24), the date on which the NAV is applied to the transactions.

In order to be processed at the NAV of D, orders must be received no later than 6.00 a.m. (Luxembourg time) on the Transaction date D.

Valuation date:

Every Banking day following a Transaction date (D + 1).
Calculation of the NAV dated D.

The Subscription and/or Redemption price of each Share is payable in the currency of the class concerned within four (4) Banking days following the applicable Transaction date.

Risk management:

Method of determining aggregate risk: commitment approach.

3) OYSTER - EQUITY PREMIA GLOBAL

Typical investor profile:

This Sub-fund is aimed more particularly at investors who:

- Wish to achieve capital growth thanks to a long/short equity strategy while seeking a lower risk level than equity market and limited correlation to equity markets;
- Also wish to invest in particular through the derivative products market;
- Have at least 5 years investment horizon period.

Investors are advised to invest only a part of their assets in such a Sub-fund.

For further details, please refer to the section "Risk profiles and factors of the Sub-funds".

Investment policy:

The objective of this Sub-fund is to provide its investors with capital growth, while having volatility lower than that of the stock markets in which it is invested and a limited correlation. The Sub-fund's aims to achieve its objective primarily by getting long and short exposure through the use of derivative financial instruments to equity securities of companies located worldwide and/or by investing in equity securities of such companies.

When the primary exposure to equity securities is achieved mainly through the use of derivative financial instruments, the Sub-fund's assets may consist for an amount up to 90% of fixed-income securities (including all types of bonds) and money-market instruments denominated in the Sub-fund's currency (including time deposit) and of cash. Such proportion may significantly decrease if the sub-manager chooses to primarily and directly invest in equity securities. The exposure to fixed-income securities, money-market instruments and cash will depend on the market assessment of the sub-manager and will not be subject to particular limits other than those set by the investment restrictions.

The Sub-fund may especially invest in derivative financial instruments in order to manage its portfolio efficiently and to protect its assets and liabilities but also by way of a principal investment. The Sub-fund may in particular, make use of options, forward contracts and other derivative products traded on an organized market or over-the-counter, as well as over-the-counter swap contracts on all forms of financial instruments and unfunded TRS. TRS or equivalent instruments will be based on transferable securities or indices whose allocation is public. The universe of TRS includes equities and bonds indices, equities baskets as well as commodities indices and variance swaps.

Fees specific to the Sub-fund:

The fees below are to be understood as the maximum applicable.

Type of Class	C	N	R	I	Z
Maximum management fee	1.60%	2.25%	0.80%	0.75%	N/A

Regarding the other expenses payable by the Sub-fund and the modalities of calculating the performance fee, please refer to the sections "Charges and Expenses" and "Taxation" of the Prospectus.

The expected proportion of the assets of the Sub-fund that could be subject to TRS is 100%, subject to a maximum of 100%.

The proportion invested in the following instruments, shall not exceed:

- 20% of the net assets in "American Depository Receipts" and "Global Depository Receipts";
- 10% of the net assets in units of UCITS and/or other UCIs.

Accounting currency of the Sub-fund: USD

Sub-Manager:

SYZ Asset Management (Suisse) SA

Submission of orders:

Subscriptions/Redemptions/Switches

Cut-off time for receiving orders and Transaction date:

This is referred to as "D", the Transaction date (every Banking day except December 24), the date on which the NAV is applied to the transactions.

In order to be processed at the NAV of D, orders must be received by no later than 12.00 noon (Luxembourg time) on any Banking Day except December 24, one day before the Transaction date (D-1).

Valuation date:

Every Banking day following a Transaction date (D + 1).
Calculation of the NAV dated D.

The Subscription and/or Redemption price of each Share is payable in the currency of the class concerned within three (3) Banking days following the applicable Transaction date.

Risk management:

Method of determining aggregate risk: absolute VaR.
Expected level of leverage, method based on exposures with the possibility of set-off: should not exceed 400%.

Expected level of leverage, method based on the sum of the notionals: should not exceed 400%, or as applicable 500% if the hedging transactions of the Share Classes expressed in a currency other than the accounting currency of the Sub-fund are taken into account.

Under certain circumstances these levels of leverage may be exceeded, however.

4) OYSTER - EUROPEAN MID & SMALL CAP

Typical investor profile:

This Sub-fund is aimed more particularly at investors who:

- Wish to benefit from the performance of shares on the different target financial markets;
- Wish to invest in companies with a low market capitalization;
- Have an investment horizon of at least 5 years.

Investors are advised to invest only a part of their assets in such a Sub-fund.

For further details, please refer to the section "Risk profiles and factors of the Sub-funds".

Investment policy:

The objective of this Sub-fund is to provide its investors with capital growth, principally by investing in transferable securities of European issuers, at least two thirds of which, after deduction of cash, have a stock market capitalization of less than EURO 5 billion.

At least 75% of the Sub-fund's assets are invested at all times in equities or similar instruments issued by companies based in a Member State of the EU, in Norway or Iceland.

The Sub-fund may invest in Russian equities and other similar instruments in accordance with the provisions of section 13 point 17 of the Prospectus.

The Sub-fund shall not invest more than 10% of its net assets in units of UCITS and/or other UCIs.

The Sub-fund may also invest in derivative financial instruments in order to manage its portfolio efficiently and to protect its assets and liabilities.
The Sub-fund is eligible for the PEA.

Fees specific to the Sub-fund:

The fees below are to be understood as the maximum applicable.

Type of Class	C	N	R	I	Z
Maximum management fee	1.75%	2.25%	1.00%	0.80%	N/A

Regarding the other expenses payable by the Sub-fund and the modalities of calculating the performance fee, please refer to the sections "Charges and Expenses" and "Taxation" of the Prospectus.

The Sub-fund may participate in Securities Lending operations for an expected proportion amounting to 30% of its assets, subject to a maximum of 100%.

Accounting currency of the Sub-fund: EUR

Sub-Manager:

SYZ Asset Management (Europe) Limited, through its head office and/or any of its local branches

Submission of orders:

Subscriptions/Redemptions/Switches

Cut-off time for receiving orders and Transaction date:

This is referred to as "D", the Transaction date (every Banking day except for December 24), the date on which the NAV is applied to the transactions.

In order to be processed at the NAV of D, orders must be received no later than 12.00 noon (Luxembourg time) on the Transaction date D.

Valuation date:

Every Banking day following a Transaction date (D + 1).
Calculation of the NAV D.

The Subscription and/or Redemption price of each Share is payable in the currency of the class concerned within three (3) Banking days following the applicable Transaction date.

Risk management:

Method of determining aggregate risk: commitment approach.

5) OYSTER - EUROPEAN OPPORTUNITIES

Typical investor profile:

This Sub-fund is aimed more particularly at investors who:

- Wish to benefit from the performance of shares on the different target financial markets;
- Have at least 5 years investment horizon period.

Investors are advised to invest only a part of their assets in such a Sub-fund.

For further details, please refer to the section "Risk profiles and factors of the Sub-funds".

Investment policy:

The objective of this Sub-fund is to provide its investors with capital growth, principally by investing in equities and other similar instruments of European issuers. At least 75% of the Sub-fund's assets are invested at all times in equities or similar instruments issued by companies based in a member state of the EU, in Norway or Iceland.

The Sub-fund may invest in Russian equities and other similar instruments in accordance with the provisions of section 13 point 17 of the Prospectus.

The Sub-fund shall not invest more than 10% of its net assets in units of UCITS and/or other UCIs.

The Sub-fund may also invest in derivative financial instruments in order to manage its portfolio efficiently and to protect its assets and liabilities but also by way of a principal investment.

The Sub-fund is eligible for the PEA.

7) OYSTER – GLOBAL HIGH DIVIDEND

Typical investor profile:

This Sub-fund is aimed more particularly at investors who:

- Wish to benefit from the performance of shares on the different target financial markets;
- Have an investment horizon of at least 5 years.

Investors are advised to invest only a part of their assets in such a sub-fund.

For further details, please refer to the section “Risk profiles and factors of the Sub-funds”.

Investment policy:

The objective of this sub-fund is to provide its investors with capital growth, principally by means of diversified investments in equities and other similar instruments issued by companies having their registered office in a developed or an emerging country or which operate predominantly in those countries, via a selection of equities whose dividend yield is deemed higher than the global market average.

The investment strategy pursued by the manager is to select shares whose market capitalization and liquidity are sufficient. Criteria that are also retained are the rate of dividends and the regularity with which they are paid.

The Sub-fund may invest in Russian equities and other similar instruments in accordance with the provisions of section 13 point 17 of the Prospectus.

The Sub-fund may invest up to 10% of its net assets in China A shares via **the Shanghai-Hong Kong Stock Connect**.

The Sub-fund shall not invest more than 10% of its net assets in units of UCITS and/or other UCIs.

Fees specific to the Sub-fund:

The fees below are to be understood as the maximum applicable.

Type of Class	C	N	R	I	Z
Maximum management fee	1.50%	2.25%	0.90%	0.75%	N/A

Regarding the other charges and expenses payable by the Sub-fund, please refer to the sections “Charges and Expenses” and “Taxation” of the Prospectus.

The Sub-fund may also invest in derivative financial instruments in order to manage its portfolio efficiently and to protect its assets and liabilities.

The Sub-fund may participate in Securities Lending operations for an expected proportion amounting to 30% of its assets, subject to a maximum of 100%.

Accounting currency of the Sub-fund: USD

Sub-Manager:

SYZ Asset Management (Suisse) SA

Subscriptions / Redemptions / Switches

Cut-off time for receiving orders and Transaction date:

This is referred to as “D”, the Transaction date (every Banking day except for December 24), the date on which the NAV is applied to the transactions.

In order to be processed at the NAV of D, orders must be received no later than 12.00 noon (Luxembourg time) on the Transaction date D.

Valuation date:

Every Banking day following a Transaction date (D + 1).
Calculation of the NAV dated D.

The Subscription and/or Redemption price of each Share is payable in the currency of the Class concerned within four (4) Banking days following the applicable Transaction date.

Risk management:

Method of determining aggregate risk: commitment approach.

8) OYSTER - ITALIAN OPPORTUNITIES

Typical investor profile:

This Sub-fund is aimed more particularly at investors who:

- Wish to benefit from the performance of shares on the different target financial markets;
- Have at least 5 years investment horizon period.

Investors are advised to invest only a part of their assets in such a Sub-fund.

For further details, please refer to the section "Risk profiles and factors of the Sub-funds".

Investment policy:

The objective of this Sub-fund is to provide its investors with capital growth, principally by investing in transferable securities of Italian issuers. At least two thirds of the Sub-fund's assets are invested at all times in equities and other similar instruments issued by companies having their registered office in Italy and at least 75% at all times in equities or similar instruments issued by companies based in a Member State of the EU, in Norway or Iceland.

The Sub-fund shall not invest more than 10% of its net assets in units of UCITS and/or other UCIs.

The Sub-fund may also invest in derivative financial instruments in order to manage its portfolio efficiently and to protect its assets and liabilities but also by way of a principal investment.

The Sub-fund is eligible for the PEA. The Sub-fund is also eligible to the PIR and, to that purpose, complies with the specific investment restrictions described in the Section 13.

Fees specific to the Sub-fund:

The fees below are to be understood as the maximum applicable.

Type of Class	C	N	R	I	Z
Maximum management fee	1.75%	2.25%	1.20%	1.00%	N/A

Regarding the other expenses payable by the Sub-fund and the modalities of calculating the performance fee, please refer to the sections "Charges and Expenses" and "Taxation" of the Prospectus.

The Sub-fund may participate in Securities Lending operations for an expected proportion amounting to 30% of its assets, subject to a maximum of 100%.

Sub-Manager:

Decalia Asset Management S.A.

Submission of orders:

Subscriptions/Redemptions/Switches

Cut-off time for receiving orders and Transaction date:

This is referred to as "D", the Transaction date (every Banking day except for December 24), the date on which the NAV is applied to the transactions.

In order to be processed at the NAV of D, orders must be received no later than 12.00 noon (Luxembourg time) on the Transaction date D.

Valuation date:

Every Banking day following a Transaction date (D + 1).

Calculation of the NAV dated D.

The Subscription and/or Redemption price of each Share is payable in the currency of the class concerned within three (3) Banking days following the applicable Transaction date.

Risk management:

Method of determining aggregate risk: commitment approach.

9) OYSTER - ITALIAN VALUE

Typical investor profile:

This Sub-fund is aimed more particularly at investors who:

- Wish to benefit from the performance of shares on the different target financial markets;
- Wish to invest in companies with a low market capitalization;
- Have at least 5 years investment horizon period.

Investors are advised to invest only a part of their assets in such a Sub-fund.

For further details, please refer to the section "Risk profiles and factors of the Sub-funds".

Investment policy:

The objective of this Sub-fund is to provide its investors with capital growth, principally by investing in equities and other similar instruments of Italian companies whose stock market capitalization is lower than EUR 3 billion. At least two thirds of the Sub-fund's assets are invested at all times in equities or other similar instruments issued by companies having their registered office in Italy or operating principally in Italy.

The Sub-fund shall not invest more than 10% of its net assets in units of UCITS and/or other UCIs.

The Sub-fund may also invest in derivative financial instruments in order to manage its portfolio efficiently and to protect its assets and liabilities.

The Sub-fund is eligible for the PEA. The Sub-fund is also eligible to the PIR and, to that purpose, complies with the specific investment restrictions described in Section 13.

Fees specific to the Sub-fund:

The fees below are to be understood as the maximum applicable.

Type of Class	C	N	R	I	Z
Maximum management fee	1.75%	2.25%	1.20%	1.00%	N/A

Regarding the other expenses payable by the Sub-fund and the modalities of calculating the performance fee, please refer to the sections "Charges and Expenses" and "Taxation" of the Prospectus.

Accounting currency of the Sub-fund: EUR

This is referred to as "D", the Transaction date (every Banking day except for December 24), the date on which the NAV is applied to the transactions.

In order to be processed at the NAV of D, orders must be received no later than 12.00 noon (Luxembourg time) on the Transaction date D.

Valuation date:

Every Banking day following a Transaction date (D + 1).
Calculation of the NAV dated D.

The Subscription and/or Redemption price of each Share is payable in the currency of the class concerned within three (3) Banking days following the applicable Transaction date.

Risk management:

Method of determining aggregate risk: commitment approach.

10) OYSTER - JAPAN OPPORTUNITIES

Typical investor profile:

This Sub-fund is aimed more particularly at investors who:

- Wish to benefit from the performance of shares on the different target financial markets;
- Have at least 5 years investment horizon period.

Investors are advised to invest only a part of their assets in such a Sub-fund.

For further details, please refer to the section "Risk profiles and factors of the Sub-funds".

Investment policy:

The objective of this Sub-fund is to provide its investors with capital growth; at least two thirds of the Sub-fund's assets are invested at all times in equities and other similar instruments issued by companies having their registered office in Japan. The Sub-fund may purchase securities traded on the regulated markets listed in section 13 "Investment restrictions" and in particular on the JASDAQ.

The Sub-fund shall not invest more than 10% of its net assets in units of UCITS and/or other UCIs.

The Sub-fund may also invest in derivative financial instruments in order to manage its portfolio efficiently and to protect its assets and liabilities.

The Sub-fund may participate in Securities Lending operations for an expected proportion amounting to 30% of its assets, subject to a maximum of 100%.

Accounting currency of the Sub-fund: JPY

Fees specific to the Sub-fund:

The fees below are to be understood as the maximum applicable.

Subscriptions/Redemptions/Switches

Cut-off time for receiving orders and Transaction date:

This is referred to as "D", the Transaction date (every Banking day except for December 24), the date on which the NAV is applied to the transactions.

In order to be processed at the NAV of D, orders must be received no later than 12.00 noon (Luxembourg time) on every Banking day except for December 24, preceding the Transaction date: (D-1).

Valuation date:

Every Banking day following a Transaction date (D+1).
Calculation of the NAV dated D.

The Subscription and/or Redemption price of each Share is payable normally in the currency of the class concerned within three (3) Banking days following the applicable Transaction date. In the event that the Japanese market is closed during this period, the settlement date will be deferred in order to allow liquidity to be managed in accordance with the settlement and delivery time-limits customary on the Japanese stock markets.

Risk management:

Method of determining aggregate risk: commitment approach.

11) OYSTER – US SELECTION

Typical investor profile:

This Sub-fund is aimed more particularly at investors who:

- Wish to benefit from the performance of shares on the different target financial markets;
- Have an investment horizon of at least 5 years.

Investors are advised to invest only a part of their assets in such a sub-fund.

For further details, please refer to the section “Risk profiles and factors of the Sub-funds”.

Investment policy:

The objective of this Sub-fund is to provide its investors with a long-term appreciation of their capital, principally by means of a diversified portfolio of investments in equities and other similar instruments of issuers of the United States of America, whatever their stock market capitalization. At least two thirds of the Sub-fund’s assets are invested at all times in equities and similar transferable securities issued by companies of any stock market capitalization and having their registered office in the United States or operating predominantly in the United States.

For the remainder of the assets, the Sub-fund will be able to hold cash, money-market instruments or debt securities other than those described above.

The Sub-fund shall not invest more than:

- 10% of its net assets in units of UCITS and/or other UCIs; and
- 20% in equities and other similar instruments of non-U.S. issuers, including those of issuers in developing or emerging countries, be it directly or through “American Depository Receipts” and “Global Depository Receipts”.

The Sub-fund may also invest in derivative financial instruments in order to manage its portfolio efficiently and to protect its assets and liabilities.

Fees specific to the Sub-fund:

The fees below are to be understood as the maximum applicable.

Type of Class	C	N	R	I	IM	Z

ANNEX 2. BOND SUB-FUNDS

13) OYSTER - EMERGING FIXED INCOME

Typical investor profile:

This Sub-fund is aimed more particularly at investors who:

- Wish to benefit from the performance of sovereign and corporate bonds of the emerging financial markets;
- Have at least 3 years investment horizon period.

Investors are advised to invest only a part of their assets in such a Sub-fund.

For further details, please refer to the section "Risk profiles and factors of the Sub-funds".

Investment policy:

The objective of this Sub-fund is to provide its investors with an appreciation of their investment mainly through a portfolio which consists at all times, after deduction of cash, of any type of bonds including convertible bonds, inflation linked bonds, high yield bonds, ABS/MBS as well as 144A Securities that are denominated in OECD currencies and are issued either by governments of any emerging market or by companies having their registered office in an emerging market or which conduct a predominant part of their business activity on emerging markets.

The Sub-fund may also invest in derivative financial instruments in order to manage its portfolio efficiently and to protect its assets and liabilities but also by way of a principal investment. The Sub-fund may, within the limits of the investment restrictions, have recourse to any derivative financial instruments traded on an organized market or over the counter such as, in particular, futures, options, forward contracts and CDS. With respect to CDS, the Sub-fund may act both as a buyer of protection and as a seller of protection.

The proportion invested in the following instruments, shall not exceed:

- 20% of the net assets in inflation linked products;
- 60% of the net assets in high yield bonds;
- 20% of the net assets in ABS/MBS;
- 10% of the net assets in units of UCITS and/or other UCIs;
- 20% of the net assets in term deposits;
- 50% of the net assets in CDS and CDS indices.

Fees specific to the Sub-fund:

The fees below are to be understood as the maximum applicable.

Type of Class	C	N	R	I	Z
Maximum management fee	1.30%	1.60%	0.65%	0.60%	N/A

Regarding the other expenses payable by the Sub-fund, please refer to the sections "Charges and Expenses" and "Taxation" of the Prospectus.

The unhedged exposure of the Sub-fund to emerging market currencies cannot exceed 25%.

Accounting currency of the Sub-fund: USD

Sub-Manager:

SYZ Asset Management (Europe) Limited, through its head office and/or any of its local branches, in co-management with SYZ Asset Management (Suisse) SA.

Submission of orders:

Subscriptions/Redemptions/Switches

Cut-off time for receiving orders and Transaction date:

This is referred to as "D", the Transaction date (every Banking day except for December 24), the date on which the NAV is applied to the transactions.

In order to be processed at the NAV of D, orders must be received no later than 12.00 noon (Luxembourg time) on the Transaction date D.

Valuation date:

Every Banking day following a Transaction date (D + 1).

Calculation of the NAV dated D.

The Subscription and/or Redemption price of each Share is payable in the currency of the class concerned within three (3) Banking days following the applicable Transaction date.

Risk management:

Method of determining aggregate risk: absolute VaR. Expected level of leverage, method based on the sum of the notionals: should not exceed 300%, or as applicable, 400% if the hedging transactions of the Share Classes expressed in a currency other than the accounting currency of the Sub-fund are taken into account.

Under certain circumstances these levels of leverage may however be exceeded.

14) OYSTER - EUROPEAN CORPORATE BONDS

Typical investor profile:

This Sub-fund is aimed more particularly at investors who:

- Wish to benefit from the performance of bonds on the different target financial markets;
- Have at least 4 years investment horizon period.

Investors are advised to invest only a part of their assets in such a Sub-fund.

For further details, please refer to the section "Risk profiles and factors of the Sub-funds".

Investment policy:

The objective of this Sub-fund is to provide its investors with an appreciation of their investment mainly through a portfolio two thirds of which consist at all times, after deduction of cash, of bonds issued by companies having their registered office in the EU or which conduct a predominant part of their business activity on the territory of the EU.

The Sub-fund shall not invest more than 10% of its net assets in units of UCITS and/or other UCIs.

The Sub-fund may also invest in derivative financial instruments in order to manage its portfolio efficiently and to protect its assets and liabilities.

The Sub-fund may invest up to a maximum of 20% of its net assets in ABS and MBS.

The Sub-fund may also conduct transactions on CDS, as described in greater detail in section 14.2. "Risk factors of the Sub-funds", including CDS on indices and sub-indices, in compliance with the requirements of the Law. In this respect it may act both as a buyer of protection and as a seller of protection.

The Sub-fund may participate to Securities Lending operations for an expected proportion amounting to 30% of its assets, subject to a maximum of 100%.

Fees specific to the Sub-fund:

The fees below are to be understood as the maximum applicable.

Type of Class	C	N	R	I	Z
Maximum management fee	1.00%	1.30%	0.60%	0.45%	N/A

This is referred to as "D", the Transaction date (every Banking day except for December 24), the date on which the NAV is applied to the transactions.

In order to be processed at the NAV of D, orders must be received no later than 12.00 noon (Luxembourg time) on the Transaction date D.

Valuation date:

Every Banking day following a Transaction date (D + 1).

Calculation of the NAV dated D.

The Subscription and/or Redemption price of each Share is payable in the currency of the class concerned within three (3) Banking days following the applicable Transaction date.

Risk management:

Method of determining aggregate risk: commitment approach.

15) OYSTER - EURO FIXED INCOME

Typical investor profile:

This Sub-fund is aimed more particularly at investors who:

- Wish to benefit principally from the trend in investment grade bonds denominated in Euro;
- Have a 3 years investment horizon period.

Investors are advised to invest only a part of their assets in such a Sub-fund.

For further details, please refer to the section "Risk profiles and factors of the Sub-funds".

Investment policy:

The objective of this Sub-fund is to provide its investors with an appreciation of their investment by means of a portfolio consisting principally of investment grade bonds denominated in Euro, from any type of issuers and without any geographical constraints. The unhedged exposure of the Sub-fund to other currencies cannot exceed 25%.

The Sub-fund shall not invest more than 10% of its net assets in units of UCITS and/or other UCIs.

Within the limits of the investment restrictions, the Sub-fund may invest in an ancillary capacity in eligible instruments providing an exposure to gold and precious metals.

The Sub-fund may invest up to a maximum of 10% of its net assets in contingent convertible bonds.

The Sub-fund may invest up to a maximum of 20% of its net assets in ABS and MBS.

The Sub-fund may also invest in derivative financial instruments in order to manage its portfolio efficiently and to protect its assets and liabilities.

The Sub-fund may also conduct transactions on CDS, as described in greater detail in section 14.2. "Risk factors of the Sub-funds", including CDS on indices and sub-indices, in compliance with the requirements of the Law. In this respect it may act both as a buyer of protection and as a seller of protection.

The Sub-fund may participate in Securities Lending operations for an expected proportion amounting to 30% of its assets, subject to a maximum of 100%.

Valuation date:

Every Banking day following a Transaction date (D + 1).
Calculation of the NAV dated D.

The Subscription and/or Redemption price of each Share is payable in the currency of the class concerned within three (3) Banking days following the applicable Transaction date.

Risk management:

Method of determining aggregate risk: commitment approach.

Fees specific to the Sub-fund:

The fees below are to be understood as the maximum applicable.

Type of Class	C	N	R	I	Z
Maximum management fee	0.90%	1.20%	0.70%	0.55%	N/A

Regarding the other expenses payable by the Sub-fund, please refer to the sections "Charges and Expenses" and "Taxation" of the Prospectus.

16) OYSTER - EUROPEAN SUBORDINATED BONDS

Typical investor profile:

This Sub-fund is aimed more particularly at investors who:

- Wish to benefit from the performance of subordinated bonds;
- Have at least 4 years investment horizon period.

Investors are advised to invest only a part of their assets in such a Sub-fund.

For further details, please refer to the section "Risk profiles and factors of the Sub-funds".

Investment policy:

The objective of this Sub-fund is to provide its investors with an appreciation of their investment mainly through a portfolio two thirds of which consist at all times, after deduction of cash, of any type of subordinated bonds, including high-yield bonds, convertible bonds as well as, for an amount up to 50% of its net assets, contingent convertible bonds, qualifying as subordinated bonds, issued by companies having their registered office in Europe or which conduct a predominant part of their business activity on the European territory.

The Sub-fund shall not invest more than 10% of its net assets in units of UCITS and/or other UCIs.

The Sub-fund may also invest in derivative financial instruments in order to manage its portfolio efficiently and to protect its assets and liabilities.

The Sub-fund may also conduct transactions on CDS, as described in greater detail in section 14.2. "Risk factors of the Sub-funds", including CDS on indices and sub-indices, in compliance with the requirements of the Law. In this respect it may act both as a buyer of protection and as a seller of protection.

Valuation date:

Every Banking day following a Transaction date (D + 1).
Calculation of the NAV dated D.

The Subscription and/or Redemption price of each Share is payable in the currency of the class concerned within three (3) Banking days following the applicable Transaction date.

Risk management:

Method of determining aggregate risk: commitment approach.

17) OYSTER - FLEXIBLE CREDIT

Typical investor profile:

This Sub-fund is aimed more particularly at investors who:

- Wish to benefit from the performance of bonds and credit derivative products on the different target financial markets;
- Can withstand high volatility on their investment;
- Have an investment horizon of at least 4 years.

Investors are advised to invest only a part of their assets in such a sub-fund.

For further details, please refer to the section "Risk profiles and factors of the Sub-funds".

Investment policy:

The objective of this Sub-fund is to provide its investors with a long-term appreciation of their investment by investing (either directly or by using derivative financial instruments) in the credit market through a portfolio consisting mainly of fixed or floating-rate securities (comprising, without any distinction of rating, all types of bonds, including in particular convertible bonds as well as, for an amount up to 50% of its net assets, contingent convertible bonds, issued by companies and governments) and of money-market instruments. The Sub-fund may also invest in time deposits and hold cash in an ancillary capacity. These investments may be made in all markets and in all currencies.

Depending on its market assessment, its fundamental research into companies and on the investment opportunities, the Sub-fund may in particular:

- Hold a concentrated portfolio having regard to its exposures;
- Invest in a strategy of the event-driven type on securities such as mergers-acquisitions, debt restructuring;
- Invest in other types of strategy, including a carry strategy, inter alia;
- Have flexible management with regard to its credit market exposure.

The Sub-fund shall not invest more than 10% of its net assets in units of UCITS and/or other UCIs.

The sub-fund may also invest in derivative financial instruments in order to manage its portfolio efficiently and to protect its assets and liabilities but also by way of a principal investment.

In particular, the Sub-fund may conduct transactions on CDS, as described in greater detail in section 14.2. "Risk factors of the Sub-funds", including CDS on indices and sub-indices, in compliance with the requirements of the Law. In this respect it may act both as a buyer of protection and as a seller of protection.

Fees specific to the Sub-fund:

The fees below are to be understood as the maximum applicable.

Type of Class	C	N	R	I	Z
Maximum management fee	1.75%	2.25%	1.05%	0.90%	N/A

Regarding the other charges and expenses payable by the Sub-fund and the modalities of calculating the performance fee, please refer to the sections "Charges and Expenses" and "Taxation" of the Prospectus.

Derivative financial instruments may include options, futures and transactions on over-the-counter derivative instruments on all types of financial instruments and asset swaps.

The Sub-fund may also take an exposure in transactions related to interest rates and currencies, including forward contracts and currency and interest-rate swaps. The Sub-fund may also invest without limitation in 144A Securities.

The Sub-fund may invest up to a maximum of 20% of its net assets in ABS and MBS.

Accounting currency of the Sub-fund: EUR

Sub-Manager:

Eiffel Investment Group S.A.S.

Submission of orders:

Subscriptions / Redemptions / Switches

Cut-off time for receiving orders and Transaction date:

This is referred to as "D", the Transaction date (every Friday or the next Banking day if Friday is not a Banking day or is December 24), the day on which the NAV is applied to the transactions.

In order to be processed at the NAV of D, orders must be received by no later than 12.00 noon (Luxembourg time) 2 Banking days before the Transaction date D (D-2).

Valuation date:

Every Banking day following a Transaction date (D+1).
Calculation of the NAV dated D.

The Subscription and/or Redemption price of each Share is payable in the currency of the Class concerned within three (3) Banking days following the applicable Transaction date.

Risk management:

Method of determining aggregate risk: Absolute VaR.
Expected level of leverage, method based on exposures with the possibility of set-off: between 0% and 350%.
Expected level of leverage, method based on the sum of the notionals: should not exceed 350% or, as applicable, 450% if account is taken of the hedging transactions for the Share Classes expressed in a currency other than the accounting currency of the Sub-fund.

Under certain circumstances however, these levels of leverage may be exceeded.

18) OYSTER - GLOBAL CONVERTIBLES

Typical investor profile:

This Sub-fund is aimed more particularly at investors who:

- Wish to benefit from the performance of bonds on the different target financial markets;
- Wish to benefit to a certain extent from the performance of equities;
- Have at least 4 years investment horizon period.

Investors are advised to invest only a part of their assets in such a Sub-fund.

For further details, please refer to the section "Risk profiles and factors of the Sub-funds".

Investment policy:

The objective of this Sub-fund is to seek long-term capital growth measured in euros, by investing mainly in convertible bonds issued by companies; no geographic limitation shall apply. At least two thirds of the assets will be invested at all times in convertible bonds.

Within the limit of the remaining one third, the Sub-fund may invest notably in other fixed-income securities and in a combination of equities and warrants on transferable securities, either following the exercise of the conversion option for the convertible bonds in the Sub-fund, or when the Sub-fund deems it appropriate.

The Sub-fund may also invest in structured products, such as in particular bonds or other transferable securities the yield on which would, for example, be indexed to the movement of an index, transferable securities or a basket of transferable securities or a UCI.

The Sub-fund shall not invest more than 10% of its net assets in units of UCITS and/or other UCIs.

The Sub-fund may invest up to a maximum of 20% of its net assets in ABS and MBS.

Fees specific to the Sub-fund:

The fees below are to be understood as the maximum applicable.

Type of Class	C	N	R	I	IM	Z
Maximum management fee	1.45%	2.00%	0.90%	0.80%	0.90%	N/A

Regarding the other expenses payable by the Sub-fund, please refer to the sections "Charges and Expenses" and "Taxation" of the Prospectus.

The Sub-fund may also invest without limitation in 144A Securities.

The Sub-fund may also invest in derivative financial instruments in order to manage its portfolio efficiently and to protect its assets and liabilities. The Sub-fund may in particular, within the limits of the investment restrictions, have recourse to options, forward contracts and other derivative instruments traded on an organized market or over the counter.

Accounting currency of the Sub-fund: EUR

Sub-Manager:

Advent Capital Management, LLC.

Submission of orders:

Subscriptions/Redemptions/Switches

Cut-off time for receiving orders and Transaction date:

This is referred to as "D", the Transaction date, every banking day and in the United States of America except for December 24), the date on which the NAV is applied to the transactions.

In order to be processed at the NAV of D, orders must be received no later than 12.00 noon (Luxembourg time) on the Transaction date D.

Valuation date:

Every Banking day following a Transaction date (D + 1).

Calculation of the NAV dated D.

The Subscription and/or Redemption price of each Share is payable in the currency of the class concerned within four (4) Banking days following the applicable Transaction date.

Risk management:

Method of determining aggregate risk: commitment approach.

19) OYSTER – GLOBAL HIGH YIELD

Typical investor profile:

This Sub-fund is aimed more particularly at investors who:

- Wish to benefit from the performance of bonds and in particular high-yield bonds on the different target financial markets;
- Have at least 5 years investment horizon period.

Investors are advised to invest only a part of their assets in such a sub-fund.

For further details, please refer to the section “Risk profiles and factors of the Sub-funds”.

Investment policy:

The objective of this Sub-fund is to provide its investors with a long-term appreciation of their capital. It invests at the global level in all types of fixed-interest or floating-rate bonds described as “high yield”.

At least two thirds of the Sub-fund’s assets are invested at all times in a diversified portfolio of fixed-income or similar high-yield instruments denominated in the principal world currencies and the issuer of which is rated lower than “investment grade” as defined by the main world rating agencies (BBB- as defined by Standard & Poors, BBB- as defined by Fitch, or Baa3 by Moody’s), or in instruments for which no rating has been awarded to the issuer.

In order to achieve its objective, the Sub-fund may make use, for purposes of hedging and optimal management, of derivative financial techniques and instruments relating in particular to exchange-rate, interest-rate, credit-spread and volatility risks. The purchase or sale of derivative instruments traded on a securities exchange or over the counter, such as interest-rate, index or currency futures contracts, options, swaps, including CDS and CDS on indices, or any derivative financial instrument having indices as underlyings, is authorized, without this list being restrictive. Exposure to CDS and CDS on indices shall not exceed 10% of the net assets of the Sub-fund.

For the remainder of the assets, the Sub-fund will be able to hold cash, money-market instruments or debt securities other than those described above.

The Sub-fund will not be able to invest more than:

- 10% of its net assets in equities or other equity rights;
- 10% of its net assets in other UCITS and/or UCIs;
- 25% of its net assets in convertible bonds;

Fees specific to the Sub-fund:

The fees below are to be understood as the maximum applicable.

Type of Class	C	N	R	I	Z
Maximum management fee	1.20%	1.50%	0.95%	0.80%	N/A

Regarding the other charges and expenses payable by the Sub-fund, please refer to the sections “Charges and Expenses” and “Taxation” of the Prospectus.

- 30% of its net assets in high-yield bonds which are not rated by at least one of the principal world rating agencies and/or whose rating is equal to or less than CCC+ (Standard & Poor’s) or its equivalent with another rating agency;
- 20% of its net assets in ABS and MBS.

The Sub-fund may also invest without limitation in 144A Securities.

The reference currency of the Sub-fund is the US dollar. However, by virtue of its overall investment policy, the Sub-fund is authorized to make investments in foreign currencies. Exposure to currency risk shall not exceed 10% of the net assets of the Sub-fund.

The average duration of the portfolio is comparable to that of the high-yield bond market.

Method of determining aggregate risk: commitment approach.

20) OYSTER - USD BONDS

Typical investor profile:

This Sub-fund is aimed more particularly at investors who:

- Wish to benefit from the performance of bonds on the different target financial markets;
- Have an investment horizon of at least 3 years.

Investors are advised to invest only a part of their assets in such a sub-fund.

For further details, please refer to the section "Risk profiles and factors of the Sub-funds".

Investment policy:

The objective of this Sub-fund is to provide its investors with an appreciation of their investment mainly through a portfolio consisting of bonds of U.S. or other issuers and denominated in USD. At least two thirds of the Sub-fund's assets, after deduction of cash, are invested at all times in bonds denominated in USD.

The Sub-fund shall not invest more than 10% of its net assets in units of UCITS and/or other UCIs.

Within the limits of the investment restrictions, the Sub-fund may invest in an ancillary capacity in eligible instruments providing an exposure to gold and precious metals.

The Sub-fund may invest up to a maximum of 20% of its net assets in ABS and MBS.

The Sub-fund may also invest in derivative financial instruments in order to manage its portfolio efficiently and to protect its assets and liabilities.

The Sub-fund may also conduct transactions on CDS, as described in greater detail in section 14.2. "Risk factors of the Sub-funds", including CDS on indices and sub-indices, in compliance with the requirements of the Law. In this respect it may act both as a buyer of protection and as a seller of protection.

The Sub-fund may participate in Securities Lending operations for an expected proportion amounting to 30% of its assets, subject to a maximum of 100%.

Fees specific to the Sub-fund:

The fees below are to be understood as the maximum applicable.

ANNEX 3. MIXED SUB-FUNDS

21) OYSTER - ABSOLUTE RETURN GBP

Typical investor profile:

This Sub-fund is aimed more particularly at investors who:

- Wish to achieve capital growth thanks to a dynamic diversification of their investments while seeking a risk level lower than that of the stock market alone;
- Have an investment horizon of at least 3 years.

Investors are advised to invest only a part of their assets in such a sub-fund.

For further details, please refer to the section "Risk profiles and factors of the Sub-funds".

Investment policy:

The objective of this Sub-fund aims at providing investors with a positive absolute return over a rolling three year period which is not correlated with the trend of the main stock market indices by means of a diversified portfolio of equities, bonds and other transferable securities officially listed on a securities exchange. The Sub-fund may also hold cash and money-market instruments. The weighting between these instruments will be determined by the sub-manager according to its personal assessment and the market trends.

In order to reduce the exposure to market risk, the Sub-fund may temporarily hold 100% of its net assets in cash and/or money-market instruments.

The Sub-fund may invest up to 10% of its net assets in units of so-called "alternative" UCIs which are regulated and eligible under the restrictions laid down in article 41 (1) e) of the Law.

Investments will be made mainly in GBP and/or be hedged against the exchange rate risk.

The Sub-fund may also invest in derivative financial instruments in order to manage its portfolio efficiently and to protect its assets and liabilities.

Fees specific to the Sub-fund:

The fees below are to be understood as the maximum applicable.

Type of Class	C	N	R	I	Z
Maximum management fee	0.90%	1.40%	0.50%	0.50%	N/A

Regarding the other expenses payable by the Sub-fund and the modalities of calculating the performance fee, please refer to the sections "Charges" and "Expenses" and "Taxation" of the Prospectus.

The Sub-fund may also conduct transactions on CDS, as described in greater detail in section 14.2. "Risk factors of the Sub-funds", including CDS on indices and sub-indices, in compliance with the requirements of the Law. In this respect it may act both as a buyer of protection and as a seller of protection.

Accounting currency of the Sub-fund: GBP

Sub-Manager:

SYZ Asset Management (Suisse) SA

Submission of orders:

Subscriptions / Redemptions / Switches

This is referred to as "D", the Transaction date (every Banking day except for December 24), the day on which the NAV is applied to the transactions.

In order to be processed at the NAV of D, orders must be received no later than 12.00 noon (Luxembourg time) on the Transaction date D.

Valuation date:

Every Banking day following a Transaction date (D+1).

Calculation of the NAV dated D.

The Subscription and/or Redemption price of each Share is payable in the currency of the Class concerned within four (4) Banking days following the applicable Transaction date.

Risk management:

Method of determining aggregate risk: commitment approach.

22) OYSTER – DIVERSIFIED GBP

Typical investor profile:

This Sub-fund is aimed more particularly at investors who:

- Wish to achieve capital growth thanks to flexible asset allocation of their investments while seeking a risk level lower than that of the stock market alone;
- Have at least 5 to 7 years of investment horizon period.

Investors are advised to invest only a part of their assets in such a Sub-fund.

For further details, please refer to the section “Risk profiles and factors of the Sub-funds”.

Investment policy:

This Sub-fund aims at achieving a return comparable to that of the global stock market.

The Sub-fund may invest flexibly and with no geographical limitation between different types of investment: equities, all types of bonds including high-yield bonds, convertible bonds and contingent convertible bonds, cash, money market instruments, currencies, as well as commodities at the global level. Depending on market conditions, one type of investment may account, either directly and/or indirectly, for a significant proportion of the Sub-fund's exposure. The aggregate risk of the portfolio will be actively managed with the aim of limiting the maximum level of volatility.

The Sub-fund's exposure to gold and precious metals shall only be achieved by means of eligible instruments and shall be limited to a maximum of 20% of its net assets. It may also invest in eligible instruments providing an exposure to commodities other than gold and precious metals up to a maximum of 25% of its net assets.

The Sub-fund may invest up to a maximum of 20% of its net assets in contingent convertible bonds.

The Sub-fund invests in derivative financial instruments in order to protect its assets and liabilities but also by way of a main investment. The Sub-fund may in particular, within the limits of the investment restrictions, make use of options, forward contracts, CDS transactions and other derivative products traded on an organized market or over-the-counter (including swap contracts on all forms of financial instruments and unfunded TRS). The Sub-fund may invest a significant amount of its net assets in TRS or equivalent instruments which will be based on transferable securities or indices whose allocation is public. The universe of TRS includes equities and bonds indices, equities baskets as well as commodities indices and variance swaps. The expected proportion

Fees specific to the Sub-fund:

The fees below are to be understood as the maximum applicable.

Type of Class	C	N	R	I	Z
Maximum management fee	1.50%	2.25%	1.10%	0.90%	N/A

Regarding the other expenses payable by the Sub-fund and the modalities of calculating the performance fee, please refer to the sections “Charges and Expenses” and “Taxation” of the Prospectus.

of the assets of the Sub-fund that could be subject to TRS is 50%, subject to a maximum of 100%.

To achieve its investment policy, the Sub-fund may have an exposure to GBP up to a 100%. The Sub-fund may also take exposures to currencies by means of forward contracts and currency swaps.

The Sub-fund may invest up to 10% of its net assets in China A shares via the **Shanghai-Hong Kong** Stock Connect.

The Sub-fund shall not invest more than 10% of its net assets in units of UCITS and/or other UCIs.

The Sub-fund may invest up to a maximum of 20% of its net assets in ABS and MBS.

Accounting currency of the Sub-fund: GBP

Sub-Manager:

SYZ Asset Management (Europe) Limited, through its head office and/or any of its local branches

Submission of orders:

Subscriptions/Redemptions/Switches

Cut-off time for receiving orders and Transaction date:

This is referred to as “D”, the Transaction date (every Banking day except for December 24), the date on which the NAV is applied to the transactions.

In order to be processed at the NAV of D, orders must be received no later than 12.00 noon (Luxembourg time) on the Transaction date D.

Valuation date:

Every Banking day following a Transaction date (D + 1).
Calculation of the NAV dated D.

The Subscription and/or Redemption price of each Share is payable in the currency of the class concerned within four (4) Banking days following the applicable Transaction date.

Risk management:

Method of determining aggregate risk: absolute VaR.
Expected level of leverage, method based on the sum of the notionals: should not exceed 300% or, as applicable, 400% if account is taken of the hedging transactions for the Share Classes denominated in a currency other than the accounting currency of the Sub-fund.

Under certain circumstances these levels of leverage may be exceeded, however.

23) OYSTER - DYNAMIC ALLOCATION

Typical investor profile:

This Sub-fund is aimed more particularly at investors who:

- Wish to achieve capital growth thanks to a dynamic diversification of their investments while seeking a risk level lower than that of the stock market alone.
- Have at least 4 years investment horizon period.

Investors are advised to invest only a part of their assets in such a sub-fund.

For further details, please refer to the section "Risk profiles and factors of the Sub-funds".

Investment policy:

The objective of this Sub-fund is to provide its investors with an absolute return which is not correlated with the trend of the main stock market indices by means of a mixed portfolio of equities, bonds and other transferable securities officially listed on a securities exchange. The Sub-fund may also hold cash and money-market instruments. The weighting between these instruments will be determined by the sub-manager according to its personal assessment and the market trends. Investments will not be limited in geographical terms, it being pointed out that the portfolio may be focused on a given geographical zone or country and that the equity portion of the portfolio will be invested mainly in Europe.

In order to reduce the exposure to market risk, the Sub-fund may temporarily hold 100% of its net assets in cash and/or money-market instruments.

The Sub-fund shall not invest more than 10% of its net assets in units of UCITS and/or other UCIs.

The Sub-fund may invest up to a maximum of 20% of its net assets in ABS and MBS.

Fees specific to the Sub-fund:

The fees below are to be understood as the maximum applicable.

Type of Class	C	N	R	I	Z

Sub-Manager:

Albemarle Asset Management Ltd

Submission of orders:

Subscriptions / Redemptions / Switches

Cut-off time for receiving orders and Transaction date:

This is referred to as "D", the Transaction date (every Banking day except for December 24), the date on which the NAV is applied to the transactions.

In order to be processed at the NAV of D, orders must be received no later than 12.00 noon (Luxembourg time) on the Transaction date D.

Valuation date:

Every Banking day following a Transaction date (D + 1).
Calculation of the NAV dated D.

The Subscription and/or Redemption price of each Share is payable in the currency of the class concerned within three (3) Banking days following the applicable Transaction date.

Risk management:

Method of determining aggregate risk: commitment approach.

24) OYSTER - MARKET NEUTRAL EUROPE

Typical investor profile:

This Sub-fund is aimed more particularly at investors who:

- Wish to achieve capital growth thanks to a dynamic diversification of their investments while seeking a risk level lower than that of the stock market alone;
- Also wish to invest in particular through the derivative products market;
- Have at least 5 years investment horizon period.

Investors are advised to invest only a part of their assets in such a Sub-fund.

For further details, please refer to the section "Risk profiles and factors of the Sub-funds".

Investment policy:

The objective of this Sub-fund is to provide its investors with capital growth, while having volatility lower than that of the stock markets in which it is invested. The Sub-fund's assets consist mainly of equities and fixed-income securities (including all types of bonds) and money-market instruments, of issuers whose registered office is in Europe. The Sub-fund may also invest in time deposits and hold cash in an ancillary capacity. The exposure to these different asset classes will depend on the market assessment of the sub-manager and will not be subject to particular limits other than those set by the investment restrictions.

The Sub-fund shall not invest more than 10% of its net assets in units of UCITS and/or other UCIs and may invest in Russian equities and other similar instruments in accordance with the provisions of section 13 point 17 of the Prospectus.

The Sub-fund may also invest in derivative financial instruments in order to manage its portfolio efficiently and to protect its assets and liabilities but also by way of a principal investment.

The Sub-fund may in particular, within the limits of the investment restrictions, make use of options, forward contracts, CDS transactions and other derivative products traded on an organized market or over-the-counter, as well as over-the-counter swap contracts on all forms of financial instruments and unfunded TRS. TRS or equivalent instruments will be based on transferable securities or indices whose allocation is

public. The universe of TRS includes equities and bonds indices, equities baskets as well as commodities indices and variance swaps. The expected proportion of the assets of the Sub-fund that could be subject to TRS is 100%, subject to a maximum of 100%.

26) OYSTER - MULTI-ASSET ACTIPROTECT

Typical investor profile:

This Sub-fund is aimed more particularly at investors who:

- Wish to achieve capital growth thanks to flexible asset allocation of their investments while seeking a risk level lower than that of the stock market alone;
- Also wish to invest in particular through the derivative instruments market;
- Have an investment horizon of at least 4 years.

Investors are advised to invest only a part of their assets in such a sub-fund.

For further details, please refer to the section "Risk profiles and factors of the Sub-funds".

Investment policy:

This Sub-fund aims at achieving a return comparable to two thirds of that of the global stock market with one third of its risk in the medium and long term.

The Sub-fund will be exposed, flexibly and with no geographical limitation, to the stock and bond markets, precious metals and currencies via liquid instruments. The asset allocation of the portfolio is determined, according to the manager's opinions, by a risk budget on the one hand, and by maximization of the expected return on the other. The aggregate risk of the portfolio will be actively managed with the aim of limiting the maximum loss over a predetermined period.

The Sub-fund may invest flexibly and with no weighting limit between these different types of investment, in equities, all types of bonds including convertible bonds, cash, money market instruments and currencies at the global level. The Sub-fund may invest directly in these instruments and by using derivative financial instruments. Depending on market conditions, one type of investment may account, either directly and/or indirectly, for the totality of the Sub-fund's exposure. The Sub-fund could, for example, be exposed to the tune of up to 100% to the stock market or, conversely, temporarily hold 100% of its net assets in cash and/or money-market instruments in order to reduce market risk exposure.

Within the limits of the investment restrictions, the Sub-fund may invest in eligible instruments providing an exposure to gold and precious metals of up to 20% of its net assets.

The Sub-fund invests in derivative financial instruments in order to protect its assets and liabilities but also by way of a main investment. The Sub-fund may in particular, within the limits of the investment

Calculation of the NAV dated D.

The Subscription and/or Redemption price of each Share is payable in the currency of the Class concerned within three (3) Banking days following the applicable Transaction date.

Risk management:

Method of determining aggregate risk: Absolute VaR. Expected level of leverage, method based on the sum of the notionals: should not exceed 300% or, as applicable, 400% if account is taken of the hedging transactions for the Share Classes denominated in a currency other than the accounting currency of the Sub-fund.

Under certain circumstances, these levels of leverage may be exceeded, however.

27) OYSTER – MULTI-ASSET DIVERSIFIED

Typical investor profile:

This Sub-fund is aimed more particularly at investors who:

- Wish to achieve capital growth thanks to flexible asset allocation of their investments while seeking a risk level lower than that of the stock market alone;
- Have at least 5 to 7 years of investment horizon period.

Investors are advised to invest only a part of their assets in such a Sub-fund.

For further details, please refer to the section "Risk profiles and factors of the Sub-funds".

Investment policy:

This Sub-fund aims at achieving a return comparable to that of the global stock market.

The Sub-fund may invest flexibly and with no geographical limitation between different types of investment: equities, all types of bonds including high-yield bonds, convertible bonds and contingent convertible bonds, cash, money market instruments, currencies, as well as commodities at the global level. Depending on market conditions, one type of investment may account, either directly and/or indirectly, for a significant proportion of the Sub-fund's exposure. The aggregate risk of the portfolio will be actively managed with the aim of limiting the maximum level of volatility.

The Sub-fund's exposure to gold and precious metals shall only be achieved by means of eligible instruments and shall be limited to a maximum of 20% of its net assets. It may also invest in eligible instruments providing an exposure to commodities other than gold and precious metals up to a maximum of 25% of its net assets.

The Sub-fund may invest up to a maximum of 20% of its net assets in contingent convertible bonds.

The Sub-fund invests in derivative financial instruments in order to protect its assets and liabilities but also by way of a main investment. The Sub-fund may in particular, within the limits of the investment restrictions, make use of options, forward contracts, CDS transactions and other derivative products traded on an organized market or over-the-counter (including swap contracts on all forms of financial instruments and unfunded TRS). The Sub-fund may invest a significant amount of its net assets in TRS or equivalent instruments which will be based on transferable securities or indices whose allocation is public. The universe of TRS includes equities and bonds indices, equities baskets as well as commodities indices and variance swaps. The expected proportion

of the assets of the Sub-fund that could be subject to TRS is 50%, subject to a maximum of 100%.

The Sub-fund may also take exposures to currencies by means of forward contracts and currency swaps.

The Sub-fund may invest up to 10% of its net assets in China A shares via the **Shanghai-Hong Kong** Stock Connect.

The Sub-fund shall not invest more than 10% of its net assets in units of UCITS and/or other UCIs.

The Sub-fund may invest up to a maximum of 20% of its net assets in ABS and MBS.

The Sub-fund may participate in Securities Lending operations for an expected proportion amounting to 30% of its assets, subject to a maximum of 100%.

28) OYSTER - MULTI-ASSET INFLATION SHIELD

Typical investor profile:

This Sub-fund is aimed more particularly at investors who:

- Wish to achieve capital growth thanks to a dynamic diversification of their investments while seeking a risk level lower than that of the stock market alone;
- Also wish to invest in particular through the derivative instruments market;
- Have an investment horizon of at least 4 years.

Investors are advised to invest only a part of their assets in such a sub-fund.

For further details, please refer to the section "Risk profiles and factors of the Sub-funds".

Investment policy:

This Sub-fund aims to achieve a performance, over a time frame equivalent to a complete investment cycle - generally measured over a period of 3 to 5 years - which is higher than U.S. inflation, measured by the trend in consumer prices including commodities. This Sub-fund has the possibility of investing in a wide range of assets, with the aim of maintaining a moderate risk exposure.

This Sub-fund may invest in equities and other equity-related securities, fixed-income securities including all types of instruments such as bonds, convertible bonds and bonds with an inflation-linked coupon, time deposits, money-market instruments and commodity-related instruments. The Sub-fund may also hold cash in an ancillary capacity. The weighting between these instruments will be determined by the sub-manager according to its personal assessment and the market trends.

While exposures to currencies other than the consolidation currency of the Sub-fund are generally hedged, they will not be systematically hedged according to the convictions of the sub-manager.

The Sub-fund is globally diversified but does not necessarily have to invest in all the asset classes at the same time.

Within the limits of the investment restrictions, the Sub-fund may invest in eligible instruments providing an exposure to gold and precious metals up to 20% of its net assets. It may also invest in eligible instruments providing an exposure to commodities other than gold up to a maximum of 25% of its net assets.

The Sub-fund may invest up to 10% of its net assets in China A shares via **the Shanghai-Hong Kong Stock Connect**.

The Sub-fund shall not invest more than 10% of its net assets in units of UCITS and/or other UCIs.

The Sub-fund may also invest in derivative financial instruments in order to manage its portfolio efficiently and to protect its assets and liabilities but also by way of a principal investment.

Derivative financial instruments may include options, futures and transactions on over-the-counter derivative

instruments on all types of financial instruments, asset swaps and unfunded TRS. TRS or equivalent instruments will be based on individual securities or indices whose allocation is public. The expected proportion of the assets of the Sub-fund that could be subject to TRS is 30%, subject to a maximum of 100%.

The Sub-fund may conduct transactions on CDS, as described in greater detail in section 14.2. "Risk factors of the Sub-funds", including CDS on indices, sub-indices and parts of these indices, in compliance with the requirements of the Law. In this respect it may act both as a buyer of protection and as a seller of protection.

The Sub-fund may invest up to a maximum of 20% of its net assets in ABS and MBS.

The Sub-fund may also take an exposure in transactions linked to interest rates and currencies, including forward contracts and swaps.

The Sub-fund may participate in Securities Lending operations for an expected proportion amounting to 30% of its assets, subject to a maximum of 100%.

Accounting currency of the Sub-fund: USD

Sub-Manager:

SYZ Asset Management (Suisse) SA

Submission of orders:

Subscriptions / Redemptions / Switches

Cut-off time for receiving orders and Transaction date:

This is referred to as "D", the Transaction date (every Banking day except for December 24), the day on which the NAV is applied to the transactions.

In order to be processed at the NAV of D, orders must be received no later than 12.00 noon (Luxembourg time) on the Transaction date D.

Valuation date:

Every Banking day following a Transaction date (D+1).

Calculation of the NAV dated D.

The Subscription and/or Redemption price of each Share is payable in the currency of the Class concerned within four (4) Banking days following the applicable Transaction date.

Risk management:

Method of determining aggregate risk: absolute VaR. Expected level of leverage, method based on the sum of the notionals: should not exceed 350% or, as applicable, 450% if account is taken of the hedging transactions for the Share Classes expressed in a currency other than the accounting currency of the Sub-fund.

Under certain circumstances these levels of leverage may be exceeded, however.

Fees specific to the Sub-fund:

The fees below are to be understood as the maximum applicable.

Type of Class	C	N	R	I	Z
Maximum management fee	1.50%	1.80%	0.90%	0.75%	N/A

Regarding the other charges and expenses payable by the Sub-fund, please refer to the sections "Charges and Expenses" and "Taxation" of the Prospectus.
